While meeting with the Iowa State Daily on Wednesday, President Steven Leath spoke on the issue of student housing and the growing need for new living spaces.

Given the record enrollment expected for the fall semester, combined with a lack of space for new freshmen and the current housing options for students has been a challenge.

"The campus has grown incredibly over the past five years and it’s become a magnet housing," Leath said. "We estimated 15 percent in the past, but for new housing goes to 45 percent. The demand for housing is different than what we expected, so it is reinforced to would seem perfect.

To alleviate pressures, Leath proposed several options for new housing, including a revamp of the Wallace-Wilson Towers.

"We are thinking about changing the way we treat them from an OH. Those in the tower are a designation housing," Leath said. "So it was completed in 2001, leasing about Wallace and Wilson. The four towers were originally built in the late 1960s. Approved for destruction in 1998 due to insufficient wiring, cracked foundation and a need for new windows, both towers served students for nearly 40 years. Leath coined the plans as a ‘comprehensive overhaul,’ which plans to possibly include a new dining center, changing tool and a new window, both towers served students for nearly 40 years. Leath coined the plans as a ‘comprehensive overhaul,’ which plans to possibly include a new dining center.

"I think you will see a move toward an expansion of new facilities and this Wallace and Wilson would be a likely spot," Leath said. "This would make every campus community.

While the plans are still being finalized, Director of Residence Peter Englin said, until finalized to improve an architect firm has been declared to present an architectural approach to put in two new elevators, move walls on the inside of the building named after Anson Marston, the first dean of the College of Engineering.

During the renovation process, the stairwells, etc.

While focusing on the quality of the space, the stairwells, etc., and gave advice on how to use the spaces better.

"We looked at all those classes and prioritized some projects, so every year we’re going to work on the highest priority projects.

An example of one of these major renovations to Marston Hall, home of the College of Engineering.

This summer, the 110-year-old building named after Anson Marston, the first dean of the College of Engineering, went through a complete renovation process.

The building is rich in ISU history, but its outdated infrastructure, unique architectural features, aging mechanical and facility issues, and the overall design of the building was not meeting the needs of students with student growth and changes in technology.

(Leath) said, "Let’s keep the historic part of the building, which is wonderful. We want to keep that feel but we want to update it." Wickert said.

"During the renovation process, construction crews completely gutted the inside of the building, and removed all of the walls inside inside of the building to put in two new elevators, move the stairwells, etc., and make it accessible and very user-friendly.

The new design highlights improved offices, added classrooms capacity, increased technology capabilities and more.

Four individuals were named in the search for a new project director of LGBTQ+ affairs at Iowa State on Thursday.

- JASON COOK

An officer investigated a property damage collision in Lot 2.

Events to attend during the first week of class at ISU

By Ellen Robinson and Sara Billings
@iowastatedaily.com

Looking for events to at-
 tend during the first week of the fall semester? Here are three.

TUESDAY

PARKING KARP MOVIE

Student Union Board will show “Romant vs. Superman: Enemies of Justice” at 7 p.m. in the parking lot. If it’s raining, it will be in the Sunroom of the Memori- al Union.

WEDNESDAY

WELLCOME TO THE JUNGLE

From 5:30 p.m. to 9:30 p.m., students can enjoy a screening of the movie “The Jungle Book” in the Great Hall of the Memorial Union. The screening is free. Students can purchase tickets online at iowastatedaily.com.

THURSDAY

MOVIE PANZ

ISU After Dark and Student Union Board will present the movie “The Legend of Tarzan” at 8 p.m. in the Great Hall of the Memorial Union. Doors open at 7 p.m. Tickets are $3 for ISU students and $5 for the general public. Students can purchase tickets online at iowastatedaily.com or at the Union Box Office. ISU After Dark is a student group that has three late-night activities planned this semester. The event will take place from 9 p.m. to 1 a.m. and is free to attend. Pop- corn and soda will be available.

MU hosts poster sale

Event sells decor to spice up a blond dorm room

By Alex Connor
@iowastatedaily.com

In your dorm room look-
 ing pretty bland? The Student Activities Career -on-annual poster sale will take place from

9 a.m. to 6 p.m. Monday-
through Friday in the Cam-
pus Room. Students can choose a variety of posters, including art, quotes, movie, and music. The event sold out.

Cyclone Cinema Schedule released for fall semester

By Alex Connor
@iowastatedaily.com

The annual Iowa State Fair is one of the most anticipated events of the year. The fair offers a wide variety of attractions to enjoy, including rides, games, food, and entertainment. This year, the fair will take place from August 11th to 20th, and the schedule of events has been released. Here are some of the highlights:

- The annual fireworks show will be held on August 13th.
- The fairgrounds are home to the Iowa State Fairgrounds, where you can enjoy a variety of activities.
- There will be live music, including performances by some of the top names in country music.
- The Iowa State Fairgrounds also feature a variety of exhibits, including agricultural displays and animal shows.

In addition to the events on the fairgrounds, there are also several events happening in the surrounding area. These events include the Iowa State Fair Corn Maze, which is open daily from August 11th to 20th, and the Iowa State Fairgrounds Museum, which is open daily from 10 am to 5 pm.

At the Iowa State Fair, you can experience a wide variety of activities and events. Whether you're interested in food, entertainment, or education, there's something for everyone. So mark your calendars and get ready to have a fun time at the Iowa State Fair!

Ernst to join ISU vet panel

The second will be a panel at 11:30 a.m., when public policy representatives, including special panelists Dr. Tom Ernst, past Iowa state senator, and his family, discuss opportunities and available options to investors.

Major General Tim Ott, Adjutant General of the Iowa National Guard; Iowa’s Director of Ag for FFA; and Cass Taylor and Barbara Guth of Guth’s Farm Software will discuss Technology and Business Administration’s next big project – the expanded Northwest Iowa Developmental and Educational Park. This new project will be presented at the panel.

Construction of a new student innovation center, more than 20,000 square feet, an agri- story building, will begin this summer, starting with the demolition of a few buildings on campus.

The combination of these steps — use space efficiently, doing renovation and building new facilities — mixed with the renovation of the east side of Marston Hall has allowed into the atmosphere of the growing number of enrolled students.

Embrace transitions

College is an opportunity to express who you truly are

By Michael Hochke @iowastatedaily.com

In many ways, the move from high school to college can be daunting. It can bring change and growth, but it can also bring fear and anxiety. You may feel like you are not ready to face all the challenges that come with college. However, college is a wonderful opportunity to embrace change and growth.

One of the most important things to remember is that you are not alone. There are many other students who are also feeling anxious and uncertain about college. It is important to reach out to your friends, family, and professors for support. You can also join clubs and organizations on campus to meet new people and make friends.

Another important thing to remember is that college is not just about academics. It is also an opportunity to explore your interests and passions. You can take classes in subjects that you are interested in, join clubs and organizations related to your interests, and participate in extracurricular activities.

Finally, remember that college is a time of growth and change. It is an opportunity to become the person you want to be. You can make new friends, learn new skills, and discover new possibilities.

Overall, college is an opportunity to express who you truly are. Embrace the change and growth that come with it. You will be amazed by the person you become.
In a meeting with the Iowa State Daily editors Wednesday, ISU President Steven Leath touched on Big 12 expansion and the input he’s received on BYU being a possibility to join the conference in an interview with the Iowa State Daily editors.

@iowastatedaily.com

Leath: Big 12 expansion probable

On July 19, the Big 12 Board of Directors — which includes all 10 of the Big 12’s university presidents, including Leath — voted to relax its Honor Code — which is administered and enforced by the university, claiming that it “discriminates against non-LDS students, faculty and staff who were formerly affiliated with the LDS Church” — according to FOX 13 in Salt Lake City.

Since then, BYU claims to have relaxed its Honor Code — which is a set of rules that all students, staff and faculty must abide by — according to FOX 13 that these changes are “straightforward and about the school joining a Power Five conference.”

Leath said he has heard an equal amount of input from individuals with opinions on both sides of the controversy. A group named BYU-FAIR cited a religious tradition requiring members of the church to participate in non-LDS activities against TV market in the West.

But BYU has been fighting back a major problem of its own. A group named BYU-FAIR cited a religious tradition requiring members of the church to participate in non-LDS activities.

Iowa State in the sense that more teams and bigger television markets bring in more money and prestige.

Leath said he has heard an equal amount of input from individuals with opinions on both sides of the controversy. One side argues BYU is a school of integrity and has a public relations program.

But BYU has been fighting back a major problem of its own. A group named BYU-FAIR cited a religious tradition requiring members of the church to participate in non-LDS activities.

Iowa State in the sense that more teams and bigger television markets bring in more money and prestige.

Leath said he has heard an equal amount of input from individuals with opinions on both sides of the controversy. One side argues BYU is a school of integrity and has a public relations program. The other side argues BYU is a school of integrity and has a public relations program. Leath said that there are also people reaching out and saying they are “uncomfortable” with the social issues surrounding the university.

Leath said and his team are looking into BYU’s Honor Code to see if all the information he has heard is accurate.

“Conman, you can’t assume the informa- tion you get in an e-mail is accurate,” Leath said. “You know, some of it is probably true, and you just want an interpreta- tion of BYU’s Honor Code. We want to give everyone a fair shake at this.”

The Big 12 expansion madness seems to be closing to finishing up. Even though Leath said adding schools could be helpful to Iowa State, he made clear that they had not discussed BYU’s Honor Code.

Leath said his decision-making process on which school is worthy of being in a Power Five conference. That return to the field may come faster than he originally might have thought.

Goal in 42nd ISU soccer nets first win of season against SDSU

West's talents mean nothing if she can't remain 100 percent healthy for a season.

Johnson-Lynch has put an emphasis on limiting upper body pain in her middle blocker position to help her play all day. "I'm still iffy about [my knee]," West said. "My knee has been off and on with the scrumas, but I've just continued to rehab and the coaches have allowed me to jump. So that has helped.

"I feel like I am able to do my job and avoid any type of re-inflammation. But even with the constant struggle of recovering from major surgery, West feels they did not bust her play Saturday.

"I feel like my blocking looked really good [Saturday]," West said with a smile after an eight-block performance. Two names mentioned by Johnson-Lynch while talking about the middle was 2015 All-Big 12 First Team selection Ali cytten and 2016 All-Big 12 Second Team selection Grace Kazmaier.

Johnson-Lynch said she is having a good start because she is a sophomore. "We have three very good middles," Johnson-Lynch said. "I think Kazmaier is our most physical blocker, and Creighton is such a good slide hitter and great volleyball player."

The Cyclones will host the Iowa State Challenge this weekend, a tournament with Wichita State and Creighton.

When asked about who she was leaning toward at the middle, Johnson-Lynch mentioned her alongside Conaway, a junior from Orange City, Iowa, seems to have the best chance of starting with a matchup against the West and Lanzati, who is a sophomore, when asked about the middle blocker position.

"I think it'll depend on Samara's health and if she can do it," Johnson-Lynch said.

The Cyclones are limiting redshirt junior middle blocker position Saturday.

"We have three very good middles," Johnson-Lynch said. "I think Kazmaier is our most physical blocker, and Creighton is such a good slide hitter and great volleyball player."

COLLEGE STUDENT: 1 REAL WORLD: 0

CANDIDATE’S OPEN FORUMS, which concluded Aug. 18

Daniel Hoffman-Zinnel

During Hoffman-Zinnel’s presentation, he focused on activism and advocacy. Hoffman-Zinnel emphasized the idea of changing policies and regulations within an institution, and pointed to national examples to back his points. While speaking about activism and advocacy, Hoffman-Zinnel said that at first, society tries and acts slowly in activism in order to have a conversation to prepare for advocacy, but there has been a change back to activism when it comes to changing minds.

Paul Hengesteg

Hengesteg talked about how change on campus is a response to need. He also spoke about who leads change.

“Students believe that faculty have all the power to promote change while faculty and staff will say that the students hold the power,” Hengesteg said during his open forum.

During his presentation, Hengesteg talked about how change on campus is a response to need. He also spoke about who leads change.

Nicci Port

During the third forum, Nicci Port addressed the difference between advocacy and activism, and stressed the importance of achieving short and long term changes on campus.

She explained that leadership, problem solving and learning are all necessary to promoting activism and advocacy on campus.

“My passion stems from my own lived experiences and also frames my approach to higher education,” Green said. “When you walk in the shoes of a person in need, that is what I’m talking about.”

Samuel Gervais

In the fourth forum, Samuel Gervais talked about the difference between activism and advocacy, and stressed the importance of achieving short and long term changes on campus.

“Healing is the path of the just and when we are invited to speak about things that we must not water down the issues.

David Green Jr.

Along with advocacy and activism, Green talked about issues surrounding diversity and inclusion, and also spoke about how his personal experiences affects his work.

“My passion stems from my own lived experiences and also frames my approach to higher education,” Green said. “When you walk in the shoes of a person in need, that is what I’re talking about.”
