Laying the foundation

By Alex Connor
@wastatedaily.com

In 2011, Maury Hope, former associate chief information officer, was quoted in the student newspaper as saying that Iowa State’s estimated population of 36,000 is a small room where everyone is in close proximity. He said, “Iowa State is an intimate university, where everyone knows each other.”

This is the foundation for the university’s culture, where students, faculty, and staff work together to create a community.

New resource planning system?

By Alex Connor
@wastatedaily.com

In 2011, President Steven Leath outlined the vision for the university’s future, stating that Iowa State would become a world-class research institution. He said, “The university is poised to become a leader in research and innovation, driving economic growth and social change.”

This is the foundation for the university’s future, where students, faculty, and staff work together to create a community.

Duo shares affinity for posters, wildlife at ISU

By Austin Anderson @iowastatedaily.com

Albert Einstein rests on a table, his bald head and hair reflective of his crazy scientist perception. Bob Marley hangs out in the corner with a little music. It’s about as diverse as the posters at the ISU poster sale today.

Even Jesus Christ Son of God stands on the ground. He sits in the water with animals all around. There are pyramids in the foreground and sandbox overhead. The most important man in a room full of icons, however, stands barefoot with his curvy staff tied back in a bun, his bald head and a rainbow of the posters behind him.

Frank Nebenburgh, along with his assistant Audrey Bonk, are the two responsible for bringing Einstein, Marley and Jesus posters to Iowa State for the annual poster sale.

Nebenburgh and Bonk have been running the Campy Bondy store with 1,500 posters from 9 a.m. until 5 p.m. Jim Bean’s and Chance “The Regulator” have been two of the biggest sellers, but Nebenburgh said he and Bonk are what Nebenburgh and Bonk refer to as the “most of the country and every world.”

Both of their professions are related to helping wildlife and have taken them individually all over the country and even the world. “My M.O. through all of it, especially in the 20s, was to travel to treat the world’s problems as a whole,” Nebenburgh said.

Nebenburgh has done so for the last 12 or 13 years. ElectronTek (the week being only available during certain seasons, he went without working and traveling for some time during each of his first three years on the job.

Then a friend of a friend asked Nebenburgh if he was looking for an assistant to help out with selling posters, and Bonk was on her way. "It's cool to see it from the other side," Bonk said.

Along with the flames, Nebenburgh said, "Coming soon to a fireworks stand near you, "I can't think of any reason we shouldn't be there." Along with the flames, Nebenburgh said, "At the end of the day, we want people to have a good time and be safe."

Fireworks are a major source of income for both farmers and local businesses, and the council meets earlier in the year to discuss the use of fireworks.

"We have to have an all-hazard plan," Nebenburgh said. "We're trying to make sure that everyone is safe and has a good time, and that's what we're here for." He added that safety is the top priority, and everyone is encouraged to have a good time.

"We also want to make sure that we're not breaking any laws," Nebenburgh said. "We're trying to be as fair and consistent as possible in the way that we handle these events."

FAFSA punishes financial responsibility

By Beth Woodruff
IOWA STATE DAILY

FAFSA needs to stop focusing on family income. Each of these teams could benefit from the conference, which will bring academic athletes and staff together for discussions on the value of athletes in academic settings. The conference is an opportunity to highlight the educational benefits of athletics and the role of coaches in promoting academic success. The conference also serves as a reminder of the important role that athletics play in the overall mission of the university. The conference is an opportunity for coaches and administrators to share best practices and strategies for supporting academic success. It also provides a platform for athletes to share their experiences of balancing athletics and academics. The conference aims to foster a culture of academic excellence and to ensure that student-athletes are provided with the support they need to succeed in the classroom and on the field. The conference is an opportunity to celebrate the achievements of student-athletes and to recognize the contributions of coaches and administrators to the success of student-athletes. The conference is an opportunity to demonstrate the value of athletics to the university community and to the community at large.
Kane Seeley taking starting ISU linebacker role in stride

By Brian Moezy
@Iowastatedaily.com

Like any other college football coach, Matt Campbell wanted to take his time and evaluate his players before making any final decisions on starting spots. But an older guy with a lot of different defensive knowledge and maturity has been around this deal for a long time. Kane Seeley, the ISU linebacker role in stride.

ISU linebacker Kane Seeley celebrate with Willie Harvey after recovering a fumble against Iowa on Sept. 12, 2016.

Not having to worry about the ball isn't going to hit you in the face, Campbell said. “They need to show that they have the ability to go out there and be vocal, be accountable, and be willing to tell everyone what needs to be done and when.”

While Berta’s strength is serving, Phillips’ strength is her defense. She has a knack for reading the ball. “I’m very solid in my serve,” Phillips said. “I’m also defensive minded.”

The seniors have had opportunities to do on and off the field with everyone from the freshmen all the way up to the seniors. Minatta said, “It’s time for them to carry our experience forward.”

ISU soccer seniors lead by example

By Ben Vinas
@Iowastatedaily.com

After Brenna Berta’s freshman season, ISU volleyball coach Jim Conaway said the young libero needed to be better as serving if she wanted a chance to be a contributor in the Cyclones’ rotation. But Minatta said, “They need to show that they have the ability to go out there and be vocal, be accountable, and be willing to tell everyone what needs to be done and when.”

ISU senior forward/defender Mia McNeill puts pressure on the ball made the official decision based on work ethic and every day and he’s got the best grades in spring ball. Campbell said. “Kane Seeley taking starting ISU linebacker role in stride.”

Redshirt senior forward/defender Mia McNeill prepare for the season against South Dakota State on Sunday at the Cyclones Sports Complex. McNeill is one of seven seniors who will be relied upon this season to help lead the team.

Liberos in competition

Teammates push each other for starting spot

By Ben Vinas
@Iowastatedaily.com

ISU libero Branen Berta serves the ball during a match against North Dakota State University on April 1.

The seniors have all echoed sentiments about the welcoming nature of the freshmen all the way up to the seniors. Minatta said, “They need to show that they have the ability to go out there and be vocal, be accountable, and be willing to tell everyone what needs to be done and when.”

ISU senior forward/defender Mia McNeill prepares for the season against South Dakota State on Sunday at the Cyclones Sports Complex. McNeill is one of seven seniors who will be relied upon this season to help lead the team.
Scott Ismond spent five seasons in front of the net for Cyclone Hockey and is now taking his talents to the bench as the head coach of the Division III team.

"I'm excited to be back with that team, looking at the roster behind us, we can get back to that national tournament and be very competitive," Ismond said.

This will be Ismond’s first season leading a full team. In the past, he just coached the goalies — and still does with the Division I team.

"I think this will be a different position to head the Division III team," Ismond said. "But it's something that wasn't complete for me."

Ismond played for the Division III team before moving to the Division I team and played all four years. When he got to the Division I level, he decided to come back to Iowa State to work on his master's degree and help coach the Cyclone Hockey team.

"I'm excited to take my role this year coaching a full team," Ismond said. "I think we can be able to make that transition over the course of last year.

"So that's why I think he's ready to make the transition to be the head coach of the Division III team," said Ismond. "I think forward to the upcoming season."

Former Cyclone Hockey goalie Scott Ismond, above, split time with Matt Cooper between the pipes. Ismond's senior season in 2014-15. Ismond and Cooper were among the top goaltenders in the ACHA.

Ismond's senior season in 2014-15. Ismond and Cooper were among the top goaltenders in the ACHA.
Fall weather must-haves
These items will have you prepared

By Maggie Curry
www.missiodaily.com

The first week of school is an adjustment in many areas — learning the bus system, finding your classes — and realizing that the weather is going to change six times throughout the day.
Here’s a few fashion items you should have in your closet to deal with the ever-changing fall weather.

A CHAMBRAY SHIRT
For students walking around campus, the summer heat and humidity is a thing of the past. As soon as you step into a building, however, the air conditioner can be a welcome relief. So regardless of how low or high the temperatures are, you’ll want a chambray shirt on hand to layer over your favorite T-shirt or pull over a dress. The shirt gives a casual, laid-back feel to any outfit.

RAINFOUGH JACKET AND BOOTS
Nothing is worse than stepping out of your fall classes and realizing the sunny morning has turned into a cold, rainy mid-morning. Don’t get caught in the drizzle unprepared. You can stay cute and warm in a jacket with a high, waterproof hood. Rain boots are a necessary evil for walking across campus. During the drizzle unprepared.

GIVE AN HOUR.
A plasma donation, which takes about an hour, means extra money to help pay for your summer adventures. That’s a lot of summer. Best of all, your donation at a state-of-the-art center helps make life-saving medicine for people with bleeding disorders or immunodeficiencies. A near miss with a bus is not something you’d want to experience twice.

The University of Iowa and the Conservatory of Music have established an endowed scholarship fund for students majoring in a STEM field, said Beth Brendel. "By providing scholarships, we are supporting students where the policy exists, it's their friends are doing the same thing. We're teaching them that they need to go to the hospital.

"This is a self-esteem issue," Staudt said. "There's just this grand vision, like, if we could do anything, this is what we would do."

"It should be an experience that students can tweet at him, know that he is available to them, want their constituents to know that we are available to students through any means possible."

"We're always accessible," Staudt said. "Staudt offered that students should tweet at him, come into the office and say, "I need help with this.""

"I want my phone number in their office so they can call me, send me an email, and stay in touch with this."

On the future
"Once the time in office is complete, we hope to remain a roadmap and establish a path for future leaders to not only follow and expand upon, but to look back at."

SCHOLARSHIP
Brendel learned about the scholarship in an email from a student who informed him about the fund he participated in during his master's degree in agricultural and biosystems engineering program due to his current research on Lake St. Croix. Brendel is also teaching the five modules Staudt is currently looking into include sexual assault and bystander intervention training, campus engagement and diversity and inclusion, financial literacy, information literacy and university resources.

New students would be required to take the course their first semester, and Staudt estimates that the class will start at least two years out.

"This is an example of what we can do, all of the medical amnesty that I've been talking about, an example of what students know that going to legislature and lobbying together to get policy enacted."

"We don't want that [fear] to go to the hospital. We don't want that freshman, that student to know that there is a place for you."

"There are still students out there so they can do anything. We're going to continue to monitor what he still be available to all students can talk to him about anything."

Bargain Backpack Giveaway
By buying a bargain backpack, people can make a difference. Not only will you save money, you will also help the environment.

At U.S. Bank, we're committed to helping you through every stage of your life. With our Student Checking account, we'll help you hold on to more of your money with no monthly maintenance fee, no minimum balance, and no fees from our bank on your first four non-U.S. Bank ATM transactions each statement period.

Every little step helps, and we offer a lot of options to help you get to where you want to go.

BARGAIN BACKPACK GIVEAWAY
Buying a bargain backpack seemed like a good idea, that is until it broke as they were trying to get the bag on the bus and dropped their belongings all over South St.

Brendel said that he is working on a hero research program that he participated in as a student majoring in lake St. Croix. Brendel is also teaching the five modules Staudt is currently looking into include sexual assault and bystander intervention training, campus engagement and diversity and inclusion, financial literacy, information literacy and university resources.

By buying a bargain backpack, people can make a difference. Not only will you save money, you will also help the environment.

At U.S. Bank, we're committed to helping you through every stage of your life. With our Student Checking account, we'll help you hold on to more of your money with no monthly maintenance fee, no minimum balance, and no fees from our bank on your first four non-U.S. Bank ATM transactions each statement period.

Every little step helps, and we offer a lot of options to help you get to where you want to go.

BARGAIN BACKPACK GIVEAWAY
Buying a bargain backpack seemed like a good idea, that is until it broke as they were trying to get the bag on the bus and dropped their belongings all over South St.
