More than a quarter of a million — specifically, 288,280. That’s how many people worldwide every year who need a natural heart valve replacement will likely have a new artificial one.

Researchers at Iowa State University are working with a new artificial heart valve replacement. The research involving the new valve technology is currently in the preclinical stage, and the company behind it is looking at the idea for a phase one clinical trial.

“The student government you don’t debate on campus is the one with the clock that ticks,” says University Senator Austin Hussey. “If you’re not involved, you can’t bring attention to things.”

The Iowa State Student Government (SG) is the primary student organization at Iowa State University (ISU) that acts as a bridge between the student body and the university administration.

The student government commissions are just one example of the many opportunities ISU offers for students to be involved and make an impact. Many organizations and groups provide opportunities for students to not only make a difference on campus, but also in their communities and beyond.

The ISU Student Government commission in Mechanical Engineering is one example of a commission that is working to make a positive impact on campus. The commission has gathered an e-cigarette ban in public places, the Board of Health would like to see the ban at the city level, Denton said.

“Furthermore, there is a lot of research that e-cigarettes can deliver nicotine as harmful chemicals to non-smokers with traditional cigarettes.

The Student Government commission in Mechanical Engineering is just one example of the many opportunities ISU offers for students to be involved and make an impact. Many organizations and groups provide opportunities for students to not only make a difference on campus, but also in their communities and beyond.

One exercise I can think of is the one where students are asked to create a poster and present it to the class. This exercise helps students to think critically and creatively about the topic, and also allows them to share their ideas with their peers.

For many, the Chinese New Year is a time to reflect on the past year and look forward to the future. It is a time for people to come together and celebrate the release of any negative energy that may have accumulated over the previous 12 months.

The Chinese New Year, also known as the Spring Festival, is a time of renewal and hope, and is celebrated by millions of people around the world. The holiday is marked by a variety of traditions and customs, including the exchange of red envelopes filled with money, the display of red decorations, and the lighting of lanterns.

The Chinese New Year is a time when people come together to celebrate and share their experiences with others. It is a time of reflection and a time of looking forward to the future.

Scientists urge farmers to try new product

By Kaityn Campbell

A new study shows that despite a constant input into Iowa family farms, farmers aren’t receiving lower costs or higher yields in crop growth.

The study, conducted by professors at the University of Iowa, plans to test the areas where farmers can’t im- prove their yields with com- mon agricultural practices.

Brandes, professor- in-chief of the study, also mentions that a number of researchers in the agriculture and food field are working to address the issue.

The only thing standing between the study and the study’s potential is the lack of interest from farmers.

The study involved a total of 140 farmers across the state, and the results showed that the majority of farmers were not interested in participating in the study.

One of the main reasons for the lack of interest was the fear that the study would not provide any solutions for their problems.

However, one way to improve the study’s potential is by sending the unproven agricultural practices to support through the Conser- vation Reserve Program, which would potentially improve the farmers’ profits.

The research is ongoing and the results will be released in the near future.

On the whole, the study shows that farmers are not interested in participating in research projects that are not related to their daily work.

This is because of the soil

The ‘Homestretch’ brings light to ‘homelessness’

By Moilee Shalti

IOWA STATE DAILY

NEWS

5 events to know from this week’s news

By Alex Hanson

Miss ‘The news this week’ Read our recap of the biggest stories before the start of the spring semester. We have a new website! TRUMP: US political show- down coming up soon. Trump: US political showdown coming up soon.

The documentary has been shown to several thousand kids who need somewhere to go.

The documentary’s success has led to several programs in the area that are working to address the issue of homelessness.

The documentary was made by four students, who decided to make a film about the issue after experiencing homelessness themselves.

The documentary was shown at a number of conferences and events, and has been widely praised for its message.

The documentary is available on YouTube, and can be watched for free.

The documentary has been featured in a number of news outlets, including The Daily Iowan and The New York Times.

Today's Horoscope by Linda Black

April 5, 2016

Taurus - (April 20–May 20)

You can expect to benefit from your need for independence and putting your own priorities first. There's no reason to rush your plans today, and you will have plenty of time to accomplish what you need to. You may want to slow things down a bit and enjoy the process.

GEMINI - (May 21–June 20) 

You can benefit from being more assertive as you work on your priorities. You should focus on what needs your attention today and set aside other details for later. You'll be more productive by concentrating on what you can control.

CANCER - (June 21–July 22)

Getting organized can help you maintain a sense of control and avoid feeling overwhelmed. You can make the most of the day by creating a plan for your next steps and carrying it out.

LEO - (July 23–Aug. 22)

You may want to use your energy productively, whether it's by working on a project or participating in a social activity. Your focus is likely to be on short-term goals rather than long-term plans.

VIRGO - (Aug. 23–Sept. 22)

Your spirit is eager to explore new ideas and experiences. You may find that your attention is drawn to interesting places or events. You can use your curiosity to make new discoveries.

LIBRA - (Sept. 23–Oct. 22)

You can benefit from your intuitive and creative gifts. You can use your imagination to come up with new ideas or solutions to problems. You may also have a stronger connection with your spiritual side.

SCORPIO - (Oct. 23–Nov. 21)

Today is a good day to work on your personal goals and to focus on your relationships. You may find that you have a lot of energy and motivation to take on new challenges.

SAGITTARIUS - (Nov. 22–Dec. 21)

You can benefit from your curiosity and open-mindedness. You may find that you have a lot of energy to explore new ideas and to challenge your assumptions.

CAPRICORN - (Dec. 22–Jan. 19)

You can benefit from your practical and organized nature. You may find that you have a lot of energy to work on projects or to plan for the future.

AQUARIUS - (Jan. 20–Feb. 18)

You can benefit from your ability to think creatively and to come up with new ideas. You may find that you have a lot of energy to explore new ideas or to challenge your assumptions.

PISCES - (Feb. 19–March 20)

You can benefit from your intuition and your ability to connect with others. You may find that you have a lot of energy to explore new ideas or to challenge your assumptions.

ARIES - (March 21–April 19)

You can benefit from your enthusiasm and your ability to work hard. You may find that you have a lot of energy to take on new challenges or to accomplish your goals.

LIBRA - (Sept. 23–Oct. 22)

You can benefit from your ability to connect with others. You may find that you have a lot of energy to work on relationships or to explore new ideas.

SCORPIO - (Oct. 23–Nov. 21)

You can benefit from your ability to think creatively and to come up with new ideas. You may find that you have a lot of energy to explore new ideas or to challenge your assumptions.

SAGITTARIUS - (Nov. 22–Dec. 21)

You can benefit from your ability to work hard and to accomplish your goals. You may find that you have a lot of energy to take on new challenges or to accomplish your goals.

CAPRICORN - (Dec. 22–Jan. 19)

You can benefit from your ability to think creatively and to come up with new ideas. You may find that you have a lot of energy to explore new ideas or to challenge your assumptions.

AQUARIUS - (Jan. 20–Feb. 18)

You can benefit from your ability to connect with others. You may find that you have a lot of energy to work on relationships or to explore new ideas.

PISCES - (Feb. 19–March 20)

You can benefit from your ability to work hard and to accomplish your goals. You may find that you have a lot of energy to take on new challenges or to accomplish your goals.

ARIES - (March 21–April 19)

You can benefit from your ability to think creatively and to come up with new ideas. You may find that you have a lot of energy to explore new ideas or to challenge your assumptions.
A broken system

Classroom education fails to do its job

By Angelica Lawson
@iowastatedaily.com

Something everyone has heard about during college is how school is a place where students are able to gain career experiences. It's driven into everyone's mind from day one that one of the best ways to enhance your experience is to find a job, gain work experience and gain career experiences. As you may recall, the Iowa State Daily editorial board proposed a bill to the Senate regarding the issue of students being able to gain work experience without having to lose their college benefits. Before engaging in this debate, let’s take a minute to understand that in this world, there is no one of us who doesn’t want to gain experience. How can you combat being syllabused? It isn’t as easy as gaining professional experience you are in college to understand what kind of skills you want to gain experience without having to make a larger decision for you or your education. You can volunteer when you are looking for experience on your resume that you take initiative and are able to gain some work experience. Make sure you have some work experience as many skills are required and having an internship can provide great opportunities to gain work experience. Students do not have the ability to compromise during the school year. Classroom education fails to do its job of teaching skills and providing hands-on learning experiences to students.

Classroom education fails to do its job

Editorial Board

The issue of public discourse, an important aspect of the American democracy, has been hindered by less-than-vigorous participation from the American public. The system of primaries, caucuses and voting among the American population is fragmented at best. There are many ways to improve the system, but one of the most important is the implementation of a more efficient system of nominations. The issues that could be caused by the current system are numerous and quite dire. The current system is one of the most important nomination systems still in place, the final count for the nomination of a candidate has not been set in stone. The current system is a flawed and broken system that needs to be fixed.

Classroom education fails to do its job

Classroom education fails to do its job

In what world does that idea have implications the election will have on the future of the United States? In what world does that idea have implications for the maintenance of democracy? The idea that the election process should be made clear to citizens is important. The current system is flawed and broken and needs to be fixed.

Cyclones learning valuable lessons

**ISU wrestling revisits tough UNI environment**

**Budapest under Tanner Weatherman**

A 165-pound midseason battle between two former Indianola prep stars exploded into a pin battle Thursday night in Budapest, Hungary.

The two classmates and former teammates met in the 165-pound weight class at the Budapest International Wrestling Festival, which featured more than 50 wrestlers from Europe and the United States.

Weatherman won in the first period, followed by a pin in the second.

Weatherman, a two-time All-American at Iowa State, said he had high expectations for the match.

"I was definitely going in there to win," Weatherman said. "I had a lot of motivation and confidence going in.

Weatherman said he "was going to win, and win big," and he did just that.

Weatherman, who missed the 165-pound weight class during his freshman season at Iowa State, said he was "excited to be back in my weight class." He also said he wanted to "show everyone what I can do in my weight class."
2016-2017
FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)

FILE NOW!
MARCH 1, 2016 IS THE DEADLINE TO BE CONSIDERED FOR PRIORITY UNDERGRADUATE FINANCIAL AID
*If your 2015 federal tax information is not available prior to March 1, you are advised to estimate the information on the FAFSA to meet the March 1 date.

DON’T MISS IT!
MARCH 1ST
Missing the March 1 deadline could mean missing out on consideration for thousands of dollars of financial aid.

NEED HELP FILING YOUR FAFSA?
Check out:

ALREADY FILED?
Once you have filed your FAFSA, allow seven days for Iowa State to receive your application; then make sure to check the status of your FAFSA via your AccessPlus account for any additional steps.

DON’T FORGET ABOUT SCHOLARSHIPS
HUNDREDS of Student Financial Aid scholarship awards — ONE online application!
Complete the FinAidScholar online application NOW to be considered. Check out ALL of the other scholarship opportunities across campus too!

Are you working your way through college to keep your student debt low? The ISU Working Scholars Award is for you! Make sure you apply for this scholarship and hundreds of other Student Financial Aid scholarships with one online application. Complete the FinAidScholar application by March 1 to be considered.

ISU will award 20 $5,200 Roy J. Carver Scholarships to students who are facing obstacles in pursuit of their education goals. Apply by April 1 online at www.carvertrust.org

A NEW YEAR MEANS A NEW FAFSA!
Make sure you complete the 2016-17 FAFSA application prior to our MARCH 1st Priority Deadline for maximum financial aid consideration.
**HELP WANTED**
