<td>G1H</td>
<td>G2H</td>
<td>G3H</td>
</tr>
</tbody>
</table>

High Priority → Low Priority  
High Priority → Low Priority  
High Priority → Low Priority

### Sensitivity of material
- **R** (red) = extremely sensitive, immediate treatment necessary
- **Y** (yellow) = sensitive materials, treat within 24-48 hours
- **G** (green) = relatively stable, treat within 48-72 hours

### Collection priorities
- 1 = Top priority
- 2 = Secondary priority
- 3 = Lowest priority

### Level of damage
- **L** (low) = slight damage
- **M** (medium) = moderate damage
- **H** (high) = extensive damage, may not be salvageable
