Police build relationships over coffee

By Danielle Gehr

Coffee, donuts and cops were all ready to go at 7 a.m. Wednesday. Unfortunately, most students were probably not ready to get up that early, but some were drawn to the weekly event.

A little bit of chaos was expected, but people started to find their place in the vibe of the event and eventually, some had great conversations.

“Every morning is different, students often find their way to the free donuts,” giving officers a chance to meet members of the community.

“I think it is also good for the community to see that the cops are interacting and to just have a friendly chat with the staff and Iowa State police officers,” Anthony Greiter, an officer with the Iowa State University Police Department, speaks with a student during the “Coffee with Cops” event Wednesday.

Conversations among students, staff and Iowa State police officers, accompanied by coffee and donuts, took place in the Memorial Union Wednesday morning.

These conversations are some-what unstructured, in-depth discussions on the stigma that surrounds police in today’s environment and how to improve the relationship that we have with the community. I was lucky enough to be a part of this great group of people.

“A lot of students, faculty and staff come to this event. Some are here to get more exposure about law enforcement, some wanted to thank the cops for the job they do every day and some had conversations that were completely unrelated to police work, but just wanted to have a conversation on another subject,” Greiter said.

“I think it is also good for the community to see that the cops are interacting and feel heard. When we do have an issue someone brings up, we want to make sure that not everyone gets up at 5 a.m. to deal with it,” Delashmutt said.

Aaron Delashmutt, interim police chief, said, “It is important to keep our community and students from feeling like they are alone. We want our students to feel safe and we want people to be heard. When we do have an issue, we take it seriously and we will get back to them.”

“Coffee, donuts and cops were all ready to go at 7 a.m. Wednesday. Unfortunately, most students were probably not ready to get up that early, but some were drawn to the weekly event. We had a little bit of slow start, but eventually, students, staff and faculty members started to filter in as they woke up and we’ve had a great turnout,” Greiter said. “I have to remember that not everyone gets up at 5 a.m.”

Delashmutt also noted that Iowa State Police as a whole, has had an amazing turnout. “About a dozen officers were present at the event, including Elliot Freer, a student, who has Police Club mentorship that deals with students, alumni as well as virtual and in-person police mentorship as well,” Greiter said.

“Tuition right now is already expensive. Total estimated expenses for in-state students about $28,239 in tuition. Even with the tuition increases, out-of-state rates are far lower at Iowa State than at the University of Kansas is nearly as expensive as tuition, other universities, the increases would simply mean more debt.”

“Tuition increase could mean more loans for some students, which would help meet their costs of living, including food, transportation, and other expenses. The increase also means more debt.”

“Iowa State’s [tuition] was the only increase,” Hall said. “We have had to raise our tuition 2% in the past three years. The international student tuition increase was 3%.”

“Tuition increase will raise the cost of living more than the increase in tuition,” Hall said. “It is really not just in-state students who have a higher tuition increase. International students are going to receive the second in a three-part increase. International students are going to receive the second in a three-part increase. International students are going to receive the second in a three-part increase. International students are going to receive the second in a three-part increase. International students are going to receive the second in a three-part increase. International students are going to receive the second in a three-part increase. International students are going to receive the second in a three-part increase.

The increase in tuition has increased the overall cost of education. Thus, the costs of living will also be affected. The overall cost of living will be also affected. The overall cost of living will be also affected.

1 p.m. to 4 p.m., 199 Parks

Barks @Parks

TO play with some dogs. Take a break from studying and experience a range in price from $5 to $10.

Dec. 9

Agronomy Department Fall Seminar on increasing corn yields. The seminar will take place between 4:10 p.m. to 5:10 p.m. in the Agronomy department's fall seminar. The seminar will be held in room 185 of the Agronomy department's fall seminar.
Q&A with the candidates

By Jake Dalbery
@iowastatedaily

**WHAT ABOUT IOWA STATE AND ITS COMMUNITY WAS APPEALING TO YOU WHEN DECIDING ON APPLYING FOR THE POSITION?**

I think it’s an exciting time in the history of Iowa State University. You have a president who’s articulated a very bold vision and a system that already is coming to fruition. It’s a time in which enrollment is up and everyone is enthusiastic about the university and the universities that will bring us challenges.

**WHAT ISSUES ARE IMPORTANT TO YOU IN RELATION TO YOUR POSITION AS WELL AS THE UNIVERSITY AS A WHOLE?**

It’s obvious to me in the profile of the dean of students that there are a lot of areas that are experiencing growth. A traditional way to deal with that is to either be in the middle of those areas or to be the resource for those areas, but how do you do that? It seems like everything is growing! One of the challenges would be to be in control and find those things that could be most influential in meeting the needs of students as well as giving them the best of all possible worlds. The challenge is to get the position of dean and have the experience to help them develop to a point of responsibility. The second challenge is that if I were well positioned and have great experience as it relates to cultivating the respect of faculty and staff, I could be in the middle of the transition. I’ve gotten to speak with students and certainly have had the experience of being a student leader, which is an integral part of what we do.

**WHAT ISSUES ARE IMPORTANT TO YOU IN RELATION TO YOUR POSITION AS WELL AS THE UNIVERSITY AS A WHOLE?**

It’s obvious to me in the profile of the dean of students that there are a lot of areas that are experiencing growth. A traditional way to deal with that is to either be in the middle of those areas or to be the resource for those areas, but how do you do that? It seems like everything is growing! One of the challenges would be to be in control and find those things that could be most influential in meeting the needs of students as well as giving them the best of all possible worlds. The challenge is to get the position of dean and have the experience to help them develop to a point of responsibility. The second challenge is that if I were well positioned and have great experience as it relates to cultivating the respect of faculty and staff, I could be in the middle of the transition. I’ve gotten to speak with students and certainly have had the experience of being a student leader, which is an integral part of what we do.

**IT’S OBVIOUS TO ME IN THE PROFILE OF THE DEAN OF STUDENTS THAT THERE ARE A LOT OF AREAS THAT ARE EXPERIENCING GROWTH.**

I feel well positioned and have great experience as it relates to cultivating the respect of faculty and staff, which is an integral part of what we do. I’ve been at Iowa State for 8 years and have really enjoyed my time here. The opportunity to grow professionally as well as give students a sense of belonging is certainly something that will continue to motivate the experiences that I’ve had thus far. And Iowa State University has found that it’s such an integral part of what we do that we appreciate working at ISU rather than another. As you know, you’re doing a great job as it relates to your position. That’s certainly an area where I feel well positioned and have great experience as it relates to cultivating the respect of faculty and staff.

**I FEEL WELL POSITIONED AND HAVE GREAT EXPERIENCE AS IT RELATES TO CULTIVATING THE RESPECT OF STABILITY.**

I’ve been at Iowa State for 8 years and have really enjoyed my time here. The opportunity to grow professionally as well as giving students a sense of belonging is certainly something that will continue to motivate the experiences that I’ve had thus far. And Iowa State University has found that it’s such an integral part of what we do that we appreciate working at ISU rather than another. As you know, you’re doing a great job as it relates to your position. That’s certainly an area where I feel well positioned and have great experience as it relates to cultivating the respect of faculty and staff.

**I CAME TO IOWA STATE BECAUSE OF THE REPUTATION AND ITS COMMUNITY WAS APPEALING TO YOU WHEN DECIDING ON APPLYING FOR THE POSITION.**

I have been at Iowa State for 8 years and have really enjoyed my time here. The opportunity to grow professionally as well as giving students a sense of belonging is certainly something that will continue to motivate the experiences that I’ve had thus far. That’s certainly an area where I feel well positioned and have great experience as it relates to cultivating the respect of faculty and staff.

**WHAT ISSUES ARE IMPORTANT TO YOU IN RELATION TO YOUR POSITION AS WELL AS THE UNIVERSITY AS A WHOLE?**

There’s two areas that would be very key to the interview for me, one of which revolves around campus climate. I’ve gotten to speak with students formally as well as reaching out to students and certainly have been exposed to them about the climate on campus. That’s certainly an area where I feel well positioned and have great experience as it relates to cultivating the respect of stability.

Copyright of Arm Talker for the business community under Donald Trump, and the new Republican maj-
ority Congress will affect the business community. John Kirchner, executive director of the Midwest Region of the U.S. Cham-
ber of Commerce and its community.
With Massachusetts Sen. Elizabeth Warren and Vermont Sen. Bernie Sand-
er gaining more influence and noto-
rity, Kirchner expects they will play a larger part in the Democratic Party’s top
candidates issues such as housing reform.
While the Republicans have the ma-
jority, the chamber must decide what energy and create a safe space for them to pursue their goals is important. Issues of sexual assault and violence on campus are also high on the list of issues the chamber needs to be addressed in the near future.

**SO JUST CONTINUING TO DELIVER HIGH-QUALITY SERVICES AND CLASSES FOR STUDENTS AS ENROLLMENT CONTINUES TO GROW.**

It’s obvious to me in the profile of the dean of students that there are a lot of areas that are experiencing growth. A traditional way to deal with that is to either be in the middle of those areas or to be the resource for those areas, but how do you do that? It seems like everything is growing! Kanye West is easily one of the most influential and respected artists of our generation. With 23 Grammy Awards to his name, it is no surprise why he has become such a force in the music industry. The lifestyle and music that he has cultivated has made him a household name, earning his fans' devotion through his raw and passionate performances. West is constantly changing and expanding his horizons, resulting in the various roles he has taken on throughout his career. He has been involved in projects ranging from music and fashion to architecture and filmmaking.

Kanye West is also known for his慈善 work and focus on education, especially in the area of public housing. His partnership with Chicago’s Public Housing Authority and his long-term advocacy for the improvement of public housing have been key aspects of his philanthropic efforts. West has invested time and resources into improving the community and has been instrumental in bringing attention to the housing crises in urban areas.

In terms of production, West has contributed to the soundscapes of countless albums, and his influence is evident in the work of many artists today. His ability to blend different genres and styles has allowed him to break boundaries and create new sounds that continue to inspire and influence the music industry.

Kanye West’s legacy is still being written, and his impact on music and culture continues to grow. His dedication to his craft and his commitment to lifting up his community are qualities that have earned him the respect of fans and fellow artists alike. West’s story is one of resilience, creativity, and a relentless pursuit of excellence, making him a true icon in the music industry.

CAREER AND COMMUNITY OUTREACH

Kanye West is not just a musician; he is also a community activist. He has been involved in various philanthropic efforts, including the creation of the West 85th Community Center, a non-profit organization that focuses on improving the quality of life for residents in the community. West’s dedication to community outreach is evident in his collaborations with organizations such as the Boys & Girls Clubs of America and his ongoing support of local schools and educational programs.

In addition to his philanthropic work, West is also known for his involvement in architecture and design. His collaboration with architect Jean Nouvel was featured in the film “The Life Aquatic with Steve Zissou,” and his involvement with the design of the new Museum of Modern Art in New York City showcases his commitment to the arts. West’s approach to design is influenced by his musical background, and his projects often incorporates elements of his music videos and live performances.

Overall, Kanye West’s legacy is a testament to his versatility and his ability to influence various aspects of society. His contributions to music, fashion, architecture, and philanthropy make him a true icon of our time, and his impact will continue to be felt for generations to come.

Free Iowa State campus of discrimination

By Margaret LaWare
Chair of University Committee on Women and the Women's Leadership Council

The past election saw the first woman representing a major party running for the presidency, a situation that made visible systemic sexism. But, as we all feared, the election campaign tactics included blaming and targeting of groups based on their race, culture and religion. We have seen enough of those tactics, especially when we are at ISU and at other campuses across the nation.

As members of the University Commit- tee on Women and the Women’s Leader- ship Consortium, our role is to advocate for the needs of all women at ISU and to address policies and practices that may cause particular hardships for women fac- ulty, staff and students. We recognize that women may be feeling discouragement and discontent given the discourse sur- rounding the election, especially within our community.

The results of the election should be a wake-up call for all of us. The election results have demonstrated that sexism and anti-Semitism are still alive in our society. And, women continue to be underrepresented in leadership positions at the state and national levels. We must take action to support and empower women in all aspects of our society.

We call on ISU to take action to address the needs of women and to support their efforts to achieve equality. This includes providing opportunities for women to succeed and to be recognized for their contributions. It also includes ensuring that women have equal access to resources and opportunities, including financial support, mentoring, networking and professional development opportunities.

We encourage ISU to continue to support the work of the University Committee on Women and the Women’s Leadership Council to ensure that the needs of women are met and that their voices are heard.

We, as women, need to support each other and to work together to create a better future for all. We must continue to advocate for women’s rights and to ensure that women are represented in leadership positions. We must also ensure that women have access to the resources and opportunities that they need to achieve their full potential.

Let us come together to create a more just and equitable society. Together, we can make a difference.
Brit Brothen plays major minutes, shows he’s capable

By Connor Ferguson
@iowastatedaily.com

IOWA CITY — The only thing colder than the weather on Wednesday night was the Iowa State offense. The Cyclones went 6-for-19 from the floor in the second half, turned all four 3-point attempts, and scored just 18 points, 6 rebounds, and 7-for-17 field goal. Jadda Buckley: THREE

Iowa State’s black and gold uniforms were anything but a match for Iowa’s blue and gold uniforms as the Cyclones fell to the Hawkeyes by a final score of 88-76 in Carver-Hawkeye Arena.

“Iowa State’s cold performance offensively was very unexpected,” as the Cyclones entered Wednesday night first in the nation in three-point shooting percentage and fourth in the country in 3-point shooting percentage. “We shot the ball extremely well,” Iowa coach Lisa Bluder said. “That second quarter was good and in the third quarter an almost perfect shooting performance. I don’t know that I’ve ever seen that before.”

“We moved Anthony Song up to forward and that opened up a position for us to put Brit in as the seventh defenseman,” Brothen played the set of games being paired with junior Jake Uglem, and it helped him fill in as the seventh defenseman, coach Jason Fairman said.

“I’ve got nothing bad to say about the kid,” Bluder said. “He works hard, makes hard plays and he’s a good locker room guy. If I was just talking to him, letting each other know where we are, because we haven’t played with each other in a while.”

Brothen will try to keep up his own defense on the D-II team when No. 10 Colorado visits Ames on Friday and Kansas State comes to town on Saturday. Brothen made his debut over the weekend, registering a goal and a point in the win over Grand View.

“Sometimes this game is eerily simple,” Fennelly said. “It felt like we talked about coming in here [should] 3 and not looking like 2-3. As coach said, you’ve got to fight the end and I think we did that but we did run into some things.”

“I know we talked about coming in here [should] 3 and not looking like 2-3. As coach said, you’ve got to fight the end and I think we did that but we did run into some things. ’For me, it’s very hard,” Johnson said. “I know we talked about coming in here [should] 3 and not looking like 2-3. As coach said, you’ve got to fight to the end and I think we did that but we did run into some things.”

“I think they’re 8-for-14 from the 3 and 1-for-14 from the 2,” Fennelly said. “There’s a couple of them that I thought it could have been a little more open.”

Iowa State wide receiver Allen Lazard makes a one-handed grab during the first half against Texas Tech earlier this season. On Wednesday, Lazard and kicker Cole Netten were named to the All-Big 12 First Team.

Offensive lineman Nick Fett, defensive lineman Jaquan Thomas and defensive end Demond Tucker, and safety Kamari Cotton-Moya were named to the All-Big 12 Second Team.

Lazard, who announced he is returning for his senior season, is coming off his best year as a Cyclone. He became the fourth player in Iowa State history to record an 1,000-yard season with his 1,018 reception yards. He also caught 69 receptions, the second most in program history.

Helped by four 100-yard games in the last five games of the season, Lazard broke the school record with six 100-plus yard games in a season. Lazard isn’t satisfied with those numbers, though, as he made four at his press conference in response to his return for the senior season.

“I want to improve my speed a little bit, so that’s something I can kind of work on,” Lazard said. “Just straining every workout, going as hard as I can, make sure that I’m leading the team and showing them that I’m giving them all that I can.”

And coach Matt Campbell believes that Lazard’s potential is still up high.

“There’s more to come [from Lazard], honestly,” Campbell said. “I’m really excited about giving them all that I can, and I think great things are ahead of Allen.”

Netten, who will be graduating, is the only placekicker on the team. He is the school record holder with six 100-yard games in one season. Netten, who will be graduating, is the only placekicker on the team. He is the school record holder with six 100-yard games in one season.

Pets provide more than friendship to owners

By Andrea Duhl
@iowastatedaily.com

Pets can help people who live alone feel less lonely, and "taking care of a pet gives the day structure and gives people a purpose," said Carolyn Cutrona, professor and department chair in psychology.

"People who live alone are less lonely if they have a pet," Cutrona said. "Pets can make a very big difference in people's lives."

The relationship between pets and their owners often acts as a deeper bond than just a human and an animal. In many cases, pets become a cherished member of the family.

"Taking care of a pet gives the day structure and gives people a purpose," Cutrona said. "People can be very emotionally attached to their pets, and that's OK."

"What really matters is the ability to make the relationship work with each other," Cutrona said.

"Our smooth pick-up lines like, 'On a scale of 1 to 10, you're a 9. I'm the 1 that you need.' But don't be too serious about Tinder. If you aren't going to become the person that they want, then it isn't worth it for you," Oshorn said.

"I swiped right last week on a guy with a profile that is what they want. ... Because if that scares them, then it isn't worth it for you," she said.

"People can be very emotionally attached to their pets," Cutrona said. "They can be as important as a person."

"People can be very emotionally attached to their pets," Cutrona said. "They can be as important as a person."
The Iowa State Daily’s annual Student Choice is an opportunity to cast your vote for the best places around campus and the city of Ames in a variety of categories. The top 3 in each category will be featured in a special section in the Feb. 27 issue of the Iowa State Daily to celebrate the achievement of being a Student Choice business or organization.

*One random survey response will be selected to win a $100 gift card.
