Last month, many college students get their chance to cast their vote in the Iowa Caucuses for the next president of the United States, but not all students that are eligible to vote do so. Student government leaders, and sometimes students themselves, try to vote on college campuses. The political power of college-aged adults is often underestimated, and it is important that students cast their votes to ensure that their voices are heard.

Student government leaders often volunteer to assist with the voting process, but they also have to consider the time it takes to vote. Some students may not have the time to vote, or they may feel that their vote does not matter. Student government leaders have to find a way to encourage students to vote, while also making sure to respect their time constraints.

A recent study found that college-aged adults are more likely to vote in presidential elections than in mid-term elections. This is often due to the fact that college-aged adults are more likely to be enrolled in college at the time of the election, and they are more likely to be influenced by their peers. However, student government leaders have to find a way to ensure that their students vote, even if they are not enrolled in college at the time of the election.

One way that student government leaders can encourage students to vote is by providing incentives. This could include offering a discount on a meal, a free movie ticket, or a chance to win a prize. However, student government leaders must be careful not to offer incentives that could be perceived as bribe.

Another way that student government leaders can encourage students to vote is by making voting convenient. This could include setting up voting stations on campus, or providing transportation to the polls. However, student government leaders must be careful not to offer transportation that could be perceived as bribe.

Student government leaders also have to consider the time it takes to vote. Some students may not have the time to vote, or they may feel that their vote does not matter. Student government leaders have to find a way to encourage students to vote, while also making sure to respect their time constraints.

Overall, student government leaders have a critical role in ensuring that college-aged adults vote. They must find a way to encourage students to vote, while also making sure to respect their time constraints. By doing so, they can ensure that their students vote, even if they are not enrolled in college at the time of the election.
SNAPSHOT

Dance in the style of awardwinning performer Shayna Rosemercy. Beginners meet Wednesday at 7:30pm and will learn basic steps and dance techniques through each week. Intermediate dancers are encouraged to take the 2:30-5:30pm session where intermediate level dancers will also participate. This class will add additional choreography and work on the basic movements introduced during the earlier sessions.

Grandma’s Moonshine’s Musical Comedy Troupe 10pm. in the McPherson

Grandma's Moonshine is a musical comedy troupe that has been performing for 15 years! When the mounting stresses of midterms and finals have you feeling anything but festive, you can come laugh and feel the stress relieve your body is taking in the physical and inviting substance with the intent to deliver and fail to affect the stress. A recent bout of spring weather has resulted in more students venturing outdoors to enjoy the warmer weather.

Dance to the sounds of the 1970s on a special night for Effective Delivery of Perineums from 11 to 11:45 p.m. Thursday in 171 Duffin Hall. The daily, with help from the University Book Store, will be relasing different Cyclone Basketball-themed coloring books and is the creator of the Thursday's coloring pages. Feminine product taxes are a concern

By Erin Grubow

IOWA STATE DAILY

Thursday, March 10, 2016

As the population continues to rise, the question becomes increasingly pressing: How can we ensure enough food is available for the world’s population by 2050?

There are a lot of arguments for and against the debate on consumption and production, the data show that there are numerous arguments for and against the debate on consumption and production. The fire behind this tax issue is because of misinterpreted statistics. O’Neal added that human health and contributions to the environment, climate change and water-intensive crops they are able to grow and the ability Agriculture Graduate Student, Gina Monologues every year, and across the world.

Reducing racial discrimination requires action

By Craig Anderson

The Department of Psychology would like to help build a more welcoming climate for multicultural students, staff and faculty at Iowa State University.

One way in which we would like to do this is by demonstrating that reducing racial tension and discrimination is through the advancement of opportunities for students and faculty and students to be learned and discussed in the classroom.

In the coming months, we will be discussing a number of topics related to diversity and inclusion on our campus. We welcome and encourage everyone to participate in the discussions.

Craig Anderson, distinguished professor of psychology, offers two solutions to defeating stereotyping, prejudice and discrimination: totally defeat them or use them to reduce their harmful impact and create more positive beliefs and feelings toward people who differ from us.

One question that majority-culture students often ask is, “What can I do to fight against stereotyping, prejudice and discrimination?” If you are interested in finding out more about these topics, please contact your program advisor or the Office of Diversity and Inclusion.

The National Center for Transgender Equality said the transgender community is “more susceptible to discrimination and prejudice” than other minority communities. Furthermore, “The U.S. Senate voted to add transgender individuals to the list of hate crimes protected by law.” All of these facts put together can give you a sense of the importance of providing transgender individuals with protections.

The Des Moines Register reported that this issue will most likely be discussed by the Iowa House of Representatives. A bipartisan group of lawmakers have said that they will push for hate-crime protections for Iowa’s transgender community but it seems the momentum might end in the Senate. The Iowa House is controlled by Democrats while the Iowa Senate is controlled by Republicans. The Iowa House is controlled by Republicans while the Iowa Senate is controlled by Democrats. Therefore, it is unclear how likely it is that Iowa will have hate-crime protections for transgender individuals.

The Daily encourages discussion but does not guarantee its publication. We reserve the right to edit submissions for style and clarity.

Online feedback may be used if first name and last name, major and year in school are included in the submission. The Daily encourages discussion but does not guarantee its publication. We reserve the right to edit submissions for style and clarity.

Reduction in the kinds of negative behaviors that are more destructive is a reduction in the kinds of negative behaviors that are more constructive. For instance, we can “walk the walk” by actively cultivating friendships with people who are different from us.

Students, faculty and staff can also have a positive impact on social change by encouraging young people to get involved in community service and advocacy work. They can volunteer at neighborhood playgrounds, work on school improvement or be mentors to young people who differ from them.

Developing friendships with a large group of people from various subcultures within the United States and around the world has one of the most rewarding parts of being a student. Whether you are majoring in psychology, you can meet students from different racial, religious and ethnic groups protected by hate crimes.

One question that majority-culture students often ask is, “What can I do to fight against stereotyping, prejudice and discrimination?” If you are interested in finding out more about these topics, please contact your program advisor or the Office of Diversity and Inclusion.

The issue of not having enough protection for those in the transgender community who face discrimination is a topic of discussion that has been discussed many times over the last few years.

It seems that the Iowa Senate finally agreed to add transgender individuals to a list of groups that are protected by hate-crime laws. This will also lead to harsher punishment for people who are convicted of a hate crime.

IOWA STATE DAILY

Iowa House should pass transgender protection

The Iowa Senate finally agreed to add transgender individuals to a list of groups that are protected by hate-crime laws. This will also lead to harsher punishment for people who are convicted of a hate crime.

BASKETBALL

Iowa State will bring a win to the NCAA tournament before the Big 12 tournament — the first one since 1993. The program has a 100 percent success rate in the Big 12 tournament.

Morris said. "[Losing] won't be the end of the world. Winning would be nice for seed purposes and would help us at selection time among event managers

But Iowa State and Texas Tech are the only programs in the country with strong guard play. Both have go-to playmakers in Niang and Hield. Both have strong guard play. Both have difference-makers in Buddy Hield.

The amount of fans that shows up in Kansas City is going to be huge, and we can't afford to lose to them. It's all or nothing, and we're out to prove that we're a great team, and we're going to give everything we have to win the tournament the way 97 percent in past years.

Niang and Hield are going to dominate in the Big 12 tournament. They're going to be playing against the best guards in the Big 12. Winning would be nice for seed purposes and would help us at selection time.

"If we're not successful, we aren't going to make it into the NCAA tournament. The teams also both play basketball, and everyone knows what they've done in the past few years. The departmen..."
