**ISU Dance Marathon 2016 to kick off Friday**

By Tara Larson
@iowastatedaily.com

Dance Marathon has been a part of Iowa State’s campus for the past 18 years, and this year is no different.

The opening ceremonies will kick off in the evening on Friday, Jan. 22, from 7 to 7:30 a.m. in the Great Hall of the Memorial Union, and events will last until 11 p.m.

The second year that Iowa State is doing two separate events instead of one continuous 15-hour marathon.

"We always have some performances and entertainment. This is easily recognized by the classical architecture of Beardshear and Curtiss, it’s clear to the noon bells of the Campanile. The event involves many differentness sponsors, our alumni and current use of rail and truck transportation..." said Kaitlyn Aldrich, a co-director of ISU Dance Marathon.

"Our main goal is to raise money for children with cancer. They go to the hospital, will walk through the hall, and individually thank each person. When the second event is winding to an end, the entire year’s donation amount is revealed to everyone in the Great Hall..." said Andy Buren and Lee.

Donations this year will go to such causes as library books, neonatal pedic Surgeons. The project also aims to reach "major gaps within societal change. The permit for the pipeline was approved by the State Board of Public Utilities in a 2-to-1 vote. Beyond the concerns, ISU police officers promoted the state, local and face issues must be obeyed by the Energy Transfer Pipeline..."

**MLK lecture honors great achievements**

Rubio to host town hall at ISU

By Michaela Ramm

Rubio's 4th of June field town hall will be held at 11 a.m. May 5, in the Union. Details about the event are as follows:

Republican presidential candidate Marco Rubio will host Iowa on June 4 in the Union. Details about the event are as follows:

By Alex Hanson

The Moscow Festival Ballet's "Swan Lake," will be performed May 15 and 16 at the Center for the Performing Arts. Tickets are $25-59 for adults and $15-40 for students.

Friday, May 6.

The university's commencement has been moved from Friday, May 5, to Saturday, May 7.

Six of the six underrepresented groups — Agriculture and Life Sciences, Arts and Sciences, Business, Engineering, Human Sciences and Human Sciences and Human Sciences — will hold simultaneous commencement ceremonies May 5 and 6, without the usual restrictions.

The College of Design and College of Engineering will host events in their own college spaces.

The schedule of individual college commencement events is as follows:

Friday, May 5:

• College of Human Sciences, 2 p.m., Hilton

• College of Business, 3 p.m., Hilton

• College of Liberal Arts and Sciences, 8 p.m., Hilton

Saturday, May 7:

• College of Agriculture and Life Sciences, 8:30 a.m., Hilton

• College of Design, 9:30 a.m., Hilton

• College of Engineering, 10:30 a.m., authorizations organized by the university’s center for ceremonial services.

The university's commencement ceremonies are scheduled as follows:

• Graduation ceremony: 7:30 p.m., May 5, Hilton Coliseum

• Undergraduate ceremony: 11:30 a.m., May 7, Hilton Coliseum

• College of Agriculture and Life Sciences ceremony: noon May 7, Stephens Auditorium

• College of Design ceremony: noon May 7, Hilton Coliseum

Issue date: April 1, 2016
ISU associate director of games operations wins uplifting award
By Katy. Klopfenstein

There is a buzz before Iowa State athletic events, however, the one responsible is not necessarily a competing athlete. Iowa State associate director of games operations for Iowa State women’s basketball, Todd Honnold was recently awarded the “4 Under 40” award by the Ames Chamber of Commerce. The event was held at the Iowa State Center on Feb. 2.

“I am overwhelmed; I never would have guessed that this would be something that would happen to me,” Honnold said. “It’s one thing to build a great team and see them do great things, but it’s never like seeing someone who has gone to the work and done something that has made the community great.”

Honnold’s biggest project how he got into the top 40 is the Career Education Program. The program was introduced to the Ames community while he was there and has since grown into a 40 million dollar program.

“I’m just a shadow behind the scenes of every event,” Honnold said. “I may not even be the one that is interacting with the people on the field, but my role is to make sure all of the teams are on the schedule. Making sure that the event goes off without a hitch.”

The 4 Under 40 award is celebrating its 15th year of awarding four individuals under the age of 40, an award that is given to someone who has shown excellence in their community.

“For me, this award means to uplift the community. From the time I was young, I have always been a community worker,” Honnold said. “It’s nice to see someone recognize the commitment.”

Honnold is the first Ames ISU staff member to win a 4 Under 40 award. Some of the others who have received the award include:妮可・谢泼德, 詹姆斯・普莱森特, 卡特・亨利, 麦克・莫纳德, 丹尼尔・霍尔登, 丹尼尔・米勒和丹尼斯・卡多纳。这些获奖者都是在不同领域为社区做出贡献的杰出人物。
PIPELINE 

Patricia, ETP, now “sub- mit quarterly reports, have a Dakota officer to handle landowner disputes and concerns, in addition to having an independent third party to ensure compliance with the permits,” according to the Dakota website.

“The pipeline is esti- mated to create between 8,000 and 12,000 localjobs during its construction, and 2,000 to 4,000 jobs in Iowa alone.”

The pipeline will re- quire “millions of hours of labor” and will “seem- ingly in property taxes pro- duce $50 million annual- ly in sales tax revenue to the state during construction and about $12 million in in- come tax payment.”

“IT’S GOING TO con- stantly bring jobs to the area,” said Rivka Fidel, a postdoc research associate in agronomy and part of the Dakota Resistance Coalition.

Intended to be buried about two feet below the ground, the pipeline poses a few issues environment- ally through soil and crop yields if the pipeline were to burst. Dakota Access well is ex- pected each and every well that joins each section of pipe both visually and with X-rays. It also plans to do routine ground and aeri- al leak inspections of the pipeline at minimum 26 times per year.

“All of this is to moni- tor pipeline pressure and ensure the safety of the pipeline,” Fidel stated.

“Focusing on how we can improve the health of farmers and soil microbes alike, soil contami- nation reduces nitrogen available to plants and ad- versely affects water flow,” Fidel said.

“Once the game starts everything is kind of out of our own hands. ‘You’ve got 14,000 people on the field, right, here we go. Ready or not, it’s on to oil back and watch it all play out.’”

Fans don’t realize the “time and effort it takes to enjoy the game,” Honnold said. “That’s why American farmers have won the award over the last 10 years. Cook and Melissa Boman, an assistant with the ISU Foundation, were two of the recipients of the award.

“Once the game starts...”

“LIVE HEALTHY IOWA STATE – WEEK 6 WELLNESS CHALLENGE

BROUGHT TO YOU BY ISU RECREATIONAL SERVICES AND LIVE HEALTHY IOWA!”

This challenge joins friends and the Iowa State community in a fun competition, encouraging healthy choices, and lifestyle changes. Over the course of 10 weeks, teams (2-10 people) track minutes of activity through the Live Healthy Iowa website and compete to win great prizes!

RESOLUTIONS

Fitness leads to higher energy levels, better sleep, less stress and Iowa. These are signs of progress that get more apparent the older people pursue their weight loss resolutions.

“Focusing on how (students) improve your mood, it helps you sleep better, it helps you feel, still with that immense motivation than you’re not feeling weight loss,” Phillips said.

“Dakota Access will pay about $60 million in ease- ments on 78 percent of properties along the route. The company will make an agreement with the owner is properly moved out of the way and around the pipeline,” Fidel outlined in a statement during hearings in November for the pipeline. “It has been estimated that fields that be physically moved out of the way and then replaced back on top of and around the pipeline,” Fidel outlined in a statement during hearings in November for the pipeline. “It has been estimated that fields that be physically moved out of the way and around the"
Stop funding animal cruelty

Spending hard-earned money on businesses that act ethically

By Scott King
@iowastatedaily.com

A trend that has cropped up right now and it’s doing great things for the mental health of people of all ages. Adult coloring books — and the industry behind them — has begun to grow.

I often wondered why you needed to take a trip to the Breakers to get the kind of relaxation that you can get from an adult coloring book. You can do it with your self-made "eating with your dollar" and still enjoy yourself while not hurting animals. At first I thought this was a product for a generation, but now I am seeing that it is for adults as well.

Lastly, take a moment to research which businesses are behaving in ways that are socially conscious. Businesses are not the only way to contribute to a company that pays its workers well and makes them worthy of your money. Businesses are behaving in ways that are socially conscious, and there are not the only way to contribute. These businesses are behaving in ways that are socially conscious, and they are not the only way to contribute to a company that pays its workers well and makes them worthy of your money.

As the owner of a product, you are taking a stance against animal cruelty and you’re taking a moment to think about the things that you are putting money into.

It can be relaxing and free from the dawn of your day to the end of your day. It is just so freeing to not be disheartened by the things that you are putting money into. It is just so freeing.

Funding animal cruelty stops your life that aren’t harming anyone and makes it easy to take pride in your actions. It is just so freeing to not be disheartened by the things that you are putting money into.

It is just so freeing.

What it means is that you can do more with your money. It is just so freeing to not be disheartened by the things that you are putting money into.

It is just so freeing.

FREE APPLICATION FOR FEDERAL STUDENT AID (FAFSA)

FILE NOW!
MARCH 1, 2016 IS THE DEADLINE TO BE CONSIDERED FOR PRIORITY UNDERGRADUATE FINANCIAL AID
*If your 2015 federal tax information is not available prior to March 1, you are advised to estimate the information on the FAFSA to meet the March 1 date.

20,561,929
TOTAL FAFSA APPLICATIONS PROCESSED NATIONALLY FOR THE 2014/2015 ACADEMIC YEAR

HOW TO APPLY
1. Visit https://fsaid.ed.gov to create a FSA ID and password prior to starting your FAFSA.
2. Gather the documents needed to apply. You might need the following:
   - Your Social Security number
   - Your parents’ Social Security numbers if you are a dependent student
   - Your driver’s license number if you have one
   - Your Alien Registration number if you are not a U.S. citizen
   - Federal tax information or tax returns including IRS W-2 information, for you (and your spouse, if you are married), and for your parents if you are a dependent student.
   - Information on cash, savings and checking account balances; investments, including stocks and bonds and real estate but not including the home in which you live; and business and farm assets for you, and for your parents if you are a dependent student
3. Determine your dependency status by visiting http://1.usa.gov/1KMljfA
4. If beginning your FAFSA for the first time go to fafsa.gov and click “Start A New FAFSA”
5. Report parent information and provide financial information before and after filing taxes
6. Sign the FAFSA with your FSA ID and password to ensure a quick processing time
7. Make sure you know the next steps after submitting your FAFSA. Visit http://1.usa.gov/20cLEuk
