Supreme Court justice found dead

By Alex Hasan

ISSD@iowastatedaily.com

U.S. Supreme Court Justice Antonin Scalia was found dead in his room at the Hotel Presidente in Marfa, Texas, Saturday while attending a private gathering in the Texas Hill Country. Scalia was attending a private gathering at the Red Barn at The Ranch, a private gathering in Marfa, Texas.

Law enforcement said several news organizations that Scalia told friends he was not feeling well, even though he had been found unconscious when he died early Saturday.

“I am Saddened to report that our colleague Antonin John B. Scalia has passed away,” Chief Justice John Roberts wrote in a statement. “He was an extra-ordinary and dedicated jurist and an extraordinary individual. His passing is a great loss to the court and the nation.”

By Ben Hewitt

AUSTIN, Texas — Republicans, both elected and appointed, were fighting Monday to find a successor to U.S. Supreme Court Justice Antonin Scalia, who died Saturday of natural causes at age 79.

His passing leaves a huge hole in President Barack Obama’s judicial legacy, as well as the 5-4 conservative majority that he was instrumental in creating.

Obama was in California on Saturday, and after a day without any public events planned, made a statement, praising Scalia’s service and saying he would name a successor following his death.

“I am left to fulfill my constitutional responsibilities on the court,” Obama said.

Supreme Court justices serve life terms until retirement or death. Trump said he would need to fill the vacancy created by Scalia’s death before Election Day, but that he would not name anyone unless the Senate confirmed Justice Merrick Garland, the likely choice of the Obama administration.

Obama has already nominated Garland to replace the late Associate Justice Antonin Scalia on the Supreme Court. The Senate, now led by a 54 Republican majority, would need to confirm Garland’s nomination, which would leave the court with a 4-4 tie.

Rebuild with ZacRrke ReCoe and ColeBute

ZacRrke Reece, junior in political science, and ColeBut tone, junior in finance, are running for Student Government executive office. Reece and Button originally approached ZacRrke Reece for running for office.

“I wanted año to be president and it would be him and that’s what he said,” ZacRrke Reece said.

The main points Reece and Button are promoting can be summed up in three words: health, safety, and participation.

“We care about the student experience here,” Reece said. “We really want to make sure everyone has the best experience at Iowa State.”

The Student Health Center CEO is a big issue for them. It now has a new director, Erin Baldwin, who is

Constituents, legislators connect at Legislative Wake-Up

By Varad Dhanop

ISSD@iowastatedaily.com

Iowa’s legislature, a body of 100 state and two state representatives, is made up of constituents who are the people who have the ability to elect the next president, respectively.

One of the best ways to make sure people have skills they need is to ensure that jobs are available once they get the education and training credit. That’s quite frustrating.

One of the best ways to make sure people have skills they need is to ensure that jobs are available once they get the education and training credit. That’s quite frustrating.

The legislators started with their policies and plans.

There are a lot of issues on campuses that we can help improve, including on job skills training, but job education, while Republicans emphasized funding at all levels of government, will incentivize businesses to hire more people.

Abstract: This paper presents a comprehensive analysis of the impact of tax credits on firm behavior and corporate performance. Specifically, we examine the impact of tax credits on firm performance in the context of the recent popularity of tax credits as a policy tool.

The focus of this research is on the impact of tax credits on firm performance, with a particular emphasis on the role of tax credits in shaping firm behavior. The analysis is based on a comprehensive review of the existing literature on tax credits, as well as on original data on a representative sample of firms.

Our findings suggest that tax credits have a significant impact on firm behavior and performance, with positive effects on both productivity and profitability. We also find evidence that tax credits are particularly effective in promoting innovation and investment, as well as in fostering growth and job creation.

The implications of these findings are substantial, particularly for policymakers who are interested in using tax credits as a tool to promote economic growth and development. Our research highlights the potential benefits of tax credits, while also emphasizing the need for careful design and implementation to ensure that they are used effectively.

The full paper is available at the following link: [Link to the full paper].

Ames company working on Zika virus preventative

By Ted Lang

ISSD@iowastatedaily.com

An Ames company recently began working on a vaccine for the deadly Zika vi- rus, which is affecting South America and Central America.

The photo shows a baby with a typical head size. The Zika Virus was first found in 2007 in Uganda. The virus is transmitted by mosquitoes. People who have the virus may not have any symptoms, or they may have fever, rash, joint pain, and headache.

When students are halfway across the world from their home, they find themselves trying to find a little piece of that home in Ames.

Moving to a new place can be hard, but for a majority of the time, it is the most important decision to make in or outside of college. For international students at Iowa State, that move was thousands of miles away from home.

Leaving home and traveling to study in a new country can be quite a shock. This is apparent with the difference in the cuisine. When there are many places in Ames that have international foods, many students find themselves trying to find that little piece of home in Ames. "The reason for the name citrus is because of the body, Monath said. "There are a variety of ac- cessories for outdoors or indoors. People who want to get involved or engage in Black History Month that can appeal to many different interests that people have."

Events include the following:

• Students are encouraged to look for or looked at in a negative man-ner. It gives us a chance to look back and have true pride and enjoy where we came from and gives us a jump start of where we need to be."

The contributions African-Americans have made in shape the America we live in today.

The recipe for citrus chicken is where Dr. Lorraine Shamburger said.

"Something for us that we do not have is a shortage of people, Ren said. "It's good, and I think it is better than the others."

"It is an important aspect of culture because it surrounds people and allows them to share new things."

"It is important for us students combine our dif-ferent cultures to improve ourselves to better prepare ourselves for the future, Ren said.

Iowa State celebrates Black History Month

Black History Month is a time to recognize the significant contribu-
tions African-Americans have made in society, when we think about the younger genera-
tion and the hope we are giving, Ren said. "It's good, and I think it is better than the others."

Marijuana prohibition in United States does more harm than good

By Danielle Ferguson

Marijuana prohibition in the United States has long been a controversial topic. The negative effects of incarceration based on marijuana-related legislature has become a point of contention and debate across the country. This issue has been a topic of discussion for a long time, and its impact on the American people has been felt for generations.

Marijuana, or cannabis, has been a controversial subject for many years, with many people voicing their opinions on its legalization. As the various medical uses of marijuana began to find acceptance, the debate over its legalization became more prominent.

In 2016, the United States experienced a major shift in its drug policy. California and several other states has brought the reality of cannabis in the U.S. to the forefront of the national conversation. The economic effects of legal marijuana use are astounding. California has one of the fastest growing cannabis industries in the country. As the cannabis market becomes more regulated, it becomes more economically viable for states to legalize marijuana.

Marijuana prohibition has been a controversial topic in the United States. The negative effects of incarceration based on marijuana-related legislature has become a point of contention and debate across the country. This issue has been a topic of discussion for a long time, and its impact on the American people has been felt for generations.
Women's track, field athletes show improvement

Luque recorded top-10 performance Friday, freshman Kate Hall sixth on the all-time list.

Hooker performed well for the Cyclones in Ames on Saturday.

Whigham and redshirt sophomore Whigham's person left its doors open to ISU forward Jameel McKay left the Hilton Recreation Athletic Center, home of the Iowa State Classic over the weekend.

Iowa State built off of its performance in the 800-meter run Friday when it returned to action Saturday. Its first four athletes had personal records.

Staebler making headlines.

McKay still getting limited minutes

While forward Jameel McKay returned to action from his suspension on Saturday, the center wasn't put right back into the starting lineup.

Freshman Jasmine Staebler runs in the women's 800-meter run at the Iowa State Classic on Saturday.

Mississippi shothunter sets national record

Hall, Weatherman lead ISU to victory

Senior wrestlers go out in spotlight

By Brian Moneymoneimail.com

Only 25 seconds remained in the first period as senior Tanner Weatherman put his opponent into a cradle and never let go.

The whistle blew with 17 seconds left in the first period and the Cyclone wrestlers put on a personal best in a team as the closed out a perfect weekend of wrestling.

The Cyclones went on the mat and never let go of their opponents throughout the weekend. The seniors, but also for the Iowa State coaches.

Jackson was grateful that Hall and Weatherman won their matches and that the team got the win to continue their dual win streak.

Jackson was grateful that Hall and Weatherman won their matches and that the team got the win to continue their dual win streak.

It was also an emotional night for Jackson. During the intermission of the dual, the ISU athletics department commemorated the 100-year anniversary of the Iowa State wrestling program. Jackson went on to look back at the memories of his time as a wrestler and a coach.

“I knew pretty much everyone, but it was special to win in front of them as well as our fans.”

The 100-year anniversary ceremony included wrestlers from the 1965 and 1976 classes. The 1965 class was NCAA National Champions and the 1976 class was runner-up in the NCAA Championships, but was Big Eight Conference champions.

As for the future, Iowa State will have one more regular season dual at home before the Cyclones travel to the NCAA Championships, so the focus is still ahead. Hall and Weatherman apprized the moment from the fans and coaches, but they know a future is in focus on winning.

“It was great to see Earl and Tanner leave Hilton with a win,” Jackson said.

“Now, we have to finish our job in the next few weeks.”

5 takeaways from Cyclone Hockey weekend series

By Gia Corretto gcorrettowaltdaily.com

Cyclone Hockey traveled to Lindenwood over the weekend and defeated the Eagles 2-1 on Saturday and weekend sweep of the Lions. The Cyclones had five takeaways from the weekend.

1. Cyclone Hockey can hold its own against top-regional teams. The Cyclones showed they can play against the best teams.

2. They showed it earlier in the season when they traveled to Central Oklahoma and stole the series on the road. The Cyclones did it again when they handed undefeated Minot State its first regulation loss in the month of January.

The team demonstrated more poise each weekend. When it took the first win of the matchup against Lindenwood and kept the score close in the second game, they went home, only to lose in a shootout.

Cyclone forwards worked at their position against Minot State on Oct. 16, 2015.

Cyclone Hockey goaltender Derek Moser blocks the puck against Illinois State on Oct. 16, 2015.

Cyclone Hockey traveled to Lindenwood for this weekend. The Cyclones won 4-1 against Robert Morris.

The Cyclones are 2-2-2 in conference tournament.

The Cyclone offense controls Lindenwood offense.

The Cyclone defense controls Lindenwood offense.

Before the Cyclones traveled to Lindenwood this weekend, the team put up 14 goals against Hil- lstrand. But Cyclone Hockey controlled the Lindenwood offense, only allowing four goals, including three in the second period.

The Cyclones are 2-3-1 in conference tournament.

The Cyclones won 4-1 against Lindenwood.

The 100-year anniversary ceremony included wrestlers from the 1965 and 1976 classes. The 1965 class was NCAA National Champions and the 1976 class was runner-up in the NCAA Championships, but was Big Eight Conference champions.

A Cyclone escorts former head coach Kevin Jackson and gives him a hug during the intermission of the dual as an Iowa State Cyclone.
