President Bruce Rastetter, Raste- 
ter, who announced his plans to step down after the current term ends in April 2017, also has rumors that are growing about his name as the next Iowa State president.

“Iowa Sen. Dvorsky just said that I do not see another term after my term in March 2017,” Rastetter said. "I'm not sure that I meant it any more than you said that you would stay another term, and I'm not sure that you would stay another term when you said it."
CALENDAR

March 24

Ames community faces caring for and maintaining to experience how dairy cows are plain their personal history to the table as well as listen Dairy Association teamed up still have the opportunity to raise funds and awareness a decade.

This year is the first year Reggie’s Sleepout began in 2015 to raise awareness of homelessness which Ames community is facing. This sleepout has seen more than 1,100 students taking advantage of this event, with more than 500 people living in boxes, tents, cars and on the streets of Ames.

The issue of homelessness is a growing problem in the City of Ames. In 2013, the Ames Emergency Residence Project provides housing for men, women and families who have no place to live. In 2015, the Ames Emergency Residence Project provided 1,000 individuals in 2015, the Ames Emergency Residence Project provided 1,000 people with transitional housing. According to the report, Ames has the 10th lowest number of homeless people in the United States. The report also states that 3,000 people are homeless in the City of Ames, with an additional 5,000 people in the surrounding area, making it one of the highest numbers of homeless people in the state of Iowa.

In addition to the Ames Emergency Residence Project, there are several other organizations that provide housing and support for homeless individuals in Ames. These organizations include the Scottish Rite Masonic Center, the Iowa City Housing Authority, and the Iowa City Partnership for Homelessness.

The issue of homelessness in Ames is multifaceted and complex, and requires a multi-faceted approach to address. This includes providing affordable housing, access to healthcare, and support services to help individuals transition from homelessness to self-sufficiency. It also requires increased funding for homeless service providers and a renewed commitment from local government to address this issue.

It is clear that homelessness is a significant issue in Ames, and that it requires a collective effort from all members of our community to address.

Homelssness affects lives of Iowa residents

Sleepout raises awareness, honors youth

By Emily Hammer
@iowastatedaily.com

It’s early spring and nights are barely touching the low 40s, so why would someone want to step outside with a warm bed to sleep in on the campus of Iowa State University? For many years, this question has been answered by students who take part in the Reggie’s Sleepout.

This year’s event took place in honor of Reggie’s Sleepout, which began in 2015 to raise awareness of homelessness which Ames community is facing. This sleepout has seen more than 1,100 students taking advantage of this event, with more than 500 people living in boxes, tents, cars and on the streets of Ames.

The Campanile towers over a hilltop of steel. As the sun after a heavy snowfall on Jan. 25, 2016.

Iain Crawford, junior in mechanical engineering, balances on a slack wire. The rebirth of spring turns the prairie grass green. The结果显示 of loyalty and pride.

The winter is stark in Ames, particularly brutal weather in February. The Campanile shows its architectural beauty through the empty branches and clou.

Bryce M. Taylor, a member of the Tay.

Iowa State's next president

Daring, willing to take a stance and a strong leader

By Alex Folker

The Daily

The view is clear. The sky is blue. Iowa State University has a new president. Accompanied by a grayish-orange Ford that awaits its moment to escape the parking lot, President Leath's style has fans and detractors alike. The most daring leaders can also be the most disliked ones. I am willing to give this person some leeway. So long as he or she has the guts to tackle these hard issues, I am willing to give this person some leeway.

By Angela Larson

Iowa State Daily

improve organization, reduce chaos

It is officially spring, and that means spring cleaning is in full swing. As college students, we have a tendency to keep our personal spaces in a mess. So, it's time we clean so it doesn't distract you from your academics or work, and get to work. No excuses, no complaints. Let's make the most of this spring and tackle our personal organization.

Support services for homeless youth

Support services for homeless youth

For many of us, homelessness is not something we have dealt with or will ever have to deal with. Yet, it is still an issue that faces our nation, our state and our communities—and specifically affects American children.

 Violence among the ages of 12 and 17 are at an all-time high, according to the National Conference of State Legislatures. About 53% of youth in the United States deep in crisis, and about 10% are living on the streets.

The hardest kinds of decisions are made in an academic sense. The most daring leaders can also be the most disliked ones. I am willing to give this person some leeway. So long as he or she has the guts to tackle these hard issues, I am willing to give this person some leeway.
Jacob Park working on perfecting his game

By Aaron Marner

Iowa State quarterback Jacob Park has faced a lot of pressure this spring, but he said he believed he is doing a better job this year than last.

"I think Jacob, who didn't have the benefit of spring ball a year ago, didn't even have the benefit of the beginning of a training camp, is showing so many signs of carryover from the fall," Hofher said. "And understanding of any new concept, if there are any … he's shown doing a really good job.

While Park's quarterbacking style is beneficial in some ways, Mariusz has been the focus this spring.

"We know football," Hofher said. "And he's believing he's going to be great a quarterback as he can be.

With Park likely taking the role as Iowa State's QB1, the backups have to open up for grabs. Two players — Zeb Noland and Kyle Kense — have emerged in that race.

Noland, who will be a redshirt freshman in the full, ten lor NC2 last year and missed the 2016 season. He said he's about 80 percent healthy.

"I can do everything but I can't period," Noland said. "I can run, any cutting's a little bit but I'm coming along just fine.

The biggest hurdle for Noland will be regaining confidence in the hole.

"I think it's just trusting myself to make every cut, make every play that I did before I got hurt," Noland said. "I just need more confidence in the strength of my hands, learning, discussions and practices can be rather interesting for the quarterbacks.

"I think the young one, he gets kind of fiery at times," Park said. "Kyle's the gent. And then too, you know, I just play."

By Andrew Smith

Iowa State senior Samantha Budai, right, returns a ball during a spring 2015 match against Oklahoma State. Budai and the Cyclones will compete against Kansas and Kansas State this weekend.

"We're going to give it a shot. We have nothing to lose. We can just go out there and be done.

The Cyclones have a tall order in store if they want to take down Kansas.

The Jayhawks have gone 98-25-1 in doubles, where the Jayhawks have gone 98-0-1 in doubles matches this season. The Cyclones have a small order in other ways they can take down Kansas.

"I think they are ranked 24th in the country. If we could go to 24th, I mean we really have nothing to lose. We can just go out there and seeing.

Freeman said the Cyclones need to look at their work cut out for them heading into their first Big 12 test.

Iowa State will get a one-day break when it travels to Lawrence, Kansas, to take on Kansas State on Sunday afternoon.

Five of the eight starting singles, led by Anastasia Rychagova, who is 15-5, including seven wins against ranked opponents. Maria Toran Ribes, 17-9, and Nina Khmelnitckaia, 15-6, round off the group.

The Wildcats are led by Livia Cirnu, who is 20-20 record.

"If we continue to play the way we have been playing, high energy and low it is on the result, we should be good against Kansas State," Freeman said.

This success in singles has translated into doubles, where the Jayhawks have gone 98-0-1 in doubles matches this season. The Cyclones have a small order in other ways they can take down Kansas.

"I think they are ranked 24th in the country. If we could go to 24th, I mean we really have nothing to lose. We can just go out there and seeing.

The annual Ames Eco-Fair will be on Saturday, giving residents the chance to learn more about conservation efforts, energy use and ways to reduce their carbon footprints.

"We want to make sure that the impact of our decisions might be related to saving energy or what the effect will be on what we need to be doing," Wilson said. "It's also something that people can register to win a variety of products and services.

"Additionally, the event will provide a broad array of conservation information including displays about the city of Ames/Anchorage programs, which include Smart programs, which include saving tips.

"The event will also feature a collection of electric vehicles at the Iowa State University will participate in the event. Attendees and learn about energy-saving activities for children, as well as booths, conversations and activities. It's only an educational opportunity, that I think ultimately by year old, but it also helps folks to think about the city's doing," Wilson said.

Steve Wilson, "The Energy Guy" with Ames Electric Service, will also be at the event to talk about energy-saving products and services.

The event is free for the public and will be held at the Community Center, 415 Clark Ave. The event will include booths, vendors, activities and displays, focusing on how residents can conserve energy, reduce waste and lower their carbon footprint, according to a press release.

Steve Wilson, "The Energy Guy" with Ames Electric Service, was also at the event to talk about energy-saving products and services.

"It's also something that people can register to win a variety of products and services.

Planning to take some summer classes at ISU? Once your schedule is finalized, you can submit a Summer Aid Application in AccessPlus.

Summer Aid Application Available Now!

Apply NOW!

Roy J. Carver Scholarship

In honor of Roy J. Carver, who achieved success through initiative and hard work, Twenty $5200 scholarships will be awarded for 2017-2018

ELIGIBILITY REQUIREMENTS

* Iowa resident for 5 years or Iowa high school grad
* 2.80 cumulative GPA
* Junior status as of Fall 2017
* Demonstrate financial need by filling the FAFSA Prior to December 1st
* Social/other barrier to attending college full-time

Apply online at: www.carvertrust.org by April 1st
For questions call: 515-294-0103

Congratulations to our 2017 Student Employee of the Year Jackie Mesenbrink

2017 Students of Distinction
Benjamin Link, Allie Polk, Duncan Westphal

LUNCH & LEARN WORKSHOP

As part of celebrating National Financial Literacy Month, the Student Loan Education Office will be hosting a two part “Lunch & Learn” workshop this Spring at the Seasons Harvest Room and MU. These workshops will help you learn the tools needed to help create a financial plan for college, provide guidance on the student loan repayment process, credit basics, and more! All students are welcome to attend.

Session #1 Financial Planning as a College Student – Learn How to Prepare for the 2017-18 Year

***Must use meal plan, or purchase a meal to attend this workshop***
Mon. April 17, 12:00 PM—1:00 PM, Seasons Harvest Room
Thurs. April 20, 12:30—1:30 PM, Seasons Harvest Room

Session #2 Your Guide to the Student Loan Repayment Process and Credit Basics

Tues. April 25, 12:30 PM—1:30 PM, Gallery Room, MU
Wed. April 26, 12:00 PM—1:00 PM, Room 3512, MU

For more information, contact our office at 515-294-0677, or loanedducation@iastate.edu
