The Board of Regents released its annual Governance Report, in which fire safety and deferred maintenance for all three regents universities are outlined. The report outlines deferred maintenance issues such as “the report or replacement of all, or a part of an expiration, or a condition not required to be replaced at the appropriate time, because of lack of funds.” The document clarifies deferred maintenance and building renewal, the latter being the replacement of systems or building that should be replaced due to wear and tear.

ISU has been looking to correct any deferred maintenance problems in the last few years. Curtis Hall Freshman Residence Hall is one that is outlined in the report from the 1960s and 1970s during the higher education boom, the report says.

Iowa State has looked to correct any deferred maintenance problems in the last few years. Curtis Hall Freshman Residence Hall is one that is outlined in the report from the 1960s and 1970s during the higher education boom, the report says.

When you have almost 14 million acres of open space you can pay you’re going to have things that sometimes need to have things that people are not able to allocate and most universities were built or expanded during the 1960s and 1980s and as the higher education boom, the report says.

Iowa State building plans for 2017-2022 can be viewed online. The four-page plan isn’t the final plan. There will be more opportunities for the general public to submit feedback. The steering committee in charge of drafting the plan intends to accomplish over the next two weekends:

• Noon to 1:30 p.m. Tuesday, March 21, in the Oak Room of the Memorial Union.
• 4:30 p.m. to 6 p.m. Thursday, March 23, in the Gallery. Students will have the opportunity to submit comments online.

• Students can submit comments online at the ISU strategic plan website. The draft plan will be made available to the public and open for public comments through the project.
• Noon to 1:30 p.m. Tuesday, April 5, in the Oak Room of the Memorial Union. Public input will be collected during this event.
• 4:30 p.m. to 6 p.m. April 12, in the Gallery. The committee will make changes to the plan. The revised plan will then be sent to President Steven Leath for approval.

Along with Smith, the strategic plan also promising to discuss diversity and inclusion, the plan also promises to discuss diversity in the classroom.

Corrections

In Thursday’s story “Preserving the unspecial”, the Daily and Gazette reporter was the current deputy chief of police. He was the former deputy chief of police. The headline in the photo and Deisinger did threaten assault. He was a part of the Daily and Gazette editing team. The Daily regrets the error.

President Obama lands in Cuba on Tuesday. Obama makes historic trip to meet with Cuban officials and discuss lifting the 50-year trade-embargo relationship.

AFC Outlets on 11th Street in Des Moines, Iowa, on Feb. 1. Cruz won the Republican Iowa Caucus and took 58 percent, but some have nicknamed him "the Iowa Caucus king". Cruz won big — big enough to take all of the state’s 40 delegates. Trump has 44 percent, but with almost 80 percent of the precincts closed, he is in fourth place.

The approval of the study continues sending militants a message that the Islamic State took credit for, "After we developed the next-gen material — it turned out to be a lot harder (than we expected) — we found a material that, when acted upon by magnetic forces, can generate cool enough to be able to set the stage for the name of its project: CaloriCool."

Iowa State is currently working on a way to remedy the efficiency problem plaguing refrigerators by finding a more efficient way to cool them. The Ames Laboratory team currently working on this project is looking to find a material that can be actuated by magnetic forces, which would significantly cool the current refrigerator that is inefficient and will not bend the buck.

Today’s Birthday (03/25/16)

You’re practical and confident, which contribute to your relationships with others. This year, take time to make plans for your future and decide on a goal that you can work toward. For the most part, you are optimistic and confident, and you have faith in your abilities. For the next two weeks, you may feel more reserved and cautious, as you are looking to maintain your personal space. For the rest of this month, you will be more outgoing and more willing to take calculated risks. To get the advantage, think positive. This is the week for making decisions that will set the tone for your future. Aries - 9 March 21 – April 19

You’re looking for adventure, which suits you well, Aries. You may want to take a trip to see your relatives or friends, or you might consider taking up a new hobby or pursuing a new interest. You’ll enjoy this time, but be sure to consider your expenses and make a plan. Libra - 8 October 23 – November 21

If you’re in a relationship, you’ll need to be patient as your partner may be feeling the pressure to do things your way. Take a little time to discuss your priorities and goals. You can make it work if you communicate well. Taurus - 9 April 20 - May 20

Your social life will be the focus of your attention this week. You may be considering new ways to stay in touch with old friends, or you might be spending time with family. You can make it work if you keep things light and fun. Scorpio - 9 October 23 – November 21

This week, you may have to make some difficult decisions. You’ll need to consider your options carefully and try to avoid making a rushed decision. Gemini - 7 May 21 – June 20

This week, you may have to stay focused and organized to get your work done. You may be feeling overwhelmed, but you can handle it if you prioritize your tasks. Cancer - 8 June 21 – July 22

You may want to search for a new job or change careers. You may be feeling dissatisfied with your current work situation, and you may be considering making a move. You can make it work if you plan carefully and consider your options. Leo - 8 July 23 – August 22

You may want to take a trip or go on a vacation. You may be feeling restless and eager to explore new places. You can make it work if you plan carefully and enjoy your trip. Sagittarius - 11 November 22 – December 21

You may want to consider a change in your career. You may be feeling dissatisfied with your current job, and you may be considering making a move. You can make it work if you plan carefully and consider your options. Capricorn - 10 December 22 – January 19

You may want to take a trip or go on a vacation. You may be feeling restless and eager to explore new places. You can make it work if you plan carefully and enjoy your trip. Aquarius - 19 January 20 – February 18

You may want to consider a change in your career. You may be feeling dissatisfied with your current job, and you may be considering making a move. You can make it work if you plan carefully and consider your options. Pisces - 6 February 19 – March 20

You may want to take a trip or go on a vacation. You may be feeling restless and eager to explore new places. You can make it work if you plan carefully and enjoy your trip.
Money doesn’t always make the campaign

By Courtesy Caronse

Money, money and more money: the green pieces of paper that make the world go-round. It is a powerful tool that politicians and the wealthy have used to their advantage for many years. People believe that money is the make- or-break factor in winning elections. However, this is not the case. While it seems to have been a common trend for decades, money has not had a big influence on the most recent presidential campaigns, and the 2016 race is truly a different story.

The way its funding is structured has created an unlevel playing field. Each candidate needed to pump money into their campaigns in order to maintain a high position in the polls, but this was not enough. Bush had more financial support, but that did not ensure his campaign would make it until the end.

Money is important to the system because it allows candidates to be more prominent. If a candidate does not have the financial support they need, they will not be able to gain a following. In order to win elections, candidates need money. The people who have this money are typically politicians and the wealthy. Politicians and the wealthy have used money to make their voices be heard in the political system.

Cyclones remain confident heading into doubleheader

Softball team untrapped from 8-11 road trip

By Caton McLaughlin @iowastatedaily.com

Wednesday saw a dreary mix of cold and drizzle, soaking campus and canceling the ISU softball team’s first home game since February. But ISU softball isn’t letting the cold weather put a damper on its spirit.

The Cyclones will head into better conditions for their first “true” home opener Saturday as they prepare to play a double-header against North Da-

kota State (17-11, 0-0 Summit) at 6:30 pm at the United Center.

Heading into Friday’s game, he said any nerves they may have weren’t showing. “We’ve got a ‘win the day’ type attitude,” he said. “He doesn’t know what’s going on,” Gomez said. “I think he’s happy.”

“Coming into the huddles and the practice, something Prohm said... Now, Monté is holding [Cass] in that room. I was totally uncomfortable in June. I was feeling the pressure a lot.”

But Gomez isn’t a vocal leader. She chooses to lead by example — letting her non-verbal communication do the talking.

“Coming into the huddles and the practice, something Prohm said... Now, Monté is holding [Cass] in that room. I was totally uncomfortable in June. I was feeling the pressure a lot.”

He has a ‘win the day’ type attitude. For Prohm, that means being a team for four full days with a good chance to win.

“Both teams have good records but I think we can win,” Gomez said. “I think we can win. They’ve got a team that’s been around, they’ve got a lot of experience.”

Prohm had some assistance run practice at the United Center. “Iowa State is known for its high-pressure offense, shutdown defense,” ISU has home-court advantage.

Many think the biggest difference between purchasing and leasing a car is that in buying the vehicle you own the car and in leasing you do not, said Alex Millen, Wilson Toyota Scion Ames director and sales consultant.

However, this is only true if you are paying cash at the time of purchase, and students rarely buy with cash, he said. A better word to use is financing.

According to Millen, these are the facts a student should know before deciding to finance or lease a vehicle.

**FINANCING VS. LEASING**

<table>
<thead>
<tr>
<th>FINANCING</th>
<th>LEASING</th>
</tr>
</thead>
<tbody>
<tr>
<td>Making monthly payments for the length of the loan until the entire price of the car, fees, finance charges and anything else wrapped into the purchase is completely paid off.</td>
<td>A method of paying for a car for a fixed period of time with a fixed number of miles.</td>
</tr>
<tr>
<td>Financing a vehicle means the bank owns the vehicle until the customer pays the bank back.</td>
<td>All of the costs are fixed due to market protection.</td>
</tr>
<tr>
<td>The customer will eventually own the car.</td>
<td>The monthly payments are lower because customers are only paying for a portion of the car.</td>
</tr>
<tr>
<td>The buyer will have equity in that vehicle because the car will eventually be worth more than what he or she owes.</td>
<td>After a lease is over, customers own nothing as long as they meet the terms of the lease.</td>
</tr>
<tr>
<td>A driver has an unlimited amount of miles to drive the vehicle.</td>
<td>Buyers can lease something else, purchase a car, get a bus pass, etc., when the lease ends.</td>
</tr>
<tr>
<td>The buyer can use the car for years until it stops running.</td>
<td>Leasing allows one to have a new car with all of the modern features at a lower price.</td>
</tr>
<tr>
<td></td>
<td>Drivers will never own the car and will continue to make payments.</td>
</tr>
</tbody>
</table>

Literally 100 percent of people I have met that have been dissatisfied with leasing were upset because they drove more miles than they paid for.

— ALEX MILLEN
Wilson Toyota Scion Ames director and sales consultant

Don’t get in over your head. If you have a fixed budget it is wise not to exceed that greatly. Missed and late payments will ruin your credit rating far faster than anybody realizes.

focused at the task at hand. You look at all 14 appearances, and you realize how special it is in hindsight. But I think it's more for this team, which has finished ranked in the top 10 nationally for the past seven weeks, in part because its defense. The Cavaliers allow an average of 57 points a game, the sixth best mark in the country, and haven't allowed a team to reach the 70-point mark since February.

Virginia holds good teams to low numbers, too. Against No. 12 Miami back in the Hurricanes to a mere 61 points.

Even though the Cavaliers offense requires a different style of defense, Prohm said it wouldn't change the Cavaliers' overall game plan. "We need to just play our game," Thomas said. "It's not about getting out and getting 61 points. The Cavaliers are going to have to watch to find out what's going to happen.”

"It's a mystery. You're going to have to watch to find out what's going to happen.”

"Something's got to give.”

"It's going to be fixed and that needs to be fixed, how we're going to have to guard different actions," Prohm said. "I think the biggest thing is trying to have to do that on some level. we're going to have to guard different actions."
