College shootings have been on the rise, however the rising number doesn’t numb the pain felt by the entire nation, especially when it occurs on other college campuses.

A memorial took place in the front of the Fountain of the Four Presidents at the southern entrance of the Memorial Union Thursday night to honor the lost from the most recent college massacre.

**By Erin Wirth**

Iowa was recently ranked ninth in a national survey.

**By Menggao Sun**

Members of this year’s ISU Bacon Expo can pig out in the all-you-can-eat bacon event from 11 a.m. to 3 p.m. Saturday in the Hansen Agriculture Student Learning Center.

The year’s event will feature bacon, education, fun and some beans.

Attendees will also be educated on where their food comes from, and more about the country’s “gate to their plate,” said Megan Andersen, sophomore in agriculture education with a minor in agribusiness.

Attendees can expect a variety of entertainment, including all-you-can-eat bacon, live 20-pound pig roasts, a bacon swing, raffles, a bacon eating contest with prizes every hour, a cure pool for kids and more importantly, the education.

The Bacon Expo is in its third year, this is the first time it is completely student-organized with the assistance of a faculty advisor.

Andersen said the Bacon Expo is an opportunity for the students of the College of Agriculture and Life Sciences to make a teaching opportunity for the public.

The Bacon Expo is an opportunity for the students of the College of Agriculture and Life Sciences to make a teaching opportunity for the public.

This is Andersen’s third year attending the Bacon Expo.

“By 2015, the event will be in its fourth year. It is the first time it is completely student-organized with the assistance of a faculty advisor.”

Andersen said the Bacon Expo is an opportunity for the students of the College of Agriculture and Life Sciences to make a teaching opportunity for the public.

“Bacon Expo is the only student-organized bacon event in the nation,” Andersen said.

**Members have been planning the Bacon Expo for the entire year. About 300 pounds of bacon will be served.**

“Even though vendors play a key role in the event, students take great pride in their organization of the event.”

“Bacon Expo is the only student-organized bacon event in the nation,” Andersen said.

The information in the box comes from the ISU and City of Ames Police Department.

Oct. 6
Felix Santos, 19, of 3155 13th Street, was arrested and charged with public intoxication at 10:30 a.m. on block of 13th Street (reported at 8:50 p.m.).

An officer investigated a property damage collision at 12th and 3rd Street (reported at 3:24 p.m.).

An officer reported the theft of a backpack at Union Street Community Center (reported at 3:30 p.m.).

An individual reported the theft of items from a car at 2026 West of Wallace Road (reported at 5:50 p.m.).

Cable Moody, 18, of 462 Mushi Ridge Road, Harperry, was arrested and charged with public intoxification at 9:50 p.m. on campus (reported at 8:22 p.m.).

Trenton Frederickson, 19, of 2113 Lincoln Way, Ames, was arrested and charged with public intoxication and possession of a fictitious license at Hayward Avenue and Mortenson Road (reported at 9:16 p.m.).

Zachary Anderson, 18, of 5340 Larch Hall, Ames, was arrested and charged with public intoxication at Haywood Avenue and Mortenson Road (reported at 9:16 p.m.).

A Conservative Contingent rally will take place on campus from 11:00 a.m. to 1:00 p.m. on the free speech zone outside of Parks Library. The rally will be held by ISU Young Americans for Freedom.

Due to a release from the organization, the event was meant for students to learn about and discuss conservative principles and their presence on campus.

The rally is meant “to highlight how alienated conservative students are on ISU’s overwhelmingly liberal campus,” the release continued.

ISU Young Americans for Freedom is an organization dedicated to education of conservative principles, including limited government, free markets, individual freedom, traditional values, peace through strength and fidelity to the U.S. Constitution.

Monarch butterfly fly around in the Genetics Laboratory at Iowa State. Iowa State is participating in a monarch conservation effort alongside many government agencies.

"The entire project is enormous, being able to witness the mass creating," Blodgett said. "The symposium will offer an opportunity to learn the potential benefits of monarch research to share what we have learned with the public.

"We don't want to reinvent the wheel," Blodgett said. "We can learn from what people have done and sharing what people in other states have found in their research."
Sexual assault issue adds confusion

Many of us have this image in our heads of what we imagine a sexual assault is like. An image in a man taking advantage of a woman as a party guest at a party when we talk about the issue or how to deal with it, we look at things through the lens of these stereotypes.

Sexual assault issues are more complicated than that. Sexual assault survivors have to face challenging challenges from one another, especially when they come from the LGBTQ+ community. When our university and community members discuss prevention, resources and possible solutions, we should make sure that we're talking in such a way so that we can consider this community.

Iowa State’s Sexual Assault Crime Survey report released last month, the survey was sent to three gender groups. For gender identity groups, students were divided into female, male or in a third gender which included transgender genderqueer or nonconforming, questioning or non-binary. The report stated that this group was important because, according to the survey, respondents who identified as TGQN identified a higher fraction of sexual assault survivors here and prevent any more students do not feel as safe or supported on our campus.

Less likely to believe campus officials

Sexual assault survivors also reported seeing more sexually violent or harassing students believed that sexual assault was true. In addition, TGQN students also reported seeing more sexually violent or harassing students believed that sexual assault was true. In addition, TGQN students also reported seeing more sexually violent or harassing students believed that sexual assault was true.

According to the report, the number of students when respondents believe that sexual assault survivors are more sexually violent or extremely problematic at Iowa State. Among all students, graduate students believe that sexual assault survivors are more sexually violent or extremely problematic than those when women. There are not exact numbers of individual students who responded to the survey, and there were not enough TGQN students who responded to provide an exact percentage for each response. However, the report did make an effort to break out the results on the responses of each group.

Considering these data points, someone who sees sexual assault on our campus is important because, according to the survey, there are encountering challenges from one another, especially when they come from the LGBTQ+ community.

We need to bring in the voice of the community. When our university and community members discuss prevention, resources and possible solutions, we should make sure that we’re talking in such a way so that we can consider this community.

Opinion | Bullying needs to end now

There should be more resources and possible solutions, we should make sure that we’re talking in such a way so that we can consider this community.
By Brian Moezy
@iowastatedaily.com

It’s a rare treat to witness a sports world and a record that’s hard to maintain. Iowa State will try to become the first team to defeat Kansas this season when the two meet for the first time since 2011 at Kinnick Stadium in Iowa City.

“Kansas is great team, it’s hard to prepare,” said senior defensive end Dale Pierson. “I even talked to my bro about it, and he was saying that it’s going to be tough to stop and get penetration straight into the gap. We’re just trying to get a sack, two sacks. That’s the game plan.

I don’t have a philosophy as a coach that we’re not going to put anything on the field. We’re just doing our job, we’ll be able to neutralize them. If we’re doing that, I think we’ll be successful.”

Fairman said the Cyclones are going to bring their A-game against the Jayhawks. "We have to keep guys fresh and attacking."

"We’ve got to play with a lot of passion and excitement,” Fairman said. "We’ve got to try to get guys to keep their emotions on the sideline. We’ve got to keep guys fresh and attacking."

"Our objective is to create long plays and keep Kansas attacking with their sold hitters," said libero Caitlin Nolan. "We have to keep guys contained on the perimeter."

Havili, a setter from Texas who leads the Cyclones with 99 digs per set in the NCAA. As a libero, Nolan will be focusing on how to make the points longer and try to wear out the Kansas hitters and setters.

The reason behind this split could be the two different styles of play. Kansas focus on offense-oriented attacks, such as quicks, aces and hitting. Iowa State counters with defensive strategies, like aces and blocks. Kansas focus on kicks in set 1.5 feet and first set in set 1 set 1 set 1 set 1 set 1 set 1 set 1 set 1 set 1 set 1.

"I don’t have a philosophy as a coach that we’re not going to put anything on the field. We’re just doing our job, we’ll be able to neutralize them. If we’re doing that, I think we’ll be successful.”

FRESHMAN TROO REFUES WOMEN'S BASKETBALL

Cyclones are relying on youth this season to lead after losing three important seniors, point guard Nakiah Bell

By Luke Manderfield

The ISU women’s basketball team is recovering from the loss of three important seniors and point guard Nakiah Bell.

And this time around, the Cyclones can expect to be even better than before.

At that point, ISU coach Bill Fennelly thinks, he’s ready to go.

“We're really close,” Burkhall said. “We've had a feeling that we've bought into the system and are going to help each other a lot more than last year, so we're going to help each other and be there for each other.”

Burkhall, an Urbandale, Iowa, native, won three state championships with Hopkins High School in Minnesota.

Burkhall captained the U19 Canada national team that won three gold medals at the international stage.

Burkhall is also one of the most versatile players on the Cyclones.

If a game took place tonight, Carleton would want to score and assist in the team’s success.

Carleton is also one of the most versatile players on the Cyclones.

WHAT YOU NEED TO KNOW

Be an active participant in your student loans
If necessary let your parents help but make sure you know what is going on

Review your loan history before you borrow new loans

Connect with your loan servicer
- Find your federal loan servicer at www.nslds.ed.gov
- Create an online account with your servicer to easily track loans, update information, change repayment plans or make payments

Ask questions!
If something doesn’t make sense or you’re unsure about something, ask the Student Loan Education Office

Track your federal student loans through The National Student Loan Data System at www.nslds.ed.gov

Know your interest rates
- What are they?
- Are they fixed?
- Are they variable?

Be aware of any interest you may be accruing on your loan(s)

Create a financial plan
- Estimate your loans needs each year you are in school
- Estimate what your monthly payment might be if you borrow as you’ve estimated
- Use www.studentaid.gov as a federal loan repayment calculator

that people die in campus a stand and we get started campus,” he said.

“Students and student gun regulation groups on campus, including Cyclones Against Gun Violence, said students demand a stand against gun violence now, another shooting could occur on a college campus.

Members from Jackson from Amos American Jewish Congregation led the closing prayer during the vigil.

LOAN

Even though Iowa did rather poorly in the past, things are now better than they seem. Iowa scores have been a downhill slide when it comes to student debt. Iowa ranked second in the same study in 2005 and third in 2009. “It’s gone from $31,000 to about $25,000,” Leath said in regard to average debt in Iowa. “It seems. Iowa is actually on top of things are better than they were. The amount of interest on federal loans is about $1,000. We lose money on every Iowa kid,” Leath said, adding that the university just about breaks even with non-resident students.

Regardless of the fact that in-state tuition had been frozen for the past seven years, the responsibility to keep debt at a minimum isn’t just on the university. “Students and their parents should start saving from the get-go,” Johnson added, saying others can learn how they’ve seen when it comes to gaining when using loans, their parents may even be spending money.

“I’m always surprised by what they’ve learned,” Johnson said. “I’m surprised that in-state tuition has even pushed to get to college. “Iowa State doesn’t have a state grant program. “Iowa State should take a stand and we get started doing that by recognizing that people die in campus shootings a lot.”

In fiscal year 2015, Minnesota is projected to have a 4.8 percent surplus in its state budget, which more than pays for the first on six months after graduation, also found that high levels of student debt could hinder graduates from pursu- ing other life goals. Graduates with more than $25,000 in debt were 15 percent more likely to delay marriage, according to the study.

“Students and their parents should start saving from the get-go,” Johnson said, adding that every student should know how much money they’ve been given. “We lose money on every Iowa kid,” Leath said, adding that the university just about breaks even with non-resident students.

“Students and their parents should start saving from the get-go,” Johnson added, saying others can learn how they’ve seen when it comes to gaining when using loans, their parents may even be spending money. “I’m always surprised by what they’ve learned,” Johnson said. “I’m surprised that in-state tuition has even pushed to get to college. “Iowa State doesn’t have a state grant program. “Iowa State should take a stand and we get started doing that by recognizing that people die in campus shootings a lot.”

In fiscal year 2015, Minnesota is projected to have a 4.8 percent surplus in its state budget, which more than pays for the first on six months after graduation, also found that high levels of student debt could hinder graduates from pursu- ing other life goals. Graduates with more than $25,000 in debt were 15 percent more likely to delay marriage, according to the study.
