Meetings to Help Farmers Respond to Late Harvest, Lower Grain Prices

Abstract

Iowa State University Extension and Outreach has scheduled three North Central Iowa meetings for crop producers in response to questions related to the late spring, dry summer and slow crop development. Extension specialists will discuss crop maturity, crop drying and potential effects of an early frost. Other topics covered during the meetings will include crop management, fallow syndrome and fall nitrogen management. Grain marketing and a grain market price outlook also will be on meeting agendas.
