Errors concerning the directional parameter \( \delta (\pm 1, \text{depending on the sign of } dH/dt) \) occurred in Eqs. (22), (28), and (29) of the derivation. In addition, the permeability of free space appeared incorrectly in Eq. (22).

The correct forms of the equations are

\[
M_{in}(H) = M_{an}(H) - \left( k \delta + \frac{\mu_0 d^2}{2 \mu \beta} \frac{dM}{dt} \right) \frac{dM_{in}}{dH_e}, \tag{22}
\]

\[
M_{an}(H) = M(H) + k'' \left( \frac{dM}{dH_e} \right) - k \delta c \frac{dM_{an}}{dH_e}, \tag{28}
\]

\[
k'' = k \delta + \frac{\mu_0 d^2}{2 \mu \beta} \left( \frac{dM}{dt} \right) + \left( \frac{Gd \mu_0 H_0}{\rho} \right)^{1/2} \left( \frac{dM}{dt} \right)^{1/2}. \tag{29}
\]
