This Article is brought to you for free and open access by the Journals at Iowa State University Digital Repository. It has been accepted for inclusion in Ames Forester by an authorized editor of Iowa State University Digital Repository. For more information, please contact digirep@iastate.edu.
The society of American Foresters held its annual meeting in Des Moines, Dec. 30 and 31. Alumni of the department present were Shirley Allen, '09; I. T. Bode, '15; Glenn Durrell, '25; Clarence Svendby, '26; Gene Farnsworth, '26; "Red" Schipull, '27; "Punk" Meginnis, '28; Sam Battell, '28; Jim McGlade, '28; Don Ball, '28; and Harold Scholz, '29.

At Homecoming we were visited by L. A. Wall, '20, and "Ackley" Peters, '28. Art Holding, '29, our only Olympic Team representative, has turned professional and now counts the crowd between falls.

C. P. Cormany, '21, visited the department early in March, gave a talk on selling lumber in seminar, and let Prof. Mac's Lumber Markets class try to stump him. Ray Iverson, '28, stopped off for a few hours in the fall. He is Senior Ranger on a purchase area in Wisconsin.

William Putnam Battell, ex '28, received a commission as Lieutenant in the Marine Corps early in the year. In March "Bill" turned Benedict.

"Ike" McLaren, '27, was a visitor in March. He claims to have bought twelve thousand acres of Wisconsin forest land for two-bits a description; a description usually being a forty. Lepley take notice!

Of late it seems that certain alumni give little consideration to the future of the department, that is as far as the office force is concerned. Last fall Mark Ratliff, '28, took half the force, marrying Luella Ahrens. "Yellow Fever" Vinton, '27,
the only white man on the west coast of Africa that ever survived that dread disease, came back and from our midst plucked Pearl Nunamaker. Vinton has returned to Africa and Mrs. Vinton will follow in June.

Dear Editor:

An old Canadian in Santa Anita Canyon on the Angeles told me that he saw Paul Bunyan make a trip from the blacksmith shop to the dump one morning loaded with so many log chains that he sank clear to his knees in the bed-rock. Ask ‘‘Punk’’ Megginis if he can tie that.

William M. Lepley

George Turney, '27, writes, ‘‘Bill West has the Paddy Flat Ranger District on the Idaho National Forest, a district supposed to be the fire district on the fire forest of D-4, but Bill seems to have the ‘‘Indian sign’’ on fires because he did not have a bad fire this season.

‘‘Orrin Latham has a tough fire hazard on the South Fork Ranger District but has come thru O. K. for two years. ‘‘For some reason I like the Service.’’

R. L. Barrett, '11, 3323 South Ripley St., Neosho, Mo., writes, ‘‘Have not heard from or seen an alumnus for some years. I understand that some Ames men work for the Dierks Lumber Company but have not met them.’’

George MacIntire, '26, visited school last fall and received a shock by meeting another alumnus and several undergraduates that he knew. ‘‘Mac’’ labors for the Conservation Department of the Commonwealth of Michigan at Lansing. Freddie Boeckh, '28, likewise visited the department and was a surprise in seminar by having a harangue that failed to mention fish.

Harold Morey, '29, writes from Philadelphia that he would enjoy sitting in at a pinochle game. Also that he expects to get married in the near future.

Gorden C. Hutchins, '27, states that beside taking on a wife he has also gone into business for himself. Listening to Freddie Boeckh’s annual seminar speech on the state fisheries
sold him on the idea and he has bought a rainbow trout farm near Adams City, Colo.

Jack Hogan, the former "Tessie McGookin", writes an inquisitive letter wanting to know who edits the News Letter. His name has not been mentioned for several issues and he states that just because he is a little runt is no reason for him being slighted. Jack might write in and tell us about "Moscow" Mollison. We have not had word from "Molly" since he left.

The Staff would like to take space to say a word. We are interested in our alumni. Many of them we know personally and hope to know many more thru contact in the field. As a staff our only contact with you is thru correspondence and we sincerely hope that you as Ames Foresters and Iowa State Alumni will feel free to write us.

ALUMNI DIRECTORY

1896

Sherman, E. A.—At present he is Associate Chief of the U. S. Forest Service. He received a doctor of science degree from Iowa State College in 1928. Address: 4103 Military Road, Washington, D. C.

1903

Secor, A. J.—He is at present county agricultural agent in Van Buren County, Iowa. He has been active in promoting forestry in his part of the state and is cooperating with I. T. Bode, our extension forester.

1904

Merritt, M. L.—Mr. Merritt is Assistant District Forester of the Alaska District with headquarters at Juneau, Alaska. He is in charge of Operations, Lands, and Roads.

1907

Balthis, R. F.—He received a master of science degree from Colorado Agricultural College in 1927, and is now engaged in extension work in the capacity of a county agent. (He’s in close touch with forestry work). Address: Cripple Creek, Colo.

Kupref, Carl A.—When last heard from he was a sales engineer for the North Coast Dry Kiln Co., of Portland. Address: 372 Bryce Ave., Portland, Oregon.

1908

Baxter, W. F.—After working with the U. S. F. S. for a number of years, he resigned and is now farming at Galva, Iowa.
FOUR LOGS—two big ones, a medium one, a small one—lay scattered where they fell some distance apart. Four fairlead lines shot out in as many directions from a winch on a "Caterpillar" Sixty Tractor. "Come here," barked the "Caterpillar." The four stragglers snapped to formation beneath the arch and the Sixty was off for the landing, trailing its pay load. Dependable and fearless, the "Caterpillar" Tractor has its way in dealing with the many problems which face the practical logger.

Caterpillar Tractor Co.

PEORIA, ILLINOIS and SAN LEANDRO, CALIF., U. S. A.

Track-type Tractors Combines Road Machinery

(There's a "Caterpillar" Dealer Near You)
Haeffner, H. E.—He has been with the U. S. Forest Service since graduation from Iowa State College and is now on the Cascade National Forest. Address: Westfir, Oregon.

1909

Allen, Shirley W.—He is Professor of Forestry at the University of Michigan. Address: School of Forestry and Conservation, Ann Arbor, Michigan.

McCullough, Thomas E.—After taking his master’s degree at Yale in 1911, he entered private business and is now district agent for the Northwestern Mutual Life Insurance Co., at Flagstaff, Arizona.

1911

Barrett, Robert L.—At present he is Agricultural Agent for the Kansas City Southern railroad and is located at Neosho, Missouri. He received his master’s degree from the University of Missouri in 1924.

Freeman, F. G.—He is engaged in the fruit business at Santa Ana, Cal.

Hoffman, A. F. C.—He is at present supervisor of the Montezuma National Forest in Colorado. Address: Mancos, Colorado.

Parke, T. S.—Now instructor in Vocational Agriculture at Chandler, Arizona.

Reynoldson, L. A.—After graduation he accepted a position with the U. S. Dept. of Agriculture and is now an economist with the Bureau of Agricultural Economics.

Smith, P. T.—He was employed by the Forest Service for a number of years and served as deputy supervisor of the Black Hills National Forest. At present he is county agent at Redfield, South Dakota.

Whitham, J. C.—Whitham is supervisor of the Beaverhead National Forest. Address: Dillon, Montana.

1912

Lessel, L. R.—He served a number of years on the Sitgreaves National Forest as Forest Examiner. He is now Assistant Supervisor on the Gila National Forest at Silver City, New Mexico.

O’Banion, A. C.—When last heard from he was county agent at Park Rapids, Minnesota.

Olmstead, R. A.—In charge of a large fruit ranch, Dundee, Oregon.

Richmond, H. H.—Was engaged in government forestry work for a number of years. At present he is the owner of a logging and mercantile business, Cass Lake, Minnesota.

Smith, W. A.—After serving with the U. S. F. S. for a number of years he gave up government work to take up private business. His address is now Whittier State School, Whittier, Calif.
The Years to Come

The lumber manufacturer necessarily must look beyond the production and sale of his finished product. He must prepare for the future; safeguard his sources of raw material.

This company has reserves of finest virgin timber sufficient to supply its plants for many years to come. Further than that, it aims, by careful logging, reforestation of cutover areas and aggressive forest protection, to make its operations perpetual.

'The Long-Bell Lumber Company
Lumbermen Since 1875

R. A. LONG BLDG. KANSAS CITY, MO.
Truax, T. R.—For a number of years after graduation he served as Assistant Professor of Forestry at Iowa State College. At present he is engaged in investigative work at the U. S. Forest Products Laboratory at Madison, Wisconsin.

1913

Baxter, L. J.—He is located at Galva, Iowa and is operating a large farm. He is cooperating with I. T. Bode, extension forester in promoting forestry interest in that part of the state.

Clark, R. B.—At present he is president and manager of the Sioux-White Motor Co., at Sioux City, Iowa.

Hense1, R. L.—After serving with the U. S. F. S. for a number of years, he accepted a position as professor of range management at Kansas State Agricultural College. Now a rancher in Texas.

Ringheim, H. L.—When last heard from he was a supervisor of a retail lumber business at Elrose, Saskatchewan, Canada.

Steffen, E. H.—Until 1919 he was engaged in government forestry work. Since then he has been teaching at Washington State College, where he is now an associate professor and head of the Forestry Department. Address: Pullman, Washington.

Watts, L. F.—Watts recently resigned as Professor of Forestry at Utah Agricultural College to accept a position in silvicultural research in the U. S. F. S. He was granted a professional degree in forestry from Iowa State College in 1928. Address, 2603 Jackson Ave., Ogden, Utah.

1914

Hassel, W. C.—He is now Superintendent of Schools at Salem, Iowa.

Hayes, R. W.—Appointed Professor of Forestry at North Carolina State College in September, 1929. Is working on his Doctor’s degree. Address: State College Station, Raleigh, N. C.

Schreck, R. G.—After graduation Mr. Schreck entered the Forest Service, acting as Forest Assistant and Examiner on the Superior National Forest and later as Forest Supervisor on the Michigan National Forest. At present he is Forest Supervisor of the Huron National Forest, with headquarters at East Tawas, Michigan.

Sterett, J. C.—E. H. Steffen tells us that Sterett is a real estate dealer at Villa Park, Illinois.

Van Boskirk, S. S.—Since graduation he has been employed with the Forest Service and is now located on the Manti National Forest at Ephraim, Utah.

Wolf, E. T.—Since graduation he has been employed with the Forest Service and served for a time as Assistant Deputy
PROTECTION — COMFORT — CONVENIENCE

All These and More in the

FILSON CRUISING COAT

You men who, by reason of your calling, spend most of your time in the open, will find this Filson Cruising Coat particularly fits your needs. Made of Shedpel Khaki. Will shed a lot of water and is wind-proof and neat-appearing. Also made of Genuine Forestry Cloth, a material that is without a superior—for warmth, comfort, long wear and protection under severest weather conditions.

The pocket arrangement is particularly pleasing. Five in all—the one clear across the back, open on either side, giving opportunity to carry heavy loads without inconvenience. It's really surprising how much may be taken on the trip without handicap by reason of the adequate, well-placed pockets.

Order either fabric desired 1 inch larger than white collar measure.

The Filson line of Better Outdoor Clothing includes:

FILSON LACED BREECHES
FILSON HUNTING COAT
FILSON MACKINAW CRUISING COAT
——and for greatest sleeping comfort——
Filson Famous Sleeping Bag

All these items, and many more, are featured in our free, illustrated catalog. Send for your copy today.

C. C. FILSON CO.
1005-1007 First Ave. Seattle, Washington

"Might as Well Have the Best"
Supervisor on the Lolo National Forest. At present is supervisor of the Pend Oreille National Forest at Sand Point, Idaho.

Stokes, R. R.—He is woods foreman with the Rutledge Timber Co., at Cœur d’Alene, Idaho.

Hartman, G. B.—Employed by the Longbell Lumber Co. at DeRidder, La., where he is plant superintendent for the creosoting division.

Henry, Allen S.—Worked for a number of years with the Northwestern Bell Telephone Co. At present in private business at Sioux City, Iowa.

Veach, C. H.—Last reports indicate that he is still teaching in North Dakota.
LIPPERT
SAWS

For All Kinds of Saw Mills

LIPPERT BITS
with drop forged groove are assured an absolute central bearing in the plate, giving uniform clearance which means longer wear. They are of even temper and uniform finish.

LIPPERT SHANKS
are drop forged and accurately milled and finished, fit sockets snugly, hold bits firmly and give lasting satisfaction. They do not split when inserted, nor break when used.

The ease with which a Lippert Saw operates makes it the most economical saw made. Lippert Saws run equally well with Tractor - Electric - Steam - Water or any kind of power.

Lippert Saws are made of the finest steel obtainable, evenly tempered and accurately balanced; and the workmanship is of the highest quality.

Martin, C. W.—Received his master’s degree in 1925 and taught several years in the University of Maine. Now in the nursery business at Old Lyme, Conn.

Miller, A. F.—At present he is Technical Assistant on the Leadville National Forest. Address: Leadville, Colorado.

Rutter, Frank—He is with the Frank Porter Lumber Company at Chicago.
TREE SURGEONS SAVE TREES

Why not acquire all the knowledge you can, and fit yourself for any contingency? KNOW YOUR JOB THOROUGHLY.

Graduate student at work on large Siberian Elm in Central Park, New York City. Pneumatic tools are used in large operations.

A short course by correspondence or tuition in our day school will give you a thorough knowledge of how to treat the many ailments of trees, besides fitting you to do or supervise pruning, spraying, feeding, and cavity work. The filling of cavities and the selection of the right material is essential to the good health of trees. Learn this profession and fit yourself either for promotion in your own field, to join our organization, or go into business for yourself as a TREE EXPERT.

Write today for illustrated pamphlet:
