Alumni Directory

EDITOR’S NOTE: We still have not established contact with all of our graduates since the war. For this reason you will probably note errors and omissions in the following directory. An asterisk preceding the name indicates that we have no record of the person’s present address. Both the Forestry Department and the Ames Forester would greatly appreciate it if you would send us the correct address of any of the alumni of whom you have knowledge unless their correct address appears below. Names not appearing in this list are those who, insofar as we know, are deceased.

QUESTIONS about Wood Preservatives?

... CHAPMAN Chemicals
provide the ANSWERS

1

"PENTA" PRESERVATIVE—Versatile wood preservative, oil soluble, for poles, posts, lumber and other wood products—controls decay and dry rot, also termites, Lyctus beetles and other insect attack. Equally effective as soil poison for termites.

2

PERMATOX WR—Water repellent, wood preservative for millwork, lumber, plywood and dry wood products. Controls decay, mold, mildew and insect attack—also repels moisture and controls dimensional changes, end-checking or grain-raising. Leaves clean, paintable surface.

3

PERMATOX 10-S—Water soluble chemical for effective and economical control of both sap stain and mold in freshly-cut green lumber. It is effective on both softwoods and hardwoods, and has won acceptance in all lumbering regions.

4

DOWICIDES—Dowicide G, for protection against decay, mold and termite attack in fibreboard and insulating materials. Dowicide G treated board is available from fibreboard manufacturers. Dowicide H, for rain resistant chemical control of sap stain and mold in green lumber.

BELSAW
ONE MAN SAWMILL

Turns Trees into Money

Model A-24
BELSAW with
48-ft. base

BOARDS, JOISTS
LATHS, SHINGLES,
TIES AND ALL
DIMENSION LUMBER

There is profit in your woodland timber. You can convert this timber into well-finished, easy-to-sell lumber products with a smooth-sawing BELSAW.

The economical, one-man BELSAW brings ideal sawmill performance to owners of small tracts. Low investment and low operating costs make bigger profits for the "small producer". The BELSAW is portable, and can be adequately powered by an automobile motor. You need no previous experience to operate it.

Write for details about BELSAW, lowest-priced one-man sawmill on the market.

There's a CARCO Winch or Hoist for every crawler tractor ever made... and an Arch for every logging job. The modern logger supplies the brain—but good tractor equipment has it all over old-fashioned muscle and weight.

Yes, Sir—and the way CARCO equipment gets logs out of the woods for loggers all over the world these days, is enough to make even Paul Bunyon and Babe, his blue ox, take a back seat. Log better, faster, easier with the right combination of Brains, and CARCO tractor logging machinery.

Paul and Babe, once the mightiest team of all—have given way to a tractor mounted CARCO Winch or Hoist teamed with a CARCO Arch or Sulky—

Fell Trees Faster

WITH A Mall Chain Saw

A newer, more powerful gasoline engine chain saw to speed the felling of timber. Lighter weight, too, for easier handling! No-stall clutch keeps engine running even if chain is jammed. Cuts at any angle by adjusting simple index lever. Capacities from 24 inches up to 12 feet. Write for literature or complete demonstration.

MALL BOW SAW

A new design to eliminate pinching of chain in the cut. Same powerful engine . . . Interchangeable with all three saws. For quicker felling of small timber and pulpwood. Capacities of 18 and 24 inches.

MALL CIRCULAR SAW

For clearing land and felling small timber. Can be operated by one man. Weighs only 200 pounds for easy use. No exposed belt drives . . . power shaft and gears fully protected Blade sizes of 30 and 36 inches . . . Capacities of 22 and 28 inches.
