This southeast research and demonstration farm is available at Iowa State University Digital Repository: http://lib.dr.iastate.edu/farms_reports/1144
2005 Project List

Windbreak demonstration
Home garden fruit and vegetable demonstrations
Grape variety trials
Blueberry soil amendment study
Nut tree demonstrations
Home garden orchard demonstrations
Nira soil tillage study
Grain pea rotation study
Oat variety trials
Wheat variety trials
Triticale variety trials
No-till soybean planting date by population study
Organic cropping system for flax
Phosphorus study in no-till corn
P-K fertility study
Strip cropping study
No-till corn planting date by population study
Corn insecticide evaluations
Low-linolenic soybean variety trial
Native plants establishment study
Phosphorus and potassium placement within tillage systems

Corn seed coating by planting date study
Sentinel plots for soybean rust
Soybean variety trials
Carbon sequestration study
Long-term nitrogen study
Kalona soil tillage study
Corn breeder trials
Potassium study in corn
Potassium study in soybeans
Valor study in soybeans
Soybean fungicide trials
SCN variety trials
Bean leaf beetle/aphid management study
Soybean foliar fertilizer study
Vertical tillage study
Native grasses demonstration
SCN/pH study
Sustainable corn breeding trial
Conventional-till soybean planting date by population study
