## Additional soybean rust resources

by *Keven Arrowsmith*

Some of the following Web sites, publications, and training opportunities will provide additional useful information about soybean production and soybean rust biology and management.

### Web Sites

#### [USDA Public Soybean Rust](#)

This site contains individual state and national maps of soybean rust scouting efforts as well as a running chronology of positive soybean rust detections, soybean rust forecasts, and other information.

#### [Iowa Soybean Rust Team](#)

This site is a resource for Iowa soybean producers and agriculture professionals to help identify, confirm, and manage the disease.

#### [Plant Health Initiative](#)

This site makes the latest soybean research information from 12 North Central land-grant universities readily available to soybean producers and agribusinesses.

#### [Using Foliar Fungicides to Manage Soybean Rust](#)

This full-color publication contains numerous illustrations, photographs, maps, tables, and charts about soybean rust fungicide spray decisions, application, and use strategies.

#### [Plant Management Network's Soybean Rust Resource Center](#)

A collection of resources from throughout the United States pertaining to the biology and management of Asian soybean rust.

### ISU Extension Publications

[Identifying, Diagnosing, and Managing Asian Soybean Rust in Iowa, SP 257](#)  
[Common Soybean Leaf Diseases and Asian Soybean Rust, PM 1989](#)

### Training Opportunities

- Early Season Soybean Management Clinic--June 29
- Crop Diagnostic Clinics--July 10-11, 12-13, 17-18, 19-20
