ISU Forestry Club Wild Game Banquet

The first Wild Game Banquet of the 1990's took place on March 31st in the Scheman Building at ISU. Thanks to generous donations of wild game and the cooperation of the food service staffs of Scheman and the Memorial Union, those attending this years event were treated to an excellent dinner featuring a variety of fish, fowl, and wild beast, as well as salads, vegetables, and other dishes.

The meal was followed by the presentation of awards and scholarships, (see following page), and recognition of the various student organizations. Guest speaker for the evening was Mark Grueber, Urban Forester from St. Louis, Missouri. Mr Grueber gave an interesting and informative talk on a nation wide tree planting program known as "Global ReLeaf". This program illustrates the extent to which foresters are involved in environmental issues.

I would like to thank everyone that pitched in, as well as the parents and supporters who attended, for making this years banquet a success. A special thanks to Chris Ball, Shannon Baughman, Leanne Swenson, and Dr. Colletti for their help getting things organized and on track.
