STUDENT NEWS

Class of 1967

Doug Salsbury pinned to Peggy Van Der Ploegg.

Tom DeMeyer pinned to Mary Shinners.

Class of 1968

A son, James Scott, was born to Mr. and Mrs. James L. Robertson on March 23, 1967.

Class of 1969

A daughter, Kristine Kay, was born to Mr. and Mrs. Don King on March 11, 1967.

Douglas Hammill became engaged to Carla Willey.

Graduating

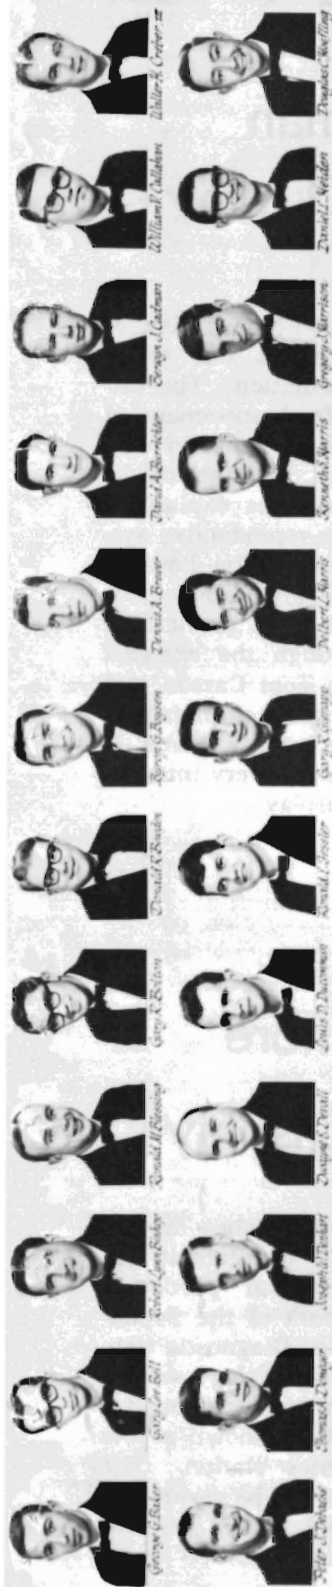

Seniors

The College of Veterinary Medicine will confer the degree of Doctor of Veterinary Medicine upon sixty-six graduating seniors on May 27, 1967.

Names and mailing addresses of each will appear in the next issue of the *Iowa State University Veterinarian*.

Baker, George Gardner
Bell, Gary Lee
Bishop, Robert Lynn
Blessing, Ronald Melvin
Bolton, Gary Robert
Bowden, Don Robert
Boysen, Byron Gene
Brewer, Dennis Allen
Burrichter, David Paul

Veterinary Medicine

1967
IOWA STATE UNIVERSITY

Phi Zeta

Gamma chapter of Phi Zeta, honorary society of Veterinary Medicine, held its annual initiation banquet April 12, 1967. Twenty-two new members were initiated into the society.

Both high scholastic standing and high personal standards are necessary to be eligible for membership in Phi Zeta. Seniors must rank in the upper 25 per cent of their class scholastically, and juniors must rank in the upper 10 per cent of their class.

Those initiated were:

Juniors

James D. Denhart
Sylvia Kay Harken
Mark D. Rogers
John M. Terry
Ronald LaVern Thompson
Thomas Thurber

Seniors

George Gardner Baker
G. L. Bell
Ronald Lee Fessler
Douglas C. Hoeffling
John W. Jinkins
Gregory A. Petkus
Bruce Jewel Roningen
Charles J. Ruehle
Raymond P. Woody

Graduate Students

Sigmund J. Cysewski
Billy L. Deyoe
George Lambert
Arlo E. Ledet
Keith R. Rhoades

Faculty

Norman Frederick Cheville
Lawrence O. Mott

Freshman Veishea Display

"In the beginning . . .", a display of the reproductive system, is this year's freshman Veishea presentation. The display will include both fresh specimens of reproductive tracts and explanatory diagrams as well as oral dissertations by freshman veterinary students explaining the various parts of the reproductive systems of domestic animals. The homologous parts in the male and female animals will be presented from the site of gamete production through the external genitalia. According to Tom Carson and Richard Collins, the display co-chairmen, everything appears to be going well and on schedule to produce another very interesting freshman Veishea display.

Sophomore Veishea Display

This year's Sophomore Veishea display is entitled "Brucellosis". The exhibit will demonstrate the relation of particular phases of the course work of the Sophomore year to this disease. Diagnostic tests will be stressed in the bacteriology section of the display. Experimental demonstrations and diagrams will be shown at the physiology and obstetrics station. The pathology of brucellosis will be covered in two stations. The display will be concluded by the pharmacology section and a summary.

Junior Class Trip

On Sunday, February 26, forty-six junior students and faculty representatives, Dr. William Adams and Dr. Richard Marshall, left for Indianapolis, Indiana, to tour the Eli Lilly and Company plants and to visit the Pitman-Moore division of the Dow Chemical Company. Our group was the guest of Eli Lilly and Company until noon Tuesday. During this time we toured the Greenfield Laboratories, at Greenfield, which are involved with research and control, and the production facilities in Indianapolis.

Tuesday afternoon the Pitman-Moore division of Dow Chemical Company became our host. We were guided through their research and control units that afternoon, followed on Wednesday by a tour of the production facilities. We were also guests at the Indianapolis Motor Speedway including a tour of the track, compliments of the Pitman-Moore Company.

Thursday we traveled to Kalamazoo, Michigan. On the way the tour stopped at Lafayette, Indiana for a look at the veterinary school of Purdue University. In Kalamazoo, our host was the Upjohn Company. Saturday, our group left for Ames, stopping in Chicago to visit the Lakeside Animal Hospital on the way home.

Omega Tau Sigma

This May will mark the second anniversary of Omega Tau Sigma's chartering at Iowa State University. During this time, the veterinary fraternity has made considerable advancements towards its goal of becoming a part of the veterinary student, the veterinary college and Iowa State. A significant amount of work has been accomplished and an even more sig-

nificant amount of planning has been undertaken in order that each of the members can be proud of his organization.

The growing pains of the fraternity are rapidly being healed giving Omega Tau Sigma more opportunity to concentrate on other aspects of the fraternity which are of benefit to its members as veterinary students.

This year showed twenty-six men coming into Omega Tau Sigma. This group displayed much support and enthusiasm during their pledging period which has continued during their active membership. Planning is now under way to fill the thirty-one vacancies which will be left by the graduating seniors. At the spring dance honoring the seniors, Charles Ruehle was presented with the Kappa award for outstanding service to the fraternity.

At the end of winter quarter, election of officers was held. The following men will hold office for the coming year:

President Mike Tierney
Vice President Ken O'Tool
Treasurer Pete Haberly
Secretary Allen Sill
Pledge Trainer . . . Dwight Van Genderen
Historian Marshall Fox
Sergeant-at-Arms Doug Hildebrand

Drs. John Munnell, Jerry Johnson and William Adams were chosen as faculty advisors.

The chapter house has received a great deal of attention since remodeling was started last summer. At present, the living room is completely refinished, and the kitchen is in full operation with three meals a day. The front entrance and lawn have been revived and are quite appropriate.

This coming fall, Omega Tau Sigma will host the national convention with nine chapters representing eight states and one from Canada being present. The convention will be November 2, 3, and 4, 1967, and will allow veterinary students from other colleges to see Iowa State.

With two years behind and many years ahead, Omega Tau Sigma would like to take the present opportunity to thank those who have contributed their support to our organization.
