Crops, Soils and Pests short courses for 2004

Abstract

The Crops, Soils and Pests Short Course series offers agribusiness professionals and producers in-depth training on a variety of topics. By focusing on a specific management topic, students have more time to fully understand the material presented. Class sizes are limited to allow more student-instructor interaction. Classes are offered sequentially to allow students to attend more than one course.

INTEGRATED CROP MANAGEMENT

Crops, Soils and Pests short courses for 2004

The Crops, Soils and Pests Short Course series offers agribusiness professionals and producers in-depth training on a variety of topics. By focusing on a specific management topic, students have more time to fully understand the material presented. Class sizes are limited to allow more student-instructor interaction. Classes are offered sequentially to allow students to attend more than one course.

For individuals preparing to take the Certified Crop Adviser (CCA) exam, these short courses provide an excellent opportunity to brush up on specific topics. Each course is approved for CCA credits (see below) for those already certified.

Dates and locations for each course are listed below. All participants must be pre-registered. No walk-in registrations will be allowed.

For questions about this series or other Agribusiness Education Programs, contact our office at (515) 294-6429 or email us at aep@iastate.edu. You can also find more information and registration materials online at <http://extension.agron.iastate.edu/aged>
