Information on Experiments in Previous Annual Reports

Phosphorous and Potassium Placement for Corn and Soybeans Managed with No-Till Chisel Plow Tillage .......................................................................................................................... ISRF00-13
Hybrid, Maturity, and Bt Effects on Corn Yield in Iowa .......................................................................................................................... ISRF00-13
Alfalfa Breeding and Variety Research Results .......................................................................................................................... ISRF00-13
Emergence Characteristics of Several Annual Weeds .......................................................................................................................... ISRF00-13
Stalk and Ear Diseases in Bt and NonBt Corn Hybrids in Northeast Iowa .......................................................................................................................... ISRF00-13
Manure and N-Management Systems Effect on Groundwater Quality .......................................................................................................................... ISRF99-13
Stand Reduction Effects on Corn Grown at High Population Densities .......................................................................................................................... ISRF99-13
Long-Term Phosphorus and Potassium Fertilization of Corn and Soybeans .......................................................................................................................... ISRF99-13
Row Width and Variety Effects on Soybean Yield .......................................................................................................................... ISRF99-13
Transport of Chemicals Through Fractures in Pre-Illinoian Till .......................................................................................................................... ISRF99-13
Adjusting Planting Dates to Manage Interactions Between Transgenic Bt and NonBt Corn, with Emphasis on the European Corn Borer and Natural Enemies .......................................................................................................................... ISRF98-13
Organic Versus Conventional Farming Systems .......................................................................................................................... ISRF98-13
Effect of Row Spacing and Tillage on Soybean Yield .......................................................................................................................... ISRF97-13
Management of White Mold by Tillage, Row Spacing, and Varieties .......................................................................................................................... ISRF97-13
Conversion of CRP to Corn and Soybeans .......................................................................................................................... ISRF96-13
Alternative Management Systems for Crop Production, Soil Quality, and Environmental Protection .......................................................................................................................... ISRF95-13
Hydrogeology and Water Quality Studies in the Devonian Aquifer .......................................................................................................................... ISRF94-13
Evaluation of Tillage/Crop Rotation Effects on Groundwater Quality .......................................................................................................................... ISRF93-13

Acknowledgments

The following companies and individuals contributed to research or field day activities at the ISU Northeast Research and Demonstration Farm. Their support is greatly appreciated.

Agribusiness Supply Company
Agriliance, LLC
American Cyanamid Company
American Shelters–Agri-Services, Inc.
Asgrow Seed Company
BASF Corporation
Bayer Corp.
CDS John Blue Company
Case–DMI
Demco–Dethmers Mfg. Company
DeKalb Seed Company
Dennis Weibke
Dow AgroSciences LLC
Farm Credit Services of America
Floyd County Road Department
FMC Corporation
Gene Nelson
Golden Harvest Seeds
Great Plains Manufacturing, Inc.
ISU Extension
Kinze Manufacturing Company
Loveland Industries
Monsanto Chemical Company
Pioneer Hi-Bred International
Polaris Foundation
Poppe Farms
Paul Vetter
Stine Seed Company
Superior Lumber
Swartzrock Implement
Syngenta Crop Protection-Novartis Seeds
Zeneca Agricultural Products
