A new support option has been established for the Iowa State University Veterinary Medicine Endowment in memory of Dr. H. Hugh Dukes. A fund of $150,000 will be raised for the support of D.V.M. graduate students majoring in veterinary physiology. The recipients of these fellowships will be expected to emulate the high scholarship and professionalism exemplified by Dr. Dukes. He was considered as the Dean of Veterinary Physiologists and was a worldwide friend of veterinarians. Iowa veterinarians named a reading room in the headquarters building of the Iowa Veterinary Medical Association in honor of Dr. Dukes where his professional memorabilia are displayed.

Dr. Dukes provided a rich heritage for Iowa State University and this fellowship is a fitting memorial to his dedicated career.
