**Crime:**

Tyrus McGee to receive punishment from athletics

By Dean Barlowe Gill

Daily staff writer

IJSU basketball player Tyrus McGee was suspended from athletics and all team activities Wednesday after he was arrested early Tuesday morning. McGee was charged with third-degree assault. He was arrested at 8:22 a.m. in downtown Ames and booked into the Story County Jail.

Research explores repairing of DNA

By Daniella Ferguson

Progressive research on an important protein pair in DNA repair could one day lead to new medical uses. The protein, named Mre11/Rad50, has many applications, such as stress in addition to plants and animals. The protein also helps programs in the DNA structure breaks. Scott Nelson and his team are not studying the enzyme to be used for direct medical applications but said the information found in the molecular structures can help design new enzymes.

“We’re focusing on fundamental understanding on how the protein works on the molecular level, which can then be applied to identify regions of the protein which might be good sites for design of a drug, but we’re not at that stage,” Nelson said. “Pharmaceutical companies might use the research to help design the drugs.”

Nelson has been collaborating with researchers from the University of California, Medical School and St. Jude Children’s Research Hospital. The investigations from Duke take mutations in repair from Nelson’s lab to study how they affect both the re- pair process itself. The research also examines the effect the mutations have on the protein.

Candidates for Iowa House debate debt

Libertarian tries to balance out political field

By Dan Maierfensie

With the election season in its third month, the local candidates for Iowa House District 41 and 46 met in a debate on how to help students get out of debt and to promote future job opportunities during a local forum Sunday at the Collegiate United Methodist Church.

While the minimum wage, public education and health care were the main topics for the four candidates from both parties, the candidates also covered the issue of how to help students.

The candidates — Eric Cooper, a successful programmer of biology and neuroscience at Iowa State — said he believes in trying to get the students involved.

“Students have the opportunity to make it happen, and it’s not just the government’s problem, it’s the country’s problem, not just the students’ problem,” Cooper said.

The candidates debated the issue of how to help students, how to balance out the political field and what the future of the government will be.

**SPORTS**

TCU gets swept away

Quarterback Shale Jantz gets tackled during the game against Texas Tech on Saturday at Jack Trice Stadium. He finished the game 10-20 passing for 131 yards, 1 TD, 3 INT, 1 Fumble.

**OPINION**

Vote with due diligence

By Jake Cullum

Weath

“Obviously, Steele Jantz was not at his best during the game against TCU. In fact, he had a miserable game statistically.”

By Jake Cullum

The information in the log comes from the ISU and City of Ames police departments’ records. All those accused of violating the law are innocent until proven guilty in a court of law.
contributed to it. But we don’t need to jump on that wagon right now, and start believing that.

After the game, Rhoads said no immediate decisions would be made whether to start or bench Jantz, who is now 6-5 as a starter with all the fourth-quarter against 12 opponents for this week’s contest.

“Jantz was not made available for comment after the game.”

“The context against the Badgers (4-0, 1 Big 12) raised different concerns than it did the past two seasons, when they beat Penn State.”

“Tommy Tuberville’s first-ever victory against Rhoads, who was then defensive coordinator at Arkansas in 2000.”

“We had a little sound [music] but the music was rather soft we were all able to hear down in the locker room.”

“Steele Jantz said: “Your mom called, ‘If I didn’t [believe that], I wasn’t going to mess with you.’”

“Every time that Steele is flushed out of the pocket and there were times that Steele is flushed out of the pocket.”

“Steele Jantz didn’t believe that.”

“Rahms said: “Quarterback’s position on any football team,”

“Researchers

Scott Norris, assistant professor of biochemistry, biophysics and molecular biology, worked on the research project.”

“The research Norris and Barford study is essential to understanding how to repair DNA, especially when researchers need to sometimes break down the DNA for cancer treatments.”

“Several cancer drugs manipulate of cell cycle, treatment: any single cell or chromosome, causes cell of doubling in the DNA.”

“Several DNA breaks that the tumor cell

“Cay says: “Your mom called, get your flu vaccine.”

Give Regents your thoughts on set-asides

The Iowa Board of Regents took an early vote toward instituting tuition set-asides on Friday. They closed out the week with an announcement that the board will vote on the issue at its meeting Wednesday, Oct. 17. It will accept feedback from anyone willing to give it in person or by email to be considered alongside the tuition of students so other options can be researched. It’s a system where financial aid does not come from a student’s classmates.

As the most prominent of the Regents taking a careful, considered approach to eliminating the tuition of students so other options can be researched to a system where financial aid does not come from a student’s classmates.

Editorial

Straube bounces back

Newcomer TCU gets swept away by ‘aggressive’ play

By Cory Weaver

iowastatedaily.com/sports

Defensive linemen Jake McDonough and Keith said the loss is a little heavier than some others.

When Jamie Straube, a senior middle-back for Cyclone Volleyball, arrived at Hilton Coliseum on Sunday to face Ohio State, it was difficult for the ISU defense to keep up with any position.

The Stumbling Lineman: Jake McDonough said being on the field as much as the defense was the most difficult.

That aggressive mindset was evident Saturday. Of Straube's 15 kills, a handful came when she called for the ball and wanted Straube to take it herself. Hahn said Straube's play translated to kills for her opponents as well, making her dominant match even better than the final score.

“Even if she's not set the ball, she's blocking the block, and that's leaving [Mackenzie] Bigbee wide open or that's leaving [Kailey] Hahn wide open on the outside, so that's really big,” Hahn said.

After the match, one of the big things Straube emphasized was the need for Ohio State to completely out of the game.

Strong pass play translated to kills for her opponents as well, making her dominant match even better than the final score.

“Even if she's not set the ball, she's blocking the block, and that's leaving [Mackenzie] Bigbee wide open or that's leaving [Kailey] Hahn wide open on the outside, so that's really big,” Hahn said.

Caine Westergard garnered the spotlight this past August as she watched her designs hit the runway at Omaha Fashion Week. Westergard, junior in apparel, merchandising and design, was given the opportunity of a lifetime when she joined hands with Jeff Hanson. Hanson, a legally blind 18-year-old, after developing eye cancer, began painting abstract images for philanthropic efforts.

In July, Nick and Brook Hudson, the founders of Omaha Fashion week, chose Hanson as a featured designer in the show. Through connections, Hanson reached out to Westergard for help with this opportunity, and with only three weeks before the big day, Westergard took on the task of creating three garments for the show that stood as a canvas for Hanson’s paintings.

Westergard was given hundreds of Hanson’s paintings as inspirations to choose from for her designs. Along with a full-time internship with Wes & Willy, Westergard had her hands full but was able to complete the pieces, later mailing them to Hanson for hand-painting.

Once Westergard arrived in Omaha, Neb., for the show, she was able to fit her dresses to models and decide on the best hair and makeup to showcase her designs.

The runway at Omaha Fashion Week was not your typical 72-foot runway — rather, it was the length of a football field, giving the audience more of an opportunity to really look at the garments and show off the designs.

Hanson’s organization, the Jeff Hanson Foundation, has benefited many causes. Since age 14, he has raised and donated over $700,000. His goal by age 20 is to make it more than $1,000,000. The money made from this event will go to the foundation, which in turn donates it all to either the Make-A-Wish Foundation or the Elton John Aids Foundation.

Omaha Fashion Week has invited both Westergard and Hanson back for next year. They are now working together to create a full spring line consisting of eight to 12 pieces that will showcase Westergard’s designs and Hanson’s paintings. Omaha Fashion Week has also offered Westergard the incredible opportunity to have her own full collection in the show, and she will further design to raise money for the Jeff Hanson Foundation.
