Race issues addressed

Iowa State to host annual conference

By Emily Dews
@isowastatedaily.com

SU community members will discuss climate race and ethnic issues at the 14th Annual Iowa State Conference on Racial and Ethnic Issues on Tuesday, April 9th. The conference will take place on Friday from 1:00 to 5:00 p.m. at the Memorial Union.

ISCORE is a multi-ethnic mixing conference and forum that promotes student leadership skills.

Financial aid

Grant limits put pressure on students

By Meghan Johnson
@isowastatedaily.com

Restrictions added to the Pell Grant in fall 2012 will have an effect on rural area colleges, specifically community colleges.

One restriction includes changes to the Estimated Family Contribution income levels. The maximum level was changed by Congress from $63,050 to $23,050.

If students pass this first restriction, they are allowed to receive the grant for 12 semesters. After the first semester, students must pass a test, which includes a test on math, reading and writing.

GLASS

Reflections of Erin Wilgenbusch and member of the Gaffer’s Guild. "The policy to make one, use one," said Steve Martin, distinguished professor of materials science and engineering and faculty adviser of the Gaffer’s Guild. "And the kids are really good about it."

Gaffer’s Guild offers glassblowing skills

By Daniel Bush
@isowastatedaily.com

Blowing glass is a form of art that takes practice to perfect. The glassblowing studio on campus has been used to perfect that art within the Gaffer’s Guild.

"Your imagination is your limit," said Steve Martin, distinguished professor of materials science and engineering and faculty adviser of the Gaffer’s Guild. "And the kids are really good about it."

ISU students overreact to snowstorms

By Michael Glawe

        L et’s cut to the chase. ISU students attempted to wring some sympathy down a discussion concerning the efforts of the Burlington Northern Santa Fe (BNSF) Railway with Regent Rastetter’s AgriSol cooperative in the creation of the Iowa Agriculture Development Project in 2012.

One concern was published in an article that was not syndicated or distributed to any of the students at hand (which is a response to these concerns, uni-

In an article dated April 20, 2012, in “Guiding Principles for AGRICOLtural Development: The BNSF Experience” in the Iowa, the authors state:

"There are real people, too, real people who might be left out of the discussion, who might already have their hands on the touches of our weather. Before people start getting too involved, before we start trying to explain our viewpoint. In fairness to the students, new adults, and college students who are working toward a new, dual mandate in community and the science of the problem of snow," the student in community and the science of the problem of snow

The ISU track and field team will host the Big 12 Conference tournament this weekend. The events start Saturday at 8 a.m. at Lied Recreation Athletics Center.

The Cyclones love competition from in-state rivals Iowa, Drake and Northern Iowa. Other teams competing Saturday are Arkansas, Arizona State, Boise State, Houston, Kentucky, Minnesota, Mississippi, Nebraska, Northern Iowa, Tennessee and UCLA.

“The Cyclones are so competitive it’s difficult to multiple meets this weekend. A group of distance runners including Dani Stack and Meaghan Nelson will be traveling to Notre Dame in hopes of putting forth a last-ditch effort to qualify for nationals. Ejiro Okoro will join them at Notre Dame, running in the 400-meter event. Iowa State hopes to qualify at least one more individual.”

For more information on Iowa State athletics, visit iowastate.edu/sports.

The No. 12 ISU hockey team will try to move further into the tournament as a loss in the final seconds to No. 6 Kansas in overtime despite a fourth heartbreaker to a list that includes Dame in hopes of putting forth a last-ditch effort to qualify for nationals.

With the 4x400 relay, Meaghan Nelson in the 1500-meter, and Ejiro Okoro in the 800-meter, the Cyclones have had a successful indoor season. The 4x400 relay is the first indoor meet for the cyclones.

A year ago, they lost in the second round to No. 1 Oklahoma after a first-round bye. That year the Cyclones will try to move further into the tournament.

The No. 12 ISU hockey team has been looking for a second national title. This year, the Cyclones will try to move further into the tournament.

The Cyclones are sending athletes to multiple meets this weekend. The list includes Dani Stack and Meaghan Nelson.

Iowa State understands what is at stake in the final two games of the regular season. A second-place finish is still up for the Cyclones (20-6, 11-5 Big 12) as they travel to TCU on Saturday to take on the struggling Horned Frogs (8-19, 1-15). Coach Bill Fennelly said his team will need to focus on one important aspect.

“I think the biggest thing is creating a level of energy and enthusiasm with your team,” Fennelly said. “It’s a venue that their crowds haven’t been very big at and I think it’s going to be a different environment than our kids are used to.”

Junior forward Hallie Christofferson sided with Fennelly, believing her team will have to create their own energy in an arena that had 2,165 fans at its last game. Another adjustment for the Cyclones will be preparing for a TCU team that plays predominantly zone defense.

“There’s a couple different plays,” Christofferson said of her role against zone defenses. “Sometimes it’s run baseline and sometimes it’s stay out on the perimeter and shoot 3’s (Brynn Williamson) and I am capable of.”

Williamson said the key to playing against a zone defense will be to look inside to the post players, who will then attempt to kick to outside shooters.

“Hallie will probably get a lot of good looks,” Williamson said. “[TCU doesn’t] have a lot of size to them and our post players can either get layups or if they do get the pressure, just kick it out. It’s a really good assist night for them.”

In traveling to Texas for the fourth time this season, Iowa State is still in search of playing a “complete game.” This means that the team will need to score well, take care of the ball, defend and stay out of foul trouble.

“I think most coaches would look to it if it’s not going to be 40 minutes, then the minutes that it’s not cannot be the minutes that is going to cost you in losing the game. Maybe you don’t play great for four or five minutes, but you don’t hurt yourself.”

The Horned Frogs, in their inaugural season in the Big 12, have mustered one conference win, a 64-63 victory against Oklahoma State. Williamson said the key to playing a team like TCU is to make sure the team is well-rested.

“I think it’s just going there and when we come back, it’s going to be a completely different mindset for a game,” Williamson said. “It’s just one of those things you’re going to have to go over in this league. Your defense changes and your offensive plans changes.”

Iowa State and TCU will tip off at 4 p.m. Saturday in Fort Worth, Texas, at Daniel-Meyer Coliseum.
Reclusive billionaire Howard Hughes put his engineering skills to work in 1947 when he cast Jane Russell as the lead in his film The Outlaw. He designed a special half-cup, underwire, and轮廓ized brassiere to highlight her, talent.

The “No animals were harmed…” disclaimer listed in film credits by the American Humane Association doesn’t just cover cute and cuddly animals; they also have strict rules regarding snakes, rats and insects.
