The sale will consist of art from student organizations, faculty members and alumni. The proceeds will help to fund programs.

A majority of the proceeds will be used to decorate Buchanan Hall. Students create the art in a group setting, and the sale is open to the public.

The sale will continue on through Friday, selling from 10 a.m. to 5 p.m. on Wednesday, Thursday, and Friday, taking place from 10 a.m. to 5 p.m. on Wednesday, Thursday, and Friday.

Police Blotter:

April 19

Burglary

A tipster called police to report a burglary.

Stolen items: None reported.

Larceny

A man reported that he had lost his wallet.

Stolen items: Wallet with $50 in cash and a set of keys.

Theft

A woman reported that she had lost her cell phone.

Stolen items: Cell phone.

If you have any information about these incidents, please contact the ISU Police Department at 515-294-1400.

April 20

Burglary

A person reported that their home had been burglarized.

Stolen items: Jewelry and electronics.

Larceny

A woman reported that her bicycle had been stolen.

Stolen items: Bicycle.

Theft

A person reported that their wallet had been lost.

Stolen items: Wallet.

If you have any information about these incidents, please contact the ISU Police Department at 515-294-1400.

Sexual Assault resources

Sexual assault resources are available for students, faculty, and staff who have experienced sexual assault. Contact the Sexual Assault Resource Center (SARC) for support and guidance. SARC is located in the Student Center, Room 205.

Judicial process

If a student is accused of violating ISU's sexual assault policy, they may be subject to formal disciplinary action. The process includes an initial meeting with the accused student, a hearing, and a decision from the ISU Judicial Board.

If you or someone you know has experienced sexual assault, please reach out to SARC for support and resources.

Additional information:

- ISU's Sexual Assault Policy can be found online.
- SARC offers confidential support and advocacy.
- The ISU Police Department can be reached at 515-294-1400.
- To report an incident, contact SARC at 515-294-7000.
Changes will begin for honors students

Nutrequirements aim for diversity in students' classes
By Mika Randem
@iowastatedaily.com

Beginning in the fall of 2014, engineering honors students will be required to complete 10 credits of honors work, including a capstone project. This requirement will replace the 15 credits of honors work previously required.

"We really need to provide more opportunities to appeal to students," said eleventh-year engineering professor Katelyn Forbes, chair of the engineering honors committee and associate professor in agriculture and bio- systems engineering.
The three categories include breadth, depth and community and professional development.

"Breadth means we want them to take classes outside of engineering. Depth involves really digging into your chosen discipline. Community and professional development can include things like research or majoring in something outside of engineering," Forbes said.

Within each category, a student is required to earn 3 credits of honors work. An example of an honors class would be an honors seminar, project or symposium.

A moderate amount of breadth would involve taking a class in an engineering field and another in a non-engineering field.

The new system will place the current points-based system, used by Katelyn Forbes called as confusing, and limiting student ability to branch out without sacrificing honors credits.

"When we talked to students, a lot of what shocked them would say they studied abroad and then that amazing or that weak psychology class and it was fascinating. The new system didn't prevent you from doing any of this," said Amy Kaleita-Forbes, chairwoman of the engineering honors committee and associate professor in agricultural and biosystems engineering.

Within the new system, students will have a chance to complete their requirements by participating in study-abroad opportunities or becoming a community peer mentor, among other options.

"What we would like for is for them to really define what the things they already want to be doing," Forbes said.

While making the changes, Forbes said her biggest challenge this summer, the College of Engineering will post the requirements and allow students to choose what they are interested in doing and desired to reward the requirements to hopefully be more aligned with the things that make them so excellent," Kaleita-Forbes described as confusing, and limiting student ability to branch out without sacrificing honors credits.

"I don’t know that there are a whole lot of students for whom this is definitely going to be problematic. I've seen a lot of students who are already following these meeting these requirements who would’ve really been challenged to exceed anything in doing a "Katelyn Forbes said.

"Any design can be submitted to the cabinet or the awards and the selected designs will be rejected without full consideration," said Katelyn Forbes, chairwoman of the engineering honors program.

"It is a club designed to allow its participant to have fun and be creative while promoting art and education and cultural understanding. It is for this reason primarily that I would recommend other students to join or participate in the club," she said.

"They don’t have to be great at painting to join, and we need one or anyone who wants to try should help!" Forbes said.

Those who would like to see some of the work of Maps can go to the basement of Buchanan Hall, when their first mural can be viewed.
Opinion

All students busy near end of semester

Dead Week is one way and semester in which students find the last opportunity to relax. In the first above, many students are probably waiting for their last week of classes, writing term papers, avoiding events on campus and making plans for the last few days. Throughout the last weeks of the semester, many students often cope up with which their department’s students have been working hard and might even neglect their role as other students, their professors, their parents or their employers. “Oh, I’m sure for the December Break.” That statement is one that is said by many people or short lived. Indeed, if you promise that you’ll come back to campus the day before the first day of classes that you can be judged on the fenced on their hard work, not getting the task completed and all the requirements in grades. That frame of mind is a must of a college or university student and an admission to a graduation ceremony.

Generally, the pressure of exams, one major or another can be judged on the fenced on their hard work, not getting the task completed and all the requirements in grades. That frame of mind is a must of a college or university student and an admission to a graduation ceremony.

Equity

Feminism holds a negative connotation with men and women, even though the definition is about equality. Women’s struggle for equal rights and opportunities was the result of a long, and sudden. Haley Gross argues that women’s rights are still undervalued.

Experiences

Becomes a PhD

When the spring semester comes to a close, the last day of class isn’t the only day in which students will be busy. Students will be preparing for final exams, completing their last projects and studying for a test. The pressure of exams, one major or another can be judged on the condition that they fulfill their requirements.

McBeth changes role

Leaves mark on Cyclone success from sidelines

By Dean Bohen-Goll

Iowastatedaily.com

Austen McBeth cheers on his teammates during the game against Oklahoma on Feb. 19 at Hilton Coliseum. McBeth spent a lot of time this season off the bench and also helping the coaching staff by calling plays, looking over film and identifying the other team's tendencies.

The Cyclones' season ended last Thursday with a loss to Kansas, closing out the spring with a 8-15 record.

McBeth led the team onto the court for every game. He was the first off the bench to celebrate a big play. He was able to give tips to Chris Beetle before every single game, not just past games. Coach Paul Rhoads attributed McBeth's success to his role in the NCAA tournament. Eventually McBeth started moving things from a coaching perspective, opening team tendencies and other plays when they were running facing games, then calling them out to his teammates on the floor.

You could even say McBeth was the coach on the bench — more so than anyone else. "I started working with [graduate assistant] throughout the season calling up shots on the films for practice," McBeth said. "I've almost been more of a coach than a player." McBeth now has applied to seven schools to play basketball and is listed as a transfer to any school. He never hit a big shot and never made a clutch defensive play. In fact, he was the only player on the roster not to score against the Hawkeyes.

Fun Facts

King County, Washington, managed to keep its name while changing its namesake. Originally named for William King, it was renamed in 1986 for Dr. Martin Luther King, Jr.

The tune to “Happy Birthday” was written by church organist Mildred Hill as a popular song for school children; it was originally published as “Good Morning To All.”

Leatherback sea turtles have fleshy backward-pointing spines in their throats so that jellyfish, their favorite food, can be swallowed more easily.

The first cellular phone measured 9” x 5” and weighed 2.5 lbs. It was developed by Dr. Martin Cooper, who worked for Motorola.

May Day baskets for the food lover in your life. Here are a few ideas of creative baskets for the food lover in your life.

Assemble thoughtful May Day baskets

Mexican Black Bean Pizza with Cauliflower Crust

- 1/2 cup red & green bell pepper, finely chopped
- 1 large onion, finely chopped
- 2 cups chopped broccoli
- 1 jalapeno pepper, finely chopped
- 2 tablespoons green onions
- 4 ounces fat-free cream cheese
- 3 cups chopped broccoli

Broccoli is an excellent source of vitamins C and K. In just one cup of the vegetables sprinkled with 14 percent of your recommended daily intake. Vitamin K is a fat-soluble vitamin, meaning it won't get absorbed unless it's consumed with fat. Eating your veggies raw may mean you're not getting all the nutrients you could be. Other fat-soluble vitamins include vitamins A, D and E. Don't overdo it on the ranch dressing, however: One serving of ranch dressing is two tablespoons.

Don't feel guilty about dipping your broccoli into ranch dressing. Vitamin K is a fat-soluble vitamin, meaning it won't get absorbed unless it's consumed with fat. Eating your veggies raw may mean you're not getting all the nutrients you could be. Other fat-soluble vitamins include vitamins A, D and E. Don't overdo it on the ranch dressing, however: One serving of ranch dressing is two tablespoons.

Mexican Black Bean Pizza with Cauliflower Crust

- 1 jalapeno pepper, finely chopped
- 2 cups chopped broccoli
- 1/2 large cauliflower head
- 1/2 cup red & green bell pepper, finely chopped
- 1 large egg, yolk removed
- 1 cup shredded mozzarella cheese
- Salt to taste
- 1 fresh lime, juiced
- 1/2 teaspoon garlic powder
- 2 cups. Place the cauliflower in a microwave-safe bowl and heat for 6-8 minutes or until the cheese melts and the crust is golden brown.

In a bowl, combine the black bean, jalapeno pepper, red onion, bell pepper, lime juice and salt. Mix the ingredients until well-blended and serve cold.
