**ISU squad helps out special needs youth**

By Katie Emerick  
<iowastatedaily.com>  
March 4, 2013

The ISU Dance Team realized the chance to volunteer with a program that gives special needs children the opportunity to dance. On Sunday, the dance team worked with Dance Without Limits, a program through ballet company Ballet Des Moines that was created by Monika Peltz, a Des Moines dance teacher, and Ann Unger, a pediatric orthopedic surgeon.

"We started about three years ago by starting a little ballet class that was not physical therapy but was actually fun and a chance for every kid to dance," Peltz said. "The idea of the program was not only to keep out those kids and make them feel the happiness that comes along with dancing but also to give other dancers the opportunity to volunteer and to help others through dance."

“We wanted dancers that are in a ballet company to volunteer from anywhere in the community to have a chance to volunteer as a partner with the students of this class, because we try to give every student a one-on-one," Peltz said. "Dancers definitely cross-don't benef-  

ed them not just for the students, but also for the volunteers to learn about teaching and dancing.”

For 20 years, Peltz has taught about teaching and giving," Peltz said. "For 20 years, Peltz has taught ballet classes that allow people to dance, and one of her old students is now a physical therapist.

ISU squads put a lot of time into the community, both to Ames and to the Des Moines area, and one of her old students is now a physical therapist."

"Introv...
The athletes on the ISU, track and field team who were unable to qualify for the NCAA Championships get another chance at a team event this weekend.

The NCAA Qualifier meet was hosted at the Lied Recreation Center on Saturday and hosted 36 teams, including in-state schools Iowa, Drake and Northern Iowa.

The athletes who have already qualified for the NCAA Championships did not have to compete, and get an opportunity to watch the meet begin March 17 in Fayetteville, Ark.

"The men, the men get their last chance... if, for whatever reason, I take a break I am back ready, but we will see Friday," said distance runner Edward Beales.

Since many of the top competitors were not competing in this meet, senior Landmarks Hampton tried to take advantage of that. Hampton won the men's weight throw with a mark of 65.48-13, which was not enough to qualify for the NCAA Championships.

The top 16 athletes in each individual event are invited to the NCAA Indoor Track and Field Championship along with the top 12 relay teams. Hampton's best distance on the season currently sits right at the line for the meet.

Distance runner Elyse Brouillette placed fifth in the mile run with a time of 4:47.27. This was Brouillette's best showing to date and a five-week improvement. Hampton is also the top seed qualifier in the mile run with a time of 4:34.47.

The world record for the mile is 3:50.41.

In other events, sophomore Maddy Becker placed sixth in the women's weight throw with a mark of 16.87-0, which was a five-week improvement.

Hampton's best distance on the season is 58.67 meters, a school record in the 200-meter medley.

Seniorthalm Wistey broke the 100-meter medley record with a time of 1:01.35, which was an improvement.

Both Bre'Loeschke and Imelda Fragoso got another chance at it but were unsuccessful in their attempts.

"I am dissatisfied how it went today, but I was pleased with my credentials for the indoor season," Jeuschede said. "I was happy with both of my 100-meter throws I had in the first week, but I think I could have gone a little further."

The athletes who did not qualify for the NCAA Championships will get a few weeks off before the outdoor season begins.

"The indoor event athletes will begin their outdoor season March 29 and 30 at the Cal Multis in Berkeley, Calif."

The rest of the ISU team will begin their season March 29 and 30 in Austin, Texas, for the Texas Relays or at The Big East, for the Indoor Championship.

"We are going to take a little break before we start building up for outdoor season, and I feel like we are really in shape for this year, so hopefully we can get it on track and be successful," said senior Jeuschede.

Girl's Club of Story County has made it "the night I have anticipated," Wiggins said.
They have put on a nice event," said Peter Orazem, an attendee. "Boys & Girls Club is just a great place that provides so many options for everyone in Ames."

"The sixth annual gala and 50th anniversary celebration collected approximately $30,000, which will go directly to the Boys & Girls Club of Story County.

Geff Gescheidler, director of the Boys & Girls Club of Story County, spoke often throughout the night. He told of the history of the Boys & Girls Club in Ames, beginning with when it started in 1963 and how it has become what it is today. He recognized past and present board members who were in attendance and expressed gratitude for all the donors have done for the club.

A special club member, 13-year-old Levi Wiggins, shared his experiences with the audience and said of the Boys & Girls Club, "Great futures start here." Being apart of the Boys & Girls Club of Story County has made him "the man I have wanted to be," Wiggins said.

"They have put on a nice event," said Peter Orazem, an attendee. "Boys & Girls Club is just a great place that provides so many options for everyone in Ames."

The sixth annual gala and 50th anniversary celebration collected approximately $30,000, which will go directly to the Boys & Girls Club of Story County.

"Tonight was definitely more successful than past events, and it will hopefully continue to grow with more successful years to come," Gescheidler said.
