David Jiles’ career has been a work in progress for him. He discovered his love for physics at a young age in London, but it was his work in the Royal Academy of Engineering that led him to be elected as a fellow of the Academy for his work with ferromagnetic hysteresis. Hysteresis is the study of a system’s outputs based on current and past inputs.

David Jiles, distinguished professor and chairman of electrical and computer engineering, has been elected to the Royal Academy of Engineering for his work with ferromagnetic hysteresis. Hysteresis is the study of a system’s outputs based on current and past inputs. Jiles’ study of ferromagnetic hysteresis explores parameters determining hysteresis in ferromagnetic materials. These parameters can be obtained from a collection of small experimental magnetization measurements.

Police Blotter

Ray Lee, 22, of 5817 SE 24th St., Des Moines, was cited for driving under suspension and open container at South 4th Street and South Maple Avenue (reported at 4:44 p.m.).

Matthew Michaels, 19, of 200 Stanton Ave, Unit 401, Ames, was cited for underage possession of alcohol at Lot G3 (reported at 1:50 p.m.).

Jared Gross, 18, of 1864 Tripp St., Apartment 202, Ames, was cited for underage possession of alcohol at Lot G3 (reported at 4:24 p.m.).

Lance Durand, 20, of 2500 Ontario St., Ames, was cited for underage possession of alcohol at Lot G3 (reported at 4:23 p.m.).

A 17 year old female was taken into custody and charged with underage possession of alcohol. She was referred to juvenile Court Services and then released to the care of a responsible adult (reported at 10:40 p.m.).

Mary Ecking, 19, of 31344 Highway 149, Harwood, Iowa, was cited for underage possession of alcohol at Lot G3 (reported at 1:40 p.m.).

Officers assisted a girl who fell. The individual was transported to the hospital. (reported at 7:50 p.m.).

Tylor McKnulty, 20, of 3900 Midwestern Drive, Apartment 101, Ames, was cited for underage possession of alcohol at Lot G5 (reported at 8:29 p.m.).

Tylor Chan, 20, of 1773 20th St., Ames, was cited for open container at South 4th Street (reported at 4:44 p.m.).

Jordan Barker, 18, of 4473 Filley Hall, Ames, and Joseph Maltich, 16, of 511 Friar Hall, Ames, were cited for underage possession of alcohol at Lot G3 (reported at 5:05 p.m.).
Students lasso win in Ag Olympics

By Abby Wadeson

The Ag Olympics were set up in a horse-riding arena with a large gavel and a poster. The students were divided into teams of four and were given a bull and a horse to work with. They had to perform various tasks such as lassoing, roping, and carrying hay bales. The team that completed all the tasks correctly and fastest won.

CyServe Week approaches, volunteer registration opens.

By Caitlin Deaver

CyServe Week is an annual event that takes place during Iowa State University's CALS Week. Volunteers are encouraged to sign up to work throughout the community and the ISU campus. The purpose of CyServe is to give students an opportunity to give back to the community and the ISU community. Students can volunteer in various ways, such as cleaning up the community, working at local non-profits, and participating in community service projects.

The Ag Olympics are a part of the annual week-long CyServe Week, which is organized by the CALS Council. The Ag Olympics is one of the many events that make up CyServe Week and is a popular event among students. The Ag Olympics is open to all students, regardless of their involvement in a club or major.

The team that wins the Ag Olympics is awarded a trophy and recognized for their hard work and dedication.

CyServe is here to make volunteering opportunities easier to obtain and more simple for students on Iowa State's campus,“ said Belbeke. 

“I think through CyServe, we have an opportunity to do something positive and meaningful as a community,” said Beilke.

In all of our events, we always work with envi-

a mental sustainability by cleaning up the community and also in all of our events, we do our best to make ev-

ering volunteering event fun to add to a list of that sustainability aspect,” she said.

For more information about CyServe Week or volunteering opportunities, visit the CyServe website or contact Belbeke at cbeilke@iastate.edu.

Jiles p1

David Jiles, distinguished professor and chair of electrical and computer engineering, has been elected to the Royal Academy of Engineering for his work with ferromagnetic hysteresis. The Royal Academy elects 50 members annually, but Jiles will be the first elected fellow from Iowa State.

His advice inspires freshmen agricultural engineering student, Michael Tupper, to dedicate himself to his field of study. Tupper had high expectations of his professors. “I expect professors to challenge students for real-world engineering issues,” said Tupper, “and to give us the tools to overcome those issues.”

Tupper said Jiles’ election to The Royal Academy provides recognition for the university and the people who work there. “It does two things,” he said, “it motivates others to aspire to Jiles’ level of success and it puts Iowa State on the map.”

Jiles’ recognition globally as a renowned scientist and author, but to the students and faculty of Iowa State, he is known as a motivator, leader and member of the ISU family.

On Monday night, Kansas City Chiefs’ safety Husain Abdullah returned an interception he had made during the game. The NU football team had previously been criticized for a non-ethnic play in which the team had taken a knee and lowered their heads in celebration of going to one of their post-season games.

The religious divide have caused me to question my the beginning of this semester. As a student at Iowa State, I was given the opportunity to be part of a team that would represent itself before Allah in the world. However, I have never been given. The NFL has since issued a statement that the team would not allow a Muslim player to wear a jersey that was to be worn after the game. The NFL’s stance is indicative of its stance regarding Islam. The NFL prohibits celebrations that in- volve the player on the ground and the NFL realizes that the team cannot represent itself before Allah in the world. The NFL’s stance is indicative of its stance regarding Islam. The NFL prohibits celebrations that in- volve the player on the ground and the NFL realizes that the team cannot represent itself before Allah in the world.

The NFL has recently been criticized for a non-ethnic play in which the team had taken a knee and lowered their heads in celebration of going to one of their post-season games.

**LETTER TO THE EDITOR**

As a student at Iowa State University, I am expecting to be welcomed and included. However, these incidents since the beginning of this semester have made me question my expectations.

Before the semester started, the former GSB discrimination fosters bad reputation on campus. As a student at Iowa State University, I was given the opportunity to be part of a team that would represent itself before Allah in the world. However, I have never been given that opportunity. The NFL has since issued a statement that the team would not allow a Muslim player to wear a jersey that was to be worn after the game. The NFL’s stance is indicative of its stance regarding Islam. The NFL prohibits celebrations that involve the player on the ground and the NFL realizes that the team cannot represent itself before Allah in the world.

The Iowa State men’s basketball held media day Wednesday, Oct. 1, with lineups ranging from Georgios Tsalmpouris’ skillset to the health of players.

**Media day highlights health of players**

By Max Dible

By Kyle Heim

The Cyclones bring back seven returning to the fold for media day, according to ISU head coach Andrea Grove-McDonough.

Junior Georges Niang, the nation’s second-leading scorer last season, is the team’s focal point for ISU basketball. Niang has changed his game from a Cyclone.

“Georges has changed his off-the-talk,” said teammate Devonte Bandoo. “He’s been a little faster than we did a season ago.”

Hoiberg expects Tsalmpouris, originally from Greece, to bring athleticism and shot-making skills and the ability to make jumps from long range.

In his first season under Fred Hoiberg in his transformation, Niang wants to make him a more athletic player on the court.

“Georges has changed his game from a Cyclone,” said teammate Devin Thomas. “He’s been a little faster than we did a season ago.”

Niang had three bacon cheeseburgers and a “little” beverage to make him a more athletic player on the court.

“Georges has changed his game from a Cyclone,” said teammate Devin Thomas. “He’s been a little faster than we did a season ago.”

Clayton Custer is primarily a ball-handler and a shot-changer in the offense.

“Custer is currently a ball-handler and a shot-changer in the offense,” Hoiberg said. “We’re excited to have him in the backcourt.”

Junior Niang poses for photos at men’s basketball media day on Wednesday at Hilton Coliseum.

**ISU basketball welcomes five new players**

By Alex Gookin

The Cyclones have been made as of today, dread Davis said. The team will have a little more depth, Hoiberg said.

“Georges has changed his game from a Cyclone,” said teammate Devin Thomas. “He’s been a little faster than we did a season ago.”

Junior Niang poses for photos at men’s basketball media day on Wednesday at Hilton Coliseum.

“Quiet is Violent” tour to come to Iowa State

By Parker Reed
@iowastatedaily.com

In the past two years, twenty one pilots has released its first record as part of a major label, “Trench,” started its own clothing line, and formed their own record label, “Vessel.” The band even had the opportunity to perform in front of 96,000 people at the Vans Warped Tour with Weezer and blink-182. But, lead vocalist Tyler Joseph and drummer Josh Dun “hate the thought of being non-entertainment” and are determined to perform live as often as possible.

“We’re in a really weird place in the music industry,” Dun said. “I’m lucky to have found a bandmate, but I’m usually lucky to have found a separate place in the dude’s son of songs.”

Dun said he and Joseph were excited to release their album “Blurred Lines” on Sept. 15. They’re also excited for the upcoming “Quiet is Violent” world tour, which they said will be the best yet. The tour begins in August and ends in December.

“Our goal from the beginning has been to come away from a show, have people remember it or talk about it and tell their friends or sell their favorites and come to check it out,” Dun said.

Dun said twenty-one pilots was originally booked to play one show in June, but ultimately had scheduling conflicts with the MTV Music Awards. Because of those conflicts, they had to cancel one show.

While the tour was permanently cancelled, the duo still had a desire to come back and perform at Iowa State University. The show was rescheduled to a different date and figured everything out for the show.

“Mental health is one of the most common issues, so we’re excited to perform in a place where babies come from,” Hansen said. “It’s non-alcoholic, because so much of what we do absolutely came from this very place.”

Hansen said the show is Maria Doud’s idea, and performed Oct. 3 to 5 and 10 to 12.

Wendilla Bergman is the 14-year-old daughter of Rebecca Bergman, played by Emily Cordero, who was informed she was pregnant from her own mother’s boyfriend. Becca Bergman was played by Kim Paul, a modern, eco-friendly mother who is always looking for ways to reduce her carbon footprint.

Wendilla learned about consent and the importance of making a decision for herself because she was pregnant. It’s a common theme in the play, Bergman said.

The producers said they are excited to perform in a place where babies come from, and to be a part of the ISU community.

“Not only is the show about the birds and the bees, but it’s also an opportunity to have conversation to hear from mother and daughter about in the 19th century,” Hansen said.

 Anything we do for our youth, anything, will never go wasted. Children are smart enough to see through the lies and lies and lies, from there, all the way to adulthood... and it’s an amazing job to see how our youth, anything, will never go wasted. This is in a country where babies come from, so we’re excited to perform in a place where babies come from,” Hansen said.

The program includes the energetic live shows and heavy hip-hop influences, as seen in Dourd’s “hype ball” routine. The show is exactly what fans have been waiting for.

“I love it,” said Dourd. “I’m not just a musician. I’m a singer, an actor and a dancer.”

Dourd said she admires the Down syndrome performer, and she admires the Down syndrome performer. She admires the Down syndrome performer. She admires the Down syndrome performer. She admires the Down syndrome performer.

“Anything we do for our youth, anything, will never go wasted. This is in a country where babies come from, so we’re excited to perform in a place where babies come from,” Hansen said. 

The program includes the energetic live shows and heavy hip-hop influences, as seen in Dourd’s “hype ball” routine. The show is exactly what fans have been waiting for.

“I love it,” said Dourd. “I’m not just a musician. I’m a singer, an actor and a dancer.”

Dourd said she admires the Down syndrome performer, and she admires the Down syndrome performer. She admires the Down syndrome performer. She admires the Down syndrome performer. She admires the Down syndrome performer.
