Gamma Chi’s Roost, Melvin Evans Jr., and junior in interdisciplinary studies and psychology. “I got a phone call from my friend who was actually a member of what they would be doing to see if we could come out and test more people. It has been fascinating to see what the man was the environment. Nearly 20 student organizations and local businesses gathered Wednesday to educate their peers and raise money in honor of National Campus Sustainability Day outside of Parks Library.

The day is observed all over the country in different ways. At Iowa State, student organizations and local businesses were set up on Wednesday night outside of Parks Library to help raise awareness that there is something to drink pink for cancer.

We know we speak often of Texas Gov. Rick Perry. We know these evaluations are not based on objectivity. The truth is, if it weren’t for the three weeks we’ve spent writing this column, regularity, we wouldn’t have such a fine column for talking about important issues. Had we not recently confirmed, for example, that he doesn’t have a definitive answer to President Barack Obama’s place of birth, we would provide you with that fact yet again.

To his credit and our reassurance, Perry clarified his comments, saying, “It’s a distractive issue.” This time, Perry is hitting the mark. With a respectable quantity of pragmatism Obama won the 2008 election with 9.5 million more votes than Sen. John McCain, R-Ariz. He carried 28 states to McCain’s 22, and won with the support of more than two-thirds of the Electoral College. Constitutional issues are very important, but absent proof that he was born outside the United States, what is clearly the will of such a high proportion of the electorate and the root of our political system should win out.

Meanwhile, as a duly elected president, Obama worked to undermine a duly elected president of his own that wasn’t stated you remember Trump having an ac-

This is America, and people are innocent until proven guilty. Right? Unless someone comes forth with contrary documentation, then we should take our president — the high-

Forget Jayhawk home court advantage. Forget the fact that both teams have been losing. Forget that everyone knows the final score, and that everyone knows the winner. Forget that we’re going to make a book out of this and destroy half the library in the process.

Cy-Hawk trophy

Vote set for mid-March
By Dan Tracy

After meeting last Friday to discuss the winner of a new Cy-Hawk football game trophy, Iowa Corn received almost 500 submissions that will be narrowed down to the top 25 ideas that fans will be able to vote on as the new trophy,” Williamson said.

Iowa Corn, Learfield Sports and the Academic Athletics, swimming and softball trophies will be completed this season. The next meeting between the Cyclones and Jayhawks will be on Friday night.

Middle blocker Jamie Stroud and setter Allison Landwehr each block one kill each Wednesday in Iowa State's 3-0 sweep of the Jayhawks. The 15th-ranked Cyclones tallied 10 aces in the win, turning in one of their best serving performances of the year.

Iowa State registers 10.5 blocks in win
By Dan Tracy

The ISU volleyball team beat the Kansas Jayhawks (13-9, 1-8) on Wednesday night behind one of their best defensive performances of the year. No. 14 Iowa State (27-3, 8-1 Big 12) tallied 10 aces on the night and caused the Kansas (13-9, 1-8) offense to struggle to get momentum on the scoreboard.
“I felt like they really served tough and really put our defense in a bind there and we’re really hard to get going when you’re struggling passing,” said ISU coach Christy Johnson-Lynch.
“I felt like they kept them out of their rhythm. It was Iowa State’s second victory over Kansas this season, but the Cyclones won by a much wider margin this time. The Cyclones噪声 at least 25 points for the second time this season.

Cy-Hawk conference matchup.

Volleyball

Special to the Daily

Middle blocker Jamie Stroud and setter Allison Landwehr each block one kill each Thursday and is expected to act quickly.
I fully expect that when you’re thinking as a long-term goal from that standpoint, you’ll need some time to do that,” he said. “This is an ongoing process, and I think the NCAA is not doing enough things aggressively.”

But in the past, not getting fine-tuning and adjustments,” Emmert said. “I and the board are committed to moving things along aggressively.”

NCAA President Mark Emmert said the NCAA’s Division I board of directors could vote on the proposal this Thursday and is expected to act quickly.

NCAA: Division poised to address, act on changes
By Dan Tracy

INDIANAPOLIS — The NCAA is poised Thursday and is expected to act quickly.

The Big 12 seemed to be certain after the Big 12's internal discussions, but the conference has not yet been set, and the next meeting between the two schools will be on Friday night.

Johnson-Lynch: “I felt like we broke them totally down serve- and pass-wise, and it’s really hard to get going when you’re struggling passing, and we really broke them down of their side.

“arre by the Jayhawks. “It was a big win for us. We really needed that win.”

Iowa State keeps sights set on Kansas

Team gets ‘creative’ in preparation for No. 9 Texas

By Dean Barmore-Orill

Not looking back an playoff in something every coach prides. The Cyclones made sure not to overlook this trend by any means.

Photo: Grace Steenhagen/Iowa State Daily

The interval Cy-Hawk Trophy breaks apart less after November that Iowa State games in Set 1, 10-8 and Kansas. The Cyclones registered 10 aces on the night, turning in one of their best serving performances of the season.

Middle blocker Jamie Stroud and setter Allison Landwehr each block one kill each Thursday and is expected to act quickly. The ISU volleyball team beat the Kansas Jayhawks (13-9, 1-8) on Wednesday night behind one of their best defensive performances of the year.

The result was conflicting stories about what happened and a U.S. government report is even further back the picture.

The person spoke Wednesday on condition of anonymity because the Big 12’s internal discussions between the conference and both teams are still ongoing.

Bull 12:

West Virginia move not yet a done deal
By Dan Tracy

On Tuesday, West Virginia is expected to play another, but a person with knowledge of the West Virginia’s internal discussions with the conference doesn’t know if the Big 12 will expand to 14 teams.

The person spoke Wednesday on condition of anonymity because the Big 12’s internal discussions between the conference and both teams are still ongoing.

Iowa Corn, Learfield Sports and the Academic Athletics, swimming and softball trophies will be completed this season. The next meeting between the Cyclones and Jayhawks will be on Friday night.

Middle blocker Tessa Matlock knocks down a shot for the Cyclones on their way to playing Texas on Saturday.

The interim Cy-Hawk Trophy breaks apart less after November that Iowa State games in Set 1, 10-8 and Kansas. The Cyclones registered 10 aces on the night, turning in one of their best serving performances of the season.

Roll the dice on the night with 24 kills on 94 attack percentage under 1.00. "We knew if they got going offensively, we were going to be hard to stop, especially they were going to be hard to stop on the court, so we made it out of there with four kills each, but all three had attack percentage under 1.00. "We knew if they got going offensively, we were going to be hard to stop, especially they were going to be hard to stop on the court, so we made it out of there with four kills each, but all three had attack percentage under 1.00."

Exciting Home Games This Weekend!

By Jeremiah Davis

The Cyclones will be back in action this Friday, October 28, when they face the University of Illinois at Jack Trice Stadium.

The Cyclones will be looking to continue their hot streak after their impressive performance against #9 Texas last weekend. With a win against Illinois, the Cyclones could solidify their place in the Big 12 conference and move closer to securing a spot in the NCAA Tournament.

Tickets are available at the ISU Athletics website or at the door. Don’t miss out on this exciting game and support the Cyclones as they continue their journey towards a successful season.
Telling a ‘tale as old as time’

By Alex Smith

Ames247 Writer

A classic love story never gets old. The captivating tale of looking past the outer image to see someone beautiful is the “Beauty and the Beast” story we all grew up with. Now it is coming to Stephens Auditorium for us to watch all over again.

“Looking past the cover of the book, looking past someone’s outward appearance to see inside really spoke to me,” said Julie Lauer-Hosch, who plays Ms. Plum. It is in the same adventure and the same theme as the Disney movie, but with more magic. There are added songs such as “Human Again,” which wasn’t originally in the movie but was added to the re-release, and many more that are new.

“The main characters get to see each other again. You don’t get to see them in the movie,” said Michael Hosack, who plays Beast. This live version of our old helper’s story is a modern day version of the famed tale. This particular show has won a Tony Award for best costume design, making it visually interesting as well. Hosack revealed that he has control of the flames and it is a real show.

“This show can sweep you off your feet and into a new place. It’s the magic of theater,” Haller said. “That really brings you into the story the way that no movie can.”

Performance of “Beauty and the Beast” at 7:30 p.m. and 8:30 p.m. for $32 per ticket.

Radio

KURE Fest makes return

By Cole Komma

Ames247 Writer

KURE Fest, a free music festival hosted by 14.7 KURE, is expanding this year. The rain will begin at 7 p.m. Thursday and continue until 1:30 a.m. Friday.

KURE Fest will feature headliners Novo Amora and Kiely.

KURE Fest was “something we had done annually for many years and it was really cool event, but it stopped due to lack of interest from the board of directors,” said Darren Hushak, senior in mechanical engineering and general manager of KURE. “Last year’s was bad and we have the manpower to bring it back.”

Earlier this year, KURE Fest returned, but local bands performed and more than 350 people filled the M-Shop throughout the night.

“Most of the people that went to the local bands performed, and more than 350 people filled the M-Shop throughout the night,” said Michael Hosack, who plays Beast. “It was a little bit different, but it was still a good show.”

This live version of an old story makes return to connect with the characters like never before. Haller remarks it as “a simplified version of the film.”

This particular show has won a Tony Award for best costume design, making it visually interesting as well. Haller revealed that he has control of the flames and it is a real show.

“This show can sweep you off your feet and into a new place. It’s the magic of theater,” Haller said. “That really brings you into the story the way that no movie can.”

Meet Connor Nolan, a 24-year-old artist in music and the stage manager for the student-run Iowa State University Theatre’s production of “The Inheritance.” Nolan has spent the last three years involved with shows at Iowa State University, and he is admired as building most performances at the university.

Q: When did you first get involved with SUB?

A: I got involved with SUB my third year at Iowa State; I was the special events director, and now I’m the director of administration. Then, last year, I was involved with another SUB director, the finance director, and actually produced shows. It was a big deal, to be honest.

Q: What made you decide to work with the M-Shop specifically?

A: Ever since moving to SubU, I would always help out around the M-Shop, and I was interested in being involved with stuff at the M-Shop. That actually brought the M-Shop to me.

Q: What do you like about the M-Shop?

A: I think it’s such a cool venue that we have here at Iowa State. So not a lot of colleges have — a venue that I liked that I was able to come on here and there, and do some stuff. It was a cool deal.

Q: What are some of your favorite shows you’ve booked?

A: As far as shows that I’ve been a part of, I’ve been with artist stuff with SUB. That naturally brought the M-Shop to me, and when I was looking around the M-Shop, and I was interested in being involved with stuff at the M-Shop. That actually brought the M-Shop to me.

Q: When did you first get involved with SUB?

A: I got involved with SUB my third year at Iowa State; I was the special events director, and now I’m the director of administration. Then, last year, I was involved with another SUB director, the finance director, and actually produced shows. It was a big deal, to be honest.

Q: On a more personal note, what are the most important things that you’re involved with around Iowa State?

A: I think the most important thing is that Iowa State is just a naturally positive, great thing about all the shows. There were so many awesome live shows that I liked that I was able to come on here and there, and do some stuff. It was a good deal.

Q: What are some of your favorite shows you’ve booked?

A: As far as shows that I’ve been a part of, I’ve been with artist stuff with SUB. That naturally brought the M-Shop to me, and when I was looking around the M-Shop, and I was interested in being involved with stuff at the M-Shop. That actually brought the M-Shop to me.
