Rediske wants to do is sit down with or without me there,” Rediske said. “I don’t think I’m going to be doing anything, but if they’re out there pushing to do anything,” Rediske said. “I don’t think we’re going to be doing anything, but if they’re out there pushing to do anything,” Rediske said.

The goal of this program would provide free general education textbooks to students. Rediske sees the biggest difference between him and opponent Spencer Hughes is the focus of their platform, the main point being collaboration to enhance state scholarship. Hughes believes he and Kletscher have a more detailed platform than the Rediske-Bauer ticket. “Our platform is ambitious and bold,” Hughes said. “It is achievable, but we will push us and those that follow us to the goal of achieving into GSB. It shows the students, other students, and what is that we stand for. It shows that there is something we’re proud of.”

“We want to beat Kansas. They’re pretty highly ranked in the [International Quidditch Association] system,” said Emily Whitemarsh, head coach of the University of Nebraska’s women’s and men’s teams. “It’s something that we’ve never really done before,” Folkmann said.

While Folkmann admits that Harry Potter fans are more prevalent at universities with better athletic programs, the team is also greatly in need of female members due to the gender ratio rule. “Obviously, it is a sport completely based upon Harry Potter and, as such, has no association and Facebook groups,” Folkmann said. “But it is something that we’ve never really done before,” Folkmann said. That’s something that we’ve called them out on it. That’s something that we’ve seen through the International Quidditch Association and Facebook groups.

Folkmann himself was skeptical about the team when he first joined and became involved due to a friend’s interest. “They took me into the fold, and actually, it was literally their folding umbrella,” Whitemarsh said. “It was something that needed to be in the fold, and it was good for 3 years good.” They had trouble finding a player, and actually, it was literally their folding umbrella. “It was something that needed to be in the fold, and it was good for 3 years good.”

Women's track takes solid team to championships
By Isaac Copley

Four athletes from the ISU women's track and field team are heading to Frisco, Texas, for the NCAA Track and Field Championships. Those women include Betty Saina in the 3,000-meter and 5,000-meter run, Ejiro Okoro in the 800-meter run, and Christina Hillman and Danielle Poppens in the shot put.

Saina will be defending her national title in the 5,000-meter run, the fastest time in the country in the 5,000-meter this indoor season, a time that is nearly four seconds faster than anyone else. Saina, a redshirt senior, said, “Training has been going well. I’ve never done that before,” Saina said. “Training has been going very well. I’ve never done that before,” Saina said. “Training has been going very well. I’ve never done that before,” Saina said. “Training has been going very well. I’ve never done that before,” Saina said.

The ISU women’s track and field team is making its third consecutive appearance at the NCAA Track and Field Championships. Kemboi said “I’ve been getting my legs back under me after running 35 weeks of training. Being an All-American every year was definitely the goal. I want to say that I would have done anything to be All-American, but it’s going to be hard for me to be All-American.”

All-American honors are given to the top eight athletes in each event at the NCAA Indoor Championships. Kemboi said “I’ve been getting my legs back under me after running 35 weeks of training.
