Survey shows LGBT acceptance

By Greg Ganz
@Iowastatedaily.com

The Greek community took a survey in the spring 2013 semester about the attitudes of students, greek community, and were presented the results to the greek community. Cran said the Greek Community Safe Chapter Initiative was advertised to greek community leaders and members to increase the awareness and willingness to report incidents of hate and discrimination.

When students were asked about their personal acceptance of a potential LGBTQ students, more than 80 percent of the students agreed with the survey and in their personal opinions related to LGBTQ students in the greek community.

Students were split into groups to discuss roles of leadership and how LGBTQ awareness could be raised in the greek community to encourage diversity and help the greek community.

The blood drive is run by student volunteers and anyone in the community who wants to volunteer their time.

The survey found that 93.1 percent of greek chapters said there was a member who identifies as LGBTQ and 85.1 percent of greek chapters said there was a member who identifies as LGBTQ.

India ambassador connects issues to Iowa

By Vrunda Bhutne
@iowastatedaily.com

India’s ambassador to the United States, Nirupama Rao, delivered the 12th annual William K. Deal Endowed Leadership Lecture in Carter Hall. Rao discussed issues between the United States and India, including “Borlaug’s contribution to the Green Revolution in India.”

Rao said India has seen a decrease in political violence, but has gained a political understanding since then. She said the fundamentals are still important roles in deepening and strengthening partnerships between the two countries.

Rao mentioned energy, trade and security as key cooperations issues. “I am from the [Bahamas] and I am interested in the Indian experience as a post-colonial process,” said Peter Dreisen-Seiber, chairman of political science. “I am also interested in territories between people in both the countries.”

The event was attended by about 400 people.
A team of researchers from Iowa State has been given a Federal Aviation Administration (FAA) grant for their research on making snow- and ice-free airport pavements.

After taking the master of finance degree should expect to work in the area of corporate finance, wealth management, financial analysis and risk management. The master of finance program is now accepting applications for the spring and fall 2014 semesters.

Business College offers new master of finance program

The full contract only started a month ago,” Taylor said.

For the past couple of weeks, the team has been collecting research data regarding airport de-icing products and snow removal, and what problems airports typically encounter during the winter months.

“Which is cheaper? To do what they are doing now or to do the things that we want to do?” Taylor said.

“We are interested in airports with 45 inches or above of snow,” Ceylan said.

“This coating is called a superhydrophobic coating,” Ceylan stated that they submitted their proposal in June. However, Ceylan stated that the team started working on the project in January and a graduate student from Iowa State started working on the project in January.

Iowa professionals when he was working on getting the master of finance program approved. He asked them what they thought of the new program and has already received a good amount of positive feedback.

“We feel like this program is either something that would appeal to someone who majored in math, science, or even computer sciences,” Sapp said.

Ceylan stated that creating and applying overlay along with electrical curing will work well on existing pavements, instead of having to tear them apart and work underneath the pavement.

Charity over greed, sacrifice over self-interest, humility over pride, spirit over materialism — these are some of the virtues that are often promoted in religious groups and organizations around the world, and they are virtues that many people strive to embody in their daily lives. But are these virtues truly embraced by the religious institutions themselves? Are churches, mosques, and temples places of grace and inspiration, or are they often driven by hypocrisy and self-interest?

The hypocrisy of churches or religious organizations is often criticized in the context of their actions or the actions of private organizations. But a recent article by Pope Francis, the elected leader of the Catholic world, has embraced a more modest approach to religious factions and is even gaining support in some groups that have his vision. His focus on humility, simplicity, and the needs of the marginalized suggests that we consider the needs of the poor and less fortunate, rather than focusing solely on tradition and an absolute adherence to faith.

While Pope Francis' words and the actions of the Catholic Church have been growing in recent years, the very idea of a loving and merciful religion has been questioned by some. The very nature of what a religion has traditionally stood for — namely, tradition and an absolute adherence to faith — has been called into question.

Whether it was used to feed the poor or for political gain, the concept of religion has been a source of division and conflict throughout history. There are those who don't like your religion, change your religion, or don't accept it at all. Additionally, the concept of religious freedom, which was established by the Founding Fathers in the U.S., is often taken for granted.

The idea of a loving and merciful religion has been challenged by some, but it remains a core tenet of many religious groups. The very nature of what a religion has traditionally stood for has been questioned, and the concept of religious freedom has been taken for granted.

ISU prepares for Texas Tech offense

Red Raiders bring strong weapons to Big 12 matchup

By Dylan Mooser

When Iowa State travels to Texas Tech on Saturday, it will be facing an offense that many consider to be the strongest in the league and an offense with several different weapons.

In the Red Raiders' 5-0 start, they have scored 27 touchdowns, with 20 coming by double digits, including a 34-10 blowout against Kansas on Saturday. Coach Tommy Tuberville is a veteran of Oklahoma State, where he spent 13 seasons coaching his母校, and he has a good feel for how to exploit teams.

"The announcers recently said Oklahoma State hasn't scored the ball in two years," said Iowa State head coach Paul Rhoads. "I'm not sure what they've been doing."

Through five games this season, Texas Tech's average defense is 61 points per game, which is the lowest in the Big 12. But it isn't just their defense that makes them so difficult.

"Texas Tech has a lot of strong weapons," said Rhoads. "We've seen a lot of them in the past, but we haven't seen all of them in one game."

The Red Raiders have three receivers who have more than 400 receiving yards - KevinJuan Johnson, Keaontay Ingram and SaRodorick Thompson - with Ingram leading the way with 696 yards.

Iowa State will have to be careful not to let Ingram get loose, as he has had 16 touchdowns this season.

"We've got to be able to stop him," said Rhoads. "We've got to be able to stop all of their receivers."

The Cyclones will have to be able to stop Johnson and Ingram if they want to have a chance against the Red Raiders.

On defense, the Cyclones will have to be able to stop Texas Tech's running game, which has averaged 202.6 yards per game.

"They've got a big running back, and we haven't had much success stopping the run," said Rhoads. "We've got to be able to stop them in the run game."

The Cyclones will have to be able to stop Ingram and Johnson if they want to have a chance against the Red Raiders.

Volleyball looks to keep Kansas State at home

By Maddy Arnold

After 67 straight weeks of being below .500 in the Big 12, the Cyclones are now at just 2-5 in conference play.

"We've got to try and get our conference record a little bit better," said head coach´t John Cook. "We've got to try and get our conference record a little bit better."

The Cyclones have been successful in their non-conference games, going 8-1 this season.

"We've been successful in our non-conference games," said Cook. "We've been successful in our non-conference games."

The Cyclones will have to be able to stop Kansas State if they want to keep them at home.

The Cyclones have a lot of experience on their roster, with six players having at least 100 career starts.

"We've got a lot of experience on our roster," said Cook. "We've got a lot of experience on our roster."

NCAA dreams stay alive for Cyclone divers

By Chris Wolff
@iowastatedaily.com

Sophomore Elyse Brouillette made a huge splash on the diving team last season.

As a freshman, she posted top-10 scores in school history on all three boards and was named Iowa State’s Most Valuable Diver and Newcomer of the Year. She also earned All-Big 12 honors for diving and platform events and was the only ISU diver to compete in NCAA Zone “D” Championships, qualifying her for the NCAA Championships.

“She came from a strong program and I know she was coming in ready,” said ISU coach Jeff Warrick. “My junior year just kind of disappeared into thin air, but I’m ready to come back, and I think she gave me more for this year to beat Elyse out for that first position,” Henderson said.

The two teammates have been friends since middle school and qualified for the NCAA Zone “D” Championships, the qualifying meet for the NCAA Championships.

“Their clinical affect on their dives, Brouillette made a huge splash on the diving team last season.

“I think that Elyse is the better diver,” Henderson said, quickly adding, “But I’m going to be the better diver,” Henderson said. “We’re constantly trying to one up each other’s scores. It’s a great battle,” Warrick said.

Both divers have goals of making it to the NCAA Championships later this year.

“We’re ready to push each other and it’s a good battle,” Henderson said. “It’s a good battle,” Henderson said.

NCAA dreams stay alive for Cyclone divers

Brouillette said. “We like each other’s scores. We’re constantly trying to one up each other’s scores. It’s a great battle,” Warrick said.
Pancakes do not have to be simple and plain. It’s simple to make johnnycakes more interesting by adding an extra taste like berries or sprinkles. You can also make hot cakes with bananas.

For the bacon lovers out there, bacon crumbles can also be added to the pancake right before flipping. For the bacon lovers out there, bacon crumbles can also be added to the pancake right before flipping. For the bacon lovers out there, bacon crumbles can also be added to the pancake right before flipping.

Cake Batter Pancakes

Ingredients:
* 1 cup pancake mix
* 1 cup Funfetti
* 1 cup milk
* 1 teaspoon vanilla
* 2 eggs

Directions:
1. Heat griddle or skillet with butter at 375°F. In medium bowl, stir together ingredients until blended.
2. Pour batter onto the skillet and cook until edges are dry. Turn; cook until pancakes are golden brown.
3. Serve with powdered sugar and syrup.

Banana Pancakes

Ingredients:
* 3 bananas
* 5 eggs
* 1/2 cup brown sugar
* 1/2 cup milk
* 1 cup pancake mix
* 1 teaspoon baking powder

Directions:
1. Heat griddle or skillet with butter at 375°F. In medium bowl, stir together ingredients until blended.
2. Pour batter onto the skillet and cook until edges are dry. Turn; cook until pancakes are golden brown.
3. Serve with powdered sugar and syrup.

Make two meals with updated classic diner sandwiches

**Adult Tuna Melt**

Ingredients:
* 1 can (6 oz) canned tuna, drained
* 1/2 cup mayonnaise
* 1/2 cup shredded cheddar cheese
* 2 slices of sourdough bread

Directions:
1. Toast the slices in a skillet over medium heat until cheese is melted and bread is toasted.
2. Form sandwiches and spread garlic butter on both bread slices.
3. Take the remaining two slices with the ingredients. Stack one sandwich on top of the other, dividing them equally.

**Mile High Club**

Ingredients:
* 4 slices of your favorite bread
* 4 slices of deli roast beef
* 1 large tomato, sliced and seeds removed
* 4  lettuce leaves
* 4 slices of provolone cheese
* 4 slices of deli turkey
* 6 slices of deli turkey
* 6 dill pickle slices

Directions:
1. Lay out two slices of the bread and place them on the slices with the ingredients, spread them equally.
2. Take the remaining two slice of bread and place them on the slices with the ingredients, spread them equally.
3. Stack one sandwich on top of the other and insert the skewers to hold it together. Serve equally in half and enjoy.
 Getting Your Home Before investing any money, see the Better Business Bureau to find out whether the company you're considering is reputable. If you are not sure, it is good to be true; find a trusted friend or relative who can give you advice.
