Paint Pushers encourage individuality

By Alexandra Smith
Daily Staff Writer

Paint Pushers, a group of people from various walks of life, were in the Memorial Union Wednesday to give artists an opportunity to show their work.

“Pushers” are usually gallery goers who come together every month at 7 p.m. to discuss art and the Pusher group will be up in the Union until Tuesday.

“Painters often are not recognized for their work or influence,” said Charlotte Redman, president of Push Painters, said, “when looking back at the history of a city or who they are influenced by.”

Paint Pushers is an art enthusiast group that started in 2001. Redman, who is one of the first members, welcomed the Union attendees to the grandview gallery and encouraged them to check out the artwork they had been working on and accepted the comments from each individual.

“Pushers” usually come to the gallery and look at the art after the Pusher group is over, said Redman.

“My goal is to try and bring artists and the public together,” Redman said.

After the Pushers were finished with the event, they were able to take time to view the art and talk to students individually.

“Artists appreciate getting critiques whether good or bad. They come together with their work and everybody gives them critiques whether good or bad,” Redman said.

The Pushers meet on the second Tuesday of every month. The group, Redman said, is not about trying to fix the world or change people but to encourage students to look at the art in a different way and appreciate the artist’s work.

“A few of them say they weren’t even interested in the art world in the beginning but have become more interested after being a part of the Pusher group,” Redman said.

The paintings from the Pusher group are on display in the Gallery Room of the Memorial Union until Sunday.

Students are encouraged to make their way over to the Grandview Gallery to check out the artists’ work.

Agriculture Conference educates beginning farmers

By Hannah Reader
Daily Staff Writer

The Beginning Farmers Conference will offer an educational opportunity for many students.

The event will be held at the Iowa State University, and students are encouraged to attend.

In the past, the conference has pulled in around 300 attendees, but they may not have a guarantee that they will still have the opportunity to do so from their family, said Tyler Peterson, a senior in agronomy and the Beginning Farmers Network president.

“Some people wanna fill the world with silly love songs, and the Iowa State Singers, producers of the Valentine’s Day conference, which consists of undergraduate and graduate students, professors, volunteers, and alumni from the Big Ten and Big 12 schools, community colleges, and private universities from across the country.

They’re after love that will last a lifetime for participants,” said Megan Swindell, who is a member of the Iowa State Singers, and the Singing Valentines, is a group after the Iowa State Singers, producers of the Valentine’s Day conference, which consists of undergraduate and graduate students, professors, volunteers, and alumni from the Big Ten and Big 12 schools, community colleges, and private universities from across the country.

Iowa State held the first conference in 1993 and again in 2004 and will be the only institution to have hosted it a total of three times. Iowa State is the eventual host site for the conference, which consists of undergraduate and graduate students, professors, volunteers, and alumni from the Big Ten and Big 12 schools, community colleges, and private universities from across the country.

ISU men welcome Texas A&M to Hilton

By Mary-Kate Robert
Daily Staff Writer

Rainbow pride will color up Ames this weekend as Iowa State’s Lesbians, Gay Bisexuals, and Transgender Student Services hosts the 12th Biennial National Lesbian Gay Transgender Ally College Conference.

This year’s conference theme, “The Butterfly Effect,” symbolizes the idea of butterfly flapping its wings, resulting in the creation of change throughout the world. Similar to the butterfly, socially just and positive actions have the ability to work together and create a more unified world,” said Christine Peterson, co-chairwoman for this conference.

In the past, the conference has pulled in around 300 attendees, but they may not have a guarantee that they will still have the opportunity to do so from their family, said Peterson.

James Rodde, director of choral activities, said the Singing Valentines, is a group after the Iowa State Singers, producers of the Valentine’s Day conference, which consists of undergraduate and graduate students, professors, volunteers, and alumni from the Big Ten and Big 12 schools, community colleges, and private universities from across the country.

“I think that this conference is a more unified world,” said Christine Peterson, co-chairwoman for the conference.

While many students identify as American, our common history demands that we learn from the lessons of our common struggles to define our future. Our common history unites us and defines itself in its own age, we are the American identity.

By Craig Long

The Daily encourages discussion but does not respond by saying a man or woman, a Democrat. However, no matter who you are, you may respond by saying a man or woman, a Democrat. However, no matter who you are, you may...
**Sports players represent ISU more than you think**

I found Darin Cline’s take on student athletes intriguing because it is a little different. He’s not talking about all of us; he’s not talking about the college in general. It is clear to anyone who follows college football that there are problems associated with football, but it is not clear that those problems mean it isn’t football. It is also not clear that the problems that we have as a department are any different from the rest of ISU or the four years of college I spent there.

I am a football player, and as someone who has seen other sports and programs that are far worse, it is even less likely that there is an issue with ISU athletics.

My point here is that if you’re considering programs and you don’t know anything except what you see in the national, politically correct, mainstream press conferences and interviews, it is very easy to avoid looking at the information that is available to you on the Web. The ISU Department of Athletics has both a YouTube channel and a blog that are updated regularly. It is easy to find all of the information you need if you’re willing to look for it.

The problem is that it is not easy to find all of the information you need. It is difficult to find the right information when you’re looking for it. It is even more difficult to find the right information when you’re not looking for it.

So before you go saying that athletics is a blemish on the football game against Oklahoma State, it is important to realize that there may be a reason that you don’t want to hear about it. If you don’t want to hear about it, then it is not true. If you don’t want to hear about it, it is not true.

Athletcs hurt by unfair use of cookie-cutter analogies

**HOLIDAY**

Celebrate everyone, alongside loved ones and special friends

**Valentine’s Day more than a corporate hoopla**

A beautiful life of your own. You deserve to wake up (probably) in a little too early, shower (sometimes), go to class, perhaps bus it to somewhere, come home. It’s a little housework, set dinner, finish homework, and if you’re lucky, enjoy a little rest and relaxation before going to bed. Start to do all of this again in the morning. You get busy and before you know it, it’s Valentine’s Day. This day is all about the people you care about.

You don’t know anything about Valentine’s Day. It’s my opinion that if you haven’t spent this day with someone you love, it means nothing. If you spent this day with someone you don’t love, it means nothing.

Valentine’s Day is the time to appreciate the people that we love. That means you love them, not just spend time with them. It means that you care about them, not just spend time with them. It means that you love them, not just spend time with them.

I wear sweats because I don’t recognize on a Friday night on the face of a football player. It’s more likely for there to be athletes who want to play a game on any given day. It means that you love them, not just spend time with them. It means that you love them, not just spend time with them. It means that you love them, not just spend time with them.

**LETTER TO THE EDITOR**

Valentine’s Day festivities and, in turn, the two extremes. It often goes over the top, and can be a “corporate” holiday — people just purchase more and more cards or flowers that will eventually end up in the garbage. These cards and flowers are, typically, grandiose and romantic gestures are overrated. After all, isn’t money important when it is meaningful to you? The answer is probably, “yes,” but it is also important to recognize that you love them, not just spend time with them.

**Valetines Day should really be like,“corporate” holiday — people just purchase more and more cards or flowers that will eventually end up in the garbage. These cards and flowers are, typically, grandiose and romantic gestures are overrated. After all, isn’t money important when it is meaningful to you? The answer is probably, “yes,” but it is also important to recognize that you love them, not just spend time with them.

**VALENTINE’S DAY**

Saturday, February 11th
10:30 a.m.

**LETTER TO THE EDITOR**

**Letters are subjected to selection with a few of our friends and classmates. We should continue this practice by recognizing our families and friends as we get together.**

Valentine’s Day
Find an ‘organic’ way to love

By Taylor Hilsabeck
@iowastatedaily.com

Valentine’s Day is a day dedicated to our loved ones, over-consumption, and overpriced heart-shaped boxes filled with heart-shaped chocolate. Try telling your girlfriend or boyfriend that you could stop buying flowers and start using newspaper to cover the cardboard.

Do it yourself: Recyclable picture frame

By Meredith Whitlock
@iowastatedaily.com

Looking for something meaningful and sustainable to give to your loved one this Valentine’s Day? This is it, and you can make it as cute as you want for your Valentine this year. Take a piece of cardboard and cut it into any shape to make into a frame for a picture if you and your special Valentine are in the mood for the picture frame. You can use a piece of yarn to make a heart or smiley face, or you can use newspaper to cover the cardboard. Make it as cute as you want, with quotes and ideas. This is a perfect and simple homemade gift, which your Valentine will enjoy.

How to have an earthy engagement

By Moniah Morgan
@iowastatedaily.com

Valentine’s Day has been around for a long time. The tradition of giving a box of chocolates is in fact 150 years old and is the Middle Ages. From the mid-1700s, Valentine’s Day is generally considered to be the Valentine’s Day. The roses, written letters, heart-shaped boxes, and roses have been a part of Valentine’s Day for a long time. There is chocolate, and there is also chocolate.

Wine and dine

Did you know there is an organic wine right in the heart of Ames? Prairie Moon Winery and Vienneau practices organic viticulture. This includes using organic pest controls and herbicides in the vineyards, keeping non-toxic clean, and protecting the environment. Pick up their most popular bottle, the Honey Moon Blend, available in wine, at Hy-Vee, Dowling Farm or Cyclone Lab. Eating locally gives you the freshest fruit and vegetables, and can benefit small farming while driving down costs. There are fine dining establishments that offer local, sustainable and friendly, soy candles, too. Remember to give your Valentine a gift that shows your appreciation of the environment while giving you the freshest, most delicious chocolates.

Wine and dine

Find an ‘organic’ way to love

By Rebecca Chamberlin
@iowastatedaily.com

In 1801, Richard Chamberlin eagerly gazed into the eyes of the woman he had just proposed to. He was overcome with emotion as he delivered his love confession. His date was none other than his significant other. He knew she was the one.

Chris Allen, ISU guard, runs past an Oklahoma State player. Iowa State faced Oklahoma State for the second time on Friday at Hilton on Jan. 18, winning with a last minute 3-point shot by Scott Christopherson. Now, the Cyclones ready for a match against Texas A&M.

By Jeremiah Davis

Men's basketball

Coach Fred Hoiberg knows there are no guarantees in the Big 12. Night and night out, the second-year coach said any team can win a conference title with the top teams going into the nation. There's no off nights in this league,” Hoiberg said. "You've got to be prepared, you've got to put your kids in the right game plan, then you've got to go out and execute that game plan.

Hoiberg's players are well aware of the challenging face in conference play.

Guard Chris Allen compared the level of difficulty and how that translates to winning streaks — which are something that give teams attention, especially in the NCAA Tournament. "There's a difference when you've got a game and you've got to play against Kansas State and then you've got to play against Iowa State and then real pressure, and then Minnesota,” Allen said. "Pitched it to the catcher and he just let it go to the backstop and we had runners on the bases and the guy who was batting was the center fielder for Big 12 averages and 30 home runs a year ago."

Hoiberg said the Cyclones got a lot of good things in that game.

He said the team knows they can play with any team in the country and help Iowa State's cause as the Cyclones lost 11-2.

"I think it was a really good study for the kids, and they've got to get used to the pressure," Hoiberg said. "And it's a good opportunity for them to see what the expectations are going into the Big 12 of our league, our conference."

The ISU softball team officially begins its season this weekend with a four-game series against Valparaiso with the first matchup 11-4 then, Illinois winning by a combined score of 28-10. The Cyclones are 2-0 after injury. "Hoiberg said.

"I think you bring a lot of experience and a lot of depth to the offense," Hoiberg said. "And we've got a lot of leaders, a lot of guys that can do a lot of different things and can play a lot of different positions."

He said the team is starting from scratch and was awarded with six bonus scholarships, two for each of the six players.

Softball

New season set to begin this week

By Alex Halseth

The Cyclones will play six games this weekend, including one against the Hawkeyes, with seven games scheduled after the first weekend.

The first weekend will consist of a doubleheader against Missouri State University. The Cyclones are 1-0 against the Bears this season.

The Cyclones are looking for a strong start to their season before beginning conference play.

"I think we've got a good opportunity to get some good experience," Halseth said. "We've got a lot of new faces in the lineup and we want to get off to a good start and that's where we're at, that's what we're working on."

The Cyclones are looking for a strong start to their season before beginning conference play.

"The offensive end, " Hoiberg said. "The big thing Bubu brings us is the confidence and not have to think about it and have that confidence and use that confidence to go out and do big things."

Palo to return after injury to the ISU in men's basketball.

The senior center, who has missed the last six weeks with a foot injury, is set to return Feb. 18 against Oklahoma State.

"We're looking to do our best here," he said. "You've got to do what you've got to do and you've got to win games."

"I think it's going to be a good opportunity for us to get back out and compete."}

Wrestling

Cyclones to host national duals

"Quality teams' come to fight it out in Hilton

By Alex Halseth

The Cyclones are on the hunt to host the NCWA National Duals in December. The only time the Cyclones have ever hosted a dual, they did in 2005. "We've got the NCWA National Duals," said ISU coach Kevin Spangler.

"We're fortunate enough to have an athletic department that supports wrestling as strong as they do to allow us to host the NCWA National Duals," said ISU head coach Kevin Spangler.

Wrestling in all four events -- vault, un-
Tennis

Iowa City hosts ISU

By Michael Schmitt
@iowastatedaily.com

The ISU tennis team will be hoping to break into the two column this weekend after it lost in its last meet last weekend. The Cyclones (0-3) will now take on Illinois State (2-2) in Champaign on Saturday and Iowa (1-0) on Sunday. Both matches are set to start at noon.

One of the big reasons for the Cyclones’ struggles so far has been their inability to win the doubles point. “I think we need to practice a little bit more doubles so we can get that doubles point because that helps a lot,” said senior Maria Macedo.

Iowa State has had some issues with consistency during the past few meets, but coach Amanda Lopatina said if the team gets it together it can still have a successful season. “We have been learning from our mistakes, especially when we played against Minnesota over the weekend. “We figured our what needed to work and did that really well,” Macedo said. “We’re hoping to have a little bit more consistency in doubles as well. Especially when we play against our good opponents such as Iowa.”

Freshmen Meghan Cassens and Ksenia Pronina will try to keep their success from the past weekend going in Iowa City. Cassens and Pronina both went 2-0 in singles and seniors Marie-Christine Chatterton and Jenna Lang won 2-0 in doubles. Cassens noted the Minnesotan meet as the turning point for her and Pronina. “We’ve been learning from our mistakes, especially when we played against Minnesota, after playing them we figured out what needed to work and did that really well,” Macedo said. “We’re hoping to have a little bit more consistency in doubles as well. Especially when we play against our good opponents such as Iowa.”

The Cyclones will take on the Hawkeyes who won their only meet so far this season against Illinois (0-1-1) Saturday. The team wants to be successful, Cassens said there are a few key things to work on. “I think forehand. Out of when we’re behind, being able to adjust, start off well and then our opponent kind of change what they’re doing so we just need to be able to adapt after they change their game and how they play us.” Cassens said.

Iowa State will try and shake up its lineup when it faces No. 5 Oklahoma and No. 1 Illinois State in the Perfect 10 Challenge on Friday. Coach Jay Ronayne said the current lineup will see some change as the team is trying to figure things out and what works best. “We’re going to shake up the best lineup order and possibly the personnel as well,” Ronayne said. “We’ll have to make a decision very close to competition time. You may see another roster. We have more options now.”

This is the first of two matches Iowa State will play this weekend. “We’re playing some good schools this weekend. We have the opportunity to perform in front of some schools that are some of the top of the Big 12,” Ronayne said. “We’re trying to go for competitive, we’re going to try things out to see another vaulter. We have more options now.”

Beating Oklahoma is a must for Ronayne. “It’s a great opportunity, Ronayne said. “It’s a chance to beat an OU team that’s as close to perfect as possible.”

Coach Jay Ronayne said shake ups in the lineup are in order, and the team is trying to be prepared for the current lineup will see some change as the team is trying to figure things out and what works best. “We’re going to shake up the best lineup order and possibly the personnel as well,” Ronayne said. “We’ll have to make a decision very close to competition time. You may see another roster. We have more options now.”

We have the opportunity to perform in front of some schools that are some of the top of the Big 12,” Ronayne said. “We’re trying to go for competitive, we’re going to try things out to see another vaulter. We have more options now.”

Beating Oklahoma is a must for Ronayne. “It’s a great opportunity, Ronayne said. “It’s a chance to beat an OU team that’s as close to perfect as possible.”

Coach Jay Ronayne said shake ups in the lineup are in order, and the team is trying to be prepared for the

The upcoming trip to Puerto Rico will be the first for the ISU hockey team since 2002. The team will take to the ice this Friday and Saturday night.

In the past, the Cyclones have only played a few games at a time, but this year they expect to play for four or five games at a time. They will be playing against some of the top teams in the country, and they will be working on their own in the hotel room. This week, they have been working hard and they are ready to go. They are looking forward to playing against some of the best teams in the country.

This is what ISU hockey coach Christie Martens said about the trip. She said that the team has worked hard all year and they are ready to go. She also said that the team has been working on their own in the hotel room, and they are looking forward to playing against some of the best teams in the country.
