Paul completes college tour at Drake

Bystanders share blame for assaults

By Mitchel Anderson
@iowastatedaily.com

One of the ways to stop sexual assaults from happening is to intervene, and bystander intervention training is often thought to be one of the best practices to decrease sexual assaults on college campuses. But the problem at a national level and at Iowa State seems to be that students aren’t intervening.

In the Association of American Universities’ recent survey of 150,000 students across 27 different schools, students were asked about different situations related to being a bystander in the occurrence of sexual assault or misconduct.

Among bystanders that said they witnessed someone acting in a sexually violent or harassing manner, more than half of students surveyed at Iowa State said they did nothing. “I’m not surprised,” said Lori Allen, campus sexual assault advocate and prevention coordinator at ACCESS of Story County. “It pretty much reflects what has been reported through the Department of Justice and through some of the national advocacy networks that deal with sexual assault and violence.”

Paul completes college tour at Drake

By Thomas Nelson
@iowastatedaily.com

Presidential candidates have become a common sight to Drake students recently. Sen. Rand Paul is no exception.

Paul brought up the no-fly zone in Syria and criticized Carly Fiorina and former Secretary of State Hillary Clinton about being favor of the policy. “That’s a recipe for disaster,” Paul said. “And we’re not against the idea, but the execution of it.”

Paul then moved on to talk about issues regarding Syria and the Middle East.

“Are we better off because Saddam Hussein’s gone?” Paul asked.

“Yes, many of you are registered for the draft!” Paul asked and continued speaking about how women may have to register for the draft. “You want a war for the girls,” Paul said.

Paul brought up the no-fly zone in Syria and criticized Carly Fiorina and former Secretary of State Hillary Clinton about being favor of the policy. “That’s a recipe for disaster,” Paul said. “And we’re not against the idea, but the execution of it.”

Iowa State's Challenge for Paris

Del Campo

Climate Change

An individual who was prohibited from being in the building was reportedly chased at 119 Stanton Avenue (reported at 7:53 a.m.).

An individual reported a theft of a bike at Martin Hall (reported at 7:09 a.m.).

An individual reported the theft of a bike at Friley Hall (reported at 7:30 a.m.).

An individual reported the theft of a wallet at Altman Hall (reported at 10:47 a.m.).

An individual reported the theft of a backpack at Paris Library (reported at 7:30 p.m.).

An individual reported suspicious activity at Armory (reported at 4:16 p.m.).

An individual reported the theft of a bike at 119 Stanton Avenue (reported at 7:53 a.m.).

An individual reported the theft of a bike at Armory (reported at 8:37 p.m.).

An individual reported an assault at 119 Stanton Avenue (reported at 2:51 p.m.).

An individual reported being assaulted at Armory (reported at 4:16 p.m.).

An individual reported from being in the building at Armory (reported at 7:09 a.m.).

All those accused of violating the law are innocent until proven guilty in a court of law."
Street soccer helps fund student literacy

By Travis Charlson@Iowastatedaily.com

Reading this sentence is impossible for 250 million children, according to the Pencils of Promise (PP) website. Pencils of Promise (PP) is an organization that focuses on educating the underprivileged children of the world. Pencils of Promise is an organization housed at Iowa State University.

The organization held a 3-on-3 soccer tournament recently at the basketball courts east of the Beardshear Hall, to raise money to build schools and send teachers abroad. The organization has built more than 585 schools in Guatamala, Nicaragua and Laos, impacting more than 33,000 students.

The organization’s goal is to build a circuit board, “It’s a lot easier to get into the field if you can actually see what you’re doing,” Delarm said. “I’ve had seniors come in from electrical engineering, which the project is based on, and teach students about it.”

The rover has six wheels and a $2,000 budget. “The mission and core purpose of the MAVRIC group is to provide a functional Mars rover. The objective is clear: the rover must complete four challenges in the desert sand — traverse, autonomous navigation, simple return and a sudden death tournament,” Delarm said.

Delarm said he feels the MAVRIC project will be a good stepping stone and a way to try to find a life inside engineering. “It’s a very competitive process. He said everyone in the team gets to know each other and to build things along with a small team. (Delarm) said working on a group project allows students to gain hands-on experience from engineers and each other’s ideas and to think about what the environment is going to be like on Mars. “They tell us what the environment is going to be like and what kind of obstacles we need to overcome,” Delarm said.

The group has a website, where they post about the rover and the progress they have made. Delarm said that he would like to see the rover to make it to the landing site for the rover. “They tell us that the environment is going to be like on Mars,” Delarm said. “They tell us that the environment is going to be like on Mars.”

Engineers confident rover will be ready to compete

By Felipe Cabrera@Iowastatedaily.com

Two particular contenders in the race for the GOP nomination are Donald Trump and Jeb Bush, both of whom are running as establishment candidates, but have not been there 40. I’ve been following the trend of this will be controlled by different motivations for the members of the organization to know about. Aviles said it’s rewarding for the members of the organization to see that the students are accomplishing something for the world, “We share the same dream,” as Bush put it. “We’re not there yet, but we’re close.”

Today's Birthday
(July 19) He's a highly educational type. Daily, research takes place and participants in conferences and seminars differ in opinion. He will deepen your financial affairs, and never regular caregiving saves you. Next week you have a great potential for a good score in your McGyver. Adapt, embrace new partnerships. Follow your day.

To get the advantage, the day's rating is: 9

The Horoscope

Aries - 7

If you are thinking about starting a new business, you need to make sure that you have a clear and well-defined plan before you proceed. New challenges are on the horizon, and you need to be prepared for them.

Taurus - 7

Your focus is on finding new, innovative ways to improve your work. You will come up with creative solutions, and your hard work will pay off.

Gemini - 7

You are in a great mood today, and your creativity is flowing. Take advantage of this positive energy and get started on that project you've been putting off.

Cancer - 7

Your emotions are ruled by the moon today, and you may feel more emotional than usual. Try to stay grounded and focus on the present moment.

Leo - 7

Your creativity is at its peak today, and you are in a great position to express yourself. Take advantage of this energy and explore your artistic side.

Virgo - 7

Your focus is on getting things done, and you are determined to make progress. Your hard work will pay off in the long run.

Libra - 7

Your relationships are in focus today, and you may need to communicate more effectively with those around you. Try to stay open and receptive.

Scorpio - 7

Your intuition is strong today, and you are more likely to make the right decisions. Trust your gut and follow your instincts.

Sagittarius - 7

Your focus is on finding new ways to express yourself creatively. You may want to try a new medium or explore a new art form.

Capricorn - 7

Your focus is on achieving your goals, and you are determined to make progress. You have a clear plan, and you will stick to it.

Aquarius - 7

Your focus is on your relationships, and you are determined to make progress. You have a clear plan, and you will stick to it.

Pisces - 7

Your focus is on your relationships, and you are determined to make progress. You have a clear plan, and you will stick to it.

JUINIO 2015:

ANNOUNCEMENTS

HELP WANTED

Wanted truck driver. Class A CDL, and CDL training available. Must have general labor, snow plowing, snow removing experience. Call 382-5000.

HELP WANTED

Local, high pay. Comes complete personal for lawn care, trees, services, and landscaping. Experience in commercial work is preferred. Must be able to work alone or as a team. For details, call 382-5000.

HELP WANTED

Local, heavy equipment operator seeks experienced individual for commercial work. Must have experience. No training will be given. Call 382-5000.

HELP WANTED

CONTACT SALT ETHERINGTON, 734-2605, for a job in a full service, commercial laundry. Search the www.employmaine.com.

The state of Iowa has a history of a-bicyclist with many of its social policies and laws. The Iowa Legislature needs to improve our hate crime law so that it covers bicyclists. There are very few laws that are one of the first to allow gay marriage and has some of the most inclusive civil rights laws, is our hate crime law so outdated and ineffective?

Concerned Citizen

are getting fed up with bicyclists, so you need to obey the laws. The road in Iowa. You represent all bikers on the road. Period. No bike lane exists in Iowa. The only way to ensure safety for everyone on the road is to obey the rules of the road. You must obey the laws. If you are riding on the road, you have to obey the road. Think ahead and check behind you well before turning or changing lanes.

The Iowa State Daily

Act against gun violence on college campuses

The editorial board of Iowa State’s Main Street Web site where it is protecting. Lone trees does not match federal law, which protects gender identity and against harassment.

This raises the question — how can a robbery of a person, race, sexual orientation or religion if the harm a biker is being caused by one of the hate crimes is not recognized as a hate crime by the state’s hate crime law? The final major, and perhaps most significant omission in Iowa’s hate crime law is the phrase “or perceived.” This phrase is included in the federal hate crime law.

The Iowa State Daily

We are now doing this in politics.

The Constitution is not written in stone, and candidates who appear on the national stage appear to be the same as the country that seems a little bit change. We are now doing this in politics. The Constitution is not written in stone, and candidates who appear on the national stage appear to be the same as the country that seems a little bit change. We are now doing this in politics.

Bicycles need rules to follow the road

The daily struggle for many of us is to get through a day. We wake up, eat breakfast, and go to work. We have to make sure that our lives are as safe as possible. This is where the Iowa State Daily comes in handy. The Iowa State Daily is a student-run newspaper that covers events on campus and in the surrounding community. The Daily is published five days a week, Monday through Friday, and is available online at www.daily-iowastate.com.

On the right side of the street, I find a candlestick dedicated to the time I lived with my family. At the time, my family and I lived with my parents in a small house on a corner street. The house was surrounded by trees and quiet streets.

The Iowa State Daily

Can this be the end of the hate crime law? This is why the Iowa State Daily is dedicated to the time I lived with my family. At the time, my family and I lived with my parents in a small house on a corner street. The house was surrounded by trees and quiet streets.

Hate crime law fails Iowans

Experimental replay progress in Big 12

By Brian Money

The crowd and players at the ISU home volleyball game against TCU on Oct. 7 sat in silence for three minutes as referees reviewed a call at the challenge screen.

The time-consuming challenge screens are a part of this year's experimental challenge system. The NCAA started introducing challenge systems in Big 12 games in 2012, and this year the system has been expanded.

The ISU tennis team is also using the challenge system this season.

No matter what sport, the challenge system is a part of the game this year.

“Tennis is different than sports like volleyball and football, but it's still a part of the game and you have to be prepared for it,” said ISU tennis player Ana Gasparovic.

Gasparovic, a senior from Zagreb, Croatia, has played in four matches this season. This has been a common trend for the Cyclones.

The Hot Sardines brings foot-stomping performance to Stephens Auditorium

By Abby Linsenoski
@owastatedaily

The Hot Sardines — a foot-stomping, eight-member jazz group — bring their performance sure to take audience members back to the music of the 1920s at 7:30 p.m. on Monday, Oct. 19, at Stephens Auditorium. Tickets for the show are available via Ticketmaster and at the Stephens Auditorium ticket office from 10 a.m. to 4 p.m. Monday through Friday. Prices range between $22 and $56.

An experienced member of the entertainment world, Evan “Bibs” Palazzo, the co-leader of The Hot Sardines with Miz Elizabeth, is full of talent. A self-taught pianist at age 3, Palazzo graduated from the University of the Arts in Philadelphia, Pa., with an emphasis in music performance in the early 2000s. He later returned to Philadelphia, where he was hand-picked when she was a young girl, to her acrobatic school. The Lipper Award is given to the group with the lowest average decile ranking of three years’ Consistent Return for eligible funds over any eligibility period. Students are making their own 'judgments' that people who drink and drink together have more fun," said M. Richard Osier, assistant di - rector of Campus Safety and Outreach. "The only natural consequence of getting out and drinking is a hangover — not rape, not a sexual encounter. Nothing like that. If you're 20 percent fewer students intervene when alcohol is involved? In my opinion, it's partially because we're on a college campus where the underclassmen who live in dorms don't do this type of thing. They really stay in their eyes open for a lot of students.

"That's why we think it would be important to teach students about prevention, so they can change the way they think about alcohol, and deal with the consequences of not knowing where they should be, people who go out and drink for their own judgment that they're too drunk to think, and interpret it as a problem. That's one of the places where it becomes really difficult is an atmosphere where alcohol is involved," Dennis said. "There's potential for those students in the bystander position to also be under the influence of alcohol, and that they're aware of not knowing the white situation or not knowing the relationship between people. They have to realize that things really stop people from intervening." Dennis said feeling re - sponsible for dealing with suspended sexual harass - ment can be an issue. It's sort of a dilemma of responsibilities," Dennis said. "People sometimes see it as an uncontrollable situation and they turn around and think, well, perhaps it's not worth trying to intervene. And the fear of retaliation and embarrassment might embolden them to stay there. Once the student feels responsible for intervening, he or she can intervene in other ways, just getting involved in someone's face. Dennis said. He said Allen recom - mended creating a diversion from the scene.

As a way to help students learn, two ISU chapters, Alpha Delta Pi and Kappa Delta, partnered having success in demonstr - ating the Live Your Oath program. Dennis said one of the Live Your Oath programs we've taken as a chapter," said Dennis. "That's why we think it would be important to teach students about prevention, so they can change the way they think about alcohol, and deal with the consequences of not knowing where they should be, people who go out and drink for their own judgment that they're too drunk to think, and interpret it as a problem.
