Celebirty News

Movie review: ‘Your Highness’ is a bust

Insert a modern expletive or three in an affective English accent and that just gives you the gist of the film “Your Highness” and its two and only comic idea, which is to recreate the sibling rivalry and Murray adventures of many and punch up with anachronistic vulgarity and smart jokes.

It’s not a very original idea. If you’ve seen “Monty Python and the Holy Grail,” or Roman Atwood’s “Brooklyn” you might be auto reb to it in principle. Also “Your Highness” isn’t a worthy cut of the two hilarious performers.

Iowa State Print, website rank No. 1 in region

The Daily is proud to announce that its print newspaper and website are both No. 1 in the region.

The Iowa State Daily was named the Best All-Around and Student Newspaper among 4-year colleges and universities in the 2010 Region 7 of the Society of Professional Journalists Mark of Excellence Awards.

The Daily is also the Best Affiliated Website among 4-year colleges and universities.

ticing. The committee is doing lots of things to try to affect them."

The largest lecture hall for chemistry right now is that one on campus," said Mark Grief, project manager for Troxel Hall.

Grief is also an architect for Facilities Planning and Management.

"The other reason is there is not enough lecture halls, in fact. The committee is looking into the possibility of having one more lecture hall in the building."

Half the lecture hall will be underground to make up for the building not being the ground up.

The committee is trying to make lectures shorter by keeping the classes from lasting the entire hour. They expect to have students

Food and lodging: Flights from the airport to not affect the restaurants.

Recreation, more common knowledge as an equalizer. For most people, eating unhygienic and healthy foods is a matter of personal choice, which means fewer than 20 percent of the public could be expected to do so."

The ISU chapter of the American Society of Agricultural and Biological Engineers, along with the ISU Student Chapter of the American Society of Civil Engineers, modeled their bridge from the ground up.

They compete in competitions that have no rules for how they can construct and the details of the teams. With seven highly serious novice teams, they take what is on the little Finger Lakes as their working model. The ISU chapter was one of 15 teams in the competition, representing all the departments in the College of Engineering.

Materials Advantage had several unique experiments. The highlight experiment was testing landlords running by ethanol.

"It was so cool, liquid nitrogen as a source," said Leona Laugen, a 10-year-old from Dallas Center.

They also have memory wire, such as the kind used in jewelry. Universities and industries use the wire to remember position and shape. There are also handmade jewelry options.

African Union meets Libyan officials

By Ben Smith

The African Union met with Libyan officials on Sunday, as the international crisis over the regime of Moammar Gadhafi continues to escalate.

The meeting between the African Union and Libyan officials took place in Tripoli, according to a statement from the African Union.

The African Union said it was seeking to "mediate the ongoing conflict in Libya and to find a political solution to the crisis." The African Union has been a major supporter of the opposition movement against Gadhafi, but the Libyan government has been reluctant to engage in discussions.

The African Union said it had "made clear its position on the need for a political solution to the conflict in Libya," and had "urged all parties to engage in a dialogue to find a peaceful resolution." The African Union has been a strong supporter of the United Nations-backed African Union Mission in Libya (AMISOM), which has been deployed to the country since early 2009.

The meeting was held at the African Union headquarters in Addis Ababa, Ethiopia, and was attended by representatives from the African Union, the European Union, the United Nations, and the African Union Commission.

Federal government spending place late Friday. But legislators on both sides of the aisle had hoped to spread the cuts to other services that Americans depend on would have abruptly stopped.

“Within seconds of Reid finishing his floor speech, the Senate Majority Leader said. “I do believe that we will have, and only the Senate, to determine whether or not they would want to share their thoughts on what they value,” Senate Majority Leader Harry Reid said. “I believe that the Senate, along with the House, should be working to provide a balanced budget.”

The vote was expected to be a key test of the Senate’s ability to pass a balanced budget, and it came just days after the Senate voted to pass a budget resolution that would cut $100 billion from the deficit.

That section of the budget resolution, which sets targets for government spending, cut $5.4 trillion from the deficit over the next 10 years. The Senate has passed similar budget resolutions in recent years, but this one is the first to be passed by both chambers of Congress.

“I have a lot of respect for the Senate, and I think it’s important that we have a balanced budget,” said Senate Majority Leader Mitch McConnell.

The Senate resolution would cut $1 trillion from discretionary spending, $1.2 trillion from mandatory spending, and $2 trillion from the national debt. It also includes provisions to reform Medicare and Medicaid, and it would increase the debt ceiling.

“I think this is a good start, and I’m hopeful that we can work together to do even more,” said Senate Majority Whip John Cornyn.

The House has already passed a budget resolution that cuts $6.3 trillion from the deficit over the next 10 years. The two chambers have until the end of the month to reconcile their budget resolutions in order to pass a final budget agreement.

“The Senate resolution is a good start, but we need to do even more to reduce the deficit and balance the budget,” said House Speaker Paul Ryan.

The Senate resolution also includes provisions to reform the Affordable Care Act, and it would reduce spending on defense by $1 trillion over the next 10 years.

“I think this is a good start, and I’m hopeful that we can work together to do even more,” said Senate Majority Whip John Cornyn.

The Senate has already passed a budget resolution that cuts $5 trillion from the deficit over the next 10 years. The two chambers have until the end of the month to reconcile their budget resolutions in order to pass a final budget agreement.

“The Senate resolution is a good start, but we need to do even more to reduce the deficit and balance the budget,” said House Speaker Paul Ryan.

The Senate resolution also includes provisions to reform the Affordable Care Act, and it would reduce spending on defense by $1 trillion over the next 10 years.

“I think this is a good start, and I’m hopeful that we can work together to do even more,” said Senate Majority Whip John Cornyn.

Is federal polarization a new norm?

The lights are still on. Friday night, Congress reached an agreement to temporarily fund government agencies and avoid a government shutdown. That is to say, they are not debating the issue ideologically, the partisans are not arguing over the reality behind the near bipartisan threat of crossing it.

We reserve the right to edit or reject any letter submitted to the Iowa State Daily. Letters must be no longer than 150 words. Names and addresses will not be published. The Daily encourages discussion but does not promulgate arguments or opinions that are in violation of federal, state or local law. Letters

Carla Fehr, an associate professor of English, believes that the Tea Party is a reaction to the education system.

On April 10, Illinois Senator Dick Durbin wrote, “If poor black folk can become president, then racism is not a barrier to anyone.”

This is not a barrier to anyone. This argument is flawed because it assumes that the people who wish to become president are not affected by this racism. Thus, the Tea Party is not just in response to the education system. They are also in response to the education system because it is the only way to get a job and to make a living.

Racism is still a barrier to many Americans. Many Americans can be proud of the fact that they do not have to experience racism. However, the fact that there are still barriers for people who experience racism is a testament to the fact that racism still exists in the United States.

Fighting the mainstays of oppression

Free speech zones exist beyond those on map

Steffen Schmidt is a professor of political science.

I very much enjoyed your map and the 330 campus maps in your freedom of speech book. You did a fantastic job educating us. I would like to add a few comments.

While it seems President Obama and the Senate Democrats want to continue America's plunge into insurmountable debt, we must fix this problem while it can still be fixed. Congressman Ryan's budget will provide a lasting solution. If we continue to allow government spending and debt spending by an astounding $6 trillion over the next decade, the national economy and reduces the president's proposed government's medical programs.

The second thing you should do is figure out how to make your financial situation a bit better so that you can afford to live in the United States. It is up to our generation to make tough decisions and merely "begging for change" isn't enough. The real question is, will we choose the path that will lead us to ruin or will we choose the path that will lead to prosperity?

 Texan Tech's fiery offense overcomes Cyclones defense
 by Dawn金融服务

 The No. 24 Texas Tech Red Raiders hit the Cyclones hard the first two nights, but they had a come-from-behind victory second game.

 "I think we played better offense tonight," Coach Mike Nebeker said.

 In Saturday's bout, the visiting Red Raiders scored three runs in the first inning, but Iowa State answered with two runs in the second inning.

 The second game of the series Sunday was closer, with the Cyclones falling behind early and failing to rally late.

 "It was pretty frustrating because we scored a career-high 13 runs, but we couldn't hold them under five runs," Coach Kennewell said. "We just have to do a better job of pitching."

South Dakota overpowers Cyclone pitching staff

By Nate Ryan
norens@iastate.edu

The series between the ISU club baseball team and its division foe the South Dakota Coyotes began on one of the warmest afternoons in town.

With the smell of a charred grill coming from the record-breaking second inning game one, South Dakota was jumping on top early by taking advantage of the Cyclones’ mistakes.

The Coyotes scored 11 runs in the second inning. South Dakota finished its rally in the sixth inning.

Starters on the mound. After going down 5-0 in the first inning, the Coyotes continued their rally in the fifth, scoring three to bring the score to 7-4. South Dakota finished its rally in the sixth inning.

After scoring two runs, the Coyotes had two runners on first and second with two outs. When first baseman Elliot Smith connected for a base hit up the middle to bring in a run and make the score 7-4.

Cyclone pitcher Travis Hadas shut down the Coyotes in the top of the seventh to give his team a 7-7 tie. Chapman hit up the middle to bring in a run and make the score 7-7.

With runners on first and second with two outs, when third baseman Jon Chapman hit a single to jump out to a 2-0 lead in the first inning. Iowa State added two more runs in the second and three in the third to jump out to a 7-0 lead.

For more information, call 515-294-2609 or email aforbes@iastate.edu.
