"Vet Med" construction project.

"Campustown Action Association is a business association, not a developer. One of its major goals is to facilitate value planning for a number of different stakeholders involved, and the association's monthly meetings are open to the public.

S.C. primary upsets GOP field before Florida

Gingrich facing more than 40 percent of the South Carolina vote and one is likely to win the state's Republican presidential primary, according to a of the state's 10 precincts.

By David Bartholomew

Last Saturday's South Carolina Republican primary has to shake up the field of candidates, just before the Florida primary next Tuesday.

With former Speaker of the House Newt Gingrich taking in more than 40 percent of the South Carolina vote and 12 delegates from the Carolina State, the Gingrich shadow seems to be looming over former Massachusetts Gov. Mitt Romney at a time when just two weeks ago many projected him as the front-runner.

"What we're trying to do is make the market, but the necessary first step is to let the business that exist," and Ryan Jeffery was president of CAA and revised of Ames. Building cooperation Campustown Action Association is a business association, not a developer. One of its major goals is to facilitate value planning for a number of different stakeholders involved, and the association's monthly meetings are open to the public.

Key goals

1. Make Campustown a social center and a vital destination for entertainment options for ages.

2. Secure the identity of local businesses with more choices as well as different services, different products and different types of businesses.

3. Improve the visual appeal of the area in two ways. Improve the close areas of the area and take steps to prevent vandalism.

4. Increase the strength of activity for all transportation modes in Campustown, including continued improvements to parking, like the introduction of a premium parking.

5. Create a strong collaboration between Campustown Action Association, Iowa State, the city of Ames, Iowa State University, the city of Ames, and the Iowa State University Neighborhood.

Chinese soybean imports decreased in 2011

By Xin Xue
Daily correspondent

Chinese soybean imports to reach 66.84 million tons in 2011 from 54.80 million tons imported in 2010, according to the official data published by the Chinese General Administration of Customs.

China's imports appeared to decrease for the first time since 2004 due to increased soybean releases from state reserves, the government control on retail prices for edible oils and negative weather conditions on the processing. Dermot Hayes, Pioneer Hi-Bred International Chair in Agribusiness and Economics, at Iowa State and Brazil has an advantage in soybeans. "Stagnation is good for both parties," said Dan O'Brien, Kansas State University marketing specialist. 

"Keeping a good trade relationship is good for both partners but China would be better off importing more" Hayes said.

Strengthening cooperation with Brazil could reduce its dependency on U.S. soybeans. China has been launching various international projects since 2010 in the aim to increase China's soybean supplies. But it still needs 500 million to build a soybean industrial tract in Brazil.

"With establishment of comprehensible industrial chain including the processing, mass-housing and logistics of soybeans, our purchasing cost for soybeans will be greatly reduced," said Liu Jia, president of China's Grain Group.

Worldwide, China relies on independent forecasting services for soybeans, oils and meals and U.S. soybean processors and exporters suffered from the unprecedented competition from South America and Brazil. Consequently, Chinese soybean imports are closer to the major reason for induced U.S. soybean crushing and exporting during September and October of 2011.

Other analyst predicts that lower and volatile soybean futures in price from the Chicago Board of Trade could influence the China-U.S. trade pattern. "It won't be a commodity in surplus because of the Chinese demand," said Dan O'Brien, Kansas State University marketing specialist.

"It seems likely that U.S. soybean supplies-demand balance will remain historically tight for at least the next one to two years," O'Brien said.

It was reported that China's self-sufficiency rate stood at about 22 percent now, and farm productivity will remain historically tight for at least the next one to two years.

"Keeping a good trade relationship is good for both parties," said Dan O'Brien, Kansas State University marketing specialist.

Organizations provide ‘normal life’ to Ugandan child soldiers

By Amanda Smith

The problem with Ron Paul in 2012 is the same as it ever has been: His idea of how the US should intervene in the world is very narrow. He has no momentum, has no news he has seen in the last month that does anything to make him stand out in the race, and the media are not interested in him.

But I don’t really think he’s going to win the nomination. There are now serious questions of whether he can even get enough delegates to cross the threshold that the policy could potentially violate free-speech rights depending on how often it is used, and whether any action by the university is warranted.

For the small space that it occupies, the campus mayor has more say than the president or the chancellor.

If they read the policy, I think it would be to refrain from anything that might be considered controversial or may cause anxiety by the university.

If the university acts on anything even mildly newsworthy, there would be free-speech concerns to consider, even though the policy is their cut and dried.

And that’s when community will come together, raise your voice, bring your friends to join us and let’s make a difference.

“Nineteen years old, he proves himself in Florida.”

Romney is his personality,” Schmidt said. “There are now serious questions of whether he can even get enough delegates to cross the threshold that the policy could potentially violate free-speech rights depending on how often it is used, and whether any action by the university is warranted.

ISU alumns brings gowns to Ames

By Randi Reeder

In a letter from Matthew Christopher himself, a "bold breeze of a man" has come to "be a part of the future." In this case, that bold breeze is Christopher himself, "a bold breeze offering Iowa."

Christopher is one of the few who came in knowing exactly what he wanted to do — designing wedding gowns. Not only that but he worked really hard and was a big "hardcore," Christopher said. "You have nothing to lose."

Trend Magazine is seeking models of all shapes and sizes. The directors plan to have over 200 models chosen for the spring issue and 100 selected for the summer issue. The photos will be submitted at Women In Business for graduating seniors.

In the past, the Fashion Show has hand-picked designers to compete with food establishments such as Cold Stone Creamery, worked the concession stands at sporting events and has had Paleface & The Mechanics.

"It's a very different and new" said Galasso. "Once a designer gets a "real" job, they make a plan to make a profit and just not a one-time deal.

The Fashion Show is a big deal for apparel merchandising and design students. After having the first trunk show out of the way, the producers hope to pass on their duties to the next generation of fashion students and have an even better success.

Trend Magazine seeks student models for issue

By Ainsley Chapman

Trend Magazine is accepting models for its fall issue, coming out on April 15. The model casting will run from 11:30 a.m. to 4 p.m. (noon to 6 p.m. on Wednesdays) in 305 Style, 3rd floor, ISU Style Center.

Trend fashion director Anna Schulke, Molly Chair, Calia Field, Robbi Anthes and deser Dem have the task of selecting the models. No experience is required for student models. Trend fashion director said that the models wear as clothes that express her or his personal style. "You just ask that they dress in their own style," Madoyan said.

The directors said they look for fun, bright personalities. "Romantic" is not quite as important as personality, "we want people with a lot of personality," said. "That makes a big difference.

people."

Trend Magazine is seeking models of all shapes and sizes for its upcoming spring issue at a casting Sunday night.

The directors plan to have all models selected for shoots by late February or early March. Approximately 30 models are required for the magazine and another 10 for online promotion and upcoming events. The magazine will be much larger this spring than any other issue.

If you have any questions contact Anna Madox at anna.madox@iowastate.edu. If you are interested in modeling but can’t attend the casting, send a full-body picture and your name to Anna Madox. "I've changed your situation from all, just come," Field said. "You're nothing to lose.

Editorial

Dissenting opinions can define Iowa

As Iowans, our identity disintegrated into the demographics and symphonies for Idaho and Illinois. We have no Hollywood, Las Vegas or Disney World, and no strategic bases. We have no Hollywood, Las Vegas or Disney World, and no strategic bases. The only real recognition the other 49 states grant us is a brief security council meeting, north of the Arctic Circle.

Now it appears we may be losing that attention. We championed Rick Perry for months, until only Iowa specifically decided against him in South Carolina. Throughout history, Iowa’s top three priorities have been to win 30 party nominations. In 2008, we predicted Barak Obama’s nomination. In 2004, we predicted John Kerry’s win. In 2008, we predicted John McCain’s win. In 2012, we predicted Newt Gingrich made no effort to win Iowa. We predicted his Iowa loss in 2012, but we did not think he would win. We ignored the Iowa caucuses focus on New Hampshire. All of this seems to indicate Iowa is losing prestige to pick winners.

Instead of this year’s Iowa winner coming to win on other caucuses, we’ve seen the first three states claim different winners. This is unprecedented in South Carolina. “These three states, these are the most important.” We could not agree more. After all, we are not 50 distinct states, but 50 separate regional states with unique characteristics.

The American strength that comes from combining our focus of 50 states is only as strong as each state retains its own diversity. The demand for unity destroys diversity. From the East Coast to the West Coast, Americans dress in Uggs, drink Starbucks and watch CNN. While it may have an overall beneficial effect, popular culture undoes the diversity of our own regions. Even as we travel politically unified, 50 states differ in their needs, choices and exercise of power.

Fifty different electorates from 50 different states makes it nearly impossible for us to lack diversity, bias, private interests and political factions. It means our government must debate and legislate within itself for legislation.

Just as importantly, it means the president and the people can no longer have a unified supporter. Next Gingrich or Mitt Romney may get the votes, but they didn’t win every vote. The president is more a politician who must balance issues and state that are in a tyrannical with an uncontrolled policies.

Iowa may no longer serve as a presumptive forecast, but its dissenting opinion can be equally valuable. It reminds politicians that the states are all autonomous nations, and despite time consuming support, there are dissenters from its identity and must be played as we dissolve as our caucuses lose their importance. Even though we have few resources to unify, our democracy depends on diversity and unity, and the states are the best between the hard balance as the American system of the sovereignty barak Obama.

By Emily Malik

Walks by the ISU wives rooming floor and in the Athletics Center and you will see pic-
tures of all of the school dance programs and All-Americans who have competed for the Cyclones.

While the ISU wives room at the Athletics Center is quite popular, the women's room-

ations have not been neglected.

Many of the former ISU students who are married to Cyclone football players have com-

promised with their teammates.

The women's room at the Athletics Center is a place where the women can relax and talk about their lives outside of football.

Sports Jargon

Definition: An "ISU Spartan" is a term used by the ISU football team to describe a player on the opposing team that is difficult to stop.

Hill's dad has been known to talk about ISU Spartan defense as being one of the best in the nation.

NASCAR:

Patrick will skip Indy 500 for Coke 600

By Jenna Fryer

CONCORD, N.C. — Danica Patrick will miss the Indianapolis 500 to prepare for Sunday's Coca-Cola 600. Patrick, a two-time Indy 500 participant who nearly won in 2011, plans to focus on finishing up high school in 2012 before heading into her third season in IndyCar.

"I'm excited to check the Indianapolis 500 off the list of things that I'd like to do," she said. "I'm looking forward to making it happen this year."

Despite her previous commitments, Patrick said she was leaning toward skipping the Indianapolis 500.

"It's a nice fit for Coke 600," she said. "It's been the same for the past 10 years. I'm not sure if I'll be able to make the Indy 500 or the Coca-Cola 600."

Moody, Cole find rhythm in win

By Carolin Duggin

After relinquishing 10 turnovers against Texas AM-Commerce's Kimboa, Moody didn't let the pressure get to her against No. 17 Texas Tech.

Moody helped lead the Cyclones to their first postseason since 1995 with a victory against the Red Raiders in Lubbock, Texas.

The victory was especially meaningful since it was Missouri's 50th birthday. Missouri had been eliminated in the Sweet 16 round of the NCAA tournament the previous season.

"Missouri is a big deal," coach Tim Mosher said. "It's very tough to be a point guard in this league. It's a tough way to get your 50th birthday present in front of 10,000 people."
Today’s birth (5/1/24): Louis Comfort Tiffany, American painter and interior decorator, and founder of Tiffany & Co.

Today’s death (1/24/12): Sol Saks, American actor and director, known for roles in films such as “M*A*S*H.”

Word of the Day:

**gallop**

noun (noun plural **gallons**) 1a. a large amount of liquid: water的社会 vs. economic classes. A mutual interest may result. 2. a kind of liquid used in certain drinks: coffee or chocolate. 3. the ability to quickly change direction or move: a car's steering. 4. a horse's movement, especially a lively, strong one. 5. a speed at which something moves: a plane's speed. 6. a amount of liquid: a gallon of milk.**
Cyclones win defensive battle in sweep of Illinois

By Clint Cole

The ISU hockey team finally reached its first road sweep this weekend against No. 12 Illinois. The No. 7 Cyclones started the weekend with a come-from-behind 2-1 win Friday night and finished the weekend with a defensive battle, winning the game 3-1.

On Friday, the Cyclones were down 2-1 going into the third period but tied it up at 9:46 with a goal by forward JP Kascsak. Kascsak followed his own shot to the net and put away the rebound. Buttermore and I were driving the net, [James] Kascsak said. “Kohles kept it worked out in the third,” Kascsak said. “I hit it in and it showed on his goal Friday night.”

On Saturday, the Cyclones started the weekend with a pair of wins against No. 12 Illinois. The No. 7 Cyclones finally notched its first road sweep against No. 12 Illinois.

The Cyclones got some insurance on their goal Friday night with a game-winner on a slap shot. The Cyclones got some insurance on their goal Friday night with a pair of wins against No. 12 Illinois. The No. 7 Cyclones finally notched its first road sweep against No. 12 Illinois.

The Cyclones have three more weekends before the CSCHL tournament and fall matches with some of the best teams in the ACHA. Next weekend, the Cyclones will play No. 9 Robert Morris in Ames. The next weekend, Iowa State will travel to play No. 4 Lindenwood, then return home for a pair of games against No. 11 Central Oklahoma.

The Cyclones have not played against Robert Morris or Central Oklahoma yet this season, but the Cyclones are looking at their next weekend and have been big contributors to Iowa State’s 0-2 start.

The Cyclones will have to come into the match focused and determined to come away with a victory.

The struggles of this season were also a big reason for the Cyclones’ success this weekend against Illinois.

Ronayne spoke about the standout of this week, he said that in practice they were working on “getting the puck to the net and getting support off of it.” It didn’t work out in the first or second period but it worked out in the third, Ronayne said. “With support all the way there,” and it showed on his goal Friday night.

“Even if the [Cy-Hawk] Series isn’t on the line, there’s a lot of pride that could be bruised, if we don’t have the best season of your life at 22 years old, that says a lot. She’s taken control of her life.”

Ronayne said the shaky landings and falls have been big contributors to Iowa State’s 0-2 start.

“We need to do a lot better,” Ronayne said. “If we make mistakes at all, we’re in trouble. It was a great accomplishment to win at the ‘Big Pond,’ a nickname for Illinois’ arena because of its larger ice size.”

Moving forward, the Cyclones have three more weekends before the CSCHL tournament and fall matches with some of the best teams in the ACHA. Next weekend, the Cyclones will play No. 9 Robert Morris in Ames. The next weekend, Iowa State will travel to play No. 4 Lindenwood, then return home for a pair of games against No. 11 Central Oklahoma.

The Cyclones have not played against Robert Morris or Central Oklahoma yet this season, but the Cyclones are looking at their next weekend and have been big contributors to Iowa State’s 0-2 start.

“Everybody likes the Hawkeyes, that’s just the way it is,” Ronayne said. “They might like them or it could be the best day of a young athlete’s life.”

Ronayne spoke about the standout of this weekend, Goaltender Paul Karus. Ronayne started both games for the Cyclones and stopped 40 shots on Friday night and 35 of the 39 shots on Saturday night.

“I think coach Al Murdoch said it is a ‘great accomplishment’ to win at the ‘Big Pond,’ a nickname for Illinois’ arena because of its larger ice size. Moving forward, the Cyclones have three more weekends before the CSCHL tournament and fall matches with some of the best teams in the ACHA.
