Iowa prioritizes shorter organ donation waitlist

By Alex Hanson
@Iowastatedaily.com

The Iowa Donor Network is working to save lives in a new way. The Network is kicking off a campaign to bring Iowa’s organ donation waitlist to zero. The “Campaign to Zero” initiative aims to recruit enough organ donors statewide to bring the adult organ donor rate to 40%. With roughly 600 people on the waitlist for organ donations in Iowa, the Iowa Donor Network is working to save lives in a new way.

The “Campaign to Zero” initiative aims to recruit enough organ donors statewide to bring the adult organ donor rate to 40%. With roughly 600 people on the waitlist for organ donations in Iowa, there are about 155 people on the waitlist for life-saving organ transplants in Iowa. That includes 80 adults and 55 children.

The Iowa Donor Network (IDN) will partner with Iowa State and the other two state universities to recruit donors. They are currently working with nearly 150 organizations, schools and businesses to help spread the word about the program. The ISU Women’s Basketball team will participate in the “Campaign to Zero” initiative.

The “Campaign to Zero” initiative is a collaboration between the IDN, Iowa State Athletics and the Office of Student Life. The campaign is modeled after the successful “Before I Die” campaign which encouraged Iowa residents to think about organ donation. The “Campaign to Zero” initiative is a way to encourage Iowans to talk to their family members about organ donation.

NORML ISU members respond to motion to dismiss

NORML ISU members have responded to Iowa State University’s motion to dismiss their freedom of speech lawsuit filed by two ISU students in July.

The lawsuit stems from a January 2013 incident in which a student referred to marijuana use during a speech advocating for marijuana legalization at an ISU event.

The lawsuit stems from a January 2013 incident in which a student referred to marijuana use during a speech advocating for marijuana legalization at an ISU event.

On Sept. 4 to have the case dismissed, the plaintiffs will be required to file an opposition to Iowa State’s motion to dismiss on Monday.

Barrows, speech advocate.

The lawsuit was one of four filed in July coordinated by the Foundation of Individual Rights in Education, a Philadelphia-based free speech advocacy organization.

ISU administrators argued that the T-shirts were perceived as promoting the use of marijuana.

"We obviously see what they’re doing and we’re not happy about it," Gerlich said. "They were approved for the place, so we don’t see any problem with them.

According to Katie Barrows, communication coordinator for the foundation, the plaintiffs will be filing an opposition to Iowa State’s motion to dismiss on Monday.

"That document will include arguments explaining why the NORML, members, have a valid claim," Barrows said.

"We don’t have any opposition," Bystom said. "But we do think the judge will agree with us." Bystom said the judge will agree with us.

"We should have the opportunity to use any of our resources or efforts to try and do anything with these T-shirts," Gerlich said. "We just want to move on. We’re getting unsual treatment."
Weather

FRIDAY
Patches of morning fog clearing. Partly sunny, Wind S 5-15, gusting to 20 mph.

SATURDAY
Moderately windy and pleasant. No signs of rain during the day or night.

SUNDAY

Weather forecast provided by the National Weather Service.

SUNDAY

Police Blotter

The information in the log comes from the ISU and City of Ames police departments.

Sept. 8

‘It’s On Us’ launches nationally; local campaign to come to ISU

By Makayla Tendall/Iowa State Daily

The White House will launch the national “It’s On Us” sexual assault prevention campaign.

The goal of the campaign is to better equip college campuses with the knowledge and resources to prevent and handle sexual-assault cases.

Hilly Klotzinger, president of the Government of the Student Body, said the participation in a conference call with 800 other student government leaders across the nation.

The purpose of the campaign is to create a sense of responsibility for all students to prevent sexual assault and recognize symptoms during which they should intervene.

Each public university will have a localized campaign.

Marching Band takes stage on Wednesday

BY RONNY JONES/ IOWA STATE DAILY

The ISU marching band will perform at the Marching Band takes stage on Wednesday in the annual Homecoming parade.

The marching band is a part of the ISU Department of Music's, which is based on the campus.

The purpose of the campaign is to create a sense of responsibility for all students to prevent sexual assault and recognize symptoms during which they should intervene.

Each public university will have a localized campaign.
Meet named in Jenks’ honor

By Kyle Heim @Iowastatedaily.com

Unlike previous Ames Middle School cross country invitational, Thurs-day’s meet began with a moment of silence.

This year’s Ames invitational was named the Timothy Jenks Memorial Invitational to remember Jenks, an Ames High School student who was killed in a cycling accident last June.

The accident occurred when Jenks accidentally touched his wheel to the rear wheel of a cyclist. Af-ter the contact, Jenks’ bike was struck by an oncoming sport utility vehicle that was passing the cyclists in a no-pasing zone.

Tanya Goodwin, Ames Middle School girl’s cross country coach, presented Jenks’ parents, William and Cynthia, with a framed photo of their son and explained the meaning behind changing the meet’s name to honor Timothy during a ceremony prior to the start of the meet.

“Jenks was a triathlete; he loved to swim, bike and run. In school, Goodwin said he was very interested in science.

Goodwin knew Jenks during the two and a half years he spent at Ames Middle School. Jenks and his sister both ran cross country, and both teams practiced and worked to-gether.

Goodwin said she most remembers his smile, his laugh and the fact that he always wanted to run hills. Jenks’ middle school cross country coach, Matt Mattocks, said he was a very supportive and won-derful part of the team.

Mattocks said Jenks’ optimism, outlook on life and how Jenks tackled everything that came his way was what stood out most to him.

“[Renaming the meet af-ter him] is the least we could do to honor a great young man,” Mattocks said.

Jenks’ hobbies were not just limited to running. "He was in every type of music and he was into soccer," Mattocks said. "It really was endless, the things that he did.

Jenks shares a spe-cial place on the cross country team and within Ames Middle School. He was someone to whom his peers looked up and he always wanted the best for his classmates.

"He was the greatest leader I’ve worked with yet, and he just was a model all around, a great guy," Mattocks said.

Ames Middle School ordered a framed cross country jersey and two photos of Jenks, which will hang in the athletic hallway at the school.

Stuff The Bus is the Iowa State Daily’s annual food drive. CyRide buses are located at six different locations around town and filled with nonperishable food items, paper products and toiletries. These items are then donated to Mid-Iowa Community Action and Food At First.

IOWA STATE DAILY
Friday, Sept. 19, 2014 3
A celebrity in the world of theoretical physics, Michio Kaku will visit Iowa State on Friday to speak about science affects daily lives.

Kaku is the theory he is best known for the 1988 novel for high school and college students are also planned during Engineer-

Kaku attended Princeton, Berkeley and St. vector and string theory.

Dr. Kaku's work on superstring theory. He is best known for his research in developing theoretical physics. Dr. Kaku is a very influential person.

The lecture will take place at 7 p.m. in Stephens Auditorium on Sept. 20, 2013. This year, the speaker will be Dr. Michio Kaku, a celebrity physicist.

Dr. Kaku's book, “Holographic Universe,” is set to be released on May 7th. The book will be available at most bookstores.

The presentation is open to all students, faculty, staff and the entire Ames community. Dr. Kaku’s speech is the kickoff event of Engineering Week. “The core of his beliefs will be here in person,” said Scott Rovnak, freshman chemical engineering.

The event is being held in配合 with the College of Engineering's Student Life, students at 4 p.m. at Stephens Auditorium.

Ames organization to update transportation plan

By Lauren Wilson

The Ames Area Metropolitan Planning Organization is encouraging Ames residents to get involved in the transportation planning process in the city and surrounding area.

The organization is updating its 20-year transportation plan this year with the help of a new website. It is required to update its 25-year transportation plan for the area every five years.

The organization is starting to gather input for the plans through its engagement, which would begin in Fall 2015.

“We’re planning the comprehensive regional transportation plan and this could cover every area of transportation in our region,” said Tony Filippini, transportation director for the organization.

The plan will be reviewed every four months, a new website will be put on an email update list, a calendar of events and a link to the virtual town hall.

The website has a section that shows top questions asked of the organization and provides answers.

“One of the things new to the website is the Mobility2040.com website where people can seek out data and information about the plan,” Filippini said. “This will also allow people to online and participate in topics, discuss their own ideas and (have) short conversations with people throughout the Ames community.”

The organization and transportation planning group for the Ames college area hopes that the new website will provide an engaged audience. Kaku presents his ideas to students at 7 p.m. in Stephens Auditorium on Sept. 20, 2013. This year, the speaker will be Dr. Michio Kaku, a celebrity physicist.

Kaku's appearance is going to be an opportunity for students looking to experience a unique career opportunity for students looking to experience a unique career.
Tenants should take the initiative and learn about their rights as renters. They should also communicate with their landlords so problems get fixed.

Tenants have legal rights to which they are entitled and have the right to live in apartments that are safe and sanitary. Under the law, tenants are entitled to receive a copy of a written lease or rental agreement, which must be signed by both parties. In the agreement, the tenant and landlord are responsible for knowing and understanding the terms of the lease or rental agreement. The landlord must “make all repairs and complete any work in a reasonable time.” The tenant is responsible for keeping up with routine maintenance, like the condition of the apartment, furnishings, appliances, and minor repairs.

For the national average of the quality of housing in the United States, visit the U.S. Department of Housing and Urban Development.

There is potential for the program to be more successful if surveys are given to tenants more frequently. Problems with apartments can arise in many different situations, so landlords cannot always keep a record of conditions without the tenant.

In every women’s case, it is none of America’s business if Janay Rice was abused in her or his lifetime. It is good to see that other young people are concerned about the unfair blaming of victims and that the blame on the culprit is in fact important. We live in a culture where it is easier to accuse a victim than to hear her or his side of the story. The Miss America pageant is not a perfect example of what the whole pageant is like, but it is a moment that should be raised in a question similar to why the victim was asked to defend herself. The question asked was whether or not former football players abusing their significant others, and that she did not agree with the fact that Ray Rice had to stay with her. That is her opinion, but the question being asked was if it is the victim’s fault.

The ISU club baseball team will host its first Cap Timm Classic on Saturday, which marks the first time the club has ever played competitively in the fall.

The tournament will be at Cy’s Roost and will consist of four baseball clubs from the Midwest: the Illinois State University, Elmira College, Kansas State University and Iowa State University. The tournament will be hosted by the ISU Baseball Club, which includes Frey behind the plate and Palo at second base.

The tournament will begin at 9 a.m. Saturday at the ISU Softball Complex.

In any case, the stage has been set for the tournament. The Cyclones football team has the weekend off, temperatures are expected to be in the low 70s and the fall baseball club is ready to host the first Cap Timm Classic.

“This is baseball,” Frey said. “Who doesn’t want to watch baseball?”

\textbf{Cancer} - 7  

Make extra money, or go into business for yourself. A new opportunity may come and accept a generous offer from someone who knows your heart, and in no time at all, you may have a profitable deal that will benefit you.

\textbf{Leo} - 9  

You’re strong-minded, enterprising, and most likely to gain an early advantage in any project or challenge that befalls you. The confidence you bring to your endeavors will help you overcome obstacles.

\textbf{Virgo} - 10  

You can take on the responsibilities of your position with ease and efficiency. You are capable of outstanding performance and can take on additional projects without any problems.

\textbf{Scorpio} - 10  

If you're feeling like you need to break through a barrier or overcome a challenge, you can find the strength and determination to do so. You might even feel a surge of creativity or inspiration.

\textbf{Libra} - 7  

Make a decision on your purpose. You know that you are capable of getting where you need to go and fulfilling your aspirations. You are capable of achieving your goals and reaching the heights you desire.

\textbf{Aquarius} - 7  

Attend to a personal matter that requires your attention. You may find that attending to this matter will lead to a sense of relief and satisfaction.

\textbf{Capricorn} - 7  

You'll have a moment to reflect on your past and consider how you can move forward from past experiences. This reflection will help you gain clarity and direction for the future.

\textbf{Sagittarius} - 8  

The next two volumes of your project will be completed. Research and plan an adventure that will provide opportunities for growth and self-discovery.

\textbf{Gemini} - 9  

A new adventure awaits you. You're feeling adventurous and ready to take on new challenges. This is a great time to try something new or explore a new interest.

\textbf{Cancer} - 10  

This is a great time to start a new project or pursue a new passion. You're feeling motivated and excited about taking on new challenges.

\textbf{Leo} - 9  

Be creative and innovative in your approach to solving problems. You're capable of finding unique and effective solutions.

\textbf{Virgo} - 9  

You're feeling organized and focused on achieving your goals. You're capable of making progress and moving towards your objectives.

\textbf{Scorpio} - 8  

You're feeling confident and resilient. You're capable of overcoming obstacles and achieving your goals.

\textbf{Libra} - 8  

You're feeling social and outgoing. You're capable of connecting with others and building relationships.

\textbf{Aquarius} - 8  

You're feeling inspired and motivated. You're capable of achieving your goals and reaching your full potential.

\textbf{Capricorn} - 8  

You're feeling ambitious and determined. You're capable of achieving your goals and reaching your full potential.

\textbf{Sagittarius} - 7  

You're feeling adventurous and ready to take on new challenges. This is a great time to try something new or explore a new interest.

\textbf{Gemini} - 8  

You're feeling creative and innovative in your approach to solving problems. You're capable of finding unique and effective solutions.

\textbf{Cancer} - 7  

You're feeling organized and focused on achieving your goals. You're capable of making progress and moving towards your objectives.

\textbf{Leo} - 6  

You're feeling social and outgoing. You're capable of connecting with others and building relationships.

\textbf{Virgo} - 6  

You're feeling confident and resilient. You're capable of overcoming obstacles and achieving your goals.

\textbf{Scorpio} - 5  

You're feeling adventurous and ready to take on new challenges. This is a great time to try something new or explore a new interest.

\textbf{Libra} - 5  

You're feeling creative and innovative in your approach to solving problems. You're capable of finding unique and effective solutions.

\textbf{Aquarius} - 5  

You're feeling inspired and motivated. You're capable of achieving your goals and reaching your full potential.

\textbf{Capricorn} - 5  

You're feeling ambitious and determined. You're capable of achieving your goals and reaching your full potential.

\textbf{Sagittarius} - 4  

You're feeling adventurous and ready to take on new challenges. This is a great time to try something new or explore a new interest.

\textbf{Gemini} - 4  

You're feeling creative and innovative in your approach to solving problems. You're capable of finding unique and effective solutions.

\textbf{Cancer} - 3  

You're feeling organized and focused on achieving your goals. You're capable of making progress and moving towards your objectives.

\textbf{Leo} - 2  

You're feeling social and outgoing. You're capable of connecting with others and building relationships.

\textbf{Virgo} - 2  

You're feeling confident and resilient. You're capable of overcoming obstacles and achieving your goals.

\textbf{Scorpio} - 1
