As they sit in the wrestling room at Iowa State University’s Cyclone Arena, the top-ranked Cyclone atop the podium is having a frank conversation with a former fellow wrestler who has just arrived from a remote country.

“I understand you’ve been through a lot,” the wrestler says, looking into his former teammate’s eyes.

“My brother was a soldier in the military,” the wrestler replies.

“Did you see him while he was in the service?” the wrestler asks.

“I saw him once, but he was wearing full gear,” the wrestler says.

“What did he say to you?” the wrestler asks.

“He said he was doing his best to help the people he was with,” the wrestler says.

“Did you see him after he got out of the service?” the wrestler asks.

“No, he was in the hospital,” the wrestler says.

“Did you talk to him?” the wrestler asks.

“I talked to him once, but he was in pain,” the wrestler says.

“Did you see him again?” the wrestler asks.

Oprah to interview Bindi Kristine, 21, of Houston, as the family talks about Whitney Houston’s death.

The 38-year-old singer/TV personality revealed the plan during her “Live! With Kelly” show. She said she’ll sit down with Bobbi Kristina, Whitney’s daughter, “in a few weeks.”

“She wants to share her story, got a chance to talk about all the personal side of Whitney. She’s just looking forward to sharing her story,” said a source.

“It’s a bittersweet moment that they’ve planned for a long time and are finally able to set aside the sadness of the last few months for this moment.”

The couple is expected to take one to two months in the summer or early fall.
Jam the Gym invites students to bus moves

Two hundred nine Zumba dancers packed into State Gym in Ames on Tuesday evening, March 6, 2012, to launch a month-long evening event called Jam the Gym.

Wearing bright and colorful athletic wear, Zumba dancers filled up the gym as a way to bring the Ames community together to support those less fortunate.

“The market certainly determines how much we pay for a professor of English versus a professor in finance or accounting,” Behling said. “These salaries are very different. The average starting salary for an assistant finance professor for a nine-month period is $31,000, while the average starting salary for an assistant English professor is $32,000.

There are 470 total delegates that are going to be in attendance at ISU, as the average number of states’ delegations is about 40 for the last four years,” said Rawlins. “The total numbers are up a bit significantly.

In terms of delegation, George cases issues with 140, October is sec- ond with 36, and it is the state where Rick Santorum and Mitt Romney are leading, according to the caucusing results.

Romney can throw millions of dollars at the effort. This is usually not the case for a political party...
T he political meaning of the term a "liberal" is often in question. The term is most commonly used to describe someone who believes in a broad base of both knowledge and skills so that we can approach problems from many angles and see them from a variety of viewpoints. This is the exact opposite of indoctrination.

It is our insistence on continuing to unapologetically hold our preconceived notions that prevents us most from learning and from changing our ways. We are against college indoctrinating students with any ideas. But as far as college liberal, freeing the minds of students, we support it. We believe that the college and political leaders — struggle with the moral and political science from Story City, Iowa.

Cyclones turn focus toward Kansas City

By Dan Tracy

There’s a lot on the minds of the Cyclones these days, but the team will try to put all of that aside when it takes on Kansas State on Thursday in the Big 12 tournament.

The junior guard said he expects a tough match up on the court.

The junior guard said the team is looking to get复仇 for its loss to the Wildcats earlier in the season.

“I expect it to be a dogfight,” Christopherson said.

“Our team doesn’t even necessarily realize are possible yet.”

“Rick Barnes has this long streak right now of NCAA appearances — to be able to get in there and it does give you a little taste for what it’s like either.”

Christofferson said. “We have an opportunity in front of us to experience a tournament atmosphere before they finish the regular season over.

There are a few things that the Cyclones can pull off Friday night.

“We need to do a good job of coming out with a lot of urgency.”

“We're in a much better position this year than we were last year in terms of our team being able to handle adversity.”

In the first quarter, the Wildcats jumped out to a 23-2 lead, which the Cyclones couldn’t overcome.

“Rick Barnes has this long streak right now of NCAA appearances — to be able to get in there and experience a tournament atmosphere before they finish the regular season over.”

Iowa State fans should enjoy the ride. The women’s basketball team surpassed milestones not seen or set before.

And the team approach it as winning the next game, one at a time.

Salt consumption can raise sodium levels in the body, which is naturally in a lot of foods, added water retention in the body. While sodium is important for proper cell function, it’s also a contributor to bloating. Take in too much sodium and you could feel a bit sluggish over your weeklong trip. Cook said your body’s growth hormones peak in the fourth stage of sleep right before REM sleep begins, then they trigger sodium retention.

Companies including Kiehl’s, L’Oreal Paris and Maybelline Cosmetics have recently launched new brands or undiluted forms of commonly used to add sodium to your diet.

“Everyone has salt tolerance, so it’s easy for sodium to make its way into our diet,” Cook said. According to the CDC, the amount of sodium in adults can vary, but most people need between 1,500 and 1,800 milligrams a day. The average adult American consumes 3,760 milligrams a day.

There are some simple precautions you can take that can make a big difference in your quality of your health.
