Introduction to material and energy balances. Fluid flow, physical and thermal properties of food materials. Fundamentals of heat and mass transfer. Application of momentum and heat transfer to unit operations in food processing. Calculations and computer applications in food processing. Field trip. Nonmajor graduate credit.

FS HN 360. Advanced Human Nutrition and Metabolism.
(3-0) Cr. 3. F. Prereq: 265, 3 credits in biochemistry; 3 credits in physiology recommended
Physiological and biochemical basis for nutrient needs; assessment of nutrient deficiency and toxicity; examination of nutrient functions and regulation of metabolism; nutrient-gene interactions. Nonmajor graduate credit.

FS HN 361. Nutrition and Health Assessment.
(1-3) Cr. 2. F.S. Prereq: 265; 3 credits in statistics; 3 credits in physiology recommended
The assessment of nutritional status in healthy individuals. Laboratory experiences in food composition and assessment of dietary intake, body composition, and biochemical indices of nutritional status. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: 360; credit or enrollment in a course in physiology
Nutrient needs throughout the life cycle. Interrelationships of genes, gene expression and nutrients with physiological outcomes during human development and aging. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: BIOL 256, 256L or 306
Overview of nutrients, their functions, metabolism, food sources and optimal choices for the promotion of health and wellness. Nutrition strategies for the prevention of chronic disease, including cancer, diabetes and obesity, as they apply to individuals or the wider population will be discussed.

FS HN 365. Obesity and Weight Management.
(3-0) Cr. 3. S. Prereq: 364
Multifactorial aspects of obesity, maintenance of healthy weight, and the relationship of weight status and chronic disease prevention. Traditional and novel nutrition and exercise theories as well as current popular diet and exercise trends will be discussed.
(2-0) Cr. 2. S. Prereq: 167 or 265
Theory and application of adult learning as it relates to the role of nutrition in health promotion and disease prevention. Strategies for providing nutrition messages to diverse community audiences using various forms of media and outreach (print, radio, TV, newspaper, consumer publications, websites, community venues). Development of nutrition messages using various forms of media for a target population.

(2-0) Cr. 2. S.SS. Prereq: 3 credits in food science coursework at 200 level or above
History of the development of the current federal and state food regulations. Guidelines that govern the practice of regulating the wholesomeness of red meats, poultry, and eggs. Nonmajor graduate credit.

FS HN 405. Food Quality Assurance.
(2-2) Cr. 3. S. Prereq: 214 or 471; STAT 101 or 104
Basis of food quality control/assurance programs and establishment of decision-making processes using official (government and industry) instrumental, chemical, and sensory procedures. Statistical process and quality control procedures and their applications to various food systems. Development of hazard analysis procedures, specifications, grades, and standards. Nonmajor graduate credit.

FS HN 406. Sensory Evaluation of Food.
(Dual-listed with 506). (2-3) Cr. 3. F. Prereq: 214 or 311 or AN S 360; 3 credits in statistics
Sensory test methods and procedures used to evaluate the flavor, color and texture of foods. Relationships between sensory and instrumental measurements of color and texture. Acceptance and preference testing.

(Dual-listed with 507). (Cross-listed with MICRO). (3-0) Cr. 3. S. Prereq: 420
Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.

FS HN 410. Food Analysis.
(2-3) Cr. 3. S. Prereq: 214 or 311 or CHEM 211; TSM 115
An introduction to the theory and application of physical and chemical methods for determining the constituents of food. Modern separation and instrumental analysis. Use of food composition data bases. Nonmajor graduate credit.

FS HN 411. Food Ingredient Interactions and Formulations.
(1-3) Cr. 2. F.S. Prereq: 214 or 311
Application of food science principles to ingredient substitutions in food products. Laboratory procedures for standard formulations and instrumental evaluation, with emphasis on problem-solving and critical thinking. Nonmajor graduate credit.

FS HN 412. Food Product Development.
(Dual-listed with 512). (2-6) Cr. 4. S. Prereq: 311 or 411, 471
Principles of developing consumer packaged food products. Application of skills gained in food chemistry, formulation, microbiology, and processing. Some pilot plant experiences. Electronic communication from web emphasized for class reports, notes and assignments. Nonmajor graduate credit.

FS HN 419. Foodborne Hazards.
(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MICRO 201 or 302, a course in biochemistry
Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Nonmajor graduate credit. Only one of FS HN 419 and 519 may count toward graduation.

FS HN 420. Food Microbiology.
(Cross-listed with MICRO, TOX). (3-0) Cr. 3. F. Prereq: MICRO 201 or 302
Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. Nonmajor graduate credit.

FS HN 421. Food Microbiology Laboratory.
(Cross-listed with MICRO). (3-0) Cr. 3. F. Prereq: MICRO 201 or 302; 201L or 302L. Credit or enrollment in MICRO 420, FS HN 203
Standard techniques used for the microbiological examination of foods. Independent and group projects on student-generated questions in food microbiology. Emphasis on oral and written communication and group interaction. Nonmajor graduate credit.

FS HN 429. Foodborne Toxicants.
(Dual-listed with 529). (2-0) Cr. 2. Alt. F., offered 2011. Prereq: A course in biochemistry
Mechanisms of action, metabolism, sources, remediation or detoxification, risk assessment of major foodborne toxicants of current interest, design of HACCP plans for use in food industries targeting foodborne toxicants. Taught online only.

FS HN 461. Medical Nutrition and Disease I.
(4-0) Cr. 4. F. Prereq: 360, 361, 3 credits in physiology at 300 level or above
(Dual-listed with NUTRS 561) Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state. Recitation section (1 cr.) will focus on refinement of assessment skills, diagnosis of nutritional problem, nutrition care, and documentation.

FS HN 463. Community Nutrition.
(3-0) Cr. 3. F. Prereq: 265 or 360; 366 recommended
Dual-listed with NUTRS 563. Survey of current public health nutrition problems among nutritionally vulnerable individuals and groups. Discussion of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Field trip. Nonmajor graduate credit.

Meets U.S. Diversity Requirement

FS HN 464. Medical Nutrition and Disease II.
(3-0) Cr. 3. S. Prereq: 360, 461, 3 credits in physiology at 300 level or above
(Dual-listed with NUTRS 564) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

FS HN 466. Nutrition Counseling and Education Methods.
(Dual-listed with 566). (2-2) Cr. 3. F. Prereq: 361, 362
Application of counseling and learning theories with individuals and groups in community and clinical settings. Includes discussion and experience in building rapport, assessment, diagnosis, intervention, monitoring, evaluation, and documentation.
(3-0) Cr. 3. F. Prereq: FS HN 360 or equivalent
Molecular mechanisms related to nutrient function in the causes and prevention of heart disease, cancer, bone loss, high blood pressure, and diabetes. Design and critique of nutritional interventions related to these diseases.

FS HN 469. Nutrition and Aging.
(Cross-listed with GERON). (3-0) Cr. 3. Alt. S., offered 2013.
Basic physiologic changes during aging and their impacts upon health, disease, and nutritional status. Normal nutrition, pathological nutrition, and optimal nutrition will be examined in this course, with an emphasis upon successful aging through strategies to improve the nutrition-related health of older individuals.

FS HN 471. Food Processing.
(3-0) Cr. 3. F. Prereq: 351; MICRO 201 or 302; CHEM 163 or 177
Food preservation, including packaging, fermentation, irradiation, canning, freezing, dehydration, additives. Sanitation and plant design. Application to food products. Nonmajor graduate credit.

FS HN 472. Food Processing Laboratory.
(Dual-listed with 572). (1-3) Cr. 2. F. Prereq: 351; credit or enrollment in 471
Pilot plant experiences such as thermal processing, food fermentations, oil seed processing, high pressure processing, corn wet milling, industrial baking, and waste treatment. Special emphasis on interpreting data, writing project reports, and applying engineering principles from FS HN 351.

FS HN 480. Professional Communication in Food Science and Human Nutrition.
(1-0) Cr. 1. F.S. Prereq: 203, senior classification in the department
Presentation of current topics and issues of public policy. Emphasis on communication in the profession and portfolio assessment.

FS HN 489. Issues in Food Safety.
(Cross-listed with AN S, HRI, VDPAM). (1-0) Cr. 1. S. Prereq: Credit or enrollment in FS HN 101 or 272 or HRI 233; FS HN 419 or 420;
FS HN 403
Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

FS HN 490. Independent Study.
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of instructor
Independent work in food science, nutrition, or dietetics. A maximum of 6 credits of FS HN 490 may be used toward graduation.
A. Dietetics
B. Food Science
C. Nutrition
D. International Experience
E. Entrepreneurship
H. Honors

FS HN 491. Supervised Work Experience.
Cr. 1-4. Repeatable, maximum of 4 credits. F.S.S. Prereq: Advance approval of instructor and adviser
Supervised off-campus work experience relevant to the academic major. Offered on a satisfactory-fail basis only. A maximum of 4 credits of FS HN 491 may be used toward graduation.
A. Dietetics
B. Food Science
C. Nutrition
D. Culinary Science

(1-3) Cr. 2. F. Prereq: junior or senior classification
Students will develop and implement a research project with faculty supervision, based on knowledge gained from nutrition, biology and chemistry courses. Students will prepare a research proposal, conduct research and report results. Students will gain appreciation for independent research and experience creative and innovative aspects of nutrition research.

FS HN 494. Service Learning for Human Nutrition.
(1-0) Cr. 1. Repeatable. F.S.S. Prereq: 360
Community education programs developed and presented by students around themes of health promotion through diet and exercise. Offered on a satisfactory-fail basis only.

FS HN 495. Practicum.
(1-3) Cr. 2. F.S. Prereq: Senior classification in Nutritional Science or permission of instructor
Service-learning in community activities.

FS HN 496. Food Science and Human Nutrition Travel Course.
(Dual-listed with 596). Cr. 1-4. Repeatable. F.S.S. Prereq: Permission of instructor
One credit per week traveled.) Limited enrollment. Tour and study of food industry, dietetic and nutritional agencies in different regions of the world. Pre-travel session arranged. Travel expenses paid by students.
A. International travel
B. Domestic travel

FS HN 499. Undergraduate Research.
Cr. 1-6. Repeatable, maximum of 6 credits. F.S.S. Prereq: Permission of staff member with whom student proposes to work
Research under staff guidance. A maximum of 6 credits of FS HN 499 may be used toward graduation.

Courses primarily for graduate students, open to qualified undergraduate students
FS HN 502. Advanced Food Science-Chemistry.
(1-0) Cr. 1. S. Prereq: 3 credits in organic chemistry
Key principles and applications in the chemistry of food.

FS HN 503. Advanced Food Science-Processing.
(1-0) Cr. 1. Alt. S., offered 2012. Prereq: 3 credits each in physics and mathematics
Key principles and applications in the processing of food.

FS HN 504. Advanced Food Science-Microbiology.
(1-0) Cr. 1. S. Prereq: 3 credits each in microbiology and organic chemistry
Key principles and applications in the microbiology of food.

FS HN 505. Short Course in Food Science.
Cr. arr. F.S.S. Prereq: Permission of instructor

FS HN 506. Sensory Evaluation of Food.
(Dual-listed with 406). (2-3) Cr. 3. F. Prereq: 214 or 311 or AN S 360; 3 credits in statistics
Sensory test methods and procedures used to evaluate the flavor, color and texture of foods. Relationships between sensory and instrumental measurements of color and texture. Acceptance and preference testing.

(Dual-listed with 407). (Cross-listed with MICRO). (3-0) Cr. 3. S. Prereq: MICRO 420
Examination of the various factors in the production of foods of animal origin, from animal production through processing, distribution and final consumption which contribute to the overall microbiological safety of the food. The two modules of this course will be 1) the procedures and processes which can affect the overall microbiological safety of the food, and 2) the Hazard Analysis Critical Control Point (HACCP) system.
FS HN 512. Food Product Development.
(Dual-listed with 412). (2-6) Cr. 4. S. Prereq: 311 or 411, 471
Principles of developing consumer packaged food products. Application
of skills gained in food chemistry, formulation, microbiology, and
processing. Some pilot plant experiences. Electronic communication
from web emphasized for class reports, notes and assignments.
FS HN 515. Regulatory Toxicology.
(Cross-listed with TOX). (1-0) Cr. 1. Alt. F., offered 2012. Prereq:
BBMB 404 or FS HN 493
Regulatory toxicology in the real world. Approaches used by toxicologists
in regulatory agencies for generating, enforcing and complying with laws
and regulations in an unambiguous, defensible manner. Different obliga-
tions of scientists in research and regulatory settings. Perform simple
risk assessments and suggest way to dealing with data gaps. Examine
strengths and weaknesses of common approaches used by regulatory
agencies.
FS HN 519. Food Toxicology.
(Cross-listed with TOX, NUTRS). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A
course in biochemistry
Basic principles of toxicology. Toxicants in the food supply: modes of
action, toxicant defense systems, toxicant and nutrient interactions, risk
assessment. Only one of FS HN 419 and 519 may count toward gradu-
a tion.
FS HN 529. Foodborne Toxins.
(Dual-listed with 429). (Cross-listed with TOX). (2-0) Cr. 2. Alt. F., offered
2011. Prereq: a course in biochemistry
Mechanisms of action, metabolism, sources, remediation or detoxifica-
tion, risk assessment of major foodborne toxicsants of current interest,
design of HACCP plans for use in food industries targeting foodborne
toxicsants. Taught online only.
FS HN 542. Introduction to Molecular Biology Techniques.
(Cross-listed with BBMB, B M S, EEOB, GDCB, HORT, NREM, NUTRS,
V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classifica-
tion
Sessions in basic molecular biology techniques and related procedures.
Offered on a satisfactory-fail basis only.
A. DNA Techniques. Includes genetic engineering procedures,
sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein
purification, SDS-PAGE, Western blotting, NMR, confocal microscope and
laser microdissection, immunophenotyping, and monoclonal antibody
production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry,
microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-medi-
at ed transformation of tobacco, Arabidopsis, and maize, and analysis of
transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning,
mass spectrometry, and database searching. (F)
F. Techniques in Metabolomics. metabolomics and the techniques
involved in metabolite profiling. For non-chemistry majoring students who
are seeking analytical aspects into their biological research projects
G. Genomic Techniques
FS HN 554. Dietetic Internship I.
(0-22) Cr. 5. S.SS.
For students enrolled in the Dietetic Internship program only. Supervised
practice experience in operational management, medical nutrition therapy
and community nutrition. Experiences and activities designed to meet
accreditation standards.
FS HN 555. Dietetic Internship II.
(0-18) Cr. 4. F.S. Prereq: Concurrent enrollment or successful completion
of 554
For students enrolled in the Dietetic Internship program only. Supervised
practice experience in operational management, medical nutrition therapy
and community nutrition. Experiences and activities designed to meet
accreditation standards.
Courses for graduate students

FS HN 606. Instrumental Measurement of Food Quality.
(2-3) Cr. 3. Alt. F., offered 2011. Prereq: 311 or 411 or 502 or BBMB 404
Principles of instrumental measurements of color, aroma, flavor, texture, and rheology. Techniques and instrumentation for measuring the quality of foods; relationship of these methods to food color, taste, flavor, texture, and rheological quality. Application of methods to various foods and biorenewable materials.

(Cross-listed with BRT). (2-3) Cr. 3. Alt. F., offered 2012. Prereq: 311 or 411 or 502 or BBMB 404
Properties of enzymes important in food processing including flavor, texture and color and in biofuels & bioprocessing. Quantitative evaluation of substrates, enzyme inhibitors, pH, pressure and temperature on enzyme activity. Experimental determination of specificity and mechanisms important to food and bioprocessing biochemistry. Techniques to purify food and bioprocessing enzymes.

FS HN 612. Lipid Chemistry and Applications.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 311 or 411 or 502 or BBMB 404
Structure and analysis of lipids; glyceride structure; crystal form and texture; autoxidation and chemical modification; extraction, refining and processing; applications of fats and oils in food, biofuel and biobased products.

FS HN 613. Food Proteins.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 311 or 411 or 502 or BBMB 404
Properties of proteins found in milk, eggs, meat, legumes, and cereal grains. Effect of processing on food proteins.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 311 or 411 or 502 or BBMB 404
Study of chemical structures and physical properties of carbohydrates, applications of carbohydrates in foods and as biomaterial, and changes they undergo during processing and storage.

FS HN 626. Advanced Food Microbiology.
(Cross-listed with MICRO, TOX). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 420 or 421 or 504
Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

FS HN 627. Rapid Methods in Food Microbiology.
(Cross-listed with MICRO, TOX). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: 420 or 421 or 504
Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

FS HN 681. Seminar.
(1-0) Cr. 1. F.S.SS.
Presentation of thesis or dissertation research. May be taken once for M.S. program and twice for the Ph.D. program.

FS HN 682. Seminar Reflection.
Cr. R. Repeatable.
Active listening and critical thinking activities related to research seminars in food science and human nutrition. Required each semester for all FSHN graduate students except when presenting thesis or dissertation research seminar. Electronic documentation.

FS HN 690. Special Problems.
Cr. arr. Repeatable. F.S.SS. Prereq: 502 or 503 or 504 or 553 or 554

FS HN 695. Grant Proposal Writing.
(Cross-listed with NUTRIS). (1-0) Cr. 1. Prereq: 3 credits of graduate course work in food science and/or nutrition
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutrition. Offered on a satisfactory-fail basis only.

FS HN 699. Research in Food Science and Technology.
Cr. arr. Repeatable. F.S.SS.
Offered on a satisfactory-fail basis only.
**Curriculum in Food Science - CHS**

Administered by the Department of Food Science and Human Nutrition

Students select one of the following options and complete all requirements for that option: food science and technology option, food science and industry option, or consumer food science option. Courses listed below are required for all of the options, except where specified by option below.

**Total Degree Requirement: 120.5 cr.**

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

**International Perspectives: 3 cr.**

**U.S. Diversity: 3 cr.**

**Communications/Library: 12.5 cr.**

Interdepartmental Minor and Interinstitutional Program

The gerontology program is designed for students desiring careers in aging-related fields and for students interested in improving their understanding of aging persons in American society. Students are expected to take courses to develop the necessary interdisciplinary breadth which, in combination with other disciplinary training, can prepare them to work with older adults.

Graduates understand the ways in which individual and societal aging influence, and are impacted by, developments in their major field of study. They have an appreciation and understanding of the cross-disciplinary aspects of human aging.

Gerontology courses are offered in the interdepartmental gerontology program in the following participating departments and programs: Architecture; Biochemistry, Biophysics, and Molecular Biology; Economics; Apparel, Educational Studies, and Hospitality Management; Food Science and Human Nutrition; Kinesiology; Human Development and Family Studies; Political Science; Psychology; and Sociology.

Undergraduate Study

Undergraduate study in this program provides the student with an opportunity to develop a minor in gerontology. A balanced grouping of courses assists the student in developing both a sensitivity to the issues and the ability to synthesize ideas from the variety of disciplines important to the study of the aging process.

Undergraduate students may minor in gerontology by taking 16 semester hours of gerontology related courses. Nine of these credits must come from the following courses:

- GERON 373: Death as a Part of Living (3)
- GERON 377: Aging and the Family (3)
- GERON 378: Economics of Aging (3)
- GERON 463: Environments for the Aging (3)

Students will participate in a prepracticum seminar, GERON 466 Gerontology Prepracticum Seminar, and will complete a supervised field practicum after all gerontology coursework is completed (GERON 467 Gerontology Practicum). A minimum of 3 semester credits must be selected from a list of supportive gerontology related courses. Supportive courses include units or topics related to aging and can be used to complement the student's major interests. The student's minor program must be approved by the undergraduate gerontology coordinator.

Graduate Study

A declared graduate minor in gerontology consists of a minimum of 12 credits taken from a list of acceptable courses, and from at least two departments. Nine of the 12 credits must be in courses that are focused specifically on aging. One 590 course (3 credits maximum) can be taken as part of the 12 credits. GERON 510 Survey of Gerontology is required for all minor students. At least one member of the gerontology faculty will be on a student’s advisory committee; this person must be a member of the Graduate Faculty. Contact the coordinator to determine whether courses other than those listed below are available.

Interinstitutional Program

Iowa State University offers a Master’s degree in Family and Consumer Sciences with specialization in gerontology. This is an interinstitutional distance education program offered through the Web. The student selects the home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the six institutions: Iowa State University, Kansas State University, North Dakota State University, Oklahoma State University, Texas Tech University, and the University of Missouri.

The master’s degree consists of 36 semester hours, 24 of these hours are from the following courses:

- GERON 530: Perspectives in Gerontology (3)
- GERON 534: Adult Development (3)
- GERON 540: Nutrition and Physical Activity in Aging (3)
- GERON 545: Economics, Public Policy, and Aging (3)
- GERON 563: Environments for the Aging (3)
- GERON 577: Aging in the Family Setting (3)
- GERON 584: Program Evaluation and Research Methods in Gerontology (3)
- GERON 594: Professional Seminar in Gerontology (3)

The remaining 12 credits will include electives and specific courses needed to meet the requirements of the institution awarding the degree. Neither a thesis nor a creative component is required.

Gerontology Graduate Certificate Program

The 21-credit Graduate Certificate Program in Gerontology includes the following courses from the list of core courses:

- GERON 530: Perspectives in Gerontology (3)
- GERON 534: Adult Development (3)
- GERON 540: Nutrition and Physical Activity in Aging (3)
- GERON 594: Professional Seminar in Gerontology (3)

The additional six credits required for the certificate can be chosen from the remaining core courses or from other approved elective courses. A maximum of three credits of practicum also can be included in the elective credits.

Admission Procedures: Admission to the Gerontology Certificate Program requires exactly the same procedures as admission to the Graduate College. See Graduate College section of the catalog.

Registration: Students choosing to receive their degree from Iowa State University complete all the admissions, registration, and fee payment processes through ISU.

Courses primarily for undergraduate students

- GERON 373. Death as a Part of Living.

(Cross-listed with HD FS). (3-0) Cr. 3. F.S.Alt. SS., offered 2012. Prereq: HD FS 102

Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

(Cross-listed with HD FS). (3-0) Cr. 3. Prereq: HD FS 102

Interchanges of the aged and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community development.

Meets U.S. Diversity Requirement

- GERON 378. Economics of Aging.

(Cross-listed with ECON, HD FSI). (3-0) Cr. 3. S. Prereq: 3 credits in principles of economics and 3 credits in human development and family studies

Economic status of the aging, retirement planning and the retirement decision, role of Social Security, public transfer programs for the elderly, intrafamily transfers to/from the elderly, private pensions, financing medical care and housing for the elderly, prospects and issues for the future.
GERON 463. Environments for the Aging. (Dual-listed with 463). (Cross-listed with HD FS, ARTID). (3-0) Cr. 3. S. Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies. Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

GERON 466. Gerontology Prepracticum Seminar. (1-0) Cr. 1. F.S.SS. Prereq: 9 credits in core courses for the gerontology minor and approval of the gerontology undergraduate coordinator. Prepracticum training for students planning a gerontology practicum. Exploration of possible agencies for the practicum, in-depth study of a selected agency, and development of goals and objectives for the practicum.

GERON 467. Gerontology Practicum. Cr. 3-6. Repeatable. F.S.SS. Supervised field experience related to aging. Offered on a satisfactory-fail basis only.

GERON 469. Nutrition and Aging. (Cross-listed with FS HN). (3-0) Cr. 3. Alt. S., offered 2013. Basic physiologic changes during aging and their impacts upon health, disease, and nutritional status. Normal nutrition, pathological nutrition, and optimal nutrition will be examined in this course, with an emphasis upon successful aging through strategies to improve the nutrition-related health of older individuals.

GERON 490. Independent Study. Cr. arr. Consult program coordinator for procedure.

Courses primarily for graduate students, open to qualified undergraduate students

GERON 530. Perspectives in Gerontology. (Cross-listed with HD FSI). (3-0) Cr. 3. F. WWW only. Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

GERON 534. Adult Development. (Cross-listed with HD FS). (3-0) Cr. 3. F: on campus. S: WWW only. Exploration of the biological, psychological, and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

GERON 540. Nutrition and Physical Activity in Aging. (Cross-listed with DIET). (3-0) Cr. 3. Alt. F., offered 2012. WWW only. Basic physiologic changes during aging and their impacts in health and disease. The focus will be on successful aging with special emphasis on physical activity and nutrition. Practical application to community settings is addressed.

GERON 545. Economics, Public Policy, and Aging. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered 2012. WWW only. Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions; social security and public transfer programs; intra-family transfers to/from the aged; private pensions; financing medical care; prospects and issues for the future.

GERON 563. Environments for the Aging. (Dual-listed with 463). (Cross-listed with HD FS). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies. Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities. Meets U.S. Diversity Requirement

GERON 571. Design for All People. (Cross-listed with ARCH, DSN SI). (3-0) Cr. 3. S. Prereq: Senior classification or graduate standing. Principles and procedures of universal design in response to the varying ability level of users. Assessment and analysis of existing buildings and sites with respect to standards and details of accessibility for all people, including visually impaired, mentally impaired, and mobility restricted users. Design is neither a prerequisite nor a required part of the course. Enrollment open to students majoring in related disciplines. Credit counts toward fulfillment of Studies in Architecture and Culture requirements. Meets U.S. Diversity Requirement

GERON 584. Program Evaluation and Research Methods in Gerontology. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered 2012. WWW only. Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

GERON 590. Special Topics. Cr. arr. Repeatable. Consult program coordinator for procedure.

GERON 594. Professional Seminar in Gerontology. (Cross-listed with HD FS). (3-0) Cr. 3. Alt. SS., offered 2013. WWW only. An integrative experience for gerontology students designed to be taken near the end of the degree program. By applying knowledge gained in earlier coursework, students will strengthen skills in ethical decision-making behavior, applying these skills in gerontology-related areas such as advocacy, professionalism, family and workplace issues. Students from a variety of professions will bring their unique perspectives to bear on topics of common interest.
Hospitality Management

Administered by the Department of Apparel, Educational Studies, and Hospitality Management

The Hotel, Restaurant, and Institution Management (HM) program strives for excellence in professional and leadership development for the hospitality industry through education, research, and outreach with a mission of developing leaders in the hospitality industry. Educational experiences are planned to contribute to the graduate’s effectiveness as a career professional and as a person, family member, and citizen. Research and extension efforts are conducted with the purpose of improving management effectiveness and quality of services within hospitality organizations. Finally, the program is committed to serving the respective missions of Iowa State University and the College of Human Sciences and to serving the needs of the citizens of Iowa.

Undergraduate Study

The program offers work for the degree bachelor of science in hospitality management. Coursework is planned to provide students with a general education plus professional preparation for supervisory and executive positions in hospitality organizations. Principles of business management are presented, as well as fundamentals of hospitality operations.

Graduates demonstrate leadership characteristics and make decisions based on integrating knowledge of financial, human resources, marketing, and operational principles for managing hospitality operations. They demonstrate best practices in meeting customer expectations and use of technology to achieve operational efficiency and effectiveness.

Learning experiences are provided in the quantity food production and service facility of the HM program and other approved establishments. Students are required to have a total of at least 600 hours of relevant work experience prior to graduation. Of the 600 hours, 200 hours are required prior to completing one year in the program.

The HM program offers a minor that may be earned by successfully completing at least 15 credits of AESHM/HM courses in consultation with the advisor. The program also participates in food safety and entrepreneurship interdisciplinary minors.

Communication Proficiency Requirement: Grade of C or better in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition.

Graduate Study

The HM program offers work for the master of science and doctor of philosophy degrees in hospitality management. Graduates of the program are able to interpret trends and adapt operating practices of hospitality organizations to changing economic, social, political, technological, and environmental conditions. They can manage a hospitality enterprise successfully to achieve objectives of the operation or, at the doctoral level, successfully carry out responsibilities of a hospitality educator. Graduates will make positive contributions to the growth and improvement of the hospitality industry using current research in the decision-making process.

A degree in hospitality management is the usual background for graduate study; however, applicants with preparation in dietetics, business, or closely related fields are encouraged to apply. Ph.D. applicants must have two (2) years of professional work experience in the field.

The master of science degree requires either a thesis or non-thesis (creative component) project. Students also are required to take one course in three of four core areas (human resources, financial management, marketing, and strategic management).

The program participates in the Master of Family and Consumer Sciences degree by offering a specialization in hospitality management. The program also participates in the Master of Family and Consumer Sciences degree with specialization in Dietetics, offered in cooperation with the Department of Food Science and Human Nutrition.

The Ph.D. program requires a minimum of 72 credits, up to 30 of which may be applied from the Master’s degree. All Ph.D. students take a minimum of 15 research/dissertation credits.

Curriculum in Hospitality Management

Administered by the Hospitality Management Program, Leading to the bachelor of science degree.

The curriculum in Hospitality Management develops students as leaders for the hospitality professions.

A minor in Hospitality Management is available; see requirements under Hospitality Management, Courses and Programs.

Degree Requirements

13 Natural sciences and mathematical disciplines

Mathematics (see approved list) 3
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
LIB 160 Library Instruction 0.5
STAT 101 Principles of Statistics 4
Natural Sciences (see approved list) 6
Total Credits 13

9 Social sciences

ECON 101 Principles of Microeconomics 3
HD FS 102 Individual and Family Life Development 3
Psychology or Sociology 3
Total Credits 9

9 Humanities

AESHM 342 Aesthetics of Consumer Experience 3
Approved courses 6
Total Credits 9

41-44 Hospitality Management core

AESHM 170 Supervised Work Experience I 1
AESHM 270 Supervised Work Experience II 1-2
AESHM 287 Principles of Management in Human Sciences 3
AESHM 340 Hospitality and Apparel Marketing Strategies 3
AESHM 411 Seminar on Current Issues 1-3
AESHM 438 Human Resource Management 3
AESHM 470 Supervised Professional Internship 3-6
HRI 101 Introduction to the Hospitality Industry 3
HRI 233 Hospitality Sanitation and Safety 3
HRI 315 Hospitality Law 3
HRI 333 Hospitality Operations Cost Controls 3
HRI 352 Lodging Operations Management I 3
HRI 380 Quantity Food Production Management 3
HRI 380L Quantity Food Production and Service Management Experience 2
HRI 423 Hospitality Financial Management 3
HRI 455 Introduction to Strategic Management in Foodservice and Lodging 3
Total Credits 41-47

Approved courses

Approved courses 6
Total Credits 9

Visual, and Electronic Composition.
Courses primarily for undergraduate students

HRI 101. Introduction to the Hospitality Industry.
(3-0) Cr. 3. F.
Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.

HRI 189. Introduction to University Dining Services Management.
(1-0) Cr. 1. Alt. S., offered 2012.
Overview of management concepts and distinct features of university dining services.

HRI 233. Hospitality Sanitation and Safety.
(3-0) Cr. 3. F.S.

HRI 260. Global Tourism Management.
(3-0) Cr. 3. S.
Overview of the global tourism industry: hospitality and related services, destination attractions, and transportation. Introduction to travel behavior, tourism planning and research, and economic and social impacts of tourism development.

Meets International Perspectives Requirement.

13-15 Hospitality Management electives
Select from:

AESHM 271 Public Relations and Event Management
AESHM 275 Merchandising
AESHM 471 Special Events Coordination
AESHM 474 Entrepreneurship in Human Sciences
AESHM 477 Multi-channel Retailing
HRI 189 Introduction to University Dining Services Management
HRI 260 Global Tourism Management
HRI 289 Private Club Operations
HRI 383 Introduction to Wine, Beer, and Spirits
HRI 437 Hospitality Information Technology
HRI 439 Advanced Hospitality Human Resource Management
HRI 452 Lodging Operations Management II
HRI 487 Fine Dining Management

13 Supporting courses
ACCT 284 Financial Accounting
AESHM 111 Professional Development for AESHM
AESHM 311 Seminar on Careers and Internships
FS HN 111 Fundamentals of Food Preparation
FS HN 115 Food Preparation Laboratory
FS HN 167 Introduction to Human Nutrition

**A student who has not had high school chemistry is required to take CHEM 160 Chemistry in Modern Society

16-18 Electives
26.0 Total credits

**A student who has not had high school biology is required to take BIOL 101 Introductory Biology.

HRI 289. Private Club Operations.
(2-0) Cr. 2. F.S. Prereq: 101
Organization and management of private clubs including city, country, and other recreational and social clubs. Field trip required.

HRI 315. Hospitality Law.
(3-0) Cr. 3. S. Prereq: 101
Laws relating to ownership and operation of hospitality organizations. The duties and rights of both hospitality business operators and customers. Legal implications of various managerial decisions. Nonmajor graduate credit.

HRI 333. Hospitality Operations Cost Controls.
(3-0) Cr. 3. F. Prereq: Credit or enrollment in 380, 380L; 3 credits MATH
Introduction to revenue and cost systems in the hospitality industry. Application of principles related to procurement, production, and inventory controls.

HRI 352. Lodging Operations Management I.
(3-0) Cr. 3. F. Prereq: Credit or enrollment in 101, 233, AESHM 287
Introduction to functional department activities and current issues of lodging organizations with emphasis on front office and housekeeping. Reservation activities and night audit exercises. Case studies.

HRI 380. Quantity Food Production Management.
(3-0) Cr. 3. F. Prereq: 233 or 2 cr Micro; FS HN 111 or 214; at least junior classification; enrollment in 380L
Principles of and procedures used in quantity food production management including menu planning, food costing, work methods, food production systems, quality control, and service.

L. Quantity Food Production and Service Management Experience

HRI 380L. Quantity Food Production and Service Management Experience.
(0-6) Cr. 2. F.S. Prereq: 233 or 2 cr Micro; FS HN 111 or 214; at least junior classification; enrollment in 380; reservation with program required
Application of quantity food production and service management principles and procedures in the program’s foodservice operation.

(2-0) Cr. 2. F.S. Prereq: Must be at least 21 years old
Introduction to history and methods of production for a variety of wines, beers, spirits, and other beverages. Sensory analysis, product knowledge, service techniques, sales, and alcohol service related to the hospitality industry.

HRI 391. Foodservice Systems Management I.
(3-0) Cr. 3. F. Prereq: Credit or enrollment in 380, 380L
Principles and techniques related to basic management, leadership, and human resource management of foodservices in health care and other on-site foodservice settings. Food safety and sanitation for on-site foodservice operations. Credit for either HRI 391 or AESHM 287 and 438 may count toward graduation. Not accepted for credit toward a major in Hospitality Management.

HRI 392. Foodservice Systems Management II.
(3-0) Cr. 3. S. Prereq: 391
Introduction to cost control in foodservice departments: procedures for controlling food, labor, and other variable costs. Application of principles related to food product selection, specification, purchase, and storage in health care and other on-site operations. Credit for either HRI 392 or 233 and 333 may count toward graduation. Not accepted for credit toward a major in HRIM.

(3-0) Cr. 3. S. Prereq: 333; ACCT 284; ECON 101; credit or enrollment in STAT 101
Use of common financial statements, accounting ratios, and financial techniques to impact management decisions.
Courses primarily for graduate students, open to qualified undergraduate students

HRI 505. Hospitality Management Scholarship and Applications.
(0-1) Cr. 1. F.S.S.
Focus on teaching and research scholarship involving the hospitality industry.

(0-1) Cr. 1. Repeatable. S.S.S.
Focus on current issues related to the hospitality industry.

(3-0) Cr. 3. S. Prereq: 433
Concepts of financial management applied to strategic decision making.

HRI 538. Human Resources Development in Hospitality Organizations.
(3-0) Cr. 3. Prereq: AESHM 438
Theories of human resources management. Practices and principles related to development of management personnel.

HRI 540. Strategic Marketing.
(3-0) Cr. 3. S. Prereq: AESHM 340
Application of marketing principles in developing effective marketing strategies for hospitality, apparel, and retail organizations. Evaluation of multi-dimensional marketing functions in hospitality organizations.

HRI 555. Strategic Management in Hospitality Organizations.
(3-0) Cr. 3. Prereq: Courses in Mkt, Fin, Mgmt, and HRI
Strategic management process as a planning and decision-making framework; integration of human resources, operations, marketing, and financial management concepts.

HRI 575. Professional Experience in Foodservice and Lodging Organizations.
Cr. 2. F.S.S. Prereq: Accepted in HRIM graduate program
Analysis and interpretation of professional functions or data, or design and implementation of a management project.

HRI 587. Fine Dining Management.
(Dual-listed with 487). (2-3) Cr. 3. F. Prereq: 380, 380L; AESHM 287; AESHM 287 for Hospitality Management majors; 3 credits of marketing for Culinary Science majors
Exploration of the historical and cultural development of the world food table. Creative experiences with U.S. regional and international foods. Application of management and financial principles in food preparation and service in fine dining settings.

Meets International Perspectives Requirement.

HRI 604. Professional Writing.
(2-0) Cr. 2. Prereq: Enrollment in PhD program
Development of professional written communication with emphasis on abstracts, proposals, manuscripts, and technical reports.

HRI 608. Administrative Problems.
Cr. arr. Repeatable, maximum of 4 credits. Prereq: Permission of instructor; enrollment in PhD program
Advanced administrative problems; case studies in foodservice and lodging organizations.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 433
Theories and research in financial management with emphasis on financial performance and financing decisions.

HRI 638. Advanced Human Resources Management in Hospitality Organizations.
(3-0) Cr. 3. F. Prereq: 538
Research in human resources management with an emphasis on organization or unit administration.

HRI 640. Seminar on Marketing Thoughts.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 540; STAT 401. Enrollment in PhD program
Conceptual and theoretical development of marketing strategies. Analytical and critical review of marketing research and industry practices.

HRI 652. Advanced Lodging Operations.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: Enrollment in PhD program
Analysis and applications of concepts and theories of operations research for lodging operations.

HRI 675. HRIM Teaching Experience.
Cr. 1. F.S.S. Prereq: Accepted in PhD program
Development of objectives, teaching methods and materials, and test items for selected topics. Implementation in an HRIM course.

(3-0) Cr. 3. Prereq: Enrollment in PhD program
Analysis and application of theories, research, and research methods in foodservice operations.

HRI 690. Advanced Topics.
Cr. arr. Repeatable, maximum of 2 times. F.S.S. Prereq: Enrollment in PhD program, application process
Advanced study of current topics in hospitality management.

B. Hospitality Management
D. Lodging Operations
E. Commercial/Retail Foodservice Operations
F. Onsite Foodservice Operations

HRI 699. Research.
Cr. arr. Repeatable. Prereq: Enrollment in PhD program
Undergraduate Study

For undergraduate curricula in Human Development and Family Studies, leading to the degree bachelor of science, see Human Sciences, Curricula.

The Department of Human Development and Family Studies offers courses that focus on the interactions among individuals, families, their resources, and their environments throughout the life span. The department offers work for the Bachelor of Science degree in three curricula: Child, Adult, and Family Services; Family Finance, Housing, and Policy; and Early Childhood Education.

The Child, Adult and Family Services curriculum leads to work in the helping professions with employment opportunities in public and private agencies, including Head Start. Opportunities exist to observe and work with infants, preschoolers, school-age children, adolescents, adults, and families. Graduates of the program are prepared for employment in agencies and organizations serving children, youth, families, and adults as program development specialists, coordinators, directors, teachers, direct care staff, and administrators. This flexible program provides a broad emphasis in theory, research, and application in child, adult and family services including attention to community issues and public policy.

Students in Child, Adult, and Family Services may choose course work that leads to becoming a Certified Family Life Educator (CFLE), a program that has been approved by the National Council on Family Relations. These courses provide the basic education for students interested in working with families, including adolescents, parents, or adults working on relationship issues. The student takes courses that support the development of knowledge and skills in the ten family life substance areas selected by the National Council on Family Relations. The certification is a voluntary credential that requires the individual to complete a degree in an approved program and to have at least two years of work experience in family life education settings.

Students graduating in the Child, Adult, and Family Services major will:
1. demonstrate competency in human development and family studies and their chosen field of emphasis
2. demonstrate proficiency in interpersonal communication and in working with diverse groups to solve multidisciplinary problems
3. effectively practice preparation and delivery of information to human service and child care professionals as well as to the general public
4. critically evaluate information and accurately interpret and use research
5. understand the complexity of issues facing professionals in the field, including ethical, cultural, and environmental elements.

The Family Finance, Housing, and Policy curriculum prepares students for careers as financial counselors and planners, insurance agents, loan officers, mortgage originators, government housing authority administrators, housing advocates, housing planners, real estate agents, non-profit agency administrators, policy analysts and lobbyists, property managers, and consumer credit and financial aid counselors. The program focuses on financial resource management, housing services and administration, and family policy issues pertinent to children, adults, and families. In addition, the program is designed to provide students with skills and background necessary to address the financial and housing related needs of vulnerable households including populations who experience discrimination due to poverty, minority status, age, and/or disability status. Laboratory and practicum opportunities exist in the ISU Financial Counseling Clinic, a HUD-approved financial and housing counseling service. Laboratory opportunities also exist in the Universal Design Learning Laboratory where students can complete class projects and investigations to better understand requirements of life span design and accessibility issues. A variety of service learning opportunities are available to familiarize students with public and not-for-profit community services and agencies. Well qualified juniors and seniors in Family Finance, Housing and Policy who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both a B.S. in FFHP and an M.S. in HDFS or a B.S. in FFHP and a Graduate Certificate in Family Financial Planning. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. See Graduate Study for more information.

Students graduating in the Family Finance, Housing, and Policy major will:
1. demonstrate competency in consumer science and policy and their chosen field of emphasis
2. demonstrate proficiency in interpersonal communication and in working with diverse groups to solve multidisciplinary problems
3. effectively practice preparation and delivery of information to family finance, housing, and policy professionals as well as to the general public
4. critically evaluate information and accurately interpret and use research
5. understand the complexity of issues facing professionals in the field, including ethical, cultural and environmental elements.

The curriculum in Early Childhood Education is planned for students preparing to teach young children and work with their families. This program leads to careers in working with young children who are typically developing and those with special needs from birth through age eight. Graduates in this curriculum may teach in early childhood (preschool and primary) classrooms or home based programs, with emphasis on inclusive services; graduates may be employed by either public or private agencies or schools. This curriculum has been approved by the Iowa Department of Education and meets requirements for the early childhood education unified teacher license, which permits individuals to teach general and special education for children from birth through age eight. The program is an interdepartmental major administered by the Department of Curriculum and Instruction and the Department of Human Development and Family Studies within the College of Human Sciences.

Students who enroll in Early Childhood Education must make application to and be accepted into the teacher education program prior to enrolling in advanced courses. All early childhood education students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education’s mandate for a performance based system of teacher training. Following this same type of system, the State of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Iowa State University Teacher Education Standards and the eight State of Iowa Teaching Standards, along with other information about the University Teacher Education Program, can be found at www.teacher.hs.iastate.edu, the teacher education website. Information is also available from the student’s academic adviser.

Students in early childhood education must meet the performance outcome standards for teacher licensure. Standards are assessed in coursework through designated performance indicators such as assignments, projects, or practicum participation. These standards assessments are based on the early childhood content standards for endorsement 100 in the State of Iowa. These include competencies in
1. child growth, development, and learning
2. developmentally appropriate learning environment and curriculum implementation
3. health, safety, and nutrition
4. family and community collaboration
5. professionalism

Pre-student teaching field experiences and student teaching experience in a least two different settings are required. Students will receive both formative and summative evaluations of their progress toward meeting these outcomes throughout their program at ISU.

The department offers minors in Child, Adult, and Family Services, and Family Finance, Housing, and Policy.
The Child, Adult, and Family Services minor may be earned by completing:

Communication Proficiency requirement: A student must achieve a grade of C or higher in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition. A student achieving a grade of C– or lower in 150 and/or 250 must either repeat the course(s), earning a minimum grade of C, or, in consultation with the adviser and the coordinator of freshman English, complete another appropriate English writing course with a minimum grade of C.

**Graduate Study**

The department offers work for the Master of Science and Doctor of Philosophy degrees with the major in Human Development and Family Studies, and minor work for students taking major work in other departments. Graduates of M.S. and Ph.D. programs in the department will understand and apply relevant theories to educational, research, and/or intervention programs. It is intended that they will produce and disseminate research results and provide leadership in human development and family studies professions.

Within the major of Human Development and Family Studies, both M.S. and Ph.D. candidates may choose to work primarily in one of three signature areas: early childhood, care, and education; life-span development; or family policy and practice. The Department of Human Development and Family Studies offers coursework and experiences leading to the National Council of Family Relations certification as a family life educator.

Prerequisite to work in the major is the completion of a related undergraduate program with basic courses in one or more of the following areas: architecture, child/human development, community and regional planning, economics, education, family studies, interior design, psychology, or sociology. Additional coursework or prerequisites may be required depending on the undergraduate program and program of study.

Core guidelines for graduate programs of study in Human Development and Family Studies have been developed, and the student’s program of study committee has the major responsibility for determining additional requirements for an individual program.

The department offers a graduate minor in Human Development and Family Studies. To earn this minor, students in a Master’s program must take 9 credits in HDFS graduate courses (500, 600 level) with a limit of 3 credits in seminar or workshop credit: (credits in 591 or 691 not allowed)

The department offers a Commission on Accreditation for Marriage and Family Therapy Education (COAMFTE)-accredited Master’s program in Couple and Family Therapy (CFT). Students who graduate from this 62-64 credit program will have met the coursework requirements for licensure as Marital and Family Therapists in the state of Iowa. Admission to the program is competitive and involves a two-step process: first prospective students must apply and be accepted to the HDFS department for admission; second, students who are admitted to the HDFS department for graduate study may be offered an opportunity for an on-campus interview; students are selected into the program based on the interview. Students admitted to the CFT Program will obtain a minimum of 300 client contact hours by working with clients in the ISU Couple and Family Therapy Clinic while receiving close supervision from licensed marital and family therapists. More information about the program can be found at http://www.hdfs.ieastate.edu/graduateprogram/programs/cft.php.

The department also participates in the Master of Family and Consumer Sciences degree programs. Students selecting this option may choose Human Development and Family Studies as the focus of their studies. A 42-credit Master of Family and Consumer Sciences-Family Financial Planning program (MFCS-FFP), along with the 18-credit Graduate Certificate Program is designed to prepare individuals to work in the financial planning field. The courses for this program are completely Web-based. Completion of course work in the Master’s degree and Graduate Certificate meets the educational requirements to sit for the Certified Financial Planner (CFP) Board of Standards Certification Examination.

The department offers well qualified students in Family Finance, Housing, and Policy concurrent degree programs that allow them to obtain a B.S. in FFHP and an M.S. in HD FS or a B.S. in FFHP and a Graduate Certificate in Family Financial Planning in 5 years. Application for admission to the Graduate College should be made near the end of the junior year. Under concurrent enrollment, students simultaneously take undergraduate and graduate courses and may be eligible for assistantships. Students interested in these programs should contact the department for details.

The department cooperates with the interdepartmental Gerontology program; students may declare a minor in Gerontology. The Master of Family and Consumer Sciences - Gerontology program (MFCS-Geron)
and the Graduate Gerontology Certificate program are designed to prepare professionals who work directly with older people or are involved in education and research related to the elderly. Professionals offering direct services often are involved in health promotion programs, directing intergenerational activities, managing senior centers or retirement communities, counseling older people and their families, and helping people plan for retirement. Professionals involved in education and research may evaluate community-based services, teach others about the aging process, develop policies and programs to serve the needs of the elderly, and work with business and industry on issues related to an aging work force.

**Curriculum in Child, Adult, and Family Services**

Administered by the Department of Human Development and Family Studies. Leading to the degree bachelor of science.

Total credits required: 120. The child, adult, and family services curriculum, with options in child programs, youth programs, adult/family programs, leads to employment opportunities in the helping professions working with children, adults, and families in a variety of public and private human service agencies and organizations.

Minors in child, adult, and family services; and gerontology (interdisciplinary minor) are available; see requirements under Human Development and Family Studies, Courses and Programs.

The following requirements are for the child programs, youth programs, adult/family programs:

Curriculum in Early Childhood Education — Unified

The curriculum in early childhood education — unified (ECE — U) is planned for students preparing to teach young children and work with their families. This program leads to a teacher education license upon completing a two-semester sequence in Education and meets the requirements for the early childhood education — unified teacher license. The interdepartmental program is administered by the Departments of Human Development and Family Studies and Curriculum and Instruction.

Students in early childhood education — unified must make application to and be accepted into the teacher education program prior to enrolling in advanced courses. All students, including those seeking a double major, must meet general education requirements for teacher licensure. Iowa State University is in compliance with the Iowa Department of Education’s mandate for a performance-based system of teacher training. Following this same type of system, the state of Iowa has developed and implemented a competency system to evaluate the performance of all teachers. A detailed list of the twelve Teacher Education Standards along with other information about the University Teacher Education Program, can be found at www.teacher.hs.iastate.edu/, the teacher education website.

World Language and Culture Requirements

Early childhood education — unified majors must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). The requirement may be met by completion of three or more years of high school study in one world language.

Students who have completed three or more years of French, German, or Spanish in high school may not receive graded credit for 101/102 in those languages; test-out credit (T credit) may be obtained by passing an appropriate examination or by completing an advanced sequence (200-level or higher) in that language. If these students choose to take 101-102 on a remedial basis, they will be graded S-F.

U.S. Diversity and International Perspectives Requirement: Students in Early Childhood Education – Unified fulfill the U.S. Diversity and International Perspectives Requirements by choosing three cr. of coursework from each of the university-approved lists.

*Refer to departmental curriculum sheet, available from adviser, for specific course require

**Must receive a C or above in each of the specific courses listed

Curriculum in Family Finance, Housing, and Policy

Administered by the Department of Human Development and Family Studies. Leading to the degree bachelor of science.

The family finance, housing, and policy curriculum prepares students for professional work related to financial and housing resource management and policy analysis. The program focuses on financial resource management, housing services and administration, and family policy issues pertinent to children, adults, and families. Graduates of the program are prepared for employment within the public and private sector as financial counselors and planners, insurance agents, loan officers, mortgage origi-

nators, government housing authority administrators, housing advocates, housing planners, real-estate agents, non-profit agency administrators, policy analysts and lobbyists, property managers, and consumer credit and financial aid counselors. Family finance, housing, and policy majors also are prepared to enter graduate programs in family policy and family financial planning.

A minor in Family Finance, Housing and Policy is available; see requirements under Human Development and Family Studies Courses and Programs.

Total credits required: 121.5

Communications and Library: 12.5 cr.

ENGL 150  Critical Thinking and Communication 3
ENGL 250  Written, Oral, Visual, and Electronic Composition 3
SP CM 212  Fundamentals of Public Speaking 3
LIB 160  Library Instruction 0.5
One of the following 3
ENGL 302  Business Communication
ENGL 309  Report and Proposal Writing
ENGL 314  Technical Communication
Total Credits 12.5

Natural Sciences and Mathematical Disciplines*: 10 cr.

STAT 101  Principles of Statistics 4
Computer Science 3
Math, Stat, or Natural Sciences 3
Total Credits 10

Social Sciences: 9 cr.

ECON 101  Principles of Microeconomics 3
SOC 134  Introduction to Sociology 3
Anthr, Econ, Poli, Psych, or Soc 3
Total Credits 9

Humanities: 9 cr.
Select from approved HD FS list.

HD FS orientation: 1 cr.

HD FS 110  Freshman Learning Community Orientation 1
or HD FS 111  Orientation 1
Total Credits 1

Human development and family studies core: 21 cr.

HD FS 102  Individual and Family Life Development 3
HD FS 269  Research in Human Development and Family Studies 3
HD FS 449  Linking Families and Communities 3
HD FS 491  Internship 4-9
HD FS from outside of major 3
Total Credits 16-21

Family finance, housing, and policy core: 19 cr.

HD FS 239  Housing and Consumer Issues 3
HD FS 270  Family Relationships 3
HD FS 283  Personal and Family Finance 3
HD FS 341  Housing Finance and Policy 3
HD FS 395  Children, Families, and Public Policy 3
HD FS 489  Financial Counseling 3
HD FS 489L  Financial Counseling Laboratory 1-4
Total Credits 19-22

Family finance, housing, and policy emphasis: 12 cr.

12 credits from the following 12
ACCT 284  Financial Accounting
HD FS 369  Housing and Services for Families and Children
HD FS 378  Economics of Aging
HD FS 463  Environments for the Aging
HD FS 483  Advanced Personal and Family Finance
HD FS 488  Families in the Economy

Total Credits 12

Electives: 27-29 cr.
Courses from accounting, architecture, art, and design, community and regional planning, economics, family and consumer sciences education, finance, gerontology, interior design, journalism, management, marketing, political science, psychology, and sociology are suggested.

A minor in family finance, housing and policy is available:

Requirements: 15 cr
HD FS 239  Housing and Consumer Issues 3
HD FS 283  Personal and Family Finance 3
HD FS 395  Children, Families, and Public Policy 3
Two of the following 6
HD FS 341  Housing Finance and Policy
HD FS 360  Housing and Services for Families and Children
HD FS 378  Economics of Aging
HD FS 463  Environments for the Aging
HD FS 483  Advanced Personal and Family Finance
HD FS 488  Families in the Economy
HD FS 489  Financial Counseling

Total Credits 15

Courses primarily for undergraduate students

HD FS 102. Individual and Family Life Development. (3-0) Cr. 3. F.S.SS.
Development of individuals, families, and their reciprocal relationships as affected by external factors; examined within a framework of life-span developmental tasks.

HD FS 110. Freshman Learning Community Orientation. (1-0) Cr. 1. F. Prereq: Membership in HD FS Learning Community
Introduction to the Department of Human Development and Family Studies including academic requirements and opportunities, strategies for transitioning to college, learning and study strategies, reading and reflection, and career awareness.

HD FS 111. Orientation. (1-0) Cr. 1.
Orientation to HD FS curricula. Development of a long-term curriculum plan. Offered on a satisfactory-fail basis only.

HD FS 183. Personal Finance in Early Adulthood. (1-0) Cr. 1. F.
Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

HD FS 208. Early Childhood Education Orientation. (Cross-listed with C II.) Cr. 1. F.S.
Overview of early childhood education (birth-grade 3) teacher licensure requirements. Program planning and university procedures. Required of all students majoring in early childhood education. Offered on a satisfactory-fail basis only.

HD FS 218. Professional Orientation and Service Learning. Cr. 2. F.S. Prereq: 102
Restricted to CH FS majors. Ethics, professional development, and career exploration in child, adult and family services. Visits to and service learning with programs that serve children, adults and families with diverse needs. Participation in service learning project required. Offered on a satisfactory-fail basis only.

HD FS 224. Development in Young Children: Birth through Age 8. (3-1) Cr. 3. FS.Alt. SS., offered 2012. Prereq: HDFS 102
Learning, growth, and development (typical and atypical) of children from birth through age eight. Explores importance of family, programs, and a diverse society. Strategies for observing, recording, and interpreting children's cognitive, communication, motor, social, and emotional development. Practicum.

HD FS 226. Development and Guidance in Middle Childhood. (2-2) Cr. 3. F. Prereq: 102 or PSYCH 230
Typical and atypical development from 5 to 12 years of age. Development in the contexts of family, school, and society. Guidance of children in family and group settings; practicum.

HD FS 227. Adolescent Development. (3-0) Cr. 3. S. Prereq: 102 or PSYCH 101 or 230
Physical, cognitive, and socioemotional development of adolescents and young adults in the context of family, relationships, and culture.

HD FS 234. Young Adulthood and Midlife Development. (3-0) Cr. 3. S. Prereq: 102
Introductory exploration of the health, individual and social factors associated with adult development including young adulthood thru middle age. Information is presented from a life-span developmental framework.

HD FS 239. Housing and Consumer Issues. (3-0) Cr. 3. F.
Introduction to factors affecting housing consumption of individuals and families, including current housing consumer issues related to housing choices, housing context of neighborhoods and communities, housing structure types, and credit and housing finance. Issues such as homelessness, housing discrimination, indoor air quality, accessible design.

Meets U.S. Diversity Requirement

HD FS 240. Literature for Children. (3-0) Cr. 3. F.S. Prereq: 102 or PSYCH 230
Evaluation of literature for children. Roles of literature in the total development of children. Literature selection and use.

Meets U.S. Diversity Requirement

HD FS 269. Research in Human Development and Family Studies. (3-0) Cr. 3. S. Prereq: 102 or PSYCH 230
Understanding and evaluating research. Use of primary and secondary data to identify and study problems related to human development and family issues, including finance and housing. An introduction to statistical concepts and computer analysis. Research participation.

HD FS 270. Family Relationships. (3-0) Cr. 3. S. Alt. SS., offered 2013. Prereq: 102 or PSYCH 230
Introduction to and application of family theories. Family communication and its functions to develop, maintain, enrich and limit family relationships.

HD FS 276. Human Sexuality. (3-0) Cr. 3. F.S.SS.
Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships.

Meets U.S. Diversity Requirement

HD FS 283. Personal and Family Finance. (3-0) Cr. 3. F.S.SS.
Introduction to basic principles of personal and family finance. Budgeting, record keeping, checking and savings accounts, consumer credit, insurance, investments, and taxes.
HD FS 317. Field Experiences.
Cr. 1-6. Repeatable. F.S.SS. Prereq: Permission of instructor
Consult department office for procedure. Supervised field experience in human development and family studies programs. Offered on a satisfac-
tory-fail basis only.
A. Early Childhood Education Programs.
B. Family Services Programs.
C. Early Childhood Special Education Programs.
D. School-Age Child Care Programs.
E. Infant/Toddler Programs.
F. Research.
G. Family Finance Programs.
K. Housing Programs.
L. Policy Programs.

HD FS 340. Assessment and Curricula: Ages Birth through 2 Years.
(3-3) Cr. 4. F.S. Prereq: 224
Assessment strategies for infants and toddlers, including those with special needs. Curricula, learning environments, teaching strategies, health and nutritional practices, and schedules that are development-
tally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical, motor, cognitive, communication, and social emotional development; practicum.

HD FS 341. Housing Finance and Policy.
(3-0) Cr. 3. F. Prereq: 6 credits in social sciences
The social, economic, and governmental contexts of housing and finan-
cial decision-making at the household level. Financial considerations for residential property management.

HD FS 342. Guidance and Group Management in Early Childhood.
(2-2) Cr. 3. F.S. Prereq: HDFS 224, HDFS 343 or 344
Guiding prosocial development, self-regulation, and task engagement of children birth to age 8. Focus is on promoting prosocial behaviors through supportive relationships and environments within diverse home, center, or school settings. Functional behavior assessment and ongoing progress monitoring for targeted and intensive interventions. Practicum.

HD FS 343. Assessment and Programming: Ages 3 through 6 Years.
(3-3) Cr. 4. S. Prereq: 224; 240; 269 or Psych 332 or 333
Assessment strategies for preschool and kindergarten children, including those with special needs. Learning environments, schedules, activi-
ties, nutritional practices, and teaching strategies that are development-
tally, individually, and culturally appropriate. Using assessment to plan, implement, and evaluate activities to promote physical motor, cognitive, communication, and social emotional development; practicum.

HD FS 344. Programming for Children in Early Care and Education.
(3-3) Cr. 4. S. Prereq: 224
Programming in inclusive child care centers and family child care homes, including those with special needs, aged birth through 8 years. Devel-
opment, implementing, and evaluating learning environments; activities and materials; behavioral guidance and classroom management practices; health and nutritional practices; and schedules to ensure developmental, individual, and cultural appropriateness. Monitoring children’s development and behavior to promote physical, motor, cognitive, communication, and social emotional development. Collaborating effectively with parents and staff.

(3-1) Cr. 3. F.S. Prereq: Credit or concurrent enrollment in 340 or 343; SP ED 250
Adapting instruction, materials, and equipment to meet developmental needs of young children birth through age 8 with diverse learning needs and multiple disabilities in inclusive settings. Addressing individualized education programs; special health care needs, challenging behavior, and positioning and handling techniques; practicum.

HD FS 349. Parenting and Family Diversity Issues.
(3-0) Cr. 3. F.S. Alt. SS., offered 2012. Prereq: 102 or PSYCH 230; 270
Diversity issues as they affect families. Parenting practices and family relationships among diverse human populations. Understanding the family system and the relationship of that system to societal systems.
Meets U.S. Diversity Requirement

HD FS 360. Housing and Services for Families and Children.
(3-0) Cr. 3. F. Prereq: 6 credits in social sciences
Approaches to and assessment of housing and services that assist those with special needs including those with disabilities, low-income, chil-
dren at risk, single-parents, and the homeless. Emphasis on community settings; e.g., residential facilities, group housing, shelters and transi-
tional housing.
Meets U.S. Diversity Requirement

HD FS 367. Abuse and Illness in Families.
(3-0) Cr. 3. F.S. Alt. SS., offered 2012. Prereq: 102
Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

HD FS 373. Death as a Part of Living.
(Cross-listed with GERON). (3-0) Cr. 3. F.S. Alt. SS., offered 2012. Prereq:
102
Consideration of death in the life span of the individual and the family with opportunity for exploration of personal and societal attitudes.

(Cross-listed with GERON). (3-0) Cr. 3. F.Alt. SS., offered 2013. Prereq: 102
Interchanges of the aged and their families. Emphasis on role changes, social interaction, and independence as influenced by health, finances, life styles, and community development.
Meets U.S. Diversity Requirement

HD FS 378. Economics of Aging.
(Cross-listed with ECON, GERON). (3-0) Cr. 3. S. Prereq: 3 credits in prin-
ciples of economics and 3 credits in human development and family studies
Economic status of the aging, retirement planning and the retirement decision, role of Social Security, public transfer programs for the elderly, intrafamily transfers to/from the elderly, private pensions, financing medical care and housing for the elderly, prospects and issues for the future.

(3-0) Cr. 3. F.S. Alt. SS., offered 2013. Prereq: 6 credits in social sciences
Public policy and politics as they affect children and families. Examination of how individuals and groups influence policy. Investigation of current issues and programs influencing the well-being and welfare of children and families.

Cr. arr. Repeatable. F.S.SS. Prereq: 8 credits in human development and family studies
Intensive study of a selected topic in human development and family studies.

HD FS 417. Supervised Student Teaching.
Cr. 8. Repeatable. Prereq: Reservation required
C. Early Childhood Special Education Programs. F.S.
HD FS 445. Administration of Programs for Children.
(3-0) Cr. 3. S. Prereq: 344
Management principles and techniques, including an introduction to financial management involved in programs for children with diverse needs and their families. Staff development, supervision, and evaluation in programs for children and families. Government regulations concerning child and family programs; community relations; and advocacy for children and families.

HD FS 449. Linking Families and Communities.
(3-0) Cr. 3. F.S. Prereq: 269 or Psych 332 or 333, senior classification
Assessing family needs and community resources across the lifespan. Characteristics of successful community-based family intervention and support programs. Strategies and skills needed by community-based professionals, including grant writing skills. Linking families to community resources. Nonmajor graduate credit.

HD FS 455. Curricula for Ages 3 through 6 Years.
(3-3) Cr. 4. F.S. Prereq: 343, 345; SP ED 355 and 455
Program models and methods leading to development and organization of appropriate curricula in preschool and kindergarten programs for young children with diverse learning needs. Government regulations and professional standards for child programming. Teamming with parents, colleagues, and paraprofessionals to plan, implement, and evaluate developmentally and culturally appropriate individualized education plans in inclusive settings; practicum. Nonmajor graduate credit.

HD FS 456. Family-Centered Supports for Young Children and their Families.
(3-1) Cr. 3. F.S. Prereq: 340, 345
Family systems and the application of family centered principles in early intervention and home-based services. Impact of disability on families with young children and strategies for delivering family-centered interventions and service coordination. Understanding and measuring family outcomes of early intervention. Understanding foundations of theory and policy, establishing effective partnerships, and building family capacity through effective supports and services. Experiences with families. Nonmajor graduate credit.

HD FS 463. Environments for the Aging.
(Dual-listed with 563). (Cross-listed with ARTID, Geron). (3-0) Cr. 3. S.
Prereq: HD FS 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies
Emphasis on independent living within residential settings including specialized shelter, supportive services, and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.

Meets U.S. Diversity Requirement

HD FS 479. Family Interaction Dynamics.
(3-0) Cr. 3. F. Prereq: 102 or equivalent; 269 or equivalent; 9 hours in social sciences and junior or senior status
Analysis of research related to family interaction processes across the family life span. Emphasis on relationship dynamics and cultural differences. Nonmajor graduate credit.

HD FS 483. Advanced Personal and Family Finance.
(3-0) Cr. 3. S. Prereq: 283
Managerial approaches to achievement of short- or long-term financial goals for households. Investigation of different forms of investments and investment risks management in financing current and future consumption. Analyses of tax, estate, and retirement planning needs of the family. Nonmajor graduate credit.

HD FS 486. Administration of Human Service Programs.
(3-0) Cr. 3. F. Prereq: Junior classification; 6 credits in HD FS at 300 level and above
An examination of purposes, staffing, operation, and clientele of organizations and agencies serving families. Analysis of issues in coordination and delivery of services.

HD FS 488. Families in the Economy.
(3-0) Cr. 3. S. Prereq: ECON 101
Analysis of the family as an economic unit in society. Structure and composition of the family. Patterns of resource use and activities pursued by the family. Family economic transitions such as marriage, divorce, and childbirth. Nonmajor graduate credit.

HD FS 489. Financial Counseling.
(Dual-listed with 589). (3-0) Cr. 3. F.
Prereq: 289 Personal, social/psychological, and legal climates affecting family financial decisions. A life-cycle approach to financial decision-making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management. Nonmajor graduate credit.

HD FS 490. Independent Study.
Cr. arr. Prereq: 6 credits in human development and family studies
Consult department office for procedure.

A. Child and Family Studies
B. Housing
C. Family Finance
F. Early Childhood Education
G. Early Childhood Special Education
H. Honors
I. Human Development and Family Studies
L. Policy Programs

HD FS 491. Internship.
Cr. 4-9. Repeatable. F.S.SS. Prereq: 449; permission of instructor, senior classification
Reservation required one semester before placement; minimum 2.0 GPA. Supervised work experience related to the student’s curriculum. Offered on a satisfactory-fail basis only.

HD FS 499. Research.
Cr. arr. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Consult department office for procedures.
Supervised research experience.

HD FS 493. Workshop.
Cr. arr. Repeatable. F.S.SS. Prereq: Senior classification
(Dual-listed with 593).

HD FS 483. Advanced Personal and Family Finance.
(3-0) Cr. 3. S. Prereq: 283
Managerial approaches to achievement of short- or long-term financial goals for households. Investigation of different forms of investments and investment risks management in financing current and future consumption. Analyses of tax, estate, and retirement planning needs of the family. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

HD FS 501. Graduate Study Orientation.
(1-0) Cr. R. F.
Orientation to graduate study and current research in the department.
HD FS 503. Quantitative Research Methodology.
(3-0) Cr. 3. S. Prereq: STAT 401 or RESEV 553, concurrent enrollment in HD FS 505.
Concepts, methods, and strategies for research in human development and family studies. Topics include the nature of scientific research, measurement, types of research in human development and family studies, validity of research designs, methods of data gathering, and strategies for and issues in the study of change.

HD FS 504. Qualitative Research Methods I.
(3-0) Cr. 3. F. Prereq: 9 credits of social sciences
Introduction to qualitative research methodology. Application of fieldwork methods, analysis, interpretation, and writing through individual qualitative research projects.

HD FS 505. Application of Quantitative Research Methodology.
(1-2) Cr. 2. S. Prereq: STAT 401 or RESEV 553, concurrent enrollment in HD FS 503.
Coding, entry and manipulation of research data. Practical applications with interactive statistical software.

HD FS 510. Theories of Human Development.
(3-0) Cr. 3. F.S.S. Prereq: 9 credits of social sciences

HD FS 511. Family Theory.
(3-0) Cr. 3. F. Prereq: 9 credits in social sciences
Theoretical approaches and current research in family development. Review the nature and value of theory to the study of the family and evaluate the use of theory in empirical research. Policy implications.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: Graduate classification; 511 or 6 credits in social sciences
Impact of community contextual influences on human development and families. Analysis of conceptual frameworks, methodological approaches, and current research. Socio-psychological and economic impact of housing and community on children and families.

HD FS 525. Theories and Research in Early Childhood Education.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 510 or 6 credits in social sciences
Analysis of contemporary and historical models, including early intervention programs. Examination of relationships among physical environment, programming, teacher effectiveness, and child outcomes.

HD FS 530. Perspectives in Gerontology.
(Cross-listed with GERON). (3-0) Cr. 3. F.
WWW only. Overview of current aging issues including theory and research, critical social and political issues in aging, the interdisciplinary focus of gerontology, career opportunities, and aging in the future.

HD FS 534. Adult Development.
(Cross-listed with GERON). (3-0) Cr. 3.
F: on campus. S: WWW only. Exploration of the biological, psychological and social factors associated with aging. Although the focus is on the later years, information is presented from a life-span developmental framework. Empirical studies are reviewed and their strengths, limitations and implications for normative and optimal functioning are discussed.

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: 9 credits in human development and family studies or psychology
Theories, research, and current issues regarding development in children with disabilities. Investigation of interventions with children and families. WWW only.

HD FS 541. Housing and Real Estate in Family Financial Planning.
(Cross-listed with FFP). (3-0) Cr. 3. Alt. S., offered 2012.
WWW only. The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate.

HD FS 545. Economics, Public Policy, and Aging.
(Cross-listed with GERON). (3-0) Cr. 3. Alt. F., offered 2012.
WWW only. Policy development in the context of the economic status of the older adult population. Retirement planning and the retirement decisions, social security and public transfer programs, intra-family transfers to/from the aged, private pensions; financing medical care, prospects and issues for the future.

HD FS 548. Parent Education.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 510 or 511 or 6 credits in social sciences
Needs assessments, models, delivery systems, and evaluation procedures used in parent education programs for families with diverse needs, including single parents, adolescent parents, and parents of children with developmental disabilities. Developmental aspects of parenting. Effects of values, family structures, family goals, and parenting styles on parent education.

HD FS 555. Current Issues in ECSE.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 9 credits in social sciences
Examination of research and current issues in early childhood special education with special emphasis on inclusion, activity-based intervention, and developmentally appropriate programming. Emphasis on continuum of strategies to embed learning opportunities that promote physical, language, cognitive, and social development. WWW only.

HD FS 556. Families and Disability Across the Lifespan.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 9 credits in social sciences
Emphasis on research, policy and practice regarding families who have children and adults with disabilities. Environmental, educational, economic, and social issues faced by families. Skills working collaboratively with interdisciplinary professionals and families to implement individualized family and educational programs.

HD FS 563. Environments for the Aging.
(Dual-listed with 463). (Cross-listed with GERON). (3-0) Cr. 3. S. Prereq: 360 or 3 credits in housing, architecture, interior design, rehabilitation, psychology, or human development and family studies
Emphasis on independent living within residential settings including specialized shelter, supportive services and housing management. Application of criteria appropriate for accessibility and functional performance of activities; universal design principles. Creative project provides service learning opportunities.
Meets U.S. Diversity Requirement

(3-0) Cr. 3. S. Prereq: 9 credits in social sciences
Examination of empirical literature on selected family and social policy issues, the effect of policy on children and families, and how social policy is formed, influenced and evaluated.

HD FS 567. Family Stress, Abuse, and Illness.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 9 credits in social sciences
Contemporary theory and research on the causes and consequences of family stressors including physical, sexual, and emotional abuse; substance abuse; and mental and physical illness across the life span. Interplay between victims, offenders, and the treatment system. Identification of barriers to services and supports and exploration of approaches to assist families in overcoming these barriers.
HD FS 568. Developmental Assessment.  
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 510  
WWW only. Techniques assessing developmental and behavioral needs of young children who are at risk or who have disabilities. Includes observation, interview, direct testing with children. Emphasis on gathering, graphing, and interpreting progress monitoring data to make programming decisions.

HD FS 571. Couple Therapy and Assessment.  
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 9 credits in social sciences  
Theories and techniques of couple therapy across the life cycle.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 6 credits in graduate level social sciences  
Professional ethics and legal responsibilities relevant to family therapy. Professional socialization and the role of professional organizations and state licensure/certification.

HD FS 575. Cross-cultural Perspectives on Families and Children.  
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 6 credits in social sciences  
Review of methods and findings on cultural influences on the development of children and youth and on family life. Self reflections on one’s own cultural background and how those experiences may impact your understanding of child rearing practices, family roles, values, and traditions in different homes, communities, and culture.

Meets International Perspectives Requirement.

(Cross-listed with GERON). (3-0) Cr. 3. Prereq: 9 credits in social sciences  
Alt. S., offered 2008: on campus. Alt. S. offered 2008: WWW only. Theories and research related to personal and family adjustments in later life affecting older persons and their intergenerational relationships. Related issues including demographics also are examined through the use of current literature.

HD FS 578. Models of Couple and Family Therapy.  
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 9 credits in social sciences  
Major models of marriage, couple, and family therapy. Includes clinical assessment, intervention, and evaluation.

HD FS 579. Family Interaction Dynamics.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 9 credits in social sciences  
Current research and theory in family interaction, with emphasis on family dynamics and family change across the life course.

Cr. 1-12. Repeatable, maximum of 12 credits. F.S.SS. Prereq: Permission by application  
A. Practicum  
B. Exchange  
C. Group Study

HD FS 582. Contemporary Issues in Couple and Family Therapy.  
(3-0) Cr. 3. Alt. SS., offered 2013. Prereq: 9 credits in social sciences  
Focus on assessment, intervention, and treatment of issues marriage and family therapists routinely face, including suicidal/depressed clients, eating disorders, alcoholism and substance abuse, self-harm behaviors, and grief issues. Issues examined from a systemic, socio-cultural perspective.

HD FS 583. Investing for the Family’s Future.  
(Cross-listed with FFP). (3-0) Cr. 3. F. Prereq: 483  
WWW only. Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family’s overall financial and economic goals to help inform investment choices.

(Cross-listed with GERON). (3-0) Cr. 3. Alt. SS., offered 2012.  
WWW only. Overview of program evaluation, research methods, and grant writing in gerontology. Includes application of quantitative and qualitative methods in professional settings.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 6 credits in graduate level social sciences  
Theoretical and practical issues related to family policy analysis and program evaluation. Assessment of programs’ success in meeting goals. Examination of concepts related to family policy development in the United States. Examination of how individuals and groups can influence family policy and evaluation.

HD FS 586. Sex Therapy.  
(3-0) Cr. 3. Alt. SS., offered 2012. Prereq: 571 or 578  
Review of gender orientation and sexual functioning as well as assessment and treatment of sexual problems. Research regarding effectiveness of treatment is reviewed.

(Cross-listed with W S). (3-0) Cr. 3. Alt. F., offered 2011.  
Review treatment implications associated with topics such as gender and power, race/ethnicity, family structure, and socioeconomic status. Discuss treatment implications of social oppression and discrimination on families.

(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 6 credits in sociology or economics  
Analysis of family income, wealth, and economic well-being. Emphasis on effects of family behavior and public policies on the adequacy and security of income across the family life cycle. Implications of resource allocation within the family for adult and child well-being.

HD FS 589. Financial Counseling.  
(Dual-listed with 489). (3-0) Cr. 3. F. Prereq: Graduate classification  
Personal, social/psychological and legal climates affecting family financial decisions. A life cycle approach to financial decision making. Development of financial counseling and planning skills to assist families and individuals to become self-sufficient in family financial management.

L. Financial Counseling Laboratory

HD FS 589L. Financial Counseling Laboratory.  
(Dual-listed with 489L). (0-2) Cr. 1-4. Repeatable. FS. Prereq: Instructor permission  
Practical experience in remedial, preventive, and productive approaches to both financial and housing counseling in one-on-one and/or group settings.

HD FS 590. Special Topics.  
Cr. arr. Repeatable. Prereq: Permission of instructor  
Consult department office on procedure for filing a written plan of study.  
A. Family Studies  
B. Housing  
C. Family Finance  
D. Human Development  
E. Child Development  
F. Early Childhood Education  
G. Early Childhood Special Education  
I. Human Development and Family Studies  
M. Couple and Family Therapy
N. Family Policy

HD FS 591. Internship.
Cr. arr. Repeatable. F.S.SS. Prereq: 10 graduate credits
Supervised experience in an area of human development and family studies.
A. Family Studies
B. Housing
C. Family Finance
D. Human Development
E. Child Development
F. Early Childhood Education
I. Human Development and Family Studies
M. Marriage and Family Therapy
N. Family Policy

HD FS 593. Workshop.
Cr. arr. Repeatable. F.S.SS. Prereq: Senior classification
Supervised practice and experience in the following specified areas.
A. College Teaching
B. Research
C. Couple and Family Therapy
D. Professional Experience

Courses for graduate students

HD FS 603. Advanced Quantitative Methods.
(3-0) Cr. 3. S. Prereq: 503; STAT 402 or 404
Methodological and analytical issues in research in human development
and family studies. Advanced research design and measurement, selec-
tion of statistical techniques, and issues in the interpretation of findings.

HD FS 604. Advanced Qualitative Research.
(3-0) Cr. 3. S. Prereq: 503. Qualitative methods and related theory in
human development and family studies
Research procedures, including phenomenology, grounded theory,
ethnography, and case studies. Methods of data collection and analysis.

HD FS 605. Multi-level Modeling for Social and Behavioral
Sciences.
(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. F., offered 2011. Prereq:
STAT 404
Rationale for and interpretation of random coefficient models. Strategies
for the analysis of multi-level and panel data including models for random
intercepts, random slopes, and growth curves. Applications including
HLM, SAS, PROC MIX, and MPLUS.

HD FS 616. Seminar.
Cr. arr.
May be repeated. F.S.SS.

HD FS 631. Learning and Cognitive Development in Children.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 510
Theory and research emphasizing constructivist, Vygotskian, and informa-
tion processing approaches to cognitive development. Concept, memory,
and problem-solving development. Sources of individual differences in
cognitive functioning of children and adolescents.

HD FS 632. Language and Literacy Development in Children.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 510
Theory and research related to language and literacy development of
children from birth to age 8. Exploration of the relationship between
language and literacy development during the early childhood years.
Discussion of current issues.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 510
Theory and research related to social and emotional development of
infants, children, and adolescents. Dynamic socialization processes
involving children, adolescents, parents, peers, and society.

HD FS 634. Adolescent Development.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 510 or 511
Theory and research on physical-motor, intellectual-cognitive, and social-
personality development from early to late adolescence. Sources of
developmental and individual differences in identity formation and attain-
ment.

HD FS 650. Advanced Family Policy Theory.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 588
Analysis of theories, research, and current issues related to family and
household economics and policy. Emphasis on theory development and
empirical analyses of macro and micro family economic problems. Future
policy, economic and social trends, and their meaning for the family as an
economic institution.

HD FS 690. Advanced Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor and enrollment in
Ph.D. program
A. Family Studies
B. Housing
C. Family Finance
D. Human Development
E. Child Development
F. Early Childhood Education
G. Early Childhood Special Education
I. Human Development and Family Studies
M. Couple and Family Therapy
N. Family Policy
Human Sciences courses provide integrative study and enriching experiences in areas that cut across the diverse curricula of the College of Human Sciences. These may include such areas as leadership, global understanding, social justice/responsibility, and ethics. Students in any college may take these courses.

Courses primarily for undergraduate students

H SCI 150. Dialogues on Diversity.
(1-0) Cr. 1. F.S.
An exploration of diversity within the context of the Iowa State University community through understanding human relations issues.

Meets U.S. Diversity Requirement

H SCI 482. The Dean’s International Leadership Seminar.
(Dual-listed with 582). (3-0) Cr. 3. S.SS. Prereq: Permission of the seminar leader
Leadership strategies and effective use of leadership skills in an international setting. Compare leadership theories and practices in the U.S. and foreign countries. Construct individual leadership strategies to deal with complex issues in a global environment. Use discussion, personal assessment inventories, and simulated experiences to evaluate leadership strategies. Develop and improve skills in meeting the challenges of teamwork. Learn about the culture of a foreign country.

Meets International Perspectives Requirement.

H SCI 490. Independent Study.
Cr. 1-4.

E. Entrepreneurship

H SCI 582. The Dean’s International Leadership Seminar.
(Dual-listed with 482). (3-0) Cr. 3. S.SS. Prereq: Permission of the seminar leader
Leadership strategies and effective use of leadership skills in an international setting. Compare leadership theories and practices in the U.S. and foreign countries. Construct individual leadership strategies to deal with complex issues in a global environment. Use discussion, personal assessment inventories, and simulated experiences to evaluate leadership strategies. Develop and improve skills in meeting the challenges of teamwork. Learn about the culture of a foreign country.
Kinesiology

Mission
We promote health and well-being by creating and disseminating knowledge about physical activity and active living. Through discovery, learning and engagement we improve the lives of citizens of Iowa, the United States and the world.

Goals
The department has identified the following goals to support this mission:
1. We seek to improve the lives of citizens of Iowa, the United States, and the world by the creation and dissemination of knowledge about physical activity and its relationship to health and well-being.
2. We prepare scholars and professionals in the study of physical activity at the undergraduate and graduate levels.
3. We educate the public and the University community in the scientific aspects of physical activity especially exercise, sport, and the role of movement throughout the lifespan.

Undergraduate Study
Coursework in dance provides opportunities for students to develop an understanding and appreciation of dance as part of a liberal education. Those interested in teaching dance and Physical Education in the public schools may major in Kinesiology and Health (teacher licensure option) and minor in dance.

An interdisciplinary Performing Arts major with a dance emphasis is available through the College of Liberal Arts and Sciences. For further information see Index, Theatre and Performing Arts.

The department offers a minor in dance that may be earned by completing the following:

DANCE 220 Modern Dance Composition 2
DANCE 222 Modern Dance II 1
DANCE 270 Dance Appreciation 3
DANCE 320 Sound and Movement 3
DANCE 360 History and Philosophy of Dance 3
DANCE 384 Teaching Children's Dance 2
DANCE 385 Methods of Teaching Dance 2
DANCE 386 Teaching Dance Technique and Composition 2
3 additional credits selected from dance courses numbered 200 or above. *
Total Credits 21

* Participation in Orchesis I or II is recommended.

Kinesiology
The undergraduate curriculum in Kinesiology and Health is comprised of three components: general education, required departmental courses and the option component courses. The intent of the general education component is to promote intellectual and personal growth and to prepare students for success in the basic, advanced and option components. Required departmental courses and option courses.

Required courses provide an introduction to the field and fundamental principles of physical activity, fitness, health and disease. Coursework within each specialization option builds upon personal and scholarly learning by enabling students to master content and skills specific to career applications. Options comprise a focused area of study within Kinesiology. Options available are:

1. Athletic Training
2. Community and Public Health
3. Exercise Science
4. Pre-Health Professions
5. Physical Education/Teacher Education

Academic options within the undergraduate program. Students in the CAATE accredited Athletic Training option are prepared for the Board of Certification examination or for graduate work in athletic training. Graduates of this option will effectively use their expertise to plan strategies aimed at the prevention, treatment and rehabilitation of athletic injuries.

Students in the Community and Public Health option are prepared for professional employment at local, state or national health agencies, medical centers, and other public organizations that seek to promote health in the population. The curriculum prepares students to take the Certified Health Education Specialist certification examination upon graduation.

Students in the Pre-Health Professions option utilize an interdisciplinary approach to the study of human movement. In so doing, they become prepared for graduate study in Kinesiology or advanced study leading to careers in medicine, physical therapy, or other allied health programs.

Students in the Exercise Science option are prepared for professional roles as health and fitness leaders or program managers. Employment opportunities include work in corporate fitness programs, health clubs, cardiac rehabilitation programs or personal training. Graduates are able to plan, implement and supervise exercise programs which will improve fitness and health. Graduates also have a basic understanding of economic and management issues related to business applications in the health and fitness field.

Students in the Physical Education Licensure Teacher Education option are prepared to teach Physical Education in grades K-12 and to meet the State of Iowa learning outcomes for teachers. Graduates can plan developmentally appropriate physical education, and individualize instruction and assessment for diverse audiences.

Learning outcomes for the undergraduate degree
Despite the diversity Options, the Learning Outcomes comprise a common framework for each student as they matriculate through Iowa State University.

The learning outcomes emphasized in academic coursework in the Department of Kinesiology are:

Content knowledge
The student has a broad conceptual view of physical activity and health, recognizes its scientific underpinnings (e.g. history, content, disciplinary concepts, and tools of inquiry) and appreciates the interdisciplinary nature of the study of physical activity and health. Literacy will be gained from the personal, scholarly and professional perspectives.

Discovery and critical thinking
The student can use accepted techniques of discovery and apply critical thinking within and outside of the discipline area. The student will be able to solve problems independently and evaluate opinions and outcomes at the personal scholarly and professional level.

Communication
The student uses knowledge of effective verbal, nonverbal and media communication techniques to foster inquiry, collaboration, and engagement in physical activity and health related settings.

Numeracy
The student understands and uses qualitative and quantitative analysis through formal and informal assessment strategies.

Technology
The student understands and uses a variety of technological applications to improve personal understanding and to enhance scholarly pursuits and professional practice in their chosen area of study.
Learning in the following domains occurs both in and outside the Iowa State University experience. The department will foster development in these domains through its courses and other activities.

Citizenship
The student uses value and ethics based decision making to demonstrate personal, professional and world citizenship through fostering relationships, embracing leadership, accepting social responsibility, seeking and completing opportunities to improve the quality of life for others.

Lifelong learning
The student is a reflective professional who actively seeks to further self-knowledge and seeks opportunities to grow professionally.

Diversity
The student understands how individuals differ in their approaches to initiating and maintaining a physically active, healthy lifestyle, and creates appropriate environments for diverse participants.

Endorsement to Coach Interscholastic Athletics
The State Department of Education has provided for the endorsement of licensed teachers for the coaching of athletic teams in schools. The endorsement does not lead to licensure to teach physical education. For requirements of the program, leading to the coaching endorsement, see Teacher Education, Requirements for Areas of Specialization.

Basic Activity Instruction Program
The department offers a wide selection of beginning, intermediate, and advanced courses in the areas of aquatics, dance, and sports. These courses are designed to serve general education purposes for all students.

B.S./M.S. degree in Diet and Exercise. A combined Bachelor of Science and Master of Science (B.S./M.S.) degree in diet and exercise is available. The program is jointly administered by the Department of Food Science and Human Nutrition (FSHN), within the Colleges of Agriculture and Human Sciences, and the Department of Kinesiology, within the College of Human Sciences. Students interested in this program must enroll as freshmen in the pre-diet and exercise program. In the fall of the junior year students will apply for admission to the B.S./M.S. program. Students not accepted into the program will continue toward completion of a B.S. degree in dietetics or kinesiology. Coursework has been designed to facilitate a 4-year graduation date for those students not accepted into the program and electing to complete a single undergraduate degree. Students accepted into the program will progress toward completion of B.S./M.S. degrees in diet and exercise.

Graduate Study
The Department of Kinesiology graduate seeks to integrate discovery and learning by preparing graduate students to understand and create basic and applied knowledge in the study of physical activity, exercise and sport. For all graduate degrees the department offers specializations in behavioral basis of physical activity and biological basis of physical activity. The normal prerequisite to major graduate work is the satisfactory completion of a curriculum essentially equivalent to that required of undergraduate students in kinesiology at this university. However, it is possible for students to qualify for graduate study if undergraduate preparation has been in a related area.

Students in the M.S. and Ph.D. degrees are required to complete original research and write a thesis or dissertation. There is a nonthesis degree option for M.S. students requiring more coursework and an internship experience or other creative component. Specific information about the requirements for these degree options is available from the department office or from the department web site (www.kin.hs.iastate.edu/graduate).

The department participates in the interdepartmental minor in gerontology (see Index).

Courses primarily for undergraduate students:

**KIN 101. Swimming I.**
(0-3) Cr. 1. F.S.
Basic course for nonswimmers. Emphasis on two fundamental strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

**KIN 102. Swimming II.**
(0-3) Cr. 1. F.S. Prereq: 101 or equivalent skill
Intermediate course. Emphasis on learning and improving five basic strokes and personal water safety skills. Offered on a satisfactory-fail basis only.

**KIN 108. Aquatic Fitness.**
(0-3) Cr. 1. Prereq: 102 or equivalent skill
Water related exercises, activities, and swimming workouts to improve physical fitness. Offered on a satisfactory-fail basis only.

**KIN 114. Lifeguard Training.**
(0-3) Cr. 1. F.S. Prereq: Ability to swim 500 yards continuously of front crawl, sidestroke, and breaststroke; perform a standing and surface dive; swim under water; and tread water for one minute. Minimum age 16
Specific training for Red Cross Lifeguard certification. First aid and CPR included. Offered on a satisfactory-fail basis only.

**KIN 116. Water Safety Instructor Practicum.**
(0-3) Cr. 1. Prereq: HS 105, CPR certification, and permission of instructor
Supervised teaching experience in swimming, aquatic fitness, lifeguard training, and WSI courses. Offered on a satisfactory-fail basis only.

**KIN 117. Lifeguard Training Instructor.**
(0-2) Cr. 1. F.S. Prereq: Minimum age 17; able to swim 500 yards; current lifeguard, first aid, and CPR certifications
The students will learn skills (rescue skills and CPR for the Professional Rescuer) necessary to certify prospective Lifeguards in the American Red Cross Lifeguard Training Program. Offered on a satisfactory-fail basis only.

**KIN 118. Water Safety Instructor.**
(1-3) Cr. 2. S. Prereq: Minimum age 17; able to swim 500 yards; current first aid and CPR certification
The students will learn the skills necessary to teach and certify individuals in the following American Red Cross courses. Learn to Swim Program (Levels 1-6), Parent and Child Aquatics (Level A 6 months-2 years; Level B 18 months-5 years), Safety Training for Swim Team Coaches, Community Water Safety, Home Pool Safety, Aquatic Leader Program, and Basic Water Rescue. Offered on a satisfactory-fail basis only.

**KIN 122. Badminton.**
(0-2) Cr. 1. F.S.
Offered on a satisfactory-fail basis only.

**KIN 126. Pocket Billiards.**
(0-2) Cr. 1. F.S.
Introduction to the basic strokes (stop, draw, follow) and contemporary game forms associated with pocket billiards. Offered on a satisfactory-fail basis only.

**KIN 129. Bowling.**
(0-2) Cr. 1. F.S.
Offered on a satisfactory-fail basis only.

**KIN 135. Golf.**
(0-2) Cr. 1. F.S.
Beginning skills only. Offered on a satisfactory-fail basis only.

**KIN 144. Racquetball.**
(0-2) Cr. 1. F.S.
Offered on a satisfactory-fail basis only.
KIN 153. Ice Skating.  
(0-2) Cr. 1.  
Offered on a satisfactory-fail basis only.

KIN 158. Tennis.  
(0-2) Cr. 1. F.S.S.S.  
Introduction to basic skills (forehand, backhand, service) and basic knowledge of game play. Offered on a satisfactory-fail basis only.

KIN 163. Physical Fitness.  
(0-3) Cr. 1.  
Evaluation of fitness status. Exercises, activities, and programs to improve physical fitness. Relationship between physical activity and weight control. Offered on a satisfactory-fail basis only. Credit for only Ex Sp 163 or 258 may be applied toward graduation.

KIN 164. Walking for Fitness.  
(0-3) Cr. 1. F.S.  
Fitness walking as an activity to improve health and fitness; values of this type of activity as a lifetime endeavor. Offered on a satisfactory-fail basis only.

KIN 166. Weight Training.  
(0-3) Cr. 1. F.S.  
Offered on a satisfactory-fail basis only.

KIN 170. Tae Kwon Do/Karate I.  
(0-2) Cr. 1. F.S.  
Offered on a satisfactory-fail basis only.

KIN 171. Tae Kwon Do/Karate II.  
(0-2) Cr. 1.  
Offered on a satisfactory-fail basis only.

(0-2) Cr. 1. F.S.  
Offered on a satisfactory-fail basis only.

KIN 182. Volleyball.  
(0-2) Cr. 1.  
Offered on a satisfactory-fail basis only.

KIN 185. Soccer.  
(0-2) Cr. 1.  
Offered on a satisfactory-fail basis only.

KIN 200. Basic Athletic Training.  
(1-2) Cr. 2. Prereq: BIOL 155 or 255 and 256  
Introduction to methods of prevention and immediate care of athletic injuries. Basic information concerning health supervision of athletes, and some basic wrapping and strapping techniques for common injuries.

KIN 221. Pre-Athletic Training Clinical Practicum.  
(0-3) Cr. 1. S. Prereq: Credit or enrollment in 222 and permission of athletic training program director  
Athletic training clinical observation experiences to accompany 222. Utilize knowledge to evaluate, analyze and demonstrate appropriate taping, wrapping and basic skill techniques. Open to students interested in the athletic training option. Offered on a satisfactory-fail basis only.

KIN 222. Basic Athletic Training for Athletic Trainers.  
(2-2) Cr. 3. S. Prereq: BIOL 255, 256L  
Provides pre-athletic training students with the knowledge of the profession of a certified athletic trainer, factors associated with injury prevention, treatment, emergency care of athletic injuries, protective equipment, basic organization, administrative, and legal concepts in the athletic training setting. To be taken concurrently with 221.

KIN 223. Clinical Practicum in Athletic Training.  
(0-3) Cr. 1. F. Prereq: Permission of Athletic Training Program Director  
Athletic training clinical experiences for athletic training students during pre-season intercollegiate football. Clinical experiences include: Professional Rescuer CPR, AED certification, emergency splinting and spineboarding, medical record keeping and HIPPA regulations, environmental conditions, prevention of injury screening strategies, athletic training room and education program policies and procedures, review of athletic taping techniques, acute injury management, mouthpiece formation, and anatomy review. Offered on a satisfactory-fail basis only.

KIN 224. Evaluation of Athletic Injuries I.  
(2-3) Cr. 3. F. Prereq: Permission of athletic training program director  
Sport injury assessment procedures and evaluation techniques for lower body injuries. Includes an overview of mechanisms of injury, general musculoskeletal disorders, and dermatological conditions. Designed for students in the athletic training option or preprofessional health programs.

KIN 225. Athletic Injuries I Clinical Practicum.  
(0-3) Cr. 1. F. Prereq: Permission of athletic training program director  
Athletic training clinical experience to accompany 224. Open to students in the athletic training option. Offered on a satisfactory-fail basis only.

KIN 226. Evaluation of Athletic Injuries II.  
(2-3) Cr. 3. S. Prereq: Permission of athletic training program director  
Sport injury assessment procedures and evaluation techniques for upper body injuries. Includes an overview of common illnesses of athletes and sport specific injuries. Designed for students in the athletic training option or preprofessional health programs.

KIN 227. Athletic Injuries II Clinical Practicum.  
(0-3) Cr. 1. S. Prereq: Permission of athletic training program director  
Athletic training clinical experience to accompany 226. Open to students in the athletic training option. Offered on a satisfactory-fail basis only.

(0-3) Cr. 1. S. Prereq: 101 or equivalent  
Eligibility for admission to KIN teacher education program. Basic water safety and emergency water safety. Skill enhancement, understanding, and progressions.

KIN 231. Fundamentals of Tumbling and Gymnastics.  
(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program  

KIN 232. Fundamentals of Indoor Team Sports.  
(0-3) Cr. 1. S. Prereq: Eligibility for admission to KIN teacher education program  
Fundamentals of indoor team sports, for example basketball, volleyball, team handball. Skill enhancement, analysis, understanding practice and the development of progressions.

(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program  
Fundamentals of outdoor team sports, for example flag football, soccer, softball. Skill enhancement, analysis, understanding practice and the development of progressions.

(0-3) Cr. 1. S. Prereq: Eligibility for admission to KIN teacher education program  
Fundamentals of racquet sports, for example tennis, badminton, racquetball. Skill enhancement, analysis, understanding practice and the development of progressions.
(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program.
Fundamentals of individual sports, for example track and field, golf, archery and bowling. Skill enhancement, analysis, understanding practice and the development of progressions.

KIN 238. Fundamentals of Outdoor and Adventure Activities.
(0-3) Cr. 1. F. Prereq: Eligibility for admission to KIN teacher education program.
Techniques of individual and group facilitation for initiatives involving outdoor adventure activity. Topics include ropes/challenge course events, activity presentation, and sequencing, safety techniques, preparation principles and new games philosophy. Participation is required in one weekend of fieldwork.

KIN 240. Introduction to Taping, Equipment, and Bracing Techniques.
(0-3) Cr. 1. S. Prereq: Permission of athletic training program director.
Basic information and laboratory instruction regarding basic taping techniques, athletic equipment fitting procedures, and the use and proper fitting of prophylactic braces. Open to students in the athletic training option. Offered on a satisfactory-fail basis only.

KIN 252. Disciplines and Professions in Kinesiology and Health.
(1-0) Cr. 1. F.
Overview of the various disciplines and professions that comprise the field of Kinesiology (the study of human movement) and help students determine the career option that best fits their interests.

KIN 253. Orientation in Kinesiology and Health.
(1-0) Cr. 1. S. Prereq: Concurrent enrollment or credit in 252
Overview of ISU policies and procedures, academic advising options, degree requirements, program of study planning, and campus resources. Offered on a satisfactory-fail basis only.

KIN 254. Learning Communities in Kinesiology/Health.
(0.5-0) Cr. 0.5. F.S. Prereq: Concurrent enrollment or credit in 252
Semester long course for new students in the Kinesiology Learning Community to be taken concurrently with the general orientation class for Kinesiology majors. Students will take field trips and work with faculty, staff and mentors to explore careers in kinesiology and complete assignments related to identification & development of their skills and interests. Required for freshmen only. Offered on a satisfactory-fail basis only.

KIN 258. Physical Fitness and Conditioning.
(1-3) Cr. 2. F.S. Prereq: Kinesiology and health majors only
Development of personal fitness using a variety of conditioning and exercise techniques such as aerobics, weight training, and aquatic fitness. Introduction to acute and chronic responses to exercise, and the role of exercise in health promotion and weight management. Credit for only one of the following courses may be applied toward graduation: KIN 163, 258.

KIN 259. Leadership Techniques for Fitness Programs.
(1-3) Cr. 2. F.S. Prereq: 258
Development of exercise leadership skills for a variety of activities. Includes planning, promotion, and teaching techniques for developing fitness in others using a variety of exercise modalities including aerobics, weight training, and aquatic fitness.

KIN 266. Advanced Strength Training and Conditioning.
(1-2) Cr. 2. F.S. Prereq: 258, 259
This course is designed to enhance the student’s current level of knowledge and expertise to an advanced level in the area of strength training and conditioning. The course will prepare students interested in taking the National Strength and Conditioning Association Certified and Conditioning Specialist’s exam. The course will focus on the assessment and implementation of training programs with strong emphasis on the areas of resistance training, metabolic training, flexibility, reaction time, speed, and agility.

KIN 280. Directed Field Experience in Elementary Physical Education.
(0-3) Cr. 1. S.
Observing, planning, and facilitating movement experiences of children in an elementary school setting. Offered on a satisfactory-fail basis only.

KIN 281. Directed Field Experience in Physical Education.
(0-3) Cr. 1. Prereq: Admission to University Teacher Education Program.
Observing, planning, and facilitating movement experiences of students in a public school setting. Offered on a satisfactory-fail basis only.

KIN 284. Elementary and Pre-school Movement Education.
(2-3) Cr. 3. F.S.S.S. Prereq: 3 credits in human development and family studies
Approaches to teaching movement skills to pre-school and elementary school age children. Emphasis on planning and conducting developmentally appropriate movement experiences for preschool and elementary aged children based upon motor development research. Practical experience provided. Credit in only one of the following courses may be applied toward graduation: KIN 284, 312.

KIN 285. Pre-Internship in Kinesiology.
Cr. 1.2. F.S.S.S. Prereq: Kinesiology and Health major and permission of internship coordinator
Pre-internship experience with a community sport and recreation or health fitness organization. Offered on a satisfactory-fail basis only.

KIN 312. Movement Education in Elementary School Physical Education.
(2-3) Cr. 3. S. Prereq: Concurrent enrollment in 280
Planning for management and instruction of developmentally appropriate physical education for children pre-school through elementary grade level. Laboratory experience required. Credit for only one in the following courses can be applied toward graduation: KIN 284, 312.

(0-3) Cr. 3. S.
Study in the theory, ethics, strategy, and mechanics of coaching various interscholastic and/or intercollegiate sports. Emphasis on formulating a philosophy, identifying goals and psychological aspects, teaching skills, and developing strategies.

KIN 323. Therapeutic Modalities for Athletic Trainers.
(2-2) Cr. 3. F. Prereq: Permission of athletic training program director
Theory and technique of therapeutic modalities used in the management of injuries.

KIN 324. Therapeutic Modalities Clinical Practicum.
(0-3) Cr. 1. F. Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany 323. Open to students in athletic training option. Offered on a satisfactory-fail basis only.

KIN 326. Rehabilitation of Athletic Injuries.
(2-2) Cr. 3. S. Prereq: Permission of athletic training program director
Theory and practical application of rehabilitation principles used in the management of athletic injuries.

KIN 327. Rehabilitation of Athletic Injuries Clinical Practicum.
(0-3) Cr. 1. S. Prereq: Permission of athletic training program director
Athletic training clinical experience to accompany 326. Open to students in the athletic training option. Offered on a satisfactory-fail basis only.

KIN 331. Youth Sports.
(Dual-listed with 531). (3-0) Cr. 3. S.
The research findings from non-school related sport programs for children and adolescents and how these impact programs, parents and children including bio-physical, social, psycho-motor and cognitive factors.
KIN 345. Management of Health-Fitness Programs and Facilities.
(3-0) Cr. 3. F.S.
Application of management concepts to the fitness industry, e.g., understanding customers, marketing, program management, financial management, legal issues, and evaluation and planning.

KIN 355. Biomechanics.
(3-0) Cr. 3. F.S. Prereq: PHYS 106 or 111
Mechanical basis of human performance; application of mechanical principles to exercise, sport and other physical activities. Nonmajor graduate credit.

KIN 358. Physiology of Exercise.
(3-0) Cr. 3. F.S. Prereq: BIOL 255, 255L, 256 and 256L
Physiological basis of human performance; effects of physical activity on body functions. Nonmajor graduate credit.

KIN 360. Sociology of Sport and Exercise.
(3-0) Cr. 3. F.S. Prereq: SOC 134 and one of STAT 101, 104 or 226/326, or KIN 471
Sport and exercise as social systems and as institutions related to other institutions such as the polity, the economy, mass media, and education. Nonmajor graduate credit.

KIN 365. Sport Psychology.
(3-0) Cr. 3. F.S. Prereq: PSYCH 101 or PSYCH 230
Psychological factors that influence performance in sport settings. The influence of personality, anxiety, motivation, social factors, and psychological skills training. Nonmajor graduate credit.

KIN 366. Exercise Psychology.
(3-0) Cr. 3. F.S. Prereq: PSYCH 101 or PSYCH 230

KIN 372. Motor Control and Learning Across the Lifespan.
(3-0) Cr. 3. F.S. Prereq: PSYCH 101 or PSYCH 230, BIOL 255, 256
Introduction to major concepts of neuromotor control, behavioral motor control and motor learning in the child, adult and older adult, with emphasis on the adult system. Nonmajor graduate credit.

KIN 375. Teaching Physical Education.
(2-3) Cr. 3. S. Prereq: admission to University Teacher Education Program
Current theory, practice and research on teaching focusing on management, instructional, and learning styles of students in secondary schools.

KIN 385. Search Strategies for Field Experiences and Employment.
(Cross-listed with H S). Cr. R. F.S. Prereq: Junior classification; to be taken minimum of two semesters prior to H S 485
Search techniques and preparation of materials utilized for acquisition of jobs and/or internships in kinesiology and health fields. Internship process and policies/procedures will be covered.

KIN 395. Adapted Physical Education.
(Dual-listed with 595). (2-3) Cr. 3. F. Prereq: 312
Specific disabling conditions in terms of etiology, characteristics, needs, and potential for movement experiences. Techniques of assessment, prescription, adaptation of activities, methods, and program planning. Laboratory experience required. KIN 595 may not be taken by students who have previously earned credit in KIN 395

KIN 399. Sport, Recreation, and Tourism.
(3-0) Cr. 3. F. Prereq: SOC 134
The role of sport in developing fitness, recreational opportunities, and tourism, with special emphasis on issues related to youth sport, volunteerism, and the marketing of sport events and facilities.

KIN 402. Professional Practice.
(3-0) Cr. 3. S.
Prereq: SOC 134
Professional practice in the field of kinesiology and health. Nonmajor graduate credit.

KIN 403. Thematic Field Internship.
(3-0) Cr. 3. S.
Prereq: admission to University Teacher Education Program
Observation and practice of exercise leadership techniques in an on-campus adult fitness program.

KIN 404. Internship in Exercise Leadership.
(0-3) Cr. 1.
Prereq: C- or better in 259, CPR certification, concurrent enrollment in 458
Supervised teaching in the elementary schools.

KIN 405. Internship in Sport Leadership.
(3-0) Cr. 3. S.
Prereq: admission to University Teacher Education Program
Observation and practice of exercise leadership techniques in an on-campus adult fitness program.

(3-0) Cr. 3. S.
Prereq: Permission of athletic training program director
Current administrative, professional, and legal issues pertaining to athletic training. Job search techniques and strategies including preparation of materials for athletic training students.

KIN 418. Supervised Teaching in Physical Education in the Elementary School.
Cr. 8. F.S. Prereq: 280, 312, 355, 358, 375, 395, 471, 475. Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering
Supervised teaching in the elementary schools.

Cr. 8. F.S. Prereq: 355, 358, 375, 395, 471, 475. Students must be fully admitted to Teacher Education and must apply for approval to enroll at the beginning of the semester prior to registering
Supervised teaching in the secondary schools.

(3-0) Cr. 3. F. Prereq: Permission of athletic training program director; senior classification
Current administrative, professional, and legal issues pertaining to athletic training. Job search techniques and strategies including preparation of materials for athletic training students.

KIN 445. Legal Aspects of Sport.
(3-0) Cr. 3. S.
Students will understand legal concepts and terminology relevant to sport/activity, identify strategies for limiting liability in sport/fitness programs, and identify solutions for elimination of discriminatory practices in sport and physical activity.

KIN 450. Medical Concerns for the Athletic Trainer.
(3-0) Cr. 3. F. Prereq: Permission of athletic training program director
Current medical issues and concerns, including pathology of illness and injury, dermatological conditions, exposure to allied health care professionals, and pharmacological indications in relation to the profession of athletic training and in patient/athlete care.

KIN 455. Research Topics in Biomechanics.
(3-0) Cr. 3. Prereq: 355 or permission of instructor
Examination of biomechanics and kinesiology research literature to evaluate the application of mechanical principles and analyses to human movement in exercise, sport, physical activity, and activities of daily living and to assess research outcomes and their implications for motor performance, movement energetic, musculoskeletal loading, and injury.

KIN 458. Principles of Fitness Assessment and Exercise Prescription.
(3-2) Cr. 4. F.S. Prereq: 358
Physiological principles of physical fitness; design and administration of fitness programs; testing, evaluation, and prescription; cardiac risk factor modification.

KIN 459. Internship in Exercise Leadership.
(3-0) Cr. 1. Prereq: C- or better in 259, CPR certification, concurrent enrollment in 458
Observation and practice of exercise leadership techniques in an on-campus adult fitness program.

KIN 462. Medical Aspects of Exercise.
(3-0) Cr. 3. F.S. Prereq: 358
The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions. Environmental and nutritional aspects of exercise. Nonmajor graduate credit.
KIN 467. Exercise Psychology: Clinical Applications & Interventions.
(3-0) Cr. 3. S. Prereq: Introductory course with emphasis on exercise psychology (i.e., KIN 366 or equivalent)
Advanced analysis of theoretical health behavior models and their application to physical activity behavior. Includes practical techniques, tools and interventions (e.g., counseling skills, motivational interviewing) to enhance exercise prescription and motivation, and considerations for working with special populations.

KIN 471. Measurement in Physical Education.
(Dual-listed with 571). (3-0) Cr. 3. S.
Study of grading, assessment and evaluation in physical education with a focus on measuring cognitive and psycho-motor achievement.

KIN 472. Neural Basis of Human Movement.
(Dual-listed with 572). (3-0) Cr. 3. S. Prereq: 372 or PSYCH 310
Addresses the role of the central nervous system in the control of voluntary human movement, with the focus on the cerebral cortex, basal ganglia and cerebellum. Content organized around specific nervous system damage (such as stroke, apraxia, spasticity, or spinal cord damage) and functional movements (such as reaching and grasping, balance and gait). Converging evidence from human movement disorders, brain imaging, animal lesion and single cell studies provide the primary basis for the content. Nonmajor graduate credit.

KIN 475. Physical Education Curriculum Design and Program Organization.
(Dual-listed with 575). (3-0) Cr. 3. F. Prereq: Admission to University Teacher Education Program
Current theory, practices and principles applied to curriculum development for programs in physical education, K-12. Organizing for teaching in a variety of school settings.

KIN 480. Functional Anatomy.
(3-0) Cr. 3. S. Prereq: 355; BIOL 155 or 255 and 256
The structure and function of human muscular, skeletal and nervous systems. The relationship of these systems to efficient and safe human motion. Nonmajor graduate credit.

KIN 481. Biomechanics Lab.
(0-2) Cr. 1. Prereq: 355
Learning lab techniques in Biomechanics and engaging in the experimental process.

KIN 482. Exercise Physiology Lab.
(0-2) Cr. 1. Prereq: 358
Learning lab techniques in Exercise Physiology and engaging in the experimental process.

KIN 483. Exercise Psychology Lab.
(0-2) Cr. 1. Prereq: 366
Learning lab techniques in Exercise Psychology and engaging in the experimental process.

KIN 484. Motor Control Lab.
(0-2) Cr. 1. Prereq: 372
Learning lab techniques in Motor Control and engaging in the experimental process.

KIN 485. Internship in Sport and Exercise Science.
Cr. 1-16. Prereq: Senior classification and advance registration
Observation and practice in selected sport and exercise science agencies. Offered on a satisfactory-fail basis only.

KIN 487. Internship in Sport and Exercise Science.
Cr. 1-16. Prereq: Senior classification and advance registration
Observation and practice in selected sport and exercise science agencies. Offered on a satisfactory-fail basis only.

KIN 488. Research topics in Athletic Training.
Cr. 1-2. Repeatable, maximum of 4 credits. F. Prereq: Permission of athletic training program director
Clinical experiences in application of athletic training techniques under supervision of certified athletic trainers. Participation in monthly research journal discussion. Offered on a satisfactory-fail basis only.

KIN 489. Review of Athletic Training Competencies and Clinical Proficiencies.
Cr. R. F. Prereq: Senior classification, permission of athletic training program director
Preparation for professional endorsement and certification by review of required competencies and clinical proficiencies. Required for endorsement or approval to sit for Board of Certification Exam. Offered on a satisfactory-fail basis only.

KIN 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits from KIN advanced core and permission of coordinator
Independent study of problems of areas of interest in exercise and sport science and related areas.

KIN 495. Seminar in Exercise and Sport Science.
Cr. 0.5-1. Prereq: Senior classification
Offered on a satisfactory-fail basis only.

(3-0) Cr. 3. Repeatable. Prereq: Graduate classification in kinesiology and health
Methods and techniques used in the design and interpretation of research involving physical activity. Emphasis on styles of writing, library use, and computer applications.

KIN 505. Research Laboratory Techniques in Exercise Physiology.
(0-4) Cr. 2. Prereq: KIN 358 or equivalent course with basic laboratory experience
Application and use of laboratory research equipment in exercise physiology, including operation, calibration, and use in selected situations.

KIN 510. Advanced Medical Aspects of Exercise.
(2-0) Cr. 2. Prereq: KIN 358
The role of exercise in preventive medicine. Impact of exercise on various diseases, and the effect of various medical conditions on the ability to participate in vigorous exercise and competitive sports. Principles of exercise testing and prescription for individuals with these conditions.

KIN 512. Methods in Physical Education.
(3-0) Cr. 3. S.
Study of learning and teaching in physical education for elementary and secondary schools.

KIN 516. Quantitative Analysis of Human Movement.
(3-1) Cr. 3. Prereq: KIN 355
Application of the principles of mechanics to the analysis of human motion. Investigation of the effects of kinematics and kinetics on the human body with special emphasis on exercise and sport applications. Includes consideration of two-dimensional and three-dimensional imaging techniques and force measurements.

KIN 517. Musculoskeletal Modeling.
(3-1) Cr. 3. F. Prereq: 355 or permission from instructor
Systematic problem-solving approaches and design of computer programs for biomechanical analyses. Estimation of anthropometric parameters and mechanical properties of muscles, bones, and joints. Integration of anthropometrics, kinematics, and muscle mechanics into simulations of human movement.
KIN 518. Student Teaching in Elementary Physical Education. 
(0-8) Cr. 8. F.S. Prereq: 512, 570, 575
Student teaching for 8 weeks in an elementary school.

KIN 519. Student Teaching in Secondary Physical Education. 
(0-8) Cr. 8. F.S. Prereq: 512, 570, 575
Student teaching for 8 weeks in a middle or high school.

KIN 520. The Social Analysis of Sport. 
(3-0) Cr. 3. Prereq: 360; open to majors only or by permission of instructor
Sociological analysis of sport with emphasis on sociological theory, 
structure, and function in modern industrialized society; the 
systems of sport in regard to their role structure; formal organization, and 
professionalization and its differentiation along social class, age, and sex.

KIN 521. Advanced Topics in Exercise and Sport Psychology. 
(3-0) Cr. 3. Prereq: 365 or 366, 3 courses in psychology; open to majors 
only or by permission of instructor
Aspects of psychology which form a basis for understanding and 
explaining behavior in the context of exercise and sport. Emphasis on 
evaluating published research, particularly theory and research method-
ology. Student presentations.

KIN 531. Youth Sports. 
(Dual-listed with 331). (3-0) Cr. 3. S.
The research findings from non-school related sport programs for children 
and adolescents and how these impact programs, parents and children 
including bio-social, physical, psycho-motor and cognitive factors.

KIN 549. Advanced Vertebrate Physiology I. 
(Cross-listed with AN Sl). (3-0) Cr. 3. F. Prereq: BIOL 335; credit or enroll-
ment in BBMB 404 or 420
Neurophysiology, sensory systems, muscle, neuroendocrinology, 
endocrinology.

KIN 550. Advanced Physiology of Exercise I. 
(2-3) Cr. 3. Prereq: 505
Concepts and methods of assessing neurological, muscular, cardiovas-
cular, and respiratory adjustments to exercise.

KIN 551. Advanced Physiology of Exercise II. 
(2-3) Cr. 3. Prereq: 505
Analysis of factors affecting work capacity and performance. Human 
ergy metabolism concepts and measurement.

KIN 558. Physical Fitness - Principles, Programs and Evaluation. 
(2-3) Cr. 3. Prereq: KIN 358
Physiological principles of physical fitness, design and administration of 
fitness programs; testing, evaluation, and prescription; electrocardiogram 
interpretation.

(2-3) Cr. 3. Prereq: KIN 372
Theoretical perspectives of motor control and learning will be exam-
ined as well as factors that facilitate motor learning. Motor control 
and learning will also be addressed by studying functional tasks such as reach 
and grasp, posture and locomotor, handwriting, catching and/or speech.

(2-0) Cr. 2-3. Prereq: PSYCH 230
Addresses theories and underlying mechanisms of motor development 
and motor control applied to typically and atypically developing children. 
Developmental control of balance, locomotion, reach-to-grasp, and other 
functional skills will be discussed, as will the role of physical activity in a 
child’s life.

KIN 570. Physical Activity Assessment for Health Related Research. 
(2-2) Cr. 3.
This course will cover the broad scope of research in physical activity 
and public health. Emphasis will be placed on the application of physical 
activity assessment techniques since accurate measures are needed 
to more accurately assess the health benefits from physical activity and 
to evaluate the effectiveness of behavioral interventions designed to 
promote physical activity.

KIN 571. Measurement in Physical Education. 
(Dual-listed with 471). (3-0) Cr. 3. S.
Study of grading, assessment and evaluation in physical education with a 
focus on measuring cognitive and psycho-motor achievement.

KIN 572. Neural Basis of Human Movement. 
(Dual-listed with 472). (3-0) Cr. 3. Prereq: KIN 372 or PSYCH 310
Addresses the role of the central nervous system in the control of volun-
tary human movement, with the focus on the cerebral cortex, basal 
ganglia and cerebellum. Content organized around specific nervous 
system damage (such as stroke, apraxia, spasticity, or spinal cord 
damage) and functional movements (such as reaching and grasping, 
balance and gait). Converging evidence from human movement disor-
ders, brain imaging, animal lesion and single cell studies provide the 
primary basis for the content.

KIN 575. Physical Education Curriculum Design and Program Organization. 
(Dual-listed with 475). (3-0) Cr. 3. F.
Current theory, practices and principles applied to curriculum develop-
ment for programs in physical education, K-12. Organizing for teaching in 
a variety of school settings.

KIN 590. Special Topics. 
Cr. 1-3. Repeatable.
A. Physical Education 
B. Health and Exercise Promotion 
D. Exercise Physiology 
E. Sport Sociology 
F. Sport/Exercise Psychology 
G. Motor Behavior 
H. Biomechanics 
I. Research Ethics

KIN 591. Supervised Field Experience. 
Cr. 1-6. Prereq: 10 graduate credits in kinesiology and/or related areas 
Supervised on-the-job field experience in special areas.
A. Physical Education 
B. Health and Exercise Promotion 
D. Exercise Physiology

KIN 592. Practicum in College Teaching. 
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.S.
Supervised experience with teaching an upper division, classroom-based 
course. Offered on a satisfactory-fail basis only.

KIN 595. Adapted Physical Education. 
(Dual-listed with 395). (2-3) Cr. 3. F. Prereq: 375
Specific disabling conditions in terms of etiology, characteristics, needs, 
and potential for movement experiences. Techniques of assessment, 
prescription, adaptation of activities, methods, and program planning. 
Laboratory experience required. KIN 595 may not be taken by students 
who have previously earned credit in KIN 395.

KIN 599. Creative Component. 
Cr. 1-3. Repeatable.
Courses for graduate students:

KIN 615. Seminar. 
Cr. 1-3. Repeatable.
(3-0) Cr. 3. S. Prereq: 501, STAT 401 and 402. Doctoral students only. 
Culminating seminar designed to synthesize statistical and design courses with practical research issues using data from physical activity.

KIN 699. Research.
Cr. 1-6. Repeatable.

Athletics (Ath)

ATH 101. Intercollegiate Athletics.
Cr. 1. Repeatable, maximum of 4 credits. F.S. Prereq: Permission of head coach
Limited to 1 credit per year to a maximum of 4. Offered on a satisfactory-fail basis only. Credit for a sport section of Ath 101 may not be applied toward graduation if credit is also received for KIN 166 or any skill course in the same sport.

B. Basketball (men)
C. Basketball (women)
D. Cross Country (men)
E. Cross Country (women)
F. Football (men)
G. Golf (men)
J. Gymnastics (women)
K. Softball (women)
M. Swimming/Diving (women)
O. Tennis (women)
P. Track and Field (men)
Q. Track and Field (women)
R. Volleyball (women)
S. Wrestling (men)
T. Golf (women)
U. Soccer (women)

Dance (Dance)

DANCE 120. Modern Dance I. 
(0-3) Cr. 1. F.S.
Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Offered on a satisfactory-fail basis only.

DANCE 130. Ballet I. 
(0-3) Cr. 1. F.S.
Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Offered on a satisfactory-fail basis only.

DANCE 140. Jazz I. 
(0-3) Cr. 1. F.S.
Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Offered on a satisfactory-fail basis only.

DANCE 150. Tap Dance I. 
(0-3) Cr. 1. F.
Instruction and practice in basic tap technique and terminology. No previous tap experience required. Offered on a satisfactory-fail basis only.

DANCE 160. Ballroom Dance I. 
(0-2) Cr. 1. F.S.
Instruction and practice in foxtrot, waltz, swing, cha cha, rhumba, tango, and selected contemporary dances. Offered on a satisfactory-fail basis only.

DANCE 199. Dance Continuum.
Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor
Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Offered on a satisfactory-fail basis only.

DANCE 211. Fundamentals and Methods of Social and World Dance. 
(1-3) Cr. 2. S.
Skill enhancement, teaching, progressions with emphasis on world and social dance. Designed for kinesiology and health majors, open to others.

DANCE 220. Modern Dance Composition. 
(1-3) Cr. 2. F. Prereq: 120 or previous modern dance experience
Theory and practice of the creative skills involved in solo and small group composition.

DANCE 222. Modern Dance II. 
(0-3) Cr. 1. F. Prereq: 120 or previous modern dance experience
Dance techniques emphasizing strength, balance, endurance, rhythmic activity and extended combinations.

DANCE 223. Modern Dance III. 
(0-3) Cr. 1. S. Prereq: 222
Continued experience in dance techniques and extended combinations. Emphasis on maturation of skill and artistry. Exposure to a variety of modern dance technical styles.

DANCE 224. Concert and Theatre Dance.
(Cross-listed with THTRE). (0-3) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. Prereq: By audition only
Choreography, rehearsal, and performance in campus dance concerts and/or musical theatre productions. Offered on a satisfactory-fail basis only.

DANCE 232. Ballet II. 
(0-3) Cr. 1. S. Prereq: Previous ballet experience
Technical skills in the classical movement vocabulary. Emphasis on alignment, techniques, sequence development, and performing quality.

DANCE 233. Ballet III.
(0-3) Cr. 1. F. Prereq: 232
Concentration on technical proficiency at the intermediate level. Pointe work and partnering opportunities available.

DANCE 242. Jazz II. 
(0-3) Cr. 1. S. Prereq: Previous jazz dance experience
Dance concepts within the jazz idiom. Instruction in extended movement sequences and artistic interpretation.

DANCE 270. Dance Appreciation. 
(3-0) Cr. 3. F.S.SS.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DANCE 320. Sound and Movement. 
(2-2) Cr. 3. S. Prereq: 220
Intermediate composition based on the relationship of movement to improvised sounds, rhythmic scores, and the musical works of composers from various periods.

DANCE 360. History and Philosophy of Dance. 
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 270
Study of the history of dance from early to modern times with emphasis on the theories and philosophies of contemporary modern dance, dancers, and dance educators.

DANCE 370. Advanced Studies in Dance.
Cr. 1-3. Repeatable, maximum of 8 credits. F.S. Prereq: 2 credits in dance
Advance registration required. Designed to meet special interests and talents of students to include both group and independent study in various aspects of dance as a performing art including production, choreography, and performance.
DANCE 384. Teaching Children’s Dance.
(1-3) Cr. 2. S.
Content, experiences, and methods of a comprehensive dance program at the elementary school level. Theories and practice in guiding elementary school children in expressive movement experiences.

DANCE 385. Methods of Teaching Dance.
(1-3) Cr. 2. F.
Methods and techniques of teaching social and world dance forms. Introduction to teaching educational modern dance.

DANCE 386. Teaching Dance Technique and Composition.
(1-3) Cr. 2. Prereq: 320
Teaching of dance as an expressive art form with emphasis on technique, rhythm, and the creative teaching process.

DANCE 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits in dance and permission of coordinator
Independent study of problems or areas of interest in dance.

Health Studies (HS)

H S 105. First Aid and Emergency Care.
(1-2) Cr. 2. F.S.
Discussion and application of the basic techniques of administering first aid and cardiopulmonary resuscitation. ARC certification available.

H S 110. Personal and Consumer Health.
(3-0) Cr. 3. F.S.
Physical, mental, and social aspects of health as a basis for understanding and preventing health problems. False and misleading advertising and effects of cultists and faddists on consumer health. Study of legislation and agencies concerned with consumer protection and health insurance.

H S 215. Drug Education.
(3-0) Cr. 3. Prereq: PSYCH 101 or 230
Use and abuse of mood modifying substances in contemporary society. Includes study of tobacco, alcohol, and other drugs.

(3-0) Cr. 3. Prereq: HD FS 102 or 226
An overview of school health services, healthful school living, and health instruction for teachers at the elementary level. Credit for both H S 275 and 375 may not be applied toward graduation.

H S 305. Instructor’s First Aid and Cardio-pulmonary Resuscitation.
(1-2) Cr. 2. S. Prereq: 105, current Standard First Aid and Community CPR Certification
Discussion and practice of skills needed to teach first aid and cardiopulmonary resuscitation. ARC certification available.

(3-0) Cr. 3. Prereq: 110
Introduction to community health problems, programs of prevention, environmental health agencies, and health services. Study of local, state, and national community health agencies, their purposes and functions.

H S 350. Human Diseases.
(3-0) Cr. 3. Prereq: 110 and BIOL 255, 256
Discussion of disease process and ill-health in the twentieth century. Emphasis on epidemiology, prevention, treatment, and the understanding of the etiology of communicable and noncommunicable diseases.

H S 375. Teaching-Learning Process in Health Education.
(3-0) Cr. 3. Prereq: 105, 110, 215
Principles, methods, materials, and resources involved in the teaching of health. Includes organization and development of the health education curriculum (K-12). Credit for both H S 275 and 375 may not be applied toward graduation.

H S 380. Worksite Health Promotion.
(3-0) Cr. 3. Prereq: KIN 258, 366, FS HN 167
The design and implementation of worksite health promotion programs and the benefits these programs have for both employees and employers. Review of various health risk appraisals and planning theory-based incentive programs designed to promote positive lifestyles.

H S 385. Search Strategies for Field Experience and Employment.
(Cross-listed with KIN). Cr. R. F.S. Prereq: Junior classification, to be taken minimum of two semesters prior to H S 485
Search techniques and preparation of materials utilized for acquisition of jobs and/or internships in kinesiology and health fields. Internship process and policies/procedures will be covered. Offered on a satisfactory-fail basis only.

H S 390. Administration of the School Health Program.
(3-0) Cr. 3. F. Prereq: 310
History and legal basis of school health programs. Procedures for developing, organizing, administering, and evaluating a modern program of health services, healthful school living, and health instruction. Includes administration, community and school relationships.

Cr. 12. F.S. Prereq: 375
Advance registration required.

H S 430. Community Health Program Development.
(3-0) Cr. 3. F. Prereq: 380
Techniques of needs assessment, program design, administration, and evaluation of community health education programs in various settings.

H S 485. Directed Field Experience in Health Education.
Cr. 1-16. Prereq: All required health studies courses and permission of coordinator
Advance registration required. Supervised experience in health education. Offered on a satisfactory-fail basis only.

H S 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits in health studies and permission of coordinator

Curriculum in Kinesiology and Health

The curriculum in Kinesiology and Health is designed for students preparing to enter professional areas related to the health, exercise or sport science fields. Students majoring in Kinesiology & Health may select one of five options:

1. Athletic Training
2. Community and Public Health
3. Exercise Science
4. Pre-Health Professions
5. Physical Education Teacher Education

Minors in dance, athletic coaching, exercise science, health promotion, kinesiology, and sport and recreation are available; see requirements under Kinesiology, Courses and Programs.

A major in Performing Arts with a dance emphasis is available; see requirements under Curriculum in Performing Arts in Theatre.

Communication Proficiency

In order to meet graduation requirements, all students must earn an average of C (2.0) or better in ENGL 150 and ENGL 250, with neither grade being lower than a C-. Students not meeting this condition must earn a C or better in an advanced writing course:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>
U.S. Diversity and International Perspectives
In order to meet graduation requirements, all students must complete 3 cr. of course work in U.S. Diversity and 3 cr. in International Perspectives. See university approved list.

General Education: Minimum of 38.5 credits required.
Physical and Life Sciences: 8 cr. min required.

- BIOL 255 Fundamentals of Human Anatomy 3
- BIOL 255L Fundamentals of Human Anatomy Laboratory 1
- BIOL 256 Fundamentals of Human Physiology 3
- BIOL 256L Fundamentals of Human Physiology Laboratory 1

Additional option-specific requirements are:
Athletic Training
- PHYS 106 The Physics of Common Experience 4
  or PHYS 111 General Physics
- CHEM 163 College Chemistry 4
- CHEM 163L Laboratory in College Chemistry 1
- FS HN 167 Introduction to Human Nutrition 3

Community and Public Health
- BIOL 211 Principles of Biology I 3
- BIOL 211L Principles of Biology Laboratory I 1
- CHEM 163 College Chemistry 4
- CHEM 163L Laboratory in College Chemistry 1
- MICRO 201 Introduction to Microbiology 2
- MICRO 201L Introductory Microbiology Laboratory 1

Mathematics and Statistics:
3 cr. required

Option-specific requirements are:
Athletic Training
- From the following:
  - MATH 140 College Algebra 3
  - or MATH 141 Trigonometry
  - or MATH 142 Trigonometry and Analytic Geometry
  - or MATH 150 Discrete Mathematics for Business and Social Sciences
  - From the following:
    - STAT 101 Principles of Statistics 4
    - or STAT 104 Introduction to Statistics
    - or STAT 226 Introduction to Business Statistics I

Community and Public Health
- From the following:
  - STAT 101 Principles of Statistics 4
  - or STAT 104 Introduction to Statistics
  - or STAT 226 Introduction to Business Statistics I

Exercise Science
- From the following:
  - MATH 140 College Algebra 3
  - or MATH 141 Trigonometry
  - or MATH 142 Trigonometry and Analytic Geometry
  - or MATH 165 Calculus I

From the following:
- STAT 101 Principles of Statistics 4
- or STAT 104 Introduction to Statistics
- or STAT 226 Introduction to Business Statistics I

Physical Education Teacher Education
One of the following:
- MATH 104 Introduction to Probability and Matrices 3
- or MATH 140 College Algebra
- or MATH 141 Trigonometry
- or MATH 142 Trigonometry and Analytic Geometry
- or MATH 150 Discrete Mathematics for Business and Social Sciences
- or MATH 165 Calculus I

Pre-Health Professions
One of the following:
- MATH 142 Trigonometry and Analytic Geometry 3
- or MATH 165 Calculus I
- or MATH 181 Calculus and Mathematical Modeling for the Life Sciences I

One of the following:
- STAT 101 Principles of Statistics 4
- or STAT 104 Introduction to Statistics
- or STAT 226 Introduction to Business Statistics I

Social Sciences:
9 cr. min required

Option-specific requirements are:
Athletic Training
- PSYCH 101 Introduction to Psychology 3
- or PSYCH 230 Developmental Psychology
- SOC 134 Introduction to Sociology 3

Community and Public Health
- HD FS 102 Individual and Family Life Development 3
- or PSYCH 230 Developmental Psychology

Exercise Science
- PSYCH 101 Introduction to Psychology 3
- or PSYCH 230 Developmental Psychology
- SOC 134 Introduction to Sociology 3

Physical Education Teacher Education
- PSYCH 101 Introduction to Psychology 3
- or PSYCH 230 Developmental Psychology
- SOC 134 Introduction to Sociology 3

Pre-Health Professions
- PSYCH 101 Introduction to Psychology 3
- or PSYCH 230 Developmental Psychology
- SOC 134 Introduction to Sociology 3

Humanities: 6 cr. min required
Choose from department approved list.

Communications: 12.5 cr. min required
- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- SP CM 212 Fundamentals of Public Speaking 3
- LIB 160 Library Instruction 0.5
One of the following
- ENGL 302 Business Communication 3
- ENGL 314 Technical Communication
- SP CM 312 Business and Professional Speaking
Program requirements:
The following courses are required in all options:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

* A grade of C- or better is required.

Total cr. required: A minimum of 124 credits is required, with a minimum of 46 credits in courses numbered 300 or above.

Option 1. Athletic Training
This option prepares students for a career as an athletic trainer in high school, college or professional settings or for work in other settings (such as sports medicine clinics, the military, industry, and fitness centers).

The program is CAATE accredited and students are prepared for the Board of Certification exam upon graduation. Admission to the athletic training program is competitive and based on available departmental resources. Admission procedures and technical standards can be found at www.cycloneathletictraining.com.

Option Requirements:

</tbody>
</table>

Electives: 3.5-4.5

* A grade of C- or better is required.

Option 2. Community and Public Health
This option prepares students for careers in health promotion and disease prevention. Students are prepared for work in state and local health agencies, community and government programs, hospitals, industry, and not-for-profit organizations. Graduates are eligible to take the Certified Health Education Specialist (CHES) exam.

Option Requirements:

<table>
<thead>
<tr>

One of the following

ENGL 309 Report and Proposal Writing
ENGL 313 Rhetorical Website Design
HD FS 395 Children, Families, and Public Policy
JL MC 342 Visual Principles for Mass Communicators
Electives: 11.5-18.5 credits

* A grade of C- or better is required.

Option 3. Exercise Science
This option prepares students for careers in exercise/fitness promotion. Students are prepared as health/fitness specialists, personal trainers, strength and conditioning specialists, and health coaches. Students find work in fitness centers, worksite health programs, medical facilities, cardiac rehabilitation centers, and other agencies that provide fitness services. Students are eligible to sit for certification exams offered by the American College of Sports Medicine and the National Strength & Conditioning Association.

</tbody>
</table>

* A grade of C- or better is required.
Minors

**Health promotion**
The minor requires a minimum of 18 credits and may be earned by completing the following:

- H S 110 Personal and Consumer Health 3
- H S 350 Human Diseases 3
- H S 380 Worksite Health Promotion 3
- H S 215 Drug Education 3

**Exercise science**
The minor requires a minimum of 17 credits and may be earned by completing the following:

- KIN 258 Physical Fitness and Conditioning 2
- KIN 358 Physiology of Exercise 3
- KIN 366 Exercise Psychology 3

**Sport and Recreation**
The minor requires a minimum of 18 credits and may be earned by completing the following:

- KIN 331 Youth Sports 3
- KIN 355 Sport Psychology 3
- KIN 360 Sociology of Sport and Exercise 3
- KIN 399 Sport, Recreation, and Tourism 3
- MGMT 370 Management of Organizations 3

**Athletic Coaching**
The minor requires a minimum of 17 credits and may be earned by completing the following:

- KIN 220 Basic Athletic Training 2
- KIN 315 Coaching Theory and Administrative Issues 3
- KIN 365 Sport Psychology 3
- BIOL 155 Human Biology 3
- or BIOL 255 Fundamentals of Human Anatomy 3

**Kinesiology**
The minor requires a minimum of 15 credits and may be earned by completing the following:

- KIN 366 Exercise Psychology 3
- KIN 358 Physiology of Exercise 3
- KIN 355 Sport Psychology 3
- KIN 372 Motor Control and Learning Across the Lifespan 3

* A grade of C- or better is required.

**Option 5. Pre-Health Professions**
This option is for students interested in graduate study or for those who are preparing for professional programs in medicine, physical therapy, occupational therapy, and other healthcare professions. Course work provides background in human movement while completing the requirements for entry into graduate or professional school.

**Exercise science**
The minor requires a minimum of 17 credits and may be earned by completing the following:

- KIN 220 Basic Athletic Training 2
- KIN 259 Leadership Techniques for Fitness Programs 3
- KIN 266 Advanced Strength Training and Conditioning 3
- KIN 345 Management of Health-Fitness Programs and Facilities 3
- KIN 360 Sociology of Sport and Exercise 3

**Sport and Recreation**
The minor requires a minimum of 18 credits and may be earned by completing the following:

- KIN 331 Youth Sports 3
- KIN 355 Sport Psychology 3
- KIN 360 Sociology of Sport and Exercise 3
- KIN 399 Sport, Recreation, and Tourism 3
- MGMT 370 Management of Organizations 3

**Athletic Coaching**
The minor requires a minimum of 17 credits and may be earned by completing the following:

- KIN 220 Basic Athletic Training 2
- KIN 315 Coaching Theory and Administrative Issues 3
- KIN 365 Sport Psychology 3
- BIOL 155 Human Biology 3
- or BIOL 255 Fundamentals of Human Anatomy 3

**Kinesiology**
The minor requires a minimum of 15 credits and may be earned by completing the following:

- KIN 366 Exercise Psychology 3
- KIN 358 Physiology of Exercise 3
- KIN 360 Sociology of Sport and Exercise 3
- KIN 372 Motor Control and Learning Across the Lifespan 3

* A grade of C- or better is required.

**Option Requirements:**
- KIN 355 Biomechanics (*) 3
- KIN 360 Sociology of Sport and Exercise (*) 3
- KIN 365 Sport Psychology (*) 3
- or KIN 366 Exercise Psychology 3
- KIN 372 Motor Control and Learning Across the Lifespan (*) 3
- KIN 385 Search Strategies for Field Experiences and R 9 cr. from the following 9
- KIN 455 Research Topics in Biomechanics 3
- KIN 458 Principles of Fitness Assessment and Exercise Prescription 3
- KIN 462 Medical Aspects of Exercise 3
- KIN 467 Exercise Psychology: Clinical Applications & Interventions 3
- KIN 472 Neural Basis of Human Movement 3
- KIN 480 Functional Anatomy 3
- KIN 481 Biomechanics Lab 3
- KIN 482 Exercise Physiology Lab 3
- KIN 483 Exercise Psychology Lab 3
- KIN 484 Motor Control Lab 3
- KIN 495 Seminar in Exercise and Sport Science 3

**Specialization Requirements:**
- 26 credits of sciences as required by professional schools

**Electives:**
- 17.5-18.5 credits

* A grade of C- or better is required.

---

**Minors**

**Health promotion**
The minor requires a minimum of 18 credits and may be earned by completing the following:

- H S 110 Personal and Consumer Health 3
- H S 350 Human Diseases 3
- H S 380 Worksite Health Promotion 3
- H S 215 Drug Education 3

**Exercise science**
The minor requires a minimum of 17 credits and may be earned by completing the following:

- KIN 258 Physical Fitness and Conditioning 2
- KIN 358 Physiology of Exercise 3
- KIN 366 Exercise Psychology 3

**Sport and Recreation**
The minor requires a minimum of 18 credits and may be earned by completing the following:

- KIN 331 Youth Sports 3
- KIN 355 Sport Psychology 3
- KIN 360 Sociology of Sport and Exercise 3
- KIN 399 Sport, Recreation, and Tourism 3
- MGMT 370 Management of Organizations 3

**Athletic Coaching**
The minor requires a minimum of 17 credits and may be earned by completing the following:

- KIN 220 Basic Athletic Training 2
- KIN 315 Coaching Theory and Administrative Issues 3
- KIN 365 Sport Psychology 3
- BIOL 155 Human Biology 3
- or BIOL 255 Fundamentals of Human Anatomy 3

**Kinesiology**
The minor requires a minimum of 15 credits and may be earned by completing the following:

- KIN 366 Exercise Psychology 3
- KIN 358 Physiology of Exercise 3
- KIN 360 Sociology of Sport and Exercise 3
- KIN 372 Motor Control and Learning Across the Lifespan 3

* A grade of C- or better is required.
A grade of C- or better is required

Curriculum in Kinesiology and Health

The curriculum in Kinesiology and Health is designed for students preparing to enter professional areas related to the health, exercise or sport science fields. Students majoring in Kinesiology & Health may select one of five options: 1) Athletic Training, 2) Community and Public Health, 3) Exercise Science, 4) Pre-Health Professions and 5) Physical Education Teacher Education.

Minors in dance, athletic coaching, exercise science, health promotion, kinesiology, and sport and culture are available; see requirements under Kinesiology, Courses and Programs.

A major in Performing Arts with a dance emphasis is available; see requirements under Curriculum in Performing Arts in Theatre.

Communication Proficiency

In order to meet graduation requirements, all students must earn an average of C (2.0) or better in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition, with neither grade being lower than a C-

Students not meeting this condition must earn a C or better in an advanced writing course. Select from:

PSYCH 101  Introduction to Psychology  3
or PSYCH 230  Developmental Psychology  3
SOC 134  Introduction to Sociology  3

Humanities: 6 cr. min required
Choose from department approved list.

Communications: 12.5 cr. min required

ENGL 150  Critical Thinking and Communication  3
ENGL 250  Written, Oral, Visual, and Electronic Composition  3
SP CM 212  Fundamentals of Public Speaking  3
LIB 160  Library Instruction  0.5
One of the following  3
ENGL 302  Business Communication  
ENGL 314  Technical Communication  
SP CM 312  Business and Professional Speaking  
Total Credits 12.5

Program requirements:
The following courses are required in all options:

KIN 252  Disciplines and Professions in Kinesiology and Health  1
KIN 253  Orientation in Kinesiology and Health  1
KIN 258  Physical Fitness and Conditioning  2
KIN 358  Physiology of Exercise  3
H S 110  Personal and Consumer Health  3
H S 350  Human Diseases  3
Total cr. required: A minimum of 124 credits is required, with a minimum of 46 credits in courses numbered 300 or above.

Option 1. Athletic Training
This option prepares students for a career as an athletic trainer in high school, college or professional settings or for work in other settings (such as sports medicine clinics, the military, industry, and fitness centers). The program is CAATE accredited and students are prepared for the Board of Certification exam upon graduation. Admission to the athletic training program is competitive and based on available departmental resources. Admission procedures and technical standards can be found at www.cycloneathletictraining.com.

Option Requirements:

KIN 221  Pre-Athletic Training Clinical Practicum  1
KIN 222  Basic Athletic Training for Athletic Trainers  3
KIN 223  Clinical Practicum in Athletic Training  1
KIN 224  Evaluation of Athletic Injuries I  3
KIN 225  Athletic Injuries I Clinical Practicum  1
KIN 226  Evaluation of Athletic Injuries II  3
KIN 227  Athletic Injuries II Clinical Practicum  1
KIN 240  Introduction to Taping, Equipment, and Bracing  1
KIN 266  Advanced Strength Training and Conditioning  
KIN 323  Therapeutic Modalities for Athletes  3
KIN 324  Therapeutic Modalities Clinical Practicum  1
KIN 326  Rehabilitation of Athletic Injuries  3
KIN 327  Rehabilitation of Athletic Injuries Clinical Practicum  1
KIN 355  Biomechanics  *  3
KIN 360  Sociology of Sport and Exercise  *  3
KIN 365  Sport Psychology  *  3
KIN 425  Organization and Administration of Athletic Training  3
KIN 445  Legal Aspects of Sport  3
KIN 450  Medical Concerns for the Athletic Trainer  3
KIN 480  Functional Anatomy  3
KIN 488  Research topics in Athletic Training  1-2
KIN 489  Review of Athletic Training Competencies and Clinical Proficiencies  R
H S 215  Drug Education  3
H S 305  Instructor’s First Aid and Cardio-pulmonary Resuscitation  2
Electives  3.5-4.5

*  A grade of C- or better is required.

Option 2. Community and Public Health
This option prepares students for careers in health promotion and disease prevention. Students are prepared for work in state and local health agencies, community and government programs, hospitals, industry, and not-for-profit organizations. Graduates are eligible to take the Certified Health Education Specialist (CHES) exam.

Option Requirements:

H S 105  First Aid and Emergency Care  2
H S 215  Drug Education  3
H S 310  Community and Public Health  *  3
H S 380  Worksite Health Promotion  3
H S 385  Search Strategies for Field Experience and Employment  
H S 390  Administration of the School Health Program  3
H S 430  Community Health Program Development  3
H S 485  Directed Field Experience in Health Education  1-16
HD FS 449  Linking Families and Communities  3
JL MC 220  Principles of Public Relations  3
or JL MC 305  Publicity Methods  3
KIN 366  Exercise Psychology  *  3
One of the following  3
ENGL 309  Report and Proposal Writing  
ENGL 313  Rhetorical Website Design  
HD FS 395  Children, Families, and Public Policy  
or JL MC 342  Visual Principles for Mass Communicators  
Electives  11.5-18.5

*  A grade of C- or better is required.

Option 3. Exercise Science
This option prepares students for careers in exercise/fitness promotion. Students are prepared as health/fitness specialists, personal trainers, strength and conditioning specialists, and health coaches. Students find work in fitness centers, worksite health programs, medical facilities, cardiac rehabilitation centers, and other agencies that provide fitness services. Students are eligible to sit for certification exams offered by the American College of Sports Medicine and the National Strength & Conditioning Association.

Option requirements:

KIN 259  Leadership Techniques for Fitness Programs  2
KIN 266  Advanced Strength Training and Conditioning  2
KIN 345  Management of Health-Fitness Programs and Facilities  3
KIN 355  Biomechanics  *  3
KIN 360  Sociology of Sport and Exercise  *  3
KIN 366  Exercise Psychology  3
KIN 372  Motor Control and Learning Across the Lifespan  *  3
KIN 385  Search Strategies for Field Experiences and Employment  R
KIN 458  Principles of Fitness Assessment and Exercise Prescription  4
KIN 459  Internship in Exercise Leadership  1
KIN 462  Medical Aspects of Exercise  3
KIN 485A  Health/Fitness Management  1-16
**Option 4. Physical Education Teacher Education**
This option is for students seeking a license to teach K-12 physical education. Students interested in a coaching and/or a health endorsement must complete additional coursework.

**Sciences as required by Professional Schools**
Graduate Study

The Interdepartmental Graduate Program in Nutritional Sciences (IGPNS), administered through the Graduate College, under the auspices of the Chairs of Food Science and Human Nutrition (FS HN) and Animal Science, will provide the structure for coordinating and enhancing interdisciplinary nutrition research and graduate education. M.S. and Ph.D. degrees in Nutritional Sciences will be offered with three specializations: Animal Nutrition, Human Nutrition, or Biochemical & Molecular Nutrition.

The following undergraduate course work is recommended of all applicants who are applying to the IGPNS, but may be modified depending upon the student’s area of emphasis. Recommended course work includes organic chemistry with laboratory, physics, analytical chemistry, a nutrition course that requires biochemistry or organic chemistry as a prerequisite, and a course in biology/physiology or anatomy. Under certain circumstances students can be admitted or provisionally admitted with course work deficiencies. Students with an undergraduate degree will be generally admitted into the M.S. program and upon completion, they can then apply for admission into the Ph.D. program. However, exceptional students with experience can apply directly to the Ph.D. program.

The general requirements of the Nutritional Sciences degree at the MS level, in addition to those of Graduate College, are:

- NUTRS 501 Biochemical and Physiological Basis of Nutrition: Macronutrients and Micronutrients 4
- BBMB 404 Biochemistry I 3
- BBMB 405 Biochemistry II 3
- or BBMB 420 Physiological Chemistry 3
- STAT 401 Statistical Methods for Research Workers 4
- FS HN 580 Orientation to Food Science and Nutrition Research 1
- or AN S 501 Survey of Animal Disciplines 1
- AN S 603 Seminar in Animal Nutrition 1
- or FS HN 682X Seminar in Nutrition (experimental course) 1
- FS HN 581 Seminar (or AN S equivalent) 1
- FS HN 681 Seminar (or AN S equivalent) 1
- FS HN 590C Teaching 1-3
- or AN S 590L Teaching 1

Successful completion and defense of thesis

Students are expected to complete the course work established by the Program of Study (POS) committee based on specialization with a minimum of 30 graduate-level semester credits, not less than 22 of which must be earned at Iowa State University.

The general requirements of the Nutritional Sciences degree at the M.S level, in addition to those of the Graduate College, are:

- Completion of all requirements of the MS degree in Nutritional Sciences
- 3 additional credits of graduate-level biochemistry (6 credits total including those for the M.S.), graduate-level statistics (STAT 402 Statistical Design and the Analysis of Experiments), and physiology (if not taken for the M.S.)
- Additional graduate-level courses in the field of study as deemed appropriate by the POS Committee and specialization, and additional teaching assistant requirements (FS HN 590C Teaching).

Satisfactory completion of a preliminary examination, a written dissertation, seminar presentation of dissertation research, and defense of the dissertation is also required. Overall a minimum of 72 graduate-level semester credits, no less than 36 of which must be earned at Iowa State University.

Curriculum in Nutritional Science - CHS

Administered by the Department of Food Science and Human Nutrition

Pre-Health Professional and Research Option

Total Degree Requirement: 120.5 cr.

Students must fulfill International Perspectives and U.S. Diversity requirements by selecting coursework from approved lists. These courses may also be used to fulfill other area requirements. Only 65 cr. from a two-year institution may apply to the degree which may include up to 16 technical cr.; 9 P-NP cr. of electives; 2.00 minimum GPA.

International Perspectives: 3 cr.

U.S. Diversity: 3 cr.

Communications/Library: 12.5 cr.

ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
ENGL 314 Technical Communication 3
LIB 160 Library Instruction 0.5
SP CM 212 Fundamentals of Public Speaking 3
or COMST 214 Professional Communication 3
Total Credits 12.5

Humanities and Social Sciences: 15 cr.

- Humanities 6
- Social science 3
- FS HN 342 World Food Issues: Past and Present 3
- Humanities or social science 3
Total Credits 15

Mathematical Sciences: 6-12 cr.

Select from:
- MATH 140 College Algebra 3-8
- MATH 142 Trigonometry and Analytic Geometry 4
- MATH 160 Survey of Calculus 3
- MATH 165 Calculus I 5
- MATH 168 Calculus I & MATH 166 and Calculus II 4
- MATH 181 Calculus and Mathematical Modeling for the Life Sciences I 3
- MATH 181 and MATH 182 Calculus and Mathematical Modeling for the Life Sciences II 3
Total Credits 3-4

Statistical Design and the Analysis of Experiments), and physiology (if not taken for the M.S.)

- STAT 101 Principles of Statistics 3
- STAT 104 Introduction to Statistics 3
Total Credits 6-12

Physical Sciences: 17 cr.

- CHEM 177 General Chemistry I 4
- CHEM 177L Laboratory in General Chemistry I 1
- CHEM 178 General Chemistry II 3
- CHEM 178L Laboratory in College Chemistry II 1
- CHEM 331 Organic Chemistry I 3
- CHEM 331L Laboratory in Organic Chemistry I 1
- CHEM 332 Organic Chemistry II 3
- CHEM 332L Laboratory in Organic Chemistry II 1
Total Credits 17

Biological Sciences: 24-26 cr.

- BIOL 211 Principles of Biology I 3
- BIOL 211L Principles of Biology Laboratory I 1
- BIOL 212 Principles of Biology II 3
- BIOL 212L Principles of Biology Laboratory II 1
- BIOL 255 Fundamentals of Human Anatomy 3
- BIOL 255L Fundamentals of Human Anatomy Laboratory 1
Total Credits 3-4

- BIOL 306 Metabolic Physiology of Mammals 3
- BIOL 335 Principles of Human and Other Animal Physiology 3
- BIOL 313 Principles of Genetics 3
Students planning to apply to health professional programs should review entrance requirements and select appropriate courses as electives. Many health professional programs also require physics.

Concurrent B.S. and M.S. Program: Well-qualified students in Nutritional Science who are interested in graduate study may apply for concurrent enrollment in the Graduate College to simultaneously pursue both a Bachelor of Science (B.S.) degree in Nutritional Science and a Master of Science (M.S.) degree in Nutritional Sciences. For more information, refer to www.fshn.hs.iastate.edu

Electives: 11-20 cr. At least 9 credits of electives must be 300-400 level courses. Select from any university coursework to earn at least 120.5 total credits.

Courses for graduate students

(4-0) Cr. 4. F. Prereq: Consent of instructor; Graduate: NUTRS 501
Principles regarding the development of adipose tissue and its role in energy balance, and will focus considerably on endocrine and immune actions of the adipocyte. Course material will be in lecture format, including handouts and selected journal articles. Students will be asked to lead critical discussions of key research findings as summary material for a given topic. Species differences will be highlighted, particularly as they relate to research models.

NUTRS 503. Biology of Adipose Tissue.
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: Undergraduate: consent of instructor; Graduate: NUTRS 503
Principles regarding the development of adipose tissue and its role in energy balance, and will focus considerably on endocrine and immune actions of the adipocyte. Course material will be in lecture format, including handouts and selected journal articles. Students will be asked to lead critical discussions of key research findings as summary material for a given topic. Species differences will be highlighted, particularly as they relate to research models.

NUTRS 504. Nutrition and Epigenetic Regulation of Gene Expression.
(1-0) Cr. 1. Alt. S., offered 2012. Prereq: Graduate standing; undergraduate with consent of instructor
Discussion of epigenetic regulation of gene expression and the role that nutrition plays in this process. Examination of current research literature to understand how different nutrients and physiological states influence epigenetics, as well as, the research methodology used to address these relations.

NUTRS 505. Short Course.
(1-0) Cr. 1. SS. Prereq: Permission of instructor

NUTRS 506. Diet and cancer prevention.
(1-0) Cr. 1. Alt. F., offered 2012. Prereq: BBMB 404 and 405 or BBMB 420
Principles of cancer biology and cancer etiology will be integrated with the impacts of diet on cancer development and prevention. Contributions of research with humans, animals, cultured cells and cell free systems will be included. The importance of dietary contaminants, macronutrients and micronutrients will be examined with an emphasis on the strength of the evidence and mechanisms of action.

NUTRS 518. Digestive Physiology and Metabolism of Non Ruminants.
(Cross-listed with AN S.) (3-0) Cr. 3. Alt. S., offered 2013. Prereq: AN S 419 or NUTRS 501
Digestion and metabolism of nutrients. Nutritional requirements and current research and feeding programs for poultry and swine.

NUTRS 519. Food Toxicology.
(Cross-listed with FS HN, TOX) (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A course in biochemistry
Basic principles of toxicology. Toxicants in the food supply: modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of NutrS 419 and 519 may count toward graduation.

NUTRS 520. Digestive Physiology and Metabolism of Ruminants.
(Cross-listed with AN S) (2-2) Cr. 3. Alt. S., offered 2012. Prereq: AN S 419 or NUTRS 501
Digestive physiology and nutrient metabolism in ruminant and perurni- nant animals.

NUTRS 542. Introduction to Molecular Biology Techniques.
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM, V MPM, VDPAM). Cr. 1. Repeatable. F.S.S. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.S.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and immunofluorescence, and monoclonal antibody production. (S.S.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F.)
F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects.
G. Genomic Techniques

NUTRS 552. Advanced Vertebrate Physiology II.
(Cross-listed with AN S, KINI) (3-0) Cr. 3. S. Prereq: BIOL 335; credit or enrollment in BBMB 404 or 420
Cardiovascular, renal, respiratory, and digestive physiology.

NUTRS 561. Medical Nutrition and Disease I.
(4-0) Cr. 3-4. F. Prereq: FS HN 360, 3 credits in physiology at 300 level or above
(Dual listed with FS HN 461) Pathophysiology of selected chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state. Recitation section (1 cr.) will focus on refinement of assessment skills, diagnosis of nutritional problems, nutrition care, and documentation. Course must be taken for 4 credits if Didactic Program in Dietetics (DPD) verification statement of completion is desired. Graduate students may take the lecture portion without the recitation section.

NUTRS 562. Assessment of Nutritional Status.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: FS HN 461/NUTRS 561 or NUTRS 501
Overview and practical applications of methods for assessing nutritional status, including: theoretical framework of nutritional health and disease, dietary intake, biochemical indices, clinical examination, and body composi-
(3-0) Cr. 3. F. Prereq: FS HN 265 or 360. 366 recommended  
Dual listed with FS HN 463. Survey of current public health nutrition  
problems among nutritionally vulnerable individuals and groups. Discussion  
of the multidimensional nature of those problems and of community programs addressing them. Grant writing as a means for funding community nutrition program development. Significant emphasis on written and oral communication at the lay and professional level. Field trip.

NUTRS 564. Medical Nutrition and Disease II.  
(3-0) Cr. 3-4. S. Prereq: FS HN 360, FS HN 461, or NUTRS 561. 3 credits in physiology at 300 level or above  
(Dual listed with FS HN 464.) Pathophysiology of selected acute and chronic disease states and their associated medical problems. Specific attention will be directed to medical nutrition needs of patients in the treatment of each disease state.

NUTRS 619. Advanced Nutrition and Metabolism - Protein.  
(Cross-listed with AN S). (2-0) Cr. 2. Prereq: BBMB 405  
Digestion, absorption, and intermediary metabolism of amino acids and protein. Regulation of protein synthesis and degradation. Integration of cellular biochemistry and physiology of mammalian protein metabolism.

Cr. R. Repeatable. F.  
Current concepts in nutrition and related fields. Required for all graduate students in nutrition.

NUTRS 690. Special Problems.  
Cr. arr. Repeatable. F.S.SS.

NUTRS 695. Grant Proposal Writing.  
(Cross-listed with FS HN). (1-0) Cr. 1. F. Prereq: 3 credits of graduate course work in food science and/or nutrition  
Grant proposal preparation experiences including writing and critiquing of proposals and budget planning. Formation of grant writing teams in food science and/or nutrition. Offered on a satisfactory-fail basis only.

Cr. arr. F.S.SS.  
Offered on a satisfactory-fail basis only.
Undergraduate Study

The program offers study for the degree of bachelor of science with a major in apparel, merchandising, and design (AMD). The program offers students a broad understanding of textile and apparel products, merchandising and marketing strategies, technical and creative design, product development, production processes, and business practices leading to a wide range of careers at state, national, and international levels in business and industry. Courses in the program provide scientific, technical, and humanistic knowledge about textiles, apparel, and related products basic to career preparation. Courses also provide knowledge applicable to the development and use of apparel and textile products by individuals, families, and institutions. The program provides a foundation for graduate study. Graduates understand the production, distribution, and use of textiles and apparel, aesthetic expression, and communication. They are prepared to plan, develop, source and present textile and apparel products to meet the needs of consumers. They understand the issues involved in textile and apparel production and marketing, both nationally and internationally. Graduates appreciate the interdependence of nations and cultures as producers and consumers of textile products.

The AMD major provides a broad-based program of study with flexibility in creating an individualized program. To complete the program, a student combines general education, AMD core classes, and structured clusters of courses to form an option in merchandising or design.

An option in merchandising prepares students for the planning, development, and presentation of market-oriented product lines and events. Career opportunities are in product development, sourcing, buying, promotion, and management in both manufacturing and retailing sectors with a focus on the textile and apparel industry. An option in creative design is appropriate for those interested in the aesthetic and creative aspects of design, product or line development, or promotion of textiles and apparel. An option in technical design prepares students for careers in technical design, apparel engineering, product development, sourcing, and quality assurance. An option in product development is appropriate for those interested in both designing and merchandising products or lines for consumer groups. Students in design have a review of their design skills (T C 201 Basic Design Concepts Review) after T C 225 Patternmaking I, T C 245 Aesthetics and Brand Image and T C 278 Fashion Illustration. The combinations of primary and secondary options allow students to individualize their programs.

For additional courses of interest, see Apparel, Educational Studies, and Hospitality Management.

The program offers a minor in apparel, merchandising, and design. The minor can be earned by taking (16 -17 cr.):

- T C 131 or T C 165 Overview of the Fashion Industry 3
- T C 204 Textile Science 4
- One of the following 3-4
  - T C 231 Product Development and Manufacturing
  - T C 245 Aesthetics and Brand Image
  - AESHM 275 Merchandising
- 6 credits of the 300-400 level at Iowa State 6
- Total Credits 16-17

Grade point requirement: All students majoring in apparel, merchandising, and design are required to earn a C– or better in all AESHM and T C courses applied toward the degree, including transfer credits.

Communication Proficiency Requirement:

Undergraduate English proficiency is certified when the student has received a grade of C or better in ENGL 150 Critical Thinking and Communication or ENGL 250 Written, Oral, Visual, and Electronic Composition. Students who receive a C-, D+, D, or D– in ENGL 150 Critical Thinking and Communication or ENGL 250 Written, Oral, Visual, and Electronic Composition may take one of the following, with permission from English department, instead of repeating the lower-level course:

- ENGL 302 Business Communication 3
- ENGL 309 Report and Proposal Writing 3
- ENGL 314 Technical Communication 3

Graduate Study

The program offers work for the master of science and doctor of philosophy with a major in apparel, merchandising, and design. The program also participates in the Master of Family and Consumer Sciences degree by offering a specialization within that program. For all programs the field of study is highly interdisciplinary; programs of study are tailored to students’ background and interests.

Graduates understand how textiles and apparel are essential in meeting individual and societal needs and understand the interdependence of nations and cultures as producers and consumers. Graduates understand diverse philosophies of scholarship and apply multiple methods to creative activity, research, and teaching. Strong writing and oral communication skills help graduates disseminate scholarship and compete successfully for awards and grants.

Graduates accept positions relevant to their academic experience. All doctoral graduates have teaching experience. Masters and doctoral graduates have experience working in team-oriented and interactive environments. Graduates are prepared to adapt to future changes in their professions and to provide leadership in professional and public practice. They bring a strong sense of ethics to research, teaching, and business endeavors.

Program emphases for graduate study include consumer behavior; entrepreneurship; merchandising and marketing aspects of textiles and clothing; acquisition and use of textiles and apparel within cultures; U.S. dress and textiles from the 19th into the 21st centuries; textiles; social/psychological aspects of dress; aesthetics and design; product quality and development; textile conservation; and computer-aided design. The program participates in the interdepartmental gerontology minor.

Courses primarily for undergraduate students.

T C 120. Apparel Construction Techniques.
(3-0) Cr. 3. SS.
Analysis and assemble components and completed garments with the use of basic sewing equipment. Learn basic construction techniques, applications and vocabulary. Students will need access to a home sewing machine, iron, computer and the internet. Not available for credit for AMDP majors.

T C 131. Overview of the Fashion Industry.
(3-0) Cr. 3. FS.
Introduction to fashion industry, industry structure from concept to consumer. Focus on fashion-driven consumer goods.

T C 165. Dress and Diversity in Society.
(3-0) Cr. 3. F.S.SS.
Examination of diversity among consumers and forecasting future trends in consumer behavior. Introduction to social responsibility issues.

Meets U.S. Diversity Requirement
(3-3) Cr. 4. F.S.SS. Prereq: 131
WWW lectures. Textile fibers, yarns, fabrication, coloration, and finishes. Quality and performance application to consumer soft goods and technical textiles.

(0-4) Cr. 2. F.S. Prereq: 131, 245; AESHM 111 or concurrent
Applications of basic skills in Photoshop, Illustrator, PDM, Excel, and databases.

T C 221. Apparel Assembly Processes.
(1-4) Cr. 3. F.S. Prereq: 204 or concurrent
Principles of garment assembly. Use of mass production equipment and methods to analyze, develop and assemble garments.

T C 225. Patternmaking I.
(2-4) Cr. 4. F.S. Prereq: 131, 204, 221. Permission of instructor
Basic flat pattern and draping methods for women’s apparel. Pattern-making by computer.

T C 231. Product Development and Manufacturing.
(3-2) Cr. 4. F.S. Prereq: 204
Analysis of apparel product development, sourcing, and manufacturing processes. Focus on materials and specifications relative to quality, performance, and cost.

T C 245. Aesthetics and Brand Image.
(3-0) Cr. 3. F.S. Prereq: 131, 165; 204 or concurrent
Elements and principles of design. Analysis of sensory, expressive, and symbolic aspects that build brand image, with a focus on fashion products and promotional settings.

T C 257. Museum Studies.
(3-0) Cr. 3. Prereq: Sophomore standing

T C 278. Fashion Illustration.
(0-6) Cr. 3. F.S. Prereq: 131, 245 or concurrent enrollment. Permission of instructor
Development of drawing skills, including line, shape, perspective and value. Introduction to drawing the fashion figure and apparel using a variety of media. Fashion presentation and introduction to portfolio development.

T C 301. Basic Design Concepts Review.
Cr. 0.5. Repeatable, maximum of 1 times. F.S. Prereq: Concurrent enrollment in TC 301A and TC 301B required first time taken; completion or enrollment in 225, 278
Project review and skill assessment related to 2-dimensional and 3-dimensional visualization, apparel assembly, basic product knowledge, design problem solving. Review of fashion illustration, textiles, flat pattern, basic apparel assembly, design problem solving. Offered on a satisfactory-fail basis only. Only one credit in 301 may be counted towards graduation.

A. Creative Design
B. Technical Design

T C 305. Quality Assurance of Textiles and Apparel.
(Dual-listed with 505). (2-2) Cr. 3. Prereq: 231, one course in natural science; STAT 101, 226, or 401

(0-6) Cr. 3. Prereq: 278 or concurrent enrollment. Permission of instructor
Analysis and advanced use of computer-aided design software for textile and fashion design for various markets. Digital presentation and portfolio development.

T C 325. Patternmaking II.
(2-4) Cr. 3. F.S. Prereq: 301A or 301B; permission of instructor

T C 326. Creative Design Processes.
(Dual-listed with 526). (1-5) Cr. 3. Prereq: 301A, 321
Exploration of the creative process and sources of inspiration with emphasis on fashion presentation and design development. Continued development of fashion illustration techniques.

T C 328. Design Seminar.
(Dual-listed with 528). Cr. arr. Repeatable. F.S.SS. Prereq: Vary with topic
Focus on artisanal textile, apparel, or surface design techniques. Design processes for specialty fabrics and markets. Topics vary by term.

(Dual-listed with 554). (3-0) Cr. 3. F.Alt. SS., offered 2012. Prereq: 3 credits from Hist or Art H
Survey of history of dress from ancient times through present; focus on European and North American dress. Emphasis on connection of dress to the social, cultural, environmental, and technological contexts of the Western world.

Meets International Perspectives Requirement.

T C 356. History of Twentieth Century Fashion.
(Dual-listed with 556). (3-0) Cr. 3. Prereq: 3 credits Hist or Art H; T C 204 recommended
Survey of major design and technological developments in 20th Century fashion. Emphasis on fashion as a system of design and production, culture of consumption, fashion change, and trends in art, society, and culture.

T C 362. Cultural Perspectives of Dress.
(3-0) Cr. 3. Prereq: 165 or 3 credits in anthropology, psychology, or sociology
Analysis of multiple factors related to dress in selected societies, including technology, cultural identity, aesthetics, social organization, ritual, stability and change. Applications to apparel business.

Meets International Perspectives Requirement.

T C 372. Sourcing and Global Issues.
(3-0) Cr. 3. F.S. Prereq: 231, AESHM 275; ECON 101 or 102 recommended
Evaluation of key issues facing textile and apparel businesses in global markets considering ethical, economic, political, social, and professional implications. Sourcing strategies in a global environment. Corporate and consumer social responsibility and sustainability.

Meets International Perspectives Requirement.

T C 376. Merchandise Planning and Control.
(3-2) Cr. 4. F.S. Prereq: AESHM 275; 3 credits from ACCT 284, MATH 104, 105, 150, or equivalent
Assortment planning, model stocks, six-month buying plan, retail math, buying concepts and strategies.

T C 404. Textile Color Theory.
(Dual-listed with 504). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 204, 245; one natural science course (physics or chemistry recommended)
Theories and principles of textile science; emphasis on color theory, dyes, and color matching.

Cr. 1-3. Repeatable
Trends, issues, and scholarship in textiles and apparel.
(2-2) Cr. 3. F. Prereq: 3018
Garment development and analysis of fit, performance, quality, cost. Exploration of alternative materials, construction methods, grading; specifications and portfolio development.

T C 431. Apparel Production Management.
(3-0) Cr. 3. S. Prereq: 231; T C 221 recommended
Procedures and experiences related to application and use of process controls: method analysis, work measurement, costing, and production planning. Resource management, technology applications, and quality assurance.

T C 467. Consumer Behavior.
(3-0) Cr. 3. F. Prereq: STAT 101 or 104 or 226; T C 165
Application of concepts and theories from the social sciences to the study of consumer behavior related to dress, textile and apparel products, and retail experiences. Experience in conducting consumer research.

T C 475. Retail Information Analysis.
(2-2) Cr. 3. S. Prereq: 376
Forecasting, customer demand, assortment planning, market research, analysis of customer databases, data mining, database interface, pattern recognition, supply-chain/logistics management, retail technology applications such as Visual Retailing, PLM, and Sourcing Simulator.

T C 490. Independent Study.
Cr. arr. Repeatable. F.S.SS. Prereq: 6 credits in textiles and clothing. Permission of the instructor, adviser, and department chair
A. Textile Science
B. History of Dress and Textiles
C. Textile and Apparel Design
D. Aesthetics
E. Entrepreneurship
F. Sociological and Psychological Aspects of Dress and Textiles
G. Consumer Behavior
H. Honors
I. Merchandising
K. Cultural Analysis of Dress and Textiles
M. Museums
N. Apparel Production Management
O. Technical Design
P. Quality Assurance
Q. Public Relations and Publishing
R. Product Development
S. Sourcing and Global Issues

T C 495. Senior Design Studio.
(Dual-listed with 595). (1-5) Cr. 3. Prereq: 321, 325, 326. Permission of instructor
Creation of a line of apparel from concept through completion. Development of portfolio using manual and computer-aided techniques. Line must be submitted to juried competition.

T C 496. Fashion Forecasting and Product Development.
(3-0) Cr. 3. F.S. Prereq: 231, 245, AESHM 275
Applying consumer, aesthetic, and quantitative trend information to develop value-added apparel/textile products and product lines with merchandising/promotion campaigns for diverse target markets. Multi-function team projects. Presentation to industry representatives.

T C 499. Undergraduate Research.
Cr. 1-3. Repeatable. F.S.SS. Prereq: Senior classification, 15 credits in T C. Permission of instructor, adviser, and department chair
Research experience in textiles and clothing with application to a selected problem.

T C 504. Textile Color Theory.
(Dual-listed with 404). (3-0) Cr. 3. Alt. F. offered 2012. Prereq: 204, 245; one natural science course (physics or chemistry recommended)
Theories and principles of textile science; emphasis on color theory, dyes, and color matching.

T C 505. Quality Assurance of Textiles and Apparel.
(Dual-listed with 305). (2-3) Cr. 3. Prereq: 231; STAT 226 or 401; one natural science course

T C 510. Foundation of Scholarship in Textiles and Clothing.
(3-0) Cr. 3. F. Prereq: Graduate classification
Overview of scholarship in textiles and clothing with emphasis on current and future directions. Fundamentals of writing literature reviews. Examination of ethical issues in scholarship and academic life. Introduction to creativity, sustainability, and entrepreneurship. Development of teaching units.

T C 521. Digital Textile and Apparel Design.
(1-4) Cr. 3. Prereq: Experience with flat pattern or draping techniques and image manipulation software. Permission of instructor
Design development, analysis and application of digital textile printing to textile products and garment forms.

T C 526. Creative Design Processes.
(Dual-listed with 326). (2-2) Cr. 3. Repeatable. Alt. S., offered 2012. Prereq: Permission of instructor
Exploration of the creative process and sources of inspiration with emphasis on fashion presentation and design development. Continued development of fashion illustration techniques.

T C 528. Design Seminar.
(Dual-listed with 328). Cr. arr. Repeatable. F.S.SS. Prereq: Vary with topic
Focus on artisanal textile, apparel, or surface design techniques. Design processes for specialty fabrics and markets. Topics vary by term.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: Permission of instructor
Current methods, interpretive strategies, and diverse academic approaches to research in history of dress and textiles, including material culture approach. Emphasis on historical research, writing, and evaluation of sources.

T C 554. History of European and North American Dress.
(Dual-listed with 354). (3-0) Cr. 3. F. Alt. SS., offered 2012. Prereq: 3 credits from Hist or Art H
Survey of history of dress from ancient times through present; focus on European and North American dress. Emphasis on connection of dress to the social, cultural, environmental, and technological contexts of the Western world.

T C 556. History of Twentieth Century Fashion.
(Dual-listed with 356). (3-0) Cr. 3. Prereq: Graduate standing
Survey of major design and technological developments in 20th Century fashion. Emphasis on fashion as a system of design and production, culture of consumption, fashion change, and trends in art, society, and culture.

(3-0) Cr. 3. Prereq: 204
Condition assessment, repair, and stabilization of textiles and apparel in museum collections. Dry and aqueous cleaning. Examination of storage and exhibition techniques, materials, and conditions. Experience with cataloging and management practices.
T C 567. Consumer Behavior and Apparel.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 467 or MKT 447; STAT 401
Application of concepts and theories from the social sciences to the
study of consumer behavior. Experience in conducting research; manu-
script writing.

T C 572. Sourcing and Global Issues.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: a course in merchandising or
marketing
Evaluation of key issues facing textile and apparel businesses in global
markets considering ethical, economic, political, social, and profes-
sional implications. Sourcing strategies in a global environment. Corpo-
rate and consumer social responsibility and sustainability. Experience in
conducting research using secondary data.

Meets International Perspectives Requirement.

T C 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of department chair and
instructor(s)
Individually designed textile and clothing-related projects that reflect the
special interests of the student.

A. Textile Science
B. History of Dress and Textiles
C. Textile and Apparel Design
D. Aesthetics
E. Entrepreneurship
F. Sociological and Psychological Aspects
G. Consumer Behavior
I. Merchandising
K. Cultural Analysis of Dress and Textiles
L. Conservation
M. Museums
N. Apparel Production Management
O. Technical Design
P. Interdisciplinary
Q. Quality Assurance
T. Public Relations and Publishing
U. Product Development
V. Sourcing and Global Issues

T C 595. Senior Design Studio.
(Dual-listed with 495). (1-5) Cr. 3. Prereq: 321, 325, 326. Permission of
instructor
Creation of a line of apparel from concept through completion. Devel-
opment of portfolio using manual and computer-aided techniques. Line
must be submitted to juried competition.

T C 599. Creative Component.
Cr. arr. Prereq: 9 graduate credits in Textiles and Clothing

Courses for graduate students

T C 611. Seminar.
Cr. 1-3. Repeatable. Prereq: 6 graduate credits in textiles and clothing.
Permission of instructor
Discussion of scholarship and current issues. Topics vary.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: Permission of instructor
Analysis of design theory and creative processes, including strategies for
solving aesthetic, functional, and technology-focused design problems.
Design criticism and frameworks for practice led design research.

T C 665. Social Science Theories of Appearance.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits in sociology or
psychology
Analysis of social science theories and concepts applicable to clothing
and appearance research. Emphasis on qualitative research and philos-
ophy of knowledge, including postmodern, symbolic interaction, semi-
otic, and feminist theories.
College of Liberal Arts and Sciences

- Music
- Naval Science
- Philosophy and Religious Studies
- Physics and Astronomy
- Political Science
- Psychology
- Sociology
- Statistics
- World Languages and Cultures

The College of Liberal Arts and Sciences is the academic home, the foundation, for many essential learning disciplines. The college provides students with all the components of a modern liberal education. Students may choose to study in various fields of the physical, Biological, and social sciences; in mathematical disciplines; in methods and systems of communication; and in the arts and humanities.

Learning and Teaching Mission
The primary mission of the college is to promote learning in all its dimensions by providing the student with ample opportunities to acquire the requisite knowledge, abilities, and skills to succeed in the world beyond the university. Throughout coursework within the major and in general education, students will develop skills in reasoning, analysis, and communication; achieve an understanding of the intellectual, historical, and artistic foundations of culture; and work to strengthen their abilities to interact with people, cultures, and the environment in an ethical and sensitive manner. To achieve these learning goals, the college asks students to acquire depth in learning within disciplines of their own choosing, and to acquire breadth through general education courses and electives.

The Curriculum
A baccalaureate degree in liberal arts and sciences is the end result of a curriculum that connects and integrates study in a major with general education. Requirements for a degree are deliberately flexible. Students select programs of study suited to a variety of interests and goals. Students having academic interests not fully met by a departmental major may also pursue a major offered by one of the college’s interdepartmental programs or may apply for an undergraduate major in inter-disciplinary studies (See Index, Cross-Disciplinary Studies, Courses and Programs). The college participates in the University Honors Program; thus, students with exceptional academic promise can develop unique and challenging programs of study.

The college has four curricula: a curriculum in Liberal Arts and Sciences, leading to the bachelor of arts or the bachelor of science degree; a curriculum in music, leading to the bachelor of music degree; a curriculum in liberal studies, leading to the bachelor of liberal studies degree; and a curriculum in software engineering, leading to the bachelor of science degree.

High School Preparation/Admission Requirements
Students entering the college are required to present evidence of the following high school preparation:

- 4 years of English (Typically this preparation includes courses in British, American, and world literature in which critical reading and writing skills are emphasized and courses in speech and composition, including at least one senior-level writing course.)
- 3 years of social studies (Typically such preparation includes two semesters of world history, two semesters of American history, and a semester of American government. Electives can be chosen from areas such as economics, sociology, or psychology.)
- 2 years of a single world language (Three years or more of a single world language are strongly recommended for students who wish to continue their work in that language. A minimum of three years of a single world language is required to fulfill the world language graduation requirement in the College of Liberal Arts and Sciences.)
- 3 years of mathematics (Such preparation shall include two semesters of beginning algebra, two semesters of geometry, and two semesters of intermediate algebra. A fourth year of study involving analytic geometry, trigonometry, linear algebra, and/or calculus is strongly recommended for students who will major in mathematical or scientific disciplines.)
- 3 years of science (At least two years of such preparation shall be chosen from Biology, chemistry, and physics.)

Recommended but not required as a condition of admission to the College of Liberal Arts and Sciences is one semester of computer experience. (Such a course should stress problem-solving with computers and should not substitute for courses in mathematics. In schools where computer use is an integral part of most courses, separate instruction in computers is not necessary.)

Students who transfer from another college or university with at least 24 credits of satisfactory coursework may be exempt from most of these requirements. Students who do not meet the requirements listed here may be admitted with a limited number of deficiencies. Contact the college office for further information about resolving these deficiencies.

Transfer Students
To graduate from the College of Liberal Arts and Sciences, a transfer student must complete the general requirements of the college as well as those of the university. Students planning to transfer to Iowa State University for the purpose of enrolling in the College of Liberal Arts and Sciences are advised to contact the college office for information concerning degree program requirements. Prospective transfer students are urged to learn about the academic programs that are of interest to them well before arriving on campus so that pretransfer courses are appropriate to the planned major and transferable toward graduation from ISU. Additional information concerning transfer credit evaluation may be obtained through the Office of Admissions as well as the department in which a student is interested.
A transfer student in the College of Liberal Arts and Sciences may choose to graduate under the catalog in effect at the time of his or her graduation or under one of the two immediately preceding catalogs, provided that it covers the period of his or her enrollment either at Iowa State or any other accredited school. Full requirements of the chosen catalog must be met except that adjustments will be made in instances where courses are no longer available or where programs have been changed. A transfer student is responsible for reviewing his/her transfer credit evaluation with the academic advisor during the first semester of enrollment.

**University Requirements**

The university requirements for the bachelor’s degree, including statements of academic standards, learning goals, the university residence requirement, the Communication proficiency requirement, U.S. diversity and international perspectives requirement, and the library requirement, appear in the Colleges and Curricula portion at the beginning of this catalog.

**Curriculum in Liberal Arts and Sciences**

To obtain a bachelor’s degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, an undergraduate student must earn a minimum of 120 semester credits including a minimum of 32 semester credits earned in residence at Iowa State University. In addition, the student must meet general education, communication proficiency, library proficiency, world language, and advanced credit requirements, as well as the requirements of a major. Courses taken on a pass/no pass basis may be counted toward the required total of 120 credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

**General Education**

**requirements and Learning Goals**

The central importance of a general education is reflected in the learning goals of each of four disciplinary areas. Whereas the courses in a major are designed to develop mastery of a specific field or discipline, courses in general education are designed to establish a strong, intellectual foundation for all specializations. Students earn the minimum credits listed in each of the four general education areas in courses not required by the department of the first major listed on the degree program. Interdisciplinary courses may be used to satisfy requirements in any area for which they have been approved, but a student may not apply the same course to more than one area.

**Credit by Examination Program**

Individual departments may use CLEP Subject Tests for testout of specific courses. Students in the College of Liberal Arts and Sciences may use CLEP General Test credits as free electives but not toward any of the general education area requirements.

**World Language Requirement**

The faculty of the College of Liberal Arts and Sciences believes that undergraduate students should acquire elementary practical experience in a second language, should be introduced to the theoretical study of language structure, and should begin to develop an understanding of a second culture through study of that culture’s language.

As a means of achieving this objective, a student must satisfy a graduation requirement equivalent to the first year of university-level study in one world language (normally, completion of a two-semester sequence in any one world language). Students who have completed three or more years of high-school world language study are deemed to have completed the LAS World Language Requirement. These students may not enroll in or receive credit for 101 or 102 in those languages; test-out credit may be obtained by passing an appropriate examination or by completing an advanced sequence (200-level or higher) in that language. 101 or 102 may not be taken on a remedial basis.

Students who have completed more than one year but less than three years of high-school world language study may not enroll in 101 in the same language. These students may enroll in either a 102 course in that language, or in the case of Spanish, SPAN 097 Accelerated Spanish Review. Before enrolling in either SPAN 097 Accelerated Spanish Review or a 102 language course, students are advised to take the on-line placement test available at www.language.iastate.edu. SPAN 097 Accelerated Spanish Review is designed for students who need additional remedial work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete SPAN 097 Accelerated Spanish Review with a passing grade will have fulfilled the LAS World Language Requirement. Students who have completed SPAN 097 Accelerated Spanish Review and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students who have completed more than one year but less than three years of high-school world language study may satisfy the World Language Requirement by (a) passing the exam for credit at the 102 level, (b) receiving a passing grade in a 102 world language course, or (c) receiving a passing grade in a world language course at the 200-level or higher. For more information see Department of World Languages and Cultures. (Courses taught in English do not satisfy the World Language Requirement). Iowa State University accepts a record of academic performance in American Sign Language or certification of proficiency in American Sign Language as fulfillment of entrance or graduation requirements in world language for a baccalaureate degree.

Questions about the World Language Requirement and how to meet it should be directed to the Department of World Languages and Cultures. Credits applied toward the World Language Requirement cannot be used to satisfy the general education requirements, but students who have fulfilled the World Language Requirement may apply additional courses in world languages toward the appropriate general education areas. Majors in any world language are deemed to have fulfilled the college World Language Requirement. International students for whom English is a second language may satisfy the World Language Requirement by completion of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition at ISU with an average grade of C- or better. See World Languages and Cultures for additional information on international students.

**Advanced Communication Skills**

The continued development of communication skills following the sophomore year is the responsibility of the student’s major department. The department promotes this development by adopting measures to certify the writing proficiency of its own majors. Certification occurs upon satisfactory completion of a designated course in which writing is evaluated and is a significant component. This designated course may be either a course required in the student’s program or an advanced writing course offered by the Department of English:

<table>

**General Education Areas**

The central importance of a general education is reflected in the learning goals of each of three disciplinary areas. Whereas the courses in a major are designed to develop mastery of a specific field or discipline, courses in general education are designed to establish a strong, intellectual foundation for all specializations. The general education areas with their minimum credit requirements for the College of Liberal Arts and Sciences are:

- **Arts and Humanities**—(Minimum 12 credits). The student should develop an understanding of human cultural heritage and history, and an appreciation of reasoning and the aesthetic value of human creativity.
- **Natural Sciences and Mathematical Disciplines**—(Minimum 11 credits, including 3 in the mathematical disciplines and 8 in the natural sciences). The student should experience science as a rational search
for understanding the structure and behavior of the natural world, and should appreciate mathematics as a valuable tool of the sciences and as an intrinsically important way of thinking.

- Social Sciences—(Minimum 9 credits). The student should develop an appreciation of the principal methods of studying human behavior and an understanding of the structure and functioning of institutions.

Because students fulfill, in part, the learning goals of the area of their first major by taking courses in their programs of study, the minimum number of general education credits required in the area of the first major is reduced from that listed above by 3 credits. Students in Liberal Studies or Interdisciplinary Studies majors must complete the minimum requirements in all three areas. The list of majors falling within each area is available from the Office of the Dean, College of Liberal Arts and Sciences, and is posted on the web site of the College of Liberal Arts and Sciences.

Courses from the department of the first major may not be applied to general education requirements. Courses cross-listed with a course in the student’s first major may be used to satisfy either major requirements or general education requirements, but may not be used more than once. Interdisciplinary courses may be used to satisfy requirements in any area for which they have been approved, but a student may not apply the same course more than once.

Lists of approved courses are available from the LAS College website.

**Advanced Credit Requirements**

To obtain a baccalaureate degree from the College of Liberal Arts and Sciences, curriculum in liberal arts and sciences, a student must earn at least 45 credits at the 300 level or above taken at a four-year college. All such credits, including courses taken on a pass/not pass basis, may be used to meet this requirement.

The major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student’s grade is C or higher. In addition, the average grade of all courses in the major (those courses listed under major on the degree audit) must be 2.0 or higher. Courses from the department of the first major listed on the degree program may not be counted in the general education areas.

**The Major**

Students must show they have achieved depth in a specialized area by completing successfully the requirements and learning goals of a major. A major is comprised of 24 to 48 credits in a specific discipline as determined by the faculty. Tracks within a major must have a common 24 credit core. Some courses outside the major discipline may also be required as supporting work for the major. (See Index for page reference to individual department and program requirements.)

The major must contain at least 8 credits in courses taken at Iowa State University that are numbered 300 or above and in which the student’s grade is C or higher. In addition, the average grade of all courses in the major (those courses listed under major on the degree audit) must be 2.0 or higher. Courses in the first major listed on the degree program may not be counted in the general education groups.

Courses meeting the requirement of additional majors may be counted in the general education groups. When choosing an additional major, students must confirm that the additional major is allowable (see list under “Double Majors”).

The major is chosen from the following list, which also indicates the degree(s) offered in the respective majors.

- Advertising, B.A.
- Anthropology, B.A., B.S.
- Biochemistry, B.S.
- Bioinformatics and Computational Biology, B.S.
- Biological/Pre-Medical Illustration, B.A.
- Biology, B.S.
- Biophysics, B.S.
- Chemistry, B.A., B.S.
- Communication Studies, B.A.
- Computer Science, B.S.
- Earth Science, B.A., B.S.
- Economics, B.S.
- English, B.A., B.S.
- Environmental Science, B.S.
- Environmental Studies (may be taken as a second major with the degree to be determined by the first major)
- Genetics, B.S.
- Geology, B.S.
- History, B.A., B.S.
- Interdisciplinary Studies, B.A., B.S.
- International Studies (may be taken as a second major with the degree to be determined by the first major)
- Journalism and Mass Communication, B.S.
- Linguistics, B.A.
- Mathematics, B.S.
- Meteorology, B.S.
- Music, B.A., B.Mus.
- Performing Arts, B.A.
- Philosophy, B.A.
- Physics, B.S.
- Political Science, B.A.
- Psychology, B.A., B.S.
- Religious Studies, B.A.
- Sociology, B.A., B.S.
- Software Engineering, B.S.
- Speech Communication, B.A.
- Statistics, B.S.
- Technical Communication, B.S.
- Women’s Studies, B.A., B.S.
- World Languages and Cultures, B.A. French, German, Spanish
- The major in interdisciplinary studies (B.A., B.S.) is available for undergraduate students who have unique interdisciplinary educational goals. Such a major is designed by the faculty and the student is approved only when the educational goals cannot be met by a reasonable combination of existing majors, minors, and electives. (See Index, Interdisciplinary Studies.)

A curriculum in liberal studies leading to a bachelor of liberal studies degree (B.L.S.) is also available. (See Index, Liberal Studies.)

The LAS College offers certificate programs available for students seeking documentation of additional study in specialized academic topics. At present, certificates are available in Latin American Studies and in Community Leadership and Public Service. Information about the specific course requirements in these certificate programs may be found in their respective entries in the Courses and Programs section of this catalog.
Double Majors
Students may elect a second major from the departments and program areas listed above, or from a major field offered for the bachelor’s degree in another college of the university. Double majors between the following are not allowed: Chemistry with Biochemistry and Agricultural Biochemistry; Biology with Animal Ecology, Agricultural Biochemistry, Biochemistry, Genetics, and Microbiology.

The major departments must then approve the degree program, and if those majors involve two colleges, both deans must approve. Such programs must fulfill the general education requirements of the college of the primary major. If one major leads to the B.A. degree and the other to the B.S. degree, the degree awarded will be the one offered by the department of the primary major.

If the primary major may lead to either a B.A. or a B.S., a student may choose to receive either degree. In all cases, the student must satisfy the requirements of each major and of the degree that is chosen for the primary major. Students with a primary major in another college who wish to take a second major in the College of Liberal Arts and Sciences are not required to meet the Liberal Arts and Sciences General Education and World Language Requirements.

A student may earn two degrees in the Liberal Arts and Sciences curriculum with two appropriate majors and at least 30 additional credits. Either the B.A. or the B.S. in this curriculum may be earned with the Bachelor of Music. A major in Liberal Arts and Sciences may not be added to a Bachelor of Liberal Studies or a Bachelor of Music degree. Any degree offered by this college may be earned together with a degree with a major in any other college of the university. For the requirements for two degrees, see Index, Bachelor’s Degree Requirements.

Minor
A minor, which is optional, must consist of at least 15 credits, with at least 6 credits in courses numbered 300 and above taken at ISU with a grade of C or higher. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. (See Index, Minors.)

The following minors are offered by the college of Liberal Arts and Sciences:
- Advertising
- African American Studies
- American Indian Studies
- Anthropology
- Astronomy
- Biochemistry
- Biological Illustration
- Biology
- Chemistry
- Chinese Studies
- Classical Studies
- Communication Studies
- Computer Science
- Criminal Justice Studies
- Economics
- Emerging Global Disease
- English
- Entrepreneurial Studies
- Environmental Studies
- French
- Genetics
- Geology
- German
- Gerontology
- History
- International Studies
- Journalism and Mass Communication
- Latin
- Linguistics
- Mathematics
- Meteorology
- Military Studies (Army Reserve Officers’ Training Corps)
- Music
- Music Technology
- Performing Arts
- Philosophy
- Physics
- Political Science
- Psychology
- Religious Studies
- Russian Studies
- Sociology
- Spanish
- Speech Communication
- Statistics
- Technical Communication
- Technology and Social Change
- Women’s Studies

Courses applied toward the general education groups may be used to meet the requirements of a minor. (For restrictions, see Index, Minors.)

If a student declares a minor and completes the requirements specified by the offering department/program, the minor will be recorded on the transcript.

Electives
Students will take additional courses, freely elected, sufficient to accumulate a total of 120 credits. These additional courses together with the general education courses may be used to meet the requirements of a minor or of another major, provided that they are taken on a graded basis.

Planning the Program of Study
Careful, comprehensive planning is important for meeting graduation requirements and taking advantage of the resources offered by the university. Each student is encouraged to work with his or her academic adviser in developing a four year plan as soon as possible after declaration of the major. A degree audit listing all completed courses and those remaining to be taken for fulfillment of the degree requirements in the student’s chosen major is provided to the student and the adviser each semester. The student should review the audit each semester and...
consult with the adviser when changes are required. Any changes to the audit must be approved by the academic adviser and by the dean’s office. It is essential that the audit be reviewed and updated in a timely fashion in order to avoid delay in the student’s graduation.

Students should meet proficiency requirements in English and in library. They should also make progress toward meeting the general education requirements, a large part of which should be completed by the end of the second year. The third and fourth years should emphasize completion of the major (and minor, if elected) and of general education requirements, and should give the student an opportunity to take electives.

**Academic Advising Learning Outcomes**

Through their experience with academic advising, students will:

- Develop an understanding of the structure, application, and goals of a liberal arts education in relation to their academic development.
- Be able to formulate appropriate questions, seek information, and evaluate and apply academic advice.
- Know the requirements, policies and protocol of the university, college, and department as they relate to their educational experience.
- Understand how degree programs can be enhanced by study and experiences tailored to their intellectual and personal goals.
- Be able to identify and utilize university resources effectively to:
  - Satisfy degree requirements
  - Plan programs of study, including selection of appropriate courses and registration
  - Discover how interests, skills and goals connect to fields of study and careers
  - Link curricular and co-curricular activities
  - Research and prepare for advanced study and/or careers
  - Share responsibility for a mentor-mentee relationship between advisee and adviser.

**The Open Option**

Many students entering Iowa State University are not ready to declare a major. They want time to become familiar with the academic opportunities that the university offers and to determine the best match between their academic interests and abilities. These students enter Iowa State University as Open Option majors.

The Open Option experience is designed to help students explore majors and careers, become acquainted with the entire university, and make successful adjustments to the academic expectations of Iowa State. Open Option students are assigned academic advisers in the Liberal Arts and Sciences Student Academic Services Office. These advisers help students with academic and career development.

During the first year, an orientation class introduces them to all of the colleges and majors on campus. A career development class in the second semester guides students in selecting a major and career that match their academic and personal goals. Open Option majors also have the opportunity to be members of a learning community with other Open Option students.

Aided by their adviser, Open Option students select courses that allow them to sample their academic interests before committing to a specific university major. Open Option students typically declare a major during their second or third semester. In addition, students who may have started in a specific field and have discovered it is not meeting their needs may transfer into Open Option for a semester or two while they decide on a new major.

**Honors Program**

For information on the Honors Program in the College of Liberal Arts and Sciences, see Index, Liberal Arts and Sciences, Cross-Disciplinary Programs, Honors Program.

---

**Reserve Officers’ Training Corps Programs (ROTC)**

The College of Liberal Arts and Sciences also offers students the opportunity to combine their academic programs with ROTC programs in the Military Science (Army), Naval Science, and Air Force Aerospace Studies.

**Teacher Licensure**

Teaching licenses are issued by the Iowa Board of Educational Examiners. The Recommending Officer for the ISU University Teacher Education Program submits each candidate file after that candidate is determined to be eligible for licensure. Teaching licenses are issued for a specific teaching level, e.g., K-6 or 7-12. A subject area endorsement is listed on the candidate’s license. The licensee may have multiple subject area endorsements listed.

Students in the College of Liberal Arts and Sciences who complete the approved licensure program in music education (BM degree with Vocal K-12 option or Instrumental K-12 option) may apply for a teaching license that allows them to teach music in grades K-12. Students who plan to teach in secondary schools (grades 7-12) may qualify for a license by completing an approved licensure program in one of the following LAS majors:

- Biology
- Chemistry
- Earth Science
- English
- French
- German
- History
- Spanish (Latin & Russian endorsements)
- Mathematics
- Physics
- World Languages and Cultures

Students may also add these additional endorsements to their primary license:

- English as a Second Language
- General Science
- Physical Science
- Social Studies
- Speech Communication

For further information, see Index, Teacher Education.

**Preprofessional Programs**

Students in the College of Liberal Arts and Sciences may participate in preprofessional programs in human health-related fields, law, and theology by taking the courses required for admission to professional schools. Students may enter the college with the designation Premed, Prelaw, or Preprofessional Health Programs. Most will earn a bachelor’s degree by choosing a major and meeting the requirements for the major while taking the preprofessional courses.

Others will spend one to three years as students in the college before transferring to a professional school to which they have applied and been accepted. For further information, see Index, Preprofessional Study.
**Experiential Learning (Internship/Co-op Program)**

The Experiential Learning (Internship/Co-op) Program assists students in gaining career-related experience while going to school. Internships/Co-ops provide students with the opportunity to gain specific skills, apply academic knowledge in practical situations, pretest their career choice, earn a salary, and establish a network of professional contacts.

Most internships are full-time and last for a semester or a summer, but a part-time experience is possible. Students wishing to receive academic credit for their internship must make arrangements with relevant faculty in advance of their internship experience. In contrast, co-op students work full-time on an extended basis (work two semesters) or on an alternating basis (work, school, work, etc.) during any semester (fall, spring, summer).

It may take students participating in the Experiential Learning (Internship/Co-op) Program an additional semester or more to complete their academic curriculum requirements. For additional information, contact Liberal Arts and Sciences Career Services.

**Curriculum for Bachelor of Music**

The Department of Music offers a Bachelor of Music degree (B.Mus.) as well as a Bachelor of Arts degree in music. For information about both degrees, see Music, Courses and Programs.

In order to receive teacher certification in music, students must earn the bachelor of music degree.

Candidates for the bachelor of music will complete the following requirements.

Credits:

- 38.5-46.5 General education
- 47 Music core
- 31-52.5 Music option

(Student must select one of the following options: music education [vocal or instrumental], performance [voice, piano, organ, string instruments, wind or percussion instrument], or composition.)

**Curriculum for Bachelor of Liberal Studies**

The LAS College administers a bachelor of liberal studies program in Liberal Studies. This degree, the bachelor of liberal studies (B.L.S.), was established by the three Iowa Regent universities to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

For specific degree requirements, see Liberal Studies.

**Curriculum for Software Engineering**

A bachelor of science degree in software engineering is jointly administered by the Department of Electrical and Computer Engineering (College of Engineering) and the Department of Computer Science (College of Liberal Arts and Sciences). The program is aimed at creating high-quality software in a systematic, controlled, and efficient manner. The specific objective of the program is to educate students on principles, processes, techniques, and tools for producing, analyzing, specifying, designing and evolving software. A broader objective is to cultivate among students intellectual curiosity, problem solving skills, good learning habits, effective communication skills, leadership, and teamwork.
African and African American Studies

Interdepartmental Undergraduate Program

Undergraduate Study

African and African American Studies, a cross-disciplinary program in the College of Liberal Arts and Sciences, offers students the opportunity to explore the African Americans’ experience and African American contributions to American culture. Students in the program analyze and learn about African American experiences through the study of history, literature, art, religion, and society. They gain knowledge and develop skills and sensitivities to help them function effectively in today’s diverse society.

African and African American Studies at Iowa State University is an expanding program. Most of the courses in the program satisfy general education requirements in the College of Liberal Arts and Sciences, the human relations requirement for teachers, and the university’s diversity requirement. Students can minor or even design their own Interdisciplinary Studies major with an emphasis in African American Studies. Relevant courses are offered through other departments.

A minor in African and African American Studies requires six courses in the program with a minimum of 18 credits, including AF AM 201 Introduction to African American Studies and AF AM 460 Seminar in African American Culture. The remaining credits must come from at least two departments, with at least two courses taken at the junior level or above. Independent study and internship opportunities are available for credit, but do not count in the minimum requirements for the minor.

Graduate Study

Several courses are open for nonmajor graduate study. See listings for more information.

Courses primarily for undergraduate students

AF AM 201. Introduction to African American Studies. (3-0) Cr. 3. F.S.
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.
Meets U.S. Diversity Requirement

AF AM 330. Ethnic and Race Relations. (Cross-listed with SOC). (3-0) Cr. 3. F.S.S.S. Prereq: SOC 130 or 134 Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.
Meets U.S. Diversity Requirement

AF AM 334. African American Religious Experience. (Cross-listed with RELIG). (3-0) Cr. 3. F. Prereq: Prior course work in Religious Studies or African American Studies recommended. Examination of the African American experience from the perspective of black religion and the black church, with attention to political, economic, and social, as well as spiritual, concerns. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

AF AM 347. African American Literature to 1960. (Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250 Intensive study of African American writing, possibly including slave narratives, Harlem Renaissance works, literature of social protest, and forerunners of contemporary works that reveal key thematic, stylistic, and historical range of the literature. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

AF AM 348. Contemporary African American Literature. (Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250 Intensive reading in literature by African Americans from 1960 to the present. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

AF AM 350. Women of Color in the U.S. (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: 3 credits in Womens’ Studies or African American Studies recommended. Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

AF AM 353. History of African Americans I. (Cross-listed with HIST). (3-0) Cr. 3. S. Prereq: Sophomore classification. Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.
Meets U.S. Diversity Requirement

AF AM 354. History of African Americans II. (Cross-listed with HIST). (3-0) Cr. 3. S. Prereq: Sophomore classification. Explores African American political thought and political action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.
Meets U.S. Diversity Requirement

AF AM 460. Seminar in African American Culture. (3-0) Cr. 3. S. Intensive study of a selected topic in African-American Studies in one or more disciplines. Selected readings of various authors, movements, eras, or genres. Primary and secondary source materials. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

Undergraduate Study

The objectives of the Department of Air Force Aerospace Studies are to provide qualified students the opportunity to earn a commission as an officer in the active duty Air Force, and to build better citizens for those not interested in joining the Air Force.

The curriculum is divided into two basic phases, the general military course (GMC) and the professional officer course (POC). The GMC is introductory and consists of four consecutive 1-hour courses normally taken during the freshman and sophomore years. GMC completion is not a prerequisite for entry into the POC, although it is recommended by the department.

Prior to entry into the POC, most students complete field training at an Air Force base. Students who have completed the GMC participate in a 4-week program, which provides a concentrated experience in the Air Force environment. The training program includes junior officer training, aircraft and aircrew orientation, career orientation, survival training, an introduction to typical base functions, and physical training. A 6-week training program is provided for those students entering the POC who did not complete the GMC. This program includes all that is offered in the 4-week program, plus academic and leadership laboratory experiences included in the on-campus GMC courses.

Selection for the professional officer course is on a competitive basis, and cadets enrolling in this course must meet certain academic, mental, physical, and moral standards. Qualified cadets may be selected as flight candidates and receive flight instruction prior to attending Undergraduate Pilot Training (UPT) or Undergraduate Navigator Training (UNT). Upon enrollment in the POC, all cadets are required to complete a contractual agreement with the Air Force, which obligates them to 4 years of active duty as an officer in the United States Air Force. Air Force active duty commitment is 10 years for pilots and 6 years for navigators. Uniforms and AFROTC texts are supplied to the cadets, and those in the POC receive a subsistence allowance between $450-500 per month.

Students who fail to observe the contract terms may be called to active duty in an enlisted grade or be required to repay monies received from the Air Force.

Air Force ROTC scholarships are available and provide payment of full tuition and fees. In addition, Scholarship cadets receive between $300-500 monthly subsistence allowance and $900 per year book allowance. Upon acceptance of a scholarship, the student executes a contract with the Air Force. Scholarships can be awarded for periods of 2, 3, or 4 years, with up to 1 additional year for qualified applicants in selected majors. To determine eligibility and initiate application procedures for the scholarship program, interested students should contact the department.

Entry into the program is not dependent on departmental major or year in the university. The AFROTC program is open to both male and female students.

The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above.

Courses primarily for undergraduate students

AFAS 101. Introductory Leadership Laboratory I.
(0-2) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Instruction on Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. Offered on a satisfactory-fail basis only.

AFAS 102. Introductory Leadership Laboratory II.
(0-2) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 101. Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. Offered on a satisfactory-fail basis only.

(1-0) Cr. 1. F.

(1-0) Cr. 1. S.
A continuation of 141. Topics include Air Force installations, Air Force core values, leadership and team building, further study of interpersonal communication, the Oath of Office and Commissioning.

(0-2) Cr. 1. Repeatable. F.S. Prereq: Membership as a cadet in AFROTC
Use of basic military training skills and instruction to develop confidence, leadership, communication skills and physical fitness. The team approach is utilized in the instruction and application of Air Force physical fitness requirements. Students will learn various Air Force physical fitness techniques as well as how to conduct physical fitness sessions. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.

AFAS 201. Basic Leadership Laboratory I.
(0-2) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Instructs and critiques freshmen cadets on Air Force customs and courtesies, drill and ceremonies, issuing military commands and physical training. Offered on a satisfactory-fail basis only.

AFAS 202. Basic Leadership Laboratory II.
(0-2) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 201, instructing and critiquing freshmen cadets on Air Force customs and courtesies, drill and ceremonies, issuing military commands and physical training. Offered on a satisfactory-fail basis only.

AFAS 241. The Evolution of USAF Air & Space Power I.
(1-0) Cr. 1. F.
Examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the first balloons and dirigibles to the Korean War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today’s USAF air and space power.

AFAS 242. The Evolution of USAF Air & Space Power II.
(1-0) Cr. 1. S.
A continuation of AFAS 241 that examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the Korean War to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today’s USAF air and space power.
AFAS 301. Intermediate Leadership Laboratory I.
(0-3) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Mid-level management of leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 302. Intermediate Leadership Laboratory II.
(0-3) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 301, mid-level management of leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 341. Air Force Leadership Studies I.
(3-0) Cr. 3. F.
A look at the fundamental issues of leadership and management in the U.S. Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 342. Air Force Leadership Studies II.
(3-0) Cr. 3. S. Prereq: 341
A continuation of AFAS 341, that looks at the advanced issues of leadership and management in the U.S. Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 401. Advanced Leadership Laboratory I.
(0-3) Cr. 1. F. Prereq: Membership as a cadet in AFROTC
Advanced leadership experiences involving the planning and controlling of the upper level management of military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 402. Advanced Leadership Laboratory II.
(0-3) Cr. 1. S. Prereq: Membership as a cadet in AFROTC
A continuation of AFAS 401, advanced leadership experiences involving the planning and controlling of the military activities of the AFROTC cadet corps, physical training, the preparation and presentation of briefings and other oral and written communications, and the providing of interviews, guidance, and information that will increase the understanding, motivation, and performance of other cadets. Offered on a satisfactory-fail basis only.

AFAS 441. Preparation for Active Duty.
(3-0) Cr. 3. F.
Traces the source of military authority and responsibilities from the U.S. Constitution through the DoD to an Air Force officer. Examines the structure and capabilities of the other services and joint structures. Addresses the supervisory duties of an Air Force officer associated with administrative actions and military law as force management tools. Builds upon leadership and management skill learned in AFAS 341/342 and includes demonstrations of written and verbal communications processes.

(3-0) Cr. 3. S.
Examines the national security process through review of the Department of Defense’s statutory administrative and operational relationships as context for this course’s regional studies component. Reviews functions of air and space power as outlined in Air Force doctrine and introduces the concept of joint operations. Integrates these concepts with regional studies to survey issues of interest to professional military officers and governmental leaders. Selectively reviews and discusses Africa, Latin America, South Asia, East Asia, Europe, Russia and the Middle East.

Meets International Perspectives Requirement.
American Indian Studies

Interdepartmental Undergraduate Minor

The American Indian Studies Program is a cross-disciplinary program in the College of Liberal Arts and Sciences that emphasizes perspectives from American Indian Studies, Anthropology, art, history, literature, political science and sociology. The primary goal of the American Indian Studies program is to conduct interdisciplinary investigations of the intellectual practices, lived history, values, political Status, rights, and responsibilities of tribal nations. Students have the opportunity to learn about the cultural heritage of American Indians, their historical relationship with non-Indians, and their participation in contemporary American society. They analyze the tropes and techniques common to American Indian oral and written literatures; comparison/contrast of American Indian cultures to mainstream and other world cultures; and, articulation of the role American Indians are playing in approaches to modern social and environmental issues.

The courses in the American Indian Studies Program provide added background for students whose career interests may include multicultural education, human Services, legal services, or public administration.

Within the College of Liberal Arts and Sciences, courses in American Indian Studies can be used as electives, in a minor, or in an interdisciplinary studies major (for details, see Index, Interdisciplinary Studies). Students majoring in another college who wish to use these courses should consult with their advisers.

A minor in the College of Liberal Arts and Sciences must include at least 15 credits of courses in the field. A minor in American Indian Studies must include:

<table>
<thead>
<tr>
<th>Course Code</th>

</table>

And two additional courses chosen from the program courses listed below. The American Indian Studies Program Committee will, upon application by the student and review of the program, certify that the student has completed a minor in American Indian Studies.

Because course offerings vary from year to year, any student interested in a minor in American Indian Studies should contact the American Indian Studies office for advising. (See Index, LAS Cross-Disciplinary Programs.)

Courses primarily for undergraduate students

**AM IN 210. Introduction to American Indian Studies.**
(3-0) Cr. 3. F.S.SS.
Introduction to the multidisciplinary aspects of American Indian studies. Topics include literature, the arts, history, anthropology, sociology, education, and contemporary Indian politics. Guest lectures, media presentations, and discussion of assigned readings.
Meets U.S. Diversity Requirement

**AM IN 240. Introduction to American Indian Literature.**
(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: Credit in or exemption from ENGL 150
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.
Meets U.S. Diversity Requirement

**AM IN 310. Topics in American Indian Studies.**
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.
Issues within specific topical areas of American Indian society and culture, such as social work with Indian families, tribal government, and environmental policy.
Meets U.S. Diversity Requirement

**AM IN 315. Archaeology of North America.**
(Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: ANTHR 202 or 308
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture-historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.
Meets U.S. Diversity Requirement

**AM IN 320. Great Plains Archaeology.**
(Cross-listed with ANTHR). (3-0) Cr. 3. F. Prereq: ANTHR 202
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.
Meets U.S. Diversity Requirement

**AM IN 322. Peoples and Cultures of Native North America.**
(Cross-listed with ANTHR). (3-0) Cr. 3. F.S. Prereq: ANTHR 201 or AM IN 210
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.
Meets U.S. Diversity Requirement

**AM IN 323. Topics in Latin American Anthropology.**
(Cross-listed with ANTHR). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
A. Violence and Memory
B. Social movements and Democracy
C. Race, Class and Gender
D. Regional Focus

**AM IN 328. American Indian Religions.**
(Cross-listed with RELIG). (3-0) Cr. 3.
An introduction to the beliefs and rituals of Native American religious traditions, with attention to cultural and historical contexts and implications. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**AM IN 332. Current Issues in Native North America.**
(Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: ANTHR 201 or 306; 322 or AM IN 210 recommended
Conditions and issues of contemporary American Indian peoples, historical background of contemporary life; federal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns.
Meets U.S. Diversity Requirement

And two additional courses chosen from the program courses listed below. The American Indian Studies Program Committee will, upon application by the student and review of the program, certify that the student has completed a minor in American Indian Studies.

Because course offerings vary from year to year, any student interested in a minor in American Indian Studies should contact the American Indian Studies office for advising. (See Index, LAS Cross-Disciplinary Programs.)
AM IN 342. American Indian Women Writers.
(Cross-listed with W S). (3-0) Cr. 3. Prereq: ENGL 250
Literature of American Indian women writers which examines their
social, political, and cultural roles in the United States. Exploration of
American Indian women's literary, philosophical, and artistic works aimed
at recovering elements of identity, redescribing stereotypes, resisting
colonization, and constructing femininity. Nonmajor graduate credit.

Meets U.S. Diversity Requirement

AM IN 346. American Indian Literature.
(Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250
Survey of literature by Native Americans from pre-Columbian tales and
songs to contemporary novels and poetry. Nonmajor graduate credit.

Meets U.S. Diversity Requirement

AM IN 426. Topics in Native American Architecture.
(Cross-listed with DSN S, ARCH). (3-0) Cr. 3. Repeatable, maximum of 6
credits. Prereq: Junior classification
History, theory, and principles of Native American/American Indian archi-
tecture, landscape architecture and planning considering relationships
to the culture, visual arts, site, and surroundings. Credit counts toward
fulfillment of Studies in Architecture and Culture requirements. Nonmajor
graduate credit. A maximum of 6 credits of Arch 426 may be applied to
degree program.

Meets U.S. Diversity Requirement

AM IN 490. Independent Study.
Cr. arr. Repeatable, maximum of 9 credits. Prereq: 6 credits in American
Indian studies; permission of instructor
Designed to meet the needs of students who wish to study in areas
other than those in which courses are offered. No more than 9 credits in
Am In 490 may be counted toward graduation.
Undergraduate Study

An undergraduate major in Anthropology can serve as the nucleus for a general liberal education, or as the prerequisite for graduate training qualifying a person for positions in:

1. College and university teaching
2. Research
3. Administrative and applied positions in government, development organizations, museums, and private businesses or corporations.

Anthropology graduates develop a well-rounded professional education in four fields of anthropology: cultural anthropology, linguistic anthropology, archaeology, and biological anthropology. They learn what it means to be human through the study of culture and social relations, human biology and evolution, languages, music, art, architecture, and through the study of past human communities. Graduates learn the important historical and contemporary issues of our sub-disciplines, and they learn what it means to be a "modern" Anthropologist and a citizen in an international and global community. Graduates develop an appreciation of the value of cultural diversity at the local, national and international level. They acquire a particular holistic vision that requires using a repertoire of methods in order to forge a deeper understanding of cultural contexts, both past and present. Undergraduate students may obtain experience in archaeological, ethnological and biological research.

Anthropology majors may choose either a bachelor of arts or a bachelor of science degree, both of which require 33 credits in anthropology. A bachelor of arts degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Groups I, II, and/or IV. A bachelor of science degree is obtained by fulfilling the college general education requirements plus 6 additional credits in Group III.

Undergraduate students with majors in anthropology are required to take the following anthropology core courses:

- ANTHR 306 Cultural Anthropology 3
- ANTHR 307 Biological Anthropology 3
- ANTHR 308 Archaeology 3
- ANTHR 450 Historical and Theoretical Approaches in Anthropology 3

One course in statistics is required 3

A minor in anthropology consists of at least 15 credit.

One of the following in cultural anthropology: 3
- ANTHR 306 Cultural Anthropology
- ANTHR 340 Magic, Witchcraft, and Religion
- ANTHR 323 Topics in Latin American Anthropology
- ANTHR 322 Peoples and Cultures of Native North America

One of the following in archaeology or biological anthropology: 3
- ANTHR 307 Biological Anthropology
- or ANTHR 308 Archaeology
- or ANTHR 321 World Prehistory
- or ANTHR 315 Archaeology of North America
- or ANTHR 319 Skeletal Biology
- or ANTHR 482 Topics in Biological Anthropology

Communication Proficiency requirement: The department requires that a student earn a grade of C or better in:

- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- Two of the following courses
  - ENGL 302 Business Communication
  - ENGL 309 Report and Proposal Writing
  - ENGL 314 Technical Communication

An additional writing-intensive course outside anthropology.

The principal sub-disciplines of anthropology are represented by the following:

1. General cultural anthropology and ethnology:

- ANTHR 201 Introduction to Cultural Anthropology 3
- ANTHR 230 Globalization and the Human Condition 3
- ANTHR 306 Cultural Anthropology 3
- ANTHR 313 Kinship and Marriage in a Global Perspective 3
- ANTHR 322 Peoples and Cultures of Native North America 3
- ANTHR 323 Topics in Latin American Anthropology 3
- ANTHR 332 Current Issues in Native North America 3
- ANTHR 333 Asian American Material Cultures 3
- ANTHR 411 Applied Anthropology 3
- ANTHR 418 Global Culture, Consumption and Modernity 3
- ANTHR 431 Ethnographic Field School 4-6
- ANTHR 434B Cultural Anthropology 2-6
- ANTHR 444 Sex and Gender in Cross-cultural Perspective 3
- ANTHR 450 Historical and Theoretical Approaches in Anthropology 3
- ANTHR 451B Cultural Anthropology 1-3
- ANTHR 490B Cultural Anthropology 1-5

2. Archaeology:

- ANTHR 202 Introduction to Biological Anthropology and Archaeology 3
- ANTHR 308 Archaeology 3
- ANTHR 315 Archaeology of North America 3
- ANTHR 320 Great Plains Archaeology 3
- ANTHR 321 World Prehistory 3
- ANTHR 428 Topics in Archaeological Laboratory Methods and Techniques 3
- ANTHR 429 Archaeological Field School 4-6
- ANTHR 434A Archaeology 2-6
- ANTHR 450 Historical and Theoretical Approaches in Anthropology 3
- ANTHR 451A Archaeology 1-3
- ANTHR 427I Archaeology 4
- ANTHR 490A Archaeology 1-5

3. Linguistic Anthropology:

- ANTHR 309 Introduction to Culture and Language 3
- ANTHR 451D Linguistic Anthropology 1-3
- ANTHR 490D Linguistic Anthropology (Same as Ling 490D) 1-5

4. Biological Anthropology:

- ANTHR 202 Introduction to Biological Anthropology and Archaeology 3
- ANTHR 307 Biological Anthropology 3
- ANTHR 319 Skeletal Biology 3
- ANTHR 350 Primate Behavior 3
- ANTHR 424 Forensic Anthropology 3
- ANTHR 434C Biological Anthropology 2-6
- ANTHR 438 Primate Evolutionary Ecology and Behavior 3
- ANTHR 445 Biological Field School 4-6
- ANTHR 451C Biological Anthropology 1-3
- ANTHR 490C Biological Anthropology 1-5

Graduate Study

The department offers work for the degree master of arts with a major in anthropology. Graduate courses are offered in the areas of biological anthropology, archaeology, cultural anthropology, linguistic anthropo-
Courses primarily for undergraduate students:

**ANTHR 201. Introduction to Cultural Anthropology.**
(3-0) Cr. 3. F.S.S.
Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined.
Meets International Perspectives Requirement.

**ANTHR 202. Introduction to Biological Anthropology and Archaeology.**
(3-0) Cr. 3. F.S.
Human biological and cultural evolution: survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

**ANTHR 220. Globalization and Sustainability.**
(Cross-listed with ENV S, GLOBE, MAT E, M E, SOC, T SCI.) (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.
Meets International Perspectives Requirement.

**ANTHR 230. Globalization and the Human Condition.**
(3-0) Cr. 3. F.S.
An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific.
Meets International Perspectives Requirement.

**ANTHR 306. Cultural Anthropology.**
(2-2) Cr. 3. S. Prereq: 201
Survey of the major theoretical, methodological and empirical foundations of cultural anthropology. Participatory lab: focus on ethnographic methods through individual research projects.
Meets International Perspectives Requirement.

**ANTHR 307. Biological Anthropology.**
(2-2) Cr. 3. S. Prereq: 202
Human evolution as known from fossil evidence, comparative primate studies, and genetic variations in living populations. Laboratory-tutorial sessions include study and discussion of human osteology, fossil hominids, simple Mendelian traits, and bio-ethics in applied biological anthropology.

**ANTHR 308. Archaeology.**
(2-2) Cr. 3. F. Prereq: 202
Methods and techniques for the recovery and interpretation of archaeological evidence, its role in reconstructing human behavior and past environments. Laboratory sessions include experience in the interpretation of archaeological evidence, the use of classification systems, and prehistoric technologies such as ceramics and stone tools.

**ANTHR 309. Introduction to Culture and Language.**
(Cross-listed with LING.) (3-0) Cr. 3. Prereq: 201
Introduction to study of language, culture and society from an anthropological perspective. Focus on language and thought, ethnography of speaking, discourse and narrative, writing and literacy, and media communication. Discussion of key theories and methods of linguistic anthropology.
Meets International Perspectives Requirement.

**ANTHR 313. Kinship and Marriage in a Global Perspective.**
(Dual-listed with 513). (3-0) Cr. 3. S. Prereq: 201 recommended
Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.
Meets International Perspectives Requirement.

**ANTHR 315. Archaeology of North America.**
(Dual-listed with 515). (Cross-listed with AM IN). (3-0) Cr. 3. S. Prereq: 202
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture-historical sequences of major culture areas; linkages of archaeological traditions with selected ethnohistorically known Native American groups.
Meets U.S. Diversity Requirement.

**ANTHR 319. Skeletal Biology.**
(Dual-listed with 519). (2-2) Cr. 3. F. Prereq: 307 or college level biology
Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paleopathology and bioarchaeology are introduced.

**ANTHR 320. Great Plains Archaeology.**
(Dual-listed with 520). (Cross-listed with AM IN). (3-0) Cr. 3. F. Prereq: 202
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.
Meets U.S. Diversity Requirement.

**ANTHR 321. World Prehistory.**
(Dual-listed with 521). (3-0) Cr. 3. S. Prereq: 202 recommended
An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

**ANTHR 322. Peoples and Cultures of Native North America.**
(Dual-listed with 522). (Cross-listed with AM IN). (3-0) Cr. 3. Prereq: 201 or AM IN 210
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.
Meets U.S. Diversity Requirement.

**ANTHR 323. Topics in Latin American Anthropology.**
(Dual-listed with 523). (Cross-listed with AM IN). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: ANTHR 201 or 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.
A. Violence and Memory
B. Social movements and Democracy
C. Race, Class and Gender
D. Regional Focus

**ANTHR 332. Current Issues in Native North America.**
(Dual-listed with 532). (Cross-listed with AM INI). (3-0) Cr. 3. S. Prereq: 201 or 306; 322 or AM IN 210 recommended.
Conditions and issues of contemporary American Indian peoples, historical background of contemporary lifefederal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns.
Meets U.S. Diversity Requirement

**ANTHR 333. Asian American Material Cultures.**
(Dual-listed with 533). (3-0) Cr. 3. Prereq: Engr. 250
A broad exposure to the cultural expressions of Asian Americans from the nineteenth century to the present. Analysis of everyday Asian American cultural experiences within the contexts of agency, power, and identity formation.
Meets U.S. Diversity Requirement

**ANTHR 336. Global Development.**
(Dual-listed with 536). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: ANTHR 201 or 306
Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitarianism and human rights; introduction to main theories of political and economic anthropology.
Meets International Perspectives Requirement.

**ANTHR 340. Magic, Witchcraft, and Religion.**
(Dual-listed with 540). (Cross-listed with RELIG). (3-0) Cr. 3. S. Prereq: 201 or 306
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.
Meets International Perspectives Requirement.

**ANTHR 350. Primate Behavior.**
(Dual-listed with 550). (2-2) Cr. 3. F.S.SS. Prereq: ANTHR 202 and/or basic biology course recommended
An introduction to the Order Primates with a focus on their behavior. Biological and social adaptations of monkeys, apes, and prosimians; basic evolutionary concepts, current trends and theories in the field of primatology and issues related to primate conservation.

**ANTHR 376. Classical Archaeology.**
(Cross-listed with CL ST, RELIG). (3-0) Cr. 3. S.
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
A. Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece, (ca 3000-700 BCE).
B. Archaic through Hellenistic Greece (ca 700-30 BCE).

**ANTHR 411. Applied Anthropology.**
(Dual-listed with 511). (3-0) Cr. 3. F. Prereq: 201 or 306
Theoretical and practical considerations of applying anthropological knowledge to contemporary cultural, political and economic issues. Dynamics of directed change in contemporary world cultures. Principles, theories, and ethics of international development projects from a sociocultural perspective.
Meets International Perspectives Requirement.

**ANTHR 418. Global Culture, Consumption and Modernity.**
(Dual-listed with 518). (3-0) Cr. 3. F. Prereq: ANTHR 201 or 306 recommended
Cross-cultural study of the impact of globalization, with an emphasis on economic consumption and the movement of goods, ideas, and peoples across cultural and national boundaries.
Meets International Perspectives Requirement.

**ANTHR 424. Forensic Anthropology.**
(Dual-listed with 524). (2-2) Cr. 3. S. Prereq: 202 or 307; 319 recommended
Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comimgled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology, archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained.

**ANTHR 425. Professional Preparation in Anthropology.**
(2-0) Cr. 2. F. Prereq: Junior classification in anthropology or permission from the instructor
Instruction and guidance in the development of professional skills needed for success in academic and non-academic anthropological careers. Topics will include strategies for internship and job searches, creating resumes and CVs, composing personal statements and cover letters, and developing contacts and sources. Offered on a satisfactory-fail basis only.

**ANTHR 427. Archaeology.**
(Cross-listed with IA LL). Cr. 4. SS.
Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying and excavation techniques. Nonmajor graduate credit.

**ANTHR 428. Topics in Archaeological Laboratory Methods and Techniques.**
(Dual-listed with 528). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: 308
Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition and organization, and computer applications.
A. Lithics
B. Ceramics
C. Faunal remains
D. General.

**ANTHR 429. Archaeological Field School.**
(Dual-listed with 529). Cr. 4-6. SS. Prereq: 202 or 308
Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

**ANTHR 431. Ethnographic Field School.**
(Dual-listed with 531). Cr. 4-6.
Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.

**ANTHR 434. Internship.**
Cr. 2-6. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Junior or senior standing
Supervised practice in government agencies, museums, and business organizations. Offered on a satisfactory-fail basis only. Not more than 6 credits of internship experience may count towards the major. No credits in Anthr 434 may be used to satisfy Anthropology core courses for majors or for the Anthropology minor.
A. Archaeology
B. Cultural Anthropology
C. Biological Anthropology
D. Linguistic Anthropology

(Dual-listed with 538). Cr. 3. S. Prereq: 202 or 307
Primate behavior and ecology in evolutionary perspective: biological and social adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates, basic evolutionary concepts, and techniques of behavioral observation. Focus on theory and methods current in Primatology, including applied conservation biology.

ANTHR 444. Sex and Gender in Cross-cultural Perspective.
(Dual-listed with 544). (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: ANTHR 201; ANTHR 306 recommended
Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

Meets International Perspectives Requirement.

ANTHR 445. Biological Field School.
(Dual-listed with 545). Cr. 4-6. SS. Prereq: 202 or BIOL 101
Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

ANTHR 450. Historical and Theoretical Approaches in Anthropology.
(3-0) Cr. 3. F. Prereq: 306
Survey of the historical foundations of anthropology and its interrelated four sub-fields; key figures in 19th and 20th century anthropology with a focus on major theoretical contributions.

ANTHR 451. Practicum in Anthropology.
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.S. Prereq: 201 or 202 or 308
Application of methods under actual laboratory and field conditions, including basic data management, synthesis, and analysis.
A. Archaeology
B. Cultural Anthropology
C. Biological Anthropology
D. Linguistic Anthropology

ANTHR 482. Topics in Biological Anthropology.
(Dual-listed with 582). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.
A. Paleoanthropology
B. Primate Cognition
C. Population Conservation
D. Population Genetics and Human Evolution

ANTHR 490. Independent Study.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: 9 credits in anthropology
No more than 9 credits of Anthr 490 may be counted toward graduation.
A. Archaeology
B. Cultural Anthropology
C. Biological Anthropology
D. Linguistic Anthropology (Same as Ling 490D)
H. Honors
I. Undergraduate Independent Study (Same as la LL 490I)

Courses primarily for graduate students, open to qualified undergraduate students:

ANTHR 503. Biological Anthropology.
(3-0) Cr. 3. F. Prereq: 307
Survey of the history of biological anthropology, current developments and theoretical issues in evolution, human variation and adaptation, population studies, primates and primate behavior, and paleoanthropology.

ANTHR 509. Agroecosystems Analysis.
(Cross-listed with AGRON, SOC, SUSAG). (3-4) Cr. 3. F. Prereq: Senior or above classification
Experiential, interdisciplinary examination of Midwestern agricultural and food systems, emphasizing field visits, with some classroom activities. Focus on understanding multiple elements, perspectives (agronomic, economic, ecologic, social, etc.) and scales of operation.

(3-0) Cr. 3. F. Prereq: 6 credits in anthropology
Survey of historical and current developments in topical and theoretical approaches to sociocultural anthropology. Examination and assessment of controversies; new research directions and theoretical approaches.

ANTHR 511. Applied Anthropology.
(Dual-listed with 411). (3-0) Cr. 3. F. Prereq: 6 credits in anthropology, 201 or 306
Theoretical and practical considerations of applying anthropological knowledge to contemporary cultural, political and economic issues. Dynamics of directed change in contemporary world cultures. Principles, theories, and ethics of international development projects from a socio-cultural perspective.
Meets International Perspectives Requirement.

(Dual-listed with 313). (3-0) Cr. 3. S. Prereq: 6 credits in anthropology, 201 recommended
Comparative and historical overview of the family, marriage and kinship. Examination of cross-cultural differences in the construction and functioning of family and kin relations; role of kinship in structuring individual and collective activities; current critical and theoretical issues in kinship studies, especially integrating work on gender and sexuality.
Meets International Perspectives Requirement.

ANTHR 515. Archaeology of North America.
(Dual-listed with 315). (3-0) Cr. 3. S. Prereq: 202
Prehistory and early history of North America as reconstructed from archaeological evidence; peopling of the New World; culture- historical sequences of major culture areas; linkages of archaeological traditions with selected ethnographically known Native American groups.

ANTHR 518. Global Culture, Consumption and Modernity.
(Dual-listed with 418). (3-0) Cr. 3. F. Prereq: ANTHR 201 or 306 recommended
Cross-cultural study of the impact of globalization, with an emphasis on economic consumption and the movement of goods, ideas, and peoples across cultural and national boundaries.
Meets International Perspectives Requirement.

ANTHR 519. Skeletal Biology.
(Dual-listed with 319). (2-2) Cr. 3. F. Prereq: 307 or college level biology recommended
Comprehensive study of the skeletal anatomy, physiology, genetics, growth, development and population variation of the human skeleton. Applications to forensic anthropology, paeopathology, and bioarchaeology are introduced.
ANTHR 520. Great Plains Archaeology.
(Dual-listed with 320). (3-0) Cr. 3. F. Prereq: 202
Prehistoric societies of the Great Plains region of North America, from initial occupation to European contact; emphasis on sociocultural changes, continuities, and adaptations to changing environments using archaeological, ecological, ethnographic information.

Meets U.S. Diversity Requirement

ANTHR 521. World Prehistory.
(Dual-listed with 321). (3-0) Cr. 3. S. Prereq: 202 recommended
An introduction to archaeological sites from around the world including the Near East, Africa, Europe, Mesoamerica, and North and South America. Emphasis is on the interpretation of material cultural remains in reconstructing past societies.

ANTHR 522. Peoples and Cultures of Native North America.
(Dual-listed with 322). (3-0) Cr. 3. Prereq: 201 or AM IN 210
Origin, distribution, and pre-contact life of the indigenous peoples of North America. Survey of culture areas; language families, social and political systems, ecological and economic adaptations, religion and spirituality; impact of European contact; cultural resilience and revitalization in contemporary American Indian life.

ANTHR 523. Topics in Latin American Anthropology.
(Dual-listed with 323). (3-0) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: 6 credits in anthropology, 201 or 306 recommended
Exploration of key contemporary and historical issues in Latin American Anthropology; discussion of current anthropological approaches to studying Latin American social issues in a global context. Topics vary each time offered.

A. Violence and Memory
B. Social Movements and Democracy
C. Race, Class and Gender
D. Regional Focus

ANTHR 524. Forensic Anthropology.
(Dual-listed with 424). (3-0) Cr. 3. S. Prereq: 319
Comprehensive study of forensic anthropology, a specialized subfield of biological anthropology. Emphasis is placed on personal identifications from extremely fragmentary, comingled, burnt, cremated and incomplete skeletal remains. All parameters of forensic study are included as they pertain to anthropology, including human variation, taphonomy, entomology archaeology, pathology, epidemiology; genetics and the non-biological forensic disciplines. An appreciation for the wide range of medicolegal and bioethical issues will also be gained.

ANTHR 528. Topics in Archaeological Laboratory Methods and Techniques.
(Dual-listed with 428). (2-2) Cr. 3. Repeatable, maximum of 9 credits. S. Prereq: 308
Laboratory processing, analysis, and interpretation of archaeological materials such as lithics, ceramics, and faunal remains. Laboratory sessions emphasize analytical techniques including classification, data acquisition organization, and computer applications.

A. Lithics
B. Ceramics
C. Faunal remains
D. General.

ANTHR 529. Archaeological Field School.
(Dual-listed with 429). Cr. 4-6. SS. Prereq: 202 or 308
Summer field school for training in archaeological reconnaissance and excavation techniques; documentation and interpretation of archaeological evidence.

ANTHR 530. Ethnographic Field Methods.
Cr. 3. F. Prereq: 6 credits in anthropology, permission of instructor
Field training experience in ethnography. Problems emphasizing field studies in the contemporary societies of the world. Focus on techniques of data gathering and analysis.

ANTHR 531. Ethnographic Field School.
(Dual-listed with 431). Cr. 4-6.
Hands-on training in ethnographic field methods; students will carry out research projects in socio-cultural anthropology, learning a variety of investigative research techniques commonly used in social sciences.

(Dual-listed with 332). (3-0) Cr. 3. S. Prereq: 6 credits in anthropology, 201 or 306; 322 or AM IN 210 recommended
Conditions and issues of contemporary American Indian peoples, historical background of contemporary life; federal policies, treaty rights, and sovereignty. Economic development and politics on reservations, family and gender roles, cultural innovation and revitalization, urbanization, recent social movements, and other current concerns.

ANTHR 533. Asian American Material Cultures.
(Dual-listed with 333). (3-0) Cr. 3. Prereq: Engl. 250
A broad exposure to the cultural expressions of Asian Americans from the nineteenth century to the present. Analysis of everyday Asian American cultural experiences within the contexts of agency, power, and identity formation.

Meets U.S. Diversity Requirement

ANTHR 536. Global Development.
(Dual-listed with 336). (3-0) Cr. 3. Prereq: ANTHR 201 or 306
Cross-cultural analysis of current development practices from an anthropological perspective; focus on international aid, development institutions, agrarian reform, indigenous knowledge, humanitariansim and human rights; introduction to main theories of political and economic anthropology.

ANTHR 538. Primate Evolutionary Ecology and Behavior.
(Dual-listed with 438). (3-0) Cr. 3. S. Prereq: 202 or 307
Primate behavior and ecology in evolutionary perspective; biological and social adaptations of prosimians, monkeys, and apes. Introduction to the Order Primates, basic evolutionary concepts, and techniques of behavioral observation. Focus on theory and methods current in Primatology, including applied conservation biology.

(Dual-listed with 340). (3-0) Cr. 3. S. Prereq: 6 credits in anthropology, 201 or 306 recommended
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.

Meets International Perspectives Requirement.

ANTHR 541. Seminar in Forensic Sciences.
(1-0) Cr. 1. Repeatable. S. Prereq: One 200-level science course or graduate classification
Seminars by professional criminals, researchers, forensic scientists, and educators. Emphasis on opportunities for research and development, citizen involvement, and educational outreach related to forensic science. Weekly report required.

ANTHR 542. Independent Research and Presentation in Forensic Science.
(1-0) Cr. 1. S. Prereq: Enrollment in the Graduate Certificate in Forensic Sciences
Research topic approved by course instructor. Written and oral reports required. Oral report given in forensics seminar, Chem 540.
ANTHR 544. Sex and Gender in Cross-cultural Perspective.
(Dual-listed with 444). (Cross-listed with W S). (3-0) Cr. 3. S. Prereq: 201; 306 recommended
Cross-cultural examination of the social construction of genders out of the biological fact of sex. Emphasis on non-western societies. Topics, presented through examination of ethnographic data, will include the range of gender variation, status and roles, the institution of marriage, and symbols of gender valuation.

ANTHR 545. Biological Field School.
(Dual-listed with 445). Cr. 4-6. SS. Prereq: ANTHR 202 or BIOL 101 and permission of instructor
Summer field school for training in behavioral and ecological methods for primatologists. Proposal, data collection and analyses, and presentation of research topic in primatology.

(Dual-listed with 350). (2-2) Cr. 3. Prereq: ANTHR 202 and/or basic biology course recommended.
An introduction to the Order Primates with a focus on their behavior. Biological and social adaptations of monkeys, apes, and prosimians; basic evolutionary concepts, current trends and theories in the field of Primatology and issues related to primate conservation.

ANTHR 555. Seminar in Archaeology.
(3-0) Cr. 3. S. Prereq: 308 or 429
Examination of the history of anthropological archaeology and current issues and debates concerning methods, theories and the ethics of modern archaeology.

ANTHR 558. Topics in Biological Anthropology.
(Dual-listed with 482). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F. Prereq: ANTHR 307
In-depth study of current topics in biological anthropology, such as new fossil specimens, research on the evolution of cognition, the emergence of applied primatology, and the dynamic field of population genetics as each relates to the Order Primates.
A. Paleoanthropology
B. Primate Cognition
C. Population Conservation
D. Population Genetics and Human Evolution

ANTHR 590. Graduate Independent Study.
(Cross-listed with Ia LL, A ECL, EEOB). Cr. 1-4. Repeatable. SS. Prereq: Graduate classification and permission of instructor
I. Iowa Lakeside Laboratory (Same as Ia LL 590I)

ANTHR 591. Orientation to Anthropology.
(1-0) Cr. 1. F. Prereq: Admission to the Anthropology Graduate Program
Introduction to the Anthropology program, including the requirements for successful degree completion, department administrative procedures, ethics in anthropology and current trends in the four subfields of anthropology. Required of graduate students. Offered on a satisfactory-fail basis only.

Courses for graduate students:

ANTHR 610. Foundations of Sustainable Agriculture.
(Cross-listed with AGRON, SUSAG, SOC, A E). (3-0) Cr. 3. F. Prereq: Graduate classification, permission of instructor
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging systems of agriculture in terms of core concepts of sustainability and their theoretical contexts.

ANTHR 699. Research.
Cr. arr. Repeatable.
I. Iowa Lakeside Laboratory (Same as Ia LL 699I)
**Biochemistry, Biophysics, and Molecular Biology**

**Undergraduate Study**

The department offers majors in biochemistry or biophysics in the College of Liberal Arts and Sciences and a major in agricultural biochemistry in the College of Agriculture.

Biochemists and biophysicists seek to understand life processes in terms of chemical and physical principles. They conduct research in the frontiers of biology such as metabolic networking; structure and function of enzymes, membranes, and hormones; computational approaches; genomic and proteomic technology; protein engineering; plant biotechnology; muscle structure and function; and the design and evaluation of drugs for the treatment of disease. Biochemistry, biophysics and molecular biology provide the basis for much of modern biotechnology. Graduates have opportunities in industry, especially the biotechnology sector, in universities, veterinary medical, and medical schools, and government laboratories. Students who meet the necessary high scholastic standards have the opportunity to continue their studies in graduate school, medical school, or veterinary medical school.

Graduates of biochemistry, agricultural biochemistry and biophysics understand the chemical principles of biological systems including molecular biology. They have developed laboratory expertise in modern biochemical techniques, including the ability to analyze data and prepare scientific reports. Most have participated in undergraduate research and have developed the skills necessary for both written and oral presentations at a level that will serve the student both within the university and in postgraduate professional life. Graduates have the experience of interacting with persons of different disciplines and cultures. Students have the training in mathematics and physics to solve problems of broad scope in biological, biomedical and environmental sciences and to provide leadership in diverse scientific and technological arenas.

**Agricultural Biochemistry Major in the College of Agriculture**

For the undergraduate curriculum leading to the degree bachelor of science, see College of Agriculture, Curricula. Agricultural biochemistry is recommended to students interested in the areas of agriculture requiring strong preparation in biochemistry, chemistry, physics, and mathematics, or in preparation for the study of veterinary medicine. Employment opportunities exist in agrochemical industries, and animal and plant biotechnology.

**Biochemistry or Biophysics Majors in the College of Liberal Arts and Sciences**

For the undergraduate curriculum leading to the degree of bachelor of science, see Liberal Arts and Sciences, Curriculum. Biochemistry and biophysics are recommended to students whose career interests involve advanced study or employment in biochemistry or biophysics, or in related areas of the biological or medical sciences.

Undergraduate majors in the College of Liberal Arts and Sciences in biochemistry usually have the following basic courses or their equivalents in their programs:

- BBMB 101 Introduction to Biochemistry
- BBMB 201 Chemical Principles in Biological Systems
- BBMB 404 Biochemistry I
- or BBMB 501 Comprehensive Biochemistry I
- BBMB 405 Biochemistry II
- or BBMB 502 Comprehensive Biochemistry II
- BBMB 411 Techniques in Biochemical Research
- BBMB 461 Molecular Biophysics
- or BBMB 561 Molecular Biophysics
- CHEM 211 Introduction to Biochemistry
- CHEM 211L General Chemistry I
- & CHEM 177 General Chemistry II
- CHEM 210L Laboratory in Advanced General Chemistry
- or CHEM 177L Laboratory in General Chemistry I
- or CHEM 178L Laboratory in General Chemistry I
- CHEM 211 Quantitative and Environmental Analysis
- CHEM 211L Quantitative and Environmental Analysis Laboratory
- One of the following:
  - CHEM 322L Laboratory in Physical Chemistry
  - CHEM 321L Laboratory in Physical Chemistry
  & BBMB 561L and Laboratory in Molecular Biophysics
- CHEM 324 Introductory Quantum Mechanics
- CHEM 325 Chemical Thermodynamics
- CHEM 331 Organic Chemistry I
- CHEM 332 Organic Chemistry II
- CHEM 333L Laboratory in Organic Chemistry I (for Chemistry and Biochemistry Majors)
- or CHEM 331L Laboratory in Organic Chemistry I
- CHEM 334L Laboratory in Organic Chemistry II (for Chemistry and Biochemistry Majors)
- or CHEM 332L Laboratory in Organic Chemistry II
- MATH 165 Calculus I
- MATH 166 Calculus II
- MATH 265 Calculus III
- or MATH 266 Elementary Differential Equations
- or MATH 267 Elementary Differential Equations and Laplace Transforms
- PHYS 221 Introduction to Classical Physics I
- PHYS 222 Introduction to Classical Physics II
- BIOL 211 Principles of Biology I
- or BIOL 212L Principles of Biology Laboratory I
- or BIOL 212L Principles of Biology Laboratory II
- or BIOL 313L Genetics Laboratory
- or BIOL 212 Principles of Biology II
- BIOL 313 Principles of Genetics
- BIOL 314 Principles of Molecular Cell Biology
- and a minimum of 4 additional credits of biological science courses from biology, genetics, and microbiology. BBMB 499 Undergraduate Research is strongly recommended.

Undergraduate majors in biophysics usually include the following basic courses in their programs:

- BBMB 101 Introduction to Biochemistry
- BBMB 102 Introduction to Biochemistry Laboratory
- BBMB 404 Biochemistry I
- BBMB 411 Techniques in Biochemical Research
- BBMB 461 Molecular Biophysics
- or BBMB 561 Molecular Biophysics
- CHEM 177L Laboratory in General Chemistry I
- or CHEM 177L Laboratory in General Chemistry I
- Take one of the following:
  - CHEM 201 Advanced General Chemistry
  - CHEM 177 General Chemistry I
  & CHEM 178 and General Chemistry II
- One of the following:
  - CHEM 322L Laboratory in Physical Chemistry
  - CHEM 321L Laboratory in Physical Chemistry
  & BBMB 561L and Laboratory in Molecular Biophysics
  - CHEM 324 Introductory Quantum Mechanics
  - CHEM 325 Chemical Thermodynamics
  - CHEM 331 Organic Chemistry I
  - CHEM 332 Organic Chemistry II
  - MATH 165 Calculus I
  - MATH 166 Calculus II
  - MATH 265 Calculus III
  - or MATH 266 Elementary Differential Equations
  - or MATH 267 Elementary Differential Equations and Laplace Transforms
  - PHYS 221 Introduction to Classical Physics I
- One course from the following:
  - MATH 426 Mathematical Methods for the Physical Sciences
  - MATH 481 Numerical Methods for Differential Equations and Interpolation
interdepartmental majors in genetics, immunobiology, MCDB (molec-

or STAT 231 Probability and Statistical Inference for Engineers

BIOL 211L Principles of Biology I

BBMB 212 Principles of Biology II

CHEM 211L Quantitative and Environmental Analysis Laboratory 2

And 9 additional credits in 300 or higher level courses in biochemistry, biophysics, biological sciences, chemistry, or physics.

These lists of courses should not be regarded as statements of fixed requirements or as complete outlines of the work necessary for the major. They are given solely for the convenience of students or advisers who wish to estimate the amount of basic study that may be needed.

Biochemistry and biophysics majors are advised to meet the College of Liberal Arts and Sciences foreign language requirement with courses in French, German, or Russian.

See also the B.S./M.S. program under Graduate Study.

The department offers minors in biochemistry in both the College of Agriculture and the College of Liberal Arts and Sciences, which may be earned by credit in:

BBMB 404 Biochemistry I 3
BBMB 405 Biochemistry II 3
BBMB 411 Techniques in Biochemical Research 3
One course from the following: 2-3
BBMB 461 Molecular Biophysics (2 crs)
BBMB 561 Molecular Biophysics (2 crs)
CHEM 325 Chemical Thermodynamics (3 crs)

plus additional supporting 300 level courses in chemistry or biochemistry for a total of 15 credits.

Communication Proficiency requirement: Majors in agricultural biochemistry must complete ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition and one course in speech fundamentals with a grade of C or better in each of these courses. Majors in the College of Liberal Arts and Sciences must complete ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition and one of the following with a grade of C- or better:

ENGL 305 Creative Writing–Nonfiction 3
ENGL 309 Report and Proposal Writing 3
ENGL 314 Technical Communication 3
or a written report in:

BBMB 411 Techniques in Biochemical Research

Interdepartmental Majors

The department participates along with other biological science departments including GDCB and EEOB in offering interdepartmental majors in Biology and Genetics. Biology courses that are staffed in part by department faculty members include:

BIOL 101 Introductory Biology 3
BIOL 313 Principles of Genetics 3
BIOL 314 Principles of Molecular Cell Biology 3
BIOL 313L Genetics Laboratory 1

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy with majors in biochemistry and biophysics and with interdepartmental majors in genetics, immunobiology, MCDB (molec-

ular, cellular, and developmental biology), plant physiology, and toxicology. Minor work is offered to students taking major work in other departments.

Prerequisite to graduate work is a sound undergraduate background in biology, chemistry, mathematics, and physics.

All graduate students are required by the department to teach as part of their training for an advanced degree.

The department offers a B.S./M.S. program in biochemistry that allows students to obtain both the B.S. and M.S. degrees in five years. The program is open to students in the College of Liberal Arts and Sciences and in the College of Agriculture. Students interested in this program should contact the department office for details. Application for admission to the Graduate College should be made near the end of the junior undergraduate (third) year. Students would begin research for the M.S. thesis during the summer semester after their junior year and are eligible for research assistantships.

Courses primarily for undergraduate students

BBMB 101. Introduction to Biochemistry.

(1-0) Cr. 1. F.
Research activities, career opportunities in biochemistry and biophysics, and an introduction to the structure of biologically important compounds. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BBMB 102. Introduction to Biochemistry Laboratory.

(0-2) Cr. 1. S. Prereq: Credit or enrollment in CHEM 177 and 177L.
Topics in the scientific background of biochemistry, such as macromolecules, metabolism, and catalysis. May include laboratory experiments as well as literature readings and discussion. A significant component is practice in scientific communication. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BBMB 201. Chemical Principles in Biological Systems.

(2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 331.
Survey of chemical principles as they apply in biological systems including: water, organic chemistry of functional groups in biomolecules and biochemical cofactors, weak bonds and their contribution to biomolecular structure, oxidation-reduction reactions and redox potential, thermodynamic laws and bioenergetics, chemical equilibria and kinetics, inorganic chemistry in biological systems, data presentation. The subjects will be taught using molecules from biological systems as examples. Intended for majors in biochemistry, biophysics, or agricultural biochemistry.

BBMB 221. Structure and Reactions in Biochemical Processes.

(3-0) Cr. 3. F. Prereq: CHEM 163, 167, or 177.
Fundamentals necessary for an understanding of biochemical processes. Primarily for students in agriculture. Not acceptable for credit toward a major in biochemistry or biophysics. Credit for both BBMB 221 and Chem 231 may not be applied toward graduation.

BBMB 301. Survey of Biochemistry.

(3-0) Cr. 3. F.S.S. Prereq: CHEM 231 or 331.
A survey of biochemistry: structure and function of amino acids, proteins, carbohydrates, lipids, and nucleic acids; enzymology, metabolism, biosynthesis; and selected topics. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.
(3-0) Cr. 3. F. Prereq: CHEM 231 or 331; BIOL 212.
Understanding biological systems at the molecular level; chemistry of biological macromolecules, enzyme function and regulation, metabolic pathways; integration of metabolism in diverse living systems. For students in biology and related majors who do not require the more rigorous treatment of biochemistry found in BBMB 404/405. Not acceptable for credit toward a major in biochemistry, biophysics, or agricultural biochemistry.

BBMB 403. Microbial Biochemistry and Biotechnology.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: CHEM 332, BBMB 301
Fundamental principles of microbial biochemistry, physiology, and genetics, and their application to microbial biotechnology. Topics will include biorenewable resources, metabolic pathway engineering, enzyme engineering, bioremediation, microbial diversity genomics, metagenomics. Nonmajor graduate credit.

BBMB 404. Biochemistry I.
(3-0) Cr. 3. F. Prereq: CHEM 332
A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical and nutritional sciences. Chemistry of amino acids, proteins, carbohydrates, and lipids; vitamins; protein structure; enzymology; carbohydrate metabolism. Nonmajor graduate credit. Credit for both BBMB 420 and the 404, 405 sequence may not be applied toward graduation.

BBMB 405. Biochemistry II.
(3-0) Cr. 3. S. Prereq: 404
A general overview for graduate and advanced undergraduate students in agricultural, biological, chemical, and nutritional sciences. Metabolism of carbohydrates, amino acids, nucleotides and lipids; formation, turnover, and molecular relationships among DNA, RNA, and proteins; genetic code; regulation of gene expression; selected topics in the molecular physiology of plants and animals. Nonmajor graduate credit. Credit for both BBMB 420 and the 404, 405 sequence may not be applied toward graduation.

BBMB 411. Techniques in Biochemical Research.
(1-8) Cr. 3. F. Prereq: Credit or enrollment in 404 or 501, CHEM 211
Introduction to laboratory techniques for studying biochemistry, including: chromatographic methods; electrophoresis; spectrophotometry; enzyme purification; enzyme kinetics; and characterization of carbohydrates, proteins, lipids, and nucleic acids. Nonmajor graduate credit.

BBMB 420. Physiological Chemistry.
(3-0) Cr. 3. F. Prereq: CHEM 332, BBMB 301 or BIOL 314
Structure and function of proteins; enzymology; biological oxidation; chemistry and metabolism of carbohydrates, lipids, amino acids and nucleic acids; protein synthesis and the genetic code; relationship of biochemistry to selected animal diseases. Biochemistry of higher animals emphasized. Nonmajor graduate credit. Not acceptable for credit toward a major in agricultural biochemistry, biochemistry or biophysics. Credit for both BBMB 420 and the 404, 405 sequence may not be applied toward graduation.

(Dual-listed with 530). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: MICRO 302, MICRO 302L
Survey of the diverse groups of procaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.

BBMB 440. Laboratory in Microbial Physiology, Diversity, and Genetics.
(Cross-listed with MICRO). (2-6) Cr. 4. F. Prereq: MICRO 302, 302L, CHEM 332, BIOL 313L
Study of the fundamental techniques and theory of studying the cellular mechanisms and diversity of microbial life. Experimental techniques will include isolation and physiological characterization of bacteria that inhabit different environments. Also included are techniques for the phylogenetic characterization, and genetic manipulation of diverse species of bacteria.

BBMB 461. Molecular Biophysics.
(Dual-listed with 561). (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 324 and 325
Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for the graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

BBMB 490. Independent Study.
Cr. arr. F.S.S. Prereq: College of Agriculture: junior or senior classification and permission of instructor; College of Liberal Arts and Sciences: permission of instructor
College of Agriculture: a maximum of 9 credits of 490 may be applied toward graduation.

BBMB 499. Undergraduate Research.
Cr. 1-5. Repeatable. F.S.S. Prereq: Permission of staff member with whom student proposes to work
Research under senior staff guidance.

Courses primarily for graduate students, open to qualified undergraduate students

BBMB 501. Comprehensive Biochemistry I.
(4-0) Cr. 4. F. Prereq: CHEM 211,332; a previous course in biochemistry is strongly recommended
Chemical composition of living matter and the chemistry of life processes. Chemical characterization of amino acids, proteins, carbohydrates and lipids; enzymology and co-enzymes; metabolism of carbohydrates; biological oxidations.

BBMB 502. Comprehensive Biochemistry II.
(4-0) Cr. 4. S. Prereq: 501
Chemical composition of living matter and the chemistry of life processes. Metabolism of lipids, amino acids, and nucleotides; membrane biochemistry; biosynthesis of DNA, RNA, and proteins; gene regulation; selected topics.

BBMB 503. Bioinorganic Chemistry.
(Cross-listed with CHEM). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: CHEM 402 or BBMB 405
Essential elements: transport and storage of ions and of oxygen; metalloenzymes and metallocoenzymes; electron-transfer processes in respiration and photosynthesis; metabolism of nonmetals and redox processes involved in it; medicinal aspects of inorganic chemistry.

BBMB 520. Genetic Engineering.
(Cross-listed with GDCB, MCDB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Gen 411 or BBMB 405
Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

BBMB 530. Procaroytic Diversity and Ecology.
(Dual-listed with 430). (Cross-listed with MICRO). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MICRO 302, MICRO 302L
Survey of the diverse groups of procaryotes emphasizing important and distinguishing metabolic, phylogenetic, morphological, and ecological features of members of those groups.
BBMB 542. Introduction to Molecular Biology Techniques. 
(Cross-listed with B M S, EEOB, FS HN, GD CB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.
A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonal antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F)
F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects
G. Genomic Techniques

BBMB 552. Biomolecular NMR Spectroscopy. 
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: CHEM 325 or permission of instructor
Advanced solution state Nuclear Magnetic Resonance spectroscopy as applied to biological systems. Topics include theoretical principles of NMR, practical aspects of experimental NMR, methodologies for protein structure determination, NMR relaxation, recent advances in NMR spectroscopy.

BBMB 561. Molecular Biophysics. 
(Dual-listed with 461). (2-0) Cr. 2. S. Prereq: Credit or enrollment in CHEM 324 and 325
Physical methods for the study of molecular structure and organization of biological materials. X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy. Registration for graduate credit commits the student to graduate-level examinations, which differ from undergraduate-level examinations in the number and/or difficulty of questions.

L. Laboratory in Molecular Biophysics

BBMB 561L. Laboratory in Molecular Biophysics. 
(1-3) Cr. 2. S. Prereq: Credit or enrollment in BBMB 461/561
Practice in methods of X-ray diffraction, nuclear magnetic resonance, hydrodynamics and fluorescence spectroscopy as applied to macromolecules.

(Cross-listed with AGRON, AN S, BCB, CH E, CPR E, EEB, GENET, HORT, MICRO, V MPM). Cr. arr. Prereq: Graduate classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.
A. Responsible Conduct of Research. (Cr. 1.0) F
B. Working with Industry. (Cr. 0.5)
C. Communications in Science. (Cr. 0.5). Alt S., offered 2011. Reading and reviewing manuscripts; publishing papers; oral and poster presentations.
D. Time Management and Mentoring. (Cr. 0.5). Alt F, offered 2012. Balancing life and career; mentoring; lab management.
E. The Interview Process. (Cr. 0.5). Alt S., offered 2012. Applying and interviewing for academia, industry and government.
F. Grant Writing. (Cr. 1.0). Alt F, offered 2011. Writing a winning proposal.
G. Teaching. (C
S. Ethical and legal issues in research.
establishing productive collaborations with industry.

BBMB 569. Bioinformatics III (Structural Genome Informatics). 
(Cross-listed with BCB, COM S, CPR E). (3-0) Cr. 3. F. Prereq: BCB 567, Gen 411, STAT 430

BBMB 590. Special Topics.
Cr. arr.

BBMB 593. Workshop in Biochemistry and Biophysics. 
Cr. 1. Repeatable. Prereq: Permission of instructor
Graduate workshops in selected topics in biochemistry and biophysics. Credit in this course does not meet the requirement for advanced graduate electives in Biochemistry.

Courses for graduate students

(2-0) Cr. 2. Alt. F., offered 2012. Prereq: 405 or 502
Description of unique aspects of plant biochemistry including lipid metabolism, cell wall structure, secondary metabolism, phytoalexin biosynthesis, and plant defenses.

BBMB 615. Molecular Immunology. 
(Cross-listed with MICRO, V MPM). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BBMB 405 or 502
Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signalling pathways leading to expression of genes that control and activate immune function.

BBMB 622. Carbohydrate Chemistry. 
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: 404 or 501
Structure, occurrence, properties, function, and chemical and enzymatic modifications of monosaccharides, oligosaccharides, polysaccharides, and glycoproteins.

(2-0) Cr. 2. Alt. F., offered 2011. Prereq: 501
Fundamental and advanced enzyme kinetics. Topics include integrated rate equations, methods for deriving initial-rate equations, inhibition, product effects, methods for verifying kinetic mechanisms, allosteric, hysteresis, isotope effects, and complex kinetic mechanisms.

(2-0) Cr. 2. Alt. S., offered 2013. Prereq: 404, 420, or 501
The chemical basis of enzymatic catalysis with emphasis on mechanisms of substrate recognition, general acid-base catalysis and stereoelectronic factors.

BBMB 645. Molecular Signaling. 
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: 405, 420, or 502
Molecular mechanisms of cellular signaling including receptor activation, desensitization and cross talk, signal transduction pathways, and nuclear receptors. Discussion includes a variety of cell surface receptors and their hormone; growth factor and extracellular matrix activators; protein kinases; caspase and transcription factor downstream signals; lipid, gases and cyclic nucleotides as regulators of cell signaling. Course content includes current literature, student and instructor presentations and research proposal writing.

BBMB 652. Protein Chemistry - Chemical Methods. 
(2-0) Cr. 1. Alt. F., offered 2011. Prereq: 404 or 501
First 8 weeks. Chemical reactions as a means of determining protein structure and biological function.
BBMB 653. Protein Chemistry - Physical Methods.
(2-0) Cr. 1. Alt. F., offered 2011. Prereq: 404 or 501
Second 8 weeks. Protein structure determination as a means of understanding biological function.

BBMB 660. Membrane Biochemistry.
(2-0) Cr. 2. Alt. F., offered 2012. Prereq: 405 or 502
Protein and lipid constituents of biological membranes. Structure and topography of membrane proteins. Selected topics concerning the membrane proteins involved in diverse biochemical processes, such as energy transduction transport across membranes, neurotransmission and signal transduction.

BBMB 661. Current Topics in Neurobiology.
(Cross-listed with NEURO, GDCB). (2-0) Cr. 2. Repeatable. Alt. S., offered 2012. Prereq: Permission of instructor
Topics may include communication, hormones and behavior, neural integration, membrane biophysics, molecular and cellular neuroscience, developmental neurobiology, neuroanatomy and ultrastructure, sensory biology, social behavior, techniques in neurobiology and behavior.

BBMB 675. Nucleic Acid Structure and Function.
(2-0) Cr. 2. F. Prereq: 405 or 502
In-depth discussion of nucleic acid properties, structures and structure/function relationships. Interactions between nucleic acids and proteins will be emphasized.

BBMB 676. Biochemistry of Gene Expression in Eucaryotes.
(Cross-listed with MCDB). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: 404 or 501, 405 or 502 or GDCB 511
Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, small RNAs translational regulation, protein turnover.

BBMB 681. Advanced Seminar.
Cr. 1. Repeatable. F.S. Prereq: Permission of instructor
Student presentations.

BBMB 682. Departmental Seminar.
Cr. R. F.S. Prereq: Permission of instructor
Staff and visitor research.

BBMB 696. Research Seminar.
(Cross-listed with AGRON, GDCB, PLBIO, HORT, FOR). Cr. 1. Repeatable.
Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

BBMB 698. Seminar in Molecular, Cellular, and Developmental Biology.
(Cross-listed with MCDB, GDCB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

BBMB 699. Research.
Cr. arr. Prereq: Permission of instructor

Curriculum in Agricultural Biochemistry
Administered by the Department of Biochemistry, Biophysics and Molecular Biology.

Total Degree Requirement: 128 cr.
Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.
U.S. Diversity: 3 cr.

Communications Proficiency:
6 cr. of English composition with a C or better and 3 cr. of speech fundamentals with a C or better.

Communication/Library:
ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
SP CM 212 Fundamentals of Public Speaking 3
LIB 160 Library Instruction 0.5

Humanities and Social Sciences: 6 cr.
3 cr. from approved list; ECON 102 Principles of Macroeconomics.

Ethics: 3 cr.
3 cr. from approved list.

Life Sciences: 6 cr.
BIOL 211 Principles of Biology I; 3 cr. from approved list.

Humanities and Social Sciences: 6 cr.
3 cr. from approved humanities list; 3 cr. from approved social science list.

Mathematical Sciences: 14 cr.
MATH 165 Calculus I 4
MATH 166 Calculus II 4
MATH 265 Calculus III 4
or MATH 266 Elementary Differential Equations 4
STAT 101 Principles of Statistics 4
or STAT 104 Introduction to Statistics 4
Total Credits 16

Physical Sciences: 38 cr.
CHEM 177 General Chemistry I 4
or CHEM 201 Advanced General Chemistry 4
CHEM 177L Laboratory in General Chemistry I 1
or CHEM 201L Laboratory in Advanced General Chemistry 1
CHEM 178 General Chemistry II 3
CHEM 211 Quantitative and Environmental Analysis 2
CHEM 211L Quantitative and Environmental Analysis Laboratory 2
CHEM 324 Introductory Quantum Mechanics 3
CHEM 325 Chemical Thermodynamics 3
CHEM 322L Laboratory in Physical Chemistry 3
CHEM 331 Organic Chemistry I 3
CHEM 331L Laboratory in Organic Chemistry I 1
CHEM 332 Organic Chemistry II 3
PHYS 221 Introduction to Classical Physics I 5
PHYS 222 Introduction to Classical Physics II 5
Total Credits 38

Life and Biological Sciences: 13.0 cr.
BIOL 211 & BIOL 211L Principles of Biology I and Principles of Biology Laboratory I 4
BIOL 212 & BIOL 212L Principles of Biology II and Principles of Biology Laboratory II 4
BIOL 313 Principles of Genetics 3
BIOL 314 Principles of Molecular Cell Biology 3
Total Credits 14

Agricultural Biochemistry: 11 cr.
BBMB 101 Introduction to Biochemistry 1
BBMB 201 Chemical Principles in Biological Systems 2
BBMB 404 Biochemistry I 3
or BBMB 501 Comprehensive Biochemistry I 3
BBMB 405 Biochemistry II 3
or BBMB 502 Comprehensive Biochemistry II 3
BBMB 411 Techniques in Biochemical Research 3
Total Credits 13

Agricultural Sciences: 9 cr.
Complete 9 cr. from approved list.
Electives:
No more than 4 cr. of ECON 297 Internship or 397 may count toward graduation.
Bioinformatics and Computational Biology

Undergraduate

Undergraduate study

Undergraduate study in BCBio is jointly administered by the Department of Computer Science, the Department of Genetics, Development, and Cell Biology, and the Department of Mathematics. The undergraduate B.S. degree is offered through the College of Liberal Arts and Sciences.

Bioinformatics and Computational Biology is an interdisciplinary science at the interfaces of the biological, informational and computational sciences. The science focuses on a variety of topics. These include gene identification, expression, and evolution; RNA, protein, and genome structure; and molecular and cellular systems and networks. The large group of participating faculty provides students with a multidimensional perspective on bioinformatics and computational biology and presents them with broad range of possibilities to get involved in research.

This major will prepare students for careers at the interfaces of biological, informational and computational sciences. BCBio graduates with a B.S. seeking direct employment will find ready markets for their talents in agricultural and medical biotechnology industries, as well as in academia, national laboratories, and clinics. Although some students find employment directly after their baccalaureate training, many students will continue their education in one of the many excellent graduate programs in bioinformatics and computational biology that now exist.

Participation in this field requires that students achieve a high level of competence not only in biology, but also in mathematics, computer science, and statistics. As a result, the program includes required courses from many different disciplines. Graduates demonstrate an above-average ability to synthesize methods from these different disciplines to solve problems.

In addition to basic degree requirements listed in the Curriculum in Liberal Arts and Sciences (www.las.iastate.edu/academics/ generalseducation/), BCBio majors must satisfy the following requirements:

A. Complementary Courses for the BCBio Major (34 cr)

One of the following 12
CHEM 177 General Chemistry I
& CHEM 177L and Laboratory in General Chemistry I
& CHEM 178 and General Chemistry II
CHEM 201 Advanced General Chemistry
& CHEM 201L and Laboratory in Advanced General Chemistry
& CHEM 331 and Organic Chemistry I

PHYS 221 Introduction to Classical Physics I
3
or STAT 330 Probability and Statistics for Computer Science

or STAT 341 Introduction to the Theory of Probability and Statistics I

or STAT 430 Empirical Methods for the Computational Sciences

BIOL 211 Principles of Biology I

BIOL 211L Principles of Biology Laboratory I

BIOL 212 Principles of Biology II

BIOL 212L Principles of Biology Laboratory II

BIOL 314 Principles of Molecular Cell Biology

Total Credits 34

B. Core Courses Within the BCBio Major (48 cr)

GEN 313 Principles of Genetics
3
GEN 313L Genetics Laboratory
1
GEN 409 Molecular Genetics
3
COM S 227 Introduction to Object-oriented Programming
3
COM S 228 Introduction to Data Structures
3
COM S 363 Introduction to Database Management Systems
3
or COM S 330 Discrete Computational Structures

MATH 165 Calculus I
4
MATH 166 Calculus II
4
MATH 265 Calculus III
4
MATH 307 Matrices and Linear Algebra
3
or MATH 317 Theory of Linear Algebra

BCBIO 110 BCBIO Orientation
0.5
BCBIO 211 Introduction to Bioinformatics and Computational Biology
3
BCBIO 401 Fundamentals of Bioinformatics and Computational Biology I
3
BCBIO 402 Fundamentals of Bioinformatics and Computational Biology II
3
BCBIO 490 Independent Study
1-5 or BCBIO 491 Team Research Projects.

Total Credits 45.5-49.5

C. Support Electives

3-9 credits to be chosen from the following list:

BCB 593 Workshop in Bioinformatics and Computational Biology
1
BCB 596 Genomic Data Processing
3
PHYS 222 Introduction to Classical Physics II
5
BBMB 404 Biochemistry I
3
BBMB 405 Biochemistry II
3
BIOL 315 Biological Evolution
3
BIOL 423 Developmental Biology
3
BIOL 462 Evolutionary Genetics
3
BIOL 465 Morphometric Analysis
4
BIOL 472 Community Ecology
3
GEN 340 Human Genetics
3
GEN 410 Analytical Genetics
3
STAT 342 Introduction to the Theory of Probability and Statistics II
3
STAT 402 Statistical Design and the Analysis of Experiments
3
STAT 416 Statistical Design and Analysis of Gene Expression Experiments
3
STAT 432 Applied Probability Models
3
STAT 480 Statistical Computing Applications
3
MATH 266 Elementary Differential Equations
3
or MATH 267 Elementary Differential Equations and Laplace Transforms

MATH 304 Introductory Combinatorics
3
MATH 314 Graphs and Networks
3
MATH 385 Introduction to Partial Differential Equations
3
MATH 481 Numerical Methods for Differential Equations and Interpolation
3

Com S and CPR E courses at the 300 level and above.

D. The communications and English proficiency requirements of the LAS college are met by:

ENGL 150 Critical Thinking and Communication
3
ENGL 250 Written, Oral, Visual, and Electronic Composition
3
or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors

And one of the following:

ENGL 309 Report and Proposal Writing
ENGL 312 Biological Communication
ENGL 314 Technical Communication

The lowest grade acceptable in ENGL 150 Critical Thinking and Communication, ENGL 250 Written, Oral, Visual, and Electronic Composition or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors is C-.
Courses primarily for undergraduate students

BCBIO 110. BCBIO Orientation.
(1-0) Cr. 0.5. F.
First 8 weeks. Orientation to the area of bioinformatics and computational biology. For students considering a major in BCBIO. Specializations and career opportunities. Offered on a satisfactory-fail basis only.

BCBIO 211. Introduction to Bioinformatics and Computational Biology.
(3-0) Cr. 3. S.
Perl programming, molecular biology, biological databases, sequence alignment, homology search, identification of sequence patterns, construction of phylogenetic trees, gene function prediction, gene structure prediction, genomic annotation and comparative genomics.

BCBIO 401. Fundamentals of Bioinformatics and Computational Biology I.
(3-0) Cr. 3. F. Prereq: 211 and basic programming experience (e.g. COM S 207, 208, 227 or permission of instructor)
Application of computer science to molecular biology. String algorithms, sequence alignments, indexing data structures, homology search methods, pattern recognition, fragment assembly, genome annotation, construction of bioinformatics databases, and gathering and distribution of biological information with the Internet.

BCBIO 402. Fundamentals of Bioinformatics and Computational Biology II.
(3-0) Cr. 3. S. Prereq: BCBIO 401

BCBIO 442. Bioinformatics and Computational Biology Techniques.
(0.2-0.5) Cr. 0.5. Repeatable, maximum of 2 credits. S.S.
Prereq: BIOL 314 recommended
Modular minicourses consisting of guided tutorials and hands-on computer software exercises focused on fundamental problems, approaches, and software applications in bioinformatics and computational biology. Offered on a satisfactory-fail basis only. Nonmajor graduate credit.

A. Sequence Database Searching (Module A)
B. Protein Structure Databases, Visualization, and Prediction (Module B)
C. Phylogenetic Analysis (Module C)
D. Microarray Analysis Analysis (Module D)

BCBIO 444. Introduction to Bioinformatics.
(Cross-listed with BCB, CPR E, BIOL, COM S, GEN). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology. Nonmajor graduate credit.

BCBIO 491. Team Research Projects.
Cr. 1-5. Repeatable, maximum of 9 credits. Prereq: BCBIO 211, junior or senior classification, permission of instructor
Research projects in bioinformatics and computational biology done by teams of students. Students in the College of Liberal Arts and Sciences may use no more than 9 credits of BCBIO 490 and 491 toward graduation.
Bioinformatics and Computational Biology

Undergraduate Study

Undergraduates seeking a B.S. in Bioinformatics and Computational Biology should enroll in the undergraduate major BCBio, which is described in a separate section of this catalog. See Index, BCBio.

Undergraduates wishing to prepare for graduate study in Bioinformatics and Computational Biology should consider the undergraduate major in BCBio. Alternatively, they should obtain solid undergraduate training in at least one of the foundation disciplines: molecular biology, computer science, mathematics, statistics, and physics. They should also elect courses in basic biology, basic transmission and molecular genetics, chemistry, physics, mathematics at least through calculus, statistics, and computer programming.

Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in Bioinformatics and Computational Biology (BCB). Faculty are drawn from several departments: Agronomy; Animal Science; Astronomy and Physics; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Computer Science; Ecology, Evolution, and Organismal Biology; Electrical and Computer Engineering; Genetics, Development and Cell Biology; Industrial Manufacturing and Systems Engineering; Materials Science and Engineering; Mathematics; Plant Pathology; Statistics; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The BCB program emphasizes interdisciplinary training in nine related areas of focus: Bioinformatics, Computational Molecular Biology, Structural and Functional Genomics, Macromolecular Structure and Function, Metabolic and Developmental Networks, Integrative Systems Biology, information Integration and Data Mining, Biological Statistics, and Mathematical Biology. Additional information about research areas and individual faculty members is available at: www.bcb.iastate.edu.

BCB students are trained to develop an independent and creative approach to science through an integrative curriculum and thesis research projects that include both computational and biological components. First year students are appointed as research assistants and participate in BCB 697 Graduate Research Rotation, working with three or more different research groups to gain experience in both “wet” (biological) and “dry” (computer) laboratory environments. In the second year, students initiate a thesis research project under the joint mentorship of two BCB faculty mentors, one from the biological sciences and one from the quantitative/computational sciences. The M.S. and Ph.D. degrees are usually completed in two and five years, respectively.

Before entering the graduate BCB program, prospective BCB students should have taken courses in mathematics, statistics, computer science, biology, and chemistry. A course load similar to the following list would be considered acceptable:

- MATH 265 Calculus III 4
- STAT 341 Introduction to the Theory of Probability and Statistics I 3
- COM S 207 Fundamentals of Computer Programming 3
- COM S 208 Intermediate Computer Programming 3
- COM S 330 Discrete Computational Structures 3
- CPR E 310 Theoretical Foundations of Computer Engineering 3
- CHEM 163 College Chemistry 4
- CHEM 231 Elementary Organic Chemistry 3
- BBMB 301 Survey of Biochemistry 3
- BIOL 313 Principles of Genetics 3
- BIOL 315 Biological Evolution 3

During the first year, BCB students are required to address any background deficiencies in calculus, molecular genetics, computer science, statistics and discrete structures, with specific courses determined by prior training. Among the total course requirements for Ph.D. students are four core courses in Bioinformatics:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BCB 567</td>
<td>Bioinformatics I (Fundamentals of Genome Informatics)</td>
<td>3</td>
</tr>
<tr>
<td>BCB 568</td>
<td>Bioinformatics II (Advanced Genome Informatics)</td>
<td>3</td>
</tr>
<tr>
<td>BCB 569</td>
<td>Bioinformatics III (Structural Genome Informatics)</td>
<td>3</td>
</tr>
<tr>
<td>BCB 570</td>
<td>Bioinformatics IV (Computational Functional Genomics and Systems Biology)</td>
<td>3</td>
</tr>
</tbody>
</table>

And also should include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GDCB 511</td>
<td>Molecular Genetics</td>
<td></td>
</tr>
<tr>
<td>BCB 690</td>
<td>Student Seminar in Bioinformatics and Computational Biology</td>
<td></td>
</tr>
<tr>
<td>BCB 691</td>
<td>Faculty Seminar in Bioinformatics and Computational Biology</td>
<td></td>
</tr>
<tr>
<td>BCB 593</td>
<td>Workshop in Bioinformatics and Computational Biology</td>
<td></td>
</tr>
</tbody>
</table>

M.S. students take the above background and core courses, take at least 12 credits of advanced coursework, and may elect to participate in fewer seminars and workshops. Additional coursework may be selected to satisfy individual interests or recommendations of the Program of Study Committee. All graduate students are encouraged to teach as part of their training for an advanced degree. (For curriculum details and sample programs of study, see: www.bcb.iastate.edu.)

Courses primarily for undergraduate students

BCB 444. Introduction to Bioinformatics.
(Dual-listed with 544). (Cross-listed with BCBIO, BIOL, COM S, CPR E, GEN). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent

Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology. Nonmajor graduate credit.

BCB 490. Independent Study.
Cr. 1-5. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Permission of instructor

Courses primarily for graduate students, open to qualified undergraduate students.

BCB 544. Introduction to Bioinformatics.
(Dual-listed with 444). (Cross-listed with COM S, CPR E, GDCB). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent

Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology.

(Cross-listed with AGRON, AN S, CH E, CPR E, EEB, HORT, M E, MICRO, PL P V MPM). Cr. arr. Prereq: Graduate classification Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

A. Responsible Conduct of Research. (Cr. 1.0). F;
B. Working with Industry. (Cr. 0.5).
C. Communications in Science. (Cr. 0.5). Alt S., offered 2011. Reading and reviewing manuscripts; publishing papers; oral and poster presentations.
D. Time Management and Mentoring. (Cr. 0.5). Alt F., offered 2012. Balancing life and career; mentoring; lab management.
E. The Interview Process. (Cr. 0.5). Alt S., offered 2012. Applying and interviewing for academia, industry and government.
F. Grant Writing. (Cr. 1.0). Alt F., offered 2011. Writing a winning proposal.
G. Teaching. (Cr. 0.5). Preparation of a teaching portfolio and course materials; lecturing, technology.
S. Ethical and legal issues in research.
S. Establishing productive collaborations with industry.

BCB 567. Bioinformatics I (Fundamentals of Genome Informatics).

BCB 568. Bioinformatics II (Advanced Genome Informatics).

BCB 569. Bioinformatics III (Structural Genome Informatics).

BCB 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).

BCB 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor

BCB 593. Workshop in Bioinformatics and Computational Biology.
(1-0) Cr. 1. Repeatable. F.S. Current topics in bioinformatics and computational biology research. Lectures by off-campus experts. Students read background literature, attend preparatory seminars, attend all lectures, meet with lecturers.

BCB 596. Genomic Data Processing.
(Cross-listed with COM S, GDCB). (3-0) Cr. 3. F. Prereq: Some experience in computation Study the practical aspects of genomic data processing with an emphasis on hands-on projects. Topics include base-calling, sequence cleaning and contaminant removal; fragment assembly procedures and EST clustering methods; genome closure strategies and practices; sequence homology search and function prediction; and annotation and submission of GenBank reports. Next-generation sequencing topics like model genome resequencing, short-read assembly and transcriptome abundance measurement will also be covered.

BCB 598. Cooperative Education.
Cr. R. Repeatable. F.S.S. Prereq: Permission of the program chair Off-campus work periods for graduate students in the field of bioinformatics and computational biology.

BCB 599. Creative Component.
Cr. arr.

Courses for graduate students

BCB 660. Selected Topics in Bioinformatics and Computational Biology.
(2-0) Cr. 1-2. Repeatable, maximum of 4 credits. F.S.S. Prereq: Permission of Instructor Topics of interest in the major research areas of computational molecular biology, including genomics, structural genomics, functional genomics, and computational systems biology.

BCB 690. Student Seminar in Bioinformatics and Computational Biology.
Cr. 1. Repeatable. S. Student research presentations.

BCB 691. Faculty Seminar in Bioinformatics and Computational Biology.
(1-0) Cr. 1. Repeatable. Faculty research series.

BCB 697. Graduate Research Rotation.
Cr. arr. Repeatable. F.S.S. Graduate research projects performed under the supervision of selected faculty members in the Bioinformatics and Computational Biology major.

BCB 699. Research.
Cr. arr. Repeatable.
Interdepartmental Undergraduate Program

Undergraduate Study

The interdepartmental undergraduate BPM I major is designed for students who want to combine their interests and aptitudes in science and art. Based on the theme of “communicating science through art,” the major prepares students for careers in biological illustration or for graduate education in medical illustration elsewhere. Graduates enter fields such as biocommunications, environmental display design, free-lance illustration, museum display design, and various careers in the publishing industry.

Entrance into the BPM I program is by application to the BPM I Advisory Committee. Eligibility is based on an academic standard of at least 2.00 CGPA on 30 credits of university level work and a consideration of artistic ability as demonstrated through submission of a portfolio of representative drawings or other art work. Freshman and transfer students usually declare pre-BPM I as their major while satisfying the conditions for entrance into the major, although other majors can be declared.

To earn the B.A. degree offered by the College of Liberal Arts and Sciences, students must complete the general education requirements in that college and take at least 41 credits in design and 32 credits in the biological sciences.

A minor in biological illustration is offered. A minimum of 17 credits must be taken, including 8 credits in biological science courses and 9 credits in art and design courses.

The biological sciences must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 211</td>
<td>Principles of Biology I</td>
<td>3</td>
</tr>

<tr>
<td>BIOL 212</td>
<td>Principles of Biology II</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 212L</td>
<td>Principles of Biology Laboratory II</td>
<td>1</td>
</tr>
</tbody>
</table>

The art and design courses must include:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BPM I 323</td>
<td>Scientific Illustration Principles and Techniques</td>
<td>3</td>

<td>Application of Scientific Illustration Techniques</td>
<td>3</td>
</tr>
</tbody>
</table>

Advanced drawing, illustration, electronic media or painting course

For more information, contact the BPM I adviser in 102 Catt Hall or view the website listed above.

Courses primarily for undergraduate students

BPM I 323. Scientific Illustration Principles and Techniques. (Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable. Prereq: 6 credits in art and design and 3 credits in biological sciences

Studio basics and professional techniques in black & white, continuous tone, and color. Emphasis on tools, materials, and rendering.

BPM I 326. Illustration and Illustration Software. (Cross-listed with ARTIS). (0-6) Cr. 3. Prereq: 323

Application of painting, drawing, and image making techniques to communication. Development of technical abilities using illustration software. Digital and print production techniques.

BPM I 327. Illustration as Communication. (Cross-listed with ARTIS). (0-6) Cr. 3. Prereq: 326

Studio problems in illustration emphasizing composition and communication. Problem solving methodologies.

BPM I 337. Application of Scientific Illustration Techniques. (Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: 327

Rendering techniques applied to different types of biological and scientific subjects emphasizing communication. The use of traditional and digital media. Term project required.

BPM I 395. Field Illustration. Cr. 1-3. Repeatable, maximum of 6 credits. S.S.S. Prereq: Permission of instructor

A combination seminar and field trip course emphasizing nature interpretation, field sketching techniques and preparation of a final illustration based on field experience.

BPM I 398. Cooperative Education. Cr. R. F.S.S. Prereq: Permission of the program cooperative education coordinator, junior classification

Required of all cooperative education students. Students must register for these courses prior to commencing each work period.

BPM I 435I. Illustrating Nature I Sketching. (Cross-listed with IA LLI). Cr. 2. SS.

Sketching plants, animals and terrain. Visual communication, development of a personal style, and integration of typographic and visual elements on a page will be emphasized.

Chemistry and Mathematics are also required as supporting courses. Students must earn a grade of C- or better in all art and science courses included in the major and must earn a cumulative GPA of 2.00 in both categories. A brochure is available in 102 Catt Hall that gives a detailed listing of the requirements.

Communication Proficiency Requirement. Students must earn a minimum of C in both ENGL 150 and ENGL 250 or equivalent composition courses and in one advanced writing course numbered ENGL 302 through ENGL 316.

Students in BPM I must complete a senior project or an internship experience (BPM I 497) in which they design and produce artwork that is suitable for publication or public display.
(Cross-listed with IA LL). Cr. 2. SS.
Beginning to intermediate technical and compositional aspects of color photography of natural areas and their plants and animals.

BPM I 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 3 credits. Prereq: Written approval of instructor and advisory committee chair on required form in advance of semester of enrollment

BPM I 494. Special Topics in Illustration.
Cr. 1-3. Repeatable.
Intensive exploration of illustration techniques in a studio or field setting.

BPM I 497. Illustration Internship.
Cr. 1-6. Repeatable, maximum of 6 credits. Prereq: Junior or senior classification in BPM I, written approval of supervising instructor and advisory committee chair on required form in advance of semester of enrollment
Offered on a satisfactory-fail basis only.
(Interdepartmental Undergraduate Program)

Iowa State University is a major center for research and education in the biological sciences. With over 200 faculty in the life sciences, students have the opportunity to learn from some of the nation’s leaders in biological research and teaching and to participate in innovative, meaningful research projects that explore frontiers of biology. Few other universities have such a wealth of faculty expertise available to undergraduate students, making Iowa State’s Biology Program the logical choice for those who want to participate in a thriving academic community.

The faculties of the Department of Ecology, Evolution and Organismal Biology and the Department of Genetics, Development and Cell Biology jointly offer the undergraduate biology major. This high quality academic program has the flexibility to accommodate a range of career goals while taking advantage of the university’s strengths in science and technology. A bachelor’s degree in biology provides excellent preparation for graduate study in biological disciplines ranging from the molecular to the ecological levels, and for entrance into various professional schools, such as human medicine, physical therapy, or veterinary medicine. The major is well suited for those who plan to teach biology, who wish to enter government or industrial employment in health or environmental professions, or who prefer educational breadth as an end in itself. By working with our professional and faculty advisers, it is possible to design a unique program of study that will meet student needs and objectives.

Students with special interests and aptitudes should consider combining biology with a minor or a second major in another subject, such as chemistry, environmental studies, journalism, mathematics, music, statistics, or many other subjects offered by the university.

Courses offered at other locations

In addition to biological science courses taught on campus, students may take courses at various remote locations and arrange to have the credits count toward the advanced courses required in the biology major. Courses in field and aquatic biology are offered at the Iowa Lakeside Laboratory. Courses in marine biology can be taken at the Gulf Coast Research Laboratory in Mississippi. Iowa State University is a member of the Organization for Tropical Studies, and students may take courses at the organization’s field station in Costa Rica. Courses taught at field stations associated with other universities throughout the country may also be applied to the degree. Attending a summer field station adds an important component to an undergraduate program of study.

Courses Offered at Iowa Lakeside Laboratory at Milford, Iowa

Iowa Lakeside Lab is an Iowa Regents facility located at Lake Okoboji in northwest Iowa where various summer courses in field and aquatic biology are offered. Any of the following courses taken at the lab are directly applicable to the degree program in Biology. See the Iowa Lakeside Laboratory entry elsewhere in the catalog for a full description of the courses.

Courses offered at Gulf Coast Research Laboratory

The Gulf Coast Research Laboratory is affiliated with the University of Southern Mississippi. Iowa State students may register for marine biology courses and transfer credit to their degree programs under the number BIOL 480 Studies in Marine Biology. Written permission of the Biology Program Director is required for this arrangement. Courses that are available each summer may be viewed at www.coms.usm.edu.

Courses offered at Summer Biological Field Stations

Courses taken at summer field stations may be transferred to Iowa State University as credit in BIOL 481 Summer Field Studies. Such stations are found throughout the country and often offer courses that emphasize the adaptation of plants and animals to unique environments. See www.biology.iastate.edu for links to field stations in different biomes, e.g., marine/coastal, Great Lakes, taiga, deciduous forests, deserts, Rocky Mts.

Courses offered by the Organization for Tropical Studies

Iowa State students may register for courses in tropical biology taught in Costa Rica by the Organization for Tropical Studies. Credit is transferred to Iowa State as BIOL 482 Tropical Biology. For further information check www.ots.duke.edu or inquire in the Biology Program Office.

Undergraduate research. Students who have interest in biological research are encouraged to become involved in the research projects of faculty members on campus. Those doing so may receive credit for the experience in BIOL 490 Independent Study. Internship experiences are often available at other universities and at industrial or government laboratories. Students participating in such projects may receive internship credit in BIOL 494 Biology Internship. Making the effort to find a suitable research mentor and engaging in research work can be one of the most valuable experiences of an undergraduate education.

International experience. Because major discoveries in science often result from global efforts, biology majors are encouraged to include an international or study abroad component in their degree programs. This can be done by participating in international field trips originating from the ISU campus in BIOL 394 International Field Trips in Biology or similar courses in other departments. Many students choose to study abroad, attending a university in another country for up to a year as an exchange student. Minors in related disciplines or a foreign language can add an international emphasis to a degree in biology.

Supporting course requirements. Understanding the modern biological sciences requires an understanding of the physical and Mathematical sciences. Consequently, a minimum number of credits in general chemistry, organic chemistry, biochemistry, and physics are required. See the Biology Program Web Site for specific supporting science requirements.

The Math requirement is competency based. After demonstrating competency in algebra and trigonometry, biology majors must take: two semesters of calculus; or two semesters of Statistics; or one semester of calculus and one semester of Statistics chosen from a list of approved courses available on the Biology Program Web Site and in the Biology Program Office.

Students in the College of Liberal Arts and Sciences, must fulfill the foreign language and general education requirements listed elsewhere in this catalog for that college. Students in the College of Agriculture and Life Sciences must meet the general education requirements for that college as listed elsewhere in the catalog.

Given the important role of writing in the modern sciences, biology majors must demonstrate communication competency by earning a minimum of C in both ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition or equivalent composition courses and in one advanced writing course numbered ENGL 302 Business Communication through ENGL 316 Creative Writing--Playwriting, or JL MC 347 Science Communication.

Customizing a degree

The advantage of choosing a biology major is the flexibility it allows in customizing a program of study to individual goals. That said, the faculty recognizes that many students studying biology have common goals. Consequently, the faculty has developed specific recommendations for students interested in pursuing the following areas of study:

Teacher Licensure. Biology majors seeking licensure to teach biology in secondary schools must meet requirements of the Teacher Education Program as well as those of the Biology Program. In addition they must apply formally for admission to the teacher education program. See the section on Teacher Education for a list of licensure areas, degree requirements, and other information about this program.

Premedical and Prehealth Professions Studies. Biology majors who will go on to medical or health professional schools are urged to determine the entrance requirements for the institutions where they might study. A list of courses recommended for those who wish to pursue a pre-med curriculum is available in the Biology Program Office.
Preventerinary Studies. Many students whose goal is to attend veterinary school choose Biology as their major. The requirements for entrance to the Iowa State Veterinary College are listed elsewhere in this bulletin and should be consulted as programs of study are planned.

Preparation for Graduate Studies. Students who are considering graduate school to further their education in a biological sciences should identify a faculty member who has similar interests. Faculty can mentor students as undergraduates providing a smooth transition to graduate school.

Minor
A minor in Biology is offered by the Biology Program. The minor requires 15 credits in Biology, and includes the completion of the specific courses listed below:

- BIOL 211 Principles of Biology I 3
- BIOL 211L Principles of Biology Laboratory I 1
- BIOL 212 Principles of Biology II 3
- BIOL 212L Principles of Biology Laboratory II 1

And 7 credits in biology courses numbered 300 or above. Nine (9) credits of the required courses must only apply to the minor. For more information, see the Biology Program Web Site, or contact the Biology and Genetics Student Services Office in 103 Bessey Hall.

Undergraduate Study
Biology majors, start their studies in the biological sciences by taking a unified biology core curriculum consisting of six integrated courses, four with labs. The first year provides a broad introduction to the nature of life.

- BIOL 211 Principles of Biology I 3
- BIOL 211L Principles of Biology Laboratory I 1
- BIOL 212 Principles of Biology II 3
- BIOL 212L Principles of Biology Laboratory II 1

During the first year, students also take BIOL 110 Introduction to Biology and BIOL 111 Opportunities in Biology, which are half semester courses designed to introduce the student to the discipline of biology and opportunities for careers in biology. The second year explores concepts in ecology in BIOL 312 Ecology and the principles of genetics in BIOL 313 Principles of Genetics and BIOL 313L Genetics Laboratory. The third year includes courses in cell and molecular biology (BIOL 314 Principles of Molecular Cell Biology) and evolutionary biology (BIOL 315 Biological Evolution). Biology majors must take an additional 21 credits of biological science at the 300 level or above from an approved list of courses. Of these, at least 9 credits must be taken as biology courses, and a minimum of two laboratory or field courses must also be included. Students may earn the B.S. degree in Biology from either the College of Liberal Arts and Sciences or from the College of Agriculture and Life Sciences. Contact the Biology Program Office for details regarding differences in general education and course requirements which are specific to these colleges.

Biology majors should carefully consider their selection of upper-level courses to allow them to emphasize one or more of the sub-disciplines of Biology relevant to their post-baccalaureate objectives. The Biology Program has identified areas of special interest for many disciplines within Biology, with supporting 300-, 400-, and 500-level courses, enabling majors to gain substantial experience in these areas prior to graduation. Faculty advisors with experience in these subject areas work with students to provide advice about preparing for a range of Biology-related professions. Consult the Biology Program advising staff for more information.

Most biology courses numbered 300 or above can be used to satisfy the additional credit requirement. Some courses taught in other departments can also be applied to the biology major; advanced students should consider including 500 level courses in their programs. Check the Biology Program’s web site for a complete listing of acceptable upper-level life science courses.

Biology majors must demonstrate competency in their understanding of the biological sciences. Thus, grades of C- or better in all biological science courses applied to the major are required. Furthermore, in order to graduate, a student must have a cumulative average in the major of at least 2.00.

Graduate Study
Biology is an undergraduate major only. Persons interested in graduate study in the biological sciences should apply directly to one of the life science graduate programs at Iowa State University. Interdepartmental graduate offerings in Bioinformatics and Computational Biology; Ecology and Evolutionary Biology; Genetics; Molecular, Cellular and Developmental Biology; Neuroscience; Plant Physiology; Toxicology; Immunobiology; and Environmental Science are also available. (See Index.)

A non-thesis master’s degree in Interdisciplinary Graduate Studies (biological sciences) has been established particularly for those who wish to have a more diversified program of advanced study than that generally permitted by specific departments and programs.

Curriculum in Biology
College of Liberal Arts and Sciences

Administered by the Departments of Ecology, Evolution, and Organismal Biology; and Genetics, Development and Cell Biology. Students should consult the Biology Student Services Office, 103 Bessey (or biology@iastate.edu) for the appropriate course selections for professional or graduate school preparation.

Total Degree Requirement: 120 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.
U.S. Diversity: 3 cr.
Communications Proficiency (with a C or better)

| English composition | 3 |
| Speech fundamentals | 3 |
| Total Credits | 6 |

Communication/Library

| ENGL 150 Critical Thinking and Communication | 3 |
| ENGL 250 Written, Oral, Visual, and Electronic Composition | 3 |
| LIB 160 Library Instruction | 0.5 |
| Total Credits | 9.5 |

Humanities and Social Sciences

| Humanities course | 12 |
| Social Science course | 9 |
| Total Credits | 21 |

Mathematical Sciences 7 cr.

| MATH 160 Survey of Calculus | 4 |
| MATH 181 Calculus and Mathematical Modeling for the Life Sciences I | 4 |
| MATH 165 Calculus I | 8 |
| & MATH 166 Calculus II | 8 |
| or & MATH 182 Calculus and Mathematical Modeling for the Life Sciences II | 8 |
| or MATH 165 & STAT 101 Calculus I and Principles of Statistics | 8 |
| or STAT 104 Introduction to Statistics | 8 |

MATH 165 & MATH 166 Calculus I and Calculus II | 8 |
| or MATH 181 & MATH 182 Calculus and Mathematical Modeling for the Life Sciences I and Calculus and Mathematical Modeling for the Life Sciences II | 8 |
Courses primarily for undergraduate students

**BIOL 101. Introductory Biology.**  
(3-0) Cr. 3. F.S.S.  
Life considered at cellular, organism, and population levels. Function and diversity of the living world. Presentation of basic biological principles as well as topics and issues of current human interest. Intended primarily for nonmajors; available to biology majors for elective credit.

**BIOL 104. Introduction to Biology.**  
Cr. 1. F.  
Orientation to the scope of the biological sciences, and discussion of professional opportunities. Required of first year biology majors. Offered on a satisfactory-fail basis only.

**BIOL 110. Opportunities in Biology.**  
(1-0) Cr. 0.5. S.  
Introduction to biological science disciplines and professional opportunities through faculty presentations which examine a variety of current research topics. Offered on a satisfactory-fail basis only.

**BIOL 155. Human Biology.**  
(3-0) Cr. 3. F.S.  
A survey course of human biology, including principal structures and functions of the body systems and the diseases and disorders associated with them. Designed to meet general education requirements in natural science. Not recommended for those seeking a career in the allied health professions or for students majoring in life science.

**BIOL 173. Environmental Biology.**  
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.  
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Non-majors only.

**BIOL 201. Introduction to Environmental Issues.**  
(Cross-listed with ENSCI, ENV S). (2-0) Cr. 2. F.S.  
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

**BIOL 204. Biodiversity.**  
(Cross-listed with ENV S). (4-0) Cr. 2. S.  
Prereq: One course in life sciences  

**BIOL 211. Principles of Biology I.**  
(3-0) Cr. 3. F.S.  
Prereq: High school biology and chemistry or credit or enrollment in CHEM 163 or 177  
Introduction to the nature of life, including the cellular basis of life; the nature of heredity; evolution; diversity of microbial, plant, and animal life; and principles of ecology. Intended for life science majors. First of core series of required courses for the biology major.

**BIOL 211L. Principles of Biology Laboratory I.**  
(0-3) Cr. 1. F.  
Prereq: Credit or enrollment in 211  
Laboratory to accompany 211.

**BIOL 212. Principles of Biology II.**  
(3-0) Cr. 3. F.S.  
Prereq: 211  
Introduction to the nature of life, including the cellular basis of life; energy relationships; the nature of heredity; evolution; form and function of microbial, plant, and animal life.

**BIOL 212L. Principles of Biology Laboratory II.**  
(0-3) Cr. 1. F.  
Prereq: Credit or enrollment in 211  
Laboratory to accompany 212.
BIOL 212L. Principles of Biology Laboratory II. 
(0-3) Cr. 1. F.S. Prereq: credit or enrollment in 212 Laboratory to accompany 212.

BIOL 255. Fundamentals of Human Anatomy. 
(3-0) Cr. 3. F. Prereq: High School Biology and Chemistry, or BIOL 101 An introduction to human anatomy, beginning with cells and tissues, surveying all body systems, relating form to function. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider BIOL 351 for their anatomy background. Not intended for major credit in biology.

L. Fundamentals of Human Anatomy Laboratory

BIOL 255L. Fundamentals of Human Anatomy Laboratory. 
(0-3) Cr. 1. F. Prereq: Credit or enrollment in 255 Investigation of human anatomy using models and dissections of preserved organs and model mammals. Pre-Medical students should consider 351 for their anatomy background. Not intended for major credit in biology.

BIOL 256. Fundamentals of Human Physiology. 
(3-0) Cr. 3. S. Prereq: High School Biology and Chemistry, or BIOL 101, or 255 (recommended) An introduction to human physiology, studying the function of all body systems. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic and immune, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider 335 for their physiology background. Not intended for major credit in biology.

L. Fundamentals of Human Physiology Laboratory

BIOL 256L. Fundamentals of Human Physiology Laboratory. 
(0-3) Cr. 1. S. Prereq: Credit or enrollment in 256 Student-conducted experiments investigating concepts of human physiology with computer data acquisition and analysis. Interpretation of experimental results and preparation of lab reports. Pre-Medical students should consider 335 for their anatomy and physiology background. Not intended for major credit in biology.

(Cross-listed with W S). (3-0) Cr. 3. F. Prereq: BIOL 101, or 155, or 211 Anatomy and physiology of human reproductive systems, including fertility, pregnancy, and delivery.

BIOL 306. Metabolic Physiology of Mammals. 
Cr. 3. Prereq: 211, 212 Introduction to physiology of metabolic function in mammals and other animals. Metabolic processes and their interactions with various subsystems, approached from an organismal perspective. Integration of cellular, gastrointestinal, cardiovascular, respiratory, and renal processes, relevant to their control and integration at the nervous and endocrine system levels. Functional aspects of organismal physiology; energy and water balances, physiology of rest exercise, and environmental stress. Students cannot receive credit for both BIOL 306 and BIOL 335.

(Cross-listed with W S). (3-0) Cr. 3. F. Prereq: a 200 level course in science, engineering or women's studies; ENG 280 The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to underrepresentation; feminist critiques of science; examination of successful strategies.

Meets U.S. Diversity Requirement

BIOL 312. Ecology. 
(Cross-listed with A ECL, ENSCI). (3-3) Cr. 4. F.S.S. Prereq: 211L and 212L Fundamental concepts and principles of ecology dealing with organisms, populations, communities and ecosystems. Laboratory and field exercises examine ecological principles and methods as well as illustrate habitats.

(Cross-listed with GEN). (3-0) Cr. 3. F.S.SS. Prereq: 211, 211L, 212, and 212L Introduction to the principles of transmission and molecular genetics of plants, animals, and bacteria. Recombination, structure and replication of DNA, gene expression, cloning, quantitative and population genetics. Students may receive graduation credit for no more than one of the following: Gen 260, Gen 313 and 313L, Gen 320, BIOL 313 and 313L, and Agron 320.

L. Genetics Laboratory

BIOL 313L. Genetics Laboratory. 
(Cross-listed with GEN). (0-3) Cr. 1. F.S. Prereq: Credit or enrollment in 313 Laboratory to accompany 313. Students may receive graduation credit for no more than one of the following: BIOL 313 and 313L, Gen 260, Gen 313, Gen 320, and Agron 320.

(3-0) Cr. 3. F.S. Prereq: BIOL 313 Integration of elementary principles of metabolism, bioenergetics, cell structure and function to develop a molecular view of how the cell works.

BIOL 315. Biological Evolution. 
(3-0) Cr. 3. F.S. Prereq: 313 The mechanisms of evolution. Topics in microevolution: population genetics, natural selection, genetic variation, and adaptation. Macroevolution: speciation, extinction, phylogeny, and major evolutionary patterns.

BIOL 328. Cell Physiology of Human Diseases. 
Cr. 3. Prereq: 212 Survey of macromolecular and ultrastructural organization of animal cell and membrane structures, including recent molecular discoveries in areas of genomics and proteomics involved with cell growth and cell interactions. Emphasis on selected topics of cellular functions with known human disease states.

(3-0) Cr. 3. Prereq: BIOL 313 or GEN 320; BIOL 314 or BBMB 301; CHEM 231 or 332; PHYS 106 or 111 An overview of classical and current concepts, principles and approaches regarding the basic mechanisms of plant function underlying growth, development and survival of plants. Topics covered include environmental and developmental signals, plant hormone action, signal transduction, mineral nutrition, water relations, metabolism and photosynthesis. Nonmajor graduate credit.

BIOL 330L. Principles of Plant Physiology Laboratory. 
(0-3) Cr. 1. Prereq: Credit or enrollment in 330 Laboratory to accompany BIOL 330. Experiments and explorations illustrating fundamental principles of plant physiology. Nonmajor graduate credit.

BIOL 335. Principles of Human and Other Animal Physiology. 
(3-3) Cr. 4. F.S. Prereq: BIOL 314 Introduction to systemic functions with emphasis on mammals. Nonmajor graduate credit.

BIOL 336. Ecological and Evolutionary Animal Physiology. 
Cr. 3. Prereq: 211, 212 Study of mechanisms by which animals perform life-sustaining functions; the evolution and adaptive significance of physiology traits, the diversity of physiological mechanisms, and how physiology and ecology interact.

BIOL 351. Comparative Chordate Anatomy. 
(4-4) Cr. 5. S. Prereq: 212, junior classification The evolution of chordates as reflected in the anatomy of extinct and living forms. Lecture topics include the history and diversity of chordates; comparisons of anatomic structures among major groups, the adaptive significance of anatomic structures. Laboratory involves dissection of representative species.
BIOL 352. Vertebrate Histology.
(3-3) Cr. 4. F. Prereq: 212
Microscopic structure of vertebrate tissues and organs, with an introduction to histological techniques.

BIOL 353. Introductory Parasitology.
(Cross-listed with MICRO, V PTH). (3-3) Cr. 4. F. Prereq: BIOL 212
Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

(3-0) Cr. 3. F. Prereq: 212
Ethological and sociobiological approaches to animal behavior. Genetic and developmental aspects of behavior, biological rhythms, orientation (including navigation, migration), communication, and social behavior (mating, aggression, parental care).

BIOL 354L. Laboratory in Animal Behavior.
(0-3) Cr. 1. F. Prereq: Credit or enrollment in BIOL 354
Laboratory techniques for observation, description and analysis of animal activities; independent projects.

BIOL 355. Plants and People.
(3-0) Cr. 3. S. Prereq: Credit in 211 and 211L
Uses of plants and fungi by humans and the importance of plants in the past, present and future. Discussion of fruits, vegetables, grains, herbs, spices, beverages, oils, fibers, wood, medicines, and drugs, in the context of their agricultural, cultural, and economic roles in modern societies. Emphasis on origins and worldwide diversity of culturally important plants, their characteristics, and uses.

BIOL 356. Dendrology.
(Cross-listed with FOR). (2-4) Cr. 4. F. Prereq: BIOL 211
Identification and ecology of North American woody plant species. Importance of woody plants in timber production and wildlife habitat. Natural disturbances, human impacts, management and restoration concerns for major North American forest regions will be addressed. Nonmajor graduate credit.

BIOL 356L. Laboratory in Dendrology.
(2-4) Cr. 4. F. Prereq: BIOL 212
Introduction to histological techniques. Nonmajor graduate credit.

BIOL 357. Vertebrate Biology.
(3-3) Cr. 4. F. Prereq: BIOL 212
Prerequisites: BIOL 313
Emphasis on diversity, development, physiology and behavior of invertebrate organisms- the "spineless wonders" of the world. Laboratory involves hands-on study and investigation of living invertebrates.

BIOL 358. Vertebrate Biology Laboratory.
(2-4) Cr. 4. S. Prereq: 211
Prerequisites: BIOL 313
Experiments and explorations illustrating fundamental principles of multicellular organisms. Compatibility of gene expression within the context of a developing organism. Medically relevant subjects will be discussed, including stem cells, cancer biology, fertilization, and cloning.

(Cross-listed with A ECL). (2-2) Cr. 3. F. Prereq: 312; STAT 101 or 104
Quantitative techniques used in management of natural resources with emphasis on inventory and manipulation of habitat and animal populations. Nonmajor graduate credit.

(Cross-listed with ENSCI, ENV S, MICRO). (2-2) Cr. 3. F. Prereq: 12 credits of natural science including biology and chemistry
Introduction to the structure and function of natural environmental systems. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.

(Cross-listed with ENSCI). (2-2) Cr. 3. S. Prereq: ENSCI 381
Continuation of ENSCI 381. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.

BIOL 364. Invertebrate Biology.
(3-3) Cr. 3. S. Prereq: 212
Prerequisites: BIOL 212
The structure, development, and evolution of the endocrine glands and their function and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.

BIOL 365. Vertebrate Biology.
(3-3) Cr. 3. S. Prereq: 212
Prerequisites: BIOL 212
Prerequisites: Two courses in the biological sciences and by approval of application
Extended field trips, usually during break periods, to North American regions of interest to biologists. Inquire in the Biology Program Office, 103 Bessey Hall, for trip schedule.

(2-4) Cr. 4. S. Prereq: 211
Prerequisites: BIOL 313
Experiments and explorations illustrating fundamental principles of multicyclic development.

(Cross-listed with A ECL). (2-2) Cr. 3. F. Prereq: 312; STAT 101 or 104
Quantitative techniques used in management of natural resources with emphasis on inventory and manipulation of habitat and animal populations. Nonmajor graduate credit.

BIOL 368. Topics in Cell Biology.
(3-0) Cr. 3. S. Prereq: 314
Prerequisites: BIOL 313
Experiments and explorations illustrating fundamental principles of multicellular development.

BIOL 369. Endocrinology.
(3-0) Cr. 3. S. Prereq: 211, 212
Prerequisites: BIOL 313
Dual-listed with EEOB 534. Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones. Nonmajor graduate credit.
BIOI 436. Neurobiology.
(3-0) Cr. 3. F. Prereq: BIOL 212
Basic principles of brain function and development. Signaling of nerve cells, synaptic transmission, structure/function of ion channels and receptors, memory and synaptic plasticity, movement and central control, sensation and sensory processing, construction of neural circuits, early brain development, complex brain functions in health and disease. Nonmajor graduate credit.

BIOI 444. Introduction to Bioinformatics.
(Cross-listed with BCB, BCB1O, COM S, CPR E, GEN). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology. Nonmajor graduate credit.

BIOI 454. Plant Anatomy.
(3-3) Cr. 4. F. Prereq: BIOL 212L; 366 recommended
Characteristics of cell and tissue types in vascular plants. Anatomy of developing and mature stems, roots, and leaves, including secondary (woody) growth. Introduction to the special anatomy of flowers and seeds. Nonmajor graduate credit.

BIOI 455. Bryophyte and Lichen Biodiversity.
(Dual-listed with 555). Cr. 3. Prereq: BIOL 211, BIOL 211L
(Dual-listed with EEOB) Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning. Nonmajor graduate credit.

(Cross-listed with MICRO). (2-3) Cr. 3. F. Prereq: 10 credits in biological sciences
Morphology, diversity and ecology of fungi; their relation to agriculture and industry and human health. Nonmajor graduate credit.

BIOI 457. Herpetology.
(Cross-listed with A ECL). (2-3) Cr. 3. F. Prereq: 351 or 366
Dual-listed with EEOB 557. Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.

BIOI 458. Ornithology.
(Cross-listed with A ECL). (2-3) Cr. 3. S. Prereq: A ECL 365 or BIOL 351
Dual-listed with EEOB 558. Biology, ecology, evolution, and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation. Laboratory exercises complement lecture topics, emphasize identification and distribution of Midwest birds, and include field trips.

BIOI 459. Mammalogy.
(Cross-listed with A ECL). (2-3) Cr. 3. S. Prereq: 351 or A ECL 365
Dual-listed with EEOB 559. Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation. Laboratory focus on identification, distribution, habits, and habitats of mammals.

BIOI 462. Evolutionary Genetics.
(Cross-listed with GEN). (3-0) Cr. 3. S. Prereq: BIOL 315
The genetic basis of evolutionary processes in higher organisms. The role of genetic variation in adaptation, natural selection, adaptive processes, and the influence of random processes on evolutionary change. Nonmajor graduate credit.

BIOI 465. Morphometric Analysis.
(3-2) Cr. 4. Alt. S., offered 2012. Prereq: STAT 401
Dual-listed with EEOB 555. A comprehensive overview of the theory and methods for the analysis of biological shape with emphasis on data acquisition, standardization, statistical analysis, and visualization of results. Methods for both landmark and outline data will be discussed. Nonmajor graduate credit.

BIOI 471. Introductory Conservation Biology.
Cr. 3. Prereq: BIOL 312
Examination of conservation issues from a population and community perspective. The role of genetics, demography, and environment in determining population viability, habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

(2-2) Cr. 3. S. Prereq: BIOL 312
The effect of interspecific interactions on the structure and dynamics of natural and managed communities; including concepts of guild structure and trophic web dynamics and their importance to the productivity, diversity, stability, and sustainability of communities. The implications of interspecific interactions in the management of wild species will be emphasized with illustrative case histories of interactions between plants, invertebrates, and vertebrates. Nonmajor graduate credit.

BIOI 474. Plant Ecology.
(3-0) Cr. 3. S. Prereq: BIOL 312
Principles of plant population and community ecology. Nonmajor graduate credit.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: BIOL 312
Dual-listed with EEOB 576. The nature of adaptations to physical and biotic environments. Biophysical, biomechanical, and physiological bases of the structure, form, growth, distribution, and abundance of organisms.

BIOI 480. Studies in Marine Biology.
Cr. 1-8. Repeatable
Courses taken at Gulf Coast Research Laboratory and other marine biological stations are transferred to Iowa State University under this number.

BIOI 481. Summer Field Studies.
Cr. 1-8. Repeatable
Courses taken at summer biological field stations are transferred to Iowa State University under this number.

BIOI 482. Tropical Biology.
Cr. 1-4. Repeatable, maximum of 8 credits. Prereq: One year of college biology; knowledge of Spanish desirable but not required
Students registering for courses taught by the Organization for Tropical Studies will receive credit for this ISU course when requesting a transfer of credits.

BIOI 484. Ecosystem Ecology.
(Cross-listed with ENSCI). (3-0) Cr. 3. S. Prereq: Combined 12 credits in biology and chemistry
Introduction of the study of ecosystems and the factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems.

BIOI 486. Aquatic Ecology.
(Cross-listed with ENSCI, A ECL). (3-0) Cr. 3. F. Prereq: BIOL 312 or ENSCI 381 or ENSCI 402 or NREM 301
Dual-listed with EEOB 586. Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine, and wetland ecology. Nonmajor graduate credit.

L. Aquatic Ecology Laboratory
BIOL 486L. Aquatic Ecology Laboratory.
(Cross-listed with ENSCI, A ECL). (0-3) Cr. 1. F. Prereq: Concurrent enrollment in 486
Dual-listed with EEOB 586L. Field trips and laboratory exercises to accompany 486. Hands-on experience with aquatic research and monitoring techniques and concepts. Nonmajor graduate credit.

BIOL 487. Microbial Ecology.
(Cross-listed with ENSCI, MICRO). (3-0) Cr. 3. F. Prereq: Six credits in biology and 6 credits in chemistry
Dual-listed with EEOB 587. Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems. Nonmajor graduate credit.

BIOL 488. Identification of Aquatic Organisms.
(0-3) Cr. 1. F.S.
On line taxonomic and identification exercises to accompany 486. Instruction and practice in the identification of algae, aquatic macrophytes, zooplankton, and benthos. Nonmajor graduate credit.

(2-2) Cr. 3. F. Prereq: BIOL 312, STAT 101 or 104, a course in calculus, or graduate standing
Dual-listed with EEOB 589. Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

BIOL 490. Independent Study.
Cr. 1-6. Repeatable, maximum of 9 credits. Prereq: 8 credits in biology and permission of instructor
Research opportunities for undergraduate students in the biological sciences. No more than 9 credits in Biol 490 may be counted toward graduation and of those, only 6 credits may be applied to the major.

I. Iowa Lakeside Laboratory. (Same as Ia LL 490I) Cr. 1 to 4 each time taken. See Iowa Lakeside Laboratory.
R. Biological research. Cr. 1 to 6 each time taken. For students registering to work on an independent research project under the direction of a faculty member.

BIOL 491. Laboratory Teaching Experience.
Cr. 1-2. Repeatable. Prereq: Permission of supervising staff
For students registering to be undergraduate laboratory assistants. Offered on a satisfactory-fail basis only. A maximum of 2 credits can be applied toward biology advanced course requirement.

BIOL 494. Biology Internship.
Cr. 1-3. Repeatable. Prereq: 8 credits in biology and permission of instructor
Intended to provide credit for significant professional experiences in biological sciences. A written proposal is required prior to registration. Intended for Biology majors.

BIOL 495. Undergraduate Seminar.
Cr. 1-3. Repeatable. F.S. Prereq: 15 credits in biological science; permission of instructor
Content varies from year to year and may include detailed discussion of special topics in biology, current issues in biology, or careers in biology.

BIOL 498. Cooperative Education.
Cr. R. Repeatable. F.S.SS. Prereq: Junior classification and permission of the department cooperative education coordinator
Required of all cooperative education students. Students must register for this course prior to commencing each work period.
Interdepartmental Graduate Major

**Undergraduate Study**

Students wishing to pursue an undergraduate degree in the basic plant sciences are encouraged to investigate the numerous possibilities available to them at Iowa State University. The undergraduate Biology Program, jointly administered by faculties of the departments of Ecology, Evolution, and Organismal Biology (EEOB) and Genetics, Cell and Developmental Biology (GDCB), includes a wide spectrum of opportunities for students to develop their academic interests through the study of plant biology. Students can major in Biology in the College of Liberal Arts and Sciences or in the College of Agriculture. Contact the Biology Student Services office in 103 Bessey Hall for general information about the Biology Program. For those students interested in applied plant sciences, undergraduate majors in Agronomy, Horticulture, and Forestry are also available through the College of Agriculture.

**Graduate Study**

The Botany Graduate Program offers work for the degrees Master of Science and Doctor of Philosophy with a graduate major in Botany, and minor work for students majoring in other departments or graduate programs. Within the Botany Graduate Major, one of the following areas of specialization may be designated: aquatic and wetland ecology, cytology, ecology, morphology, mycology, physiology and molecular biology, or systematics and evolution. Relevant graduate courses that may be counted toward completion of these degrees are offered by the Departments of EEOB and GDCB, and by other departments and programs. The specific requirements for each student’s course distribution and research activities are set by the Program of Study Committee established for each student individually, and must satisfy all requirements of the Graduate College (See Index). GRE (and if necessary, TOEFL) scores are required of all applicants; students are encouraged to contact faculty prior to application.

Related interdepartmental graduate majors in Ecology and Evolutionary Biology (EEOB); Environmental Science (EnSci); Genetics (IG); Molecular, Cellular and Developmental Biology (MCDB); Plant Physiology (IPPM); and Toxicology should also be investigated as possible graduate programs with specific disciplinary focus.

At present, the Botany Graduate Program is under review and may change Status in the near future. Before applying for admission to the Botany Graduate Major, prospective students should contact the Botany Graduate Program Director of Graduate Education Dr. Robert Wallace (rwallace@iastate.edu) for specific details about the program’s Status and application procedures.
Chemistry

Undergraduate Study

For undergraduate curricula in liberal arts and sciences leading to the degrees Bachelor of Science and Bachelor of Arts, see Liberal Arts and Sciences, Curriculum.

Graduates holding the B.S. degree in Chemistry qualify in many fields as: teachers of Chemistry, supervisors in industry, technical sales personnel, and research chemists in federal, state, municipal, academic, or industrial laboratories. Students with high scholastic standing often continue with graduate work, where they may explore more thoroughly the specialized areas of chemistry in which they are interested.

The B.A. degree is useful for students who intend to pursue studies in parallel areas, such as secondary school teaching, or to obtain additional majors or strong minors. The B.A. degree does not prepare students as well for graduate study or professional employment in chemistry.

Graduates have firm foundations in the fundamentals and application of current chemical theories. They are able to design, carry-out, record, and analyze the results of chemical experiments. They are able to use modern instrumentation and classical techniques to identify and solve chemical problems as well as explore new areas of research. Graduates are able to communicate the results of their work to chemists, as well as non-chemists. They understand the ethical and environmental dimensions of problems and issues facing chemists. They follow the proper procedures and regulations for safe storage, labeling, use of chemicals, and disposal of chemicals. Graduates are skilled in problem solving, critical thinking, and analytical reasoning. These skills may be applied to careers in education and industry; in professions such as law, medicine, environmental sciences, and forensic sciences. The curricula in Chemistry are approved by the American Chemical Society (ACS). Students who complete the program obtain an ACS certified baccalaureate degree provided they also take one Biochemistry course, typically BBMB 301 Survey of Biochemistry or BBMB 404 Biochemistry I.

Liberal arts majors who wish to transfer into Chemistry at the end of their second year may still complete all degree requirements and graduate within five years.

Undergraduate students seeking the B.S. degree in Chemistry usually take courses essential to the degree program according to the following schedule:

First year

<table>

The Department of Chemistry offers work for the degrees Master of Science and Doctor of Philosophy with majors in Chemistry, Analytical, Inorganic, Organic, and Physical chemistry. Co-majors may be taken between areas within Chemistry or between one of the areas in Chemistry and another department. Courses in other areas of Chemistry as well as courses in other departments may be used to satisfy the requirement for coursework outside the major field. A Ph.D. student in Chemistry may choose an additional specialty in one of six areas: Materials Chemistry, Industrial Chemistry, Biomolecular Sciences, Chemistry Education, Chemical Instrumentation, and Forensic Chemistry. A minimum of ten credits is required for each additional specialty. A course which counts towards an additional specialty may also count toward the outside course requirement. A minor in Chemistry is available to students in other departments. The Department participates in the interdisciplinary major in Toxicology.

The Department of Chemistry requires all graduate students majoring in Chemistry to teach as part of their training for an advanced degree. Prerequisite to major graduate work is the completion of graduate work in Chemistry, Mathematics, and Physics substantially equivalent to that required of undergraduate Chemistry majors at this institution.

The course numbers for general Chemistry courses include 163-178, and 201.

Index to field of work for 200 level courses and above is given by the second and third digits of course numbers:

1. Inorganic Chemistry 00-09
2. Analytical Chemistry 10-19
3. Physical Chemistry 20-29 and 60-69
4. Organic Chemistry 30-39
5. Chemical Education 50-59
6. Interdisciplinary Chemistry 70-89
7. Research 99

Courses primarily for undergraduate students

CHEM 050. Preparation for College Chemistry.
(3-0) Cr. arr. F. Prereq: 1 year high school algebra
An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course. Credit for Chem 50 does not count toward graduation.

CHEM 160. Chemistry in Modern Society.
(3-0) Cr. 3. S.
Aspects of chemistry visible to a nonscientist in our society. A survey of selected areas of chemistry with emphasis on the interface between chemistry and other fields of human activity.

CHEM 163. College Chemistry.
(4-0) Cr. 4. F.S. Prereq: 1 year of high school algebra and geometry and Chem 50, or 1 year of high school chemistry; and credit or enrollment in 163L
A general survey of chemistry with an emphasis on conceptual problems for those who are not physical and biological science or engineering majors. Nomenclature, chemical reactions, stoichiometry, atomic structure, periodic properties, chemical bonding, states of matter, solutions, thermodynamics, acid-base theory, oxidation-reduction reactions, basic chemical kinetics, and chemical equilibrium. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

L. Laboratory in College Chemistry

CHEM 163L. Laboratory in College Chemistry.
(0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 163 Laboratory to accompany 163. Must be taken with 163. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 167. General Chemistry for Engineering Students.
(4-0) Cr. 4. F.S. Prereq: MATH 140 or high school equivalent and 1 year of high school chemistry or Chem 50
Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

L. Laboratory in General Chemistry for Engineering

CHEM 167L. Laboratory in General Chemistry for Engineering.
(0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in 167 Laboratory to accompany 167. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177. General Chemistry I.
(4-0) Cr. 4. F.S.SS. Prereq: MATH 140 or high school equivalent, and Chem 50 or 1 year high school chemistry, and credit or enrollment in 177L. Chemistry and biochemistry majors may consider taking 201
The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163-164. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermodynamics, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Credit by examination (test-out exams) for 177 is available only to students who are not currently enrolled in the course. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

L. Laboratory in General Chemistry I
N. Laboratory in General Chemistry I
CHEM 177L. Laboratory in General Chemistry I.  
(0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 177 Laboratory to accompany 177. 177L must be taken with 177. 177N: For chemistry and biochemistry majors. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177N. Laboratory in General Chemistry I.  
(0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 177. For chemistry and biochemistry majors Laboratory to accompany 177. 177N must be taken with 177. Graduation Messages: Only one of Chem 163L, 167L, and 177N may count toward graduation.

CHEM 178. General Chemistry II.  
(3-0) Cr. 3. F.S. Prereq: 177, 177L. Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Credit by examination (test-out exams) for 178 is available only to students who are not currently enrolled in the course.

L. Laboratory in College Chemistry II

CHEM 178L. Laboratory in College Chemistry II.  
(0-3) Cr. 1. F.S. Prereq: 177L and credit or enrollment for credit in 178 Laboratory to accompany 178. 178L is not a necessary corequisite with 178.

CHEM 201. Advanced General Chemistry.  
(5-0) Cr. 5. F. Prereq: MATH 140 or high school equivalent and one year of high school chemistry. Co-enrollment in 201L A one semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be guided by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

L. Laboratory in Advanced General Chemistry

CHEM 201L. Laboratory in Advanced General Chemistry.  
(0-3) Cr. 1. Prereq: Credit or enrollment for credit in 201 Laboratory to accompany 201. Introductory lab experience in synthesis and analysis to prepare student for research activities 201L must be taken with 201. Only one of 163L, 167L, 177L, 177N or 201L may count toward graduation.

CHEM 211. Quantitative and Environmental Analysis.  
(2-0) Cr. 2. F.S. Prereq: 163 and 163L, credit or enrollment in 178, or 201 and 201L; and concurrent enrollment in 211L Theory and practice of elementary volumetric, chromatographic, electrochemical and spectrometric methods of analysis. Chemical equilibrium, sampling, and data evaluation. Emphasis on environmental analytical chemistry; the same methods are widely used in biological and materials sciences as well.

L. Quantitative and Environmental Analysis Laboratory

CHEM 211L. Quantitative and Environmental Analysis Laboratory.  
(0-6) Cr. 2. F.S. Prereq: Credit or enrollment in 163 and 163L, or 178; and concurrent enrollment in CHEM 211 Introductory laboratory experience in volumetric, spectrometric, electrochemical and chromatographic methods of chemical analysis.

CHEM 231. Elementary Organic Chemistry.  
(3-0) Cr. 3. F.S.SS. Prereq: 163, 163L, or 177, 177L; credit or enrollment in 231L A survey of modern organic chemistry including nomenclature, structure and bonding, and reactions of hydrocarbons and important classes of natural and synthetic organic compounds. For students desiring only an elementary course in organic chemistry. Students in physical or biological sciences and premedical or preveterinary curricula should take the full year sequence 331 and 332 (with the accompanying laboratories 331L and 332L). Only one of Chem 231 and 331 or BBMB 221 may count toward graduation.

L. Laboratory in Elementary Organic Chemistry

CHEM 231L. Laboratory in Elementary Organic Chemistry.  
(0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 231; 163L or 177L Laboratory to accompany 231. 231L must be taken with 231. Only one of Chem 231L and 331L may count toward graduation.

CHEM 298. Cooperative Education.  
Cr. R. F.S.SS. Prereq: Permission of the Department cooperative education coordinator; sophomore classification Required of all cooperative education students. Students must register for this course prior to commencing each work period.

CHEM 299. Undergraduate Research (for Freshmen and Sophomores).  
Cr. arr. Repeatable, maximum of 6 credits. Prereq: Permission of staff member with whom student proposes to work

CHEM 301. Inorganic Chemistry.  
(2-0) Cr. 2. S. Prereq: 324 Atomic and molecular structure and bonding principles; molecular shapes and symmetry; acids and bases; solid-state structures and properties; inorganic chemistry of H, B, C. Nonmajor graduate credit.

CHEM 316. Instrumental Methods of Chemical Analysis.  
(2-0) Cr. 2. F. Prereq: 211, 211L, MATH 166, and concurrent enrollment in 316L; PHYS 222 recommended Quantitative and qualitative instrumental analysis. Operational theory of instruments, atomic and molecular absorption and emission spectrosopy, electroanalysis, mass spectrometry, liquid and gas chromatography, electrophoresis, literature of chemical analysis. Nonmajor graduate credit.

L. Instrumental Analysis Laboratory

CHEM 316L. Instrumental Analysis Laboratory.  
(0-6) Cr. 2. F. Prereq: Credit or enrollment in CHEM 316 Advanced laboratory experience in UV-visible spectrophotometry, atomic absorption and emission spectrometry, electrochemistry, gas and liquid chromatography, electrophoresis, mass spectrometry, and other instrumental methods. Nonmajor graduate credit.

CHEM 321L. Laboratory in Physical Chemistry.  
(1-3) Cr. 2. S. Prereq: Credit or enrollment for credit in 324 or 325 Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, infrared and optical spectroscopy, lasers. Not applicable towards the B.S. degree in Chemistry. Nonmajor graduate credit. Only one of Chem 321L and 322L may count toward graduation.

CHEM 322L. Laboratory in Physical Chemistry.  
(1-6) Cr. 3. S. Prereq: CHEM 324 Error analysis; use of computers for interfacing to experiments and for data analysis; thermodynamics, surface science, infrared and optical spectroscopy, lasers. Nonmajor graduate credit. Only one of Chem 321L and 322L may count toward graduation.

CHEM 334. Introductory Quantum Mechanics.  
(3-0) Cr. 3. F. Prereq: 178, MATH 166, PHYS 222 recommended Quantum mechanics, atomic and molecular structure, spectroscopy, kinetic theory of gases, chemical kinetics. Nonmajor graduate credit.
CHEM 325. Chemical Thermodynamics.
(3-0) Cr. 3. F.S. Prereq: 178, MATH 166, PHYS 222 recommended
Classical thermodynamics 1st, 2nd, and 3rd laws with applications to
gases and interfacial systems, multicomponent, multiphase equilib-
rium of reacting systems, surface chemistry, and electrochemical cells.
Students taking a two-semester physical chemistry sequence are advised
to take 324 first; in the spring semester, a molecular-based section of this
course, stressing statistical thermodynamics, is offered for which knowl-
edge of 324 is useful. Nonmajor graduate credit.

CHEM 331. Organic Chemistry I.
(3-0) Cr. 3. F.S. Prereq: 178 or 201, enrollment in 331L highly recom-
manded
The first half of a two semester sequence. Modern organic chemistry
including nomenclature, synthesis, structure and bonding, reaction
mechanisms. For students majoring in physical and biological sciences,
premed and preveterinary curricula, chemistry and biochemistry.
Students desiring only one semester of organic chemistry should take
231 and 231L, not 331. Nonmajor graduate credit. Only one of Chem 231
and 331 may count toward graduation.

L. Laboratory in Organic Chemistry I

CHEM 331L. Laboratory in Organic Chemistry I.
(0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in 331, 177L
Laboratory to accompany 331. Chemistry and biochemistry majors are
couraged to take 333L. Only one of Chem 231L and 331L may count
toward graduation.

CHEM 332. Organic Chemistry II.
(3-0) Cr. 3. F.S. Prereq: 331, enrollment in 332L highly recommended
Continuation of 331. Modern organic chemistry including nomenclature,
synthesis, structure and bonding, reaction mechanisms, natural prod-
ucts, carbohydrates and proteins. For students majoring in physical and
biological sciences, premedical and preveterinary curricula, chemistry and
biochemistry. Nonmajor graduate credit.

L. Laboratory in Organic Chemistry II

CHEM 332L. Laboratory in Organic Chemistry II.
(0-3) Cr. 1. F.S. Prereq: 331L, credit or enrollment for credit in 332
Laboratory to accompany 332. Chemistry and biochemistry majors are
couraged to take 334L.

CHEM 333L. Laboratory in Organic Chemistry I (for Chem-
istry and Biochemistry Majors).
(0-6) Cr. 2. F. Prereq: Credit or enrollment for credit in 331
Laboratory to accompany 331 for chemistry and biochemistry majors.

CHEM 334L. Laboratory in Organic Chemistry II (for Chem-
istry and Biochemistry Majors).
(0-6) Cr. 2. S. Prereq: 333L, credit or enrollment for credit in 332
Laboratory to accompany 332 for chemistry and biochemistry majors.

CHEM 398. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of the Department cooperative educa-
tion coordinator; junior classification
Required of all cooperative education students. Students must register
for this course prior to commencing each work period.

CHEM 399. Undergraduate Research.
Cr. arr. Prereq: Permission of instructor with whom student proposes to work and junior or senior classification
No more than six total credits of Chem 399 and Chem 499 may count
toward graduation.

CHEM 401L. Inorganic Chemistry Laboratory.
(0-3) Cr. 1. F. Prereq: 301
Preparation and characterization of inorganic and organometallic
compounds by modern techniques. For students majoring in chemistry or
biochemistry. Nonmajor graduate credit.

CHEM 402. Advanced Inorganic Chemistry.
(3-0) Cr. 3. F. Prereq: 301; 331 recommended
Chemistry of the d and f metals. Structure, bonding, electronic spectra,
and reaction mechanisms. Aspects of organometallic solid state and
bioinorganic chemistry. Nonmajor graduate credit.

CHEM 490. Independent Study.
Cr. arr. Prereq: Completion of 6 credits in chemistry at the 300 level or
higher and permission of instructor.
No more than 9 credits of Chem 490 may count toward graduation.

CHEM 498. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of the Department cooperative educa-
tion coordinator; senior classification
Required of all cooperative education students. Students must register
for this course prior to commencing each work period.

CHEM 499. Senior Research.
Cr. 2-3. Repeatable, maximum of 6 credits. Prereq: Permission of
instructor with whom student proposes to work; B average in all chem-
istry, physics, and mathematics courses
Research in chosen area of chemistry, with final written report as senior
thesis. This course should be elected for two consecutive semesters. For
students majoring in chemistry. No more than six total credits for Chem
399 and 499 may count toward graduation.

Courses primarily for graduate students, open to qualified undergraduate students

CHEM 501L. Inorganic Preparations.
(0-3) Cr. 1. F. Prereq: 402
Preparation and characterization of inorganic and organometallic
compounds by modern research techniques.

(3-0) Cr. 3. F. Prereq: 301; 331 recommended
Chemistry of the d and f metals. Structure, bonding, electronic spectra,
and reaction mechanisms. Aspects of organometallic, solid state, and
bioinorganic chemistry.

CHEM 503. Bioinorganic Chemistry.
(Cross-listed with BBMB). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: 402 or
BBMB 405
Essential elements: transport and storage of ions and of oxygen; metal-
loenzymes and metallocoenzymes; electron-transfer processes in respira-
tion and photosynthesis; metabolism of nonmetals and redox processes
involved in it; medicinal aspects of inorganic chemistry.

CHEM 505. Physical Inorganic Chemistry.
(3-0) Cr. 3. S. Prereq: 402 or 502 and 324
Elementary group theory and molecular orbital theory applied to inor-
ganic chemistry. Spectroscopic methods of characterization of inorganic
compounds and organometallic compounds.

CHEM 511. Advanced Quantitative Analysis.
(3-0) Cr. 3. F. Prereq: 316 and 316L
General methods of quantitative inorganic and organic analysis. Aqueous
and nonaqueous titrimey; selective reagents; sampling and sample
dissolution; modern instrumentation; sensors; atomic and molecular
microscopy; bioanalytical methods; data evaluation; chemometrics; and
analytical literature.

CHEM 512. Electrochemical Methods of Analysis.
(3-0) Cr. 3. F. Prereq: 316 and 316L, 324, and 322L
Principles of convective-diffusional mass transport in electroanalysis.
Applications of potentiometry, voltammetry, and coulometry. Introduction
to heterogeneous and homogeneous kinetics in electroanalysis. Analog
and digital circuitry. Interfacing.
CHEM 513. Analytical Molecular and Atomic Spectroscopy.  
(3-0) Cr. 3. S. Prereq: 316 and 316L, 324, 322L  
Introduction to physical optics and design of photometric instruments. Principles of absorption, emission, fluorescence, and Raman spectroscopy. Error and precision of optical methods. Ultraviolet, visible, and infrared methods of qualitative and quantitative organic and inorganic analysis.

CHEM 516. Analytical Separations.  
(3-0) Cr. 3. F. Prereq: 316 and 316L, 324, 322L  
Principles and examples of inorganic and organic separation methods applied to analytical chemistry. Solvent extraction, volatilization, ion exchange, liquid and gas chromatography, and electrophoresis.

CHEM 531. Organic Synthesis I.  
(2-0) Cr. 2. S. Prereq: 332  
Survey of organic functional group transformations.

CHEM 532. Organic Synthesis II.  
(2-0) Cr. 2. F. Prereq: 531  
Synthesis of complex organic compounds including natural products.

CHEM 537. Physical Organic Chemistry I.  
(3-0) Cr. 3. F. Prereq: 332  
Molecular structure, stereochemistry, introduction to reaction mechanisms, thermodynamic and kinetic data, linear free energy relationships, isotope effects, orbital symmetry.

CHEM 538. Physical Organic Chemistry II.  
(3-0) Cr. 3. S. Prereq: 537  
Survey of reactive intermediates including cations, anions, carbenes, and radicals.

CHEM 550. Safety in the Chemical Laboratory.  
(1-0) Cr. 1. S. Prereq: 332L  
Introduction to laboratory safety and chemical hygiene. Use of engineering controls and personal protective equipment. Chemical storage and waste disposal practices. Handling hazardous chemicals. Radiation safety and laser safety. Offered on a satisfactory-fail basis only.

CHEM 555. Teaching College Chemistry.  

(4-0) Cr. 4. F. Prereq: 324  
Schroedinger equation and exact solutions; square wells and barriers; harmonic oscillator; the hydrogen atom; atomic orbitals; operators including angular momenta; time-independent and time-dependent perturbation theory; Schroedinger and Heisenberg representations; unitary operators; interaction picture, density matrix.

(3-0) Cr. 3. S. Prereq: 561, credit or enrollment in 583  
Variational method, many electron atoms; addition of angular momentum, self-consistent field method for open and closed shells, linear combinations of atomic orbitals, origin of chemical bonding, many-electron diatomic and polyatomic molecules, treatments of electron correlation, approximation methods.

(3-0) Cr. 3. S. Prereq: 325  
Microscopic and macroscopic properties, laws of thermodynamics, ensembles and distribution functions, applications to gases, solids, and chemical equilibrium.

CHEM 564. Molecular Spectroscopy and Structure.  
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 505 or 562  
Maxwell's field equations, interaction of light with matter including time-dependent perturbation theory, microwave, vibrational (infra-red, Raman) and electronic spectroscopies, symmetry derived selection rules, special lineshapes and introduction to nonlinear and coherent laser spectroscopies.

CHEM 571. Solid-State Chemistry.  
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: 301, 324  
A study of solid state materials including structures, bonding, defects, disorder, phase transitions, ionic mobility, metal-insulator transitions, band theory, synthesis and intercalation.

(2-3) Cr. 3. F. Prereq: 332  
Principles of infrared, ultraviolet, nuclear magnetic resonance, and mass spectroscopy as applied to organic chemistry.

CHEM 574. Organometallic Chemistry of the Transition Metals.  
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: 301, 332  
Transition metal complexes of ligands such as cyclopentadienyl, olefins, acetylenes, benzenes, and carbon monoxide. Homogeneous catalysis.

CHEM 576. Surface Chemistry.  
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 324  
Gas-surface interactions and techniques of characterization. Idealized surface lattices, surface tension, Wulff plots, working function, adsorbate-adsorbate interactions, 2D phase diagrams, diffusion, thin film growth, adsorption and desorption mechanisms/energetics/kinetics, adsorption isotherms, vacuum techniques, electron- and ion-based spectroscopies for surface analysis (including AES, FIM, XPS, UPS, EXAFS, EELS, SIMS, LEED and STM).

(3-0) Cr. 3. S. Prereq: Permission of instructor  
Basic physics, instrumentation, chemical and biological applications of mass spectrometry.

CHEM 578. Chemical Kinetics and Mechanisms.  
(2-0) Cr. 2. Alt. F., offered 2012. Prereq: 324  
Rates and mechanisms; reversible, consecutive, and competing reactions; chain mechanisms; kinetic isotope effects; very rapid reactions; acid-base catalysis, theories of unimolecular reactions; transition state and Marcus theories.

CHEM 579. Introduction to Research in Chemistry.  
Cr. R. F.  
Introduction to the various areas of research in chemistry at Iowa State University.

CHEM 580. Introduction to Computational Quantum Chemistry.  
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 324  
Basic principles of quantum mechanics, schrodinger equation. Hartree-Fock/molecular orbital theory, introduction to group theory, introduction to modern methods of computational chemistry; applications include molecular structure, potential energy surfaces and their relation to chemical reactions; molecular spectroscopy, photochemistry, solvent effects and surface chemistry.

CHEM 581. Principles of Lasers and Optics.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 324, PHYS 222  
Students with weak background should take CHEM 580. For students working with lasers and optics; stimulated absorption and emission based on the classical electron oscillator model; population inversion, laser amplification; laser pumping; oscillation and cavity modes; laser beam characterization; linear propagation; design of laser resonators, ray and wave optics; nonlinear optics.
CHEM 583. Chemical Group Theory.
(1-0) Cr. 1. F. Prereq: 324
Basic concepts and theorems, representation theory; point groups, molecular orbitals, molecular states, molecular vibrations, rotation group and angular momenta; space groups and crystals; permutation group, antisymmetry, and spin states.

CHEM 599. Nonthesis Research.
Cr. arr. Prereq: Permission of instructor concerned

Courses for graduate students

CHEM 600. Seminar in Inorganic Chemistry.
(1-0) Cr. 1. Repeatable, maximum of 3 times. F.S. Prereq: Permission of instructor

CHEM 601. Selected Topics in Inorganic Chemistry.
(2-0) Cr. 1-2. F.S. Prereq: Permission of instructor
Topics such as molecular structure and bonding; organometallic compounds; physical techniques of structure determination; nonaqueous solutions; Zintl phases; transition-metal oxides; free-radical reactions; electron transfer reactions; metal-metal bonding; and bioinorganic chemistry of nucleic acids.

CHEM 611. Seminar in Analytical Chemistry.
(1-0) Cr. 1. Repeatable. F.S. Prereq: Permission of instructor

CHEM 619. Special Topics in Analytical Chemistry.
(2-0) Cr. 1-2. Repeatable. F.S. Prereq: Permission of instructor
Raman spectroscopy, sensors, spectroelectrochemistry, capillary electrophoresis, analytical plasmas, chemometrics and bioanalytical chemistry.

CHEM 631. Seminar in Organic Chemistry.
(1-0) Cr. 1. Repeatable. F.S. Prereq: Permission of instructor

CHEM 632. Selected Topics in Organic Chemistry.
(2-0) Cr. 1-2. Repeatable. F.S. Prereq: 537
Topics of current interest in organic chemistry such as spectroscopy, physical organic chemistry, photochemistry, organometallic chemistry, mechanisms of oxidations and reductions, modern organic synthesis, reactive intermediates, bioorganic chemistry, and polymers.

CHEM 660. Seminar in Physical Chemistry.
(1-0) Cr. 1. Repeatable. S. Prereq: Permission of instructor

CHEM 667. Special Topics in Physical Chemistry.
(2-0) Cr. 1-2. F.S. Prereq: Permission of instructor
Advanced and recent developments in physical chemistry are selected for each offering.

CHEM 699. Research.
Cr. arr. Repeatable. Prereq: Permission of instructor
Classical Studies

Interdepartmental Undergraduate Program

The Classical Studies program is a cross-disciplinary program in the College of Liberal Arts and Sciences which offers an integrated curriculum of courses in the languages, literatures, history, and thought of ancient Greece and Rome from prehistoric times to the reign of the Emperor Constantine. Complete and current information about the Program may be found on-line at: www.iastate.edu/~classics/

Courses in Classical Studies provide background for students whose major fields of study or career interests include Anthropology, English, World Languages and Cultures, History, Music, Philosophy, Women’s Studies, law, medicine, material culture, political science, the life sciences and related fields. Students who wish to pursue an interdisciplinary major in Classical Studies should consult the Program Chair.

A student who wishes to declare a minor must successfully complete the following requirements:

a) One of the following sequences in ancient language:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>GREEK 101</td>
<td>Elementary Ancient Greek I</td>
</tr>
<tr>
<td>&amp; GREEK 102</td>
<td>and Elementary Ancient Greek II</td>
</tr>
<tr>
<td>LATIN 101</td>
<td>Elementary Latin I</td>
</tr>
<tr>
<td>&amp; LATIN 102</td>
<td>and Elementary Latin II</td>
</tr>
</tbody>
</table>

b) And one of the following courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CL ST 201</td>
<td>Technical Terminologies in the Professions</td>
</tr>
<tr>
<td>CL ST 273</td>
<td>Greek and Roman Mythology</td>
</tr>
<tr>
<td>or CL ST 275</td>
<td>The Ancient City</td>
</tr>
</tbody>
</table>

C) Or one of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>CL ST 201</td>
<td>Technical Terminologies in the Professions</td>
</tr>
<tr>
<td>or LATIN 101</td>
<td>Elementary Latin I</td>
</tr>
<tr>
<td>or GREEK 101</td>
<td>Elementary Ancient Greek I</td>
</tr>
</tbody>
</table>

Three additional courses (nine credits) from the courses listed below (primary or departmental), or as approved by the program committee.

Courses primarily for undergraduate students

CL ST 201. Technical Terminologies in the Professions.
(3-0) Cr. 3. F.S.
Essential vocabulary and concepts in English that are derived from Latin and Ancient Greek. Formation and usage of technical terminology. Cultural influence of the classical languages. Analysis of technical writing.

CL ST 273. Greek and Roman Mythology.
(3-0) Cr. 3. F.S.
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.

Meets International Perspectives Requirement.
H. Honors (4-0) Cr. 4.

CL ST 275. The Ancient City.
(3-0) Cr. 3. F.S.
Examination of ancient urban life, including historical context, physical space, material culture, religion, literature, and art; examination of civic identity (the “polis”). Contrast between the concepts of urban and rural. Examples drawn from specific ancient cities; some attention to modern methods of recovering the conditions of ancient urban life and the fundamental concept of the city in European history.

Meets International Perspectives Requirement.
H. Honors (4-0) Cr. 4.

(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

CL ST 310. Ancient Philosophy.
(Cross-listed with PHIL). (3-0) Cr. 3. F. Prereq: PHIL 201
Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth. Nonmajor graduate credit.

CL ST 350. Rhetorical Traditions.
(Cross-listed with ENGL, SP CM). (3-0) Cr. 3. S. Prereq: ENGL 250
Ideas about the relationship between rhetoric and society in contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

CL ST 353. World Literature: Western Foundations through Renaissance.
(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: ENGL 250
Representative works from the drama, epics, poetry, and prose of the Ancient World through the late sixteenth century. May include Homer, Aeschylus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Christine de Pizan, Cervantes, and others.

Meets International Perspectives Requirement.

CL ST 367. Christianity in the Roman Empire.
(Cross-listed with RELIG). (3-0) Cr. 3.
An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries. Nonmajor graduate credit.

CL ST 372. Greek and Roman Tragedy and Comedy.
(3-0) Cr. 3. S. Prereq: 273 or 275 or one course in Latin or Greek or English 250
Greek and Roman drama from the beginnings until today. Readings in English from authors such as Aeschylus, Sophocles, Euripides, Aristophanes, Menander, Plautus, Terence, Seneca. Course may cover performance, theories of comedy and tragedy, recent and current expressions of the comic and tragic in film and other media.

Meets International Perspectives Requirement.
H. Honors (4-0) Cr. 4.

CL ST 373. Heroes of Greece, Rome, and Today..
(3-0) Cr. 3. F. Prereq: 273 or 275 or one course in Latin or Greek or English 250
Cultural and political significance of ancient epic, especially in Greece and Rome. Course may include study of the heroic code in antiquity and its modern expressions including in film. Readings in English from authors such as Homer and Vergil.

Meets International Perspectives Requirement.
H. Honors (4-0) Cr. 4.
**CL ST 374. Women and Men in the Ancient Mediterranean World.**
(Cross-listed with HIST, W S). (3-0) Cr. 3. S. Prereq: Any one course in Cl St, W S, Latin, or Greek
Chronological and topical survey of the status of women and men, focusing on sex/gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Near East, Egypt, Greece, and Rome.
Meets International Perspectives Requirement.

**CL ST 376. Classical Archaeology.**
(Cross-listed with ANTHR, RELIG). (3-0) Cr. 3. S.
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
A. Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BCE).
B. Archaic through Hellenistic Greece (ca 700-30 BCE).

**CL ST 383. Greek and Roman Art.**
(Cross-listed with ART H, DSN Sl). (3-0) Cr. 3.
Greek art from Neolithic through Hellenistic periods. Roman art from the traditional founding to the end of the empire in the West. Nonmajor graduate credit.
H. Honors (3-4 cr.)

**CL ST 394. The Archaeology of Greece: An Introduction.**
(2-0) Cr. 2. S.
Introduction to the topography, history, archaeology, monuments and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece, preparatory to study abroad in Greece (CL ST 395).
Meets International Perspectives Requirement.

**CL ST 395. Study Abroad: The Archaeology of Greece.**
Cr. 2-6. SS. Prereq: 394
Supervised on-site instruction in the archaeology, monuments, and art of Greece from the Bronze Age through the Ottoman period; attention given to the culture of modern Greece.
Meets International Perspectives Requirement.

**CL ST 402. Greek Civilization.**
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions with a particular emphasis on the writings of Herodotus and Thucydides.

**CL ST 403. Roman Civilization.**
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
Ancient Rome from the Regal Period to the Fall of the Western Empire; evolution of Roman institutions and Rome’s cultural contributions studied through original sources. Nonmajor graduate credit.

**CL ST 404. Roman Social History.**
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
Examines major topics in Roman social history during the late Republic and early Empire such as class, family, slavery, religion and the economy. Nonmajor graduate credit.

**CL ST 430. Western Political Thought: Plato to Machiavelli.**
(Cross-listed with POL Sl). (3-0) Cr. 3. Prereq: 6 credits in political science, philosophy, or European history
Major concepts in original texts of classical, medieval, and renaissance authors: justice, community, man’s basic nature; natural law; force; society outside the political order. Nonmajor graduate credit.

**CL ST 480. Seminar in Classical Studies.**
(3-0) Cr. 3. Prereq: 30 credits in Classical Studies or related courses, permission of Program Chair
Advanced study of a selected topic in Classical Studies. Research paper or project selected by the student.

**CL ST 490. Independent Study.**
Cr. 1-6. Repeatable. Prereq: 7 credits in classical studies at the 200 level or higher; permission of the Program Chair
Designed to meet the needs of students who wish to study specific topics in classical civilization in areas where courses are not offered, or to pursue such study beyond the limits of existing courses.

**Courses for graduate students, major or minor, open to qualified undergraduates**

**CL ST 512A. Proseminar in Ancient European History.**
(Cross-listed with HIST). (3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Readings in European history.
A. Ancient (Same as HIST 512A)

**CL ST 594A. Seminar in Ancient European History.**
(Cross-listed with HIST). (3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Topics vary each time offered.
A. Ancient (Same as HIST 594A)

**Primary Courses (Offered by Other Departments)**

**GREEK 101. Elementary Ancient Greek I.**
(4-0) Cr. 4. F
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical authors.

**GREEK 102. Elementary Ancient Greek II.**
(4-0) Cr. 4. S. Prereq: 101
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical and later authors.
Meets International Perspectives Requirement.

**GREEK 201. Intermediate Classical Greek.**
Cr. arr. F. Prereq: 102
Emphasis on grammatical principles, composition and reading classical or Hellenistic texts.
Meets International Perspectives Requirement.

**GREEK 332. Introduction to Classical Greek Literature.**
Cr. arr. S. Prereq: 201
Readings in ancient Greek Literature with emphasis on critical analysis of style, structure or thought.
Meets International Perspectives Requirement.

**GREEK 441. Advanced Readings in Greek Literature.**
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: 332
Study of individual authors or genres; intensive reading in the original supplemented by modern criticism and analysis in English. Authors and genres will vary; courses may be repeated to a maximum of 6 credits each. Nonmajor graduate credit.
Meets International Perspectives Requirement.
GREEK 442. Advanced Topics in Greek Literature.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: 332
Advanced study of authors or topics relating to Greek literature. Authors
and topics will vary; courses may be repeated to a maximum of 6 credits
each. Nonmajor graduate credit.
Meets International Perspectives Requirement.

GREEK 490. Independent Study.
Cr. 1-6. Repeatable, maximum of 9 credits. Prereq: 6 credits in Greek and
permission of department chair
Designed to meet the needs of students who seek work in areas other
than those in which courses are offered, or who desire to integrate a
study of literature or language with special problems in major fields. No
more than 9 credits of Greek 490 may be counted toward graduation.

HIST 280. Introduction to History of Science I.
(3-0) Cr. 3. F.
Ideas of nature from ancient Greece to the seventeenth-century scientific
revolution.
Meets International Perspectives Requirement.

LATIN 101. Elementary Latin I.
(4-0) Cr. 4. F.
Grammar and vocabulary of classical Latin, within the context of Roman
culture; reading knowledge through texts adapted from classical authors.

LATIN 102. Elementary Latin II.
(4-0) Cr. 4. S. Prereq: 101
Grammar and vocabulary of classical Latin, within the context of Roman
culture; reading knowledge through texts adapted from classical authors.
Meets International Perspectives Requirement.

LATIN 201. Intermediate Latin.
Cr. arr. F. Prereq: 102
Emphasis on grammatical principles, composition and reading Latin texts.
Meets International Perspectives Requirement.

LATIN 332. Introduction to Latin Literature.
Cr. arr. S. Prereq: 201
Readings in Latin Literature with emphasis on critical analysis of style,
structure or thought.
Meets International Perspectives Requirement.

LATIN 441. Advanced Readings in Latin Literature.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: 332
Study of individual authors or genres; intensive readings in the original
supplemented by modern criticism and analysis in English. Authors and
genres will vary; courses may be repeated to a maximum of 6 credits
each. Nonmajor graduate credit.
Meets International Perspectives Requirement.

LATIN 442. Advanced Topics in Latin Literature.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: 332
Advanced study of authors or topics relating to Latin literature. Authors
and topics will vary; courses may be repeated to a maximum of 6 credits
each. Nonmajor graduate credit.
Meets International Perspectives Requirement.

LATIN 490. Independent Study.
Cr. 1-6. Repeatable, maximum of 9 credits. Prereq: 6 credits in Latin and
permission of department chair
Designed to meet the needs of students who seek work in areas other
than those in which courses are offered, or who desire to integrate a
study of literature or language with special problems in major fields. No
more than 9 credits in Latin 490 may be counted toward graduation.
The Communication Studies Major

The communication studies major prepares students for careers in business and industry and graduate education. Students majoring in ComSt will find their career opportunities enhanced in professions requiring applied communication expertise, e.g., human resource management, personnel, public relations, training and development, event planning, sales, management, organizational development, business communication, law, and international and intercultural relations.

ComSt majors master a focused course of inquiry into the contemporary study of human communication. The ComSt major provides this focus through emphasis in applied communication theory and research in interpersonal, small group, organizational, and intercultural communication.

ComSt majors must earn at least 120.5 credits, with 45 credits at the 300-400 levels, and a minimum of 33 credits in ComSt.

Communication Proficiency Requirement:
To meet the University’s Communication Proficiency requirement students are required to take:

ENGL 150  Critical Thinking and Communication  3
ENGL 250  Written, Oral, Visual, and Electronic Composition  3
or ENGL 250H  Written, Oral, Visual, and Electronic Composition, Honors  3
One of the following:  3
ENGL 302  Business Communication  
ENGL 309  Report and Proposal Writing  
ENGL 314  Technical Communication  
ENGL 415  Business and Technical Editing  

An average of C- is required in ENGL 150 Critical Thinking and Communication, ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors), and this additional writing course.

</table>

Credits in COMST 305 Language, Thought and Action or COMST 323 Gender and Communication may not be applied toward the minor. Students must earn a grade of C or better in all courses taken for the minor.

Courses primarily for undergraduate students

COMST 101. Introduction to Communication Studies.
(3-0) Cr. 3.
An introduction to communication theory, the development and functions of communication, and a survey of interpersonal, small group, organizational, and intercultural communication.

COMST 102. Introduction to Interpersonal Communication.
(3-0) Cr. 3.
Application of communication principles, theory, and research to the process of interpersonal communication; includes verbal, nonverbal, listening, conflict management, and communication skills most relevant to a broad range of interpersonal settings.

COMST 203. Introduction to Communication Research Methods.
(3-0) Cr. 3.
An introduction to analyzing and conducting communication research. Provides an overview of quantitative and qualitative approaches to communication research.

COMST 214. Professional Communication.
(3-0) Cr. 3.
Communication theory and skill development in organizational settings. Emphasis on: interpersonal skill development, team and meeting facilitation, informational interviewing, and team presentations and self-assessment.

COMST 218. Conflict Management.
(3-0) Cr. 3.
Exploration of communication theories, principles and methods associated with effective conflict management.

COMST 301. Human Communication Theory.
(3-0) Cr. 3. Prereq: 101
Examination of the major theories related to human communication; with particular emphasis on theories underlying interpersonal, small group, organizational, and intercultural communication.

COMST 305. Language, Thought and Action.
(Cross-listed with SP CM, LING). (3-0) Cr. 3. Prereq: ENGL 250
The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action. Nonmajor graduate credit.

Communication Studies
COMST 310. Intercultural Communication.  
(3-0) Cr. 3. Prereq: 101, 102, 203, 301  
Examines the theories, principles and research on intercultural communication to enhance cultural sensitivity and to recognize, accept, and adapt to cultural diversity. Interactive assignments.  

Meets International Perspectives Requirement.

COMST 311. Relational Communication.  
(3-0) Cr. 3. Prereq: 101, 102, 203, 301  
A study of contemporary interpersonal communication theories and research. Emphasis on relational development research including initiation, maintenance, conflict management, and dissolution.

COMST 314. Organizational Communication.  
(3-0) Cr. 3. Prereq: 101, 102, 203, 301  
Theory and research in organizational communication; strategies for assessing and improving individual and organizational communication effectiveness; an understanding of how organizational meaning is created and sustained through human communication.

COMST 317. Small Group Communication.  
(3-0) Cr. 3. Prereq: 101, 102, 203, 301  
Theory and research in small group communication; application to group decision-making and leadership. Includes communication analyses of groups and teams.

COMST 319. Communication Training and Development.  
(3-0) Cr. 3. Prereq: 101, 102, 203, 301  
Theories and approaches to communication training and development; includes adult learning theory. Emphasis on the design, presentation and assessment of communication skills in organizational contexts.

COMST 323. Gender and Communication.  
(Cross-listed with SP CM, W S). (3-0) Cr. 3. F.  
Examines how understanding and enactment of gender identities is shaped by communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Nonmajor graduate credit.

Meets U.S. Diversity Requirement

COMST 325. Nonverbal Communication.  
(Cross-listed with SP CM). (3-0) Cr. 3. Prereq: COMST 101, 102, 203, 301  
Approaches to studying nonverbal communication; nonverbal functions and aspects of social interaction such as space, body language, touch, and gaze.

(3-0) Cr. 3. Prereq: 101, 102, 203, 301  
Theories and approaches related to mediated communication in interpersonal and organizational settings. Focus on how new technology will impact human interaction with computers as well as between and among humans.

COMST 404. Research Seminar.  
(Dual-listed with 504). (3-0) Cr. 3. Repeatable, maximum of 9 credits.  
Prereq: 301 plus 9 additional hours of 300 level ComSt courses  
Students collect and synthesize theory and research on a communication question or topic of interest to them, then develop and conduct a research study resulting in a research report and presentation.

COMST 490. Independent Study.  
Cr. 1-3. Repeatable, maximum of 6 credits.  
Prereq: 9 credits in communication studies and junior classification  
Application must be submitted for approval the semester prior to the independent study.

COMST 499. Professional Internship.  
Cr. 1-3. Repeatable, maximum of 6 credits.  
Four hundred hours of on-site work is required for 3 hours credit. Registration by application only. Application must be submitted to Communication Studies faculty adviser for approval the semester prior to the internship.

Courses primarily for graduate students, open to qualified undergraduate students

COMST 504. Seminar in Communication Studies.  
(Dual-listed with 404). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.  
Prereq: Graduate standing and permission of instructor  
Students collect and synthesize theory and research on a communication question or topic of interest to them, then develop and conduct a research study resulting in a research report and presentation.

COMST 590. Special Topics.  
Cr. 1-4. Repeatable.  
Application must be submitted for approval the semester prior to the independent study.
Undergraduate Study

The curriculum leading to the baccalaureate degree in computer science is designed to prepare students for positions as computer scientists with business, industry, or government, or for graduate study in computer science. The main objectives are to impart to students an understanding of the basics of computer science, to develop proficiency in the practice of computing, and to prepare them for continued professional development.

The following are intended learning outcomes for computer science majors. Seniors will assess these outcomes in a survey conducted before they graduate and feedback thus obtained will be used to improve the curriculum.

A. Impart an understanding of the basics of the discipline. Each graduate will know:
1. Fundamental principles of computing.
2. Basic foundations of Mathematics, Statistics, and physical sciences.
3. Design and implementation of programs.

B. Develop proficiency in the practice of computing. The graduated student will be able to:
1. Formulate and solve problems in computing.
2. Understand design and performance requirements of software systems.
3. Apply sound principles to the synthesis and analysis of computer systems.

C. Prepare for continued professional development. Our students will:
1. Engage in lifelong learning and expect to embrace change.
2. Communicate effectively and think critically and creatively, both independently and with others.
3. Be aware of social and ethical issues of computers in society.

Students must earn at least a C- in each course taken to fulfill the Degree Program.

Students must take at least 45 credits at the 300 level or higher at Iowa State University.

To complete an undergraduate degree in Computer Science, a student must satisfy the requirements of the College of Liberal Arts and Sciences (see Liberal Arts and Sciences, Curriculum) and include the following courses within the group requirements:

<table>

</tbody>
</table>

The minimum grade accepted in each of the three required English courses is a C-.

Students wishing to pursue the B.S. degree in computer science must first successfully complete the premajor program consisting of the following courses and minimum grade requirements:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 165</td>
<td>Calculus I</td>
<td>4</td>
</tr>
</tbody>
</table>

Students majoring in computer science must successfully complete this premajor program prior to taking any other courses in the Department. Thus, for computer science majors, this premajor serves as a necessary prerequisite to all the other courses offered by the Department.

Computer science majors transferring from other institutions must take at least 15 of their credits at the 300-level or above in our department while in residence at Iowa State.

To graduate with a major in the Computer Science Department, a student must earn at least a C- in each of the courses taken to fulfill the program of study.

A minimum of 44 credits is required for the B.S. degree in computer science. The required courses are:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>COM S 101</td>

</tr>
</tbody>
</table>
In addition, two advanced-level courses must be selected from the following groups:

Group W:

- COM S 426 Introduction to Parallel Algorithms and Programming 4
- COM S 440 Principles and Practice of Compiling 3
- COM S 454 Distributed and Network Operating Systems 3
- COM S 477 Problem Solving Techniques for Applied Computer Science 3
- COM S 486 Fundamental Concepts in Computer Networking 3

Group B:

- COM S 401 Projects in Computing and Business Applications 3
- COM S 409 Software Requirements Engineering 3
- CPR E 416 Software Evolution and Maintenance 3
  or S E 416 Software Evolution and Maintenance 3
- COM S 417 Software Testing 3
- COM S 425 High Performance Computing for Scientific and Engineering Applications 3
- COM S 430 Advanced Programming Tools 3
- COM S 455 Simulation: Algorithms and Implementation 3
- COM S 461 Principles and Internals of Database Systems 3
- COM S 472 Principles of Artificial Intelligence 3
- COM S 474 Elements of Neural Computation 3

Group N:

- COM S 412 Formal Aspects of Specification and Verification 3
- COM S 418 Introduction to Computational Geometry 3
- MATH 421 Logic for Mathematics and Computer Science 3
- MATH 481 Numerical Methods for Differential Equations and Interpolation 3
- MATH 426 Mathematical Methods for the Physical Sciences 3
- CPR E 489 Computer Networking and Data Communications 4
- M E 557 Computer Graphics and Geometric Modeling 3

Courses in Group W require written reports and those in Group B require both oral and written reports. Students must take one course from Group B and one course from any group.

Students must earn a C- or better in each course in the department which is a prerequisite to a course listed in the student's degree program.

Undergraduate Minor. The Computer Science Department offers an undergraduate minor in Computer Science. The minor requires at least 19 credits in computer science courses.

- COM S 227 Introduction to Object-oriented Programming 4
- COM S 228 Introduction to Data Structures 3
- COM S 229 Advanced Programming Techniques 3
- 9 credits in courses 300 level or above 9

Undergraduate Curriculum in Software Engineering

The Department of Computer Science together with the Department of Electrical and Computer Engineering also offer a curriculum leading to an undergraduate degree in software engineering. The software engineering curriculum offers emphasis areas in software engineering principles, process, and practice. Students may also take elective courses in computer engineering and computer science.

See Index, Software Engineering. For curriculum information, see also College of Engineering and College of Liberal Arts and Sciences.

Graduate Study

The department offers work for the degrees Master of Science and Doctor of Philosophy with a major in Computer Science. The Doctor of Philosophy degree may also be earned with computer science as a co-major with some other discipline. Additionally, the department offers a minor to students majoring in other departments.

Established research areas include algorithms, artificial intelligence, computational complexity, computer architecture, bioinformatics, computational biology, computer networks, database systems, formal methods, information assurance, machine learning and neural networks, multimedia, operating systems, parallel and distributed computing, programming languages, robotics, and software engineering. There are also numerous opportunities for interdisciplinary research.

Typically, students beginning graduate work in Computer Science have completed a bachelor’s degree or equivalent in Computer Science. However, some students with undergraduate majors in other areas, such as Mathematical, physical, or biological science or engineering become successful graduate students in Computer Science.

For the degree Master of Science, a minimum of 30 semester credits is required. A thesis demonstrating research and the ability to organize and express significant ideas in computer science is required.

The purpose of the doctoral program is to train students to do original research in Computer Science. Each student is also required to attain knowledge and proficiency commensurate with a leadership role in the field. The Ph.D. requirements are governed by the student’s program of study committee within established guidelines of the department and the graduate college. They include coursework, demonstrated proficiency in four areas of Computer Science, a research skills requirement, a preliminary examination, and a doctoral dissertation and final oral examination.

The department recommends that all graduate students majoring in Computer Science teach as part of their training for an advanced degree.

Courses primarily for undergraduate students

COM S 101. Orientation.
Cr. R. FS.
Introduction to the procedures and policies of Iowa State University and the Department of Computer Science, test-outs, honorary societies, etc. Issues relevant to student adjustment to college life will also be discussed. Offered on a satisfactory-fail basis only.

COM S 103. Computer Applications.
Cr. 4. FS.SS.
Introduction to computer literacy and applications. Applications: Windows, Internet browser/HTML, word processing, spreadsheets, database management and presentation software. Literacy: history of computing, structure of computers, telecommunications, computer ethics, computer crime, and history of programming languages. No prior computer experience necessary. Course is offered online only. Students must attend an orientation session the first week of class.

COM S 104. Introduction to Computers.
(1.5-1) Cr. 2. FS.
Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.
(3-0) Cr. 3. F.S.
Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

COM S 201. Computer Programming in COBOL.
(3-0) Cr. 3. SS. Prereq: 107 or 207 or 227
Computer programming in COBOL. Emphasis on the design, writing, debugging, and testing of business applications programs in a transaction-oriented environment.

COM S 203. Careers in Computer Science.
Cr. R. F.S.
Computer science as a profession. Introduction to career fields open to computer science majors. Relationship of coursework to careers. Presentations by computer science professionals. Offered on a satisfactory-fail basis only.

(Cross-listed with MIS). (3-1) Cr. 3. F.S. Prereq: MATH 150 or placement into MATH 140/141/142 or higher
An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. Exceptions/error-handling. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both Com S 207/ MIS 207 and Com S 227.

(3-1) Cr. 3. S. Prereq: MIS/COM S 207, credit or enrollment in MATH 151, 160, or 165
Intermediate-level programming techniques. Emphasis on designing, writing, testing, debugging, and documenting medium-sized programs. Data structures and their uses. Dynamic memory usage. Inheritance and polymorphism. Algorithm design and efficiency: recursion, searching, and sorting. Event-driven and GUI programming. The software development process. This course is not designed for computer science, software engineering and computer engineering majors. Credit may not be applied toward the major in computer science, software engineering, or computer engineering.

COM S 227. Introduction to Object-oriented Programming.
(3-2) Cr. 4. F.S.
An introduction to object-oriented design and programming techniques. Symbolic and numerical computation. Recursion and iteration. Modularity procedural and data abstraction, specifications and subtyping. Object-oriented techniques. Imperative programming. Emphasis on principles of programming and object-oriented design through extensive practice in design, writing, running, debugging, and reasoning about programs. This course is designed for majors. Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228. Introduction to Data Structures.
(3-1) Cr. 3. F.S. Prereq: C- or better in 227, credit or enrollment in MATH 165
An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism. Abstract data type specification and correctness. Collections and associated algorithms, such as stacks, queues, lists, trees. Searching and sorting algorithms. Graphs. Data on secondary storage. Analysis of algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

(3-0) Cr. 3. F.S. Prereq: 228, credit or enrollment in MATH 166
Object-oriented programming experience using a language suitable for exploring advanced topics in programming. Topics include memory management, parameter passing, inheritance, compiling, debugging, and maintaining programs. Significant programming projects.
COM S 342. Principles of Programming Languages. 
(3-1) Cr. 3. F.S. Prereq: 321; 330 or CPR E 310; either 309, 362 or 363; ENGL 250
Organization of programming languages emphasizing language design concepts and semantics. Study of language features and major programming paradigms, especially functional programming. Programming projects. Nonmajor graduate credit.

(Cross-listed with MATH). (3-0) Cr. 3. S. Prereq: MATH 166
Divisibility, integer representations, primes and divisors, linear diophantine equations, congruences, and multiplicative functions. Applications to cryptography. Nonmajor graduate credit.

COM S 352. Introduction to Operating Systems. 
(3-1) Cr. 3. F.S. Prereq: 229, and 321; ENGL 250
Survey of operating system issues. Introduction to hardware and software components including: processors, peripherals, interrupts, management of processes, threads and memory, deadlocks, file systems, protection, virtual machines and system organization, and introduction to distributed operating systems. Programming projects. Nonmajor graduate credit.

COM S 362. Object-Oriented Analysis and Design. 
(3-0) Cr. 3. F.S. Prereq: 228 with C- or better, ENGL 250
Object-oriented requirements analysis and systems design. Design notations such as the Unified Modeling Language. Design Patterns. Group design and programming with large programming projects. Nonmajor graduate credit.

COM S 363. Introduction to Database Management Systems. 
(3-0) Cr. 3. F.S. Prereq: 228 with C- or better, ENGL 250

COM S 398. Cooperative Education. 
Cr. R. Prereq: Permission of department chair
Required of all cooperative students. Students must register for this course prior to commencing each work period.

(2-2) Cr. 3. F. Prereq: ENGL 250, SP CM 212, COM S 309, and either 362 or 363
Applications of software development methods (requirements collection and analysis, software design, project management, documentation and testing), programming techniques, database designs and administration, network application programming to solve computing needs in business settings. A study of practical applications of emerging technologies in computing. Emphasis on semester-long team programming projects. Lab assignments. Oral and written reports. Nonmajor graduate credit.

COM S 409. Software Requirements Engineering. 
(Dual-listed with 509). (Cross-listed with S E). (3-0) Cr. 3. F. Prereq: COM S 309, ENGL 250, SP CM 212
The requirements engineering process, including identification of stakeholders, requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required. Nonmajor graduate credit.

(Cross-listed with CPR E, S E). (3-0) Cr. 3. Prereq: COM S 309, 319
Introduction to prepositional/predicate/temporal logic, program verification using theorem proving, model-based verification using model checking, and tools for verification. Nonmajor graduate credit.

(Cross-listed with S E); (3-0) Cr. 3. S. Prereq: COM S 308, 319, ENGL 250, SP CM 212
Comprehensive study of software testing, principles, methodologies, management strategies and techniques. Test models, test design techniques (black box and white-box testing techniques), integration, regression, system testing methods, and software testing tools. Nonmajor graduate credit.

COM S 418. Introduction to Computational Geometry. 
(Dual-listed with 518). (3-0) Cr. 3. Alt. S. offered 2013. Prereq: 311 or permission of instructor
Introduction to data structures, algorithms, and analysis techniques for computational problems that involve geometry. Line segment intersection, polygon triangulation, 2D linear programming, range queries, point location, arrangements and duality, Voronoi diagrams and Delaunay triangulation, convex hulls, robot motion planning, visibility graphs. Other selected topics. Programming assignments. Nonmajor graduate credit.

(Cross-listed with MATH), (3-0) Cr. 3. S. Prereq: MATH 301 or 307 or 317 or COM S 330
Propositional and predicate logic. Topics selected from Horn logic, equational logic, resolution and unification, foundations of logic programming, reasoning about programs, program specification and verification, model checking and binary decision diagrams. Nonmajor graduate credit.

(Cross-listed with CPR E), (3-1) Cr. 3. S. Prereq: 311, 330, ENGL 250, SP CM 212
Introduction to high performance computing platforms including parallel computers and workstation clusters. Discussion of parallel architectures, performance, programming models, and software development issues. Sample applications from science and engineering. Practical issues in high performance computing will be emphasized via a number of programming projects using a variety of programming models and case studies. Oral and written reports. Nonmajor graduate credit.

(Dual-listed with 526). (Cross-listed with CPR E). (3-2) Cr. 4. F. Prereq: CPR E 308 or COM S 321, COM S 311
Models of parallel computation, performance measures, basic parallel constructs and communication primitives, parallel programming using MPI, parallel algorithms for selected problems including sorting, matrix, tree and graph problems, fast Fourier transforms. Nonmajor graduate credit.

(3-1) Cr. 3. F. Prereq: 311, 362 or 363, ENGL 250, SP CM 212
Topics in advanced programming techniques and tools widely used by industry (e.g., event-driven programming and graphical user interfaces, standard libraries, client/server architectures and techniques for distributed applications). Emphasis on programming projects in a modern integrated development environment. Oral and written reports. Nonmajor graduate credit.
COM S 433. Computational Models of Nanoscale Self-Assembly.
(Dual-listed with 533). (3-0) Cr. 3. S. Prereq: C- or higher in 331 or consent of the instructor
Modeling and analysis of natural and engineered systems that spontaneously assemble themselves from small components. Topics include biomolecular self-assembly, tile assembly models, computation via self-assembly, distributed folding, origami models, and self-repair. Emphasis on mathematical methods of describing, simulating, programming, and verifying the behaviors of self-assembling systems. Graduate credit requires a written or oral report on current research. Nonmajor graduate credit.

(Dual-listed with 540). (3-1) Cr. 3. Alt. S., offered 2013. Prereq: 331, 342, ENGL 250, SP CM 212
Theory of compiling and implementation issues of programming languages. Programming projects leading to the construction of a compiler. Projects with different difficulty levels will be given for 440 and 540. Topics: lexical, syntax and semantic analyses, syntax-directed translation, runtime environment and library support. Written reports. Nonmajor graduate credit.

COM S 444. Introduction to Bioinformatics.
(Dual-listed with 544). (Cross-listed with BCB, BIOL, BCBBIO, CPR E, GEN). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology. Nonmajor graduate credit.

(Dual-listed with 554). (Cross-listed with CPR E). (3-1) Cr. 3. Alt. S., offered 2013. Prereq: 311, 352, ENGL 250, SP CM 212
Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, interprocess communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports. Nonmajor graduate credit.

(Dual-listed with 555). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 311 and 330, STAT 330, ENGL 150, SP CM 212
Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports. Nonmajor graduate credit.

(Dual-listed with 561). (3-1) Cr. 3. F. Prereq: 311, ENGL 250, SP CM 212 and COM S 363

COM S 471. Computational Linear Algebra and Fixed Point Iteration.
(Cross-listed with MATH). (3-0) Cr. 3. Alt. F., offered 2011.S. Prereq: MATH 265 and either MATH 266, or 267; knowledge of a programming language
Computational error, solutions of linear systems, least squares, similarity methods for eigenvalues, solution of nonlinear equations in one and several variables. Nonmajor graduate credit.

(Dual-listed with 572). (3-1) Cr. 3. F. Prereq: 311, 330 or CPR E 310, STAT 330, ENGL 250, SP CM 212, COM S 342 or comparable programming experience
Specification, design, implementation, and selected applications of intelligent software agents and multi-agent systems. Computational models of intelligent behavior, including problem solving, knowledge representation, reasoning, planning, decision making, learning, perception, action, communication and interaction. Reactive, deliberative, rational, adaptive, learning and communicative agents and multiagent systems. Artificial intelligence programming. Graduate credit requires a research project and a written report. Oral and written reports. Nonmajor graduate credit.

COM S 474. Elements of Neural Computation.
(3-1) Cr. 3. Alt. F., offered 2012. Prereq: 311, 330 or CPR E 310, STAT 330, MATH 165, ENGL 250, SP CM 212, COM S 342 or comparable programming experience
Introduction to theory and applications of neural computation and computational neuroscience. Computational models of neurons and networks of neurons. Neural architectures for associative memory, knowledge representation, inference, pattern classification, function approximation, stochastic search, decision making, and behavior. Neural architectures and algorithms for learning including perceptions, support vector machines, kernel methods, bayesian learning, instance based learning, reinforcement learning, unsupervised learning, and related techniques. Applications in Artificial Intelligence and cognitive and neural modeling. Hands-on experience is emphasized through the use of simulation tools and laboratory projects. Oral and written reports. Nonmajor graduate credit.

(Dual-listed with 577). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 228, 330 or CPR E 310, MATH 166, MATH 307 or MATH 317 or consent of the instructor
Selected topics in applied mathematics and modern heuristics that have found applications in areas such as geometric modeling, graphics, robotics, vision, human machine interface, speech recognition, computer animation, etc. Polynomial interpolation, roots of polynomials, resultants, solution of linear and nonlinear equations, approximation, data fitting, fast Fourier transform, linear programming, nonlinear optimization, Lagrange multipliers, genetic algorithms, integration of ODES, curves, curvature, Frenet Formulas, cubic splines, and Bezier curves. Programming components. Written report for graduate credit. Nonmajor graduate credit.

(Cross-listed with MATH). (3-0) Cr. 3. S. Prereq: MATH 265 and either MATH 266 or 267; knowledge of a programming language
(3-0) Cr. 3. S. Prereq: 352
An introduction to fundamental concepts in the design and implementa-
tion of computer communication in both the wired and wireless
networks, their protocols, and applications. Layered network architecture
in the Internet, applications, transport, Socket APIs, network, and data
link layers and their protocols, multimedia networking, and network secu-
rity. Nonmajor graduate credit.

COM S 490. Independent Study.
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in
computer science, permission of instructor
Offered on a satisfactory-fail basis only. No more than 9 credits of Com S
490 may be counted toward graduation.

H. Honors

Courses primarily for graduate students,
open to qualified undergraduate students

(Cross-listed with CAS). (1-0) Cr. 1. F.S. Prereq: Admissions to CAS minor
Understanding core techniques in artificial life are based on basic read-
ings in complex adaptive systems. Understand techniques of complex
system analysis methods including: Evolutionary computation, Neural
nets, Agent based simulations (Agent based Computational Economics).
Large-scale simulations are to be emphasized, e.g. power grids, whole
ecosystems.

COM S 503. Complex Adaptive Systems Concepts and Tech-
niques.
(Cross-listed with CAS). (3-0) Cr. 3. S. Prereq: Admission to CAS minor or
related field
Survey of complex systems and their analysis. Examples are drawn from
engineering, computer science, biology, economics and physics.

COM S 509. Software Requirements Engineering.
(Dual-listed with 409). (3-0) Cr. 3. F. Prereq: 309
The requirements engineering process including identification of stake-
holders requirements elicitation techniques such as interviews and proto-
typing, analysis fundamentals, requirements specification, and validation.
Use of Models: State-oriented, Function-oriented, and Object-oriented.
Documentation for Software Requirements. Informal, semi-formal, and
formal representations. Structural, informational, and behavioral require-
ments. Non-functional requirements. Use of requirements repositories to
manage and track requirements through the life cycle. Case studies, soft-
ware projects, written reports, and oral presentations will be required.

(Cross-listed with CPR E). (3-0) Cr. 3. F. Prereq: COM S 311
A study of basic algorithm design and analysis techniques. Advanced data
structures, amortized analysis and randomized algorithms. Applications
to sorting, graphs, and geometry. NP-completeness and approximation algo-
rithms.

(3-0) Cr. 3. S. Prereq: 311, 330
A study of formal techniques for specification and verification of software
systems. Topics include temporal logic, propositional and predicate logic,
model checking, process algebra, theorem proving. Tools providing auto-
mated support for these techniques will also be discussed.

(3-0) Cr. 3. F. Prereq: 309 or 311, 342
An introduction to the analysis, design, and testing of software for safety-
critical and high-integrity systems. Analysis techniques, formal verifica-
tion, fault identification and recovery, model checking, and certification
issues. Emphasizes a case-based and systematic approach to software’s
role in safe systems.

COM S 518. Introduction to Computational Geometry.
(Dual-listed with 418). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 311 or
permission of instructor
Introduction to data structures, algorithms, and analysis techniques for
classical problems that involve geometry. Line segment intersect-
ion, polygon triangulation, 2D linear programming, range queries, point
location, arrangements and duality, Voronoi diagrams and Delaunay trian-
gulation, convex hulls, robot motion planning, visibility graphs. Other
selected topics. Programming assignments. A scholarly report must be
submitted for graduate credit.

COM S 525. Numerical Analysis of High Performance
Computing.
(Cross-listed with CPR E, MATH). (3-0) Cr. 3. Alt. S., offered 2013. Prereq:
CPR E 308, or one of Math 471, 481; experience in scientific program-
ing; knowledge of FORTRAN or C
Development, analysis, and testing of efficient numerical methods for
use on current state-of-the-art high performance computers. Applications
of the methods to the students’ areas of research.

COM S 526. Introduction to Parallel Algorithms and
Programming.
(Dual-listed with 426). (Cross-listed with CPR E). (3-2) Cr. 4. F. Prereq:
CPR E 308 or COM S 321, COM S 311
Models of parallel computation, performance measures, basic parallel
constructs and communication primitives, parallel programming using
MPI, parallel algorithms for selected problems including sorting, matrix,
tree and graph problems, fast Fourier transforms.

(3-0) Cr. 3. S. Prereq: 331
A systematic study of the fundamental models and analytical methods of
theoretical computer science. Computability, the Church-Turing thesis,
decidable and undecidable problems, and the elements of recursive func-
tion theory. Time complexity, logic, Boolean circuits, and NP-complete-
ness. Role of randomness in computation.

COM S 533. Computational Models of Nanoscale Self-
Assembly.
(Dual-listed with 433). (3-0) Cr. 3. S. Prereq: C- or higher in 331 or consent
of the instructor
Modeling and analysis of natural and engineered systems that sponta-
neously assemble themselves from small components. Topics include
biomolecular self-assembly, tile assembly models, computation via self-
assembly, distributed folding, origami models, and self-repair. Emphasis
on mathematical methods of describing, simulating, programming, and
verifying the behaviors of self-assembling systems. Graduate credit
requires a written or oral report on current research.

COM S 540. Principles and Practice of Compiling.
(Dual-listed with 440). (3-1) Cr. 3. Alt. S., offered 2013. Prereq: 331, 342,
ENGL 250, SP CM 212
Theory of compiling and implementation issues of programming
languages. Programming projects leading to the construction of a
compiler. Projects with different difficulty levels will be given for 440 and
540. Topics: lexical, syntax and semantic analyses, syntax-directed trans-
lation, runtime environment and library support. Written reports.

COM S 541. Programming Languages.
(3-1) Cr. 3. F. Prereq: 342 or 440
Survey of the goals and problems of language design. Formal and
informal studies of a wide variety of programming language features
including type systems. Creative use of functional and declarative
programming paradigms.
COM S 544. Introduction to Bioinformatics.
(Dual-listed with 444). (Cross-listed with BCB, CPR E, GDCBI). (4-0) Cr. 4.
(Prereq: MATH 165 or STAT 401 or equivalent)
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative and functional genomics, systems biology.

(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered 2012. (Prereq: 311 and either 228 or 208)
Design and analysis of algorithms for applications in computational biology, pairwise and multiple sequence alignments, approximation algorithms, string algorithms including in-depth coverage of suffix trees, semi-numerical string algorithms, algorithms for selected problems in fragment assembly, phylogenetic trees and protein folding. No background in biology is assumed. Also useful as an advanced algorithms course in string processing.

(3-0) Cr. 3. Alt. F., offered 2011. (Prereq: COM S 311 and some knowledge of programming)
Discussion and analysis of basic evolutionary principles and the necessary knowledge in computational biology to solve real world problems. Topics include character and distance based methods, phylogenetic tree distances, and consensus methods, and approaches to extract the necessary information from sequence-databases to build phylogenetic trees.

COM S 551. Computational Techniques for Genome Assembly and Analysis.
(3-0) Cr. 3. Alt. F., offered 2011. (Prereq: COM S 311 and some knowledge of programming)
Huang. Introduction to practical sequence assembly and comparison techniques. Topics include global alignment, local alignment, overlapping alignment, banded alignment, linear-space alignment, word hashing, DNA-protein alignment, DNA-cDNA alignment, comparison of two sets of sequences, construction of contigs, and generation of consensus sequences. Focus on development of sequence assembly and comparison programs.

(3-0) Cr. 3. Alt. S., offered 2012. (Prereq: 352)
A comparative study of high-level language facilities for process synchronization and communication. Formal analysis of deadlock, concurrency control and recovery. Protection issues including capability-based systems, access and flow control, encryption, and authentication. Additional topics chosen from distributed operating systems, soft real-time operating systems, and advanced security issues.

(Dual-listed with 454). (Cross-listed with CPR E). (3-1) Cr. 3. Alt. S., offered 2013. (Prereq: 311, 352)
Laboratory course dealing with practical issues of design and implementation of distributed and network operating systems and distributed computing environments (DCE). The client server paradigm, inter-process communications, layered communication protocols, synchronization and concurrency control, and distributed file systems. Graduate credit requires additional in-depth study of advanced operating systems. Written reports.

(Dual-listed with 455). (3-0) Cr. 3. Alt. F., offered 2012. (Prereq: COM S 311 and 330, STAT 330)
Introduction to discrete-event simulation with a focus on computer science applications, including performance evaluation of networks and distributed systems. Overview of algorithms and data structures necessary to implement simulation software. Discrete and continuous stochastic models, random number generation, elementary statistics, simulation of queuing and inventory systems, Monte Carlo simulation, point and interval parameter estimation. Graduate credit requires additional in-depth study of concepts. Oral and written reports.

(3-0) Cr. 3. Alt. S., offered 2013. (Prereq: COM S 331, MATH 307, and STAT 330)
Introduction to the use of stochastic models to study complex systems, including network communication and distributed systems. Data structures and algorithms for analyzing discrete-state models expressed in high-level formalisms. State space and reachability graph construction, model checking, Markov chain construction and numerical solution, computation of performance measures, product-form models, approximations, and advanced techniques.

(Cross-listed with MSE, CPR E). (3-0) Cr. 3. F/S.
(Prereq: 421, programming experience in C)

COM S 558. Introduction to the 3D Visualization of Scientific Data.
(Cross-listed with GEOL, HCL). (2-2) Cr. 3. Alt. S., offered 2013. (Prereq: Graduate-student standing in the mathematical or natural sciences)
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

(Dual-listed with 461). (3-1) Cr. 3. F.
(Prereq: Graduate classification)

(3-0) Cr. 3. F. (Prereq: 461 or 561)
Implementation topics and projects are chosen from the following: Storage architecture, buffer management and caching, access methods, design, parsing and compilation of query languages and update operations, application programming interfaces (APIs), user interfaces, query optimization and processing, and transaction management for relational, object-oriented, semistructured (XML), and special purpose database models; client-server architectures, metadata and middleware for database integration, web databases.

(Cross-listed with BCB, CPR E). (3-0) Cr. 3. F. (Prereq: COM S 208; COM S 330; STAT 341; credit or enrollment in BIOL 315, STAT 430)
COM S 568. Bioinformatics II (Advanced Genome Informatics).
(Cross-listed with BCB, GDCB, STAT). (3-0) Cr. 3. S. Prereq: BCB 567, BBMB 201, BIOL 315, STAT 430, credit or enrollment in Gen 411

COM S 569. Bioinformatics III (Structural Genome Informatics).
(Cross-listed with BBMB, BCB, CPR E). (3-0) Cr. 3. F. Prereq: BCB 567, Gen 411, STAT 430

COM S 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).
(Cross-listed with BCB, GDCB, STAT, CPR E). (3-0) Cr. 3. S. Prereq: BCB 567, BIOL 315, COM S 311 and either 208 or 228, Gen 411, STAT 430

(Dual-listed with 472). (3-1) Cr. 3. F. Prereq: 311, 331, STAT 330, COM S 342 or comparable programming experience
Specification, design, implementation, and selected applications of intelligent software agents and multi-agent systems. Computational models of intelligent behavior, including problem solving, knowledge representa- tion, reasoning, planning, decision making, learning, perception, action, communication and interaction. Reactive, deliberative, rational, adaptive, learning and communicative agents. Artificial intelligence programming. Graduate credit requires a research project and a written report. Oral and written reports.

(3-1) Cr. 3. S. Prereq: 311, 362, STAT 330

COM S 574. Intelligent Multiagent Systems.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: STAT 330; COM S 331; 572, 573, 472, or 474
Specification, design, implementation, and applications of multi-agent systems. Intelligent agent architectures; infrastructures, languages and tools for design and implementation of distributed multi-agent systems; Multi-agent organizations, communication, interaction, cooperation, team formation, negotiation, competition, and learning. Selected topics in decision theory, game theory, contract theory, bargaining theory, auction theory, and organizational theory. Selected topics in knowledge representation and ontologies. Agent-based systems and the Semantic Web. Applications in distributed intelligent information networks for information retrieval, information integration, inference, and discovery from heterogeneous, autonomous, distributed, dynamic information sources.

COM S 575. Computational Perception.
(Cross-listed with CPR E, HCI). (3-0) Cr. 3. S. Prereq: Graduate standing or permission of instructor
Statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. Focuses on machine perception techniques that facilitate and augment human-computer interaction. Introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

(Dual-listed with 477). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 228; 330 or CPR E 310, MATH 166, MATH 307 or MATH 317, or consent of the instructor
Selected topics in applied mathematics and modern heuristics that have found applications in areas such as geometric modeling, graphics, robotics, vision, human machine interface, speech recognition, computer animation, etc. Homogeneous coordinates and transformations, perspective projection, quaternions and rotations, polynomial interpolation, roots of polynomials, resultants, solution of linear and nonlinear equations, approximation, data fitting, Fourier series and fast Fourier transform, linear programming, nonlinear optimization, Lagrange multipliers, parametric and algebraic curves, curvature, Frenet formulas, Bezier curves. Programming components. A scholarly report is required for graduate credit.

(Cross-listed with CPR E). (3-0) Cr. 3. F. Prereq: CPR E 381
Quantitative principles of computer architecture design, instruction set design, processor architecture: pipelining and superscalar design, instruction level parallelism, memory organization: cache and virtual memory systems, multiprocessor architecture, cache coherency, interconnection networks and message routing, I/O devices and peripherals.

(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: Background in computer architecture, design, and organization
Introduction to reconfigurable computing, FPGA technology and architectures, spatial computing architectures such as systolic and bit serial adaptive network architectures, static and dynamic rearrangeable interconnection architectures, processor architectures incorporating reconfigurability.

(3-0) Cr. 3. F. Prereq: 511, 552 or CPR E 489
Design and implementation of computer communication networks: layered network architectures, local area networks, data link protocols, distributed routing, transport services, network programming interfaces, network applications, error control, flow/congestion control, interconnection of heterogeneous networks, TCP/IP ATM networks, multimedia communications, IP and application multicast, overlay networks, network security and web computing.
(3-0) Cr. 3. F. Prereq: 352 or CPR E 489 or equivalent
Programming paradigms for building modern distributed applications, including multithreaded client-server programming, distributed object frameworks and programming languages. Directory services, Web-based computing, Mobile computing, Peer-to-Peer computing. Network multimedia applications. Reliability and manageability of networked systems, including aspects of distributed system security, verification of concurrent systems, and network management.

COM S 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Offered on a satisfactorily-fail basis only.

COM S 592. Research Colloquia.
Cr. 1. F.S. Prereq: Graduate classification
Attend Computer Science Research Colloquia. Written summary is required. Offered on a satisfactorily-fail basis only.

COM S 596. Genomic Data Processing.
(Cross-listed with BCB, GDCB). (3-0) Cr. 3. F. Prereq: Some experience in computation
Study the practical aspects of genomic data processing with an emphasis on hands-on projects. Topics include base-calling, sequence cleaning and contaminant removal; fragment assembly procedures and EST clustering methods; genome closure strategies and practices; sequence homology search and function prediction; and annotation and submission of GenBank reports. Next-generation sequencing topics like model genome resequencing, short-read assembly and transcriptome abundance measurement will also be covered.

COM S 598. Graduate Internship.
Cr. R. Repeatable. F.S.S.S. Prereq: Graduate Classification
Supervised internship working in professional settings appropriate to the student’s degree program. Academic work under faculty supervision.

COM S 599. Creative Component.
Cr. 1-3.
Creative component for nonthesis option of Master of Science degree. Offered on a satisfactorily-fail basis only.

Courses for graduate students

COM S 610. Seminar.
Cr. arr.
Offered on a satisfactorily-fail basis only.

COM S 611. Advanced Topics in Analysis of Algorithms.
(3-0) Cr. 3. Repeatable. Alt. S., offered 2013. Prereq: 511, 531
Advanced algorithm analysis and design techniques. Topics include graph algorithms, algebraic algorithms, number-theoretic algorithms, randomized and parallel algorithms. Intractable problems and NP-completeness. Advanced data structures.

COM S 612. Distributed Algorithms.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 511 or 531

COM S 625. Issues in Parallel Programming and Performance.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 511
Parallel solutions of numerical and non-numerical problems, implementation of parallel programs on parallel machines, performance and other computational issues in parallel programming.

(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: 526
Algorithm design for high-performance computing. Parallel algorithms for multidimensional tree data structures, space-filling curves, random number generation, graph partitioning and load balancing. Applications to grid and particle-based methods and computational biology.

(3-0) Cr. 3. Repeatable. Alt. F., offered 2012. Prereq: 531
Advanced study in the quantitative theory of computation. Time and space complexity of algorithmic problems. The structure of P, NP, PH, PSPACE, and other complexity classes, especially with respect to resource-bounded reducibilities and complete problems. Complexity relative to auxiliary information, including oracle computation and relativized classes, randomized algorithms, advice machines, Boolean circuits. Kolmogorov complexity and randomness.

COM S 633. Advanced Topics in Computational Randomness.
(3-0) Cr. 3. Repeatable. Alt. F., offered 2011. Prereq: 531
Advanced study of the role of randomness in computation. Randomized algorithms, derandomization, and probabilistic complexity classes. Kolmogorov complexity, algorithmic information theory, and algorithmic randomness. Applications chosen from cryptography, interactive proof systems, computational learning, lower bound arguments, mathematical logic, and the organization of complex systems.

COM S 634. Theory of Games, Knowledge and Uncertainty.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 330
Fundamentals of Game Theory: individual decision making, strategic and extensive games, mixed strategies, backward induction, Nash and other equilibrium concepts. Discussion of Auctions and Bargaining. Repeated, Bayesian and evolutionary games. Interactive Epistemology: reasoning about knowledge in multiagent environment, properties of knowledge, agreements, and common knowledge. Reasoning about and representing uncertainty, probabilities, and beliefs. Uncertainty in multi-agent environments. Aspects and applications of game theory, knowledge, and uncertainty in other areas, especially Artificial Intelligence and Economics, will be discussed.

COM S 641. Advanced Topics in Programming Language Semantics.
(3-0) Cr. 3. Repeatable. Alt. S., offered 2012. Prereq: 531, 541
Operational and other mathematical models of programming language semantics. Type systems and their soundness. Applications of semantics on areas such as program correctness, language design or translation.

COM S 652. Advanced Topics in Distributed Operating Systems.
(3-0) Cr. 3. Repeatable. Alt. F., offered 2011. Prereq: 552
Concepts and techniques for network and distributed operating systems: Communications protocols, processes and threads, name and object management, synchronization, consistency and replications for consistent distributed data, fault tolerance, protection and security, distributed file systems, design of reliable software, performance analysis.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 228, I/E/M E/CPR E/COM S 557

COM S 661. Advanced Topics in Database Systems.
(3-0) Cr. 3. Repeatable. Alt. F., offered 2012. Prereq: 461 or 561
Advanced topics chosen from the following: database design, data models, query systems, query optimization, incomplete information, logic and databases, multimedia databases; temporal, spatial and belief databases, semistructured data, concurrency control, parallel and distributed databases, information retrieval, data warehouses, wrappers, mediators, and data mining.
COM S 672. Advanced Topics in Computational Models of Learning.
(3-0) Cr. 3. Repeatable. Alt. S., offered 2012. Prereq: COM S 572 or 573 or 472 or 474

COM S 673. Advanced Topics in Computational Intelligence.
(3-0) Cr. 3. Repeatable. Alt. S., offered 2013. Prereq: COM S 572 or 573 or 472 or 474
Advanced applications of artificial intelligence in bioinformatics, distributed intelligent information networks and the Semantic Web. Selected topics in distributed learning, incremental learning, multi-task learning, multi-strategy learning; Graphical models, multi-relational learning, and causal inference; statistical natural language processing, modeling the internet and the web; automated scientific discovery; neural and cognitive modeling.

(Cross-listed with CPR E). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 581. Repeatable with Instructor permission
Current topics in computer architecture design and implementation. Advanced pipelining, cache and memory design techniques. Interaction of algorithms with architecture models and implementations. Tradeoffs in architecture models and implementations.

COM S 686. Advanced Topics in High-Speed Networks.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 586
Advanced topics in IP networks and optical networks. QoS routing and scheduling, multicast, multiprotocol label switching (MPLS), traffic engineering. Optical network architectures, routing and wavelength assignment algorithms, optical multicast, traffic grooming, optical burst switching, lightpath protection/restoration schemes, and IP over WDM.

COM S 699. Research.
Cr. arr. Repeatable. Prereq: Approval of instructor
Offered on a satisfactory-fail basis only.
Interdepartmental Undergraduate Program

The criminal justice studies minor, a cross-disciplinary course of study in the College of Liberal Arts and Sciences, offers an opportunity for students to learn about the components of the criminal and juvenile justice systems, to become acquainted with the issues and problems affecting these systems, to apply theoretical concepts to real world problems, and to plan a career in criminal or juvenile justice.

Students who declare a minor in criminal justice studies are required to complete 15 credits of course work. Students must take five of the following six courses:

- CJ ST 240 Introduction to the U.S. Criminal Justice System
- CJ ST 241 Youth and Crime
- CJ ST 320 American Judicial Process
- CJ ST 332 Philosophy of Law
- CJ ST 340 Deviant and Criminal Behavior
- CJ ST 341 Criminology

Students are also required to complete a minimum of 3 credits of internship experience CJ ST 460 Criminal and Juvenile Justice Practicum. Completion of the minor requires 18 total credits.

Courses primarily for undergraduate students

CJ ST 240. Introduction to the U.S. Criminal Justice System.
(3-0) Cr. 3. F.
Provides systematic overview of law, police organization and behavior, prosecution and defense, sentencing, the judiciary, community corrections, penology, and capital punishment. The course demonstrates the role of discretion in all of these agencies as well as the sociological influences of age, race, gender, and social class on criminal justice system processes.

(Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 130 or 134
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.

(Cross-listed with POL S). (3-0) Cr. 3. S. Prereq: POL S 215
An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

CJ ST 332. Philosophy of Law.
(Cross-listed with PHIL). (3-0) Cr. 3. F.S. Prereq: PHIL 201 or 230
Extent of our obligation to obey the law; what constitutes just punishment; how much of the immoral should be made illegal? Relation of these questions to major theories of law and the state. Discussion of such concepts as coercion, equality, and responsibility. Nonmajor graduate credit.

(Cross-listed with SOC). (3-0) Cr. 3. S.SS. Prereq: SOC 130 or 134
Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

CJ ST 341. Criminology.
(Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 130 or 134
The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

CJ ST 351. Police and Society.
(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS. Prereq: SOC 241 or CJ ST 240
Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

(Cross-listed with SOC). (3-0) Cr. 3. F.S.SS. Prereq: SOC 241 or CJ ST 240
Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

(Cross-listed with SOC). (3-0) Cr. 3. S.SS. Prereq: SOC 241 or CJ ST 240
Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

CJ ST 403. Criminal Offenders.
(3-0) Cr. 3. F. Prereq: 240 or 241
Introduction and overview of criminal offenders. Theory and research on epidemiology, offender typologies, etiology of violence, recidivism, societal costs, correctional supervision, treatment, and prevention of serious antisocial behavior.

CJ ST 460. Criminal and Juvenile Justice Practicum.
(Cross-listed with SOC). Cr. 3-12. Repeatable, maximum of 12 credits. F.S.SS. Prereq: Junior or senior classification; permission of criminal justice studies coordinator; major or minor in sociology, or criminal justice studies minor
Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor’s office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Offered on a satisfactory-fail basis only. Not more than a total of 12 credits of field experience (Soc 454 and 460) may be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors.
Undergraduate Study

Within the Biological Sciences, studies of ecology, evolution, and organismal biology are essential in understanding the complex relationships of life on Planet Earth. Ecology focuses on the interactions among organisms as well as the interactions between organisms and their physical environments. Evolutionary theory addresses the origins and interrelationships of species. Organismal biology studies both the diversity of biological organisms and the structure and function of individual organisms.

The EEOB Department offers several undergraduate majors with other departments. Students interested in the areas of ecology, evolution, and organismal biology should major in Biology, Environmental Science, or Genetics. The Biology Major is administered and offered jointly by the EEOB and GDCB departments. The faculty of EEOB, together with those in GDCB and BBMB, administer and offer the Genetics Major. Faculty in EEOB, in cooperation with faculty from other departments on campus, administer and offer the Environmental Science Major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. Faculty in the EEOB Department also teach undergraduate courses at Iowa Lakeside Laboratory (see the Iowa Lakeside Laboratory listing).

The Biology Major, the Environmental Science Major, and the Genetics Major prepare students for a wide range of careers in biological sciences. Some of these careers include conservation of natural resources and biodiversity, human and veterinary medicine, and life science education. These majors are also excellent preparation for graduate study in systematics, ecology, biological diversity, physiology, and related fields. Faculty members in EEOB contribute to the undergraduate courses listed below. The titles and descriptions of these courses are in the Biology section of the catalog.

BIOL 101 Introductory Biology 3
BIOL 110 Introduction to Biology 1
BIOL 111 Opportunities in Biology 0.5
BIOL 155 Human Biology 3
BIOL 173 Environmental Biology 3
BIOL 204 Biodiversity 2
BIOL 211 Principles of Biology I 3
BIOL 211L Principles of Biology Laboratory I 1
BIOL 212 Principles of Biology II 3
BIOL 212L Principles of Biology Laboratory II 1
BIOL 256 Fundamentals of Human Anatomy 3
BIOL 256L Fundamentals of Human Anatomy Laboratory 1
BIOL 256L Fundamentals of Human Physiology Laboratory 1
BIOL 258 Human Reproduction 3
BIOL 307 Women in Science and Engineering 3
BIOL 312 Ecology 4
BIOL 313 Principles of Genetics 3
BIOL 313L Genetics Laboratory 1
BIOL 315 Biological Evolution 3
BIOL 335 Principles of Human and Other Animal Physiology 4
BIOL 336 Ecological and Evolutionary Animal Physiology 3
BIOL 351 Comparative Chordate Anatomy 5
BIOL 352 Vertebrate Histology 4
BIOL 353 Introductory Parasitology 4
BIOL 354 Animal Behavior 3
BIOL 355 Plants and People 3
BIOL 356 Dendrology 4
BIOL 364 Invertebrate Biology 3-4
BIOL 365 Vertebrate Biology 4
BIOL 366 Plant Systematics 4
BIOL 371 Ecological Methods 3
BIOL 381 Environmental Systems I: Introduction to Environmental Systems 3
BIOL 382 Environmental Systems II: Analysis of Environmental Systems 3

Graduate Study

The department offers graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees. EEOB graduate students major in one of several interdepartmental majors including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Environmental Science, Genetics, Interdisciplinary Graduate Studies, Neuroscience, and Toxicology. The EEOB faculty members are active in the interdepartmental graduate majors and teach a wide range of graduate courses. Faculty research programs cover a wide range of specializations including physiology and physiological ecology; Microbiology; animal behavior; evolutionary genetics of plants and animals; modeling of evolutionary and ecological processes; plant and animal systematics; neurobiology; developmental biology; aquatic and wetland ecology; functional, population, community, landscape, and ecosystem ecology; and conservation biology. For further information on faculty research interests check the EEOB web site (www.eeob.iastate.edu). Some EEOB faculty teach graduate courses at Iowa Lakeside Laboratory. Field Station courses are also available through the Gulf Coast Marine Laboratory and the Organization for Tropical Studies (see the Biology listing).

Prospective graduate students need a sound background in the physical and biological sciences, as well as in mathematics and English. Interested students should check the Graduate Program link from the EEOB web site for specific admission procedures and updates. The department and majors require submission of Graduate Record Examination (GRE) aptitude test scores. Subject area GRE scores are recommended. International students whose native language is other than English must also submit TOEFL or IELTS scores with their application.

Students who are enrolled in the interdepartmental graduate majors with EEOB affiliation are required to participate in departmental seminars, to participate in research activities, and to show adequate progress and professional development while pursuing their degree. For both the M.S. and Ph.D. degrees, it is expected that research conducted by the student will culminate in the writing and presentation of a thesis or dissertation. Requirements and guidelines for study are provided by the Graduate College, the EEOB faculty, and the individual student's major professor and Program of Study Committee. General information about graduate study requirements can be found at the web site for the Graduate College and requirements for the interdepartmental majors can be
found by following the links from the EEOB web site above. Although not a formal requirement, the EEOB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

Courses primarily for graduate students, open to qualified undergraduate students

**EEOB 501I. Freshwater Algae.**  
(Cross-listed with IA LL). Cr. 4. SS.  
Structure and taxonomy of freshwater algae based on field collected material; emphasis on genus-level identifications, habitats visited include lakes, fens, streams, and rivers; algal ecology.

**EEOB 507. Advanced Animal Behavior.**  
(3-0) Cr. 3. S. Prereq: Graduate standing, BIOL 354, or permission of instructor  
Analysis of current research in animal behavior. Topics covered may include behavioral ecology, mechanisms of behavior, evolution of behavior, applications of animal behavior to conservation biology, and applications of animal behavior to wild animals in captivity.

**EEOB 514. Evolutionary Ecology.**  
(3-0) Cr. 3. F. Prereq: 588, BIOL 315; graduate standing  
Evolution of ecological adaptations at the individual, population, community, and landscape levels. Emphasis is on evolutionary mechanisms and adaptive strategies; units and mechanisms of evolution, life history strategies, species interactions and organization of communities, behavior, and patterns of distribution, speciation and macroevolution.

**EEOB 531I. Conservation Biology.**  
(Cross-listed with IA LL, A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: IA LL 312I  
Examination of conservation issues from a population and a community perspective. Population-level analysis will focus on the role of genetics, demography, and environment in determining population viability. Community perspectives will focus on topics such as habitat fragmentation, reserve design, biodiversity assessment, and restoration ecology.

I. Conservation Biology

**EEOB 531I. Conservation Biology.**  
(Cross-listed with IA LL, A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: IA LL 312I  
Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.

**EEOB 534. Endocrinology.**  
(3-0) Cr. 3. S. Prereq: BIOL 211, 212  
Dual-listed with BIOL 434. Chemical integration of vertebrate organisms. The structure, development, and evolution of the endocrine glands and the function and structure of their hormones.

**EEOB 535. Restoration Ecology.**  
(Cross-listed with ENSCI, NREM). (2-3) Cr. 3. F. Prereq: BIOL 366 or 474 or graduate standing  
Theory and practice of restoring animal and plant diversity, structure and function of disturbed ecosystems. Restored freshwater wetlands, forests, prairies and reintroduced species populations will be used as case studies.

I. Restoration Ecology

**EEOB 535I. Restoration Ecology.**  
(Cross-listed with IA LL, A ECL, ENSCI). Cr. 4. Alt. SS., offered 2012. Prereq: A course in ecology  
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.

**EEOB 537. Plant Stress Biology.**  
(Cross-listed with HORT, AGRON). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: BIOL 330A or equivalent and BBMB 404-405  
Plant physiology and molecular biology of plant responses to environmental stress. Emphasis on the role of hormones and hormone interactions in governing stress responses. Lectures are prepared from journal papers that elucidate key mechanisms controlling responses to drought, flooding, salt, nutrient deficiencies, freezing, pathogens and herbivores. Plants studied include genetic model systems and crops of horticultural and agronomic value.

**EEOB 539. Environmental Physiology.**  
(3-3) Cr. 3-4. Alt. S., offered 2012. Prereq: BIOL 335 or A Ecl 311, physics recommended  
Dual-listed with BIOL 439. Graduate study in conjunction with BIOL 439. Physiological adaptations to the environment with emphasis on vertebrates.

**EEOB 542. Introduction to Molecular Biology Techniques.**  
(Cross-listed with B M S, BBMB, FS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification  
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)

B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonal antibody production. (S.SS.)

C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)

D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.) (F)

E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F)

F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects

G. Genomic Techniques

**EEOB 552. Pteridology.**  
(1-3) Cr. 2. Prereq: 10 credits in biological sciences  
Morphology, taxonomy, and ecology of the lower vascular plants, with emphasis on ferns.

**EEOB 553. Agrostology.**  
(2-3) Cr. 3. Alt. F., offered 2012. Prereq: BIOL 366  
Structure, identification, classification, phylogeny, and economic aspects of grasses and related families.

**EEOB 555. Bryophyte and Lichen Biodiversity.**  
(Dual-listed with 455). Cr. 3. Prereq: BIOL 212, 212L  
Introduction to the biology and ecology of mosses, liverworts, and lichens. Emphasis on identification and diversity of local representatives of these three groups of organisms. Required field trips and service-learning.

**EEOB 557. Herpetology.**  
(Cross-listed with A ECL). (2-3) Cr. 3. F. Prereq: A ECL 365, BIOL 351  
Dual-listed with BIOL 457. Biology, ecology, and evolution of amphibians (salamanders, frogs, caecilians) and reptiles (lizards, snakes, tuatara, turtles, crocodilians). Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of amphibians and reptiles in ecosystems, and conservation. Laboratory focus on survey methods, identification, relationships, distribution, habits, and habitats of amphibians and reptiles.
EEOB 558. Ornithology.
(Cross-listed with A ECL). (2-3) Cr. 3. S. Prereq: A ECL 365 or BIOL 351
Dual-listed with BIOL 458. Biology, ecology, evolution, and taxonomy of birds. Emphasis on structure, physiology, behavior, communication, navigation, reproduction, and conservation. Laboratory exercises complement lecture topics, emphasize identification and distribution of Midwest birds, and include field trips.

EEOB 559. Mammalogy.
(Cross-listed with A ECL). (2-3) Cr. 3. S. Prereq: BIOL 351 or A ECL 365
Dual-listed with BIOL 459. Biology, ecology, and evolution of mammals. Emphasis on structure, physiological adaptation to different environments, behavior, reproduction, roles of mammals in ecosystems, and conservation. Laboratory focus on identification, distribution, habits, and habitats of mammals.

(2-3) Cr. 3. Alt. S., offered 2012. Prereq: BIOL 212, 212L, 312; STAT 101 or 104 or graduate standing
Ecological and economical management of sustainable biological resources. Unifying current management concepts and models in wildlife, fisheries, water quality, forestry, recreation, and agriculture. Research problems.

EEOB 562. Evolutionary Genetics.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: Permission of instructor
Seminar/discussion course covering the genetic basis of evolutionary processes in multicellular organisms.

EEOB 563. Molecular Phylogenetics.
(2-3) Cr. 3. F. Prereq: BIOL 313 and 315
An overview of the theory underlying phylogenetic analysis and the application of phylogenetic methods to molecular datasets. The course emphasizes a hands-on approach to molecular phylogenetics and combines lecture presentations with computer exercises and discussion of original scientific literature.

EEOB 564. Wetland Ecology.
(Cross-listed with ENSCI). (3-0) Cr. 3. S. Prereq: 15 credits in biological sciences
I. Wetland Ecology
EEOB 564I. Wetland Ecology.
(Cross-listed with IA LL, ENSCI). Cr. 4. SS. Prereq: IA LL 312I
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.

EEOB 565. Morphometric Analysis.
(2-3) Cr. 4. Alt. S., offered 2012. Prereq: STAT 401
Dual-listed with BIOL 465. A comprehensive overview of the theory and methods for the analysis of biological shape with emphasis on data acquisition, standardization, statistical analysis, and visualization of results. Methods for both landmark and outline data will be discussed.

EEOB 566. Molecular Evolution.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: Permission of instructor
Seminar/discussion course covering the fundamentals of molecular evolution. Emphasis is placed on original scientific literature and current topics, including rates and patterns of genetic divergence; nucleotide and allelic diversity; molecular clocks; gene duplications; genome structure; organellar genomes; polyploidy; transposable elements; and modes and mechanisms of gene and genome evolution.

(3-0) Cr. 3. F. Prereq: Permission of instructor
An overview of fundamental population genetic theory and the ecological and evolutionary factors underlying the distribution of genetic variation within and among natural populations. Emphasis on the analysis of inbreeding, breeding systems, parentage, relatedness, spatial autocorrelation, effective population size, hierarchical population models, and phylogeography.

EEOB 568. Advanced Systematics.
(Cross-listed with ENT). (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Permission of instructor
Principles and practice of systematic biology; taxonomy, nomenclature and classification of plants and animals; sources and interpretation of systematic data; speciation; fundamentals of phylogenetic systematics.

EEOB 569. Biogeography.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 315 or equivalent; permission of instructor
Principles underlying the geographic distribution of organisms throughout the world; biological influences of geological history and tectonic movements; role of climate, migration, dispersal, habitat, and phylogeny on past and present organismal distribution patterns; biogeographic methods.

EEOB 570. Landscape Ecology.
(Cross-listed with A ECL). (2-3) Cr. 3. Alt. F., offered 2012. Prereq: Permission of instructor; EEOB 558; a course in calculus
The study of ecological and evolutionary processes within a spatial context with emphasis on behavior, population, and community dynamics.

EEOB 573. Techniques for Biology Teaching.
(Cross-listed with IA LL, A ECL). Cr. 1-2. Repeatable. SS.
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.
A. Animal Biology (Same as A Ecl 573A)
B. Plant Biology
C. Fungi and Lichens
D. Aquatic Ecology
E. Prairie Ecology
F. Wetland Ecology
G. Limnology (Same as A Ecl 573G)
H. Animal Behavior (Same as A Ecl 573H)
I. Insect Ecology
J. Biology of Invertebrates
K. Non-invasive Use of Living Organisms
W. Project WET (Same as A Ecl 573W)

EEOB 575I. Field Mycology.
(Cross-listed with IA LL). Cr. 4. Alt. SS., offered 2012. Prereq: IA LL 476; a course in calculus
Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: BIOL 312
Dual-listed with BIOL 476. The nature of adaptations to physical and biotic environments. Biophysical, biomechanical, and physiological bases of the structure, form, growth, distribution, and abundance of organisms.

(Cross-listed with IA LL). Cr. 4. SS.
Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characters; project design and execution including construction of reference and voucher collections and data organization and analysis.
(Cross-listed with ENSCI). (2-2) Cr. 4. F Prereq: 12 credits of natural science including biology and chemistry
Introduction to the structure and function of natural environmental systems. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems.

EOOB 584. Ecosystem Ecology.
(Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Combined 12 credits in biology and chemistry
Introduction to the study of ecosystems and the factors that influence their properties and dynamics. Conceptual foundations for ecosystem studies. Quantitative analyses of accumulations, transformations, and fluxes of nutrients, water, and energy within and among ecosystems.

(2-3) Cr. 3. Alt. F., offered 2012. Prereq: BIOL 312
Factors controlling species diversity, species abundance, and the structure and function of communities in space and time. Relationships between species diversity and ecosystem process rates and community stability.

EOOB 586. Aquatic Ecology.
(Cross-listed with ENSCI). (3-0) Cr. 3. F Prereq: ENSCI 301 or 381 or 402
(Dual-listed with BIOL 486.) Structure and function of aquatic ecosystems with application to fishery and pollution problems. Emphasis on lacustrine, riverine and wetland ecology.

L. Aquatic Ecology Laboratory
EOOB 586L. Aquatic Ecology Laboratory.
(Cross-listed with ENSCI). (0-3) Cr. 1. F Prereq: Concurrent enrollment in 586
(Dual-listed with BIOL 486L.) Field trips and laboratory exercises to accompany 586. Hands-on experience with aquatic research and monitoring techniques and concepts.

EOOB 587. Microbial Ecology.
(Cross-listed with ENSCI, MICRO). (3-0) Cr. 3. F Prereq: Six credits in biology and 6 credits in chemistry
(Dual-listed with BIOL 487) Introduction to major functional groups of autotrophic and heterotrophic microorganisms and their roles in natural systems.

(Cross-listed with A ECL). (2-2) Cr. 3. F Prereq: BIOL 312, STAT 101 or 104, a course in calculus, or graduate standing
(Dual-listed with BIOL 489.) Concepts and theories of population dynamics with emphasis on models of growth, predation, competition, and regulation.

EOOB 590. Special Topics.
Cr. 1-3. Repeatable. Prereq: 10 credits in biology, permission of instructor
A. Current Topics in Ecology
B. Current Topics in Evolutionary Biology
C. Current Topics in Organismal Biology
I. Iowa Lakeside Laboratory (Cross-listed with IA LL 590I, A ECI 590I, ANTHR 590I.)

(Cross-listed with PHIL). (3-0) Cr. 3. Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology
Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include: I) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.

EOOB 599. Creative Component.
Cr. arr.
Research toward nonthesis master’s degree.

Courses for graduate students
EOOB 611. Analysis of Populations.
(Cross-listed with A ECL). (2-2) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 312, STAT 401; a course in calculus
Quantitative techniques for analyzing vertebrate population data to estimate parameters such as density and survival. Emphasis on statistical inference and computing.

EOOB 679. Light Microscopy.
(Cross-listed with GDCB, MICRO). (2-9) Cr. 5. Prereq: Permission of instructor
Current theories encompassing light optics and their applications for specimen preservation, paraffin and resin sectioning, general staining, histochemistry, cytophotometry, immunocytochemistry, autoradiography, image digitization, processing and presentation, and digital macro- and micrography. Limit of 10 students.

(Cross-listed with GDCB, MICRO). (2-9) Cr. 5. Prereq: Permission of instructor
Current theories encompassing scanning electron optics and their applications for high and low vacuum microscopy, specimen chemical and cryopreservation methods, x-ray microanalysis, backscattered and topographic imaging, image digitization, processing and presentation. Limit of 10 students.

(Cross-listed with GDCB, MICRO). (2-9) Cr. 5. Prereq: GDCB 679 and permission of instructor
Current theories encompassing electron optics and their applications for chemical and physical specimen preservation, ultramicrotomy, general staining and cytochemistry, immunocytochemistry, autoradiography, negative staining and shadowing, x-ray microanalysis, image digitization, processing and presentation.

EOOB 698. Seminar.
Cr. 1. Repeatable.
Meetings of graduate students and faculty to discuss recent literature and problems under investigation.

EOOB 699. Research.
Cr. arr. Repeatable.
Research for thesis or dissertation. Offered on a satisfactory-fail basis only.
I. Iowa Lakeside Laboratory. (Cross-listed with IA LL 699I)
Undergraduate Study

The department offers work for the degrees of bachelor of science with a major in agricultural business, bachelor of science with a major in business economics, and bachelor of science with a major in economics. For further discussion of programs in agricultural business, see the statement below under College of Agriculture and Life Sciences. For programs in business economics, see the statement below under College of Business. For programs in economics, see the statement below under College of Liberal Arts and Sciences. Visit our web site at www.econ.iastate.edu.

Graduates of the Department of Economics have unique skills that distinguish them from other graduates. They have the ability to think and reason clearly, and can address complex issues using tools and decision making models of economics, mathematics, statistics, as well as concepts from the biological, physical, and social sciences. Graduates develop human relations skills that are essential in the work place and the community. They are able to communicate economic and business concepts to other professionals, collective organizations, governments, and the general public using a variety of means. Graduates understand the interaction of technology, human activity, and the environment. They are able to apply concepts associated with making “optimal” choices among economic alternatives. Graduates are prepared for graduate work in law, economics, and business, as well as the world of work, having learned tools of critical analysis and skills essential to getting and keeping meaningful employment.

College of Agriculture and Life Sciences

For the undergraduate curriculum in agricultural business, see College of Agriculture and Life Sciences, Curricula.

The agricultural business curriculum prepares students for advanced studies and for careers in agricultural finance, management in agricultural supply and marketing industries, commodity merchandising and research, business research and management, farm and ranch operations, commercial farm management and appraisal, agricultural sales and marketing, agricultural reporting and public relations, agricultural extension, international activities, and government service. A major in agricultural business with a minor in economics is not permitted; however, a double major in agricultural business and economics is permitted.

A minor in agricultural business is offered. Courses to be included in the minimum of 15 credits are:

ECON 101 Principles of Microeconomics 3
ECON 230 Farm Business Management 3
ECON 235 Introduction to Agricultural Markets 3
ECON 301 Intermediate Microeconomics 3-4
Three credits from a list of selected courses. 3

The department participates in the interdepartmental programs in international agriculture and global resources systems.

College of Business

For the undergraduate curriculum in business economics, see College of Business.

The major in business economics provides a high-quality education with a balanced emphasis in both business and economics. Graduates from the business economics major possess a unique mix of analytical and applied business skills well-suited for employment in upper level management and public service positions. Graduates also have solid preparation for graduate studies in law, economics, and in Master of Business Administration (MBA) programs. A double major in business economics and agricultural business is not permitted, either. A major in business economics with a minor in economics is not permitted.

College of Liberal Arts and Sciences

Candidates for the bachelor of science degree with a major in economics must fulfill requirements established by the College of Liberal Arts and Sciences. (For details of undergraduate curricula in liberal arts and sciences, see College of Liberal Arts and Sciences, Curriculum.) The economics curriculum prepares students for advanced studies, professional degrees such as law and business administration, and for careers in finance, business and economic research, management, insurance, brokerage, real estate, labor relations, international development, and government service.

Students majoring in economics are required to take either one of the following within the mathematical and natural sciences group.

MATH 165 Calculus I 8
& MATH 166 and Calculus II
MATH 165 Calculus I 7
& ECON 207 and Applied Economic Optimization
MATH 160 Survey of Calculus 7
& ECON 207 and Applied Economic Optimization

Students who plan to take postgraduate work in economics should take Math 165 and 166 for the above sequence. Additional requirements are:

STAT 226 Introduction to Business Statistics I 3
STAT 326 Introduction to Business Statistics II 3

Twenty-eight credits in economics are required for the bachelor of science degree. Students must complete the following courses in economics:

ECON 101 Principles of Microeconomics 3
ECON 102 Principles of Macroeconomics 3
ECON 301 Intermediate Microeconomics 3-4
ECON 302 Intermediate Macroeconomics 3
ECON 371 Introductory Econometrics 4

plus three Econ courses numbered 400#489, and one additional Econ course selected from an approved departmental list. A minimum of 15 credits of economics coursework must be earned at Iowa State University. Economics majors must maintain a C average in 101, 102, 301, and 302, with no grade lower than a C#.

Communication Proficiency Requirement: The major in economics requires a grade of C or better in each of the following English courses:

ENGL 150 Critical Thinking and Communication 3
ENGL 250 Written, Oral, Visual, and Electronic Composition 3
or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors 3
ENGL 302 Business Communication 3
or ENGL 314 Technical Communication 3

Optimal progress for an economics major would be to complete the principles sequence:

ECON 101 Principles of Microeconomics 3
ECON 102 Principles of Macroeconomics 3
and one of the following sequences:

MATH 165 Calculus I 8
& MATH 166 and Calculus II
MATH 165 Calculus I 7
& ECON 207 and Applied Economic Optimization
MATH 160 Survey of Calculus 7
& ECON 207 and Applied Economic Optimization

in the freshman year. The sequence should be followed in the sophomore year by the intermediate theory sequence:

ECON 301 Intermediate Microeconomics 3
& ECON 302 and Intermediate Macroeconomics 3

2011-2012
STAT 226 Introduction to Business Statistics I and STAT 326 Introduction to Business Statistics II are recommended in the sophomore year.

A minor in economics is offered. Courses to be included in the minimum of 15 credits are:

<table>

Selected course list

The department participates in the interdepartmental programs in international studies and women’s studies.

**Learner Outcome Goals**

In general, our goal is that all Department of Economics graduates at Iowa State are able to use economic reasoning to think critically; to make decisions and to communicate effectively; to be ethical; to respect the environment, and to be multi-culturally and internationally aware.

Specifically, with respect to:

1. Critical Thinking, all graduates of the Department of Economics are able to:
   a) distinguish factual statements from opinions or value judgements
   b) use scientific methods to analyze and interpret data
   c) distinguish causal relationships from correlations
   d) determine the accuracy of statements
   e) understand the usefulness of abstractions and models
   f) distinguish simplifying and critical assumptions from unnecessary details
   g) objectively critique competing viewpoints to make reasoned judgements

2. Economic Reasoning:
   a) distinguish positive (what is) and normative (what should be) economics
   b) determine the opportunity cost of alternatives
   c) apply the concepts of comparative advantage, specialization, and exchange to analyze resource allocation issues
   d) identify the conditions under which markets allocate resources efficiently or markets fail
   e) apply marginal economic analysis to solve problems
   f) conduct comparative static analyses
   g) pose and test hypotheses

3. Decision Making/Problem Solving:
   a) work effectively alone and in teams to solve problems
   b) use scientific methods to identify optimal choices among economic alternatives
   c) identify decision-makers, objectives, choice variables, incentives, and constraints
   d) identify and apply the solution technique best suited for the specific problem
   e) understand how conclusions depend on assumptions
   f) obtain information by accessing electronic or traditional media, listening, or by observation
   g) use computer and statistical methods to organize and analyze data

4. Communications:
   a) communicate economic and business concepts to professionals, organizations, governments, and the general public
   b) summarize research activities and analysis clearly and succinctly, and document sources and methods
   c) write clearly and effectively
   d) speak clearly and persuasively
   e) prepare and present visual information effectively

5. Ethics:
   a) develop ethical perspectives and sense of moral responsibility and values
   b) discuss contemporary ethical and moral issues in professional and private life
   c) critically evaluate their own arguments and those of others

6. Environment Awareness:
   a) understand the physical and biological properties of the environment and ecological systems
   b) understand how economic activity, such as business or agriculture, impacts the environment

7. International/Multi-Cultural Awareness:
   a) understand cultural diversity within our own nation and around the world
   b) know the different economic or agricultural systems in other countries
   c) have human relation skills essential in the work place and the community

**Graduate Study**

The department offers work toward the degrees master of science and doctor of philosophy with majors in economics and agricultural economics. The department also offers minors to students with majors in other departments.

Students do not need to have an undergraduate major in economics or agricultural economics in order to qualify for graduate work in the department. However, students must have completed undergraduate coursework in microeconomics, microeconomics, statistics, calculus, and matrix algebra. Some background in Math courses emphasizing logic and proofs is preferred, particularly for the Ph.D.

Candidates for the degree master of science (thesis option) are required to complete satisfactorily 30 credits of acceptable graduate work, including preparation of a thesis.

Candidates for the degree master of science (non-thesis option) may fulfill requirements by satisfactorily completing 32 credits of coursework, including preparation of a creative component.

Programs of study for the doctorate are organized by each student in consultation with the major professor and the individual’s committee. Students may select fields of concentration from the following: agricultural economics, financial economics, industrial organization, international economics, human resources, macroeconomics, and environmental and resource economics.

Each student must complete advanced courses in microeconomic and macroeconomic theory, quantitative methods and econometrics, and two fields from the list above. Students must demonstrate competence in theory by passing qualifying examinations. Students must also participate in workshops.
With the cooperation of the College of Law at Drake University, a joint degree consisting of doctor of jurisprudence and master of science in agricultural economics or economics may be pursued concurrently. Other cooperative programs of study may be arranged with the University of Iowa College of Law or other recognized institutions.

The department cooperates in the interdepartmental graduate majors in transportation and sustainable agriculture, and the interdepartmental minor in gerontology.

Courses primarily for undergraduate students

**ECON 101. Principles of Microeconomics.**
(3-0) Cr. 3.

H. Honors Section (Honors program students only)
L. Laboratory in Principles of Microeconomics

**ECON 101L. Laboratory in Principles of Microeconomics.**
(0-2) Cr. 1. Prereq: Concurrent enrollment in the appropriate section of 101
Discussion of material typically covered in ECON 101. Application of economic principles to real-world problems. Economic principles and basic business management concepts applied to decision-making in agribusiness operations.

**ECON 102. Principles of Macroeconomics.**
(3-0) Cr. 3. Prereq: 101 recommended

H. Honors (Honors program students only)

**ECON 110. Orientation in Agricultural Business.**
(1-0) Cr. 0.5
Orientation course for freshman and new transfer students in agricultural business. Offered on a satisfactory-fail basis only.

**ECON 207. Applied Economic Optimization.**
(2-2) Cr. 3. Prereq: MATH 151, 160, 165 or equivalent
Application of linear algebra, calculus and unconstrained and constrained optimization techniques to economic problems. Learning outcomes include the ability to (i) identify the objective, decision variables and constraints in economic decision problems, (ii) represent elements of an economic problem in simple mathematical models, (iii) identify and apply mathematical tools that can be used to solve the problems, (iv) identify the strengths and limitations of the solution method, and (v) interpret the economic meaning and implications of the solution.

**ECON 230. Farm Business Management.**
(2-2) Cr. 3. Prereq: 101; ACCT 284
Business and economic principles applied to decision making and problem solving in the management of a farm business. Cash flow, partial, enterprise, and whole farm budgeting. Information systems for farm accounting, analysis, and control. Obtaining and managing land, capital, and labor resources. Alternatives for farm business organization and risk management.

**ECON 235. Introduction to Agricultural Markets.**
(3-0) Cr. 3. Prereq: 101
Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

**ECON 292. Career Seminar.**
(1-0) Cr. 1. Prereq: Classification in economics or agricultural business
Career opportunities in the various industries and government institutions. Required training and skills needed to perform successfully in different types of careers. Factors important in finding and obtaining employment either before or after graduation including personal resumes, interviewing, and letter writing.

**ECON 297. Internship.**
Cr. 2. Repeatable, maximum of 4 credits. Prereq: Permission of instructor and classification in agricultural business or economics
Students complete a research report, based on their internship or approved work experience, that examines chosen topics in management, marketing or finance. Offered on a satisfactory-fail basis only.

**ECON 298. Cooperative Education.**
Cr. R. Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

**ECON 301. Intermediate Microeconomics.**
(3-0) Cr. 3-4. Prereq: 101, 102; MATH 160 or 165
Theory of consumer and business behavior; optimal consumption choices and demand; theory of firm behavior; costs, production, and supply; competitive and imperfectly competitive markets; theory of demand for and supply of factors of production; general equilibrium analysis. Recitation required for 4 credits. Nonmajor graduate credit.

H. Honors Section (Honors program students only)

**ECON 302. Intermediate Macroeconomics.**
(3-0) Cr. 3. Prereq: 101, 102; MATH 160 or 165
Theory of income, employment, interest rates, and the price level; fiscal and monetary policy; budget and trade deficits; money and capital inflows, interest rates, and inflation. Nonmajor graduate credit.

H. Honors Section (Honors program students only)

**ECON 308. Agent-Based Computational Economics.**
(3-0) Cr. 3. Prereq: 101
Computational study of economies as evolving systems of autonomous interacting agents. Key ideas from game theory and complex adaptive systems theory for modeling the adaptation, learning, and co-evolution of economic agents in decentralized market economies. Evolution of behavioral norms and interaction networks. Building agent-based computational laboratories for the experimental study of market protocols and agent learning processes. Illustrative economic applications (e.g., financial markets, labor markets, agricultural markets, electricity markets, auction markets, automated Internet markets, collective usage of common-pool resources). Nonmajor graduate credit.

**ECON 312. History of Economic Thought.**
(3-0) Cr. 3. Prereq: 101
The logic and explanatory value of received economic doctrines since the middle of the eighteenth century. The reflection of past economic doctrines in contemporary theory and policy. Discussion of major works by Smith, Ricardo, Mill, Marx, Marshall, Walras, Wicksell, and Keynes.
ECON 320. Labor Economics. (3-0) Cr. 3. Prereq: 101
Survey of contemporary labor market problems and public policy toward labor. Economic analysis of topics such as labor supply and demand, work incentives and compensation, transfer programs, education and training, mobility, minimum wages, unions, working conditions, benefits, discrimination, unemployment, wage differentials across regions, and labor markets in other countries. Nonmajor graduate credit.

ECON 321. Economics of Discrimination. (Cross-listed with W S). (3-0) Cr. 3. Prereq: 101
Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S. Nonmajor graduate credit.

Meets U.S. Diversity Requirement

ECON 325. Biorenewable Systems. (Cross-listed with A E, AGRON, AN S, BSE, BUSAD, TSMI). (3-0) Cr. 3. F, Prereq: ECON 101, CHEM 163 or higher, MATH 140 or higher
Converting biorenewable resources into bioenergy and biobased products. Biorenewable concepts as they relate to drivers of change, feedstock production, processes, products, co-products, economics, and transportation/logistics. Counts only as a general elective course for majors in agricultural business, economics, and business economics.

ECON 332. Cooperatives. (3-0) Cr. 3. Prereq: 101
Survey of cooperative activities with emphasis on agricultural cooperatives, types of cooperatives, methods of organization and operation, principles, legal and tax aspects, cooperative finance, economic possibilities, and limitations of cooperation. Students will learn how to work together in teams to solve problems while role playing directors of cooperative boards. Nonmajor graduate credit.

ECON 333. Advanced Farm Business Management. (3-2) Cr. 3-4. Prereq: 230
Effective use of strategic planning, decision methods, and computer assistance for solving farm problems. Applications of economic and management theory to analyze farm business decisions using efficiency measures to assess current resource use and direct the farm business analysis, planning, and tax process. Computers as aids in the decision process. Three credits available only to students enrolled in AgPAQ. Laboratory required for 4 credits. Nonmajor graduate credit.

ECON 334. Entrepreneurship in Agriculture. (3-0) Cr. 3. Prereq: 101
Introduction to the process of entrepreneurship within the agricultural and food sectors. Emphasis on opportunity recognition and assessment, resource acquisition and feasibility analysis for both private and social enterprises. Students will develop a comprehensive feasibility study for a new business or non-profit organization.

ECON 336. Agricultural Selling. (3-0) Cr. 3. Prereq: 101
Principles of selling with application to agricultural and food related businesses. Attitudes, value systems, and behavioral patterns that relate to agricultural sales. Electronic marketing, selling strategies, preparing for sales calls, making sales presentations, handling objections, and closing sales. Analysis of the buying or purchasing process. Evaluation of agricultural selling as a possible career choice.

ECON 337. Agricultural Marketing. (2-2) Cr. 3. Prereq: 101 required, 235 recommended
Understanding of agricultural commodity markets for grain, livestock and dairy with emphasis on marketing decisions and risk management for farmers and processors. Lab will provide hands-on applications of marketing and management tools via market simulations. Nonmajor graduate credit.

ECON 344. Public Finance. (3-0) Cr. 3. Prereq: 101

ECON 353. Money, Banking, and Financial Institutions. (3-0) Cr. 3. Prereq: 101, 102
Theoretical and applied analysis of money, banking, and financial markets; interest rates and portfolio choice; the banking industry in transition; the money supply process; the Federal Reserve System and the conduct of monetary policy; macro implications of monetary policy; international finance.

ECON 355. International Trade and Finance. (3-0) Cr. 3. Prereq: 101, 102
Explanations of causes of international trade and the impact of trade on welfare and employment patterns. Analysis of government policies towards trade, such as tariffs, quotas, and free trade areas. Theory of balance of payments and exchange rate determination, and the role of government policies. Examination of alternative international monetary arrangements. Nonmajor graduate credit.

Meets International Perspectives Requirement.

ECON 362. Applied Ethics in Agriculture. (Cross-listed with SOCI). (3-0) Cr. 3. Prereq: ECON 101 or SOC 130 or SOC 134, junior or senior status in the College of Agriculture
Identify major ethical issues and dilemmas in the conduct of agricultural and agribusiness management and decision making. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.

ECON 370. Comparative Capitalism and Economic Transitions. (3-0) Cr. 3. Prereq: 101, 102
Theories of capitalism and the economics of transition from a planned to a market economy; the role and the creation of economic institutions supporting different economic systems. An examination of recent experiences of Eastern European countries, the former Soviet Union, China, the European Union, and the United States.

Meets International Perspectives Requirement.

ECON 371. Introductory Econometrics. (4-0) Cr. 4. Prereq: 301, 302 or 353, STAT 326
Introduction to the models and methods used to estimate relationships and test hypotheses pertaining to economic variables. Among the topics covered in the course are: Single and multiple regression analysis; functional forms; omitted variable analysis; multicollinearity; heteroskedasticity; autocorrelation; simultaneous equations; and dynamic models. Nonmajor graduate credit.

ECON 376. Applied Ethics in Agriculture. (Cross-listed with C R P). (3-0) Cr. 3. Prereq: 101
Firm location with respect to regional resources, transport, scale economies, externalities, and policies. Measures of local comparative advantage and specialization. Spatial markets. Population location considering jobs, wages, commuting, and local amenities. Business, residential, and farm land use and value. Migration. Other topics may include market failure, regulation, the product cycle, theories of rural and urban development, developmental policy, firm recruiting, local public goods and public finance, schools, poverty, segregation, and crime. Nonmajor graduate credit.
ECON 378. Economics of Aging.
(Cross-listed with HD FS, GERON). (3-0) Cr. 3. S. Prereq: 3 credits in principles of economics and 3 credits in human development and family studies
Economic status of the aging, retirement planning and the retirement decision, role of Social Security, public transfer programs for the elderly, intrafamily transfers to/from the elderly, private pensions, financing medical care and housing for the elderly, prospects and issues for the future.

ECON 380. Environmental and Resource Economics.
(Cross-listed with ENV S). (3-0) Cr. 3. Prereq: 101
Natural resource availability, use, conservation, and government policy, including energy issues. Environmental quality and pollution control policies.

ECON 385. Economic Development.
(Cross-listed with GLOBE). (3-0) Cr. 3. Prereq: 101, 102
Current problems of developing countries, theories of economic development, agriculture, and economic development, measurement and prediction of economic performance of developing countries, alternative policies and reforms required for satisfying basic needs of Third World countries, interrelationships between industrialized countries and the developing countries, including foreign aid. Nonmajor graduate credit.

Meets International Perspectives Requirement.

ECON 398. Cooperative Education.
Cr. R. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

ECON 401. Topics in Microeconomics.
(3-0) Cr. 3. Prereq: 301, STAT 226
Advanced treatment of selected topics from one or more of the following areas: household production models, factor markets, game theory and imperfect competition, general equilibrium, intertemporal choice, asset markets, income distribution, externalities and public goods, etc. Nonmajor graduate credit.

ECON 402. Topics in Macroeconomics.
(3-0) Cr. 3. Prereq: 301, 302, STAT 226
Advanced treatment of selected topics from one or more of the following areas: business cycle theory, growth theory, fiscal and monetary policy, coordination issues, open economy macroeconomics, and financial economics. Nonmajor graduate credit.

ECON 416. Industrial Organization.
(3-0) Cr. 3. Prereq: 301
Study of the structure of firms and markets and of their interaction, with emphasis on imperfectly competitive markets. Behavior of firms in strategic settings and insights of basic game-theoretic models. Welfare implications of alternative market organizations, consequences of market power, and scope for government regulation and antitrust/competition policies. Topics include monopoly and price discrimination, oligopoly models, product quality, product differentiation, vertical integration, information and advertising, patents, R&D and innovation, and regulation. Nonmajor graduate credit.

ECON 418. Introduction to Game Theory.
(3-0) Cr. 3. Prereq: 301
Systematic introduction to game theory and its uses in economics. Develops the basic framework, models and tools necessary to analyze games of strategy, including: Strategic and extensive-form representations of games; best response functions and Nash equilibrium, mixed strategies backward induction and subgame-perfect equilibrium, imperfect and incomplete information, Bayesian and sequential equilibria. Examples and applications taken from economics, business, political science, law and biology. Nonmajor graduate credit.

ECON 431. Managerial Economics.
(3-0) Cr. 3. Prereq: 301
Theory of the firm; organizational incentives and efficiency; moral hazard; role of information and decision making under uncertainty; ownership and control; business investment. Nonmajor graduate credit.

ECON 437. Commodity Marketing and Risk Management.
(3-0) Cr. 3. Prereq: 235, 301, STAT 326

ECON 455. International Trade.
(3-0) Cr. 3. Prereq: 301
Rigorous treatment of theories of international trade and international factor movements. Examination of the impact of trade and labor migration on domestic and world welfare and on the distribution of income. Theoretical analysis of government policies towards trade and factor movements, including quotas, tariffs, free trade areas and immigration restrictions. Discussion of contemporary issues and controversies concerning globalization, including multinational firms and labor migration. Nonmajor graduate credit.

Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: 302
National income accounting and balance of payments; foreign exchange rates and exchange rate markets; money, interest rates, and exchange rate determination; prices, exchange rates, and output in the short run; international monetary arrangements; fixed versus flexible exchange rates; optimal currency areas; international capital flows; currency and financial crises in emerging markets. Nonmajor graduate credit.

(Cross-listed with E E). (3-0) Cr. 3. Prereq: E E 303 or ECON 301

ECON 460. Agricultural, Food, and Trade Policy.
(Dual-listed with 560). (3-0) Cr. 3. Prereq: 301 or 501
Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macropolicy, world economy, international trade, and bioenergy on U.S. agriculture. Nonmajor graduate credit.

ECON 466. Agricultural Finance.
(3-0) Cr. 3. Prereq: 301, STAT 226, FIN 301 and ECON 353 (recommended)
Financial analysis of agricultural businesses; liquidity, capital structure, and growth and risk of agricultural firms; capital budgeting methods; analysis of land investments, leasing, and costs of credit; financial intermediation and major financial institutions for agriculture; borrower-lender relationships, and asset-liability management techniques by financial intermediaries; public policies affecting agricultural credit markets. Nonmajor graduate credit.
ECON 480. Intermediate Environmental and Resource Economics. 
(Dual-listed with 580). (3-0) Cr. 3. Prereq: 301 or 501

ECON 490. Independent Study. 
Cr. 1-5. Repeatable, maximum of 6 credits. Prereq: Junior or senior classification, 14 credits in economics
Offered on a satisfactory-fail basis only. No more than 9 credits of Econ 490 may be used toward graduation
E. Entrepreneurship

ECON 492. Graduating Senior Survey. 
Cr. R. Prereq: Graduating senior
Final preparations for graduation. The final stages of job searching, interviewing, letter writing, and resume preparation. Outcomes assessment information from graduating seniors including opinion surveys, instructor/advisor/course evaluations, exit interviews, student accomplishment surveys, job placement surveys, and comprehensive skills examinations. Departmental recognition of graduating seniors. Life as an alumnus - expectations and obligations. Convocation and commencement information. Offered on a satisfactory-fail basis only.

ECON 496. Economics Travel Course. 
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: Sophomore status; permission of instructor
Tour and study of international agricultural and/or nonagricultural economies, markets, and institutions. Locations and duration of tours will vary. Limited enrollment.
Meets International Perspectives Requirement.

ECON 498. Cooperative Education. 
Cr. R. Prereq: Permission of the department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

ECON 500. Quantitative Methods in Economic Analysis I. 
(4-0) Cr. 4. Prereq: 301, 1 year of calculus, STAT 401, and permission of Director of Graduate Education
Economic applications of selected mathematical and statistical concepts: linear models and matrix algebra; differential calculus and optimization; integral calculus and economic dynamics; probability distributions, estimation, and hypothesis testing in the analysis of economic data.

ECON 501. Microeconomics. 
(4-0) Cr. 4. Prereq: 301, credit or enrollment in 500 or equivalent background in calculus and statistics
The theory of the consumer, theory of the firm, perfect and imperfect competition, welfare economics, and selected topics in general equilibrium and uncertainty.

(4-0) Cr. 4. Prereq: 302, credit or enrollment in 500 or equivalent background in calculus and statistics
Models of aggregate supply and demand, theories of consumption and investment, money supply and demand, inflation, rational expectations, stabilization policy, financial markets, and international finance.

(2-2) Cr. 3. Prereq: 500, 501; or 600, 601
Use of numerical techniques to solve economic problems. Numerical differentiation and integration numeric solutions of systems of equations, static and dynamic optimization problems including unconstrained optimization, maximum likelihood methods, general nonlinear programming methods, dynamic programming and optimal control, numerical methods for solving functional equations.

ECON 520. Labor Supply and Human Capital Formation. 
(3-0) Cr. 3. Prereq: 501 or 601
Labor supply decisions and empirical analysis for agricultural operators and other self-employed and wage-earning households; multiple job holding; resource allocation in productive households; human capital formation by households, firms, and public institutions, which includes schooling, on-the-job training, migration, health, research, raising of children, and implications for household income and welfare; applications to problems in rural areas of developing and developed countries.

ECON 521. Labor Markets. 
(3-0) Cr. 3. Prereq: 501 or 601
Analysis of labor demand and market determination of wages and employment; analysis of distortions in labor markets due to non-competitive forces, legislation, and discrimination; wage inequality, compensation and work incentives; compensating differentials; microeconomic analysis of unemployment and job search.

ECON 530. Advanced Farm Management. 
(2-0) Cr. 2. Prereq: 6 credits in economics
Offered off campus as demand warrants. Risk management principles applied to agriculture. Sources of risk and uncertainty. Attitudes toward risk. Techniques for analyzing and controlling production, marketing, financial, legal and human risk. Designed for master of agriculture program only.

ECON 532. Managerial Economics for the Global Organization. 
(3-0) Cr. 3. Prereq: 101 and enrollment in MBA or BAS program; not for economics majors
Applications of microeconomic theory and decision analysis for firms operating in U.S. and internationally. Topics include demand & supply, consumer choice theory, production and cost theory, short run and long run business decisions, input cost and human capital differences across countries, empirical estimation of demand and supply, pricing, exchange rates, government and business, market structures and strategy.

ECON 533. Economic and Business Decision Tools. 
(Cross-listed with BUSAD). (3-0) Cr. 3. Prereq: ECON 501 or 532
Team taught by faculty in the Department of Economics and the College of Business, this course focuses on applied economic and business tools for decision making. The topics include: Monte Carlo analysis with applications to option pricing and insurance mechanism design, portfolio analysis using existing standard spreadsheet software and add-ons, dynamic programming tools for inventory management and sequential decisions, discrete choice modeling and statistical bootstrapping, and financial performance evaluation using commercially available software.

(2-0) Cr. 2. Prereq: 6 credits in economics
(3-0) Cr. 3. Prereq: 501 or 502, 532 or 601, ECON 571 or STAT 326

ECON 545. Public Economics.
(3-0) Cr. 3. Prereq: 501 or 601
Optimal taxation; excess burden; partial and general equilibrium analysis of tax incidence; social insurance; effects of taxation on labor supply and savings; economics of the health sector.

ECON 553. Applied Research in Monetary and Macroeconomics.
(3-0) Cr. 3. Prereq: 502, 571
Application of economic theory to the analysis of contemporary issues in macroeconomics, monetary economics, and financial economics.

ECON 555. Issues in International Economics.
(3-0) Cr. 3. Prereq: 501, 502
Theories of international trade and finance. Emphasis on current policy issues in international economics.

(Dual-listed with 460). (3-0) Cr. 3. Prereq: 301 or 501
Description and analysis of economic problems of U.S. agriculture. Explanation and economic analysis of government policies and programs to develop agriculture, conserve agricultural resources, address consumer food concerns, stabilize farm prices, and raise farm incomes. The influence of macroeconomic policy, world economy, international trade, and bioenergy on U.S. agriculture.

(2-0) Cr. 2. Prereq: 101
Off campus. Offered as demand warrants. Government policy and the policy-making process as it affects food, agriculture, and trade. Description and analysis of government policies and programs designed to address production agriculture problems and consumer food concerns. Evaluation of the interaction of agriculture and world trade as affected by U.S. and foreign government policies. Designed for master of agriculture program only.

ECON 571. Intermediate Econometrics.
(3-0) Cr. 3. Prereq: 500
Single and multiple equation regression models; dummy explanatory variables; serial correlation; heteroskedasticity; distributed lags; qualitative dependent variables; simultaneity. Use of econometric models for tests of economic theories and forecasting.

ECON 576. Spatial Economics.
(3-0) Cr. 3. Prereq: 501 or 601
Analysis of location choice by firms, employees, and households emphasizing the role of spatial variations in agglomeration economies, economies of scale, distance, transport, endowments, amenities, and local government. Models of land use, urban form, spatial competition, central place theory, and migration. Techniques of discrete choice analysis, statistical analysis of categorical data, urban system modeling, and interregional computable general equilibrium.

ECON 580. Intermediate Environmental and Resource Economics.
(Dual-listed with 480). (3-0) Cr. 3. Prereq: 301 or 501

ECON 581. Advanced Environmental Economics.
(3-0) Cr. 3. Prereq: 501 or 601

ECON 590. Special Topics.
Cr. 1-5. Repeatable. Offered on a satisfactory-fail basis only.

ECON 599. Creative Component.
Cr. 1-5. Offered on a satisfactory-fail basis only.

Courses for graduate students

ECON 600. Quantitative Methods in Economic Analysis II.
(4-1) Cr. 4. Prereq: 500
Unconstrained and equality- and inequality-constrained optimization; the Kuhn-Tucker formulation; abstract spaces; dynamic programming; dynamical systems.

ECON 601. Microeconomic Analysis I.
(4-1) Cr. 4. Prereq: 301, previous or concurrent enrollment in 600 and permission of Director of Graduate Education
Economic theory and methodology; theory of consumer behavior, theory of the competitive firm, supply and factor demand; duality relations in consumer and producer theory, welfare change measures; partial equilibrium analysis, perfect competition, monopoly; choice under uncertainty, the expected utility model, risk aversion; insurance, portfolio and production decisions under risk.

ECON 602. Macroeconomic Analysis.
(4-1) Cr. 4. Prereq: 301, 302, previous or concurrent enrollment in 600 and permission of Director of Graduate Education
Economic equilibrium, growth, business cycles; endogenous growth models; equilibrium business cycle theories; equilibrium job search and matching; models of money; fiscal and monetary policy; income and wealth distribution.

ECON 603. Microeconomic Analysis II.
(4-1) Cr. 4. Prereq: 601, 602 and permission of Director of Graduate Education
General equilibrium analysis, efficiency, and welfare; market failures, externalities, and the theory of the second best; introduction to game theory; adverse selection, signaling, screening and moral hazard.

ECON 604. Advanced Macroeconomic Analysis.
(4-1) Cr. 4. Prereq: 601, 602 and permission of Director of Graduate Education
Topics will be selected from: new Keynesian approaches to business cycle theory; endogenously generated business cycles; models of credit and financial intermediation; mechanism design and time inconsistency issues; political economy models; heterogeneous-agent models with strategic interaction; path dependence, network effects, and lock-in; economies as evolving self-organizing systems.

ECON 605. Advanced Topics in Microeconomics.
(3-0) Cr. 3. Prereq: 603
Selected topics in microeconomic theory of current significance to the profession.

ECON 606. Advanced Topics in Macroeconomics.
(3-0) Cr. 3. Prereq: 603, and credit or current enrollment in 604
Selected topics in macroeconomic theory of current significance to the profession.
ECON 615. Theoretical Industrial Organization.  
(3-0) Cr. 3. Prereq: 603  
Theoretical analysis of traditional topics in industrial organization. Review of game theory. Monopoly and oligopoly theory, price discrimination, product differentiation, research and development, diffusion of innovation, network externalities, and asymmetric information.

(3-0) Cr. 3. Prereq: 603, 671  

ECON 618. Game Theory.  
(3-0) Cr. 3. Prereq: 603, or 501 and permission of instructor  
Theoretical analysis and applications of strategic games, extensive form games, and cooperative games. Nash equilibrium, correlated equilibrium, Bayesian games, subgame perfect equilibrium, the core, evolutionary equilibrium, repeated games with finite automata, and common knowledge.

ECON 641. Agricultural Economics I.  
(3-0) Cr. 3. Prereq: 603  

ECON 642. Agricultural Economics II.  
(3-0) Cr. 3. Prereq: 603  

ECON 653. Financial Economics.  
(3-0) Cr. 3. Prereq: 603, 672. Recommended: 674, STAT 561  

ECON 654. Advanced Topics in Financial Economics.  
(3-0) Cr. 3. Repeatable. Prereq: 603  
Selected topics in financial economics of current significance to the profession.

ECON 655. International Trade.  
(3-0) Cr. 3. Prereq: 603  
Theories of international trade; welfare and distributional aspects of trade and commercial policies. Optimal trade policies in the presence of domestic distortions; strategic trade policy; international trade and economic growth.

(3-0) Cr. 3. Prereq: 602  
The intertemporal approach to current account determination; non-traded goods and the real exchange rate; fiscal policy in the open economy; monetary approach to balance of payments and exchange rate determination; sticky price models of the open economy; exchange-rate based stabilizations; capital inflows; financial and balance of payments crises; international business cycles.

ECON 671. Econometrics I.  
(4-1) Cr. 4. Prereq: 501 and STAT 447 or 542  
Probability and distribution theory and multivariate and normal random variables, introduction to the theory of estimators for linear models, hypothesis testing and inference, introduction to large sample properties of estimators; derivation of common estimators and their properties for the classical and general multiple regression models, hypothesis testing, forecasting, implications of specification errors - missing data, left-out regressors, measurement error, stochastic regressors.

ECON 672. Econometrics II.  
(4-1) Cr. 4. Prereq: 671  
Identification, estimation, and evaluation of systems of simultaneous equations; qualitative choice and limited dependent variable models; introduction to time series methods and applications, including alternative variance specifications.

ECON 673. Microeconometrics.  
(3-0) Cr. 3. Prereq: 672, 601  
Equation treatment of models arising in microeconometric applications. Methods are primarily concerned with the analysis of cross-section data. Topics may include: systems of demand equations in panel data settings, random utility models of discrete choices, production possibilities frontier estimation, and discrete/continuous models of participation and consumption.

ECON 674. Macroeconometrics.  
(3-0) Cr. 3. Prereq: 672, 602  
Time-series econometric techniques and their application to macroeconomics and financial markets. Techniques may include GARCH and ARCH-M models, unit-root tests, nonlinear adjustment models, structural VARs, and cointegration tests.

ECON 675. Advanced Topics in Econometrics.  
(3-0) Cr. 3. Repeatable. Prereq: 672 or STAT 543  
Advanced treatment of issues important in econometrics. Topics chosen from asymptotic theory, nonlinear estimation, Bayesian and robust econometrics, econometric time series, limited dependent variables and censored regression models, nonparametric and semiparametric methods, bootstrapping and Monte Carlo techniques, etc.

(3-0) Cr. 3. Prereq: 603  
Dynamic allocation of scarce, exhaustible, and renewable natural resources, including minerals and energy, soil, water, forests, and fish. Social versus private decisions. Market and nonmarket considerations. Technological change. Regulation. Dynamics and uncertainty.

ECON 690. Advanced Topics.  
Cr. 1-5. Repeatable. Offered on a satisfactory-fail basis only.

ECON 691. Third-Year Paper.  
Cr. 3.  
Under the direction of the major professor, Ph.D. students write a formal research paper as an introduction to the dissertation research process. Offered on a satisfactory-fail basis only.

ECON 693. Workshops.  
Cr. 1-3. Repeatable. Prereq: 6 graduate credits in chosen field  
Offered on a satisfactory-fail basis only.
Cr. arr. Repeatable.
Offered on a satisfactory-fail basis only.
**Undergraduate Study**

As one of the core disciplines of the liberal arts, English promotes an understanding of the way language functions and provides all students with fundamental skills needed to succeed in college, at work, and as citizens. Courses in the department prepare students to communicate effectively, fostering critical thinking, leadership ability, and democratic engagement. English courses are part of the university requirements for all students. In addition, students may take English courses as elective credits or as part of the undergraduate major or minor in English or Technical Communication. Similarly, English or Technical Communication majors commonly complete minors and/or second majors in other departments. Students seeking licensure to teach English may obtain secondary endorsements in other subjects.

As part of Iowa State’s commitment to interdisciplinary study and cultural inclusiveness, English also has strong ties with African American Studies, American Indian Studies, Classical Studies, Latina/o Studies, Linguistics, Speech Communication, and Women’s Studies. In addition to course offerings in literature, creative writing, linguistics, speech communication, rhetoric, and technical communication, the field of English studies features strong connections with the technical, scientific, and environmental work that distinguishes Iowa State.

The department also offers communication courses through the ISUComm program. These courses benefit all ISU undergraduates by addressing written, oral, visual, and electronic communication, or WOVE. WOVE prepares students for the full spectrum of 21st-century communication activities.

Because of Iowa State’s international stature, the Intensive English and Orientation Program in the department offers special courses in English for both undergraduate and graduate students who are native speakers of other languages. (See catalog entries under English Courses for Native Speakers of Other Languages and English Requirement for International Students.)

**English Major Requirements**

English majors are required to have, in addition to ISUComm foundation courses (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition), at least 37 credits in English. English majors transferring from other institutions must take at least 18 of their credits in English while in residence at Iowa State.

To graduate with a major in the English Department, a student must earn at least a C (not a C-) in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition as well as in each of the courses taken to fulfill the program of study. Earning at least a C in ISUComm foundation courses and in one advanced communication course also meets the departmental Communication Proficiency requirement.

* Indicates English courses or groups required for students seeking teacher licensure

---

**Texts and Language**

- ENGL 205 Popular Culture Analysis
- ENGL 206 Introduction to Creative Writing
- ENGL 220 Descriptive English Grammar
- ENGL 225 Survey of British Literature to 1800 *
- ENGL 226 Survey of British Literature since 1800 *
- ENGL 227 Survey of American Literature to 1865 *
- ENGL 228 Survey of American Literature since 1865 *
- ENGL 260 Introduction to Literary Study *

---

**Critical Reading and Textual Analysis**

- ENGL 310 Rhetorical Analysis *
- ENGL 339 Literary Theory and Criticism
- ENGL 350 Rhetorical Traditions

---

**ENGL 396 Teaching the Reading of Young Adult Literature * 3**
- ENGL 302 Business Communication
- ENGL 303 Free-Lance Writing for Popular Magazines
- ENGL 304 Creative Writing--Fiction
- ENGL 305 Creative Writing--Nonfiction
- ENGL 306 Creative Writing--Poetry
- ENGL 309 Report and Proposal Writing
- ENGL 313 Rhetorical Website Design
- ENGL 314 Technical Communication
- ENGL 315 Creative Writing--Screenplays
- ENGL 316 Creative Writing--Playwriting
- ENGL 475 World Literature: Western Foundations through Renaissance *
- ENGL 476 World Literature: Seventeenth Century to the Present *
- ENGL 420 History of the English Language *

---

**Additional Requirements: All English majors must complete the following within the 120 credits required for the degree:**

- Three credits in Women’s or Multicultural Literature (340s, 352) *
- Six credits in English classes at the 300 level *
- Nine credits in English classes with a historical perspective* (choose from the following or any 360s or 370s course)

---

**ENGL 225 Survey of British Literature to 1800 * 12**
- ENGL 228 Survey of American Literature since 1865 *
- ENGL 237 Survey of Film History
- ENGL 350 Rhetorical Traditions
- ENGL 353 World Literature: Western Foundations through Renaissance *
- ENGL 354 World Literature: Seventeenth Century to the Present *
- ENGL 420 History of the English Language *

---

Students seeking teacher licensure in English Education should consult their adviser for a complete list of courses that meet major requirements and specialized licensure requirements (see Teacher Education section in this catalog). Among those licensure requirements are the following additional courses in English:

- ENGL 353 World Literature: Western Foundations through Renaissance *
- ENGL 397 Practice and Theory of Teaching Writing in the Secondary Schools *
- ENGL 494 Practice and Theory of Teaching Literature in the Secondary Schools *
- ENGL 417 Student Teaching *

---

**Additional course requirements outside of English for students seeking teacher licensure include the following:**

- C I 202 Digital Learning in the 7-12 Classroom
- C I 204 Social Foundations of American Education
- C I 280A Teacher Aide, Cr. 1 or 2
- C I 395 Teaching Reading in Middle and Secondary Schools
- C I 406 Multicultural Foundations of School and Society: Introduction
- C I 426 Principles of Secondary Education
- SP ED 401 Teaching Secondary Students with Exceptionalities in General Education
- PSYCH 230 Developmental Psychology
Learning Outcomes

Students who graduate with an English major will be able to

- demonstrate understanding of the history, nature, and structure of literature, language, and rhetoric and the fundamental roles they play in the development and expression of culture.
- demonstrate abilities fundamental to the study of English, such as creating texts, conducting research, and formulating arguments in a variety of WOVE (written, oral, visual, and electronic) modes.
- read, comprehend, analyze, interpret, and critique texts.
- situate texts in multiple contexts, (e.g., historical, theoretical, aesthetic, social/political, and ethical contexts).
- demonstrate understanding of disciplinary terminology, diverse intellectual perspectives, multiple analytical strategies, and fundamental skills (e.g., research, analysis, synthesis, presentation, collaboration, production, assessment, etc.) employed in English studies.
- comprehend the nature and function of civic humanism and life-long learning.

Graduates of advanced degree programs in the department will have, in addition to these skills, knowledge of theory, methodology, and practice within their disciplines; advanced skills in research, innovation, and creative and critical thinking; and well-developed skills in problem-solving and critical analysis.

Degree Choices

English majors may earn a bachelor of arts or a bachelor of science degree; Technical Communication majors may earn a bachelor of science degree only. For English majors, the B.S. degree requires an extra 12 credits beyond the general education requirements; these credits must be taken in Linguistics, natural science, mathematics, social science, or selected courses in Kinesiology.

English Minor Requirements

The minor in English prepares students in any discipline for which communication activities are needed to succeed in their professions. Minors in English will complete 15 credits beyond ENGL 150 Critical Grammar for 3 of these credits.)

Technical Communication Minor Requirements

The department offers a minor in Technical Communication, which students may earn by completing the following:

The Designated Area of Concentration (DAC) is a student-designed grouping of related courses in a technical, scientific, or design field that will meet the student’s professional or academic interests. Courses for the 6-credit DAC must be taken outside the English Department and approved by the Technical Communication Program Coordinator. A second major or a minor in areas such as computer science, social science, natural science, entrepreneurship studies, design studies, engineering studies, or another technical, scientific, or design field may substitute for the DAC.
preparation for the M.A. in TESL/Applied Linguistics: Computer-Assisted Language Learning (CALL); Language Assessment; English for Specific Purposes (ESP); Literacy; and Language in ESL. The master of arts degree requires 30 hours of graduate credits, including a thesis or project (3 credits). The M.A. in English and the M.A. in TESL/Applied Linguistics have language requirements that may be met through a number of options, including previous foreign language study, graduate linguistics courses, or satisfactory performance on a test-out exam. A student whose native language is other than English is considered to have met the language requirement after satisfying the Graduate College English requirement.

The Master of Fine Arts program in Creative Writing and Environment is unique in its effort to cultivate in its students an interdisciplinary approach to research and writing, as well as develop a heightened environmental imagination that finds expression in quality, publishable works of fiction, nonfiction, and poetry. The program is designed to prepare students for careers as writers, teachers at the college and university level, and editors. Prospective students must first secure admission to the graduate studies program through the English Department. Candidates are required to complete 72 hours of graduate credit and a dissertation, and to pass a portfolio assessment, a preliminary examination consisting of a dissertation proposal and pilot study and a written response to questions about the proposal or pilot study, and an oral defense of the dissertation.

The Doctor of Philosophy in Rhetoric and Professional Communication focuses on the theory of rhetoric and the practice of written communication in professional communities such as business, industry, and government. The degree qualifies graduates for academic positions in rhetoric and in business and technical communication, as well as for work in the private sector as professional writing specialists, editors, and communications production managers. Prospective students must first secure admission to the graduate studies program through the English Department. Candidates are required to complete 72 hours of graduate credit and a dissertation, and to pass a portfolio assessment, a preliminary examination consisting of a comprehensive examination and a special field examination, and an oral defense of the dissertation.

A Graduate Certificate in Teaching English as a Second Language is a 12 credit program that includes two prerequisites, one core requirement (ENGL 518 Teaching English as a Second Language Methods and Materials), and three graduate courses chosen from a list of accepted graduate courses.

The department offers graduate students an opportunity to gain professional experience through professional writing internships, selected departmental research activities, the Intensive English and Orientation Program (IEOP), the ISUComm foundation courses program, the advanced communication program, and the interpersonal and rhetorical communication program. Teaching and research assistantships are available for qualified students. Teaching assistants are responsible for teaching with faculty supervision, classes in ISUComm foundation courses, courses in public speaking, courses in English as a second language, and courses in business and technical communication. Research assistants are assigned to individual faculty members responsible for teaching with faculty supervision, classes in ISUComm foundation courses, courses in public speaking, courses in English as a second language, and courses in business and technical communication. Research assistants are assigned to individual faculty members.

With prior written approval from the College of Human Sciences, students may take English courses to meet part of the requirements for certification to teach English in two-year and community colleges. Selected courses may also be used to meet requirements for ESL endorsement (K-12) for teachers.

A graduate minor in the English Department at the M.A. level requires 9 credits of English at the 500 or 600 level in the respective major (English, RCP, TESL/A). A graduate minor in the English Department at the M.F.A. or Ph.D. level requires 12 credits at the 500 or 600 level in the respective major (CWE, ALT, RPC).

**Courses primarily for undergraduate students**

ENGL 010. Intensive English and Orientation Program.

21-0 Cr. arr. F.S.SS. Prereq: Recommendation of the English Department

Full-time study of English for speakers of other languages. Brochure available from the IEOP Office, 102 Landscape Architecture, or at www.ieop.iastate.edu. Offered on a satisfactory-fail basis only.

The Department of Philosophy in Applied Linguistics and Technology focuses on English language teaching and assessment with particular emphasis on issues and practices related to technology use in these areas. It prepares students to hold a variety of academic appointments in depart-
ENGL 099. Strategies for Non-native Speakers of English.
Cr. art. F.S. Prereq: Recommendation of English Department; placement in sections L and R is determined by examination; section S is open to all interested international students. Available P/NP to graduate students at their department’s option.

L. Strategies for Listening.
R. Strategies for Reading.
S. Academic Speaking and Pronunciation.

ENGL 101. English for Native Speakers of Other Languages.
(3-0) Cr. 3. F.S. Prereq: Recommendation of English Department; placement in various sections is determined by examination. (See English Requirement for International Students in Index.)

For undergraduates: Completion of English 101 prepares students for English 150. For graduates: Completion of English 101 satisfies the English requirement of the Graduate College. ENGL 101 courses are limited to students who are nonnative speakers of English. Credit from Enl 101 does not count toward graduation.

B. Academic English
C. Academic English II—Undergraduates.
D. Academic English II—Graduates. Available P/NP to graduate students at their department’s option.
I. Available P/NP to graduate students at their department’s option.

ENGL 120. Computers and Language.
(Cross-listed with LING). (3-0) Cr. 3.
Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

ENGL 150. Critical Thinking and Communication.
(3-0) Cr. 3. F.S.S. Prereq: Credit for or concurrent enrollment in LIB 160 Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

ENGL 180. Communication Skills for International Teaching Assistants.
Cr. 1-3. Repeatable, maximum of 2 times. F.S. Placement based upon SPEAK/TEACH test results. Persons whose native language is English cannot take 180 for credit. No more than one section of 180 may be taken per semester; up to two sections total. Offered on a satisfactory-fail basis only. Credit for Engl 180 does not apply toward graduation.

A. Speaking Skills. Cr. 3. Emphasis on pronunciation improvement and greater fluency in spoken English for teaching purposes.
B. Intermediate Spoken English. Cr. 3.
C. Advanced Spoken English. Cr. 3. For students who have completed 180A or 180B but have not reached the passing level on the SPEAK/TEACH test.
D. Presentation Skills. Cr. 3. Developing explanations, leading discussions and handling questions in a teaching environment.
E. Supervised Independent Study. Cr. 1. Seminar with individual observation and consultation.

ENGL 199. Introduction to the Study of English.
(1-0) Cr. R. F.S.
8 weeks. General introduction to the discipline; discussion of the various fields in English; consideration of career opportunities. Offered on a satisfactory-fail basis only.

ENGL 201. Introduction to Literature.
(3-0) Cr. 3. Prereq: Credit in or exemption from 150 Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL 205. Popular Culture Analysis.
(Cross-listed with SP CMI). (3-0) Cr. 3. F.S. Prereq: Credit in or exemption from 150 Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

ENGL 207. Introduction to Creative Writing.
(3-0) Cr. 3. F.S. Prereq: Credit in or exemption from 150 Course introduces students to the fundamentals of writing fiction, poetry, and creative nonfiction. Extensive readings in all three genres. Students learn creative processes through writing exercises, workshops, and conferences.

ENGL 219. Introduction to Linguistics.
(Cross-listed with LING). (3-0) Cr. 3. F.S. Prereq: Sophomore classification Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

ENGL 220. Descriptive English Grammar.
(Cross-listed with LING). (3-0) Cr. 3. F.S. Prereq: 250 Overview of grammatical structures and functions. Parts of speech; phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

ENGL 225. Survey of British Literature to 1800.
(3-0) Cr. 3. Prereq: 250 Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 226. Survey of British Literature since 1800.
(3-0) Cr. 3. Prereq: 250 Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

ENGL 227. Survey of American Literature to 1865.
(3-0) Cr. 3. Prereq: 250 Representative works of American literature from its origins (including indigenous and conquest literatures) through the end of the Civil War in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 228. Survey of American Literature since 1865.
(3-0) Cr. 3. Prereq: 250 Representative works written in the United States since the Civil War in historical, cultural, and literary contexts, with attention to the cultural and ethnic diversity of Americans. Will include multiple genres.

ENGL 237. Survey of Film History.
(3-0) Cr. 3. F. Prereq: Credit in or exemption from 150 A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 240. Introduction to American Indian Literature.
(Cross-listed with AM IN). (3-0) Cr. 3. F. Prereq: Credit in or exemption from ENGL 150 Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.

Meets U.S. Diversity Requirement.
ENGL 250. Written, Oral, Visual, and Electronic Composition.  
(3-0) Cr. 3. F.S.SS. Prereq: 150 or exemption from 150; sophomore classification or exemption from 150; credit for or concurrent enrollment in LIB 160  
Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of student portfolio. 

H. Written, Oral, Visual, and Electronic Composition, Honors 

ENGL 250H. Written, Oral, Visual, and Electronic Composition, Honors.  
(3-0) Cr. 3. F. Prereq: Exemption from 150 and admission to Freshman Honors Program; credit for or concurrent enrollment in LIB 160  
In-depth analysis, composition, and reflection on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on argumentation: developing claims, generating reasons, providing evidence. Individual sections organized by special topics. Development of student portfolio. 

ENGL 260. Introduction to Literary Study.  
(3-0) Cr. 3. Prereq: Credit in or exemption from 150  
Basic principles of literary study. Emphasis on writing of interpretive and critical essays. Particular attention to poetry. Designed for English majors. 

(3-0) Cr. 3. F.S.SS. Prereq: 250, junior classification  
Theory, principles, and processes of effective written, oral, visual, and electronic communication typically encountered in business and the professions. Extensive practice in many areas of workplace communication, including letter, memo, and email correspondence; short proposals and reports; policies and procedures; job packet including letters of application and resumes; website analysis; brochures; and individual and team presentations. 

H. Honors. 

(3-0) Cr. 3. S. Prereq: 250, not open to freshmen  
Practical workshop in writing nonfiction articles for popular magazines. Emphasis on writing, market research, preparation of manuscripts, methods of submission. Major goal of the course is production of marketable material. 

ENGL 304. Creative Writing--Fiction.  
(Cross-listed with W S). (3-0) Cr. 3. F. Prereq: 250, not open to freshmen  
Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences. 

ENGL 305. Creative Writing--Nonfiction.  
(3-0) Cr. 3. F.S. Prereq: 250, not open to freshmen  
Workshop in writing imaginative essays, both critical and personal. Analytical reading, development of literary techniques. Individual and small group conferences. 

ENGL 306. Creative Writing--Poetry.  
(3-0) Cr. 3. F.S. Prereq: 250, not open to freshmen  
Progresses from traditional to contemporary forms. Emphasis on writing, analytical reading, workshop criticism, and individual conferences. 

ENGL 309. Report and Proposal Writing.  
(3-0) Cr. 3. F.S. Prereq: 250, junior classification  
Introduction to the theory and practice of preparing and analyzing reports and proposals intended for businesses, governmental agencies, and/or private and corporate foundations. Individual assignments and group projects include textual and visual elements of print and electronic documents as well as oral presentations. 

ENGL 310. Rhetorical Analysis.  
(3-0) Cr. 3. F.S. Prereq: 250  
Fundamental principles of rhetorical criticism. Focus on selected theories for analyzing cultural texts, including essays, speeches, film, technical and scientific documents, and websites. Emphasis on identifying artifacts, formulating research questions, applying methodologies, and understanding and practicing critical analysis through discussion and in writing. 

ENGL 312. Biological Communication.  
(3-0) Cr. 3. F.S. Prereq: ENGL 250  
Emphasis on effective writing and communication methods in the biological sciences, presentation of research data, methods of bibliographic citation, ethical communication, use of oral and visual presentation methods for biological information, manuscript and report preparation. For students in the biological and related life sciences. 

ENGL 313. Rhetorical Website Design.  
(3-0) Cr. 3. Prereq: 250  
Rhetorical principles of multimodal composing in hypertextual environments. Focus on writing according to web style guidelines, employing cascading style sheets for layout and design, and using principles of information architecture to determine optimal site structure. Final project involves constructing interactive client site using latest web standards. Nonmajor graduate credit. 

ENGL 314. Technical Communication.  
(3-0) Cr. 3. F.S.SS. Prereq: 250, junior classification  
Theories, principles, and processes of effective written, oral, visual, and electronic communication of technical information. Attention to major strategies for analyzing and adapting to audiences in various communication situations and composing technical discourse including organizing visual and verbal information. Extensive practice in many areas of technical communication, including instructions and procedures, proposals and reports, website analysis and design, and individual and team presentations. 

H. Honors. 

ENGL 315. Creative Writing--Screenplays.  
(Cross-listed with THTRE). (3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen  
Stresses master scene technique of writing fully developed screenplays. Emphasis on movie techniques, writing, workshop criticism, analytical reading and viewing, and individual conferences. Nonmajor graduate credit. 

ENGL 316. Creative Writing--Playwriting.  
(Cross-listed with THTRE). (3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen  
Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences. Nonmajor graduate credit. 

ENGL 330. Science Fiction.  
(3-0) Cr. 3. Prereq: 250  
Study of science fiction from its origins in nineteenth-century to the present. May include study of specific types of science fiction, such as classic, cyberpunk, feminist, or apocalyptic narratives; and may include consideration of science fiction film and/or theory. 

ENGL 332. Visual Communication of Quantitative Information.  
(Cross-listed with STAT). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: STAT 101, 104 or 226; ENGL 250  
Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays. Nonmajor graduate credit.
ENGL 335. Studies in Film.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 250
Principles of film art and the traditional vocabulary of literature as applied
to film. Influence of film on modes of thought and behavior. Nonmajor
graduate credit.

ENGL 339. Literary Theory and Criticism.
(3-0) Cr. 3. Prereq: 260 and 3 additional credits in literature
Study of selected texts of literary criticism, with attention to the
purposes and practices of criticism.

ENGL 340. Women's Literature.
(Cross-listed with W S). (3-0) Cr. 3. Prereq: 250
Historical and thematic survey of literature by and about women. May
include autobiographies, journals, letters, poetry, fiction, and drama.
Nonmajor graduate credit.
Meets U.S. Diversity Requirement

ENGL 344. U.S. Latino/a Literature.
(3-0) Cr. 3. S. Prereq: 250
An introduction to the literature of Mexican Americans, Puerto Ricans,
Cuban Americans and other Latino/a sub-groups. Special emphasis on
themes such as ethnic relations and comparisons with EuroAmerican
literary traditions.
Meets U.S. Diversity Requirement

ENGL 345. Women and Literature: Selected Topics.
(Cross-listed with W S). (3-0) Cr. 3. Prereq: ENGL 250
Literature by women and/or dealing with the images of women, e.g.,
study of individual authors or related schools of authors; exploration of
specific themes or genres in women’s literature; analysis of recurrent
images of women in literature. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

ENGL 346. American Indian Literature.
(Cross-listed with AM IN). (3-0) Cr. 3. Prereq: 250
Survey of literature by Native Americans from pre-Columbian tales and
songs to contemporary novels and poetry. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

ENGL 347. African American Literature to 1960.
(Cross-listed with AF AM). (3-0) Cr. 3. Prereq: 250
Intensive study of African American writing, possibly including slave
narratives, Harlem Renaissance works, literature of social protest, and
forerunners of contemporary works that reveal key thematic, stylistic,
and historical range of the literature. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

ENGL 348. Contemporary African American Literature.
(Cross-listed with AF AM). (3-0) Cr. 3. Prereq: 250
Intensive reading in literature by African Americans from 1960 to the
present. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

ENGL 349. Topics in Multicultural Literatures of the United
States.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 250
Literature by writers from U.S. multicultural groups. May include literature
of several groups or focus upon one of the following: Asian Americans,
African Americans, Latino/a Americans, American Indians. Nonmajor
graduate credit.
Meets U.S. Diversity Requirement

ENGL 350. Rhetorical Traditions.
(Cross-listed with CL ST, SP CM). (3-0) Cr. 3. S. Prereq: 250
Ideas about the relationship between rhetoric and society in contempo-
rary and historical contexts. An exploration of classical and contemporary
rhetorical theories in relation to selected topics that may include politics,
gender, race, ethics, education, science, or technology.

ENGL 352. Gay and Lesbian Literature.
(Cross-listed with W S). (3-0) Cr. 3. Prereq: 250
Literary portrayals of gay and lesbian lives and relationships from many
different genres. Attention to changing definitions and representations
of sexual orientation and gender identity over time. Nonmajor graduate
credit.
Meets U.S. Diversity Requirement

ENGL 353. World Literature: Western Foundations through
Renaissance.
(Cross-listed with CL ST). (3-0) Cr. 3. F S. Prereq: 250
Representative works from the drama, epics, poetry, and prose of the
Ancient World through the late sixteenth century. May include Homer,
Aeschylus, Sappho, Catullus, Dante, Marie de France, Boccaccio, Chris-
tine de Pizan, Cervantes, and others.
Meets International Perspectives Requirement.

ENGL 354. World Literature: Seventeenth Century to the
Present.
(3-0) Cr. 3. F. Prereq: 250
Global literatures in their various cultural and aesthetic contexts. Repre-
sentative works, oral and written literature, including poetry, fiction,
nonfiction, and drama.
Meets International Perspectives Requirement.

ENGL 355. Literature and the Environment.
(Cross-listed with ENV S). (3-0) Cr. 3. Prereq: 250
Study of literary texts that address the following topics, among others:
the relationship between people and natural/urban environments, ecocrit-
icism, and the importance of place in the literary imagination. Nonmajor
graduate credit.

ENGL 358. Myth and Fairytale.
(3-0) Cr. 3. Prereq: 250
Study of traditional fairtales, myths, and legends from diverse cultures.
Nonmajor graduate credit.

ENGL 359. Literature and the Arts.
(3-0) Cr. 3. Prereq: 250
Study of texts that may include the following topics: the relationship
between literature and other art forms (including painting, sculpture,
dance, music, photography, and film); the representation of the arts in
literature; the influences of other art forms on literature; the interrelation
of art theory and literary theory. Nonmajor graduate credit.

ENGL 360. Studies in American Literature to 1800.
(3-0) Cr. 3. Prereq: 250; sophomore classification
Selected readings in American literature from its beginnings through the
colonial period; may reflect themes, genres, or social and cultural
contexts.

(3-0) Cr. 3. Prereq: 250; sophomore classification
Selected readings in American literature of the 19th century; may reflect
themes, genres, or social and cultural contexts.

ENGL 364. Studies in American Literature: 1900 to the
Present.
(3-0) Cr. 3. Prereq: 250; sophomore classification
Selected readings in American literature since 1900; may reflect themes,
genres, or social and cultural contexts.
E. Teacher Education.
D. Rhetoric and Professional Communication.
B. Creative Writing.
A. Literature.

in a foreign country or in the U.S. Special fees apply.

ENGL 395. Study and Travel.
(3-0) Cr. 3. F. Prereq: 250; sophomore classification
Supervised study of an appropriate area of the discipline while traveling
in a foreign country or in the U.S. Special fees apply.

Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: 250; sophomore classification
Selected readings from British literature from the late eighteenth
century to about 1900; may reflect themes, genres, or social and cultural
contexts.

A. Romantic
B. Victorian

ENGL 376. Studies in British Literature: 1900 to the Present.
(3-0) Cr. 3. Prereq: 250; sophomore classification
Selected readings from British literature from the late eighteenth
century to about 1900; may reflect themes, genres, or social and cultural
contexts.

ENGL 389. Postcolonial Literature.
(3-0) Cr. 3. Prereq: 250; sophomore classification
Selected readings from British literature from the late eighteenth
century to about 1900; may reflect themes, genres, or social and cultural
contexts.

ENGL 393. The History of Children’s Literature.
(3-0) Cr. 3. F. Prereq: 250
Origin and development of English and American children’s literature
through the early twentieth century. Special emphasis on nature, structure,
and enduring themes of fantasy literature. Nonmajor graduate credit.

ENGL 395. Study and Travel.
Cr. arr. SS. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling
in a foreign country or in the U.S. Special fees apply.

A. Literature
B. Creative Writing
C. Linguistics
D. Rhetoric and Professional Communication
E. Teacher Education

ENGL 396. Teaching the Reading of Young Adult Literature.
(3-0) Cr. 3. S. Prereq: 250
Critical study and evaluation of themes, genres, and cultures found in
young adult literature. Strategies of effective reading; instructional strate-
gies including discussion techniques and use of technology; matching
texts to reader needs and proficiencies. Evaluation of fiction, nonfiction,
and media-based materials for use in school programs. Lesson planning.
Nonmajor graduate credit.

ENGL 397. Practice and Theory of Teaching Writing in the Secondary Schools.
(3-0) Cr. 3. F. Prereq: 219 or 220 (Taken concurrently with C I 280. Cr. 2).
Students must begin the application process for admission to the Univer-
sity Teacher Education Program and initiate a state of Iowa Department
of Criminal Investigation background check prior to the semester in which
they plan to take English 397
Introduction to teaching secondary language arts. Current theories and
practices in the teaching of writing to secondary school students. Theo-
dories of rhetoric, approaches to teaching, lesson design and planning. Eval-
uating writing. Professional portfolio preparation.

ENGL 404. Creative Writing Workshop—Fiction.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: 304
Individual projects in short fiction on a workshop and conference basis.
Readings in short fiction. Discussion of elements of narrative such as
plot, point of view, characterization, theme, setting.

ENGL 405. Creative Writing Workshop—Nonfiction.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: 306
Individual projects in memoir, immersion journalism, character studies,
and/or the personal essay on a workshop and conference basis. Readings
in creative nonfiction.

(3-0) Cr. 3. Prereq: 310, 302, 309, 313, or 314; junior classification
Seminar course on the implication of technologies, especially computer
technology, for the writing and reading of business, technical, and acad-
emic texts. Extensive reading, discussion, and writing on selected tech-
nology-related topics.

ENGL 415. Business and Technical Editing.
(3-0) Cr. 3. S. Prereq: 305
Editing journal articles, research reports, technical manuals, newsletters,
and proposals. Attention to editorial levels and styles, project manage-
ment, editor-author relationships, and electronic editing. Nonmajor grad-
uate credit.

(3-0) Cr. 3. F. Prereq: 302, 309, or 314; junior classification
Rhetoric of visual elements in business and technical communication.
Issues in the design of text, charts, graphs, diagrams, schematics, illus-
trations, and other visual displays. Nonmajor graduate credit.

ENGL 417. Student Teaching.
(Cross-listed with C I). Cr. arr. F. S. Prereq: 494, admission to teacher
education, approval of coordinator the semester prior to student teaching
Full-time teaching in secondary English: long term and unit planning,
lesson planning, classroom teaching practice in English language arts.

E. English and Literature (Same as C I 417E.)

ENGL 418. Seminar in Argumentation.
(3-0) Cr. 3. S. Prereq: 310; junior classification
Advanced seminar in theory and analysis with extensive practice in
various modes of argument. Nonmajor graduate credit.
ENGL 420. History of the English Language.
(Cross-listed with LING). (3-0) Cr. 3. F.S. Prereq: 219, 220
Comparison of English to other languages by family background and by
type. Analysis of representative Old, Middle, Early Modern and present-
day English texts, including both literary works and non-literary docu-
ments. Nonmajor graduate credit.

ENGL 422. Women, Men, and the English Language.
(Cross-listed with LING, W S). (3-0) Cr. 3. S. Prereq: 219
The ways men and women differ in using language in varied settings and
the ways in which language both creates and reflects gender divisions.
Nonmajor graduate credit.

Meets U.S. Diversity Requirement

ENGL 425. Second Language Learning and Teaching.
(Cross-listed with LING). (3-0) Cr. 3. S. Prereq: 219; junior classification
The process of second language learning and principles and techniques of
Teaching second languages. Learning and teaching in specific situa-
tions and for particular purposes. Current applications of technology in
Teaching and assessment. Nonmajor graduate credit.

ENGL 437. Grammatical Analysis.
(Dual-listed with 537). (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: 220;
219 or 511 or introductory course in linguistics; junior classification
Theories and methods for analysis of English syntax with emphasis on
Recent syntactic theory.

ENGL 440. Seminar in British Literature.
(3-0) Cr. 3. Repeatable. Prereq: Completion of 9 credits of surveys;
Completion of or concurrent enrollment in 339; junior classification
Selected authors, movements, eras, or genres in British literature. Read-
ings in criticism; required research paper. Nonmajor graduate credit.

ENGL 441. Seminar in American Literature.
(3-0) Cr. 3. Prereq: Completion of 9 credits of surveys; completion of or
concurrent enrollment in 339; junior classification
Selected authors, movements, eras, or genres in American literature.
Readings in criticism; required research paper. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Completion of 9 credits of surveys; completion of or
concurrent enrollment in 339; junior classification
Intensive study of selected literature that bridges traditional genre, period, national, or disciplinary boundaries. Readings in criticism; required
research paper. Nonmajor graduate credit.

ENGL 450. Seminar in Literary Genres.
(3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: Completion of 9
credits of surveys; completion of or concurrent enrollment in 339; junior
classification
Intensive study of drama, film, fiction, poetry, or prose. Selected move-
ments, eras, or national traditions. Readings in criticism; required
research paper. Nonmajor graduate credit.

ENGL 460. Seminar in Gender and Ethnicity.
(Cross-listed with W S). (3-0) Cr. 3. Repeatable. Prereq: Completion of 9
credits of surveys; completion of or concurrent enrollment in 339; junior
classification
Selected readings of various authors, movements, eras, or genres. Read-
ings in criticism; required research paper. Nonmajor graduate credit.

(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 302, 309, or 314
Intensive study of a selected topic that bridges theory and practice in
technical communication. Required project that contributes to the under-
standing of an emerging issue in the profession. Nonmajor graduate
credit.

ENGL 487. Internship in Business, Technical, and Professional
Communication.
Cr. 1-3. F.S.SS. Prereq: 9 credits in 302, 309, 313, 314, 415 (preferred),
416, or 477; junior classification; and permission of coordinator
An opportunity to write, edit, and design business and technical docu-
ments in a professional setting. Projects include reports, proposals,
manuscripts, brochures, newsletters.

ENGL 489. Undergraduate Seminar.
(Cross-listed with LING). (3-0) Cr. 3. Repeatable. F. Prereq: 9 credits in
English beyond 250
Intensive study of a selected topic in literature, criticism, rhetoric, writing,
or language. Cross-listing with linguistics acceptable only when offered
as a course in linguistics. Nonmajor graduate credit.

ENGL 490. Independent Study.
Cr. arr. Repeatable, maximum of 9 credits. F. S. Prereq: 9 credits in English
beyond 250 appropriate to the section taken; junior classification; permis-
sion of Undergraduate Studies Committee
Designed to meet the needs of students who wish study in areas other
than those in which courses are offered, or who desire to integrate a
study of literature or language with special problems in major fields. No
more than 9 credits of Eng 490 may be used toward graduation.

A. Literature
B. Linguistics, Semantics (Ling 490B)
C. Rhetoric, Teaching of Composition
D. Criticism and Theory of Literature
E. Reading: Instructional Methods and Research
F. Creative Writing
G. Business/Technical Communication
H. Honors

ENGL 494. Practice and Theory of Teaching Literature in the
Secondary Schools.
(Cross-listed with C I). (3-0) Cr. 3. F.S. Prereq: ENGL 310, 397, 9 other
credits in English beyond 250, PSYCH 333, admission to teacher educa-
tion program
Portfolio review. Current theories and practices in the teaching of litera-
ture to secondary school students. Integrating literacy study and writing.
Preparation and selection of materials. Classroom presentation. Unit plan-
ing. (Taken concurrently with C I 280, Cr. 2, and Sp Ed 450).

ENGL 497. Capstone Assessment.
Cr. 1. F.S. Prereq. Junior status
Must be taken in conjunction with a 400-level English course.

Courses primarily for graduate students,
only to qualified undergraduate students

ENGL 500. Proseminar: Teaching English Composition.
(3-0) Cr. 3. F.
Required of all new English teaching assistants. Introduction to the
Teaching of ISUComm Foundation Courses. Foundational and rele-
vant newer composition theory and pedagogical methods related to
ISUComm Foundation Courses objectives and their classroom enact-
ment, including development of assignments and supporting activities,
and evaluation of student projects.

ENGL 501. Research Methods in Rhetoric and Professional
Communication.
(3-0) Cr. 3. Prereq: 6 graduate credits in English
Survey of the major qualitative and quantitative methods used in research
on communication and language in academic and nonacademic settings.

ENGL 503. Theory and Research in Composition.
(3-0) Cr. 3. Prereq: 6 graduate credits in English
In-depth consideration of the theory and practice of critical composition
pedagogy. Opportunities for actual classroom application.
ENGL 504. Teaching Business and Technical Communication. (3-0) Cr. 3. F.S.SS. Prereq: MA in English or closely related field and must be teaching ENGL 302, 309, or 314 concurrently. Practicum in teaching college courses in business and technical communication. Emphasis on curriculum planning, textbook selection, assignment design, materials development, and assessment of student work.

ENGL 505. Technology in Business, Technical, and Professional Communication. (3-0) Cr. 3. Prereq: Graduate classification Seminar course examining the role of technology, especially computer technology, in communication practices within academic and workplace settings.

ENGL 506. Theory and Research in Professional Communication. (3-0) Cr. 3. Introduction to professional communication as a discipline, with emphasis on theories of communication and discourse that inform professional communication research and on trends and developments in that research and the field.

ENGL 507. Writing and Analyzing Professional Documents. (3-0) Cr. 3. Introduction to the theory and practice of planning, preparing, and presenting information in written, oral, and visual forms prepared for business, science, industry, and government. Guided readings. Team projects. Individual projects.

ENGL 508. Advanced Workshop in Academic Writing. (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 graduate credits Hands-on practice in writing academic discourse for publication; rhetorical analyses of student-selected academic journals; discussion of current trends in academic writing; professional perspectives on the referee process and on journal editorial decision making. Focus on the writing of selected short pieces (opinion essays, standard reviews, conference-length papers) and of article-length manuscripts.

ENGL 509. Writing Proposals and Grant Applications. (3-0) Cr. 3. Introduction to the theory and practice of preparing and analyzing proposals and grant applications intended for businesses, governmental agencies, and/or private and corporate foundations. Individual assignments and group projects include text documents and oral presentations.

ENGL 510. Introduction to Computers in Applied Linguistics. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: Graduate classification Use of applications software for language teaching, linguistic analysis, and statistical analysis. Issues and problems in applied linguistics related to computer methods.

ENGL 511. Introduction to Linguistic Analysis. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: Graduate classification Principles and methods of linguistic analysis with emphasis on phonology, morphology, and syntax. Description of linguistic variation and current theoretical approaches to linguistics.

ENGL 513. Language Assessment Practicum. (Cross-listed with LING). (3-0) Cr. 3. F.S.SS. Prereq: 519 Advanced practicum in language assessment.

ENGL 514. Sociolinguistics. (Cross-listed with LING). (3-0) Cr. 3. S. Prereq: 511 or an introductory course in linguistics Theories and methods of examining language in its social setting. Analysis of individual characteristics (e.g., age, gender, ethnicity, social class, region), interactional factors (e.g., situation, topic, purpose) and national policies affecting language use.

ENGL 515. Statistical Natural Language Processing. (Cross-listed with LING, HCI). (3-0) Cr. 3. F. Prereq: STAT 330 or equivalent, recommended LING 219 or LING 511 Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

ENGL 517. Second Language Acquisition. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: 511 or an introductory course in linguistics Theory, methods, and results of second language acquisition research with emphasis on approaches relevant to second language teaching.

ENGL 518. Teaching English as a Second Language Methods and Materials. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: 511 or an introductory course in linguistics Introduction to approaches, methods, techniques, materials, curricular design, and assessment for various levels of ESL instruction. Attention to issues related to the teaching of listening, speaking, reading, writing, vocabulary, pronunciation, and culture.

ENGL 519. Second Language Assessment. (Cross-listed with LING). (3-0) Cr. 3. S. Prereq: 511 Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

ENGL 520. Computational Analysis of English. (Cross-listed with LING, HCI). (3-0) Cr. 3. S. Prereq: 510 and 511 Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.

ENGL 521. Teaching of Literature and the Literature Curriculum. (3-0) Cr. 3. Alt. F, offered 2012. Prereq: 6 credits in literature Examination of the roles of the literary work, reader, and teacher in literary study. Responses to literature. Place of literature in language arts. Study and development of curriculum materials for middle school, high school, and college levels of instruction.

ENGL 522. Literary Theory and Criticism. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: 6 credits in literature Examination of the history, logic, and rhetoric of contemporary literary criticism and analysis.

ENGL 523. Introduction to Old English Language and Literature. (3-0) Cr. 3. Prereq: Course in medieval literature or history or history of the English language recommended Introductory study of Old English language and literature in prose and poetry, including extracts from Beowulf. Some attention to Anglo-Saxon culture.

ENGL 524. Literacy: Issues and Methods for Nonnative Speakers of English. (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: 511 or an introductory course in linguistics Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.
ENGL 525. Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English.
(Cross-listed with LING). (3-0) Cr. 3. S. Prereq: 511 or an introductory course in linguistics.
Theoretical and practical issues and techniques in the teaching of second language pronunciation, listening, and speaking skills. Topics will be relevant to those intending to teach in various contexts involving both K-12 and adult learners.

(Cross-listed with LING). (3-0) Cr. 3. S. Prereq: 511 or equivalent.
Theory, research, and practice in computer use for teaching nonnative speakers of English. Methods for planning and evaluating computer-based learning activities.

ENGL 527. Discourse Analysis.
(Cross-listed with LIHG). (3-0) Cr. 3. S. Prereq: 511 or an introductory course in linguistics.
Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

ENGL 528. English for Specific Purposes.
(Cross-listed with LIHG). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 511 or an introductory course in linguistics.
Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and syllabus and materials development for teaching and assessment.

ENGL 529. Multimedia Content Management.
(3-0) Cr. 3. Prereq: 313
Strategies for developing and delivering multimodal content via digital media. Focus on the principles of database design, interface development, usability testing, and collaborative content management within professional communication settings.

ENGL 530. Topics in the Study of Literature.
Intensive study of literary genres, periods, movements, or themes; e.g., Literature and Historicism, Narrating the Feminine, Allegory.

ENGL 531. American Literature to 1865.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Alt. F., offered 2012. Prereq: 6 credits in literature.
Selected texts in American literature from Beginnings to the Civil War. Study may include Native American literature, the literature of European conquest, Colonial and Revolutionary periods, Early Republic, and Jacksonian Era, in critical and cultural contexts.

ENGL 532. British Literature to 1830.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Alt. S., offered 2013. Prereq: 6 credits in literature.
Selected texts from the Medieval, Renaissance, Restoration, Eighteenth-Century, and/or Romantic periods, in critical and cultural contexts.

ENGL 533. British Literature 1830 to the Present.
Selected texts from British literature from the Civil War to the present. Study may include Realism, Naturalism, Modernism, and Postmodernism, with significant attention to race/ethnicity, gender, and identity, and to contemporary critical views. Range of authors and genres.

ENGL 534. American Literature 1865 to the Present.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature.
Selected texts in American literature from the Civil War to the present. Study may include Realism, Naturalism, Modernism, and Postmodernism, with significant attention to race/ethnicity, gender, and identity, and to contemporary critical views. Range of authors and genres.

ENGL 536. Postcolonial Literatures.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature.
Colonial and postcolonial Anglophone literatures from various locations, such as Africa, Asia, the Caribbean, and the British Isles, in critical and cultural contexts.

ENGL 537. Grammatical Analysis.
(Dual-listed with 437). (Cross-listed with LING). (3-0) Cr. 3. F. Prereq: 220; 219 or 511 or introductory course in linguistics; junior classification.
Theories and methods for analysis of English syntax with emphasis on recent syntactic theory.

ENGL 538. Fiction.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Alt. S., offered 2013. Prereq: 6 credits in literature.
Selected fiction writers in English; range of authors and genres. Emphasis on both male and female writers; attention to the relationships between fiction and cultural change.

ENGL 539. Poetry.
Selected poets writing in English, considered in representative groups.

ENGL 540. Drama.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: 6 credits in literature.
Primary texts in dramatic genres from various literary periods, in critical and cultural contexts. Frequently concentrates on the English Renaissance and the Shakespearean stage.

ENGL 541. Autobiography, Biography, Memoir.
Study of lifewriting, e.g., autobiography, biography, memoir, cross-genre writing, autobiographical criticism. Readings may be arranged by period, nationality, or subgenre (e.g., autobiography of childhood experience, celebrity auto/biography).

ENGL 542. Production Processes for Technical Documents.
(3-0) Cr. 3.
Overview of the principles of desktop publishing as practiced in the field of technical communication. Focus on theories of print document design and project management, as well as digital prepress techniques employed to produce documents using external print services. Requires extensive use of current desktop publishing software.

ENGL 543. Environmental Literature.
(3-0) Cr. 3. S. Prereq: Graduate classification.
An exploration of the major genres that derive from literary encounters with the environment. Readings may come from various cultures and time periods, but about half of the texts will represent canonical American environmental literature from the 19th and 20th centuries.

ENGL 544. Postcolonial or Multicultural Literatures.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in literature.
U.S. multicultural literatures or colonial and postcolonial Anglophone literatures from various locations, in critical and cultural contexts. Development of literary traditions, discourses of race and gender, counterstorytelling, myths of origin, literary phases and movements. Readings in several genres.

ENGL 545. Women’s Literature.
Primary texts by women writers; historical, thematic, formal, or theoretical approaches; secondary readings; e.g., Nineteenth-Century Women Writers; American Women’s Personal Narratives; Southern Women Writers of the U.S.
ENGL 546. Issues in the Study of Literature.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Alt. S., offered 2013. Prereq: 6 credits in literature
Intensive study of current and emerging topics and problems concerning literature and its relationship to theory and to language study; e.g., Theory of Metaphor; Renegotiating the Canon; Feminist Theory.

ENGL 547. The History of Rhetorical Theory I: From Plato to Bacon.
(3-0) Cr. 3. Prereq: 6 credits in English
Rhetorical theory from the classical period of ancient Greece and Rome through the Middle Ages to the early Renaissance; attention to its relation to the nature of knowledge, communication, practice, and pedagogy.

ENGL 548. The History of Rhetorical Theory II: From Bacon to the Present.
(3-0) Cr. 3. Prereq: 6 credits in English
Rhetorical theory from the early modern period (Bacon, Descartes, and Locke) to the present; attention to its relation to the nature of knowledge, communication practice, and pedagogy.

ENGL 549. Multimedia Design in Professional Communication.
(3-0) Cr. 3.
Rhetorical principles of information-based multimedia design. Practical understanding of computer applications used in multimedia development. Focus on theoretical and practical elements of producing multimedia training programs in both education and industry. Work with interactive hypertext, digital audio, and non-linear video editing.

ENGL 550. Creative Writing: Craft and Professional Practice.
(3-0) Cr. 3. F. Prereq: Admission into MFA Program in Creative Writing and Environment
A multigenre craft course required of all incoming students in the MFA Program in Creative Writing and Environment. Students develop an understanding of craft and environmental writing across genres (poetry, fiction, nonfiction) as well as learn about editing and publication practice through the lens of a working literary journal, Flyway: A Journal of Writing and Environment. Other course activities include presentations on the production practices of leading literary journals; individual editing projects; pragmatic tips for finding publication outlets for polished creative work; and a field trip to publishing houses.

ENGL 551. Advanced Multi-Genre Creative Writing Workshop.
(3-0) Cr. 3. S. Prereq: Fourth-semester or equivalent standing in the Creative Writing and Environment MFA program
Students develop book-length manuscripts of fiction, creative nonfiction, or poetry.

ENGL 553. Graduate Workshop: Writing The Long Project.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual long creative writing project ideas developed in course. Portions of long creative writing project workshoped, revised, discussed in conferences.

ENGL 554. Graduate Fiction Workshop.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual projects in fiction on a workshop and conference basis. Readings in short fiction. Discussion of elements of narrative such as plot, point of view, characterization, theme, setting.

ENGL 555. Graduate Nonfiction Workshop.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual projects in memoir, immersion journalism, character studies, and/or the personal essay on a workshop and conference basis. Readings in creative nonfiction.

ENGL 556. Graduate Poetry Workshop.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Individual projects in poetry on a workshop and conference basis. Readings in poetry. Discussion of poetic elements such as image, sound, internal structure, rhythm, tone, figurative language.

ENGL 557. Studies in Creative Writing.
(3-0) Cr. 3. Repeatable, maximum of 12 credits. Prereq: Graduate classification
Special topics course on ideas, issues, and techniques in creative writing. Subject matter may include specific genres, aspects of the creative writing process, or themes of particular interest. Significant readings and written work required; previous workshop experience helpful.

ENGL 558. Teaching Creative Writing.
(3-0) Cr. 3. Prereq: Graduate classification
Pedagogical approaches that are effective for grade-school through adult-education creative writing teaching. Writing exercises, workshops, text evaluation, and visits from creative writers.

ENGL 559. Creative Writing Teaching Internship.
Cr. 1-3. Repeatable. Prereq: Permission of participating instructors
Students assist in an introductory creative writing class. Some supervised teaching but mainly evaluation of submissions and individual conferences. Requirements and grades determined by participating instructors.

ENGL 560. Environmental Field Experience.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 550 and graduate classification. Open to graduate students outside MFA in Creative Writing and Environment only with permission of instructor
Students spend a term on a project that requires fieldwork. Projects might include working for a federal, state or private non-profit environmental organization or farm, or living and working in a specified natural area.

ENGL 566. Visual Rhetoric in Professional Communication.
(3-0) Cr. 3. Prereq: A course in professional communication
Rhetorical theory and research in graphics, document design, and related principles of visual communication. Methods of designing texts, data displays, illustrations, and other visual elements in business and technical communication.

ENGL 586. Supervised Practicum in Literary Editing.
(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S.S. Prereq: 9 credits toward the TESL Certificate, 15 credits toward the TESL/AL master’s degree, or completion of all other requirements for K-12 ESL teacher endorsement
Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the practicum student’s goals. Seminar discussion of observed practices in relation to language teaching theories and methods.

(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 507 plus 3 additional graduate credits in business and technical writing or composition and rhetoric, permission of instructor. Limited to master’s and doctoral degree candidates in the field of rhetoric and professional communication
An opportunity to write, edit, and design business and technical documents in a professional setting. Projects include reports, proposals, manuals, brochures, newsletters.

ENGL 588. Supervised Practicum in Teaching English as a Second Language.
(Cross-listed with LING). (1-5) Cr. 3. F.S.S.S. Prereq: 9 credits toward the TESL Certificate, 15 credits toward the TESL/AL master’s degree, or completion of all other requirements for K-12 ESL teacher endorsement
Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the practicum student’s goals. Seminar discussion of observed practices in relation to language teaching theories and methods.

ENGL 589. Supervised Practicum in Literary Editing.
(3-0) Cr. 3. S. Prereq: 550, at least one graduate creative writing workshop, permission of instructor
Students assume editorial duties for Flyway, a nationally distributed literary journal: overseeing a staff; screening submissions; corresponding with authors; editing and proofing; assisting with layout; communicating with the printer; overseeing a contest; and promoting the magazine.
ENGL 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of the Graduate Studies Committee according to guidelines available in the department office

A. Literature
B. Teaching English as a Second Language (TESL)/Applied Linguistics. (Cross-listed with LING 590B)
C. Composition and Rhetoric
D. Rhetoric and Professional Communication
E. Creative Writing
F. Applied Linguistics and Technology

(3-0) Cr. 3. Repeatable, maximum of 9 credits. Prereq: 12 hours in rhetoric, linguistics, or literature, excluding 150/250
Seminar on topics central to the fields of rhetoric, composition, and professional communication or composition.

A. Rhetoric of Science and Technology
B. Visual Rhetoric
C. Multimodal Theory and Pedagogy

ENGL 595. Graduate Study and Travel.
Cr. arr. Prereq: Permission of instructor
Supervised study of an appropriate area of the discipline while traveling in a foreign country or in the U.S. Special fees apply.

A. Literature.
B. Creative Writing.
C. Linguistics.
D. Rhetoric and Professional Communication.
E. Teacher Education.

ENGL 599. Creative Component.
Cr. 3. F.S.SS. Prereq: Graduate classification, permission of major professor

Courses for graduate students

(3-0) Cr. 3. Prereq: 501
A workshop for advanced graduate students in rhetoric and professional communication. Primary focus on qualitative methods.

(3-0) Cr. 3. Prereq: 503
Exploration of relationships between theory and practice in current pedagogy. Intensive examination of contemporary theories of poststructuralism, new media, feminism, postcolonialism, or cultural studies and their impact on current pedagogical practice. Participation in pedagogical research and theory building.

ENGL 611. Topics in Rhetorical Theory.
(3-0) Cr. 3. Repeatable. Prereq: 547 or 548
Rhetorical theory, criticism, and/or practice in relation to an historical period or a particular theoretical issue.

(Cross-listed with LING). (3-0) Cr. 3. F Prereq: 511, 517, 519
Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasiexperimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

(Cross-listed with LING). (3-0) Cr. 3. F Prereq: 510, 511, 519
Principles and practice for the use and study of computers and the Internet in second language assessment.

(Cross-listed with LING). (3-0) Cr. 3. Prereq: 510, 511
Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, and advances in language assessment.

(Cross-listed with LING). (1-5) Cr. 3. F.S.SS. Prereq: 510, 626, or equivalent; at least 2nd year PhD student in Applied Linguistics and Technology
Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.

ENGL 699. Research.
Cr. arr. Repeatable. F.S.SS. Prereq: Graduate classification, permission of major professor
Research.
Environmental Science

Interdepartmental Undergraduate Programs
Environmental Science provides an integrated, quantitative, and interdisciplinary approach to the study of environmental systems. The magnitude and complexity of environmental problems are creating a growing need for scientists with rigorous, interdisciplinary training in environmental science. The Environmental Science program is designed to prepare students for positions of leadership in this rapidly changing discipline. Environmental Science graduates have a solid foundation in biological and physical natural sciences and the specialized training necessary for integrated analysis of environmental systems.

Undergraduate Study
The Environmental Science undergraduate major is offered through both the College of Agriculture and Life Sciences and the College of Liberal Arts and Sciences. Environmental Science majors complete foundation courses in biology, chemistry, earth science, geology, physics and mathematics, plus a major consisting of an integrated course of Environmental Science courses in the first two years of the curriculum. The upper level course courses emphasize a dynamic systems approach that provides a framework for integrating physical, chemical, and biological aspects of environmental systems.

Students seeking an Environmental Science major complete the following:

1. A foundation of approved supporting courses in science and mathematics including biology, chemistry, earth science, physics, calculus, and statistics.

2. 27 credits of course work in the major, including the Environmental Science core:

Approved Environmental Science coursework 15
Total Credits 27

A combined average grade of C or higher is required in courses applied in the major.

Graduate Study
Environmental Science offers an interdisciplinary graduate program leading to the M.S. and Ph.D. degrees with a major in Environmental Science. Faculty from the colleges of Agriculture and Life Sciences, Engineering, and Liberal Arts and Sciences cooperate to offer courses and research opportunities covering a broad array of environmental topics.

Applicants should have completed an undergraduate or masters degree in one of the biological, chemical, physical, or engineering sciences or should have equivalent preparation.

The Environmental Science graduate program emphasizes fundamental concepts and research, which at the same time address major environmental issues. The curriculum is designed to provide the interdisciplinary approach needed in Environmental Science education and research. In addition to work in their chosen area of specialization, students are afforded a broad exposure to the biological, chemical and physical aspects of environmental systems and the specialized training necessary for integrated analysis of these systems.

Curriculum in Environmental Science

Total Degree Requirement: 120 cr.
Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.: 9 P-NP cr. of free electives: 2.00 minimum GPA.

Communications Proficiency:
6 cr. of English composition of C- or better.

Communication/Library: 9.5 cr.

15 credit hours from approved EnSci courses.  

Total Credits 27
**Interdepartmental Undergraduate Program**

Environmental Studies deals with the relationship and interactions between humans and the environment. Students in any college at ISU may elect to take a secondary major or minor in Environmental Studies. The curriculum is designed to give students an understanding of current and emerging environmental issues and an appreciation of different perspectives regarding these issues. Courses are provided for students pursuing careers related to the environment and for others who simply want to know more about environmental issues.

**Secondary Major**

The Environmental Studies secondary major is taken in addition to one’s first major and provides the breadth of preparation and integrated perspective necessary to understand environmental issues. Students seeking a major in Environmental Studies complete 24 credits of Env S coursework including:

At least one general survey course chosen from:
- ENV S 101 Environmental Geology: Earth in Crisis
- ENV S 120 Introduction to Renewable Resources
- ENV S 173 Environmental Biology
- ENV S 201 Introduction to Environmental Issues

At least one integrative/issues course chosen from:
- ENV S 160 Water Resources of the World
- ENV S 204 Biodiversity
- ENV S 324 Energy and the Environment
- ENV S 342 World Food Issues: Past and Present
- ENV S 404 Global Change
- ENV S 424 Sustainable and Environmental Horticulture Systems
- ENV S 450 Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:
- ENV S 293 Environmental Planning
- ENV S 320 Ecofeminism
- ENV S 334 Environmental Ethics
- ENV S 345 Population and Society
- ENV S 355 Literature and the Environment
- ENV S 380 Environmental and Resource Economics
- ENV S 382 Environmental Sociology
- ENV S 384 Religion and Ecology
- ENV S 442 The Policy and Politics of Coastal Areas
- ENV S 472 U.S. Environmental History
- ENV S 484 Sustainable Communities
- ENV S 491 Environmental Law and Planning

Beyond these three requirements, any Environmental Studies course and up to six credits of approved environmental coursework outside of Environmental Studies may be applied toward the 24 credit total for the major. Regardless of their home college, Environmental Studies majors must complete at least 9 credits of approved coursework in natural science. Unless prohibited by program or college rules, courses used to fulfill requirements of the Environmental Studies major may also be used to satisfy general education and other requirements of departments and colleges. A combined average grade of C or higher is required in courses applied to the major.

Regardless of their primary major, Environmental Studies graduates have a broad foundation in science and humanities, an understanding of major environmental issues, and an appreciation of the varied and sometimes opposing perspectives regarding these issues.

**Minor**

Students seeking a minor in Environmental Studies complete 15 credits of approved Environmental Studies coursework including:

At least one general survey course chosen from:
- ENV S 101 Environmental Geology: Earth in Crisis
- ENV S 120 Introduction to Renewable Resources
- ENV S 173 Environmental Biology
- ENV S 201 Introduction to Environmental Issues

At least one integrative/issues course chosen from:
- ENV S 160 Water Resources of the World
- ENV S 204 Biodiversity
- ENV S 324 Energy and the Environment
- ENV S 342 World Food Issues: Past and Present
- ENV S 404 Global Change
- ENV S 424 Sustainable and Environmental Horticulture Systems
- ENV S 450 Issues in Sustainable Agriculture

At least two human/societal perspectives courses chosen from:
- ENV S 293 Environmental Planning
- ENV S 320 Ecofeminism
- ENV S 334 Environmental Ethics
- ENV S 345 Population and Society
- ENV S 355 Literature and the Environment
- ENV S 380 Environmental and Resource Economics
- ENV S 382 Environmental Sociology
- ENV S 384 Religion and Ecology
- ENV S 442 The Policy and Politics of Coastal Areas
- ENV S 472 U.S. Environmental History
- ENV S 484 Sustainable Communities
- ENV S 491 Environmental Law and Planning

A combined average grade of C or higher is required in courses applied to the minor, and the minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

**Courses primarily for undergraduate students**

**ENV S 101. Environmental Geology: Earth in Crisis.**
(Cross-listed with GEOL). (3-0) Cr. 3. FS.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

**ENV S 108. Introduction to Oceanography.**
(Cross-listed with GEOL). (3-0) Cr. 3. F.

**ENV S 120. Introduction to Renewable Resources.**
(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

**ENV S 130. Natural Resources and Agriculture.**
(Cross-listed with NREM). (3-0) Cr. 3. S.
Survey of the ecology and management of fish, forest, and wildlife resources in areas of intensive agriculture, with emphasis on Iowa. Conservation and management practices for private agricultural lands. Designed for nonmajors.
(Cross-listed with AGRON, GEOE, MTEOR). (3-0) Cr. 3. S.  
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

(Cross-listed with BIOL). (3-0) Cr. 3. F.S.  
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution.

ENV S 201. Introduction to Environmental Issues.  
(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. F.S.  
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

ENV S 204. Biodiversity.  
(Cross-listed with BIOL). (4-0) Cr. 2. S. Prereq: One course in life sciences  

ENV S 220. Globalization and Sustainability.  
(Cross-listed with ANTHR, GLOBE, MAT E, M E, SOC, T SC). (3-0) Cr. 3. F.S.  
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

ENV S 250. Environmental Geography.  
(Cross-listed with ENSCI). (3-0) Cr. 3. F.  
The distribution, origins and functions of the earth’s physical systems and the spatial relationship between human activity and the natural world.

(Cross-listed with AGRON). (3-0) Cr. 3. F.S.  
Burras. Role of soils in environmental quality and natural resources management. Emphasis on soil erosion and conservation, water quality, and environmental planning. Saturday field trip.

(Cross-listed with L A, NREM). (3-0) Cr. 3. Alt. F. , offered 2011.  
The development of natural resource conservation philosophy and policy from the Colonial Era to the present. North American wildlife, forestry, and environmental policy; national parks and other protected lands; federal and state agencies. Relationship to cultural contexts, including urban reform and American planning movement. Discussion of common pool resources, public and private lands.

ENV S 293. Environmental Planning.  
(Cross-listed with C R P, DSN S). (3-0) Cr. 3. F. Prereq: Sophomore classification  
Comprehensive overview of the field of environmental relationships and the efforts being made to organize, control, and coordinate environmental, aesthetic, and cultural characteristics of land, air, and water.

ENV S 320. Ecofeminism.  
(Cross-listed with W S). (3-0) Cr. 3. Alt. F. , offered 2011. Prereq: W S 201 or 3 credits in W S at the 300 level or above  
Women’s relationships with the earth, non-human nature, and other humans. The course explores the connections between the mastery of women and the mastery of nature; origins of ecofeminism and its relation to the science of ecology and to other branches of feminist philosophies. Critique of modern science, technology, political systems as well as solutions will be included. Nonmajor graduate credit.

(Cross-listed with GEOE, MTEOR). (3-0) Cr. 3. S.  
Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, and solar energy. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, groundwater contamination, nuclear waste disposal, and global climate change.

(Cross-listed with PHIL). (3-0) Cr. 3. F. Prereq: Three credits in philosophy or junior classification  
Thorough study of some of the central moral issues arising in connection with human impact on the environment, e.g., human overpopulation, species extinction, forest and wilderness management, pollution. Several world views of the proper relationship between human beings and nature will be explored. Nonmajor graduate credit.

(Cross-listed with AGRON, FS HN, T SC). (3-0) Cr. 3. F.S. Prereq: Junior classification  
Zdorkowski, Ford. Issues in the agricultural and food systems of the developed and developing world. Emphasis on economic, social, historical, ethical and environmental contexts. Causes and consequences of overnutrition/undernutrition, poverty, hunger and access/distribution. Explorations of current issues and ideas for the future. Team projects. Nonmajor graduate credit.

Meets International Perspectives Requirement.

(Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 130 or 134  
Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world.

Meets International Perspectives Requirement.

(Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250  
Study of literary texts that address the following topics, among others: the relationship between people and natural/urban environments, ecocriticism, and the importance of place in the literary imagination. Nonmajor graduate credit.

(Cross-listed with ECON). (3-0) Cr. 3. Prereq: ECON 101  
Natural resource availability, use, conservation, and government policy, including energy issues. Environmental quality and pollution control policies.

ENV S 381. Environmental Systems I: Introduction to Environmental Systems.  
(Cross-listed with BIOL, ENSCI, MICRO). (2-2) Cr. 3. F. Prereq: 12 credits of natural science including biology and chemistry  
Introduction to the structure and function of natural environmental systems. Systems approach to the analysis of material and energy flows in natural environmental systems and the primary environmental factors controlling these systems. Nonmajor graduate credit.
ENV S 382. Environmental Sociology.  
(Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: SOC 130, 134, or 3 credits of Env S  
Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.

(Cross-listed with RELIG). (3-0) Cr. 3.  
Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues. Nonmajor graduate credit.

Meets International Perspectives Requirement.

ENV S 390. Internship in Environmental Studies.  
Cr. arr. Repeatable. F.S.SS. Prereq: Approval of the Environmental Studies Coordinator.  
Practical experience with nature centers, government agencies, schools, private conservation groups, and other organizations. Offered on a satisfactory-fail basis only.

(Cross-listed with AGRON, ENSCI, MTEOR). (3-0) Cr. 3. S. Prereq: Four courses in physical or biological sciences or engineering; junior standing. Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Nonmajor graduate credit.

ENV S 407. Watershed Management.  
(Cross-listed with ENSCI, NREM). (3-3) Cr. 4. S. Prereq: A course in general biology.  
Managing human impacts on the hydrologic cycle. Field and watershed level best management practices for modifying the impacts on water quality, quantity and timing are discussed. Field project includes developing a management plan using landscape buffers.

(Cross-listed with LA). (2-3) Cr. 3. Prereq: Junior standing, 6 credits of natural science.  
Assessment and reduction of impacts in urban and peri-urban watershed areas. Course prepares students to work with various analysis methods for vegetation, topography, stormwater and stream condition as well as work with data from other disciplines. Emphasis on communicating with the public. Introductory GIS and GPS technologies are utilized. Learning is largely field-based.

(Cross-listed with HORT). (3-0) Cr. 3. Alt. S., offered 2013.  
Inquiry into ethical issues and environmental consequences of horticultural cropping systems, production practices and managed landscapes. Emphasis on systems that are resource efficient, environmentally sound, socially acceptable, and profitable.

ENV S 442. The Policy and Politics of Coastal Areas.  
(Cross-listed with POL S). (3-0) Cr. 3. SS.  
Exploration of political implications of coastal policy. Issues include: “Carrying capacity,” zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

ENV S 450. Issues in Sustainable Agriculture.  
(Cross-listed with AGRON). (3-0) Cr. 3. F. Zdorkowski. Agricultural science as a human activity; contemporary agricultural issues from agroecological perspective. Comparative analysis of intended and actual consequences of development of industrial agricultural practices.

Meets International Perspectives Requirement.

(Cross-listed with NREM). (3-0) Cr. 3. F. Prereq: 120, and A ECL 312 or NREM 301, and Junior classification.  
Analysis of controversial natural resource issues using a case approach that considers uncertainty and adequacy of information and scientific understanding. Ecological, social, political, economic, and ethical implications of issues will be analyzed. Nonmajor graduate credit.

ENV S 461I. Introduction to GIS.  
(Cross-listed with ENSCI, LA, IA LL). Cr. 4. SS. Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management. Nonmajor graduate credit.

ENV S 472. U. S. Environmental History.  
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification.  
Survey of the interactions of human communities with the North American environment. Focus on the period from pre-settlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies. Nonmajor graduate credit.

ENV S 484. Sustainable Communities.  
(Cross-listed with C R P , DSN S). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Senior classification.  

ENV S 490. Independent Study.  
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor and approval of Environmental Studies coordinator.

(Cross-listed with C R P , DSN S, LA). (3-0) Cr. 3. S. Prereq: Six credits in natural sciences.  
Environmental law and policy as applied in planning at the local and state levels. Brownfields, environmental justice, water quality, air quality, wetland and floodplain management, and local government involvement in ecological protection through land use planning and other programs.

ENV S 496. Travel Course.  
Cr. arr. Repeatable. Prereq: Permission of instructor.  
Extended field trips to study environmental topics in varied locations. Location and duration of trips will vary. Trip expenses paid by students. Check with department for current offerings.

A. International Tour
B. Domestic Tour
Family Financial Planning

Interinstitutional Graduate Program
Participating Institutions: Iowa State University; Kansas State University; Montanta State University; University of Nebraska; North Dakota State University; Oklahoma State University; South Dakota State University.

Family Financial Planning is an inter-institutional distance education program offered through the Web. The student selects a home institution, which grants the degree. After admission at the home institution, the student takes courses from each of the seven institutions: Iowa State University, Kansas State University, Oklahoma State University, Montana State University, University of Nebraska, North Dakota State University, and South Dakota State University.

At Iowa State University, Family Financial Planning is a specialization within the Master of Family and Consumer Sciences degree program (MFCS-FFP) that consists of 42 semester credits. Neither a thesis nor a creative component is required. Students typically complete the program in three years while employed full-time. A computer with minimum specifications, Web access, and an email address are required for completing the program.

FPF Graduate Certificate Program
The Graduate Certificate in Family Financial Planning consists of the six courses from the MFCS-FFP that contain the competencies required for the CFP® Certification Examination. Students interested in attaining the CFP® credential and not a master’s degree should enroll in the certificate program.

Courses included in the FFP graduate certificate program include:

- **FFP 530** Fundamentals of Family Financial Planning 3
- **FFP 540** Estate Planning for Families 3
- **FFP 545** Retirement Planning, Employee Benefits, and the Family 3
- **FFP 555** Insurance Planning for Families 3
- **FFP 565** Personal Income Taxation 3
- **FFP 583** Investing for the Family's Future 3

Both the Master’s degree and Graduate Certificate programs at Iowa State University are registered with Certified Financial Planner Board of Standards Inc. As a CFP Board-registered Program, ISU FFP courses satisfy CFP Board’s education requirement, allowing an individual to sit for the CFP® Certification Examination.

Iowa State University does not certify individuals to use the CFP®, CERTIFIED FINANCIAL PLANNER™ title. CFP certification is granted only by Certified Financial Planner Board of Standards Inc. to those persons who, in addition to completing an educational requirement such as this CFP Board-Registered Program, have met its ethics, experience and examination requirements. (CFP Board of Standards web site: www.cfp.net.)

Certified Financial Planner Board of Standards Inc. owns the certification marks CFP®, CERTIFIED FINANCIAL PLANNER™ and the federally registered CFP (with flame logo), which it awards to individuals who successfully complete initial and ongoing certification requirements.

Admission Procedures: Admission to the FFP Certificate Program requires exactly the same procedures as admission to the Graduate College. See Graduate College section in the catalog.

Registration
Students choosing to receive their degree from Iowa State University complete all the admissions, registration and fee payment processes through ISU.

Courses primarily for graduate students

**FFP 520. Family Systems.** (3-0) Cr. 3. F.
Research and theory related to family functioning throughout the life cycle, especially financial decision making during crisis and conflict. Emphasis on factors that shape family values, attitudes, and behaviors from a multicultural perspective. New and emerging issues critical to family functioning are addressed.

**FFP 525. Family Economics.** (3-0) Cr. 3. SS.
Major issues related to the economics of families including household production, and human capital development; the economics of crises, public policy and family life cycle spending, saving and borrowing; new and emerging issues in the field of family economics; special attention to the role of ethics in family economic issues. A theoretical and research perspective are used to illuminate the concepts in the course.

**FFP 530. Fundamentals of Family Financial Planning.** (3-0) Cr. 3. F.
The nature and functioning of financial systems, including currencies, markets, monetary and fiscal policy, and supply/demand for land, labor, and capital. Focus is on the impact of global financial interdependence on individuals and families in the U.S. Current and emerging issues, as well as current research and theory related to financial systems.

**FFP 535. Financial Counseling.** (3-0) Cr. 3. S.
Theory and research regarding the interactive process between the client and the practitioner, including communication techniques, motivation and esteem building, the counseling environment, ethics, and methods of data intake, verification, and analysis. Other topics include legal issues, compensation, uses of technology to identify resources, information management, and current or emerging issues.

**FFP 540. Estate Planning for Families.** (3-0) Cr. 3. S.
Fundamentals of the estate planning process, including estate settlement, estate and gift taxes, property ownership and transfer, and powers of appointment. Tools and techniques used in implementing an effective estate plan, ethical considerations used in providing estate planning services, and new and emerging issues in the field. Case studies provide experience in developing estate plans suitable for varied family forms.

**FFP 541. Housing and Real Estate in Family Financial Planning.** (Cross-listed with HD FS). (3-0) Cr. 3. SS.
wwww only. The role of housing and real estate in the family financial planning process, including taxation, mortgages, financial calculations, legal concerns, and ethical issues related to home ownership and real estate investments. Emphasis on emerging issues in the context of housing and real estate.

**FFP 545. Retirement Planning, Employee Benefits, and the Family.** (3-0) Cr. 3. F.
Study of micro and macro considerations for retirement planning. Survey of various types of retirement plans, ethical considerations in providing retirement planning services, assessing and forecasting financial needs in retirement, and integration of retirement plans with government benefits.
(3-0) Cr. 3. S.  
In-depth study of risk management concepts, tools, and strategies for individuals and families, including life insurance; property and casualty insurance; liability insurance; accident, disability, health, and long-term care insurance; and government-subsidized programs. Current and emerging issues and ethical considerations relative to risk management. Case studies provide experience in selecting insurance products suitable for individuals and family study of investment options for clients, including common stocks, fixed income securities, convertible securities, and related choices. Relationships between investment options and employee/employer benefit plan choices. Current and emerging issues and ethics are included.

(3-0) Cr. 3. F.  
In-depth information on income tax practices and procedures including tax regulations, tax return preparation, the tax audit processes, the appeals process, preparation for an administrative or judicial forum, and ethical considerations of taxation. New and emerging issues related to taxation. Family/individual case studies provide practice in applying and analyzing tax information and recommending appropriate tax strategies.

(3-0) Cr. 3. S.  
Challenges of managing financial planning practices including, but not limited to: business valuation, personnel, marketing, client services, ethics and technological applications. Relying both on a theoretical as well as an applied approach, students analyze case studies that provide relevant, practical exposure to practice management issues, with a strong emphasis on current research findings.

FFP 583. Investing for the Family’s Future.  
(Cross-listed with HD FS). (3-0) Cr. 3. F. Prereq: HD FS 483.  
WWW only. Evaluation of investment markets for the household. Analysis of how families choose where to put their savings. Emphasis is on using the family’s overall financial and economic goals to help inform investment choices.

FFP 591. Practicum.  
Cr. 3-6. F.S.SS.  
Supervised experience in family financial planning.

(3-0) Cr. 3. F.S. Prereq: FFP 530, 540, 545, 555, 565, 583  
Professional issues in financial planning, including ethical considerations, regulation and certification requirements, communication skills, and professional responsibility. Students are expected to utilize skills obtained in other courses and work experiences in the completion of personal finance case studies, the development of a targeted investment policy, and other related financial planning assignments.
Genetics

Curriculum in Genetics - Requirements

In addition to basic degree requirements listed in the Curricula in Liberal Arts and Sciences, genetics majors must satisfy the following requirements:

1. 
   - BIOL 211 Principles of Biology I 3
   - BIOL 211L Principles of Biology Laboratory I 1
   - BIOL 212 Principles of Biology II 3
   - BIOL 212L Principles of Biology Laboratory II 1
   - BIOL 313 Principles of Genetics 3
   - BIOL 313L Genetics Laboratory 1
   - BIOL 314 Principles of Molecular Cell Biology 3
   - BIOL 315 Biological Evolution 3
   - MICRO 302 Biology of Microorganisms 3
   - GEN 110 Genetics Orientation 1
   - GEN 409 Molecular Genetics 3
   - GEN 410 Analytical Genetics 3
   - GEN 491 Undergraduate Seminar 1
   - GEN 462 Evolutionary Genetics 3
   or EEOB 563 Molecular Phylogenetics

2. Eleven credits of calculus and Statistics including at least one course in each.

3. Three years of chemistry and biochemistry.

4. Eight credits of general college physics.

5. Six additional credits of biological science support electives chosen from an approved list.

6. Majors in the college of Liberal Arts and Sciences must take one course that involves both humanities and biology such as history of science or bioethics. This course may also count toward a college group requirement. A list of acceptable courses is available from the program office.

The minor is genetics may be earned by completing:

- GEN 313 Principles of Genetics 3
- GEN 313L Genetics Laboratory 1
- BIOL 314 Principles of Molecular Cell Biology 3
- GEN 409 Molecular Genetics 3
- GEN 410 Analytical Genetics 3

and a minimum of two additional credits in Genetics at the 300 level or above. At least nine of these credits must be used only to fulfill the requirement of the minor.

A Genetics major may not double major or minor in Biology.

Curriculum in Genetics - Undergraduate Study

Undergraduate study in genetics is jointly administered by the Department of Biochemistry, Biophysics, and Molecular Biology; the Department of Genetics, Development, and Cell Biology; and the Department of Ecology, Evolution, and Organismal Biology.

Total Degree Requirements: 120 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.
U.S. Diversity: 3 cr
Communication/Library:

With a C or better:
- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Composition 3
- LIB 160 Library Instruction 0.5
Total Credits 6.5

Advanced English writing from department-approved list: 3 cr.

Choose 3 credits from the following:
- ENGL 302 Business Communication 3
- ENGL 303 Free-Lance Writing for Popular Magazines 3
- ENGL 304 Creative Writing – Fiction 3
- ENGL 305 Creative Writing – Nonfiction 3
- ENGL 306 Creative Writing – Poetry 3
- ENGL 309 Report and Proposal Writing 3
- ENGL 310 Rhetorical Analysis 3
- ENGL 312 Biological Communication 3
- ENGL 313 Rhetorical Website Design 3
- ENGL 314 Technical Communication 3
- ENGL 315 Creative Writing – Screenplays 3
- ENGL 316 Creative Writing – Playwriting 3
- JI MC 347 Science Communication 3

Humanities and Social Sciences: 21 cr.

- Humanities * 12
- Social Science 9

* 3 cr of Humanities from Science/Humanities Bridge course from department-approved list

Life Sciences: 6 cr.

- BIOL 211 Principles of Biology I 3
- Approved Life Sciences course 3

Mathematical Sciences: 11-12 cr

Complete at least one calculus course from MATH, minimum of 4 credits.
- MATH 160 Survey of Calculus 4
- MATH 165 Calculus I 3
- MATH 181 Calculus and Mathematical Modeling for the Life Sciences I 4

Complete at least one course from STAT, minimum of 3 credits.
- STAT 101 Principles of Statistics 3
- STAT 104 Introduction to Statistics 4

Complete one additional course from MATH or STAT, minimum of 4 credits.
- MATH 166 Calculus II 4
- MATH 182 Calculus and Mathematical Modeling for the Life Sciences II 4
- STAT 401 Statistical Methods for Research Workers 3

Supporting Sciences 31-32 cr.

- CHEM 177 General Chemistry I 4
- CHEM 177L Laboratory in General Chemistry I 1
- CHEM 178 General Chemistry II 3
- CHEM 178L Laboratory in General Chemistry II 1
- CHEM 331 Organic Chemistry I 3
- CHEM 331L Laboratory in Organic Chemistry I 1
- CHEM 332 Organic Chemistry II 3
- CHEM 332L Laboratory in Organic Chemistry II 1
- PHYS 111 General Physics 4
- PHYS 221 Introduction to Classical Physics I 4
- PHYS 112 General Physics 4
- PHYS 222 Introduction to Classical Physics II 4
Choose one of the following options: 6-7

**Option 1**
- BBMB 404 Biochemistry I

Choose one of the following:
- BBMB 405 Biochemistry II
- BBMB 411 Techniques in Biochemical Research
- CHEM 211 Quantitative and Environmental Analysis
  & CHEM 211L Quantitative and Environmental Analysis Laboratory
- CHEM 325 Chemical Thermodynamics

**Option 2**
- BBMB 420 Physiological Chemistry

Choose one of the following:
- BBMB 411 Techniques in Biochemical Research
- CHEM 211 Quantitative and Environmental Analysis
  & CHEM 211L Quantitative and Environmental Analysis Laboratory
- CHEM 325 Chemical Thermodynamics

Total Credits 31-32

**Genetics and Life Sciences 32 cr.**

**Advanced Science Electives: 6 cr.**

C- minimum grade; 6 cr. of advanced electives from approved department list.
Genetics, Development and Cell Biology

The Department of Genetics, Development and Cell Biology (GDCB) is dedicated to biological discovery and excellence in undergraduate and graduate education. The research and teaching mission of the department is to achieve a greater understanding of fundamental principles of life by focusing on basic cellular and subcellular processes, including genome dynamics, cell structure and function, cellular response to environmental and developmental signals, and molecular mechanisms of development. Recognizing that student education is of paramount importance, GDCB strives for excellence in teaching and research. GDCB plays a leading role in undergraduate and graduate training through a variety of activities including traditional courses, undergraduate internships in research laboratories, and advanced graduate seminar and literature-based courses. Innovative approaches to learning are emphasized throughout the curriculum.

Undergraduate Study

The GDCB Department offers undergraduate majors in conjunction with other departments. Students interested in the areas of genetics, development and cell biology should major in Biology, Genetics or Bioinformatics and Computational Biology (BCBio). The Biology Major is administered and offered jointly by the GDCB and EEOB departments. The GDCB faculty, together with those in EEOB and BBMB, administer and offer the Genetics Major. Each of these majors is available through the College of Liberal Arts and Sciences or through the College of Agriculture and Life Sciences. BCBio is administered by GDCB and the Departments of Computer Science, GDCB, and mathematics. Mathematics, and is available through the college of Liberal Arts and Sciences.

The Biology Major and the Genetics Major prepare students for a wide range of careers in biological sciences. Training in Biology or Genetics may lead to employment in teaching, research, or any of a variety of health-related professions. Some of these careers include biotechnology, human and veterinary medicine, agricultural sciences and life science education. BCBio majors are prepared for careers at the interfaces of biological, informational and computational sciences in the above fields. These majors are also excellent preparation for graduate study in bioinformatics, molecular genetics, cell and developmental biology, neuroscience and related fields. Faculty members in GDCB contribute to the undergraduate courses listed below. The full descriptions of these courses can be found in the Biology, Genetics and BCBio sections of the catalog.

Graduate Study

Understanding the genetic blueprint and the functions of cells is critical to virtually all aspects of biology. The basic mission of the Department of Genetics, Development and Cell Biology is to achieve a greater understanding of fundamental principles of life. The GDCB faculty and students conduct hypothesis-driven research into the biology of animals, plants and microbes. While research in GDCB is often based on discovery and analysis of molecular mechanisms of life processes, a true understanding of living organisms will ultimately require the integration of molecular mechanisms in the context of dynamic structural components of the living cell. Thus, research efforts within GDCB use molecular, genetic, biochemical, computational and imaging techniques to study systems at increasingly complex levels of organization.

GDCB faculty contribute to a broad but integrated array of cutting-edge research topics, implementing interactive and multidisciplinary approaches that bridge conventional boundaries, and incorporating experimental and computational biology as complementary approaches. Examples include using genetics and molecular biology to investigate the cellular basis of development, or combining biochemical and computational approaches to study basic subcellular functions, signal transduction or metabolism.

The faculty in the GDCB department train graduate students in several interdepartmental majors/programs including Bioinformatics and Computational Biology, Ecology and Evolutionary Biology, Genetics, Immunobiology, Plant Physiology, Interdisciplinary Graduate Studies, Microbiology, Molecular, Cellular and Developmental Biology, Neuroscience and Toxicology. Graduate work leading to both Master of Science (M.S.) and Doctor of Philosophy (Ph.D.) degrees are available.

Prospective graduate students need a sound background in the physical and biological sciences, as well as Mathematics and English. Interested students should check the links on the GDCB web site (www.gdcb.iastate.edu) for specific admissions procedures and the latest information about individual faculty and their research programs. The interdepartmental majors and programs require submission of Graduate Record Examination (GRE) aptitude test scores. Advanced GRE scores are recommended. International students whose native language is other than English must also submit TOEFL scores with their application.

Students who are enrolled in the interdepartmental graduate majors with who have affiliations with GDCB are required to actively participate in seminars, research activities, and to show adequate progress and professional development while pursuing their degree. For both the M.S. and Ph.D. degrees, it is expected that research conducted by the student will culminate in the writing and presentation of a thesis or dissertation. The Graduate College, the GDCB Faculty, and the individual student’s major professor and Program of Study Committee provide requirements and guidelines for study. General information about grad-
ute study requirements can be found at the web site for the Graduate College (www.grad-college.iastate.edu) and requirements for the interdepartmental majors can be found by following the links from the GDCB web site above. Although not a formal requirement, the GDCB faculty recommends that students pursuing the Ph.D. include teaching experience in their graduate training.

Courses primarily for graduate students, open to qualified undergraduate students

GDCB 505. Entrepreneurship in Science and Technology.
(3-0) Cr. 3. F.
High level success at modern science requires entrepreneurship both in and outside the laboratory. Scientists are in a unique position to not only think, but to thrive, "outside of the box" and take unorthodox approaches to research that lead to positive paradigm shifts in our lives. Exploration of many facets of science, technology, industry and commerce, with frequent guest lectures from entrepreneurs.

(3-0) Cr. 3. F. Prereq: BIOL 211 and 212
Scientific principles and techniques in biotechnology. Products and applications in agriculture, food, and human health. Ethical, legal, and social implications of biotechnology. A research paper is required for graduate credit.

GDCB 510. Transmission Genetics.
(3-0) Cr. 3. F. Prereq: GEN 410 or graduate standing
An in-depth investigation of the modern research practices of transmission genetics. Designed for students interested in genetic research. Topics include: Mendelian genetic analysis, analysis of genetic pathways, mutational analysis of gene function, chromosomal mechanics, gene mapping, extranuclear inheritance, human genetic analysis.

GDCB 511. Molecular Genetics.
(Cross-listed with MCDB). (3-0) Cr. 3. S. Prereq: BIOL 313 and BBMB 405
The principles of molecular genetics: gene structure and function at the molecular level, including regulation of gene expression, genetic rearrangement, and the organization of genetic information in prokaryotes and eukaryotes.

GDCB 512. Plant Growth and Development.
(Cross-listed with MCDB, PLBIO). (2-0) Cr. 2. S. Prereq: BIOL 330 or a course in developmental biology; GDCB 545 or BBMB 404, 405 or GDCB 520

GDCB 513. Plant Metabolism.
(Cross-listed with PLBIO). (2-0) Cr. 2. F. Prereq: BIOL 330, PHYS 111, CHEM 331; one semester of biochemistry recommended
Photosynthesis, respiration, and other aspects of plant metabolism.

GDCB 520. Genetic Engineering.
(Cross-listed with BBMB, MCDB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Gen 411 or BBMB 405
Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

GDCB 528. Advances in Molecular Cell Biology.
(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: Courses in general cell biology and biochemistry
Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

(Cross-listed with MCDB). (2-0) Cr. 2. Alt. F., offered 2011. Prereq: BIOL 313, 314, 330 or BBMB 405
Organization, function, and development of plant cells and subcellular structures.

(Cross-listed with MCDB). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314
Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in classical studies and current literature.

GDCB 536. Statistical Genetics.
(Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: STAT 401, 447; GEN 320 or BIOL 313
Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree reconstruction, and forensic and paternity identification.

GDCB 542. Introduction to Molecular Biology Techniques.
(Cross-listed with B M S, BBMB, EECB, FS HN, HORT, NUTRIS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.
A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonal antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching.
F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects
G. Genomic Techniques

GDCB 544. Introduction to Bioinformatics.
(Cross-listed with BCB, CPR E, COM S). (4-0) Cr. 4. F. Prereq: MATH 165 or STAT 401 or equivalent
Broad overview of bioinformatics with a significant problem-solving component, including hands-on practice using computational tools to solve a variety of biological problems. Topics include: database searching, sequence alignment, gene prediction, RNA and protein structure prediction, construction of phylogenetic trees, comparative, functional genomics, and systems biology.

GDCB 545. Plant Molecular Biology.
(Cross-listed with MCDB, PLBIO). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314, 330

GDCB 556. Cellular, Molecular and Developmental Neuroscience.
(Cross-listed with NEURO, B M S). (3-0) Cr. 3. F. Prereq: BIOL 335 or BIOL 436; physics recommended
Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.
GDCB 557. Advanced Neuroscience Techniques.
(Cross-listed with NEURO). (2-0) Cr. 2. Alt. S., offered 2013. Prereq: NEURO 556 or equivalent course
Research methods and techniques; exercises and/or demonstrations representing individual faculty specialties.

GDCB 568. Bioinformatics II (Advanced Genome Informatics).
(Cross-listed with BCB, STAT, COM S). (3-0) Cr. 3. S. Prereq: BCB 567, BBMB 301, BIOL 315, STAT 430, credit or enrollment in Gen 411

GDCB 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).
(Cross-listed with COM S, BCB, STAT, CPR E). (3-0) Cr. 3. S. Prereq: BCB 567, BIOL 315, COM S 311 and either 208 or 228, Gen 411,
STAT 430

GDCB 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor

GDCB 596. Genomic Data Processing.
(Cross-listed with COM S, BCB). (3-0) Cr. 3. F. Prereq: Some experience in computation
Study the practical aspects of genomic data processing with an emphasis on hands-on projects. Topics include base-calling, sequence cleaning and contaminant removal; fragment assembly procedures and EST clustering methods; genome closure strategies and practices; sequence homology search and function prediction; and annotation and submission of GenBank reports. Next-generation sequencing topics like model genome resequencing, short-read assembly and transcriptome abundance measurement will also be covered.

Courses for graduate students

GDCB 661. Current Topics in Neuroscience.
(Cross-listed with NEURO, BBMBI). (2-0) Cr. 2-3. Repeatable. Alt. S., offered 2012. Prereq: NEURO 556 (or comparable course) or permission of instructor
Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.

GDCB 679. Light Microscopy.
(Cross-listed with MICROC, EEOB). (2-0) Cr. 5. Prereq: Permission of instructor
Current theories encompassing light optics and their applications for specimen preservation, paraffin and resin sectioning, general staining, histochemistry, cytophotometry, immunocytochemistry, autoradiography, image digitization, processing and presentation, and digital macro- and microscopy. Limit of 10 students.

(Cross-listed with MICROC, EEOB). (2-0) Cr. 5. Prereq: Permission of instructor
Current theories encompassing scanning electron optics and their applications for high and low vacuum microscopy, specimen chemical and cryopreservation methods, x-ray microanalysis, backscattered and topographic imaging, image digitization, processing and presentation. Limit of 10 students.

(Cross-listed with MICRO, EEOB). (2-0) Cr. 5. Prereq: GDCB 679 and permission of instructor
Current theories encompassing electron optics and their applications for chemical and physical specimen preservation, ultramicrotomy, general staining and cytochemistry, immunocytochemistry, autoradiography, negative staining and shadowing, x-ray microanalysis, image digitization, processing and presentation.

GDCB 690. Seminar in GDCB.
Cr. 1. Repeatable.
Research seminars by faculty, invited speakers, and graduate students. Offered on a satisfactory-fail basis only.

GDCB 691. Faculty Seminar.
Cr. 1. Repeatable.
Faculty research series.

GDCB 696. Research Seminar.
(Cross-listed with AGRON, BBMB, PLBIO, HORT, FOR). Cr. 1. Repeatable.
Research seminars by faculty and graduate students. Offered on a satisfactory-fail basis only.

GDCB 698. Seminar in Molecular, Cellular, and Developmental Biology.
(Cross-listed with MCDB, BBMB, MICRO, V MPMI). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

GDCB 699. Research.
Cr. arr. Repeatable.
Research for thesis or dissertation. Offered on a satisfactory-fail basis only.

I. Research

GDCB 699I. Research.
(Cross-listed with IA LL, A ECL, ANTHR, EEOB). Cr. 1-4. Repeatable.
Undergraduate Study

The department offers courses in Geology and Meteorology. Majors can be earned in earth science (B.A., B.S.), geology (B.S.), and meteorology (B.S.). Candidates for all degrees must satisfy the requirements established by the College of Liberal Arts and Sciences (see Liberal Arts and Sciences, Curriculum). In addition, the department has requirements for each major.

The bachelor of science in Geology prepares the student for a professional career and/or graduate study in the geological sciences. Students selecting geology as a major will elect an option in traditional geology or environmental geology/hydrogeology. The traditional option prepares a student for employment in state and U.S. geological surveys, mineral and petroleum exploration, and graduate study in most aspects of geology. Required courses in this option include:

<table>

</tr>
</tbody>
</table>

The remainder should be at the 300 level or above.

Graduates work to understand natural processes on Earth and other planets. They are able to apply their knowledge of forces and factors that shape the Earth to reconstruct the past and anticipate the future. Graduates provide essential information for solving problems for resource management, environmental protection, and public health, safety, and welfare. They work as consultants on engineering and environmental problems, explorers for new minerals and hydrocarbon resources, researchers, teachers, writers, editors, and museum curators. Graduates are able to integrate field and laboratory data and to prepare reports. They are able to make presentations that include maps and diagrams that illustrate the results of their studies.

The study of Meteorology involves the description of the earth’s atmosphere and the processes responsible for its behavior. Students majoring in Meteorology earn the bachelor of science. The major satisfies guidelines specified by the American Meteorological Society and meets education requirements for employment with the National Weather Service and the World Meteorological Organization. Successful preparation for professional or graduate work in Meteorology requires that the student develop and integrate a diverse range of skills and knowledge bases. These include weather observing, the physics and dynamics of the global atmosphere, application of new weather technologies, advanced mathematical tools, computer programming and modeling, and effective oral and written communication. The faculty view the senior thesis (MTEOR 499 Senior Research), in particular, as a capstone experience in which students demonstrate they have achieved this integration. Also, contemporary meteorology is an earth-system science with ties to a variety of human experiences. The electives and general education requirements of the college are further experiences that the meteorology student must integrate with their core meteorology knowledge in order to function effectively in a globally-oriented profession. The program requires the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTEOR 111</td>
<td>Synoptic Applications</td>
<td>1</td>
</tr>
<tr>
<td>MTEOR 201</td>

<td>3</td>
</tr>
</tbody>
</table>

Several co-op programs are available for upper division undergraduates. Although a range of opportunities exists for men and women who terminate their studies with a bachelor of science, students who meet the necessary academic standards are encouraged to continue their studies in a graduate program. For these students, additional coursework is recommended in a mathematical or physical science. Other students can choose a wide range of supporting courses that will contribute to their particular area of interest in meteorology.

The department offers a minor in Meteorology which may be earned by completing 15 credits including MTEOR 111 Synoptic Applications (only 1 credit may count toward the minor), MTEOR 206 Introduction to Weather and Climate and MTEOR 301 General Meteorology. Further information concerning programs of study, including sample degree programs, is available from the department.

The Earth Science major is a broad program that typically emphasizes an interdisciplinary field. Programs leading to the bachelor of science may be individually designed but will include required courses in Geology and Meteorology, and required supporting work in chemistry, physics, and mathematics. Specific programs have been designed for students interested in a geology, meteorology, or an environmental earth science emphasis. Programs leading to the bachelor of arts for earth science teaching are available. The latter program must satisfy the requirements of the Teacher Education Program (see Index, Teacher Education).

Communication Proficiency requirement: The department requires a grade of C or better in:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>

</tbody>
</table>

Graduate Study

The department offers programs leading to the master of science and doctor of philosophy with majors in Earth Science, Geology, and Meteorology. Program options are available for the M.S. and Ph.D. degrees in earth science leading to careers in teaching. The department also cooperates in the interdepartmental major in Water Resources (see Index). Students desiring a major in the above fields normally will have a strong undergraduate background in the physical and mathematical sciences. Individuals desiring to enter a graduate program are evaluated by considering their undergraduate background and performance and their expressed goals.

Programs of study are designed on an individual basis in accordance with requirements of the Graduate College and established requirements for each departmental major. Additional coursework is normally taken in aerospace engineering, Agronomy (soil science), chemistry, civil and construction engineering, computer engineering, computer science, engineering mechanics, materials engineering, mathematics, mechanical engineering, microbiology, physics, or Statistics. Departmental requirements provide a strong, broad background in the major and allow considerable flexibility in the program of each individual.

A dissertation is required of all Ph.D. candidates.

M.S. students in Geology are required to complete a thesis. The M.S. in Earth Science is available to students electing the non-thesis (Creative Component) option in Geology or Meteorology. A non-thesis option is also offered for the M.S. degree in Meteorology.

Graduates in Geology specialize in a subdiscipline, but they comprehend and can communicate the basic principles of geology and supporting sciences. They possess the capacity for critical and independent thinking. They are able to write a fundable research proposal, evaluate current relevant literature, carry out the proposed research, and communicate the results of their research to peers at national meetings and to the general public. They work as consultants on engineering and environmental problems, for new minerals and hydrocarbon resources, for researchers, teachers, writers, editors, and museum curators.

All candidates for an advanced degree in Meteorology are expected to complete:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTEOR 542</td>
<td>Physical Meteorology</td>
<td>3</td>
</tr>
<tr>
<td>MTEOR 543</td>
<td>Advanced Dynamic Meteorology I</td>
<td>3</td>
</tr>
<tr>
<td>MTEOR 552</td>
<td>Climate Modeling</td>
<td>3</td>
</tr>
</tbody>
</table>

In addition, students without prior synoptic course-work must complete MTEOR 511 Synoptic Meteorology; other students must complete:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>or AGRON 505</td>
<td>Environmental Biophysics</td>
<td>3</td>
</tr>
</tbody>
</table>

Graduates in Meteorology have a good comprehension of basic principles, a capacity for critical and independent thought and an ability to communicate effectively with scientific colleagues. They have an appropriate breadth in their understanding of meteorology with a suitable specialization. Graduates are able to undertake thorough research and explain the results in a scientifically reasonable fashion.
Geology (Geol)

Courses primarily for undergraduate students

GEOL 100. The Earth.
(3-0) Cr. 3. F.S.SS.
How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in GEOL 100L.

L. The Earth: Laboratory

GEOL 100L. The Earth: Laboratory.
(0-2) Cr. 1. F.S. Prereq: Credit or enrollment in 100
Characterization of rocks and minerals; interpretation of structures and landforms.

(Cross-listed with ENV S). (3-0) Cr. 3. F.S.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

GEOL 102. History of the Earth.
(3-0) Cr. 3. S. Prereq: 100 or 201
The Earth's physical and biological evolution; concepts of global tectonics. Methods used to decipher earth history. Students majoring in geology must also enroll in GEOL 102L.

L. History of the Earth: Laboratory

GEOL 102L. History of the Earth: Laboratory.
(0-2) Cr. 1. S. Prereq: Credit or enrollment in 102
Introduction to the use of sedimentary rocks and fossils in reconstructing the Earth's history.

GEOL 105. Gems and Gemstones.
(2-0) Cr. 1. F.S.
Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

GEOL 108. Introduction to Oceanography.
(Cross-listed with ENV S). (3-0) Cr. 3. F.

(1-0) Cr. 1. Repeatable, maximum of 2 times. F.
Introduction to Iowa geology through classroom lectures and up to four Saturday field trips to selected Iowa geological attractions. Students will learn basic geologic concepts such as geologic time, erosion and sedimentation, stratigraphy, glacial geology, and karst topography using Iowa examples.

(Cross-listed with MTEOR, ENV S, AGRON). (3-0) Cr. 3. S.
Study of the occurrence, history, development, and management of world water resources. Basic hydrologic principles including climate, surface water, groundwater, and water quality. Historical and current perspectives on water policy, use, and the role of water in society and the environment.

GEOL 201. Geology for Engineers and Environmental Scientists.
(2-2) Cr. 3. F.
Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

GEOL 290. Independent Study.
Cr. 2-4. Repeatable. Prereq: Permission of instructor

GEOL 298. Cooperative Education.
Cr. R. F.S.S. Prereq: 100 or 201, 100L, 102, 102L, and permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

GEOL 302. Summer Field Studies.
Cr. 6. SS. Prereq: 102, 356, 368
Geologic mapping; structural, stratigraphic, sedimentologic, metamorphic, geomorphic, and environmental analyses. Study areas in the Bighorn Basin and Wind River Range and excursions to Yellowstone and Grand Teton National Parks. A 6-week summer field course required of all geology majors. Nonmajor graduate credit.

GEOL 306. Geology Field Trip.
Cr. 1-2. Repeatable. F.S. Prereq: 100 or 201, permission of instructor
Geology of selected regions studied by correlated readings followed by a field trip to points of geologic interest. Ten-day field trip required.

GEOL 315. Mineralogy and Earth Materials.
(3-0) Cr. 3. F. Prereq: 100 or 201, CHEM 177
Introduction to mineral classification, elementary crystal chemistry, crystal growth and morphology, mineral stability, and mineral associations. Nonmajor graduate credit.

GEOL 315L. Laboratory in Mineralogy and Earth Materials.
(0-3) Cr. 1. F.
Mineral identification methods, especially hand-specimen identification. Nonmajor graduate credit.

GEOL 316. Optical Mineralogy.
(1-2) Cr. 2. F. Prereq: 100 or 201, CHEM 177, credit or enrollment in 315
Laboratory problems in mineral-identification methods, especially optical microscopy and x-ray diffraction. Nonmajor graduate credit.

(Cross-listed with ENV S, MTEOR). (3-0) Cr. 3. S.
Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, and solar energy. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, groundwater contamination, nuclear waste disposal, and global climate change. Geol 324 does not count toward credits required in the Geology major.

GEOL 356. Structural Geology.
(3-6) Cr. 5. S. Prereq: 100 or 201; PHYS 111, MATH 165 or 181
Principles of stress and strain. Brittle and ductile behavior of rocks. Description and classification of joints, faults, folds, fractures, foliation, and lineation. Plate tectonics and regional geology. Laboratory includes application of geometrical techniques to solve structural problems; emphasizes map interpretation and use of stereonet and computer methods. Nonmajor graduate credit.

GEOL 365. Igneous and Metamorphic Petrology.
(2-3) Cr. 3. S. Prereq: 315, 315L, 316
Nature and origin of igneous and metamorphic rocks. Emphasis on important rock-forming environments and processes and their influence on rock characteristics. Laboratory includes thin section study of rock textures and mineralogy and the interpretation of these features. Field trips. Nonmajor graduate credit.
GEOG 359. Introduction to GIS. (2-3) Cr. 3. Offered 2011-2012
Prerequisite: Four courses in biological or physical science
An introduction to the fundamentals of GIS, with an emphasis on the development of a geographic information system. Topics include data sources and formats, spatial and attribute data structures, data acquisition, spatial analysis, and cartographic output. Lab emphasis on computer software for GIS.
GEOL 457. Exploration Seismology.  (Dual-listed with 557). (2-2) Cr. 3. Alt. F., offered 2012. Prereq: 100 or 201, MATH 181 or equivalent experience or permission of instructor. Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refraction techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment. Nonmajor graduate credit.

GEOL 474. Glacial and Quaternary Geology.  (Dual-listed with 574). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: 100 or 201 or equivalent experience. The study of the depositional and erosional processes of glaciers using modern glacier analogs and landforms. Discussion of glaciology, glacier hydrology, Quaternary history and stratigraphy, paleoclimatology, and causes of glaciation. Laboratory emphasizes aerial photo and topographic map interpretation and the Quaternary stratigraphy of Iowa. Two required field trips. Nonmajor graduate credit.

GEOL 479. Surficial Processes.  (Dual-listed with 579). (Cross-listed with ENSCI). (2-2) Cr. 3. F. Prereq: 100 or 201 or equivalent experience. Study of surficial processes in modern and ancient geological environments. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory emphasizes aerial photo and topographic map interpretation. Nonmajor graduate credit.

GEOL 490. Independent Study.  Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in geology and permission of instructor. No more than 9 credits of Geol 490 may be counted toward graduation.

GEOL 495. Undergraduate Seminar.  Cr. F.S. Prereq: Junior or senior classification. Weekly seminar on topics of current research interest.

GEOL 499. Cooperative Education.  Cr. R. F.S.SS. Prereq: GEOL 100 or 201, 100L, 102, 102L, and permission of the department cooperative education coordinator; senior classification. Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

GEOL 502. Watershed Hydrology.  (Dual-listed with 402). (Cross-listed with ENSCI, MTEOR). (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing. Introduction to the principles of modeling groundwater flow systems. Finite-difference and analytic-element methods, spreadsheet models, boundary conditions, calibration, sensitivity analysis, parameter estimation, particle tracking, and post-audit analysis. Application of MODFLOW to regional flow-system analysis. Computer laboratory emphasizes assigned problems that illustrate topics discussed in the course.

GEOL 509. Field Methods in Hydrogeology.  (Dual-listed with 409). (Cross-listed with ENSCI). (0-4) Cr. 2. Alt. SS., offered 2012. Prereq: 402 or 411 or C E 473. Introduction to field methods used in groundwater investigations. In-field implementation of pumping tests, slug tests, monitoring well installation and drilling techniques, geochemical and water quality sampling, seepage meters, minipiezometers, stream gaging, electronic instrumentation for data collection, and geophysics. Field trips to investigate water resource, water quality, and remediation projects.

GEOL 511. Hydrogeology.  (Dual-listed with 411). (Cross-listed with ENSCI). (3-2) Cr. 4. F. Prereq: GEOL 100 or 201; MATH 165 or 181; PHYS 111 or 221. Physical principles of groundwater flow, nature and origin of aquifers and confining units, well hydraulics, groundwater modeling, and contaminant transport. Lab emphasizes applied field and laboratory methods for hydrogeological investigations.

GEOL 515. Paleoclimatology.  (Dual-listed with 415). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in biological or physical science. Introduction to mechanisms that drive climate, including the interplay between oceanic and atmospheric circulation and fluctuation in Earth’s orbital parameters. Examination and analysis of past climate records ranging from historical documentation to ecological and geochemical proxies (e.g. tree ring analysis; O and C isotopes of skeletal carbonates and soils). Dating methods used to constrain and correlate climatic periods; utility of computer models to reconstruct past climates and predict future climate change. Emphasis placed on paleoclimatology and paleoecology of the late Quaternary (last ~ 1 million years).

GEOL 516. Hydrologic Modeling and Analysis.  (Dual-listed with 416). (Cross-listed with MTEOR, ENSCI). (2-3) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in earth science, meteorology, or engineering; junior standing. Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

GEOL 519. Environmental Geochemistry.  (Dual-listed with 419). (Cross-listed with ENSCI). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: Four courses in earth science, meteorology, or engineering; junior standing. Geochemistry of natural waters and water-rock interactions. Acid-base equilibria, carbonate chemistry and buffer systems, mineral dissolution and precipitation, sorption, ion exchange, and redox reactions. Introduction to thermodynamics and kinetics. Laboratory emphasizes chemical analysis of waters and computer modeling.

(Dual-listed with 426). (Cross-listed with ENSCI). (3-0) Cr. 3. Alt. F., offered 2011. **Prereq:** Four courses in biological or physical science. Introduction to the theory, methods and applications of stable isotopes. Primary focus on the origin, natural abundance, and fractionation of carbon, hydrogen, oxygen, nitrogen isotopes. Applications of isotopic occurrence for elucidation of physical, chemical, biological, and environmental processes. Effects of plant physiology, photosynthesis, trophic structure, diffusion, evaporation, chemical precipitation, soil and atmospheric processes, and environmental factors on isotope abundance.

GEOL 534. Contaminant Hydrogeology.
(Dual-listed with 434). (Cross-listed with ENSCI). (3-0) Cr. 3. S. **Prereq:** GEOL 511 or equivalent. Theory and practical considerations of fate and transport of solutes through porous geologic materials. Organic and inorganic contaminants in industrial and agricultural settings. Subsurface microbiology and biodegradation of aromatic and chlorinated hydrocarbons. Investigation of coupled processes (diffusion, advection, dispersion, sorption, and biodegradation) using computer models. Soil and groundwater monitoring and remediation strategies.

(Dual-listed with 451). (Cross-listed with ENSCI). (2-2) Cr. 3. S. **Prereq:** GEOL 100 or 201, MATH 181 or equivalent experience or permission of instructor. Seismic, gravity, magnetic, resistivity, electromagnetic, and ground-penetrating radar techniques for shallow subsurface investigations and imaging. Data interpretation methods. Lab emphasizes computer interpretation packages. Field work with seismic- and resistivity-imaging systems and radar.

GEOL 552. GIS for Geoscientists.
(Dual-listed with 452). (Cross-listed with AGRON, ENSCI). (2-2) Cr. 3. F. **Prereq:** GEOL 100, 201 or equivalent. Introduction to geographic information systems (GIS) with particular emphasis on geoscientific data. Uses ESRI’s ArcGIS Desktop Software and extension modules. Emphasizes typical GIS operations and analyses in the geosciences to prepare students for advanced GIS courses.

GEOL 555. Environmental Soil Mineralogy.
(Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered 2012. **Prereq:** Agron 473, CHEM 178. Recommend: Geol 311. Structure and behavior of clay minerals, humic substances and biochar in soil environments, with emphasis on reactions and environmental implications.

L. Soil Clay Mineralogy Laboratory

GEOL 555L. Soil Clay Mineralogy Laboratory.
(Cross-listed with AGRON). (0-3) Cr. 1. Alt. S., offered 2012. **Prereq:** Credit or enrollment in 555. Thompson. Application of X-ray diffraction, thermal analysis, infrared spectroscopy, and chemical analyses to identification and behavior of clay minerals in soils.

GEOL 557. Exploration Seismology.
(Dual-listed with 457). (2-2) Cr. 3. Alt. F., offered 2012. **Prereq:** 100 or 201, MATH 181 or equivalent experience or permission of instructor. Physics of elastic-wave propagation. Seismic surveys in environmental imaging, engineering, and petroleum exploration. Reflection and refractive techniques. Data collection, processing, and geological interpretation. Field work with state-of-the-art equipment.

GEOL 558. Introduction to the 3D Visualization of Scientific Data.
(Cross-listed with HCI, COM S). (2-2) Cr. 3. Alt. S., offered 2013. **Prereq:** Graduate-student standing in the mathematical or natural sciences. Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

GEOL 574. Glacial and Quaternary Geology.
(Dual-listed with 474). (2-2) Cr. 3. Alt. S., offered 2013. **Prereq:** 100 or 201. The study of the depositional and erosional processes of glaciers using modern glacier analogs and landforms. Discussion of glaciology, glacier hydrology, Quaternary history and stratigraphy, paleoclimatology, and causes of glaciation. Laboratory emphasizes aerial photo and topographic map interpretation and the Quaternary stratigraphy of Iowa. Two required field trips.

GEOL 579. Surficial Processes.
(Dual-listed with 479). (Cross-listed with ENSCI). (2-2) Cr. 3. F. **Prereq:** GEOL 100 or 201 or equivalent experience. Study of surficial processes in modern and ancient geological environments. Topics include weathering, sediment transport, and landform genesis with emphasis on fluvial, glacial, hillslope, eolian, and coastal processes. Applications to engineering and environmental problems. Laboratory emphasizes aerial photo and topographic map interpretation.

GEOL 590. Special Topics.
Cr. 1-3. Repeatable. **Prereq:** Permission of instructor

A. Surficial Processes
B. Stratigraphy
C. Sedimentation
D. Paleontology
E. Petrology
F. Structural Geology
G. Geochemistry
H. Hydrogeology
I. Earth Science
J. Mineral Resources
K. Geophysics
L. Mineralogy
M. Tectonics
N. Paleogeology and Paleoclimatology
O. Isotope Geochemistry
P. Computational Methods and GIS
R. Surface Hydrology
S. Oceanography

GEOL 595. Graduate Seminar.
Cr. 1. Repeatable. F.S. **Prereq:** Senior or graduate classification. Weekly seminar on topics of current research interest. All students seeking a graduate degree in geology must enroll during each semester of residence. Students pursuing a non-thesis option for the M.S. in Earth Science must enroll for one semester. Offered on a satisfactory-fail basis only.

A. Cr. 1. Presentation required.
B. Cr.
R. Attendance only.

GEOL 599. Creative Component.
Cr. arr. Repeatable.

Courses for graduate students

GEOL 610. Advanced Seminar.
Cr. 1-3. Repeatable. F.S. **Prereq:** Graduate standing and permission of instructor

A. Earth Materials
B. Economic Geology
MTEOR 206. Introduction to Weather and Climate.
(Cross-listed with AGRON). (3-0) Cr. 3. F.S.
Arritt, Cervato, Hornbuckle. Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

MTEOR 227. Computational Meteorology I.
(3-1) Cr. 3. F.
Prereq: Credit or concurrent enrollment in MTEOR 206, credit or concurrent enrollment in PHYS 221
An introduction to computer programming using FORTRAN with focus on meteorological applications. Emphasis on basics of good programming techniques and style through extensive practice in top-down design, writing, running, and debugging small programs. Topics include operations and functions, selective execution, repetitive execution, arrays, input/output, file processing, and subprograms. This course is designed for majors.

MTEOR 265. Scientific Balloon Engineering and Operations.
(Cross-listed with AER E). (0-2) Cr. 1. F
Engineering aspects of scientific balloon flights. Integration of science mission objectives with engineering requirements. Operations team certification. FAA and FCC regulations, communications, and command systems. Flight path prediction and control.

MTEOR 298. Cooperative Education.
Cr. R. F.S.S.
Prereq: Permission of the department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.

MTEOR 301. General Meteorology.
(4-0) Cr. 4. S.
Prereq: MATH 166, credit or enrollment in PHYS 222
Global distribution of temperature, wind, and atmospheric constituents; atmospheric thermodynamics, radiative transfer, global energy balance, storms and clouds, introductory dynamics. Nonmajor graduate credit.

MTEOR 311. Introduction to Synoptic Meteorology.
(1-2) Cr. 2. F.
Prereq: 301
Concepts of weather map plotting and analysis. Introduction to forecasting and to the use of real-time UNIDATA computer products. Nonmajor graduate credit.

MTEOR 321. Meteorology Internship.
Cr. 1-2. Repeatable. maximum of 3 credits. F.S.S.
Prereq: 311; junior or senior standing; permission of co-op program coordinator; acceptance by sponsoring agency
Supervised practical experience in a professional meteorological agency. Experiences may include providing weather information for radio, TV, utilities, government agencies, construction, or agribusiness.

(Cross-listed with ENV S, GEOL). (3-0) Cr. 3. S.
Renewable and non-renewable energy resources. Origin, occurrence, and extraction of fossil fuels. Nuclear, wind, and solar energy. Energy efficiency. Environmental effects of energy production and use, including air pollution, acid precipitation, groundwater contamination, nuclear waste disposal, and global climate change. Mteor 324 does not count toward credits required in the meteorology major.

MTEOR 341. Atmospheric Physics I.
(3-0) Cr. 3. F.
Prereq: PHYS 222, credit or enrollment in MATH 266
Basic laws of thermodynamics, thermodynamics of water vapor, mixtures of gases, stability, hydrostatics, cloud physics. Nonmajor graduate credit.

MTEOR 342. Atmospheric Physics II.
(3-0) Cr. 3. S.
Prereq: 341
Precipitation physics, radar, atmospheric radiation, atmospheric optics, atmospheric electricity. Nonmajor graduate credit.

MTEOR 398. Cooperative Education.
Cr. R. F.S.S.
Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing the work period.
MTEOR 402. Watershed Hydrology.  
(Dual-listed with 502). (Cross-listed with AGRON, ENSCI, GEOL, NREM).  
(3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing  
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes. Nonmajor graduate credit.

MTEOR 404. Global Change.  
(Dual-listed with 504). (Cross-listed with AGRON, ENSCI, ENV S). (3-0) Cr. 3. S. Prereq: Four courses in physical or biological sciences or engineering; junior standing  
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change. Nonmajor graduate credit.

MTEOR 405. Environmental Biophysics.  
(Dual-listed with 505). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: MATH 165 or 182 or equivalent and some computer programming experience (any language)  
Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Nonmajor graduate credit.

MTEOR 406. World Climates.  
(Cross-listed with AGRON, ENSCI). (3-0) Cr. 3. F. Prereq: Agron/MTEOR 206  
Arritt. Distribution and causes of different climates around the world. Effects of climate and climate variations on human activities including society, economy and agriculture. Current issues such as climate change and international efforts to assess and mitigate the consequences of a changing climate. Semester project and in-class presentation required. Nonmajor graduate credit.

Meets International Perspectives Requirement.

(Dual-listed with 507). (Cross-listed with AGRON). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MATH 166 and MTEOR 443  

MTEOR 411. Synoptic Meteorology.  
(Dual-listed with 511). (1-4) Cr. 3. F. Prereq: Credit or enrollment in 454  
Current weather forecasting and discussion. Applications of fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world. Nonmajor graduate credit.

MTEOR 412. Instrumentation and Measurements.  
(3-0) Cr. 3. S. Prereq: Credit or enrollment in STAT 105, MATH 266, PHYS 222  
Measurement of meteorological variables and instruments used, including surface, upper air, and remote sensors; measurement errors, signal processing, recording and archiving; quality assurance. Nonmajor graduate credit.

MTEOR 443. Dynamic Meteorology I.  
(3-0) Cr. 3. S. Prereq: 341  

MTEOR 452. Climate Modeling.  
(Dual-listed with 552). (3-0) Cr. 3. F. Prereq: MTEOR 301  
Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world. Nonmajor graduate credit.

MTEOR 454. Dynamic Meteorology II.  
(3-0) Cr. 3. F. Prereq: 443  
Planetary boundary layer, linear perturbation theory, atmospheric wave motions, baroclinic and convective instability, mesoscale circulations. Nonmajor graduate credit.

MTEOR 471. History of Modern Meteorology.  
(Dual-listed with 571). (1-0) Cr. 1. Alt. S., offered 2012. Prereq: MTEOR 341, 342, 411, 443, 452  
Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 490. Independent Study.  
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in meteorology, permission of instructor  
No more than 9 credits in Mteor 490 may be counted toward graduation.

A. Synoptic Meteorology.  
B. Dynamic Meteorology.  
C. Physical Meteorology.  
D. Instrumentation.  
E. Hydrology.

MTEOR 498. Cooperative Education.  
Cr. R. F.S.S. Prereq: Permission of the department cooperative education coordinator; senior classification  
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

MTEOR 499. Senior Research.  
(2-0) Cr. 2. F.  
Required of all senior meteorology majors. Research projects in collaboration with faculty. Written and oral presentations of results at the end of the semester.

**Courses primarily for graduate students, open to qualified undergraduate students**

MTEOR 502. Watershed Hydrology.  
(Dual-listed with 402). (Cross-listed with ENSCI, GEOL). (3-3) Cr. 4. F. Prereq: Four courses in physical or biological sciences or engineering; junior standing  
Examination of watersheds as systems, emphasizing the surface components of the hydrologic cycle. Combines qualitative understanding of hydrological processes and uncertainty with quantitative representation. Laboratory emphasizes field investigation and measurement of watershed processes.
MTEOR 504. Global Change.
(Dual-listed with 404). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3.
Prereq: Four courses in physical or biological sciences or engineering; junior, senior, or graduate standing
Recent changes in global biogeochemical cycles and climate; models of future changes in the climate system; impacts of global change on agriculture, water resources and human health; ethical issues of global environmental change.

MTEOR 505. Environmental Biophysics.
(Dual-listed with 405). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3.
Prereq: MATH 166 or 182 or equivalent and some computer programming experience (any language)
Hornbuckle. A description of the physical microenvironment in which organisms live. Emphasis on the movement of energy (heat and radiation) and mass (water and carbon) among organisms, the soil, and atmosphere. Applications to humans, other animals, plants, and plant communities. Semester project required.

MTEOR 507. Mesoscale Meteorology.
(Dual-listed with 407). (Cross-listed with AGRON, ENSCI). (3-0) Cr. 3.
Prereq: 455
Hornbuckle. The physical nature and practical consequences of mesoscale atmospheric phenomena. Mesoscale convective systems, fronts, terrain-forced circulations. Observation, analysis, and prediction of mesoscale atmospheric structure. Semester project and in-class presentation required.

MTEOR 511. Synoptic Meteorology.
(Dual-listed with 411). (1-4) Cr. 3. F.
Prereq: Credit or enrollment in 454
Current weather forecasting and discussion. Applications of atmospheric physics and dynamics in real-time weather situations. Use of UNIDATA computer products.

MTEOR 516. Hydrologic Modeling and Analysis.
(Dual-listed with 416). (Cross-listed with GEOL, ENSCI). (2-3) Cr. 3.
Prereq: 411, 443, 454
Study of the basic principles of hydrologic modeling, including rainfall-runoff analysis, lumped and distributed modeling, conceptual and physical models, parameter estimation and sensitivity analysis, input and validation data, uncertainty analysis, and the use of models in surface water hydrology. A range of common models are applied to study hydrologic topics such as flood forecasting and land use change impacts. Previous experience with Matlab or other programming language is needed.

(Cross-listed with AGRON, E E). (3-0) Cr. 3.
Prereq: MATH 265 or equivalent
Hornbuckle. Microwave remote sensing of Earth’s surface and atmosphere using satellite- or ground-based instruments. Specific examples include remote sensing of atmospheric temperature and water vapor, precipitation, ocean salinity, and soil moisture.

MTEOR 542. Physical Meteorology.
(3-0) Cr. 3.
Prereq: 342, MATH 266, PHYS 222
Planetary atmospheres, radiative equilibrium models, radiative transfer, the upper atmosphere, remote sounding from satellites.

MTEOR 543. Advanced Dynamic Meteorology I.
(3-0) Cr. 3.
Prereq: 455
The first half of a two semester sequence. Governing equations, scale analysis, simple types of wave motion in the atmosphere, instability theory.

MTEOR 544. Advanced Dynamic Meteorology II.
(3-0) Cr. 3.
Prereq: 543
Continuation of 543. General circulation and dynamics of zonally symmetric circulations, atmospheric energetics, nonlinear dynamics of planetary waves.

MTEOR 552. Climate Modeling.
(Dual-listed with 452). (3-0) Cr. 3.
Prereq: MTEOR 301
Developing and working with climate models based on fundamental physical principles that govern the climate systems of the Earth and other planets. Emphasis on coupled, nonlinear-system interactions of physical processes such as circulation dynamics, radiative transfer, and cloud/precipitation physics, starting with fairly simple 0- and 1-dimensional analytical and numerical models based on energy, mass, and momentum conservation. Observational study of seasonally evolving weather patterns that form climates around the world.

MTEOR 561. Geophysical Fluid Dynamics.
(3-0) Cr. 3.
Prereq: 455 or EM 378 or ME 335 or PHYS 361
Basic concept of rotating fluid dynamics, governing equations and boundary conditions, dynamics of vorticity, potential vorticity and geostrophic motion, wave motion in a rotating system, dynamics of Ekman and Stewartson layers, ocean circulation.

MTEOR 571. History of Modern Meteorology.
(Dual-listed with 471). (1-0) Cr. 1.
Prereq: MTEOR 341, 342, 411, 443, 452
Development of meteorological theories and numerical weather prediction, discoveries of important meteorological phenomena, and impact of weather and climate on important historical events.

MTEOR 590. Special Topics.
Cr. 1-3. Repeatable.
Prereq: Permission of instructor
Topics of current interest.
A. Boundary-layer Meteorology
B. Tropical Meteorology
C. Mesoscale Meteorology
D. Global Climate Systems
E. Climate Modeling
F. Numerical Weather Prediction
G. Satellite Observations
H. Statistical Methods in Meteorology
I. Field Observations
J. Low Frequency Modes
K. Cloud Physics
L. Atmospheric Radiation
M. Hydrology
N. Geophysical Fluid Dynamics

Courses for graduate students

(3-0) Cr. 3.
Prereq: 443 or equivalent-level course in engineering fluids
Atmospheric boundary-layer structure and dynamics. Diurnal and seasonal variations, turbulent fluxes and turbulence kinetic energy. Measurements and empirical relations for wind and temperature near the ground. Numerical simulation and applications to wind energy.

MTEOR 699. Research.
Cr. arr. Repeatable.
The Greenlee School of Journalism and Communication offers work for the bachelor of arts in advertising, and the bachelor of science degree in journalism and mass communication. The unit, founded in 1905, has been continuously accredited every six years since 1948 by the Accrediting Council on Education in Journalism and Mass Communications and was last reaccredited in 2004. Accreditation is based on the principle that students need a broad-based, liberal arts education, as well as a solid core of courses within the discipline.

**Undergraduate Study**

Students who complete degrees in advertising or journalism and mass communication will develop competencies in 12 key areas:

- History/role of professionals and institutions: Demonstrate an understanding of the history and role of professionals and institutions in shaping communications;
- First Amendment/Law: Understand and apply the principles and laws of freedom of speech and press, including the right to dissent, to monitor and criticize power, and to assemble and petition for redress of grievances;
- Theory: Understand concepts and apply theories in the use and presentation of images and information;
- Research and evaluation: Conduct research and evaluate information by methods appropriate to the communications professions in which they work;
- Diversity: Demonstrate an understanding of the diversity of groups in a global society in relationship to communications;
- Ethics: Demonstrate an understanding of professional ethical principles and work ethically in pursuit of truth, accuracy, fairness and diversity;
- Critical thinking: Think critically, creatively and independently;
- Writing: Write correctly and clearly in forms and styles appropriate for the communications professions, audiences and purposes they serve;
- Visual Communication: Conceptualize, prepare or select appropriate methods to convey information in visual form, whether as a complement or supplement to words;
- Numeracy: Apply basic numerical and statistical concepts; Critical Evaluation/Editing: Critically evaluate their own work and that of others for accuracy and fairness, clarity, appropriate style and grammatical correctness;
- Tools and technology: Apply tools and technologies appropriate for the communications professions in which they work.

To become an advertising or journalism and mass communication major, the student must:

1. have either achieved a score of 26 or higher on the ACT English exam, 590 or higher on the SAT verbal exam, or passed the School’s English Usage Test as outlined in the Greenlee School’s policy for meeting the English Usage Standard
2. have completed the pre-major core requirements (See majors). Until these requirements are successfully completed, advertising and journalism and mass communication students are designated as pre-majors. A copy of the EUT policy, including additional details and requirements, is available from the Greenlee School.

**Communication Proficiency Requirement**

To meet the University’s Communication Proficiency requirement, all majors in the School must earn a grade of C or better in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors). These additional requirements apply:

- Advt majors must earn a C+ or better in JL MC 201 and one of ADVRT 334 or ADVRT 336. JL MC majors must earn a C+ or better in:
  - JL MC 201 Reporting and Writing for the Media Media
  - One of the following
  - JL MC 202 Intermediate Reporting and Writing for the Mass Media
  - JL MC 206 Reporting and Writing for the Electronic Media
  - JL MC 321 Public Relations Writing

**The Advertising Major**

The advertising major prepares students for careers in business and industry or for graduate education. Students majoring in advertising find career opportunities in professions requiring applied communication expertise. Graduates are qualified for positions in the creative and account sides of advertising within businesses, agencies and media.

To become an advertising major, a student must successfully complete:

- JL MC 101 Mass Media and Society
- JL MC 110 Orientation to Journalism and Communication
- JL MC 201 Reporting and Writing for the Mass Media
- ADVRT 230 Advertising Principles

* with a C+ or better

Until the EUT standard is met and these courses are successfully completed, advertising students are designated as pre-majors. To receive a bachelor of arts degree in advertising, a student must earn at least 120 credits. A minimum of 80 credits must come from courses other than Advt or JL MC and must include MKT 340 Principles of Marketing. At least 66 of these credits must come from the liberal arts and sciences, and must include STAT 101 Principles of Statistics, or other approved statistics course, and SP CM 212 Fundamentals of Public Speaking. Overall, at least 45 credits must be from 300-level courses or above.

The degree requirements allow for a minimum of 33 and a maximum of 40 credits to be taken in Advt and JL MC. These include the pre-major core requirements of 9 credits:

- JL MC 101 Mass Media and Society
- JL MC 110 Orientation to Journalism and Communication
- JL MC 201 Reporting and Writing for the Mass Media
- ADVRT 230 Advertising Principles
- ADVRT 301 Research and Strategic Planning for Advertising and Public Relations
- JL MC 460 Law of Mass Communication
- JL MC 499 Professional Media Internship

* required of all ADVRT majors

Additional recommended courses and requirements for the advertising major are available from the Greenlee School.

Advt majors need a broad-based academic background that the School seeks to ensure by requiring a Designated Area of Concentration (DAC) made up of 21 credits with at least 12 credits from the 300-level or above. The DAC is a secondary area of expertise made up of courses selected and designed by the student, with adviser approval, to complement the student’s professional and academic interests. A second major outside of Advt or JL MC may substitute for the DAC.
The Journalism and Mass Communication Major

The major in journalism and mass communication prepares students for careers that involve all aspects of news and information. The emphasis is on generating ideas, organizing, writing, editing and presenting information for various media platforms and audiences. Graduates most likely will work in journalism (magazines, newspapers, electronic media or online media) and public relations and public information as well as related disciplines that expect articulate and informed writing and presentation. Students work with advisers to develop programs of study designed to prepare them for work in a variety of communication-specific areas: electronic media, print media (magazine and/or newspaper), public relations/public information, science communication or visual communication.

To be a JL MC major, a student must successfully complete JL MC 101, JL MC 110 and JL MC 201 (with a C+ or better). Until the EUT standard is met and these courses are successfully completed, journalism and mass communication students are designated as pre-majors. To receive a bachelor of science degree in journalism and mass communication, a student must earn at least 120 credits. A minimum of 90 credits must come from courses other than Advrt or JL MC. At least 65 of these credits must come from the liberal arts and sciences and must include STAT 101 Principles of Statistics, or other approved statistics course. Overall, at least 45 credits must be from 300-level or above.

The degree requirements allow for a minimum of 33 and a maximum of 40 credits to be taken in Advrt and JL MC. These include the pre-major core requirements of 6 credits:

</tbody>
</table>

* required for all JL MC majors

Additional recommended courses and requirements for the journalism and mass communication major are available from the Greenlee School.

JL MC majors need a broad-based academic background that the School seeks to ensure by requiring a Designated Area of Concentration (DAC) made up of 21 credits. All courses for the DAC must be taken outside of Advrt and JL MC. At least 12 credits must be from the 300-level or above. The DAC is a secondary area of expertise made up of courses selected and designed by the student, with adviser approval, to complement the student’s professional and academic interests. A second major may substitute for the DAC.

Minors

The Greenlee School offers a minor in Advertising and a minor in Journalism and Mass Communication.

For a minor in Advertising or Journalism and Mass Communication, students complete 15 credits, beginning with JL MC 101 Mass Media and Society. The remaining 12 credits, at least 9 of which must be from Iowa State University, are selected from course offerings in the advertising and journalism and mass communication majors, as follows:

<table>

JL MC majors may not minor in Advrt and Advrt majors may not minor in JL MC.

Graduate Study

The Greenlee School of Journalism and Communication offers work for a master of science degree in journalism and mass communication. Two tracks are available: one for students who desire specialized study in communication theory and research; the second for students who wish to strengthen professional strategic skills.

Majors plan programs of study in one of two tracks:

I. Communication as theory and research – The School offers advanced academic preparation in communication theory and research leading to the master of science degree. Graduate work prepares students to use and contribute to research and scholarship in the field of communication. The degree requires a thesis or creative component based on original research, which must be defended successfully before a committee at the end of the program.

Areas of research emphasis include: science and risk communication, media performance, media effects, advertising, public relations, political communication, communication technology, law and ethics, international communication and visual communication.

II. Professional and Strategic Communication – The School offers advanced professional study in journalism and mass communication leading to the master of science degree. Graduate work prepares students for professional careers in a variety of mass communication fields. Students with limited training or experience in journalism and mass communication may include skills courses in their programs for no credit. The degree requires either a creative component or a thesis.

All students must complete four core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>JL MC 592</td>
<td>Introduction to Graduate Study in Journalism and Mass Communication</td>
<td></td>
</tr>
<tr>
<td>JL MC 591</td>
<td>Theories of Mass Communication</td>
<td>3</td>

<tr>
<td>JL MC 598</td>
<td>Seminars in Mass Communication</td>
<td>1-3</td>
</tr>
</tbody>
</table>

Each student selects elective courses based on his/her area of emphasis and career goal, in consultation with the student’s major professor and Program of Study Committee.

The Greenlee School graduate program offers minor work for students majoring in other departments. The M.S. minor requires:

JL MC 501, JL MC 510 and one other course in journalism and mass communication for a total of 9 credits taken within the Greenlee School.
Advertising (AdVRT)

Courses primarily for undergraduate students

(3-0) Cr. 3. F.S.
Historical, social, economic and legal aspects of advertising. Evaluations of advertising research, media, strategy, and appeals. Study of the creation of print and broadcast advertising.

ADVRT 301. Research and Strategic Planning for Advertising and Public Relations.
(Cross-listed with JL MC). (3-0) Cr. 3. F.S. Prereq: 230 or JL MC 220; Sophomore classification
The use of primary and secondary research for prospect analysis, market segmentation, positioning, strategic planning, public opinion formation, communication strategy formation and development of critical thinking skills.

ADVRT 334. Advertising Creativity.
(2-2) Cr. 3. Prereq: C+ or better in JL MC 201, Advrt/JL MC 301
Development and execution of creative advertising materials. Copywriting, art direction and computer applications for print, broadcast and digital media. Creative strategy development, execution and evaluation.

ADVRT 335. Advertising Media Planning.
(3-0) Cr. 3. Prereq: C+ or better in JL MC 201, Advrt/JL MC 301
Concepts of media planning and selection in the development, execution and evaluation of advertising campaigns. Characteristics and capabilities of the advertising media. Utilization of market segmentation, consumer buying and media audience databases.

(3-0) Cr. 3. Prereq: C+ or better in JL MC 201, Advrt/JL MC 301
Fundamentals of account management with emphasis on leadership, sales techniques, relationship building, presentation skills, and strategic thinking. Includes aspects of agency revenue growth, team building, client management, evaluating creative concepts and media plans, and developing strategic proposals and campaign recommendations.

ADVRT 390. Professional Skills Development.
(Cross-listed with JL MC). Cr. 1-3. Repeatable, maximum of 3 credits. Prereq: C+ or better in 201, other vary by topic; instructor permission
Check School for course availability.

ADVRT 434. Advertising Campaigns.
(3-0) Cr. 3. F.S. Prereq: Advrt/JL MC 301; C+ or better in 334 or 336, and major status
Development of advertising campaigns for business and social institutions. Projects involve budgeting, media selection, market analysis, campaign strategy, and creative execution.

ADVRT 435. Advertising Competition.
Cr. 1-3. Repeatable, maximum of 3 credits. S. Prereq: Permission of instructor, Junior/senior standing strongly recommended
Preparation of materials for national and regional competitions.

ADVRT 436. Advertising Portfolio Practicum.
(2-2) Cr. 3. Prereq: C+ or better in 334, instructor permission
Advanced advertising writing and design. Emphasis on creative strategy, problem solving and execution of creative materials in print, broadcast and on-line media for a variety of clients.

ADVRT 497. Special Topics in Communication.
(Cross-listed with JL MC). Cr. 1-3. Repeatable
Seminars or one-time classes on topics of relevance to students in communication.

Journalism and Mass Communication (JL MC)

Courses primarily for undergraduate students

(3-0) Cr. 3. F.S.
Communication models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media-related professional operations.

JL MC 110. Orientation to Journalism and Communication.
Cr. R. F.S.
Orientation to career opportunities, emphasis areas and requirements in the Greenlee School. Offered on a satisfactory-fail basis only.

JL MC 201. Reporting and Writing for the Mass Media.
(1-4) Cr. 3. F.S. Prereq: ENGL 250 (or testout) and either a score of 26 or higher on the ACT-English exam, 590 or higher on the SAT verbal exam or a passing score on the School’s English Usage Test
Generating story ideas, exercising news judgment and gathering information via interviews, observation and documentary sources to produce news and informational material for the mass media. Emphasis on analyzing and organizing information, as well as accuracy and principles of good writing. Use of AP Style.

(2-2) Cr. 3. F.S. Prereq: C+ or better in 201
Designed for students interested in writing for newspapers, magazines and online media. Enhancing and refining skills in developing sources and generating story ideas. Information-gathering techniques, reporting and writing. Includes segments on local government and judiciary.

(2-3) Cr. 3. F.S. Prereq: C+ or better in 201
Researching, organizing, and writing for radio, television and online media. Basic principles of news, information and entertainment programming. An emphasis on development, content and structure.

(3-0) Cr. 3. F.S.
Introduction to public relations in business, government and non-profit organizations; functions, processes, and management; attitudes, public opinion and persuasion; overview of theory.

JL MC 301. Research and Strategic Planning for Advertising and Public Relations.
(Cross-listed with ADVRT). (3-0) Cr. 3. F.S. Prereq: ADVRT 230 or JL MC 220; Sophomore classification
The use of primary and secondary research for prospect analysis, market segmentation, positioning, strategic planning, public opinion formation, communication strategy formation and development of critical thinking skills.

JL MC 305. Publicity Methods.
(3-0) Cr. 3. Prereq: ENGL 250, Sophomore classification
Communication and publicity fundamentals and the use of media for publicity purposes. Preparing releases for print and broadcast; basics of publication layout. Publicity campaigns. Not available to JL MC and Advrt majors.

(2-2) Cr. 3. F.S. Prereq: C+ or better in JL MC 201
Introduction to studio production using professional equipment. Course focus on visual concepts, maintenance and practical operation of studio equipment.

(2-3) Cr. 3. Prereq: C+ or better in 202 or 206 or 321; 306
Field techniques in single-camera video production used to shoot and edit visual stories. Introduction to electronic news gathering.
(1-3) Cr. 3. Prereq: C+ or better in 201
Basic photojournalism techniques. Includes camera operation, lighting, composition, and photo reproduction techniques for print or computer-mediated applications. Emphasis on using the camera as a reporting tool. Basic use of digital imaging and editing software. Ethical issues involving photojournalism.

JL MC 312. Advanced Techniques in Photojournalism.
(3-0) Cr. 3. Prereq: JL MC 310 or permission of instructor
Advanced techniques and problem solving, both ethical and technical, for photographers who seek to be members of news-gathering teams. Photographic storytelling using a combination of audio and still photography techniques to report stories for print and web publications. Hands on experience with latest digital imaging technology.

(2-2) Cr. 3. Prereq: 306 or 342L or 343L or equivalent computer design proficiency
Concepts and principles for evaluating, constructing, and designing information for the Web and other computer-mediated communication systems. Explores the use of computer-generated animation and graphics, audio and video. Issues of ethics and ownership of work pertinent to the new media are discussed.

JL MC 321. Public Relations Writing.
(2-3) Cr. 3. Prereq: C+ or better in 201, 220 or ADVRT 230; 342 and 342L or computer design proficiency required. May be taken concurrently with 301
Developing and writing public relations materials with an emphasis on media relations and news. Techniques addressed include media kits, brochures, newsletters and speeches.

(Dual-listed with 541). (3-0) Cr. 3. Prereq: Junior classification
Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Individual study of magazines.

(3-0) Cr. 3. Prereq: Sophomore classification
Understanding of the visual message. Visual perception, visual communication theory, design syntax, design elements and how they are applied in journalism and mass communication.

L. Laboratory in Basic Visual Principles

JL MC 342L. Laboratory in Basic Visual Principles.
(2-2) Cr. 3. Prereq: Credit or enrollment in 342
Introduction to digital publishing, beginning techniques in layout. Application of visual principles to design simple print projects.

(2-2) Cr. 3. Prereq: 342L or equivalent computer design proficiency
Application of more advanced features of digital publishing and other document-enhancing software. Production of newsletters, multi-page brochures and other documents.

JL MC 344. Feature Writing.
(2-2) Cr. 3. F. Prereq: C+ or better in 202 or 206 or 321
Reporting and writing short- and long-form stories for magazines, newspapers, corporate communication and the Web. Focus on departmental stories, personal essays, trend or conflict articles and personality profiles. Emphasis on immersion reporting. Majors may not apply both 344 and Engl 303 toward graduation.

(2-2) Cr. 3. S. Prereq: C+ or better in 202 or 206 or 321
Reporting on government, business, and other institutions; identification of and access to public records; investigative reporting techniques; developing major stories on government and non-profit organizations, and issues for print and broadcast media.

JL MC 347. Science Communication.
(Dual-listed with 547). (2-2) Cr. 3. S. Prereq: C+ or better in 202 or 206 or 321 for JL MC majors; C+ or better in JL MC 201 and ADVRT 334 or 336 for Advrt majors. Nonmajors by permission of instructor
Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied sciences and social sciences, as well as ethical, political and policy issues related to science and technology.

JL MC 349. Print Media Editing.
(1-5) Cr. 3. Prereq: C+ or better in 202 or 206 or 321
Grammar, punctuation, usage, syntax and logic. Editing newspaper, magazine and online copy. Headline, title writing and visual presentation. Use of computer editing programs.

(2-3) Cr. 3. Prereq: 306 and 308
Application of advanced television techniques: producing, directing and managing live and recorded information programs.

(Cross-listed with ADVRT). Cr. 1-3. Repeatable, maximum of 3 credits. Prereq: C+ or better in 201; other vary by topic. Instructor permission
Check School for course availability.

(3-0) Cr. 3. Prereq: Junior classification
Theory and research in mass communication processes and effects; the scientific process; methods of measuring, evaluating and reporting mass communication research.

(Dual-listed with 506). (3-0) Cr. 3. Prereq: Junior classification
Decision-making functions of media. Basic media market analysis, media organization and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

(3-0) Cr. 3. Prereq: 220, 301, and C+ or better in 321; junior classification.
Section B: C+ or better in 202 or 206; instructor permission only
Developing public relations and corporate communication campaigns for business and social institutions.

A. Research, planning, developing and evaluating strategies and tactics.
B. Bateman Competition: national public relations campaign.

JL MC 449. Advanced Print Media Editing.
(3-0) Cr. 3. S. Prereq: 342, 342L, 349 or concurrent enrollment; junior classification
Developing higher-level editorial skills needed for issue-planning, editorial management and decision making. Designing, developing, and repositioning existing and new magazines, newspapers, and new media. Editing complex manuscripts, with continued emphasis on grammar, punctuation, usage, syntax and logic. Use of computer publishing programs. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Junior classification
Issues and policies affecting historical, contemporary and future developments of electronic media and their technologies.

(3-0) Cr. 3. Prereq: Junior classification
Evolution of motion picture and television content and other visual technologies. Theories and techniques for evaluating and critiquing film and video. Nonmajor graduate credit.
(3-0) Cr. 3. F.S. Prereq: C+ or better in 201; junior classification
First Amendment law, libel, privacy, obscenity, contempt, copyright, trademark, the Federal Communications Act; laws affecting advertising, legal publication, and other business activities of the media, including the Internet. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Junior classification
Role of the mass media, including advertising and public relations, in shaping the social, economic and political history of America; impact of change in these areas on the development, traditions, and philosophies of the media. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Junior classification
Media ethics and performance; functions of the media in relation to the executive, judicial and legislative branches of government; agencies of media criticism; right to know versus right to privacy.

(3-0) Cr. 3. Prereq: Junior classification
A study of journalism’s impact on literary writing and literature’s impact on journalism, as seen through the works of such American author-journalists as Ernest Hemingway, Truman Capote, Joan Didion, John McPhee, Tom Wolfe, Hunter Thompson. Nonmajor graduate credit.

(Cross-listed with T SC). (3-0) Cr. 3. Prereq: Junior classification
Examination of historical and current communication technologies, including how they shape and are shaped by the cultural and social practices into which they are introduced.

Meets International Perspectives Requirement.

(Dual-listed with 576). (3-0) Cr. 3. Prereq: Junior classification
World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media, and computer-mediated systems.

Meets International Perspectives Requirement.

JL MC 477. Ethnicity, Gender, Class and the Media.
(3-0) Cr. 3. Prereq: Junior classification
Portrayals of ethnic groups, genders, and classes in the media in news, information, and entertainment; the effects of mass media on social issues and population groups. Nonmajor graduate credit.

Meets U.S. Diversity Requirement

Cr. art. Prereq: Junior classification and contract with supervising professor to register
Independent studies are research-based. Students may study problems associated with a medium, a professional specialization, a philosophical or practical concern, a repportorial method or writing technique, or a special topic in their field. Credit is not given for working on student or professional media without an accompanying research component. See Greenlee School Student Services Office for more information. No more than 3 credits of JL MC 490 may be used toward a degree in journalism and mass communication or advertising.

JL MC 497. Special Topics in Communication.
(Cross-listed with ADVRT). Cr. 1-3. Repeatable, maximum of 3 credits. Seminars or one-time classes on topics of relevance to students interested in communication.

JL MC 499. Professional Media Internship.
Cr. 3. Prereq: JL MC majors, C+ or better in 202 or 206 or 321; AdVRT majors, C+ or better in JL MC 201; ADVRT 301; All students, junior classification: formal faculty adviser approval of written proposal. Required of all JL MC and AdVRT majors. A 400-hour internship in the student’s journalism and mass communication or advertising specialization. Assessment based on employer evaluations, student reports and faculty reviews. Available only to JL MC and AdVRT majors. Offered on a satisfactory-fail basis only.

(3-0) Cr. 3. F. Prereq: 6 credits in social science or admission to the graduate program
Examination of major areas of research activity and theoretical development related to organization, functions, and effects of mass communication.

(3-2) Cr. 4. S. Prereq: 501 or equivalent communication theory course
Research methods in journalism and mass communication, including problem selection, sampling, hypothesis formulation, research design, data collection and analysis. Designing a research strategy appropriate for a variety of communication-related questions and assessing the appropriateness, validity, and generalizability of research results.

JL MC 506. Media Management.
(Dual-listed with 406). (3-0) Cr. 3. S. Prereq: 6 credits in social science
Introduction to the study of mass media, including advertising, public relations, and management, circulation and audience development, technological developments affecting management decisions, and relationships with labor and regulatory agencies that affect media operations.

(3-0) Cr. 3. Prereq: 501
The process of developing professional communication and persuasion strategies, with emphasis on problem definition, behavioral objectives, situation analysis, strategy formulation, and justification through applications of communication theories and research results.

(3-0) Cr. 3. Prereq: 6 credits in social science
Theories and research methods applied to the study and practice of public relations.

(2-2) Cr. 3. Prereq: 6 credits in social science
Introduction to the study of picture-based media (film, television, photography, advertising, etc.). Exploration of theoretical concepts of vision and perception, visual literacy, visual language, visual persuasion/manipulation, and the cultural implications of visual images.

(Dual-listed with 341). (3-0) Cr. 3. Prereq: 502 or Instructor permission
Analysis of magazine industry and specific audiences served by print and online magazines. Editorial procedures and policies, advertising, circulation, and history of the industry. Roundtable on research literature.

JL MC 547. Science Communication.
(Dual-listed with 347). (2-2) Cr. 3. S. Prereq: 6 credits of social science or admission to the graduate program
Reporting and writing about science and technology topics for general audiences. Outlets for stories include print, broadcast and online media. Story topics include reporting about basic, applied and social sciences, as well as ethical, political and policy issues related to science and technology. Nonmajors by permission of instructor.

(3-0) Cr. 3. F. Prereq: 6 credits in social science
Media functions in a democratic society; conflicts between the media and social institutions; ethical and social controls on the media.
JL MC 574. Communication Technologies and Social Change.
(Cross-listed with T SC). (3-0) Cr. 3. Prereq: 6 credits in social science
Personal, organizational, and social implications of the use of communication technologies. Includes theories and empirical research across the continuum of perspectives, from techno-utopianism through an anti-technology stance.

Meets International Perspectives Requirement.

(Dual-listed with 476). (3-0) Cr. 3.
World communication systems and social, political, and economic factors determining flow, character, and volume of news. Impact of media information and entertainment content on nations and societies. Comparative analysis of role and impact of traditional modes of communication, the mass media and computer-mediated systems.

Meets International Perspectives Requirement.

JL MC 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor
A. Media Studies
B. Professional Specialization
C. Research Problems and Methods
D. Technique and Style
E. Specialized Communication

JL MC 591. Professional Internship.
Cr. 1-2. F.S.S. Prereq: Permission of instructor
Supervised internship experience. Offered on a satisfactory-fail basis only.

JL MC 592. Introduction to Graduate Study in Journalism and Mass Communication.
Cr. R. F. Prereq: Graduate classification
Overview of advanced study in journalism and mass communication with special emphasis on requirements for obtaining the master of science degree.

Cr. 1-3. Repeatable.
A. Audiences and Effects
B. Communication Technology
C. Professional Communication
D. Development Communication
E. Evaluation Methods
F. International Communication
G. Mass Communication History
H. Mass Communication Law
I. Media Management
J. Research Methods
K. Society and Mass Communication
L. Journalism and Mass Communication Education
M. Visual Communication
N. Broadcast Communication
O. Communication Theory
P. Computer Mediated Communication
Q. Science, Technology and Risk Communication.

JL MC 599. Creative Component.
Cr. arr. Prereq: Approved creative component proposal

Courses for graduate students
Cr. arr. Repeatable. Prereq: Approved thesis proposal
The History department offers courses leading to the B.A. and B.S. degrees in history, the M.A. degree in history, the M.A. and Ph.D. degrees in the history of technology and science, and the Ph.D. degree in agricultural history and rural studies.

The department offers a variety of survey courses (200 series) for first- and second-year students as either general education courses or as introductions to advanced courses in history or other subject areas. In addition to 200-level survey courses, it offers advanced undergraduate courses in the history of Europe, Asia, Africa, Latin America, the United States, technology and science, agriculture, and other selected topics.

Undergraduate Study

The History major. For a description of the undergraduate curriculum with a major in History see Liberal Arts and Sciences, Curriculum. History majors may earn either a bachelor of arts or bachelor of science degree. The minimum required for a major in history is 36 credits, of which at least 24 must be in courses numbered 300 or above. Students may take a maximum of 12 credits at the 200-level, a maximum of 15 credits at the 300-level, and must take a minimum of 12 credits at the 400-level or above. A minimum of 15 credits numbered 300 or above must be taken in residence at Iowa State. The department will accept a maximum of 6 credits of cross-listed courses originating in another teaching department toward the major degree. Candidates for the B.A. must complete two years of university-level study in one foreign language or the equivalent.

Objectives for History Majors

1. Display the appropriate level of cognitive knowledge of historical themes and events based upon the student’s course of study
2. Display an understanding of past cultures and social organizations, based on the course of study
3. Develop the fundamental methodological skills of the historical craft:- The ability to contextualize and analyze primary source evidence.- Familiarity with the concepts of historical argument and interpretation, and the ability to formulate effective argumentation in written and oral forms.- Awareness of the basic historiography in selected research area.- The ability to conduct research and to write a historical essay based upon primary and secondary source research
4. Display a sophisticated understanding of the relationship between past events and the present. For purposes of outcomes assessment, all History majors must complete three credits of HIST 495 Historiography and Research Writing or, if qualified and willing, one graduate level writing/research seminar.

Communication Proficiency requirement: History majors must receive a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and HIST 495 or any graduate seminar.

For a description of the major in History as preparation for professional programs, see Preprofessional Study. Students majoring in History may also earn a second major in International Studies; see Inter-national Studies.

Majors must distribute their courses across geographic and chronological areas such that they take at least 3 credits at the 300-level or above in five of the following six areas:

- U.S. history, European history, African/Asian/Latin American history
- Ancient history (pre-500), medieval and early-modern history (ca. 500-1750), and modern history (post-1750)

Individual courses may fulfill both a geographic and a chronological area. For example, a course on nineteenth century France may count as both European history and modern history. No single course, however, may be used to fulfill more than one geographic and one chronological area. If a course stretches significantly across two or more areas, students will select which geographic and/or which chronological area they want the course to fulfill. The History Department undergraduate adviser should be consulted as to which courses fulfill what areas. HIST 495 Historiography and Research Writing may not be used to fulfill any area.

The department offers a minor in History, which may be earned with 15 credits in History courses, of which at least 9 must be in courses numbered 300 or above, excluding HIST 490 Independent Study. A minimum of 9 credits numbered 300 or above must be taken at Iowa State. The College of Liberal Arts and Sciences requires students to earn a C or higher in at least 6 of the required 300-level credits. A student may count a maximum of 3 hours of cross-listed courses originating in another teaching department toward the minor in History. The History minor is most frequently chosen by students majoring in Political Science, English, Journalism, Computer Science, and Business.

Graduate Study

Graduate students may take any 400-level history course except 490 and 495 for graduate credit. There is a maximum of 12 credits of 400-level courses for a graduate degree in history. Additional work is required for graduate credit in 400-level courses.

Most history graduate courses are either prosemnars or seminars. Pros-emnars acquaint students with the historical literature of a field and prepare them for careers in teaching and research. Seminars require students to conduct original historical research and to write research papers reporting the results.

The M.A. in history includes three optionsSee the departmental website on the M.A. in History for a full discussion of the options and requirements. An M.A. in History serves as the basis for continued study in history, as well as preparation for careers in law, education, business, and government service. For international students, a TOEFL score of 600 is required at the time of admission.

The M.A. and Ph.D. in history of technology and science examines the role of technology and science in the formation of modern societies and their attitudes toward people and the world. For a thorough description of the program requirements, see the department’s website on the history of technology and science program. In addition to appropriate coursework, students will take preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination.

The Ph.D. in agricultural history and rural studies is designed as a Ph.D. program, but students without an M.A. in history will be expected to qualify for the departmental M.A. in history while progressing toward the doctorate. In some cases, the M.A. may be recommended as the terminal degree. Thirty semester hours of graduate credit are required for the M.A. and 72 for the Ph.D. Students who continue beyond the M.A. are expected to pass preliminary examinations in four areas of specialization, complete a dissertation, and defend it orally in the Ph.D. final examination. See the departmental website on the program for a full description of requirements.

Courses primarily for undergraduate students

HIST 201. Introduction to Western Civilization I. (3-0) Cr. 3. F.
Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.

HIST 202. Introduction to Western Civilization II. (3-0) Cr. 3. S.
Western civilization from 1500 to present. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement.
HIST 207. Chinese Civilization.
(3-0) Cr. 3.
Origins, development, decline and transformation of China from earliest times to present.
Meets International Perspectives Requirement.

HIST 221. Survey of United States History I.
(3-0) Cr. 3. F.
Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

HIST 222. Survey of United States History II.
(3-0) Cr. 3. S.
Industrialization; emergence as a great power; boom and depression; war, internationalism and Cold War; modern industrial society.

HIST 240. Latina/o History.
(3-0) Cr. 3.
Historical and cultural heritage of Latinas/os in the United States. The histories of Mexican, Puerto Rican, Cuban, and other Latin American peoples in the U.S. emphasizing political and cultural convergence and congruencies.
Meets U.S. Diversity Requirement.

HIST 280. Introduction to History of Science I.
(3-0) Cr. 3. F.
Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.
Meets International Perspectives Requirement.

HIST 281. Introduction to History of Science II.
(3-0) Cr. 3. S.
History of changing interplay of science and religion in our understanding of the world, from the trial of Galileo to the reception of Darwin.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: Sophomore classification
Social, cultural, and political development in England from the sixteenth to the eighteenth centuries.
Meets International Perspectives Requirement.

HIST 283. Modern Latin America national origins from 1800 to present.
(3-0) Cr. 3.

HIST 284. Wonders of the World, Ancient to Early Modern.
(3-0) Cr. 3. F.
Starting from the classical "Seven Wonders of the World," examines the architectural, artistic, and intellectual achievements of the ancient world, up to the Industrial Revolution. Topics include developments in warfare, architecture, literature, and the arts.
Meets International Perspectives Requirement.

(3-0) Cr. 3. S.
Examines the technological and cultural achievements of the modern world, from the Industrial Revolution to the present.
Meets International Perspectives Requirement.

HIST 304. Cultural Heritage of the Ancient World.
(Cross-listed with CL ST). (3-0) Cr. 3. Prereq: Sophomore classification
Historical examination of art, literature, thought, and religious beliefs of major civilizations of the ancient Mediterranean countries until the end of the 8th century.

(3-0) Cr. 3. Prereq: Sophomore classification
Social practices, beliefs and material traits of everyday life in America from the mid-19th century to the present. Includes literature, music, theater and other entertainments. Dime novels, vaudeville, rock and roll music, Hollywood and establishment of professional athletic leagues are among the cultural artifacts and phenomena considered.

HIST 316. History of Medieval Europe, 300-1500.
(3-0) Cr. 3. Prereq: Sophomore classification
Survey of political, social, and cultural developments in western Europe for the entire medieval period, 300-1500.

(3-0) Cr. 3. Prereq: Sophomore classification
Survey of major themes in the social, political, cultural, and religious history of early modern Europe, including the rise of nation states, the religious wars, and the scientific revolution.

(3-0) Cr. 3. Prereq: Sophomore classification
Survey of major themes in the social, political, cultural, and religious history of early modern Mediterranean states, from the classical period to the end of the Ottoman Empire.

HIST 323. Science and Religion.
(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: Sophomore classification
History of the relationship between science and religion, from the trial of Galileo to the reception of Darwin.

(3-0) Cr. 3. Prereq: Sophomore classification
Social, cultural, and political development in England from the sixteenth to the eighteenth centuries.

HIST 336. History of Modern China I.
(3-0) Cr. 3.
China from 1644 to 1912; internal and external stimuli on traditional structures leading to reform and revolution.

HIST 337. History of Modern China II.
(3-0) Cr. 3.
China from 1912 to present; search for a new order and continuing Chinese revolution.

(3-0) Cr. 3.
Japan 1600 to the present; emphasis on transformation of feudal Japan into a modern nation.

(3-0) Cr. 3.
A survey of US-East Asian (Japan, China, Korea) relations from the late 18th century to the end of the Cold War.

HIST 340. History of Latin America I.
(3-0) Cr. 3.
Colonial Latin America from European discovery and colonization to wars for independence.

HIST 341. History of Latin America II.
(3-0) Cr. 3.
Modern Latin America national origins from 1800 to present.
Meets International Perspectives Requirement.
HIST 353. History of African Americans I.  
(Cross-listed with AF AM). (3-0) Cr. 3. Prereq: Sophomore classification  
Examines African roots of black culture and the African American experience in the United States from the colonial period through the Civil War. Topics include Atlantic Slave Trade, slavery and American identity, abolition, the emergence of Black Nationalism, and black participation in the Civil War.  
Meets U.S. Diversity Requirement

HIST 354. History of African Americans II.  
(Cross-listed with AF AM). (3-0) Cr. 3. Prereq: Sophomore classification  
Explores African American political and thought action from Reconstruction to the present. Topics include rise of Jim Crow segregation, urban migration, Garvey movement, Harlem Renaissance, Depression and world wars, Pan-Africanism, civil rights, Black Power, and black feminism.  
Meets U.S. Diversity Requirement

HIST 355. Slavery and the Crisis of Union.  
(3-0) Cr. 3. Prereq: Sophomore classification  
Examines causes and primary events of the sectional crisis over slavery leading up to the Civil War. Missouri Crisis through Presidential Election of 1860.  

HIST 356. U.S. Civil War and Reconstruction.  
(3-0) Cr. 3. Prereq: Sophomore classification  
Political, military, and social aspects of the Civil War and Southern Reconstruction. Secession crisis through Reunion.  

HIST 360. U.S. 1900 to 1945.  
(3-0) Cr. 3. Prereq: Sophomore classification  
America in transition and crisis; Progressivism, World War I, the twenties, the Great Depression, and World War II.  

HIST 361. U.S. 1945 to the Present.  
(3-0) Cr. 3. Prereq: Sophomore classification  
From the Cold War to the Baby Boom to the liberal swing of the 1960s, back to the conservative counter-swing thereafter.  

HIST 365. History of American Agriculture I.  
(3-0) Cr. 3. Prereq: Sophomore classification  
American agricultural development from colonial times: European background, colonial period to 1865.  

HIST 366. History of American Agriculture II.  
(3-0) Cr. 3. Prereq: Sophomore classification  
American agricultural development from 1865 to present.  

HIST 367. Topics in American Agriculture.  
(3-0) Cr. 3. Prereq: Sophomore classification  
Thematic approach to the development of the American agricultural system. Topics vary; examples include food and agriculture, animals in agriculture, and systems of production.  

(Cross-listed with CL ST, W S). (3-0) Cr. 3. S. Prereq: Any one course in CL ST, W S, Latin, or Greek  
Chronological and topical survey of the status of women and men, focusing on sex/gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Near East, Egypt, Greece, and Rome.  
Meets International Perspectives Requirement.

(Cross-listed with W S). (3-0) Cr. 3. Prereq: Sophomore classification  
History of women’s relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.  
Meets U.S. Diversity Requirement

HIST 383. Technology, Public Science, and European Culture, 1715-Present.  
(3-0) Cr. 3. Prereq: Sophomore classification  
A survey from the Age of Enlightenment to the end of the twentieth century of the relationship between science, technology, and public or popular culture in a comparative European context (including Russia and the former Soviet Union).  
Meets International Perspectives Requirement.

HIST 386. History of Women in America.  
(Cross-listed with W S). (3-0) Cr. 3. Prereq: Sophomore classification  
A survey of social, economic, and political aspects of women’s role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.  
Meets U.S. Diversity Requirement

HIST 388. History of Modern Astronomy.  
(3-0) Cr. 3. Prereq: Sophomore classification  
Changing conception of the universe from Galileo to Edwin Hubble and beyond.  

(3-0) Cr. 3. Prereq: Sophomore classification  
American military history from the colonial wars to the present, including Revolutionary War, Mexican War, Civil War, First and Second World Wars, Korean War, Vietnam War, and Gulf Wars.  
Meets International Perspectives Requirement.

HIST 390. World Military History.  
(3-0) Cr. 3. Prereq: Sophomore classification  
Covers military history from the Napoleonic era through the mid- and late-19th century wars, the First and Second World Wars, and wars of national liberation and regional conflicts since 1945.  
Meets International Perspectives Requirement.

HIST 391. American Diplomatic History.  
(3-0) Cr. 3. Prereq: Sophomore classification  
A study of US foreign relations during the twentieth century, including the rise to global power, the First World War, diplomacy during prosperity and depression, the Second World War, the Cold War, relations with Latin America, East and South Asia, and Africa, the search for markets, and the perceptions of American foreign policy held by the US, its allies and adversaries, and others.  

HIST 396. Topics in History.  
(3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor  
Specialized topics in history; topics vary each time offered.  
A. Europe  
B. U.S. and North America  
C. Global

HIST 402. Greek Civilization.  
(Cross-listed with CL ST). (3-0) Cr. 3. Prereq: Sophomore classification  
Ancient Greece from the Bronze Age to the Hellenistic period; evolution of the Greek polis and its cultural contributions, with a particular emphasis on the writings of Herodotus and Thucydides. Nonmajor graduate credit.
HIST 403. Roman Civilization.
(Cross-listed with CL ST). (3-0) Cr. 3. Prereq: Sophomore classification
Ancient Rome from the Regal Period to the fall of the Western Empire; evolution of Roman institutions and Rome’s cultural contributions studied through original sources. Nonmajor graduate credit.

HIST 404. Roman Social History.
(Cross-listed with CL ST). (3-0) Cr. 3. Prereq: Sophomore classification
Examines major topics in Roman social history during the late Republic and early Empire, such as class, family, slavery, religion, and the economy. Nonmajor graduate credit.

HIST 405. History of the Early Middle Ages.
(3-0) Cr. 3. Prereq: Sophomore classification
General coverage of political, economic, social, and cultural developments in early medieval Europe, 300-1000; in depth coverage of particular issues and topics. Nonmajor graduate credit.

HIST 406. History of the High Middle Ages.
(3-0) Cr. 3. Prereq: Sophomore classification
General coverage of political, economic, social, and cultural developments in high medieval Europe, 1000-1300; in-depth coverage of particular issues and topics. Nonmajor graduate credit.

HIST 407. History of the Late Middle Ages.
(3-0) Cr. 3. Prereq: Sophomore classification
General coverage of political, social, and cultural developments of high medieval Europe, 1300-1500; in-depth coverage of particular issues and topics including the medieval origins of Renaissance and Reformation. Nonmajor graduate credit.

HIST 408. Europe, 1500-1648.
(3-0) Cr. 3. Prereq: Sophomore classification
Northern Renaissance; Church and Luther; Protestant reform and Roman-Catholic counter-reform; social, cultural, and economic changes; Spain in triumph and decline; religious wars and emergence of France. Nonmajor graduate credit.

HIST 411. European Economic History, 1450-1789.
(3-0) Cr. 3. Prereq: Sophomore classification
Survey of major themes in European economic history, including property rights, agriculture, and rural economic development; lordship and its consequences; demography and urbanization; consequences of war and fiscal policy; colonial empires and world trade; and Agricultural and First Industrial Revolutions. Nonmajor graduate credit.

HIST 414. European Cultural and Intellectual History.
(3-0) Cr. 3. Prereq: Sophomore classification
A study of the development of key themes in European thought: nature, man, God, society, history, and creativity from Rousseau to Post-Modernism. Nonmajor graduate credit.

HIST 419. History of Modern France.
(3-0) Cr. 3. Prereq: Sophomore classification
From absolutism to revolution and the rise of modern democracy. Nonmajor graduate credit.

HIST 420. France’s Revolutionary Century, 1715-1815.
(3-0) Cr. 3. Prereq: Sophomore classification
An in-depth investigation of the French Revolution, its causes and consequences, beginning in the Ancien Régime and ending with the fall of Napoleon. Nonmajor graduate credit.

HIST 421. History of Russia I.
(3-0) Cr. 3. Prereq: Sophomore classification
Russia to 1850. Origins of Russian people; Byzantine influences; Mongol invasion; rise of Moscow; Westernization. Nonmajor graduate credit.

Meets International Perspectives Requirement.

HIST 422. History of Russia II.
(3-0) Cr. 3. Prereq: Sophomore classification
Russia since 1850. Reform and revolution; transformation of society; USSR as a world power; recent changes. Nonmajor graduate credit.

Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: Sophomore classification
Course examines different forms and ideas of criminality and the nature and development of law enforcement in England between 1550 and 1856. Significant issues will include the nature of criminal records and statistics, the legal system, the politics of the law and its links with social relations, policing, female crime, juvenile delinquency, organized crime, riots, “social crime,” and the treatment of crime in creative literary texts. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
Explores the history of punishing criminals in England and shows how interdisciplinary perspectives, ideas, and practices of punishment are related to mentalities, and socio-economic change. Issues of significance examined: violence, civility, manners, madness, public punishment, execution, imprisonment, transportation, mercy, the rise of asylums, and penal reform. Nonmajor graduate credit.

(3-1) Cr. 4. Prereq: Sophomore classification
Study of London’s social, economic, cultural, political, and environmental history 1500-1800, using both quantitative and qualitative methods to examine contemporary and secondary sources. Course combines standard lecture and discussion format with one week of intensive study abroad for 4th hour of course credit. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
England since 1850. Parliamentary and constitutional development; social reform and economic change; imperial Britain; welfare state. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
Development of science, technology, and medicine in Latin America from pre-colonial times to the present. Themes include: intersection of science, medicine, and technology with colonization, impact of human populations on environments, formation of nation-states, spread of disease, and how perceptions of accepted scientific knowledge change over time. Nonmajor graduate credit.

Meets International Perspectives Requirement.

HIST 450. Colonial America.
(3-0) Cr. 3. Prereq: Sophomore classification
Exploration, colonization, and development of political, economic, religious, and cultural institutions of North American colonies before 1754. Topics also include social history, emergence of African-American slavery, relations with American Indians. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
Participants, ideas, and events leading to independence and the foundation of the United States, 1754 to 1789. Topics include political, military, social, cultural history, also issues of gender and race relations. Nonmajor graduate credit.

HIST 456. American Family History.
(3-0) Cr. 3. Prereq: Sophomore classification
The impact on American families from colonial times onward of agricul- tural change, industrialization, urbanization, and wars and depressions. Nonmajor graduate credit.
HIST 461. The Rural South.
(3-0) Cr. 3. Prereq: Sophomore classification
History of the American South from colonial period to present. Emphasis on economic, social, and political change in this rural region. Nonmajor graduate credit.

HIST 465. The American West.
(3-0) Cr. 3. Prereq: Sophomore classification
History of trans-Mississippi West from 1800 to present, concentrating on settlement and regional identity. Emphasis on the state, the environment, urbanization, agriculture, Native Americans, and minority communities. Nonmajor graduate credit.

HIST 468. History of Rural America.
(3-0) Cr. 3. Prereq: Sophomore classification
History of rural America from the colonial period to the present. Emphasizes immigration, ethnicity, religion, social and cultural change, and agriculture in relation to rural settlement, institution building, demographic change, gender, class, and political and economic development. Nonmajor graduate credit.

HIST 472. U.S. Environmental History.
(Cross-listed with ENV S). (3-0) Cr. 3. Prereq: Sophomore classification
Survey of the interactions of human communities with the North American environment. Focus on the period from pre-settlement to the present, with a particular concentration on natural resources, disease, settlement patterns, land use, and conservation policies. Nonmajor graduate credit.

HIST 473. Civil Rights and Ethnic Power.
(3-0) Cr. 3. Prereq: Sophomore classification
Comparative history of the civil rights and ethnic power movements (Chicano movement, American Indian movement, Puerto Rican civil rights, Asian movement) in the U.S. from World War II to the present. Topics include institutional foundations, leadership, gender and racial dynamics, and the convergences and divergences of these differing ethnic struggles for rights. Nonmajor graduate credit.

Meets U.S. Diversity Requirement

HIST 474. Tradition and Transformation of China's Foreign Affairs.
(3-0) Cr. 3. Prereq: Sophomore classification
Evolution of China’s external relations from the antiquities to our own times; conceptions, practices, and relationships that characterized the inter-state relations of the so-called “Chinese world order,” interactions between “Eastern” and “Western,” and “revolutionary” and “conventional” modes of international behaviors. Nonmajor graduate credit.

HIST 479. China and the Cold War.
(3-0) Cr. 3. Prereq: Sophomore classification
Important events in China’s Cold War involvement, connections between domestic and foreign affairs, factors and rationales in China’s foreign policy making the relationship between China’s Cold War experience and recent developments. Nonmajor graduate credit.

HIST 480. Field Experience for Secondary Teaching Preparation.
Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.)
A. History/Social Sciences (Same as C I 480A)

HIST 482. Birth, Death, Medicine, and Disease.
(3-0) Cr. 3. Prereq: Sophomore classification
History of medicine, sickness, and public health from ancient times to the twenty-first century in the US, Europe, and around the world. Topics include changing ideas of health and illness, development of doctors and hospitals, social and ethical issues in health care, and epidemics from cholera to AIDS. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: Sophomore classification
History of the sciences of humankind since the 18th century: evolutionary natural and social science, the modern social sciences; anthropology, psychology, economics, law, psychiatry, human growth and development, political science, city planning, public administration, business administration, among others, and the uses of the human sciences in education, politics, advertising, corporate functioning, warfare, psychotherapy, childrearing, and other pursuits in modern times, as well as the impact of postmodernism on the human sciences. Nonmajor graduate credit.

HIST 488. American Stuff, Colonial Times to the Present.
(3-0) Cr. 3. Prereq: Sophomore classification
Examines inventions, machines, innovations, artifacts, and material culture in the US, from homespun cloth and the Colt revolver through the transcontinental railroad and Model T, to the Big Mac and iPod. Nonmajor graduate credit.

HIST 490. Independent Study.
(3-0) Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 9 credits in history; permission of department chair
Reading and reports on problems selected in conference with each student. No more than 6 credits of Hist 490 may be counted toward graduation with a major in History. No credits of Hist 490 may count toward a minor in History.

HIST 495. Historiography and Research Writing.
(3-0) Cr. 3. F.S. Prereq: Senior history majors with at least 12 credits of 300+ level history courses
Variable topics seminar that focuses on historiographical and research skills and writing. Required of majors.

HIST 496. Advanced Topics in History.
(3-0) Cr. 3. Prereq: Sophomore classification or permission of instructor
Specialized topics in history, topics vary each time offered.
A. Europe
B. U.S. and North America
C. Global

HIST 498. Methods of Teaching History/Social Sciences.
(Cross-listed with C I). (3-0) Cr. 3. S. Prereq: Concurrent enrollment in 480A; Admission to teacher education and 30 credits in subject-matter field
 Concurrent enrollment in 480A; Admission to teacher education and 30 credits in subject-matter field. Theories and processes of teaching and learning secondary history/social sciences. Emphasis on development and enactment of current methods, assessments, and curriculum materials for providing appropriate learning experiences.

HIST 491. American Revolutionary Era.
(3-0) Cr. 3. Prereq: Sophomore classification
Participants, ideas, and events leading to independence and the foundation of the United States, 1754 to 1789. Topics include political, military, social, cultural history, also issues of gender and race relations. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

HIST 510. Proseminar in East Asian History.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Readings in East Asian history. Topics vary each time offered.

HIST 511. Proseminar in American History.
(3-0) Cr. 3. Repeatable. Prereq: Permission of instructor
Readings in American history. Topics vary each time offered.
A. Colonial Period
B. Nineteenth Century
C. Twentieth Century
D. Environment
E. Social and Cultural

**HIST 512. Proseminar in European History.**
(3-0) Cr. 3. Repeatable. **Prereq:** Permission of instructor
Readings in European history.
A. Ancient (Same as CI St 512A)
B. Medieval and Early Modern
C. Modern

**HIST 513. Proseminar in Latin American History.**
(3-0) Cr. 3. Repeatable. **Prereq:** Permission of instructor
Readings in Latin American history. Topics vary each time offered.

**HIST 530. Proseminar in Modern Russian/Soviet History.**
(3-0) Cr. 3. Repeatable. **Prereq:** HIST 422
Readings in modern Russian history. Topics vary each time offered.

**HIST 550. Proseminar in European Rural and Agricultural History.**
(3-0) Cr. 3. Repeatable. **Prereq:** Permission of instructor
A. Modern European Rural Life
B. Twentieth Century Europe

**HIST 552. Proseminar in American Rural and Agricultural History.**
(3-0) Cr. 3. Repeatable. **Prereq:** Permission of instructor
A. American Agriculture
B. Agrarian Reform Movements
C. Midwestern Rural Society
D. Women in Rural Life

**HIST 575. Seminar in General History of Technology.**
(3-0) Cr. 3. Repeatable, maximum of 6 credits. **Prereq:** Permission of instructor
The history of technology with emphasis on the historical literature, differing interpretations of major problems, and problems identified for college-level teaching and for further scholarly research.

**HIST 583. Historical Methods.**
(3-0) Cr. 3.
Study of evidence, theory, and methods.
A. Historical Narrative
B. Statistical Evidence and Analysis
C. Issues in Historiography

**HIST 586. Proseminar in Women’s History and Feminist Theory.**
(Cross-listed with W S). (3-0) Cr. 3. **Prereq:** Permission of instructor
Feminist theory from the 1960s to the present as it relates to the writing of women’s history. Analysis of interpretations of U.S. women’s history from patriarchal to postmodernist perspectives.

**HIST 590. Special Topics.**
Cr. 1-3. Repeatable. **Prereq:** Permission of instructor

**HIST 593. Seminar in American History.**
(3-0) Cr. 3. Repeatable. **Prereq:** Permission of instructor
Topics vary each time offered.
A. Colonial Period
B. Nineteenth Century
C. Twentieth Century
D. Environmental

**HIST 594. Seminar in European History.**
(3-0) Cr. 3. Repeatable. **Prereq:** Permission of instructor
Topics vary each time offered.
A. Ancient (Same as CI St 594A)
B. Medieval and Early Modern
C. Modern

Courses for graduate students

**HIST 610. Seminar on American Rural Life.**
(3-0) Cr. 3. **Prereq:** Permission of instructor
Emphasis varies each time offered.

**HIST 699. Research.**
Cr. 1-6. Repeatable.
Graduate student thesis research.
The Honors Program provides a vehicle for highly motivated and able students to pursue an innovative and challenging undergraduate education. Oversight of students' progress toward this goal is primarily the responsibility of the undergraduate colleges, each of which operates its own Honors Program. The college Honors Program committees admit students into the Program, approve programs of study, and are responsible for the administration of their college Honors Program. The University Honors Program Committee, which includes the chairs of the college Programs, is responsible for the general coordination of the college Honors Programs and the First-year Honors Program.

Students in the Honors Program are offered a variety of academic opportunities designed to help them derive the fullest benefit from their undergraduate education. To enhance their individualized programs of study, students are offered numerous Honors courses, seminars, and independent research opportunities.

Honors courses and Honors sections of regular courses are offered by several departments and programs. These courses, open only to Honors Program members, have limited enrollment and are taught by specially selected instructors. Most of these courses are listed by department or program. (See Economics, Engineering, English, Mathematics, Physics, Psychology, and Speech Communication.)

In addition to established Honors courses, Honors students may designate any course as an Honors course by making appropriate arrangements with the course instructor and obtaining approval of the Honors Program Director. Most departments offer opportunities for independent study and research under 290 and 490; when designated by an H, these courses also carry Honors credit.

Research grants are available to support Honors research.

Listed below are those courses that are offered directly by the University Honors Program. Specific information about the full range of Honors courses and seminars for the current academic year, including the Honors courses offered by individual departments and programs, may be obtained from the Honors Program Office in Jischke Honors Building.

Courses primarily for undergraduate students

**HON 121. First-Year Honors Seminar.**

(0-2) Cr. 1. F. Prereq: Membership in the First-Year Honors Program
Orientation to Iowa State University and to the University Honors Program. Offered on a satisfactory-fail basis only.

**HON 290. Special Problems.**

Cr. arr. Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores. Offered on a satisfactory-fail basis only.

H. Honors.
U. Undergraduate Research

**HON 302. Honors Leadership Seminar.**

(1-2) Cr. 2. F. Prereq: Selection as a leader of a First-Year Honors Seminar For students serving as leaders of First-Year Honors Seminars, under faculty supervision. Development of teaching and leadership skills within the context of an Honors education experience. Offered on a satisfactory-fail basis only.

**HON 322. University Honors Seminars.**

Cr. 1-2. F.S.SS. Prereq: Membership in the University Honors Program
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 323. University Honors Seminars.**

Cr. 1-2. F.S.SS. Prereq: Membership in the University Honors Program
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

Cr. 1-2. F.S.SS. Prereq: Membership in the University Honors Program
Interdisciplinary seminars on topics to be announced in advance. Offered on a satisfactory-fail basis only.

**HON 490. Independent Study.**

Cr. arr. Repeatable. Prereq: Membership in and permission of the University Honors Program
Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.
Interdepartmental Undergraduate Major and Minor, Administered by the College of Liberal Arts and Sciences

Undergraduates completing the International Studies major understand the interconnections between local and global issues and events. They can integrate their understanding of a selected global issue with knowledge of the major culture, values, and problems of a selected geographical area. They can communicate with persons of cultures other than their own and, in so doing, appreciate the impact of their own cultural and educational experience on their perception of the world. The international studies program provides opportunities for students to develop skills and understanding about international events and problems, and global issues. The program is designed for students who wish to prepare for work or advanced study in the international arena, such as in foreign service, journalism, advocacy organizations, scientific or research institutions, business, nongovernmental development organizations (NGOs), humanitarian agencies, environmental organizations, human rights organizations, think tanks, international agriculture, engineering, and other fields.

A secondary major and a minor in International Studies are available for undergraduates. The program requirements are structured around a combination of a designated Topical Module and a Geographic Regional Studies Component. Each student’s program of study is designed to reflect programmatic opportunities at Iowa State University and the academic, intellectual, and professional interests of the student.

Secondary Major

A student seeking a secondary major in International Studies must successfully complete a minimum of 27 semester credits in courses approved for use in the International Studies program, including: INTST 235 Introduction to International Studies, INTST 430 Seminar in International Studies; 21 credits in courses approved for the International Studies program, with a minimum of 9 credits (at least 6 of which are numbered 300 or above) in a designated Topical Module and a minimum of 9 credits (at least 6 of which are numbered 300 or above) in a Geographic Regional Studies Component; Fulfillment of Language Proficiency (see below); study abroad.

The major must include a minimum of 12 credits not used to meet any other department, college, or university requirement.

Minor

A student seeking a minor in International Studies must successfully complete a minimum of 18 semester credits in courses approved for use in the International Studies program, including: INTST 235 Introduction to International Studies, INTST 430 Seminar in International Studies; 12 credits in courses approved for the International Studies program, with a minimum of 6 credits (at least 3 of which are numbered 300 or above) in a designated Topical Module and a minimum of 6 credits (at least 3 of which are numbered 300 or above) in a Geographic Regional Studies Component; Fulfillment of Language Proficiency (see below); study abroad.

The minor must include a minimum of 9 credits not used to meet any other department, college, or university requirement.

Language Proficiency

Students with a major or minor in International Studies fulfill the Language Proficiency requirement through one of the following options:

- Completion of two years of university-level language instruction in a single, appropriate foreign language, as demonstrated by a foreign language course numbered 202 or higher. Students whose first language is other than English fulfill Language Proficiency with ENGL 250 Written, Oral, Visual, and Electronic Composition at a grade of “C” or better.

- Passing an examination given by the Dept. of World Languages and Cultures or otherwise certifying proficiency equivalent to two years of college instruction. Students proficient in languages not offered at ISU may petition for special consideration.

- Intensive study abroad experience that includes in-the-field-use of a language other than English (individual prior approval of committee required for this option).

A. Topical Modules

- Global Environmental Issues
- Globalization and Economic Development
- International Issues in Science and Technology
- International Communication
- International Conflict
- Social and Cultural Change

B. Geographic Regional Studies Component

- Africa and Middle East
- Asia
- Latin America
- Western Europe
- Russia, East Europe and Central Asia

International Studies students are required to participate in study and/or work abroad programs. Students may petition to use up to 9 credits in the major (6 credits in the minor) earned in study abroad and/or international internship programs to substitute for courses within the Topical Module, Geographic Regional Studies Component, and/or Language Proficiency requirements.

Courses primarily for undergraduate students

INTST 235. Introduction to International Studies. (3-0) Cr. 3. FSS.
Overview of international studies, emphasizing cultural, geographic, economic, and political characteristics of major world areas and nations.
Meets International Perspectives Requirement.

INTST 350. Topics in International Studies. Cr. 2-4.

INTST 430. Seminar in International Studies. (3-0) Cr. 3. Sr. Prereq: INTST 235, junior classification or higher
Capstone seminar in international studies focused on economic development, women’s issues, war and ethnic conflict, population, the environment, globalization, human rights, international trade and business and other issues. Students develop a project on a subject linked to their area of professional interest or academic specialization.
Meets International Perspectives Requirement.

INTST 446. International Issues and Challenges in Sustainable Development. (Cross-listed with AGRON, GLOBE). Cr. 4. Sr. Prereq: 3-credit biology course, Sophomore or higher classification, permission of Instructor Mullen. Interdisciplinary study and analysis of agricultural, biophysical, environmental, sociological, economical, political, and historical factors affecting sustainable development of communities and countries from art and science perspectives. International field experience with foreign language training required. A program fee is charged to students for international study abroad.
Meets International Perspectives Requirement.
INTST 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: Permission of International Studies director and faculty supervisor
Designed to meet the needs of students who wish to study in areas other than those in which courses are offered or to integrate areas of study appropriate to special problems with international foci. No more than 3 credits of IntSt 490 may be used in the International Studies major or minor.

INTST 491. Experiences Abroad: Learning to Think Globally.
(Cross-listed with WLC). (1-0) Cr. 1. Repeatable, maximum of 2 credits. Prereq: Minimum of 3 cr. of study abroad and/or internship abroad
Students returning from study abroad gain perspective on the personal, academic, and professional impact of their time spent abroad through readings and discussions. Students will be expected to make one presentation about the culture they experienced to an audience outside of ISU. Offered on a satisfactory-fail basis only.
Cross-disciplinary studies in the College of Liberal Arts and Sciences encompass a variety of interdisciplinary and cross-disciplinary areas of study as well as courses that cross established departmental lines. Students may enroll in Program courses; declare majors or minors where offered, or develop an Interdisciplinary Studies major built upon Program offerings. (see Index for Program courses).

**Cross-Disciplinary Programs**

- African American Studies Program (Minor only) see Index, African and African American Studies.
- American Indian Studies Program (Minor only) see Index, American Indian Studies.
- Biological/Premedical Illustration Program (Major or minor) see Index, Biological/Pre-Medical Illustration.

**Classical Studies (Minor only)**

- see Index, Classical Studies.
- Communication Studies (Major or minor) see Index, Communication Studies.
- Criminal Justice Studies (Minor only) see Index, Criminal Justice Studies.
- International Studies Program (Second major or minor) see Index, International Studies.

**Linguistics Program (Major or minor; graduate minor) see Index, Linguistics.**

**Speech Communication Program (Major or minor)**

- see Index, Speech Communication.

**Teacher Education Program**

- see Index, Teacher Education, Courses and Programs.

**Technology and Social Change (Minor, graduate minor) see Index, Technology and Social Change.**

**U.S. Latino/a Studies Program**

U.S. Latino/a Studies is devoted to the study of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the United States who trace their ancestry to the Spanish-speaking countries of Latin America, and who comprise the fastest growing ethnic groups in America. U.S. Latino/a Studies is to be distinguished from Latin American Studies, which focuses on people living in Latin America. The methodology of U.S. Latino/a Studies is cross-disciplinary, drawing from the methods established in anthropology, sociology, political science, economics, history, literary studies, and other fields.

In addition to the general requirements of a major in Interdisciplinary Studies, (see Index, Interdisciplinary Studies) a major in Interdisciplinary Studies focusing on U.S. Latino/a Studies would require the completion of 24 credits related to U.S. Latino/a Studies such course to be approved by the program director. At least 15 of the 24 credits must be in courses numbered 300 and above. These 24 credits in the major focusing on U.S. Latino/a Studies must include the following courses, each of which is worth three credits: LAS 211 (Introduction to Latino/a Studies), Hist 240 (Latino/a History), Psych 347 (Latino/a Psychology), Soc 332 (The Latino/ Latina Experience in U.S. Society), and Hist 345 (U. S. Immigration).

The student must have an average grade of C in the required courses of the major. Fulfillment of the foreign language requirement with Spanish is strongly recommended, but not required. For a list of other eligible courses and more information on the U.S. Latino/a Studies Program, contact the program director, Dr. Loreto Prieto.

**Women’s Studies Program (Major or minor)**

**Certificate Programs**

**Community Leadership and Public Service (Certificate Only)**

**Interdisciplinary undergraduate program**

This interdisciplinary certificate program utilizes university courses offered in a variety of academic disciplines to provide a strong foundation and appropriate experiences for undergraduate students who plan to become community leaders and engage in public service—regardless of their profession—in the public, nonprofit or private sectors.

The program requires the completion of 21 credits through three, three-hour core required courses in leadership, speech communication and public administration; a three-hour elective course in communication; six hours of elective courses in leadership; and a three-hour capstone experience through a course, internship or study abroad experience.

The certificate will be awarded by the College of Liberal Arts and Sciences. Completion of the certificate will be noted on the student’s transcript and via a certificate provided by the Registrar.

**Objectives**

- Provide opportunities for students to learn about leadership and organizational theories, ethics and decision-making, principles of public service, effective communication, leadership practices in groups and organizations, and diversity issues.
- Develop leadership skills—including written and oral communication, creative thinking, personal management, group and organizational effectiveness, and problem-solving—important to students’ careers, communities and personal development.
- Bring students into contact with faculty members from diverse academic departments, backgrounds and leadership experiences.
- Prepare students to undertake leadership roles in their careers and in service to their community through course work and co-curricular activities.

**Learning outcomes**

Upon completion of the Certificate in Community Leadership and Public Service, students will:

- Demonstrate understanding of key concepts of leadership theories and effective practices within groups and organizations and diverse communities.
- Demonstrate understanding of key concepts of organizational theories, ethics and principles of public service.
- Demonstrate proficiencies in written and oral communication.
- Demonstrate awareness of cultural values and diversity issues as they pertain to community leadership and public service.
- Become engaged citizens through service to the university and larger community.
General requirements

The Certificate in Community Leadership and Public Service requires 21 credits. At least 9 credits must be taken in courses numbered at the 300 level or above. At least 9 credits used for the certificate cannot be used to meet any other department, college or university requirement for the baccalaureate degree except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above. Courses for the certificate cannot be taken pass-fail. A cumulative grade point average of at least 2.0 is required in courses taken for the certificate.

The 21 credits required for the certificate are fulfilled by:

- 9 credits of core required courses
- 3 credits of a capstone course or experience, which can be fulfilled by a 3-credit course from the list of approved capstone courses, or a 3-credit internship with a community leadership or public service focus, or a 3-credit study abroad experience. Capstone courses focus on the scholarship of leadership in particular fields of study whereas an internship or study abroad provides a leadership-in-practice experience.

Additional communication course, chosen from:

- COMST 214 Professional Communication
- COMST 310 Intercultural Communication
- COMST 314 Organizational Communication
- ENGL 302 Report and Proposal Writing
- ENGL 309 Publicity Methods
- SP CM 212 Fundamentals of Public Speaking
- SP CM 322 Argumentation, Debate, and Critical Thinking
- SP CM 412 Rhetorical Criticism
- SP CM 323 Gender and Communication
- SP CM 327 Persuasion

Additional leadership topic courses (6 credits), from:

- AESHM 287 Principles of Management in Human Sciences
- AESHM 379 Community Leadership: Examination of Social Issues
- A E 388/ C E 388/ E E 388 Sustainable Engineering and International Development
- AGEDS 315 Personal, Professional, and Entrepreneurial Leadership in Agriculture
- COMST 218 Conflict Management
- COMST 317 Small Group Communication
- CON E 380 Engineering Law
- C R P 291 World Cities and Globalization
- C R P 293 Environmental Planning
- C R P 332 Community Planning Studio I
- C R P 425 Growth Management
- C R P 429 International Planning
- C R P 435 Planning in Small Towns
- C R P 455 Community Economic Development
- C R P 481 Regional and State Planning
- C R P 484 Sustainable Communities
- C R P 491 Environmental Law and Planning
- C R P 492 Planning Law, Administration and Implementation
- ENGR 150 Foundations of Leadership Development and Learning
- HD FS 395 Children, Families, and Public Policy
- HD FS 445 Administration of Programs for Children
- LAS 170 Leadership ISU
- M E 412 Ethical Responsibilities of a Practicing Engineer
- HIST 488 American Stuff, Colonial Times to the Present
- MGMT 371 Organizational Behavior
- MGMT 419 Social Responsibility of Business
- MGMT 472 Management of Diversity
- POL S 310 State and Local Government
- POL S 311 Municipal Government and Politics
- POL S 344 Public Policy
- POL S 385 Women in Politics
- POL S 413 Intergovernmental Relations
- POL S 477 Government, Business, and Society
- POL S 480 Ethics and Public Affairs
- POL S 487 Electronic Democracy
- SOC 310 Community
- SOC 334 Politics and Society
- SOC 420 Complex Organizations
- SOC 435 Urban Society
- SP CM 416 History of American Public Address
- SP CM 417 Campaign Rhetoric
- WS 301 International Perspectives on Women and Gender
- W S 333 Women and Leadership
- W S 435 Women and Development

Capstone Course, Internship or Study Abroad (3 credits), from:

- AESHM 421 Developing Global Leadership: Maximizing Human Potential
- COMST 404 Research Seminar
- C R P 432 Community Planning Studio II
- C R P 475 Grant Writing
- ENGL 418 Seminar in Argumentation
- HD FS 449 Linking Families and Communities
- M E 484 Technology, Globalization and Culture
- or WLC 484 Technology, Globalization and Culture
- POL S 475 Management in the Public Sector
- PSYCH 450 Industrial Psychology
- SOC 464 Community Action and Leadership
- WS 488 Interdisciplinary Research on Women and Leadership

*M 404 Small Group Communication and 404D Organizational Communication

Instead of a capstone course, students may complete a 3-credit internship. The internship must have a public service or community leadership focus and must be approved by the department of the student’s major and the Community Leadership and Public Service Advisory Committee. Information on internships is available through the participating colleges and departments, including career services offices. Examples:

- LAS 490 Independent Study
- LAS 491 Service Learning
- LAS 499 Internship
- POL S 499 Internship in Political Science

W S 491 Senior Internship

† Arranged with instructor.

Instead of a capstone course or internship, students may participate in a study abroad experience that includes 3 hours of credit. The study abroad experience must include a public service or community leadership focus. It must be approved by the student’s major department and by the Community Leadership and Public Service Advisory Committee. Information is available through the ISU Study Abroad Center and international programs offices in the participating colleges and departments. Examples: The Dean’s International Leadership Seminar, College of Design Rome Program, Service Learning in Uganda, Service Learning in Rwanda, AustralLearn - Challenge New Zealand, Study in Community Leadership and Public Service at an Overseas University, LAS 395 Interdisciplinary Study Abroad.
Additional courses may be proposed and approved for inclusion in the list of communication, leadership and capstone courses applicable to the certificate program. Students and advisers should contact the Carrie Chapman Catt Center for Women and Politics, 309 Catt Hall, 294-3181, cattcntr@iastate.edu, www.las.iastate.edu/CattCenter/ for the current list of courses.

Application and selection process: Enrollment is limited to 20 entering students per academic year, with applications reviewed twice each year. Selection will be based on current and past leadership experiences; previous leadership education and training; academic performance; and, most important, how completion of the certificate program will add value to the student’s major/minor areas of study and future leadership goals.

Applicants should meet with their adviser on course planning and questions regarding prerequisites and then submit an application packet consisting of a Application for Admission form, Leadership Involvement Worksheet, and Proposed Program of Study form (signed by the adviser) by April 1 or October 1 to the Community Leadership and Public Service Advisory Committee, 309 Catt Hall, Iowa State University, Ames, IA, 50011-1305. The committee will be comprised of one representative each from the Catt Center, Public Policy and Administration, Speech Communication and Student Affairs and one representative from another participating department.

**Latin American Studies (Certificate only)**

*(Interdepartmental undergraduate program)*

Kathy S. Leonard, Director

The certificate in Latin American Studies is a cross-disciplinary course of study in the College of Liberal Arts and Sciences and is designed for undergraduates in any major who wish to enhance their degree and employment possibilities by adding expertise in Latin America and linguistic competence in a primary and secondary foreign language.

Completion of the Certificate is noted on the student’s transcript, and via a certificate provided by the Registrar.

**Objectives**

- Provide opportunities for students to develop skills and understanding about issues concerning Latin America by bringing them into contact with faculty members from many different academic backgrounds.
- Provide students with an international immersion experience where they gain cultural awareness and sensitivity.
- Prepare students for work or advanced study in Latin America, such as in foreign service, journalism, advocacy organizations, scientific or research institutions.
- Help students acquire proficiency in at least two of the languages of Latin America (Spanish and Portuguese).
- Guide students in interdisciplinary study leading to an understanding of the multi-faceted picture of the past, present, and future of Latin America.

**Learning Outcomes**

Upon completion of the Certificate in Latin American Studies, students will be able to:

- Demonstrate understanding of key concepts pertaining to Latin American cultural, historical and political events.
- Understand, interpret and articulate the major processes, theories and problems of selected contemporary and historical issues in Latin America.
- Demonstrate oral, aural, and written proficiency in a primary foreign language (Spanish or Portuguese) equivalent to the low intermediate level.
- Demonstrate oral, aural, and written proficiency in a secondary foreign language (Spanish or Portuguese) equivalent to the mid advanced level.
- Effectively communicate with persons of Latin American cultures.
- Become effective global citizens through knowledge and comparison of the cultures and issues of the United States and Latin American countries.
- Be able to read Latin American cultural, literary, and historical texts in the target language with comprehension and analytical insight.
- Demonstrate awareness of cultural values, beliefs, and ideologies of the various Latin American countries.
- Demonstrate a thorough knowledge of the geography of the Latin American countries.

**General Requirements**

Requirements for the Certificate in Latin American Studies are satisfied through formal language instruction and by completing a minimum of 24 credits at the 300 level or above. Students will take coursework in at least four different disciplines and departments (Spanish, Portuguese, Anthropology, and Political Science) with other possible course offerings in LAS, History, Agriculture, and Agronomy.

**Course Requirements**

Students will complete 12 credits of core courses:

- POL S 343 Latin American Government and Politics 3
- ANTHR 323 Topics in Latin American Anthropology 3

(Should one of the above courses not be offered, students should consult the adviser to find an appropriate substitute).

Choice of one of the following 3-credit courses:

- SPAN 332 Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century 3
- SPAN 333 Studies in Latin American Literature from the Twentieth Century to the Present 3

Choice of one of the following 3-credit courses:

- SPAN 324 Latin America Today 3
- SPAN 322 Latin American Civilization 3

**Other Requirements**

Students will complete an additional 12 credits selected from the approved list of courses in Latin American Studies at the 300 level or above. At least one of these courses must be at the 400 level and approved by the Latin American Studies Program adviser.

- In order to stress the interdisciplinary aspect of the Certificate no more than three courses from one single department will count toward the Certificate.
- No more than 3 credits may be taken as a 490, independent study, and the topic must deal with Latin America.
- A minimum of 12 credits applied toward the Certificate cannot be used to meet any other departmental, college, or university requirement.
- Students may receive credit on a pre-approved basis for internships completed in Latin America. No more than 3 credits from this area may be applied to the Certificate.
- Courses taken for the Certificate may not be taken on a pass not-pass basis.
- Credits for a Certificate may be used to satisfy the credit requirement for graduation and to meet the credit requirements for courses numbered 300 and above.
- A certificate is not awarded if the baccalaureate degree is not finished.
- For students earning an ISU baccalaureate degree, a certificate is awarded concurrent with or after the ISU baccalaureate degree.
- After receiving a baccalaureate degree from any accredited institution, a student may enroll at ISU to earn a certificate.
- A cumulative grade point average of at least 2.00 is required in courses taken at ISU for a certificate.

**Language Requirement**

- The minimum requirement in formal language instruction is completion of two years or the equivalent of a primary language (Spanish or Portuguese) at the university level. At ISU the completion of 202 in the appropriate language satisfies this requirement.
• Students are required to take at least one year or the equivalent of a secondary language (Spanish or Portuguese) at the university level. At ISU the completion of 102 or 112 in the appropriate language satisfies this requirement.

• Native speakers, or those with in-field experience of another Latin American language with a level equivalent to 202 can have the primary language requirement waived. Equivalence will normally be assessed by a faculty member/CLEP exam in the Dept. of World Languages and Cultures.

• While students are encouraged to enroll in language instruction courses (i.e., conversation and composition) above the 300 level, no more than 6 credits of language study (301, 303, 304) may be applied toward fulfilling language requirements for the Certificate. Students should be aware that all 300-level literature and culture/civilization courses in the Dept. of World Languages and Cultures have pre requisites such as SPAN 303 Spanish Grammar and Conversation and SPAN 301 Spanish Grammar and Composition.

Study Abroad

Students are required to participate in an ISU-approved study abroad program in a Latin American country with a minimum duration of 4 consecutive weeks. The Study Abroad Office has a list of ISU-approved programs. Students may elect to participate in other study abroad programs with the approval of the Latin American Studies Program Advisory Committee.

Approved courses available toward the Certificate:

The decision as to whether or not a class can be counted toward the Certificate is based primarily on the course title and description as it appears in the ISU General Catalog. Courses which deal primarily with Hispanic or Latina/o cultures in the U.S. will not count towards credit for the Certificate in Latin American Studies. Courses which primarily deal with Spain or Portugal and their cultures also do not count toward the certificate. When in doubt students should consult with the Director of the Latin American Studies Program.

Courses primarily for undergraduate students

LAS 101. Orientation for Open Option and Preprofessional Students.
(1-0) Cr. 0.5. FS.
First 8 weeks. Self-responsibility and university procedures. LAS general education requirements, ISU departments and programs, time management, academic study skills, adjustment to the university environment. Required of all first year students in the Open Option and Preprofessional Health Programs. Offered on a satisfactory-fail basis only.

LAS 103. Frontiers of the Discipline.
(1-0) Cr. 1. S.
Learning Community/ Seminar focusing entirely on the “cutting edge” research activities of faculty members. Offered on a satisfactory-fail basis only.

A. General
B. Humanities
C. Communication.
D. Mathematics and Natural Sciences
E. Social Sciences

LAS 104. Personal Career Development.
(2-0) Cr. 2. F.S. Prereq: 12 credits of ISU coursework
Comprehensive approach to personal career development; intensive self-analysis; utilization of a computerized career exploration system; contact with area professionals; examination of work in modern society and the impact of technology on the future of work; exposure to job search skills necessary for career choice implementation.

LAS 125. Connections.
(1-0) Cr. 1. F. Prereq: First year student
Links a large lecture class with a small learning community / seminar. In each case the professor teaching the large lecture facilitates a small weekly seminar. Informal discussions about critical issues of the day connected to lecture topics through films, public lectures and other events which students and the faculty leader attend. Offered on a satisfactory-fail basis only.

A. General
B. Humanities
C. Communication.
D. Mathematics and Natural Sciences
E. Social Sciences

LAS 140. Advancing Citizenship Together Learning Community Seminar.
(1-0) Cr. 1. Repeatable, maximum of 2 credits.
First semester of required seminar for participants in the ACT (Advancing Citizenship Together) Learning Community. Builds citizenship skills with a focus on women’s issues and politics, and includes a service-learning component. Offered on a satisfactory-fail basis only.

A. General
B. Humanities
C. Communication.
D. Mathematics and Natural Sciences
E. Social Sciences

Note: Study Abroad courses must be in Latin America. No more than 6 credits from each study abroad program may apply to the Certificate.
**LAS 161. Studies in Race and Ethnicity in America.**
(1-0) Cr. 1. Prereq: 160. Permission of Instructor
Second of two courses linked with the Multicultural Learning Community (MLC). Application of concepts and methods to understanding the social and cultural experiences of the major ethnic minority groups in the U.S. with explorations of Native, African, Latino, and Asian American. Offered on a satisfactory-fail basis only.

Meets U.S. Diversity Requirement

**LAS 170. Leadership ISU.**
(0-2) Cr. 1. F. Prereq: Freshman or sophomore classification
An introductory leadership course for first-year and second-year students. Students will gain a basic understanding of leadership skill development and resources available to student leaders at Iowa State University. Course content will be delivered through a variety of methods such as guest speakers, team building exercises, and small group discussions. Students will be expected to complete several out of class assignments to apply the leadership skills they have learned. Offered on a satisfactory-fail basis only.

**LAS 201. Professional Employment Preparation.**
(1-0) Cr. 1. Prereq: 2nd semester freshman or transfer student within the College of Liberal Arts and Sciences.
Exploration, development, and practice of techniques utilized to develop and implement a comprehensive career plan and conduct a professional internship or employment search with emphasis on preparing resumes, cover letters, application materials, interviewing techniques, and overall professional behaviors throughout the recruiting process. Offered on a satisfactory-fail basis only.

**LAS 211. Introduction to U.S. Latino/a Studies.**
(3-0) Cr. 3. S.
In this course, students learn about the history and current lives of the Latino/a peoples in the United States, including Mexican, Cuban, Puerto Rican, Dominican, and South and Central Americans. Students will also learn information specific to Iowa Latino/as. Through readings, class discussions, writing assignments, guest speakers and community-based learning, students will acquire accurate information and a solid understanding of US Latino/as. Students will cover elements of Latino/a culture including historical, sociological, educational, psychological, economic, and political facets.

Meets U.S. Diversity Requirement

**LAS 222. Leadership Styles and Strategies in a Diverse Society.**
(3-0) Cr. 3. F. Prereq: Sophomore classification
Developing and practicing leadership skills through understanding personal leadership styles, leadership theory and communication theory, including how they relate to gender issues and cultural diversity; exploring personality types, communication styles, and leadership styles, networking and developing mentoring relationships, setting goals and participating in leadership opportunities and service.

Meets U.S. Diversity Requirement

**LAS 250. Cultures in Transition.**
(3-0) Cr. 3.
An interdisciplinary introduction to a world region in a state of rapid social and cultural transition. Discussion of the history, social and political institutions, arts, economy, agriculture, and environment of the new nations.

Meets International Perspectives Requirement.

**LAS 290. Special Problems.**
Cr. 1-3. Repeatable. F.S.SS. Prereq: Freshman or sophomore classification; permission of the director of the Catt Center for LAS 290G: other topics need: permission of the dean of the College of Liberal Arts and Sciences.

A. LAS Ambassadors.
B. Advising Project.
C. Pre-Law Project.
D. General.

**LAS 291. Service Learning.**
Cr. 1-4. Repeatable, maximum of 6 credits. Prereq: Permission of the dean of the College of Liberal Arts and Sciences
Service work as appropriate to the student’s degree program. Academic work under faculty supervision may include written project, report, and guided reading. Offered on a satisfactory-fail basis only.

A. General
B. U.S. Diversity Project
C. International Perspectives Project

**LAS 298. Internship/Co-op.**
Cr. R. F.S.SS. Prereq: Permission of Liberal Arts and Sciences Career Services; sophomore classification
Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status. Offered on a satisfactory-fail basis only.

**LAS 325. Introduction to Asian American Studies.**
(3-0) Cr. 3.
A survey of the peoples in the United States who trace their origins to Asia, focusing primarily on the experiences of Chinese, Japanese, Korean, Filipino, South Asian and Pacific Islander Americans. Study and discussion of history, culture, literature, social relations, and political participation of these groups, with assigned readings, writings, and in-class presentations.

Meets U.S. Diversity Requirement

**LAS 350. Topics in Interdisciplinary Studies.**
(3-0) Cr. 2-4. Repeatable, maximum of 8 credits.
A. Interdisciplinary
B. Humanities
C. Mathematics and Nature Science
D. Social Sciences

**LAS 385. The Holocaust.**
(3-0) Cr. 3. F.S.SS.
An examination of the religious, social, scientific, and historical contexts for the Nazi destruction of European Jewry. Topics covered include anti-Semitism, German volkish philosophy, eugenics, World War II, the Final Solution, rescuers, and contemporary issues.

Meets International Perspectives Requirement.

**LAS 395. Interdisciplinary Study Abroad.**
Cr. 1-4. Repeatable.
Multi-faceted exploration of a selected world region directed at developing a comprehensive understanding of a selected culture’s role in contemporary society.

A. Pre-Departure Seminar. Cr. 1.
B. Humanities. Cr. 1-4.
C. Communications. Cr. 1-4.

**LAS 398. Internship/Co-op.**
Cr. R. F.S.SS. Prereq: Permission of Liberal Arts and Sciences Career Services; junior classification
Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status.

**LAS 490. Independent Study.**
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Permission of the instructor for LAS 490G; other topics need: permission of the dean of the College of Liberal Arts and Sciences
No more than 9 credits of LAS 490 may be applied toward graduation.

A. General
E. Entrepreneurial Studies.
G. Catt Center Project.

**LAS 491. Service Learning.**  
Cr. 1-4. F.S.S. Prereq: Permission of the dean of the College of Liberal Arts and Sciences  
Service work as appropriate to the student’s degree program. Academic work under faculty supervision may include written project, report, and guided reading.

A. General  
B. U.S. Diversity Project  
C. International Perspectives Project

**LAS 498. Internship/Co-op.**  
Cr. R. F.S.S. Prereq: Permission of Liberal Arts and Sciences Career Services; senior classification  
Students participating in an internship or co-op on a full-time basis must register for this course prior to beginning their work experience to remain in full-time student status.

**LAS 499. Internship.**  
Cr. 1-4. Repeatable. F.S.S. Prereq: Permission of Liberal Arts and Sciences Career Services  
Work experience in professional setting appropriate to the student’s degree program. Academic work under faculty supervision may include written projects, reports, and guided reading.
The bachelor of liberal studies degree (B.L.S.) was established by the three Iowa Regent universities to meet the needs of Iowans who want to earn a college degree but whose circumstances present obstacles to completing a traditional on-campus degree program. The degree may be earned from Iowa State University, the University of Iowa, or the University of Northern Iowa.

The B.L.S. is a general studies degree in the liberal arts. There is no traditional major. Instead, students take coursework in three areas of distribution. These areas may be focused in a single discipline or diversified over several disciplines. With the assistance of a B.L.S. adviser, students can structure a program that meets their individual educational, vocational or personal goals.

Up to three-fourths of the total degree requirements can be transferred from accredited institutions. Work done in community colleges or other accredited colleges and universities can be applied toward the degree, as can applicable courses taken at any of the three Iowa Regent universities, whether on or off campus.

The B.L.S. program has no residence requirements. To complete the degree, students may earn credits through distance-learning formats as well as regular on-campus courses. Students may also earn credits by proficiency or test-out examinations.

**Admission**

Admission to the B.L.S. program is open to persons who meet either of the following levels of previous educational attainment:

- Hold the associate in arts (A.A.) or associate in science (A.S.) degree from an accredited two-year college. (Holders of the associate in applied science or associate in applied arts degree are not automatically eligible, although some courses may be found applicable upon review.)
- Have at least 60 semester credits of collegiate work acceptable toward graduation at ISU with a total cumulative grade point average of at least 2.00 (a C average).

**Requirements for the B.L.S. Degree**

The B.L.S. candidate must earn a total of 120 credits in accordance with requirements listed below. Courses taken at Iowa State University on a pass/not pass basis may be counted toward graduation only as electives. No more than 9 credits of 490 (Independent Study) courses in a single discipline may be counted toward graduation.

**General Education Requirements 46 cr.**

</tr>
</tbody>
</table>

*The requirement may be met by completion of three or more years of high school study in one world language. A list of courses acceptable in the general education groups can be obtained from the college office.

**A minimum of 12 credits is required in each of three of the five distribution areas listed below.

- **Humanities** (literature, philosophy, history, religion, art and music appreciation)
- **Communications and arts** (journalism, speech, writing, drama, art, world language)
- **Natural sciences and mathematical disciplines** (chemistry, physics, biology, geological and atmospheric sciences, mathematics, statistics, computer science)
- **Social sciences** (sociology, psychology, economics, political science, anthropology, geography)
- **Professional fields** (business, education, family and consumer sciences, social work, agriculture, engineering, nursing)

At least 24 upper-level credits are required in the three distribution areas with a minimum of 6 upper-level credits in each of the areas.

**Other Requirements**

Included in the total of 120 credits must be the following:

- 45 upper-level credits from a four-year college
- 30 credits from ISU earned during the junior/and or senior year.

Three credits of course work in U.S. Diversity and 3 credits in International Perspectives.

A grade average of at least 2.00 (a C average) in all coursework applied to the B.L.S. degree, in all upper-level coursework, and in all work completed after admission to the B.L.S. program.

Proficiency in communication demonstrated by completion of an approved composition course from a four-year college.
### Undergraduate Study

Linguistics is a cross-disciplinary program in the College of Liberal Arts and Sciences designed to meet the needs of students interested in various aspects of language—its structure, history, varieties, meanings, and uses. The program includes courses in anthropology, English, computer science, psychology, and speech communication and world languages and cultures, thus providing a multi-disciplinary approach to the study of human language.

Courses in linguistics serve as background for students interested in any career that involves working with language, such as linguistic anthropology, computational linguistics, second language studies, teaching English both as a first and as a second language, psycholinguistics, cross-cultural communication, speech-language pathology, and audiology.

In the College of Liberal Arts and Sciences, courses in linguistics can be applied as electives or as part of the group requirements. They may also be used in a minor or in a major.

Majors in linguistics complete a minimum of 36 hours in linguistics with a grade of C or better in each linguistics course. Courses specifically required are:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING 119</td>
<td>Introduction to World Languages</td>
<td>3</td>

<td>Hispanic Dialectology</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional courses on world languages are available through study abroad. Majors in linguistics must show proficiency in a foreign language equivalent to that achieved after two years of university-level study.

Minors in linguistics are individually tailored to the interests of the student, who consults with the chair of the supervisory committee for linguistics. All minors must have a minimum of 15 credits in linguistics, of which 6 must be in courses numbered over 300. All programs must include LING 219 Introduction to Linguistics.

#### Communication Proficiency requirement: The linguistics program requires grades of C+ or better in each of the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGL 150</td>
<td>Critical Thinking and Communication</td>

<td>3</td>
</tr>
<tr>
<td>CL ST 376</td>
<td>Classical Archaeology</td>
<td>3</td>
</tr>
</tbody>
</table>

For information about using linguistics courses in an interdisciplinary studies major, see Liberal Arts and Sciences, Cross-Disciplinary Studies.

### Graduate Study

A graduate minor in linguistics is offered through a cooperative agreement with the departments and programs of Anthropology, Computer Science, English, Psychology, Speech Communication, and World Languages and Cultures. The minor permits students to investigate a variety of aspects of linguistics, emphasizing the ability to think about language in a systematic and disciplined way and to apply the methods of the field to research problems in their own disciplines.

For the master’s degree, a declared minor consists of 9 credits in linguistics including two foundation courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING 511</td>
<td>Introduction to Linguistic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>LING 514</td>
<td>Sociolinguistics</td>
<td>3</td>
</tr>
<tr>
<td>LING 527</td>
<td>Discourse Analysis</td>
<td>3</td>
</tr>
<tr>
<td>LING 537</td>
<td>Grammatical Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

And one elective from the list of courses approved for graduate credit.

For the Ph.D. degree, the minor consists of 12 credits in linguistics including:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>LING 511</td>
<td>Introduction to Linguistic Analysis</td>
<td>3</td>
</tr>
<tr>
<td>LING 527</td>
<td>Discourse Analysis</td>
<td>3</td>
</tr>
<tr>
<td>LING 537</td>
<td>Grammatical Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

And one elective

Additional courses beyond those listed below may be used as electives. The chair of the supervisory committee can provide information about these.

At least one member of the linguistics faculty will serve on a student’s program of study committee. A list of faculty members may be obtained from the Linguistics program website. Ph.D. candidates will write one
section of the preliminary examination on an area of linguistics. All students in the minor are expected to attend linguistics lectures and colloquia. Students in Teaching English as a Second Language/Applied Linguistics are not eligible for a graduate minor in linguistics.

Courses primarily for undergraduate students

LING 101. Introduction to the Study of Linguistics.
(1-0) Cr. 1. S.

LING 119. Introduction to World Languages.
(Cross-listed with WLC). (3-0) Cr. 3.
Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and dialects, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.

Meets International Perspectives Requirement.

LING 120. Computers and Language.
(Cross-listed with ENGL). (3-0) Cr. 3.
Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.

LING 207. Introduction to Symbolic Logic.
(Cross-listed with PHIL). (3-0) Cr. 3. S.
Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Majors should take PHIL 207 as early as possible.

LING 219. Introduction to Linguistics.
(Cross-listed with ENGL). (3-0) Cr. 3. F.S.
Prereq: Sophomore classification. Introduction to linguistic concepts and principles of linguistic analysis with English as the primary source of data. Sound and writing systems, sentence structure, vocabulary, and meaning. Issues in the study of usage, regional and social dialects, language acquisition, and language change.

LING 220. Descriptive English Grammar.
(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: ENGL 250
Overview of grammatical structures and functions. Parts of speech: phrase, clause, and sentence structure; sentence types and sentence analysis; rhetorical grammar and sentence style; terminology. Not a remedial, English composition, or ESL course.

LING 275. Introduction to Communication Disorders.
(Cross-listed with CMDIS). (3-0) Cr. 3.
Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

LING 286. Basic Sign Language.
(Cross-listed with CMDIS). (3-0) Cr. 3.
Development of basic skills in the use and understanding of signed English, a modification of American Sign Language. Overview of the types, causes and consequences of hearing impairment, deaf culture and the education of hearing-impaired children.

Meets U.S. Diversity Requirement

LING 305. Language, Thought and Action.
(Cross-listed with SP CM, COMST). (3-0) Cr. 3. Prereq: ENGL 250
The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action. Nonmajor graduate credit.

LING 309. Introduction to Culture and Language.
(Cross-listed with ANTHR). (2-2) Cr. 3. F. Prereq: ANTHR 201
Language as a human attribute; language versus animal communication; human communication in cultural context; paralanguage, kinesics, proxemics, artifacts as communication; language and culture; cross-cultural sociolinguistics; ethnoscientific and language policies. Participatory lab: focus on analysis of a non-Western language and communication system.

Meets International Perspectives Requirement.

(Cross-listed with COM S). (3-1) Cr. 3. F.S. Prereq: C- or higher in 228, C- or higher in COM S 330 or CPR E 310, C- or higher in MATH 166, and ENGL 250.

LING 352. Introduction to Spanish Phonology.
(Cross-listed with SPAN). (3-0) Cr. 3. F. Prereq: Spanish 301, 303 or 304
An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish. Nonmajor graduate credit.

Meets International Perspectives Requirement.

LING 354. Introduction to Spanish-English Interpretation.
(Dual-listed with 554). (Cross-listed with SPAN). (3-0) Cr. 3. F.S. Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Nonmajor graduate credit.

Meets International Perspectives Requirement.

(Cross-listed with CMDIS). (3-0) Cr. 3. Prereq: CMDIS 275 or ENGL 219
Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

LING 413. Psychology of Language.
(Cross-listed with PSYCH). (3-0) Cr. 3. Prereq: PSYCH 101
Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes. Nonmajor graduate credit.

LING 420. History of the English Language.
(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: ENGL 219, 220
Comparison of English to other languages by family background and by type. Analysis of representative Old, Middle, Early Modern and present-day English texts, including both literary works and non-literary documents. Nonmajor graduate credit.
LING 422. Women, Men, and the English Language.
(Cross-listed with ENGL, W Sl). (3-0) Cr. 3. Prereq: ENGL 219
The ways men and women differ in using language in varied settings and
the ways in which language both creates and reflects gender divisions.
Nonmajor graduate credit.
Meets U.S. Diversity Requirement

LING 425. Second Language Learning and Teaching.
(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 219; junior classification
The process of second language learning and principles and techniques of
teaching second languages. Learning and teaching in specific situations
and for particular purposes. Current applications of technology in
teaching and assessment. Nonmajor graduate credit.

LING 437. Grammatical Analysis.
(Dual-listed with 537). (Cross-listed with ENGL). (3-0) Cr. 3. Prereq:
ENGL 220; junior classification
Theories and methods for analysis of English syntax with emphasis on
recent syntactic theory.

LING 462. Contrastive Analysis of Spanish/English for Translators.
(Cross-listed with SPAN). (3-0) Cr. 3. Prereq: Spanish 351
Linguistic study of the major differences between the Spanish and
English grammatical systems and their applications in the translation of
Spanish to English. Taught in Spanish. Nonmajor graduate credit.

LING 463. Hispanic Dialectology.
(Cross-listed with SPAN). (3-0) Cr. 3. Prereq: Spanish 352
Intensive study of the phonology, morphosyntax and lexicon of the
Hispanic dialects of Spain and Latin America in their historical context.
Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

LING 471. Language Development.
(Cross-listed with CMDIS). (3-0) Cr. 3. Prereq: CMDIS 275 or PSYCH 230
or ENGL 219
Definition of components of language. Overview of theories and develop-
mental processes related to each component of linguistic skill (semant-
ics, lexicon, syntax, morphology, phonology, pragmatics). Overview of
normative information available for infants, children, adolescents, and
adults. Attention to metalinguistic skills and the complementary nonlin-
guistic and paralinguistic skills. Nonmajor graduate credit.

LING 486. Methods in Elementary School World Language Instruction.
(Cross-listed with CI, WLC). (3-0) Cr. 3. F. Prereq: 25 credits in a world
language Planning, implementation, and assessment of standards-based, student-
centered, and thematic instruction in the elementary (K-8) classroom.
Special emphasis on students’ communicative skills, cultural knowledge,
and content learning. Nonmajor graduate credit.

(Cross-listed with WLC, CI). (3-0) Cr. 3. F. Prereq: 25 credits in a world
language, admission to teacher education program
Theories and principles of contemporary world language learning and
teaching. Special emphasis on designing instruction and assessments for
active learning.

LING 489. Undergraduate Seminar.
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable. F. Prereq: 9 credits in
English beyond 200
Intensive study of a selected topic in literature, criticism, rhetoric, writing,
or language. Cross-listing with linguistics acceptable only when offered
as a course in linguistics. Nonmajor graduate credit.

LING 490B. Independent Study.
(Cross-listed with ENGL). Cr. arr. Repeatable, maximum of 9 credits. F.
Prereq: 9 credits in English beyond 250 appropriate to the section taken,
junior classification, permission of Undergraduate Studies Committee
Designed to meet the needs of students who wish study in areas other
than those in which courses are offered, or who desire to integrate a
study of literature or language with special problems in major fields.

LING 490D. Independent Study: Linguistic Anthropology.
(Cross-listed with ANTHR). Cr. 1-5. Repeatable, maximum of 9 credits.
Prereq: 9 credits in anthropology

Courses primarily for graduate students, open to qualified undergraduate students

LING 500. Language and Culture.
(Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: ANTHR 309 or 510
Approaches to the study of the relationship between language structure,
world view, and cognition; social and structural linguistic variation;
cross-cultural aspects of verbal and non-verbal communication; linguistic
change; contemporary applications of linguistic anthropology.

(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: Graduate classification
Use of applications software for language teaching, linguistic analysis,
and statistical analysis. Issues and problems in applied linguistics related
to computer methods.

LING 511. Introduction to Linguistic Analysis.
(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: Graduate classification
Principles and methods of linguistic analysis with emphasis on
phonology, morphology, and syntax. Description of linguistic variation and
current theoretical approaches to linguistics.

LING 513. Language Assessment Practicum.
(Cross-listed with ENGL). (3-0) Cr. 3. F. S.S. Prereq: 519
Advanced practicum in language assessment.

LING 514. Sociolinguistics.
(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: 511 or an introductory
course in linguistics
Theories and methods of examining language in its social setting.
Analysis of individual characteristics (e.g., age, gender, ethnicity, social
class, region), interactional factors (e.g., situation, topic, purpose) and
national policies affecting language use.

LING 515. Statistical Natural Language Processing.
(Cross-listed with ENGL, HCI). (3-0) Cr. 3. F. Prereq: STAT 330 or equiva-
 lent; recommended 219 or 511
Introduction to computational techniques involving human language and
speech in applications such as information retrieval and extraction, automatic
text categorization, word prediction, intelligent Web searching,
spelling and grammar checking, speech recognition and synthesis, statistical
machine translation, n-grams, POS-tagging, word-sense disambiguation,
on-line lexicons and thesauri, markup languages, corpus analysis,
and Python programming language.

LING 517. Second Language Acquisition.
(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: 511 or an introductory
course in linguistics
Theory, methods, and results of second language acquisition research
with emphasis on approaches relevant to second language teaching.

LING 518. Teaching English as a Second Language Methods and Materials.
(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: 511 or an introductory
course in linguistics
Introduction to approaches, methods, techniques, materials, curricular
design, and assessment for various levels of ESL instruction. Attention
to issues related to the teaching of listening, speaking, reading, writing,
vocabulary, pronunciation, and culture.
LING 519. Second Language Assessment.
(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: 511
Principles of second language assessment including reliability, validity, authenticity and practicality. Constructing, scoring, interpreting, and evaluating second language tests for a variety of situations.

LING 520. Computational Analysis of English.
(Cross-listed with ENGL, HCI). (3-0) Cr. 3. S. Prereq: 510 and 511
Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language analysis.

(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of literacy in a variety of contexts, involving children and adults at basic skill levels and teens and adults in academic and vocational programs.

LING 525. Methods in Teaching Listening and Speaking Skills to Nonnative Speakers of English.
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 511 or an introductory course in linguistics
Theoretical and practical issues and techniques in the teaching of second language pronunciation, listening, and speaking skills. Topics will be relevant to those intending to teach in various contexts involving both K-12 and adult learners.

(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: 511 or equivalent
Theory, research, and practice in computer use for teaching non-native speakers of English. Methods for planning and evaluating computer-based learning activities.

LING 527. Discourse Analysis.
(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: 511 or an introductory course in linguistics
Methods and theoretical foundations for linguistic approaches to discourse analysis. Applications of discourse analysis to the study of texts in a variety of settings, including academic and research contexts.

LING 528. English for Specific Purposes.
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 511 or an introductory course in linguistics
Issues and techniques in analyzing, teaching, and assessing English for specific purposes. Topics include theories of specific purpose language use, analysis of learner needs in target language contexts, and syllabus and materials development for teaching and assessment.

LING 537. Grammatical Analysis.
(Dual-listed with 437). (Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: 220; 219 or 511 or an introductory course in linguistics; junior classification
Theories and methods for analysis of English syntax with emphasis on recent syntactic theory.

LING 554. Introduction to Spanish-English Interpretation.
(Dual-listed with 354). (Cross-listed with SPAN). (3-0) Cr. 3. F.S. Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Nonmajor graduate credit.

Meets International Perspectives Requirement.

LING 558. Supervised Practicum in Teaching English as a Second Language.
(Cross-listed with ENGL). (1-5) Cr. 3. F.S.SS. Prereq: 9 credits toward the TESL Certificate, 15 credits toward the TESL/AL master’s degree, or completion of all other requirements for K-12 ESL teacher endorsement
Intensive observation of ESL instruction and supervised practice in teaching learners of English in a context appropriate to the practicum student’s goals. Seminar discussion of observed practices in relation to language teaching theories and methods.

(Cross-listed with ENGL). Cr. arr. Repeatable. Prereq: Permission of the English Department Graduate Studies Committee according to guidelines available in the department office
(Cross-listed with Engl 590B)

(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 6 credits in TESL/Applied Linguistics
Intensive study of applied linguistic theory as it relates to specific issues in language acquisition, teaching, or use.

Courses for graduate students

(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: 511, 517, 519
Survey of research traditions in applied linguistics. Focus on theoretical and practical aspects of quantitative and qualitative approaches to applied linguistic study, including experimental and quasiexperimental methods, classroom observation and research, introspective methods, elicitation techniques, case studies, interactional analysis, ethnography, and program evaluation. Computational tools and resources for linguistic research will be highlighted.

(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: 510, 511, 519
Principles and practice for the use and study of computers and the Internet in second language assessment.

(Cross-listed with ENGL). (3-0) Cr. Prereq: 510, 511
Topic changes each semester. Topics include advanced methods in natural language processing, technology and literacy in a global context, feedback in CALL programs, and advances in language assessment.

LING 671. Discourse in Classrooms.
(Cross-listed with C I). (3-0) Cr. 3. Alt. F. offered 2012. Prereq: graduate classification
Explores both foundational and current literature on discourse in K-12 classrooms; focuses on both discourse as a classroom phenomenon and discourse as an analytic tool for doing research in classrooms; and provides a close look at enacted and hidden curricula through an examination of interactions and communication patterns.

(Cross-listed with ENGL). (1-5) Cr. 3. F.S.SS. Prereq: 510, 626, or equivalent; at least 2nd year PhD student in Applied Linguistics and Technology
Focus on integrating theoretical knowledge with practical expertise. Assess client needs; develop, integrate, and evaluate solutions. Practical understanding of computer applications used in multimedia development. Create web-based or CD-ROM-based multimedia materials. Work with advanced authoring applications.
Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in mathematics, leading to the degree of bachelor of science, see Liberal Arts and Sciences, Curriculum.

The program in mathematics offers training suitable for students planning to enter secondary school teaching, to work in mathematics and computation for industry or government, or to continue their studies in graduate school. Students may satisfy the major requirements in several ways, suitable for various career objectives. Graduates can construct rigorous arguments to demonstrate mathematical facts. They can communicate their mathematical methods to others and can justify their assumptions.

The traditional program of study for mathematics majors gives students a thorough grounding in mathematics. Graduates understand a broad range of mathematical topics and are familiar with a broad range of mathematical models. They have skills for solving problems in diverse situations. The program allows flexibility for specialization, and students are encouraged to steer their education according to career objectives. This traditional program of study requires:

- MATH 165 Calculus I
- MATH 166 Calculus II
- MATH 201 Introduction to Proofs
- MATH 265 Calculus III
- MATH 317 Theory of Linear Algebra
- MATH 301 Abstract Algebra I
- MATH 414 Analysis I
- MATH 266 Elementary Differential Equations
- or MATH 267 Elementary Differential Equations and Laplace Transforms

Mathematics courses at the 300 level or above

The courses listed above must include one of the sequences:

- MATH 301 Abstract Algebra I
- MATH 302 Abstract Algebra II
- MATH 414 Analysis I
- MATH 415 Analysis II
- MATH 435 Geometry I
- MATH 436 Geometry II
- MATH 373 Introduction to Scientific Computing
- MATH 481 Numerical Methods for Differential Equations and Interpolation

In addition to the credits in (b), either MATH 492 or 2 credits of C I 480C. (C I 480C is available only for students seeking secondary school certification.)

Communication Proficiency requirement:

The department requires a grade of C- or better in:

- ENGL 150 Critical Thinking and Communication
- ENGL 250 Written, Oral, Visual, and Electronic Composition or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors

And an upper-level communication skills requirement met by taking:

- MATH 491 Undergraduate Thesis
- or by taking at least one of the following:
  - ENGL 302 Business Communication
  - ENGL 305 Creative Writing—Nonfiction
  - ENGL 314 Technical Communication
  - JL MC 201 Reporting and Writing for the Mass Media

The department strongly recommends that each student majoring in mathematics include in the program substantial supporting work beyond the minimum general education requirement of the college in one or more areas of application of mathematics, such as other mathematical sciences, engineering, natural science, or social science. In particular, it recommends that each student take:

<table>

The Mathematics Plus option is for students who wish to establish a clear strength in a field of application of mathematics. They obtain the mathematics major by pursuing study of mathematics, through the upper division level, complementary to their application area. This program makes double majors more feasible and is appropriate for students who plan on employment or graduate study in the application field. It is not intended for students who plan on graduate study in mathematics. For more information, see the mathematics department web site or consult an adviser in mathematics.

The department offers a minor in mathematics which may be earned by credit in:

Graduate Study

The department offers programs leading to a master of science or doctor of philosophy degree in mathematics or applied mathematics, as well as minor work for students whose major is in another department. The department also offers a program leading to the degree of master of school mathematics (M.S.M.).
Students desiring to undertake graduate work leading to the M.S. or Ph.D. degree should have at least 12 semester credits of work in mathematics beyond calculus. It is desirable that these credits include advanced calculus and abstract algebra.

The M.S. degree requires at least 30 credits and students must write a
creative component or thesis and pass a comprehensive oral examination
over their coursework and their creative component or thesis. See the
department handbook for specific requirements.

The Ph.D. degree requires a student to take 48 hours of coursework in
addition to research hours, pass written qualifying examinations, pass
an oral preliminary exam, and perform an original research project culmi-
nating in a dissertation which is defended by an oral exam. Ph.D. candi-
dates must have at least one year of supervised teaching experience.
See the on-line Mathematics Graduate Handbook for specific require-
ments.

The M.S.M. degree is primarily for inservice secondary mathematics
teachers. Students desiring to pursue the M.S.M degree should present
some undergraduate work in mathematics beyond calculus. Candidates
for the M.S.M degree must write an approved creative component and
pass a comprehensive oral examination over their course work and their
creative component.

Courses primarily for undergraduate
students

MATH 010. High School Algebra.
(4-0) Cr. arr. F.S.SS.
For students who do not have adequate facility with topics from high
school algebra or do not meet the algebra admission requirement. The
course is divided into tracks of one- and two-semester lengths. For most
students a diagnostic exam will determine which track must be taken.
Students will receive a grade in Math 25 or 30 respectively depending
on the level of material covered. Satisfactory completion of Math 30 is
recommended for students planning to take MATH 140 or 151, while
Math 25 is sufficient for MATH 104, 150, 195, Stat 101 or 105.
Students must complete Math 30 to remove a deficiency in the algebra
admission requirement. Topics include signed numbers, polynomials,
rational and radical expressions, exponential and logarithmic expressions,
and equations. Offered on a satisfactory-fail basis only.

MATH 025. High School Algebra.
(4-0) Cr. arr. F.S.SS.
Students should initially enroll in Math 10. See description of Math 10.
Offered on a satisfactory-fail basis only.

MATH 030. High School Algebra.
(4-0) Cr. arr. F.S.SS.
Students should initially enroll in Math 10. See description of Math 10.
Offered on a satisfactory-fail basis only.

MATH 101. Orientation in Mathematics.
Cr. R. F.
For new majors. Issues to consider in planning a program of study.
Sources of general information and perspectives concerning mathe-
matics. Discussion of possible areas of study and careers. Offered on a
satisfactory-fail basis only.

MATH 104. Introduction to Probability and Matrices.
(3-0) Cr. 3. F.S. Prereq: Satisfactory performance on placement exam, 2
years of high school algebra, 1 year of high school geometry
Permutations, combinations, probability, binomial and multinomial theo-
rems, matrices, expected value. Either Math 104 or 150 may be counted
toward graduation, but not both.

MATH 105. Introduction to Mathematical Ideas.
(3-0) Cr. 3. F.S. Prereq: Satisfactory performance on placement exam, 2
years of high school algebra, 1 year of high school geometry
Topics from mathematics and mathematical applications with emphasis
on their non-technical content.

MATH 140. College Algebra.
(3-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam, 2
years of high school algebra, 1 year of high school geometry
Coordinate geometry, quadratic and polynomial equations, functions,
graphing, rational functions, exponential and logarithmic functions,
inverse functions, quadratic inequalities. Students in the College of
Liberal Arts and Sciences may not count Math 140, 141, 142, or 195
after Group III of the General Education Requirements.

MATH 141. Trigonometry.
(2-0) Cr. 2. F.S.SS. Prereq: Satisfactory performance on placement exam,
2 years of high school algebra, 1 year of high school geometry, or enroll-
ment in 140
May be taken concurrently with 140. Trigonometric functions and their
inverses, solving triangles, trigonometric identities and equations,
graphing. Students in the College of Liberal Arts and Sciences may not
count Math 140, 141, 142, or 195 toward Group III of the General Educa-
tion Requirements. Only one of Math 141, 142 may count toward gradu-
ation.

MATH 142. Trigonometry and Analytic Geometry.
(2-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam,
2 years of high school algebra, 1 year of high school geometry, or enroll-
ment in 140
May be taken concurrently with 140. Trigonometric functions and their
inverses, solving triangles, trigonometric identities and equations,
graphing, polar coordinates, complex numbers, conic sections, para-
metric equations. Students in the College of Liberal Arts and Sciences
may not count Math 140, 141, 142, or 195 toward Group III of the General Educa-
tion Requirements. Only one of Math 141, 142 may count toward gradu-
ation.

MATH 150. Discrete Mathematics for Business and Social
Sciences.
(2-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam,
2 years of high school algebra, 1 year of high school geometry
Linear equations and inequalities, matrix algebra, linear programming,
discrete probability. Either Math 104 or 150 may be counted toward grad-
uation, but not both.

MATH 151. Calculus for Business and Social Sciences.
(2-1) Cr. 3. F.S.SS. Prereq: Satisfactory performance on placement exam,
2 years of high school algebra, 1 year of high school geometry
Differential calculus, applications to max-min problems, integral calculus
and applications. Will not serve as prerequisite for 265 or 266. Only one
of Math 151, 160, the sequence 165-166, or the sequence 181-182 may
count Math 140, 141, 142, or 195 toward Group III of the General Educa-
tion Requirements. Only one of Math 141, 142 may count toward gradu-
ation.

MATH 160. Survey of Calculus.
(4-0) Cr. 4. F.S. Prereq: Satisfactory performance on placement exam, 2
years of high school algebra, 1 year of geometry
Analytic geometry, derivatives and integrals of elementary functions,
partial derivatives, and applications. Will not serve as a prerequisite for
265 or 266. Only one of Math 151, 160, the sequence 165-166, or the
sequence 181-182 may be counted towards graduation.

MATH 165. Calculus I.
(4-0) Cr. 4. F.S.SS. Prereq: Satisfactory performance on placement
exam, 2 years of high school algebra, 1 year of geometry, 1 semester of
trigonometry or enrollment in 141 or 142
Differential calculus, applications of the derivative, introduction to integral
calculus. Only one of Math 151 or 160 or the sequence 165-166, or the
sequence 181-182 may be counted towards graduation.

MATH 166. Calculus II.
(4-0) Cr. 4. F.S.SS. Prereq: Grade of C- or better in 165 or high math place-
ment scores
Integral calculus, applications of the integral, infinite series. Only one
of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be
counted towards graduation.

H. Honors Calculus II
MATH 166H. Honors Calculus II.
(4-0) Cr. 4. F. Prereq: Permission of instructor and 165 or high math placement scores
Integral calculus, applications of the integral, infinite series. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required for MATH 166. Preference will be given to students in the University Honors Program. Only one of Math 151 or 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

MATH 181. Calculus and Mathematical Modeling for the Life Sciences I.
(4-0) Cr. 4. F.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, 1 semester of trigonometry or enrollment in 141 or 142
Exponential and logarithm functions, difference equations, derivatives, and applications of the derivative. Examples taken from biology. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

MATH 182. Calculus and Mathematical Modeling for the Life Sciences II.
(4-0) Cr. 4. S. Prereq: 181
Integration, first and second order differential equations, applications of the definite integral, introduction to multivariable calculus. Examples taken from biology. Only one of 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

MATH 195. Mathematics for Elementary Education I.
(2-2) Cr. 3. F.S. Prereq: Satisfactory performance on placement exam, 2 years high school algebra, 1 year of high school geometry, enrollment in elementary education or early childhood education
Theoretical and hands-on models, mathematical analysis of: elementary students? thinking, standard and non-standard algorithms, and properties related to whole numbers and whole number operations; linear measurement, and two- and three-dimensional geometric shapes and spatial sense; algebra as it relates to elementary curricula. Students in the College of Liberal Arts and Sciences may not count Math 140, 141, 142, or 195 toward Group III of the General Education Requirements.

MATH 196. Mathematics for Elementary Education II.
(2-2) Cr. 3. F.S. Prereq: Grade of C- or better in 195 and enrollment in elementary education or early childhood education
Two- and three-dimensional measurement; probability, statistics, algebra as it relates to elementary curricula; theoretical and hands-on models, mathematical analysis of: elementary students? thinking, standard and non-standard algorithms, and properties related to integer, fraction, and decimal operations.

MATH 201. Introduction to Proofs.
(3-0) Cr. 3. F.S. Prereq: 166 or 166H
Reading and writing simple proofs, using logical reasoning, including quantifiers and truth tables. Proof techniques. Mathematical induction. Proofs in set theory, number theory, and calculus.

MATH 265. Calculus III.
(4-0) Cr. 4. F.S.SS. Prereq: Grade of C- or better in 166 or 166H
Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus.

H. Honors Calculus III

MATH 265H. Honors Calculus III.
(4-0) Cr. 4. F.S. Prereq: Permission of the instructor; and 166 or 166H
Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus. Additional material of a theoretical, conceptual, computational, or modeling nature. Some of the work may require more ingenuity than is required in MATH 265. Preference will be given to students in the University Honors Program.

MATH 266. Elementary Differential Equations.
(3-0) Cr. 3. F.S.SS. Prereq: Grade of C- or better in 166 or 166H

(4-0) Cr. 4. F.S.SS. Prereq: Grade of C- or better in 166 or 166H
Same as 266 but also including Laplace transforms and series solutions to ordinary differential equations.

MATH 268. Laplace Transforms.
(1-0) Cr. 1. S. Prereq: 266
Laplace transforms and series solutions to ordinary differential equations. Together, Math 266 and 268 are the same as 267.

MATH 290. Independent Study.
Cr. 1-3. Repeatable.

H. Honors

MATH 297. Intermediate Topics for School Mathematics.
(2-2) Cr. 3. F. Prereq: Enrollment in elementary education and grade of C-
Mathematical reasoning, data fitting, and topics in Euclidean and non-Euclidean geometry. Discrete mathematics topics selected from graphs, networks, recurrence relations, probability, Markov chains. Use of technology to learn and teach mathematics.

MATH 298. Cooperative Education.
Cr. R. Repeatable, maximum of 2 times. F.S.SS. Prereq: Permission of the department cooperative education coordinator; sophomore classification Required of all cooperative education students. Students must register for this course prior to commencing each work period.

MATH 301. Abstract Algebra I.
(3-0) Cr. 3. F.S. Prereq: 166 or 166H, 307 or 317, and 201

MATH 302. Abstract Algebra II.
(3-0) Cr. 3. S. Prereq: 301
Theory of rings and fields. Introduction to Galois theory. Emphasis on writing proofs. Nonmajor graduate credit.

MATH 304. Introductory Combinatorics.
(3-0) Cr. 3. Prereq: 166 or 166H; 201 or experience with proofs
Permutations, combinations, binomial coefficients, inclusion-exclusion principle, recurrence relations, generating functions. Additional topics selected from probability, random walks, and Markov chains. Nonmajor graduate credit.

MATH 307. Matrices and Linear Algebra.
(3-0) Cr. 3. F.S.SS. Prereq: 2 semesters of calculus
Systems of linear equations, determinants, vector spaces, linear transformations, orthogonality, least-squares methods, eigenvalues and eigenvectors. Emphasis on methods and techniques. Nonmajor graduate credit. Only one of Math 307, 317 may be counted toward graduation.

MATH 314. Graphs and Networks.
(3-0) Cr. 3. S. Prereq: 166 or 166H; 201 or experience with proofs
Structure and extremal properties of graphs. Topics are selected from: trees, networks, colorings, paths and cycles, connectivity, planarity, Ramsey theory, forbidden structures, enumeration, applications. Nonmajor graduate credit.
MATH 317. Theory of Linear Algebra.  
(4-0) Cr. 4. F.S. Prereq: 166; credit or enrollment in 201  
Systems of linear equations, determinants, vector spaces, inner product  
spaces, linear transformations, eigenvalues and eigenvectors. Emphasis  
on writing proofs and results. Nonmajor graduate credit. Only one of  
Math 307, 317 may be counted toward graduation.

MATH 331. Topology.  
(3-0) Cr. 3. Prereq: 307 or 317  
Topological properties of metric spaces, including Euclidean n-space,  
continuous functions, homeomorphisms, and topological invariants.  
Examples from surfaces, knots, links, and three-dimensional manifolds.  
Nonmajor graduate credit.

MATH 341. Introduction to the Theory of Probability and Statistics I.  
(Cross-listed with STAT). (3-0) Cr. 3. F.S. Prereq: MATH 265 (or 265H)  
Probability; distribution functions and their properties; classical discrete  
and continuous distribution functions; multivariate probability distributions  
and their properties; moment generating functions; simulation of  
random variables and use of the R statistical package.

MATH 342. Introduction to the Theory of Probability and Statistics II.  
(Cross-listed with STAT). (3-0) Cr. 3. S. Prereq; STAT 341; MATH 307 or  
317  
Transformations of random variables; sampling distributions; confidence  
intervals and hypothesis testing; theory of estimation and hypothesis  
tests; linear model theory, enumerative data; use of the R statistical  
package for simulation and data analysis.

MATH 350. Number Theory.  
(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: 166  
Divisibility, integer representations, primes and divisors, linear diophan- 
tine equations, congruences, and multiplicative functions. Applications to  
cryptography. Nonmajor graduate credit.

MATH 365. Complex Variables with Applications.  
(3-0) Cr. 3. S. Prereq: 265  
Functions of a complex variable, including differentiation, integration and  
series expansions, residues, evaluation of integrals, conformal mapping.  
Nonmajor graduate credit.

MATH 373. Introduction to Scientific Computing.  
(3-0) Cr. 3. F. Prereq: 265  
Vector, matrix, and graphics programming in MATLAB for scientific appli- 
cations. Polynomial interpolation and approximation. Systems of linear  
equations and numerical linear algebra. Numerical differentiation and inte- 
gration. Newton methods solving nonlinear equations and optimization  
in one and several variables. Fast Fourier transform. Emphasis on effec- 
tive use of mathematical software and understanding of its strengths and  
limitations. Nonmajor graduate credit.

MATH 385. Introduction to Partial Differential Equations.  
(3-0) Cr. 3. F.S. Prereq: 265 and one of 266, 267  
Separation of variables methods for elliptic, parabolic, and hyperbolic  
partial differential equations. Fourier series, Sturm-Liouville theory, Bessel  
functions, and spherical harmonics. Nonmajor graduate credit.

MATH 397. Teaching Secondary Mathematics Using University Mathematics.  
(2-2) Cr. 3. S. Prereq: 201, 301  
Coursework in university mathematics including calculus, abstract  
algebra, discrete mathematics, geometry, and other topics as it relates to  
teaching mathematics in grades 7-12.

MATH 398. Cooperative Education.  
Cr. R. Repeatable, maximum of 2 times. F.S.SS. Prereq: Permission of the  
department cooperative education coordinator; junior classification  
Required of all cooperative education students. Students must register  
for this course prior to commencing each work period.

MATH 414. Analysis I.  
(3-0) Cr. 3. F.S.SS. Prereq: 201; 265; and 307 or 317  
Introduction to properties and basic topology of the real numbers. A  
careful development of calculus of functions of a real variable: limits,  
continuity, differentiation, integration, series. Nonmajor graduate credit.

MATH 415. Analysis II.  
(3-0) Cr. 3. S. Prereq: 414  
Sequences and series of functions of a real variable, uniform conver- 
gence, power series and Taylor series. Fourier series, topology of n- 
dimensional space, implicit function theorem, calculus of the plane and  
3-dimensional space. Additional topics may include metric spaces or  
Stieltjes or Lebesgue integration. Nonmajor graduate credit.

MATH 421. Logic for Mathematics and Computer Science.  
(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: MATH 301 or 307 or 317  
or COM S 330  
Propositional and predicate logic. Topics selected from Horn logic, equa- 
tional logic, resolution and unification, foundations of logic programming,  
reasoning about programs, program specification and verification, model  
checking and binary decision diagrams, temporal logic and modal logic.  
Nonmajor graduate credit.

(Cross-listed with PHYS). (3-0) Cr. 3. F. Prereq: 266 or 267  
A fast-paced course primarily for first-year graduate students in physics  
and chemistry. Emphasis on techniques needed for quantum mechanics  
and electrodynamics. Functions of a complex variable and contour inte- 
gration, integral transforms and applications, series methods for ordi- 
nary differential equations, Green’s functions, Sturm-Liouville problems  
and orthogonal functions and axiomatic methods. Nonmajor graduate credit.

MATH 435. Geometry I.  
(3-0) Cr. 3. F. Prereq: 307 or 317  
Euclidean geometry. Points, lines, circles, triangles, congruence, simi- 
larity, properties invariant under rigid motions. Synthetic, analytic, and  
axiomatic methods. Nonmajor graduate credit.

MATH 436. Geometry II.  
(3-0) Cr. 3. S. Prereq: 435  
Continuation of Euclidean geometry with topics from elliptic, projective,  
or hyperbolic geometry. Emphasis on analytic methods. Nonmajor gradu- 
ate credit.

MATH 439. Mathematics of Fractals and Chaos.  
(3-0) Cr. 3. Prereq: 266  
Examples from surfaces, knots, links, and three-dimensional manifolds.  
Fractals; fractal dimension; Julia sets and the Mandelbrot set; chaos.  
Nonmajor graduate credit.

(Cross-listed with COM S). (3-0) Cr. 3. S. Prereq: MATH 265 and either  
MATH 266 or 267; knowledge of a programming language  
First order Euler method, high order Runge-Kutta method, and multistep  
method for solving ordinary differential equations. Finite difference and  
finite element methods for solving partial differential equations. Local  
truncation error, stability, and convergence for finite difference method.  
Numerical solution space, polynomial approximation, and error estimate  
for finite element method. Nonmajor graduate credit.

MATH 490. Independent Study.  
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 301 or 317; 6 credits  
in mathematics  
More than 9 credits of Math 490 may be counted toward graduation.  
H. Honors

MATH 491. Undergraduate Thesis.  
Cr. 2-3  
Writing a formal mathematics paper. Upon approval by the department,  
the paper will satisfy the departmental advanced English requirement.
MATH 492. Undergraduate Seminar. 
(2-0) Cr. 2. S. Prereq: Consent of instructor
Introduction to mathematics research, a participating seminar on advanced topics in mathematics. Mathematical literature search, reading a mathematical article with the guidance of the instructor, mathematical presentation. Seminar content varies.

(Cross-listed with C I). (3-0) Cr. 3. F. Prereq: 15 credits in college mathematics; if in a teacher licensure program, concurrent enrollment in C I 426 or 526

MATH 498. Cooperative Education. 
Cr. R. Repeatable, maximum of 2 credits. F.S.S. Prereq: Permission of the department cooperative education coordinator; senior classification Required of all cooperative education students. Students must register for this course prior to commencing each work period.

Courses primarily for graduate students, open to qualified undergraduate students

MATH 501. Introduction to Real Analysis. 
(3-0) Cr. 3. F. Prereq: 265 and 307 or 317
A development of the real numbers. Study of metric spaces, completeness, compactness, sequences, and continuity of functions. Differentiation and integration of real-valued functions, sequences of functions, limits and convergence, equicontinuity.

MATH 504. Abstract Algebra I. 
(3-0) Cr. 3. F. Prereq: 302
Algebraic systems and their morphisms, including groups, rings, modules, and fields.

MATH 505. Abstract Algebra II. 
(3-0) Cr. 3. S. Prereq: 504
Continuation of MATH 504.

MATH 510. Linear Algebra. 
(3-0) Cr. 3. F. Prereq: 307 or 317
Advanced topics in linear algebra including canonical forms; unitary, normal, Hermitian and positive-definite matrices; variational characterizations of eigenvalues, and applications to other branches of mathematics.

MATH 511. Functions of a Single Complex Variable. 
(3-0) Cr. 3. S. Prereq: 414 or 501
Theory of analytic functions, integration, topology of the extended complex plane, singularities and residue theory, maximum principle.

MATH 515. Real Analysis I. 
(3-0) Cr. 3. F. Prereq: 414 or 501
Lebesgue measure and Lebesgue integral, one variable differentiation theory, product integration, Lp spaces.

MATH 516. Real Analysis II. 
(3-0) Cr. 3. S. Prereq: 515

MATH 517. Finite Difference Methods. 
(3-0) Cr. 3. S. Prereq: 481 or 561
Finite difference methods for partial differential equations, with emphasis on parabolic and hyperbolic equations, and other partial differential equations from application areas. Topics include convergence, stability and implementation issues.

MATH 519. Methods of Applied Mathematics I. 
(3-0) Cr. 3. F. Prereq: 414 or 501

MATH 520. Methods of Applied Mathematics II. 
(3-0) Cr. 3. S. Prereq: 519
Continuation of MATH 519.

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: CPR E 308, or one of Math 471, 481; experience in scientific programming; knowledge of FORTRAN or C
Development, analysis, and testing of efficient numerical methods for use on current state-of-the-art high performance computers. Applications of the methods to the students’ areas of research.

MATH 533. Cryptography. 
(Cross-listed with CPR E, INFAS). (3-0) Cr. 3. S. Prereq: MATH 301 or CPR E 310 or COM S 330
Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

(Cross-listed with CPR E, INFAS). (3-0) Cr. 3. S. Prereq: E E 524 or MATH 307 or COM S 330
Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

MATH 540. Seminar in Mathematics Education. 
(1-0) Cr. 1. SS. Prereq: Enrollment in the Master of School Mathematics program or professional studies in education
Research studies in mathematics learning and teaching, exemplary practices in mathematics education, and current state and national trends in the mathematics curriculum in grades K-12. Topics are offered on a 3-year cycle.

MATH 545. Intermediate Calculus. 
(4-0) Cr. 4. Prereq: 3 semesters of calculus and enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS. 2013. Further development of the fundamental concepts of calculus and their applications with an emphasis on a constructivist approach to learning, cooperative groups, problem solving, the use of technology.

(2-2) Cr. 3. Prereq: 3 semesters in calculus or concurrent enrollment in 545 and enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS. 2013. The use of technology in secondary mathematics with an emphasis on the exploration and implementation of algorithms.
MATH 547. Discrete Mathematics and Applications.
(4-0) Cr. 4. Prereq: Enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS. 2012. Applications of graph theory, game theory, linear programming, recursion, combinatorics and algebraic structures. Issues in integrating discrete topics into the secondary curriculum. Use of the computer to explore discrete mathematics.

MATH 549. Intermediate Geometry.
(3-0) Cr. 3. Prereq: 425 or equivalent and enrollment in the master of school mathematics program
Offered on a 3-year cycle, offered SS. 2012. A study of geometry with emphasis on metrics, the group of isometries, and the group of similarities. Specific spaces studied normally include the Euclidean plane, the 2-sphere, projective 2-space, and hyperbolic geometry. Emphasis on analytical methods. Incorporation of geometry software.

MATH 554. Introduction to Stochastic Processes.
(Cross-listed with STAT). (3-0) Cr. 3. F. Prereq: STAT 542
Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

MATH 557. Ordinary Differential Equations I.
(3-0) Cr. 3. F. Prereq: 415 or 501
The initial-value problem, existence and uniqueness theorems, continuous dependence on parameters, linear systems, stability and asymptotic behavior of solutions, linearization, topics from dynamical systems and two-point boundary-value problems.

MATH 561. Numerical Analysis I.
(3-0) Cr. 3. F. Prereq: 414 or 501
Approximation theory, including polynomial spline interpolation and best approximation; numerical differentiation and integration; numerical methods for ordinary differential equations.

MATH 562. Numerical Analysis II.
(3-0) Cr. 3. S. Prereq: 317
Numerical linear algebra including eigenvalue problems; numerical solution of nonlinear equations and optimization problems.

MATH 573. Random Signal Analysis and Kalman Filtering.
(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. F. Prereq: E E 432 or AER E 331 or M E 411 or MATH 441 or 395

MATH 574. Optimal Control.
(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. S. Prereq: E E 577

MATH 575. Introduction to Robust Control.
(Cross-listed with E E, M E, AER E). (3-0) Cr. 3. Prereq: E E 577

(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. F. Prereq: E E 475 or AER E 432 or M E 411 or 414 or MATH 415; and MATH 267

MATH 577. Linear Systems.
(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. F. Prereq: E E 324 or AER E 331 or M E 414 or MATH 415; and MATH 307

MATH 578. Nonlinear Systems.
(Cross-listed with AER E, E E, M E). (3-0) Cr. 3. S. Prereq: E E 577

MATH 590. Independent Study.
Cr. arr. Repeatable.

MATH 591. Orientation for Mathematics Graduate Students I.
(0.5-0) Cr. 0.5. F.
Fall semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only.

MATH 592. Orientation for Mathematics Graduate Students II.
(0.5-0) Cr. 0.5. S.
Spring semester orientation seminar. Required for graduate students in Mathematics and Applied Mathematics. Topics include teaching at the university level and communication of mathematics. Offered on a satisfactory-fail basis only.

MATH 595. Special Topics.
Cr. arr. Repeatable.

MATH 599. Creative Component.
Cr. arr.

Courses for graduate students

MATH 601. Mathematical Logic I.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 504
First semester of full-year course. Completeness and compactness of propositional and predicate logic, incompleteness and undecidability of set theory and arithmetic, Goedel’s theorems, recursive functions, computability, models, ultraproducts, and ultralimits.

MATH 602. Mathematical Logic II.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 601
Continuation of MATH 601.

MATH 605. Design Theory and Association Schemes.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 504
MATH 606. Enumerative Combinatorics and Ordered Sets. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 504
Ordered sets and lattices. Generating functions. Möbius inversion and other enumeration methods.

MATH 607. Modern (Structural) Graph Theory. (3-0) Cr. 3. Alt. F., offered 2011. Prereq: 504
Structural and extremal theory of graphs. Topics include basic structures (trees, paths and cycles), networks, colorings, connectivity, topological graph theory, Ramsey theory, forbidden graphs and minors, introduction to random graphs, applications.

MATH 608. Extremal Graph Theory. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MATH 607
Study of extremal graph problems and methods. Topics include Szemerédi’s regularity lemma, generalizations of the theorems of Turán and Ramsey, and the theory of random graphs.

MATH 610. Seminar. Cr. arr.

MATH 615. General Theory of Algebraic Structures I. (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 504
First semester of full-year course. Subalgebras, homomorphisms, congruence relations, and direct products. Lattices and closure operators. Varieties and quasivarieties of algebras, free algebras, Birkhoff’s theorems, clones, Mal’cev conditions. Advanced topics.

MATH 616. General Theory of Algebraic Structures II. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 615
Continuation of MATH 615.

MATH 617. Category Theory. (3-0) Cr. 3. Alt. F., offered 2011. Prereq: 504
Categories and functors and their applications.

MATH 618. Representation Theory. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: 504
Representations of algebraic structures. Content varies by semester.

MATH 621. Topology. (3-0) Cr. 3. Alt. F., offered 2012. Prereq: Permission of instructor
Introduction to general topology. Topological spaces, continuous functions, connectedness, compactness. Topics selected from countability and separation axioms, metrization, and complete metric spaces.

MATH 622. Algebraic Topology. (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 504
Foundations of algebraic topology. The fundamental group, homology groups, relative homology groups, and long exact sequences.

Fundamental theory of normed linear spaces and algebras, such as topology and continuity, duality and spectral theory, emphasizing aspects that provide a framework for the study of boundary-value problems, eigenvalue problems, harmonic analysis, analytic function theory, and modern operator theory.

MATH 634. Functional Analysis II. (3-0) Cr. 3. Alt. S., offered 2012. Prereq: 633
Continuation of MATH 633.

MATH 642. Advanced Probability Theory. (Cross-listed with STAT). (4-0) Cr. 4. F. Prereq: STAT 542
Measure spaces, extension theorem and construction of Lebesgue-Stieltjes measures on Euclidean spaces, Lebesgue integration and the basic convergence theorems, Lp-spaces, absolute continuity of measures and the Radon-Nikodym theorem, absolute continuity of functions on R and the fundamental theorem of Lebesgue integration, product spaces and Fubini-Tonelli Theorems, convolutions. Fourier series and transforms, probability spaces; Kolmogorov’s existence theorem for stochastic processes; expectation; Jensen’s inequality and applications, independence, Borel-Cantelli lemmas; weak and strong laws of large numbers and applications, renewal theory.

MATH 645. Advanced Stochastic Processes. (Cross-listed with STAT). (3-0) Cr. 3. S.

MATH 646. Mathematical Modeling of Complex Physical Systems. (Cross-listed with PHY). (3-0) Cr. 3. S.
Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.

MATH 655. Partial Differential Equations I. (3-0) Cr. 3. F. Prereq: 515 or 519
First order equations and systems, conservation laws, general theory of linear partial differential equations of elliptic, parabolic and hyperbolic types, maximum principles, fundamental solutions, Sobolev spaces, variational and Hilbert space methods.

MATH 656. Partial Differential Equations II. (3-0) Cr. 3. S. Prereq: 655
Continuation of MATH 655.

MATH 658. Dynamical Systems. (3-0) Cr. 3. Alt. F. Prereq: 515 or 519

MATH 666. Finite Element Methods. (3-0) Cr. 3. F. Prereq: 516 or 520 or 561 or 656
Elements of functional analysis; Sobolev spaces; variational principles and weak formulations; approximation theory in finite element spaces; analysis of finite element methods; implementation issues; applications.

MATH 680. Advanced Topics. Cr. 3. Repeatable.

A. Algebra
B. Analysis
C. Applied Mathematics
D. Combinatorics
E. Differential Equations
F. Linear Algebra
G. Logic and Foundations
H. Number Theory
I. Numerical Analysis
J. Optimization
K. Probability
L. Topology

The Military Science Department does not offer an academic degree and is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program. The mission of the department is derived directly from regulations governing Army Reserve Officers’ Training Corps (AROTC), which are issued by the Army Cadet Command and Army Training and Doctrine Command and cannot be modifiable by this department.

Freshmen Year Learning Outcomes
The student will have a working knowledge of the following areas: The Role of the Army, Roles and Origins of the Army, Army Customs and Traditions, Branches (Jobs) in the Army and Military Operations and Tactics.

Sophomore Year Learning Outcomes
The student will have a working knowledge of the following areas: The Role of an Officer, Role of the Officer and Noncommissioned Officer, communications, code of conduct, first aid, principles of war and military operations and tactics.

Junior Year Learning Outcomes
The student will have a working knowledge of the following areas: Small Unit Training, Command and Staff Functions, Nuclear, Biological and Chemical Warfare, Law of War, Weapons, Human Behavior, Math Reasoning, Computer Science and Military Operations and Tactics.

Senior Year Learning Outcomes
The student will have a working knowledge of the following areas: Transition to Becoming an Officer, Military Justice, Intelligence and Electronic Warfare, Army Personnel Management, Army Logistics, Post and Installation Support and Military Operations and Tactics.

The mission of the Army Reserve Officers’ Training Corps (AROTC) is to commission the future leaders of the United States Army. Since ROTC produces over 65 percent of the Army’s Officer Corps, our task is one of the most important undertakings in the Army and our country today. We seek top quality college students. We train these potential leaders, assess their abilities, and challenge them with the highest standards of profession/professionalism. Those who successfully complete the program, receive a commission as a second lieutenant in the U.S. Army. A commission as an Army officer affords the opportunity to pursue a profession in one or several of the 300 different jobs held by Army officers. Students may request to serve as an officer in either the active army, or part time in the Army Reserve or National Guard. Regardless of the method of service, officers in today’s Army can be proud to know that they are doing their share in the defense of the United States of America.

The ISU Military Science program is divided into two segments, the basic program and the advanced program. The basic program (courses numbered 101-290) is designed primarily for freshmen and sophomores. No military obligation is incurred by a person participating in the basic program. The basic program is designed to be informative and to acquaint students with the military as a profession. The basic program or an allowed substitute is a prerequisite for the advanced program. Financial assistance is available on a competitive basis.

Persons interested in Military Science should visit the department located on the second floor of the Armory (east side).

Basic Program
These courses are primarily for freshmen and sophomore students and, except for persons with prior military service and basic training graduates, are required for entry into the advanced program. Each scholarship cadet in the Basic Program receives a monthly allowance (freshmen $300; sophomore $350) for up to 10 months. The curriculum is designed to train freshmen and sophomores in individual and team skills. It also helps the Professor of Military Science identify individual leader developmental needs.

Advanced Program
These courses are for students who have completed the basic program (or received equivalent credit) and are mandatory for potential commissioning upon contracting at the beginning of their junior year. Each cadet receives a monthly allowance (junior $450; senior $500) for up to 10 months. These courses are primarily taught to academic juniors and seniors.

Successful completion normally obligates the student to military service on active or reserve duty. In addition to the advanced program of study, a student (cadet) will be expected to pass the Army Physical Fitness Test (precondition for commissioning) each semester and continually maintain military appearance standards in both personal grooming and uniform. Physical fitness training is regularly conducted outside of class and laboratory hours in a separate course, M S 150 Army Physical Readiness. Students are encouraged to attend and participate in this class.

Professional Military Science Education (PME) coursework outside of the military science curriculum is also a precondition to commissioning. The PME component consists of Basic Academic proficiency standards. These standards are explained to prospective students as they consider enrollment in the advanced program. Army Uniforms will be worn at least once a week. The 300-level courses are designed to prepare cadets for the Leader Development and Assessment Course, which is a 32 day summer internship/training program where cadets are trained to Army standards, develop leadership skills, and have their officer potential evaluated. The 400-level courses are the final preparation for commissioning as a second lieutenant in the United States Army. Students must meet academic alignment criteria and receive basic program credit before entering the advanced program.

The College of Liberal Arts and Science offers a minor in Military Studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from one or a number of the ROTC programs. At least 6 credits must be in courses numbered 300 or above.

Courses primarily for undergraduate students

(1-0) Cr. 1. F. Prereq: Concurrent enrollment in M S 101L required
Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its’ leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students’ communication skills to enhance their ability to transmit ideas. The class examines how the Army’s cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.

L. Basic Leadership Laboratory I
M S 101L. Basic Leadership Laboratory I.
(0-2) Cr. 1. F. Prereq: Concurrent enrollment in M S 101 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.

L. Basic Leadership Laboratory II

M S 102L. Basic Leadership Laboratory II.
(0-2) Cr. 1. S. Prereq: Concurrent enrollment in M S 102L required
Instructs students on the fundamental skills and proficiencies required of Cadets in the Army Reserve Officer Training Corps and Officers in the United States Army. Allows students to explore the Army culture whose ultimate success is determined by the character and proficiency of its leaders. Students will gain an insight to the effects of human behavior and communication on the function of the Army’s basic unit structures. Special focus is given to the emphasis the Army puts on the development and character of the leader and how that affects the culture and operation of the Army as an institution. Students will develop an understanding of the role that morals and ethics play in becoming an Army Officer and leading American Soldiers. Introduction to basic officer/soldier skills will elucidate the complex role of the Officer in the modern Army.

M S 150. Army Physical Readiness.
(0-3) Cr. 1. Repeatable. F.S.
This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students physical and medical eligibility.

(2-0) Cr. 2. F. Prereq: Concurrent enrollment in M S 201 required
Explores the development of leadership and communication skills by understanding and studying the principles, traits, and dynamics of leadership and effective communication techniques. These include; leadership dimensions, human behavior, time management skills, stress management, values and ethics, decision making process, problem solving skills, team building exercises, communication techniques, briefing skills, delegating, nutrition, fitness, and counseling. Leadership assessment programs, role playing, active class participation, speeches, country briefs, and video clips are used to enhance and reinforce the instruction.

L. Basic Leadership Laboratory III

M S 201L. Basic Leadership Laboratory III.
(0-2) Cr. 1. F. Prereq: Concurrent enrollment in M S 201 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.

(2-0) Cr. 2. S. Prereq: Concurrent enrollment in M S 202L required
Class focuses on the characteristics and features of the earth’s land mass and how to apply different methods of conducting navigation on land. These methods include; by use of topographical maps, compasses, aerial photographs, military maps, symbols, and all their practical application. These navigation techniques are used in class in conjunction with patrolling techniques and squad movement exercises. Students will utilize verbal and non-verbal communication, communication techniques, and briefing techniques during this class. Students are also assigned to read one professional book from the Army Reading List and complete a written review of the book in the Army writing style.

L. Basic Leadership Laboratory IV

M S 202L. Basic Leadership Laboratory IV.
(0-2) Cr. 1. S. Prereq: Concurrent enrollment in M S 202 required
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. Learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Students also learn various military tasks such as marching, rifle firing, and tactical patrolling; gain confidence through rappelling and construction/use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.

M S 250. Advanced Army Physical Readiness I.
(0-5) Cr. 2. F. Prereq: Successfully complete MS 150 and permission of Department Chair
Students learn to plan and conduct physical fitness sessions, following Army physical fitness readiness requirements. Development of physical fitness plan and leadership of training sessions. Participation determined by students’ physical and medical eligibility.
M S 251. Advanced Army Physical Readiness II.
(0-5) Cr. 2. S. Prereq: Successfully complete MS 150 and MS 250
Students learn to plan and conduct physical fitness sessions, following
Army physical fitness readiness requirements. Development of physical
fitness plan, and leadership of training sessions. Participation determined
by students' physical and medical eligibility.

Cr. 1-3. Repeatable, maximum of 12 credits. F.S.SS. Prereq: Permission of
the Chair of Military Science Department
Investigation of an approved topic. Must result in a professional journa-
worthy paper on ethics, current military issues, interpersonal communica-
tions, or leadership development.

M S 301. Methods of Instructing Military Skills.
(3-0) Cr. 3. F. Prereq: Completion of the basic Military Science program,
concurrent enrollment in MS 301L, and permission of the Chair of the
Military Science Department
Develops student's proficiency in analyzing, planning, and executing
complex operations within a military organizational structure. Students
are given situational opportunities and then measured on their leadership
abilities through systematic feedback. Students' evaluations are based
on sixteen leadership dimensions within the realms of values, attributes,
skills, and actions. Students develop an understanding of human cultural
heritage and history, as it pertains to the armed forces.

L. Advanced Leadership Laboratory I

M S 301L. Advanced Leadership Laboratory I.
(0-4) Cr. 1. F. Prereq: Completion of the basic program, concurrent enroll-
ment in MS 301 and permission of the Chair of the Military Science
Department
The lab compliments M S 301 by providing opportunities to practice
the lessons from class. On-the-job training and evaluation provided by
the ROTC cadre. Developing training programs, structuring laboratories,
preparing classes, planning various events, and accepting responsi-
bility for the leadership labs. Participating in the Water Survival test, Army
Physical Fitness test and the Land Navigation test are required.

(3-0) Cr. 3. S. Prereq: Completion of the basic Military Science program,
concurrent enrollment in MS 302L and permission of the Chair of the
Military Science Department
Prepares students to attend the Leadership Develop and Assessment
Course at Fort Lewis, Washington in which they will be assigned specific
and situational tasks to accomplish by providing purpose, motivation,
and direction to fellow students across the nation. Students will learn
how to identify sixteen leadership dimensions in the under classmen and
provide specific feedback on their leadership behaviors. Students will
develop their oral communication skills about the plans developed by
the class, through small group presentation settings. Students will develop
methods of studying human behavior.

L. Advanced Leadership Laboratory II

M S 302L. Advanced Leadership Laboratory II.
(0-4) Cr. 1. S. Prereq: Completion of the basic program, concurrent enroll-
ment in MS 302 and permission of the Chair of the Military Science
Department
The lab compliments M S 302 by providing opportunities to practice
the lessons from class. On-the-job training and evaluation provided by
the ROTC cadre. Developing training programs, structuring laboratories,
preparing classes, planning various events, and accepting responsibility
for the leadership labs. Participating in the Water Survival Test, Army Phys-
ical Fitness Test and the Land Navigation test required.

(3-0) Cr. 3. F. Prereq: Completion of the basic program, concurrent enroll-
ment in MS 401L and permission of the Chair of the Military Science
Department
Develops student proficiency in analyzing and evaluating leadership
behaviors, such as values, attributes, skills, and actions. Students are
given situational opportunities to assess leadership and provide feedback
to other students placed in leadership roles. Students will be measured
by their ability to both give and receive systematic and specific feedback
on leadership behaviors. Students will develop their ability to commu-
nicate thoughts and ideas orally through small group presentations and
group discussions. Students will supervise and evaluate the planning and
execution of complex operations within a military organizational structure.

L. Advanced Leadership Laboratory III

M S 401L. Advanced Leadership Laboratory III.
(0-4) Cr. 1. F. Prereq: Completion of the basic program, concurrent enroll-
ment in MS 401 and permission of the Chair of the Military Science
Department
The lab compliments the instruction from class by demonstrating the
indelible link between personal values and successful leadership. On-
the-job training and evaluation provided by the ROTC cadre. Developing
training programs, structuring laboratories, presenting classes, planning
various events, and accepting responsibility for the leadership labs.

(3-0) Cr. 3. S. Prereq: Completion of the basic program, concurrent enroll-
ment in MS 402L and permission of the Chair of the Military Science
Department
Explores the dynamics of leading in the complex situations of current
military operations in a contemporary world. Students will examine the
differences in customs, courtesies and operational principles in the face
of international terrorism. Students will also explore aspects of interac-
tion with nongovernmental organizations, civilians and media in a war
zone and foreign national governments. The course uses case studies,
scenarios, and practical exercises, which prepare the student to face
complex ethical and practical demands of leading soldiers within a multi-
faceted military organizational structure.

L. Advanced Leadership Laboratory IV

M S 402L. Advanced Leadership Laboratory IV.
(0-4) Cr. 1. S. Prereq: Completion of the basic program, concurrent enroll-
ment in MS 402 and permission of the Chair of the Military Science
Department
The lab compliments the instruction from class by demonstrating the
indelible link between personal values and successful leadership. On-
the-job training and evaluation provided by the ROTC cadre. Developing
training programs, structuring laboratories, presenting classes, planning
various events, and accepting responsibility for the leadership labs.

(1-0) Cr. 1. Repeatable, maximum of 4 credits. F.S.SS. Prereq: M S 301,
302, 401 and 402 and permission of the Chair of the Military Science
Department
Investigation of an approved topic. Must result in a professional journa-
worthy paper on ethics, current military issues, interpersonal communica-
tions, or leadership development.
Military Studies

Interdepartmental Minor

The Military Studies program is designed for students interested in learning about military skills and careers. The mission of the Reserve Officers’ Training Corps (ROTC) programs is threefold. First, students are developed mentally, morally, and physically in order to make them strong leaders. Second, a desire for development in mind and character is instilled in students so they may assume the highest responsibilities of command, citizenship, and government. Finally, students are imbued with the highest ideals of duty, honor, and loyalty in order to graduate with a basic professional background and motivation toward their careers.

The Military Science, Naval Science and Air Force Aerospace departments accomplish this mission through detailed courses of instruction occurring throughout a typical student’s college career. All academic courses offered by these departments focus on the development of professional military skills and their application. Each department offers courses unique to its branch of the military. Students in Army ROTC classes gain an appreciation for ground warfare and doctrine, while the Naval Science program develops basic seamanship skills such as navigation and marine propulsion. The Air Force Aerospace Studies curriculum familiarizes students with Air Force structure and doctrine. On a broader scale, all three departments offer courses promoting leadership and sound management practices that investigate the military’s role in American domestic and foreign policy, and can be employed in any career path.

Military Science, Naval Science and Air Force Aerospace courses are offered in the interdepartmental Military Studies program in the following participating departments: Military Science, Naval Science and Air Force Aerospace.

Undergraduate Study

Undergraduate study in this program provides the student with an opportunity to develop a minor in Military Studies. The three Iowa State University ROTC programs offer over 64 credits of specialized coursework. The minor in Military Studies is open to any Iowa State University student.

Undergraduate students may minor in Military Studies by taking 15 credits of coursework from a combination of any of the three ROTC programs - regardless of whether or not a commission in the Armed Forces is tendered. At least 6 of the 15 credits must be in courses numbered 300 or above.

Courses primarily for undergraduate students

(1-0) Cr. 1. F.

(1-0) Cr. 1. S.
A continuation of 141. Topics include Air Force installations, Air Force core values, leadership and team building, further study of interpersonal communication, the Oath of Office and Commissioning.

AFAS 241. The Evolution of USAF Air & Space Power I.

(1-0) Cr. 1. F.
Examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the first balloons and dirigibles to the Korean War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today’s USAF air and space power.

AFAS 242. The Evolution of USAF Air & Space Power II.

(1-0) Cr. 1. S.
A continuation of AFAS 241 that examines the general aspects of air and space power through a historical perspective. Utilizing this perspective, the course covers a time period from the Korean War to the space-age global positioning systems of the Persian Gulf War. Historical examples are provided to illustrate the development of airpower capabilities and missions to demonstrate the evolution of what has become today’s USAF air and space power.

AFAS 341. Air Force Leadership Studies I.

(3-0) Cr. 3. F.
A look at the fundamental issues of leadership and management in the U.S. Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 342. Air Force Leadership Studies II.

(3-0) Cr. 3. S. Prereq: 341
A continuation of AFAS 341, that looks at the advanced issues of leadership and management in the U.S. Air Force; a large and diverse organization. It examines the theoretical aspects of leadership, management, communications, motivation and problem-solving while studying them against the backdrop of the U.S. Air Force. The course also conducts hands-on exercises to apply principles learned. While the curriculum is focused on the Air Force as an organization, the principles studied are applicable to most organizations.

AFAS 441. Preparation for Active Duty.

(3-0) Cr. 3. F.
Traces the source of military authority and responsibilities from the U.S. Constitution through the DoD to an Air Force officer. Examines the structure and capabilities of the other services and joint structures. Addresses the supervisory duties of an Air Force officer associated with administrative actions and military law as force management tools. Builds upon leadership and management skill learned in AFAS 341/342 and includes demonstrations of written and verbal communications processes.

(3-0) Cr. 3. S.
Examines the national security process through review of the Department of Defense’s statutory administrative and operational relationships as context for this course’s regional studies component. Reviews functions of air and space power as outlined in Air Force doctrine and introduces the concept of joint operations. Integrates these concepts with regional studies to survey issues of interest to professional military officers and governmental leaders. Selectively reviews and discusses Africa, Latin America, South Asia, East Asia, Europe, Russia and the Middle East.

Meets International Perspectives Requirement.
Military Science - See Military Science.

(1-0) Cr. 1. Prereq: Concurrent enrollment in M S 101L required
Examines the role of a Cadet in the Army Reserve Officer Training Corps and a Lieutenant in the United States Army. The course explores a military culture whose ultimate success is determined by the character and proficiency of its leaders. Instruction introduces students to the cultural heritage and history of the U.S. Army. Students will begin to understand the structure of the U.S. Army and how it functions as an organization and institution. The curriculum promotes the development of students’ communication skills to enhance their ability to transmit ideas. The class examines how the Army’s cultural values drive the development of leadership in the Officer Corps. Hands-on activities enable students to gain insight on the skills and abilities required of cadets and officers interacting with civilians and soldiers.

L. Basic Leadership Laboratory I

(1-0) Cr. 1. S. Prereq: Concurrent enrollment in M S 102L required
Instructs students on the fundamental skills and proficiencies required of Cadets in the Army Reserve Officer Training Corps and Officers in the United States Army. Allows students to explore the Army culture whose ultimate success is determined by the character and proficiency of its leaders. Students will gain an insight to the effects of human behavior and communication on the function of the Army’s basic unit structures. Special focus is given to the emphasis the Army puts on the development and character of the leader and how that affects the culture and operation of the Army as an institution. Students will develop an understanding of the role that morals and ethics play in becoming an Army Officer and leading American Soldiers. Introduction to basic officer/soldier skills will elucidate the complex role of the Officer in the modern Army.

L. Basic Leadership Laboratory II

(2-0) Cr. 2. F. Prereq: Concurrent enrollment in M S 201L required
Explores the development of leadership and communication skills by understanding and studying the principles, traits, and dynamics of leadership and effective communication techniques. These include: leadership dimensions, human behavior, time management skills, stress management, values and ethics, decision making process, problem solving skills, team building exercises, communication techniques, briefing skills, delegating, nutrition, fitness, and counseling. Leadership assessment programs, role playing, active class participation, speeches, country briefs, and video clips are used to enhance and reinforce the instruction.

L. Basic Leadership Laboratory III

(2-0) Cr. 2. S. Prereq: Concurrent enrollment in M S 202L required
Class focuses on the characteristics and features of the earth’s land mass and how to apply different methods of conducting navigation on land. These methods include; by use of topographical maps, compasses, aerial photographs, military maps, symbols, and all their practical applications. These navigation techniques are used in class in conjunction with patrolling techniques and squad movement exercises. Students will utilize verbal and non-verbal communication, communication techniques, and briefing techniques during this class. Students are also assigned to read one professional book from the Army Reading List and complete a written review of the book in the Army writing style.

L. Basic Leadership Laboratory IV

M S 301. Methods of Instructing Military Skills.
(3-0) Cr. 3. F. Prereq: Completion of the basic Military Science program, concurrent enrollment in MS 301L, and permission of the Chair of the Military Science Department
Develops student’s proficiency in analyzing, planning, and executing complex operations within a military organizational structure. Students are given situational opportunities and then measured on their leadership abilities through systematic feedback. Student’s evaluations are based on sixteen leadership dimensions within the realms of values, attributes, skills, and actions. Students develop an understanding of human cultural heritage and history, as it pertains to the armed forces.

L. Advanced Leadership Laboratory I

(3-0) Cr. 3. S. Prereq: Completion of the basic Military Science program, concurrent enrollment in MS 302L and permission of the Chair of the Military Science Department
Prepares students to attend the Leadership Develop and Assessment Course at Fort Lewis, Washington in which they will be assigned specific and situational tasks to accomplish by providing purpose, motivation, and direction to fellow students across the nation. Students will learn how to identify sixteen leadership dimensions in the upperclassmen and provide specific feedback on their leadership behaviors. Students will develop their oral communication skills about the plans developed by the class, through small group presentation settings. Students will develop methods of studying human behavior.

L. Advanced Leadership Laboratory II

(3-0) Cr. 3. F. Prereq: Completion of the basic program, concurrent enrollment in MS 401L and permission of the Chair of the Military Science Department
Develops student proficiency in analyzing and evaluating leadership behaviors, such as values, attributes, skills, and actions. Students are given situational opportunities to assess leadership and provide feedback to other students placed in leadership roles. Students will be measured by their ability to both give and receive systematic and specific feedback on leadership behaviors. Students will develop their ability to communicate thoughts and ideas orally through small group presentations and group discussions. Students will supervise and evaluate the planning and execution of complex operations within a military organizational structure.

L. Advanced Leadership Laboratory III

(3-0) Cr. 3. S. Prereq: Completion of the basic program, concurrent enrollment in MS 402L and permission of the Chair of the Military Science Department
Explores the dynamics of leading in the complex situations of current military operations in a contemporary world. Students will examine the differences in customs, courtesies and operational principles in the face of international terrorism. Students will also explore aspects of interaction with nongovernmental organizations, civilians and media in a war zone and foreign national governments. The course uses case studies, scenarios, and practical exercises, which prepare the student to face complex ethical and practical demands of leading soldiers within a multi-faceted military organizational structure.

L. Advanced Leadership Laboratory IV

Cr. 1-3. Repeatable, maximum of 12 credits. F.S.S. Prereq: Permission of the Chair of Military Science Department
Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.
(1-0) Cr. 1. Repeatable, maximum of 4 credits. F.S.SS. Prereq: M S 301, 302, 401 and 402 and permission of the Chair of the Military Science Department
Investigation of an approved topic. Must result in a professional journal-worthy paper on ethics, current military issues, interpersonal communications, or leadership development.

Naval Science - See Naval Science.

N S 111. Introduction to Naval Science.
(3-0) Cr. 3. F.
Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components.

N S 212. Seapower and Maritime Affairs.
(3-0) Cr. 3. S.
An historical survey of sea power in terms of national domestic environments, foreign policy, and the evolution of maritime forces with trends in technology, doctrine, and tactics. The student will develop an understanding of the role the US Navy has played in the nation’s history, both in peace and war. Naval events, forces and policies will be studied as elements in the shaping of the national consciousness and sense of purpose. Course content will include the development of the concept of sea power, the role of various warfare components of the Navy, the implementation of sea power as an instrument of national policy, and the evolution of naval tactics.

N S 220. Leadership and Management.
(3-0) Cr. 3. Alt. F., offered 2012.
Experiential approach to learning the principles of leadership and management by examining various management theories and their applications. Skills are developed in the areas of communication, counseling, control, direction, management, and leadership through active guided participation.

(3-0) Cr. 3. S. Prereq: Sophomore classification
Study of the fundamentals of marine navigation used by ships at sea; includes practical exercises in piloting using visual and electronic means. In-depth discussion of laws that govern conduct of vessels in national and international waters. Course is supplemented with review and analysis of case studies involving actual navigation incidents.

(3-0) Cr. 3. F. Prereq: Physics 221, sophomore classification
An introduction to naval engineering with emphasis on the equipment and machinery involved in the conversion of energy for propulsion and other purposes aboard the major ship types of the U.S. fleet. Basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion. Introduction to ship design, stability, hydrodynamic forces, compartmentation, electrical and auxiliary systems.

N S 321. Evolution of Warfare.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: Sophomore classification
Evolution of warfare from 3500 B.C. to contemporary times; analysis of the impact of historical precedents on modern military thought and action; emphasis on the historical development of military tactics, strategy, and technology.

(3-0) Cr. 3. S. Prereq: Physics 221, sophomore classification
Introduction to the theory and principles of operation of naval weapon systems. Included coverage of types of weapons and fire control systems, capabilities and limitations; theory of target acquisition, identification and tracking; basics of naval ordnance.

(3-0) Cr. 3. F. Prereq: Senior classification
Study of tactical naval operations; employs practical use of maneuvering boards together with shiphandling principles to arrive at tactical shipboard maneuvering solutions. Study also of naval command and control, communications, and the Naval Warfare Doctrine.

N S 412. Leadership and Ethics.
(3-0) Cr. 3. S. Prereq: Requirements for NROTC students - N S 111, N S 212 or HIST 389, N S 220, N S 230, N S 320, N S 330 and N S 410
Basic background concerning the duties and responsibilities of the junior naval officer and division officer in the areas of integrity and ethics, human resources management, personnel management, material management, and the administration of discipline. Preparation for responsibilities encountered immediately upon commissioning.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: Sophomore classification
Defines the concept of amphibious operations, origins, development from 600 B.C.
Administered by the Department of Music and Theatre

**Undergraduate Study**

The Department of Music and Theatre offers a strong undergraduate music program, where students study with full-time faculty professionals in a supportive environment that encourages students to become their best.

The music curriculum provides:

1. A comprehensive program of professional studies for students who wish to prepare for careers in music, including teaching, performance, and composition, and for students who plan to pursue graduate studies in music.
2. Courses in music literature, theory and areas of performance for all students, regardless of major.

The department embodies the land-grant philosophy of service to the people of the state with a faculty of active scholars, teachers, and artists committed to excellence in teaching, creative/scholarly work, and arts outreach. The department is an accredited institutional member of the National Association of Schools of Music (NASM).

The Theatre Program is administered by the Department of Music and Theatre (see Index, Theatre and Performing Arts.)

**Minor in Music**

Candidates for the minor in music will complete 19 credits in music including:

|MUSIC 221 | Introduction to Music Theory | 3 |
|MUSIC 231 | Materials of Music I | 3 |

Two of the following:

|MUSIC 102 | Introduction to Music Listening | |
|MUSIC 120 | Introduction to Music Literature and Styles | |
|MUSIC 302 | The History of Music in Western Culture | |
|MUSIC 304 | History of Rock ’n’ Roll | |
|MUSIC 383 | History of Music I | 4 |

4 credits chosen from the following:

|MUSIC 111 | Wind Ensemble | |
|MUSIC 113 | Jazz Ensemble | |
|MUSIC 115 | Symphonic Band | |
|MUSIC 141 | Lyric Women’s Choir | |
|MUSIC 151 | Oratorio Chorus | |
|MUSIC 161 | Iowa State Singers | |
|MUSIC 181 | Symphony Orchestra | |
|MUSIC 321 | Advanced Ensemble | |
|MUSIC 318 | Applied Music: Non-majors | |
|MUSIC 290F | Applied Music | |

At least 6 of the 19 credits must be in courses numbered 300 and above taken at ISU with a grade of C or better. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement.

Students pursuing a music minor must meet the audition requirements and/or prerequisites for all courses they wish to take.

**Minor in Music Technology**

Candidates for the minor in music technology will complete 15 credits including:

|MUSIC 246 | Introduction to Music Technology | 2 |
|MUSIC 346 | MIDI and Digital Audio Techniques | 3 |
|MUSIC 446 | Electronic Music Synthesis | 3 |

7 credits from the following:

|COM S 107 | Applied Computer Programming | |
|COM S 207 | Fundamentals of Computer Programming | |

At least 6 of the fifteen credits must be taken at Iowa State University in courses numbered 300 or above with a grade of C or higher. The minor must include at least nine credits not used to meet any other department, college, or university requirement. Students pursuing a minor in music technology must meet the audition requirements and/or prerequisites for all music courses they wish to take.

**Curricula Available to Music Majors**

Students interested in pursuing an emphasis in music theater should see Index, Theater and Performing Arts.

**Bachelor of Music**

This curriculum leads to the degree bachelor of music. This degree is more specialized and contains fewer general education requirements than the bachelor of arts degree with a major in music. Students in this curriculum choose between options in education, performance, and composition. To obtain a bachelor of music degree, a student must earn a minimum of 124.5-146 credits (depending on the option chosen)
including a minimum of 32 credits in residence at Iowa State University and a minimum of 45 advanced credits in courses numbered 300 or above and must meet all of the requirements specified below.

Courses taken on a pass/fail pass basis may be counted toward the required total credits, and may be used to meet the advanced credit requirement, if appropriate, but may not be used to satisfy any other graduation requirement.

Degree Requirements

Bachelor of arts students whose chief professional interest lies in research are encouraged to minor in world languages and cultures, history, literature, or philosophy.

**General Requirements**

Prior to being accepted as a music major, students are required to audition for applied faculty in their performance area (piano, organ, woodwinds, strings, percussion, brass, or voice), and must successfully demonstrate performance skills appropriate for college level instruction. Once accepted, a student must complete a placement examination in keyboard skills. This examination will be given by members of the departmental faculty during summer orientation, the week preceding the opening of classes for fall semester, or by appointment.

Seminars and Recitals. All music majors enrolled for applied music courses will attend a weekly 1-hour seminar in their areas and departmental recitals each semester.

Ensemble Requirement. All bachelor of music students must register for an ensemble course each semester of full-time enrollment (except during student teaching).

**Bachelor of Arts—Music Major**

A more general degree than the bachelor of music, the bachelor of arts degree requires no formal specialization. It includes more general education requirements and provides a broader course of academic study.

For the undergraduate curriculum in Liberal Arts and Sciences, major in music, leading to the degree bachelor of arts, see Liberal Arts and Sciences, Curriculum.
One semester of chamber music ensemble

MUSIC 113  Jazz Ensemble  1
MUSIC 161  Iowa State Singers  1
MUSIC 301  Opera Studio  1-3
MUSIC 321  Advanced Ensemble  1

Instrumental music education students may count one semester of 114A as a large ensemble. All full-time Bachelor of Music students in options other than music education must include among their ensembles at least two semesters of large ensemble.

MUSIC 111  Wind Ensemble  1
MUSIC 115  Symphonic Band  1
MUSIC 141  Lyrica Women's Choir  1
MUSIC 151  Oratorio Chorus  1
MUSIC 161  Iowa State Singers  1
MUSIC 181  Symphony Orchestra  1

Continuation Examination
To be approved for continuation as a music major on the junior level, a student must pass a continuation examination taken normally at the end of the fourth semester. Before taking this examination, the student must fill out the requisite forms as well as write an essay including:

1. his/her personal goals
2. a self-assessment of his/her progress thus far
3. an assessment of what he/she expects to accomplish before graduation

The student taking the Continuation Examination performs for a Continuation Examination Committee. Requirements include the performance of three works representing different periods or styles selected by and studied with the applied teacher, a self-prepared piece, and sight reading. The student must display acceptable solo ability and performance techniques in at least one of the applied areas. A written evaluation will be given each student following his/her performance. This evaluation will include a candid assessment of the student’s potential to achieve his/her goals. In addition, the student may arrange to meet with members of the Continuation Examination Committee at a later date to discuss the results of his/her Continuation Examination.

All music majors must demonstrate proficiency in piano as a part of the continuation examination. Proficiency will normally be demonstrated by completing MUSIC 228 or, for keyboard majors, by completing MUSIC 327. The student must pass all parts of the continuation examination in order to enroll in MUSIC 319 or MUSIC 419. Details and forms available at: www.music.iastate.edu.

Graduation Proficiency
To be recommended for graduation, a music student should demonstrate to the music faculty mature acquaintance with performance styles, technique, and repertoire. All music majors will participate in departmental recitals to the satisfaction of the department. Candidates for the bachelor of music degree will present a graduation recital.

Communication Proficiency requirement: The department requires a grade of C– or better in each of ENGL 150 and ENGL 250 (or ENGL 250H). In addition the Communication Proficiency must be certified through one of the following options:

1. Certification of writing skills, by the instructor, after completion of one of the following:
   MUSIC 120  Introduction to Music Literature and Styles  3
   MUSIC 383  History of Music I  3
   MUSIC 384  History of Music II  3
   MUSIC 472  History of American Music  3
   MUSIC 473  Music of the Baroque and Classical Eras  3
   MUSIC 475  Music of the Romantic Era  3
   (Passing one of these courses does not automatically satisfy the requirements for Communication Proficiency.)

2. Satisfactory completion of an advanced writing course:
   ENGL 302  Business Communication  3
   ENGL 305  Creative Writing—Nonfiction  3
   ENGL 314  Technical Communication  3

Learning Outcomes and Assessment
1. Music graduates will understand and demonstrate:
2. Knowledge of music cultural heritage and history
3. Appreciation for musical creativity, reasoning, and the aesthetic value of music
4. Knowledge of organization and structures of music
5. Analytical skills necessary for listening, performing, and teaching
6. Skills necessary to perform music from a variety of periods, styles, and genres
7. Necessary abilities to communicate ideas musically, verbally, and in writing
8. Awareness of the diversity of musical ideas throughout the world’s cultures
9. For Music Education students: success in meeting the ISU Teaching Standards as outlined by the University Teacher Education Program

Assessment measures include the continuation examination, graduating senior surveys and exit interviews, public performances, senior projects, course grades, teacher certification (for music education students), and the National Association of Schools of Music accreditation review.

Courses primarily for undergraduate students

(1-2) Cr. 2. F.S. Prereq: Ability to read elementary musical notation
Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

MUSIC 102. Introduction to Music Listening.
(3-0) Cr. 3. F.S.SS.
Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required.

Meets International Perspectives Requirement.

MUSIC 105. Basic Musicianship.
(1-4) Cr. 3. F.S. Prereq: Performing arts major classification
Beginning keyboard techniques, sight-reading, and ear training. Basic materials of music: notation, scales, intervals, key signatures, time signatures, rhythm, and harmony.

MUSIC 111. Wind Ensemble.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour.
MUSIC 112. Concert Band.  
(0-2) Cr. 1. Repeatable. F.S. Prereq: Open to all students who have performed on a wind or percussion instrument in high school band or orchestra  
Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

MUSIC 113. Jazz Ensemble.  
(0-2) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition  
Designed to explore various styles and trends in contemporary jazz.

MUSIC 114. Marching and Pep Bands.  
(0-5) Cr. 1. Repeatable.  
A. Marching Band. Fall only. Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching).  
B. Pep Band. Spring only.

MUSIC 115. Symphonic Band.  
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition  
Stresses high quality wind literature. Performances include formal concerts on campus.

(0-5-0) Cr. 1-2. Repeatable. F.S.SS. Prereq: Audition, permission of instructor  
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

A. Voice  
B. Piano  
C. Organ  
D. Strings  
E. Carillon  
F. Woodwinds  
G. Brass  
I. Percussion  
K. Harpsichord

(0-5-2) Cr. 1-3. Repeatable. F.S.SS. Prereq: Audition, permission of instructor; restricted to music majors  
(.5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

A. Voice  
B. Piano  
C. Organ  
D. Strings  
E. Carillon  
F. Woodwinds  
G. Brass  
I. Percussion  
K. Harpsichord

MUSIC 120. Introduction to Music Literature and Styles.  
(3-0) Cr. 3. S. Prereq: 221; music major status or permission of instructor  
Directed studies via aural analysis for music majors with emphasis on the materials of music, form and aesthetic issues. Introduction to style and literature of the major performance media in context of historical chronology. Fundamentals of score reading and performance terminology. Only one of Music 120 and 302 can count toward graduation.

MUSIC 127. Class Study in Piano I.  
(0-2) Cr. 1. F.S. Prereq: 101 or audition, and permission of instructor  
Beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 128. Class Study in Piano II.  
(0-2) Cr. 1. F.S. Prereq: 127 or audition, and permission of instructor  
Continuation of beginning keyboard technique, transposition, harmonization, ensemble and solo repertory, and sight-reading skills.

MUSIC 131. Vocal Jazz Ensemble: "Off the Record".  
(0-2) Cr. 1. Repeatable. Prereq: Open by audition and permission of instructor; concurrent enrollment in one of the following: 141, 151, 161  
Small mixed chorus specializing in advanced vocal jazz techniques. Performances on and off campus.

MUSIC 133. Basic Voice Techniques.  
(0-2) Cr. 1. Repeatable. F.S. Prereq: Permission of instructor  
Class study in voice. Techniques of vocal production: respiration, phonation, resonance, articulation, and performance.

MUSIC 141. Lyrica Women's Choir.  
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all female students by audition  
Large chorus; emphasis on fundamental vocal and choral skills, wide variety of literature. Campus concerts each semester.

MUSIC 151. Oratorio Chorus.  
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition  
Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men's and women's choirs separately and in combination.

A. Cantamus Women's Choir  
B. Statesmen Men's Choir

MUSIC 161. Iowa State Singers.  
(0-5) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition  
Concert choir specializing in performance of advanced music literature, Renaissance through contemporary. Campus concerts, annual spring tour.

MUSIC 181. Symphony Orchestra.  
(0-4) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition  
Reading, preparation, and performance of standard repertoire. Five or six concerts annually plus occasional off-campus appearances.

(0-5-2) Cr. 1-3. Repeatable. F.S.SS. Prereq: Audition, permission of instructor; restricted to music majors  
(5-2) for 1 cr. (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

A. Voice  
B. Piano  
C. Organ  
D. Strings  
E. Carillon  
F. Woodwinds  
G. Brass  
I. Percussion  
K. Harpsichord

MUSIC 221. Introduction to Music Theory.  
(0-3) Cr. 3. F. Prereq: Music major status or permission of instructor; concurrent enrollment in 222 recommended  
Fluent identification and application of the elements of music and music notation. The study of two-voice species counterpoint as an introduction to voice-leading principles in common practice period music.

MUSIC 222. Introduction to Aural Theory and Music Technology.  
(0-4) Cr. 2. F. Prereq: Music major status or permission of instructor; concurrent enrollment in 221 recommended  
Aural discrimination of musical elements and patterns as demonstrated by proficiency in ear training, sight singing, and related musicianship skills. Introduction to technological equipment and software used in the study of music.
MUSIC 227. Class Study in Piano III.
(0-2) Cr. 1. F. Prereq: 128 or audition and permission of instructor
Intermediate keyboard technique, transposition, harmonization, improvisation, repertory, and sight-reading skills. Introduction to score reading, hymn playing, and accompanying at the piano.

MUSIC 228. Class Study in Piano IV.
(0-2) Cr. 1. F. Prereq: 227 or audition and permission of instructor
Continuation of intermediate keyboard technique, transposition, harmonization, improvisation, repertory, score reading, hymn playing, and accompanying at the piano.

MUSIC 231. Materials of Music I.
(3-0) Cr. 3. S. Prereq: 221
Harmonic, melodic, and rhythmic materials of the common practice period. Application of these materials in analysis and writing. Techniques of melodic construction, formal design, and harmonization.

MUSIC 232. Aural Theory I.
(0-3) Cr. 1. S. Prereq: 222
Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the common practice period.

MUSIC 246. Introduction to Music Technology.
(2-0) Cr. 2. F. Prereq: 101, 105, or 221, or permission of instructor
Introduction to audio and MIDI in music and media applications, fundamentals of digital audio editing and mixing, software-based musical arrangements and composition.

MUSIC 248. Technology in Music Instruction.
(2-0) Cr. 2. S. Prereq: 221 and 222
Introduction to computer software applications used in musical arrangements and presentations, practical introduction to audio and MIDI technologies in lab-based music instruction, basic recording/sound reinforcement and music website management. Intended for Music Education Majors.

MUSIC 265. Music in Elementary Education.
(3-0) Cr. 3. S. Prereq: HD FS 226 or PSYCH 230
Experiencing and understanding the fundamentals of music through singing, playing classroom instruments, body movement, reading notation, listening, and creative activities. Developing lesson plan strategies and sequence, exploring multicultural musics, integrating music with other subjects in the elementary classroom, and evaluating aspects of musical learning.

MUSIC 266. Introduction to Music Education.
(1-2) Cr. 2. F. Prereq: Concurrent enrollment (.5 cr.) in 480K
Required for second-year majors in music education. Historical, philosophical, and social foundations of music education; music curricula overview including goals of the music program, and contemporary and international curriculum development; psychology of teaching music including discipline techniques. Preparation for required observations in area schools.

MUSIC 290. Special Problems.
Cr. arr. Repeatable. F.S.SS. Prereq: Permission of instructor; 12 credits in music, approval of department head
A. Education
B. Theory
C. Composition
D. History
E. Literature
F. Applied Music
G. Conducting
H. Honors
J. Business

MUSIC 301. Opera Studio.
Cr. 1-3. Repeatable. F.S. Prereq: Permission of instructor
Study of selected opera scenes, chamber operas, and works from contemporary and classical music theater. Basic stagecraft, role interpretation, production.
A. Opera/Operetta
B. Music Theater

MUSIC 302. The History of Music in Western Culture.
(3-0) Cr. 3. S. Prereq: 102
Study of the evolution of music styles through history with emphasis on listening. Primarily European music with some non-Western music providing a global perspective. Individual composer’s unique approaches to timbre, texture, rhythm and melody. General trends in the progress of style and form. Concert reports and papers in addition to examinations. Ability to read music recommended, but not required. Open to non-majors only. Only one of Music 120 and 302 can count toward graduation.

MUSIC 304. History of Rock 'n' Roll.
(3-0) Cr. 3. S. Prereq: 101, 102, 221, or 222
Rock ‘n’ Roll from the mid 1950s through the 1990s, focusing on the development of rock styles from its roots in blues, folk, country, and pop. Expansion of listening experience through study of song forms, musical instruments of rock, and the socio-political significance of song lyrics. Examinations, research paper or in class presentation required. Ability to read or perform music not required.

(0.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

(0.5-2) Cr. 1-3. Repeatable. F.S.SS. Prereq: Audition, permission of instructor
(.5-0) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

MUSIC 321. Advanced Ensemble.
(0-3) Cr. 1. Repeatable. F. Prereq: Advanced proficiency and performing ability, permission of instructor
Performance in ensembles that demand high proficiency. Open to a limited number of undergraduate and graduate students.
A. Voice
B. Piano
C. Organ
D. Strings
E. Musica Antiqua
F. Woodwinds
G. Brass
MUSIC 324. English and Italian Diction for Singing.  
(2-0) Cr. 2. Alt. F., offered 2012. Prereq: Credit or enrollment in 118A or 119A  
The international phonetic alphabet and its application to correct pronunciation of English and Italian in singing.

MUSIC 325. French and German Diction for Singing.  
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: Credit or enrollment in 118A or 119A  
The international phonetic alphabet and its application to correct pronunciation of French and German in singing.

MUSIC 327. Functional Piano.  
(0-3) Cr. 2. S. Prereq: 228 or audition and permission of instructor  
Emphasis on sight reading, three and four-part score reading, improvisation, accompanying, and advanced harmonization.  
A. Keyboard majors.  
B. Vocal/choral majors. Repeatable

MUSIC 331. Materials of Music II.  
(3-0) Cr. 3. F. Prereq: 231  
Harmonic, melodic, and rhythmic materials of the common practice period. Application of these materials in analysis and writing. Techniques of melodic construction, formal design, and harmonization.

MUSIC 332. Aural Theory II.  
(0-2) Cr. 1. F. Prereq: 232  
Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the eighteenth and nineteenth centuries.

MUSIC 333. Materials of Music III.  
(3-0) Cr. 3. S. Prereq: 331  
Writing and analysis based on musical styles since 1900.

MUSIC 338. Aural Theory III.  
(0-2) Cr. 1. S. Prereq: 332  
Development of sight singing, ear training, and related musical skills with emphasis on melodic, harmonic and rhythmic materials from the eighteenth and twentieth centuries.

MUSIC 346. MIDI and Digital Audio Techniques.  
(3-0) Cr. 3. S. Prereq: 246 or permission of instructor  
MIDI theory and programming applications, sampling/synthesis control, digital signal processing techniques. Composition projects using integrated audio/MIDI sequencing applications. Nonmajor graduate credit.

MUSIC 350. Instrumental Techniques: Strings.  
(0-2) Cr. 1. F. Prereq: Instrumental music education majors: concurrent enrollment in 358B. Limited to music majors  
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 351. Instrumental Techniques: Clarinet, Flute, Saxophone.  
(1-2) Cr. 2. S. Prereq: Instrumental music education majors: concurrent enrollment in 358B. Limited to music majors  
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 352. Instrumental Techniques: Oboe, Bassoon.  
(0-2) Cr. 1. F. Prereq: 351 or permission of instructor. Instrumental music education majors: concurrent enrollment in 358B. Limited to music majors  
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 353. Instrumental Techniques: Trumpet, Horn.  
(0-2) Cr. 1. F. Prereq: Instrumental music education majors: concurrent enrollment in 358B. Limited to music majors  
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

MUSIC 354. Instrumental Techniques: Trombone, Baritone, Tuba.  
(0-2) Cr. 1. S. Prereq: 353 or permission of instructor. Instrumental music education majors: concurrent enrollment in 358B. Limited to music majors  
Techniques and skills required for teaching of instruments. Examination of materials for school use. Intended for instrumental music education students.

(0-2) Cr. 1. S. Prereq: Instrumental music education majors: concurrent enrollment in 358B. Limited to music majors  
Techniques and skills required to teach percussion instruments in the schools. Techniques for performing and teaching snare drum, keyboard percussion instruments, timpani, band and orchestral hand instruments, drum set, and Latin percussion. Intended for instrumental music education students.

MUSIC 358. Lab Ensemble.  
Cr. R. Repeatable.  
Review and selection of appropriate literature for ensembles of differing levels and abilities; conducting and rehearsal experience.  
A. Choral. F., Alt. S., offered 2013. Sight singing, conducting, and accompanying experience in conjunction with 362A. Required of all vocal music education majors in every semester offered.  
B. Instrumental. F.S. Performance on secondary instruments. Includes experiences with singing and vocal techniques. Required of all instrumental music education majors in those semesters when enrolled in 390, 391, 392, 393, 394, 395, or 398B.

MUSIC 360. Voice Pedagogy.  
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: 319A or vocal proficiency examination  
Physical, acoustical, and musical properties of the vocal instrument, including a survey of important texts and articles on singing and voice production.

MUSIC 361. Conducting I.  
(1-2) Cr. 2. F. Prereq: 231, 232  
Introduction to conducting; score reading and analysis. Conveying musical ideas through appropriate gestures. Leadership role of the conductor.

MUSIC 362. Conducting II.  
(1-2) Cr. 2.  

MUSIC 366. Methods of Music Education.  
(2-0) Cr. 2. F. Prereq: Concurrent enrollment (1 cr.) in 480K and SP ED 401; 266 and admission into teacher education.  
Music education strategies and materials including development of appropriate objectives and plans for general music classes utilizing traditional and multicultural musics, evaluating musical learning; overview of Orff Schulwerk, Kodaly, and Dalcroze approaches; music in special education; required teaching in lab settings and observations in area schools.

MUSIC 367. Choral Literature.  
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: 361 recommended  
Overview of choral repertoire from the sixteenth century to the present, including accessible works for the young conductor.
MUSIC 368. Marching Band and Jazz Ensemble Techniques.
(2-0) Cr. 2. Alt. S., offered 2013. Prereq: Credit or enrollment in 362B recommended
Techniques and materials for teaching marching band in the high school; philosophy, computer assisted drill design, music analysis, band set up, and other related skills. Jazz style, articulation, phrasing, materials and teaching techniques for secondary school jazz ensembles.

MUSIC 383. History of Music I.
(3-0) Cr. 3. F. Prereq: 120; music major status or permission of instructor
History of the stylistic and cultural development of music: Middle Ages through Baroque.
Meets International Perspectives Requirement.

MUSIC 384. History of Music II.
(3-0) Cr. 3. S. Prereq: 383; music major status or permission of instructor
History of the stylistic and cultural development of music: Classical through contemporary music.
Meets International Perspectives Requirement.

Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
Includes experience in technology relative to the particular discipline.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
J. Jazz Pedagogy and Performance

MUSIC 417. Student Teaching.
(Cross-listed with C I). Cr. 8-12. F.S. Prereq: Admission to teacher education, approval of coordinator during semester before student teaching
Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

MUSIC 419. Applied Music: Majors.
(0.5-2) Cr. 1-3. Repeatable. F.S.SS. Prereq: Audition, permission of instructor; restricted to music majors
(5-2) for 1 cr.; (1-2) for 2-3 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.
A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

MUSIC 420. Junior/Senior Recital.
Cr. R. Repeatable. F.S.SS. Prereq: Advanced performing ability, permission of instructor; concurrent registration in MUSIC 319 or 419.
Performance of advanced repertory in a public concert. Preparation of program notes. Offered on a satisfactory-fail basis only.

MUSIC 440. Seminar in Music Theory.
(3-0) Cr. 3. Repeatable. S. Prereq: 337, 338
Various topics in music theory including analysis, counterpoint, arranging, pedagogy, and psychology of music. Content will vary. Contact the Department of Music for the current year offering. Nonmajor graduate credit.

MUSIC 446. Electronic Music Synthesis.
(3-0) Cr. 3. F. Prereq: 246 or permission of instructor
Techniques of digital sound synthesis, software synthesizer design, and electronic music composition. Nonmajor graduate credit.

MUSIC 464. Instrumental Administration, Materials, and Methods.
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: Credit or enrollment in 362B recommended
Instructional materials and methods appropriate for teaching instrumental music in elementary, middle school, and high school music programs. Required observations in area schools. Intended for instrumental music education students.

MUSIC 465. Choral Materials and Methods.
(2-0) Cr. 2. F. Prereq: Concurrent enrollment in 358A and 141, 151, or 161
Instructional materials and methods appropriate for teaching choral music in the secondary school. Emphasis on pedagogy and rehearsal techniques. Required observations in area schools. Intended for vocal music education students.

MUSIC 471. The Tones of Florence - A Study of Humanism.
Cr. 3. SS. Prereq: Application through the Study Abroad Program; interview with director; sophomore classification
A survey of the masterpieces of music, literature, painting, sculpture, architecture, mathematics and theology that made Florence the major European center of humanism in the Renaissance.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: Ability to read music; 9 credits from music, American literature, American history, art history
History and development of the sacred and secular music in North America from approximately 1600 to the present, exploring the diverse cultural backgrounds that have contributed to the variety of contemporary musical styles. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

(3-0) Cr. 3. Prereq: 383, 384
Offered F. 2011. Detailed survey of instrumental, vocal, choral, and keyboard music from 1600 to 1825. Nonmajor graduate credit.

(3-0) Cr. 3. Prereq: 383, 384
Offered F. 2012. Detailed survey of instrumental, vocal, choral, and keyboard music from 1825 to 1910. Nonmajor graduate credit.

MUSIC 476. Music of the Twentieth Century.
(3-0) Cr. 3. Prereq: 383, 384
Offered S. 2013. Detailed survey of instrumental, vocal, choral, and keyboard music from 1900 to the present. Nonmajor graduate credit.

MUSIC 480. Field Experience for Secondary Teaching Preparation.
(Cross-listed with C I). Cr. 0.5-2. Repeatable, maximum of 2 times. F.S. Prereq: Permission of area coordinator required prior to enrollment
Observation and participation in a variety of school settings after admission to the teacher preparation program. (S/F grading may be used in some offerings of some sections.)

K. Music
MUSIC 490. Independent Study.
Cr. arr. Repeatable. F.S.S. Prereq: Permission of instructor; 12 credits in music, approval of department head
A. Education (Same as C I 490A)
B. Theory
C. Composition
D. History
E. Literature
F. Applied Music
G. Conducting
H. Honors
I. Electronic Music

MUSIC 590. Special Topics.
Cr. arr. Repeatable. F.S.S. Prereq: Permission of instructor, approval of department head
A. Education
B. Theory
C. Composition
D. History
E. Literature
F. Applied Music
G. Conducting
I. Electronic Music
Naval Science

The Department of Naval Science is embedded within the College of Liberal Arts and Sciences as an interdisciplinary program but does not offer an academic degree. The courses offered by the Department are developed by the Department of the Navy. The Naval Science Department and Naval ROTC (NROTC) Program develop individuals mentally, morally, and physically, and imbue in them the highest ideals of duty and loyalty, in order to commission them upon graduation as Navy and Marine Corps officers. Program graduates possess a basic professional background, are motivated towards careers in the Naval Service, and have a potential for future development in mind and character so as to assume the highest responsibilities of command, citizenship, and government. Emphasis is placed on the core values of courage, honor and commitment.

Naval Science courses are open to any ISU student who has met the course prerequisites. To participate in the Naval ROTC Program, students must apply through one of two programs: the NROTC Scholarship Program (full scholarship; which includes a book stipend, tuition, laboratory fees, uniforms, and a monthly stipend), or the College Program (nonscholarship, with limited financial assistance). Applicants for the Scholarship Program are selected through a comprehensive nationwide competition. Applicants for the College Program are selected by the Professor of Naval Science from among students already in attendance at, or selected for admission by, the university. The College Program involves limited financial assistance for each of the last two academic years. Upon application, students choose between the Navy Option and Marine Corps Option, for the purposes of training focus. NROTC students pursue their studies like other university students except that they must meet certain additional requirements that will prepare them to serve as naval officers upon graduation.

A Marine Corps Option student incurs a minimum 4-year active duty military obligation as a commissioned officer after graduation; a Navy Option student incurs a minimum 5-year active duty obligation.

Further information is available from the Professor of Naval Science, Iowa State University.

While in the NROTC Program, Scholarship Program students will participate (with pay) in at-sea training cruises during the summer. College Program students will participate in at-sea training during the summer between their Junior and Senior year only. Students are also exposed to regular and extracurricular activities that teach leadership principles and help them decide which field of the Navy or Marine Corps they wish to enter. These activities also include weekly leadership laboratory periods and opportunities for involvement in several student societies.

Undergraduate Study

Naval science courses are primarily for those students in the NROTC program, however, other university students may also enroll. Students enrolled in the NROTC program must fulfill the following requirements:

1. All NROTC students must complete one course in American military history or national security policy. A course in non-western culture or religion is also required of all Navy-option students.
2. All Navy option scholarship students must successfully complete MATH 165 Calculus I and MATH 166 Calculus II by the end of the sophomore year and PHYS 221 and PHYS 222 by the end of the junior year.
3. In addition to the normal Naval Science courses, all NROTC students are required to participate in laboratory periods that supplement the various academic courses. The Leadership Lab emphasizes human relations principles, teaches basic military formations, movements, commands, courtesies, and honors, and provides practice in unit leadership. Non NROTC program students enrolled in Naval Science courses are not required to participate in laboratory periods.
4. Navy option scholarship students are encouraged to major in engineering and physical sciences to meet the technological requirements of the modern Navy; however Navy-option students and Marine Corps-option students may pursue any major leading to a Bachelor’s Degree.
5. The College of Liberal Arts and Sciences offers a minor in military studies. Requirements for the minor include taking a minimum of 15 credits of ROTC instruction, which may be taken from any of the three ROTC programs offered on campus. At least 6 credits must be in courses numbered 300 or above.

For basic undergraduate curriculum requirements, see Liberal Arts and Sciences, Curriculum; or Engineering, Curricula.

Courses primarily for undergraduate students

**N S 111. Introduction to Naval Science.**
(3-0) Cr. 3. F.  
Introduction to the organization, regulations, and capabilities of the US Navy, with emphasis on mission and principal warfare components.

**N S 212. Seapower and Maritime Affairs.**
(3-0) Cr. 3. S.  
An historical survey of sea power in terms of national domestic environments, foreign policy, and the evolution of maritime forces with trends in technology, doctrine, and tactics. The student will develop an understanding of the role the US Navy has played in the nation’s history, both in peace and war. Naval events, forces and policies will be studied as elements in the shaping of the national consciousness and sense of purpose. Course content will include the development of the concept of sea power, the role of various warfare components of the Navy, the implementation of sea power as an instrument of national policy, and the evolution of naval tactics.

**N S 220. Leadership and Management.**
(3-0) Cr. 3. Alt. F, offered 2012.  
Experiential approach to learning the principles of leadership and management by examining various management theories and their applications. Skills are developed in the areas of communication, counseling, control, direction, management, and leadership through active guided participation.
(3-0) Cr. 3. S. Prereq: Sophomore classification
Study of the fundamentals of marine navigation used by ships at sea; includes practical exercises in piloting using visual and electronic means. In-depth discussion of laws that govern conduct of vessels in national and international waters. Course is supplemented with review and analysis of case studies involving actual navigation incidents.

(3-0) Cr. 3. F. Prereq: Physics 221, sophomore classification
An introduction to naval engineering with emphasis on the equipment and machinery involved in the conversion of energy for propulsion and other purposes aboard the major ship types of the U.S. fleet. Basic concepts of the theory and design of steam, gas turbine, diesel, and nuclear propulsion. Introduction to ship design, stability, hydrodynamic forces, compartmentation, electrical and auxiliary systems.

N S 321. Evolution of Warfare.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: Sophomore classification
Evolution of warfare from 3500 B.C. to contemporary times; analysis of the impact of historical precedents on modern military thought and action; emphasis on the historical development of military tactics, strategy, and technology.

(3-0) Cr. 3. S. Prereq: Physics 221, sophomore classification
Introduction to the theory and principles of operation of naval weapon systems. Included coverage of types of weapons and fire control systems, capabilities and limitations; theory of target acquisition, identification and tracking; basics of naval ordnance.

(3-0) Cr. 3. F. Prereq: Senior classification
Study of tactical naval operations; employs practical use of maneuvering boards together with shiphandling principles to arrive at tactical shipboard maneuvering solutions. Study also of naval command and control, communications, and the Naval Warfare Doctrine.

N S 412. Leadership and Ethics.
(3-0) Cr. 3. S. Prereq: Requirements for NROTC students - N S 111, N S 212 or HIST 389, N S 230, N S 320, N S 330 and N S 410
Basic background concerning the duties and responsibilities of the junior naval officer and division officer in the areas of integrity and ethics, human resources management, personnel management, material management, and the administration of discipline. Preparation for responsibilities encountered immediately upon commissioning.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: Sophomore classification
Defines the concept of amphibious operations, origins, development from 600 B.C.

N S 440. Senior Naval Science Seminar.
(1-0) Cr. 1. F.S. Prereq: Senior classification
Current leadership issues in the US Navy which will challenge the newly commissioned officer. Opportunities to analyze, provide solutions, and discuss actions related to a variety of real world situations.

N S 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: Senior classification and prior approval of Naval Science Department Chair, 6 credits in Naval Science
No more than 9 credits of N S 490 may be counted toward graduation.
Iowa State University offers Reserve Officers Training Corps (ROTC) programs for the professional training of officers for the Army, Air Force, Navy and Marines.

The purpose of these programs is to provide an avenue for interested students to become reserve or regular officers in one of the United States military services, and the university regards this training as the foundation for possible careers in the military. The Air Force and the Navy require a period of active duty service upon completion of the ROTC program. Graduates from Army ROTC serve in either active Army, the Army Reserve, or the National Guard.

All students enrolled in advanced ROTC programs receive financial allowances, which are described under Student Financial Aid. Scholarships are also available for all services as outlined in the section on financial aid.

For specific courses and programs see also Air Force Aerospace Studies, Military Science, and Naval Science.
Philosophy - Undergraduate Study

Philosophy tries to make sense of human experience and reality through critical reflection and argument. The questions it treats engage and provoke all of us, and they occupy an important place in our intellectual tradition: Are there objective standards for deciding what is right and wrong, or is morality merely a subjective matter? Is capitalism morally acceptable? Do I have a will, and is it free? How do my words and thoughts come to be about the world? Does God exist? Can machines think? How are mind and body related? Students in philosophy classes will be exposed to arguments on both sides of such questions, and they will be encouraged to develop and rationally defend their own positions.

Philosophy is not an isolated discipline. It enjoys mutually beneficial exchanges with many fields of study within the humanities and sciences. Philosophers develop tools that allow them to examine critically the assumptions and implications of the social and natural sciences, religion, and law.

The study of philosophy provides several benefits. It emphasizes rigorous understanding of problems, together with careful analysis of the strengths and weaknesses of the available solutions. It encourages clarity in the presentation of one’s own ideas, as well as sensitivity in the consideration of the ideas of others. The study of philosophy therefore encourages one to develop skills and habits that are useful not only in philosophy, but in other areas as well. Philosophy students historically do well, for example, in law and medical schools.

However, one should not think that philosophy is only valuable in academic settings. Philosophical questions arise in many areas of family, business, and civic life. Philosophers strive to face these questions with the kind of intellectual honesty that leads to respect for the views of others, and continual reassessment of their own. In this way, the study of philosophy fosters values and attitudes that are helpful for responding to a lifetime of intellectual challenges.

The degree program in philosophy requires a minimum of 33 credits, plus the zero credit PHIL 492 course. The following courses compose the core program of the major from which 15 credits shall be chosen. Additionally, two courses at the 400 level or above (other than PHIL 490 and PHIL 492) are required.

Ethical theory: One course required.

Logic:

PHIL 207 Introduction to Symbolic Logic is required.

Minor in Philosophy

The department offers a minor in philosophy which may be earned by completing a total of 15 credits in philosophy. At least 9 credits must be in courses numbered 300 or above. Students may want to emphasize specific areas by taking 15 hours of courses chosen from the following:

<table>

Communication Proficiency requirement: The department requires a grade of C+ or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and approval of writing by instructor of any philosophy course 300 level or above, to be designated by the student.

Religious Studies - Undergraduate Study

Religious studies gives students the opportunity to investigate and reflect on the world’s religions in an objective, critical, and appreciative manner. Though there is emphasis in religious studies on the wide variety of religious phenomena as well as on the various methods in the study of religion, the aim is to help students develop their own integrated understanding of the nature of religion and its role in individual and social life.

Graduates of the religious studies program have knowledge of the religious diversity in the United States and the world. They have the ability to interpret religion empathetically and critically and to compare and contrast historical and contemporary differences and similarities of religious systems. They understand ways in which religion influences and is influenced by the historical, social, and cultural contexts in which religious systems function. Graduates often pursue careers in non-profit, community organizations; apply to professional schools or graduate programs; or enter seminaries to prepare for ministry.

The program provides students with the following opportunities: to major or minor in religious studies, to fulfill group requirements, to take religious studies courses that are integrated into another major, to take religious studies courses as electives, and to develop an interdisciplinary studies major. (See the professor in charge of the religious studies program for advice.)

The major in religious studies seeks to provide both breadth and depth. Breadth is provided through the exploration of the world’s various religious traditions and through exposure to a variety of theoretical...
approaches and methodologies in the academic study of religion. Depth is achieved through specialized courses in particular religious traditions and particular issues in the study of religions, culminating in research seminars. The objective is to expose the student to various components of the discipline of Religious Studies and by doing so develop skills that are valuable in a number of careers and that provide the necessary foundation for pursuing graduate studies.

Students pursuing a major in religious studies must complete a minimum of 33 credits, including the following requirements:

<table>

The program offers a minor that may be earned by completing a total of 15 credits in religious studies including either RELIG 205 Introduction to World Religions or RELIG 210 Religion in America. Nine hours must be in courses at the 300 level or above (no more than 3 hours of seminar and no more than 3 hours of independent study).

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors), and requires one 300 level course in religious studies in which writing is evaluated as acceptable.

Students may choose to do a senior thesis under the supervision of a religious studies faculty adviser. This option may earn 3-6 credits toward the completion of the major.

**Philosophy - Graduate Study**

The department offers work for a graduate minor in philosophy. For those taking the M.A. or M.S., the minor requirement is two courses above 300 (but not PHIL 490) each taken in conjunction with PHIL 590. For those taking the Ph.D., the requirement is four courses above 300, at least one of which is above 400 (but not PHIL 490) each taken in conjunction with PHIL 590. Interested students should ask the chair to assign a minor adviser.

The department participates in the interdepartmental program in general graduate studies. (See Index.)

---

**Religious Studies - Graduate Study**

The program offers courses for nonmajor graduate credit in religious studies as supporting work in other fields. Religious studies may also be one of the three areas used for the interdisciplinary graduate studies master's degree.

**Courses primarily for undergraduate students**

**PHIL 201. Introduction to Philosophy.**

(3-0) Cr. 3. F.S.SS.

It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

**PHIL 206. Introduction to Logic and Scientific Reasoning.**

(3-0) Cr. 3. F.S.SS.

Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

**PHIL 207. Introduction to Symbolic Logic.**

(Cross-listed with LING). (3-0) Cr. 3. S.

Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Majors should take PHIL 207 as early as possible.

**PHIL 230. Moral Theory and Practice.**

(3-0) Cr. 3. F.S.SS.

Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

**PHIL 235. Ethical Issues in A Diverse Society.**

(3-0) Cr. 3. S.

This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles, and social status, and various proposals for change from a variety of political perspectives.

Meets U.S. Diversity Requirement.

**PHIL 310. Ancient Philosophy.**

(Cross-listed with CL ST). (3-0) Cr. 3. F. Prereq: 201

Survey of ancient Greek philosophy, focusing on the pre-Socratics, Plato, and Aristotle. Questions concerning being, knowledge, language, and the good life are treated in depth. Nonmajor graduate credit.

**PHIL 314. 17th Century Philosophy.**

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 201

Readings from philosophers such as Hobbes, Descartes, Spinoza, Leibniz, and Locke. Changing conceptions of knowledge, self, and deities in response to Galileo’s new science and post-reformation challenge to ecclesiastical authority. Nonmajor graduate credit.

**PHIL 315. 18th Century Philosophy.**

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 201

Readings from philosophers such as Berkeley, Hume, and Kant. Development of Enlightenment thought. Issues include idealism, causation, freedom, and knowledge regarding science, ethics, and deities. Nonmajor graduate credit.
PHIL 316. 19th Century Continental Philosophy.  
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 201  
The thought of Hegel, Marx, Nietzsche, and their contemporaries.  
Various perspectives on the philosophy of history, the nature of reason  
and subjectivity, the contrast between dialectical and nondialectical  
philosophy, and the relationship between philosophy and society.  
Nonmajor graduate credit.

PHIL 317. 20th and 21st Century Continental Philosophy.  
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 201  
Major movements of 20th and 21st century thought, such as Phenomenology, Critical Theory, Post-structuralism, Postmodernism,  
and Feminism. Issues include the assumptions and limits of Western meta- 
physics, the nature of reason, the relationship between language and  
power. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: 201  
Major movements in recent and contemporary philosophy such as  
realism, logical positivism, ordinary language philosophy, and naturalism.  
Russell, Wittgenstein, Quine and other leading figures. Topics include  
knowledge of the material world, mind, language, values, and philosophical  
method. Nonmajor graduate credit.

PHIL 320. Existentialism and Its Critics.  
(3-0) Cr. 3. F. Prereq: 201  
An investigation of Existentialism and its critics in historical and cultural  
context. Emphasis on existential phenomenology and French existential- 
ism, and on criticisms. Existential Marxism and Heidegger's later  
philosophy. Nonmajor graduate credit.

PHIL 330. Ethical Theory.  
(3-0) Cr. 3. F. Prereq: 201 or 230  
Study of major theories of morality and the good life. Includes such  
topics as moral psychology, practical reasoning, and virtue theory.  
Nonmajor graduate credit.

PHIL 331. Moral Problems in Medicine.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 230 or junior classification  
In-depth study of some of the central moral problems arising in medi- 
cine, e.g., abortion, euthanasia, patients' rights, health care professionals'  
duties and responsibilities, allocation of medical resources. Major moral  
theories will be examined and applied. Nonmajor graduate credit.

PHIL 332. Philosophy of Law.  
(Cross-listed with CJ ST). (3-0) Cr. 3. F. Prereq: 201 or 230  
Extent of our obligation to obey the law; what constitutes just punish- 
ment; how much of the immoral should be made illegal? Relation of  
these questions to major theories of law and the state. Discussion of  
such concepts as coercion, equality, and responsibility. Nonmajor grad- 
uate credit.

PHIL 333. Family Ethics.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 3 credits in philosophy  
Moral dimensions of marriage and love, parent-child relations, domestic  
work, and moral education. Can parents and children be friends? What do  
children "owe" their parents? Is there a feminist mode of moral thinking?.  
Nonmajor graduate credit.

PHIL 334. Environmental Ethics.  
(Cross-listed with ENV S). (3-0) Cr. 3. F. Prereq: 3 credits in philosophy or  
junior classification  
Thorough study of some of the central moral issues arising in connec- 
tion with human impact on the environment, e.g., human overpopulation,  
species extinction, forest and wilderness management, pollution. Several  
world views of the proper relationship between human beings and nature  
will be explored. Nonmajor graduate credit.

PHIL 335. Social and Political Philosophy.  
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 201 or 230  
Foundations of social and political life. The basis of political organization,  
the nature of social and political institutions, rights and authority, justice.  
Original texts. Nonmajor graduate credit.

PHIL 336. Bioethics and Biotechnology.  
(3-0) Cr. 3. Prereq: PHIL 201 or 230 or 235  
In-depth study of some central moral issues in the life sciences, e.g.,  
genetic screening and testing, genetically engineered plants and animals,  
risk analysis, biotechnology patents, research ethics, biodiversity, the  
impact of biotechnology on society and the environment. Major moral  
theories will be discussed and applied. (PHIL 336 contains almost no  
similarities to PHIL 331). Nonmajor graduate credit.

PHIL 338. Feminist Philosophy.  
(Cross-listed with WS). (3-0) Cr. 3. F. Prereq: 3 credits in philosophy or  
women's studies recommended  
A critical, theoretical examination of the oppression of women, espe- 
cially as it relates to issues of race, class, and sexual orientation. How  
concepts such as sex and gender, self and other, nature and nurture,  
complicate our understanding of what it means to be a woman. Histor- 
cal and contemporary feminist philosophers addressing topics such as  
violence, sexuality, pornography, political power, family structure and  
women's paid and unpaid labor. Nonmajor graduate credit.  
Meets U.S. Diversity Requirement

(3-0) Cr. 3. F. Prereq: 201 or 230  
Is liking all there is to appreciating works of art or natural beauty? We will  
explore our appreciative experiences, talk about such experiences (e.g.,  
art criticism), and what makes them valuable. Do the different arts have  
common values? How are their differences important?. Nonmajor grad- 
uate credit.

PHIL 343. Philosophy of Technology.  
(Cross-listed with T SC). (3-0) Cr. 3. F. Prereq: 6 credits of social science  
or T SC 341 and 3 credits of social science  
Moral and other philosophical problems related to developments in tech- 
nology. Topics may include conditions under which technological inno- 
vations contribute to human emancipation, relationship of technology  
and democracy, utility and limits of technical rationality, and problems of  
ensuring that benefits of technological advance are communally shared.  
Topics discussed with reference to such issues as contemporary devel- 
opeiments in microelectronics, technology transfer to the Third World, etc.  
Nonmajor graduate credit.

PHIL 350. Philosophy of Religion.  
(Cross-listed with RELIG). (3-0) Cr. 3. F. Prereq: 201  
The value and truth of religious life and belief. Mystical experience; reli- 
gious faith and language; arguments for God's existence; the problem  
of evil; miracles; and religion and morality. Historical and contemporary  
readings. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: 3 credits in philosophy  
A survey of classical and contemporary views on some basic metaphys- 
cal issues. Issues discussed include: Does God exist? Do you have a  
strong and, if so, how does it relate to your body? What is the nature of  
cause and effect? Do objects have any essential properties? How can we  
account for properties objects have in common?. Nonmajor graduate  
credit.

PHIL 366. Truth, Belief and Reason.  
(3-0) Cr. 3. F. Prereq: 201 or permission of instructor  
This course focuses on significant topics in theory of knowledge,  
including the value of true beliefs, the role of sense experience in  
supporting our theoretical views, and the place of reason in human  
nature. Historical and contemporary views will be considered.
PHIL 380. Philosophy of Science.
(3-0) Cr. 3. F. Prereq: 201 or 6 credits in a science
Introduction to the philosophy of science. A variety of basic problems common to the natural and social sciences: the nature of explanation, the structure of theories, the unity of science, and the distinction between science and nonscience. Nonmajor graduate credit.

PHIL 381. Philosophy of the Social and Behavioral Sciences.
(3-0) Cr. 3. S. Prereq: 201 or 6 credits in the social sciences
Methodological, ideological, and doctrinal issues about the social and behavioral sciences against the background of influence of the natural sciences. Focus is on the historical and cultural background of 19th and 20th century western thought. Nonmajor graduate credit.

PHIL 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: Permission of the department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period. Nonmajor graduate credit.

PHIL 430. Value Theory.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: 230
Theoretical and normative issues in ethics, aesthetics, religious thought, or political philosophy. Topics vary each time offered. Nonmajor graduate credit.

PHIL 450. Persons and Causes.
(3-0) Cr. 3. Repeatable, maximum of 1 times. F. Prereq: 3 credits in philosophy, 207 strongly encouraged
Personal identity, agency, free will, moral responsibility, causation, future contingents, and time will be discussed. What makes a person the same person over time? Do humans have free will? Are we not morally responsible if our actions are inevitable consequences of the past and the laws of nature? What distinguishes causes from non-causes? Are there facts about the future?. Nonmajor graduate credit.

PHIL 460. Epistemology and Metaphysics.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: 6 credits in philosophy
Issues in epistemology and metaphysics. Topics vary each time offered. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: 207
Examination of concepts such as computability, intelligence, programming, and free will; and of arguments about whether any human capacity is forever beyond realization in a machine. Nonmajor graduate credit.

PHIL 480. Controversies in Science.
(3-0) Cr. 3. Repeatable. S. Prereq: 3 credits in philosophy or 6 credits in a natural or social science
Philosophical treatment of a branch of science that has (or has had) significant social, political, religious and/or moral implications. Possible topics include: the IQ debate, implications of Darwinism, the Galileo affair, the role of values in science, critical analysis of current science policy (e.g., the Human Genome Project). Topics will be arranged to meet the needs of interested students. Often team taught by a philosopher and a scientist from the relevant discipline. Nonmajor graduate credit.

PHIL 483. Philosophy of Biology.
(3-0) Cr. 3. S. Prereq: 3 credits in philosophy or 3 credits in biology
Biology is powerful, both as a science and in its effects on our culture. Philosophy of biology evaluates this power. Possible topics include: What makes sciences such as evolutionary theory, ecology or molecular biology so good at explaining things? What is life? Can evolution account for design? What role does chance play in evolution? Has there been progress in the evolution of life on earth? What can sociobiology tell us about human nature, behavior and culture?. Nonmajor graduate credit.

PHIL 485. Philosophy of Physics.
(3-0) Cr. 3. Prereq: 3 credits in Philosophy or 3 credits in Physics
S. Conceptual and philosophical issues relating to the interpretation of theories in classical and modern physics. May include one or more of the following topics: the relationship between mathematics and the physical world; Newtonian physics (determinism and predictability); thermodynamics and statistical physics (the nature of probability; entropy and the direction of time); relativistic physics (indeterminism; realism and nonlocality; consciousness and the role of the observer). Nonmajor graduate credit.

PHIL 490. Independent Study.
Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in philosophy; permission of instructor, approval of chair.
Guided reading and research on special topics selected to meet needs of advanced students. No more than 9 credits of Phil 490 may be counted toward graduation.

PHIL 492. Graduating Senior Survey.
Cr. R. F.S.S. Prereq: Graduating senior
Final presentation for graduation and the future. Outcomes assessment activities. Offered on a satisfactory-fail basis only.

PHIL 496. Ecology and Society.
(Dual-listed with 596). (3-0) Cr. 3. Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology
Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

PHIL 535. Contemporary Political Philosophy.
(Cross-listed with POL S). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits of philosophy or political science
Examination of theories of justice proposed by contemporary political philosophers. Analysis of the philosophical foundations of perspectives such as liberalism, libertarianism, communitarianism, socialism, feminism. Normative assessments of socio-political institutions.

PHIL 548. Summer Bioethics Workshop for Teachers.
Cr. 1. SS.
Topics include moral theory, pedagogical issues in teaching bioethics, and substantive current issues in bioethics.

PHIL 590. Special Topics in Philosophy.
Cr. 2-4. Repeatable. Prereq: Permission of instructor, 9 credits in philosophy
A. History of Philosophy
B. Epistemology and Metaphysics
C. Value Theory
D. Logic and Philosophy of Science

(Dual-listed with 496). (Cross-listed with EEOB). (3-0) Cr. 3. Prereq: Graduate classification in biological or environmental sciences/studies with at least one course in ecology
Analysis of conceptual and methodological debates in ecology. Historical development of competing research traditions and philosophies. Topics include i) methodological issues in ecological science, ii) conceptual issues in theoretical ecology, iii) conceptual issues in applied ecology, iv) relation of ecology to environmental and social issues.
Courses primarily for undergraduate students

**RELIG 205. Introduction to World Religions.**
(3-0) Cr. 3. F.S.S.S.
An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.
Meets International Perspectives Requirement.

**RELIG 210. Religion in America.**
(3-0) Cr. 3. F.S.S.S.
Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.
Meets U.S. Diversity Requirement

**RELIG 220. Introduction to the Bible.**
(3-0) Cr. 3. F.S.
Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.

**RELIG 242. History of Christianity: Beginnings to the Reformation.**
(3-0) Cr. 3. F.S.S.S.
A survey of the major historical developments in Christian thought and practice that shaped Christianity from the time of Jesus through the late medieval period. Attention given to significant persons and major events, including those involving relations with Judaism and Islam.
Meets International Perspectives Requirement.

**RELIG 243. History of Christianity: The Reformation to the Present.**
(3-0) Cr. 3. F.S.S.S.
A survey of the major events, issues, and persons that contributed to the Protestant Reformation, the Catholic Counter-Reformation, and the proliferation of Christian denominations. Attention to selected responses of churches to major sixteenth-early twenty-first century developments.

**RELIG 280. Introduction to Catholicism.**
(3-0) Cr. 3. F.
An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.

**RELIG 321. Old Testament.**
(3-0) Cr. 3. S.
An in-depth study of the literature and religion of ancient Israel in light of recent archaeological discoveries, research about the ancient Near East, and a variety of interpretations. Nonmajor graduate credit.

**RELIG 322. New Testament.**
(3-0) Cr. 3. S.
A detailed survey of the sacred scriptures of Christianity in light of recent archaeological discoveries and historical research about their Greco-Roman and Jewish background. Nonmajor graduate credit.

**RELIG 323. Science and Religion.**
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
History of changing interplay of science and religion in our understanding nature, from the trial of Galileo to the reception of Darwin.
Meets International Perspectives Requirement.

**RELIG 324. Christianity and Science.**
(3-0) Cr. 3. S. Prereq: sophomore classification; RELIG 205 or 210; BIOL 101 or 173 (or higher)
Examines major questions and challenges to Christianity’s understandings of creation posed by the sciences; surveys ways of conceiving the relations of Christianity and science with attention to their impact on American culture, and their implications for human interactions with nature and ecological ethics. Nonmajor graduate credit.

**RELIG 328. American Indian Religions.**
(Cross-listed with AM IN). (3-0) Cr. 3.
An introduction to the beliefs and rituals of Native American religious traditions, with attention to cultural and historical contexts and implications. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**RELIG 333. Introduction to Judaism.**
(3-0) Cr. 3.
An introduction to basic Judaism. Special attention is given to Jewish sacred texts, rituals, social practices, and modern forms.
Meets International Perspectives Requirement.

**RELIG 334. African American Religious Experience.**
(Cross-listed with AF AM). (3-0) Cr. 3. F. Prereq: Prior course work in Religious Studies or African American Studies recommended
Examination of the African American experience from the perspective of black religion and the black church, with attention to political, economic, and social, as well as spiritual, concerns. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**RELIG 336. Women and Religion.**
(Cross-listed with W S). (3-0) Cr. 3. F. Prereq: 205, 210 or W S 201 recommended
Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women’s spirituality movements. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**RELIG 339. Goddess Religions.**
(Cross-listed with W S). (3-0) Cr. 3. Prereq: RELIG 205 recommended
Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural female images of the divine and their modern usage by American women. Nonmajor graduate credit.

**RELIG 340. Magic, Witchcraft, and Religion.**
(Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq: ANTHR 201 or 306
Survey of global religious belief and practice from an anthropological perspective. Emphasis on myth and ritual, shamanism, magic, witchcraft, beliefs in spirits, conceptions of the soul, mind and body relationships, and healing and therapeutic practices. Discussion of religious response to dramatic political and social change; effects of globalization on religious practice.
Meets International Perspectives Requirement.

**RELIG 342. Religion and U.S. Latino/a Literature.**
(3-0) Cr. 3. Alt. S., offered 2013.
A study of the religious behavior and attitudes expressed in the literature of Mexican Americans, Puerto Ricans, Cuban Americans and other groups of people living in the U.S. who trace their ancestry to the Spanish-speaking countries of Latin America. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**RELIG 348. Psychology of Religion.**
(Cross-listed with PSYCH). (3-0) Cr. 3. Prereq: Nine credits in psychology
Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.
RELIG 350. Philosophy of Religion. 
(Cross-listed with PHIL) (3-0) Cr. 3. F. Prereq: PHIL 201
The value and truth of religious life and belief. Mystical experience; religious faith and language; arguments for God's existence; the problem of evil; miracles; and religion and morality. Historical and contemporary readings. Nonmajor graduate credit.

RELIG 352. Religious Traditions of India. 
(3-0) Cr. 3. Prereq: Prior course work in Asian, Asian-American or Religious Studies or Anthropology required
Examines the religious traditions of India, including Hinduism, Jainism, and Sikhism, through text, ritual, and contemporary practice. Nonmajor graduate credit.

Meets International Perspectives Requirement.

RELIG 353. Buddhism. 
(3-0) Cr. 3. S.
The various Buddhist paths to realize enlightenment and freedom. Special attention to meditation and yoga and their relationship to altered states of consciousness and to social contexts. Nonmajor graduate credit.

Meets International Perspectives Requirement.

(3-0) Cr. 3. F.
The Religious Traditions of China. Chinese religious traditions in ancient and modern expression; indigenous forms of religious practice; development of high/deep traditions of Confucianism and Taoism; impact of religions such as Buddhism, Islam, and Christianity. Religious influences and changes in contemporary China. Nonmajor graduate credit.

Meets International Perspectives Requirement.

RELIG 356. African Religions. 
(3-0) Cr. 3. Prereq: Prior course work in African, African-American or Religious Studies or Anthropology required
An introduction to the teachings, practices, and history of the religions that originated in Africa and other religions that have gained substantial followings among African peoples. Nonmajor graduate credit.

Meets International Perspectives Requirement.

RELIG 358. Introduction to Islam. 
(3-0) Cr. 3.
An introduction to Islamic religion, culture, and society from 700 to the present. Nonmajor graduate credit.

Meets International Perspectives Requirement.

RELIG 360. Religious Ethics. 
(3-0) Cr. 3.
Investigates different religious ethical theories and traditions of reasoning about practical moral issues (e.g., abortion, the just distribution of wealth, environmental ethics). Explores in detail the relationship between religious beliefs and moral practice.

RELIG 367. Christianity in the Roman Empire. 
(Cross-listed with CL ST) (3-0) Cr. 3.
An historical introduction to the rise of Christianity in the Roman empire, with special attention to the impact of Greco-Roman culture on the thought and practice of Christians and the interaction of early Christians with their contemporaries. Nonmajor graduate credit.

RELIG 370. Religion and Politics. 
(Cross-listed with POL S) (3-0) Cr. 3.
The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. Nonmajor graduate credit.

RELIG 376. Classical Archaeology. 
(Cross-listed with ANTHR, CL ST) (3-0) Cr. 3. S.
Chronological survey of the material culture of the ancient Greece-Roman world and the role of archaeological context in understanding the varied aspects of ancient Greek or Roman culture. Among other topics, economy, architecture, arts and crafts, trade and exchange, religion and burial customs will be explored.
A. Bronze Age (Minoan and Mycenaean palatial cultures) and Early Iron Age Greece. (ca 3000-700 BC).
B. Archaic through Hellenistic Greece (ca 700-30 BC).

(Cross-listed with SOCI) (3-0) Cr. 3. Prereq: Prior course work in Religious Studies recommended
The influence of religion in society, both as a conservator of values and as a force for social change. Nonmajor graduate credit.

RELIG 380. Catholic Social Thought. 
(3-0) Cr. 3. S.
Examines biblical roots of and major developments in Catholic social thought. Contemporary issues such as human rights, economic justice, the environment, and war and peace will be treated using principles of Catholic ethics, social analysis, official church documents, and contributions of notable theologians and activists. Nonmajor graduate credit.

(Cross-listed with ENV S) (3-0) Cr. 3.
Introduction to concepts of religion and ecology as they appear in different religious traditions, from both a historical and contemporary perspective. Special attention to religious response to contemporary environmental issues. Nonmajor graduate credit.

Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: 6 credits in Religious Studies or permission of instructor
Examines the variety of theories and methods employed in the study of religion. Application of these methods to various religions of the world. Nonmajor graduate credit.

(3-0) Cr. 3. Repeatable, maximum of 6 times. Prereq: 6 credits in religious studies
Topic changes each time offered. Closed to freshmen. Sophomores must have approval of instructor. Nonmajor graduate credit.

RELIG 490. Independent Study. 
Cr. 1-3. Repeatable, maximum of 9 credits. Prereq: 6 credits in religious studies and permission of instructor, approval of chairman. Guided reading and research on special topics selected to meet the needs of advanced students. No more than 9 credits of Relig 490 may be counted toward graduation.

H. Honors

RELIG 491. Senior Thesis. 
Cr. 3.
Written under the supervision of a Religious Studies faculty advisor.

RELIG 494. Special Studies in Religious Research Languages. 
Cr. 2-3. Repeatable. Prereq: 6 credits in Religious Studies and permission of instructor

RELIG 499. Peace and Justice Internship. 
Cr. arr. Repeatable, maximum of 6 credits. Prereq: 3 credits in religious studies, permission of faculty internship coordinator
Supervised placement with a peace and justice agency; structured reflection on the relation of religion and practical social issues. Offered on a satisfactory-fail basis only.
Courses primarily for graduate students, open to qualified undergraduate students

RELIG 590. Special Topics in Religious Studies.
Cr. 1-3. Repeatable. Prereq: Permission of instructor, 9 credits in religious studies
Physics and Astronomy

Undergraduate Study

For the undergraduate curriculum in liberal arts and sciences, major in physics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

Physics and astronomy are basic natural sciences which attempt to describe and provide an understanding of both our world and our universe. Physics serves as the underpinning of many different disciplines including the other natural sciences and technological areas. Graduates are proficient in the methods of rigorous scientific analysis, relevant mathematical techniques, and modern computational and laboratory methods. They have a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, and modern physics. They are able to communicate clearly and effectively at general and technical levels. They are prepared to pursue a wide range of careers as a professional physicist, astronomer, or science educator. They are also prepared to pursue advanced studies and careers in areas as diverse as engineering, medicine, law, and business administration. Many opportunities exist for students who terminate their studies with a bachelor’s degree, especially when combined with technology studies in other areas. Students who meet the necessary scholastic standards often continue their studies in a graduate college, exploring and contributing to new developments in the field.

The department normally expects each student majoring in physics to complete at least the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 241</td>
<td>Principles and Symmetries in Classical Physics I</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 242</td>
<td>Principles and Symmetries in Classical Physics II</td>
<td>5</td>
</tr>
<tr>
<td>PHYS 321</td>
<td>Introduction to Modern Physics I</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 321L</td>
<td>Introductory Laboratory in Modern Physics I</td>
<td>1</td>
</tr>
<tr>
<td>PHYS 322</td>
<td>Introduction to Modern Physics II</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 322L</td>
<td>Introductory Laboratory in Modern Physics II</td>
<td>1</td>
</tr>
<tr>
<td>PHYS 304</td>
<td>Thermal Physics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 306</td>
<td>Physics of Wave Motion</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 361</td>
<td>Classical Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 362</td>
<td>Intermediate Mechanics</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 364</td>
<td>Electricity and Magnetism I</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 365</td>
<td>Electricity and Magnetism II</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 310</td>
<td>Electronic Instrumentation for Experimental Physics</td>
<td>3</td>

<tr>
<td>PHYS 311</td>
<td>Intermediate Laboratory</td>
<td></td>
</tr>
<tr>
<td>PHYS 311T</td>
<td>Intermediate Laboratory for Secondary Physics</td>
<td></td>
</tr>
<tr>
<td>PHYS 470L</td>
<td>Applied Physics Laboratory</td>
<td></td>
</tr>
<tr>
<td>ASTRO 344L</td>
<td>Astronomy Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

* Phys 241 and 242 are specifically designed for Physics majors, although Phys 221 and 222 may be substituted or Phys 241 and 242.

All students are required to earn at least 5 credits in laboratory work in physics in addition to the laboratory components of PHYS 221 and PHYS 222. These 5 credits must be in courses numbered 300 or higher or in approved substitutions. All students must earn at least 26 credits in physics and astronomy courses numbered 304 or higher. The basic list of expected courses is not a rigid requirement and changes in this basic list will be approved by the department curriculum committee on recommendation of the student’s adviser when such changes will better serve the student’s needs. In particular, students planning a physics major and also seeking certification for high school teaching may, with the approval of their adviser, follow a significantly different program designed to meet their particular needs; these students should consult the department for further information. Further information concerning programs of study, including sample degree programs, is available from the department.

Students majoring in physics who wish an emphasis in astronomy/astrophysics should consider a minor in astronomy (see below). Those planning graduate work in physics or astronomy/astrophysics should add to the basic list the courses PHYS 480 and PHYS 481. Other useful courses include:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 307</td>
<td>Matrices and Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td>MATH 317</td>
<td>Theory of Linear Algebra</td>
<td>4</td>
</tr>
<tr>
<td>MATH 365</td>
<td>Complex Variables with Applications</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 426</td>
<td>Mathematical Methods for the Physical Sciences</td>
<td>3</td>
</tr>
<tr>

</tbody>
</table>

* Must include ASTRO 344L Astronomy Laboratory and may include one of the courses: ASTRO 120 The Sky and the Solar System, ASTRO 150 Stars, Galaxies, and Cosmology or ASTRO 250 Astronomy Bizarre.
12 or more credits must be at the 300 level or higher. Note that only ASTRO 344L may be used to satisfy both the requirements of a physics major and an astronomy minor.

Communication Proficiency requirement: The department requires a grade of C or better in each of ENGL 150 and ENGL 250 (or ENGL 250H), and a C– or better in ENGL 302, ENGL 305, ENGL 309 or ENGL 314. Students are also encouraged to study at least one foreign language.

The expected outcomes for students in these programs are:

1. a broad knowledge of physics, including mechanics, electricity and magnetism, thermodynamics, wave motion and modern physics
2. proficiency in laboratory methods
3. proficiency in modern scientific computational methods
4. a sound foundation in the liberal arts including proficiency in communication skills.

In addition to the performance on exams and course grades, information on evaluating the success in meeting these goals is obtained by:

1. an annual written survey of all students majoring in the program
2. an annual written survey of all graduating seniors
3. a periodic written survey of program alumni
4. student evaluations of all courses
5. adviser evaluations
6. a bimonthly meeting of program majors with the department chair

Graduate Study

The department offers studies for the degrees master of science and doctor of philosophy with majors at both levels in applied physics, astrophysics, condensed matter physics, high energy physics, nuclear physics, and physics; and minor credit courses for students majoring in other departments.

Facilities of various research groups of the department, the Ames Laboratory, and the Applied Science Center, including the Microelectronics Research Center, are available for research.

Students with bachelor’s degrees in physics or astronomy from other institutions ordinarily will qualify for graduate study at Iowa State, provided they have satisfactorily completed course work similar to that suggested for undergraduate majors here intending to go on to graduate school. In some cases additional instruction at the intermediate level may be required.

Graduates have a broad understanding of physical science, as well as mastery of state-of-the-art methods in their area of specialization. They are able to communicate effectively to a wide range of audiences, from the general public to research colleagues. Their skills in rigorous scientific thinking prepare them for leadership in the broader community. They are skilled in carrying out research, communicating research results, and soliciting research support. They have considerable teaching experience. They have developed problem solving skills that prepare them for careers in either industry or academia.

All candidates for an advanced degree in physics are expected to complete:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 531</td>
<td>Statistical Mechanics</td>
<td>3</td>
</tr>
<tr>

<tr>
<td>ASTRO 510</td>
<td>Observational Astrophysics</td>
<td>3</td>
</tr>
</tbody>
</table>

Astrophysics Ph.D. candidates must take at least three of the 580 level Astro courses, while candidates for the Research Masters must take at least two 580 level Astro courses.

Except for the applied physics major where a thesis is always required, the degree master of science is offered both with and without thesis. For all areas of study except applied physics the basic requirements for the M.S. are the same: at least 30 credits of acceptable graduate work must be completed, not less than 21 of which must be in physics or astronomy. Students must complete not less than 6 credits from outside their major area, with 3 credits being required from outside the department, and 3 credits from a 500 or 600 level course in another area of specialization. Students choosing a M.S. degree with thesis may apply up to 8 credits of 699 but no credits of 599 toward the minimum 30 credits. Students choosing a degree without thesis should apply 2 credits of 599, but may not apply any credits of 699 toward the minimum 30 credits.

Students whose major area is applied physics must complete at least 30 credits of acceptable graduate work for the M.S. degree and not less than 19 credits of these must be in the required courses listed above; the remaining 11 credits of the 30 credit minimum may be chosen freely either from within the student’s major area or from without and either from the department or outside, but it should be noted that not more than 3 credits of PHYS 699 Research may be applied toward the 30 credit minimum.

In addition to course work in the major area of study, all candidates for the Ph.D. degree must complete 12 credits from outside this area. Of these 6 must be taken from other departments and 6 must be taken from the department with the additional constraint that this latter 6 must include at least one 500 or 600 level introductory course in another area of specialization. Each candidate for the Ph.D. degree is required to teach one year of elementary physics or astronomy.

Graduate students interested in a physics minor should contact the department for requirements.
Astronomy and Astrophysics (Astro)

Courses primarily for undergraduate students

ASTRO 102. North Star Astronomy.
Cr. 1. F.S.
An entirely web-based course covering topics in observing the sky and navigation by the stars for students with little or no previous experience. The course combines material on common naked-eye phenomena, such as daily and seasonal variations in the sky, with information on how these helped navigators determine where they are on Earth. The course "lectures" are on-line, interactive units with built in exercises, hands-on (offline) activities and layers of help. Graded homework and quizzes are administered via Web-CT. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 103. Evening Star.
Cr. 1. F.S.
An entirely web-based course covering topics in celestial mechanics (“Rocket science!”) for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via WebCT. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 120. The Sky and the Solar System.
(3-0) Cr. 3. F.S.S.S.
For the nonscientist. The sky: constellations; motions of the sun, moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the sun, planets, satellites, comets, meteors, and asteroids. Extensive use of the planetarium is included. Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 125L. The Sky and the Solar System Laboratory.
(0-2) Cr. 1. F.S. Prereq: Concurrent or previous enrollment in ASTRO 120 Laboratory course to accompany ASTRO 120. Students carry out practical exercises involving naked eye and telescopic observing to explore and reinforce ideas covered in ASTRO 120. Activities based on a sky-simulation computer program and other weather-independent exercises are also included.

ASTRO 150. Stars, Galaxies, and Cosmology.
(3-0) Cr. 3. F.S.
For the nonscientist. Observational aspects of stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The Milky Way Galaxy: clouds of matter in space, the structure and evolution of our galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

ASTRO 250. Astronomy Bizarre.
(3-0) Cr. 3. S. Prereq: 120 or 150

ASTRO 290. Independent Study.
Cr. 1-4. Repeatable. Prereq: Permission of instructor

ASTRO 342. Introduction to Solar System Astronomy.
(3-0) Cr. 3. F. Prereq: PHYS 222
Analytical and comparative studies of solar system objects-planets, satellites, rings, asteroids, comets, meteoroids, and interplanetary dust-with emphasis on the physical processes affecting them, their interactions, and their evolution. Orbital mechanics, including perturbations, stability, and resonances. Tidal forces and effects. Radiation laws and thermal physics with applications. Brief study of the sun as a star, and of stellar evolution. Origin and evolution of the solar system. Detection of other planetary systems. Nonmajor graduate credit.

ASTRO 344L. Astronomy Laboratory.
(1-6) Cr. 3. F. Prereq: PHYS 222
Experiments in optical astronomy. Observational techniques, ranging from stellar photometry to CCD imaging. Available instruments include a variety of small telescopes up to 14-inch in size. Class meets at Fick Observatory south of Boone. Nonmajor graduate credit.

ASTRO 346. Introduction to Astrophysics.
(3-0) Cr. 3. S. Prereq: PHYS 222
Basic radiation theory; spectra. Observational determination of stellar properties; spectral classification. Binary systems. Stellar structure and evolution. White dwarfs, neutron stars, black holes. The Galaxy: structure and composition; the interstellar medium. Other galaxies; active galaxies; cosmology. Nonmajor graduate credit.

(Dual-listed with 505). (3-0) Cr. 3. F. Prereq: 346 or permission of instructor
Survey of astrophysical processes relating to stars, galaxies and the universe. Radiation transport, radiation processes, scattering, kinetic description of plasma, hydrodynamics, magnetohydrodynamics, MHD waves, shocks, properties of systems in local thermodynamic equilibrium, non-thermal systems, astrophysical effects of general relativity.

ASTRO 450. Undergraduate Research.
Cr. 1-6. Repeatable. F.S.S.S. Prereq: Permission of instructor Research under supervision of astronomy faculty.

ASTRO 450L. Undergraduate Research.
Cr. 1-6. Repeatable. F.S.S.S. Prereq: 344L and permission of instructor Laboratory or observational project under supervision of astronomy faculty.

ASTRO 490. Independent Study.
Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in astronomy, permission of instructor
No more than 9 credits of Astro 490 may be counted toward graduation.

H. Honors

Courses primarily for graduate students, open to qualified undergraduate students

(Dual-listed with 405). (3-0) Cr. 3. F. Prereq: 346 or permission of instructor
Survey of astrophysical processes relating to stars, galaxies and the universe. Radiation transport, radiation processes, scattering, kinetic description of plasma, hydrodynamics, magnetohydrodynamics, MHD waves, shocks, properties of systems in local thermodynamic equilibrium, non-thermal systems, astrophysical effects of general relativity.

ASTRO 510. Observational Astrophysics.
(2-3) Cr. 3. Alt. F. offered 2011. Prereq: 405 or 505
Techniques in optical and near-IR astronomy, including spectroscopy and CCD photometry. Emphasis on projects involving proficiency in the use of research telescopes and modern instrumentation. Project topics range from photometric studies of pulsating and binary star systems to deep CCD imaging of faint nebulae and galaxies.
ASTRO 580. Stellar Astrophysics.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 405 or 505

ASTRO 582. High Energy Astrophysics.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 405 or 505
Interactions of high-energy particles, non-thermal radiation processes, spectral evolution of non-thermal systems, cosmic rays, active galactic nuclei, pulsars, neutrons, measurement techniques for relativistic charged particles, high energy photons, and neutrinos.

ASTRO 584. Galactic Astronomy.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 405 or 505
Overall structure of our Galaxy and the interstellar medium. Physical processes in the interstellar medium (e.g., heating and cooling mechanisms, turbulence). Observational techniques for studying the interstellar medium. Kinematics and chemical evolution of the Galaxy.

ASTRO 586. Extragalactic Astronomy.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 405 or 505
Galaxy evolution, dynamics of external galaxies, evolution and classification of galaxies, groups and clusters of galaxies, extragalactic radio sources, quasars, structure formation, cosmological models and their observational consequences.

ASTRO 590. Special topics.
Cr. arr. Repeatable.

ASTRO 599. Creative Component.
Cr. arr. Prereq: Permission of instructor
Individually directed study of research-level problems for students electing the nonthesis M.S. option in astronomy.

Courses for graduate students

ASTRO 650. Advanced Seminar.
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest in astronomy and astrophysics. Offered on a satisfactory-fail basis only.

ASTRO 660. Advanced Topics in Astronomy and Astrophysics.
Cr. 1-3. Repeatable. F.S.
Topics in stellar, galactic, and extragalactic astronomy, including stellar evolution, solar physics, variable stars, compact objects, the interstellar medium, active galaxies and quasars, formation and evolution of galaxies, cosmology, high energy astrophysics, advanced observational techniques, and astrophysical applications of hydrodynamics.

ASTRO 675. Advanced Stellar Astrophysics.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 405 or 505; and 580

ASTRO 699. Research.
Cr. arr. Repeatable.
T. Intermediate Laboratory for Secondary Physics Teachers

Experiments in classical and modern physics performed independently by each student. No non-major graduate credit.

H. Honors.

PHYS 242. Principles and Symmetries in Classical Physics II.

(4-2) Cr. 5. S. Prereq: 221, MATH 166; non-physics majors must have instructor permission

Covers all of mechanics; Kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation, and extremum principles. Topics in kinetic theory, thermodynamics, waves and sound.

H. Honors.

PHYS 290. Independent Study.

Cr. 1-4. Repeatable. Prereq: Permission of instructor

PHYS 298. Cooperative Education.

Cr. R. F.S.S. Prereq: Permission of the department cooperative education coordinator; sophomore classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period.

PHYS 302. The Challenge of Contemporary Physics.

(3-0) Cr. 3. S. Prereq: Sophomore classification

A largely nonmathematical but intellectually challenging exploration of physics, which assumes no previous work in the field. Selected material from classical and modern physics establishes the conceptual framework for the study of major areas of contemporary physics, culminating in the discussion of topics at the frontier of present knowledge. Topics vary yearly and may include quarks, lasers, superconductivity, fission and fusion, solid state devices, gravitational waves, string theory, facilities, left handed materials, and quantum computing. Not suitable to meet a general physics requirement for natural science majors.

PHYS 304. Thermal Physics.

(3-0) Cr. 3. F. Prereq: 222, MATH 266

PHYS 306. Physics of Wave Motion.

(3-0) Cr. 3. S. Prereq: 222, credit or enrollment in MATH 267

Oscillating systems including damped and forced oscillations; fluids, geometric optics, water waves, the wave equation, Fourier and Laplace transforms, non-uniform media, cylindrical and spherical waves, polarization, interference and diffraction, transmission lines, non-linear waves.

PHYS 310. Electronic Instrumentation for Experimental Physics.

(2-4) Cr. 4. F. Prereq: 222; MATH 166

Common electronic instruments; power supplies; transducers; passive and active devices, analog integrated circuits, including filters and amplifiers; digital integrated circuits; signal transmission and enhancement. Nonmajor graduate credit.

PHYS 311. Intermediate Laboratory.

Cr. 1-2. Repeatable. S. Prereq: 322

Experiments in classical and modern physics performed independently by each student. Nonmajor graduate credit.

T. Intermediate Laboratory for Secondary Physics Teachers

PHYS 311T. Intermediate Laboratory for Secondary Physics Teachers.

(0-6) Cr. 3. Repeatable. S. Prereq: 112 or 222

Experiments in classical and modern physics performed independently by each student. For students preparing for a career in high school teaching.

PHYS 321. Introduction to Modern Physics I.

(3-0) Cr. 3. F. Prereq: 222, credit or enrollment in MATH 266

Quantum nature of matter: photons, de Broglie’s postulate: wave-like properties of matter; Bohr’s model of hydrogen atom; Schrodinger equations in one dimension: energy quantization; detailed solutions for potential steps, barriers and wells; one-electron atoms, spin and magnetic interactions; ground states, optical and x-ray excitations of multi-electron atoms.

L. Introductory Laboratory in Modern Physics I

PHYS 321L. Introductory Laboratory in Modern Physics I.

(0-2) Cr. 1. F. Prereq: Credit or enrollment in 321

PHYS 322. Introduction to Modern Physics II.

(3-0) Cr. 3. S. Prereq: 321

Quantum statistics; lasers; physics of molecules. Properties of solids, including electron band structure, superconductivity and magnetism. Nuclear physics, including nuclear sizes and masses, stability, decay modes, reactions, fission and fusion. Elementary particles, including strangeness, charm, and quarks. Fundamental forces of nature.

L. Introductory Laboratory in Modern Physics II

PHYS 322L. Introductory Laboratory in Modern Physics II.

(0-2) Cr. 1. S. Prereq: Credit or enrollment in 322

Experiments related to the foundations of modern physics. Radioactive decay, elementary particles, Hall effect, quantization, spectroscopy, statistics and instrumentation.

(3-0) Cr. 3. F. Prereq: 222, MATH 265, 266

Newtonian mechanics including forced oscillations, central forces and orbital motion, collisions, moving frames of reference, Lagrange’s equations. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: 361

Rigid body motion; small oscillations, normal modes. Special relativity including length contraction, time dilation, simultaneity, Lorentz transformation, 4-vector covariant formalism, relativistic mechanics. Nonmajor graduate credit.

PHYS 364. Electricity and Magnetism I.

(3-0) Cr. 3. F. Prereq: 222

Static electric and magnetic fields, potential theory; electromagnetism, Maxwell’s equations. Nonmajor graduate credit.

PHYS 365. Electricity and Magnetism II.

(3-0) Cr. 3. S. Prereq: 364

Relativistic electromagnetic theory; radiation and propagation of electromagnetic waves; interaction with matter. Nonmajor graduate credit.

Cr. R. S.

Recommended for all junior physics majors. Career opportunities: graduate school programs and application, job placement, alternative careers, basic skills needed for the job market competition. Offered on a satisfactory-fail basis only.

PHYS 398. Cooperative Education.

Cr. R. F.S.S. Prereq: Permission of the department cooperative education coordinator; junior classification

Required of all cooperative education students. Students must register for this course prior to commencing each work period.
Cr. 1-2. Repeatable, maximum of 2 credits. F.S. Prereq: Permission of instructor  
Review of materials and curricula for secondary school physics presented and discussed by members of the class. Required for approval to teach physics in secondary schools.

(Dual-listed with 521). (3-0) Cr. 3. F. Prereq: 321, 365, or equivalent with permission of instructor  
Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation. Nonmajor graduate credit.

(Cross-listed with MATH). (3-0) Cr. 3. F. Prereq: MATH 266 or 267  

PHYS 432. Molecular and Cell Biophysics.  
(Dual-listed with 532). (3-0) Cr. 3. S. Prereq: 304 or CHEM 325  
Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes. Nonmajor graduate credit.

PHYS 450. Undergraduate Research.  
Cr. 1-6. Repeatable. F.S.S.S. Prereq: Permission of instructor  
Theoretical research under supervision of physics faculty.

L. Undergraduate Research

PHYS 450L. Undergraduate Research.  
Cr. 1-6. Repeatable. F.S.S.S. Prereq: 311, permission of instructor  
Laboratory project under supervision of physics faculty.

PHYS 461. Physics of Biomolecules.  
(Dual-listed with 561). (3-0) Cr. 3. F. Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor  
Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

PHYS 470L. Applied Physics Laboratory.  
Cr. 2-5. Repeatable. F.S.S.S. Prereq: 322 and permission of instructor  
Studies in modern experimental techniques via experimentation and simulation in various areas of applied physics, e.g. superconductivity, optical spectroscopy, nuclear magnetic resonance, electron spin resonance, x-ray diffraction, and computation of electronic and structural properties of matter.

PHYS 480. Quantum Mechanics I.  
(3-0) Cr. 3. F. Prereq: 322, MATH 385  
First semester of a full-year course. A systematic development of the formalism and applications of quantum mechanics. Solutions to the time independent Schroedinger equation for various one-dimensional potentials including the harmonic oscillator; operator methods; Heisenberg picture; angular momentum; the hydrogen atom; spin; symmetry properties. Nonmajor graduate credit.

PHYS 481. Quantum Mechanics II.  
(3-0) Cr. 3. S. Prereq: 480  
Continuation of 480. Addition of angular momentum; charged particles in electromagnetic fields; time-independent perturbation theory; variational principles; WKB approximation; interaction picture; time-dependent perturbation theory; adiabatic approximation; scattering; selected topics in radiation theory; quantum paradoxes. Nonmajor graduate credit.

PHYS 490. Independent Study.  
Cr. 1-4. Repeatable, maximum of 9 credits. Prereq: 6 credits in physics, permission of instructor  
No more than 9 credits of Phys 490 may be counted toward graduation.  
H. Honors

PHYS 496. Modern Optics.  
(Cross-listed with E E). (3-0) Cr. 3. S. Prereq: Credit or enrollment in PHYS 322, 365, and 480  

Cr. 1-2. Repeatable, maximum of 2 credits. F.S.S.S. Prereq: Permission of the department cooperative education coordinator; senior classification  
Discussion by research staff of their research areas, expected thesis research work, and opportunities in the field. For graduate physics majors only. Offered on a satisfactory-fail basis only.

(2-0) Cr. 1. Repeatable. F.  
Introduction to communication methods in physics and astronomy classrooms and professional settings. For graduate physics majors only. Offered on a satisfactory-fail basis only.

PHYS 511. Condensed Matter Physics I.  
(3-0) Cr. 3. S. Prereq: 304, credit or enrollment in 481  
First semester of a full-year course. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

PHYS 512. Condensed Matter Physics II.  
(3-0) Cr. 3. F. Prereq: 511  
Continuation of 511. Free electron model; crystal symmetry; band theory of solids; transport properties; Fermi surface; phonons; semiconductors; crystal surfaces; magnetism; superconductivity.

(Dual-listed with 421). Cr. 3. F. Prereq: 321, 365, or equivalent with permission of instructor  
Introduction to ultrafast lasers, nonlinear optics, and their applications. Topics selected from: basic optics, atom-photon interactions, electrodynamics of condensed matter, laser physics, ultrafast and nonlinear optics, ultrashort pulse generation, broadband pulse generation, time-resolved spectroscopy and instrumentation.
PHYS 526. Particle and Nuclear Physics.
(4-0) Cr. 4. S. Prereq: Credit or enrollment in 481
Basic properties and structures of nuclei, hadrons, and elementary particles; weak and strong interactions; the Standard Model; accelerators and detectors; nuclear models; nuclear decay and stability; nuclear astrophysics; the Higgs mechanism; the CKM matrix; running coupling constants; relativistic heavy-ion collisions; selected topics beyond the standard model such as SUSY and grand unification.

PHYS 531. Statistical Mechanics.
(3-0) Cr. 3. S. Prereq: 304 and credit or enrollment in 481, Math 465, credit or enrollment in Math 365 or 426
Thermodynamic properties of systems of many particles obeying Boltzmann, Fermi-Dirac, and Bose-Einstein statistics; microcanonical, canonical, and grand canonical ensembles and their application to physical problems; density matrices; introduction to phase transitions; renormalization group theory; kinetic theory and fluctuations.

PHYS 532. Molecular and Cell Biophysics.
(Dual-listed with 432). (3-0) Cr. 3. S. Prereq: 304 or CHEM 325
Quantitative description of biological systems using basic physical laws, including a brief discussion of a variety of biophysical techniques. Topics include: thermodynamics, chemical equilibrium, gene expression, structure and physical properties of nucleic acids and proteins, folding of nucleic acids and proteins, chemical kinetics, catalysis, allosteric enzymes, cell membrane structure and physical properties, and machines in cell membranes.

(3-0) Cr. 3. S. Prereq: Credit or enrollment in 481
Theory of groups and group representations; introduction to both point and continuous groups, and their applications in physics.

PHYS 535. Physics of Semiconductors.
(Cross-listed with E E). (3-3) Cr. 4. Prereq: E E 311 and E E 332
Basic elements of quantum theory, Fermi statistics, motion of electrons in periodic structures, crystal structure, energy bands, equilibrium carrier concentration and doping, excess carriers and recombination, carrier transport at low and high fields, space charge limited current, photoconductivity in solids, phonons, optical properties, amorphous semiconductors, heterostructures, and surface effects. Laboratory experiments on optical properties, carrier lifetimes, mobility, defect density, doping density, photoconductivity, diffusion length of carriers.

(Cross-listed with E E). (3-0) Cr. 3. Prereq: E E 535
P-n junctions, band-bending theory, tunneling phenomena, Schottky barriers, heterojunctions, bipolar transistors, field-effect transistors, negative-resistance devices and optoelectronic devices.

PHYS 541. General Relativity.
(3-0) Cr. 3. F. Prereq: 362, MATH 307 or 317
Tensor analysis and differential geometry developed and used to formulate Einstein field equations. Schwarzschild and Kerr solutions. Other advanced topics may include gravitational radiation, particle production by gravitational fields, alternate gravitational theories, attempts at unified field theories, cosmology.

PHYS 551. Computational Physics.
(0-4) Cr. 2. S. Prereq: 365, credit or enrollment in 481
Use of modern computational techniques to analyze topics in classical and modern physics. Offered on a satisfactory-fail basis only.

PHYS 561. Physics of Biomolecules.
(Dual-listed with 461). (3-0) Cr. 3. F. Prereq: PHYS 304 or CHEM 325, BBMB 301, or permission of instructor; graduate student classification in Science/Engineering
Cell and Molecular Biophysics. Physical techniques used to characterize the structure, dynamics and properties of biomolecules with emphasis on single molecule techniques.

(3-0) Cr. 3. F. Prereq: 362, MATH 426, 465
Variational principles, Lagrange’s equations, Hamilton’s canonical equations, canonical transformations, Hamilton-Jacobi theory, infinitesimal transformations, classical field theory, canonical perturbation theory, classical chaos.

PHYS 571. Electricity and Magnetism I.
(3-0) Cr. 3. F. Prereq: 365, MATH 426
Electrostatics, magnetostatics, boundary value problems, Maxwell’s equations, wave phenomena in macroscopic media, wave guides.

PHYS 572. Electricity and Magnetism II.
(3-0) Cr. 3. S. Prereq: 571
Special theory of relativity, least action and motion of charged particles in electromagnetic fields, radiation, collisions between charged particles, multipole fields, radiation damping.

PHYS 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor
Topics of current interest.

PHYS 591. Quantum Physics I.
(4-0) Cr. 4. F. Prereq: 481
First semester of a full-year course. Postulates of quantum mechanics; time-dependent and time-independent Schrodinger equations for one-,two-, and three-dimensional systems; theory of angular momentum; Rayleigh-Schrödinger time-independent perturbation theory.

PHYS 592. Quantum Physics II.
(4-0) Cr. 4. S. Prereq: 591
Continuation of 591. Variational theorem and WKB method; time-dependent perturbation theory; method of partial waves and Born approximation for scattering by central potentials; identical particles and symmetry; Dirac and Klein-Gordon equation for free particles; path integral formalism.

PHYS 599. Creative Component.
Cr. arr. Prereq: Permission of instructor
Individually directed study of research-level problems for students electing the nonthesis M.S. degree option.

Courses for graduate students

PHYS 611. Quantum Theory of Condensed Matter.
(3-0) Cr. 3. S. Prereq: 512 and 681 or permission of instructor
Quasiparticles in condensed matter: phonons, magnons, photons, electrons. Quantum theory of interacting many body systems: Green’s functions and diagrammatic techniques.

PHYS 624. Advanced Nuclear Physics.
(3-0) Cr. 3. Prereq: 526 and 592
Microscopic few-body and many-body theory; theory of effective Hamiltonians; relativistic nuclear physics; nuclear effects in hadron-nucleus, lepton-nucleus, and nucleus-nucleus reactions.

PHYS 625. Physics of Strong Interactions.
(3-0) Cr. 3. Prereq: 681
Quark model; Quantum Chromodynamics (QCD); perturbation methods for QCD; effective field theories for pions and nucleons; finite temperature field theories; quark-gluon plasma; phase transitions in QCD.
**PHYS 637. Elementary Particle Physics I.**
(3-0) Cr. 3. Prereq: 526 and 592
First semester of a full year course. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry; modern theoretical techniques and tests of the Standard Model.

**PHYS 638. Elementary Particle Physics II.**
(3-0) Cr. 3. Prereq: 637
Continuation of 637. Properties of leptons, bosons, and quarks and their interactions; quantum chromodynamics, Glashow-Weinberg-Salam model, grand unification theories, supersymmetry, and superstring theory; modern theoretical techniques.

**PHYS 646. Mathematical Modeling of Complex Physical Systems.**
(Cross-listed with MATH. (3-0) Cr. 3. S. 
Modeling of the dynamics of complex systems on multiple scales: Classical and dissipative molecular dynamics, stochastic modeling and Monte-Carlo simulation; coarse grained nonlinear dynamics, interface propagation and spatial pattern formation.

**PHYS 650. Advanced Seminar.**
(1-0) Cr. 1. Repeatable. F.S.
Topics of current interest. Offered on a satisfactory-fail basis only.
A. Nuclear Physics  
B. Condensed Matter Physics  
C. High Energy Physics  
D. Physics  
E. Applied Physics  
F. Biophysics  

**PHYS 660. Advanced Topics in Physics.**
Cr. 1-3. Repeatable. F.S.
Courses on advanced topics and recent developments.
A. Nuclear Physics  
B. Condensed Matter Physics  
C. High Energy Physics  
D. Physics  
E. Applied Physics  
F. Biophysics  

**PHYS 681. Quantum Field Theory I.**
(3-0) Cr. 3. F. Prereq: 564, 572, 592
Quantization of fields (canonical and path integral); Feynman rules; introduction to gauge theories; Quantum Electrodynamics; radiative corrections; renormalization and renormalization group.

**PHYS 682. Quantum Field Theory II.**
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 681
Continuation of 681. Systematics of renormalization; renormalization group methods; symmetries; spontaneous symmetry breaking; non-abelian gauge theories; the Standard Model and beyond; special topics.

**PHYS 699. Research.**
Cr. arr. Repeatable.
### Undergraduate Study

For the undergraduate curriculum in Liberal Arts and Sciences, with major in political science, leading to the degree of Bachelor of Arts, see Liberal Arts and Sciences, Curriculum.

The study of political science is designed to enable students to understand the nature of politics, public values, and the institutions and processes of politics in their various forms.

Students completing a major in political science will understand and be able to interrelate the leading theories, literature, and approaches in the subfields of American government, political theory and methods, international relations, and comparative politics. Graduates can analyze and formulate effective argumentation in written and oral forms, including the ability to appreciate and accommodate diverse political ideas, and the ability to collect and critique information and ideas of others in support of original arguments. Graduates appreciate the knowledge and civic responsibilities required for effective participation in political life.

The political science major is often chosen by students preparing for a career in law. Students with this goal should consult with the department in selecting courses. See also Preprofessional Study.

Several internship options are available to the political science major, offering students the opportunity to experience practical application of the knowledge learned in academic courses.

### Requirements for the Major:

For the purpose of defining undergraduate requirements in the Department of Political Science, the Department employs four subfields within the discipline, with the following courses in each:

#### I. Theory and Methods

† Arranged with instructor.

To complete the major in Political Science a student must earn 33 semester credits of courses in Political Science subject to the following conditions:

1. Students must satisfactorily complete POL S 101, POL S 301.
2. Students must complete at least 3 credits in each of the four subfields listed above. Students may apply only one half-semester mini-course (POL S 312, POL S 314, POL S 315) in each group.
3. Political Science courses in which a student has a grade of D+ or lower will not count for the major but can be counted as electives.
4. At least 18 credits of Political Science courses must be numbered 300 or above.
5. Students must pass one statistics course from among STAT 101, STAT 104, STAT 226 or STAT 231.
6. No more than six credits of POL S 490 or POL S 499 (alone or in combination) can be used to fulfill any of these requirements. A maximum of three credits of POL S 490 can be applied to meet any of the four subfield requirements.
7. A maximum of six credits from half-semester mini-courses (POL S 312, POL S 314, POL S 315) can be applied to satisfy the above requirements.
8. At least 15 credits of Political Science coursework must be earned at Iowa State University.
9. Advanced Communication Skills: Majors must earn at least a C+ in each of ENGL 150 and ENGL 250. Those who do not must complete ENGL 309 or ENGL 314 with a grade of C or higher.

The department offers a minor in political science that may be earned by completing 15 credits beyond the 100-level of coursework in political science, nine of which must be at the 300 level or above. A student minoring in Political Science normally will be expected to take at least 9 credits in Political Science coursework at Iowa State University. Only 3 credits of POL S 490 or POL S 499, alone or in combination, and only 2 credits of POL S 312-315 may be included in the total of 15 credits required for the minor. All minors in the College of Liberal Arts and Science required a minimum of 6 credits in courses numbered 300 and above taken at ISU with a grade of C or higher. Credits earned in POL S 499, offered on a satisfactory/fail basis only, will not fulfill this requirement.

Graduate Study

The department offers work for a Master of Arts degree (M.A.), with a major in political science, and minor for students in other departments. The department also offers work for a Master of Public Administration (MPA) degree or a Graduate Certificate of Public Management (GCPM) for those interested in an educational certificate program that requires less work than a full masters program. In addition, the Political Science Department offers work for the Master of Science in Information Assurance. Information with detailed requirements for all graduate degrees may be obtained at the department’s web page at www.pols.iastate.edu/gradhome.shtml.

The M.A. program is designed to enable its graduates to engage in governmental research, enter public service or private industry, teach, or pursue further graduate study. Graduate students may also wish to work for certification for high school or junior college teaching. A thesis is required for this degree. The department also has a joint Master of Arts/ Juris Doctor (M.A./J.D.) program with the Law School of Drake University. Detailed information for the M.A./J.D. can be found at the ISU Political Science webpage as well as the Drake Law School website (under Joint Degree): www.law.drake.edu/admissions/specprograms.html. Students wishing to pursue this joint degree must submit separate applications to both Drake University and Iowa State University and be accepted by both institutions.

M.A. graduates have a broad substantive understanding of the political process and the academic study of politics. They also have in-depth knowledge of one or more subfields in political science. Graduates are skilled at conducting research and preparing thorough research summaries. They are able to identify and address complex political questions, taking into account related ethical, legal, economic, and social issues.

The usual prerequisites for major graduate work in the M.A. program normally are completion of at least 15 credits in political science, the GRE (Graduate Record Examination), one year of a foreign language (equivalent to 8 semester hours) and a course in basic statistics (equivalent to STAT 101). If the basic statistics requirement has not been met, the student may remedy the deficiency by passing equivalent courses, for which no graduate credit will be received. During their program of study, all students are expected to complete STAT 401, POL S 502, and a thesis. Students normally do concentrated course work in at least one of the following three areas: international relations, comparative politics, or American politics. The student’s program of study committee may require additional work.

Students in other graduate programs may obtain a minor in political science by completing at least 9 credits of political science courses, including one of the proseminars. Interested students should consult the Graduate College Handbook for additional information on graduate minors.

The Master of Science in Information Assurance (MSIA) is a multi-disciplinary program designed to provide students with diverse backgrounds and interests the opportunity to obtain professional training in the emerging field of information assurance. The core of the MSIA program is built around a series of courses taught in Electrical and Computer Engi-
Requirements for admission are a graduate school application, an essay stating purposes for study, college transcripts, the GRE (waived for those with five or more years of public or nonprofit sector experience), three letters of recommendation, and the TOEFL for international students.

The department cooperates in the interdepartmental majors in transportation and water resources, and an interdepartmental minor in gerontology (see Index).

Refer to the Schedule of Classes (www.iastate.edu/catalog/) or consult the Public Policy and Administration (MPA) web page (http://mpa.las.iastate.edu for up-to-date scheduling information.

Courses primarily for undergraduate students

POL S 101. Orientation to Political Science.
(2-0) Cr. 1. F.S. Prereq: Political Science and Open Option majors only or permission of the instructor
Introduction to the discipline and sub-fields of Political Science, including an introduction to analytical thinking, and research skills relevant to political science. Orientation to university, college, and departmental structure, policies, and procedures; student roles and responsibilities; degree planning and career awareness. Offered on a satisfactory-fail basis only.

(3-0) Cr. 3. F.S.SS.
Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

POL S 235. Introduction to Ethics and Politics.
(3-0) Cr. 3. F.SS. Prereq: Sophomore standing
Introduction to moral controversies surrounding political issues such as violence, deception, corruption, civil disobedience, democracy, justice, equality, and freedom. Students will read classic and contemporary texts and consider political applications.

POL S 241. Introduction to Comparative Government and Politics.
(3-0) Cr. 3. F.S.
Basic concepts and major theories; application to selected political systems, including non-western political systems.

Meets International Perspectives Requirement.

POL S 251. Introduction to International Politics.
(3-0) Cr. 3. F.S.
Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism.

Meets International Perspectives Requirement.

POL S 298. Cooperative Education.
Cr. R. F.S.SS. Prereq: Permission of department cooperative education coordinator; sophomore classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

POL S 301. Introduction to Empirical Political Science Research.
(3-0) Cr. 3. F.S.SS. Prereq: 3 credits in political science; one statistics course required; sophomore classification
Techniques of quantitative and qualitative political research and analysis. Development and analysis of concepts and theories. Methods of data collection, research design, and critical thinking. Applications of statistics to political research.

POL S 305. Political Behavior.
(3-0) Cr. 3. F. Prereq: Sophomore classification
Empirical theories and descriptions of political behavior, including decision-making, opinion, and attitudes, with an emphasis on groups and political elites.

(3-0) Cr. 3. S. Prereq: 6 credits in political science or sophomore classification
The formation of political opinions and attitudes, political participation, and voting behavior of the general public, and their influences on American politics; polling as a means of assessing public opinions and behaviors.

POL S 310. State and Local Government.
(3-0) Cr. 3. S. Prereq: 3 credits in political science

POL S 311. Municipal Government and Politics.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 215
Legal position of municipal corporation; forms of organization; administration of municipal services; problem-solving in municipal government; urban and metropolitan political process; implications of federal urban policies.

POL S 312. Special Topics in American Government and Politics.
(3-0) Cr. 2. F.S. Prereq: Sophomore classification
Half-semester courses on selected topical issues in American government and politics. Designated repeat in Pol S 312 is not permitted. Use of Pol S 312 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 313. Special Topics in Theory and Methods.
(3-0) Cr. 2. F.S. Prereq: Sophomore classification
Half-semester course on selected topical issues in theory and methods in political science. Designated repeat in Pol S 313 is not permitted. Use of Pol S 313 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 314. Special Topics in Comparative Politics.
(3-0) Cr. 2. F.S. Prereq: Sophomore classification
Half-semester course on selected topical issues in comparative politics. Designated repeat in Pol S 314 is not permitted. Use of Pol S 314 credit in Pol S major and minor is limited. See Undergraduate Study for information.

POL S 315. Special Topics in International Relations.
(3-0) Cr. 2. F.S. Prereq: Sophomore classification
Half-semester course on selected topical issues in international relations. Designated repeat in Pol S 315 is not permitted. Use of Pol S 315 credit in Pol S major and minor is limited. See Undergraduate Study for information.

Meets International Perspectives Requirement.

POL S 318. Campaign and Elections.
(3-0) Cr. 3. Alt. F., offered 2012
Methods and techniques of political campaigns in general elections. Supervised participation in candidate and political party campaign activities required.
POL S 319. Law and Politics. (3-0) Cr. 3. F.S. Prereq: Sophomore standing; 216 recommended
An evaluation of the American judicial system as it relates to controversial topics emphasizing the relationship between law and politics. Primary emphasis on topics such as statutory construction, judicial review, the proper role of the judiciary, vagueness and ambiguity in law, constituting constitutional philosophies, executive branch concerns, and relative power of different branches. Credit for both Pol S 319 and 230 may not be applied toward graduation.

POL S 320. American Judicial Process. (Cross-listed with CJ STI) (3-0) Cr. 3. S. Prereq: POL S 218
An overview of the American judicial process. Emphasis on specific topics such as application of constitutional rights to the states (particularly the Fourth, Fifth, Sixth, and Fourteenth Amendments), mechanics of judicial opinions, constitutional philosophies of Supreme Court Justices, decisions of first impression, and the value and scope of precedent.

POL S 334. Politics and Society. (Cross-listed with SOC). (3-0) Cr. 3. F. Prereq: A course in political science or sociology
The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.

POL S 335. Science, Technology, and Public Policy. (3-0) Cr. 3. S.
Examines the history and political dynamics of public science and technology policies. Examines differences in political and technological orientations. Assessment of the roles of politics, media, engineering, science, and private business in the formation public policies that put heavy reliance on or seek to advance science and technology.

Examination of economic and political development as they relate to the political process of developing states. Impact of social and technological change on political systems of developing areas. Some case studies.

POL S 343. Latin American Government and Politics. (3-0) Cr. 3.
Political institutions, processes, and contemporary issues. Selected countries examined intensively to illustrate generalizations. Role of parties, military, church, human rights, women, environmental issues, interest groups, ideology, and globalization.

POL S 344. Public Policy. (3-0) Cr. 3. S.
How agendas come to be set in public policy, theories describing the policy-making process, forces molding policy choices and the impact of such choices.

POL S 346. European Politics. (3-0) Cr. 3. S.
Comparative study of political institutions of Europe and the European Union; emphasis on parties, elections, and governmental structures. Substance and process of public policies in selected problem areas.

POL S 347. African Politics. (3-0) Cr. 3. F.
Major trends in African politics over the last 150 years and current issues facing Africans today. Basic African geography. Topics include democratization, economic development, civil conflict, ethnic politics and foreign aid.

Meets International Perspectives Requirement.

POL S 350. Politics of the Middle East. (3-0) Cr. 3. S.
Introduction to the Middle East as a region and to issues of political importance to the Middle East and its place in the world. Topics covered include Islam, regional conflicts and alliances, local leaders, economic issues, and gender and social relations. Nonmajor graduate credit. Meets International Perspectives Requirement.

POL S 356. Theories of International Politics. (3-0) Cr. 3.
Introduction to essential theoretical concepts and approaches, both classical and contemporary on world politics including realism, empiricism, liberalism, and postpositivism; for example, war and conflict, peace and cooperation, political economy, crisis decision-making, systemic theory, dependence and interdependence.

POL S 357. International Security Policy. (3-0) Cr. 3. F.
The major theoretical approaches in security policy – strategy and deterrence, game theory, bargaining theory, compliance, and coercive diplomacy, and crisis diplomacy. Illustration of these various approaches through historical and contemporary cases.

POL S 358. United States Foreign Policy. (3-0) Cr. 3. F. Prereq: 215 or 251, or Hist 467 or 470 or 471
U.S. foreign policy since World War II with emphasis on changing American values foreign policy, the role of the President, Congress, and the bureaucracy in policy making, and a survey of current foreign policy issues and problems.

POL S 359. Current Issues in American Foreign Policy. (3-0) Cr. 3. S. Prereq: 215, 251, or 358
Examination of contemporary U.S. foreign policy issues (e.g., U.S. policy in the Middle East; defense budgeting in the post-Cold War era; conventional and nuclear arms control policy). The course will explore alternate methods to analyze policy, survey the evolution of each issue, and discuss different policy alternatives.

POL S 360. American Institutions: Congress. (3-0) Cr. 3. Prereq: 215
Theory and practice of representation and deliberation in the legislative branch of the republic; operations of Congress in terms of its committees, leadership, legislative and oversight processes, partisan politics, electoral campaigns, service to local and special electoral campaigns, service to local and special interests, and interactions with the President.

POL S 361. American Institutions: The Presidency. (3-0) Cr. 3. F. Prereq: 215
Creation and historical development of the office of chief executive; character and behavior of past chief executives; selection and control; powers, roles, functions; executive staff; relations with Congress, press, public opinion.

POL S 363. American Institutions: Media. (3-0) Cr. 3. Prereq: Sophomore standing
Course surveys the influence of mass media organizations, forms, techniques, and technologies on the practices and expectations of American politics. Evaluates the role of media in the political process, exploring the extents to which media promotes or discourages political participation. Topics will examine the influence and political uses of news coverage, political advertising, political debates, talk radio, film, the Internet, and media spectacles.
POL S 364. Political Parties and Interest Groups.
(3-0) Cr. 3. F. Prereq: 215; sophomore classification
Interest groups and American political parties, their principles, organizations and activities.

POL S 370. Religion and Politics.
(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: Sophomore classification.
The interaction of religion and politics in the U.S. from both an historical and contemporary perspective, as well as the role of religion in politics internationally. Nonmajor graduate credit.

POL S 371. Introduction to Public Administration.
(3-0) Cr. 3. F. Prereq: Sophomore classification
A survey of the historic and contemporary administrative realities that contribute to the unique challenges of public governance at the administrative and managerial levels of international, national, state, and local government. This introductory course explores the essential issues and competencies involved in the efficient, effective, and ethical provision of public goods and services. Critical topics addressed in the course include crisis management, intergovernmental relations, social equity, public-private partnerships, and privatization.

POL S 381. International Political Economy.
(3-0) Cr. 3. S.
Introduction to the theoretical perspectives on international political economy. Exploration of specific issues such as the changing international trade regime, international finance, and Third World development under conditions of globalization.

(Cross-listed with ENV S). (3-0) Cr. 3. F. Prereq: sophomore classification
Major ideologies relation to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

POL S 385. Women in Politics.
(Cross-listed with WS). (3-0) Cr. 3. S.
Examination of the entry and participation of women in politics in the United States and other countries including a focus on contemporary issues and strategies for change through the political process.

POL S 395. Advanced Writing in Political Science.
Cr. R. F.S.SS.
Taken in conjunction with 300- or 400-level Political Science courses. Offered on a satisfactory-fail basis only.

POL S 398. Cooperative Education.
Cr. R. F.S.SS. Prereq: Permission of department cooperative education coordinator; junior classification
Required of all cooperative education students. Students must register for this course prior to commencing work period.

POL S 413. Intergovernmental Relations.
(Dual-listed with 513). (3-0) Cr. 3. S. Prereq: 6 credits in American government
Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments. Nonmajor graduate credit.

POL S 417. Campaign Rhetoric.
(Cross-listed with SP CM). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: SP CM 212
Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Nonmajor graduate credit.

POL S 420. Constitutional Law.
(3-0) Cr. 3. F. Prereq: 215; junior classification
Development of the United States Constitution through judicial action; influence of public law and judicial interpretations upon American government and society. Nonmajor graduate credit.

POL S 421. Constitutional Freedoms.
(3-0) Cr. 3. S. Prereq: 320 or 420
Leading Supreme Court cases interpreting the Bill of Rights and the Fourteenth Amendment. Emphasis on religion, speech, privacy, due process, and equal protection. Nonmajor graduate credit.

POL S 422. International Law.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 215 or 251; junior classification
Development of the principles of international law of peace and war; analysis of theories concerning its nature and fundamental conceptions; its relation to national law; problems of international legislation and codification. Nonmajor graduate credit.

POL S 430. Foundations of Western Political Thought.
(Cross-listed with CL ST). (3-0) Cr. 3. Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the classical period to the renaissance. Topics such as justice, freedom, virtue, the allocation of political power, the meaning of democracy, human nature, and natural law. Nonmajor graduate credit.

POL S 431. Early Modern Political Thought.
(Dual-listed with 531). (3-0) Cr. 3. Prereq: 6 credits in political science, philosophy, or European history
Study of original texts in political thought ranging from the Reformation to the French Revolution and its aftermath. Topics such as justice, freedom, rights, democracy, toleration, property, power, skepticism, and normative views of international politics. Nonmajor graduate credit.

POL S 442. The Policy and Politics of Coastal Areas.
(Dual-listed with 542). (Cross-listed with ENV S). (3-0) Cr. 3. SS.
Exploration of political implications of coastal policy. Issues include: "Carrying capacity," zoning, regulation of human development activities, trade-offs between conservation and jobs, the quality of coastal lifestyle, ways in which citizens participate in policy for coastal areas.

POL S 452. Comparative Foreign Policy.
(Dual-listed with 552). (3-0) Cr. 3. S. Prereq: 251
Various theoretical approaches to explain foreign policy making and behavior through the use of case studies of selected nations. Nonmajor graduate credit.

POL S 453. International Organizations.
(3-0) Cr. 3. S. Prereq: 251
Private and public organizations such as the United Nations, other specialized agencies, and multinational organizations, and their influence on our daily lives. Nonmajor graduate credit.

POL S 470. Public Choice.
(3-0) Cr. 3. Prereq: ECON 101
Application of economics to political science in the study of nonmarket decision-making. Behavior of bureaucrats, elected officials, and voters. Market failure, collective action, representative democracies, direct democracies, logrolling, voter paradoxes, and game theory. Nonmajor graduate credit.

POL S 475. Management in the Public Sector.
(Dual-listed with 575). (3-0) Cr. 3. F. Prereq: 371
Literature and research on organizational behavior and management theory with emphasis on applied aspects of managing contemporary public sector organizations. Topics include distinctions between public and private organizations, leadership, productivity, employee motivation, organizational structure, and organizational change. Nonmajor graduate credit.
POL S 476. Administrative Law.
(Dual-listed with 576). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: 215; junior classification
Constitutional problems of delegation of governmental powers, elements of fair administrative procedures, judicial control over administrative determinations. Nonmajor graduate credit.

(Dual-listed with 577). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: Junior classification
Diverse perspectives on the changing roles and relationships of business, government and society so as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship. Nonmajor graduate credit.

POL S 480. Ethics and Public Affairs.
(Dual-listed with 580). (3-0) Cr. 3. Prereq: 6 credits in political science
Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making. Nonmajor graduate credit.

POL S 483. Law and Management.
(Dual-listed with 583). (3-0) Cr. 3. Alt. F., offered 2011. Emerging constitutional/legal doctrines and requirements in public management: concept of new property rights in public employment/public service delivery; procedural due process requirement; scope of free speech and liberty protected in the conduct of public management; equal employment opportunity requirements; and the scope of official and personal immunities and liability in public affairs.

POL S 485. Comparative Public Administration.
(Dual-listed with 585). (3-0) Cr. 3. F.
Comparisons of government bureaucratic in major world regions, trends and issues of administrative and management reforms, globalization and other contemporary challenges to state administrative structures and policies, skills needed to evaluate and implement public management reforms.

POL S 487. Electronic Democracy.
(2-1) Cr. 3. F. Prereq: Sophomore standing or instructor approval
The impact of computers, the Internet, and the World Wide Web on politics and policy. The positive and negative effects on information technology (IT) on selected topics such as freedom, power and control, privacy, civic participation, the sense of "community," virtual cities, interest group behavior, the new media, campaigns, elections, and voting will be examined. Nonmajor graduate credit.

POL S 490. Independent Study.
Cr. arr. Repeatable, maximum of 9 credits. F.S. Prereq: 6 credits in political science
Special studies in the political institutions, processes and policies of American, foreign, and international governments. Also, studies in traditional and behavioral political theory. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. No more than 9 credits of Pol S 490 may be counted toward graduation.

A. American Government and Politics
B. Theory and Method
C. Comparative Politics
D. International Relations
E. Extended credit. The student may earn an additional 1 or 2 credits for extra study done for any 300- or 400-level course, with instructor’s approval.

G. Catt Center Project
H. Honors

POL S 491. Senior Thesis.
Cr. 3. Prereq: 21 credits of Pol S and permission of instructor
Written under the supervision of a Political Science faculty advisor.

POL S 496. Teaching Internship in Political Science.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. Prereq: 12 credits in political science and permission of instructor
Undergraduate teaching experience through assisting an instructor with an introductory course in political science. Offered on a satisfactory-fail basis only.

POL S 497. Research Internship in Political Science.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S. Prereq: 12 credits in political science and permission of instructor
Undergraduate research experience through assisting on a scholarly project with an instructor in political science. Offered on a satisfactory-fail basis only.

POL S 498. Cooperative Education.
Cr. R. F.S.S. Prereq: Permission of department cooperative education coordinator; senior classification
Required of all cooperative education students. Students must register for this course prior to commencing each work period.

POL S 499. Internship in Political Science.
Cr. arr. F.S.S. Prereq: 6 credits in political science; junior or senior classification; and permission of internship coordinator
Work experience with a specific nongovernmental or governmental agency at the local, state, national, or international level, combined with academic work under faculty supervision. Use of credit in Pol S major and minor is limited. See Undergraduate Study for information. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduate students

POL S 502. Political Analysis and Research.
(3-0) Cr. 3. F. Prereq: 6 credits in political science
Scope and methods of political science. Introduction to theoretical approaches and analytical reasoning in political science. Relationship of theory and data. Research design.

POL S 504. Proseminar in International Politics.
(3-0) Cr. 3. S. Prereq: 6 credits in political science or graduate standing
An overview of the major theoretical and empirical works in the study of international politics and foreign policy. Among the major theoretical approaches surveyed and applied to international politics are realism, neo-realism, liberalism, functionalism, rational choice theory, game theory, and decision-making theory. Seminal writings by leading scholars will be reviewed.

POL S 505. Proseminar in Comparative Politics.
(3-0) Cr. 3. F. Prereq: 6 credits in political science or graduate standing
Major theoretical approaches to the study of comparative politics – varying concepts and definitions of society and policy, administrative traditions, institutional arrangements, political behavior, etc. Contrasting research method designs.

POL S 506. Proseminar in American Politics.
(3-0) Cr. 3. S. Prereq: 6 credits in political science or graduate standing
A presentation of the major theories and research on American government and politics. Substantive topics include modern democratic theory, institutional performance, and mass political behavior. A variety of research methodologies are examined, including normative theory, behavioralism, and rational choice analysis.

POL S 513. Intergovernmental Relations.
(Dual-listed with 413). (3-0) Cr. 3. S. Prereq: 6 credits of American government
Theories and practices of the American federal system. Politics and policy making among federal, state, and local governments.
POL S 525. Mass Political Behavior.  
(3-0) Cr. 3. Prereq: 6 credits in Political Science or graduate standing  
An in-depth survey of the theoretical, empirical, and methodological  
works concerning mass political behavior in the United States. Substan-  
tive topics include political attitudes and ideologies, public opinion and  
voting behavior, and political psychology. Methods for studying mass  
behavior include survey research and experimental approaches.

POL S 531. Early Modern Political Thought.  
(Dual-listed with 431). (3-0) Cr. 3. Prereq: 6 credits in political science,  
philosophy, or European history  
Study of original texts in political thought ranging from the Reformation to  
the French Revolution and its aftermath. Topics such as justice, freedom,  
rights, democracy, tolerance, property, power, skepticism, and normative  
views of international politics.

POL S 533. E-government and Information Policy.  
(3-0) Cr. 3. S.  
Overview of the legal and policy context of E-government development.  
Topics include the legal and regulatory policies on information manage-  
ment in governments, and public policies that use information tech-  
nologies to address economic and social concerns and their impacts on  
citizens and governmental organizations.

POL S 534. Legal and Ethical Issues in Information Assurance.  
(Cross-listed with CPR E, INFASI). (3-0) Cr. 3. S. Prereq: Graduate classifi-  
cation; CPR E 531 or INFAS 531  
Legal and ethical issues in computer security. State and local codes and  
regulations. Privacy issues.

POL S 535. Contemporary Political Philosophy.  
(Cross-listed with PHIL). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits  
of philosophy or political science  
Examination of theories of justice proposed by contemporary political  
philosophers. Analysis of the philosophical foundations of perspectives  
such as liberalism, libertarianism, communitarianism, socialism, femi-  
nism. Narrative assessments of socio-political institutions.

POL S 542. The Policy and Politics of Coastal Areas.  
(Dual-listed with 442). (Cross-listed with C DEV). (3-0) Cr. 3. SS.  
Exploration of political implications of coastal policy. Issues include:  
“Carrying capacity,” zoning, regulation of human development activities,  
tradeoffs between conservation and jobs, the quality of coastal lifestyle,  
and ways in which citizens participate in policy for coastal areas.

POL S 552. Comparative Foreign Policy.  
(Dual-listed with 452). (3-0) Cr. 3. S. Prereq: 251  
Various theoretical approaches to explain foreign policy making and  
behavior through the use of case studies of selected nations.  
Meets International Perspectives Requirement.

POL S 559. International Relations Theory.  
(3-0) Cr. 3. F. Prereq: 6 credits in international studies  
Selected theoretical writings, both classical and contemporary, on world  
politics. Realism, war and conflict, peace and cooperation, political  
economy, crisis decision making, and transnational relations.

(3-0) Cr. 3. Prereq: 6 credits in American government  
Examination of policy-making and governance in a system of powers  
administration, legislative, administrative agencies, and the public. How  
political and legal forces affect policy makers and are reflected in public  
policies and programs.

POL S 569. Foundations of Public Administration.  
(3-0) Cr. 3. F. Prereq: Graduate classification  
An examination of the social, political, intellectual, and environmental  
factors contributing to the historical development and central issues of  
American Public Administration. Exploration of classic and contempo-  
rary texts of public administration emphasizing constitutional and civic  
roles of public servants, administrative responsibility in democratic gover-  
nance and justice, and essential frameworks to identify managerial skills,  
perspectives, and resources for effective, equitable public service.

POL S 570. Politics and Management of Nonprofit Organizations.  
(3-0) Cr. 3. Prereq: Graduate classification  
Discussion of contemporary issues and perspectives shaping the policy  
development and management of national and international nonprofit  
organizations. Topics include an historic overview of nonprofit and phil-  
anthropic perspectives; exploration of nonprofit organization roles in  
public service provision; review of the legal framework influencing  
nonprofit governance; and consideration of capacity building issues such  
as strategic planning, board development, fundraising, human resources,  
and volunteer management.

POL S 571. Organizational Theory in the Public Sector.  
(3-0) Cr. 3. F. Prereq: Graduate classification  
Major theories of administrative organization, including motivations of  
administrators and organizations, comparisons of organizational arrange-  
ments, factors affecting organizational arrangements, and formal and  
informal decision-making structures.

POL S 572. Public Finance and Budgeting.  
(3-0) Cr. 3. S. Prereq: Graduate classification  
Topics such as the fiscal role of government in a mixed economy; evalu-  
atation of sources of public revenue and credit; administrative, political, and  
institutional aspects of the budget and the budgetary process; alternative  
-budget formats; skills required to analyze public revenue and spending.  
Spreadsheet use required.

POL S 573. Public Personnel Administration.  
(3-0) Cr. 3. S. Prereq: Graduate classification  
Course discusses the history and development of high performance  
personnel administration in the public and nonprofit sectors regarding  
strategic planning, employee rights and responsibilities, performance  
assessment, collective bargaining, and civil service systems. Emphasized  
the core competencies in the essential human resource management tools  
in the areas of recruitment, retention, employee development, compen-  
sation, discipline, and conflict resolution.

POL S 574. Policy and Program Evaluation.  
(3-0) Cr. 3. F. Prereq: Graduate classification  
Integration, application, and utilization of public administration and public  
policy concepts in the interpretation of results and effectiveness of public  
programs and the prediction of consequences for policymakers and  
administrators.

POL S 575. Management in the Public Sector.  
(Dual-listed with 476). (3-0) Cr. 3. S. Prereq: 6 credits in political science  
Literature and research on organizational behavior and management.  
Theory with emphasis on applied aspects of managing contemporary  
public sector organizations. Topics include distinctions between public  
and private organizations, leadership, productivity, employee motivation,  
organizational structure, and organizational change.

(Dual-listed with 476). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Graduate  
classification  
Constitutional problems of delegation of governmental powers, elements  
of fair administrative procedures, and judicial control over administrative  
determinations.
(Dual-listed with 477). (3-0) Cr. 3. F. Prereq: Graduate classification
Diverse perspectives on the changing roles and relationships of business, government and society so as to open the way for more effective policy decisions on corporate-government affairs. Topics may include the changing economy; transformation of workplace and community conditions; consumerism; social responsibilities of businesses; economic policies and regulations; and politics in the business-government relationship.

(Dual-listed with 480). (3-0) Cr. 3. Prereq: 6 credits in political science
Study of decision making approaches and application to case studies. Topics such as the different roles of public officials, proper scope and use of administrative discretion, and the admissibility of religious, political, and philosophical commitments in governmental decision making.

(3-0) Cr. 3. F. Prereq: 6 credits in political science
An overview of the international political economy since the end of World War II. Special emphasis on national (primarily U.S.) development assistance and agricultural/food politics and policies, and those of the international food organizations, the World Bank, and the regional development banks.

POL S 582. Environmental Politics and Policies.
(Dual-listed with 482). (3-0) Cr. 3. F. Prereq: 3 credits in political science or 3 credits in Environmental Studies; graduate classification
Major ideologies relating to conservation and ecology. Processes, participants, and institutions involved in state, national, and global environmental policymaking. Case studies of environmental controversies and proposals for policy reform.

POL S 583. Law and Management.
(Dual-listed with 483). (3-0) Cr. 3. F.
Emerging constitutional/legal doctrines and requirements in public management: concept of new property rights in public employment/public service delivery; procedural due process requirement; scope of free speech and liberty protected in the conduct of public management; equal employment opportunity requirements; and the scope of official and personal immunities and liability in public affairs.

POL S 585. Comparative Public Administration.
(Dual-listed with 485). (3-0) Cr. 3.
Comparison of government bureaucratic in major world regions; trends and issues of administrative and management reforms; globalization and other contemporary challenges to state administrative structures and policies; skills needed to evaluate and implement public management reforms.

POL S 590. Special Topics.
Cr. 2-5. Repeatable. F.S. Prereq: 15 credits in political science, written permission of instructor
A. American Political Institutions
B. Public Law
C. Political Theory and Methodology
D. Comparative Government
E. International Relations
F. Political Parties and Policy Formation
G. Public Administration and Public Policy
H. Internship
I. Teaching Preparation

POL S 598. Public Administration Internship.
Cr. 3-6. Repeatable, maximum of 6 credits. F.S. Prereq: 15 credits in political science, permission of the instructor
Supervised internship with administrative agencies, legislative organizations, judicial branch offices, and nonprofit groups.

POL S 599. Creative Component.
Cr. arr.
Psychology

Undergraduate Study

For college-level requirements in undergraduate curricula leading to the degrees of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curriculum.

An undergraduate major in psychology may be taken as liberal arts education, as preparation for graduate study in psychology, or as background for professional education in law and in the health professions. A student with a bachelor’s degree in psychology may qualify for a variety of positions including those in social sciences, mental health, corrections, rehabilitation, developmental disability centers, business, management, and public opinion surveying. Depending on professional goals, a minor in another discipline may be desirable. Students should consult with their academic advisers early in their undergraduate curriculum. The requirements of the program enable graduates to understand and apply the scientific principles, facts, and basic methods of psychology in their personal and professional activities. Graduates will demonstrate an understanding of the scientific method and will be able to apply that understanding to the study of human behavior and the study of mental processes. They will also demonstrate the ability to effectively communicate their knowledge of psychological concepts through both writing and speech. Graduates will demonstrate a respect for individual and cultural differences and for the ethical issues that relate to the practice of psychology in both research and clinical settings. Professional work with a job title of psychologist in academic, business, clinical, government, and school settings requires graduate degrees.

The major must include the following psychology courses each with a minimum grade of C- and an overall average of C or better:

- **PSYCH 101** Introduction to Psychology 3
- **PSYCH 102** Laboratory in Introductory Psychology 1
- **PSYCH 111** Orientation to Psychology 0.5
- **PSYCH 301** Research Design and Methodology 3
- **PSYCH 340** Psychological Measurement I 3

The major also must include at least one course from four of the following five areas:

**Area A**
- **PSYCH 230** Developmental Psychology
- **PSYCH 250** Psychology of the Workplace

**Area B**
- **PSYCH 280** Social Psychology
- **PSYCH 380** Social Cognition

**Area C**
- **PSYCH 310** Brain and Behavior
- **PSYCH 315** Drugs and Behavior

**Area D**
- **PSYCH 312** Sensation and Perception
- **PSYCH 313** Learning and Memory
- **PSYCH 316** Cognitive Processes
- **PSYCH 318** Thinking and Decision Making (x)

**Area E**
- **PSYCH 360** Psychology of Normal Personality
- **PSYCH 460** Abnormal Psychology

Three additional 3-credit courses in psychology

Three additional 3-credit courses in psychology must be taken. Area courses may be used to meet this requirement, but variable credit courses (PSYCH 470, PSYCH 490, PSYCH 491, and PSYCH 492) may not.

In accordance with college requirements, a C or better average is required in the courses used to satisfy the major.

Departmental requirements for the B.A. and B.S. include the following supporting courses:

- 6 credits in Philosophy including
- PHIL 201 Introduction to Philosophy 3
- Two of the following:
  - BIOL 101 Introductory Biology
  - BIOL 211 Principles of Biology I
  - BIOL 155 Human Biology
  - CHEM 163 College Chemistry
  - GEN 260 Human Heredity and Society
  - BIOL 258 Human Reproduction
- One of the following:
  - STAT 101 Principles of Statistics
  - STAT 104 Introduction to Statistics
  - STAT 226 Introduction to Business Statistics I
- Math course acceptable in LAS General Education Natural Sciences and Mathematics Discipline Area.

* minimum grade of C-
** excluding MATH 105 Introduction to Mathematical Ideas

Students electing a B.S. degree also must complete PSYCH 302 Research Methods in Psychology with a minimum grade of C- and a minimum of 10 additional supporting credits in supporting courses from the list of courses in the LAS Gen Ed Natural Sciences and Mathematical Disciplines Area (or approved departmental list) as follows: three credits in mathematics, six credits in natural sciences, and one additional credit in a laboratory course.

Students electing a B.A. degree also must complete an ISU approved minor.

The department offers a minor in psychology. The minor requires completing 18 credits in psychology, including PSYCH 101 Introduction to Psychology and PSYCH 301 Research Design and Methodology, each with a minimum grade of C-. At least 9 of the 18 credits must be in 300 level courses (or above), but no more than three credits total may be from PSYCH 490 Independent Study, PSYCH 491 Research Practicum, and PSYCH 492 Fieldwork Practicum. A C- or better is required in each course used to satisfy the minor and a C average or better is required in courses used to satisfy the minor. Contact the psychology advising office for more information.

Communication Proficiency requirement
The department requires a grade of:
- C or better in:
  - ENGL 150 Critical Thinking and Communication 3
  - ENGL 250 Written, Oral, Visual, and Electronic Composition 3
  - or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors

- C- or better in:
  - PSYCH 302 Research Methods in Psychology 3
  - ENGL 302 Business Communication 3
  - ENGL 309 Report and Proposal Writing 3
  - ENGL 314 Technical Communication 3

Graduate Study
The department offers work for the degrees master of science and doctor of philosophy in psychology.
The department offers a doctoral specialization in counseling psychology (APA accredited) and doctoral areas of concentration in cognitive psychology and social psychology.

A basic goal of graduate study in the Department of Psychology is to provide all students with a broad base of knowledge in psychological science, as well as exposure to the content and methodological skills necessary for effective performance in teaching, research and professional practice. Accordingly, graduates have an extensive knowledge of psychological principles and the conceptual and quantitative skills to conduct psychological research, communicating the results to the scientific community, students in the classroom, and the general public. Graduates in applied programs have specialized knowledge in counseling and program development. They are skilled in delivering such programs and services to diverse clientele in a variety of settings.

The department also participates in the interdepartmental programs in human computer interaction and neuroscience, and in the interdepartmental minor in gerontology (see Index).

A formal class and a supervised practicum in the teaching of psychology is recommended for doctoral students whose future plans may include teaching at the college level. A 12-month internship in a training site or agency approved by the faculty is required of all doctoral students in counseling psychology.

Communication Disorders (CmDis)  
(Administered by the Department of Psychology)

Courses primarily for undergraduate students

CMDIS 170. Speech Improvement for Nonnative Speakers.  
(2-0) Cr. 2.  
For nonnative speakers of English only. Development of effective English vowel and consonant productions, accommodation processes that occur in context, intelligibility in conversational English, and appropriate stress patterns. Offered on a satisfactory-fail basis only.

CMDIS 275. Introduction to Communication Disorders.  
(Cross-listed with LING). (3-0) Cr. 3.  
Survey of nature, causes, and types of major communication disorders including phonological, adult and child language, voice, cleft palate, fluency, and hearing disorders.

CMDIS 286. Basic Sign Language.  
(Cross-listed with LING). (3-0) Cr. 3.  
Development of basic skills in the use and understanding of signed English, a modification of American Sign Language. Overview of the types, causes and consequences of hearing impairment, deaf culture and the education of hearing-impaired children.  
Meets U.S. Diversity Requirement

CMDIS 371. Phonetics and Phonology.  
(Cross-listed with LING). (3-0) Cr. 3. Prereq: 275 or ENGL 219  
Analysis of speech through study of individual sounds, their variations, and relationships in context; English phonology; practice in auditory discrimination and transcription of sounds of American English; description of speech sounds in terms of their production, transmission, and perception.

CMDIS 471. Language Development.  
(Cross-listed with LING). (3-0) Cr. 3. Prereq: 275 or PSYCH 230 or ENGL 219  
Definition of components of language. Overview of theories and developmental processes related to each component of linguistic skill (semantics, lexicon, syntax, morphology, phonology, pragmatics). Overview of normative information available for infants, children, adolescents, and adults. Attention to metalinguistic skills and the complementary nonlinguistic and paralinguistic skills. Nonmajor graduate credit.

Psychology (Psych)

Courses primarily for undergraduate students

PSYCH 101. Introduction to Psychology.  
(3-0) Cr. 3. F.S.SS.  
Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.

H. Honors section. (2-2) Fall. (For students in the University Honors Program only.)

PSYCH 102. Laboratory in Introductory Psychology.  
(0-2) Cr. 1. F.S. Prereq: Credit or enrollment in 101 Laboratory to accompany 101.

PSYCH 111. Orientation to Psychology.  
Cr. 0.5. F.S.  
Program requirements and degree/career options. Required of psychology majors. Offered on a satisfactory-fail basis only.

PSYCH 112. Psychology Learning Community Seminar.  
(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S. Prereq: Participation in Freshman Learning Community  
Topics include orientation to academic program requirements, career awareness, strategies for successful transition to college, connections with other disciplines, and applying psychology via service learning opportunities. Offered on a satisfactory-fail basis only.

(0-2) Cr. 1. F.S.  
Efficient methods of study and reading. Offered on a satisfactory-fail basis only.

PSYCH 230. Developmental Psychology.  
(3-0) Cr. 3. F.S.SS.  
Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment.

PSYCH 250. Psychology of the Workplace.  
(3-0) Cr. 3.  
Survey of theories, research methods, and applications of industrial and organizational psychology from the scientist-practitioner approach. Personnel topics include selection, training, and performance appraisal; organizational topics include leadership, motivation, job attitudes and behaviors and organizational climate.

PSYCH 280. Social Psychology.  
(3-0) Cr. 3. F.S.SS.  
Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

PSYCH 301. Research Design and Methodology.  
(3-0) Cr. 3. F.S.SS. Prereq: STAT 101; 1 course in psychology  
Overview of the principal research techniques used in psychology with an emphasis on the statistical analysis of psychological data.

(2-2) Cr. 3. F.S. Prereq: 301  
Discussion of and experience in designing research studies, collecting and analyzing data, and preparing research reports in psychology.

PSYCH 310. Brain and Behavior.  
(3-0) Cr. 3. F.S. Prereq: 101  
Survey of basic concepts in the neurosciences with emphasis on brain mechanisms mediating sensory processes, arousal, motivation, learning, and abnormal behavior.
PSYCH 312. Sensation and Perception.
(3-0) Cr. 3. F.S. Prereq: 101
Survey of the physiology and psychology of human sensory systems including vision, audition, smell, taste, the skin senses, and the vestibular senses.

PSYCH 313. Learning and Memory.
(3-0) Cr. 3. F.S. Prereq: 101
Survey of fundamental concepts and theories related to learning and memory derived from human and animal research.

PSYCH 314. Motivation.
(3-0) Cr. 3. F.S. Prereq: 101
Concepts and topics of motivation including curiosity, pain, emotion, sex, aggression, love, play, addiction, sleep, fatigue, and work.

PSYCH 315. Drugs and Behavior.
(3-0) Cr. 3. F.S. Prereq: 101, BIOL 155 or 211
A biological perspective on fundamentals of psychoactive drugs and their use in experimental, therapeutic, and social settings.

(3-0) Cr. 3. F.S. Prereq: 101
The study of the human mind, addressing the processes by which people perceive the world, remember information, access and use knowledge, understand language, make decisions, reason, learn and solve problems.

PSYCH 318. Thinking and Decision Making.
(3-0) Cr. 3. F.S. Prereq: PSYCH 101; STAT 101 or MATH 104 or equivalent
Understanding human reasoning and decision making, including evaluating evidence, judging probabilities, emotional influences, and social dilemmas, with emphasis on the mechanisms that underlie decision making.

PSYCH 333. Educational Psychology.
(Cross-listed with C I). (3-0) Cr. 3. F.S. Prereq: PSYCH 230 or HD FS 102, application to the teacher education program or major in psychology
Classroom learning with emphasis on theories of learning and cognition, and instructional techniques. Major emphasis on measurement theory and the classroom assessment of learning outcomes.

PSYCH 346. Psychology of Women.
(Cross-listed with W S). (3-0) Cr. 3. S. Prereq: 2 courses in psychology including 101
Survey of theory and research related to major biological, interpersonal, and cultural issues affecting girls' and women's psychological development and behavior.

Meets U.S. Diversity Requirement

PSYCH 347. U.S. Latino/a Psychology.
(3-0) Cr. 3. S. Prereq: Two courses in Psychology including 101
Historical, political, and social contexts of psychological and mental health constructs in terms of their validity and utility for use in Latino/a people in the U.S. Unique aspects of psychological functioning particular to Latino/a peoples in the U.S.

Meets U.S. Diversity Requirement

PSYCH 348. Psychology of Religion.
(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: Nine credits in psychology
Survey of psychological theory and research investigating religious and spiritual attitudes, beliefs and practices.

(3-0) Cr. 3. F. Prereq: 101; junior classification
Understanding human behavior and cognition in the context of modern technologies. Focus on emergent interactive technologies, human computer interaction, user centered design, usability analysis, and usability testing.

PSYCH 360. Psychology of Normal Personality.
(3-0) Cr. 3. F.S.S. Prereq: 101
Theories and research in the study of development and functioning of normal personality.

(3-0) Cr. 3. Prereq: 101 or 280
How people understand themselves and others, including attribution, social categories and schemas, the self, social inference, stereotypes, and prejudice.

(Cross-listed with SOCI). (3-0) Cr. 3. S. Prereq: 280 or SOC 305
A survey of small group theory and research from an interdisciplinary, social psychological perspective.

PSYCH 383. Psychology and Law.
(3-0) Cr. 3. F.S. Prereq: 101 or 280
Survey of topics in the interface between psychology and the legal system including but not limited to theories of crime, policing, eyewitness reliability, jury behavior, competence and insanity, and trial processes.

PSYCH 401. History of Psychology.
(3-0) Cr. 3. F. Prereq: PSYCH 101; PSYCH 310 or equivalent
Philosophy and science backgrounds of psychology. Development of theories and causes of events in academic and applied psychology. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: PSYCH 101; PSYCH 310 or equivalent
Examination of the neuroanatomical foundation of cognition, affect, and action from a neurological perspective. Focus on basic and applied research with neurological patients. Nonmajor graduate credit.

PSYCH 411. Evolutionary Psychology.
(3-0) Cr. 3. S. Prereq: Junior classification, three courses in psychology; one course in biology
Examination of the application of the principles of evolutionary biology to the understanding of human behavior. Evolutionary perspectives on brain development, cognition, language, mating behavior, sex differences, altruism, artistic behavior, and criminal behavior are explored. Arguments by those critical of the evolutionary approach to psychology are also examined.

PSYCH 413. Psychology of Language.
(Cross-listed with LING). (3-0) Cr. 3. Prereq: PSYCH 101
Introduction to psycholinguistics. Topics may include origin of language, speech perception, language comprehension, reading, bilingualism, brain bases of language, and computational modeling of language processes. Nonmajor graduate credit.

PSYCH 422. Counseling Theories and Techniques.
(3-0) Cr. 3. F. Prereq: 3 courses in psychology
Overview of the major counseling theories and techniques, with emphasis on the key concepts of each theory, the role of the counselor, therapeutic goals, and the main techniques derived from each theory. Nonmajor graduate credit.

L. Laboratory in Counseling Theory and Techniques

PSYCH 422L. Laboratory in Counseling Theory and Techniques.
(0-2) Cr. 1. F. Prereq: Three classes in psychology and credit or enrollment in PSYCH 422
Learn basic counseling skills such as active listening, reflecting feelings, empathy, confrontation, immediacy and self-disclosure. Supervised practice using basic counseling skills.
PSYCH 440. Psychological Measurement I.
(2-2) Cr. 3. F.S.SS. Prereq: 201 and 9 credits in psychology, STAT 101
Principles of psychological measurement, including concepts of reliability
and validity; interpretation of scores; factors influencing performance;
construction and use of measures of ability, achievement, and person-
ality. Nonmajor graduate credit.

PSYCH 450. Industrial Psychology.
(3-0) Cr. 3. F.S. Prereq: 2 courses in psychology including 101, STAT 101
Theory, content and methods of industrial psychology related to the
effective operation of organizations including the different approaches
used to select employees, how to conduct performance appraisals, and
how to train employees in organizations. Work attitudes and behaviors
of employees, work schedules, and human factors as well as relevant legal
issues. Statistics including regression and correlation are used. Nonmajor
graduate credit.

PSYCH 460. Abnormal Psychology.
(3-0) Cr. 3. F.S.SS. Prereq: 3 courses in psychology including 101
Description of major forms of maladaptation including anxiety, mood
disorders, personality disorders, substance dependence, and schizo-
phrenia. Factors in the development of behavior deviations. Research
pertinent to the description, development, and maintenance of abnormal
behavior. Nonmajor graduate credit.

PSYCH 470. Seminar in Psychology.
(1-0) Cr. 1-3. Repeateable. Prereq: 12 credits in psychology
Current topics in psychological research and practice.
A. Counseling
B. Experimental
C. Individual Differences
D. Social

PSYCH 484. Psychology of Close Relationships.
(3-0) Cr. 3. Prereq: 9 credits in psychology including 280
Theories and research concerning the functions, development, and dete-
rination of close relationships. Influence of psychological processes on
friendship, romantic, marital, and family relationships. Topics include
mate selection, interdependence, trust and commitment, power and
dominance in relationships, sexuality, divorce, gender roles, and family
interaction. Nonmajor graduate credit.

PSYCH 485. Health Psychology.
(3-0) Cr. 3. F. Prereq: Junior classification, 6 credits in psychology
Application of psychological theory and research methods to issues in
physical health. Psychological factors in illness prevention, health mainte-
nance, treatment of illness, recovery from injury and illness, and adjust-
ment to chronic illness. Nonmajor graduate credit.

PSYCH 487. Human Agression.
(3-0) Cr. 3. S. Prereq: 230, 301, 313, 316, or 380
Theory and research on development and occurrence of human agres-
sion; implications for prevention and treatment.

PSYCH 488. Cultural Psychology.
(3-0) Cr. 3. Prereq: 280 and 301; junior classification
Examination of the ways that cultural beliefs, values, and ideolo-
gies shape cognitive, developmental, social and other psychological
phenomena. Nonmajor graduate credit.

Meets International Perspectives Requirement.

PSYCH 490. Independent Study.
Cr. 1-3. Repeateable, maximum of 9 credits. F.S.SS. Prereq: Junior classifi-
cation, 6 credits in psychology, and permission of instructor
Supervised reading in an area of psychology. Writing requirement. No
more than 9 credits of Psych 490 may be counted toward a degree in
psychology.

PSYCH 491. Research Practicum.
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Junior classifi-
cation, permission of instructor, and credit or enrollment in 301
Supervised research in an area of psychology. Primarily for students
intending to pursue graduate education. No more than 9 credits of Psych
491 may be counted toward a degree in psychology.

PSYCH 492. Fieldwork Practicum.
Cr. arr. Repeatable, maximum of 9 credits. F.S.SS. Prereq: Junior classifi-
cation, 12 credits in psychology, and permission of instructor.
Supervised fieldwork in a human service agency or other appropriate
setting. Offered on a satisfactory-fail basis only. No more than 9 credits of
Psych 492 may be counted toward a degree in psychology.

Courses primarily for graduate students,
open to qualified undergraduate students

(3-0) Cr. 3. F. Prereq: STAT 401 or equivalent
Ethical issues, research design, sampling design, measurement issues,
power and precision analysis, interpretation of statistical results in non-
experimental, quasi-experimental, and experimental research, use of
statistical packages.

(3-0) Cr. 3. Prereq: 440, STAT 401
Methods and issues in applied psychological research. Role of theory
in research, fidelity of measurement, selection of subjects, sampling,
ethical issues, experimenter bias, data collection methods, power
analysis, and professional standards for writing research articles.
Emphasis on research methodological issues, not statistical issues.

PSYCH 516. Advanced Cognition.
(3-0) Cr. 3. F.S. Prereq: 316
Theoretical models and empirical research in human cognition within the
domains of perception, attention, memory, language, concepts/catego-
rization and spatial cognition.

PSYCH 517. Psychopharmacology.
(3-0) Cr. 3. Prereq: 310, 315, or equivalent and permission of instructor
Fundamentals of drug-behavior interactions with emphasis on psychoac-
tive drugs and their use in experimental, therapeutic, and social settings.

(3-0) Cr. 3. Prereq: 310 and 316 or 313
Psychological models and related neurological substrates underlying
cognition in normal and brain-damaged individuals.

PSYCH 521. Cognitive Psychology of Human Computer Inter-
action.
(Cross-listed with HCI). (3-0) Cr. 3. Prereq: Graduate classification or
instructor approval
Biological, behavioral, perceptual, cognitive and social issues relevant to
human computer interactions.

PSYCH 522. Scientific Methods in Human Computer Interac-
tion.
(Cross-listed with HCI). (3-0) Cr. 3. Alt. S., offered 2013. Prereq:
PSYCH 521 and STAT 101 or equivalent
Basics of hypothesis testing, experimental design, analysis and interpre-
tation of data, and the ethical principles of human research as they apply
to research in human computer interaction.

PSYCH 533. Educational Psychology of Learning Cognition,
and Motivation.
(Cross-listed with C I). (3-0) Cr. 3. F. Prereq: 333 or teacher licensure
Learning, cognition, and memory in educational/training settings.
(Cross-listed with HD FS). (3-0) Cr. 3. F. Prereq: 9 credits in human development and family studies or psychology
Theories, research, and current issues regarding development in children with disabilities. Investigation of interventions with children and families. WWW only.

PSYCH 542. Introduction to Psychological Assessment.
(3-0) Cr. 3. F. Prereq: 440
Theory and research concerning assessment of intelligence and achievement with emphasis on developmental patterns and diagnosis of learning problems. Critical examination of current assessment practices in clinical and educational settings.

PSYCH 544. Practicum in Assessment.
(2-1) Cr. 2. Prereq: 542 and admission into the PhD program in counseling psychology
Supervised practice in designing and implementing observational systems and in administering, scoring, interpreting, and reporting individual tests.

A. Behavioral Assessment
B. Individual Tests: Children
C. Testing: Adult Ages

PSYCH 560. Advanced Personality Psychology.
(3-0) Cr. 3. Prereq: 4 courses in psychology, including 360
Analysis of theories of personality, concepts, methods, and current research issues.

PSYCH 561. Psychopathology and Behavior Deviations.
(3-0) Cr. 3. Prereq: 460
Examination of theoretical perspectives and current research pertinent to the major forms of adult dysfunction including: adjustment, anxiety, mood, somatoform, dissociative, sexual and gender identity, personality, schizophrenic, eating, and substance abuse disorders.

PSYCH 562. Personality Assessment.
(3-0) Cr. 3. Prereq: 360, 440, 542, and STAT 401 and admission to the PhD program in counseling psychology
Principles, concepts, and methods of personality assessment. Though not a practicum course, exposure is given to a variety of objective, projective, and situational tests.

(3-0) Cr. 3. Prereq: 4 courses in psychology, including 280
Current theories, methods, and research in social psychology with an emphasis on cognitive and interpersonal processes such as attribution, social cognition, attitude change, attraction, aggression, and social comparison.

PSYCH 581. Applications of Social Psychology Theories.
(3-0) Cr. 3. Prereq: 12 credits in psychology, including 280
Application of social psychological theory to various applied topics, including physical and mental health, stress, and coping.

PSYCH 590. Special Topics.
Cr. arr. Repeatable. Prereq: 12 credits in psychology, and permission of instructor
Guided reading on special topics or individual research projects.

A. Counseling
Q. Cognitive
R. Social
Z. General

PSYCH 592. Seminar in Psychology.
(1-0) Cr. 1-3. Repeatable. Prereq: 12 hours in psychology or graduate classification.
A. Counseling
B. Industrial-Organizational
M. Professional issues and Ethics
P. Research Methods and Psychometrics
**PSYCH 633. Teaching of Psychology.**
(3-0) Cr. 3. Prereq: Enrollment in doctoral degree program in psychology, completion of at least 1 year of graduate study, permission of instructor
Orientation to teaching of psychology at college level: academic issues and problems, instructional and evaluative techniques.

**PSYCH 691. Practicum in Psychology.**
Cr. arr. Prereq: Permission of instructor
Supervised practice and experience in the following fields of specialization in applied psychology:

**PSYCH 692. Research Seminar.**
(1-0) Cr. 1-3. Repeatable. Prereq: Permission of instructor
A. Counseling Q. Cognitive R. Social Z. General

**PSYCH 697. Internship in Counseling Psychology.**
Cr. R. Prereq: Ph.D. candidacy in the Counseling Psychology program, approved dissertation proposal, and permission of instructor
Full time supervised predoctoral internship experience in a setting relevant to counseling psychology.

**PSYCH 699. Research.**
Cr. arr. Repeatable.
Offered on a satisfactory-fail basis only.
Sociology

Undergraduate Study

Sociology graduates will understand and demonstrate:

1. general knowledge of sociology
2. research methods in sociology
3. critical thinking skills
4. application of sociology to pressing social issues
5. sociological and professional values
6. information technology
7. communication skills
8. personal and career development

The department offers course work leading to either a bachelor of arts or bachelor of science in sociology. Additionally, a bachelor of science in Public Service and Administration in Agriculture is offered. The department offers course work for the Interdisciplinary Studies major in Criminal Justice and a minor in Criminal Justice Studies. Programs of study in sociology offered in both the College of Agriculture and the College of Liberal Arts and Sciences are outlined in this section. For the undergraduate curriculum in Liberal Arts and Sciences, with a major in sociology leading to the degree of bachelor of arts and bachelor of science, see Liberal Arts and Sciences, Curricula. For the undergraduate curriculum in agriculture, with major in public service and administration in agriculture, leading to the degree bachelor of science, see Agriculture, Curriculum in Public Service and Administration in Agriculture. For the undergraduate curriculum in Liberal Arts and Sciences, with a minor in criminal justice studies, see Liberal Arts and Sciences, Curriculum.

Graduates understand how social institutions, communities, and organizations work and change; they can examine the causes and consequences of conformity, deviance, and inequality. They can apply sociological understanding of human behavior to practical work situations and everyday life. Graduates can read critically, think independently, and communicate effectively about social issues and social policy.

College of Liberal Arts and Sciences—Sociology

A major in sociology can serve as a liberal arts education; as preparation for various positions in social service and related occupations in business and industry; as background for professional education in such areas as law and theology or as a basis for graduate professional training as a sociologist in academic, government, business, and industrial settings.

Departmental requirements for sociology majors include the following supporting course:

| PHIL 230 | Moral Theory and Practice | 3 |
| One upper level PHIL course |  |
| One of the following |  |
| ENGL 302 | Business Communication |  |
| ENGL 309 | Report and Proposal Writing |  |
| ENGL 314 | Technical Communication |  |
| STAT 101 | Principles of Statistics | 4 |
| or STAT 104 | Introduction to Statistics |  |
| At least 3 additional credits with a Mathematics designator | 3 |

A program of study that meets the needs and interests of the student and department requirements will be developed in consultation with the major adviser. Programs of study will include:

| SOC 115 | Orientation to Sociology | R |
| SOC 130 | Rural Institutions and Organizations | 3 |
| or SOC 134 | Introduction to Sociology |  |
| SOC 202 | Introduction to Research Methods | 3 |
| 3 credits from the following | 3 |
| SOC 310 | Community |  |

Majors must receive grades of C or better in ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition, and a grade of C or better in either ENGL 302 Business Communication or ENGL 309 Report and Proposal Writing or ENGL 314 Technical Communication. Programs leading to a bachelor of arts degree will emphasize additional coursework in groups I, II, and IV of the general education requirements. Programs leading to a bachelor of science degree will emphasize additional coursework in groups III and IV of the general education requirements. Some of the possible fields of concentration are criminal justice systems, community (urban and rural), sociology, family sociology, sociology of work, social science teaching, research methods and statistics, social change and development, complex organizations, human population and ecology, social inequality, social psychology, and sociological theory.

In consultation with their advisers, students may gain work experience and develop their skills in their field of concentration through the field observation and practice options of 460.

The department offers a minor in sociology which may be earned by completing 15 credits in sociology including:

| SOC 130 | Rural Institutions and Organizations | 3 |
| or SOC 134 | Introduction to Sociology |  |
| 3 credits from the following | 3 |
| SOC 310 | Community |  |
| SOC 380 | Sociology of Work |  |
| SOC 402 | Complex Organizations |  |
| 3 credits from the following | 3 |
| SOC 305 | Social Psychology: A Sociological Perspective |  |
| SOC 381 | Social Psychology of Small Group Behavior |  |
| Additional 6 credits in Sociology courses | 6 |

At least 9 of the 15 credits must be at the 300 level or higher, 6 of these credits must be taken at ISU with a minimal grade of C.

College of Agriculture—Public Service and Administration in Agriculture

The curriculum in public service and administration in agriculture is designed for students who desire an interdisciplinary education to pursue a career with agriculturally related governmental and nonprofit agencies, or with businesses and industries that are concerned with public services in agriculture, natural resources or rural communities. Students will explore the planning and implementing of rural and agriculturally related programs in organizations, communities (town, city, or county), multicounty areas, states, regions, and at the federal level.

The curriculum has a broad base of general education subjects including credits in communications, mathematics, physical and biological sciences, social sciences, and humanities. The technical subjects represent a combination of sociology, economics, public administration and agriculture, with emphases on social and economic change, history of public services, complex organizations, interagency relationships, community leadership, community action, adoption and diffusion, group
dynamics, and political and legal behavior as they relate to agriculture and rural areas. For the Interdisciplinary Studies major in Criminology and Criminal Justice, see Liberal Arts and Sciences, Curriculum.

Graduate Study

The department offers work for the degrees master of science and doctor of philosophy with majors in sociology and rural sociology and minor work for students majoring in other departments. For M.S. and Ph.D. departmental requirements, see Program of Graduate Study for Degrees in Sociology and Rural Sociology, available from the department office. The department offers concentrations in a number of areas, e.g., community studies and development; sociology of families, inequality, food systems, agriculture and environment; methodology; social change and development; criminology; the economy, organizations and work; and social psychology. The Department of Sociology does not offer a nonthesis master's program.

Graduates have a broad understanding of sociology, address complex societal problems, and communicate effectively with scientific colleagues and the general public in both formal and informal settings. They understand sociological theory, conduct research, and are prepared to educate college students and contribute to public policy. Although the department stipulates no language requirement for either the degree master of science or the degree doctor of philosophy, specifying competence in one or more languages may be desirable in some instances.

The department also participates in the interdepartmental program in interdisciplinary majors in sustainable agriculture, transportation and water resources, and interdepartmental minors in gerontology (see Index).

Curriculum in Public Service and Administration in Agriculture

Administered by the Department of Sociology

Total Degree Requirement: 128 cr.

Only 65 cr. from a two-year institution may apply which may include up to 16 technical cr.; 9 P-NP cr. of free electives; 2.00 minimum GPA.

International Perspective: 3 cr.

U.S. Diversity: 3 cr.

Communications Proficiency (C or better):

6 credits of English Composition

Three credits of Speech Fundamentals

Communication/Library:

ENGL 150 Critical Thinking and Communication

ENGL 250 Written, Oral, Visual, and Electronic Composition

SP CM 212 Fundamentals of Public Speaking

JL MC 305 Publicity Methods

LIB 160 Library Instruction

0.5

Humanities and Social Sciences: 6 cr.

3 credits from approved humanities list

3 credits from approved social science list

Ethics: 3 cr.

3 cr. from approved list.

Life Sciences: 6 cr.

BIOL 101 Introductory Biology

or BIOL 211 Principles of Biology I

Three credits from approved life sciences list

Total Credits

Mathematical and Physical Sciences: 12 cr.

MATH 150 Discrete Mathematics for Business and Social Sciences

STAT 101 Principles of Statistics

Five credit hours from:

MTEOR 206 Introduction to Weather and Climate

AGRON 206 Introduction to Weather and Climate

or ASTR 100, CHEM, GEOL, PHYS.

Total Credits

Sociology 15 cr.

SOC 110 Orientation to Public Service and Administration in Agriculture

SOC 130 Rural Institutions and Organizations

SOC 325 Transition in Agriculture

or SOC 382 Environmental Sociology

SOC 415 Dynamics of Social Change

SOC 420 Complex Organizations

or SOC 380 Sociology of Work

SOC 464 Community Action and Leadership

Total Credits

Economics and Agricultural Education and Studies: 16 cr.

ECON 101 Principles of Microeconomics

ECON 102 Principles of Macroeconomics

ECON 235 Introduction to Agricultural Markets

or ECON 380 Environmental and Resource Economics

ECON 344 Public Finance

AGEDS 451 Agricultural Law

Total Credits

Political Sciences: 15 cr.

POL S 215 Introduction to American Government

POL S 310 State and Local Government

POL S 371 Introduction to Public Administration

POL S 475 Management in the Public Sector

C R P 455 Community Economic Development

Total Credits

Additional Pol S, Econ, or Soc at 300 level or above.

Agricultural Sciences: 9 cr.

Complete 9 cr. from MTEOR 206 Introduction to Weather and Climate or AGRON, An S, AST, Ent, FS HN, Hort, or NREM.

Area of Concentration: 15 cr.

Complete 15 cr. from approved specialization area.

Courses primarily for undergraduate students

SOC 110. Orientation to Public Service and Administration in Agriculture.

Cr. R. F.

Survey of public service and administration in agriculture. Exploration of career tracks and career planning. Recommended during first semester of freshman year or as soon as possible after transfer into the department.

SOC 115. Orientation to Sociology.

Cr. R. F.

Orientation to sociology. A familiarization with University and LAS College requirements and procedures. Occupational tracks and career options open to sociology; introduction to career planning. Recommended during first semester of freshman year, or as soon as possible after transfer into the department. Offered on a satisfactory-fail basis only.
SOC 130. Rural Institutions and Organizations.
(3-0) Cr. 3. F.
An introductory analysis of sociological concepts and theories as they relate to rural institutions and organizations. Emphasis on the static structure and function of these institutions and organizations and on their dynamic adaptation to changing societal, environmental, and economic conditions. General sociological principles and perspectives. Credit for only Soc 130 or 134 may be applied toward graduation.

SOC 134. Introduction to Sociology.
(3-0) Cr. 3. F.S.S.
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure. Credit for only Soc 130 or 134 may be applied toward graduation.

H. Honors.

(3-0) Cr. 3. F.S. Prereq: 130 or 134, credit in STAT 101 or concurrent enrollment in STAT 101
A survey of the principal research methods used in sociological analysis.

(3-0) Cr. 3. F.S.S. Prereq: 130 or 134
Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singleness, dating and courtship; sexuality; mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationships will also be explored.

SOC 220. Globalization and Sustainability.
(Cross-listed with ANTHR, ENV S, GLOBE, M E, M AT E, T SC). (3-0) Cr. 3. F.S.
An introduction to understanding the key global issues in sustainability. Focuses on interconnected roles of energy, materials, human resources, economics, and technology in building and maintaining sustainable systems. Applications discussed will include challenges in both the developed and developing world and will examine the role of technology in a resource-constrained world. Cannot be used for technical elective credit in any engineering department.

Meets International Perspectives Requirement.

SOC 235. Social Problems and American Values.
(3-0) Cr. 3. F.S. Prereq: 130 or 134
Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy.

Meets U.S. Diversity Requirement

(Cross-listed with CJ ST). (3-0) Cr. 3. F. Prereq: 130 or 134
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.

(3-0) Cr. 3. F. Prereq: SOC 130 or 134; STAT 101; or concurrent enrollment in STAT 101
Introduction to the principal research methods used in sociology, including survey research, interviewing, content analysis, experiments, ethnographies, focus groups, historical analysis, and analysis of secondary data. Instruction on sampling and the principles of validity and reliability underlying quantitative and qualitative methods. Training in data analysis using statistical software packages.

(3-0) Cr. 3. F.S.SS. Prereq: 130 or 134
Examination of human behavior in a social environment with emphasis on development of the self, interpersonal relations, attitudes, and small groups.

SOC 310. Community.
(3-0) Cr. 3. F. Prereq: 130 or 134
Analysis of evolving theory and research of community as an ideal type, an ecological system, a political economy, and an interactional field; examination of the impact of economic, cultural, social and political infrastructures on community power structures and change processes in a global era.

SOC 325. Transition in Agriculture.
(3-0) Cr. 3. S. Prereq: 130 or 134 or permission of instructor
The impacts of agricultural changes on farm families, rural communities, and consumers. Past, present, and future trends in family farms and their social implications.

Meets U.S. Diversity Requirement

SOC 327. Sex and Gender in Society.
(Cross-listed with WS). (3-0) Cr. 3. F.S.SS. Prereq: 130 or 134
How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of the social-psychological and sociological bases for behavior and attitudes of women and men. The relationship between gender, class, and race.

Meets U.S. Diversity Requirement

SOC 328. Sociology of Masculinities and Manhood.
(Cross-listed with WS). (3-0) Cr. 3. S. Prereq: SOC 130, 134, or WS 201
Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories on gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age.

Meets U.S. Diversity Requirement

SOC 330. Ethnic and Race Relations.
(Cross-listed with AF AM). (3-0) Cr. 3. F.S.SS. Prereq: 130 or 134
Analysis of ethnic and race relations, particularly in America; emphasis on the sociology and psychology of race and ethnic relations.

Meets U.S. Diversity Requirement

SOC 331. Social Class and Inequality.
(3-0) Cr. 3. F.S.SS. Prereq: 130 or 134
Social stratification and processes resulting in social and economic inequalities; implications of status, class, and poverty for people of different races, ethnicities, and gender.

Meets U.S. Diversity Requirement

SOC 332. The Latino/Latina Experience in U.S. Society.
(3-0) Cr. 3. F. Prereq: 130 or 134
Examination of the social, historical, economic and political experience of varied Latino ethnic groups in the U.S. - primarily focusing on Mexican, Puerto Ricans, and Cubans.

Meets U.S. Diversity Requirement

SOC 334. Politics and Society.
(Cross-listed with POL S). (3-0) Cr. 3. F. Prereq: A course in political science or sociology
The relationship between politics and society with emphasis on American society. Discussion of theories of inequality, power, social movements, elites, ruling classes, democracy, and capitalism.
SOC 340. Deviant and Criminal Behavior.
(Cross-listed with CJ ST). (3-0) Cr. 3. S.SS. Prereq: 130 or 134
Theory and research on the etiology of types of social deviance; issues relating to crime, antisocial behavior and social policies designed to control deviant behavior.

SOC 341. Criminology.
(Cross-listed with CJ ST). (3-0) Cr. 3. F. Prereq: 130 or 134
The nature of crime and criminology; the concept of crime; statistics and theories of criminality; major forms of crime; official responses to crime and control of crime.

(Cross-listed with ENV S). (3-0) Cr. 3. F. Prereq: 130 or 134
Human population growth and structure; impact on food, environment, and resources; gender issues; trends of births, deaths, and migration; projecting future population; population policies and laws; comparison of the United States with other societies throughout the world.
Meets International Perspectives Requirement.

SOC 351. Police and Society.
(Cross-listed with CJ ST). (3-0) Cr. 3. F.S. Prereq: SOC 241 or CJ ST 240
Introduction and overview of law enforcement in the United States. Theory and research on police history, function, and organization; constitutional issues of policing; and critical topics, such as community policing, officer discretion and decision-making, corruption, use of force, and racial profiling. The course illustrates the interconnections between communities, police organizations, citizens, and criminal offenders.

SOC 352. Punishment, Corrections, and Society.
(Cross-listed with CJ ST). (3-0) Cr. 3. F.S. Prereq: SOC 241 or CJ ST 240
Introduction and overview of corrections in the United States. Theory and research on probation, parole, intermediate sanctions, prison, inmate society, inmate behavior and misconduct, capital punishment, recidivism, correctional treatment, rehabilitation, and offender reintegration into society.

SOC 362. Applied Ethics in Agriculture.
(Cross-listed with ECON). (3-0) Cr. 3. Prereq: ECON 101 or SOC 130 or SOC 134, junior or senior status in the College of Agriculture
Identify major ethical issues and dilemmas in the conduct of agricultural and agribusiness management and decision making. Discuss and debate proper ethical behavior in these issues and situations and the relationship between business and personal ethical behavior.

(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: Prior course work in Religious Studies or Sociology recommended
The influence of religion in society, both as a conservator of values and as a force for social change. Nonmajor graduate credit.

(3-0) Cr. 3. F.S. Prereq: 130 or 134
Inequalities (gender, race, class) related to jobs, occupations, firms, and industries. Satisfaction, rewards, alienation, discrimination, and other topics of importance to workers are examined.

(Cross-listed with PSYCH). (3-0) Cr. 3. S. Prereq: SOC 305 or PSYCH 280
A survey of small group theory and research from an interdisciplinary, social psychological perspective.

SOC 382. Environmental Sociology.
(Cross-listed with ENV S). (3-0) Cr. 3. F.S. Prereq: SOC 130, 134 or 3 credits of Env S
Environment-society relations; social construction of nature and the environment; social and environmental impacts of resource extraction, production, and consumption; environmental inequality; environmental mobilization and movements; U.S. and international examples.

SOC 401. Contemporary Sociological Theories.
(3-0) Cr. 3. F.S.SS. Prereq: 9 credits in sociology
Both historical and modern social theories as applied to understanding and researching the social world. Nonmajor graduate credit.

SOC 402. White-Collar Crime.
(Cross-listed with CJ ST). (3-0) Cr. 3. S. Prereq: SOC 241 or CJ ST 240
Introduction and overview of white-collar crime as a form of deviance. Theory and research on occupational, corporate, and organizational offending; prevalence, costs, and consequences of white-collar crime; predictors and correlates of white-collar crime; and political, business, and public policy responses to white-collar crime.

SOC 411. Social Change in Developing Countries.
(3-0) Cr. 3. S. Prereq: 130 or 134 plus 3 credits in social sciences
Social change and development in developing countries; international interdependence; causes and consequences of persistent problems in agriculture, city growth, employment, gender equality, basic needs; local and worldwide efforts to foster social change and international development. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SOC 412. Senior Seminar on Career Development.
(1-0) Cr. 1. F. Prereq: Most of major core courses, senior classification
Transition from student to professional. Career development procedures including self-assessment, short- and long-term goals, strategies for the job search, development of contacts and sources, resumes and interviews. Enrollment preferred in first semester as senior. Offered on a satisfactory-fail basis only.

SOC 415. Dynamics of Social Change.
(3-0) Cr. 3. F. Prereq: 130 or 134 plus 3 credits in social sciences
Examination of public responses to complex and controversial innovations, such as environmentalism, feminism, stem-cell research, same-sex marriage, large-scale hog lots, and others. Strategies for gaining adoption/rejection of controversial innovations. Applications to topics in agriculture, development, business, and marketing. Nonmajor graduate credit. Credit for only Soc 415 or 515 may be applied toward graduation.

SOC 420. Complex Organizations.
(3-0) Cr. 3. F.S. Prereq: 130 or 134 plus 3 credits in social sciences
Study of bureaucracies and other large organizations as social systems through the perspective of basis social processes and structural variables. Incorporates topics of organizational effectiveness, power and change. Nonmajor graduate credit.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 130 or 134 plus 3 credits in social sciences
Development of cities and urban systems; human and spatial ecology; urban transformation, decline, and revitalization; poverty; immigration; homelessness; residential segregation; housing policy; urban social movements; local governance; alternative solutions and planning for cities; international comparisons.

SOC 460. Criminal and Juvenile Justice Practicum.
(Cross-listed with CJ ST). Cr. 3-12. Repeatable, maximum of 12 credits.
F.S.SS. Prereq: Junior or senior classification; permission of criminal justice studies coordinator; major or minor in sociology, or criminal justice studies minor
Study of the criminal and juvenile justice systems and social control processes. Supervised placement in a police department, prosecutor’s office, court, probation and parole department, penitentiary, juvenile correctional institution, community-based rehabilitation program, or related agency. Offered on a satisfactory-fail basis only. Not more than a total of 12 credits of field experience (Soc 454 and 460) may be counted toward graduation. No credits in Soc 460 may be used to satisfy minimum sociology requirements for sociology majors.
(3-0) Cr. 3. S.SS. Prereq: 6 credits in sociology  
Methods of planning, organizing, and conducting planned social change  
and other action programs in communities. Strategies of change, change  
agent roles, client need identification, community organization strategies,  
citizen participation, leadership identification and development, program  
planning and evaluation.

SOC 484. Topical Studies in Criminal and Juvenile Justice.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits in sociology and permision  
from instructor  
Thematic or topical issues and studies dealing with the sociology of  
police, judiciary, institutional and community-based corrections, gender/  
ethnicity and crime/delinquency, criminal and delinquent gangs, and  
crime and delinquency prevention.

SOC 485. Sociology of the Family.  
(3-0) Cr. 3. S. Prereq: 6 credits in sociology  
The contemporary family in developing, industrial, and post-industrial  
societies. Effects of modernization, cultural change, and family policies on  
family dynamics, structures, and functions.

SOC 490. Independent Study.  
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: 6 credits in sociology  
and permission of instructor  
Students in the College of Agriculture must be of junior or senior classi-  
fication and may use no more than 6 credits of Soc 490 toward the total  
of 128 credits required for graduation. Students in the College of Liberal  
Arts and Sciences may count no more than 9 credits of 490 toward gradua-  
tion.

A. General Sociology  
B. Rural Sociology  
E. Senior Seminar  
H. Honors

Courses primarily for graduate students, open to qualified undergraduate students

SOC 505. History of Social Thought.  
(3-0) Cr. 3. F. Prereq: 401  
Reviews the historical origins of social ideas about society how social  
thought has evolved throughout history, and how these affect modern  
sociological thinking.

(3-0) Cr. 3. S. Prereq: SOC 401 or 505  
The origins of the canonical works of sociology in the mid-Industrial  
Revolution period including Karl Marx, Max Weber, Emile Durkheim and  
others.

SOC 509. Agroecosystem Analysis.  
(Cross-listed with AGRON, ANTHR, SUSAG). (3-4) Cr. 3. F. Prereq: Senior  
or above classification  
Experiential, interdisciplinary examination of Midwestern agricultural and  
food systems, emphasizing field visits, with some classroom activities.  
Focus on understanding multiple elements, perspectives (agronomic,  
economic, ecological, social, etc.), and scales of operation.

SOC 511. Research Methodology for the Social Sciences.  
(3-0) Cr. 3. S. Prereq: 302 and STAT 401  
Covers the philosophy and the techniques of research methods in soci-  
ology and other social sciences, including the ethics and politics of  
social science, validity issues, conceptualization and operationalization,  
sampling strategies, appropriate research designs for different questions,  
survey construction, and various data collection and analysis techniques.

(3-0) Cr. 3. F. Prereq: STAT 404 or with instructor’s permission  
Applied techniques of multivariate analysis including cluster analysis, principal  
components and factor analysis, multivariate analysis of variance  
and covariance binomial and multinomial regression, multi-level random  
coefficient models, and spatial regression. Conceptual and mathematical  
grounding for nonstatisticians. Instruction in Mplus and SAS.

SOC 513. Qualitative Research Methods.  
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 511  
Applied qualitative research methods in sociology. Design and implemen-  
tation of a course-based research project including data collection,  
analysis, and presentation of results. Qualitative data gathering tech- 
niques using observational, historical, in-depth interviewing or content  
analysis approaches. Laboratory emphasis on completion of data gather-  
ing, analysis, and report writing.

SOC 515. Sociology of Technology.  
(3-0) Cr. 3. F.  
Off campus and non majors only – offered as demand warrants. Linkages  
among science, technology, and society. Physical, life, and social science  
approaches to technology evaluation. Public responses to complex and  
controversial technologies. Strategies for gaining adoption/rejection  
of technology. Required in the Master of Agriculture program. Only one of  
Soc 415 or 515 may be counted toward graduation credits.

(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 305 or PSYCH 280  
Examination of cognitive, symbolic interaction, exchange, role-reference  
group, and dramaturgical approaches. Assessment of contemporary  
issues in social psychology.

SOC 525. Seminar in Social Psychology.  
(3-0) Cr. 3. Prereq: 305 or PSYCH 280  
A. Small Groups  
B. Attitudes and Attitude Change  
C. Symbolic interactionism  
D. Self and Identity

SOC 527. Seminar in Social Inequality.  
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 6 credits in sociology  
Analysis of racial and ethnic inequality in the United States and the world;  
focus on the implications of the changing world social and economic  
order for differences in racial and ethnic groups relative to wealth,  
status, and power; a critical examination of majority-group domination of  
minority groups in various societies.

A. Sociology of Race and Ethnicity  
B. Sociology of Gender

SOC 532. Seminar in Social Inequality.  
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 6 credits in sociology  
Analysis of racial and ethnic inequality in the United States and the world;  
focus on the implications of the changing world social and economic  
order for differences in racial and ethnic groups relative to wealth,  
status, and power; a critical examination of majority-group domination of  
minority groups in various societies.

A. Sociology of Race and Ethnicity  
B. Sociology of Gender

SOC 533. Models of Community.  
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 6 credits in sociology  
Emphasis on different models or frames of reference used in commu-  
nity analysis. Theoretical and methodological tools, current views of  
community problems, and explanation of social and cultural change are  
presented for each model.

SOC 534. Race, Class and Gender Inequality.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits in sociology  
Critical examination of the causes and consequences of social stratifi-  
cation and inequality; classical theories, contemporary frameworks, and  
recent empirical studies; international stratification patterns.

SOC 536. Seminar in Community Studies and Development.  
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 6 credits in sociology  
A. Urban Sociology  
B. Strategies of Community Engagement
SOC 540. Comparative Social Change.
(3-0) Cr. 3. Alt. F, offered 2011. Prereq: 6 graduate credits in sociology
Contemporary theories of social change, modernization, dependency, and development are critically examined; methodological issues identified; supporting research explored; applicability of theoretical models, concepts, and strategies to current national and international needs are evaluated.

SOC 543. Seminar in Social Change and Development.
(3-0) Cr. 3. Alt. F, offered 2012. Prereq: 6 credits in sociology
A. Strategies of Community Engagement
B. Sociology of Adoption and Diffusion
C. Technological Innovation, Social Change and Development

SOC 544. Sociology of Food and Agricultural Systems.
(3-0) Cr. 3. Alt. F, offered 2011. Prereq: 6 graduate credits in sociology
Social organization of food and fiber production, processing, and distribution systems. Sociological comparison of conventional and alternative production systems; gender roles in agriculture and food systems; local, national and global food systems; perspectives on food and agricultural research and policy.

(3-0) Cr. 3. Alt. F, offered 2012. Prereq: 6 credits in sociology

SOC 551. Seminar in Economy, Organization, and Work.
(3-0) Cr. 3. Alt. F, offered 2011. Prereq: 6 credits in sociology
A. Sociology of Work
B. Complex Organizations

SOC 582. Theories of Social Deviance.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 6 credits in sociology
Theory and research regarding causes of and reactions to deviant behavior. Mental illness, homicide, family violence, and property crime are among the types of deviant behavior considered.

(3-0) Cr. 3. Alt. F, offered 2011. Prereq: 6 credits in sociology
Discussion of current research and theory in crime and delinquency; topics include the purpose and role of law in social life; emerging theoretical directions in criminology; recent work on specific forms of criminality; controversies in the criminal justice system.

(3-0) Cr. 3. Alt. F, offered 2011. Prereq: 6 credits in sociology
Course presents a general overview of the field of family sociology. Topics to be covered include demographic trends, family theory and empirical research, as well as current debates in the discipline.

SOC 590. Special Topics.
Cr. 1-3. Repeatable. Prereq: 6 credits in sociology; senior or graduate classification
A. General Sociology
B. Rural Sociology

SOC 591. Orientation to Sociology.
(1-0) Cr. 1. F. Prereq: Formal admission into the sociology graduate program
Introduction to the department, current graduate student policies at department and university levels, departmental administrative procedures. Required of graduate students. Offered on a satisfactory-fail basis only.

SOC 599. Research for Master’s Thesis.
Cr. 1-6. Repeatable.
A. General Sociology

Courses for graduate students

SOC 607. Contemporary Sociological Theory.
(3-0) Cr. 3. S. Prereq: 6 graduate credits in sociology
Provides a review of modern sociological thought, issues, and controversies as they affect current research and discourse in the discipline.

SOC 610. Foundations of Sustainable Agriculture.
(Cross-listed with SUSAG, AE, AGRON, ANTHR). (3-0) Cr. 3. F. Prereq: Graduate classification, permission of instructor
Historical, biophysical, socioeconomic, and ethical dimensions of agricultural sustainability. Strategies for evaluating existing and emerging systems of agriculture in terms of core concepts of sustainability and their theoretical contexts.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 512 and STAT 404
Formal strategies of research design and analysis using structural equations with latent variables. Strategies for the analysis of multi-informant and panel data, with emphasis on distributional problems and diagnostics. Applications using SPSS, SAS, LISREL, AMOS, R, and Mplus.

SOC 675. Current Topics in Family Sociology.
(3-0) Cr. 3. Repeatable. Alt. S., offered 2013.
Current developments in a selected field in the sociology of family and the life course.

SOC 698. Seminars in Sociology.
(3-0) Cr. 3.
L. Community Studies and Development
M. Criminology
N. The Economy, Organizations, and Work
O. Food Systems, Agriculture, and the Environment
P. Methodology
Q. Social Change and Development
R. Social Inequality
S. Social Psychology
T. Sociology of Families
U. Theory

Cr. 1-8. Repeatable.
A. General Sociology
B. Rural Sociology
Software Engineering

(A program administered by the Department of Electrical and Computer Engineering and the Department of Computer Science.)

Undergraduate Study

For the undergraduate curriculum in software engineering leading to the degree Bachelor of Science.

This curriculum is jointly administered by the Department of Electrical and Computer Engineering (ECpE) Department and the Department of Computer Science (CS) Department at Iowa State University, and it provides undergraduate students with the opportunity to learn software engineering fundamentals, to study applications of the state-of-the-art software technologies, and to prepare for the practice of software engineering. The student-faculty interaction necessary to realize this opportunity occurs within an environment that is motivated by the principle that excellence in undergraduate education is enhanced by an integrated commitment to successful, long-term research and outreach programs.

The software engineering curriculum offers emphasis areas in software engineering principles, process, and practice. Students may also may take elective courses in computer engineering and computer science.

The objective of the software engineering program at Iowa State University is that its graduates should demonstrate expertise, engagement, learning, leadership, and teamwork within five years after graduation.

- **Expertise**: Graduates should establish peer-recognized expertise used for problem solving in specification, abstraction, analysis, design, implementation, testing and validation, evaluation, evolution, and maintenance of software systems following the real-world practices of project management, system integration, and use of tools and their development. Graduates should establish peer-recognized expertise together with the ability to articulate that expertise and use it for problem solving in the planning, design, development, validation, and evolution of software using contemporary practices.

- **Engagement**: Graduates should be engaged in the professional practice, locally and globally, contributing through the ethical, competent, and creative practice of Software software engineering in industry, academia, or the public sector, or graduates may use the program as a foundation for interdisciplinary careers in business, law, medicine, or public service, or higher education.

- **Learning**: Graduates should demonstrate sustained learning through graduate work or professional improvement opportunities and through self study, and they should demonstrate the ability to adapt to rapid technological changes.

- **Leadership**: Graduates should exhibit leadership and initiative to advance professional and organizational goals, facilitate the achievements of others, and obtain results.

- **Teamwork**: Graduates should demonstrate effective teaming and commitment to working with others of diverse cultural and interdisciplinary background by applying software engineering abilities, communication skills, and knowledge of contemporary and global issues.

As a complement to the instructional activity, the Electrical and Computer Engineering and Computer Science (ECpE) and CS Departments provide opportunities for each student to have experience with broadening activities. Through the cooperative education and internship program, students have the opportunity to gain practical industry experience. Students have the opportunity to participate in advanced research activities, and through international exchange programs, students learn about engineering practices in other parts of the world.

Curriculum in Software Engineering

Administered by the Department of Electrical and Computer Engineering and the Department of Computer Science in the College of Liberal Arts and Sciences.

Leading to the degree bachelor of science.

**Total credits required**: 124.5 cr. See also Basic Program and Special Programs.

**International Perspectives**: 3 cr.1

**U.S. Diversity**: 3 cr.1

**Communication Proficiency/Library requirement (minimum grade of C)**:

**Transfer Credit Requirements**

The degree program must include a minimum of 30 credits at the 300-level or above in professional and technical courses earned at ISU in order to receive a B.S. in software engineering. These 30 credits must include S E 491 Senior Design Project I and Professionalism, S E 492 Senior Design Project II, and credits in the core professional curriculum and/or in technical electives. The software engineering degree program requires a grade of C or better for any transfer credit course that is applied to the degree program.

1. These university requirements will add to the minimum credits of the program unless the university-approved courses are also approved by the department to meet other course requirements within the degree program. U.S. diversity and international perspectives courses may not be taken Pass/Not Pass.

2. Choose from department approved lists.

3. See Basic Program for Professional Engineering Curricula for accepted substitutions for curriculum designated courses in the Basic Program.

4. 2.00 required including transfer courses.

5. Credit for only one of the following is allowed:

   - CPR E 381 Computer Organization and Assembly Level Programming
   - or COM S 321 Introduction to Computer Architecture and Machine-Level Programming

6. Credit for only one of the following is allowed:

   - CPR E 308 Operating Systems: Principles and Practice
   - or COM S 352 Introduction to Operating Systems

7. Credit for only one of the following is allowed:

   - CPR E 310 Theoretical Foundations of Computer Engineering
   - or COM S 330 Discrete Computational Structures

Note: International perspectives and U.S. diversity courses are used to meet the general education electives.

**Courses primarily for undergraduate students**

**S E 101. Software Engineering Orientation.**

Cr. R.

Introduction to the procedures, policies, and resources of Iowa State University and the department of Computer Science and Electrical and Computer Engineering. Information on engineering and computer-based professions.

**S E 166. Careers in Software Engineering.**

Cr. R.

Overview of the nature and scope of the software engineering profession. Relationship of coursework to careers. Departmental rules, student services operations, degree requirements, program of study planning, career options, and student organizations.

**S E 185. Problem Solving in Software Engineering.**

(3-1) Cr. 3. Prereq: Credit or enrollment in MATH 142

Introduction to software engineering and computer programming. Systematic thinking process for problem solving in the context of software engineering. Group problem solving. Solving software engineering problems and presenting solutions through computer programs, written documents and oral presentations. Introduction to principles of programming, software design, and extensive practice in design, writing, running, debugging, and reasoning about programs.

**S E 298. Cooperative Education.**

Cr. R. F.S.SS. Prereq: Permission of department and Career Services

First professional work period in the cooperative education program. Students must register for this course before commencing work.

**S E 319. Software Construction and User Interfaces.**

(Cross-listed with COM S). (3-0) Cr. 3. F. Prereq: COM S 228

**S E 329. Software Project Management.**

(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: COM S 309

**S E 339. Software Architecture and Design.**

(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: S E 319

**S E 396. Summer Internship.**

Cr. R. Repeatable. SS. Prereq: Permission of department and Career Services

Summer professional work period.
S E 397. Software Engineering Internship.
Cr. R. Repeatable. F.S. Prereq: Permission of department and Career Services
One semester maximum per academic year professional work period.

S E 398. Cooperative Education.
Cr. R. F.S.S. Prereq: 298, permission of department and Career Services
Second professional work period in the cooperative education program. Students must register for this course before commencing work.

S E 409. Software Requirements Engineering.
(Cross-listed with COM S). (3-0) Cr. 3. Prereq: COM S 309, 319
The requirements engineering process, including identification of stakeholders, requirements elicitation techniques such as interviews and prototyping, analysis fundamentals, requirements specification, and validation. Use of Models: State-oriented, Function-oriented, and Object-oriented. Documentation for Software Requirements. Informal, semi-formal, and formal representations. Structural, informational, and behavioral requirements. Non-functional requirements. Use of requirements repositories to manage and track requirements through the life cycle. Case studies, software projects, written reports, and oral presentations will be required. Nonmajor graduate credit.

(Cross-listed with COM S, CPR E). (3-0) Cr. 3. Prereq: 319, COM S 309
Introduction to prepositional/predicate/temporal logic, program verification using theorem proving, model-based verification using model checking, and tools for verification. Nonmajor graduate credit.

S E 416. Software Evolution and Maintenance.
(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: COM S 309
Practical importance of software evolution and maintenance, systematic defect analysis and debugging techniques, tracing and understanding large software, impact analysis, program migration and transformation, refactoring, tools for software evolution and maintenance, experimental studies and quantitative measurements of software evolution. Written reports and oral presentation. Nonmajor graduate credit.

(Cross-listed with COM S). (3-0) Cr. 3. Prereq: COM S 309, 319
Comprehensive study of software testing, principles, methodologies, management strategies and techniques. Test models, test design techniques (black box and white-box testing techniques), integration, regression, system testing methods, and software testing tools. Nonmajor graduate credit.

S E 490. Independent Study.
Cr. arr. Repeatable. Prereq: Senior classification in software engineering
Investigation of an approved topic.

S E 491. Senior Design Project I and Professionalism.
(2-3) Cr. 3. Prereq: 329, completion of 29 credits in the S E core professional program, ENGL 314
Preparing for entry to the workplace. Selected professional topics. Use of technical writing skills in developing project plan and design report; project poster. First of two-semester team-oriented, project design and implementation experience.

S E 492. Senior Design Project II.
(1-3) Cr. 2. Prereq: 491
Second semester of a team design project experience. Emphasis on the successful implementation and demonstration of the design completed in S E 491 and the evaluation of project results. Technical writing of final project report; oral presentation of project achievements.

S E 498. Cooperative Education.
Cr. R. Repeatable. F.S.SS. Prereq: 398, permission of department and Career Services
Third and subsequent professional work periods in the cooperative education program. Students must register for this course before commencing work.
Undergraduate Study

The cross-disciplinary program in speech communication offers courses designed for all students as part of their general education and as a complement to their professional training. It also offers a major or minor in speech communication as well as an additional endorsement for secondary teachers who already have an endorsement in another content area.

Students who major or minor in speech communication will prepare themselves for a wide variety of employment opportunities in business, industry and government, as well as in non-profit and educational organizations. With their effective oral communication, listening, teamwork, problem-solving and leadership skills, speech communication students find positions in general business management: human resources, benefits, sales and marketing and serve various organizations as recruiters, trainers, promotions managers, communication specialists, community outreach personnel and event planners. The program also prepares students for the study of law, theology, and for graduate level work in speech communication and related disciplines.

The program participates in the following interdisciplinary undergraduate minor programs: the interdisciplinary program in linguistics and the interdisciplinary program in technology and social change. Speech Communication also offers a core course and several optional courses in the Undergraduate Certificate Program in Community Leadership and Public Service.

Speech Communication Major

A student electing to major in speech communication must earn at least 120 credits with 45 credits at the 300/400 level. A minimum of 33 of those credits must be earned in Speech Communication courses where the student earns a grade of C or better. Our flexible curriculum with few prerequisites can help you meet the 33 hour requirement in a timely way.

Courses primarily for undergraduate students

**SP CM 110. Listening.**
(3-0) Cr. 3. F.S.
Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships.

**SP CM 205. Popular Culture Analysis.**
(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: Credit in or exemption from ENGL 150
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

**SP CM 212. Fundamentals of Public Speaking.**
(3-0) Cr. 3. F.S.S.
Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches.

**SP CM 223. Intercollegiate Debate and Forensics.**
Cr. 1. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor
Participation in intramural and intercollegiate debate and other forensic events.

**SP CM 290. Special Projects.**
Cr. 1-2. Repeatable, maximum of 4 credits. F.S.S. Prereq: 3 credits in speech communication; permission of department chair

**SP CM 305. Language, Thought and Action.**
(Cross-listed with LING, COMST). (3-0) Cr. 3. Prereq: ENGL 250
The study of symbolic processes and how meaning is conveyed in words, sentences, and utterances; discussion of modern theories of meaning; and an exploration of relationships among language, thought and action. Nonmajor graduate credit.

**SP CM 312. Business and Professional Speaking.**
(3-0) Cr. 3. F.S. Prereq: 212
Theory, principles, and competency development in the creation of coherent, articulate business and professional oral presentations.

**SP CM 313. Communication in Classrooms and Workshops.**
(3-0) Cr. 3. Prereq: 212
Principles of communicating information: training in classroom and workshop-oriented communication activities; use of recording for analysis of presentations.

**SP CM 322. Argumentation, Debate, and Critical Thinking.**
(3-0) Cr. 3. Prereq: 212
Practice in preparing and presenting arguments and debates; emphasis on critical thinking and ethical and logical duties of the advocate; analysis, evidence, reasoning, attack, defense, research, case construction, and judging.

**SP CM 323. Gender and Communication.**
(Cross-listed with W S, COMST). (3-0) Cr. 3.
Examines how understanding and enactment of gender identities is shaped by communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Nonmajor graduate credit.

**SP CM 324. Legal Communication.**
(3-0) Cr. 3. Prereq: 212
Speech communication in the legal system inside and outside the trial process: interviewing and counseling, negotiating and bargaining, voir dire, opening statements, examination of witnesses, closing arguments, judge’s instructions, jury behavior, and appellate advocacy. Nonmajor graduate credit.

**SP CM 325. Nonverbal Communication.**
(Cross-listed with COMST). (3-0) Cr. 3. Prereq: COMST 101 or 102, 203, 301
Approaches to studying nonverbal communication; nonverbal functions and aspects of social interaction such as space, body language, touch, and gaze.

**SP CM 327. Persuasion.**
(3-0) Cr. 3. F.S.SS. Prereq: 212
Examination of persuasive theories, strategies and research in persuasion. Emphasis on application and analysis; logical, emotional, and ethical proofs. Nonmajor graduate credit.

**SP CM 350. Rhetorical Traditions.**
(Cross-listed with ENGL, CL ST). (3-0) Cr. 3. S. Prereq: ENGL 250
Ideas about the relationship between rhetoric and society in contemporary and historical contexts. An exploration of classical and contemporary rhetorical theories in relation to selected topics that may include politics, gender, race, ethics, education, science, or technology.

**SP CM 404. Seminar.**
(Dual-listed with 504). Cr. 3. Repeatable, maximum of 9 credits. Prereq: 15 credits in speech communication
A. Speech Communication
B. Speech Education

**SP CM 412. Rhetorical Criticism.**
(3-0) Cr. 3. S. Prereq: 212 and 6 credits in speech communication
Development of rhetorical theory and practice from Corax to modern times. Application of principles of criticism to current public speaking practices. Nonmajor graduate credit.

**SP CM 416. History of American Public Address.**
(3-0) Cr. 3. S. Prereq: SP CM 212
Relationship between public discourse and social change; selected speakers and discourse as linked with political or historical events. Nonmajor graduate credit.

**SP CM 417. Campaign Rhetoric.**
(Cross-listed with POL S). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: SP CM 212
Backgrounds of candidates for state and national elections; selected speeches and issues; persuasive strategies and techniques of individual speakers. Nonmajor graduate credit.

**SP CM 490. Independent Study.**
Cr. 1-3. Repeatable, maximum of 9 credits. F.S.SS. Prereq: 18 credits in speech communication, junior classification, permission of department chair
Only one independent study enrollment is permitted within the department per semester.
SP CM 495A. Directing Speech Activities.
(1-0) Cr. 1. S. Prereq: C I 301; 9 credits in speech communication; minimum grade point of 2.5 in speech communication courses
Problems, methods, and materials related to directing speech activities in secondary schools.

SP CM 495B. Teaching Speech.
(Cross-listed with C I). (3-0) Cr. 3. F. Prereq: SP CM 313; 9 credits in speech communication; minimum grade point average of 2.5 in speech communication courses
Problems, methods, and materials related to teaching speech, theatre, and media in secondary schools.

SP CM 497. Capstone Seminar.
(3-0) Cr. 3. Prereq: 15 credits in speech communication; junior or senior classification
Students synthesize relevant theory and research about contemporary communication practice culminating in a multi-modal capstone project.

SP CM 499. Communication Internship.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S. Prereq: 18 credits in speech communication courses, other courses deemed appropriate by faculty adviser; 2nd semester junior or senior standing; cumulative GPA of at least 2.5 overall and 3.0 in speech communication; and permission of the internship committee
Applications should be submitted in the term prior to the term in which the internship is desired. Supervised application of speech communication in professional settings.

Courses primarily for graduate students, open to qualified undergraduate students

SP CM 504. Seminar.
(Dual-listed with 404). (3-0) Cr. 3. Repeatable, maximum of 9 credits. F.S.S.
Topics may include the following:
A. Speech Communication
B. Speech Education

(1-0) Cr. 1. Repeatable, maximum of 3 credits. F.
Required of all new Speech Communication 212 teaching assistants. Introduction to the teaching of public speaking. Support and supervision of teaching assistants of SP CM 212. Discussion of lesson planning, teaching methods, development of speaking assignments, and evaluation of student speaking.

SP CM 590. Special Topics.
Cr. 1-4. Repeatable, maximum of 12 credits. Prereq: Permission of department chair

Statistics

Undergraduate Study
For the undergraduate curriculum in liberal arts and sciences, major in statistics, leading to the degree bachelor of science, see Liberal Arts and Sciences, Curriculum.

The curriculum in liberal arts and sciences with a major in statistics is designed to prepare students for (1) entry level statistics positions requiring the B.S. degree in statistics in business, industry or commerce, nonprofit institutions, and in state or federal government; (2) graduate study in statistics. Entry-level positions include the following types of work: statistical design, analysis and interpretation of experiments and surveys; data processing and analysis using modern computer facilities and statistical computing systems; application of statistical principles and methods in commercial areas such as finance, insurance, industrial research, marketing, manufacturing, and quality control. Nonprofit organizations such as large health study institutions have entry-level positions for B.S. graduates in statistics. Also, there are opportunities for work in statistics that require a major in a subject-matter field and a minor in statistics.

Students completing the undergraduate degree in statistics should have a broad understanding of the discipline of statistics. They should have a clear comprehension of the theoretical basis of statistical reasoning and should be proficient in the use of modern statistical methods and computing. Such graduates should have an ability to apply and convey statistical concepts and knowledge in oral and written form. They should be aware of ethical issues associated with polling and surveys and in the summarization of the outcomes of statistical studies.

Undergraduate majors in this department usually include in their programs:

One of the following

These courses plus at least two additional courses in statistics at the 400 level or above constitute the major. With the permission of the department, I E 361 Statistical Quality Assurance/STAT 361 Statistical Quality Assurance may be substituted for one of these 400 level courses. It is advisable to have a minor in a field of application.

The department offers a minor in statistics which may be earned by completing an introductory course in statistics plus additional courses from 341, 342, 361, and 400 level or above to yield a total of at least 15 credits in statistics courses.

English and Speech proficiency requirement: The department requires a grade of C- or better in each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (or ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors), and completion of one of ENGL 302 Business Communication or ENGL 314 Technical Communication with a grade of C- or better. The department requires a passing grade in COMST 102 Introduction to Interpersonal Communication or SP CM 212 Fundamentals of Public Speaking.

Students intending to do graduate work in statistics normally will take additional courses in mathematics.

Graduate Study
The department offers work for the degrees master of science and doctor of philosophy with a major in statistics, and for a minor for students majoring in other departments. Within the statistics major the student choose to emphasize topics such as experimental design, probability, statistical methods, statistical theory, statistical computing, survey sampling, quality control, spatial statistics, time series, reliability, or applied statistics (e.g., bioinformatics, biometrics, econometrics, environmental statistics, psychometrics, sociometrics, etc.). A major in operations research leading to a master of science degree is offered in cooperation with the Department of Industrial and Manufacturing Systems Engineering. The doctor of philosophy degree is offered as a co-major with other graduate programs. Such programs have included graduate majors in Agronomy, Animal Ecology, Animal Science, Bioinformatics, Chemical and Biological Engineering, Computer Science, Electrical Engineering, Ecology, Evolution and Organismal Biology (EEOB), Economics, Educational Leadership and Policy Studies, Food Science and Human Nutrition, Genetics, Development and Cell Biology (GDCB), Industrial and Manufacturing Systems Engineering, Mathematics, Meteorology, Psychology and Sociology.

M.S. graduates have a basic understanding of statistical theory and methods. Elective courses in statistics provide the opportunity for the student to emphasize particular areas within the field of statistics, based on interest and future career goals. Communication skills are developed through course projects, assistantship duties and creative components. Ph.D. graduates study advanced theory and methods and are able to do independent research in statistics and collaborative research outside of statistics.

Prerequisite to major graduate work is the completion of an undergraduate curriculum essentially equivalent to the curriculum in liberal arts and sciences at this institution including at least a year of calculus.

The degree master of science may be earned on either a thesis or nonthesis basis. The nonthesis option requires the completion of at least 34 credits of acceptable graduate work, including the completion of a creative component and satisfactory performance on a written examination. The thesis option requires the completion of 30 credits of acceptable graduate work, including the completion of a thesis and satisfactory performance on a written examination. Ph.D. candidates must complete at least 72 semester credits (half or more from Iowa State) with a minimum 3.0 (B) average and submit an original thesis representing a substantial contribution to statistics as a science.

The department encourages students to prepare themselves in foreign languages and in computer languages, but specific requirements for the degrees master of science and doctor of philosophy are at the discretion of the student’s advisory committee.
Courses primarily for undergraduate students

STAT 100. Orientation in Statistics. 
(1-0) Cr. R. F.
Opportunities, challenges, and the scope of the curriculum in statistics. For students planning or considering a career in this area.

(3-2) Cr. 4. F.S.S. Prereq: 1 1/2 years of high school algebra
Statistical concepts in modern society; descriptive statistics and graphical displays of data; the normal distribution; data collection (sampling and designing experiments); elementary probability; elements of statistical inference; estimation and hypothesis testing; linear regression and correlation; contingency tables. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.

STAT 104. Introduction to Statistics. 
(2-2) Cr. 3. F.S. Prereq: 1 1/2 years of high school algebra
Statistical concepts and their use in science; collecting, organizing and drawing conclusions from data; elementary probability; binomial and normal distributions; regression; estimation and hypothesis testing. For students in the agricultural and biological sciences. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.

STAT 105. Introduction to Statistics for Engineers. 
(3-0) Cr. 3. F.S. Prereq: MATH 165 (or 165H)
Statistical concepts with emphasis on engineering applications. Data collection; descriptive statistics; probability distributions and their properties; elements of statistical inference; regression; statistical quality control charts; use of statistical software; team project involving data collection, description and analysis. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226. Credit for both Stat 105 and 305 may not be applied for graduation.

STAT 226. Introduction to Business Statistics I. 
(3-0) Cr. 3. F.S.S. Prereq: MATH 150 or 165
Obtaining, presenting, and organizing statistical data; measures of location and dispersion; the Normal distribution; sampling and sampling distributions; elements of statistical inference; estimation and confidence intervals; hypothesis testing; inference for simple linear regression analysis; use of computers to visualize and analyze data. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.

STAT 231. Probability and Statistical Inference for Engineers. 
(4-0) Cr. 4. F.S. Prereq: Credit or enrollment in MATH 265
Emphasis on engineering applications. Basic probability; random variables and probability distributions; joint and sampling distributions. Descriptive statistics; confidence intervals; hypothesis testing; simple linear regression; multiple linear regression; one way analysis of variance; use of statistical software.

STAT 305. Engineering Statistics. 
(3-0) Cr. 3. F.S.S. Prereq: MATH 165 (or 165H)
Statistics for engineering problem solving. Principles of engineering data collection; descriptive statistics; elementary probability distributions; principles of experimentation; confidence intervals and significance tests; one-, two-, and multi-sample studies; regression analysis; use of statistical software; team project involving engineering experimentation and data analysis. Credit for both Stat 105 and 305 may not be applied for graduation.

STAT 322. Probabilistic Methods for Electrical Engineers. 
(Cross-listed with E.E.). (3-0) Cr. 3. F.S. Prereq: E.E. 224
Introduction to probability with applications to electrical engineering. Sets and events, probability space, conditional probability, total probability and Bayes’ rule. Discrete and continuous random variables, cumulative distribution function, probability mass and density functions, expectations, moments, moment generating functions, multiple random variables, functions of random variables. Elements of statistics, hypothesis testing, confidence intervals, least squares. Introduction to random processes.

STAT 326. Introduction to Business Statistics II. 
(2-2) Cr. 3. F.S. Prereq: 226
Multiple regression analysis; regression diagnostics; model building; applications in analysis of variance and time series; random variables; distributions; conditional probability; statistical process control methods; use of computers to visualize and analyze data.

(3-0) Cr. 3. F.S. Prereq: MATH 166
Topics from probability and statistics applicable to computer science. Basic probability; Random variables and their distributions; Elementary probabilistic simulation; Queuing models; Basic statistical inference; Introduction to regression. Nonmajor graduate credit.

STAT 332. Visual Communication of Quantitative Information. 
(Cross-listed with ENGL). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: STAT 101, 104 or 226; ENGL 250
Communicating quantitative information using visual displays; visualizing data; interactive and dynamic data displays; evaluating current examples in the media; color, perception, and representation in graphs; interpreting data displays. Nonmajor graduate credit.

(Cross-listed with MATH). (3-0) Cr. 3. F.S. Prereq: MATH 265 (or 265H)
Probability; distribution functions and their properties; classical discrete and continuous distribution functions; multivariate probability distributions and their properties; moment generating functions; simulation of random variables and use of the R statistical package. Credit for both Stat 341 and 447 may not be applied toward graduation.

STAT 342. Introduction to the Theory of Probability and Statistics II. 
(Cross-listed with MATH). (3-0) Cr. 3. S. Prereq: STAT 341; MATH 307 or 317
Transformations of random variables; sampling distributions; confidence intervals and hypothesis testing; theory of estimation and hypothesis tests; linear model theory; enumerative data; use of the R statistical package for simulation and data analysis.

(Cross-listed with I.E.). (2-2) Cr. 3. F.S. Prereq: STAT 231 or 401

STAT 398. Cooperative Education. 
Cr. R. F.S.S. Prereq: Permission of department chair
Off-campus work periods for undergraduate students in a field of statistics.

STAT 401. Statistical Methods for Research Workers. 
(3-2) Cr. 4. F.S.S. Prereq: 101 or 104 or 105 or 226
Graduate students without an equivalent course should contact the department. Methods of analyzing and interpreting experimental and survey data. Statistical concepts and models; estimation; hypothesis tests with continuous and discrete data; simple and multiple linear regression and correlation; introduction to analysis of variance and blocking. Nonmajor graduate credit.
STAT 402. Statistical Design and the Analysis of Experiments.  
(3-0) Cr. 3. S. Prereq: 401  
The role of statistics in research and the principles of experimental design. Experimental units, randomization, replication, blocking, subdividing and repeatedly measuring experimental units; factorial treatment designs and confounding; extensions of the analysis of variance to cover general crossed and nested classifications and models that include both classificatory and continuous factors. Determining sample size. Nonmajor graduate credit.

STAT 404. Regression for Social and Behavioral Research.  
(2-2) Cr. 3. F. Prereq: 401  
Lorenz, Roberts. Applications of generalized linear regression models to social science data. Assumptions of regression; diagnostics and transformations; analysis of variance and covariance; path analysis; logistic, multinomial and Poisson regression. Nonmajor graduate credit.

(3-0) Cr. 3. Alt. S., offered 2012. Prereq: Six hours of statistics at the 400-level  
The analysis of spatial data; geostatistical methods and spatial prediction; discrete index random fields and Markov random field models; models for spatial point processes. Emphasis on application and practical use of spatial statistical analysis. Nonmajor graduate credit.

(2-2) Cr. 3. F. Prereq: 401, knowledge of matrix algebra  
Carriquiry, Cook. Techniques for displaying and analyzing multivariate data including plotting high-dimensional data using interactive graphics, comparing group mean vectors using Hotelling's T2, multivariate analysis of variance, reducing variable dimension with principal components, grouping/classifying observations with cluster analysis and discriminant analysis. Imputation of missing multivariate observations. Nonmajor graduate credit.

(1-0) Cr. 1. Repeateble, maximum of 3 credits. S. Prereq: 401  
Advanced statistical methods for modeling and analyzing data. Taught as separate 1 cr. sections, each of 5 weeks. Three sections taught in one semester. Areas covered: Logistic and Poisson regression; Structural equation modeling; Smoothing and nonparametric regression; Nonparametric and distribution free methods; Bootstrapping and randomization tests; Visualization of high dimensional data; Analysis of species composition data; Missing data and measurement error. Nonmajor graduate credit.

STAT 416. Statistical Design and Analysis of Gene Expression Experiments.  
(3-0) Cr. 3. S. Prereq: STAT 401  
Introduction to two-color microarray technology and single-channel platforms (Affymetrix GeneChips); introduction to next-generation sequencing (especially RNA sequencing) technology; the role of blocking, randomization, and biological and technical replication in gene expression experiments; design of single-channel microarray experiments, two-color microarray experiments, and RNA sequencing experiments; normalization methods for microarray data and RNA sequencing data; methods for identifying differentially expressed genes including mixed linear model analysis, empirical Bayes analysis, and resampling based approaches; procedures for controlling false discovery rate for multiple testing; clustering and classification problems for gene expression data; testing gene categories; emphasis on practical use of methods. Nonmajor graduate credit.

STAT 421. Survey Sampling Techniques.  
(2-2) Cr. 3. S. Prereq: 231 or 328 or 401  
Concepts of sample surveys and the survey process; methods of designing sample surveys, including: simple random, stratified, and multi-stage sampling designs; methods of analyzing sample surveys including ratio, regression, domain estimation and nonresponse. Nonmajor graduate credit.

(3-0) Cr. 3. F. Prereq: STAT 330 or an equivalent course, MATH 166, knowledge of linear algebra.  
Statistical methods for research involving computers; exploratory data analysis; selected topics from analysis of designed experiments - analysis of variance, hypothesis testing, interaction among variables; linear regression, logistic regression, Poisson regression; parameter estimation, prediction, confidence regions, dimension reduction techniques, model diagnostics and sensitivity analysis; Markov chains and processes; simulation techniques and bootstrap methods; applications to computer science, bioinformatics, computer engineering - programs, models and systems as objects of empirical study; communicating results of empirical studies. Statistical software: R. Nonmajor graduate credit.

(3-0) Cr. 3. F Prereq: 231 or 341 or 447  
Probabilistic models in biological, engineering and the physical sciences. Markov chains; Poisson, birth-and-death, renewal, branching and queueing processes; applications to bioinformatics and other quantitative problems. Nonmajor graduate credit.

(4-0) Cr. 4. F.S.S. Prereq: MATH 151 and permission of instructor, or MATH 265  
Primarily for graduate students not majoring in statistics. Emphasis on aspects of the theory underlying statistical methods. Probability, probability density and mass functions, distribution functions, moment generating functions, sampling distributions, point and interval estimation, maximum likelihood and likelihood ratio tests, linear model theory, conditional expectation and minimum mean square error estimation, introduction to posterior distributions and Bayesian analysis, use of simulation to verify and extend theory. Nonmajor graduate credit. Credit for both Stat 341 and 447 may not be applied toward graduation.

(3-0) Cr. 3. S. Prereq: 231 or 328 or 401  

STAT 457. Applied Categorical Data Analysis.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: STAT 401 (or equivalent)  
Statistical methods for the analysis of categorical data: estimation of proportions, chi-square tests, sample size determination, measures of association and relative risk, measures of agreement, logistic regression, Poisson regression and log-linear models, matched-pair and repeated measures designs, conditional inference. Applications to social, behavioral, and health sciences. Nonmajor graduate credit.

STAT 479. Computer Processing of Statistical Data.  
(3-0) Cr. 3. F. Prereq: 401  
Marasinghe. Structure, content and programming aspects of the Statistical Analysis System (SAS) software package. Advanced techniques in the use of SAS for data analysis including statistical graphics, regression diagnostics, and complex analysis of variance models. If time permits, the SAS macro programming language will be introduced. Nonmajor graduate credit.

(3-0) Cr. 3. S. Prereq: 231 or 328 or 401  
STAT 490. Independent Study.
Cr. art. Repeatable, maximum of 9 credits. Prereq: 10 credits in statistics
No more than 9 credits in Stat 490 may be counted toward graduation.

H. Honors.

(2-0) Cr. 2. Alt. S., offered 2013. Prereq: 101 or 104 or 226
Off-Campus only. Introduction to methods for analyzing data from
surveys and experiments. Summarizing data, analysis of data from
simple random samples and more complex survey designs, experimental
design, estimation and hypothesis testing for data from simple exper-
iments, good and bad graphical presentations of results. Designed for
master of agriculture program only. Nonmajor graduate credit.

STAT 495. Applied Statistics for Industry I.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 101 or 104 or 105 or 226;
MATH 166 (or 166H)
Graduate students without an equivalent course should consult
the department. Statistical thinking applied to industrial processes.
Assessing, monitoring and improving processes using statistical
methods. Analytic/enumerative studies; graphical displays of data; funda-
mentals of six sigma; process monitoring; control charts; capability
analysis. Nonmajor graduate credit.

STAT 496. Applied Statistics for Industry II.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 495
Statistical design and analysis of industrial experiments. Concepts of
control, randomization and replication. Simple and multiple regression;
factorial and fractional factorial experiments; application of ideas of six
sigma; reliability; analysis of lifetime data. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

STAT 500. Statistical Methods.
(3-2) Cr. 4. F. Prereq: 101
Introduction to methods for analyzing data from experiments and obser-
vation data. Design-based and model-based inference. Estimation,
hypothesis testing, and model assessment for 2 group and k group
studies. Experimental design and the use of pairing/blocking. Analysis of
discrete data. Correlation and regression, prediction, model selection and
diagnostics. Simple mixed models including nested random effects and
split plot experimental designs. Use of the SAS statistical software.

(3-0) Cr. 3. S. Prereq: 500 or 402; 447 or 542; knowledge of matrix
algebra
Statistical methods for analyzing and displaying multivariate data: simulta-
naneous analysis of multiple responses; multivariate analysis of vari-
ance; summarizing high dimensional data with principal components,
factor analysis, canonical correlations, multidimensional scaling; grouping
similar items with cluster analysis; classification methods; dynamic
graphics. Statistical software: SAS, S-Plus or R, and GGobi.

STAT 503. Exploratory Methods and Data Mining.
(2-2) Cr. 3. Alt. S., offered 2013. Prereq: 401, 341 or 447
Approaches to finding the unexpected in data; pattern recognition, clas-
sification, association rules, graphical methods, classical and computer-
intensive statistical techniques, and problem solving. Emphasis is on
data-centered, non-inferential statistics for large or high-dimensional data,
topical problems, and building report writing skills.

STAT 505. Environmental Statistics.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 341 or 447, 401
Statistical methods and models for environmental applications. Emphasis
on environmental toxicology. Analysis of data with below detection-limit
values. Dose-response curve modeling, including overdispersion and
estimation of safe doses. Trend analysis; analysis of autocorrelated data.
Equivalence testing.

(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 447 or 542
The analysis of spatial data; geostatistical methods and spatial prediction;
discrete index random fields and Markov random field models; models
for spatial point processes.

STAT 511. Statistical Methods.
(3-0) Cr. 3. S. Prereq: 500 or 402 or 404; 447 or 542 and current enroll-
inment in 543; knowledge of matrix algebra
Introduction to the general theory of linear models, least squares and
maximum likelihood estimation, hypothesis testing, interval estimation
and prediction, analysis of unbalanced designs. Models with both fixed
and random factors. Introduction to non-linear and generalized linear
models, bootstrap estimation, smoothing methods. Requires use of R
statistical software.

STAT 512. Design of Experiments.
(3-0) Cr. 3. F. Prereq: 511
Basic techniques of experimental design developed in the context of
the general linear model; completely randomized, randomized complete
block, and Latin Square designs; factorial experiments, confounding, frac-
tional replication; split-plot and incomplete block designs.

STAT 513. Response Surface Methodology.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 402 or 512, knowledge of
elementary matrix theory and matrix formulation of regression
Morris. Analysis techniques for locating optimum and near-optimum oper-
ating conditions: standard experimental designs for first- and second-
order response surface models; design performance criteria; use of data
transformations; mixture experiments; optimization for multiple-response
problems. Requires use of statistical software with matrix functions.

(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 447 or 543, 511
Construction of nonlinear statistical models; random and systematic
model components, additive error nonlinear regression with constant
and non-constant error variances, generalized linear models, transform
both sides models. Iterative algorithms for estimation and asymptotic
inference. Basic random parameter models, beta-binomial and gamma-
Poisson mixtures. Requires use of instructor-supplied and student-written
R functions.

STAT 516. Statistical Design and Analysis of Gene Expression Experiments.
(3-0) Cr. 3. S. Prereq: STAT 500; 447 or 542
Introduction to two-color microarray technology including cDNA and
oligo microarrays; introduction to single-channel platforms (Affymetrix
GeneChips); introduction to RNA sequencing technology; the role of
blocking, randomization, and biological and technical replication in gene
expression experiments; design of single-channel microarray experi-
ments, two-color microarray experiments and RNA sequencing experi-
ments; normalization methods; methods for identifying differentially
expressed genes including mixed linear model analysis, empirical
Bayes analysis, and resampling based approaches; adjustments for
multiple testing; clustering and classification using gene expression data;
emphasis on current research topics for statistical analysis of high dimen-
sional gene expression data.

STAT 521. Theory and Applications of Sample Surveys.
(3-0) Cr. 3. S. Prereq: STAT 500; 447 or 542
Prereq: 447 or 543, 511
The analysis of spatial data; geostatistical methods and spatial prediction;
discrete index random fields and Markov random field models; models
for spatial point processes.

The analysis of spatial data; geostatistical methods and spatial prediction;
discrete index random fields and Markov random field models; models
for spatial point processes.
(3-0) Cr. 3. Alt. F., offered 2011. Prereq: STAT 521 or both STAT 421 and Stat 477
Advanced topics in survey sampling and methodology: clustering and stratification in practice, adjustments and imputation for missing data, variance estimation in complex surveys, methods of panel and/or longitudinal surveys, procedures to increase response rates, and computing. Examples are taken from large, well-known surveys in various subject areas. Prior exposure to mathematical statistics, probability, and at least one course in survey sampling theory is assumed.

STAT 531. Quality Control and Engineering Statistics.
(Cross-listed with I E). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: STAT 401; 342 or 447
Wu. Statistical methods and theory applicable to problems of industrial process monitoring and improvement. Statistical issues in industrial measurement; Shewhart, CUSUM, and other control charts; feedback control; process characterization studies; estimation of product and process characteristics; acceptance sampling, continuous sampling and sequential sampling; economic and decision theoretic arguments in industrial statistics.

STAT 533. Reliability.
(Cross-listed with I E). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: 342 or 432 or 447
Meeker. Probabilistic modeling and inference in engineering reliability; lifetime models, product limit estimator, probability plotting, maximum likelihood estimation for censored data, Bayesian methods in reliability, system reliability models, competing risk analysis, acceleration models and analysis of accelerated test data; analysis of recurrence data; planning studies to obtain reliability data.

STAT 534. Ecological Statistics.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 447 or 542

STAT 536. Statistical Genetics.
(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: 401, 447; GEN 320 or BIOL 313
Statistical models and methods for genetics covering models of population processes: selection, mutation, migration, population structure, and linkage disequilibrium, and inference techniques: genetic mapping, linkage analysis, and quantitative trait analysis. Applications include genetic map construction, gene mapping, genome-wide association studies (GWAS), inference about population structure, phylogenetic tree construction, and forensic and paternity identification.

(4-0) Cr. 4. F. Prereq: 341; MATH 414 or 465
Sample spaces, probability, conditional probability; Random variables, univariate distributions, expectation, median, and other characteristics of distributions, moment generating functions; Joint distributions, conditional distributions and independence, correlation and covariance; Probability laws and transformations; Introduction to the Multivariate Normal distribution; Sampling distributions, order statistics; Convergence concepts, the law of large numbers, the central limit theorem and delta method; Basics of stochastic simulation.

STAT 543. Theory of Probability and Statistics II.
(3-0) Cr. 3. S. Prereq: 542
Point estimation including method of moments, maximum likelihood estimation, exponential family, Bayes estimators, Loss function and Bayesian optimality, unbiasedness, sufficiency, completeness, Basu’s theorem; Interval estimation including confidence intervals, prediction intervals, Bayesian interval estimation; Hypothesis testing including Neyman-Pearson Lemma, uniformly most powerful tests, likelihood ratio tests; Bayesian tests; Large sample properties of maximum likelihood estimators and likelihood ratio tests; Nonparametric methods, bootstrap.

STAT 544. Bayesian Statistics.
(3-0) Cr. 3. S. Prereq: 543
Specification of probability models; subjective, conjugate, and noninformative prior distributions; hierarchical models; analytical and computational techniques for obtaining posterior distributions; model checking, model selection, diagnostics; comparison of Bayesian and traditional methods.

(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 511, 542
Chen, Opsomer. Overview of parametric versus nonparametric methods of inference; introduction to nonparametric smoothing methods for estimating density and regression functions; smoothing parameter selection; applications to semiparametric models and goodness-of-fit tests of a parametric model.

STAT 551. Time Series Analysis.
(3-0) Cr. 3. F. Prereq: 447 or 542
Concepts of trend and dependence in time series data; stationarity and basic model structures for dealing with temporal dependence; moving average and autoregressive error structures; analysis in the time domain and the frequency domain; parameter estimation, prediction and forecasting; identification of appropriate model structure for actual data and model assessment techniques. Possible extended topics include dynamic models and linear filters.

STAT 554. Introduction to Stochastic Processes.
(Cross-listed with MATH). Cr. 3. F. Prereq: STAT 542
Markov chains on discrete spaces in discrete and continuous time (random walks, Poisson processes, birth and death processes) and their long-term behavior. Optional topics may include branching processes, renewal theory, introduction to Brownian motion.

(3-0) Cr. 3. F. Prereq: 500 or 401; 543 or 447
Statistical methods for analyzing simple random samples when outcomes are counts or proportions; measures of association and relative risk, chi-squared tests, loglinear models, logistic regression and other generalized linear models, tree-based methods. Extensions to longitudinal studies and complex designs, models with fixed and random effects. Use of statistical software: SAS, S-Plus or R.

STAT 558. Bioinformatics II (Advanced Genome Informatics).
(Cross-listed with BCB, GDCB, COM SI). (3-0) Cr. 3. S. Prereq: BCB 567, BBMB 301, BIOL 315, STAT 430, credit or enrollment in Gen 411
STAT 570. Bioinformatics IV (Computational Functional Genomics and Systems Biology).
(Cross-listed with BCB, GDCB, COM S, CPR E). (3-0) Cr. 3. S. Prereq: BCB 562 BIOL 315, COM S 311 and either 208 or 228, Gen 411, STAT 430.

STAT 579. An Introduction to R.
(0-2) Cr. 1. F. Prereq: Enrollment in 500
An introduction to the logic of programming, numerical algorithms, and graphics. The R statistical programming environment will be used to demonstrate how data can be stored, manipulated, plotted, and analyzed using both built-in functions and user extensions. Concepts of modularization, looping, vectorization, conditional execution, and function construction will be emphasized.

(3-0) Cr. 3. S. Prereq: 579 and 447 or 542
Introduction to scientific computing for statistics using tools and concepts in R: programming tools, modern programming methodologies, modularization, design of statistical algorithms. Introduction to C programming for efficiency; interfacing R with C. Building statistical libraries. Use of algorithms in modern subroutine packages, optimization and integration. Implementation of simulation methods; inversion of probability integral transform, rejection sampling, importance sampling. Monte Carlo integration.

STAT 590. Special Topics.
Cr. arr. Repeatable.
A. Theory
B. Methods
C. Design of Experiments
D. Sample Surveys

STAT 598. Cooperative Education.
Cr. R. F.S.S.S. Prereq: Permission of the department chair.
Off-campus work periods for graduate students in a field of statistics.

STAT 599. Creative Component.
Cr. arr.

Courses for graduate students

(3-2) Cr. 4. F. Prereq: 511, 543
Emphasis on the approaches statisticans take toward the statistical formulation of scientific problems. Students should develop an understanding of the way that various concepts of probability are used in problem formulation, analysis, and inference, and the ability to develop one or more appropriate analyses for a variety of problems. Specific methodological topics include permutation procedures and design-based analysis; model building with single and multiple stochastic components; estimation based on least-squares, likelihood functions, modified likelihood functions, sample reuse, and Bayesian analysis; inference in the sample space, parameter space, and belief space. Development of various analyses for real problems, including statistical formulation and necessary computations.

STAT 606. Advanced Spatial Statistics.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 506, 642
Consideration of advanced topics in spatial statistics, including areas of current research. Topics may include construction of nonstationary covariance structures including intrinsic random functions, examination of edge effects, general formulation of Markov random field models, spatial subsampling, use of pseudo-likelihood and empirical likelihood concepts in spatial analysis, the applicability of asymptotic frameworks for inference, and a discussion of appropriate measures for point processes.

STAT 611. Theory and Applications of Linear Models.
(3-0) Cr. 3. F. Prereq: 500 or 402 or 404, 542 or 447, a course in matrix algebra.
Wu. Matrix preliminaries, estimability, theory of least squares and of best linear unbiased estimation, analysis of variance and covariance, distribution of quadratic forms, extension of theory to mixed and random models, inference for variance components.

STAT 612. Advanced Design of Experiments.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 612
General theory of factorial experiments. Design optimality criteria, approximate design and general equivalence theory, computational approaches to constructing optimal designs for linear models, and extensions to nonlinear models. Advanced topics of current interest in the design of experiments, including one or more of: distance based design criteria and construction of spatial process models, screening design strategies for high-dimensional problems, and design problems associated with computational experiments.

STAT 615. Advanced Bayesian Methods.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: STAT 544 and STAT 601

(3-0) Cr. 3. Alt. F., offered 2011. Prereq: 521
Advanced topics of current interest in the design of surveys and analysis of survey data, including: asymptotic theory for design and model-based estimators, use of auxiliary information in estimation, variance estimation techniques, small area estimation, non-response modeling and imputation.

STAT 642. Advanced Probability Theory.
(Cross-listed with MATH). (4-0) Cr. 4. F. Prereq: 542
Measure spaces, extension theorem and construction of Lebesgue-Stieltjes measures on Euclidean spaces, Lebesgue integration and the basic convergence theorems, Lp-spaces, absolute continuity of measures and the Radon-Nikodym theorem, absolute continuity of functions on R and the fundamental theorem of Lebesgue integration, product spaces and Fubini-Tonelli Theorems, convolutions. Fourier series and transforms, probability spaces; Kolmogorov’s existence theorem for stochastic processes; expectation; Jensen’s inequality and applications, independence, Borel-Cantelli lemmas; weak and strong laws of large numbers and applications, renewal theory.

(4-0) Cr. 4. S. Prereq: 543, 642
Weak convergence; characteristic functions; continuity theorem; Lyapunov-Feller central limit theorem and its ramifications; conditional expectation and probability; Martingale central limit theorems; sufficiency, completeness; Elements of decision theory; Statistical information; Neyman-Pearson theory of testing hypotheses. Uniformly most powerful tests, likelihood ratio tests. Goodness of fit tests. Asymptotic theory of maximum likelihood estimation and likelihood ratio tests; Bayesian models; Invariance.
(Cross-listed with MATH). (3-0) Cr. 3. S.
Stochastic integration and Ito’s Formula. Stochastic differential equations
and applications.

STAT 647. Multivariate Analysis.
(3-0) Cr. 3. Alt. F., offered 2012. Prereq: 543, knowledge of matrix algebra
Multivariate normal distribution, estimation of the mean vector and the
covariance matrix, multiple and partial correlation, Hotelling’s T^2 statistic,
Wishart distribution, multivariate regression, principle components,
discriminant analysis, high dimensional data analysis, latent variables.

Cr. arr. F. Prereq: 643

STAT 651. Time Series.
(3-0) Cr. 3. Alt. S., offered 2012. Prereq: 551, 642
Stationary and nonstationary time series models, including ARMA,
ARCH, and GARCH. Covariance and spectral representation of time
series. Fourier and periodogram analyses. Predictions. CLT for mixing

(3-0) Cr. 3. F. Prereq: 543 and 580
Normal approximations to likelihoods. The delta-method and propagation
of errors. Topics in the use of the E-M algorithm including, its use in the
exponential family, computation of standard errors, acceleration. Resam-
pling methods: brief theory and application of the jackknife and the boot-
strap. Randomization tests. Stochastic simulation: Markov Chain, Monte
Carlo, Gibbs’ sampling, Hastings-Metropolis algorithms, critical slowing-
down and remedies, auxiliary variables, simulated tempering, reversible-
jump MCMC and multi-grid methods.

STAT 690. Advanced Special Topics.
Cr. arr. Repeatable. Prereq: Permission of instructor
A. Theory
B. Methods
C. Design of Experiments
D. Sample Surveys
E. Statistical Computing
F. Graphics

STAT 699. Research.
Cr. arr. Repeatable.
Performing Arts graduates will understand and demonstrate:

1. Knowledge of the cultural heritage and history of the Performing Arts
2. A theoretical and experiential background in the areas of performance, theatrical design, music, and dance
3. Knowledge of creative problem solving and artistic collaboration
4. Skills necessary to perform in or design for a variety of periods, styles, and genres in theatre and dance
5. Awareness of the diversity of expression in the Performing Arts throughout the world’s cultures
6. A practical understanding of the rigors of the field.

Undergraduate Study

Students interested in theatre as a major area of concentration declare a major in Performing Arts and select an emphasis in Theatrical Design or Acting/Directing. Students implement the theories and principles explored in the classroom by participating in production work. During the academic year, Iowa State University Theatre presents up to ten mainstage and second stage productions in Fisher Theater, and works in close collaboration with ISU Music and Dance.

The major in Performing Arts offers the undergraduate student a cross-disciplinary concentration in Music, Dance and Theatre. The core curriculum consists of 24 credits in the three areas. Students elect a 24-credit emphasis in either Dance, Theatrical Design or Acting/Directing. In addition to coursework, Performing Arts majors and minors participate in concert (Orchesis, Footfalls), workshop (Opera Studio, Minority Theatre Workshop) and production (Barchje, Stars Over Veishea, ISU Theatre/Music Theatre/Second Stage and Studio) experiences.

Performing Arts graduates, in addition to a solid theoretical and experiential background in the areas of performance, theatrical design, dance and music, are prepared to meet the challenges of the work force or graduate school with their strengths in collaboration, creative problem solving, meeting deadlines and processing diverse input to yield cohesive output. Two required professional internships prior to graduation are vital to the student’s appreciation and practical understanding of the rigors of the field.

The theatre area offers a wide variety of courses. Students may select from courses in acting, design (costume, scenic, lighting/sound), makeup, stage direction, playwriting, stage management, and theatre history. Independent study and special topics courses supplement formal course offerings to provide opportunities to intensify study in a particular aspect of theatre.

Auditions for ISU Theatre productions are open to all students irrespective of academic major. Similarly, participation in areas of production other than acting is open to both majors and nonmajors. Qualified students also present experimental, laboratory, and Minority Theatre Workshop productions. Student actors, directors, designers, and technical crew heads are required to maintain a grade point average of at least 2.0 to participate in productions.

Theatre scholarships are awarded on a yearly basis to students who make significant contributions to Iowa State University Theatre.
Graduate Study

The department offers graduate courses as supporting work in other fields.

Performing Arts

Courses primarily for undergraduate students.

PERF 105. Issues in the Performing Arts.
(3-0) Cr. 3. S.
Cross-disciplinary analysis and discussion of topics in the performing arts.
Six semesters required of performing arts majors.

PERF 310. Performing Arts Internship.
Cr. R. F.S.S.
Required of performing arts majors. A job or internship with a professional or semi-professional performing arts organization. Offered on a satisfactory-fail basis only.

PERF 401. Performing Arts Seminar.
(2-0) Cr. 2. S.
Intensive collaborative study and practice of topics in music, dance and theatre. Required of performing arts majors. Nonmajor graduate credit.

Theatre

Courses primarily for undergraduate students.

THTRE 106. Introduction to the Performing Arts.
(3-0) Cr. 3. F.S.S.
An audience oriented, broad-based, team-taught survey of the performing arts which emphasizes theatre and includes segments on television, radio, film, dance, and music.

THTRE 110. Theatre and Society.
(3-0) Cr. 3. F.
An introduction to Theatre focusing on its relationship with society throughout history.

Minor in Performing Arts (21 cr)

PERF 105 Issues in the Performing Arts (3 semesters) R
MUSIC 101 Fundamentals of Music 2
MUSIC 102 Introduction to Music Listening 3
DANCE 120 Modern Dance I 1
or DANCE 130 Ballet I 1
DANCE 270 Dance Appreciation 3
THTRE 255 Introduction to Theatrical Production 4
THTRE 263 Script Analysis 3
or THTRE 251 Acting I 3
6 credits 300+ in DANCE, THTRE or PERF 6

Communication Proficiency requirement: Select one course from:

ENGL 302 Business Communication 3
ENGL 303 Free-Lance Writing for Popular Magazines 3
ENGL 304 Creative Writing--Fiction 3
ENGL 305 Creative Writing--Nonfiction 3
ENGL 306 Creative Writing--Poetry 3
ENGL 309 Report and Proposal Writing 3
ENGL 314 Technical Communication 3
ENGL 315 Creative Writing--Screenplays 3
ENGL 316 Creative Writing--Playwriting 3
ENGL 370 Shakespeare 3

THTRE 151. The Actor's Voice.
(3-0) Cr. 3. S.
Study and practice of fundamentals of vocal production: breathing, quality, articulation, projection, and expressiveness for the performing artist.

THTRE 224. Concert and Theatre Dance.
(Cross-listed with DANCE). (3-0) Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. Prereq: By audition only Choreography, rehearsal, and performance in campus dance concerts and/or music theatre productions. Offered on a satisfactory-fail basis only.

THTRE 250. Theatre Practicum.
Cr. 1-2. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor Practice in various aspects of technical theatre production. Offered on a satisfactory-fail basis only.

THTRE 251. Acting I.
(3-0) Cr. 3. F.S.
Theory and practice in fundamentals of acting.

THTRE 255. Introduction to Theatrical Production.
(3-3) Cr. 4. F.S.
Standard structure and procedures, historical overview of performing arts production including the design and creation of scenery, costumes and lighting.

THTRE 263. Script Analysis.
(3-0) Cr. 3. F.S.
Theory, analysis, and interpretation of play scripts for production.

THTRE 290. Special Projects.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: 3 credits in theatre; permission of instructor; approval of written proposal

THTRE 316. Creative Writing -- Playwriting.
(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 250, not open to freshmen Progresses from production of scenes to fully developed one-act plays. Emphasis on action, staging, writing, analytical reading, workshop criticism, and individual conferences. Nonmajor graduate credit.

THTRE 351. Acting II.
(3-0) Cr. 3. S. Prereq: 251. DANCE 120 recommended Theory and practice of techniques of acting with emphasis on character and scene analysis.

THTRE 354. Musical Theatre I.
(2-2) Cr. 3. Prereq: 251 or MUSIC 232 or 3 credits in Dance Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

THTRE 355. Musical Theatre II.
(2-2) Cr. 3. Prereq: 354 Theory, history and practice of musical theatre techniques. Designed to develop the musical theatre performance skills of singers, dancers, and actors.

THTRE 357. Stage Make-up.
(1-2) Cr. 2. F.
Theory and practice of make-up and hair-styling techniques for the performing arts: Theatre, Opera, Dance, Television and Film. Lab required.

THTRE 358. Oral Interpretation.
(3-0) Cr. 3. F.
Principles of oral interpretation: practice in analysis, in reading aloud of literary selections, and in reader’s theatre.
THTRE 360. Stagecraft.
(3-2) Cr. 4. S. Prereq: 255
Tools, materials, and techniques of planning, constructing and painting of performing arts scenography. Basic principles of lighting technology. Technical drawing for performing arts production.

THTRE 365. Theatrical Design I.
(2-2) Cr. 3. F. Prereq: 255
An exploration of the elements, principles and art of theatrical design.

THTRE 366. Theatrical Design II.
(2-2) Cr. 3. S. Prereq: 365
Intensive application of the principles introduced in 365. In-depth study and practice of the graphic skills of rendering and drafting.

THTRE 393. Workshop.
Cr. 3. Repeatable, maximum of 9 credits. F.S.S. Prereq: 3 credits in theatre
Offered to explore special topics.
A. Minority Theatre
B. Repertory
C. Children’s Theatre
D. Musical Theatre
E. Creative Dramatics
F. International Storytelling

THTRE 451. Acting III.
(3-0) Cr. 3. F. Prereq: 351 and permission of instructor
Analysis and practice of period scenes.

THTRE 455. Directing I.
(3-0) Cr. 3. F. Prereq: 255; 263; 251 recommended
Theory, techniques, and practice of directing.

THTRE 456. Directing II.
(2-2) Cr. 3. S. Prereq: 455
Practical and theoretical experience in directing the stage play.

THTRE 461. Theatrical Design Studio.
(3-2) Cr. 4. Repeatable, maximum of 12 credits. F. S. Prereq: Permission of instructor
Focuses on the art and craft of specific areas of theatrical design. Each semester the student will focus on one or two of the following: scenic, costume, or lighting design.

THTRE 465. History of Theatre I.
(3-0) Cr. 3. F. Prereq: HIST 201 or equivalent
Theatre history from ancient times to 1800. Nonmajor graduate credit.

THTRE 466. History of Theatre II.
(3-0) Cr. 3. S. Prereq: 465
Theatre history from 1800 to present. Nonmajor graduate credit.

THTRE 469. Advanced Theatre Practicum.
Cr. 1-3. Repeatable, maximum of 6 credits. F. S. Prereq: 9 credits in theatre courses; junior classification
Practicum in production with ISU Theatre, with opportunities for specialization within various areas. Required: Approval of written proposal.

THTRE 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 9 credits. F. S. Prereq: 9 credits in theatre, approved written proposal, junior classification
Only one independent study enrollment within the department is permitted per semester. No more than 9 credits in Thtre 490 may be counted toward graduation.

THTRE 497. Senior Seminar.
(3-0) Cr. 3. S. Prereq: 15 credits in theatre courses; senior classification
Directed study of a theatre issue or project identified by each student. Students synthesize relevant theory and research culminating in senior project or paper.

THTRE 499. Theatre Internship.
Cr. 1-8. Repeatable, maximum of 8 credits. F. S. Prereq: 18 credits in theatre, other courses deemed appropriate by faculty adviser; 2nd semester junior or senior standing; cumulative GPA of at least 2.5 overall and 3.0 in theatre courses
Supervised application of theatre in professional settings.

Courses primarily for graduate students, open to qualified undergraduate students

THTRE 504. Seminar.
Cr. 1-3. Repeatable, F. S. Prereq: 9 credits in theatre
Topics may include the following:
A. Musical Theatre
B. Acting Techniques
C. Acting Styles
D. Design and Technical Theatre
E. Arts Management

THTRE 590. Special Topics.
Cr. 1-4. Repeatable, maximum of 12 credits. Prereq: Approved written proposal
Women's Studies

Interdepartmental Program

Undergraduate Study

Women’s Studies in the College of Liberal Arts and Sciences is a cross-disciplinary program in which students may elect a minor or a major. Women’s Studies provides an opportunity for students to examine women’s roles, contributions, and status in social and cultural context and to investigate a variety of disciplines from feminist perspectives.

Women’s Studies creates an understanding that interrelated factors — e.g., race, ethnicity, class, age, disability, religion, national origin, and sexual orientation — inform knowledge of women’s history, culture, and social roles. Women’s Studies seeks to improve critical thinking and to provide students with the intellectual means to question prevailing assumptions. It encourages students to explore the contexts and ideological origins of knowledge and to examine the relationship between knowledge and power in society. It promotes social responsibility by examining the connections between personal experience and political activity, and validates student contributions and voices. Women’s Studies graduates are skillful in critical thinking, research methods, and effective communication. Because they have developed a thorough understanding of gender, race, and class, they can understand and work effectively with employers, colleagues, and clients to analyze and address complex social problems. Women’s Studies graduates acquire strong backgrounds for careers in such areas as counseling, education, human resources, public policy, politics, business, or law. The program includes core courses in Women’s Studies and cross-listed courses in anthropology, art history, classical studies, economics, English, history, health and human performance, political science, psychology, religion, sociology, speech communication, and world languages and cultures. An undergraduate major requires 33 credits of core and cross-listed courses. Women’s Studies majors must satisfy the following requirements:

1. Required credits selected from women’s studies core courses (W S).

A. Required core courses:

- W S 201 Introduction to Women's Studies 3
- W S 301 International Perspectives on Women and Gender 3
- W S 401 Feminist Theories 3
- W S 402 Feminist Research in Action 3
- W S 499 Senior Thesis 3
- or W S 491 Senior Internship 3

B. The remaining 6 credits should be chosen from the Women’s Studies core courses:

- W S 203 Introduction to Lesbian Studies 3
- W S 205 Introduction to Queer Studies 3
- W S 302 Issues in Women’s Health and Reproduction 3
- W S 320 Ecofeminism 3
- W S 350 Women of Color in the U.S 3
- W S 425 Intersections of Race, Class and Gender 3
- W S 435 Women and Development 3
- W S 450 Topics in Women’s Studies (may be taken more than once) 3

2. 12 credits selected from W S cross-listed courses or W S core courses.

Women’s Studies majors are encouraged to declare either a minor or a second major in a different program or department. Communication Proficiency requirement: The Women’s Studies major requires an average grade of C- or better in ENGL 150 and ENGL 250 (or ENGL 250H) and W S 201. Undergraduate students may minor in Women’s Studies by taking 15 semester hours of Women’s Studies classes, including:

- W S 201 Introduction to Women's Studies 3
- W S 301 International Perspectives on Women and Gender 3
- one 400 level core Women’s Studies course 3
- 6 additional credits of core or cross-listed courses 6

Any student can declare a major or minor in Women’s Studies or choose to co-major in another program. Students interested in a minor or major in Women’s Studies should contact the Director of the program.

Graduate Study

The graduate minor in Women’s Studies is designed to provide students with knowledge of theories and methods within a variety of approaches in feminist scholarship. The program seeks to integrate and synthesize knowledge from many disciplines and to offer students opportunities for systematic study of gender and women’s experiences and perspectives in all knowledge fields. Students will be prepared to take leadership roles in supporting gender equity and diversity in their careers in education, social service work, business, law, public policy, governmental and nongovernmental organizations, and research.

The graduate minor requires 12 credits for students enrolled in a master’s or a doctoral degree program. Students are required to take either W S 501 Contemporary Feminist Theories or W S 502 Advanced Seminar in Feminist Research Methods; taking both is strongly recommended. Students will also take two or three electives selected from the list of core and cross-listed Women’s Studies courses approved for graduate study. At least one member of the Women’s Studies faculty will serve on the program of study for doctoral students. A list of eligible faculty members may be obtained from the Director of the Women’s Studies program.

Courses primarily for undergraduate students

W S 160. Gender Justice.
(2-0) Cr. 1. F.S.
Half semester course. Examines the socialization process in the United States and how our perspectives are formed. An introduction to patriarchy, sexism, and ally development are explored. Skills to enhance communication and understanding among women and men will be developed. Offered on a satisfactory-fail basis only.

Meets U.S. Diversity Requirement

W S 201. Introduction to Women's Studies.
(3-0) Cr. 3.
Introduction to the interdisciplinary field of Women’s Studies. Contemporar state of women in the U.S. and worldwide from social, economic, historical, political, philosophical and literary perspectives. Analysis of intersection of gender, race, class, and sexuality. Subject matter includes work, health, sexuality, and violence. Foundation for the other courses in the program.

Meets U.S. Diversity Requirement

W S 203. Introduction to Lesbian Studies.
(3-0) Cr. 3. S.
Study of contemporary and historic lesbian cultures and communities from a US and international perspective. Addresses issues of race, class, gender and sexuality as they intersect with the formation of lesbian identities. Explores who identifies as lesbian and how that dis/enables political resistance and formation of community.

Meets U.S. Diversity Requirement
W S 205. Introduction to Queer Studies.
(3-0) Cr. 3. F. Prereq: ENGL 150
Interdisciplinary study of issues relating to lesbian, gay, bisexual, transgender, and queer identities in the U.S. Attention will be given to race and socioeconomic class.
Meets U.S. Diversity Requirement

(Cross-listed with BIOL). (3-0) Cr. 3. F. Prereq: BIOL 101, or 155, or 211
Anatomy and physiology of human reproductive systems, including fertility, pregnancy, and delivery.

W S 301. International Perspectives on Women and Gender.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: 201 or 3 credits in Women’s Studies at the 300 level or above
Study of women in a range of cultures, depending on faculty specialization. Special emphasis on women in development seen in postcolonial context. Nonmajor graduate credit.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: Women’s Studies 201 or 3 credits in Women’s Studies at 300 level or above
Current feminist scholarship in the social sciences and humanities on women’s health, health care, and reproduction. Intersections among race, gender, class, ability, and sexuality are emphasized. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

W S 304. Creative Writing - Fiction.
(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: ENGL 250, not open to freshmen
Progresses from practice in basic techniques of fiction writing to fully developed short stories. Emphasis on writing, analytical reading, workshop criticism, and individual conferences.

(Cross-listed with BIOL). (3-0) Cr. 3. F. Prereq: A 200 level course in science, engineering or women’s studies; ENGL 250
The interrelationships of women and science and engineering examined from historical, sociological, philosophical, and biological perspectives. Factors contributing to underrepresentation; feminist critiques of science; examination of successful strategies.
Meets U.S. Diversity Requirement

W S 320. Ecofeminism.
(Cross-listed with ENV S). (3-0) Cr. 3. Alt. F, offered 2011. Prereq: W S 201 or 3 credits in Women’s Studies at the 300 level or above
Women’s relationships with the earth, non-human nature, and other humans. The course explores the connections between the mastery of women and the mastery of nature; origins of ecofeminism and its relation to the science of ecology and to other branches of feminist philosophies. Critique of modern science, technology, political systems as well as solutions will be included. Nonmajor graduate credit.

W S 321. Economics of Discrimination.
(Cross-listed with ECON). (3-0) Cr. 3. Prereq: ECON 101
Economic theories of discrimination. Analysis of the economic problems of women and minorities in such areas as earnings, occupations, and unemployment. Public policy concerning discrimination. Poverty measurement and antipoverty programs in the U.S. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

W S 323. Gender and Communication.
(Cross-listed with SP CM, COMST). (3-0) Cr. 3.
Examines how understanding and enactment of gender identities is shaped in and through communication. Verbal and nonverbal communication across various contexts including personal relationships and the media. Explores discourse of social movements aiming to transform cultural definitions of gender. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

W S 325. Portrayals of Gender and Sexualities in the Media.
(Cross-listed with SOCI). (3-0) Cr. 3. F.S.SS. Prereq: SOC 130 or 134
How the biological fact of sex is transformed into a system of gender stratification. The demographics and social positions of women and men in the family, education, media, politics, and the economy. Theories of the social-psychological and sociological bases for behavior and attitudes of women and men. The relationship between gender, class, and race.
Meets U.S. Diversity Requirement

W S 328. Sociology of Masculinities and Manhood.
(Cross-listed with SOCI). (3-0) Cr. 3. S. Prereq: SOC 130, 134, or W S 201
Examination of socially constructed and idealized images of manhood, the nature of social hierarchies and relations constructed on the basis of imagery, ideologies, and norms of masculinity. Theories of gender (sociological, psychological, and biological). Particular attention given to theory and research on gender variations among men by race, class, ethnicity, sexual orientation, physical ability and age.
Meets U.S. Diversity Requirement

W S 333. Women and Leadership.
(3-0) Cr. 3. Prereq: Sophomore classification
This course will examine historical and contemporary barriers to and opportunities for women’s leadership in a variety of contexts, including professions and public service. It will examine theories of women’s leadership, gender differences in leadership styles, and the perceptions and expectations about women’s leadership. Multiple perspectives of women’s leadership will be highlighted through lectures, readings, videos, guest speakers and group work.

(Cross-listed with RELIG). (3-0) Cr. 3. F. Prereq: RELIG 205, 210 or W S 201 recommended
Examines the status of women in various religions, feminist critiques of religious structures and belief systems, and contemporary women’s spirituality movements. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

W S 338. Feminist Philosophy.
(Cross-listed with PHIL). (3-0) Cr. 3. F. Prereq: 3 credits in philosophy or women’s studies recommended
A critical, theoretical examination of the oppression of women, especially as it relates to issues of race, class, and sexual orientation. How concepts such as sex and gender, self and other, nature and nurture, complicate our understanding of what it means to be a woman. Historical and contemporary feminist philosophers addressing topics such as violence, sexuality, pornography, political power, family structure and women’s paid and unpaid labor. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**W S 339. Goddess Religions.**
(Cross-listed with RELIG). (3-0) Cr. 3. Prereq: RELIG 205 recommended
Exploration of the foundational myths of Goddess spirituality, including historical and cross-cultural images of the divine and their modern usage by American women. Nonmajor graduate credit.

**W S 340. Women’s Literature.**
(Cross-listed with ENGL). (3-0) Cr. 3. F. Prereq: ENGL 250
Historical and thematic survey of literature by and about women. May include autobiographies, journals, letters, poetry, fiction, and drama. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**W S 342. American Indian Women Writers.**
(Cross-listed with AM IN). (3-0) Cr. 3. Prereq: ENGL 250
Literature of American Indian women writers which examines their social, political, and cultural roles in the United States. Exploration of American Indian women's literary, philosophical, and artistic works aimed at recovering elements of identity, redescribing stereotypes, resisting colonization, and constructing femininity. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**W S 345. Women and Literature: Selected Topics.**
(Cross-listed with ENGL). (3-0) Cr. 3. S. Prereq: ENGL 250
Literature by women and/or dealing with the images of women, e.g., study of individual authors or related schools of authors; exploration of specific themes or genres in women’s literature; analysis of recurrent images of women in literature. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**W S 350. Women of Color in the U.S.**
(Cross-listed with AF AM). (3-0) Cr. 3. S. Prereq: 3 credits in Women’s Studies or African American Studies
Economic, social, political and cultural roles of Women of Color in the U.S. Includes literary, philosophical, and artistic expressions. Myths and realities explored. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**W S 352. Gay and Lesbian Literature.**
(Cross-listed with ENGL). (3-0) Cr. 3. Prereq: ENGL 250
Literary portrayals of gay and lesbian lives and relationships from many different genres. Attention to changing definitions and representations of sexual orientation and gender identity over time. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**W S 370. Studies in English Translation.**
(3-0) Cr. 3.
Readings, discussions, and papers in English.
F. French topics on women or feminism (cross listed to Frnc 370F)
G. German topics on women or feminism (cross listed to Ger 370G)
R. Russian topics on women or feminism (cross listed to Rus 370R)
S. Hispanic topics on women or feminism (cross listed to Span 370S)

**W S 374. Women and Men in the Ancient Mediterranean World.**
(Cross-listed with CL ST, HIST). (3-0) Cr. 3. S. Prereq: Any one course in Cl St, W S, Latin, or Greek
Chronological and topical survey of the status of women and men, focusing on sex/gender issues in the Ancient Mediterranean world; study of constructs of the female and the feminine. Readings from ancient and modern sources. Emphasis on ancient Near East, Egypt, Greece, and Rome.
Meets International Perspectives Requirement

**W S 380. History of Women in Science, Technology, and Medicine.**
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
History of women’s relationship to the fields of science, technology, and medicine, as students and professionals, consumers, subjects and patients, family members, workers and citizens. Concentrates especially on 19th and 20th century United States, concluding with an examination of current issues of special interest to women in science, technology, and medicine.
Meets U.S. Diversity Requirement

**W S 385. Women in Politics.**
(Cross-listed with POL S). (3-0) Cr. 3. S.
Examination of the entry and participation of women in politics in the United States and other countries including a focus on contemporary issues and strategies for change through the political process.
Meets U.S. Diversity Requirement

**W S 386. History of Women in America.**
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Sophomore classification
A survey of social, economic, and political aspects of women’s role from colonial era to present; emphasis on employment, education, concepts of sexuality, and changing nature of the home.
Meets U.S. Diversity Requirement

**W S 394. Women/Gender in Art.**
(Dual-listed with 594). (Cross-listed with ART H, DSN S). (3-0) Cr. 3.
Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture. Nonmajor graduate credit.
Meets U.S. Diversity Requirement

**W S 401. Feminist Theories.**
(3-0) Cr. 3. Prereq: 201 or 3 credits in Women’s Studies at the 300 level or above
Current theories of feminism, the feminine and sexual difference. Topics in race, class, sexuality, and ethnicity as they are addressed in diverse feminisms. May include readings in lesbian, Black, postcolonial, psychoanalytic and postmodern thought. Nonmajor graduate credit.

**W S 402. Feminist Research in Action.**
(3-0) Cr. 3. S. Prereq: 201 and 301
Feminist research methods and scholarship. Class collaborates on a community research and action project to improve women’s lives. Nonmajor graduate credit.

**W S 422. Women, Men, and the English Language.**
(Cross-listed with ENGL, LING). (3-0) Cr. 3. S. Prereq: ENGL 219
The ways men and women differ in using language in varied settings and the ways in which language both creates and reflects gender divisions. Nonmajor graduate credit.
Meets U.S. Diversity Requirement
W S 425. Intersections of Race, Class and Gender.
(Dual-listed with 525). (3-0) Cr. 3. Prereq: W S 201 and one additional W S course
Race, ethnicity, class and gender distinctions and intersections lead
to inequitable distributions of power, social well-being, and resources.
Explores how inequities are institutionalized and how multiple identities
are experienced by women in daily life.

W S 435. Women and Development.
(Dual-listed with 535). (3-0) Cr. 3. Prereq: WS 301
Cross-cultural study of development utilizing both case studies and theo-
retical works. Explores the nature of women’s roles in developing coun-
tries and the ways women and their needs have been excluded/included
in development approaches, policies, and projects. Includes discussion of
actual development projects as well as women’s organizing.

W S 444. Sex and Gender in Cross-cultural Perspective.
(Dual-listed with 544). (Cross-listed with ANTHR). (3-0) Cr. 3. S. Prereq:
ANTHR 201; ANTHR 306 recommended
Cross-cultural examination of the social construction of genders out of
the biological fact of sex. Emphasis on non-western societies. Topics,
presented through examination of ethnographic data, will include the
range of gender variation, status and roles, the institution of marriage,
and symbols of gender valuation.

Meets International Perspectives Requirement.

W S 450. Topics in Women’s Studies.
(Dual-listed with 550). (3-0) Cr. 3. Repeatable, maximum of 6 credits. S.
Prereq: WS 201 or 3 credits in Women’s Studies at the 300 level or above
Special and/or experimental topics in a specific discipline, e.g., women
and education, women and religion, women and the law, women and science.

W S 460. Seminar in Gender and Ethnicity.
(Cross-listed with ENGL). (3-0) Cr. Repeatable. F. Prereq: Completion
of 9 credits of surveys; completion of or concurrent enrollment in 339;
junior classification
Selected readings of various authors, movements, eras, or genres. Read-
ings in criticism; required research paper. Nonmajor graduate credit.

W S 488. Interdisciplinary Research on Women and Leader-
sip.
(3-0) Cr. 3.
Research on women and leadership in selected content areas (e.g.,
athletics, business, education, politics and public service, and science
and engineering). Following an overview of quantitative and qualitative
methods and critical analyses of journal articles on women and leader-
ship. Students will work in groups in selected content areas to research,
write and present paper. Nonmajor graduate credit.

W S 490. Independent Study.
Cr. 1-3. Repeatable, maximum of 6 credits. Prereq: Any two courses in
Women’s Studies
Independent study on a topic in Women’s Studies.

W S 491. Senior Internship.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F.S.SS. Prereq: Senior clas-
sification
Internship designed to provide an application of Women’s Studies prin-
ciples and methods in a workplace. To be arranged with an internal or
external employer and conducted under the supervision of a member of
the Women’s Studies faculty.

(3-0) Cr. 3. F.S.SS. Prereq: Senior classification
Senior thesis to be independently researched and written under the
supervision of a member of the Women’s Studies faculty.

Courses primarily for graduate students,
open to qualified undergraduate students

(3-0) Cr. 3. F.
Advanced study of current theoretical developments in Women’s Studies
in the U.S. and around the world. Examination of the epistemological
bases of feminist scholarship.

(3-0) Cr. 3. S.
Focus on feminist interdisciplinary research methods. Analysis of
contemporary issues facing feminist scholars. Students conduct original
research.

W S 525. Intersections of Race, Class and Gender.
(Dual-listed with 425). (3-0) Cr. 3. Prereq: WS 201 and one additional W S
course
Race, ethnicity, class and gender distinctions and intersections lead
to inequitable distributions of power, social well-being, and resources.
Explores how inequities are institutionalized and how multiple identities
are experienced by women in daily life.

W S 535. Women and Development.
(Dual-listed with 435). (3-0) Cr. 3. Prereq: WS 301
Cross-cultural study of development utilizing both case studies and theo-
retical works. Explores the nature of women’s roles in developing coun-
tries and the ways women and their needs have been excluded/included
in development approaches, policies, and projects. Includes discussion of
actual development projects as well as women’s organizing.

W S 544. Sex and Gender in Cross-cultural Perspective.
(Dual-listed with 444). (Cross-listed with ANTHR). (3-0) Cr. 3. Prereq:
ANTHR 201; ANTHR 306 recommended
Cross-cultural examination of the social construction of genders out of
the biological fact of sex. Emphasis on non-western societies. Topics,
presented through examination of ethnographic data, will include the
range of gender variation, status and roles, the institution of marriage,
and symbols of gender valuation.

W S 545. Women’s Literature.
(Cross-listed with ENGL). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Alt. F., offered 2012. Prereq: 6 credits in literature
Primary texts by women writers; historical, thematic, formal, or theoret-
ical approaches; secondary readings; e.g., Nineteenth-Century Women
Writers; American Women’s Personal Narratives; Southern Women
Writers of the U.S.

W S 550. Topics in Women’s Studies.
(Dual-listed with 450). (3-0) Cr. 3. Repeatable, maximum of 6 credits.
Prereq: 201 or 3 credits in Women’s Studies at the 300 level or above
Special and/or experimental topics in a specific discipline, e.g., women
and education, women and religion, women and the law, women and science.

W S 556. Proseminar in Women’s History and Feminist
Theory.
(Cross-listed with HIST). (3-0) Cr. 3. Prereq: Permission of instructor
Feminist theory from the 1960s to the present as it relates to the writing
of women’s history. Analysis of interpretations of U.S. women’s history
from patriarchal to postmodernist perspectives.

(Cross-listed with HD FS). (3-0) Cr. 3. Alt. F., offered 2011.
Review treatment implications associated with topics such as gender
and power, race/ethnicity, family structure, and socioeconomic status.
Discuss treatment implications of social oppression and discrimination
on families.

W S 590. Special Topics.
Cr. arr. Prereq: Permission of Women’s Studies Program Director
Independent study on a topic in Women’s Studies.
W S 594. Women/Gender in Art.
(Dual-listed with 394). (Cross-listed with ART H, DSN S). (3-0) Cr. 3.
Prereq: Graduate classification, permission of instructor.
Issues of gender related to cultural environments from the Middle Ages to contemporary times in Europe and America. Feminist movement beginning in the 1970s and specifically gender issues in art that are becoming widespread in the artistic culture.

Meets U.S. Diversity Requirement

Courses for graduate students

(Cross-listed with EL PS). (3-0) Cr. 3. S. Prereq: EL PS 620
Critical examination of the philosophical foundations of education that seek to challenge the status quo and advance radical educational change. Exploration of macro-level (and some micro-level) issues relevant to educational change, in relation to how they inform practices of dissent and every day social relations.
Undergraduate Study

Curriculum: World language study should be an integral part of an academic program for most students. The theoretical understanding of and practical experience in language underlie many intellectual disciplines that are designed to develop students' understanding of a second culture through the language spoken by that culture. Upon the completion of their program of studies in the Department of World Languages and Cultures, majors with a concentration in French, German, or Spanish will demonstrate proficiency in five goal areas: Communication, Cultures, Connections, Comparisons, and Communities. Students will be able to:

1. use their concentration language to present and interpret information and to communicate both orally and in writing;
2. demonstrate an understanding of the relationships among the products, practices, and perspectives of the culture(s) in which their concentration language is spoken;
3. demonstrate their ability to acquire information and further their knowledge through their concentration language;
4. demonstrate an understanding of the nature of language and the concept of culture by making comparisons with their own language and culture(s); and
5. demonstrate a desire to become a lifelong learner of their concentration language.

Graduates will achieve both linguistic proficiency and cultural literacy through the study of the language and culture of their program. Linguistic proficiency entails the ability to function effectively in the target language and the ability to communicate competently with native speakers of the target language. Students of Latin and Ancient Greek demonstrate proficiency by becoming able to read the languages and to translate from these languages into clear and idiomatic English. Cultural literacy includes a general knowledge of the culture’s history, familiarity with its literature, and basic knowledge of its social and political institutions.

The Department offers a major in World Languages and Cultures with two options, leading to the Bachelor of Arts degree:

1. Languages and Cultures with a Concentration in French, German, or Spanish;
2. Languages and Cultures for Professions (as a second major only) with a Concentration in French, German, or Spanish. The Department offers minors in Chinese Studies, French, German, Latin, Russian Studies, and Spanish; and instruction in Arabic, Classical Greek, and Portuguese. The Department also houses the College of Liberal Arts and Sciences’ Program in Classical Studies.

A full statement of requirements for majors and minors may be obtained from the Department. For a complete statement of all the college degree requirements, see Liberal Arts and Sciences, Curriculum. Current and detailed information about the Department, including placement information, is available on-line at www.language.iastate.edu.

Policies

Students who have had formal training in world languages offered at Iowa State may obtain credit by passing appropriate examinations. Students with native fluency in languages taught at Iowa State may not enroll in or take the Exam for Credit in elementary or intermediate courses (100 and 200 level) in their native language. Students are considered to have native fluency if their ethnic first language as indicated on the matriculation form is the language in which they wish to enroll. Students are also considered to have native fluency if they have had substantial attendance at a secondary school or university where the language of instruction is the language in which they wish to enroll at ISU. Students with native fluency may be eligible to enroll in literature and civilization courses in their native language at the 300 level or above; such students must also consult the department office to determine eligibility for advanced composition and conversation courses (300 level and above). Students who have completed three or more years of high-school world language study may not enroll in or receive credit for 101-102 in those languages; credit may be obtained by passing the appropriate Exam for Credit or by completing an advanced sequence (200-level or higher) in that language. Students who complete an approved sequence of courses in a single language at the 200- or 300-level (e.g., 201 and 202 or 301 and 302) with a grade of C- or higher are eligible to receive credit for 101 and 102 in that same language if they have not received credit for a 101 or 102 course in the language. Students who complete a 102 course with a grade of C- or higher are eligible to receive credit for 101 in the same language if they have not received credit for 101 in the same language. Students should contact the department after completion of the course sequence to receive credit. Courses in the 101-102 level may not be taken on a remedial basis.

Students who have completed two years but less than three years of a single high-school world language may not enroll in a 101 course in that language. These students may enroll in either a 102 course in that language, or in the case of Spanish, SPAN 097 Accelerated Spanish Review. Before enrolling in either SPAN 097 Accelerated Spanish Review or a 102 language course, students are recommended to take the on-line placement test available at www.language.iastate.edu. After completing the on-line placement test, students who believe that they have extenuating circumstances may appeal to the Department of World Languages and Cultures in order to request enrollment in a 101 language course.

SPAN 097 Accelerated Spanish Review is designed for students who need additional work in the language at the first-year level (101-102) and are not planning to continue their language study at the second-year 201-202 level. Students who complete SPAN 097 Accelerated Spanish Review with a passing grade will have fulfilled the LAS world language requirement. Students who have completed SPAN 097 Accelerated Spanish Review and wish to pursue further study in Spanish at the 201-202 level may enroll in 102.

Students with disabilities who need to satisfy the world language requirement may direct questions to their academic adviser, the Department of World Languages and Cultures, or the Disability Resources Office.

Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is not normally available.

The Department of World Languages and Cultures participates in the Iowa Regents' world language summer study abroad programs in France, Morocco, Peru and Spain. The Department also offers summer programs in Greece, Russia, Spain and Mexico; and semester study abroad programs in Mexico and Spain. Information concerning these programs can be obtained directly from the Department.

Language and literature courses numbered 300 and above are principally taught in the target language; courses numbered in the 270s, 370s, and 470s are taught in English. For courses taught in English about Ancient Greek and Rome, see Classical Studies. Students may not take intermediate (200 level) courses for credit after successfully completing any advanced (300/400 level) course, except those in the 370 series or courses taught in English translation. Students who have successfully completed any course in the intermediate (200 level) sequence may not take a lower-numbered course in that sequence for a grade.

Students at all levels of world language study will have access to the Language Studies Resource Center, located in 3142 Pearson. The Resource Center contains an extensive collection of world language materials, including audio-visual materials, electronic resources, music, books, language specific software and hardware, and other course-related materials.
Materials fees: Each student enrolled in a 100- through 400-level world language course is assessed a materials and professional support fee of $25.00 per course. No student will be charged more than $50.00 per semester, regardless of the number of world language courses in which she or he is enrolled for the semester. If a student drops a course subject to the fee by the 15th day of the semester the fee for that course will not be assessed.

Communication Proficiency requirement: The Department requires a grade of C- or better in each of ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition (ENGL 250H Written, Oral, Visual, and Electronic Composition, Honors), and a grade of C or better in any course numbered between 370 and 379 taught by the Department of World Languages and Cultures or the interdepartmental program in Classical Studies.

Languages and Cultures for Professions (LCP)

Students with primary majors in the College of Business or the College of Engineering are encouraged to complete an LCP second major option in World Languages and Cultures with a concentration in French, German, Spanish, or an LCP minor option in Chinese Studies or Russian. The primary objective of the LCP option is to provide learning environments within which students can achieve global literacy, linguistic proficiency, and intercultural competence. In the LCP curriculum, students will learn how professions are shaped by social and cultural forces and, alternatively, how professions shape society. In courses on contemporary culture and society, students will identify and analyze issues dealing with the complex interrelationships of languages and cultures and consider how they may affect their chosen profession. Students will experience living and working in diverse cultural settings through study abroad and internship opportunities offered through the LCP program and/or in collaboration with the Colleges of Business and Engineering. Students enrolled in the LCP second major option may receive non-graded academic credit for the successful completion of internships (WLC courses numbered 499 in each language area).

For the LCP second major option, students will complete 30 credits within their language concentration beyond the fourth-semester level, selected from the list of approved LCP core courses and electives designated for their respective college curricula in either Business or Engineering. Students may only enroll in the LCP option as a second major and may not graduate with the LCP option in the WLC major alone.

Students in the College of Business may combine course work in the International Business (IB) Secondary Major with course work in LCP by selecting from a list of approved options. Students should consult their academic adviser in the College of Business and the WLC advisor for coursework and international experience that fulfill requirements in both the IB and LCP major options.

Graduate Study

The Department of World Languages and Cultures offers course work leading to a graduate minor in French, German, Latin, Russian Studies or Spanish. The graduate minor in each of these languages is designed to provide an opportunity for graduate students to further their knowledge of that language to complement work in their major disciplines. The graduate minor provides formal recognition of student achievement and expertise in one of the languages above. Graduate minor credits are also offered in Greek.

Graduate Minor

Program Requirements:

Prerequisites

Graduate students who wish to minor in one of the languages above must have 400-level proficiency in that language. When this is not the case, the student may be required to take a language course below the 400-level, which would not count towards the graduate minor requirements.

Course Requirements

For the M.A. or M.S.: Three courses in the language of the minor. No more than three credits may be in courses numbered 401, 402, and 403. For the Ph.D.: Four courses in the language of the minor which must include at least one three credit course at the 500 level. No more than three credits may be in courses numbered 401, 402, or 403. At least two courses for the M.A. and the Ph.D. minors must be taken in residence at Iowa State University. Papers written for these courses are expected to have a content and depth commensurate with the graduate status of the student.

Special Courses in World Languages and Cultures (WLC)

Courses primarily for undergraduate students

WLC 119. Introduction to World Languages.

(Cross-listed with LING). (3-0) Cr. 3.

Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and dialects, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.

Meets International Perspectives Requirement.

WLC 417. Student Teaching.

(Cross-listed with C I). Cr. 8-12. F.S.

Prereq: Admission to teacher education, approval of coordinator during semester before student teaching Evaluation of instruction, lesson planning, and teaching in the liberal arts and sciences.

G. Foreign Language (Same as C I 417G.)

WLC 484. Technology, Globalization and Culture.

(Dual-listed with 584). (Cross-listed with M E). (3-0) Cr. 3. F.

Prereq: senior classification for 484; graduate classification for 584

Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

WLC 486. Methods in Elementary School World Language Instruction.

(Cross-listed with C I, LING). (3-0) Cr. 3. F.

Prereq: 25 credits in a world language Planning, implementation, and assessment of standards-based, student-centered, and thematic instruction in the elementary (K-8) classroom. Special emphasis on students’ communicative skills, cultural knowledge, and content learning. Nonmajor graduate credit.

(Cross-listed with LING, C I). (3-0) Cr. 3. F.

Prereq: 25 credits in a world language, admission to the teacher education program

Theories and principles of contemporary world language learning and teaching. Special emphasis on designing instruction and assessments for active learning.
WLC 491. Experiences Abroad: Learning to Think Globally.
(Cross-listed with INTST). (1-0) Cr. 1. Repeatable, maximum of 2 credits. Prereq: Minimum of 3 cr. study abroad and/or internship abroad
Students returning from study abroad gain perspective on the personal, academic, and professional impact of their time spent abroad through readings and discussions. Students will be expected to make one presentation about the culture they experienced to an audience outside ISU. Offered on a satisfactory-fail basis only.

Courses primarily for graduate students, open to qualified undergraduate students

WLC 584. Technology, Globalization and Culture.
(Dual-listed with 484). (Cross-listed with M E). (3-0) Cr. 3. F. Prereq: senior classification for 484; graduate classification for 584
Cross-disciplinary examination of the present and future impact of globalization with a focus on preparing students for leadership roles in diverse professional, social, and cultural contexts. Facilitate an understanding of the threats and opportunities inherent in the globalization process as they are perceived by practicing professionals and articulated in debates on globalization. Use of a digital forum for presenting and analyzing globalization issues by on-campus and off-campus specialists.

Meets International Perspectives Requirement.

Arabic (Arabic)

Courses primarily for undergraduate students

ARABC 101. Elementary Arabic I.
(4-0) Cr. 4. F.
Introduction to modern standard Arabic. Development of reading, writing, listening comprehension, and speaking skills. Attention to use of the Arabic alphabet. Presentation of culture and social customs in Arabic-speaking countries.

ARABC 102. Elementary Arabic II.
(4-0) Cr. 4. S.
Introduction to modern standard Arabic. Development of reading, writing, listening comprehension, and speaking skills. Attention to use of the Arabic alphabet. Presentation of culture and social customs in Arabic-speaking countries.

Meets International Perspectives Requirement.

ARABC 201. Intermediate Arabic I.
(4-0) Cr. 4. F. Prereq: ARABC 102
Intermediate level development of reading, writing, listening comprehension, and speaking skills. Use of Arabic alphabet continued from beginning level courses. Presentation of culture and social customs in Arabic-speaking countries.

Meets International Perspectives Requirement.

Courses primarily for undergraduate students

CHIN 101. Elementary Mandarin Chinese I.
(5-0) Cr. 5. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

CHIN 102. Elementary Mandarin Chinese II.
(5-0) Cr. 5. S. Prereq: 101
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

Meets International Perspectives Requirement.

CHIN 201. Intermediate Mandarin Chinese I.
(5-0) Cr. 5. F. Prereq: 102
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.

Meets International Perspectives Requirement.

CHIN 202. Intermediate Mandarin Chinese II.
(5-0) Cr. 5. S. Prereq: 201
Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.

Meets International Perspectives Requirement.

CHIN 272. Introduction to Chinese Culture.
(3-0) Cr. 3. F.
Interdisciplinary introduction to Chinese society and culture from earliest times to the present. Focus on the formative thoughts and the overall development of Chinese culture and society through structured reading of literary and non-literary texts.

Meets International Perspectives Requirement.

CHIN 301. Advanced Chinese Readings I.
(3-0) Cr. 3. F. Prereq: 202 or equivalent
Continuing study of Chinese beyond intermediate level with a focus on communicative skills. Cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.

Meets International Perspectives Requirement.

CHIN 302. Advanced Chinese Readings II.
(3-0) Cr. 3. S. Prereq: 301 or equivalent
Continuing study of Chinese beyond intermediate level with a focus on communicative skills. Cultural literacy through a variety of texts from the humanities, social sciences, mass media and business.

Meets International Perspectives Requirement.

CHIN 304. Chinese for Business and Professions.
(4-0) Cr. 4. S. Prereq: CHIN 202 or equivalent
Introduction to professional language and culture in China and Chinese-speaking regions in Asia. Development of all four language skills, focusing on practical applications in the professional contexts. Development of global awareness and cross-cultural understanding. Preparation for internships.

(3-0) Cr. 3. F. Prereq: ENGL 150 or equivalent
Topics may include traditional prose, poetry, and drama; the Chinese novel; twentieth-century fiction and film; gender and cosmology in Chinese literature. All readings and class discussions in English.

Meets International Perspectives Requirement.

CHIN 375. China Today.
(3-2) Cr. 3-4. S. Prereq: ENGL 250 or equivalent
Topics may vary from year to year. Readings, discussions, and papers in English on contemporary society, culture, literature and the arts.

Meets International Perspectives Requirement.

CHIN 403. Reading Chinese Texts.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: CHIN 302 or equivalent
Critical reading of authentic cultural and literary texts, consolidation of existing language skills, comprehension of in-depth cultural issues. Taught in Chinese. Nonmajor graduate credit.

CHIN 490. Independent Study.
Cr. 1-6. Repeatable. Prereq: 6 credits in Chinese and permission of department chair
Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. Nonmajor graduate credit.

French (Frnch)
World Languages and Cultures majors with a concentration in French have two options:

WLC Option I: French Studies
Under WLC Option I, students with a concentration in French Studies must complete at least 30 credits beyond the intermediate (201-202) level.

A. French Studies Required Core Courses (15 credits)

<table>
<thead>
<tr>
<th>Course Code</th>

<td>3</td>
</tr>
</tbody>
</table>

B. Electives (12 credits)
Twelve additional credits at the 300 level in courses instructed in French.

C. Electives (3 credits)
Three additional credits in French courses instructed in English.

Curricular Notes: FRNCH 340 Studies in French or Francophone Literature must be completed on campus and may not be fulfilled through transfer or study abroad.

Minor in French
The French Minor requires a total of 15 credits in French beyond the 102 level, 9 credits of which must be at the 300-level

Option 1: 15 credits in French, at least 9 of which at the 300-level, including:

<table>
<thead>

B. Electives (3 credits)

Three additional credits at the 300 level in courses instructed in French.

C. Electives (3 credits)

Three additional credits in French courses instructed in English.

Curricular Notes: Students may enroll in the Languages and Cultures for Professions (LCP) Option in French as a Second Major only. They may not graduate with the Second Major alone.

**Courses primarily for undergraduate student**

**FRNCH 101. Elementary French I.**

(4-0) Cr. 4. FSS.

Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.
FRNCH 102. Elementary French II.
(4-0) Cr. 4. S.S.S. Prereq: 101
Beginning level development of reading, writing, listening comprehen-
sion, and speaking in French, within the context of French culture. Credit
by examination in the Department of World Languages and Cultures for
courses numbered 101, 102, 201, and 202 is available only to students
who are not currently enrolled in the course. Credit by examination for
other courses in the Department is normally not available.

Meets International Perspectives Requirement.

FRNCH 201. Intermediate French I.
(4-0) Cr. 4. F. Prereq: 102
Intermediate level development of reading, writing, listening comprehen-
sion, and speaking in French within the context of French culture. Credit
by examination in the Department of World Languages and Cultures for
courses numbered 101, 102, 201, and 202 is available only to students
who are not currently enrolled in the course. Credit by examination for
other courses in the Department is normally not available.

Meets International Perspectives Requirement.

FRNCH 202. Intermediate French II.
(4-0) Cr. 4. S. Prereq: 201
Intermediate level development of reading, writing, listening comprehen-
sion, and speaking in French within the context of French culture. Credit
by examination in the Department of World Languages and Cultures for
courses numbered 101, 102, 201, and 202 is available only to students
who are not currently enrolled in the course. Credit by examination for
other courses in the Department is normally not available.

Meets International Perspectives Requirement.

FRNCH 301. French Writing and Grammar.
(3-0) Cr. 3. F. Prereq: 202
Emphasis on developing functional language skills in reading and writing.
Selective review of grammar within the context of cultural and literary
prose.

Meets International Perspectives Requirement.

FRNCH 302. Reading and Writing French.
(3-0) Cr. 3. S. Prereq: 202
Readings in French prose, theater and poetry. Introduction to close
reading and analysis. Development of reading and writing skills for upper-
level courses.

FRNCH 304. French for Business and Professions.
(3-0) Cr. 3. S. Prereq: 301 or 302
Communication in business and professional contexts in French-speaking
countries. Cultural contexts of business and professional practice.
Emphasis on working across French-American cultures. Preparation for
internships. Nonmajor graduate credit.

Meets International Perspectives Requirement.

FRNCH 305. French Conversation.

in French or Francophone history, literature, or culture. Readings, discus-
sions, and papers in English.

Meets International Perspectives Requirement.

FRNCH 378. French Film Studies in English.
(2-2) Cr. 3. Repeatable.
Analysis and interpretation of film in twentieth-century French society.
Topics vary according to faculty interest. Film directors, genres, move-
ments (e.g. The New Wave), historical survey, aesthetics, and cinematog-
raphy. Readings, discussions and papers in English.

FRNCH 395. Study Abroad.
Cr. 1-10. Prereq: 2 years university-level French
Supervised instruction in language and culture of France; formal class
instruction at level appropriate to student’s training, augmented by prac-
tical living experience.

Meets International Perspectives Requirement.

FRNCH 476. French Civilization Seminar in English.
(3-0) Cr. 3. Repeatable. S.
Advanced seminar in French civilization. Topics vary according to faculty
interest. Readings, discussions, and paper in English. Nonmajor graduate
credit.

FRNCH 490. Independent Study.
Cr. 1-6. Repeatable, maximum of 9 credits. Prereq: Permission of French
staff and department chair
Designed to meet the needs of students who wish to focus on areas
other than those in which courses are offered. No more than 9 credits in
Frnch 490 may be counted toward graduation.

FRNCH 499. Internship in French.
Cr. 1-3. Repeatable, maximum of 3 credits. F.S.SS. Prereq: 9 credits of
French at the 300 level; permission of advisor and WLC Internship Coor-
dinator. Work experience using French language skills in the public or
private sector, combined with academic work under faculty supervision.
Credits may be applied only to LCP major. Offered on a satisfactory-fail
basis only. No more than 3 credits of Frnch 499 may be applied to the
major.

Courses primarily for graduate students,
open to qualified undergraduate students

FRNCH 590. Special Topics in French.
Cr. 2-4. Repeatable. Prereq: Permission of instructor; 6 credits of 400
level French
A. Literature or Literary Criticism
B. Linguistics
C. Language Pedagogy
D. Civilization
German (Ger)

**WLC Option I: German Studies**
Under WLC Option I, students with a concentration in German must complete at least 30 credits beyond the intermediate (GER 201 - GER 202) level. Students electing the German Studies option may count a maximum of two of the following courses towards the major:

<table>

</tr>
</tbody>
</table>

**C. Study Abroad:** The department strongly recommends that all students of German participate in an approved study abroad program based in a German-speaking country. Credit from an approved study abroad program may be applied to the major.

Curricular Notes: GER 330 German Literature and Culture may be repeated once for major credit when offered with a different topic (6cr. total). GER 476 Topics in German Cultural Studies is required for the WLC major option in German Studies. Majors must enroll in GER 476 for 4 credits. Majors choosing the German Studies option may select two additional courses for 4 cr. from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GER 370</td>
<td>German Studies in English</td>
<td>3-4</td>

Designed to meet the needs of students who seek work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Greek 490 may be counted toward graduation.

Latin (Latin)
For courses in Latin literature taught in English, see Classical Studies.

Minor requirements
Minors are required to complete 9 credits at the 300 level or higher.

Courses primarily for undergraduate students

LATIN 101. Elementary Latin I.
(4-0) Cr. 4. F.
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.

LATIN 102. Elementary Latin II.
(4-0) Cr. 4. S. Prereq: 101
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.

LATIN 201. Intermediate Latin.
Cr. arr. F. Prereq: 102
Emphasis on grammatical principles, composition and reading Latin texts.

LATIN 332. Introduction to Latin Literature.
Cr. arr. S. Prereq: 201
Readings in Latin Literature with emphasis on critical analysis of style, structure or thought.
Meets International Perspectives Requirement.

LATIN 441. Advanced Readings in Latin Literature.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. F. Prereq: 332
Study of individual authors or genres; intensive readings in the original supplemented by modern criticism and analysis in English. Authors and genres will vary; courses may be repeated to a maximum of 6 credits each. Nonmajor graduate credit.
Meets International Perspectives Requirement.

LATIN 442. Advanced Topics in Latin Literature.
(3-0) Cr. 3. Repeatable, maximum of 6 credits. S. Prereq: 332
Advanced study of authors or topics relating to Latin literature. Authors and topics will vary; courses may be repeated to a maximum of 6 credits each. Nonmajor graduate credit.

Portuguese (Port)
Courses primarily for undergraduate students

PORT 101. Elementary Portuguese I.
Cr. arr.
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

PORT 102. Elementary Portuguese II.
Cr. arr. Prereq: 101
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

Meets International Perspectives Requirement.

PORT 111. Elementary Portuguese, Accelerated I.
Cr. arr. Prereq: Four semesters of college Spanish or the equivalent. Students with four semesters at the college level or the equivalent of another Romance language may be admitted by permission of the instructor
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

PORT 112. Elementary Portuguese, Accelerated II.
Cr. arr. Prereq: Portuguese 111
An introduction to the Portuguese language through the communicative approach within the context of Luso-Brazilian culture.

Meets International Perspectives Requirement.

PORT 201. Intermediate Portuguese I.
Cr. arr. Prereq: 102 or equivalent
Intensive review of basic grammar and conversation. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.
Meets International Perspectives Requirement.
PORT 202. Intermediate Portuguese II.
Cr. art. Prereq: 201 or equivalent
Intensive review of basic grammar and conversation. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.

PORT 490. Independent Study.
Cr. 1-6. Repeatable, maximum of 9 credits. Prereq: 6 credits in Portuguese or permission of department chair. Designed to meet the needs of students who seek to work in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 9 credits of Port 490 may be counted toward graduation.

Russian Studies (Rus)
The major concentration in Russian Studies requires 24 credits at the 202 level or above. World Languages and Cultures majors with a concentration in Russian Studies have two options:

WLC Option I: Russian Studies*

<table>

**Courses primarily for undergraduate students**

**RUS 101. Elementary Russian I.**
(4-0) Cr. 4. F, S.
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture.

**RUS 102. Elementary Russian II.**
(4-0) Cr. 4. S. Prereq: 101
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture.

Meets International Perspectives Requirement.

**RUS 195. Study Abroad.**
Cr. 1-10. Repeatable. SS.
Supervised intensive instruction in Russian language and culture; formal class instruction at level appropriate to students? training, augmented by practical living experiences. Consult with department regarding equivalence with RUS 101 and 102. Acceptable for LAS General Education Requirement credit in the II group.

**RUS 201. Intermediate Russian I.**
(4-0) Cr. 4. F. Prereq: 102
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills.

Meets International Perspectives Requirement.

**RUS 202. Intermediate Russian II.**
(4-0) Cr. 4. S. Prereq: 201
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills.

Meets International Perspectives Requirement.
RUS 295. Study Abroad.
Cr. 1-10. Repeatable. SS. Prereq: RUS 102 or equivalent
Supervised intensive instruction in Russian language and culture; formal
class instruction at level appropriate to students' training, augmented
by practical living experiences. Consult with department regarding equiv-
alanve with RUS 201 and 202. Acceptable for LAS General Education
Requirement credit in the II group.

RUS 301. Composition and Conversation.
(3-0) Cr. 3. F Prereq: 202
Thorough study of the Russian language, with emphasis on strengthen-
ing proficiency in writing, speaking, reading, and listening. Increased
focus on syntax and word formation.
Meets International Perspectives Requirement.

RUS 304. Russian for Business and Professions.
(3-0) Cr. 3. F Prereq: 202
Communication in business and professional contexts in Russian-
speaking countries. Development of effective communication strategies
and project management in the workplace. Cultural contexts of business
and professional practice. Nonmajor graduate credit.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Repeatable. Prereq: 202
Selected readings in Russian literature and culture. Emphasis on tech-
niques of reading and analysis of literary and cultural texts.
Meets International Perspectives Requirement.

RUS 370. Russian Studies in English Translation.
(3-0) Cr. 3. Repeatable.
Topics vary according to faculty interest. Author, genre or period study,
women writers, cinema, or contemporary theory. Readings, discussions,
and papers in English.
Meets International Perspectives Requirement.

R. Russian topics on women or feminism (cross listed to W S 370R)

RUS 375. Russia Today.
(3-0) Cr. 3. Repeatable.
A survey of social, political, economic, and cultural topics relevant to
contemporary Russia. Readings, discussions and papers in English.
Meets International Perspectives Requirement.

RUS 378. Russian Film Studies in English.
(3-0) Cr. 3.
Analysis and interpretation of cinema in Russia and the Soviet Union.
Topics vary according to faculty interest. Film directors, genres, move-
ments, historical survey, aesthetics, and cinematography. Readings,
discussions and papers in English.
Meets International Perspectives Requirement.

RUS 395. Study Abroad.
Cr. 1-6.
Supervised instruction in language and culture of Russia; formal class
instruction at level appropriate to student’s training, augmented by prac-
tical living experience.
Meets International Perspectives Requirement.

RUS 490. Independent Study.
Cr. 1-6. Repeatable. Prereq: 6 credits in Russian and permission of
department chair
Designed to meet the needs of students who seek work in areas other
than those in which courses are offered, or who desire to integrate a
study of literature or language with special problems in major fields. No
more than 9 credits of Rus 490 may be counted toward graduation.

RUS 499. Internship in Russian.
Cr. 1-3. Repeatable. F.S.S.S. Prereq: 9 credits of Russian at the 300 level;
permission of advisor and WLC Internship Coordinator
Work experience using Russian language skills in the public or private
sector combined with academic work under faculty supervision. Available
only to majors and minors. No more than 3 credits may be applied to the
major.

Courses primarily for graduate students,
open to qualified undergraduate students

RUS 590. Special Topics in Russian.
Cr. 2-4. Repeatable. Prereq: Permission of instructor; 6 credits of 400
level Russian
A. Literature or Literary Criticism
B. Linguistics
C. Language Pedagogy
D. Civilization

Spanish (Span)
World Languages and Cultures majors with a concentration in Spanish
have two options:

WLC Option I: Hispanic Studies
Under WLC Option I, students with a concentration in Spanish must
complete a minimum of 33 credits beyond the intermediate (201-202)
level.

A. Hispanic Studies Required Core Courses: (12 cr.)

<table>

<tr>
<td>SPAN 445</td>
<td>Seminar on the Literatures and Cultures of Latin America</td>
<td>3</td>
</tr>
</tbody>
</table>

D. Study Abroad: The department strongly recommends that all students of Spanish participate in an approved study abroad program based in a Spanish-speaking country. Under Option I, any student who chooses not to participate in a department-approved program will be required to take 3 additional elective credits of Spanish at or above the SPAN 321 level (for a total of 36 credits beyond the intermediate 201-202 level).

E. Communication Proficiency Requirements: Degree-seeking students must earn a grade of C- or better in a sequence of English composition courses, usually ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition. The department will certify Communication Proficiency for students who receive a C or better in a WLC or Classical Studies course numbered 370-379. Such a course will also fill an LAS Group I (Arts and Humanities) requirement.

WLC Option II: Language and Cultures for Professions
Under WLC Option II students with a concentration in Spanish must complete a minimum of 30 credits beyond the intermediate (201-202) level.

A. Languages and Cultures for Professions (Business) Students with a primary major in the College of Business may select from one of the following options:

Business Option 1
International Business Secondary Major and Languages and Cultures for Professions Minor Emphasis (27 credits total)

I. International Business Secondary Major: (12 credits from approved CoB list)

II. LCP Minor Emphasis Courses: (15 credits)

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SPAN 303B</td>
<td>Conversation for Professionals</td>

<tr>
<td>SPAN 499</td>
<td>Internship in Spanish **</td>
<td>1-3</td>
</tr>
<tr>
<td>or SPAN 395</td>
<td>Study Abroad</td>
<td></td>
</tr>
</tbody>
</table>

* SPAN 321 Spanish Civilization and SPAN 322 Latin American Civilization may be substituted.

** Additional credit from an approved study abroad program may be applied to the major.

Curricular Notes: SPAN 395 Study Abroad or SPAN 499 Internship in Spanish fulfills the International Business 3-month international experience requirement. SPAN 304 Spanish for Business and Professions, SPAN 395 Study Abroad and SPAN 499 Internship in Spanish may be double counted under Option 1.

Business Option 2
International Business Secondary Major and Language and Cultures for Professions Major (42 credits total)

I. International Business Secondary Major: (12 credits from approved CoB list)

II. LCP Second Major (30 credits)

A. Required LCP Core Courses: (12 credits)

<table>
<thead>
<tr>
<th>Course Code</th>

- SPAN 333 Studies in Latin American Literature from the Twentieth Century to the Present (3 credits)

#### C. Electives: (6 credits)

Select one course from each of the following two literature categories:

##### Category 1:

- SPAN 330 Studies in Spanish Literature to 1700 (3 credits)
- SPAN 331 Studies in Spanish Literature from 1700 to the Present (3 credits)
- SPAN 332 Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century (3 credits)
- SPAN 333 Studies in Latin American Literature from the Twentieth Century to the Present (3 credits)

##### Category 2:

- SPAN 440 Seminar on the Literatures and Cultures of Spain (3 credits)
- SPAN 441 Seminar on Cervantes and the Golden Age (3 credits)
- SPAN 445 Seminar on the Literatures and Cultures of Latin America (3 credits)

### Courses primarily for undergraduate students

**SPAN 097. Accelerated Spanish Review.**

(3-2) Cr. arr. F.S. Prereq: Two years but less than three years of high-school Spanish

For students who require additional review at the first year (101-102) level. Course components include a compact review of 101 and the essential elements of 102. Course completed with a passing grade fulfills the LAS foreign language requirement. Not recommended for students who wish to continue language at the second year (201-202) level without completing 102.

**SPAN 101. Elementary Spanish I.**

(4-0) Cr. 4. F.S.S. A communicative approach to grammar and vocabulary within the context of Hispanic culture.

**SPAN 102. Elementary Spanish II.**

(4-0) Cr. 4. S.S.S. Prereq: 101, 97 or placement by departmental exam Continuation of Spanish 101. A communicative approach to grammar and vocabulary within the context of Hispanic culture.

Meets International Perspectives Requirement.

**SPAN 195. Study Abroad.**

Cr. 3. SS. Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student’s training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 101 or 102.

Meets International Perspectives Requirement.

**SPAN 201. Intermediate Spanish I.**

(4-0) Cr. 4. F. Prereq: 102 or placement by departmental exam Intensive review of basic grammar and conversation. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.

Meets International Perspectives Requirement.

**SPAN 202. Intermediate Spanish II.**

(4-0) Cr. 4. S. Prereq: 201 or placement by departmental exam Continuation of Spanish 201. Intensive review of basic grammar. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.

Meets International Perspectives Requirement.
SPAN 295. Study Abroad.
Cr. 3. SS. Prereq: 102 or equivalent
Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to student’s training, augmented by practical living experience. Taught in Spanish. Consult the department regarding equivalency with SPAN 201 or 202.
Meets International Perspectives Requirement.

(4-0) Cr. 4. F.S. Prereq: 4 years of high school Spanish, two years of Spanish at a community college, Spanish 201, or equivalent by placement Bridge course between 200- and 300-level Spanish courses to prepare students for 300 level courses. Focus on application of advanced grammatical concepts. Designed for students who want to continue at the 300 level. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 301. Spanish Grammar and Composition.
(3-0) Cr. 3. F.S. Prereq: 202 or placement by departmental exam
Review and application of grammar concepts in the development of writing skills within the context of Hispanic culture. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 303. Spanish Grammar and Conversation.
(3-0) Cr. 3. F.S. Prereq: 202 or placement by departmental exam
Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational skills within the context of Hispanic culture. Taught in Spanish.
A. Conversation through Culture
B. Conversation for Professionals

SPAN 304. Spanish for Business and Professions.
(3-0) Cr. 3. F.S. Prereq: 202 or placement by departmental exam (301 recommended)
Introduction to professional communication within a cultural context. Grammar review as needed. Individual projects will focus on special interests. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 314. Introduction to Reading Hispanic Texts.
(3-0) Cr. 3. F.S. Prereq: 301
Critical reading of Hispanic literary and cultural texts. Presentation of techniques and terminology of literary criticism. Study of basic genres such as: narrative, poetry, drama, essay. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 321. Spanish Civilization.
(3-0) Cr. 3. Prereq: One course at the 300 level
A survey of the social, political, religious, and cultural history of Spain. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 322. Latin American Civilization.
(3-0) Cr. 3. Prereq: One course at the 300 level
A survey of the social, political, religious, and cultural history of Spanish America. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 323. Spain Today.
(3-0) Cr. 3. Prereq: One course at the 300 level
A survey of social, political, economic, and cultural topics relevant to contemporary Spain. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 324. Latin America Today.
(3-0) Cr. 3. Prereq: One course at the 300 level
A survey of social, political, economic, and cultural topics relevant to contemporary Latin America. Taught in Spanish.
Meets International Perspectives Requirement.

SPAN 326. Studies in Hispanic Art or Film.
(Dual-listed with 526). (3-0) Cr. 3. Prereq: One course at the 300 level
Survey of major currents and figures in Spanish and Latin American art and/or film. Taught in Spanish.
Meets International Perspectives Requirement.

(3-0) Cr. 3. Prereq: 314
Introduction to Spanish literature from the earliest times through the Golden Age; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 331. Studies in Spanish Literature from 1700 to the Present.
(3-0) Cr. 3. Prereq: 314
Introduction to Spanish literature from the eighteenth century to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 332. Studies in Latin American Literature from Pre-Columbian Times through the Nineteenth Century.
(3-0) Cr. 3. Prereq: 314
Introduction to Latin American literature from the earliest times to circa 1900; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 333. Studies in Latin American Literature from the Twentieth Century to the Present.
(3-0) Cr. 3. Prereq: 314
Introduction to Latin American literature from the twentieth century to the present; techniques of literary criticism. Lectures, discussion, and analysis of individual selections in Spanish. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 351. Introduction to Spanish-English Translation.
(3-0) Cr. 3. F.S. Prereq: 301, 303 or 304
Introduction to the theory, methods, techniques, and problems of translation. Consideration of material from business, literature, and the social sciences. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 352. Introduction to Spanish Phonology.
(Cross-listed with LING). (3-0) Cr. 3. F.S. Prereq: 301, 303 or 304
An introductory study of the articulation, classification, distribution, and regional variations of the sounds of the Spanish language. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.
SPAN 354. Introduction to Spanish-English Interpretation.
(Dual-listed with 554). (Cross-listed with LING). (3-0) Cr. 3. F.S. Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 370. Hispanic Topics in English Translation.
(3-0) Cr. 3. Repeatable, maximum of 6 credits.
Topics vary according to faculty interest. Author, genre or period study, women writers, cinema, or contemporary theory. Readings, discussions, and papers in English. May not be counted as a prerequisite.
Meets International Perspectives Requirement.

SPAN 395. Study Abroad.
Cr. 1-10. Prereq: 2 years university-level Spanish or equivalent
Supervised instruction in Spanish and Hispanic culture; formal class instruction at level appropriate to students' training, enhanced by practical living experience.
Meets International Perspectives Requirement.

SPAN 401. Advanced Composition and Grammar.
(Dual-listed with 501). (3-0) Cr. 3. F. Prereq: 314 and one course at the 320-level or above
Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 440. Seminar on the Literatures and Cultures of Spain.
(Dual-listed with 540). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 330, 331, 332, or 333. (Recommended 330 and 331)
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 441. Seminar on Cervantes and the Golden Age.
(Dual-listed with 541). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 330, 331, 332, or 333. (330 recommended)
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 445. Seminar on the Literatures and Cultures of Latin America.
(Dual-listed with 545). (3-0) Cr. 3. Repeatable, maximum of 6 credits. Prereq: 330, 331, 332, or 333. (332 and 333 recommended)
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial times to the Present. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 462. Contrastive Analysis of Spanish/English for Translators.
(Cross-listed with LING). (3-0) Cr. 3. Prereq: 351
Linguistic study of the major differences between the Spanish and English grammatical systems and their applications in the translation of Spanish to English. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 463. Hispanic Dialectology.
(Cross-listed with LING). (3-0) Cr. 3. Prereq: 352
Intensive study of the phonology, morphosyntax and lexicon of the Hispanic dialects of Spain and Latin America in their historical context. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.

SPAN 490. Independent Study.
Cr. 1-6. Repeatable, maximum of 6 credits. Prereq: 6 credits in Spanish and permission of department chair
Designed to meet the needs of students in areas other than those in which courses are offered, or who desire to integrate a study of literature or language with special problems in major fields. No more than 6 credits in SPAN 490 may be counted toward graduation.

SPAN 499. Internship in Spanish.
Cr. 1-3. Repeatable, maximum of 6 credits. F.S.S. Prereq: 9 credits of Spanish at the 300 level; permission of advisor and WLC Internship Coordinator
Work experience using Spanish language skills in the public or private sector, combined with academic work under faculty supervision. Up to 3 credits may apply toward the major. Available only to majors and minors.

Courses primarily for graduate students, open to qualified undergraduate students

SPAN 501. Advanced Composition and Grammar.
(Dual-listed with 401). (3-0) Cr. 3. F. Prereq: 314 and one course at the 320-level or above
Advanced study of Spanish grammar and syntax. Students' writing of compositions incorporates an advanced understanding of grammar, syntax, and principles of organization of thought and ideas. Taught in Spanish.

SPAN 526. Studies in Hispanic Art or Film.
(Dual-listed with 326). (3-0) Cr. 3. Prereq: 6 credits in Spanish literature or culture at 400 level
Survey of major currents and figures in Spanish and Latin American art and/or film.

SPAN 540. Seminar on the Literatures and Cultures of Spain.
(Dual-listed with 440). (3-0) Cr. 3. Prereq: Six credits in Spanish literature or culture at 400 level
Discussion and analysis of selected topics in Spanish literature and culture from the Middle Ages to the Present. Taught in Spanish.

SPAN 541. Seminar on Cervantes and the Golden Age.
(Dual-listed with 441). (3-0) Cr. 3. Prereq: Six credits in Spanish literature of culture at 400 level
Discussion and analysis of selected works of Cervantes within the social and cultural context of the Golden Age. Taught in Spanish.

SPAN 545. Seminar on the Literatures and Cultures of Latin America.
(Dual-listed with 445). (3-0) Cr. 3. Prereq: Six credits in Spanish literature or culture at 400 level
Discussion and analysis of selected topics in Latin American literature and culture from Pre-Colonial Times to the Present. Taught in Spanish.

SPAN 554. Introduction to Spanish-English Interpretation.
(Dual-listed with 354). (Cross-listed with LING). (3-0) Cr. 3. F.S. Prereq: SPAN 351
Introduction to the theory, methods, techniques, and problems of consecutive and simultaneous interpretation. Consideration of material from business, agriculture, law, design, medicine, literature, advertisement, and sports. Taught in Spanish. Nonmajor graduate credit.
Meets International Perspectives Requirement.
SPAN 590. Special Topics in Spanish.
Cr. 1-4. Repeatable. Prereq: Permission of instructor; 6 credits of 400 level Spanish
A. Literature or Literary Criticism
B. Linguistics
C. Language Pedagogy
D. Civilization
forces; departments of public health; zoological gardens; and other veterinary practitioners for private practice; industry; educational institutions; inter-collegiate laboratories; veterinary practices and other university hospitals. The college participates in interdisciplinary graduate programs in genetics; molecular, cellular and developmental biology; toxicology; immunobiology; and neuroscience.

Objectives of the Curriculum

The instructional objective of the College of Veterinary Medicine is to enable students to assume vital roles in society as productive health care providers and biomedical scientists. Such an education provides students with general learning, communication, and problem solving abilities; veterinary medical practice and research skills; and professional and ethical values.

The curriculum incorporates basic biomedical and clinical principles, clinical decision making skills, and exceptional clinical experience in small animal medicine and surgery, equine medicine and surgery, food animal medicine and surgery, and production animal medicine. Companion animal medicine and surgery are provided within the regionally recognized referral hospital through the community practice unit and equine field services. The college is located in one of the most intensive livestock producing areas in the United States. Because of this, students engage in extensive food supply veterinary medicine experiences and numerous diagnostic cases.

The professional curriculum is a four-year course of study leading to the doctor of veterinary medicine degree. Each of the first three years of the curriculum consists of two semesters while the fourth year has three semesters. Students are admitted into the professional curriculum after completing a minimum of 60 semester credits of required undergraduate coursework.

A strong and reputable basic science education during the first two years of the professional curriculum prepares veterinary students for a wide range of clinical experience during the last two years of the educational program. Fourth year students may choose to enhance their education by earning clinical elective credits at approved government agencies, research laboratories, veterinary practices and other university hospitals. Outstanding research programs in infectious diseases, food safety, neuroscience, immunoparasitology, evidence-based medicine, and many other areas provide opportunities for qualified students to participate in research.

Concurrent DVM/MS, DVM/PhD, DVM/MPH and DVM/MBA programs are available for qualified students who wish to obtain both veterinary and graduate degrees. Students must have a bachelor’s degree or a minimum of 128 semester credits in undergraduate and professional curricula in order to participate in the concurrent DVM/graduate degree program. Admission to the concurrent degree program is subject to the approval of the deans of the College of Veterinary Medicine and the Graduate College.

The college is an important recruiting center for employers seeking veterinarians for private practice; industry; educational institutions; international agencies; federal, state and local governments; the armed forces; departments of public health; zoological gardens; and other related fields of professional activity. Graduates are highly sought after and typically have multiple employment offers upon graduation. Career services and an online job board are available for students.

Pre-veterinary Medicine Preparation

Admission Requirements

The College of Veterinary Medicine seeks students with diverse backgrounds and encourages students to enroll in baccalaureate programs in the college of their choice.

Undergraduate students are strongly encouraged to complete a bachelor’s degree before applying to the College of Veterinary Medicine. Because veterinarians have varied career options, when deciding on an undergraduate major, the student should consider the area of veterinary medicine which interests them. For example, those who desire a career in clinical practice may wish to pursue a degree in biological science, animal science, agricultural economics, business, social science or humanities. Students with an interest in zoo or wildlife veterinary medicine may want to look at animal ecology, environmental studies or zoology. Future researchers may wish to consider genetics, molecular biology, microbiology, or biochemistry. Students who desire a career in public health (USDA, FDA, etc) or government (legislative/policy) may find benefit in any of the biological sciences or in political science. A degree in education may be valuable to those who envision themselves as educators in a College of Veterinary Medicine. These examples are only suggestions and are but a few of the many possibilities.

For the most current information regarding applications and admission to the College of Veterinary Medicine, please refer to the College web site at www.vetmed.iastate.edu.

Applicants for admission to the College of Veterinary Medicine must have attended an accredited college or university, have completed 40 semester credits prior to the deadline for filing an application for admission, and have completed 60 semester credits prior to the end of the spring term of the year in which the applicant seeks to be admitted to the College of Veterinary Medicine.

All science requirements should be fulfilled by the time of application or scheduled for completion by the end of the fall term in which the applicant applies. However, if necessary, the applicant may complete up to two required science courses during the spring term prior to matriculation.

Required courses must be completed by the end of spring term prior to matriculation with a grade of C (2.00) or better. Required courses may not be taken during the summer prior to entering the program.

Credits earned must include the following Iowa State semester course offerings or their equivalents:

**English Composition 6 cr.**

One year of composition or writing emphasis courses. May include business or technical writing.

- ENGL 150 Critical Thinking and Communication 3
- ENGL 250 Written, Oral, Visual, and Electronic Communication 3
- ENGL 302 Business Communication 3
- ENGL 309 Report and Proposal Writing 3
- ENGL 314 Technical Communication 3

**Oral Communications 3 cr.**

May include public speaking, interpersonal communication, group or organizational communication or speaking emphasis courses.

- SP CM 212 Fundamentals of Public Speaking 3
- SP CM 223 Intercollegiate Debate and Forensics 1
- SP CM 312 Business and Professional Speaking 3
- COMST 214 Professional Communication 3
General Chemistry with Laboratory* 7 cr.
One year series for science majors with one semester lab.
CHEM 177 General Chemistry I 5
& CHEM 177L and Laboratory in General Chemistry I
CHEM 178 General Chemistry II 3
Total Credits 8

Organic Chemistry with Laboratory* 7 cr.
One year series with one semester lab.
CHEM 331 Organic Chemistry I 3
CHEM 331L Laboratory in Organic Chemistry I 1
CHEM 332 Organic Chemistry II 3
Total Credits 7

Biochemistry* 3 cr.
One semester (no lab required)
BBMB 301 Survey of Biochemistry

General Physics with Laboratory* 4 cr.
First semester of a two-semester series with lab. Must include mechanics, fluids, heat and thermodynamics, vibrations, waves and sound.
PHYS 111 General Physics

General Biology with Laboratory* 8 cr.
Two semester series with lab each semester. A Bachelor’s degree in Biology fulfills this requirement.
BIOL 211 Principles of Biology I 3
BIOL 211L Principles of Biology Laboratory I 1
BIOL 212 Principles of Biology II 3
BIOL 212L Principles of Biology Laboratory II 1
Total Credits 8

Genetics * 3 cr.
Must include Mendelian and molecular genetics.
BIOL 313 Principles of Genetics 3
or GEN 320 Genetics, Agriculture and Biotechnology
Total Credits 3

Mammalian Anatomy or Physiology* 3 cr.
Human anatomy or physiology will also fulfill this requirement (no lab required).
AN S 214 Domestic Animal Physiology 3
BIOL 155 Human Biology 3
BIOL 255 Fundamentals of Human Anatomy 3
BIOL 335 Principles of Human and Other Animal Physiology 3

Humanities or Social Sciences 8 cr.
Electives 8 cr.
Total Credits Required 60 cr.
* Science requirement

Credits in the previously specified courses will normally be earned on the traditional four-letter grading system with A as the highest grade and D as the lowest passing grade. All required courses must be completed with a grade of C (2.0) or better. It is generally expected that required courses have been completed within the past eight (8) years. AP or CLEP credits must be documented by original scores submitted to the College of Veterinary Medicine. CLEP credits may be accepted only for arts, humanities and social sciences. Credits in the preceding specified courses will not be accepted if earned under the pass-not pass grading system or similar options.

Application and Admission
Applicants must apply using the Veterinary Medical College Application Service (VMCAS). The VMCAS application may be found online at the VMCAS website (www.aavmc.org under VMCAS). Those applying through VMCAS also need to complete the ISU Supplemental Application found at the College of Veterinary Medicine website. The Iowa resident deadline for filing the VMCAS application, supplemental application, processing fee, GRE scores, evaluations and transcripts is September 1. The deadline for all other applicants is October 1.

Any student wishing to use international coursework (including study abroad) to fulfill a preveterinary requirement must provide a transcript from the foreign institution.

A list of courses in progress at the time of submission and/or scheduled for completion by the end of spring term should accompany the supplemental application. Undergraduate college credits must average at least 2.50 on a 4.00 marking system for the application to be accepted. The preceding scholastic requirements are minimum and do not assure admission even though these requirements have been fulfilled.

Admission to the College of Veterinary Medicine is on a competitive and selective basis. Undergraduate GPA, Graduate Record Exam (GRE) general test score (the GRE for Iowa residents must be received by September 1, for all other applicants, it must be received by October 1), animal and veterinary experience, essays, recommendations and personal development (leadership, citizenship, etc.) are given consideration in the selection of candidates. Final selection of candidates is made after an on-campus interview.

Approximately one-half of the positions available are reserved for residents of Iowa. The College of Veterinary Medicine has implemented a Professional Program in Veterinary Medicine with the University of Nebraska-Lincoln for Nebraska residents and contracts with the states of North Dakota, South Dakota and Connecticut. A number of positions are also available to residents of other states. A few highly qualified international students may be accepted and are considered in the non-resident/non-contract applicant pool. Consideration is given equally to all applicants without regard to race, color, national origin, gender, religion, disability, or age, political beliefs, or marital or familial status.

For further information on these programs and contracts, please visit the College of Veterinary Medicine at www.vetmed.iastate.edu and click on Admissions.

Curriculum in Veterinary Medicine
Graduation Requirements
To be awarded the degree doctor of veterinary medicine, candidates must have passed all required courses in the curriculum in veterinary medicine, have earned at least 4 elective credits on a graded basis of A, B, C, D while enrolled in the College of Veterinary Medicine, and have at least a 2.0 grade-point average in the veterinary medicine curriculum.

Fourth Year

The fourth year of the veterinary medical curriculum is designed to be flexible yet provide a broad based clinical education involving all domestic species of animals. All students participate in rotations that are considered fundamental to any species orientation that the student might choose. In addition, students choose one of four options for additional study, including the Small Animal, Equine, Mixed Animal, or Food Animal Options. Students may obtain clinical elective credits by repeating on-campus rotations or participating in approved off-campus preceptorships at government, private or public agencies; other universities; or private veterinary practices.

The following rotations are required of all fourth year students in addition to the requirements of the track they choose. A complete listing of track-specific requirements can be found at: http://vetmed.iastate.edu/academics/curriculum:

Reinstatement

Any student who voluntarily withdraws from the College of Veterinary Medicine or who is dismissed from the College of Veterinary Medicine, after having successfully completed one or more semesters forfeits his/her standing and must make written application for reinstatement to this college a minimum of 60 days prior to the opening of the semester for which they seek to re-enter. Any student who voluntarily withdraws from the College of Veterinary Medicine prior to completion of one semester must re-apply for admission to the college in the general applicant pool.
Biomedical Sciences

Professional Program of Study
For professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

A good foundation in anatomy, physiology, and pharmacology of animals is necessary to understand the mechanisms of animal disease processes and their treatment. Study of mammalian anatomy and physiology prepares students with a background in the structural and functional activities of cells, tissues, organs, and body systems relevant to veterinary medicine.

An understanding of drug action is essential for rational drug therapy. The general pharmacology courses provide students with a background in basic pharmacology to include pharmacodynamics, toxicology, and the clinical application of drugs. Special emphasis is placed on chemical agents and therapeutic practices specific to veterinary medicine.

Graduate Programs
The department offers Master of Science and Doctor of Philosophy degrees with a major in Biomedical Sciences and specializations in Anatomy, Physiology, Pharmacology, and Cell Biology. Up to 10 credits of dual-listed veterinary courses may be applied for major graduate credit. Departmental research facilities allow for training in experimental anatomy, pharmacology, and physiology. Graduate studies are supervised by faculty members recognized in their areas of expertise. Current areas of research include: Alzheimer’s disease, aquatic animal health, calcium and mineral homeostasis, diabetes mellitus, glia-neuron signaling, neurophysiology of pain, neurotoxicology, physiology and pharmacology of nematode ion-channels, Parkinson’s disease, pharmacology of schistosomiasis, pharmacology of salmonellosis, physiology and pharmacology of thalamic neurons, physiology of the retina, Spinal Muscular Atrophy, and study of neural stem cells. The objective of the department is to prepare graduate students for successful careers in biomedical research and professional service. The department is part of interdepartmental programs in neuroscience, toxicology, and molecular, cellular, and developmental biology. The combined Ph.D./DVM program is an option offered by the department.

Courses primarily for undergraduate students
B M S 329. Anatomy and Physiology of Domestic Animals. (3-0) Cr. 3. S. Prereq: BIOL 212, 212L
Survey of body systems of domestic animals. Provides a medical science orientation particularly useful to students in a preveterinary medicine curriculum.

Courses primarily for professional curriculum students
B M S 330. Principles of Morphology I. (Dual-listed with 530). (3-6) Cr. 5. F. Prereq: First-year classification in veterinary medicine
Anatomy of the dog.

B M S 331. Principles of Morphology II. (Dual-listed with 531). (2-6) Cr. 4. S. Prereq: First-year classification in veterinary medicine
Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 332. Biomedical Sciences I. (Dual-listed with 533). (5-3) Cr. 6. F. Prereq: First-year classification in veterinary medicine
Microscopic anatomy and physiology of cells, tissues, cardiovascular system, respiratory system, and urinary system.

B M S 334. Biomedical Sciences II. (Dual-listed with 534). (5-3) Cr. 6. S. Prereq: First-year classification in veterinary medicine
Microscopic anatomy of the immune system and integument. Microscopic anatomy and physiology of the digestive system, endocrine system, and reproductive system.

B M S 335. Molecular and Cellular Basis of Disease. (1-0) Cr. 1. F.
Descriptions of molecular and cellular biology especially as it pertains to veterinary medicine. Discussions of cellular components, cellular functions and anomalies thereof. Emphasis placed on divergences relevant to companion animals and livestock.

B M S 336. Veterinary Nutrition. (2-0) Cr. 2. F.
Introduce basic biochemical aspects of metabolism and function of energy, protein, fat, minerals and vitamins in the diet. Determine nutrient requirements of food animals, pets, and horses under various physiologic states. Understand function of various nutrients and their metabolic effects in simple-stomached animals, ruminants, and cecal fermenters. Discuss clinical nutrition problems specific to each species.

B M S 337. Neuroanatomy. (Dual-listed with 537). (2-2) Cr. 3. S. Prereq: First-year classification in veterinary medicine
Neuroanatomy of domestic animals.

Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

B M S 345. Case Study I. (0-2) Cr. 1. F. Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the fall semester of the first year curriculum in veterinary medicine.

B M S 346. Case Study II. (0-1) Cr. 1. S. Prereq: First-year classification in veterinary medicine
Clinical applications of basic sciences taught concurrently in the spring semester of the first year curriculum in veterinary medicine.

B M S 354. General Pharmacology. (Dual-listed with 554). (3-0) Cr. 3. S. Prereq: 333, 334
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems. Nonmajor graduate credit.

B M S 401. Intro to Aquatic Animal Medicine. (Cross-listed with A ECL). (1-2) Cr. 1. S.
8 week course. Introductory course with focus on fin fish production, health and medicine. Course content will help define future roles for veterinarians, producers, and service providers. Emphasis will be placed on anatomy, pathology, infectious diseases, nutrition, regulatory constraints in production, food safety, and current research. Field trip to aquaculture facility.

Normal and abnormal behavior of domestic animals.

Gross and microscopic anatomy of laboratory animals.
Courses primarily for graduate students, open to qualified undergraduate students

(0-8) Cr. 3. F.S.SS. Prereq: Graduate classification, permission of a BMS faculty member.
Experience in biomedical techniques in selected BMS laboratories that include but is not limited to cytotoxic methods, molecular biological techniques, extracellular and intracellular unit recording, microinjection, spectrophotometer analysis of chemicals, use of radioisotopes, radioimmunoassay, calcium imaging, confocal microscopy, fluorescence microscopy, and immunocytochemistry.

B M S 515. Anatomy of Laboratory Animals.
Gross and microscopic anatomy of laboratory animals.

Gross and microscopic anatomy of domestic, exotic, and pet birds.

B M S 530. Principles of Morphology I.
(Dual-listed with 330). (3-6) Cr. 5. F. Prereq: 10 credits in biological science and permission of the instructor.
Anatomy of the dog.

B M S 531. Principles of Morphology II.
(Dual-listed with 331). (2-6) Cr. 4. S. Prereq: 530
Comparative and topographic anatomy of horse, ruminants, pig, and chicken.

B M S 537. Neuroanatomy.
(Dual-listed with 337). (2-2) Cr. 3. S. Prereq: 10 credits in biological science and permission of the instructor.
Neuroanatomy of domestic animals.

(Cross-listed with BBMB, EEOB, BS HN, GDCB, HORT, NREM, NUTRS, V MPM, VDPAM). Cr. 1. Repeatable. F.S.SS. Prereq: Graduate classification.
Sessions in basic molecular biology techniques and related procedures. Offered on a satisfactory-fail basis only.

A. DNA Techniques. Includes genetic engineering procedures, sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and laser microdissection, immunophenotyping, and monoclonal antibody production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytometry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated transformation of tobacco, Arabidopsis, and maize, and analysis of transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning, mass spectrometry, and database searching. (F)
F. Techniques in Metabolomics. metabolomics and the techniques involved in metabolite profiling. For non-chemistry majoring students who are seeking analytical aspects into their biological research projects.
G. Genomic Techniques.

B M S 543. Pharmacology and Therapeutics.
(Dual-listed with 443). (3-0) Cr. 3. F. Prereq: 554
Pharmacology and therapeutic uses of fluids, antimicrobial and antiparasitic drugs, clinical use of veterinary drugs, and adverse drug reactions.

B M S 554. General Pharmacology.
(Dual-listed with 354). (Cross-listed with TOXI). (3-0) Cr. 3. S. Prereq: 549 and 552; BBMB 404, 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

B M S 556. Cellular, Molecular and Developmental Neuroscience.
(Cross-listed with GDCB, NEURO). (3-0) Cr. 3. F. Prereq: BIOL 335 or BIOL 436; physics recommended
Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

(Cross-listed with TOXI). (3-0) Cr. 3. F. Prereq: 10 credits in biological science and permission of instructor
A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

B M S 590. Special Topics.
Cr. 1-7. Repeatable. F.S.SS. Prereq: Permission of instructor.

A. Anatomy
B. Physiology
C. Pharmacology
D. Cell biology

B M S 599. Creative Component.
Cr. 1-3. F.S.SS. Prereq: Enrollment in BMS graduate program, and permission of instructor.
Creative component for non-thesis Master of Science degree.

Courses for graduate students

B M S 688. Research Review.
Cr. 1. Repeatable. F.S. Prereq: Enrollment in BMS graduate program.
A forum for B M S students to gain experience in the critical exchange of ideas through oral presentation and discussion of scientific information.
B M S 690. Advanced Topics.
Cr. 1-5. Repeatable. F.S.S. Prereq: Permission of instructor
A. Anatomy
B. Physiology
C. Pharmacology
D. Cell biology

B M S 698. Seminar.
Cr. arr. Repeatable. F.S.S. Prereq: Enrollment in BMS graduate program.
A. Cr. R each time taken. F.S. Attendance required.
B. Cr. 1 each time taken. F.S.S. Attendance and presentation required.
Offered on a satisfactory-fail grading basis only.

Cr. arr. Repeatable. F.S.S. Prereq: Enrollment in BMS graduate program.
A. Anatomy
B. Physiology
C. Pharmacology
D. Cell biology
Professional Program of Study
For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The curriculum of veterinary clinical sciences explores the preventive health care, and diagnosis and treatment of diseases of companion and competitive athletic animals. Veterinary specialists lead didactic and laboratory based learning in the clinical sciences. Experiential based courses conducted through the Veterinary Medical Center during the fourth year provide the student an opportunity to participate in the application of clinical skills and knowledge.

Graduate Study
The department offers work for the degree master of science with major in veterinary clinical science, and minor work for students majoring in other departments. Within the veterinary clinical sciences major, the student may specialize in veterinary medicine, surgery, or theriogenology. The D.V.M. degree or equivalent is prerequisite to a major graduate work.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits and a final examination.

World languages and cultures requirements may be established by the student’s program of study committee.

Courses primarily for professional curriculum students

V C S 305. Shelter Medicine.
Cr. 1. S. Prereq: First-year classification in Veterinary Medicine or with permission of instructor
An elective course designed to educate the veterinary student about issues of relevance to companion animal population and shelter medicine and welfare.

V C S 311. Veterinarian in Society I.
Cr. R. F. Prereq: First-year classification in veterinary medicine
Introduction to the veterinary profession and the various career opportunities available.

V C S 313. Veterinarian in Society III.
Cr. 1. F. Prereq: Second-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. The course covers selected topics on moral and ethical issues affecting the practice of veterinary medicine.

V C S 314. Veterinarian in Society IV.
Cr. 1. F. Prereq: Third-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. This course will focus on helping students develop their communication, leadership, team building and conflict resolution skills.

V C S 315. Veterinarian in Society V.
Cr. 1. S. Prereq: Third-year classification in veterinary medicine
A continuation of the Veterinarian in Society series. This course will emphasize veterinary law.

V C S 339. Clinical Foundations I.
Cr. 1. F. Prereq: First-year classification in veterinary medicine
Canine physical examination; basic behavior, animal handling and restraint; medical record keeping.

V C S 385. Seminar.
Cr. R. Repeatable. F.S. Prereq: Classification in veterinary medicine
Seminars and case discussions on selected clinical subjects by fourth-year students of the College of Veterinary Medicine. Attendance is required for a passing grade. Offered on a satisfactory-fail basis only.

V C S 391. Clinical Imaging.
(1-0) Cr. 1. F. Prereq: First-year classification in veterinary medicine
Evaluation of morphologic anatomy of the dog and cat utilizing clinical imaging methods - radiography, ultrasonography, computed tomography, magnetic resonance imaging and nuclear imaging. Emphasis will be placed on normal radiographic anatomy.

(3-0) Cr. 3. F. Prereq: Second year classification in veterinary medicine
General principles of surgery of companion animals.

V C S 394. Principles of Surgery Laboratory.
(0-3) Cr. 1. S. Prereq: Second-year classification in veterinary medicine
General principles of surgery of companion animals.

(2-0) Cr. 2. S. Prereq: V C S 394
Small animal surgery.

V C S 396. Equine Surgery.
(2-0) Cr. 2. S. Prereq: 394
Elective course in equine surgery.

V C S 398. Anesthesiology.
(1-0) Cr. 1. S. Prereq: Second-year classification in veterinary medicine
Anesthetic equipment, agents, and procedures for domestic animals.

(1-0) Cr. 1. S. Prereq: Third year classification in veterinary medicine
Principles and techniques of medical and surgical ophthalmology.

(1-0) Cr. 1. S. Prereq: Third or Fourth-year classification in veterinary medicine
Lecture course covering advanced diagnosis and treatment of small animal orthopedic conditions. Medical and surgical options are covered.

V C S 402. Clinical Cardiology.
(1-0) Cr. 1. F. Prereq: Third or fourth-year classification in veterinary medicine; 444 or concurrent enrollment in 444
Elective course in diagnosis and management of cardiac diseases. Emphasis on interpretation of electrocardiography.

(1-3) Cr. 2. Alt. S., offered 2012. Prereq: Second-, third- or fourth-year classification in veterinary medicine
Elective course in management and diseases of pet birds and exotic species.

V C S 407. Feline Internal Medicine.
(1-0) Cr. 1. F. Prereq: Third-year classification in veterinary medicine
Elective course in feline internal medicine.

V C S 409. Oncology.
Cr. 1-2. Repeatable, maximum of 4 credits. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in oncology.

(1-0) Cr. 1. S. Prereq: Third or fourth -year classification in veterinary medicine
Elective course in small animal and equine nutrition.
V C S 415. Advanced Small Animal Dermatology.
(1-2) Cr. 2. F. Prereq: Third or Fourth-year classification in veterinary medicine
Elective course in dermatology.

V C S 419. Preceptorship in Companion Animal/Equine Veterinary Medical Practice.
(0-40) Cr. 2-6. Repeatable, maximum of 6 credits. Prereq: Fourth-year classification in veterinary medicine, permission of department curriculum committee
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings.

V C S 421. Husbandry and Diseases of Non-traditional Species.
(2-0) Cr. 1. Alt. F., offered 2012. Prereq: Second-, third-, or fourth-year classification in veterinary medicine
Husbandry, management, and common diseases of rabbits, guinea pigs, hamsters, gerbils, rats, and mice.

V C S 436. Small Animal Internal Medicine.
(3-0) Cr. 3. F. Prereq: Third year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of small animals.

(2-0) Cr. 2. Repeatable. Prereq: Fourth year classification in Veterinary Medicine
A 2-week elective rotation at an animal shelter/humane society that works with the public to place pets in homes. This rotation will encompass population medicine (medicine, surgery, intake, adoption, behavior and temperament, neglect and cruelty) that animal shelters deal with on a daily basis. The selected animal shelter/humane society must have a veterinarian(s) on staff and be approved by the course coordinator. More than one VCS 437 may be taken upon approval of the course coordinator.

V C S 440. Introduction to Clinics.
Cr. R. S. Prereq: Third-year classification in veterinary medicine
Rotating assignments through multiple sections within the Veterinary Medical Center.

V C S 441. Canine Rehabilitation.
Cr. 1-2. Repeatable, maximum of 2 credits. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in rehabilitation.

V C S 443. Equine Lameness.
(1-2) Cr. 2 S. Prereq: Second or third-year classification in veterinary medicine
Orthopedic diseases of the equine.

(4-0) Cr. 4. F.S. Prereq: Third-year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of small animals.

(2-0) Cr. 2. F. Prereq: Third-year classification in veterinary medicine
Clinical diagnosis and treatment of diseases of equine.

V C S 446. Clinical Neurology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical rotation in neurology with an emphasis on neurolocalization, disease processes, use of diagnostics in medical and surgical neurology and treatment options. Exposure to neurosurgical techniques.

V C S 447. Equine Veterinary Diagnostic Skills.
(3-0) Cr. 2. Repeatable, maximum of 2 times. Prereq: Fourth-year classification in veterinary medicine.
Hands on experience with equine veterinary diagnostic skills related to theriogenology, medicine, surgery, radiology, and ophthalmology.

V C S 448. Diagnostic Imaging and Radiobiology.
(2-2) Cr. 3. F.S. Prereq: Third-year classification in veterinary medicine

V C S 449. Junior Surgery Laboratory.
(1-6) Cr. 3. F. Prereq: Third-year classification in veterinary medicine
Pre-laboratory presentations and laboratories introduce the student to surgical technique principles that can be applied to all animal species.
A. Alternative Curriculum - consists of only neutering humane society animals throughout the laboratory experience.
B. Traditional Curriculum - provides a broader range of surgical experiences throughout the laboratory experience, including humane society neutering.

V C S 451. Advanced Junior Surgery Laboratory.
(1-2) Cr. 2. S. Prereq: 449. 8 weeks
Continuation of surgical laboratory experience. Techniques and advanced principles learned are applicable to all animal species.
A. Alternative Curriculum - consists of only neutering humane society animals throughout the laboratory experience.
B. Traditional Curriculum - exposure to more advanced surgical techniques with most surgical principles useful in all animal species. Also includes some humane society neutering.
C. Traditional Curriculum - a second repeat for students with a special interest in small animal surgery. Limited space is available.

V C S 452. Clinical Dermatology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine, small animal option
Study of clinical dermatological problems via computer-aided instruction, case simulations, and/or lectures. Clinical management of cases presented to Veterinary Teaching Hospital.

V C S 453. Small Animal Medicine I.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal medicine.

V C S 454. Small Animal Medicine II.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal medicine.

Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in soft tissue surgery.

Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in orthopedic surgery.

Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine medicine.

V C S 458. Equine Surgery.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine surgery.

Cr. 2. Prereq: Fourth year classification in Veterinary Medicine
A 2-week surgical emphasis, elective rotation at a humane society that addresses the issues facing veterinarians and non-veterinary humane society personnel who deal with small animal overpopulation issues. Each section can be taken for credit once.
A. Nebraska Humane Society, Omaha NE.
O. Orthopedic surgery (one week) and orthopedic surgery (one week).

V C S 461. Advanced Small Animal Internal Medicine.
Cr. 1. S. Prereq: 444 and 436
A discussion of advanced topics in small animal internal medicine.

V C S 463. Primary Care.
Cr. 2. Repeatable, maximum of 4 credits. Prereq: Fourth-year classification in veterinary medicine
Clinical experience in hospital based general practice.

V C S 464. Equine Field Services.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in equine ambulatory practice.

V C S 465. Farrier.
Cr. 2. Prereq: Fourth-year classification in veterinary medicine; 457 and 458
Elective clinical assignment on the principles and practices of normal and therapeutic horseshoeing and equine foot care.

V C S 466. Anesthesiology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in small animal and large animal anesthesiology.

Cr. 1-2. Repeatable, maximum of 2 credits. Prereq: Fourth year classification in veterinary medicine
Elective clinical assignment with emphasis on pain management.

Cr. 4. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment to provide supervision of hospital cases requiring intensive care and including emergency cases.

V C S 469. Ophthalmology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Clinical assignment in ophthalmology.

Cr. arr. Repeatable. Prereq: Fourth-year classification in veterinary medicine. Completion of VCS 460 recommended
Elective clinical assignment in veterinary radiology.

Cr. arr. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in animal reproduction. Equine and small animal reproduction only.

E. Equine Reproduction
F. Food Animal Reproduction
S. Small Animal Reproduction

Cr. arr. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in small animal medicine.

Cr. 1. Prereq: fourth-year classification in veterinary medicine
Clinical assignment in small animal surgery split between soft tissue surgery (one week) and orthopedic surgery (one week).

O. Orthopedic surgery

Cr. arr. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in equine medicine or surgery.

M. Medicine
S. Surgery

V C S 475. Cardiology Rotation.
Cr. 1-2. Repeatable, maximum of 2 credits. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in cardiology.

V C S 476. Animal Anesthesiology.
Cr. 1-2. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Assignments in equine, small animal, and large animal anesthesiology. Experience includes case work-up, management and recovery. Understanding of the unique physiology and potential complications of anesthetized patients. Pharmacology of commonly used drugs. Specific protocols and management for both field and general anesthesia.

E. Equine Anesthesiology
S. Small Animal Anesthesiology

Cr. arr. Repeatable. Prereq: Fourth-year classification in veterinary medicine
Elective clinical assignment in intensive care.

V C S 479. Ophthalmology.
Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine and V C S 469
Elective clinical assignment in ophthalmology.

V C S 480. Veterinary Dentistry.
Cr. 1. F. Prereq: Third or Fourth-year classification in veterinary medicine
All aspects of veterinary dentistry, prophylaxis, endodontics, and orthodontics.

Cr. 2. Repeatable. Prereq: Fourth-year classification in veterinary medicine and V C S 473
Elective clinical assignment in small animal surgery. One or both sections offered can be taken more than once.

O. Orthopedic surgery
S. Soft tissue surgery

V C S 490. Independent Study.
Cr. arr. Repeatable. Prereq: Permission of instructor

(2-0) Cr. 1. Repeatable. S. Prereq: Classification in veterinary medicine
8 weeks. Predeparture orientation for group study abroad. Cultural considerations for the study abroad experience and a conversational language introduction. Out of class work may be assigned.

V C S 495. Seminar.
Cr. R. S. Prereq: Fourth-year classification in veterinary medicine
Seminars and case discussions on selected subjects by fourth year students of the College of Veterinary Medicine. Completion of the seminar is required for graduation. Offered on a satisfactory-fail basis only.

V C S 496. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. Prereq: Second-year classification in veterinary medicine
International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.
Courses primarily for graduate students, open to qualified undergraduate students

**V C S 590. Special Topics.**
Cr. 1-3. Repeatable.
A. Medicine
B. Surgery
C. Theriogenology
D. Radiology
E. Anesthesiology

**V C S 596. International Preceptorship.**
(0-40) Cr. 1-12. Repeatable. F.S.S. Prereq: Admission to graduate college
International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

**V C S 599. Creative Component.**
Cr. arr. Prereq: Enrollment in nonthesis master's degree program

Courses for graduate students

**V C S 604. Seminar.**
Cr. 1. Repeatable. F.S.

**V C S 640. Advanced Radiology.**
(2-0) Cr. 2. Prereq: 448
Detailed principles of clinical radiology with particular reference to radiographic interpretation.

**V C S 671. Advanced General Surgery.**
(1-3) Cr. 2. Prereq: Permission of instructor
Course designed to discuss and perform advanced surgical procedures in soft tissue, orthopedic and neurological surgery. Minimally invasive surgical procedures and organ transplantation will be included.

**V C S 672. Advanced Special Surgery.**
(1-3) Cr. 2. Prereq: Permission of instructor
Innovative techniques in microvascular, thoracic, gastrointestinal, neurological and reconstructive surgery will be investigated.

**V C S 676. Advanced Medicine.**
(2-0) Cr. 2. Prereq: 445
Principles of general medicine. A study in depth of factors that contribute to the development of clinical signs as related to the pathogenesis of disease.

**V C S 677. Advanced Medicine.**
(2-0) Cr. 2. Prereq: 445
An advanced study of metabolic diseases.

**V C S 699. Research.**
Cr. arr. Repeatable.
A. Medicine
B. Surgery
C. Theriogenology
E. Anesthesiology
Veterinary Diagnostic and Production Animal Medicine

Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

Courses in veterinary diagnostic and production animal medicine provide students with basic and advanced skills in diagnostics, reproduction, medicine, surgery, production, and health management of the major livestock species. Students in the fourth year of the curriculum in veterinary medicine may elect to take advanced courses in beef, dairy, swine, poultry or sheep production medicine. Elective courses may include preceptorships in private practices, at other veterinary schools, in research and disease control laboratories, or in related agribusinesses.

Production animal medicine emphasizes the integration of veterinary medicine with nutrition, genetics, economics, food safety, and other disciplines, enabling graduates to acquire and use a broad knowledge base to support the health and improve the production and efficiency of the food supply chain.

Graduate Study in Veterinary Preventive Medicine

Veterinary Preventive Medicine is a multidisciplinary program focused on the study of health and disease in populations. The various disciplines represented in the program are unified by a common approach based on the application of statistical methods to problem solving in populations. Through their research and course work, students will learn to understand and apply a variety of disciplines, principles, and techniques to population health issues involving environmental, ecological, nutritional, genetic, infectious, or non-infectious diseases.

Graduate study in Veterinary Preventive Medicine will provide valuable skills and experience to persons interested in public health, food safety, emerging infectious diseases, zoo or wildlife health management, and livestock health. A degree in Veterinary Preventive Medicine may be valuable for individuals considering a future in the biological or pharmaceutical industries, government regulatory agencies, public veterinary practice, or international service agencies responsible for population health.

Veterinary Preventive Medicine is an interdepartmental major administered by the Department of Veterinary Diagnostic and Production Animal Medicine (VDPAM) with participating faculty from colleges and departments across the University and collaborators from the National Animal Disease Center (USDA:ARS) and the National Veterinary Services Laboratories (USDA:APHIS) located in Ames, Iowa.

Both thesis and nonthesis options are available and require the completion of a minimum of 30 graduate credits for thesis and 36 graduate credits for nonthesis and a final examination.

Courses primarily for professional curriculum students:

VDPAM 308. Spanish for Veterinarians.
(2-0) Cr. 2. S. Prereq: Basic knowledge of Spanish
This course is designed to meet the needs of veterinary students who will practice in an environment in which the use of Spanish for accurate client communication is essential which includes much of our food animal industry in the state of Iowa. This is not a traditional Spanish language course. To be successful, student taking the course should have a basic knowledge of Spanish pronunciation, grammar and syntax.

VDPAM 309. Intro to Production Animal Informatics.
(1-0) Cr. 1. S.
The fundamentals of how clinical, diagnostic, production and financial information is obtained and used by production animal operations. Students will acquire skills to create and use spreadsheets for manipulating and summarizing data. They will also acquire knowledge of where to find inexpensive and readily available resources with information on how to use spreadsheets and other software. Students will also have the opportunity to work with different record keeping programs used by swine, beef and dairy operations.

VDPAM 310. Intro to Production Medicine.
Cr. 2. S. Prereq: Currently enrolled in Vet Med III
The role of the veterinarian in the management of animal health and production in dairy and beef cattle herds, beef feedlots and swine herds will be described. Provides veterinary students with a starting point to understand the principles and techniques that are the basis of food-animal health management programs.

VDPAM 312. Veterinarian in Society II.
(1-0) Cr. 1. S. Prereq: First-year classification in veterinary medicine

VDPAM 340. Clinical Foundations I.
(0-40) Cr. 1. F.S. Prereq: Classification in veterinary medicine
One week course at Iowa University and Great Plains Veterinary Education Center in Clay Center, Nebraska. An introduction to Food Supply Veterinary Medicine covering industry (beef, dairy, pork, sheep) overviews, production systems, behavior, welfare, handling and restraint, examination techniques, biosecurity, epidemiology and food safety. Visits to production units are utilized to reinforce the application of clinical skills.

(1-0) Cr. 1. S. Prereq: Classification in Veterinary Medicine
Introductory course on livestock (beef, dairy, swine, sheep, and equine) nutrition and feeding principles. Students will apply scientific facts and principles to problem-solving procedures in determining nutritious and economical livestock feeding programs.

VDPAM 351. Bovine Embryo Transfer and Related Technology.
(2-0) Cr. 2. S. Prereq: Classification as second or third year veterinary students
This course will meet for two hours once each week of the Spring Semester. The first hour will be traditional lecture and the second hour will be a combination of student projects and labs and demonstrations of applied clinical procedures. Bovine embryo transfer and closely related topics such as: female reproductive physiology, estrus synchronization, semen sexing and reproductive disease will be emphasized. In addition several class periods will be devoted to the use of ultrasound for diagnosis reproductive and non-reproductive conditions.

VDPAM 402. Advanced Dairy Production Informatics.
(1-1) Cr. 2. Repeatable. F.S. Prereq: 309 or permission of instructor
Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by dairy farms and their consultants. Hands on experience with Dairy Comp 305 and PCDart as well as other dairy management and information software. Nonmajor graduate credit.

VDPAM 407. Evidence Based Clinical Decision Making.
(Dual-listed with 507). (1-0) Cr. 1. S. Prereq: Permission of instructor
Discussion, lectures and laboratories to assess the quality and significance of medical evidence in making informed decisions about the treatment of individual animals and animal populations.
VDPAM 408. Poultry Diseases.  
(Dual-listed with 509). Cr. 2. Alt. S., offered 2012. Prereq: Enrollment in College of Veterinary Medicine  
Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and gamebirds; biosecurity, immunization, and management procedures to prevent poultry diseases.

VDPAM 409. Veterinary Practice Management and Organization.  
(2-2) Cr. 3. F.  
Prereq: Classification in veterinary medicine  
An A to Z introduction to proven veterinary practice management methods and strategies. The student will follow a detailed hands-on workbook describing most of the processes and procedures of day to day veterinary practice. The class content will be composed of class room discussions, didactic presentations, a practical workbook, ancillary hand-outs, and both in and out of class assignments.

VDPAM 414. Veterinary Practice Entrepreneurship.  
(Dual-listed with 514). Cr. 2. S.  
To provide a formal exposure to the entrepreneurial and business skills necessary to own and operate a successful veterinary practice or other small business opportunity.

(0-4) Cr. 1. Repeatable. F.S. Prereq: Third year classification in veterinary medicine. 10 students per section  
Bovine rectal palpation techniques will be repetitively taught in 7 four-hour sessions. Students will also learn techniques of epidural anesthesia, artificial insemination, and ultrasonic imaging. University-owned cattle will be used.

VDPAM 419. Advanced Swine Production Informatics.  
(1-0) Cr. 1. F. Prereq: 309  
Advanced coverage of concepts related to collection, manipulation, analysis and reporting of information used by swine production companies. Production, financial, diagnostic and clinical data will be covered in the course. Hands-on experience with computer software and information systems used in swine production will be provided. Students will learn to objectively evaluate the validity of information that is presented to them and also be able to make practical and useful recommendations regarding the types of information tools that can/should be used. The students will learn what software and information systems are available and be able to critically evaluate them. Nonmajor graduate credit.

VDPAM 420. Preceptorship in Veterinary Medical Practice.  
Cr. 1-6. Repeatable. F.S.S. Prereq: Fourth-year classification in veterinary medicine  
Elective course in veterinary practice under the guidance of veterinarians in approved practice settings.

VDPAM 426. Veterinary Toxicology.  
(Dual-listed with 526). (3-0) Cr. 3. S. Prereq: Third-year classification in veterinary medicine  
Study of toxicological diseases of domestic animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

(0-30) Cr. 1-2. Repeatable. F.S. Prereq: Classification in Veterinary Medicine, VM1-VM3 or special permission of instructor  
The class will have both a lecture and lab component and students can enroll in one or both. Lectures will emphasize current production and evaluation techniques for beef cow/calf operations and students will learn to conduct and critically assess production and financial data using a standardized approach. Lab activities will allow students an opportunity to work with individual beef cattle producers to identify areas for improving profitability, health, and sustainability. Each semester’s content builds on the material from the previous semester. Enrolling in the class for multiple semesters will be encouraged.

(7-33) Cr. 2. F.S.S. Prereq: Fourth-year classification in veterinary medicine  
Seven hours recitation/discussion and 33 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to interpret DHI records and use them to identify and monitor herd problems of production, mastitis, reproduction, and replacement heifer management. Evaluate rates and treatment protocols of common dairy herd diseases. Assess dairy housing including ventilation and freestalls. Estimate costs of herd problems and develop partial-budgets.

(9-31) Cr. 2. F.S.S. Prereq: Fourth-year classification in veterinary medicine  
Nine hours recitation/discussion and 31 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to evaluate rates of clinical mastitis using manual and computerized (DC305) record systems. Interpret somatic cell count records to target mastitis problems. Collect samples and interpret milk microbiology reports. Evaluate mastitis risks in housing systems (stalls, bedded packs, etc). Analyze milking systems and milker practices. Develop mastitis treatment protocols.

(3-37) Cr. 2. F.S.S. Prereq: Fourth-year classification in veterinary medicine  
Three hours lecture, 37 hours clinical experience per week. Course taken for two weeks at University of Wisconsin, Madison, on a space-available basis. Learn to evaluate calf and peri-parturient cow management practices. Develop an investigation strategy for ambiguous herd problems. Collect samples and interpret herd-based diagnostic tests for infectious and metabolic diseases. Assess environmental risk factors for metabolic and infectious disease including hygiene and housing. Assess nutritional status of herds via nutritional management, actual feed intake, particle length determination, etc.

(3-0) Cr. 3. S. Prereq: Third-year classification in veterinary medicine  
Clinical diagnosis and treatment of diseases of swine, beef, dairy, and small ruminant.

VDPAM 450. Disturbances of Reproduction.  
(4-0) Cr. 4. F. Prereq: Third-year classification in veterinary medicine  
General principles of diseases causing disturbances in reproduction.

VDPAM 451. Clinical Embryo Transfer.  
(0-40) Cr. 2. F.S.S. Prereq: Fourth-year classification in veterinary medicine  
Elective clinical assignment in techniques of embryo transfer. Primary species studied will be bovine but equine and small ruminant embryo transfer will be covered during appropriate seasons. Enrollment is limited to four students per two week session.

VDPAM 455. Diagnostic Laboratory Practicum.  
Cr. 1. Repeatable. F.S. Prereq: Fourth-year classification in veterinary medicine  
Practical experience in diagnosis of infectious and toxic diseases of livestock through exposure to cases in the ISU Veterinary Diagnostic Laboratory.

VDPAM 456. Veterinary Diagnostic Lab Methods & Applications.  
(16-0) Cr. 1. F. Prereq: VM 2, VM 3 or VM 4  
Case materials are used to develop diagnostic questions and to better understand the value of diagnostic tests. Testing methods and interpretation of diagnostic tests are coupled with sampling strategy and objective assessment of available evidence to provide accurate diagnosis.
(2-0) Cr. 2. F.S. Prereq: VDPAM 310  
Two week advanced clinical rotation in stocker/feedlot beef production medicine held in Oklahoma. The instructor will lead field trips as well as problem solving exercises where the student will apply concepts of stocker/feedlot health management, production and economic analysis, and disease control/prevention. Travel and overnight stays will be required.

VDPAM 476. Food Animal and Camelid Field Service.  
(0-40) Cr. 2. Repeatable. F.S.SS. Prereq: Fourth year classification in Veterinary Medicine, and 310  
Elective course in food animal and camelid field services. Students will assist university veterinarians in delivering health care and production management services to the ISU livestock farms and other livestock farms in the local area. Focus will be on delivery of individual animal care and establishment of best practices for herd management of production systems at the university and in the region.

Cr. 1-2. Repeatable. F.S.SS. Prereq: Fourth-year classification in veterinary medicine  
Clinical assignment focused on the management of food animal and camelid medicine and surgery cases. Specific instruction in clinical evaluation of cases coupled with appropriate diagnostic testing and therapeutic intervention will be emphasized. Additional instruction will be provided in disease prevention, intensive care and management of food animal and camelid species. Particular emphasis will be placed on appropriate on-label and extra-label drug usage in food animal species.

VDPAM 479. Applied Swine Production Medicine Preceptorship.  
(0-40) Cr. 1-6. Repeatable. F.S.SS. Prereq: 310  
Advanced course in swine production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit.

VDPAM 480. Swine Production Medicine.  
(15-25) Cr. 2. Repeatable. F.S.SS. Prereq: 310 or permission of instructor  
Two week clinical rotation in swine production medicine. Students will be assigned to take the lead in investigating field based client cases with supervision of the instructors. Develop critical thinking skills that will allow students to apply concepts of herd management, production analysis, economic analysis, and disease prevention in addressing client cases. Variable amounts of travel to farm sites will be required with the potential for rare overnight stays.

VDPAM 481. Advanced Cow/Calf Production Medicine.  
(Dual-listed with 581). (20-20) Cr. 2. S. Prereq: Completion of two semesters of VDPAM 436, 4th year classification in veterinary medicine  
Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Field trips will be incorporated when possible.

VDPAM 482. Applied Beef Production Medicine Preceptorship.  
(0-40) Cr. 1-6. Repeatable. F.S.SS. Prereq: 310 and permission of instructor; ability to provide travel to each site  
Advanced course in beef production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week.

(15-20) Cr. 2. F.S.SS. Prereq: 310  
Two week advanced clinical rotation in beef production medicine. Fifteen hours recitation/discussion and 20 hours clinical experience per week. This course is designed to expose students to cow-calf and feedlot production concepts. The activities scheduled for the rotation depend greatly on the time of year. When ever possible, the class incorporates field trips. Students should anticipate that travel is required and overnight stays may be required. These field trips can vary in length from several hours to several days and may include weekends. Typically, 3-4 days of the rotation are spent at the Great Plains Veterinary Education Center, Clay Center, NE. Students should, therefore, plan accordingly and contact the instructor, immediately, if they anticipate a conflict. Students should not schedule Grand Rounds during this rotation.

VDPAM 484. Dairy Production Medicine.  
(15-20) Cr. 2. F.S.SS. Prereq: Fourth-year classification in veterinary medicine, 310  
Two week course in dairy production medicine combining class time with multiple on-farm visits to learn various management aspects (DHIA, DC305 & PC Dart record analysis, calf rearing through lactating cows, reproduction programs, udder health and milk quality, biosecurity, welfare, nutrition and cow comfort) for a wide variety of dairy operations. Students will learn the latest in dairy management by reviewing current topic articles and gain experience in farm evaluation through a group project. Fifteen hours recitation/discussion and 20 hours clinical experience per week.

(0-40) Cr. 1-6. Repeatable. F.S.SS. Prereq: 484  
Advanced course in dairy production medicine with emphasis on herd management, production analysis, and problem solving. Forty hours clinical experience per week. Assignments will include preceptorships with a practicing veterinarian and/or a production unit.

VDPAM 486. Introduction to Small Ruminant Production Medicine.  
(13-6) Cr. 1. S. Prereq: Classification in Veterinary Medicine  
Survey of small ruminant production systems, common management practices, and disease processes of small ruminants. This course is intended to give the student a background in small ruminant medicine. Herd health, disease monitoring and prevention, and typical management systems will be emphasized in lecture.

VDPAM 487. Livestock Disease Prevention.  
(3-0) Cr. 3. F.  
A survey of diseases of large domestic animals, including discussion of causes, transmission, and control. Designed for students majoring in agricultural sciences.

VDPAM 488. Laboratory in Clinical Microbiology.  
Cr. 1. Repeatable. F.S. Prereq: Fourth-year classification in veterinary medicine  
Application of microbiological procedures to the diagnosis of infectious diseases.

VDPAM 489. Issues in Food Safety.  
(Cross-listed with AN S, FS HN, HRI). (1-0) Cr. 1. S. Prereq: Credit or enrollment in FS HN 101 or 272 or HRI 233; FS HN 419 or 420; FS HN 403  
Capstone seminar for the food safety minor. Case discussions and independent projects about safety issues in the food system from a multidisciplinary perspective.

VDPAM 490. Independent Study.  
Cr. 1-5. Repeatable. F.S.S. Prereq: Permission of department chair
VDPM 491. Advanced Ruminant Nutrition. (30-10) Cr. 3. S. Prereq: 350 recommended
Focus on dairy nutrition from the calf to the adult, lactating cow.
Balancing rations for dairy operations. Introduction to different feedstuffs
and forage varieties to determine those that are best suited to bovine
diets. Nonmajor graduate credit.

VDPM 492. Orientation for International Experience. (2-0) Cr. 1. S. Prereq: Classification in veterinary medicine
Predeparture orientation for group study abroad. Cultural considerations
for the study abroad experience and a conversational language introduc-
tion. Out of class work will be assigned.

VDPM 494. Advanced Dairy Production Medicine II. (20-20) Cr. 2. S. Prereq: 484 or permission of instructor
Advanced coverage in investigating dairy herd problems relating to
milk quality or nutrition. Milk quality and nutrition troubleshooting will
be taught through the combination of lecture and on-farm investiga-
tions. Students will combine lecture knowledge, data acquired from on-
farm investigations and record analysis to generate management plans.
Nonmajor graduate credit.

VDPM 495. Advanced Small Ruminant Production Medi-
cine. (15-20) Cr. 2. F.S. Prereq: Fourth year classification in veterinary medicine, VDPM 486 or permission of instructor
Two week clinical rotation in small ruminant production medicine. Field
trips will be incorporated when possible. Topics to be covered include
small ruminant industries (milk, meat, and fiber), milk quality, nutrition,
reproduction, and disease management of small ruminants.

International Preceptorships and Study Abroad Group programs. This
course will provide opportunities for students to be involved in applied
clinical, production, and/or research experiences in international locations.
The course consists of 40 hour per week experiential learning opportuni-
ties.

Courses primarily for graduate students, open to qualified undergraduate
students:

VDPM 507. Evidence Based Clinical Decision Making. (Dual-listed with 407) (1-0) Cr. 1. S. Prereq: Permission of instructor
Discussion, lectures and laboratories to assess the quality and signifi-
cance of medical evidence in making informed decisions about the treat-
ment of individual animals and animal populations.

VDPM 508. Poultry Diseases. (Dual-listed with 408) Cr. 2. Alt. S., offered 2012. Prereq: Permission of instructor
Bacterial, viral, parasitic, and nutritional diseases of domestic poultry and
gamebirds; biosecurity, immunization, and management procedures to
prevent poultry diseases.

VDPM 514. Veterinary Practice Entrepreneurship. (Dual-listed with 414) Cr. 2. S. Prereq: Graduate Veterinarian or DVM-dual
graduate degree candidate
Provide a formal exposure to the entrepreneurial and business skills
necessary to own and operate a successful veterinary business.

VDPM 522. Principles of Epidemiology and Population Health. (Cross-listed with V MPM). (3-0) Cr. 3. S.
Epidemiology and ecology of disease in populations. Disease causality
and epidemiologic investigations. Issues in disease prevention, control,
and eradication.

VDPM 526. Veterinary Toxicology. (Dual-listed with 426). (Cross-listed with TOX). (3-0) Cr. 3. S. Prereq: Permission of instructor
Study of toxicological diseases of domestic animals emphasizing clinical
recognition, circumstances of poisoning, differential diagnosis with clin-
ical and laboratory data, therapeutic procedures, preventive management
and public health implications. Supplemented with case-based materials.

ANOVA, Linear Regression, Model Selection, Mixed Models, ANCOVA,
Repeated Measurement Analysis, MANOVA, Nonparametric Methods,
Diagnostic Test Evaluation, ROC Curve Analysis, Generalized Linear
Models, Logistic Regression, Survival Analysis, Cox Proportional Hazards
Regression.

Designing, conducting, and analyzing data from field-based studies,
including cross-sectional, case-control and cohort, with categorical
outcomes.

VDPM 542. Introduction to Molecular Biology Techniques. (Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM,
Sessions in basic molecular biology techniques and related procedures.
Offered on a satisfactory-fail basis only.

A. DNA Techniques. Includes genetic engineering procedures,
sequencing, PCR, and genotyping. (F.S.SS.)
B. Protein Techniques. Includes fermentation, protein isolation, protein
purification, SDS-PAGE, Western blotting, NMR, confocal microscopy
and laser microdissection, immunophenotyping, and monoclonal antibody
production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytom-
etry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-medi-
atated transformation of tobacco, Arabidopsis, and maize, and analysis of
transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning,
mass spectrometry, and database searching. (F.)
F. Techniques in Metabolomics. metabolomics and the techniques
involved in metabolite profiling. For non-chemistry majoring students who
are seeking analytical aspects into their biological research projects
G. Genomic Techniques

VDPM 546. Clinical and Diagnostic Toxicology. (Cross-listed with TOX). (0-3) Cr. 1-3. Repeatable. F.S.SS. Prereq: D.V.M.
degree or 526
Advanced study of current problems and issues in toxicology. Emphasis
on problem solving utilizing clinical, epidemiological, and laboratory
resources.

Necropsy techniques of animals with emphasis on gross and micro-
scopic lesion description and microbiological diagnosis of disease in food
animals.

VDPM 570. Risk Assessment for Food, Agriculture and Veterinary Medicine. (Cross-listed with AGRON, TOX). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: STAT 104 or consent of instructor: Walt, Hurd
Risk assessment principles as applied to biological systems. Exposure
and effects characterization in human and animal health and ecolog-
ical risk assessment. Risk analysis frameworks and regulatory deci-
son-making. Introduction to quantitative methods for risk assessment
using epidemiological and distributional analyses. Uncertainty analysis.
VDPM 581. Advanced Cow/Calf Production Medicine. (Dual-listed with 481) (20-20) Cr. 2. S. Prereq: Completion of two semesters of VDPM 436, 4th year classification in veterinary medicine Two-week senior elective that will focus on the economics of animal disease in cow/calf operations. Evidence based medicine and epidemiological principles will be used in investigation of disease outbreaks. Extensive partial budgeting used. Field trips will be incorporated when possible.

VDPM 590. Special Topics. Cr. 1-3. Repeatable. F.S.S.S. Prereq: Permission of instructor

Topics in medicine, surgery, theriogenology; beef, swine, dairy, or sheep production medicine.

VDPM 596. International Preceptorship. (0-40) Cr. 1-12. Repeatable. F.S.S.S. Prereq: Admission to graduate college International Preceptorships and Study Abroad Group programs. Provides opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

VDPM 599. Creative Component. Cr. arr. Repeatable. F.S.S.S. Prereq: Enrollment in nonthesis master’s degree program

Courses for graduate students:

VDPM 650. Swine Diagnostic Medicine. Cr. 1-4. F. Prereq: Permission of instructor

A detailed study of swine diseases emphasizing the pathogenesis and diagnosis of swine respiratory, enteric, reproduction, metabolic, and septicemic diseases.

VDPM 655. Advanced Swine Production Medicine. Cr. 1-4. S. Prereq: Permission of instructor

Detailed overview of applied techniques used in swine production medicine; production modeling and record analysis, production economics and financial analysis, therapeutic and vaccination strategies, quality control procedures and food safety.

Veterinary Microbiology and Preventive Medicine Professional Program of Study

For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Microbiology and Preventive Medicine provides instruction on pathogenic bacteria, fungi, and viruses and their interaction with host animal species. Principles and applications of infectious diseases, immunity to disease, diagnostic methods for infectious diseases, and vaccinology are covered. Principles and applications of epidemiology, public health, preventive veterinary medicine, regulatory veterinary medicine and food safety are also emphasized.

Graduate Study

The department offers opportunities for the degree doctor of philosophy with a major in veterinary microbiology. A specialization in preventive medicine is an option for this degree. Graduates in the Veterinary Microbiology and Preventive Medicine programs have a broad understanding of the fundamental processes involved in infectious diseases, pathogenesis and immunology. They are able to effectively establish research programs, which involve complex biological systems and disease syndromes. They are also prepared to address microbial-based social, ethical and environmental problems. Graduates acquire effective written and oral communication skills which lead to successful research and teaching careers in the medical and veterinary sciences. The department also offers work towards the master of science with majors in veterinary microbiology or veterinary preventive medicine. A non-thesis master’s option is available for majors in preventive medicine. Courses are open for students majoring in other graduate programs.

Prerequisite to graduate study is completion of coursework in general microbiology, biology, biochemistry, mathematical sciences, and physics. Candidates for the majors in veterinary microbiology should possess an undergraduate degree in biomedical science with emphasis in medical microbiology or the D.V.M. degree. Candidates for the major in preventive medicine should possess the D.V.M. degree.

The department also participates in the interdepartmental majors and programs in genetics, immunobiology, and MCDB (molecular, cellular, and developmental biology; see Index).

Each graduate student must demonstrate proficiency in English composition within two semesters in residence.

Courses primarily for professional curriculum students:

V MPM 378. Case Study IV. (2-0) Cr. 2. S. Prereq: Second-year classification in veterinary medicine Case-based applied learning that relates to the basic science courses. Emphasis on early integration of basic and clinical science concepts.

V MPM 380. Veterinary Immunology. (2-0) Cr. 2. S. Prereq: First-year classification in veterinary medicine Structure and function of the immune system in animals.

V MPM 386. Veterinary Microbiology. (3-5) Cr. 5. F. Prereq: Second-year classification in veterinary medicine Bacteria and fungi of veterinary importance with emphasis on mechanisms of disease production and laboratory diagnostic procedures.

V MPM 388. Public Health and the Role of the Veterinary Profession. (3-0) Cr. 3. S. Prereq: Second-year classification in veterinary medicine Fundamental epidemiology, zoonotic diseases, occupational health, food safety, other public health topics.

V MPM 390. Topics in Veterinary History. (2-0) Cr. 1. S. 8 weeks. Significant persons, noteworthy events, and pivotal scientific discoveries in the course of the development and advancement of veterinary medicine from ancient times to the present.

V MPM 409. Infectious Diseases of Wild Animals. (0-2) Cr. 1. F.S. Prereq: Second year classification in veterinary medicine Infectious diseases (bacterial, viral, and mycotic) of non-human primates, birds, ruminants, cold-blooded animals, marine mammals, and carnivores.*Spring only offered to UNL students.

V MPM 437. Infectious Diseases and Preventive Medicine. (3-0) Cr. 3. S. Prereq: Third-year classification in veterinary medicine Etiology, epidemiology, laboratory diagnosis, regulatory control and preventive medicine aspects of the infectious diseases of swine, sheep, goats, cattle and horses.

V MPM 490. Independent Study. Cr. arr. Repeatable. F.S.S.S. Prereq: Permission of instructor and department chair
V MPM 491. CDC Epidemiology Elective Preceptorship.
Cr. 6. F.S.S. Prereq: Written permission of instructor
Introduction to preventive medicine, public health and the principles of
applied epidemiology within the working atmosphere of the Centers for
Disease Control and Prevention.

V MPM 494. Zoo Preceptorship.
Cr. 1-8. Repeatable. F.S.S. Prereq: Fourth year classification in veterinary
medicine
Elective course in zoo veterinary practice under guidance of approved
veterinarians.

V MPM 496. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.S. Prereq: Second-year classification in veterinary
medicine
International Preceptorships and Study Abroad group programs. This
course will provide opportunities for students to be involved in applied
clinical, production, and/or research experiences in international locations.
The course consists of 40 hour per week experiential learning opportuni-
ties.

Courses primarily for graduate students, open to qualified undergraduate
students:

(Cross-listed with MICRO). Cr. 3. Alt. F., offered 2012. Prereq: 302,
BIOL 313
The fundamental concepts of bacterial and bacteriophage genetics
including mutagenesis, mechanisms of both vertical and horizontal
horizontal genetic information transfer, gene regulation, and genetic approaches
to study complex cellular processes. Review and discussion of research
literature to examine experimental design, methodology, and interpreta-
tion of both historical and contemporary relevance to microbial genetics.

V MPM 520. Medical Immunology I.
(4-0) Cr. 4. F. Prereq: MICRO 310 or V MPM 386, 3 credits in biochemistry
Nature of the immune system and its role in health and disease. Credit
for either V MPM 520 or 575, but not both may be applied toward gradu-
ation.

V MPM 522. Principles of Epidemiology and Population
Health.
(Cross-listed with VDPAM). (3-0) Cr. 3. S. Prereq: MICRO 310 or equiva-
 lent
Epidemiology and ecology of disease in populations. Disease causality
and epidemiologic investigations. Issues in disease prevention, control,
and eradication.

V MPM 536. Zoonoses and Environmental Health.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 386, 387 and 388 or equivalent or
permission of instructor
Pathogenesis and control of zoonotic diseases. Factors influencing trans-
mission and survival of pathogenic microorganisms in the environment.

V MPM 540. Livestock Immunogenetics.
(Cross-listed with AN S, MICRO). (2-0) Cr. 2. Alt. S., offered 2013. Prereq:
AN S 561 or MICRO 575 or V MPM 520
Basic concepts and contemporary topics in genetic regulation of livestock
immune response and disease resistance.

V MPM 542. Introduction to Molecular Biology Techniques.
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM,
NUTRIS, VDPAM). Cr. 1. Repeatable. F.S.S. Prereq: Graduate classifica-
tion
Sessions in basic molecular biology techniques and related procedures.
Offered on a satisfactory-fail basis only.
A. DNA Techniques. Includes genetic engineering procedures,
sequencing, PCR, and genotyping. (F.S.S.)
B. Protein Techniques. Includes fermentation, protein isolation, protein
purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and
laser microdissection, immunophenotyping, and monoclonal antibody
production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytom-
etry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-mediated
transformation of tobacco, Arabidopsis, and maize, and analysis of
transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning,
mass spectrometry, and database searching. (F.)
F. Techniques in Metabolomics. metabolomics and the techniques
involved in metabolite profiling. For non-chemistry majoring students who
are seeking analytical aspects into their biological research projects
G. Genomic Techniques

V MPM 565. Professional Practices in Science and Engi-
neering.
(Cross-listed with AGRON, AN S, BCB, CH E, CPR E, EEB, HORT, M E,
MICRO, PL F). Cr. arr. Prereq: Graduate classification
Professional, ethical and legal issues facing scientists and engineers in
academia. Offered in modular format.
A. Responsible Conduct of Research. (Cr. 1.0). F.
B. Working with Industry. (Cr. 0.5).
C. Communications in Science. (Cr. 0.5). Alt S., offered 2011. Reading and
reviewing manuscripts; publishing papers; oral and poster presentations.
D. Time Management and Mentoring. (Cr. 0.5). Alt F., offered 2012.
Balancing life and career; mentoring; lab management.
E. The Interview Process. (Cr. 0.5). Alt S., offered 2012. Applying and
interviewing for academia, industry and government.
F. Grant Writing. (Cr. 1.0). Alt F., offered 2011. Writing a winning proposal.
G. Teaching. (Cr. 0.5). Preparation of a teaching portfolio and course mate-
rials; lecturing, technology.
S. Ethical and legal issues in research.
S. Establishing productive collaborations with industry.

V MPM 575. Immunology.
(Cross-listed with MICRO). (3-0) Cr. 3. S. Prereq: 310
An examination of humoral and cellular immune functions. Interactions
between cells and factors of the immune system that result in health and
disease. MICRO 475L optional. Credit for either V MPM 575 or V MPM
520, but not both, may be applied toward graduation.

V MPM 586. Medical Bacteriology.
(Cross-listed with MICRO). (4-0) Cr. 4. F. Prereq: Permission of instructor
Bacteria associated with diseases of vertebrates, including virulence
factors and interaction of host responses.
L. Medical Bacteriology Laboratory

V MPM 586L. Medical Bacteriology Laboratory.
(0-6) Cr. 2. F. Prereq: credit or enrollment in 586 or 625
Procedures used in isolation and identification of pathogenic bacteria,
including molecular and genetic techniques used in research.

(4-0) Cr. 4. Prereq: Permission of instructor
Principles of animal virology. Biology of viruses associated with diseases of
vertebrates, including mechanisms of pathogenesis.

V MPM 590. Special Topics.
Cr. 1-5. Repeatable. F.S.S. Prereq: Permission of instructor

V MPM 596. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.S. Prereq: Admission to graduate college
International Preceptorships and Study Abroad Group programs. This
course will provide opportunities for students to be involved in applied
clinical, production, and/or research experiences in international locations.
The course consists of 40 hour per week experiential learning opportuni-
ties.

V MPM 599. Creative Component.
Cr. arr. Prereq: Nonthesis M.S. Option only
A written report based on laboratory research, library reading, or topics
related to the student's area of specialization and approved by the
student's advisory committee.
Courses for graduate students:

**V MPM 604. Seminar.**
(1-0) Cr. 1. Repeatable. F.
Offered on a satisfactory-fail basis only.

**V MPM 608. Molecular Virology.**
(Cross-listed with MICRO, PL PI). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: BBMB 405 or GDCB 511
Advanced study of virus host-cell interactions. Molecular mechanisms of viral replication and pathogenesis.

**V MPM 615. Molecular Immunology.**
(Cross-listed with BBMB, MICRO). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BBMB 405 or 502
Current topics in molecular aspects of immunology: T and B cell receptors; major histocompatibility complex; antibody structure; immunosuppressive drugs and viruses; and intracellular signalling pathways leading to expression of genes that control and activate immune function.

**V MPM 625. Mechanisms of Bacterial Pathogenesis.**
(Cross-listed with MICRO). (4-0) Cr. 4. Alt. S., offered 2013. Prereq: Credit in Biochemistry and Microbiology
Review of current concepts in specific areas of microbial pathogenesis including the genetic basis for bacterial disease, genetic regulation and control of virulence factors and their mechanisms of action, and host-pathogen interactions at the cellular and molecular levels. The application of microbial genetics to understanding pathogenesis will be included.

**V MPM 629. Advanced Topics in Cellular Immunology.**
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: 520 or 575
Current topics and literature in cellular immunology. Topics include thymocyte development and selection, T cell interactions with antigen presenting cells, and lymphocyte effector functions.

**V MPM 660. Pathogenesis of Persistent Infections.**
(Cross-listed with V PTH). (2-0) Cr. 2. Alt. S., offered 2013. Prereq: Permission of instructor
Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

**V MPM 690. Current Topics.**
Cr. 1-3. Repeatable. F.S.SS. Prereq: Permission of instructor
Colloquia or advanced study of specific topics in a specialized field.

A. Immunology
B. Infectious Diseases

**V MPM 698. Seminar in Molecular, Cellular, and Developmental Biology.**
(Cross-listed with MCDB, BBMB, GDCB, MICRO). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

**V MPM 699. Research.**
Cr. arr. Repeatable.
Veterinary Microbiology and Preventive Medicine

Professional Program of Study
For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Microbiology and Preventive Medicine provides instruction on pathogenic bacteria, fungi, and viruses and their interaction with host animal species. Principles and applications of infectious diseases, immunity to disease, diagnostic methods for infectious diseases, and vaccinology are covered. Principles and applications of epidemiology, public health, preventive veterinary medicine, regulatory veterinary medicine and food safety are also emphasized.

Graduate Study
The department offers opportunities for the degree doctor of philosophy with a major in veterinary microbiology. A specialization in preventive medicine is an option for this degree. Graduates in the Veterinary Microbiology and Preventive Medicine programs have a broad understanding of the fundamental processes involved in infectious diseases, pathogenesis and immunology. They are able to effectively establish research programs, which involve complex biological systems and disease syndromes. They are also prepared to address microbial-based social, ethical and environmental problems. Graduates acquire effective written and oral communication skills which lead to successful research and teaching careers in the medical and veterinary sciences. The department also offers work towards the master of science in veterinary microbiology or veterinary preventive medicine. A non-thesis master's option is available for majors in preventive medicine. Courses are open for students majoring in other graduate programs.

Prerequisite to graduate study is completion of coursework in general microbiology, biochemistry, mathematical sciences, and physics. Candidates for the majors in veterinary microbiology should possess an undergraduate degree in biomedical science with emphasis in medical microbiology or the D.V.M. degree. Candidates for the major in preventive medicine should possess the D.V.M. degree.

The department also participates in the interdepartmental majors and programs in genetics, immunobiology, and MCDB (molecular, cellular, and developmental biology; see Index).

Each graduate student must demonstrate proficiency in English composition within two semesters in residence.

Courses primarily for professional curriculum students
V MPM 378. Case Study IV.
(2-0) Cr. 2. S. Prereq: Second-year classification in veterinary medicine
Case-based applied learning that relates to the basic science courses. Emphasis on early integration of basic and clinical science concepts.

V MPM 380. Veterinary Immunology.
(2-0) Cr. 2. S. Prereq: First-year classification in veterinary medicine
Structure and function of the immune system in animals.

V MPM 386. Veterinary Microbiology.
(3-5) Cr. 5. F. Prereq: Second-year classification in veterinary medicine
Bacteria and fungi of veterinary importance with emphasis on mechanisms of disease production and laboratory diagnostic procedures.

V MPM 387. Veterinary Virology.
(3-0) Cr. 3. S. Prereq: Second-year classification in veterinary medicine
Basic principles of animal virology. Pathogenesis of viral infections. The nature and ecology of viruses of veterinary and zoonotic importance.

(3-0) Cr. 3. S. Prereq: Second-year classification in veterinary medicine
Fundamental epidemiology, zoonotic diseases, occupational health, food safety, other public health topics.

V MPM 390. Topics in Veterinary History.
(2-0) Cr. 1. S.
8 weeks. Significant persons, noteworthy events, and pivotal scientific discoveries in the course of the development and advancement of veterinary medicine from ancient times to the present.

V MPM 409. Infectious Diseases of Wild Animals.
(2-0) Cr. 1. F. Prereq: Second year classification in veterinary medicine
Infectious diseases (bacterial, viral, and mycotic) of non-human primates, birds, ruminants, cold-blooded animals, marine mammals, and carnivores.*Spring only offered to UNL students.

V MPM 437. Infectious Diseases and Preventive Medicine.
(3-0) Cr. 3. S. Prereq: Third-year classification in veterinary medicine
Etiology, epidemiology, laboratory diagnosis, regulatory control and preventive medicine aspects of the infectious diseases of swine, sheep, goats, cattle and horses.

V MPM 486. Laboratory in Public Health.
Cr. 2. Repeatable. F.S.S.S. Prereq: Fourth-year classification in veterinary medicine
Discussions, lectures, exercises and field trips related to veterinary public health.

V MPM 490. Independent Study.
Cr. arr. Repeatable. F.S.S.S. Prereq: Permission of instructor and department chair

V MPM 491. CDC Epidemiology Elective Preceptorship.
Cr. 6. F.S.S.S. Prereq: Written permission of instructor
Introduction to preventive medicine, public health and the principles of applied epidemiology within the working atmosphere of the Centers for Disease Control and Prevention.

V MPM 494. Zoo Preceptorship.
Cr. 1-8. Repeatable. F.S.S.S. Prereq: Fourth year classification in veterinary medicine
Elective course in zoo veterinary practice under guidance of approved veterinarians.

V MPM 496. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.S.S. Prereq: Second-year classification in veterinary medicine
International Preceptorships and Study Abroad group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

Courses primarily for graduate students, open to qualified undergraduate students
(Cross-listed with MICRO). Cr. 3. Alt. F. offered 2012. Prereq: 302, BIOL 313
The fundamental concepts of bacterial and bacteriophage genetics including mutagenesis, mechanisms of both vertical and horizontal genetic information transfer, gene regulation, and genetic approaches to study complex cellular processes. Review and discussion of research literature to examine experimental design, methodology, and interpretation of both historical and contemporary relevance to microbial genetics.
V MPM 520. Medical Immunology I.  
(4-0) Cr. 4. F. Prereq: MICRO 310 or V MPM 386, 3 credits in biochemistry  
Nature of the immune system and its role in health and disease. Credit  
for either V MPM 520 or 575, but not both may be applied toward gradu- 

V MPM 522. Principles of Epidemiology and Population  
Health.  
(Cross-listed with VDPAM). (3-0) Cr. 3. S. Prereq: MICRO 310 or equiva- 

tent Epidemiology and ecology of disease in populations. Disease causality  
and epidemiologic investigations. Issues in disease prevention, control,  
and eradication.

V MPM 536. Zoonoses and Environmental Health.  
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: 386, 387 and 388 or equivalent or  
permission of instructor  
Pathogenesis and control of zoonotic diseases. Factors influencing trans- 
mission and survival of pathogenic microorganisms in the environment.

V MPM 540. Livestock Immunogenetics.  
(Cross-listed with AN S, MICRO). (2-0) Cr. 2. Alt. S., offered 2013. Prereq:  
AN S 561 or MICRO 575 or V MPM 520  
Basic concepts and contemporary topics in genetic regulation of livestock  
immune response and disease resistance.

V MPM 542. Introduction to Molecular Biology Techniques.  
(Cross-listed with B M S, BBMB, EEOB, FS HN, GDCB, HORT, NREM,  
Sessions in basic molecular biology techniques and related procedures.  
Offered on a satisfactory-fail basis only.

A. DNA Techniques. Includes genetic engineering procedures,  
sequencing, PCR, and genotyping. (F.S.S.)
B. Protein Techniques. Includes fermentation, protein isolation, protein  
purification, SDS-PAGE, Western blotting, NMR, confocal microscopy and  
laser microdissection, immunophenotyping, and monoclonal antibody  
production. (S.SS.)
C. Cell Techniques. Includes immunophenotyping, ELISA, flow cytom- 
etry, microscopic techniques, and image analysis. (F.S.)
D. Plant Transformation. Includes Agrobacterium and particle gun-medi- 
atcd transformation of tobacco, Arabidopsis, and maize, and analysis of  
transformants. (S.)
E. Proteomics. Includes two-dimensional electrophoresis, laser scanning,  
mass spectrometry, and database searching. (F.)
F. Techniques in Metabolomics. Metabolomics and the techniques  
involved in metabolite profiling. For non-chemistry majoring students who  
are seeking analytical aspects into their biological research projects  
G. Genomic Techniques

V MPM 565. Professional Practices in Science and Engi- 
neering.  
(Cross-listed with AGRON, AN S, BCCH, CH E, CPR E, EEB, HORT, M E,  
MICRO, PL P). Cr. arr. Prereq: Graduate classification  
Professional, ethical and legal issues facing scientists and engineers in  
academia. Offered in modular format.
A. Responsible Conduct of Research. (Cr. 1.0). F  
B. Working with Industry. (Cr. 0.5).
C. Communications in Science. (Cr. 0.5). Alt S., offered 2011. Reading and  
reviewing manuscripts; publishing papers; oral and poster presentations.
D. Time Management and Mentoring. (Cr. 0.5). Alt F., offered 2012.  
Balancing life and career; mentoring; lab management.
E. The Interview Process. (Cr. 0.5). Alt S., offered 2012. Applying and  
interviewing for academia, industry and government.
F. Grant Writing. (Cr. 1.0). Alt F., offered 2011. Writing a winning proposal.  
G. Teaching. (Cr. 0.5). Preparation of a teaching portfolio and course mate-
rials; lecturing, technology.
S. Ethical and legal issues in research.
S. Establishing productive collaborations with industry.
V MPM 629. Advanced Topics in Cellular Immunology.
(2-0) Cr. 2. Alt. S., offered 2012. Prereq: 520 or 575
Current topics and literature in cellular immunology. Topics include thymocyte development and selection, T cell interactions with antigen presenting cells, and lymphocyte effector functions.

(Cross-listed with V PTH). (2-0) Cr. 2. Alt. S., offered 2013. Prereq: Permission of instructor
Study of current knowledge related to host-pathogen interactions during persistent and chronic infections by bacteria, viruses and parasites.

V MPM 690. Current Topics.
Cr. 1-3. Repeatable. F.S.SS. Prereq: Permission of instructor
Colloquia or advanced study of specific topics in a specialized field.
A. Immunology
B. Infectious Diseases

V MPM 698. Seminar in Molecular, Cellular, and Developmental Biology.
(Cross-listed with MCDB, BBMB, GDCB, MICRO). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

V MPM 699. Research.
Cr. arr. Repeatable.
Professional Program of Study
For the professional curriculum in veterinary medicine leading to the degree doctor of veterinary medicine, see Veterinary Medicine, Curriculum.

The Department of Veterinary Pathology offers a systematic study of basic disease mechanisms with emphasis on the changes in gene expression, cells, tissues, organs, and body fluids associated with disease. The theory and practice of veterinary pathology, veterinary clinical pathology, veterinary parasitology, veterinary toxicology, and related disciplines provide the basis for accurate diagnosis and a rational approach to the treatment and prevention of animal diseases.

Graduate Study
The department offers work for the degree master of science and doctor of philosophy with a major in veterinary pathology. As an option, students may choose an area of specialization in pathology, veterinary anatomic pathology, veterinary clinical pathology, veterinary toxicology, or veterinary parasitology (http://vetmed.iastate.edu/vpath/academics/graduate-program). The master of science degree is available on a thesis or nonthesis basis in the veterinary pathology major with or without an area of specialization.

For the ACVP training track (residency) of the anatomic or clinical pathology graduate program designed to train veterinary pathologists, the student must have a funded position within the Department of Veterinary Pathology. If the student does not have a funded position or is not enrolled in the departmental degree program, enrollment in courses pertaining to the residency program and activities that support the residency program must have the approval of the Department Chair of Veterinary Pathology and the head of the departmental residency training program.

Graduates have a broad understanding of the mechanistic basis of disease pathogenesis. They are able to communicate with clinicians, other scientists, and other colleagues on scientific matters, and with the general public on related science policy matters. Graduates are able to address complex problems facing the agricultural and biomedical sciences, and comparative medicine, and are able to make appropriate diagnoses and investigations of animal diseases. They consider ethical, social, legal and environmental issues, and are skilled at carrying out research, communicating research results, and writing concise and competitive grant proposals.

Collaborative work is recommended in other departments in the College of Veterinary Medicine or departments or programs in other colleges. The department participates in the interdepartmental program in immunobiology (www.immunobiology.iastate.edu/) and the interdepartmental major in toxicology (www.toxicology.iastate.edu/).

A veterinary degree (doctor of veterinary medicine or equivalent) is required for training in Veterinary Anatomic Pathology and Veterinary Clinical Pathology. Other specializations do not require the veterinary degree. A minimum score of 550 paper-based (213 computer-based; 79 internet based) is required on the TOEFL examination for students whose native language is not English. Scores on the standardized Graduate Record Examination (GRE) General Test are required of students not having a veterinary degree from the United States or Canada. The GRE General Test is strongly recommended for all other applicants. A foreign language requirement will be determined by the student’s program of study committee with the approval of the departmental chair. The Graduate English Examination is a graduate college requirement for native English speakers.

The M.S. thesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 30 graduate credits. Following completion of all other requirements, a comprehensive final examination is administered covering all graduate work including the thesis. The examination is typically oral, but a written component may be specified by the program of study committee. The degree candidate must submit a thesis, including at least one manuscript suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The departmental requirement for graduate courses includes:

† Arranged with instructor.

The M.S. nonthesis degree in veterinary pathology, with or without an area of specialization, requires a minimum of 40 graduate credits including at least 10 graduate credits earned outside the department. Every nonthesis master’s degree program requires evidence of individual accomplishment demonstrated by completion of a creative component, special report, or scientific study. A minimum of 3 credits of such independent work (V PTH 599 Creative Component Research) and a practical diagnostic examination (V PTH 606 Diagnostic Interpretation) corresponding to the area of specialization are required on every program of study. The final examination is comprehensive and consists of written and oral questions. The departmental requirement for graduate courses includes those for the M.S. thesis degree plus additional courses corresponding to the area of degree emphasis of specialization. Contact the department for a more complete list of requirements and information on areas of specialization.

The Ph.D. degree in veterinary pathology, with or without an area of specialization, requires a minimum of 72 graduate credits including at least 12 graduate credits earned outside the department. The preliminary examination, consisting of written and oral components, is comprehensive and not restricted to the content of graduate courses. The degree candidate must submit a dissertation, including at least two manuscripts suitable for publication, to the committee members and departmental chair at least two weeks prior to the final examination. The final examination is primarily a defense of the dissertation, but it may include questions on other areas of specialized knowledge. The department also offers a combined DVM/Ph.D. program designed for completion of courses for the Ph.D. degree in Veterinary Pathology simultaneously with study in the professional curriculum in the College of Veterinary Medicine. Contact the department for a more complete list of requirements for the Ph.D. degree and information on areas of specialization.

Courses primarily for professional curriculum students

V PTH 342. Anatomic Pathology I. (Dual-listed with 542). (2-2) Cr. 3. S. Prereq: First-year classification in veterinary medicine
Basic pathology with emphasis on disease in animals and introduction to diseases by system.

V PTH 353. Introductory Parasitology. (Cross-listed with BIOL, MICRO). (3-3) Cr. 4. S. Prereq: BIOL 212
Biology and host-parasite relationships of major groups of animal parasites, and techniques of diagnosing and studying parasites.

V PTH 372. Anatomic Pathology II. (Dual-listed with 572). (3-3) Cr. 4. F. Prereq: 342
Response to injury by each body system.
Courses primarily for graduate students, open to qualified undergraduate students

V PTH 530. Teaching and Learning in Veterinary Medical Education.
(3-0) Cr. 3. Alt. F., offered 2012.
Study of principles of teaching and learning as they relate to veterinary medical education. These include: theories of learning, analyzing content/learners/context, identifying goals, identifying appropriate instructional strategies (specific to medical education), matching assessment processes to goals and strategies, common curricular approaches and decision-making processes in medical education, and the scholarship of teaching and learning for veterinary medical educators.

V PTH 548. Diagnostic Parasitology Laboratory.
Cr. 1-3. F.S.SS. Prereq: 376 or 576
Contact hours are (0-3 to 0-9). A laboratory experience in the technical and applied aspects of veterinary parasitology.

V PTH 549. Clinical Pathology Laboratory.
(0-3) Cr. 1. Repeatable. F.S.SS. Prereq: 457; permission of instructor
Laboratory procedures and clinical interpretations with emphasis on hematology, cytology, and clinical chemistry. Offered on a satisfactory-fail basis only.

V PTH 550. Surgical Pathology Laboratory.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 570 or 571; permission of instructor
Contact hours are (0-3 to 0-9). Diagnosis of lesions in biopsy specimens; classification of neoplasms. Course includes rotation through departmental biopsy service and review of selected cases from departmental archives. Offered on a satisfactory-fail basis only.

V PTH 551. Postmortem Pathology Laboratory.
Cr. 1-3. Repeatable. F.S.SS. Prereq: 542; permission of instructor
Contact hours are (0-3 to 0-9). Necropsy techniques of animals with emphasis on gross and microscopic lesions and diagnosis. Offered on a satisfactory-fail basis only.

V PTH 554. Ethics in Scientific Research and Writing.
(1-0) Cr. 1. Alt. SS., offered 2012. Prereq: Graduate classification
Ethical conduct in biomedical research, criticism, writing, and adherence to regulations. Offered on a satisfactory-fail basis only.

V PTH 570. Systemic Pathology I.
(2-4) Cr. 4. Alt. F., offered 2012. Prereq: 342 or 542; permission of instructor
Pathology of the respiratory, reproductive, endocrine, musculoskeletal, and cardiovascular systems. Emphasis on pathogenesis and anatomic pathology correlated with interpretive clinical pathology where appropriate.

V PTH 571. Systemic Pathology II.
(2-4) Cr. 4. Alt. F., offered 2011. Prereq: 342 or 542; permission of instructor
Pathology of the integumentary, urinary, digestive, lymphoid, and nervous systems and special senses. Emphasis on pathogenesis and anatomic pathology correlated with interpretive clinical pathology where appropriate.

V PTH 572. Anatomic Pathology II.
(Dual-listed with 372). (3-3) Cr. 4. F. Prereq: Graduate classification and 542
Response to injury by each body system.
V PTH 576. Veterinary Parasitology.
(Dual-listed with 376). (3-3) Cr. 4. F. Prereq: Graduate classification and 542
Parasitic diseases of domestic animals and their control.

(Dual-listed with 478). (Cross-listed with ENT). (2-1) Cr. 3. F. Prereq: Permission of instructor
Analysis of cellular systems, molecules, and organelles of pathogenic protozoan parasites. Emphasis is placed on processes and systems that are unique to protozoa, are important to understanding vector-parasite-host biology/ecology, or are targets of disease prevention/treatment programs for international disease control.

V PTH 590. Special Topics.
Cr. 1-4. Repeatable. F.S.SS. Prereq: Permission of instructor
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology
D. Veterinary Clinical Pathology
E. Other

V PTH 596. International Preceptorship.
(0-40) Cr. 1-12. Repeatable. F.S.SS. Prereq: Admission to graduate college
International Preceptorships and Study Abroad Group programs. This course will provide opportunities for students to be involved in applied clinical, production, and/or research experiences in international locations. The course consists of 40 hour per week experiential learning opportunities.

V PTH 599. Creative Component Research.
Cr. arr. Repeatable. Course for departmental graduate research.
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology
D. Veterinary Clinical Pathology

Courses for graduate students

V PTH 604. Pathology Case Seminar.
Cr. 1-2. Repeatable. F.S. Prereq: permission of instructor
Description and interpretation of microscopic lesions and clinical pathology data collected from cases of natural and experimental disease. Offered on a satisfactory-fail basis only.

V PTH 605. Current Topics Seminar.
Cr. 1. Repeatable. F.S.SS.
A seminar of graduate research at the time of thesis or dissertation defense.

V PTH 606. Diagnostic Interpretation.
Cr. R. F.S.SS. Prereq: permission of instructor
A comprehensive examination in the diagnostic description and interpretation of case materials relevant to veterinary pathology and areas of specialization for the graduate degree preliminary examination.
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology
D. Veterinary Clinical Pathology

V PTH 652. Pathologic Hematology.
(2-2) Cr. 3. Prereq: 425; permission of instructor
Pathologic changes in blood constituents of domestic animals.

V PTH 655. Cellular and Molecular Pathology I.
(3-0) Cr. 3. Alt. S., offered 2013. Prereq: Graduate course in biochemistry, genetics, or cell biology
Cellular and molecular mechanisms of cell injury, cellular responses to injury, and inflammation.

V PTH 656. Cellular and Molecular Pathology II.
(Cross-listed with TOX). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Graduate course in biochemistry, genetics, or cell biology
Cellular and molecular mechanisms of carcinogenesis.

V PTH 660. Pathogenesis of Persistent Infections.
(Cross-listed with V MPM). (2-0) Cr. 2. Alt. S., offered 2013. Prereq: Permission of instructor
Study of current knowledge related to host pathogen interactions during persistent and chronic infections by bacteria, viruses, and parasites.

V PTH 663. Clinical Chemistry.
(2-2) Cr. 3. Prereq: 425; permission of instructor
The pathophysiology, methodology, and clinical application of laboratory medicine.

V PTH 679. Histopathology of Laboratory Animals.
(0-4) Cr. 2. Alt. SS., offered 2012. Prereq: 570 or 571; permission of instructor
Study of microscopic lesions in laboratory animals with emphasis on description, etiology, pathogenesis, and diagnosis.

V PTH 699. Research.
Cr. arr. Repeatable. Course restricted to graduate program within the department.
A. Veterinary Pathology
B. Veterinary Parasitology
C. Veterinary Toxicology
D. Veterinary Clinical Pathology
Colleges and Curricula

Undergraduate and Professional Degree Programs

The university is organized into eight colleges, including the Graduate College. Six colleges offer undergraduate degree programs, and the College of Veterinary Medicine offers the Doctor of Veterinary Medicine degree. For a listing of the more than 100 majors offered by the Graduate College, see the summary at the end of the Graduate College section of this publication.

Iowa State University is accredited by the Higher Learning Commission of the North Central Association.

The main undergraduate academic programs of each college are listed below, together with the degrees awarded upon completion. In many cases certain majors, minors, options, or electives allow for increased specialization within the programs. Programs which are administered jointly by two colleges are listed within both colleges.

**College of Agriculture and Life Sciences**

- Agricultural Biochemistry, B.S.
- Agricultural Business, B.S.
- Agricultural and Life Sciences Education, B.S.
- Agricultural Studies, B.S.
- Agricultural Systems Technology, B.S.
- Agronomy, B.S.
- Animal Ecology, B.S.
- Animal Science, B.S.
- Biology, B.S.
- Culinary Science, B.S.
- Dairy Science, B.S.
- Diet and Exercise, B.S./M.S.
- Dietetics, B.S.
- Environmental Science, B.S.
- Food Science, B.S.
- Forestry, B.S.
- Genetics, B.S.
- Global Resource Systems, B.S.
- Horticulture, B.S.
- Industrial Technology, B.S.
- Insect Science, B.S.
- International Agriculture, B.S.
- Microbiology, B.S.
- Nutritional Science, B.S.
- Public Service and Administration in Agriculture, B.S.
- Seed Science, B.S.

**College of Business**

- Accounting, B.S.
- Finance, B.S.
- Business Economics, B.S.
- Logistics and Supply Chain Management, B.S.
- Management, B.S.
- Management Information Systems, B.S.
- Marketing, B.S.
- Operations and Supply Chain Management, B.S.

**College of Design**

- Architecture, B.Arch.
- Art and Design, B.A., B.F.A.
- Community and Regional Planning, B.S.
- Graphic Design, B.F.A.
- Integrated Studio Arts, B.F.A.
- Interior Design, B.F.A.
- Landscape Architecture, B.L.A.

**College of Engineering**

- Aerospace Engineering, B.S.
- Agricultural Engineering, B.S.
- Biological Systems Engineering, B.S.
- Chemical Engineering, B.S.
- Civil Engineering, B.S.
- Computer Engineering, B.S.
- Construction Engineering, B.S.
- Electrical Engineering, B.S.
- Industrial Engineering, B.S.
- Materials Engineering, B.S.
- Mechanical Engineering, B.S.
- Software Engineering, B.S.

**College of Human Sciences**

- Apparel Merchandising, Design B.S.
- Child, Adult, and Family Services, B.S.
- Culinary Science, B.S.
- Diet and Exercise, B.S./M.S.
- Dietetics, B.S.
- Early Childhood Education, B.S.
- Elementary Education, B.S.
- Event Management, B.S.
- Family and Consumer Sciences Education and Studies, B.S.
- Family Finance, Housing, and Policy, B.S.
- Food Science, B.S.
- Hospitality Management, B.S.
- Kinesiology and Health, B.S.
- Nutritional Science, B.S.

**College of Liberal Arts and Sciences**

- Advertising, B.A.
- Anthropology, B.A., B.S.
- Biochemistry, B.S.
- Bioinformatics and Computational Biology B.S.
- Biological/Pre-Medical Illustration, B.A.
- Biology, B.S.
- Biophysics, B.S.
- Chemistry, B.A., B.S.
- Communication Studies, B.A.
- Computer Science, B.S.
- Earth Science, B.A., B.S.
- Economics, B.S.
- English, B.A., B.S.
- Environmental Science, B.S.
- Environmental Studies, B.A., B.S.
- Genetics, B.S.
- Geology, B.S.
- History, B.A., B.S.
- Interdisciplinary Studies, B.A., B.S.
- International Studies, B.A., B.S.
- Journalism and Mass Communication, B.A., B.S.
- Liberal Studies, B.A., B.S.
- Linguistics, B.A.
- Mathematics, B.S.
- Meteorology, B.S.
- Music, B.A., B.Mus.
- Performing Arts, B.A.
- Philosophy, B.A.
- Physics, B.S.
- Political Science, B.A.
- Psychology, B.A., B.S.
- Religious Studies, B.A.
- Russian Studies, B.A.
- Sociology, B.A., B.S.
- Software Engineering, B.S.
- Speech Communication, B.A., B.S.
- Statistics, B.S.
- Technical Communication, B.S.
- Women’s Studies, B.A., B.S.
- World Languages and Cultures B.A.: French
German  
Russian Studies  
Spanish  

**College of Veterinary Medicine**  
Veterinary Medicine, D.V.M.  

**Bachelor's Degree Requirements**  
To receive a degree, a student must meet the requirements of the curriculum in which the degree is to be awarded. Verification that the student has met those requirements is made by the dean of the college, who also has the authority to waive a requirement under exceptional circumstances.

A cumulative grade point average of at least 2.00 in all work taken at Iowa State University is required for graduation.

A student admitted as a transfer from another college or university is normally required to have a 2.00 cumulative average at the time of entrance. A student may, however, be admitted with a quality-point deficiency, but will be required to earn sufficient quality-points above a 2.00 at Iowa State to offset the quality-point deficiency at the time of entrance.

No more than 65 semester or 97 quarter credits earned at two-year colleges can be applied to a bachelor's degree from Iowa State University. There is no limit to the number of credits that may be transferred from a four-year institution.

A student who takes work at another college or university after having been enrolled at Iowa State must submit transcripts of all work attempted to the Office of Admissions at Iowa State. This work must average a 2.00 or the deficiency of quality points will be assessed against the student. Failure to submit such transcripts will be grounds for dismissal.

In unusual circumstances, the Academic Standards Committees of the respective colleges may review and give further consideration to the records of students who, except for grade-point average, have satisfactorily completed all graduation requirements. If the appropriate college Academic Standards Committee considers that the educational and professional needs of such a student have been satisfactorily met, or can be satisfactorily met by imposing further conditions, the committee may recommend to the dean of the college that the student be graduated or that a supplemental program be accepted in place of the fully unqualified grade point average. The college Academic Standards Committee chairperson reports such exceptional actions to the Faculty Senate Committee on Academic Standards and Admissions.

To qualify for a bachelor's degree, a student must take a minimum of 32 credits in residence at Iowa State University. Also required is that the last 32 credits must be taken in residence, although under special circumstances, with prior written approval of the student's major department, six of the last 32 credits may be transferred and applied toward a degree at Iowa State University.

A student may receive two bachelor's degrees if he or she meets the requirements of each curriculum and earns at least 30 credits beyond the requirements of the curriculum requiring the greater number of credits. Each degree program must be approved by the appropriate department chair or head.

A student fulfilling the requirements of two separate curricula in different colleges may, in certain cases, receive a degree from one of the colleges with double majors crossing college lines. The permission of both deans must be obtained and each degree program must be approved by the appropriate department and dean.

**Minors**  
Requirements for an undergraduate minor are specified by many departments and programs in the university; a record of completion of such requirements appears on a student's transcript. Lists of undergraduate minors offered by each college appear in the college description. Credits used to meet the minor requirements may also be used to satisfy the credit requirement for graduation and to meet credit requirements in courses numbered 300 or above. Some students may have to exceed the graduation credit requirement set by their college in order to meet the requirements of both the minor and the curriculum/major.

All minors require at least 15 credits, including at least 6 credits taken at Iowa State University in courses numbered 300 or above. The minor must include at least 9 credits that are not used to meet any other department, college, or university requirement. Courses taken for a minor may not be taken on a pass-not pass basis. Specific requirements and/or restrictions are available from the department or program offering the minor.

**Undergraduate Certificates**  
All undergraduate certificates require at least 20 credits, including at least 12 credits taken at Iowa State University. At least 9 of the credits taken at Iowa State University must be in courses numbered 300 or above. The undergraduate certificate must include at least 9 credits that are not used to meet any other department, college, or university requirement except to satisfy the total credit requirement for graduation and to meet credit requirements in courses numbered 300 or above. Courses taken for an undergraduate certificate may not be taken on a pass-not pass basis. A cumulative grade point average of at least 2.00 is required in courses taken at Iowa State University for an undergraduate certificate. Specific requirements and/or restrictions are available from the department or program offering the undergraduate certificate (see Index).

**Communication Proficiency Policy**  
Basic Principles: The faculty of Iowa State University believe that all educated people should be able to communicate effectively in a variety of settings and media, including electronic. Consequently, Iowa State University graduates are expected to develop competence in three interrelated areas of communication: written, oral, and visual.

This communication competence can best be achieved through the following five principles:

- Communication instruction and practice are distributed over the student’s entire undergraduate experience, both in and out of the classroom, from the first year through the senior year.
- Communication instruction and practice are distributed across the curriculum, both in communication courses and in courses in the student’s major.
- Active learning and higher-order thinking are fostered through communication.
- Faculty across the university share responsibility for the student’s progress in communication practices.
- Both faculty and students engage in ongoing assessment for continuous improvement of the student’s communication practices.

Iowa State University’s communication curriculum, based on these five principles, seeks to enrich the student’s understanding of the various subjects studied as well as prepare the student to communicate successfully in professional, civic, and private life.

**Foundation Courses**  
To ensure that broad communication competence is addressed and developed at the beginning of a university career, all students will earn six credits in the two-course introductory sequence (ENGL 150 Critical Thinking and Communication and ENGL 250 Written, Oral, Visual, and Electronic Composition), normally taken in the first and second years. Students will focus on writing and critical reading, with complementary instruction in visual, oral, and electronic communication; they will concentrate on civic and cultural themes; and they will enter work in a communication portfolio to document their current level of proficiency.

**Upper-Level Curricula**  
Continuing development of communication skills will be directed by the student’s major department. Using the university’s basic principles as a guide, each department will specify a set of intended learning outcomes and design communication experiences by which students in the major can achieve the desired level of communication proficiency.

Departments may select from or combine a variety of communication options that best match their faculty, students, and curriculum:
Students will be able to:

- designated communication-intensive courses that integrate written, oral, and visual communication into a course in the major;
- a sequence of courses within the major that incorporates communication tasks of increasing complexity;
- linked courses—one in communication, one in the major—that integrate readings and assignments;
- advanced composition courses appropriate to the student’s major and offering instruction in written, oral, and visual communication;
- communication-intensive activities within or beyond course work, such as communication portfolios, discipline- or course- specific student tutoring, community service projects, internships, electronic presentations, informational fairs, juried competitions, entrepreneurial projects, newsletters, Web sites.

Departments will retain the authority for regularly assessing the degree to which their students achieve the specified learning outcomes and for making curricular improvements based on departmental assessment data.

Non-Native Speakers of English: Students admitted to the university whose first language is not English are required to take the English Placement Test before the beginning of their first semester of enrollment as students at Iowa State. This requirement includes freshmen as well as those who have transferred credit from other institutions. The test is administered by the English Department and is offered before the beginning of each semester. Students whose performance on this placement examination is satisfactory will follow the regular university communication proficiency requirements. Students who have deficiencies will enroll in special English classes, as determined by the test results.

Library Study
Independent study and investigation through the use of books, journals, and libraries enable students to grow intellectually and professionally in college and afterward. For this reason, all students receive instruction in the use of the University Library, including practice in how to locate the published literature of their respective fields of study.

U.S. Diversity and International Perspective Requirements
One of Iowa State University’s goals is to prepare its students to meet the challenges of responsible citizenship and effective professional roles in a culturally diverse global community. To help achieve this goal, all undergraduate students must fulfill graduation requirements in two areas: U.S. Diversity and International Perspectives. The specific standards used to certify students’ fulfillment of these requirements vary from major to major, but all require three credits of course work (or the equivalent in some alternative academic experience) for each of the requirements. In most cases, courses used to meet the U.S. Diversity and International Perspectives requirements can also be used to fulfill general education requirements of the student’s college or requirements of the student’s major. Students should consult with advisers for details of the requirements in particular majors.

The focus of the U.S. Diversity requirement is the multicultural society of the United States. Courses or alternative academic work used to meet the requirement address significant manifestations of human diversity and provide students with insights that enhance their understanding of diversity among people in the U.S.

Through completion of the U.S. Diversity requirement, students will achieve at least two learning outcomes such as those listed below.

Students will be able to:

- articulate how their personal life experiences and choices fit within the context of the larger mosaic of U.S. society, indicating how they have confronted and critically analyzed their perceptions and assumptions about diversity-related issues.
- analyze and evaluate the contributions of various underrepresented social groups in shaping the history and culture of the U.S.
- analyze individual and institutional forms of discrimination based on factors such as race, ethnicity, gender, religion, sexual orientation, class, etc.
- analyze the perspectives of groups and individuals affected by discrimination

- analyze how cultural diversity and cooperation among social groups affect U.S. society.

The focus of the International Perspectives requirement is the global community. Its objective is to promote students’ understanding of cultural diversity and interdependence on a global scale. A period of immersion in a foreign culture is often a particularly effective way of meeting these objectives, so Iowa State University encourages the use of study-abroad experiences as a means of fulfilling the International Perspectives requirement. International students, because they are “studying abroad” from their home country’s perspective, are normally deemed to have met the International Perspectives requirement. The International Perspective requirement shall be waived for U.S. military veterans who have completed at least three months of service stationed outside of the United States.

Through completion of the International Perspectives requirement, students will achieve at least two learning outcomes such as those listed below.

Students will be able to:

- analyze the accuracy and relevancy of their own worldviews and anticipate how people from other nations may perceive that worldview.
- describe and analyze how cultures and societies around the world are formed, are sustained, and evolve.
- analyze and evaluate the influence of global issues in their own lives.
- describe the values and perspectives of cultures other than their own and discuss how they influence individuals’ perceptions of global issues and/or events.
- communicate competently in a second language.

Curriculum Requirements
The curriculum requirements, both in number of credit hours and specific courses, are guidelines for the student and his or her adviser in planning an academic program. The curriculum is subject to change and because of these changes, adjustments may need to be made.

Catalog in Effect
A student may choose to graduate under the catalog in effect at the time of graduation or a catalog for the previous five years, provided it covers a period of his or her enrollment. Full requirements of the chosen catalog must be met except that adjustments will be made in instances where courses are no longer available or where programs have been changed.

Special Programs
Honors Program
The Iowa State University Honors Program is designed for students who have demonstrated the ability and motivation to assume more than the usual responsibility for their undergraduate education. The goal of the program is to enable Honors students to gain maximum benefit from their undergraduate education. Students who graduate in the Honors Program receive the Honors designation on their transcripts and on their baccalaureate diplomas.

Special educational opportunities. Students in the Honors Program determine their educational objectives and devise an individualized program of study to meet those objectives. An honors program may include substitutions for required courses, a combination of courses from several departments to form a new major or minor, Honors courses or seminars, independent study and research, and other forms of innovation. Information about Honors courses and seminars for the current academic year can be obtained from the Honors Program Office, 2130 Jischke Honors Building.

Other benefits. Members of the Honors Program have 24-hour access to the Honors building as a quiet place to study, use the computers, and visit with other Honors students. Students also have off-campus opportunities such as attending Honors seminars and Wingspread conferences. Members receive extended loan privileges at the Library, priority scheduling, and the opportunity to apply for research funds.

ISU Students who have a cumulative grade-point average of at least 3.5 become eligible to apply for admission to the Honors Program during their second semester in residence and continue to be eligible for admis-
sion as long as they have at least 48 semester credits remaining before graduation. Transfer students with a transfer G.P.A. of 3.5 or higher and more than 60 credits remaining are eligible to apply.

First-Year Honors Program
Entering first-year students with outstanding high school records and academic ability may be eligible to participate in the First-Year Honors Program (FYP). The FYP is designed to introduce students to an honors education, consisting of special honors sections of English 250 and Library 160, a FYP Seminar, and advising by honors advisers. Students may also choose to participate in the Honors Mentor Program, designed to introduce students to scholarship. Participants select an area of interest and are matched with faculty members conducting research in that area. Admission to the FYP is limited, and is based on past academic achievement, potential, and interest in an honors education.

Further information. Further information concerning the University Honors Program and the First-Year Honors Program can be obtained from the Honors Program Office in Jischke Honors Building or on the Honors webpage, www.honors.iastate.edu.

Dual-degree Programs
Students who complete the first three years in certain curricula at Iowa State and who satisfactorily complete the first year in a recognized medical, dental, veterinary medical, or law curriculum may then be awarded a bachelor’s degree from Iowa State. (See Index, Preprofessional Study.)

Iowa Lakeside Laboratory
Iowa Lakeside Laboratory is an off-campus teaching and research facility situated on a 140-acre campus on West Okoboji Lake in Northwest Iowa. It is run cooperatively by Iowa State University, the University of Iowa, the University of Northern Iowa, and Drake University. Each summer Iowa State University students can take up to three undergraduate and/or graduate courses in archaeology, biology, ecology, environmental science, and/or geology for credit at Lakeside (see course listings under Iowa Lakeside Laboratory). All Lakeside courses are small, full-immersion, field-oriented courses that run for 1-4 weeks. Lakeside also offers a variety of short courses for teachers and a series of nontechnical short courses on various aspects of the natural history of Iowa. Information about Lakeside courses as well as registration and housing information can be obtained from the Biology Program Office, 103 Bessey Hall or on the Lakeside Web site, www.continuetolearn.uiowa.edu/lakesidelab.

Regent Universities Student Exchange Program
Iowa State University students may take courses at either of the other two Regent universities for Iowa State resident credit. Regular, degree-bound students in good standing at any of the three Regent universities may attend another Regent university for a maximum of two semesters, and the credits earned at the other university will be counted as resident credit at the home institution. Approval for participation and credit in the exchange program must be obtained well in advance of registration since the department head must approve the acceptance of such credits if these are to apply to the major, and to ensure complete processing of the application between the cooperating universities within specified dates for enrollment. Detailed information and application forms for the exchange program are available from the Office of the Registrar.

National Student Exchange (NSE)
Iowa State University is a member of National Student Exchange. The NSE Consortium has 200 colleges and universities throughout North America providing academic and experiential exchange opportunities. Iowa State students with a cumulative GPA of at least 2.50 are eligible to apply. Credits earned as an NSE participant will be recorded on the students Iowa State transcript. Approval for credit in the NSE program should be sought from a student’s academic adviser in advance of application. Detailed information and applications forms are available from:

Study Abroad
Our planet is in a constant state of change, and occurrences in remote corners of the globe can profoundly impact our lives. It is clear from the effects of global warming, international trade, terrorism, and pandemics of one nature or the other that we cannot ignore what is happening beyond our shores and borders. Students who graduate without an understanding of other cultures, languages, business practices, and political systems are disadvantaged both educationally and professionally. Studying abroad helps prepare students to meet the challenges of an increasingly interdependent global community. Further, study abroad is an adventure that challenges the student academically and provides real opportunities to interact with other cultures, languages, and lifestyles.

As a leading international university, Iowa State has a major commitment to study abroad, and the Study Abroad Center is the central administrative office responsible for providing these opportunities. We offer advising on study abroad, international internships, work, volunteer opportunities, and service-learning, and scholarships. The Center’s library has a fine selection of travel books, information on international careers, cross-cultural orientation, social and business customs around the world, and travel bargains. The International Student Identity Card and passport photographs can also be obtained at the Center.

With over 250 study abroad programs available, from one week to an academic year in length and in nearly every major, students are able to find a program that meets their needs and interests so they can discover for themselves why study abroad is the most exciting academic adventure.

Exchange Programs offer students the opportunity to study abroad at a partner university while paying Iowa State tuition.

Semester in Australia, Canada, Greece, Ireland, Italy, New Zealand, or UK offers unlimited placement opportunities for students to study at some of our most popular destinations for the fall, spring, and in some cases summer.

Intensive Language Programs offer students a total immersion experience in French, German, Russian, or Spanish by studying in Québec, Canada (French), France, Germany, Russia, Mexico, Peru, or Spain. Summer and semester programs are available.

Group Programs led by our faculty offer Iowa State courses around the world. Short-term options can take you from the Antarctic to England and to more than 40 other destinations.

Distance Education

Iowa State University remains true to the land-grant tradition of extending knowledge far beyond campus borders. Faculty members provide cutting-edge information that helps people continue to learn and meet the demands of careers and society. Annually thousands of students enroll in Iowa State courses without setting foot in Ames. In addition to the traditional method of instructors traveling to classrooms off campus, Iowa State University faculty teach distance learning courses online, by video conferencing, streaming media, CD, and on the Iowa Communications Network (ICN).

Courses are the same as those offered on campus, carry residential credit, and are taught by Iowa State faculty. Credit earned becomes a part of the academic record at Iowa State University and may be used to meet degree requirements the same as credit earned on campus.

College distance education staff provides leadership in helping faculty identify the needs of Iowans and methods to reach adult learners. They also help students access services and information at the university.

For a list of courses and programs, visit www.distance.iastate.edu. Information on registering for distance education courses is available from the web site or from the Office of Registrar at 515-294-1889 (8am-4:30pm CT).

Continuing Education and Professional Development

The mission of Continuing Education and Professional Development (CEPD) is to provide high-quality continuing education and lifelong learning opportunities for professional development, personal enrichment, career transitions, and academic growth.

CEPD supports Iowa State University’s outreach mission and to facilitate access to excellence in education for a diverse community of adult learners within Iowa and beyond by utilizing technologies that expand access.

CEPD offers both Continuing Education Units (CEUs) and non-CEU courses, workshops, conferences and other educational activities sponsored by Iowa State University. While these programs do not carry academic credits, they are designed to ensure that a student’s continuing education and professional needs are met.

For a list of courses and programs, or to request specific courses and programs, visit cepd.iastate.edu, or call (515) 294-6222. Information also is available at the Iowa State University Extension offices across the state of Iowa.
Environmental engineering is a rapidly growing field. Graduate courses in the certificate program help practicing professionals update and acquire new skills. The technology-based studies prepare engineers for the challenges posed by an expanding industrial base and help ensure sustainable agricultural practices and quality municipal services.

The curriculum explores the theory of environmental chemistry and biotechnology, methodologies of environmental engineering, and applies conceptual and technical knowledge to real-world applications. The certificate is 12 credits including four courses and a seminar program. Seminar program can be substituted for an approved program of conference attendance and presenting a paper or seminar.

For more information contact:
Hans van Leeuwen, Professor
515-294-5251 or leeuwen@iastate.edu

**Graduate Certificate in Power Systems Engineering**
via streaming media

Iowa State University has a long-standing international reputation for education and research in electric power engineering. The electrical and computer engineering department designed the 12-credit graduate certificate for power engineering specialists in government, private sector, and academia.

Upon completion of the program, power engineering specialists will be proficient in theory and modeling plus have the tools to perform engineering tasks related to planning and operating electric power generation, transmission, and distribution systems, plus knowledge of related public policy.

For more information contact:
James McCalley, Professor
515-294-4844 or jdm@iastate.edu

**Graduate Certificate in Systems Engineering**
via streaming media

Certificate in Systems Engineering: The systems engineering certificate program develops the management capabilities needed in today's work environment. Engineers, regardless of undergraduate discipline, develop the analytical abilities needed to design, evaluate, and build complex systems involving many components and demanding specifications. The certificate is 13 credits consisting of two basic courses in systems engineering, a course in requirements development, a course in project management and a one-credit capstone project.

**College of Liberal Arts and Sciences**

**Master of Public Administration**
Graduate Certificate of Public Management
via web conferencing and streaming media

Prepare for public service leadership in public administration, whether with government, nonprofit agencies, or private organizations working with governments. The public administration programs are designed to prepare or improve the performance level of mid-career public managers and administrators.

Iowa State's Master of Public Administration is accredited by the National Association of Schools of Public Affairs and Administration. This degree program requires 37 credits. Select an area of concentration from e-Government and management of information technology, public management, and policy analysis. The certificate requires 15 graduate credits.

For more information, send an e-mail to mpa@iastate.edu or call (515) 294-3764.
Interdisciplinary - Multiple Colleges

Graduate Certificate in Human Computer Interaction
via streaming media

The accelerating integration of technology into every aspect of society will demand professionals trained with information technology skills that are augmented by an understanding of the human user. These skills will be necessary for any individual to remain competitive in the future information technology workforce. Only those individuals with a unique interdisciplinary perspective will be able to successfully understand, utilize, and apply new technological solutions to solve human-centered problems. Students may take up to 9 credits as non-degree seeking student, so it is possible to begin your studies before formal admittance into the programs.

For more information contact:

Pam Shill at 515-294-2089 or pshill@iastate.edu
Degree Programs Offered through Distance Education

College of Agriculture and Life Sciences

The College of Agriculture and Life Sciences Distance Education at Iowa State University provides the flexibility to enhance your career through online learning. Online courses and graduate programs allow you to remain at your present job and location while continuing your education and advancing in your field. You learn at a premier university from the most respected professors in their field through web-based interaction, streaming media or CD-ROM.

For more information contact College of Agriculture and Life Sciences distance education staff by email at agdehelp@iastate.edu or call (515) 294-7656 or (800) 747-4478.

Master of Agriculture via Web-based interaction and streaming media

The Master of Agriculture with a major in Professional Agriculture is the oldest online degree program in the College of Agriculture and Life Sciences. The goal of this program is to prepare individuals for proactive roles in addressing and responding to personal, professional, and societal issues and challenges in a changing food, agriculture and natural resources system through education and outreach in public and private agencies, and through training and development in business and industry. The intent of the program is to enable individuals to grow and develop as professionals, positioning themselves for emerging opportunities within or outside of their current employment.

This degree is designed primarily for the part-time, off-campus student. Most of the courses are offered via distance education, but students are allowed to take classes on campus. Specialized workshops and short courses are offered on campus during the summer months.

Students are accepted from any part of the United States and Canada. Call (800) 747-4478 to learn more.

For more information contact:
Greg Miller, Professor & Director of Graduate Education
201 Curtiss Hall, Iowa State University, Ames, Iowa 50011
(515) 294-2583 or e-mail: gsmiller@iastate.edu

Master of Science in Agricultural Education via Web-based interaction and streaming media

The Masters of Science in Agricultural Education (online) is a program that can be completed entirely at a distance as there are no required on-campus courses or meetings. The program is designed for agriculture teachers in secondary and post-secondary settings, extension professionals, educators in public and private settings, and agricultural communicators. The flexibility of the program makes it possible for working professionals to obtain a master’s while continuing to meet personal and professional responsibilities.

The curriculum is 30 semester hours and is flexible allowing you to create a program best suited to your needs, interests, and aspirations. You may choose to earn a specialization in agricultural extension education. Fifteen credits of required courses include: Foundations of Agricultural Education (AgEdS 550), Program Development and Evaluation in Agricultural and Extension Education (AgEdS 524), Introduction to Learning Theory in Agricultural Education (AgEdS 533), Instructional Methods for Adult and Higher Education in Agriculture and Natural Resources (AgEdS 520), and Introduction to Research in Agricultural Education (AgEdS 510). The curriculum also includes 13 credits of electives, 2 credits of creative component, and a final oral examination. Up to 8 credits may be transferred from another university. A thesis option is available if you wish to pursue a Ph.D. or a research-oriented career.

Students are accepted from any part of the United States and Canada. Call (800) 747-4478 to learn more about the program.

For more information contact:
Greg Miller, Professor & Director of Graduate Education
Department of Agricultural Education and Studies
201 Curtiss Hall, Iowa State University, Ames, Iowa 50011
(515) 294-2583 or e-mail: gsmiller@iastate.edu

Master of Science in Agronomy via Web-based interaction, streaming media or CD-ROM

Designed for professionals who are working in industry and government. The degree ensures you have an advanced knowledge of agronomic systems and superior problem-solving skills. The program emphasizes practical, professional, and technical skills involved in crop management, soil and water management, and integrated pest management.

The curriculum consists of 12 courses plus a one-credit practicum and a three-credit creative component, for a total of 40 credits. The practicum is the only course that requires attendance on campus—three or four days one summer. The course prerequisites for admission to the program are limited to fundamental agronomy courses, recognizing that many potential students will not have majored in agronomy as undergraduates.

Generally, students who have completed a degree from a College of Agriculture and Life Sciences will meet the requirements. Call (866) MSAGRON (672-4766) to learn more about the program.

For more information contact:
Dawn Miller, Department of Agronomy
2206 Agronomy, Iowa State University, Ames, Iowa 50011
(515) 294-2999 or e-mail: msagron@iastate.edu

Master of Science in Plant Breeding via Web-based interaction, streaming media or CD-ROM

Professionals who would like to advance their careers now have access to the world-renowned plant breeding program at Iowa State University without becoming a resident on-campus student. The Master of Science in Plant Breeding provides the same rigorous curriculum as the resident program, including access to plant breeding faculty within the Department of Agronomy.

Students completing the program will understand not only the fundamentals of plant breeding, but also gain knowledge of advanced concepts such as genomic selection and the challenges facing plant breeders in our global society.

The curriculum consists of 12 courses plus a one-credit practicum and a three-credit creative component, for a total of 40 credits. The one-credit practicum is the only course that requires attendance on campus—four days during one summer. Generally, students who have completed a degree from a College of Agriculture will meet the requirements. Call (866) MSAGRON (672-4766) to learn more about the program.

For more information contact:
Dawn Miller, Department of Agronomy
2206 Agronomy, Iowa State University, Ames, Iowa 50011
(515) 294-2999 or e-mail: msagron@iastate.edu
The mission of Engineering Online Learning (EOL) is to promote and support outstanding online learning experiences for undergraduate students, graduate students and working professionals. Through EOL, the College of Engineering offers a number of different online courses and programs in engineering, science and technology: graduate degrees, graduate certificates, graduate courses, undergraduate courses, and professional development courses for Professional Development Hours (PDHs) or Continuing Education Units (CEUs). Content is delivered via streaming media accessible to anyone with a computer and connection to the internet.

For more information: www.eol.iastate.edu, eol@iastate.edu or call (800) 854-1675.

Masters Degree Program in Civil Engineering with an Emphasis in Construction Engineering and Management
via streaming media

Iowa State’s Construction Engineering and Management program has been recognized by The Associated General Contractors of America; one of only five schools in the U.S. to receive such an honor and to be promoted by the AGC. The program focuses on three components that represent the three functional areas of construction engineering and management: management techniques, construction operations, and construction methods. A thesis or non-thesis option may be selected.

For more information contact:
Charles Jahren, Professor
515-294-3829 or cjahren@iastate.edu

Computer Engineering Master’s Degree
via streaming media

Master of Science
Study topics of emerging research and interest. Areas of emphases include communications and signal processing, computing and networking systems, electric power and energy systems, secure and reliable computing, software systems, and advanced materials and electronics. Each master’s program totals 30 graduate credits; a thesis or non-thesis option may be selected.

Master of Engineering (coursework only)

The Master of Engineering in Computer Engineering degree is designed to assist all individuals who already have a bachelor’s degree in engineering or related areas pursue in-depth study in electrical or computer engineering. With the rapidly changing technological landscape in engineering industries, an advanced degree or continuing education seemingly is becoming increasingly necessary. Our Master of Engineering programs are based on coursework credits only (no thesis or creative component is required).

For more information contact:
Vicky Thorland-Oster, Manager Student Services
515-294-8778 or vthlorl@iastate.edu

Electrical Engineering Master’s Degree
via streaming media

Master of Science
Study topics of emerging research and interest. Areas of emphases include communications and signal processing, electronic power and energy systems, electromagnetics, microwave, and nondestructive evaluation, microelectronics and photonics, systems and controls, and VLSI. Each master’s program totals 30 graduate credits; a thesis or non-thesis option may be selected.

Master of Engineering (coursework only)

The Master of Engineering in Electrical Engineering degree is designed to assist all individuals who already have a bachelor’s degree in engineering or related areas pursue in-depth study in electrical or computer engineering. With the rapidly changing technological landscape in engineering industries, an advanced degree or continuing education seemingly is becoming increasingly necessary. Our Master of Engineering programs are based on coursework credits only (no thesis or creative component is required).

For more information contact:
Vicky Thorland-Oster, Manager Student Services
515-294-8778 or vthlorl@iastate.edu

Industrial Engineering Master’s Degree
via streaming media

Master of Science
The industrial engineering program combines engineering and business considerations. Engineers learn advanced concepts, theories, and methods for the design and analysis of complex systems. The program focuses on fundamental issues that relate directly to the economic health of industry; namely productivity, cost, quality, and lead time. Areas of specialization available by distance learning are applied operations research, enterprise informatics, advanced manufacturing, and ergonomics. The degree is 30 credits of coursework.

Master of Engineering
Upgrade your industrial engineering skills through professional degree program delivered via online education. Designed to help you raise your engineering knowledge and practice to the next level, this program includes coursework that provides both breadth and depth in the industrial engineering discipline. The Master of Industrial Engineering degree requires 30 credit hours of coursework. You can take up to 3 courses before applying for admission to the program.

For more information contact:
Sarah Ryan, Professor and Director of Graduate Education
515-294-4347 or smryan@iastate.edu

Information Assurance Master’s Degree
via streaming media

Master of Science
Work is offered for the degree Master of Science with a major in Information Assurance under a cooperative arrangement with various departments including Electrical and Computer Engineering; Computer Science; Political Science; Logistics, Operations, and Management Information Systems; and Mathematics. Students graduating from the major will help to fill the need for well-educated system security specialists in the government, private sector, and academia. The Masters of Science in Information Assurance consists of a total of 30 credit hours, typically with 18 credits from the core set of courses, 6 credits of research for a master’s degree with thesis or 3 credits of creative component or the capstone course for a master’s degree without thesis. The remaining credits will be taken from a set of elective courses. The Masters of Science degree also requires a final oral exam on your research, creative component, or capstone experience. Students typically are allowed to transfer up to 6 credit hours of non-ISU graduate credit into their degree program.

Master of Engineering (coursework only)

The Masters of Engineering in Information Assurance consists of a total of 30 credit hours, typically with 18 credits from the core set of courses, 6 credits of research for a master’s degree with thesis or 3 credits of creative component or the capstone course for a master’s degree without thesis. The remaining credits will be taken from a set of elective courses.

For more information contact:
Doug Jacobson, Professor
515-294-8307 or doug@iastate.edu

**Mechanical Engineering Master's Degree**
via streaming media

**Master of Science**
The mechanical engineering graduate program offers internationally acclaimed research programs in biological and nanoscale sciences, clean energy technologies, complex fluid systems, design and manufacturing innovation, and simulation and visualization. A student may apply instrumentation design of experiments, and computational methods to any of these areas. The Mater of Science in Mechanical Engineering consists of 30 graduate credit hours, 8 of which may be transfer credits. Students may choose a thesis or non-thesis (creative component) option.

**Master of Engineering**
To complete the Master of Engineering in the Mechanical Engineering program, you need a minimum of 30 credit hours of coursework and up to 15 credits can be taken outside of Mechanical Engineering.

For more information contact:
Pranav Shrotriya, Associate Professor
515-294-9719 or shrotriy@iastate.edu

**Systems Engineering Master's Degree**
via streaming media

**Master of Science**
The systems engineering program develops the management capabilities needed in today’s work environment. Engineers, regardless of undergraduate discipline, develop the analytical abilities needed to design, evaluate, and build complex systems involving many components and demanding specifications. The degree is 30 credits, typically including 24 credits of engineering courses distributed among three broad groups (systems engineering core courses, elective engineering courses, and area of specialization courses), and 6 credits of elective non-engineering courses.

**Master of Engineering**
Students must take six graduate credits in the general area of systems engineering. Elective courses include fifteen graduate credits in advanced engineering. These courses are determined by the student and academic adviser to fit the needs of the individual student’s program. Elective non-engineering courses include six credits outside of the engineering fields that meet individual educational objectives. These might come from business, economics, computer science, mathematics or statistics, among other areas. One additional 3-credit course will be based on the needs of the individual student’s program with guidance from the academic adviser. There is no final oral exam.

For more information contact:
Doug Gemmill, Professor
515-294-8731 or nd2dgl@iastate.edu

**College of Human Sciences**

**Master of Education or Science**
**Principal licensure**
Preparation for Leadership (PreLEAD)
via a combination of methods at various sites around the state with some work online and via the Iowa Communications Network (ICN)

A master’s program of 36 credits leads to licensing as a school administrator. Courses are structured to build leadership skills in organizational processes, scope and framework of schools, and interpersonal dimensions. Students are paired with practicing administrators, experiencing leadership roles firsthand. For more information, send an e-mail to educadmin@iastate.edu or call (515) 294-9734.

**Doctor of Philosophy**
**Superintendent licensure (Certificate of Advanced Studies)**
via a combination including online, the Iowa Communications Network (ICN) and video conferencing

A post master’s program of 30 credits provides training for the school superintendent license. The program emphasizes leadership skills, child and adolescent development, curriculum and instruction, school law and ethics, resource management, community relationships, and data-driven decision making. For more information, send an e-mail to educadmin@iastate.edu or call (515) 294-9734.

**Master of Education with specialization in curriculum and instructional technology**
via blend of online and on campus

Designed to meet the needs of K-12 teachers and other educational practitioners, the three-year program is 32 credits offered in a learning community environment. The program is designed for those who want to earn a master's and are seeking leadership positions for infusing technology into teaching and learning environments. For more information, send an e-mail to citmed@iastate.edu or call (515) 294-5928.

**Master of Family and Consumer Sciences**
online

Delivered off-campus since 1994, the non-thesis master’s is designed for working professionals to enhance skills in a current position and increase chances for promotion. The comprehensive degree requires a minimum of 18-21 credits from two or more family and consumer sciences departments. With electives, the degree program totals 36 credits. For more information, send an e-mail to mfcsinfo@iastate.edu or call (515) 294-0211 or (877) 891-5349.

**Master of Family and Consumer Sciences with specialization in Dietetics**
online

Dietetics is the study of nutrition and how food impacts our health and well-being. Dietitians work in a variety of settings including hospitals, businesses, community health and wellness areas.

The program is inter-institutional and is designed for the Registered Dietitian. Topics include nutrition across the lifespan, nutrigenomics, medical nutrition therapy, business and management, and professional leadership. The 36-credit master’s program includes 15 elective credits to tailor the program. For more information, send an e-mail to mfcsinfo@iastate.edu or call (515) 294-5186 or (877) 891-5349.

**Master of Family and Consumer Sciences with specialization in family financial planning**
Graduate Certificate in Family Financial Planning
online

Financial planners are increasingly in demand as Americans seek help managing their income, assets, and debts. Iowa State joined other universities to create an inter-institutional program. After being admitted to one of the participating universities, students take online courses from all the universities.

Courses cover financial counseling, personal taxation, insurance, retirement planning, and employee benefits. The non-thesis program is 42 credits. The graduate certificate is 18 credits. Completing either the master’s or the certificate meets the educational requirements for the Certified Financial Planner™ examination. For more information, send an e-mail to mfcsinfo@iastate.edu or call (515) 294-2731 or (877) 891-5349.

**Master of Family and Consumer Sciences with specialization in gerontology**
Graduate Certificate in Gerontology
online

Gerontology is the multidisciplinary study of the aging processes and individuals as they grow from middle age through later life. People enter gerontology from many areas such as social work, nursing, counseling, recreation, public policy, long-term care administration, medicine, architecture, psychology, adult education, and rehabilitation therapy.
The program is inter-institutional. Topics include adult development, family relations, economics and public policy, environmental considerations, and health and nutrition. The 36-credit master’s program includes 12 elective credits to tailor the program. The certificate is 21 credits. For more information, send an e-mail to mfcinfo@iastate.edu or call (515) 294-5186 or (877) 891-5349.

**Leadership Academies**

via blend of online and several intensive summer weeks on campus

**Master of Science or Master of Education or Doctor of Philosophy in Family and Consumer Sciences Education**
The leadership academy for a longstanding, prestigious graduate program was begun in 2002. Visiting professors from across North America teach. Either master’s degree is 30 credits. The doctorate is 72 credits. For more information, send an e-mail to las@iastate.edu or call (515) 294-5307 or (877) 891-5349.

**Doctor of Philosophy in Foodservice and Lodging Management**
The Child Nutrition Program Leadership Academy is a new delivery format for the longstanding and prestigious graduate program in Foodservice and Lodging Management (formerly Hotel, Restaurant, and Institution Management). The Leadership Academy is designed to meet the needs of professionals employed in the school foodservice industry. The doctorate is 78 credits; up to 30 credits may be accepted from a master’s degree.

For more information, send an e-mail to jsneed@iastate.edu or call (515) 294-8474.

**College of Business**

**Master of Business Administration in Des Moines**
Students progress through the core curriculum in a cohort, allowing camaraderie with colleagues from a variety of businesses and industries.

The program is 48 credits. The first four semesters help build a strong foundation of core business knowledge; the final four semesters are tailored to academic and career goals.

Students may concentrate on a general management MBA or specialize in finance, information systems, or marketing. A double degree, MBA and Master of Science in Information Systems, is also offered. For more information, send an e-mail to busgrad@iastate.edu or call (515) 294-8118 or (877) 478-4622.

**College of Liberal Arts and Sciences**

**Bachelor of Liberal Studies**
via a combination of distance learning options

The Bachelor of Liberal Studies (BLS) is a general studies degree in the liberal arts. It provides the flexibility to choose courses based on interests and goals. Course work is selected from three of the following five distribution areas: humanities, communications and arts, natural sciences and mathematical disciplines, social sciences, and professional fields.

The BLS degree is offered with similar requirements by all three Iowa public universities, and provides a framework to assemble the educational opportunities locally available. Up to three-fourths of the degree requirements may be transferred from accredited institutions. For more information, send an e-mail to las@iastate.edu or call (515) 294-4831.

**Master of School Mathematics**
via distance learning

This program, administered by the Department of Mathematics, is designed for secondary mathematics teachers. The degree is built on three objectives: enhanced knowledge of algebra, geometry, calculus, statistics, and discrete mathematics; effective strategies for creating a student-centered classroom emphasizing problem solving; and computing technology in learning and teaching mathematics.

The program requires 33 credits and includes a creative component. For more information, send an e-mail to msm@math.iastate.edu or call (515) 294-0393.

**Master of Science in Statistics**
via distance learning

The Department of Statistics offers courses and the degree to employees of companies who sign a letter of agreement with Iowa State. The degree is the same as on campus; the program requirements are the same including the written master’s exam, creative component, and a final oral exam. For more information, send an e-mail to statistics@iastate.edu or call (515) 294-3440.

**Interdisciplinary – Multiple Colleges**

**Graduate Certificate in Biorenewable Resources and Technology**
via streaming media

Through a series of twelve credit hours of graduate coursework, the Biorenewable Resources and Technology certificate will offer students from a wide variety of science and engineering backgrounds an exposure to advanced study in the use of plant- and crop-based resources for the production of biobased products, including fuels, chemicals, materials, and energy. The program aims to train professionals to serve the emerging bioeconomy, and in so doing to serve state, national, and global needs in moving toward a more sustainable industrial economy.

For more information contact:
Jacquelyn Baughman, Professor
515-294-9451 or jacquelyn@iastate.edu

**Master of Science in Human Computer Interaction**
via streaming media

The accelerating integration of technology into every aspect of society will demand professionals trained with information technology skills that are augmented by an understanding of the human user. These skills will be necessary for any individual to remain competitive in the future information technology work force. Only those individuals with a unique interdisciplinary perspective will be able to successfully understand, utilize, and apply new technological solutions to solve human-centered problems. This degree program was created from the growing demand from business and industry for a masters program that provides education in the field of Human Computer Interaction. Students in this program will take a total of 30 course credits, with nine of the credits coming from three core courses and three of these credits from a capstone course. Students will be required to come to campus to present the results of their capstone course.

For more information contact:
Pam Shill at 515-294-2089 or pshill@iastate.edu

**Information Assurance Master's Degree**
via streaming media

**Master of Science in Information Assurance under a cooperative a**

**Master of Science in Interdisciplinary Studies, Community Development specialization**
via Web-based interaction and streaming media

Global economic restructuring and the devolution of government services have created significant challenges for communities, particularly those in rural areas. This specialization in community development provides the skills, information, and networks to facilitate sustainable and prosperous community change. The program is designed for those seeking a career in community development and practitioners who wish to augment their training.

In 2005 Iowa State joined five other universities to offer a master’s in community development. The 36-credit program has three tracks: natural resource management, working with native communities, and building economic capacity.
Coordinated by the College of Agriculture and Life Sciences.

For more information contact:

Cornelia Flora, Professor
107 Curtiss Hall, Iowa State University
Ames, Iowa 50011

(515) 294-1329 or e-mail: cflora@iastate.edu

Master of Science in Seed Technology and Business
via Web-based interaction, streaming media or CD-ROM

The program is specifically oriented to prepare students for management roles. Designed for professionals working in industry and government, the degree ensures an advanced knowledge of seed science, technology and basic business and problem-solving skills. It emphasizes decision making for application to practical and technical issues in all aspects of the seed business.

The curriculum consists of 15 courses and a three or four-credit creative component. The program is a non-thesis degree. The admission requirements are a four year degree in either agriculture or business; graduation in the top quarter of your class; and GRE (Q) 570 or better, GRE (V) 500 or better or GMAT 570 or better. Appropriate four year degrees in biological sciences or related fields may also be accepted.

Coordinated by the College of Agriculture and Life Sciences.

For more information:

Gary Munkvold, Professor
160 Seed Science
Iowa State University
Ames, Iowa 50011
(515) 294-7560 or e-mail: munkvold@iastate.edu
ACCT 215. Legal Environment of Business. (3-0) Cr. 3. F.S.S.S. Prereq: Sophomore classification. General history, structure, and principles of law. The legal system, as an agency of social control; good business practices, and tool for change. The court systems, Constitution, torts, contracts, administrative agencies, and agency law.

ACCT 284. Financial Accounting. (3-0) Cr. 3. F.S.S.S. Prereq: 15 hours of credit at ISU or sophomore standing. Introduction to the basic concepts and procedures of financial accounting from a user perspective. The course examines the accounting cycle, business terminology, basic control procedures, and the preparation and evaluation of financial reports, with an emphasis on financial statement analysis.

A E 170. Engineering Graphics and Introductory Design. (Cross-listed with BSE.) (2-2) Cr. 3. F.S. Prereq. Satisfactory scores in math placement assessments; credit or enrollment in Math 142. Applications of multiple-view drawings and dimensioning. Techniques for visualizing, analyzing, and communicating 3-D geometries. Application of the design process including written and oral reports.

AF AM 201. Introduction to African American Studies. (3-0) Cr. 3. F.S. An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.

AFAS 101. Introductory Leadership Laboratory I. (0-2) Cr. 1. F. Prereq: Membership as a cadet in AFROTC. Instruction on Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers.

SATISFACTORY FAIL ONLY

AFAS 151. Air Force Physical Training. (0-2) Cr. 1. Repeatable term to term. F.S. Prereq: Membership as a cadet in AFROTC. Use of basic military training skills and instruction to develop confidence, leadership, communication skills and physical fitness. The team approach is utilized in the instruction and application of Air Force physical fitness requirements. Students will learn various Air Force physical fitness techniques as well as how to conduct physical fitness sessions. Full participation in all events will be determined based on student’s physical and medical eligibility.

SATISFACTORY FAIL ONLY

AGRON/ENV S/NREM 120. Introduction to Renewable Resources. (Cross-listed with ENV S, NREM.) (3-0) Cr. 3. F.S. Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

Major Teaching Department: NREM

Graduation Messages: Credit for only one of Agron 154, 155, or 156 may be applied toward graduation.

AM IN 210. Introduction to American Indian Studies. (3-0) Cr. 3. F.S.S.S. Introduction to the multidisciplinary aspects of American Indian studies. Topics include literature, the arts, history, anthropology, sociology, education, and contemporary Indian politics. Guest lectures, media presentations, and discussion of assigned readings.

AN S 101. Working with Animals. (1-2) Cr. 2. F.S. A hands-on introductory course in skills for proper care and management of domestic animals. Husbandry skills including health observation, animal movement, identification, management procedures, and environmental assessment are covered.

AN S 114. Survey of the Animal Industry. (2-0) Cr. 2. F.S.S.S. Ways domestic animals serve the basic needs of humans for food, shelter, protection, fuel, and emotional well-being. Terminology, basic structures of the industries surrounding the production, care, and marketing of domestic animals in the U.S.

ANTHR 201. Introduction to Cultural Anthropology. (3-0) Cr. 3. F.S.S.S. Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined.

ANTHR 202. Introduction to Biological Anthropology and Archaeology. (3-0) Cr. 3. F.S. Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.

ANTHR 230. Globalization and the Human Condition. (3-0) Cr. 3. F.S. An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific.

ARCH 221. History of Western Architecture I. (Cross-listed with DSN S.) (3-0) Cr. 3. F.S. Introductory survey with emphasis on the cultural, visual, natural, and constructed context. Ancient through Renaissance.

(ART 292 is now ART H 292)

ART H 292. Introduction to Visual Culture Studies. (Cross-listed with DSN S.) (3-0) Cr. 3. F.S. An introduction to various topics in visual culture studies. The lecture course will provide students with a creative and intellectual context in which to study historical and contemporary instances of the visual in culture. Individual lectures examine significant trends in the visual arts, mass media, scientific imagery, visual communications, and other areas related to visual literacy and visual representation in local and global contexts. Cross cultural viewpoints and issues of diversity will be presented in relation to visual culture and related fields.

ART H 280. History of Art I. (Cross-listed with DSN S.) (3-0) Cr. 3. F. Development of the visual arts of western civilization including painting, sculpture, architecture, and crafts; from prehistoric through Gothic. Topics: H. Honors. Cr. 4.

ASTRO 103. Evening Star. Cr. 1. F.S. An entirely web-based course covering topics in celestial mechanics ("Rocket science") for students with little or no previous experience. It combines the geography of the solar system with discussion of methods of traveling to the other planets. The course "lectures" are on-line, interactive units with built-in exercises, hands-on (offline) activities, and layers of help. Graded homework and quizzes are administered via WebCT.

Graduation Messages: Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 120. The Sky and the Solar System. (3-0) Cr. 3. F.S.S.S. For the nonscientist. The sky: constellations; motions of the sun, moon, and planets; seasons and the calendar; eclipses. The solar system: origin and evolution; characteristics of the sun, planets, satellites, comets, meteorites, and asteroids. Extensive use of the planetarium is included.
Graduation Messages: Students who take Astro 120 may count credit in only one of Astro 102 or 103 toward graduation.

ASTRO 150. Stars, Galaxies, and Cosmology. (3-0) Cr. 3. F.S. For the nonscientist. Observational aspects of stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The Milky Way Galaxy: clouds of matter in space, the structure and evolution of our galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

BBMB 101. Introduction to Biochemistry. (1-0) Cr. 1. F. Research activities, career opportunities in biochemistry and biophysics, and an introduction to the structure of biologically important compounds. For students majoring in biochemistry, agricultural biochemistry or biophysics or considering one of these majors.

BIOL 101. Introductory Biology. (3-0) Cr. 3. F.S.S. Life considered at cellular, organism, and population levels. Function and diversity of the living world. Presentation of basic biological principles as well as topics and issues of current human interest. Intended primarily for nonmajors; available to biology majors for elective credit.

BIOL 110. Introduction to Biology. Cr. 1. F. Orientation to the scope of the biological sciences, and discussion of professional opportunities. Required of first year biology majors.

BIOL 111. Opportunities in Biology. (1-0) Cr. 0.5. S. Introduction to biological science disciplines and professional opportunities through faculty presentations which examine a variety of current research topics.

BIOL 155. Human Biology. (3-0) Cr. 3. F.S. A survey course of human biology, including principal structures and functions of the body systems and the diseases and disorders associated with them. Designed to meet general education requirements in natural science. Not recommended for those seeking a career in the allied health professions or for students majoring in life science.

BIOL 211. Principles of Biology I. (3-0) Cr. 3. F.S. Prereq: High school biology and chemistry or credit or enrollment in Chem 163 or 177. Introduction to the nature of life, including the cellular basis of life; the nature of heredity; evolution; diversity of microbial, plant, and animal life; and principles of ecology. Intended for life science majors. First of core series of required courses for the biology major.

BIOL 211L. Principles of Biology Laboratory I. (0-3) Cr. 1. F.S. Prereq: Credit or enrollment in 211. Laboratory to accompany 211.

BIOL 212. Principles of Biology II. (3-0) Cr. 3. F.S. Prereq: 211. Introduction to the nature of life, including the cellular basis of life; energy relationships; the nature of heredity; evolution; form and function of microbial, plant, and animal life.

BIOL 212L. Principles of Biology Laboratory II. (0-3) Cr. 1. F.S. Prereq: credit or enrollment in 212. Laboratory to accompany 212.

BIOL 255L. Fundamentals of Human Anatomy Laboratory. (0-3) Cr. 1. F. Prereq: Credit or enrollment in 255. Investigation of human anatomy using models and dissections of preserved organs and model mammals. Pre-Medical students should consider 351 for their anatomy background. Not intended for major credit in biology.

BIOL/ENV S 173. Environmental Biology. (Cross-listed with ENV S.) (3-0) Cr. 3. F.S. An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Non-majors only.

C I 204. Social Foundations of American Education. (3-0) Cr. 3. F.S.SS. Goals of schooling, including the roles of teachers today; historical development of schools; educational reforms and alternative forms; and current philosophical issues. Human relations aspects of teaching and discussions about teaching as a career.

CHEM 050. Preparation for College Chemistry. (3-0) Cr. 0. F. Prereq: 1 year high school algebra. An in-depth active learning experience designed to impart the fundamental concepts and principles of chemistry, with an emphasis on mathematics skills and logical thinking. For students intending to enroll in general chemistry and who have not taken high school chemistry or who have not had a high school college preparatory chemistry course.

Graduation Messages: Credit for Chem 50 does not count toward graduation.

CHEM 160. Chemistry in Modern Society. (3-0) Cr. 3. S. Aspects of chemistry visible to a nonscientist in our society. A survey of selected areas of chemistry with emphasis on the interface between chemistry and other fields of human activity.

CHEM 167. General Chemistry for Engineering Students. (4-0) Cr. 4. F.S. Prereq: Math 140 or high school equivalent and 1 year of high school chemistry or Chem 50. Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer.

Graduation Messages: Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 167L. Laboratory in General Chemistry for Engineering. (0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in 167 or 177. Laboratory to accompany 167.

Graduation Messages: Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177. General Chemistry I. (4-0) Cr. 4. F.S.SS. Prereq: Math 140 or high school equivalent, and Chem 50 or 1 year high school chemistry, and credit or enrollment in 177L. Chemistry and biochemistry majors may consider taking 201. The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163-164. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochemistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Credit by examination (test-out exams) for 177 is available only to students who are not currently enrolled in the course.

Graduation Messages: Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 177L. Laboratory in General Chemistry I. (0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 177. Laboratory to accompany 177. 177L must be taken with 177. 177N: For chemistry and biochemistry majors.

Graduation Messages: Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177N. Laboratory in General Chemistry I. (0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 177. For chemistry and biochemistry majors. Laboratory to accompany 177. 177N must be taken with 177.

Graduation Messages: Graduation Messages: Only one of Chem 163L, 167L, and 177N may count toward graduation.
CHEM 178. General Chemistry II. (3-0) Cr. 3. F.S. Prereq: 177, 177L. Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Credit by examination (test-out exams) for 178 is available only to students who are not currently enrolled in the course.

CHEM 178L. Laboratory in College Chemistry II. (0-3) Cr. 1. F.S. Prereq: 177L and credit or enrollment for credit in 178. Laboratory to accompany 178. 178L is not a necessary corequisite with 178

CHEM 201. Advanced General Chemistry. (5-0) Cr. 5. F. Prereq: Math 140 or high school equivalent and one year of high school chemistry. Co-enrollment in 201L. A one semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out.

Graduation Messages: Only one of Chem 163, 167, 177, or 201 may count toward graduation.

CHEM 201L. Laboratory in Advanced General Chemistry. (0-3) Cr. 1. Prereq: Credit or enrollment for credit in 201. Laboratory to accompany 201. Introductory lab experience in synthesis and analysis to prepare student for research activities. 201L must be taken with 201.

Graduation Messages: Only one of 163L, 167L, 177L, 177N or 201L may count toward graduation.

CHEM 211. Quantitative and Environmental Analysis. (2-0) Cr. 2. F.S. Prereq: 163 and 163L, credit or enrollment in 178, or 201 and 201L; and concurrent enrollment in 211L. Theory and practice of elementary volumetric, chromatographic, electrochemical and spectrometric methods of analysis. Chemical equilibrium, sampling, and data evaluation. Emphasis on environmental analytical chemistry; the same methods are widely used in biological and materials sciences as well.

CHEM 211L. Quantitative and Environmental Analysis Laboratory. (0-6) Cr. 2. F.S. Prereq: Credit or enrollment in 163 and 163L, or 178; and concurrent enrollment in Chem 211. Introductory laboratory experience in volumetric, spectrometric, electrochemical and chromatographic methods of chemical analysis.

CHEM 231. Elementary Organic Chemistry. (3-0) Cr. 3. F.S.S.S. Prereq: 163, 163L, or 177, 177L; credit or enrollment in 231L. A survey of modern organic chemistry including nomenclature, structure and bonding, and reactions of hydrocarbons and important classes of natural and synthetic organic compounds. For students desiring only an elementary course in organic chemistry. Students in physical or biological sciences and premedical or preveterinary curricula should take the full year sequence 331 and 332 (with the accompanying laboratories 331L and 332L).

Graduation Messages: Only one of Chem 231 and 331 or BBMB 221 may count toward graduation.

CHEM 231L. Laboratory in Elementary Organic Chemistry. (0-3) Cr. 1. F.S.S.S. Prereq: Credit or enrollment for credit in 231; 163L or 177L. Laboratory to accompany 231. 231L must be taken with 231.

Graduation Messages: Only one of Chem 231L and 331L may count toward graduation.

CHEM 331. Organic Chemistry I. (3-0) Cr. 3. F.S. Prereq: 178 or 201, enrollment in 331L highly recommended. The first half of a two semester sequence. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms. For students majoring in physical and biological sciences, premedical and preveterinary curricula, chemistry and biochemistry. Students desiring only one semester of organic chemistry should take 231 and 231L, not 331.

Graduation Messages: Only one of Chem 231 and 331 may count toward graduation.

Nonmajor Graduate Credit

CHEM 331L. Laboratory in Organic Chemistry I. (0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in 331, 177L. Laboratory to accompany 331. Chemistry and biochemistry majors are encouraged to take 333L.

Graduation Messages: Only one of Chem 231L and 331L may count toward graduation.

CL ST 273. Greek and Roman Mythology. (3-0) Cr. 3. F.S.S.S. Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.

Topics: H. Honors (4-0) Cr. 4.

COM S 103. Computer Applications. Cr. 4. F.S.S.S. Introduction to computer literacy and applications. Applications: Windows, Internet browser/HTML, word processing, spreadsheets, database management and presentation software. Literacy: history of computing, structure of computers, telecommunications, computer ethics, computer crime, and history of programming languages. No prior computer experience necessary. Course is offered online only. Students must attend an orientation session the first week of class.

COM S 104. Introduction to Computers. (1.5-1) Cr. 2. F.S. Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

COM S 107. Applied Computer Programming. (3-0) Cr. 3. F.S. Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

COM S 207. Fundamentals of Computer Programming I. (Cross-listed with MIS.) (3-1) Cr. 3. F.S. Prereq: Math 150 or placement into Math 140/141/142 or higher. An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. Exceptions/error-handling. This course is not designed for computer science, software engineering, and computer engineering majors.

Graduation Messages: Credit may not be applied toward graduation for both Com S 207/MIS 207 and Com S 227.

COM S 227. Introduction to Object-oriented Programming. (3-2) Cr. 4. F.S. An introduction to object-oriented design and programming techniques. Symbolic and numerical computation. Recursion and iteration. Modularity procedural and data abstraction, specifications and subtyping. Object-oriented techniques. Imperative programming. Emphasis on principles of programming and object-oriented design through extensive practice in design, writing, running, debugging, and reasoning about programs. This course is designed for majors.

Graduation Messages: Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228. Introduction to Data Structures. (3-1) Cr. 3. F.S. Prereq: C- or better in 227 credit or enrollment in Math 165. An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism. Abstract data type specification and correctness. Collections and associated algorithms, such as stacks, queues, lists, trees. Searching and sorting algorithms. Graphs. Data on secondary storage. Analysis of algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

COMST 101. Introduction to Communication Studies. (3-0) Cr. 3. An introduction to communication theory, the development and functions of communication, and a survey of interpersonal, small group, organizational, and intercultural communication.
C R P 253. Survey of Community and Regional Planning. (3-0) Cr. 3. F. A historical survey of planning, the nature and problems of urban areas, and the goals, procedures, and results of urban planning.

DANCE 120. Modern Dance I. (0-3) Cr. 1. F.S. Introduction and practice of basic dance concepts, including preparatory techniques and guided creativity problems. No previous modern dance experience required. Satisfactory Fail Only

DANCE 130. Ballet I. (0-3) Cr. 1. F.S. Introduction to the basic skills, vocabulary, and tradition of ballet with concentration on control and proper alignment. No previous ballet experience required. Satisfactory Fail Only

DANCE 140. Jazz I. (0-3) Cr. 1. F.S. Introduction to the modern jazz style with concentration on isolation and syncopation. No previous jazz experience required. Satisfactory Fail Only

DANCE 150. Tap Dance I. (0-3) Cr. 1. F. Instruction and practice in basic tap technique and terminology. No previous tap experience required. Satisfactory Fail Only

DANCE 160. Ballroom Dance I. (0-2) Cr. 1. F.S. Instruction and practice in foxtrot, waltz, swing, cha cha, rhumba, tango, and selected contemporary dances. Satisfactory Fail Only

DANCE 199. Dance Continuum. Cr. 0.5-2. Repeatable, maximum of 6 credits. F.S. Prereq: Permission of instructor. Advance registration required. Continued instruction and practice in either modern dance, recreational dance, ballet, jazz and/or compositional skills. Satisfactory Fail Only

DANCE 270. Dance Appreciation. (3-0) Cr. 3. F.S.SS. Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DSN S 102. Design Studio I. (1-6) Cr. 4. A core design studio course exploring the interaction of two-and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines. Investigation of creative process, visual order and materials, and development of critical thinking through studio projects and lectures. Includes study of precedents, contemporary design practices and disciplines in their cultural contexts.

DSN S 131. Design Representation. (1-6) Cr. 4. An introduction to drawing through lecture and studio experiences. Focus on creative problem solving and communication in order to give visual form to ideas. Emphasis on perceptual, conceptual, and evaluative abilities through experiences that build eye, brain, and hand coordination. Explorations include drawing from observation and memory, working at various scales and duration, and using a variety of media and processes.

DSN S 183. Design Cultures. (3-0) Cr. 3. A broad-based exploration of the dynamic relationship between design and culture, employing case study method to investigate particular examples of cultural production in contemporary society. Design processes and design works are presented as culturally, economically, environmentally, historically, ideologically, politically, and socially grounded events and artifacts.

ECON 235. Introduction to Agricultural Markets. (3-0) Cr. 3. Prereq: 101. Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

ECON 235. Introduction to Agricultural Markets. (3-0) Cr. 3. Prereq: 101. Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

E M 274. Statics of Engineering. (3-0) Cr. 3. F.S.SS. Prereq: Credit or enrollment in Math 166; credit or enrollment in Phys 111 or 221. Vector and scalar treatment of coplanar and noncoplanar force systems. Resultants, equilibrium, friction, centroids, second moments of areas, principal second moments of area, radius of gyration, internal forces, shear and bending moment diagrams. Topics: H. Honors. F.S.

ENGL 150. Critical Thinking and Communication. (3-0) Cr. 3. F.S.SS. Prereq: Credit for or concurrent enrollment in Lib 160. Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

ENGL 201. Introduction to Literature. (3-0) Cr. 3. Prereq: Credit in or exemption from 150. Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL/SP CM 205. Popular Culture Analysis. (Cross-listed with SP CM.) (3-0) Cr. 3. F.S. Prereq: Credit in or exemption from 150. Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

ENGL 207. Introduction to Creative Writing. (3-0) Cr. 3. F.S. Prereq: Credit in or exemption from 150. Course introduces students to the fundamentals of writing fiction, poetry, and creative nonfiction. Extensive readings in all three genres. Students learn creative processes through writing exercises, workshops, and conferences.

ENGL 225. Survey of British Literature to 1800. (3-0) Cr. 3. Prereq: 250. Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 226. Survey of British Literature since 1800. (3-0) Cr. 3. Prereq: 250. Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

ENGL 227. Survey of American Literature to 1865. (3-0) Cr. 3. Prereq: 250. Representative works of American literature from its origins (including indigenous and conquest literatures) through the end of the Civil War in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 228. Survey of American Literature since 1865. (3-0) Cr. 3. Prereq: 250. Representative works written in the United States since the Civil War in historical, cultural, and literary contexts, with attention to the cultural and ethnic diversity of Americans. Will include multiple genres.
ENGL 237. Survey of Film History. (3-0) Cr. 3. F. Prereq: Credit in or exemption from 150. A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 240. Introduction to American Indian Literature. (Cross-listed with AM IN.) (3-0) Cr. 3. F. Prereq: Credit in or exemption from Engl 150. Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.

ENGL 250. Written, Oral, Visual, and Electronic Composition. (3-0) Cr. 3. F.S.SS. Prereq: 150 or exemption from 150; sophomore classification or exemption from 150; credit for or concurrent enrollment in Lib 160. Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of student portfolio.

ENGL 330. Science Fiction. (3-0) Cr. 3. Prereq: 250. Study of science fiction from its origins in nineteenth-century to the present. May include study of specific types of science fiction, such as classic, cyberpunk, feminist, or apocalyptic narratives; and may include consideration of science fiction film and/or theory.

ENGL 330. Science Fiction. (3-0) Cr. 3. Prereq: 250. Study of science fiction from its origins in nineteenth-century to the present. May include study of specific types of science fiction, such as classic, cyberpunk, feminist, or apocalyptic narratives; and may include consideration of science fiction film and/or theory.

ENGR 160. Engineering Problems with Computer Applications Laboratory. (2-2) Cr. 3. F.S.SS. Prereq: Satisfactory scores on mathematics placement examinations; credit or enrollment in Math 142, 165. Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve-fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).

Topics: H. Honors. F.

ENT 201. Introduction to Insects. (1-0) Cr. 1. F.S.SS. 5 weeks. S. Classroom section spring only. World Wide Web section of course offered summer and fall semesters. Biological and ecological aspects of insects.

ENV S/BIOL 201. Introduction to Environmental Issues. (Cross-listed with BIOL, ENSCI.) (2-0) Cr. 2. F.S. Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

FS HN 101. Food and the Consumer. (3-0) Cr. 3. F.S. Prereq: High school biology and chemistry or 3 credits each of biology and chemistry. The food system from point of harvest to the consumption of the food by the consumer. Prioritization of food commodities and regulation against deterioration and microbial contamination. Introduction of foods into the marketplace. Processes for making various foods. Government regulations. Use of food additives. Current and controversial topics. Electronic communication from web emphasized for class reports, notes and assignments.

FS HN 167. Introduction to Human Nutrition. (3-0) Cr. 3. F.S.SS. Prereq: High school biology or 3 credits of biology. Understanding and implementing present day knowledge of nutrition. The role of nutrition and food intake in the health and well being of the individual and family.

GEOL 100. The Earth. (3-0) Cr. 3. F.S.SS. How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in Geol 100L.

GEOL 100L. The Earth: Laboratory. (0-2) Cr. 1. F.S. Prereq: Credit or enrollment in 100. Characterization of rocks and minerals; interpretation of structures and landforms.

GEOL 201. Geology for Engineers and Environmental Scientists. (2-2) Cr. 3. F. Introduction to Earth materials and processes with emphasis on engineering and environmental applications.

H S 105. First Aid and Emergency Care. (1-2) Cr. 2. F.S. Discussion and application of the basic techniques of administering first aid and cardiopulmonary resuscitation. ARC certification available.

H S 110. Personal and Consumer Health. (3-0) Cr. 3. S. Physical, mental, and social aspects of health as a basis for understanding and preventing health problems. False and misleading advertising and effects of cultists and faddists on consumer health. Study of legislation and agencies concerned with consumer protection and health insurance.

H SCI 150. Dialogues on Diversity. (1-0) Cr. 1. F.S. An exploration of diversity within the context of the Iowa State University community through understanding human relations issues.

HD FS 102. Individual and Family Life Development. (3-0) Cr. 3. F.S.SS. Development of individuals, families, and their reciprocal relationships as affected by external factors; examined within a framework of life-span developmental tasks.

HD FS 183. Personal Finance in Early Adulthood. (1-0) Cr. 1. F.S. Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans.

Satisfactory Fail Only
HD FS 239. Housing and Consumer Issues. (3-0) Cr. 3. F.S. Introduction to factors affecting housing consumption of individuals and families, including current housing consumer issues related to housing choices, housing context of neighborhoods and communities, housing structure types, and credit and housing finance. Issues such as homelessness, housing discrimination, indoor air quality, accessible design.

HIST 201. Introduction to Western Civilization I. (3-0) Cr. 3. F. Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.

HIST 207. Chinese Civilization. (3-0) Cr. 3. F. Origins, development, decline and transformation of China from earliest times to present.

HIST 221. Survey of United States History I. (3-0) Cr. 3. F. Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

HIST 280. Introduction to History of Science I. (3-0) Cr. 3. F. Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.

HIST 284. Wonders of the World, Ancient to Early Modern. (3-0) Cr. 3. F. Starting from the classical "Seven Wonders of the World," examines machines, structures, buildings, innovations, and technologies from Sumer, Egypt, Greece, and Rome, through China, Latin America, and the Islamic world, up to Europe's Industrial Revolution. Topics include developments in warfare and weaponry, architecture, agriculture, printing, religious ceremony, entertainment, and major engineering achievements.

HORT 121. Home Horticulture. (2-0) Cr. 2. F.S. Growing plants in and around the home including requirements for growing house plants; plant propagation; designing and maintaining flower, fruit, and vegetable gardens; lawn, tree, and shrub maintenance.

HORT 122. Hands-On Home Horticulture. (1-0) Cr. 1. F.S. Demonstration and activities that illustrate principles of growing plants for the home garden. Topics include plant identification, propagation, selection, and management for indoor and outdoor gardens.

HRI 101. Introduction to the Hospitality Industry. (3-0) Cr. 3. F. Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.

HRI 260. Global Tourism Management. (3-0) Cr. 3. S. Overview of the global tourism industry: hospitality and related services, destination/attractions, and transportation. Introduction to travel behavior, tourism planning and research, and economic and social impacts of tourism development.
www.grad-college.iastate.edu/

David K. Holger, Dean

William R. Graves, Associate Dean

The Graduate College and graduate faculty at Iowa State University are responsible for the quality of graduate education, for administering students’ graduate programs, and for promoting research support from various governmental, industrial, and private agencies.

The graduate faculty in various programs handle admission and classification of graduate students, establish requirements for advanced degrees, and have charge of instruction and research at the graduate level. Graduate faculty members also teach graduate courses, serve on program of study (POS) committees, and direct work of master’s and doctoral students. All graduate courses offered for major or nonmajor credit are taught by graduate faculty members or graduate lecturers.

Graduate study was offered soon after the university was founded, and the first graduate degree was conferred in 1877. Experimentation and research also started early, first in agriculture and shortly thereafter in home economics, engineering, science, and veterinary medicine. In 1913, the graduate faculty was organized formally and an executive graduate committee was appointed. In 1915, the graduate faculty held its first meeting, and in 1918, it granted the first doctor of philosophy degree.

Graduate education is vital to the quality of university teaching. The creative efforts of graduate faculty members and graduate students result in knowledge necessary to help society solve problems in educational, scientific, technological, and socio-economic areas. The Graduate College encourages educational exchange and contact with undergraduate areas of the university to promote improved teaching on both the undergraduate and graduate levels. A part of this exchange is accomplished by the publication of books and technical articles which are made possible by graduate research.

The degrees master of arts, master of science, and doctor of philosophy are research oriented. In many fields master’s degrees are also awarded without a thesis, but a written report of independent study, called a creative component, is generally required. For those individuals interested in advanced study directed toward meeting vocational or professional objectives. Information on other types of Master’s degrees can be found in the Graduate College Handbook, Appendix E, (www.grad-college.iastate.edu/publications/gchandbook/homepage.html)

The Graduate College Handbook lists policies and procedures of the Graduate College. It is available at the Graduate College’s Web site: www.grad-college.iastate.edu/.

Admission

All degree-seeking graduate students must have graduated with a bachelor’s or master’s degree from a regionally accredited U.S. institution or from a recognized foreign institution where the requirements for the bachelor’s degree or its equivalent are similar to those at ISU. Additionally, each applicant must be accepted at ISU by the major program, the Office of Admissions, and the Graduate College. For information concerning graduate study in a particular academic discipline, prospective students should consult the chair of the major program in which they wish to study.

Iowa State University has a shared application process, which means certain items are sent (electronically or in print form) to the Office of Admissions and other items are sent to the graduate program to which the prospective student is applying. Detailed instructions are available at https://www.admissions.iastate.edu/apply/index.php?type=us_grad. Students are also encouraged to check the Program Requirements Web page on the Graduate College Web site at http://www.grad-college.iastate.edu/programs/APprograms.php for mailing instructions and deadlines for each program.

The nonrefundable application fee is $40 ($90 for international applicants). An electronic application is required to apply to ISU’s graduate programs; the form and necessary instructions are available at https://www.admissions.iastate.edu/apply/index.php. The application fee is required of all applicants except those who have attended Iowa State as undergraduates. Iowa State requires official academic records and statements of all degrees earned from all institutions attended since secondary school. Faxed, scanned, and notarized copies are not considered official.

Many programs have very early application deadlines. For more details, check program deadlines at www.grad-college.iastate.edu/programs/APprograms.php.

Categories of Graduate Admission

An applicant pursuing an advanced degree must be recommended by the program in which he/she will be pursuing an advanced degree and must be approved by the Dean of the Graduate College. There are three admission categories for students who wish to pursue an advanced degree:

Full Admission status may be granted to an applicant who either has achieved a grade point average (GPA) of 3.0 or greater (on a 4.0 scale).

Provisional admission status may be granted to applicants who meet the requirements for full admission but have academic or prerequisite deficiencies to remedy. Transfer from provisional admission to full admission status requires the completion of the graduate English requirement, completion of the coursework prescribed to remedy the background deficiencies with a grade average of B or better, and the written recommendation of the major professor and approval by the Dean of the Graduate College.

Restricted admission status may be granted to an applicant who does not satisfy the formal university requirements for full admission status and/or lacks undergraduate preparation in a field related to the graduate field of study. Restricted admission may also be granted to graduates of non-English-speaking foreign institutions, even if the student meets the university requirements for full admission status. Advancement from restricted to full admission status requires completion of 9 semester credits of graduate level course work as a graduate student with a cumulative grade average of B or better and satisfaction of the Graduate College English requirement. A recommendation is submitted in writing to the Graduate College by the major professor and must be approved by the Dean of the Graduate College.

Nondegree Graduate Admission

Otherwise Well-qualified applicants who do not intend to seek an advanced degree from Iowa State University may be considered for nondegree graduate admission. Such students usually include:

1. Those who intend to transfer graduate credit earned at Iowa State University to other institutions.
2. Those who intend to use graduate credits earned for professional certification.
3. Those who enroll for personal satisfaction.
4. Those who enroll occasionally in off-campus graduate courses. The nondegree application form is available from www.admissions.iastate.edu/nonegree/.

Applications and schedules for students with an undeclared major are processed directly by the Office of Admissions and the Graduate College office; no program approvals are generally required. (Applications and schedules for students declaring a major require program evaluation and approval.)

A student without a declared major who subsequently seeks full, provisional, or restricted admission must apply to and be accepted by a graduate program and by the Graduate College for degree study. A
new application, the application fee (unless the student attended Iowa State University as an undergraduate), and transcripts from all colleges attended are required.

For those students originally admitted to the Graduate College on a nondegree basis, no more than 9 semester hours of graduate credit earned under the nondegree option may be applied if the student later chooses to undertake a graduate degree program. The student’s program of study committee will recommend to the Graduate College which courses (if any) taken on a nondegree basis may be included in the degree program.

**Graduate Admission of International Students**

An applicant who is a graduate of a recognized foreign institution is subject to the same criteria for admission as a graduate from an institution in the United States and may be recommended for the same admission categories described above except that of the nondegree option. International applicants for nondegree status may be considered for admission at the discretion of the Graduate College dean. Application and admission deadlines for international students can be obtained from the Admissions web site at www.admissions.iastate.edu/apply/.

International students are required to show evidence of financial support and to carry adequate health and accident insurance while in residence.

**Admission Examinations**

Graduate Record Examination. The Graduate Record Examination (GRE) is not a university-wide requirement for all applicants. However, many programs require or recommend submission of GRE scores; individual program statements at www.grad-college.iastate.edu/programs/APprograms.php should be consulted for this information.

**English Requirements for Non-native Speakers**

Applicants whose native language is not English and who have not earned a bachelor’s or master’s in a country where the official language is English are required to submit Test of English as a Foreign Language (TOEFL) scores as part of the admission process. A minimum score of at least 79 on the TOEFL internet-based test or 550 on the paper-based test is required by the Graduate College. International students may also submit IELTS (International English Language Testing System) scores in lieu of the TOEFL. The ISU Graduate College minimum is 6.5. Because many programs require higher TOEFL and/or IELTS scores, applicants should check directly with the program to which they desire admission or browse the Graduate College Web site at www.grad-college.iastate.edu/programs/APprograms.php.

Graduate students whose native language is not English and who did not graduate from a U.S. institution must take an English Placement Test at the beginning of their first semester of enrollment. This test is administered by the Department of English. A student who does not pass this examination is assigned to one or more courses in the English 99 and 101 series. This course work must be completed during the first year of study. (There is a developmental course fee for the English 99 course.) Non-native English speaking ISU graduate students who meet or exceed the TOEFL scores (640 or above on the paper-based test or 105 on the internet-based test) are exempted from taking the English Placement Test. (Self-enrollment in English 099 or 101 courses remains possible.

A graduate student whose native language is not English but did graduate from a U.S. institution, may bring to the Graduate College the “Request for the Graduate College to Approve the Graduate English Requirement for a Student Whose Native Language is NOT English” form, available from the Graduate College or on the Graduate College’s Web site at www.grad-college.iastate.edu/forms/forms.html. Two conditions must be met: the student must have received a bachelor’s, master’s, or Ph.D degree from a U.S. college or university and the language of instruction at that college or university must have been in English.

New teaching assistants whose native language is not English are evaluated for their ability to communicate effectively in English before their assistantship assignments are made. Tests of oral proficiency and teaching skills (SPEAK and TEACH) are given before the beginning of each semester. Department offices have a schedule of SPEAK/TEACH testing dates, or browse the SPEAK/TEACH Web site. Registration for the test is held in 1116 Pearson Hall the day before the test is administered. TAs and faculty with questions about SPEAK/TEACH testing should call 515-294-1958 or 515-294-7986. A prospective teaching assistant who does not pass these tests is required to successfully complete course work and be retested. University Studies 180 is a series of communication courses designed to help new teaching assistants. Students focus upon pronunciation, listening, question-handling, teaching and lecturing skills, and analyze the culture of U.S. university life. Because enrollment is restricted, TAs cannot register for the courses online through AccessPlus. TAs must go to the SPEAK/TEACH Office, 1116 Pearson by the first or second day of classes to obtain permission to enter the course by completing a course add slip.

**Graduate Appointments**

Graduate assistantships, fellowships, and research grants have been established at Iowa State University to encourage graduate work and to promote research. Such appointments and research opportunities are available through the various departments of instruction and the research centers on campus.

Graduate assistantships, the most common form of graduate student support, are available in three categories: the research assistantship, the teaching assistantship, or the administrative assistantship. A half-time graduate assistantship (20 hours per week) permits the holder to enroll for a maximum of 12 semester credits. Recipients of these assistantships are assessed fees at full Iowa resident rates regardless of the number of credits for which they register. These students may also be eligible for tuition scholarship awards (50% of in-state tuition for most master’s students and 100% of in-state tuition for most Ph.D. students and certain terminal masters students). Students who are graduates of a regionally accredited college or university in the United States or of a recognized institution in another country whose requirements for the bachelor’s degree are substantially equivalent to those of Iowa State University, who are admitted in the full or provisional admissions status, and who present the requisite undergraduate or graduate preparation, may apply for these appointments.

Students registered on a restricted basis or those placed on academic probation are eligible for assistantship appointment only on a term by term basis but are not normally eligible for a graduate tuition scholarship. Students admitted without a declared major are not eligible for assistantship appointments. Further information may be obtained by contacting the appropriate graduate program.

The satisfactory completion of one appointment, plus satisfactory academic performance, will ordinarily make a student eligible for reappointment. After a period of three years of full time study for the master’s degree or five years for the doctorate, the student will not normally be continued on assistantship support (shorter periods may be stipulated by the student’s program or department).

**Postdoctoral Study**

Opportunities are provided for postdoctoral study through the extensive research programs of the university. Inquiries should be directed to the appropriate program, institute, or to the Dean of the Graduate College.

**Graduate Study by Staff Members**

Any full-time member of the research, instructional, or extension staff at the rank of instructor, research associate, or assistant scientist may carry up to six course credits per semester and three credits per summer session, subject to the approval of the head of the program or section, and provided it does not interfere with other duties. This privilege may be extended to members of the research, instructional, or extension staffs at the rank of assistant professor with approval of the college dean
and the Dean of the Graduate College. Staff members at the rank of professor or associate professor cannot become candidates for graduate degrees from ISU.

**Registration**

Graduate students are encouraged to register for courses on the ISU web site (www.iastate.edu) via AccessPlus. Students who are unable or who choose not to register through this system may use a walk-through registration procedure. Students who do not register by the published deadline for initiation of a schedule through the AccessPlus systems must use the walk-through procedure. For complete information on registration, see the ISU Schedule of Classes or the Registration Web site at www.iastate.edu/~registrar/registration/.

**Credit Limits**

Registration is limited to a maximum of 15 credits per semester. Schedules for graduate assistants on one-half time appointments are limited to a maximum of 12 credits. For full-time staff members, the limit is 6 credits. Different credit limits apply during the summer session; see the Graduate College Handbook at www.grad-college.iastate.edu/publications/homepage.html for more details.

**Interim Registration**

Registration for special work between semesters and during certain vacation periods cannot exceed one credit for each week that the student is in residence. For more information, consult the Graduate College Handbook.

**Distance Education**

Iowa State offers many graduate degree and certificate programs off-campus. For a listing of the degree programs, registrations for courses, and more information about distance education, consult the Iowa State University Web site at http://www.distance.iastate.edu/programs/homepage.php.

Other information about graduate requirements is available in the Graduate College Handbook at http://www.grad-college.iastate.edu/publications/gradhandbook/homepage.html.

**Doctoral Post Prelim (formerly Continuous Registration)**

Even when Ph.D. graduate students have completed course work and residency requirements, they are required to register and pay tuition and fees, whether or not university facilities and equipment are used or staff is consulted—either in person or in absentia.

After the preliminary oral examination is passed (with either full or conditional pass) and if university facilities, equipment, and staff time are used, the Ph.D. candidate must register for the appropriate number of credits in the major department or program and pay the appropriate graduate tuition and fees.

After the preliminary oral examination is passed (with either full or conditional pass) and if university facilities, equipment, and staff time are not used, the Ph.D. candidate may register for GR ST 680 Doctoral Post Prelim (Continuous) Registration and pay the Doctoral Post Prelim Registration fee.

The Ph.D. candidate must be aware that registration for GR ST 680 is allowed only after the Ph.D. candidate passes the preliminary oral examination; is required only in the fall and spring semesters, and not during the summer term; is not allowed after the completion of the final oral examination; and is not sufficient registration for the term; the preliminary or final oral examination is taken; and does not defer student loans.

If students take the final examination during the interim between terms (including the first day of classes), registration can be for the term either before or after the examination is held.

---

**Auditing**

Audit registration means taking courses without receiving formal credit. Audit provisions are as follows: Instructors must approve ALL audits; students must register for audits by day 10 of the semester; changes to or from an audit must be made in the first 10 days of the semester; students are assessed tuition and fees as though they were taking the course for credit; and the course DOES NOT count in determining full-time student status.

Audited courses do not appear on the student’s permanent record unless the “Request for Audit(s) to Appear on Transcript” form is completed and signed by the student, course instructor, and major professor. Copies of this form, which are available from the Graduate College or from the Graduate College’s web site at www.grad-college.iastate.edu/forms/forms.html, must be filed with the Graduate College, 1137 Pearson Hall.

After the fifth class day, if a student changes a regular course to an audit, that course will appear on the student’s permanent record as a drop. Audits are not acceptable as registration for loan deferments or meeting visa requirements.

**Graduate Courses Taken by Undergraduates**

Certain graduate level courses listed in the ISU Catalog may be used in the program of study even though they were taken for graduate credit by the student as an undergraduate at Iowa State University.

The following conditions must be met:

1. The POS committee can request approval from the Dean of the Graduate College that up to nine hours of such credit be applied toward meeting advanced degree requirements (these courses must be clearly marked on the POS).
2. Credits earned in these courses must be in addition to those used to meet requirements for the bachelor’s degree and must have grades of B or better.
3. The student must be classified as an undergraduate and not a nondegree undergraduate (credits taken as a nondegree undergraduate student are not allowed).
4. The Graduation Office (10A Enrollment Services Center) should be contacted to determine that the courses were not taken as a nondegree undergraduate student, were not used toward fulfillment of the undergraduate degree program and were graded B or better.

**Undergraduate Admission to Concurrent Graduate Degree/Certificate Programs**

Several programs provide opportunities for qualified ISU juniors and seniors majoring in those curricula to apply for admission to both a bachelor’s and master’s degree.

The graduate degree will be awarded only at the same time as, or after, the undergraduate degree is conferred. For a complete listing of the concurrent degree programs, consult the table, “Concurrent Bachelor and Master Programs” in this section.

Students interested in a research career may apply for graduate research assistantships during their last two years of study. Students should contact the programs listed below about applying early in their undergraduate careers. Undergraduate students seeking admission to concurrent graduate degree programs in field other than these, plus any student with an interdepartmental major, must submit the appropriate concurrent form completed and a written proposal for an individualized program, cosigned by their advisers, to the Graduate College for review and approval. For more information about the application process and transferring credits, consult the Graduate College Handbook.
Veterinary Medicine Students in Concurrent Graduate Degree/Certificate Programs

Students may be concurrently enrolled in the professional curriculum leading to the D.V.M. degree and in a graduate program leading to the M.S. or Ph.D. degree after completion of 90 semester credits. The graduate program may be in the College of Veterinary Medicine or in another college.

Interested students must complete an "Application for an ISU student Wishing to Pursue Concurrent Graduate Degree/Certificate Veterinary Medicine Degree" form available on the web site at www.grad-college.iastate.edu/forms/forms.html, submit the form with appropriate transcripts and letters of recommendation to the program.

Signed approvals on the concurrent form are required from the graduate program, the College of Veterinary Medicine, and the Graduate College. On admittance, the student receives an admission notification from the Office of Admissions. For more information see the Graduate College Handbook.

Graduate Students in Concurrent Undergraduate Programs

Graduate students interested in enrolling in a concurrent undergraduate program should contact the Office of Admissions (100 Enrollment Services Center) to obtain admission information (even if the student has been previously admitted as an undergraduate). An "Application for Graduate Student Wishing to Pursue a Concurrent Undergraduate Degree" form should be obtained from the Graduate College Web site at www.grad-college.iastate.edu/forms/forms.html and circulated for the appropriate approvals. The student must be formally admitted both as a graduate student and as an undergraduate student. Official enrollment and fee payment will be as a graduate student. Credits transferred from a graduate student and as an undergraduate student. Official enrollment and fee payment will be as a graduate student. Credits transferred from a graduate student and as an undergraduate student. Official enrollment and fee payment will be as a graduate student. Credits transferred from a graduate student.

Courses Taken as a Nondegree Undergraduate Student

A person classified as a “nondegree undergraduate” student may not use courses taken under that status in a graduate degree program. A student who has received the baccalaureate degree must register as a graduate student if he/she is to receive graduate credit for courses.

Grading

Grades are the permanent official record of a student’s academic performance. Iowa State uses A through F grading for most courses. S, P, and NP grades are given in some courses. The standard four-point scale is used to calculate a grade point average.

Grade Point Average (GPA)

All courses (even if they are undergraduate courses) taken as a graduate student will be calculated into the graduate GPA. The GPA is determined by dividing the number of grade points earned by the total number of ISU cumulative hours. The grade given when an incomplete (I) is resolved is figured into the cumulative grade point average, but not into a particular semester's average. Marks of I, S, P, NP, T, and X are not counted in the grade point average; a mark of F (even if taken S/F) is counted in the grade point average. Creative Component/Research (599 and 699) credits are not used in the calculation of the GPA. In the case of repeated courses, only the grade achieved the last time the course is taken is used in computing the grade point average. (However, grades in courses that are noted as repeatable courses in the catalog, such as certain repeatable seminars, will all be used in calculating the grade point average.)

Grading and Creative Component Credits

Creative Component/Research credits may be graded as A, B, C, D, I, S, or F. Plus and minus grades are optional. These credits are not calculated in a student’s GPA.

Pass (P)/Not Pass (NP) Course Credit

Pass/Not Pass courses are those that a student, with the approval of the major professor, may take for personal enrichment, but not for satisfying prerequisites or deficiencies in the undergraduate background. P/NP marks may not be used in a POS, nor do P/NP marks contribute to the student’s GPA. Full credit for P/NP courses is used in calculating tuition assessment and credit load limitations. For more information, see the Graduate College Handbook.
Satisfactory/Fail (S/F) Grading
S/F grading is not the same as P/NP grading. S/F grading is by instructor option; all students in a particular course receive S/F grading. P/NP grading is generally a student option. A P mark is equivalent to at least a D- grade whereas an S mark is equivalent to at least a B grade at the graduate level. No special registration procedures are required for S/F grading. An S mark in a course taken S/F is not counted in the grade point average, but an F mark in a course taken S/F is counted in the grade point average and is equivalent to an F in a regularly graded (A-F) course. No more than 20 percent of the total credits (excluding creative component, thesis or dissertation research) in the program of study may be earned on an S/F basis.

S/F grading may be used only for approved courses offered as seminars, symposia, workshops, special topics, and research. Programs must submit requests for S/F grading to the Dean of the Graduate College. The Graduate College Curriculum and Catalog Committee reviews and approves or rejects all S/F courses.

Grievances about Grades
A graduate student who feels that a course grade has been unjustly assigned, and whose attempts to resolve the matter with the instructor have failed, may appeal through the grievance procedures described in the Graduate College Handbook.

Probation
If a graduate student does not maintain a cumulative 3.0 grade point average on all course work taken, exclusive of research credit, he or she may be placed on academic probation by the Dean of the Graduate College. Grades earned by graduate students in undergraduate courses are included in the calculation of the grade point average. Academic probation judgments are made on the basis of grades in course work only. New, first-term graduate students who fall below a 3.0 GPA at the end of their first semester will be given a one term grace period to bring their grades back to a 3.0 GPA. These students will receive a warning letter from the Graduate College.

While on academic probation a student will not be admitted to candidacy for a degree and if appointed to a graduate assistantship, the student will not receive a Graduate tuition scholarship unless approval is given by the student’s academic college. If a student is to qualify for a tuition scholarship, he/she must be removed from probation by the tenth class day of the term.

To ensure that registration does not take place without a review by the program, the Graduate College places a hold on future registrations by a student on probation. Before the student registers for each term, the program must review his or her record and recommend in writing if the Graduate College should permit further registration. Before graduation is approved, the student must complete all courses listed on the program of study with a minimum grade of C and have achieved a 3.0 GPA or greater.

Master’s Degrees
General requirements for all master’s degrees are as follows:

General Requirements
The Graduate College Handbook outlines the general requirements for completion of a graduate degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the master’s programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student’s program of study (POS) committee beyond those listed in the Graduate College Handbook as deemed appropriate to the goals of the major program.

Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

Appointment of the Student’s Program of Study (POS) Committee
New graduate students at ISU may be assigned a temporary academic adviser by the major program in the first semester of the student’s residence. This faculty member guides the student in selection of a field of study and in development of a graduate program of study until the major professor and POS committee are selected. After the POS committee has been selected, it guides and evaluates the student during the remainder of graduate study.

A master’s POS committee consists of at least three members of the graduate faculty. It must include two members, including the major professor, from the major or program. The committee must include member(s) from different fields of emphasis so as to ensure diversity of perspectives. A term member of the graduate faculty may participate in the direction of a student’s master’s research as a co-major professor if a member of the graduate faculty serves as a co-major professor and jointly accepts responsibility for the direction of a program of study. For more information on duties and makeup of the committee as well as changes to the committee makeup, see the Graduate College Handbook.

Program of Study. The student and major professor develop the program of study with the consultation and approval of the POS committee. This agreement between the student and the Graduate College should be submitted as early as possible for approval. It is recommended that the committee be formed and the POS form submitted as early as the second semester of graduate study. In no case can the committee be formed later than the term before the final oral examination.

Residency. There is no on-campus residency requirement for the master’s degree.

Credits. Unless otherwise noted, at least 30 credits of acceptable graduate work must be completed in all master’s programs. At least 22 graduate credits must be earned from Iowa State University unless noted in the descriptions under “Specific Master’s Degrees” in this catalog.

Transfer Credits. At the discretion of the POS committee, and with the approval of the program and the Graduate College, graduate credits earned as a graduate student at another institution or through a distance education program offered by another institution may be transferred if the grade was B or better. Such courses must have been acceptable toward an advanced degree at that institution and must have been taught by individuals having graduate faculty status at the institution. If a student wishes to transfer credits from graduate courses taken at or through another university as an undergraduate student, it is the student’s responsibility to provide verification by letter from that institution that these graduate courses were not used to satisfy undergraduate requirements for a degree.

A transcript must accompany the POS in order to transfer credits. The POS committee may ask for other materials, such as a course outline or accreditation of the institution, to evaluate the course. Transfer courses not completed when the POS is submitted must be completed before the term in which the student graduates. A transcript must then be submitted for review and final approval.

Research credits earned at another institution are generally not transferred. In rare circumstances, the transfer of S or P marks may be accepted for research credits only. It is the responsibility of the POS committee to obtain a letter from the responsible faculty member at the other institution stating that research credits recommended for transfer with S or P marks are considered to be worthy of a B grade or better. Audits may be listed on the program of study, but do not carry credit.

Major. A major is an approved area of study leading to a graduate degree. The exact number of credits in a major is not prescribed.
Curriculum Change from Active Graduate to Active Undergraduate Status

Individuals who are in good standing in the Graduate College and who wish to transfer to an undergraduate curriculum must contact the graduate classification officer (1137 Pearson Hall). The classification officer will consult with the student and determine the proper course of action.

Curriculum Change from Inactive Graduate to Active Undergraduate Status

Individuals who were admitted to the Graduate College more than one year previous and who do not have active graduate status but who wish to change their status from inactive graduate to active undergraduate, must follow the same procedures required of reentering undergraduate students and must begin the process by filing a completed “Undergraduate Reentry” form with the Office of the Registrar. When considering reinstatement, the undergraduate college may consider the student’s overall fitness for continued studies including information about the student’s conduct, employment and education since the student’s last enrollment.

Individuals who do not have active graduate status and who first enrolled less than one year previous should first see the classification officer in the Graduate College.

Time Limits. It is expected that work for the master’s degree shall be completed within five years. In special circumstances the student’s POS committee may recommend that the Dean of the Graduate College extend these degree time limits. Cases in which the student leaves Iowa State during his or her graduate career and later returns are dealt with individually by the student’s POS committee and the Graduate College. The action in the student’s program of study of course work that is beyond the time limits (“over-age” courses) must be justified by the POS committee in a statement accompanying the submission of the program of study.

Application for Graduation. Students planning to graduate must submit an “Application for Graduation” form (diploma slip) to the Graduate Office by the end of the first week of the semester (fall or spring) in which he/she expects to receive the degree, or by the last day of spring semester when wishing to graduate during summer.

Before submitting this form, a student must have submitted and had approved by the Graduate College a “Recommendation for Committee Appointment” form and a “Program of Study” form. Also the student must have been fully admitted to a program and have met the Graduate English requirement if he/she is a non-native English speaker. Graduation may be delayed if the “Application for Graduation” form filing deadline is not met. If it becomes apparent that a student cannot graduate during the indicated term, he/she should call the Graduate College (515-294-4531) and cancel the previously submitted “Application for Graduation” form. The student must then file a new form for the next planned term of graduation.

Thesis. A master’s thesis is a scholarly composition that demonstrates the ability of the author to do independent and creative work. A thesis is required in all fields in which a master’s degree is awarded, except where specific provision is made for a nonthesis degree program. A minimum of three research credits is required on every program of study for a thesis master’s degree.

Responsibility for writing and editing of the thesis rests with the student, under the supervision of the major professor, and not with the Graduate College. The Graduate College does not permit joint authorship under the supervision of the major professor, and not with the Graduate College. Before submitting this form, a student must have submitted and had approved by the Graduate College a “Recommendation for Committee Appointment” form and a “Program of Study” form. Also the student must have been fully admitted to a program and have met the Graduate English requirement if he/she is a non-native English speaker. Graduation may be delayed if the “Application for Graduation” form filing deadline is not met. If it becomes apparent that a student cannot graduate during the indicated term, he/she should call the Graduate College (515-294-4531) and cancel the previously submitted “Application for Graduation” form. The student must then file a new form for the next planned term of graduation.

Copies of the thesis must be submitted to the members of the POS committee at least two weeks before the final oral examination.

All theses and dissertations will be submitted electronically after the final oral examination is held. Please browse the Graduate College’s web site (http://www.grad-college.iastate.edu/thesis/homepage.html) for requirements, revised fees, and other pertinent information.

Shorty after the submission of the “Application for Graduation” form, a one-time, nonrefundable thesis fee is billed by the university accounting system. In addition, a graduation fee will be assessed by the Registrar’s Office. This fee is nonrefundable if a student does not cancel his/her graduation by the Graduate College’s cancellation deadline.

Creative Component. Most nonthesis students must present substantial evidence of individual accomplishment (e.g., a special report, capstone course, integrated field experience, annotated bibliography, research project, design, or other creative endeavor). A minimum of two credits of such independent work is required on those programs of study for a nonthesis master’s degree. Some programs require more credits. (For more information, contact the individual program or consult the Specific Master’s Degrees section in this catalog.) The element of creative independent study must be explicitly identified on the program of study. The format of the creative component is determined in cooperation with
the POS committee. As with a thesis, a creative component should be submitted to members of the POS committee two weeks before the final oral examination. However, no final submission of a creative component is turned in to the Graduate College for review and approval.

Final Oral Examination. Most master’s candidates must pass final oral examinations. The final oral examination must be held by the final examination deadline date for the semester in which the degree is granted. All coursework in the program of study must either be completed or in progress before the final examination can be scheduled. This examination is oral; it may also include a written component if specified by the student’s (POS) committee.

Graduate students must register at Iowa State for the equivalent of two credits, or for the R-credit course GR ST 600 Examination Only if no course work is needed, during the semester in which the final examination is taken. (Graduate students who are not required to take a final oral examination should complete all required coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.) Taking only an R-credit course where the fee is not equivalent to the 2-credit minimum charge is not acceptable for the term of the final oral examination. If the examination is taken during the interim between terms (including the first day of classes), registration can be for either the term before or the term after the examination is held. The candidate is responsible for initiating the “Request for Final Oral Examination” form, which must be submitted to the Graduate College at least three weeks before the examination. This form can be obtained only from the student’s program/department. The entire POS committee must be convened for the final oral examination. For more information on the final oral examination, see the Graduate College Handbook.

Graduate Student Approval Slip for Graduation. Every candidate for an advanced degree is required to complete a “Graduate Student Approval Slip for Graduation” form. It is sent to the major professor or program to give to the student after the “Request for Final Examination” form is received and approved by the Graduate College. Signatures are required by the major program, the Graduate College Thesis specialist (for those completing a thesis), and the Graduate College. Final clearance of academic requirements will be made when current term grades have been submitted and evaluated by the Graduate College.

All incompletes from previous terms must be completed by the deadline for completion of the Graduate Student Approval Slip. An incomplete or non-report grade that a student receives for the term of graduation will result in removal from that term’s graduation list. The student will need to complete a new Application for Graduation and Graduate Student Approval Slip for the new term of graduation. If a conditional pass was recommended at the final oral examination, the major professor and the committee members, if so specified, must notify the Graduate College in writing no later than the due date for the Graduate Student Approval Slip the term of graduation that the conditions have been met.

Specific Master’s Degrees
The number of credits in a major for a master’s degree will vary according to the degrees listed below. General credit requirements for all master’s degrees include: a minimum of 30 graduate credits is required for all master’s programs at ISU; at least 22 graduate credits must be earned at ISU unless noted in descriptions; any transfer of graduate credits from another institution must be recommended in the program of study by the POS committee; and graduate credit earned as a graduate student will be approved for transfer only if a B grade or better was earned. A transcript must accompany the POS form.

Master of Arts or Master of Science—Thesis
At least 30 credits of acceptable graduate work must be completed, not less than 22 of which must be earned from ISU. Students are expected to research and write a thesis that demonstrates independent and creative work. A minimum of 3 semester credits is required for thesis research.

Master of Arts or Master of Science—Nonthesis
In certain programs a nonthesis degree program is offered. (For more information on requirements, contact the individual program or department.) This option requires the satisfactory completion of at least 30 graduate credit hours of acceptable work (not including research credit), not less than 22 credits of which must be earned from Iowa State University, and satisfactory completion of a comprehensive final oral examination. In addition, every nonthesis master’s program must present substantial evidence of individual accomplishment (e.g., a special report, capstone course, integrated field experience, annotated bibliography, or other creative endeavor). A minimum of two semester hours of independent work (referred to as the creative component) is required on every program of study for a nonthesis master’s degree and is applied toward the credit-hour requirement. This element of creative independent study must be explicitly identified on the program of study. Detailed requirements may vary with fields. Reference should be made to the Courses and Programs section in this catalog.

Master of Accounting
The Department of Accounting offers a 30-credit Master of Accounting graduate degree. The program requires 15 credits of graduate accounting courses, at least 9 credits of non-accounting graduate electives, a communications course, an international course from an approved list, and an optional creative component. At least 22 graduate credits must be earned at ISU. The degree is appropriate for any student wanting to pursue a variety of accounting careers. Additionally, the program is designed to help interested candidates meet the 150-hour education requirement for the CPA certification in Iowa. Since no final oral examination is required in the above professional program and its options, students should complete all coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.

Master of Agriculture
The major in professional agriculture is an off-campus, nonthesis program leading to the master of agriculture degree. It is available to students wishing to pursue graduate study in agriculture without taking formal coursework on campus. The program is considered to be a terminal master’s degree. Students are required to take a minimum of two courses in each of three disciplines and complete 28 semester credits of formal coursework and four credits of creative component experience, resulting in a total of 32 graduate credits of coursework. At least 22 graduate credits must be earned at ISU. Courses are delivered via videotapes, interactive video, world-wide web, on-and off-campus classes and workshops. Specific courses offered in the program and the location of the off-campus classes may be obtained from the departmental course listings, off-campus course catalog, or by contacting the Professional Agriculture Coordinator, 201 Curtiss Hall.

Master of Architecture
The Department of Architecture offers three master programs: M Arch I, M Arch II and M S A S. M Arch I (100 credits) is a non-thesis accredited professional degree in architecture. Students with an undergraduate degree other than architecture enroll in a 100-credit, seven semester program. Students with a B.A. or B.S. in architecture or other affiliated design fields are considered for advanced standing based on a review of their academic record. Students with advanced standing typically enroll for four semesters. Since no final oral examination is required in the M Arch I program, students should complete all coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.

The M Arch II (30 credits) is a post-professional degree in architecture with a required graduate thesis. Students with a B Arch, M Arch I or equivalent professional degree in architecture or other affiliated design fields may apply for this degree.

The M S A S (30 credits) is an interdisciplinary research degree in architecture with a required graduate thesis. This degree is for students with bachelor degrees in various fields that are interested in conducting graduate-level research on the built environment. At least 22 graduate credits must be earned at ISU for all the above programs.
Since no final oral examination is required in the above professional program and its options, students should complete all coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.

The M.Arch. II (30-credit) option is for students with a B.A. or B.S. in a 4-year degree program in architecture or a M.Arch.I degree. These students must complete a thesis. At least 22 graduate credits must be earned at ISU for all the above options.

**Master of Arts in Teaching**

This is a degree leading to teacher licensure. A range of graduate credits are required depending on the program offering the degree. The student must also demonstrate an ability to perform independent study through the completion of a creative component or thesis. At least 22 graduate credit hours must be earned at ISU.

**Master of Business Administration**

The College of Business offers a 48 graduate credit-hour program leading to a nonthesis master of business administration degree.

At least 22 graduate credits must be earned at ISU. Students may select courses in the traditional business disciplines or choose areas of specialization in accounting, agribusiness, family financial planning, information systems, international business, marketing, and supply chain management.

Since no final oral examination is required, M.B.A. students should complete all required coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.

**Master of Community and Regional Planning**

The master of community and regional planning degree requires a minimum of 48 graduate semester credit hours. At least 22 graduate credits must be earned at ISU. This degree is available as a thesis or nonthesis option.

**Master of Education**

For the master of education degree, a range of 30 to 40 graduate credits are required. At least 22 graduate credits must be earned at ISU. The student demonstrates an ability to perform independent study through the completion of a creative component or a field-based activity.

**Master of Engineering**

The academic standards and the general level of attainment are the same for the master of engineering and master of science degrees. Master of engineering programs are offered to meet the needs for professionally oriented programs on campus and for off-campus professionally oriented programs at locations with adequate library and laboratory facilities. An appropriate number of graduate credits in design, laboratory work, computation, or independent study is required as evidence of individual accomplishment. Of the minimum 30 graduate credits requirement, 22 graduate credit hours must be earned at ISU. For those Master of Engineering programs that do not require a final oral examination, students must complete all coursework on the POS prior to or during the term of graduation. Any transfer credits must be completed the term before the graduation term and follow normal transfer rules.

**Master of Family and Consumer Sciences**

The College of Human Sciences offers two nonthesis options leading to the degree master of family and consumer sciences. Both options are designed to enhance the skills of those holding the bachelor’s degree so that they may meet the requirements of their present jobs or progress in their careers. The comprehensive option can be followed on- or off-campus and requires 36 graduate credits covering a variety of family and consumer sciences subject matter. The specialization option requires 36 credits and is offered on-campus from the following departments and programs: Dietetics, Family Financial Planning, Foodservice and Lodging Management, Gerontology, Human Development and Family Studies, Nutritional Sciences, and Textiles and Clothing. At least 22 graduate credits must be earned at ISU. Both options require a written and oral integrative final exam.

**Master of Fine Arts**

For this degree a minimum of 54-61 graduate credits is required, including the completion of a thesis-exhibition or a thesis. At least 22 graduate credits must be earned at ISU.

**Master of Industrial Design**

The Master of Industrial Design is a terminal degree that requires a minimum of 63 credits, including satisfactory completion of 6 credits for a thesis.

**Master of Landscape Architecture**

The master of landscape architecture degree requires a minimum of 36 graduate credits and the satisfactory completion of a thesis or a creative component. At least 22 graduate credits must be earned at ISU.

**Master of Public Administration**

This is a professional degree program designed to provide training necessary for an administrator in a public or quasi-public bureaucracy. The MPA degree requires 37 graduate credit hours, which includes:

- 12 credit hours in Core Competency
- 12 credit hours in one of the Concentration areas
- 4 credit hours in other required courses
- up to 7 credit hours of electives
- 3 credit hours of Creative Component (a Capstone Project) or a minimum of 3 credit hours of research (thesis)

Pre-service students are encouraged to obtain an internship for 3 credit hours. At least 22 graduate credits must be earned at ISU.

**Master of School Mathematics**

This degree is designed primarily for in-service secondary mathematics teachers. Its prescribed program of study requires 33 graduate credits, two of which come from the writing of an approved creative component, 15 from courses offered for graduate credit, and 13 from courses offered for nonmajor graduate credit. At least 22 credit hours must be earned at ISU.

**Master’s Double Degree Programs**

A double degree requires fulfillment of the requirements for two graduate majors for which two differently named master’s degrees and two diplomas are granted at the same time. For double degrees the final project (thesis or creative component) must integrate subject areas from both departments. One final oral examination must be held covering the combined thesis or creative component. Students planning to pursue double degrees must complete a double degree request form and submit it to the Dean of Graduate College for approval. Just one “Recommendation for Committee Appointment” form and one “Program of Study (POS)” form need to be submitted for the two degrees. However, two “Application for Graduation” forms, one for each degree, will need to be submitted. All forms should show clearly that the student is enrolled in a double-degree program.

Like other master’s programs, three graduate faculty members can constitute a POS committee; however, POS committees for double degrees must include co-major professors from each of the majors. Although specific degree programs may require more, the program of study must include at least 44 hours of non-overlapping credit (22 for each major) in the two degrees.

Several such combinations are currently available:

- Master of Architecture/Master of Business Administration
- Master of Architecture/ Master of Community and Regional Planning
- Master of Community and Regional Planning/Master of Business Administration
- Master of Landscape Architecture/Master of Community and Regional Planning
- Master of Public Administration/Master of Community and Regional Planning
- Master of Public Administration/Master of Science in Information Assurance
- Master of Science in Statistics/Master of Business Administration
• Master of Science in Information Systems/Master of Business Administration
• Master of Community and Regional Planning/Master of Science in Sustainable Agriculture.

If a student outside one of the named areas is interested in an individually-developed double degree program, a written proposal for a double degree to serve those interests and needs must be submitted to the Dean of the Graduate College for review. See the Graduate College Handbook for more information.

**Dakota University Law School/Iowa State University Combined Degree**

To provide training in the complementary fields of law, political science, and economics with a minimum amount of academic duplication, special arrangements for combined degree programs have been approved with the Drake University Law School. ISU and Drake offer a combined J.D.-M.A. in political science and J.D.-Ph.D. in economics. Drake Law School students are permitted to transfer the equivalent of nine semester credits of specified law courses to ISU for nonmajor graduate credit. Because of the difference in grading systems, the Law School grades are transferred as passes, provided the student has achieved a grade of C or better in those courses at Drake for the political science program or a grade of B or better for the economics program.

Applicants for either of the combined programs must meet the regular entrance requirements of, and be admitted to, both the Drake Law School and the ISU Graduate College.

**Doctor of Philosophy**

**General Requirements**

The degree doctor of philosophy is strongly research oriented. The primary requirements for the degree are:

• high attainment and proficiency of the candidate in his or her chosen field
• development of a dissertation which is a significant contribution to knowledge and which shows independent and creative thought and work
• successful passing of detailed examinations over the field of the candidate’s major work, with a satisfactory showing of preparation in related courses. General requirements for Ph.D. candidates follow.

The Graduate College Handbook outlines the general requirements for completion of a graduate degree at ISU. Faculty in a major field have the responsibility for establishing educational objectives for their graduate program, including specific course requirements and research requirements appropriate to the master’s or Ph.D. programs in the major. These requirements may place additional responsibilities on the student, the major professor, or the student’s program of study (POS) committee beyond those listed in the Graduate College Handbook as deemed appropriate to the goals of the major program.

Faculty and graduate students are active participants in the academic programs of Iowa State University. As active participants, they have a collective impact on the success of those programs and of the university in fulfilling its mission. Each graduate program is encouraged to implement a mechanism for responding to feedback from graduate students as a valuable resource for continuing improvement.

**Appointment of the Student’s Program of Study (POS) Committee**

The POS committee for a doctoral program consists of at least five members of the graduate faculty. It must include at least three members, including the major professor, from within the student’s major or program. The committee must include member(s) from different fields of emphasis so as to ensure diversity of perspectives. A term member of the graduate faculty may participate in the direction of a student’s dissertation research as a co-major professor if a member of the graduate faculty serves as a co-major professor and jointly accepts responsibility for direction of the dissertation.

**Changes to POS committee**

Recommendations for changes in the POS committee must have the approval of the student, major professor, DOGE, and all committee members involved in the change (committee members who are on Faculty Professional Development Assignments, retired, or resigned do not have to sign) before seeking approval of the Graduate College. A form to seek approval is available in program offices or on the web at www.grad-college.iastate.edu/forms/forms.html. These changes must be approved by the Dean of the Graduate College before the preliminary or final oral examination is held. For more information on changes to the committee and to the Program of Study, see the Graduate College Handbook.

**Program of Study**

The student and the major professor develop the program of study with the consultation and approval of the POS committee. Early selection of a major professor, appointment of a POS committee, and development of a program of study are very important. It is recommended that the committee be formed as early as the second semester of graduate study. In no case can the committee be formed later than the term before the preliminary oral examination.

**Credits**

A minimum of 72 graduate credits must be earned for a Ph.D. degree. At least 36 graduate credits, including all dissertation research credits, must be earned at Iowa State University. At least 24 of these credits must be earned during two consecutive semesters or during a continuous period including two semesters and a summer session while in residence at the university. (This requirement does not apply to doctoral students who are employed more than half time at ISU). There is no specific university requirement regarding the number of credits to be taken inside or outside the major/program.

**Transfer Credits**

At the discretion of the POS committee, and with the approval of the program and the Graduate College, graduate credits earned as a graduate student at another institution or through a distance education program offered by another institution may be transferred if the grade was B or better. Such courses must have been acceptable toward an advanced degree at that institution and must have been taught by individuals having graduate faculty status at that institution. If a student wishes to transfer credits from graduate courses taken at or through another university as an undergraduate student, it is that student’s responsibility to provide verification by letter from that institution that those graduate courses were not taken to satisfy undergraduate requirements for a degree.

A transcript must accompany the POS in order to transfer credits. The POS committee may ask for other materials, such as a course outline or accreditation of the institution, to evaluate the course. Transfer courses not completed when the POS is submitted must be completed before the term in which the student graduates. A transcript must then be submitted for review and final approval.

Research credits earned at another institution are generally not transferred. In rare circumstances, the transfer of S or P marks may be accepted for research credits only. It is the responsibility of the POS committee to obtain a letter from the responsible faculty member at the other institution stating that research credits recommended for transfer with S or P marks are considered to be worthy of a B grade or better.

**Residency**

At least 24 semester credits must be earned during two consecutive semesters or during a continuous period including two semesters and a summer session. This requirement does not apply to doctoral students who are employed at least half-time by Iowa State University and government laboratories located in Ames. Of the 72 graduate credits required for a Ph.D. at least 36 credits, including all dissertation research credits, must be earned under the supervision of the student’s POS committee.
Major
A major is the area of study or academic concentration in which a student chooses to qualify for the award of a graduate degree. Majors are listed at the end of this section of the bulletin. Opportunities also exist for majoring in more than one area of study (co-major or joint major programs).

Minor
Students may request a minor in any program approved to grant a graduate degree and in programs approved to offer only a minor. Requirements for declared minors are determined by the minor program and the faculty member representing the minor field on the student’s POS committee. The minor subject area must be tested at the preliminary oral and final oral examinations. A minor cannot be added to a program of study after the preliminary oral examination has been taken, nor can a minor be placed on the transcript after graduation, unless it was approved on the program of study, listed on all examination reports, and recorded on the “Application for Graduation” form (diploma slip). A student may not minor and major in the same field. A minor cannot be added to a degree that has already been awarded.

Time Limits
A student beginning a Ph.D. degree program at Iowa State with a master’s degree from another institution is expected to complete the Ph.D. within five years, while a student beginning a Ph.D. degree program without the master’s degree is expected to complete the program within seven years. If warranted, the Program of Study (POS) Committee may request by letter that the Dean of the Graduate College extend these time limits. Cases in which the student leaves Iowa State during his or her graduate career and later returns are dealt with individually by the student’s program of study committee and the Graduate College. The inclusion in the program of study of coursework that is beyond the time limits (“over-age” courses) must be justified by the POS committee in a statement accompanying the submission of the program of study.

Preliminary Examination
The Graduate College requires a preliminary oral examination of Ph.D. degree students; most programs add a written portion to the preliminary oral examination. The Ph.D. degree preliminary oral examination rigorously tests a graduate student’s knowledge of major, minor, and supporting subject areas as well as the student’s ability to analyze, organize, and present subject matter relevant to the field. A “Request for Preliminary Examination” form must be submitted to the Graduate College by the major professor at least two weeks before the proposed date of the examination.

The following conditions should be met before the “Request for Preliminary Examination” form is submitted to the Graduate College: admitted to full admission status in a Ph.D. granting program, approved “Recommendation for Committee Appointment” form, approved POS form, English requirement met, not on probation, time limit not exceeded, qualifying examination (if required by program) passed, and registration for at least the equivalent of 2 credits, or for the R-credit course GR ST 600 Examination Only if no course work is needed, during the term in which the preliminary oral examination is taken. (Taking only an R-credit course where the fee is not equivalent to the 2-credit minimum charge is not acceptable for the term of the preliminary oral examination.)

A preliminary oral examination will not be scheduled for a student on provisional or restricted admission or on academic probation. Upon successful completion of the preliminary oral examination, the student is admitted to candidacy for the Ph.D. degree. If the graduate student fails all or part of the preliminary oral examination, the committee provides two options: gives a not pass and allows the student to retake the examination after six months or gives a not pass and does not allow the student to retake the examination. Six months must elapse between the first attempt and the next. The entire POS committee must be convened for the preliminary oral examination. The preliminary oral examination must be passed at least six months prior to the final oral examination. An exception to the rule is allowed if a request signed by the major professor(s) and the program’s DOGE is approved by the Dean of the Graduate College.

Application for Graduation
Application for graduation should be made by the end of the first week of the semester (fall or spring) in which the student expects to receive the degree, or by the last day of the spring semester if graduation is planned during summer session. To apply for graduation, the student is required to submit to the Graduate College a signed “Application for Graduation” form, available in the program office or on the web at www.grad-college.iastate.edu/forms/forms.html. Before submitting this form, a student must have submitted and had approved by the Graduate College a “Recommendation for Committee Appointment” form and a “Program of Study” form. Also the student must have been fully admitted to a program and have met the Graduate English requirement. Graduation may be delayed if the “Application for Graduation” form filing deadline is not met. If it becomes apparent that a student cannot graduate during the indicated term, he/she should call the Graduate College (515-294-4531) and cancel the previously submitted “Application for Graduation” form. The student must then file a new form for the next planned term of graduation.

Dissertation
A doctoral dissertation must demonstrate conclusively the ability of the author to conceive, design, conduct, and interpret independent, original, and creative research. It must attempt to describe significant original contributions to the advancement of knowledge and must demonstrate the ability to organize, analyze, and interpret data. In most instances, a dissertation includes a statement of purpose, a review of pertinent literature, a presentation of methodology and results obtained, and a critical interpretation of conclusions in relation to the findings of others. When appropriate, it involves a defense of objectives, design, and analytical procedures. Dissertation research should be worthy of publication and should appear in appropriate professional journals or in book form.

Responsibility for writing and editing of the dissertation rests with the student, under the supervision of the major professor, and not with the Graduate College. The Graduate College does not permit joint authorship of dissertations. It is the responsibility of the major professor to supervise the preparation of preliminary and final drafts of the dissertation, so as to assure the highest level of quality when the student presents the dissertation to the committee for final approval. Copies of the dissertation must be submitted to the POS committee at least two weeks before the final oral examination.

All theses and dissertations will be submitted electronically after the final oral examination is held. Please browse the Graduate College’s web site (http://www.grad-college.iastate.edu/thesis/homepage.html) for new requirements, revised fees, and other pertinent information.

Shortly after the submission of the “Application for Graduation” form, a one-time, nonrefundable thesis fee is billed by the university accounting system. In addition, a graduation fee will be assessed by the Registrar’s Office. This fee is nonrefundable if a student does not cancel his/her graduation by the Graduate College’s cancellation deadline.

Final Oral Examination
The Ph.D. final oral examination, conducted after the dissertation is finished, is oral and often limited to a defense of the dissertation. To receive the degree at the end of a given semester, the student must hold the final oral examination before the final oral examination deadline for the semester.

The candidate is responsible for initiating the “Request for Final Oral Examination” form, which must be submitted to the Graduate College at least three weeks before the examination. This form can be obtained only from the student’s program/department. The entire POS committee must be convened for the final oral examination. For more information on the final oral examination, see the Graduate College Handbook.

Graduate Student Approval Slip for Graduation
Every candidate for an advanced degree is required to complete a “Graduate Student Approval Slip for Graduation” form. It is sent to the major professor or program to give to the student after the “Request for Final Examination” form is received and approved by the Graduate College. Signatures are required by the major program, the Graduate College...
Thesis specialist, and the Graduate College. Final clearance of academic requirements will be made when current term grades have been submitted and evaluated by the Graduate College.

All incompletes from previous terms must be completed by the deadline for completion of the Graduate Student Approval Slip. An incomplete or non-report grade that a student receives for the term of graduation will result in removal from that term’s graduation list. The student will need to complete a new Application for Graduation and Graduate Student Approval Slip for the new term of graduation. If a conditional pass was recommended at the final oral examination, the major professor and the committee members, if so specified, must notify the Graduate College in writing no later than the due date for the Graduate Student Approval Slip for the term of graduation that the conditions have been met.

**Graduate Majors**

More information on each major can be found in the Courses and Programs section of this catalog under the department or program listed in parentheses after the degree information.

Accounting: M.Acc. (see Accounting)

Aerospace Engineering: M.Engr., M.S., Ph.D. (see Aerospace Engineering)

Agricultural Economics: M.S., Ph.D. (see Economics)

Agricultural Education: M.S., Ph.D. (see Agricultural Education and Studies)

Agricultural Engineering: M. Engr., M.S., Ph.D. (see Agricultural Engineering)

Agricultural History and Rural Studies: Ph.D. (see History)

Agricultural Meteorology: M.S., Ph.D. (see Agronomy)

Agronomy: M.S. (see Agronomy)

Analytical Chemistry: M.S., Ph.D. (see Chemistry)

Animal Breeding and Genetics: M.S., Ph.D. (see Animal Science)

Animal Physiology: M.S., Ph.D. (see Animal Science)

Animal Science: M.S., Ph.D. (see Animal Science)

Anthropology: M.A. (see Anthropology)

Apparel, Merchandising and Design: M.S., Ph.D. (see Apparel, Education Studies, Hospitality Management)

Applied Linguistics and Technology: Ph.D. (see English)

Applied Mathematics: M.S., Ph.D. (see Mathematics)

Applied Physics: M.S., Ph.D. (see Physics and Astronomy)

Architectural Studies: M.S., M. Arch. (see Architecture)

Architecture: M.S. Arch., M. Arch./M.B.A., M. Arch./M.C.R.P (see Architecture)

Art and Design: M.A. (see Art and Design)

Astrophysics: M.S., Ph.D. (see Physics and Astronomy)

Biochemistry: M.S., Ph.D. (see Biochemistry, Biophysics and Molecular Biology)

Bioinformatics and Computational Biology: M.S., Ph.D. (see Bioinformatics and Computational Biology)

Biomedical Sciences: M.S., Ph.D. (see Biomedical Sciences)

Biophysics: M.S., Ph.D. (see Biochemistry, Biophysics and Molecular Biology)

Biorenewable Resources and Technology: M.S., Ph.D. (see Biorenewable Resources and Technology)

Botany: M.S., Ph.D. (see Botany)

Business and Technology: Ph.D. (see Business and Technology)

Chemical Engineering: M. Engr., M.S., Ph.D. (see Chemical and Biological Engineering)

Chemistry: M.S., Ph.D. (see Chemistry)

Civil Engineering: M.S., M.Engr., Ph.D. (see Civil Engineering)

Computer Engineering: M.S., M. Engr., Ph.D. (see Computer Engineering)

Computer Science: M.S., Ph.D. (see Computer Science)

Condensed Matter Physics: M.S., Ph.D. (see Physics and Astronomy)

Creative Writing and Environment: M.F.A. (see English)

Crop Production and Physiology: M.S., Ph.D (see Agronomy)

Diet and Exercise: B.S./M.S. only (see Food Science and Human Nutrition or Health and Human Performance)

Earth Science: M.S., Ph. D. (see Geological and Atmospheric Sciences)

Ecology and Evolutionary Biology: M.S., Ph.D. (see Ecology and Evolutionary Biology)

Economics: M.S., Ph.D. (see Economics)

Education: M.Ed., M.Ed. Practitioner, M.S., Ph.D. (see Curriculum and Instruction, Educational Leadership and Policy Studies)

Electrical Engineering: M.S., M. Engr. , Ph.D. (see Electrical Engineering)

English: M.A. (see English)

Entomology: M.S., Ph.D. (see Entomology)

Environmental Science: M.S., Ph.D. (see Environmental Science)

Family and Consumer Sciences: M.F.C.S. (see Family and Consumer Sciences, Master of)

Family and Consumer Sciences Education: M.Ed., M.S., Ph.D (see Family and Consumer Sciences Education and Studies)

Fisheries Biology: M.S., Ph. D. (see Natural Resource Ecology and Management)

Food Science and Technology: M.S., Ph.D. (see Food Science and Human Nutrition)

Forestry: M.S., Ph.D. (see Natural Resource Ecology and Management)

Genetics: M.S., Ph.D. (see Genetics—Interdisciplinary)

Geology: M.S., Ph.D. (see Geological and Atmospheric Sciences)

Graphic Design: M.F.A. (see Art and Design)

High Energy Physics: M.S., Ph.D. (see Physics and Astronomy)

History: M.A. (see History)
History of Technology and Science: M.A., Ph.D. (see History)
Horticulture: M.S., Ph.D. (see Horticulture)
Hospitality Management: M.S., Ph.D. (see Apparel, Education Studies, Hospitality Management)
Human Computer Interaction: M.S., Ph.D. (see Human Computer Interaction)
Human Development and Family Studies: M.S., Ph.D. (see Human Development and Family Studies)
ImmunoBiology: M.S., Ph.D. (see ImmunoBiology)
Industrial and Agricultural Technology: M.S., Ph.D. (see Technology Systems Management)
Industrial Engineering: M.S., M. Engr., Ph.D. (see Industrial Engineering)
Information Assurance: M.S., M. Engr., M.S./M.P.A. (see Information Assurance)
Information Systems: M.S., M.S./M.B.A. (see Management Information Systems)
Inorganic Chemistry: M.S., Ph.D. (see Chemistry)
Integrated Visual Arts: M.F.A. (see Art and Design)
Interdisciplinary Graduate Studies: M.A., M.S (see Interdisciplinary Graduate Studies)
Interior Design: M.F.A. (see Art and Design)
Journalism and Mass Communication: M.S. (see Journalism and Communication, Greenlee School of)
Kinesiology: M.S., Ph.D. (see Kinesiology)
Materials Science and Engineering: M.S., M. Engr., Ph.D. (see Materials Science and Engineering)
Mathematics: M.S., Ph.D. (see Mathematics)
Meat Science: M.S., Ph.D. (see Animal Science, Food Science and Human Nutrition (offered as Ph.D. only jointly with Animal Science))
Mechanical Engineering: M.S., M. Engr., Ph.D. (see Mechanical Engineering)
Meteorology: M.S., Ph.D. (see Geological and Atmospheric Sciences)
Microbiology: M.S., Ph.D. (see Microbiology)
Molecular, Cellular, and Developmental Biology: M.S., Ph.D. (see Molecular, Cellular, and Developmental Biology)
Neuroscience: M.S., Ph.D. (see Neuroscience)
Nuclear Physics: M.S., Ph.D. (see Physics and Astronomy)
Nutritional Sciences: M.S., Ph.D. (see Nutritional Sciences)
Operations Research (must be a joint major with Statistics): M.S. (see Industrial Engineering/Statistics)
Organic Chemistry: M.S., Ph.D. (see Chemistry)
Physical Chemistry: M.S., Ph.D. (see Chemistry)
Physics: M.S., Ph.D. (see Physics and Astronomy)
Plant Biology: M.S., Ph.D. (see Plant Physiology)
Plant Breeding: M.S., Ph.D. (see Agronomy)
Plant Pathology: M.S., Ph.D. (see Plant Pathology)
Political Science: M.A., (see Political Science)
Professional Agriculture: M.Ag. (see Professional Agriculture)
Psychology: M.S., Ph.D. (see Psychology)
Rhetoric and Professional Communication: Ph.D. (see English)
Rhetoric, Composition, and Professional Communication: M.A. (see English)
Rural Sociology: M.S., Ph.D. (see Sociology)
School Mathematics: M.S.M. (see Mathematics)
Science Education: M.A.T. (see Curriculum and Instruction)
Seed Technology and Business: M.S. (see Seed Technology and Business)
Sociology: M.S., Ph.D. (see Sociology)
Soil Science: M.S., Ph.D. (see Agronomy)
Statistics: M.S., M.B.A./M.S., Ph.D. (see Statistics)
Sustainable Agriculture: M.S., Ph.D. (see Sustainable Agriculture)
Systems Engineering: M. Engr. (see Systems Engineering)
Teaching English as a Second Language/Applied Linguistics: M.A. (see English)
Toxicology: M.S., Ph.D. (see Toxicology)
Transportation: M.S. (see Transportation)
Veterinary Clinical Sciences: M.S. (see Veterinary Clinical Science)
Veterinary Microbiology: M.S., Ph.D. (see Veterinary Microbiology and Preventive Medicine)
Veterinary Pathology: M.S., Ph.D. (see Veterinary Pathology)
Veterinary Preventive Medicine: M.S. (see Veterinary Diagnostic and Animal Production Medicine)
Wildlife Ecology: M.S., Ph.D. (see Natural Resource Ecology and Management)
Zoology: M.S., Ph.D (see Zoology)

**Declared Minors**
(in addition to the majors above which can also be minors)
Applied Scientific Computing (see Aerospace Engineering)
Biorenewable Chemicals (see Biorenewable Chemicals)
Complex Adaptive Systems (see Complex Adaptive Systems)
Gerontology (see Gerontology)
Philosophy (see Philosophy and Religious Studies)
French (see World Languages and Cultures)
German (see World Languages and Cultures)
Latin (see World Languages and Cultures)
Linguistics (see Linguistics)
Russian (see World Languages and Cultures)
Spanish (see World Languages and Cultures)
Speech Communication (see Speech Communication)
Technology and Social Change (see Technology and Social Change)  
Women’s Studies (see Women’s Studies)  

**Graduate Certificate Programs**

A graduate certificate provides a mechanism for bestowing formal recognition of focused graduate study in a specialized area that is less comprehensive than required for a master’s degree. At Iowa State University, a graduate certificate may be earned either before, after, or concurrently with the master’s or doctoral degree. For more detailed information on certificate programs, browse the Graduate College web site at: www.grad-college.iastate.edu/publications/gchandbook/appendixd.html and www.grad-college.iastate.edu/certificates/certificates.php.

Advanced Medical Nutrition Therapy Certificate  
Applied Research Methods in Human Sciences (See EL PS).  
Biorenewable Resources and Technology Certificate  
Community College Leadership Certification  
Community College Teaching  
Computational Fluid Dynamics Certificate (See Aer E)  
Computer Networking Certificate  
Construction Management Certificate  
Dietetics Communication and Counseling Certificate  
Dietetics Internship Certificate  
Dietetics Management Certificate  
Entrepreneurship and Innovation Certificate  
Environmental Engineering Certificate  
Environmental Systems Certificate  
Family Financial Planning Certificate  
Food Safety and Defense Graduate Certificate  
Forensic Sciences Certificate  
Gerontology Certificate  
Geographic Information Systems Certificate  
Graduate Student Teaching Certificate  
Human Computer Interaction Certificate  
Information Assurance Certificate  
Instructional Design Certificate  
Power Systems Engineering Certificate  
Principal Licensure (Pre-LEAD)  
Public Management Certificate  
Quantitative Psychology Certificate  
Seed Business Management  
Seed Science and Technology  
Social Justice in Higher Education Certificate (See El PS)  
Software Systems Certificate  
Special Education Certificate  
Student Affairs Certificate  
Superintendent Licensure Certificate  

Systems Engineering Certificate  
TESL (Teaching English as a Second Language) Certificate  
Veterinary Preventive Medicine Certificate
Administered by the Center for Biorenewable Chemicals (CBiRC)

The core mission of the NSF Engineering Research Center for Biorenewable Chemicals (CBiRC) is to transform the chemical industry by integrating biological and chemical catalysis systems to create a generalized framework for producing biorenewable chemicals. The minor in Biorenewable Chemicals allows students from a variety of allied disciplines to understand the opportunities for developing biorenewable chemicals via a combination of biocatalytic and chemical catalysis steps. In addition to coursework in core technical areas, students in the minor get explicit entrepreneurial training, a background in the general issues related to production and processing of biorenewable resources, exposure to the economic and environmental realities of the chemical industry. Students in the minor are disciplinary experts (in programs such as Chemical Engineering, Chemistry, and Biochemistry, Biophysics, and Molecular Biology) who are interdisciplinary trained to become globally competitive graduates capable of developing integrated chemical/biological processing systems.

Courses for graduate students

BR C 506. The Evolving Chemical Industry.
(1-0) Cr. 1.
An overview of the chemical industry including structure and its evolution. Discussion of the dynamics of recent introduction of biorenewable chemicals to the chemical industry.

BR C 688. Catalysis and Catalytic Processes.
(Cross-listed with CH E). (3-0) Cr. 3. Prereq: CH E 382
Principles and applications of heterogeneous and homogeneous catalysis. Adsorption. Reaction kinetics and mass transfer effects. Catalyst characterization. Industrial catalytic processes.
Biorenewable Resources and Technology

(Interdepartmental Graduate Program)

Over 60 Iowa State University faculty members from 16 academic departments and five colleges are affiliated with the Biorenewable Resources and Technology (BRT) graduate program; a complete and up-to-date listing is maintained at: www.biorenew.iastate.edu.

Graduate Study

The graduate program in Biorenewable Resources and Technology (BRT) offers students advanced study in the use of plant and crop-based resources in the production of biobased products (fuels, chemicals, materials, and energy). The BRT program was the first graduate program in biorenewable resources established in the United States. This multi-disciplinary program offers the degrees of master of science and doctor of philosophy in Biorenewable Resources and Technology, and a minor to students taking major work in other departments. The curriculum is designed to encourage students to obtain co-major degrees in Biorenewable Resources and Technology and a more traditional science or engineering discipline. A thesis is required for the master of science degree.

Prerequisite to major graduate work is a bachelor’s degree or prior graduate training in engineering or a physical or biological discipline, including agricultural sciences.

The core required courses in the Biorenewable Resources and Technology graduate program include:

<table>

† Arranged with instructor.

The elective core courses must come from an approved list of courses from a variety of traditional disciplines encompassing one or more of four areas crucial to the development of biobased products: plant science, production, processing, and utilization. Students must complete elective core courses from at least three of the four topical areas, selected in consultation with the student’s Program of Study (POS) committee.

Graduates of the program will be equipped with skills to develop and manage cost effective and environmentally attractive technologies for producing fuels, chemicals, materials, foods and energy from renewable plant biomass.

Information on application procedures and specific requirements of the major can be obtained from the following Internet address: www.biorenew.iastate.edu

Courses primarily for graduate students, open to qualified undergraduate students

BRT 501. Fundamentals of Biorenewable Resources.

(Cross-listed with A E). (3-0) Cr. 3. S.

Prereq: Undergraduate training in an engineering or physical or biological discipline or degrees in agriculture or economics.

Introduction to the science and engineering of converting biorenewable resources into bioenergy and biobased products. Survey of biorenewable resource base and properties; description of biobased products; methods of biorenewable resource production; processing technologies for fuels; chemicals, materials, and energy; environmental impacts; economics of biobased products and bioenergy.

Cr. arr. F.S.

Prereq: Undergraduate training in an engineering or physical or biological discipline or degree in agriculture or economics.

Taken one semester for 1 credit and remaining semesters as R credit. Seminars and discussion on current topics in biorenewable resources and technology. Offered on a satisfactory-fail basis only.

A. Cr. 1. Presentation or Paper required.
B. Cr.
R. Attendance only.

BRT 511. Bioprocessing and Bioproducts.

(Cross-listed with A E, C E). (3-0) Cr. 3. F.

Prereq: A E 216 or equivalent, MATH 160 or 165, one of CHEM 167 or higher, BIOL 101 or higher or BRT 501, senior or graduate classification.

BRT 535. Thermochemical Processing of Biomass.

(Cross-listed with M E). (3-0) Cr. 3. S.

Prereq: Undergraduate course work in thermodynamics and transport phenomena.

Introduction to thermal and catalytic processes for the conversion of biomass to biofuels and other biobased products. Topics include gasification, fast pyrolysis, hydrothermal processing, syngas to synfuels, and bio-oil upgrading. Application of thermodynamics, heat transfer, and fluid dynamics to bioenergy and biofuels.

BRT 590. Special Topics.

Cr. 1-3. Repeatable. F.S.S.

Prereq: Permission of instructor.

Investigation of an approved topic on an individual basis. Course content and requirements to be designed and developed in consultation with the student’s major professor or instructor, but in all cases a formal report should be written.

BRT 591L. Biorenewable Resources Laboratory.

(0-3) Cr. 1. Repeatable. F.S.S.

Prereq: Permission of student’s major professor and instructor.

Special topics laboratory and research experience in biorenewable resources and technology that affords an experience beyond thesis-focused research. To be designed in consultation with the student’s major professor and instructor. A laboratory report is required. For student in the BRT program, BRT 591L may be taken twice. For student in the BRT program, BRT 591L may be taken twice.

Courses for graduate students

(Cross-listed with FS HN). (2-3) Cr. 3. Alt. F.

Prereq: FS HN 311 or 411 or 502 or BBMB 404.

Properties of enzymes important in food processing including flavor, texture and color and in biofuels & bioprocessing. Quantitative evaluation of substrates, enzyme inhibitors, pH, pressure and temperature on enzyme activity. Experimental determination of specificity and mechanisms important to food and bioprocessing biochemistry. Techniques to purify food and bioprocessing enzymes.

BRT 699. Research.

Cr. arr. Repeatable, maximum of 3 times. F.S.S.

Prereq: Permission of student’s major professor.
Interdepartmental Graduate Major

The ecology and evolutionary biology (EEB) interdepartmental major is offered through a faculty housed in ten departments of the university. Faculty from the departments of Agronomy, Anthropology; Ecology; Evolution and Organismal Biology; Entomology; Geological and Atmospheric Sciences; Horticulture; Mathematics; Natural Resource Ecology and Management; Plant Pathology; and Statistics cooperate to offer courses and research opportunities leading to the M.S. and Ph.D. degrees with a major in ecology and evolutionary biology.

Applicants should have completed an undergraduate or master of science or arts degree in one of the biological, physical, or Mathematical sciences. Applicants also should have taken undergraduate courses in both basic ecology and evolution.

The EEB major is designed for students interested in the study of mechanisms controlling the composition, structure, and functional processes of ecological systems and the mechanisms that regulate the pattern and rate of evolutionary change within and among species.

EEB offers a core course, and special topics and seminar courses, as well as an extended field trip course. In addition, a number of offerings in the ethics and practice of research in the biological sciences are offered as short courses. Cooperating departments offer courses and research opportunities in population, community, and ecosystems ecology; landscape ecology, modeling, and spatial dynamics; systematics, biodiversity, and biogeography; physiological and behavioral ecology; conservation and restoration ecology; agroecology; natural resources ecology and management; evolutionary ecology; population, quantitative and evolutionary genetics; and environmental statistics, stochastic modeling, and quantitative ecology and evolution.

Students majoring in EEB may prepare themselves for careers focused on basic or applied ecology and evolutionary biology in a variety of settings, including academia, government, industry, and private organizations. Graduates have a broad understanding of ecology and evolutionary biology, experience designing and conducting research, writing grant proposals, and communicating effectively with scientific colleagues at meetings and through publications.

Information on application procedures, research interests of the faculty, and specific requirements of the major may be obtained from the EEB web site www.grad-college.iastate.edu/EEB/, or by contacting eeboffice@iastate.edu.

Courses for graduate students

(3-2) Cr. 4. F. Prereq: Graduate classification
Introduction to key figures and ideas that have shaped the development of ecology and evolutionary biology. Covers major developments in ecology and evolutionary biology at five levels of biological organization: Genome, Organism, Population, Community, and Ecosystem. Impacts of these developments on current approaches to investigation and argument formulation. Effects of technological advances on the direction of scientific investigations. Introduction to analytical skills important for critical thinking in ecology and evolutionary biology and the impact of accepted lines of scientific reasoning on the objectives and conduct of research, such as explanation and prediction, design of studies as experimentation, and structured or unstructured observation.

(Cross-listed with AGRON, AN S, BCB, CH E, CPR E, HORT, M E, MICRO, PL, P V MPM). Cr. arr. Prereq: Graduate classification
Professional, ethical and legal issues facing scientists and engineers in academia. Offered in modular format.

A. Responsible Conduct of Research. (Cr. 1.0). F
B. Working with Industry. (Cr. 0.5).

C. Communications in Science. (Cr. 0.5). Alt S., offered 2011. Reading and reviewing manuscripts; publishing papers; oral and poster presentations.
D. Time Management and Mentoring. (Cr. 0.5). Alt F., offered 2012. Balancing life and career; mentoring; lab management.
E. The Interview Process. (Cr. 0.5). Alt S., offered 2012. Applying and interviewing for academia, industry and government.
F. Grant Writing. (Cr. 1.0). Alt F., offered 2011. Writing a winning proposal.
G. Teaching. (Cr. 0.5). Preparation of a teaching portfolio and course materials; lecturing, technology.
S. Ethical and legal issues in research.
S. Establishing productive collaborations with industry.

EEB 585. Extended Field Trip.
(0-6) Cr. 2. Repeatable. S. Prereq: Graduate classification
Annual field trip to a region of North America to study the major terrestrial and aquatic ecosystem types of the region. Report required.

EEB 590. Special Topics.
Cr. 1-3. Repeatable. F.S.SS. Prereq: Graduate classification and permission of instructor
For students wishing to conduct in-depth study of a particular topic in ecology and evolutionary biology.

EEB 698. Seminar.
(1-0) Cr. 1. Repeatable. F.S.
Reports and discussion of recent research and literature.

EEB 699. Research.
Cr. arr. Repeatable. F.S.SS.
Thesis and dissertation research.

Courses Offered by the Organization for Tropical Studies

ISU graduate students can take courses through the widely recognized Organization for Tropical Studies (OTS) at field sites in Central and South America. Students register for OTS courses and upon successful completion, receive credit from University of Costa Rica which transfers as either OTS 510 Tropical Biology: An Ecological Approach or OTS 515 Topics in Tropical Biology. For further information about OTS courses, see www.ots.duke.edu.

For information regarding OTS course offerings, please contact the EEB Program Office at eeboffice@iastate.edu.

Cr. 8.
This course is designed for students in the early stages of graduate study in biology or a related field, with the goal of training graduate students in research methods by providing intensive field experience in diverse tropical ecosystems.

OTS 515. Topics in Tropical Biology.
Cr. 1-8.
This course is designated for students enrolled in graduate course offerings through OTS (excluding OTS 510). Examples of graduate courses offered by OTS include Tropical Plant Systematics, Tropical Ecology and Conservation, Molecular Methods in Tropical Ecology, and Tropical Agroecology.
Graduate Studies

No major is granted in Graduate Studies. At the recommendation of the major professor and/or the department chair, graduate students may enroll in the following graduate courses to fulfill certain enrollment requirements.

Courses for graduate students

**GR ST 585. Preparing Future Faculty Introductory Seminar.**
Cr. 1. Prereq: One year of graduate course work; admission into PFF program
Introduction to faculty life issues such as hiring, tenure, teaching, and service at a variety of higher education institutions. Includes presentations from faculty at other institutions.

**GR ST 586. Preparing Future Faculty Intermediate Seminar.**
Cr. 1-3. Prereq: Admission into PFF program; completion of 585 or permission of instructor
Consideration of a wide range of faculty life issues. Includes topics such as higher education trends, diversity issues, learning styles, assessment, grant and proposal writing, and legal and ethical issues. Written components include job and teaching portfolios.

**GR ST 587. Preparing Future Faculty Teaching Practicum.**
Cr. 1. Prereq: Permission of instructor, 585, credit for or concurrent enrollment in 586
Students complete a stand-alone teaching assignment at Iowa State or another higher education institution. Written components include pedagogical documents.

**GR ST 588. Preparing Future Faculty Special Topics.**
Cr. 1-3. Prereq: Permission of instructor, 585, credit for or concurrent enrollment in 586
In-depth study of topic providing academic professional development.

**GR ST 600. Examination Only.**
Cr. R.
Reserved for graduate students the term they take the final oral examination. Students must have completed all required coursework and not be registered for another non-R Credit course.

**GR ST 601. Required Enrollment.**
Cr. R.
Reserved for graduate students who must be registered for a particular term, but are not required to take additional coursework.

**GR ST 680. Doctoral Post Prelim (Continuous) Registration.**
Cr. R. Repeatable.
Reserved for Ph.D. candidates only. See the Graduate College Handbook for specific requirements.

**GR ST 697. Curricular Practical Training.**
Cr. R. Repeatable. F.S.S.S.
Professional work period.
Courses for graduate students

(Dual-listed with 507). (Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 9 credits. F.S. Prereq: ARTIS 308
Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed. Nonmajor graduate credit.

H. Honors (3-4 cr.)

HCI 409. Computer/Video Game Design and Development.
(Dual-listed with 509). (Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S. Prereq: Permission of instructor. Programming emphasis: COM S 227, 228, 229 or equivalent in Engineering; art or graphics emphasis: Art 230 and ARTIS 308; writing emphasis: an English course in creative writing or writing screen plays; business or marketing students: junior classification
Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed. Nonmajor graduate credit.

H. Honors (3-4 cr.)

HCI 504. Managing and Evaluating Instructional Technology Interventions.
(Cross-listed with C I). (3-0) Cr. 3. S. Prereq: CI 501
Principles and procedures for analysis, review, and evaluation of instructional technology interventions and products. Methods for planning, organizing, and conducting evaluative studies are addressed.

HCI 507. Principles of 3D Character Animation.
(Dual-listed with 407). (Cross-listed with ARTIS). (0-6) Cr. 3. Prereq: ARTIS 308
Animation techniques using the computer and available software. Principles of character animation. Prior knowledge of modeling, lighting, texturing and rendering with available software is assumed.

HCI 509. Computer/Video Game Design and Development.
(Dual-listed with 409). (Cross-listed with ARTIS). (0-6) Cr. 3. Repeatable, maximum of 12 credits. F.S. Prereq: Permission of instructor. Programming emphasis: COM S 227, 228, 229 or equivalent in Engineering; art or graphics emphasis: Art 230 and ARTIS 308; writing emphasis: an English course in creative writing or writing screen plays; business or marketing students: junior classification
Independent project based creation and development of "frivolous and non-frivolous" computer games in a cross-disciplinary team. Projects require cross-disciplinary teams. Aspects of Indie development and computer/video game history will be discussed.

HCI 515. Statistical Natural Language Processing.
(Cross-listed with ENGL, LING). (3-0) Cr. 3. F. Prereq: STAT 330 or equivalent, recommended LING 219 or LING 511
Introduction to computational techniques involving human language and speech in applications such as information retrieval and extraction, automatic text categorization, word prediction, intelligent Web searching, spelling and grammar checking, speech recognition and synthesis, statistical machine translation, n-grams, POS-tagging, word-sense disambiguation, on-line lexicons and thesauri, markup languages, corpus analysis, and Python programming language.

HCI 520. Computational Analysis of English.
(Cross-listed with ENGL, LING). (3-0) Cr. 3. S. Prereq: ENGL 510 and 511
Concepts and practices for analysis of English by computer with emphasis on the applications of computational analysis to problems in applied linguistics such as corpus analysis and recognition of learner language in computer-assisted learning and language assessment.
(Cross-listed with PSYCH). (3-0) Cr. 3. Prereq: Graduate classification or instructor approval.
Biological, behavioral, perceptual, cognitive and social issues relevant to human computer interactions.

(Cross-listed with PSYCH). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: PSYCH 521 and STAT 101 or equivalent.
Basics of hypothesis testing, experimental design, analysis and interpretation of data, and the ethical principles of human research as they apply to research in human computer interaction.

(Cross-listed with M E). (3-0) Cr. 3. S. Prereq: ENGR 160, MATH 265.
Optimization involves finding the ‘best’ according to specified criteria. Review of a range of optimization methods from traditional nonlinear to modern evolutionary methods such as Genetic algorithms. Examination of how these methods can be used to solve a wide variety of design problems across disciplines, including mechanical systems design, biomedical device design, biomedical imaging, and interaction with digital medical data. Students will gain knowledge of numerical optimization algorithms and sufficient understanding of the strengths and weaknesses of these algorithms to apply them appropriately in engineering design. Experience includes code writing and off-the-shelf routines. Students will also be exposed to numerous case-studies of real-world situations in which problems were modeled and solved using advanced optimization techniques.

HCI 558. Introduction to the 3D Visualization of Scientific Data.
(Cross-listed with GEOL, CM St). (2-2) Cr. 3. Alt. S., offered 2013. Prereq: Graduate student standing in the mathematical or natural sciences.
Introduction to visualizing scientific information with 3D computer graphics and their foundation in human perception. Overview of different visualization techniques and examples of 3D visualization projects from different disciplines (natural sciences, medicine, engineering). Class project in interactive 3D visualization using the OpenDX, VTK or a similar system.

HCI 572. Experimental Computer Game Prototyping.
Cr. 3. SS. Prereq: Permission from instructor.
A discourse on interactive game design concepts through the rapid prototyping of video games. Topics discussed include interdisciplinary views on fundamentals of game play, emergence, emotional affect, behavioral learning, player progression, optimal experience and others. Discussions on interactivity as an art form and its implications to various fields of human computer interaction.

HCI 574. Computational Implementation and Prototyping in HCI.
Cr. 3. S.
Fundamental concepts of software programming and the practical use of the Python programming language. Assignments include user interaction and interface design, information visualization, as well as other computational HCI tools. Intended for graduate students without prior background in software development. Requires programming during class lectures.

HCI 575. Computational Perception.
(Cross-listed with COM S, CPR E). (3-0) Cr. 3. S. Prereq: Graduate standing or permission of instructor.
This class covers statistical and algorithmic methods for sensing, recognizing, and interpreting the activities of people by a computer. This semester we will focus on machine perception techniques that facilitate and augment human-computer interaction. The main goal of the class is to introduce computational perception on both theoretical and practical levels. Participation in small groups to design, implement, and evaluate a prototype of a human-computer interaction system that uses one or more of the techniques covered in the lectures.

HCI 590. Special Topics.
Cr. arr. Repeatable.
Investigation of problems of special interest in human computer interaction.

Cr. 1-3. Repeatable.

HCI 592. Entrepreneurship Workshop.
(1-0) Cr. 1. F.
Students will be taken step-by-step through activities that must be undertaken when attempting to commercialize a technology or start their own company. Speakers will be brought in to introduce relevant topics, provide resources, answer questions, and provide working examples.

HCI 594. Managerial Application of Collaborative Technologies and Social Media.
Cr. 3. SS. Prereq: Graduate classification.
Building, managing, and using collaborative technologies. Collaborative uses of social media such as blogs, wikis, picture and video sharing, social networks, Second Life, and other new media. Exposure to concepts and hands on use and management of several collaborative technologies.

HCI 595. Visual Design of HCI.
Cr. 3. SS.
Human interaction design as it applies to HCI. Aspects of audience analysis, design methodology for creating concepts and solutions, techniques of concept prototyping, and the fundamentals of visual design such as color, type, symbolism, and grid structure. Class discussions, tutorials, and hands-on projects.

Cr. 3. SS. Prereq: HCI 521.
Usability evaluation with emphasis on requirements gathering, rapid prototyping, evaluation, and communicating results through report writing along with emerging practices.

HCI 597. Scientific Information Design.
Cr. 2. SS.
Use of principles of visual design such as color, typography, photography, graphs, charts, and layout to create effective poster and power point presentations. Experience with design software, create posters and presentations from their own data, and evaluate design solutions with regard to their visual and verbal communication. Principles of design and communication theory will be introduced.

HCI 598. HCI Design, Implementation and Implications.
Cr. 3. S. Prereq: 21 credits in human computer interaction or permission of the instructor.
Capstone course in HCI. Through a significant team-based design project and open-book final exam, students demonstrate their mastery of core courses in HCI.

HCI 599. Creative Component.
(3-0) Cr. 3.
Creative component for nonthesis option of Master of Science degree. Offered on a satisfactory-fail basis only.

HCI 603. Advanced Learning Environments Design.
(Cross-listed with C I). (3-0) Cr. 3. S. Prereq: CI 503
Exploration of advanced aspects of the instructional design process. Application of analysis, design, development and production, evaluation, implementation, and project management principles. Focus on the production and use of instructional technology with an emphasis on the instructional design consulting process. Theory and research in instructional technology provides the foundation for design decisions.
HCI 655. Organizational and Social Implications of Human Computer Interaction.
(Cross-listed with MIS). (3-0) Cr. 3. Prereq: Graduate Classification
Examine opportunities and implications of information technologies and human computer interaction on social and organizational systems. Explore ethical and social issues appurtenant to human computer interaction, both from a proscriptive and prescriptive perspective. Develop informed perspective on human computer interaction. Implications on research and development programs.

HCI 697. HCI Internship.
Cr. R. Repeatable. Prereq: Permission of Director of Graduate Education, graduate classification

HCI 699. Research.
Cr. arr. Repeatable.
Immunobiology

Interdepartmental Graduate Program

**Graduate Study**

Work is offered for the master of science and doctor of philosophy degrees with a major in Immunobiology. Faculty are drawn from eight departments: Animal Science; Biochemistry, Biophysics, and Molecular Biology; Biomedical Sciences; Entomology; Kinesiology; Veterinary Diagnostic & Production Animal Medicine; Veterinary Microbiology & Preventative Medicine; and Veterinary Pathology. The diversity of faculty expertise ensures a broad education, while offering flexibility in choice of specialization. Ongoing research projects include areas such as: antibody and cell-mediated immunity, immunochemistry, immunogenetics, immunomodulation, mucosal immunity and nutritional immunology.

Students may enter the Immunobiology major in one of two ways; they may apply to and be directly accepted into the major, or they may be admitted to a participating department followed by formal admission to the major. Students directly admitted into the Interdepartmental Immunobiology Major will take IMBio 697 Graduate Research Rotation in their first two semesters, and by the end of the second semester, enter a department by choosing a major professor from the participating faculty. Students first admitted to a department will choose a major professor from the participating faculty in that department.

Students should have a strong background in the biological sciences, including work in immunology, genetics and biochemistry. Prior research experience is highly encouraged. Submission of scores of the GRE General Test is required.

Immunobiology students should include in their program of study a core of courses which will provide a broad coverage of the basic program in immunobiology. Formal courses should include immunology, biochemistry, and Statistics. Additional coursework may be selected to satisfy individual interests or departmental requirements. The foreign language and teaching requirements are determined by the student’s department. All students will take a minimum of one seminar course per year.

Graduates have a broad understanding of the interdisciplinary field of immunobiology, and can effectively integrate the principles of immunology with related disciplines. They are able to effectively communicate with scientific colleagues and the general public in both formal and informal settings. Graduates are able to integrate theory and research to address complex problems facing scientific professionals studying animal and human health, taking into account related ethical, social, legal and environmental issues. They are skilled at carrying out research, communicating research results, and writing persuasive grant proposals.

**Courses for graduate students**

**IMBio 602. Current Topics Workshop in Immunology.**
(1-0) Cr. 1. Repeatable.
Lectures provided by off-campus experts. Students are required to participate in discussion sessions with lecturers.

**IMBio 604. Seminar in Immunobiology.**
(1-0) Cr. 1. Repeatable.
Student and faculty presentation.

**IMBio 690. Special Topics.**
Cr. arr. Repeatable.
Advanced study of specific topics in specialized field of immunobiology.

**IMBio 697. Graduate Research Rotation.**
Cr. arr. Repeatable.
Graduate research projects performed under the supervision of selected faculty members in the Interdepartmental Immunobiology major.

**IMBio 699. Research.**
Cr. arr. Repeatable.
Interdepartmental Graduate Major

Work is offered for the degree Master of Science with a major in information assurance under a cooperative arrangement with various departments including Electrical and Computer Engineering, Computer Science, Political Science, Logistics, Operations, and Management Information Systems, Mathematics. Students graduating from the major will help to fill the need for well-educated system security specialists in the government, private sector, and academia. The program objectives identified as being critical to the accomplishment of this mission are:

1. Impart and enhance knowledge about information infrastructure security
2. Expand and develop ability to engineer complex systems
3. Instill and nurture social awareness, and the ability to function in a team
4. Instill and nurture a sense of ethics
5. Develop an understanding of strategic and policy issues

Students interested in the interdepartmental major apply and are admitted to both a home department (the department that is most closely aligned with the student’s research interest and background) and to the program. The home department sets the admission standards, course requirements, and thesis standards.

The program is broadly based and uses courses in the various departments. The program will consist of 24 course credits with 6 credits of research work for a Master of Science with thesis. A non-thesis Master of Science will consist of 27 credits of courses and 3 credits of creative component. The courses are divided into three categories: core, electives, and thesis research. A coursework only Master of Engineering degree in Information Assurance consisting of 30 credits is also offered.

A student’s Program of Study Committee, in consultation with the student, determines the elective courses to be taken and the acceptability of transfer credits. The major professor will be selected from the discipline where the student is admitted (home department).

The basic prerequisite for admission to this program is a baccalaureate degree in engineering, mathematics, computer science, management information systems, political science, or closely related field. The GRE or GMAT examination may be required based on the standards of the home department. If the GRE or GMAT is not required it will be considered in admissions decisions if offered. Potential students with baccalaureate degrees in the physical sciences, statistics, or other related fields will be considered on an individual basis, possibly with provisional admission.

A graduate certificate in Information Assurance is offered, which consists of four courses (12 credits):

- INFAS 530 Advanced Protocols and Network Security 3
- INFAS 531 Information System Security 3
- INFAS 532 Information Warfare 3
- INFAS 533 Cryptography 3
- INFAS 535 Steganography and Digital Image Forensics 3

Total Credits 12

For additional information students should contact the chair of the Supervisory Committee, 2215 Coover Hall, ISU, Ames, Iowa 50011, or visit www.iac.iastate.edu.

Information Assurance

Courses for graduate students

Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

INFAS 530. Advanced Protocols and Network Security. (Cross-listed with CPR E). (3-0) Cr. 3. Prereq: CPR E 381
Detailed examination of networking standards, protocols, and their implementation. TCP/IP protocol suite, network application protocols, IP routing, network security issues. Emphasis on laboratory experiments.

INFAS 531. Information System Security. (Cross-listed with CPR E). (3-0) Cr. 3. Prereq: CPR E 489 or 530 or COM S 586 or MIS 525
Computer and network security: basic cryptography, security policies, multilevel security models, attack and protection mechanisms, legal and ethical issues.

INFAS 532. Information Warfare. (Cross-listed with CPR E). (3-0) Cr. 3. Prereq: CPR E 531

INFAS 533. Cryptography. (Cross-listed with MATH, CPR E). (3-0) Cr. 3. S. Prereq: MATH 301 or CPR E 310 or COM S 330
Basic concepts of secure communication, DES and AES, public-key cryptosystems, elliptic curves, hash algorithms, digital signatures, applications. Relevant material on number theory and finite fields.

INFAS 534. Legal and Ethical Issues in Information Assurance. (Cross-listed with CPR E, POL S). (3-0) Cr. 3. S. Prereq: Graduate classification, CPR E or INFAS 531
Legal and ethical issues in computer security. State and local codes and regulations. Privacy issues.

INFAS 535. Steganography and Digital Image Forensics. (Cross-listed with MATH, CPR E). (3-0) Cr. 3. S. Prereq: E E 524 or MATH 307 or MATH 301 or CPR E 310 or COM S 330
Basic principles of covert communication, steganalysis, and forensic analysis for digital images. Steganographic security and capacity, matrix embedding, blind attacks, image forensic detection and device identification techniques. Related material on coding theory, statistics, image processing, pattern recognition.

INFAS 536. Computer and Network Forensics. (Cross-listed with CPR E). (3-0) Cr. 3. Prereq: CPR E 381 and CPR E 489 or 530
Fundamentals of computer and network forensics, forensic duplication and analysis, network surveillance, intrusion detection and response, incident response, anonymity and pseudonymity, privacy-protection techniques, cyber law, computer security policies and guidelines, court testimony and report writing, and case studies. Emphasis on hands-on experiments.

Projects or seminar in Information Assurance.
INFAS 632. Information Assurance Capstone Design.
(Cross-listed with CPR E). (3-0) Cr. 3. Prereq: 531, 532, 534
Capstone design course which integrates the security design process. Design of a security policy. Creation of a security plan. Implementation of the security plan. The students will attach each other's secure environments in an effort to defeat the security systems. Students evaluate the security plans and the performance of the plans. Social, political and ethics issues. Student self-evaluation, journaling, final written report, and an oral report.

INFAS 697. Information Assurance Summer Internship.
Cr. R. Prereq: Permission of department, graduate classification
One semester and one summer maximum per academic year professional work period. Offered on a satisfactory-fail basis only.
Interdisciplinary Graduate Program

The degree of master of science or master of arts with major in interdisciplinary graduate studies is available to graduate students who wish to have a more diversified program of advanced study than that generally permitted students who specialize in a single subject. Areas of specialization in arts and humanities, biological sciences, international development studies, physical sciences, social sciences, community development (see below) and a general area are designed to broaden and supplement a student’s program. Students must take courses in three different graduate subject matter areas, each subject contributing a minimum of nine credits toward the 35 graduate credits required for the degree. Courses which may be used for credit toward this degree program are selected from those listed in the Graduate College Catalog for graduate credit.

Both thesis and nonthesis options are available except in arts and humanities in which a thesis is required. If the thesis option is chosen, a minimum of three credits of IGS 699 Thesis Research is required and a maximum of five credits of IGS 699 Thesis Research may be counted in the total of 35 required credits. If the nonthesis option is elected, evidence of original creative effort must be presented. This may be in the form of a demonstration of independent creativity such as a written report of laboratory, field, or library research; a project in fine arts; or some other original contribution acceptable to the student’s committee. In the nonthesis option a minimum of three credits of IGS 599 Creative Component is required and a maximum of five credits of IGS 599 Creative Component may be counted toward the total of 35 graduate credits. The student, in consultation with the program of study committee, will decide on the option. The committee also aids the student in planning a program of study and in selecting appropriate courses. Graduates will have experience in designing their own program centered around issues they have identified. Because of the interdisciplinary nature of IGS, students are expected to synthesize knowledge from three different areas of study.

Students who wish to apply for admission to interdisciplinary graduate studies should communicate with the chair of the program, the chair of the supervisory committee or one of its members (see above).

Students in IGS may select a 37-credit area of specialization in Community Development. The Community Development area of specialization, offered in collaboration with five other universities in the Great Plains Interactive Distance Education Alliance, is offered exclusively through courses on the Web.

Courses for graduate students

**IGS 599. Creative Component.**
Cr. arr. Repeatable.

**IGS 699. Thesis Research.**
Cr. arr. Repeatable.
Interdisciplinary Studies

Interdepartmental undergraduate major administered by the College of Liberal Arts and Sciences

A major in interdisciplinary studies is offered in the College of Liberal Arts and Sciences for undergraduate students who have unique interdisciplinary educational goals. The student, a faculty review board, and an academic adviser design the major. Leading to either the bachelor of arts or the bachelor of science degree, the major includes 36 to 48 credits of coursework chosen to provide a coherent, carefully planned program in an area of interest that bridges two or more departments. This specialized area is identified on the diploma. Learning goals are individually crafted for each proposed major.

A degree in Interdisciplinary Studies may be particularly attractive to students who wish to develop an area of interest based upon one of the College’s cross-disciplinary programs. Areas of interest in Interdisciplinary Studies have included Classical Studies, Criminology and Criminal Justice, International Relations, Ecology Studies, African American Cultural Studies, Asian Studies, and U.S. Latino/a Studies.

A student seeking admission to the program in interdisciplinary studies writes a letter of application that explains how the proposed major meets specific educational and learning goals. A faculty review board screens applications. Since students are expected to earn at least 30 credits after they are admitted into the program, the proposal is ordinarily submitted to the review board in the sophomore or junior year. The proposal will be considered if the area of interest properly falls within the College of Liberal Arts and Sciences and if the student’s educational goals cannot be met by a more traditional combination of existing majors, minors, and electives.

The interdisciplinary studies major must satisfy the requirements of the liberal arts and sciences curriculum in the College of Liberal Arts and Sciences. A major emphasizing the humanities or communicative arts normally leads to a B.A.; a major emphasizing the natural or social sciences normally leads to a B.S. Different requirements for the B.A. and B.S. degrees are determined by the nature of the chosen field of study. Courses listed in the individualized major may come from any department of the university with the following restrictions:

1. The selection of courses needs to focus on a single theme and be consistent with the career and educational goals of the student.
2. At least one half of the courses in the major will come from departments within the College of Liberal Arts and Sciences.
3. The courses will be chosen from at least two disciplines.

All courses in the major must be at the 200-level or higher. At least 15 credits must be at the 300-level or higher with at least 6 credits at the 400-level or higher. An average grade of C or better must be earned in 15 credits at the 300-level or higher in the major. To meet the English and communication proficiency requirement, a grade of C or better must be earned in either an advanced English composition course or a course in the major with a significant writing component.

Further information may be obtained from the college office.
Iowa Lakeside Laboratory

Interinstitutional Program

Iowa Lakeside Laboratory is run cooperatively by the Iowa Lakeside Laboratory Consortium whose members include Drake University, Iowa State University, the University of Northern Iowa, and the University of Iowa. Lakeside courses can be taken for credit through all Consortium members. Students should check with their advisers to determine whether Lakeside courses can be used to satisfy major or minor requirements or college or university general education requirements.

The Laboratory was established in 1909 for the conservation and study of the rich flora and fauna of northwest Iowa, especially those of the Iowa Great Lakes region with its numerous lakes, wetlands, and prairies. Its campus is located on approximately 140 acres of restored prairie, wetland, and gallery forest along the west shore of West Okoboji Lake. Lakeside’s mission is to provide undergraduate and graduate students an opportunity to get hands-on experience working with a variety of natural and human environments through its field-oriented summer courses and to provide research facilities and support for graduate students and faculty working on research projects in northwestern Iowa. Each summer, Iowa Lakeside Laboratory offers students a unique educational experience: small, full-immersion, field-oriented courses in the natural sciences (archaeology, ecology, environmental science, hydrology, evolution, geology, soils, taxonomy). All courses meet all day from Monday through Friday. The majority of courses run for 4 weeks. Enrollments in most courses are limited to 8 to 10 students. Courses are taught at the undergraduate (sophomore and junior) and the senior/graduate level. Students obtain one credit for each week (40 hours) in class. One and two week courses are also available, including courses designed especially for teachers. Weather permitting, students normally spend at least part of each day doing field work, either as part of their class work or working on individual or group projects. Because some courses are offered intermittently, the current Iowa Lakeside Laboratory summer brochure or the Lakeside Lab Website (www.lakesidelab.org) should be consulted for the list of courses being offered in a given summer session. The Lakeside Lab Website (www.lakesidelab.org) also contains additional information about the Laboratory and about each course being offered.

Research projects by undergraduates, graduate students and faculty can be done either on the campus or at many nearby natural areas. Undergraduate and graduate students are strongly encouraged to do independent projects at Lakeside and graduate students are welcome to use it as a base for their thesis and dissertation research. Laboratory space and other facilities are available for long-term or short-term research projects. Teaching and research facilities include eight laboratory buildings, a library, and a lecture hall. Living accommodations include cottages, motel-style units, and a large mess hall. All students are encouraged to stay at Lakeside while they are taking courses to take full advantage of its educational, professional, and social life.

Financial Aid

Iowa Lakeside Laboratory Scholarships are available to both undergraduates and graduate students. All scholarships cover room and board. Information about how to apply for Iowa Lakeside Laboratory Scholarships is included on the Website (www.lakesidelab.org). Students should also consult the Student Financial Aid Office for other scholarship, work study, and loan programs for which they are eligible.

Registration

Students can only enroll in Iowa Lakeside Lab courses by submitting an Iowa Lakeside Lab Registration and Scholarship form and Housing form to the Iowa Lakeside Laboratory Administrative Office. These forms are found on the Iowa Lakeside Laboratory Website: (www.lakesidelab.org) where they can be submitted online or downloaded. For further information, contact Iowa Lakeside Laboratory 1838 Highway 86 Milford, IA 51351

Phone: (712) 337-3669
FAX: (712) 337-0361
E-Mail: peter-vanderlinden@uiowa.edu

Early registration is advisable. Because enrollment in Lakeside courses is limited, students should register before May 1 for the following summer session. Housing is also limited and students must apply for housing or indicate that they plan to live off campus at the time of registration.

Courses primarily for undergraduate students

IA LL 293. Natural History Workshop.
Cr. 1-2. SS.
Offered as demand warrants. Five-day-long, nontechnical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.
G. Prairies

Cr. 4. Alt. SS., offered 2013. Prereq: One course in the biological sciences. Introduction to ecology and co-evolution of plants and animals; emphasis on dispersal, pollination, and plant-herbivore interactions; field and laboratory work, reading, discussion.

IA LL 303I. Undergraduate Internships.
(Cross-listed with NREM). Cr. 1-5. SS. Prereq: Permission of instructor and sophomore standing. Placement with county conservation boards, camps, parks, etc. for experience as interpreters, rangers, and technicians.

IA LL 312I. Ecology.
(Cross-listed with A ECL, ENSCI). Cr. 4. SS.
An introduction to the principles of ecology at the population, community and ecosystem level. Field studies of local lakes, wetlands and prairies are used to examine factors controlling distributions, interactions, and roles of plants and animals in native ecosystems.

IA LL 326I. Ornithology.
(Cross-listed with A ECL). Cr. 4. SS.
The biology, ecology, and behavior of birds with emphasis on field studies of local avifauna. Group projects stress techniques of population analysis and methodology for population studies.

IA LL 333. Animals and Their Ecosystems.
(4-0) Cr. 4. Prereq: Introductory biology. Vertebrate and invertebrate animals of the Midwest are observed in nature either through passive observational techniques or active trapping exercises. Once identified, animals are placed in their proper taxonomic position (e., put onto the “Tree of Life”). They also are put into ecological perspective, including habitat preferences (i.e., wetland, lake, prairie, forest, river, edge), trophic position, and activity patterns. Conservation status is discussed. Nonmajor graduate credit.

IA LL 364. Biology of Aquatic Plants.
Cr. 4. Alt. SS., offered 2012. A field-oriented introduction to the taxonomy and ecology of aquatic plants in lakes, wetlands and rivers. Individual or group projects.

IA LL 367. Plant Taxonomy.
Cr. 4. SS.
Principles of classification and evolution of vascular plants; taxonomic tools and collection techniques; use of keys. Field and laboratory studies emphasizing identification of local flowering plants and recognition of major plant families.
IA LL 371I. Introduction to Insect Ecology. (Cross-listed with ENT). (3-3) Cr. 4. Alt. SS., offered 2013. Field and laboratory study of insects, their diversity, life history; emphasis on ecology and behavior.

IA LL 402I. Watershed Hydrology and Surficial Processes. (Cross-listed with AGRON, ENSCI). Cr. 4. SS. Prereq: Four courses in physical or biological sciences or engineering. Effects of geomorphology, soils, and land use on transport of water and materials (nutrients, contaminants) in watersheds. Fieldwork will emphasize investigations of the Iowa Great Lakes watershed. Nonmajor graduate credit.

IA LL 403. Evolution. Cr. 4. SS. Mechanisms and patterns in microevolution and macroevolution. Field exercises will emphasize studies of natural selection, adaptation, genetic variation, and population genetics of local plant and animal populations. Nonmajor graduate credit.

IA LL 404I. Behavioral Ecology. (Cross-listed with A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: Two semesters of biology. Animal coloniality, courtship, territoriality, predator defense, habitat selection, foraging, mating systems, and parental care will be examined in the field in order to evaluate various ecological and evolutionary theories of animal behavior.

IA LL 420I. Amphibians and Reptiles. (Cross-listed with A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: Two semesters of biology. Ecology, behavior, and conservation biology of amphibians and reptiles with emphasis on their anatomy and morphology; temperature and water regulation; locomotion; life history; reproduction; population and community ecology; and conservation.

IA LL 422I. Prairie Ecology. (Cross-listed with ENSCI). Cr. 4. SS. Prereq: Familiarity with basic principles in biological sciences and ecology. Basic patterns and underlying physical and biotic causes of both regional and local distributions of plants and animals of North American prairies; field and laboratory analyses and projects. Nonmajor graduate credit.

IA LL 425I. Aquatic Toxicology and Wetland Dynamics in Freshwater Systems. Cr. 4. SS. Prereq: Introductory biology course and general chemistry course. Fundamental knowledge and understanding of the scientific concepts related to the physio-chemical and biological environment. Problems and issues (global, national, regional, and local) associated with freshwater systems and how wetland restoration can be used to ameliorate problems. Discussion and application of basic tools used to assess aquatic toxicological problems. Nonmajor graduate credit.

IA LL 427I. Archaeology. (Cross-listed with ANTHR). Cr. 4. SS. Nature of cultural and environmental evidence in archaeology and how they are used to model past human behavior and land use; emphasis on Iowa prehistory; basic reconnaissance surveying and excavation techniques. Nonmajor graduate credit.

IA LL 435I. Illustrating Nature I Sketching. (Cross-listed with BPM I). Cr. 2. SS. Sketching plants, animals and terrain. Visual communication, development of a personal style, and integration of typographic and visual elements on a page will be emphasized.

IA LL 436I. Illustrating Nature II Photography. (Cross-listed with BPM I). Cr. 2. SS. Beginning to intermediate technical and compositional aspects of color photography of natural areas and their plants and animals.

IA LL 461I. Introduction to GIS. (Cross-listed with ENSCI, ENV S, L A). Cr. 4. SS. Descriptive and predictive GIS modeling techniques, spatial statistics, and map algebra. Application of GIS modeling techniques to environmental planning and resource management. Nonmajor graduate credit.

IA LL 484. Plant Ecology. Cr. 4. SS. Principles of plant population, community, and ecosystem ecology illustrated through studies of native vegetation in local prairies, wetlands and forests. Group or individual projects. Nonmajor graduate credit.

IA LL 490I. Undergraduate Independent Study. (Cross-listed with ANTHR, NREM). Cr. 1-4. Repeatable. SS. Prereq: Junior or senior classification and permission of instructor.

IA LL 493. Natural History Workshop. Cr. 1-2. SS. Offered as demand warrants. Five day-long, non-technical introductions to a specific aspect of the natural history of the Upper Midwest or techniques for studying natural history.

A. Amphibians and Reptiles
B. Birds and Birding
C. Nature Photography
D. Mushrooms and Other Fungi
E. Iowa’s Trees and Forests
F. Fish Biology
G. Prairies
I. Common Insects
J. Aquatic Plants
K. Life in Rivers
L. Life in Lakes
M. Mosses and Liverworts
N. Natural History of Iowa Great Lakes Region
P. Field Archaeology
Q. Common Algae
S. Scuba Diving
T. Astronomy
U. Sketching Nature
IA LL 494. Ecosystems of North America.  
Cr. 2-4. SS. Prereq: A general ecology course and permission of the instructor  
An extended field trip to study a particular type of ecosystem (prairie, coastal wetland, forest, alpine, coral reefs, etc.) or the ecosystems of a specific region (Rocky Mountains, Gulf Coast, Appalachian Mountains, Deserts of the Southwest, Central America, etc.). Prior to the field trip, there will be an orientation period and after each field trip a review and synthesis period. A field trip fee will be assessed to cover travel expenses. Nonmajor graduate credit.  

IA LL 499. Undergraduate Research.  
Cr. 1-4. Prereq: Junior or senior classification and permission of instructor  

Courses primarily for graduate students, open to qualified undergraduate students  

IA LL 501I. Freshwater Algae.  
(Cross-listed with EEOB). Cr. 4. SS.  
Structure and taxonomy of freshwater algae based on field collected material; emphasis on genus-level identifications, habitats visited include lakes, fens, streams, and rivers; algal ecology.  

IA LL 503. Graduate Internships.  
Cr. 1-5. SS. Prereq: Permission of instructor and graduate standing  
Placement with county conservation boards, camps, parks, schools, etc. for experience as interpreters, rangers, technicians, and teachers.  

IA LL 508I. Aquatic Ecology.  
(Cross-listed with ENSCI, NREM). Cr. 4. SS. Prereq: Courses in ecology, chemistry, and physics  
Analysis of aquatic ecosystems; emphasis on basic ecological principles; ecological theories tested in the field; identification of common plants and animals.  

IA LL 523I. Fish Ecology.  
(Cross-listed with A ECL). Cr. 4. Alt. SS., offered 2012.  
Basic principles of fish interaction with the biotic and abiotic environment. Field methods, taxonomy, and biology of fish with emphasis on the fish fauna of northwestern Iowa.  

IA LL 526I. Advanced Field Ornithology.  
(Cross-listed with A ECL). Cr. 2. SS. Prereq: Concurrent registration in [IA LL 326I]  
Field study of birds of the upper Midwest; extended field trip to Minnesota and Wisconsin; individual or group project.  

IA LL 531I. Conservation Biology.  
(Cross-listed with EEOB, A ECL). Cr. 4. Alt. SS., offered 2012. Prereq: IA LL 312I  
Population-and community-level examination of factors influencing the viability of plant and animal populations from both demographic and genetic perspectives; assessment of biodiversity; design and management of preserves.  

IA LL 532. Analysis of Environmental Data.  
(2-0) Cr. 2. SS. Prereq: An undergraduate course in statistics, understanding of basic concepts such as correlation and regression, and familiarity with PC-based software for data analysis  
Analysis of Environmental Data will provide students with training in the theory and application of a range of statistical techniques useful for the analysis of ecological and paleoecological data. Topics will include data management, exploratory data analysis, regression analysis, direct and indirect ordination methods, classification techniques, transfer functions and the analysis of temporal data. Practical classes will provide hands-on training in the use of statistical and graphical software including R, CANOCO, C2, and TWINSPAN. The course will be directed towards advanced undergraduate, graduate and working professionals in ecology and paleoecology.  

IA LL 535I. Restoration Ecology.  
(Cross-listed with A ECL, ENSCI, EEOB). Cr. 4. Alt. SS., offered 2012. Prereq: A course in ecology  
Ecological principles for the restoration of native ecosystems; establishment (site preparation, selection of seed mixes, planting techniques) and management (fire, mowing, weed control) of native vegetation; evaluation of restorations. Emphasis on the restoration of prairie and wetland vegetation.  

IA LL 563I. Soil Formation and Landscape Relationships.  
(Dual-listed with 463I). (Cross-listed with AGRON, ENSCI). Cr. 4. Alt. SS., offered 2012. Prereq: AGRON 154 or 260  
Burras. Relationships between soil formation, geomorphology, and environment. Soil description, classification, geography, mapping, and interpretation for land use. Credit for only Agron 563 or 563I may be applied for graduation.  

IA LL 564I. Wetland Ecology.  
(Cross-listed with ENSCI, EEOB). Cr. 4. SS. Prereq: IA LL 212I  
Ecology, classification, creation, restoration, and management of wetlands. Field studies will examine the composition, structure and functions of local natural wetlands and restored prairie pothole wetlands. Individual or group projects.  

IA LL 573. Techniques for Biology Teaching.  
(Cross-listed with EEOB, A ECL). Cr. 1-2. Repeatable. SS.  
The development and implementation of laboratory exercises suitable for inclusion in elementary, middle, high school, and community college biology and environmental courses. Exercises will be built around common organisms and ecosystems in Iowa. Field trips.  
A. Animal Biology (Same as A Ecl 573A)  
B. Plant Biology  
C. Fungi and Lichens  
D. Aquatic Ecology  
E. Prairie Ecology  
F. Wetland Ecology  
G. Limnology (Same as A Ecl 573G)  
H. Animal Behavior (Same as A Ecl 573H)  
I. Insect Ecology  
J. Biology of Invertebrates  
K. Non-invasive Use of Living Organisms  
W. Project WET (Same as A Ecl 573W)  

IA LL 575I. Field Mycology.  
(Cross-listed with EEOB). Cr. 4. Alt. SS., offered 2012.  
Identification and classification of the common fungi; techniques for identification, preservation, and culture practiced with members of the various fungi groups.  

(Cross-listed with EEOB). Cr. 4. SS.  
Field and laboratory study of freshwater diatoms; techniques in collection, preparation, and identification of diatom samples; study of environmental factors affecting growth, distribution, taxonomic characteristics; project design and execution including construction of reference and voucher collections and data organization and analysis.  

IA LL 590I. Graduate Independent Study.  
(Cross-listed with A ECL, ANTHR, EEOB). Cr. 1-4. Repeatable. SS. Prereq: Graduate classification and permission of instructor  

IA LL 593. Natural History Workshop.  
Cr. 1-3. Prereq: Permission of instructor  
Graduate workshop on some aspect of the natural history of the Upper Midwest or on techniques for studying natural history.  

Courses for graduate students  

IA LL 699I. Research.  
(Cross-listed with A ECL, ANTHR, EEOB, GDCB). Cr. 1-4. Repeatable.
Molecular, Cellular, and Developmental Biology

Interdepartmental Graduate Major

Undergraduate Study

A special program in molecular, cellular, and developmental biology is not offered for the baccalaureate. Undergraduates wishing to prepare for graduate study in molecular, cellular, and developmental biology should elect courses in biochemistry, biology, genetics, microbiology; and mathematics through calculus; chemistry through organic; and one year of physics.

The following are recommended to undergraduates desiring an introduction to this area:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 313</td>
<td>Principles of Genetics</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 313L</td>
<td>Genetics Laboratory</td>
<td>1</td>
</tr>
<tr>
<td>BIOL 314</td>
<td>Principles of Molecular Cell Biology</td>
<td>3</td>
</tr>
</tbody>
</table>

Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in molecular, cellular, and developmental biology in several cooperating departments: Agronomy; Animal Science; Biochemistry, Biophysics & Molecular Biology; Biomedical Sciences; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Horticulture; Physics & Astronomy; Plant Pathology; Veterinary Microbiology & Preventive Medicine; Veterinary Pathology. Facilities and qualified faculty are available in these departments for conducting fundamental research in the various aspects of molecular, cellular, and developmental biology. Ongoing research projects include molecular and cellular studies of viral, prokaryotic, plant, and animal systems.

Students may enter the MCDB major in one of two ways: they may apply to and be accepted into the major directly or they may formally apply to and be accepted into the major after being accepted by a participating department. Students admitted into MCDB will take MCDB 697 Graduate Research Rotation in their first two semesters and choose a major professor from the participating faculty by the end of their second semester. Students admitted by a department will choose a major professor from the participating faculty in that department. All Ph.D. students take a core curriculum consisting of the following courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCDB 511</td>
<td>Molecular Genetics</td>
<td>3</td>
</tr>
<tr>
<td>MCDB 520</td>
<td>Genetic Engineering</td>
<td>3</td>
</tr>
<tr>
<td>MCDB 545</td>
<td>Plant Molecular Biology</td>
<td>3</td>
</tr>
<tr>
<td>MICRO 502</td>
<td>Microbial Genetics</td>
<td>3</td>
</tr>
<tr>
<td>MCDB 676</td>
<td>Biochemistry of Gene Expression in Eucaryotes</td>
<td>2</td>
</tr>
<tr>
<td>V MPM 608</td>
<td>Molecular Virology</td>
<td>3</td>
</tr>
</tbody>
</table>

In seminar, students will make journal and research presentations and attend MCDB seminars.

M.S. students take the above core but may delete either the molecular genetics, cell biology, or developmental biology component. Additional coursework is selected to meet departmental requirements and to satisfy individual student research interests. All graduate students are required to teach as part of their training for an advanced degree.

Students minoring in molecular, cellular, and developmental biology at the Ph.D. level must meet the following requirements:

One year of biochemistry (one of the following):  |  
BBMB 404 & BBMB 405 & BBMB 501 & BBMB 502  |  
Biochemistry I & Biochemistry II & Comprehensive Biochemistry I & Comprehensive Biochemistry II

One course in each of two of the three areas of molecular biology listed below:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MCDB 511</td>
<td>Molecular Genetics</td>
<td></td>
</tr>
<tr>
<td>MCDB 520</td>
<td>Genetic Engineering</td>
<td></td>
</tr>
</tbody>
</table>

Courses primarily for graduate students

MCDB 511. Molecular Genetics.
(Cross-listed with GDCB). (3-0) Cr. 3. S. Prereq: BIOL 313 and BBMB 405
The principles of molecular genetics: gene structure and function at the molecular level, including regulation of gene expression, genetic rearrangement, and the organization of genetic information in prokaryotes and eukaryotes.

MCDB 512. Plant Growth and Development.
(Cross-listed with GDCB, PLBIOL). (2-0) Cr. 2. S. Prereq: BIOL 330 or a course in developmental biology; GDCB 545 or BBMB 404, 405 or GDCB 520

MCDB 520. Genetic Engineering.
(Cross-listed with GDCB, BBMB). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Gen 411 or BBMB 405
Strategies and rationale of recombinant DNA technologies. The methodology of genetic engineering in basic research and implications for applied research will be considered. Topics include: basic tools of molecular cloning, targeted mutagenesis, fluorescent proteins, protein expression systems, and transgenic model systems.

MCDB 528. Advances in Molecular Cell Biology.
(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: Courses in general cell biology and biochemistry
Cell biological processes including cell signaling, cell division, intracellular trafficking, biogenesis of organelles, cell adhesion and motility.

(Cross-listed with GDCB). (2-0) Cr. 2. Alt. F., offered 2011. Prereq: BIOL 313, 314, 330 or BBMB 405
Organization, function, and development of plant cells and subcellular structures.

(Cross-listed with GDCB). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314
Fundamental principles in multicellular development. Emphasis on cellular and molecular regulation of developmental processes, and experimental approaches as illustrated in classical studies and current literature.

MCDB 545. Plant Molecular Biology.
(Cross-listed with GDCB, PLBIOL). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: BIOL 314, 330

MCDB 590. Special Topics.
Cr. arr. Repeatable.

MCDB 676. Biochemistry of Gene Expression in Eucaryotes.
(Cross-listed with BBMB). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: BBMB 404 or 501, 405 or 502 or GDCB 511
Analysis of the biochemical processes involved in expression of eucaryotic genes and the regulation thereof, including RNA polymerase, transcriptional regulatory proteins, enhancers and silencers, chromosome structure, termination, RNA processing, RNA transport, RNA turnover, translational regulation, protein turnover.
**MCDB 697. Graduate Research Rotation.**
Cr. 1-6. Repeatable. F.S.
Graduate research projects performed under the supervision of selected faculty members in the molecular, cellular, and developmental biology program.

**MCDB 698. Seminar in Molecular, Cellular, and Developmental Biology.**
(Cross-listed with BBMB, GDCB, MICRO, V MPM). (2-0) Cr. 1-2. Repeatable. F.S.
Student and faculty presentations.

**MCDB 699. Research.**
Cr. arr. Repeatable.
Graduate Study

Work is offered for the master of science and doctor of philosophy degrees with a major in neuroscience. Cooperating departments include Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemical and Biological Engineering; Chemistry; Ecology, Evolution and Organismal Biology; Genetics, Development and Cell Biology; Kinesiology; and Psychology.

Facilities and faculty are committed to research in the following areas: neuronal membrane functions, signal transduction, neuroanatomy, neurodegenerative diseases, neuroendocrinology, neurotoxicology, neuropathology, developmental neurobiology, neurogenetics, computational neuroscience, neural networks, and behavioral neuroscience.

An undergraduate or advanced degree in the sciences is ordinarily a prerequisite for admission to the program. A student majoring in neuroscience will select a major professor from the faculty participating in the program.

All students take a core curriculum consisting of:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NEURO 556</td>
<td>Cellular, Molecular and Developmental Neuroscience</td>
<td>3</td>
</tr>
<tr>

</tr>
</tbody>
</table>

Courses for graduate students

**NEURO 556. Cellular, Molecular and Developmental Neuroscience.**
(Cross-listed with GDCB, B M S). (3-0) Cr. 3. F. Prereq: BIOL 335 or BIOL 436; physics recommended
Fundamental principles of neuroscience including cellular and molecular neuroscience, nervous system development, sensory, motor and regulatory systems.

**NEURO 557. Advanced Neuroscience Techniques.**
(Cross-listed with GDCB). (2-0) Cr. 2. Alt. S., offered 2013. Prereq: NEURO 556 or equivalent course
Research methods and techniques; exercises and/or demonstrations representing individual faculty specialties.

**NEURO 661. Current Topics in Neurobiology.**
(Cross-listed with GDCB, BBMB). Cr. 2-3. Repeatable. Alt. S., offered 2012. Prereq: NEURO 556 (or comparable course) or permission of instructor.
Topics may include molecular and cellular neuroscience, neurodevelopment, neuroplasticity, neurodegenerative diseases, sensory biology, neural integration, membrane biophysics, neuroethology, techniques in neurobiology and behavior.
(Interdepartmental Graduate Major)

The Interdepartmental Plant Biology major (IPB) coordinates graduate education and research in the areas of plant biology including but not limited to plant biochemistry, plant cellular and molecular biology and plant physiology. Graduate study in IPB, leading to the M.S. and Ph.D. Degrees, is offered through eight participating departments: Agronomy, Biochemistry, Biophysics & Molecular Biology, Chemical and Biological Engineering, Chemistry, Ecology, Evolution and Organismal Biology, Genetics Development & Cell Biology, Horticulture, and Plant Pathology.

Research conducted by the faculty and students of the major represents both basic and applied aspects of plant physiology, biochemistry and molecular biology. The experimental approaches represented in the major span the range of complexity from molecular studies, to cellular, organismal and the ecological level (crop monocultures and natural populations). Graduates have a broad understanding of basic, functional plant biology with emphases on fundamental biology, biochemistry, and molecular biology. They are able to address complex research and policy problems in agriculture, biotechnology, and basic plant biology.

All M.S. candidates take a core curriculum comprising courses recommended from the following four categories, attend research seminars, research credits (PLBIO 699 Research), annual Loomis Distinguished Lecture in Plant Biology and mini-symposium and retreats. Students will take additional courses of interest as directed by their Program of Study (POS) Committee members.

A total of 36 credits including a minimum of 16 course credits are required for a M.S.

(1) Complete the following core courses:

In addition to the required core courses, a wide selection of courses is
available to IPB graduate students for broadening their scientific educa-
tion. Decisions about which courses are taken and when they are taken
are made by the student, initially in consultation with his or her tempo-
rary advisor, and then with his or her major advisor and eventually with
the POS Committee, which also serves as the Thesis or Dissertation
Committee.

Courses for graduate students

PLBIO 512. Plant Growth and Development.
(Cross-listed with GDCB, MCDB). (2-0) Cr. 2. S. Prereq: BIOL 330 or
a course in developmental biology; GDCB 545 or BBMB 404, 405 or
GDCB 520
Plant growth and development and its molecular genetic regulation.
Hormone biosynthesis, metabolism, and action. Signal transduction in
plants.

PLBIO 513. Plant Metabolism.
(Cross-listed with GDCB). (2-0) Cr. 2. F. Prereq: BIOL 330, PHYS 111,
CHEM 331; one semester of biochemistry recommended
Photosynthesis, respiration, and other aspects of plant metabolism.

PLBIO 545. Plant Molecular Biology.
(Cross-listed with GDCB, MCDB). (3-0) Cr. 3. Alt. F., offered 2011. Prereq:
BIOL 314, 330
Organization and function of plant nuclear and organelle DNA; regula-
Impact of plant biotechnology on agriculture.

PLBIO 696. Research Seminar.
(Cross-listed with AGRON, BBMB, GDCB, HORT, FOR). Cr. 1. Repeatable.
F.S.
Research seminars by faculty and graduate students. Offered on a satis-
factory-fail basis only.

PLBIO 699. Research.
Cr. arr. Repeatable.
Toxicology is the science of studying the adverse effects of substances on living organisms. Students observe, gather data and predict risks and outcomes in populations. Whole organism research and cellular and molecular approaches are used to determine toxicant exposure and mechanisms. Work is offered for the degrees doctor of philosophy and master of science. Students majoring in toxicology will be affiliated with one of the following cooperating departments: Agricultural and Biosystems Engineering; Animal Science; Biochemistry, Biophysics and Molecular Biology; Biomedical Sciences; Chemistry; Entomology; Food Science and Human Nutrition; Genetics, Development and Cell Biology; Geophysical and Atmospheric Sciences; Natural Resource Ecology and Management; Physics; Plant Pathology; Veterinary Diagnostic and Production Animal Medicine; Veterinary Microbiology and Preventive Medicine; and Veterinary Pathology.

The prerequisites for entrance into the graduate toxicology major include an undergraduate degree in a relevant area of study; for example, chemical engineering, biology, biochemistry, chemistry, ecology, entomology, food science and technology, microbiology, nutritional science, zoology, or veterinary medicine. Minimum undergraduate coursework should include the following or their equivalent:

- 1 year of college mathematics, including calculus
- 1 year of inorganic chemistry with quantitative analysis
- 1 course in physics
- 1 year of organic chemistry
- 2 years of biological sciences including 1 course in physiology

Other courses that are considered desirable in undergraduate preparation include: biochemistry, physical chemistry, qualitative analysis, and some specialized courses such as histology or advanced physiology.

Facilities and faculty are available for fundamental research in such areas as environmental fate and effects of chemicals, insect toxicology, aquatic toxicology, food safety, nutritional toxicology, mycotoxins, neurotoxicology, cellular and molecular toxicology and veterinary toxicology.

Students majoring in toxicology will be affiliated with a cooperating department. All Ph.D. students take a core curriculum consisting of:

- TOX 501 Principles of Toxicology 3
- TOX 502 Toxicology Methods 3
- TOX 504 Toxicology Seminar (taken twice) 1
- 7 additional credits in toxicology 7
- 8 credits in biochemistry 8
- BBMB 404 Biochemistry I
- BBMB 405 Biochemistry II
- BBMB 420 Physiological Chemistry
- BBMB 542 Introduction to Molecular Biology Techniques
- 3 credits in physiology, histology, pathology, neuroscience, immunobiology or cellular and molecular biology
- STAT 401 Statistical Methods for Research Workers 4
- STAT 402 Statistical Design and the Analysis of Experiments 3

M.S. students take a core of:

- TOX 501 Principles of Toxicology 3
- TOX 502 Toxicology Methods 3
- TOX 504 Toxicology Seminar 1
- 3 additional credits in toxicology 3
- BBMB 404 Biochemistry I
- BBMB 405 Biochemistry II
- STAT 401 Statistical Methods for Research Workers 4

Additional coursework is selected to meet departmental requirements and to satisfy individual student research interests.

A graduate minor in toxicology is available for students enrolled in other majors.

A minor for an M.S. degree includes:

- TOX 504 Toxicology Seminar 1
- TOX 501 Principles of Toxicology 3
- 3 credits in other toxicology courses 3

A minor at the Ph.D. level includes:

- TOX 504 Toxicology Seminar 1
- TOX 501 Principles of Toxicology 3
- 6 credits in other toxicology course work 6

One member of the student’s program of study committee will be a member of the toxicology faculty.

Most students awarded doctoral degrees continue their training as post-doctoral associates at major research institutions in the U.S. or abroad in preparation for research and/or teaching positions in academia, industry, the military, veterinary research, or government environmental and public health institutions. A few go directly to permanent research positions in industry. Many students awarded master’s degrees continue their training as doctoral students; however, some choose research support positions (i.e., technician, chemist, research associate) in academia, industry, or government. A more thorough list of outcomes is available at our Web site.

Graduates of the Toxicology major will be able to carefully design, execute and analyze experiments that extend the knowledge of toxicology and closely related sciences. They will be able to clearly communicate research findings, and thoroughly evaluate the literature of toxicology, contributing significantly to the advancement of the field.

Courses primarily for undergraduate students.

**TOX 419. Foodborne Hazards.**  
(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: MICRO 201 or 302, a course in biochemistry. Pathogenesis of human microbiological foodborne infections and intoxications, principles of toxicology, major classes of toxicants in the food supply, governmental regulation of foodborne hazards. Nonmajor graduate credit. Only one of Tox 419 and 519 may count towards graduation.

**TOX 420. Food Microbiology.**  
(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. F. Prereq: MICRO 201 or 302. Effects of microbial growth in foods. Methods to control, detect, and enumerate microorganisms in food and water. Foodborne infections and intoxications. Nonmajor graduate credit.

Courses primarily for graduate students, open to qualified undergraduate students

**TOX 501. Principles of Toxicology.**  
(3-0) Cr. 3. F. Prereq: BBMB 404 or equivalent. Principles of toxicology governing entry, fate, and effects of toxicants on living systems. Includes toxicokinetics and foreign compound metabolism relative to toxification or detoxification. Fundamentals of foreign compound effects on metabolism, physiology, and morphology of different cell types, tissues, and organ systems.
TOX 502. Toxicology Methods.
(0-6) Cr. 3. Alt. S., offered 2012. Prereq: 501
Provides demonstrations or laboratory experience in the application of methods used in toxicology, including safety procedures, calculation and data analysis, teratologic and morphologic evaluation, cellular/molecular toxicological techniques, electrophysiologic measures, in vitro enzyme induction/biotransformation, neural and behavioral toxicology testing.

TOX 504. Toxicology Seminar.
(1-0) Cr. 1. Repeatable, maximum of 2 credits. F.S.S. Prereq: Permission of instructor required
Presentation of a seminar about a current topic in toxicology as part of a weekly series of seminars by graduate students, faculty, and guest lecturers from off campus.

TOX 506. Diet and cancer prevention.
(Cross-listed with NUTRS). (1-0) Cr. 1. Alt. F., offered 2012. Prereq: BBMB 404 and 405 or BBMB 420
Principles of cancer biology and cancer etiology will be integrated with the impacts of diet on cancer development and prevention. Contributions of research with humans, animals, cultured cells and cell free systems will be included. The importance of dietary contaminants, macronutrients and micronutrients will be examined with an emphasis on the strength of the evidence and mechanisms of action.

TOX 515. Regulatory Toxicology.
(Cross-listed with FS HN). (1-0) Cr. 1. Alt. F., offered 2012. Prereq: BBMB 404 or FSHN 403
Regulatory toxicology in the real world. Approaches used by toxicologists in regulatory agencies for generating, enforcing and complying with laws and regulations in an unambiguous, defensible manner. Different obligations of scientists in research and regulatory settings. Perform simple risk assessments and suggest ways of dealing with data gaps. Examine strengths and weaknesses of common approaches used by regulatory agencies.

TOX 519. Food Toxicology.
(Cross-listed with FS HN, NUTRS). (3-0) Cr. 3. Alt. F., offered 2012. Prereq: A course in biochemistry
Basic principles of toxicology. Toxicants in the food supply: modes of action, toxicant defense systems, toxicant and nutrient interactions, risk assessment. Only one of TOX 419 and 519 may count toward graduation.

TOX 526. Veterinary Toxicology.
(Cross-listed with VDPAM). (3-0) Cr. 3. S. Prereq: Permission of instructor
Study of toxicological diseases of domestic animals emphasizing clinical recognition, circumstances of poisoning, differential diagnosis with clinical and laboratory data, therapeutic procedures, preventive management and public health implications. Supplemented with case-based materials.

TOX 529. Foodborne Toxicants.
(Cross-listed with FS HN). (2-0) Cr. 2. Alt. F., offered 2011. Prereq: a course in biochemistry
Mechanisms of action, metabolism, sources, remediation or detoxification, risk assessment of major foodborne toxicants of current interest, design of HACCP plans for use in food industries targeting foodborne toxicants. Taught online only.

TOX 546. Clinical and Diagnostic Toxicology.
(Cross-listed with VDPAM). (0-3) Cr. 1-3. Repeatable. F.S.S. Prereq: D.V.M. degree or 526
Advanced study of current problems and issues in toxicology. Emphasis on problem solving utilizing clinical, epidemiological, and laboratory resources.

(Cross-listed with ENT). (2-0) Cr. 2. S. Prereq: 9 credits of biological sciences
Coats. Fate and significance of pesticides in soil, water, plants, animals, and the atmosphere.

TOX 554. General Pharmacology.
(Cross-listed with B M S). (3-0) Cr. 3. S. Prereq: BMS 549 and 552; BBMB 404, 405
General principles; drug disposition; drugs acting on the nervous, cardiovascular, renal, gastrointestinal, and endocrine systems.

TOX 565. Methods of Biostatistics.
(Cross-listed with STAT). (3-0) Cr. 3. Alt. F., offered 2011. Prereq: STAT 500 or 401; STAT 543 or 447
Statistical methods useful for biostatistical problems. Topics include analysis of cohort studies, case-control studies and randomized clinical trials, techniques in the analysis of survival data and longitudinal studies, approaches to handling missing data, and meta-analysis. Examples will come from recent studies in cancer, AIDS, heart disease, psychiatry and other human and animal health studies. Use of statistical software: SAS or R.

TOX 570. Risk Assessment for Food, Agriculture and Veterinary Medicine.
(Cross-listed with AGRON, VDPAM). (3-0) Cr. 3. F. Prereq: 10 credits in biological science and permission of instructor
A multi-instructor course covering major topics in cell structure and function, including: universal features of prokaryotic and eukaryotic cells, types of utilization and conversion of energy, genetic control of cell shape and functionality, internal organization of cells, communication between cells and their environment, development of multicellular systems. Students have to write a term paper.

TOX 590. Special Topics.
Cr. arr. Repeatable.
Contact individual faculty for special projects or topics. Graded.

Courses for graduate students

TOX 626. Advanced Food Microbiology.
(Cross-listed with FS HN, MICRO). (3-0) Cr. 3. Alt. S., offered 2013. Prereq: FS HN 420 or 421 or 504
Topics of current interest in food microbiology, including new foodborne pathogens, rapid identification methods, effect of food properties and new preservation techniques on microbial growth, and mode of action of antimicrobials.

TOX 627. Rapid Methods in Food Microbiology.
(Cross-listed with FS HN, MICRO). (2-0) Cr. 2. Alt. S., offered 2012. Prereq: FS HN 420 or 421 or 504
Provides an overview of rapid microbial detection methods for use in foods. Topics include historical aspects of rapid microbial detection, basic categories of rapid tests (phenotypic, genotypic, whole cell, etc.), existing commercial test formats and kits, automation in testing, sample preparation and "next generation" testing formats now in development.

TOX 656. Cellular and Molecular Pathology II.
(Cross-listed with V PTH). (3-0) Cr. 3. Alt. S., offered 2012. Prereq: Graduate course in biochemistry, genetics, or cell biology
Cellular and molecular mechanisms of carcinogenesis.

TOX 675. Insecticide Toxicology.
(Cross-listed with ENT). (2-3) Cr. 3. Alt. F., offered 2011. Prereq: 501 or ENT 555
Coats. Principles of insecticide toxicology; classification, mode of action, metabolism, and environmental effects of insecticides.
TOX 697. Graduate Research Rotation.
(0-12) Cr. 1-12. Repeatable, maximum of 3 times. F.S.S. Prereq: Admission to Toxicology graduate program
Graduate research projects performed under the supervision of selected faculty members in the graduate Toxicology major.

TOX 699. Research.
Cr. arr. Repeatable.
Transportation

(Interdepartmental Graduate Major)

Work is offered for the degree master of science with a major in transportation under a cooperative arrangement with various departments including Civil, Construction and Environmental Engineering (CCEE), Community and Regional Planning (CRP), and Logistics, Operations and Management Information Systems (LOMIS). Opportunities are afforded for research in such areas as modeling and performance of transportation systems, highway safety and information systems, remote sensing, environmental analysis, techniques for urban and regional transportation system planning, environmental and social policy analysis of transportation systems, transportation policy analysis, analysis of transportation technologies, commodity distribution, public administration of the transportation planning process, regional development and transportation system interrelationships, transportation economics and finance, and planning for logistics management.

Students majoring in transportation will develop a program of study under the guidance of a program of study committee selected by the student in consultation with and approved by the chair of the faculty supervisory committee. For administrative purposes, the student’s home department will be the department originally admitting the student. A major professor may be selected from any of the three participating departments. A student must designate at least one member of the POS committee from his or her home department, and at least one member from outside the home department.

A student must complete at least 36 credits of acceptable work including preparation of a 6 credit thesis or a 2-3 credit creative component. A structured minor requires 12 credits of approved transportation courses and a thesis or creative component on a transportation related topic.

A required core includes:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>C E 551</td>
<td>Urban Transportation Planning Models</td>
<td>3</td>
</tr>
<tr>
<td>TRANS 691</td>
<td>Seminar in Transportation Planning</td>
<td>1-3</td>
</tr>
<tr>
<td>STAT 401</td>
<td>Statistical Methods for Research Workers</td>
<td>4</td>
</tr>
</tbody>
</table>

one course from all three cooperating departments (CRP, CCEE, and LOMIS)

Detailed requirements are available from the chair of the supervisory committee.

Graduate students pursuing a major in any of the cooperating departments who have an interest in transportation are encouraged to consider a formal declared minor in transportation. Students considering a declared minor should consult with the chair of the supervisory committee about the requirements for it.

Students typically focus their program of study to support a career in one of five areas: transportation consulting, regional and statewide transportation planning, transportation service operations and management, transportation policy and economic analysis, and transportation planning and operation for local and state governments. Graduates will have specific knowledge in one or more of these focus areas and the skills to conduct research and analysis of transportation issues. These skills allow graduates to be productive immediately in positions related to a focus area or to continue in more advanced transportation graduate work.

Courses primarily for graduate students

TRANS 555. Economic Analysis of Transportation Investments.
(3-0) Cr. 3. F. Prereq: C E 350 or 355
Application of economic analysis methodologies to evaluate transportation projects. Multi-modal approaches to evaluate impacts of transportation investments and maximize economic efficiency while considering equity and other social issues related to investment options.

TRANS 599. Creative Component.
Cr. 1-3. Prereq: Pre-enrollment contract required
Advanced topic for creative component report in lieu of thesis.

TRANS 691. Seminar in Transportation Planning.
Cr. 1-3. Repeatable. S.
Provides an overview of current transportation issues; lecturers provide seminars on a variety of timely transportation topics.

TRANS 699. Research.
Cr. arr. Repeatable.
Courses primarily for undergraduate students.

U ST 101. First Year Seminar I. 
(1-0) Cr. 1. F.S. Prereq: Acceptance/participation in appropriate learning community or special program.
Orientation to the university focusing on student transition, acclimation to university, exposure to campus resources, and student success strategies. Exploration of topical issues associated with specific learning community or program focus. Offered on a satisfactory-fail basis only.
A. Hixson Scholars
B. MVP Award
C. Science Bound
D. CHAMPS Program
E. Student Support Services Program

U ST 102. First Year Seminar II. 
(1-0) Cr. 1. S. Prereq: U ST 101 or instructor permission.
Acceptance/participation in appropriate learning community. Continued exploration of university services, strategies for student success, leadership, and acclimation to university. Exploration of issues associated with learning community focus. Offered on a satisfactory-fail basis only.
A. MVP Award
B. Science Bound

U ST 105. Carver Academy Seminar: Freshmen. 
(1-0) Cr. 1. F. Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient.
Orientation to the university for Carver Academy students focusing primarily on transition and acclimation to the university environment. Individual and group identity development. Life and legacy of George Washington Carver. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

U ST 106. Carver Academy Seminar: Freshmen. 
(1-0) Cr. 1. S. Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient.
Introduction for Carver Academy students to resources at ISU to supplement classroom learning. Exploration of multicultural communities and leadership opportunities at ISU. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

U ST 201. WISE Success Seminar. 
(1-0) Cr. 1. F.S. Prereq: Participation in Women in Science and Engineering Sophomore or Transfer Learning Community.
Exploration of individual leadership styles, career opportunities, personal values as they relate to career possibilities, and issues facing women in the workplace. Offered on a satisfactory-fail basis only.

(1-0) Cr. 1. F. Prereq: 106, intended primarily for sophomores.
Leadership and peer mentor training for Carver Academy students who will be serving as peer mentors in Carver Academy. Definitions and analysis of diversity in academia. Academic portfolio preparation and career exploration. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

(1-0) Cr. 1. S. Prereq: 106, intended primarily for sophomores.
Development of leadership and mentoring skills. Survey of leadership in diverse communities in the U.S. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

U ST 290. Independent Study. 
Cr. arr. Prereq: Permission of the associate provost for academic programs.
Independent study on topics of an interdisciplinary nature. Intended primarily for freshmen and sophomores.
Meets U.S. Diversity Requirement

U ST 301. McNair Scholars Seminar: Orientation to the McNair Program and to Academic Research. 
(0-2) Cr. 1. F. Prereq: New fall admit to the Ronald E. McNair Postbaccalaureate Achievement Program.
Covers program guidelines and requirements, the basics of preparing for the graduate admissions process, and the formulation of a research topic to begin the required research project. Offered on a satisfactory-fail basis only.

(0-2) Cr. 1. S. Prereq: 301.
Covers the review of literature and the methodology components of the required research project. Offered on a satisfactory-fail basis only.

U ST 305. Carver Academy Seminar: Community Leaders. 
(1-0) Cr. 1. F. Prereq: Intended primarily for juniors.
Leadership development for Carver Academy students; frameworks for multicultural leadership. Students will research and assess needs for community enhancement projects under faculty supervision. Offered on a satisfactory-fail basis only.

(1-0) Cr. 1. S. Prereq: Intended primarily for juniors.
Leadership development for Carver Academy students; self-directed development of leadership abilities. Implement student-directed community enhancement projects under faculty supervision. Begin preparation for graduate and professional schools and career placement. Offered on a satisfactory-fail basis only.

U ST 311. Leaders Seminar I. 
For students serving as peer mentor first-year seminar leaders under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.
A. Leaders in Hixson Seminar
B. Leaders in MVP Seminar

U ST 312. Leaders Seminar II. 
(1-0) Cr. 1. Repeatable. Prereq: 311.
For students serving as leaders in Hixson Seminar or MVP Seminar under faculty supervision. Development of course facilitation and peer leadership skills. Offered on a satisfactory-fail basis only.
A. Leaders in Hixson Seminar
B. Leaders in MVP Seminar

Associate Provost for Academic Programs

Certain interdisciplinary courses are offered through university studies, at the discretion of the associate provost for academic programs and upon the advice of the Faculty Senate Curriculum Committee. No major is available in university studies, but credit obtained through university studies offerings may be applied toward a degree in any of the colleges, consistent with the stipulations of the student’s curriculum.

Requests to make use of U ST 290, U ST 490, U ST 590 should be directed to the associate provost for academic programs and should be accompanied by a positive recommendation from the department heads and deans of the instructors making the request. The associate provost for academic programs will refer requests to the Faculty Senate Curriculum Committee which will make recommendations to the associate provost for academic programs regarding their disposition after consultation with appropriate college and university committees.
U ST 321. NCORE Scholars: Race and Ethnicity in the U.S.
(2-2) Cr. 3. F. Prereq: Selection as an NCORE Student Scholar and attendance at NCORE.
Exploration of issues of race and ethnicity in the United States.
Meets U.S. Diversity Requirement

U ST 401. McNair Scholars Seminar: Data Collection and Data Analysis.
(0-2) Cr. 1. F. Prereq: 302
Covers the data collection and data analysis sections of the required research project. Offered on a satisfactory-fail basis only.

(0-2) Cr. 1. S. Prereq: 401
Final course for second year scholars. Covers data analysis, data clean up, and the writing of the final project. Offered on a satisfactory-fail basis only.

U ST 405. Carver Academy Seminar: Fellows.
(1-0) Cr. 1. F. Prereq: Intended primarily for seniors
Continued preparation for graduate school, professional school and/or chosen profession. Research project experience with faculty mentor is required. Offered on a satisfactory-fail basis only.

(1-0) Cr. 1. S. Prereq: Intended primarily for seniors
Oral and written presentation of research under faculty supervision. Offered on a satisfactory-fail basis only.

U ST 490. Independent Study.
Cr. arr. Repeatable. Prereq: Permission of the associate provost for academic programs
Independent study on topics of an interdisciplinary nature. Intended primarily for juniors and seniors.

Courses primarily for graduate students, open to qualified undergraduate students

U ST 590. Special Topics.
Cr. arr. Repeatable. Prereq: Permission of graduate college
Independent study on topics of an interdisciplinary nature. Intended primarily for graduate students.
Interdepartmental Graduate Major

Undergraduate Study
The undergraduate major in zoology is no longer available to new students. Those wishing to pursue an undergraduate degree in basic animal study are encouraged to investigate the numerous possibilities available to them at Iowa State University. The undergraduate Biology Program, jointly administered by faculties of the departments of Ecology, Evolution, and Organismal Biology (EEOB) and Genetics, Development and Cell Biology (GDCB), includes a wide spectrum of opportunities for students to develop their academic interests through the study of animal biology. Contact the Biology Program office for more information, or see www.biology.iastate.edu for more information. For those students interested in applied animal study, undergraduate majors in Animal Science and Entomology are available.

Graduate Study
The Zoology Graduate Program is closed to new students. Prospective students should contact the Genetics, Development and Cell Biology (GDCB) Graduate Program Director of Graduate Education for specific details about the program’s status.

Related interdepartmental graduate majors in Ecology and Evolutionary Biology, Genetics, Immunobiology, Molecular, Cellular, and Developmental Biology, Neuroscience, and Toxicology should be investigated as possible alternative graduate programs.
Course Prerequisite

A prerequisite indicates the specific academic background or general academic maturity considered necessary for the student to be ready to undertake the course. Prerequisites are usually stated in terms of specific courses, but equivalent preparation is usually acceptable. An instructor may, however, direct a student whose background does not meet the stated prerequisite, or its equivalent, to drop the course.

Conversely, an instructor may waive the prerequisite for a course for which he or she is responsible. Thus, permission of the instructor is understood to be an alternate to the stated prerequisites in all courses.

It is university policy that the instructor shall inform the students at the beginning of each course if students who have not met the prerequisite requirements must drop the course. Course prerequisites are listed in the Schedule of Classes as well as in the Courses and Programs section of this publication.

Cross-listed Courses

A course, including its complete description, may be listed in two or more departments. The participating department or departments are noted in parentheses. Credit for the course may be obtained through any of the cross-listed departments.

Dual-listed Courses

Dual-listed courses permit undergraduate and graduate students to be in the same class but to receive credit under two different course numbers. Credit in the graduate course is not available to students who have received credit in the corresponding undergraduate course. Both graduates and undergraduates receive the same amount of credit for the course, but additional work is required of all graduate students taking the course under the graduate-level course number. This extra work may take the form of additional reading, projects, examinations, or other assignments as determined by the instructor. The instructor must be a member of the Graduate Faculty or a Graduate Lecturer. Each dual-listed course is designated in the catalog with the phrase "Dual-listed with," although the student’s official transcript of credits, both graduate and undergraduate, does not identify dual-listed courses as such. There is a limit to the number of dual-listed course credits that may be used to meet the requirement for an advanced degree. (For information about procedures for requesting permission to offer dual-listed courses, faculty should consult the Graduate Faculty Handbook.)

Off-campus courses-Residential Credit

Iowa State University offers distance education courses over the Iowa Communications Network (ICN), by videotape and on the World Wide Web. These courses are the same as those offered on campus, carry residential credit, and are taught by ISU faculty members. Credit earned in off-campus courses becomes a part of the student’s academic record at Iowa State University and may be used to meet degree requirements in the same manner as credit earned on campus.

Priority Enrollment

High demand for courses in certain areas has necessitated enrollment management for some courses. When enrollment priority is established for a course, first consideration is given to students whose curriculum/ major explicitly requires the course.

Special Course Fees

Courses for which special course fees are assessed are designated in the Schedule of Classes. Special course fees may be assessed for such extraordinary costs as materials fees (which may include consumable materials or equipment replacement), field trip expenses, developmental Math fees, and camp fees. In some cases, special course fee amounts vary from term to term. Additional information on camp fees and the developmental Math fee may be found in the fees and expenses section. See Index, Fees.

Graduate Programs

Graduate Major

A major in the Graduate College is the area of academic professional concentration, approved by the Board of Regents, in which the student chooses to qualify for the award of a graduate degree.
Graduate Area of Specialization
Areas of specialization are indicated in the graduate statements of some departments. This is a subdivision of a major in which a strong graduate-level program is available. When approved by the Graduate College, such areas of specialization are shown parenthetically after the major on official records, including transcripts and thesis/dissertation title pages.

Interdepartmental Programs
Interdepartmental programs are available at both graduate and undergraduate levels. An interdepartmental program is an administrative structure usually not functioning as a department, ordinarily headed by a supervisory committee, and offering a degree with major(s) in that subject area. Interdepartmental programs have been officially approved and may offer courses.

Nonmajor Graduate Credit
All courses included on the Program of Study of a graduate student must be approved by the student’s program of study committee. Usually courses in the major are selected from 500- and 600-level courses in the major. Courses outside of the major can be selected from other 500- and 600-level courses and from 300- and 400-level courses which have been approved for nonmajor graduate credit. In the catalog, the approved 300- and 400-level courses are indicated by the words “Nonmajor graduate credit” in the course description.

Entry Level Courses

ACCT 215. Legal Environment of Business.
(3-0) Cr. 3. F.S.S. Prereq: Sophomore classification
General history, structure, and principles of law. The legal system, as an agency of social control; good business practices, and tool for change. The court systems, Constitution, torts, contracts, administrative agencies, and agency law.

(3-0) Cr. 3. F.S.S. Prereq: 15 hours of credit at ISU or sophomore standing
Introduction to the basic concepts and procedures of financial accounting from a user perspective. The course examines the accounting cycle, business terminology, basic control procedures, and the preparation and evaluation of financial reports, with an emphasis on financial statement analysis.

AF AM 201. Introduction to African American Studies.
(3-0) Cr. 3. F.S.
An interdisciplinary introduction to the study of African American culture. Includes history, the social sciences, literature, religion, and the arts, as well as conceptual frameworks for investigation and analysis of the African American experience.

Meets U.S. Diversity Requirement

AFAS 101. Introductory Leadership Laboratory I.
(0-2) Cr. 1. F. Prereq: Membership as a Cadet in AFROTC
Introduction to Air Force customs and courtesies; drill and ceremonies, issuing military commands, physical training, studying the environment of an Air Force officer and learning about areas of opportunity available to commissioned officers. Offered on a satisfactory-fail basis only.

(1-0) Cr. 1. F.

(0-2) Cr. 1. Repeatable. F.S. Prereq: Membership as a cadet in AFROTC
Use of basic military training skills and instruction to develop confidence, leadership, communication skills and physical fitness. The team approach is utilized in the instruction and application of Air Force physical fitness requirements. Students will learn various Air Force physical fitness techniques as well as how to conduct physical fitness sessions. Full participation in all events will be determined based on student’s physical and medical eligibility. Offered on a satisfactory-fail basis only.

(2-3) Cr. 3. F.S.
Mullen. A foundation course in agronomy applying crop, soil, and environmental sciences in understanding agricultural systems in the world. Includes introductory concepts of plant, soil, tillage, pest, environmental, and sustainable aspects of crop production. Off-campus version offered through internet by interactive computer courseware.

AGRON 120. Introduction to Renewable Resources.
(Cross-listed with ENV S, NREM). (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

(2-2) Cr. 3. F.S. Prereq: CHEM 163
Manu. Introduction to physical, chemical, and biological properties of soils, their formation, classification, and distribution. Use of soil survey and computer database information in balancing agronomic, economic, and environmental concerns in soil management. Credit for only one of Agron 154, 155, or 156 may be applied toward graduation.

AM IN 210. Introduction to American Indian Studies.
(3-0) Cr. 3. F.S.SS.
Introduction to the multidisciplinary aspects of American Indian studies. Topics include literature, the arts, history, anthropology, sociology, education, and contemporary Indian politics. Guest lectures, media presentations, and discussion of assigned readings.

Meets U.S. Diversity Requirement

AN S 101. Working with Animals.
(1-2) Cr. 2. F.S.
A hands-on introductory course in skills for proper care and management of domestic animals. Husbandry skills including health observation, animal movement, identification, management procedures, and environmental assessment are covered.

(2-0) Cr. 2. F.S.SS.
Ways domestic animals serve the basic needs of humans for food, shelter, protection, fuel, and emotional well-being. Terminology, basic structures of the industries surrounding the production, care, and marketing of domestic animals in the U.S.

ANTHR 201. Introduction to Cultural Anthropology.
(3-0) Cr. 3. F.S.SS.
Comparative study of culture as key to understanding human behaviors in different societies. Using a global, cross-cultural perspective, patterns of family life, economic and political activities, religious beliefs, and the ways in which cultures change are examined.

Meets International Perspectives Requirement

ANTHR 202. Introduction to Biological Anthropology and Archaeology.
(3-0) Cr. 3. F.S.
Human biological and cultural evolution; survey of the evidence from fossil primates, the human fossil record and the archaeological record, as well as living primates; introduction to research methods in archaeology and biological anthropology.
(3-0) Cr. 3. F.S.
An introduction to understanding key global issues in the contemporary world. Focuses on social relations, cultural practices and political-economic linkages among Africa, the Americas, Asia, Europe and the Pacific.
Meets International Perspectives Requirement.

ARCH 221. History of Western Architecture I.
(Cross-listed with DSN S). (3-0) Cr. 3. F
Introductory survey with emphasis on the cultural, visual, natural, and constructed context. Ancient through Renaissance.
Meets International Perspectives Requirement.

ART H 280. History of Art I.
(Cross-listed with DSN S). (3-0) Cr. 3. F
Development of the visual arts of western civilization including painting, sculpture, architecture, and crafts; from prehistoric through Gothic.
Meets International Perspectives Requirement.

ASTRO 150. Stars, Galaxies, and Cosmology.
(3-0) Cr. 3. F.S.
For the nonscientist. Observational aspects of stellar astronomy: motions, distances, sizes, spectra; types of stars; variability; binary systems. Stellar evolution: the birth, life, and death of stars, including supernovae, neutron stars, and black holes. The Milky Way Galaxy: clouds of matter in space, the structure and evolution of our galaxy. Other galaxies, clusters of galaxies, quasars. Theories of the origin of the universe.

BIOL 101. Introductory Biology.
(3-0) Cr. 3. F.S.S.
Life considered at cellular, organism, and population levels. Function and diversity of the living world. Presentation of basic biological principles as well as topics and issues of current human interest. Intended primarily for nonmajors; available to biology majors for elective credit.

BIOL 155. Human Biology.
(3-0) Cr. 3. F.S.
A survey course of human biology, including principal structures and functions of the body systems and the diseases and disorders associated with them. Designed to meet general education requirements in natural science. Not recommended for those seeking a career in the allied health professions or for students majoring in life science.

BIOL 173. Environmental Biology.
(Cross-listed with ENV S). (3-0) Cr. 3. F.S.
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution. Nonmajors only.

BIOL 211. Principles of Biology I.
(3-0) Cr. 3. F.S. Prereq: High school biology and chemistry or credit or enrollment in CHEM 163 or 177
Introduction to the nature of life, including the cellular basis of life; the nature of heredity; evolution; diversity of microbial, plant, and animal life; and principles of ecology. Intended for life science majors. First of core series of required courses for the biology major.

L. Principles of Biology Laboratory I

BIOL 211L. Principles of Biology Laboratory I.
(0-3) Cr. 1. F.S. Prereq: Credit or enrollment in 211
Laboratory to accompany 211.

BIOL 212. Principles of Biology II.
(3-0) Cr. 3. F.S. Prereq: 211
Introduction to the nature of life, including the cellular basis of life; energy relationships; the nature of heredity; evolution; form and function of microbial, plant, and animal life.

L. Principles of Biology Laboratory II

BIOL 212L. Principles of Biology Laboratory II.
(0-3) Cr. 1. F.S. Prereq: credit or enrollment in 212
Laboratory to accompany 212.

BIOL 255. Fundamentals of Human Anatomy.
(3-0) Cr. 3. F. Prereq: High School Biology and Chemistry, or BIOL 101
An introduction to human anatomy, beginning with cells and tissues, surveying all body systems, relating form to function. Systems covered include: integumentary, bones and joints, muscles, nervous, sensory, endocrine, circulatory, lymphatic, respiratory, digestive, urinary, and reproductive. Pre-Medical students should consider BIOL 351 for their anatomy background. Not intended for major credit in biology.

L. Fundamentals of Human Anatomy Laboratory

BIOL 255L. Fundamentals of Human Anatomy Laboratory.
(0-3) Cr. 1. F. Prereq: Credit or enrollment in 255
Investigation of human anatomy using models and dissections of preserved organs and model mammals. Pre-Medical students should consider 351 for their anatomy background. Not intended for major credit in biology.

W S 201. Introduction to Women's Studies.
(3-0) Cr. 3.
Introduction to the interdisciplinary field of Women's Studies. Contemporary status of women in the U.S. and worldwide from social, economic, historical, political, philosophical and literary perspectives. Analysis of intersection of gender, race, class, and sexuality. Subject matter includes work, health, sexuality, and violence. Foundation for the other courses in the program.
Meets U.S. Diversity Requirement
CHEM 163L. Laboratory in College Chemistry. 
(0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 163 Laboratory to accompany 163. Must be taken with 163. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 167. General Chemistry for Engineering Students. 
(4-0) Cr. 4. F.S. Prereq: MATH 140 or high school equivalent and 1 year of high school chemistry or Chem 50 Principles of chemistry and properties of matter explained in terms of modern chemical theory with emphasis on topics of general interest to the engineer. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

L. Laboratory in General Chemistry for Engineering

CHEM 167L. Laboratory in General Chemistry for Engineering.
(0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in 167 Laboratory to accompany 167. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177. General Chemistry I. 
(4-0) Cr. 4. F.S.SS. Prereq: MATH 140 or high school equivalent, and Chem 50 or 1 year of high school chemistry, and credit or enrollment in 177L. Chemistry and biochemistry majors may consider taking 201 The first semester of a two semester sequence which explores chemistry at a greater depth and with more emphasis on concepts, problems, and calculations than 163-164. Recommended for physical and biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Principles and quantitative relationships, stoichiometry, chemical equilibrium, acid-base chemistry, thermochromistry, rates and mechanism of reactions, changes of state, solution behavior, atomic structure, periodic relationships, chemical bonding. Credit by examination (test-out exams) for 177 is available only to students who are not currently enrolled in the course. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

L. Laboratory in General Chemistry I
N. Laboratory in General Chemistry I

CHEM 177L. Laboratory in General Chemistry I.
(0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 177 Laboratory to accompany 177. 177L must be taken with 177. 177N: For chemistry and biochemistry majors. Only one of Chem 163L, 167L, and 177L may count toward graduation.

CHEM 177N. Laboratory in General Chemistry I.
(0-3) Cr. 1. F.S.SS. Prereq: Credit or enrollment for credit in 177. For chemistry and biochemistry majors Laboratory to accompany 177. 177N must be taken with 177. Graduation Messages: Only one of Chem 163L, 167L, and 177N may count toward graduation.

CHEM 178. General Chemistry II. 
(3-0) Cr. 3. F.S. Prereq: 177, 177L Continuation of 177. Recommended for physical or biological science majors, chemical engineering majors, and all others intending to take 300-level chemistry courses. Credit by examination (test-out exams) for 178 is available only to students who are not currently enrolled in the course.

L. Laboratory in College Chemistry II

CHEM 178L. Laboratory in College Chemistry II. 
(0-3) Cr. 1. F.S. Prereq: 177L and credit or enrollment for credit in 178 Laboratory to accompany 178. 178L is not a necessary corequisite with 178.

CHEM 201. Advanced General Chemistry. 
(5-0) Cr. 5. F. Prereq: MATH 140 or high school equivalent and one year of high school chemistry. Co-enrollment in 201L A one semester course in general chemistry designed to give students an in-depth, broad-based view of modern chemistry, and, in part, to facilitate participation in independent undergraduate research. Topics include stoichiometry, atomic and molecular structure, chemical bonding, kinetics, chemical equilibria, and thermodynamics. Discussion of current trends in various chemical disciplines, which may be given by guest experts in chemistry, biochemistry, and chemical engineering, will help the student appreciate the scope of the chemical sciences and how research is carried out. Only one of Chem 163, 167, 177, or 201 may count toward graduation.

L. Laboratory in Advanced General Chemistry

CHEM 201L. Laboratory in Advanced General Chemistry. 
(0-3) Cr. 1. Prereq: Credit or enrollment for credit in 201 Laboratory to accompany 201. Introductory lab experience in synthesis and analysis to prepare student for research activities 201L must be taken with 201. Only one of 163L, 167L, 177L, 177N or 201L may count toward graduation.

CHEM 211. Quantitative and Environmental Analysis. 
(2-0) Cr. 2. F.S. Prereq: 163 and 163L, credit or enrollment in 178, or 201 and 201L; and concurrent enrollment in 211L Theory and practice of elementary volumetric, chromatographic, electrochemical and spectrometric methods of analysis. Chemical equilibrium, sampling, and data evaluation. Emphasis on environmental analytical chemistry, the same methods are widely used in biological and materials sciences as well.

L. Quantitative and Environmental Analysis Laboratory

CHEM 231. Elementary Organic Chemistry. 
(3-0) Cr. 3. F.S.SS. Prereq: 163, 163L, or 177, 177L; credit or enrollment in 231L A survey of modern organic chemistry including nomenclature, structure and bonding, and reactions of hydrocarbons and important classes of natural and synthetic organic compounds. For students desiring only an elementary course in organic chemistry. Students in physical or biological sciences and premedical or preveterinary curricula should take the full year sequence 331 and 332 (with the accompanying laboratories 331L and 332L). Only one of Chem 231 and 331 or BBMB 221 may count toward graduation.

L. Laboratory in Elementary Organic Chemistry
CHEM 331. Organic Chemistry I.
(3-0) Cr. 3. F.S. Prereq: 178 or 201, enrollment in 331L highly recommended.
The first half of a two semester sequence. Modern organic chemistry including nomenclature, synthesis, structure and bonding, reaction mechanisms. For students majoring in physical and biological sciences, premedical and preveterinary curricula, chemistry and biochemistry. Students desiring only one semester of organic chemistry should take 231 and 231L, not 331. Nonmajor graduate credit. Only one of Chem 231 and 331 may count toward graduation.

L. Laboratory in Organic Chemistry I

CHEM 331L. Laboratory in Organic Chemistry I.
(0-3) Cr. 1. F.S. Prereq: Credit or enrollment for credit in 331, 177L Laboratory to accompany 331. Chemistry and biochemistry majors are encouraged to take 331L. Only one of Chem 231L and 331L may count toward graduation.

CHIN 101. Elementary Mandarin Chinese I.
(5-0) Cr. 5. F.
Introduction to spoken and written colloquial Mandarin through pinyin and simplified characters.

CHIN 201. Intermediate Mandarin Chinese I.
(5-0) Cr. 5. F. Prereq: 102 Development of speaking, writing, reading, and listening skills. Review and expansion of grammar skills, intensification of character acquisition.

(Cross-listed with SOC) (3-0) Cr. 3. F. Prereq: SOC 130 or 134 An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents' rights, and traditional and alternative ways of dealing with juvenile crime.

Meets International Perspectives Requirement.

CL ST 273. Greek and Roman Mythology.
(3-0) Cr. 3. F.S.S.
Survey of the legends, myths of the classical world with emphasis on the principal gods, and heroes, and their relation to ancient social, psychological, and religious practices; some attention may be given to important modern theories.

Meets International Perspectives Requirement.

H. Honors (4-0) Cr. 4.

COM S 103. Computer Applications.
Cr. 4. F.S.S.
Introduction to computer literacy and applications. Applications: Windows, Internet browser/HTML, word processing, spreadsheets, database management and presentation software. Literacy: history of computing, structure of computers, telecommunications, computer ethics, computer crime, and history of programming languages. No prior computer experience necessary. Course is offered online only. Students must attend an orientation session the first week of class.

COM S 104. Introduction to Computers.
(1.5-1) Cr. 2. F.S.
Offered first 8 weeks and last 8 weeks. Use of personal computer and workstation operating systems and beginning programming. Project-oriented approach to computer operation and programming, including use of tools to aid in programming. Topics from computer history, using basic Windows and Unix tools, program structure, expression, variables, decision and logic, and iteration. No prior computer experience necessary.

(3-0) Cr. 3. F.S.
Introduction to computer programming for non-majors using a language such as the Visual Basic language. Basics of good programming and algorithm development. Graphical user interfaces.

(Cross-listed with MIS) (3-1) Cr. 3. F.S. Prereq: MATH 150 or placement into MATH 140/141/142 or higher An introduction to computer programming using an object-oriented programming language. Emphasis on the basics of good programming techniques and style. Extensive practice in designing, implementing, and debugging small programs. Use of abstract data types. Interactive and file I/O. Exceptions/error-handling. This course is not designed for computer science, software engineering, and computer engineering majors. Credit may not be applied toward graduation for both Com S 207/MIS 207 and Com S 227.

COM S 227. Introduction to Object-oriented Programming.
(3-2) Cr. 4. F.S.
An introduction to object-oriented design and programming techniques. Symbolic and numerical computation. Recursion and iteration. Modularity procedural and data abstraction, specifications and subtyping. Object-oriented techniques. Imperative programming. Emphasis on principles of programming and object-oriented design through extensive practice in design, writing, running, debugging, and reasoning about programs. This course is designed for majors. Credit may not be applied toward graduation for both Com S 207 and 227.

COM S 228. Introduction to Data Structures.
(3-1) Cr. 3. F.S. Prereq: C- or better in 227 credit or enrollment in MATH 165 An object-oriented approach to data structures and algorithms. Object-oriented analysis, design, and programming, with emphasis on data abstraction, inheritance and subtype polymorphism. Abstract data type specification and correctness. Collections and associated algorithms, such as stacks, queues, lists, trees. Searching and sorting algorithms. Graphs. Data on secondary storage. Analysis of algorithms. Emphasis on object-oriented design, writing and documenting medium-sized programs. This course is designed for majors.

COMST 101. Introduction to Communication Studies.
(3-0) Cr. 3.
An introduction to communication theory, the development and functions of communication, and a survey of interpersonal, small group, organizational, and intercultural communication.

DSN S 102. Design Studio I.
(1-6) Cr. 4.
A core design studio course exploring the interaction of two-and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines. Investigation of creative process, visual order and materials, and development of critical thinking through studio projects and lectures. Includes study of precedents, contemporary design practices and disciplines in their cultural contexts.

CL ST 201. Technical Terminologies in the Professions.
(3-0) Cr. 3. F.S.
Essential vocabulary and concepts in English that are derived from Latin and Ancient Greek. Formation and usage of technical terminology. Cultural influence of the classical languages. Analysis of technical writing.

C R P 253. Survey of Community and Regional Planning.
(3-0) Cr. 3. F.
A historical survey of planning, the nature and problems of urban areas, and the goals, procedures, and results of urban planning.

DANCE 270. Dance Appreciation.
(3-0) Cr. 3. F.S.S.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.

DANCE 270. Dance Appreciation.
(3-0) Cr. 3. F.S.S.
Introduction to the many forms and functions of dance in world cultures. Develop abilities to distinguish and analyze various dance styles. No dance experience required.
DSN S 102. Design Studio I.
(1-6) Cr. 4.
A core design studio course exploring the interaction of two-and three-dimensional design. Emphasis on fundamental skills and ideas shared across design disciplines. Investigation of creative process, visual order and materials, and development of critical thinking through studio projects and lectures. Includes study of precedents, contemporary design practices and disciplines in their cultural contexts.

DSN S 131. Design Representation.
(1-6) Cr. 4.
An introduction to drawing through lecture and studio experiences. Focus on creative problem solving and communication in order to give visual form to ideas. Emphasis on perceptual, conceptual, and evaluative abilities through experiences that build eye, brain, and hand coordination. Explorations include drawing from observation and memory, working at various scales and duration, and using a variety of media and processes.

DSN S 183. Design Cultures.
(3-0) Cr. 3.
A broad-based exploration of the dynamic relationship between design and culture, employing case study method to investigate particular examples of cultural production in contemporary society. Design processes and design works are presented as culturally, economically, environmentally, historically, ideologically, politically, and socially grounded events and artifacts.

(3-0) Cr. 3.

H. Honors Section (Honors program students only)
L. Laboratory in Principles of Microeconomics

(3-0) Cr. 3. Prereq: 101 recommended

H. Honors (Honors program students only)

ECON 235. Introduction to Agricultural Markets.
(3-0) Cr. 3. Prereq: 101
Basic concepts and economics principles related to markets for agricultural inputs and products. Overview of current marketing problems faced by farms and agribusinesses, farm and retail price behavior, structure of markets, food marketing channels, food quality and food safety, and the role of agriculture in the general economy. The implications of consumer preferences at the farm level. Introduction to hedging, futures, and other risk management tools.

ENGL 150. Critical Thinking and Communication.
(3-0) Cr. 3. F.S.S. Prereq: Credit for or concurrent enrollment in LIB 160
Application of critical reading and thinking abilities to topics of civic and cultural importance. Introduction of basic oral, visual, and electronic communication principles to support writing development. Initiation of communication portfolio.

ENGL 201. Introduction to Literature.
(3-0) Cr. 3. Prereq: Credit in or exemption from 150
Study of selected examples of drama, poetry, short fiction, and the novel drawn from both British and American literature. Recommended for nonmajors.

ENGL 205. Popular Culture Analysis.
(Cross-listed with SP CMi) (3-0) Cr. 3. F.S. Prereq: Credit in or exemption from 150
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

ENGL 225. Survey of British Literature to 1800.
(3-0) Cr. 3. Prereq: 250
Representative works of British literature from the origins to 1800 in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 226. Survey of British Literature since 1800.
(3-0) Cr. 3. Prereq: 250
Representative works from 1800 to the present in historical, cultural, and literary contexts. Will include multiple genres and may include texts that reflect and/or critique the impact and legacy of the British empire on its former colonies, i.e., postcolonial literature.

ENGL 227. Survey of American Literature to 1865.
(3-0) Cr. 3. Prereq: 250
Representative works of American literature from its origins (including indigenous and conquest literatures) through the end of the Civil War in historical, cultural, and literary contexts. Will include multiple genres.

ENGL 228. Survey of Film History.
(3-0) Cr. 3. F. Prereq: Credit in or exemption from 150
A survey of the history of film, both U.S. and international, from the beginnings in the late nineteenth century to the present.

ENGL 237. Survey of American Indian Literature.
(Cross-listed with AM IN) (3-0) Cr. 3. F. Prereq: Credit in or exemption from ENGL 150
Appreciation of oral and written forms of American Indian literatures. Tropes and techniques in oral, visual and written texts. Focus on the role of American Indians in interdisciplinary approaches to modern social and environmental issues as expressed in literary works.

Meets U.S. Diversity Requirement

ENGL 250. Written, Oral, Visual, and Electronic Composition.
(3-0) Cr. 3. F.S.S. Prereq: 150 or exemption from 150; sophomore classification or exemption from 150; credit for or concurrent enrollment in LIB 160
Analyzing, composing, and reflecting on written, oral, visual, and electronic (WOVE) discourse within academic, civic, and cultural contexts. Emphasis on supporting a claim and using primary and secondary sources. Continued development of student portfolio.

H. Written, Oral, Visual, and Electronic Composition, Honors

ENGR 160H. Honors. F.
(2-2) Cr. 3. F.S.S. Prereq: Satisfactory scores on mathematics placement examinations; credit or enrollment in MATH 142, 165
Solving engineering problems and presenting solutions through technical reports. Significant figures. Use of SI units. Graphing and curve fitting. Flowcharting. Introduction to mechanics, statistics and engineering economics. Use of spreadsheet programs to solve and present engineering problems. Solution of engineering problems using computer programming languages. (The honors section includes application of programming to mobile robotics).

ENT 201. Introduction to Insects.
(1-0) Cr. 1. F.S.S.
5 weeks. S. Classroom section spring only. World Wide Web section of course offered summer and fall semesters. Biological and ecological aspects of insects.
ENT 211. Insects and Society.
(2-0) Cr. 2. F.S. Prereq: ENT 201

(Cross-listed with GEOL). (3-0) Cr. 3. F.S.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

ENV S 120. Introduction to Renewable Resources.
(Cross-listed with AGRON, NREM). (3-0) Cr. 3. F.S.
Overview of soil, water, plants, and animals as renewable natural resources in an ecosystem context. History and organization of resource management. Concepts of integrated resource management.

(Cross-listed with BIOL). (3-0) Cr. 3. F.S.
An introduction to the structure and function of natural systems at scales from the individual to the biosphere and the complex interactions between humans and their environment. Discussions of human population growth, biodiversity, sustainability, resource use, and pollution.

ENV S 201. Introduction to Environmental Issues.
(Cross-listed with BIOL, ENSCI). (2-0) Cr. 2. F.S.
Discussion of current and emerging environmental issues such as human population growth, energy use, loss of biodiversity, water resources, and climate change.

FRNC 101. Elementary French I.
(4-0) Cr. 4. F.S.
Beginning level development of reading, writing, listening comprehension, and speaking in French, within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

FRNC 201. Intermediate French I.
(4-0) Cr. 4. F. Prereq: 102
Intermediate level development of reading, writing, listening comprehension, and speaking in French within the context of French culture. Credit by examination in the Department of World Languages and Cultures for courses numbered 101, 102, 201, and 202 is available only to students who are not currently enrolled in the course. Credit by examination for other courses in the Department is normally not available.

Meets International Perspectives Requirement.

FS HN 101. Food and the Consumer.
(3-0) Cr. 3. F.S. Prereq: High school biology and chemistry or 3 credits each of biology and chemistry

FS HN 167. Introduction to Human Nutrition.
(3-0) Cr. 3. F.S.SS. Prereq: High school biology or 3 credits of biology
Understanding and implementing present day knowledge of nutrition. The role of nutrition and food intake in the health and well being of the individual and family.

GEOL 100. The Earth.
(3-0) Cr. 3. F.S.SS.
How does the earth work, what is it made of, and how does it change through time? Plate tectonics, Earth materials, landforms, structures, climate, and natural resources. Emphasis on the observations and hypotheses used to interpret earth system processes. Students may also enroll in GEOL 100L.
L. The Earth: Laboratory

GEOL 100L. The Earth: Laboratory.
(0-2) Cr. 1. F.S. Prereq: Credit or enrollment in 100
Characterization of rocks and minerals; interpretation of structures and landforms.

(Cross-listed with ENV S). (3-0) Cr. 3. F.S.
An introduction to geologic processes and the consequences of human activity from local to global scales. Discussion of human population growth, resource depletion, pollution and waste disposal, global warming and ozone depletion, desertification, and geologic hazards such as earthquakes, landslides, flooding, and volcanism.

GEOL 105. Gems and Gemstones.
(2-0) Cr. 1. F.S.
Offered in second half of the semester. Introduction to gems and gemstones, physical and optical properties of gems and gemstones, explanation of where gems come from and how they are found, how to distinguish between synthetic and naturally occurring gems, how the value of gems are determined, and the history of famous gems.

(1-0) Cr. 1. Repeatable, maximum of 2 times. F.
Introduction to Iowa geology through classroom lectures and up to four Saturday field trips to selected Iowa geological attractions. Students will learn basic geologic concepts such as geologic time, erosion and sedimentation, stratigraphy, glacial geology, and karst topography using Iowa examples.

GEOL 201. Geology for Engineers and Environmental Scientists.
(2-2) Cr. 3. F.
Introduction to earth materials and processes with emphasis on engineering and environmental applications.

GER 101. Elementary German I.
(4-0) Cr. 4. F.S.
Introduction to German language within the context of German culture; practice in the basic skills.

GER 201. Intermediate German I.
(4-0) Cr. 4. F. Prereq: 102
Review of grammar, selected readings, further practice in oral and written communication.

Meets International Perspectives Requirement.

GREEK 101. Elementary Ancient Greek I.
(4-0) Cr. 4. F.
Grammar and vocabulary of ancient Greek, within the context of Greek culture; reading knowledge through texts adapted from classical authors.

H S 105. First Aid and Emergency Care.
(1-2) Cr. 2. F.S.
Discussion and application of the basic techniques of administering first aid and cardiopulmonary resuscitation. ARC certification available.

H S 110. Personal and Consumer Health.
(3-0) Cr. 3. F.S.
Physical, mental, and social aspects of health as a basis for understanding and preventing health problems. False and misleading advertising and effects of cultists and faddists on consumer health. Study of legislation and agencies concerned with consumer protection and health insurance.
HSCI 150. Dialogues on Diversity. (1-0) Cr. 1. FS.
An exploration of diversity within the context of the Iowa State University community through understanding human relations issues.
Meets U.S. Diversity Requirement

HD FS 102. Individual and Family Life Development. (3-0) Cr. 3. F.S.S.
Development of individuals, families, and their reciprocal relationships as affected by external factors; examined within a framework of life-span developmental tasks.

HD FS 183. Personal Finance in Early Adulthood. (1-0) Cr. 1. F.S.
Introduction to basic concepts and budgeting practices for management of resources and prevention of financial problems commonly associated with college, including credit and student loans. Offered on a satisfactory-fail basis only.

HD FS 239. Housing and Consumer Issues. (3-0) Cr. 3. F.S.
Introduction to factors affecting housing consumption of individuals and families, including current housing consumer issues related to housing choices, housing context of neighborhoods and communities, housing structure types, and credit and housing finance. Issues such as homelessness, housing discrimination, indoor air quality, accessible design.
Meets U.S. Diversity Requirement

HD FS 240. Literature for Children. (3-0) Cr. 3. F.S. Prereq: 102 or PSYCH 230
Evaluation of literature for children. Roles of literature in the total development of children. Literature selection and use.
Meets U.S. Diversity Requirement

HD FS 276. Human Sexuality. (3-0) Cr. 3. F.S.S.S.
Behavioral, biological, and psychological aspects of human sexuality within the social context of family, culture, and society. Role of sexuality in human development. Critical analysis of media and research. Communication and decision-making skills relating to sexuality issues and relationships.
Meets U.S. Diversity Requirement

HIST 201. Introduction to Western Civilization I. (3-0) Cr. 3. F.
Western civilization from ancient Mediterranean world to 1500. Social and cultural developments; economic and political ideas and institutions; problems of historical change and continuity.
Meets International Perspectives Requirement

HIST 207. Chinese Civilization. (3-0) Cr. 3.
Origins, development, decline and transformation of China from earliest times to present.
Meets International Perspectives Requirement

HIST 221. Survey of United States History I. (3-0) Cr. 3. F.
Colonial foundations: revolution, confederation, and constitution; nationalism and democracy; sectional disunity, Civil War, and reunion.

HIST 280. Introduction to History of Science I. (3-0) Cr. 3. F.
Ideas of nature from ancient Greece to the seventeenth-century scientific revolution.
Meets International Perspectives Requirement

HIST 284. Wonders of the World, Ancient to Early Modern. (3-0) Cr. 3. F.
Starting from the classical "Seven Wonders of the World," examines machines, structures, buildings, innovations, and technologies from Sumer, Egypt, Greece, and Rome, through China, Latin America, and the Islamic world, up to Europe’s Industrial Revolution. Topics include developments in warfare and weaponry, architecture, agriculture, printing, religious ceremony, entertainment, and major engineering achievements.
Meets International Perspectives Requirement

HORT 121. Home Horticulture. (2-0) Cr. 2. F.S.
Growing plants in and around the home including requirements for growing house plants; plant propagation; designing and maintaining flower, fruit, and vegetable gardens; lawn, tree, and shrub maintenance.

HORT 122. Hands-On Home Horticulture. (1-0) Cr. 1. F.S.
Demonstration and activities that illustrate principles of growing plants for the home garden. Topics include plant identification, propagation, selection, and management for indoor and outdoor gardens.

HRI 101. Introduction to the Hospitality Industry. (3-0) Cr. 3. F.
Introduction to the foodservice, lodging, and tourism components of the hospitality industry. Background information, current issues, and future challenges in various segments of the industry.

INTST 235. Introduction to International Studies. (3-0) Cr. 3. F.S.
Overview of international studies, emphasizing cultural, geographic, economic, and political characteristics of major world areas and nations.
Meets International Perspectives Requirement

JL MC 101. Mass Media and Society. (3-0) Cr. 3. F.S.
Communication models and their application to the mass media; the mass communication process; organization, characteristics and responsibilities of the mass media; media-related professional operations.

KIN 252. Disciplines and Professions in Kinesiology and Health. (1-0) Cr. 1. F.S.
Overview of the various disciplines and professions that comprise the field of Kinesiology (the study of human movement) and help students determine the career option that best fits their interests.

LAS 104. Personal Career Development. (2-0) Cr. 2. F.S. Prereq: 12 credits of ISU coursework
Comprehensive approach to personal career development; intensive self-analysis; utilization of a computerized career exploration system; contact with area professionals; examination of work in modern society and the impact of technology on the future of work; exposure to job search skills necessary for career choice implementation.

LAS 211. Introduction to U.S. Latino/a Studies. (3-0) Cr. 3. S.
In this course, students learn about the history and current lives of the Latino/a peoples in the United States, including Mexican, Cubans, Puerto Rican, Dominican, and South and Central Americans. Students will also learn information specific to Iowa Latino/as. Through readings, class discussions, writing assignments, guest speakers and community-based learning, students will acquire accurate information and a solid understanding of US Latino/as. Students will cover elements of Latino/a culture including historical, sociological, educational, psychological, economic, and political facets.
Meets U.S. Diversity Requirement
LATIN 101. Elementary Latin I.  
(4-0) Cr. 4. F.  
Grammar and vocabulary of classical Latin, within the context of Roman culture; reading knowledge through texts adapted from classical authors.  

LIB 160. Library Instruction.  
(1-0) Cr. 0.5. F.S.SS. Prereq: for students whose native language is not English: Completion of English 101 requirement  
Eight-week course required for undergraduate degree. Use of research libraries and information sources, including services of the University Library, with an emphasis on finding, evaluating, and using scholarly information. To be taken as early as possible in the student’s undergraduate career. See course descriptions of ENGL 150 and 250 for prerequisite related to LIB 160. Offered on a satisfactory-fail basis only.  

LING 119. Introduction to World Languages.  
(Cross-listed with WLC). (3-0) Cr. 3.  
Study of language diversity and the personal, social and political effects of diversity. Language families, attitudes toward language and dialects, language and culture, multilingualism, foreign language learning, written codes, official languages, and language policy.  

MATH 140. College Algebra.  
(3-1) Cr. 3. F.S.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry  
Coordinate geometry, quadratic and polynomial equations, functions, graphing, rational functions, exponential and logarithmic functions, inverse functions, quadratic inequalities. Students in the College of Liberal Arts and Sciences may not count Math 140, 141, 142, or 195 toward Group III of the General Education Requirements.  

LING 120. Computers and Language.  
(Cross-listed with ENGL). (3-0) Cr. 3.  
Introduction to the use of linguistic knowledge in computer applications today and the basic computational techniques used in such applications. The development of these techniques throughout the history of computational linguistics. How the study of language has contributed to the advancement of technology and how certain computational problems have influenced the way linguists study language.  

M S 150. Army Physical Readiness.  
(0-3) Cr. 1. Repeatable. F.S.  
This lab is designed to use basic military skills and instruction to develop confidence, leadership, and physical fitness. The team approach is utilized in the instruction and application of Army physical fitness requirements. Students will learn various Army physical fitness techniques as well as how to conduct physical fitness sessions. Teaching locations include Lied Recreation Center, Beyer Hall, State Gym as well as around campus. Full participation in all events will be determined based on students physical and medical eligibility.  

LING 101L. Basic Leadership Laboratory I  
(0-2) Cr. 1. F. Prereq: Concurrent enrollment in M S 101L required  
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/ use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.  

LING 120L. Basic Leadership Laboratory I  
(0-2) Cr. 1. F. Prereq: Concurrent enrollment in M S 101L required  
Uses basic military training, missions and scenarios to provide a hands-on method of developing confidence and leadership skills. Students observe and participate in the rotation through various levels of leadership positions at the platoon and squad level within the Army command structure. This concept provides a constant learning environment as they learn to communicate effectively and work as a team while assigned to positions at various levels within the organization. Marching, rifle firing, and tactical patrolling; students gain confidence through rappelling and construction/ use of rope bridges; and increase professional knowledge in areas such as first aid, water survival, personal physical fitness, and land navigation. Teaching locations include the ISU Armory, Camp Dodge (National Guard Facility), Pammel Woods (ISU campus), and ISU fitness centers. Full participation in all events will be determined based on students’ physical and medical eligibility.
MATH 160. Survey of Calculus.
(4-0) Cr. 4. F.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry
Analytic geometry, derivatives and integrals of elementary functions, partial derivatives, and applications. Will not serve as a prerequisite for 265 or 266. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

MATH 165. Calculus I.
(4-0) Cr. 4. F.S.S.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry or enrollment in 141 or 142
Differential calculus, applications of the derivative, introduction to integral calculus. Only one of Math 151 or 160 or the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

MATH 166. Calculus II.
(4-0) Cr. 4. F.S.S.S. Prereq: Grade of C- or better in 165 or high math placement scores
Integral calculus, applications of the integral, infinite series. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

H. Honors Calculus II

MATH 181. Calculus and Mathematical Modeling for the Life Sciences I.
(4-0) Cr. 4. F.S. Prereq: Satisfactory performance on placement exam, 2 years of high school algebra, 1 year of high school geometry, 1 semester of trigonometry or enrollment in 141 or 142
Exponential and logarithm functions, difference equations, derivatives, and applications of the derivative. Examples taken from biology. Only one of Math 151, 160, the sequence 165-166, or the sequence 181-182 may be counted towards graduation.

MATH 195. Mathematics for Elementary Education I.
(2-2) Cr. 3. F.S. Prereq: Satisfactory performance on placement exam, 2 years high school algebra, 1 year of high school geometry, enrollment in elementary education or early childhood education
Theoretical and hands-on models, mathematical analysis of: elementary students’ thinking, standard and non-standard algorithms, and properties related to whole numbers and whole number operations; linear measurement, and two- and three-dimensional geometric shapes and spatial sense; algebra as it relates to elementary curricula. Students in the College of Liberal Arts and Sciences may not count Math 140, 141, 142, or 195 toward Group III of the General Education Requirements.

MATH 265. Calculus III.
(4-0) Cr. 4. F.S.S.S. Prereq: Grade of C- or better in 166 or 166H
Analytic geometry and vectors, differential calculus of functions of several variables, multiple integrals, vector calculus.

H. Honors Calculus III

MATH 266. Elementary Differential Equations.
(3-0) Cr. 3. F.S.S.S. Prereq: Grade of C- or better in 166 or 166H

(4-0) Cr. 4. F.S.S.S. Prereq: Grade of C- or better in 166 or 166H
Same as 266 but also including Laplace transforms and series solutions to ordinary differential equations.

MICRO 101. Microbial World.
(3-0) Cr. 3. F. Prereq: High school biology or equivalent
Introduction to the importance of viruses, bacteria, fungi, archaea and parasites both to humans and to the biosphere. Topics include past and present microbial impact on humans and society, ecology and diversity of microbes, biotechnology and microbial impact on the biosphere.

MICRO 201. Introduction to Microbiology.
(2-0) Cr. 2. F.S. Prereq: One semester of college-level biology
Selected topics in microbiology with emphasis on the relationship of microorganisms to human and animal health, agricultural technology, and the environment. With written petition to the chair of the supervisory committee, students who obtain a grade of B or better may substitute 201 FOR 302 in advanced courses.

L. Introductory Microbiology Laboratory

MTEOR 206. Introduction to Weather and Climate.
(Cross-listed with AGRON). (3-0) Cr. 3. F.S.
Arritt, Cervato, Hornbuckle. Basic concepts in weather and climate, including atmospheric measurements, radiation, stability, precipitation, winds, fronts, forecasting, and severe weather. Applied topics include global warming, ozone depletion, world climates and weather safety.

(Cross-listed with INFAS). (1-0) Cr. 1.
Basic concepts of practical computer and Internet security: passwords, firewalls, antivirus software, malware, social networking, surfing the Internet, phishing, and wireless networks. This class is intended for students with little or no background in information technology or security. Basic knowledge of word processing required. Offered on a satisfactory-fail basis only.

MTEOR 107. Severe and Hazardous Weather.
(2-0) Cr. 1. F.
Understanding of atmospheric processes that play a role in creating severe and hazardous weather. Focus on thunderstorms, tornadoes, hurricanes, floods, blizzards, ice storms, and temperature extremes. Impacts on lives and property.

(1-2) Cr. 2. F.S. Prereq: Ability to read elementary musical notation
Notation, recognition, execution and analysis of scales, intervals, triads, and rhythm; key signatures; time signatures; transposition. Open to non-majors only.

MUSIC 102. Introduction to Music Listening.
(3-0) Cr. 3. F.S.S.S.
Expansion of the music listening experiences for the general student through greater awareness of differences in techniques of listening, performance media, and materials of the art. The course focuses on the elements of music: rhythm, melody, harmony, form, and style, and how these elements are used in musics of different cultures and time periods. Ability to read or perform music not required.

Meets International Perspectives Requirement.

MUSIC 111. Wind Ensemble.
(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Emphasis on significant extended compositions for wind and percussion instruments. Performances include formal concerts on campus and the annual tour.

MUSIC 112. Concert Band.
(0-2) Cr. 1. Repeatable. F.S. Prereq: Open to all students who have performed on a wind or percussion instrument in high school band or orchestra
Repertoire includes the broad spectrum of band music. Two concerts are presented each semester.

MUSIC 113. Jazz Ensemble.
(0-2) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition
Designed to explore various styles and trends in contemporary jazz.

MUSIC 114. Marching and Pep Bands.
(0-5) Cr. 1. Repeatable.
A. Marching Band. Fall only. Membership determined by audition and band application. Auditions held for woodwind, brass, percussion, flag, and twirler positions. Presentation of pre-game and half time shows at
each home football game; additional performances are also scheduled on and off campus. Audition information is listed on the band website (www.music.iastate.edu/org/marching).

**MUSIC 115. Symphonic Band.**

(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition

Stresses high quality wind literature. Performances include formal concerts on campus.

**MUSIC 118. Applied Music: Non-majors.**

(0.5-0) Cr. 1-2. Repeatable. F.S.SS. Prereq: Audition, permission of instructor

(0-5) for 1 cr. (1-0) for 2 cr. Applied music for the general student. Open only to non-majors. Will not satisfy applied music requirements for music majors.

A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

**MUSIC 119. Applied Music: Majors.**

(0.5-2) Cr. 1-3. Repeatable. F.S.SS. Prereq: Audition, permission of instructor

(.5-0) for 1 cr. (1-0) for 2 cr. Minimum weekly practice of 5 hours per credit is expected. Weekly seminar required.

A. Voice
B. Piano
C. Organ
D. Strings
E. Carillon
F. Woodwinds
G. Brass
I. Percussion
K. Harpsichord

**MUSIC 141. Lyrica Women’s Choir.**

(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all female students by audition

Large chorus; emphasis on fundamental vocal and choral skills, wide variety of literature. Campus concerts each semester.

**MUSIC 151. Oratorio Chorus.**

(0-3) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition

Advanced skills required, high quality literature. Campus concerts each semester, some concerts in conjunction with orchestras. Men’s and women’s choirs separately and in combination.

A. Cantamus Women’s Choir
B. Statesmen Men’s Choir

**MUSIC 161. Iowa State Singers.**

(0-5) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition

Concert choir specializing in performance of advanced music literature, Renaissance through contemporary. Campus concerts, annual spring tour.

**MUSIC 181. Symphony Orchestra.**

(0-4) Cr. 1. Repeatable. F.S. Prereq: Open to all students by audition

Reading, preparation, and performance of standard repertoire. Five or six concerts annually plus occasional off-campus appearances.

**MUSIC 246. Introduction to Music Technology.**

(2-0) Cr. 2. F.S. Prereq: 101, 105, or 221, or permission of instructor

Introduction to audio and MIDI in music and media applications, fundamentals of digital audio editing and mixing, software-based musical arrangements and composition.

**PHIL 201. Introduction to Philosophy.**

(3-0) Cr. 3. F.S.SS.

It has been rumored that the unexamined life is not worth living. Philosophy is an attempt to begin examining life by considering such questions as: What makes us human? What is the world ultimately like? How should we relate to other people? Is there a god? How can we know anything about these questions? Understanding questions of this kind and proposed answers to them is what this course is all about.

**PHIL 206. Introduction to Logic and Scientific Reasoning.**

(3-0) Cr. 3. F.S.SS.

Basic principles of critical reasoning and argument evaluation. A consideration of basic forms of argumentation in science and everyday life. Application to contemporary issues and controversies.

**PHIL 207. Introduction to Symbolic Logic.**

(Cross-listed with LING). (3-0) Cr. 3. S.

Introduction to fundamental logical concepts and logical symbolism. Development of natural deduction through first order predicate logic with identity. Applications to arguments in ordinary English and to philosophical issues. Majors should take PHIL 207 as early as possible.

**PHIL 230. Moral Theory and Practice.**

(3-0) Cr. 3. F.S.SS.

Investigation of moral issues in the context of major ethical theories of value and obligation; e.g., punishment, abortion, economic justice, job discrimination, world hunger, and sexual morality. Emphasis on critical reasoning and argument analysis.

**PHIL 235. Ethical Issues in A Diverse Society.**

(3-0) Cr. 3. S.

This course will examine a range of arguments on diversity issues. Topics will include: the social status of women, the moral status of sexuality and homosexuality, the nature and role of racism in contemporary society, the relationship between biology, gender roles and social status, and various proposals for change from a variety of political perspectives.

Meets U.S. Diversity Requirement

**PHYS 101. Physics for the Nonscientist.**

(3-0) Cr. 3. F.S.

Survey of the principal areas of both classical and modern physics. Emphasis on the nature of the physical universe and the application of physical principles to life in the modern world. Not suitable to meet a general physics requirement for natural science majors.

**PHYS 106. The Physics of Common Experience.**

(4-2) Cr. 4. F.S.

If PHYS 106 is unavailable, see PHYS 115X and PHYS 115L in the Online Schedule of Classes. Elementary topics from mechanics, heat, electricity, light, emphasizing the use of basic principles to understand everyday experience. Includes practical problem exercises and a coordinated laboratory. Not suitable to meet a general physics requirement for physical science majors.

**PHYS 111. General Physics.**

(4-2) Cr. 4. F.S.SS. Prereq: 1 1/2 years of high school algebra, 1 year of geometry, 1 semester of trigonometry

General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Mechanics, fluids, heat and thermodynamics, vibrations, waves, sound.
PHYS 112. General Physics.  
(4-2) Cr. 4. F.S.S. Prereq: 111  
General background in physical concepts, principles, and methods for those who do not plan advanced study in physics or engineering. Electricity and magnetism, ray and wave optics, topics in modern physics.

(2-2) Cr. 3. F  
Introductory level course on sound for nonphysics majors. Properties of pure tones and harmonics; human perception of sound; room acoustics; scales; production, and analysis of musical by voice, string, woodwind, brass, and percussion instruments. Not suitable to meet a general physics requirement for natural science majors

PHYS 221. Introduction to Classical Physics I.  
(4.5-1) Cr. 5. F.S.S. Prereq: Credit or enrollment in MATH 166  
For engineering and science majors. 3 hours of lecture each week plus 3 recitations and 1 laboratory every 2 weeks. Elementary mechanics including kinematics and dynamics of particles, work and energy, linear and angular momentum, conservation laws, rotational motion, oscillations, gravitation. Heat, thermodynamics, kinetic theory of gases; waves and sound.

H. Honors. F.S.

PHYS 222. Introduction to Classical Physics II.  
(4-2) Cr. 5. F.S.S. Prereq: 221, MATH 166  
3 hours of lecture each week plus 1 recitation and 1 laboratory each week. Electric forces and fields. Electrical currents; DC circuits. Magnetic forces and fields: LR, LC, LCR circuits; Maxwell’s equations; ray optics and image formation; wave optics; topics in modern physics.

H. Honors. F.S.

(3-0) Cr. 3. F.S.S.S.  
Fundamentals of American democracy; constitutionalism; federalism; rights and duties of citizens; executive, legislative, and judicial branches of government; elections, public opinion, interest groups, and political parties.

POL S 241. Introduction to Comparative Government and Politics.  
(3-0) Cr. 3. F.S.  
Basic concepts and major theories; application to selected political systems, including non-western political systems.

Meets International Perspectives Requirement.

POL S 251. Introduction to International Politics.  
(3-0) Cr. 3. F.S.  
Dynamics of interstate relations pertaining to nationalism, the nation state; peace and war; foreign policy making; the national interest; military capability and strategy; case studies of transnational issues, such as population, food, energy, and terrorism.

Meets International Perspectives Requirement.

PSYCH 101. Introduction to Psychology.  
(3-0) Cr. 3. F.S.S.S.  
Fundamental psychological concepts derived from the application of the scientific method to the study of behavior and mental processes. Applications of psychology.

H. Honors section. (2-2) Fall. (For students in the University Honors Program only.)

PSYCH 102. Laboratory in Introductory Psychology.  
(0-2) Cr. 1. F.S. Prereq: Credit or enrollment in 101  
Laboratory to accompany 101.

(0-2) Cr. 1. F.S.  
Efficient methods of study and reading. Offered on a satisfactory-fail basis only.

PSYCH 230. Developmental Psychology.  
(3-0) Cr. 3. F.S.S.S.  
Life-span development of physical traits, cognition, intelligence, language, social and emotional behavior, personality, and adjustment.

PSYCH 250. Psychology of the Workplace.  
(3-0) Cr. 3.  
Survey of theories, research methods, and applications of industrial and organizational psychology from the scientist-practitioner approach. Personnel topics include selection, training, and performance appraisal; organizational topics include leadership, motivation, job attitudes and behaviors and organizational climate.

PSYCH 280. Social Psychology.  
(3-0) Cr. 3. F.S.S.S.  
Individual human behavior in social contexts. Emphasis on social judgments and decisions, attitudes, perceptions of others, social influence, aggression, stereotypes, and helping.

RELIG 205. Introduction to World Religions.  
(3-0) Cr. 3. F.S.S.S.  
An introduction to the academic study of religions, including myths, beliefs, rituals, values, social forms. Examples chosen from oral cultures and major religions of the world.

Meets International Perspectives Requirement.

(3-0) Cr. 3. F.S.S.S.  
Introductory study of the major beliefs, practices, and institutions of American Judaism, Catholicism, Protestantism, and Islam with emphasis on the diversity of religion in America, and attention to issues of gender, race, and class.

Meets U.S. Diversity Requirement

RELIG 220. Introduction to the Bible.  
(3-0) Cr. 3. F.S.  
Basic overview of the contents of the Old and New Testament in light of their ancient socio-historical background, and with attention to a variety of interpretations and relevance to modern American society.

RELIG 280. Introduction to Catholicism.  
(3-0) Cr. 3. F  
An explanation of the beliefs, spirit, and practices of Roman Catholicism, including its understanding of God, sacramentality, the human person, and community, and its relationship to other forms of Christianity and other world religions.

RUS 101. Elementary Russian I.  
(4-0) Cr. 4. F  
Introduction to the Russian language, grammar and syntax. Practice in the four basic skills (listening, speaking, reading, and writing) within the context of Russian culture.

RUS 201. Intermediate Russian I.  
(4-0) Cr. 4. F Prereq: 102  
Thorough review of grammar and growth of vocabulary. Selected readings. Continued use of the four basic skills.

Meets International Perspectives Requirement.
SOC 130. Rural Institutions and Organizations.
(3-0) Cr. 3. F.S.
An introductory analysis of sociological concepts and theories as they relate to rural institutions and organizations. Emphasis on the static structure and function of these institutions and organizations and on their dynamic adaptation to changing societal, environmental, and economic conditions. General sociological principles and perspectives. Credit for only Soc 130 or 134 may be applied toward graduation.

SOC 134. Introduction to Sociology.
(3-0) Cr. 3. F.S.S.S.
Social interaction and group behavior with emphasis on the scientific study of contemporary U.S. society, including issues relating to socialization, inequality, and changing rural and urban communities. Analysis of relationships among the institutions of family, religion, political participation, work, and leisure. Credit for only Soc 130 or 134 may be applied toward graduation.

H. Honors.

(3-0) Cr. 3. F.S.S.S. Prereq: 130 or 134
Analysis of intimate relationships among couples using a sociological perspective. Attention is given to singleness; dating and courtship; sexuality; mate selection, cohabitation, and marriage. Relationship quality, communication, conflict and dissolution of these types of relationship will also be explored.

SOC 235. Social Problems and American Values.
(3-0) Cr. 3. F.S. Prereq: 130 or 134
Sociological concepts, theories and methods to analyze the causes and consequences of social problems. Social problems discussed may include crime, substance abuse, income inequalities, discrimination, poverty, race relations, health care, family issues, and the environment. How American culture and values shape societal conditions, public discourse and policy.

Meets U.S. Diversity Requirement

(Cross-listed with CJ ST). (3-0) Cr. 3. F. Prereq: 130 or 134
An examination of delinquency that focuses on the relationship between youth as victims and as offenders, social and etiological features of delinquency, the role of the criminal justice system, delinquents’ rights, and traditional and alternative ways of dealing with juvenile crime.

SP CM 110. Listening.
(3-0) Cr. 3. F.S.
Theory, principles, and competency development in comprehensive, therapeutic, critical, consumer, and appreciative listening. The impact of listening in relationships and partnerships.

SP CM 205. Popular Culture Analysis.
(Cross-listed with ENGL). (3-0) Cr. 3. F.S. Prereq: Credit in or exemption from ENGL 150
Analysis of how information and entertainment forms persuade and manipulate audiences. Study of several forms that may include newspapers, speeches, television, film, advertising, fiction, and magazines. Special attention to verbal and visual devices.

SP CM 212. Fundamentals of Public Speaking.
(3-0) Cr. 3. F.S.S.S.
Theory and practice of basic speech communication principles applied to public speaking. Practice in the preparation and delivery of extemporaneous speeches.

SP ED 250. Education of the Exceptional Learner in a Diverse Society.
(3-0) Cr. 3. F.S. Prereq: C J 204
An overview of students with diverse learning needs, including legal foundations. Emphasis on early identification; educational programming, services and strategies; and preparation for community living in a heterogeneous society.

Meets U.S. Diversity Requirement

(4-0) Cr. 4. F.S. Prereq: 4 years of high school Spanish, two years of Spanish at a community college, Spanish 201, or equivalent by placement Bridge course between 200- and 300-level Spanish courses to prepare students for 300 level courses. Focus on application of advanced grammatical concepts. Designed for students who want to continue at the 300 level. Taught in Spanish.

W S 160. Gender Justice.
(2-0) Cr. 1. F.S.
Half semester course. Examines the socialization process in the United States and how our perspectives are formed. An introduction to patriarchy, sexism, and ally development are explored. Skills to enhance communication and understanding among women and men will be developed. Offered on a satisfactory-fail basis only.

Meets U.S. Diversity Requirement

SPAN 101. Elementary Spanish I.
(4-0) Cr. 4. F.S.
A communicative approach to grammar and vocabulary within the context of Hispanic culture.

SPAN 301. Spanish Grammar and Composition.
(3-0) Cr. 3. F.S. Prereq: 202 or placement by departmental exam Review and application of grammar concepts in the development of writing skills within the context of Hispanic culture. Taught in Spanish.

Meets International Perspectives Requirement.

SPAN 303. Spanish Grammar and Conversation.
(3-0) Cr. 3. F.S. Prereq: 202 or placement by departmental exam Intensive oral practice and improvement of oral proficiency. Application of specific grammatical concepts for development of conversational skills within the context of Hispanic culture. Taught in Spanish.

A. Conversation through Culture
B. Conversation for Professionals

(3-2) Cr. 4. F.S.S. Prereq: 1 1/2 years of high school algebra Statistical concepts in modern society; descriptive statistics and graphical displays of data; the normal distribution; data collection (sampling and designing experiments); elementary probability; elements of statistical inference; estimation and hypothesis testing; linear regression and correlation; contingency tables. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.

STAT 104. Introduction to Statistics.
(2-2) Cr. 3. F.S.S. Prereq: 1 1/2 years of high school algebra Statistical concepts and their use in science; collecting, organizing and drawing conclusions from data; elementary probability; binomial and normal distributions; regression; estimation and hypothesis testing. For students in the agricultural and biological sciences. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226.
STAT 105. Introduction to Statistics for Engineers.
(3-0) Cr. 3. F.S.
Prereq: MATH 165 (or 165H)
Statistical concepts with emphasis on engineering applications. Data collection; descriptive statistics; probability distributions and their properties; elements of statistical inference; regression; statistical quality control charts; use of statistical software; team project involving data collection, description and analysis. Credit for only one of the following courses may be applied toward graduation: Stat 101, 104, 105, 226. Credit for both Stat 105 and 305 may not be applied for graduation.

THTRE 106. Introduction to the Performing Arts.
(3-0) Cr. 3. F.S.S.
An audience oriented, broad-based, team-taught survey of the performing arts which emphasizes theatre and includes segments on television, radio, film, dance, and music.

THTRE 110. Theatre and Society.
(3-0) Cr. 3. F.S.
An introduction to Theatre focusing on its relationship with society throughout history.

THTRE 251. Acting I.
(3-0) Cr. 3. F.S.
Theory and practice in fundamentals of acting.

TSM 115. Solving Technology Problems.
(2-2) Cr. 3. F.S.
Prereq: MATH 140 or higher (can be taken concurrently)
Solving technology problems and presenting solutions through technical reports. Unit conversions, unit factor method, SI units, significant digits, graphing and curve fitting. Use of spreadsheet programs to solve and present technology problems. Solution of technology problems using computer programming languages.

TSM 116. Introduction to Design in Technology.
(2-2) Cr. 3. F.S.
2D projections and 3D representations of objects, national and international standards for documentation, manufacturing processes, design projects, and teamwork. Free-hand sketching techniques and parametric solid modeling will be covered.

UST 105. Carver Academy Seminar: Freshmen.
(1-0) Cr. 1. F.
Prereq: Acceptance in Carver Academy Program, George Washington Carver scholarship recipient
Orientation to the university for Carver Academy students focusing primarily on transition and acclimation to the university environment. Individual and group identity development. Life and legacy of George Washington Carver. Offered on a satisfactory-fail basis only.
Meets U.S. Diversity Requirement

SPAN 201. Intermediate Spanish I.
(4-0) Cr. 4. F.
Prereq: 102 or placement by departmental exam
Intensive review of basic grammar and conversation. Practice in oral and written communication. Development of fluency with idiomatic expressions. Selected readings on culture and literature.
Meets International Perspectives Requirement.
ABBOTT, ERIC ALAN

ABBOTT, KAREN C.

ABELSON, ABRAHAM G.

ABENDROTH, ROBERT E.

ABRAHAM, ROBERTA G.

ABRAHAM, WILLIAM H.
Emeritus Professor of Chemical Engineering. B.Ch.E., 1952, Cornell; Ph.D., 1957, Purdue.

ACHTER, CHARLES THOMAS
Lecturer in Curriculum and Instruction. B.A., 1969, St. John’s; M.S., 1975, St. Cloud State.

ACKER, DAVID G.
Professor of Agricultural Education and Studies; Associate Dean of the College of Agriculture and Life Sciences. B.A., 1975, Wilmington; M.Ed., 1980, M.S., 1980, California (Davis); Ph.D., 1989, Oregon State.

ACKERMAN, BREND A P.

ACKERMAN, RALPH A.

ACKERMANN, MARK R.

ADAMS, CYNTHIA ANN

ADAMS, DEAN
Associate Professor of Ecology, Evolution and Organismal Biology; Associate Professor of Statistics. B.A., 1992, Franklin and Marshall College; M.Sc., 1994, Louisiana; Ph.D., 1999, New York (Stony Brook).

ADAMS, DONALD R.
Emeritus Professor of Biomedical Sciences; University Professor. A.B., 1960, California (Davis); M.A., 1967, Chico State; Ph.D., 1970, California (Davis).

ADAMS, JEAN W.

ADAMS, ROY DEAN

ADELEKE, RAIMI OLATUNJI

ADURI, PAVANKUMAR R.
Associate Professor of Computer Science. B.Tech., 1993, Jawaharlal Nehru Technological; M.S., 1995, Indian Institute of Technology; Ph.D., 2001, New York (Buffalo).

AGARWAL, SANJEEV
Professor of Marketing. B.E., 1979, Roorkee (India); M.S., 1980, California (Davis); M.A., 1986, Ph.D., 1988, Ohio State.

AGBA, EMMANUEL IKECHUKWU

AGGARWAL, RAJ
Adjunct Professor of Electrical and Computer Engineering. B.Sc., 1965, Delhi (India); B.E., 1968, Indian Institute of Science (India); M.Tech., 1970, Indian Institute of Technology (India); Ph.D., 1974, Purdue.

AHN, DONG UK

AHRENS, FRANKLIN A.

aigner, stephen m.

AIST, GREGORY

AITCHISON, GARY L.
Emeritus Associate Professor of Management. B.A., 1956, Northern Iowa; M.A., 1961, Northern Colorado; Ph.D., 1972, Iowa State.

AJJARAPU, VENKATARAMANA

AKINC, MUFIT
Professor of Materials Science and Engineering. B.S., 1970, M.S., 1973, Middle East Technical (Turkey); Ph.D., 1977, Iowa State.

AKKURT, CIGDEM T.

AL-KAISI, MAHDI
Associate Professor of Agronomy. B.S., 1974, Baghdad; M.S., 1982, Ph.D., 1986, North Dakota State.

ALCORN-FERRONE, JANET W.
Emeritus Associate Professor of Music and Theatre. B.Mus., 1958, Northwestern; M.Mus., 1960, Boston University.

ALCOTT, CODY J.

ALEKEL, D. LEE
Professor of Food Science and Human Nutrition. B.S., 1979, Cornell; M.S., 1985, Pennsylvania State; Ph.D., 1993, Illinois.

ALEXANDER, DAVID
ALEXANDER, ROGER K.
Associate Professor of Mathematics. B.A., 1968, Kansas; M.A., 1974, Ph.D., 1975, California (Berkeley).

ALEXANDER, TERRY J.

ALGER, JEFF

ALIPRANTIS, DIONYSIOS
Assistant Professor of Electrical and Computer Engineering. B.S., 1999, National Technical-Athens (Greece); Ph.D., 2003, Purdue.

ALLEMAN, JAMES EDWARD

ALLEN, BEVERLYN LUNDY
Emeritus Associate Professor of Sociology. B.S.W., 1975, M.S.W., 1977, Temple; Ph.D., 1995, Iowa State.

ALLEN, LINDA QUINN
Associate Professor of World Languages and Cultures; Associate Professor of Curriculum and Instruction. B.A., 1978, Purdue; M.A., 1982, Ball State; Ph.D., 1994, Purdue.

ALLEN, PHILIP MANNING

ALREAD, JASON

AMARASINGHE, GAYA
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1986, M.S., 1988, Osmania (India); M.S., 1993, Iowa State; Ph.D., 1999, New Mexico State.

AMARUCAI, GEORGE TRAIAN
Adjunct Assistant Professor of Electrical and Computer Engineering. B.S., 2003, M.S., 2004, University Politehnica (Romania); Ph.D., 2009, Louisiana State.

AMBOSIO, LINDA
Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, New York (Stony Brook); Ph.D., 1985, Princeton.

AMEMIYA, YASUO

AMES, JEFFREY KNOWTON
Lecturer in Greenlee School of Journalism and Communication. B.A., 1970, Drake.

AMIDON, KEVIN SCOTT
Associate Professor of World Languages and Cultures. M.A., 1995, Ph.D., 2001, Princeton.

AMIN, VIREN R.
Adjunct Assistant Professor of Electrical and Computer Engineering. B.S., 1987, NHL Medical College; M.S., 1989, Ph.D., 1992, Iowa State.

AMOS, ROSALIE JEANNE
Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Associate Professor of Curriculum and Instruction. B.S., 1953, Iowa State; M.S., 1960, Ph.D., 1976, Cornell.

ANDERSON, CARL E.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1962, Pennsylvania State; M.S.A.E., 1965, Arizona; Ph.D., 1975, Kansas State.

ANDERSON, CHRISTOPHER

ANDERSON, CHRISTOPHER

ANDERSON, CRAIG A.

ANDERSON, DEAN

ANDERSON, E. WALTER

ANDERSON, IVER ERIC
Adjunct Professor of Materials Science and Engineering. B.S., 1975, Michigan Tech; M.S., 1977, Ph.D., 1982, Wisconsin.

ANDERSON, JEAN A.

ANDERSON, JULIA F.
Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1941, Iowa State; M.S., 1947, Washington.

ANDERSON, KEVIN F.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1975, Iowa Wesleyan; M.S., 1983, Western Illinois.

ANDERSON, LLOYD LEE
Professor of Animal Science; Professor of Biomedical Sciences; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, Ph.D., 1961, Iowa State.

ANDERSON, MARC

ANDERSON, MARVIN A.
Emeritus Professor of Agronomy. B.S., 1939, M.S., 1949, Ph.D., 1955, Iowa State.

ANDERSON, NADIA
Research Assistant Professor of Electrical and Computer Engineering. B.S., 1999, New Mexico State.

ANDERSON, PAUL F.

ANDERSON, ROBERT M.

ANDERSON, RYAN G.

ANDERSON-HSIEH, JANET
Emeritus Associate Professor of Sociology. B.S.W., 1975, M.A., 1977, Ph.D., 1980, California (Berkeley).

ANDERSON, CARL E.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1962, Pennsylvania State; M.S.A.E., 1965, Arizona; Ph.D., 1975, Kansas State.

ANDERSON, CHRISTOPHER

ANDERSON, CHRISTOPHER

ANDERSON, CRAIG A.

ANDERSON, DEAN

ANDERSON, E. WALTER

ANDERSON, IVER ERIC
Adjunct Professor of Materials Science and Engineering. B.S., 1975, Michigan Tech; M.S., 1977, Ph.D., 1982, Wisconsin.

ANDERSON, JEAN A.

ANDERSON, JULIA F.
Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1941, Iowa State; M.S., 1947, Washington.

ANDERSON, KEVIN F.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1975, Iowa Wesleyan; M.S., 1983, Western Illinois.

ANDERSON, LLOYD LEE
Professor of Animal Science; Professor of Biomedical Sciences; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1957, Ph.D., 1961, Iowa State.

ANDERSON, MARC

ANDERSON, MARVIN A.
Emeritus Professor of Agronomy. B.S., 1939, M.S., 1949, Ph.D., 1955, Iowa State.

ANDERSON, NADIA

ANDERSON, PAUL F.

ANDERSON, ROBERT M.

ANDERSON, RYAN G.

ANDERSON-HSIEH, JANET
ANDRE, THOMAS

ANDREASEN, CLAIRE B.
Professor of Veterinary Pathology and Chair of the Department; Associate Dean of the College of Veterinary Medicine. B.S., 1979, D.V.M., 1982, Texas A&M; M.S., 1987, Ph.D., 1990, Georgia.

ANDREOTTI, ALEJANDRO
Adjunct Assistant Professor of Curriculum and Instruction. B.A., 1989, Brandeis; Ph.D., 1994, Princeton.

ANDREOTTI, AMY
Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1989, Bowdoin; Ph.D., 1994, Princeton.

ANDREWS, JAMES T.

ANGELICI, ROBERT JOE
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1959, St. Olaf; Ph.D., 1962, Northwestern.

ANGUS, HECTOR F.

APPLEQUIST, JON BARR
Emeritus Professor of Biophysics. B.S., 1954, California (Berkeley); Ph.D., 1959, Harvard.

ARAND-MCILRATH, TIMOTHY J.
Emeritus Associate Professor of Art and Design. B.A., 1966, Dominican (Wisconsin); M.S., 1969, Wisconsin.

ARBUCKLE, J. GORDON JR.

ARCANZ, JANET L.
Assistant Professor, Library. B.A., 1979, California (Los Angeles); M.L.S., 1980, California (Berkeley).

ARMSTRONG, PATRICK IAN

ARNOT, GRANT
Assistant Professor of Anthropology. A.B., 1994, Ph.D., 2004, Chicago.

ARORA, RAJEEV
Professor of Horticulture. B.S., 1975, Meerut (India); M.S., 1979, G.B. Pant (India); Ph.D., 1990, Wisconsin.

ARP, LAWRENCE H.

ARRITT, RAYMOND W.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.A., 1979, M.S., 1982, Virginia; Ph.D., 1985, Colorado State.

ARTHUR, VIRGINIA C.
Adjunct Assistant Professor of Educational Leadership and Policy Studies. B.A., 1970, Washington (Maryland); M.S., 1972, Syracuse; Ph.D., 1988, Iowa State.

ASHLOCK, JERAMY CURTIS

ATCHISON, GARY JAMES

ATHERLY, ALAN G.
Emeritus Professor of Genetics, Development and Cell Biology; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1959, Western Michigan; Ph.D., 1964, North Carolina.

ATHREYA, KRISHNA B.
Professor of Mathematics; Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.A., 1959, Loyola (India); Ph.D., 1967, Stanford.

ATKINSON, DEBRA JO

ATWOOD, DAVID M.
Senior Lecturer in Physics and Astronomy. B.S., 1984, Toronto (Canada); M.S., 1987, Ph.D., 1989, McGill.

AUNE, JEANINE ELISE

AUWERDA, PEGGY A.

AVALOS, HECTOR I.

AVRAAMIDES, ACHILLES

AXENOVICH, MARIA

B

BAAS, THOMAS J.

BABCOCK, BRUCE A.
Professor of Economics. B.S., 1980, M.S., 1981, California (Davis); Ph.D., 1987, California (Berkeley).

BACHMANN, MARIYLIN D.

BACHMANN, ROGER W.

BADENOHOPE, JULIA M.

BADO, NIKKI JO

BADINARAYANAN, PRASHANTH
Adjunct Assistant Professor of Materials Science and Engineering. B.Tech., 2003, Madras (India); Ph.D., 2007, Texas Tech.

BAENZIGER, MARDITH A.
BAER, ROGER EDWARD

BAGLEY, RODNEY STEVEN
Professor of Veterinary Clinical Sciences and Chair of the Department. B.S., 1983, West Virginia; D.V.M., 1986, Virginia Polytechnic.

BAHADUR, SHYAM
Emeritus Professor of Mechanical Engineering; University Professor. B.E., 1957, M.E., 1962, Roorkee (India); Ph.D., 1970, Michigan.

BAILEY, JASON D.

BAILEY, MICHAEL DAVID

BAILEY, THEODORE B. JR.
Emeritus Professor of Statistics. B.S., 1964, Iowa State; M.S., 1969, Ph.D., 1972, Minnesota.

BAIN, CARMEN M.

BAKAC, ANDREJA
Adjunct Professor of Chemistry. B.S., 1968, M.S., 1972, Ph.D., 1976, Zagreb.

BAKER, JAMES L.
Emeritus Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1966, South Dakota School of Mines; Ph.D., 1971, Iowa State.

BAKER, JANICE A.
Assistant Professor of Kinesiology; Assistant Professor of Music and Theatre. B.F.A., 1975, Utah; M.S., 1979, Kansas State.

BAKER, JENNY LYNN

BAKER, RODNEY BURNS

BAKOPOULOS, CONSTANTINE

BAL, HARPAL S.
Emeritus Professor of Biomedical Sciences. B.V.Sc., 1953, Punjab (India); M.S., 1966, Ph.D., 1969, Iowa State.

BALDWIN, CLAUDIA J.

BALTZER, LYNE E.
Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1972, Wisconsin (Stout); Ph.D., 1983, Iowa State.

BANG, EUNJIN
Assistant Professor of Curriculum and Instruction. B.S., 1997, Chun Chun (Korea); M.S., 2004, Ph.D., 2008, Arizona State.

BARNHART, RUTH S.

BARNHART, STEPHEN K.
Professor of Agronomy. B.S., 1970, M.S., 1975, Ohio State; Ph.D., 1979, Iowa State.

BARRATT, MARY F.
Senior Lecturer in English. A.B., 1973, California (Berkeley); M.A., 1975, Ohio; Ph.D., 1993, Iowa State.

BARTA, THOMAS ARNOLD
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1957, Iowa State; M.S., 1962, Iowa; Ph.D., 1975, Iowa State.

BARTHOLOMAY, LYRIC COLLEEN

BARTON, CHARLES

BARTON, TOMMY J.
Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1962, Lamar; Ph.D., 1967, Florida.

BASAK, TATHAGATA
Assistant Professor of Mathematics. M.S., 1998, Indian Statistical Institute; Ph.D., 2006, California (Berkeley).

BASART, JOHN PHILIP

BASMAJIAN, CARLTON WADE
Assistant Professor of Community and Regional Planning. A.B., 1996, Chicago; M.C.P., 2000, Georgia Institute of Technology; Ph.D., 2008, Michigan.

BASSHAM, DIANE CLARE
Associate Professor of Genetics, Development and Cell Biology. B.Sc., 1990, Birmingham (England); Ph.D., 1994, Warwick (England).

BASSLER, BRUCE LEE
Associate Professor of Architecture. B.S., 1972, Iowa State; M.Arch., 1975, Texas A&M.
BASSLER, EUNICE M.
Senior Lecturer in Food Science and Human Nutrition. B.A., 1974, Northern Iowa; M.S., 1979, Kansas State.

BASTAWROS, ASHRAF
Associate Professor of Aerospace Engineering; Associate Professor of Mechanical Engineering. B.Sc., 1988, M.Sc., 1991, Cairo (Egypt); M.S., 1995, Ph.D., 1997, Brown.

BASTAWROS, HALA FAROUK
Lecturer in Genetics, Development and Cell Biology. M.D., 1992, Cairo University School of Medicine; M.S., 2007, Iowa State.

BASU, SAMIK

BATES, LISA M.

BATH, JOHN A.
Emeritus Professor of Psychology; Emeritus Professor of Curriculum and Instruction. A.B., 1932, Peru State; M.A., 1933, Ph.D., 1942, Nebraska.

BATHIE, WILLIAM W.

BAUM, DALE DELBERT

BAUM, THOMAS J.
Professor of Plant Pathology and Chair of the Department. B.A., 1985, Germany; M.S., 1989, Munich; Ph.D., 1993, Clemson.

BAUMANN, ROBERT
Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S.E., 1944, Michigan; B.S., 1945, M.S., 1947, Ph.D., 1954, Illinois.

BAUMEL, PHILLIP
Emeritus Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, M.S., 1957, Ohio State; Ph.D., 1961, Iowa State.

BAUMGARD, LANCE HALL

BAUMGARTEN, JOSEPH R.
Emeritus Professor of Mechanical Engineering. B.S.M.E., 1950, Dayton; M.S.M.E., 1955, Ph.D., 1958, Purdue.

BEAL, GEORGE M.
Emeritus Professor of Sociology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1943, M.S., 1947, Ph.D., 1953, Iowa State.

BEATTIE, GWYN A.

BEAUVAIS, SHERYL L.
Assistant Professor of Food Science and Human Nutrition (Collaborator). B.S., 1984, M.S., 1993, Ph.D., 1997, Iowa State.

BEAVERS, IRENE
Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1948, George Peabody; M.S., 1953, Iowa State; Ph.D., 1962, Wisconsin.

BEavis, William Dale
Professor of Agronomy. B.S., 1978, Humboldt State; M.S., 1980, New Mexico State; Ph.D., 1985, Iowa State.

BECKMAN, SCOTT P.
Assistant Professor of Materials Science and Engineering. B.S., 1999, Iowa State; Ph.D., 2005, M.S., 2005, California (Berkeley).

BECRAFT, PHILIP W.
Professor of Genetics, Development and Cell Biology; Professor of Agronomy. B.A., 1980, Montana; M.S., 1987, Montana State; Ph.D., 1992, California (Berkeley).

BEEVERS, IRENE
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1950, M.S., 1957, Ph.D., 1962, Iowa State.

BEESON, RICHARD

BEETHAM, JEFFREY K.
Associate Professor of Veterinary Pathology; Associate Professor of Entomology. B.S., 1989, Western Washington; Ph.D., 1994, California (Davis).

BEGIN, JOHN C.
Professor of Economics. M.Sc., 1984, North Carolina State; Ph.D., 1988, California (Berkeley).

BEHNKEN, BRIAN D.

BEHNKEN, MONIC PRICE
Adjunct Assistant Professor of Psychology. B.A., 2000, Houston; J.D., 2004, Golden Gate; Ph.D., 2008, Pacific Graduate School.

BEHRENS, TED H.

BEIRMAN, ERICA ANNE

BEITZ, DONALD C.
Professor of Animal Science; Professor of Biochemistry, Biophysics and Molecular Biology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1962, M.S., 1963, Illinois; Ph.D., 1967, Michigan State.

BEKKUM, VICTOR A.

BELLAIRE, BRYAN HOWARD
Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1995, Northern Arizona; Ph.D., 2001, Louisiana State.

BEN-SHLOMO, GIL
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1984, M.S., 1987, Montana State; Ph.D., 1992, California (Berkeley).

BENNER, SUSAN E.
BENNITT, ADRIAN A. III

BENSON, GARREN O.

BERAN, GEORGE W.

BERAN, JANICE ANN
Emeritus Adjunct Professor of Kinesiology. A.B., 1953, Central; M.S., 1970, Drake; Ph.D., 1976, Iowa State.

BERESNEV, IGOR
Professor of Geopolitical and Atmospheric Sciences. M.S., 1981, Ph.D., 1986, Moscow (Russia).

BERGER, P. JEFFREY

BERGER, ROGER WAYNE
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S.M.E., 1958, Nebraska; M.S.I.E., 1962, Kansas State; Ph.D., 1968, Oklahoma State.

BERGESON, KENNETH L.

BERGH, MARY SARAH

BERGEFFER, SHERRY L.

BERGMAN, CLIFFORD
Professor of Mathematics; Professor of Computer Science. B.S., 1975, Brown; Ph.D., 1982, California (Berkeley).

BERQUIST, ERIN E.

BERLEANT, DANIEL
Associate Professor of Electrical and Computer Engineering (Collaborator). B.S., 1982, Massachusetts Institute of Technology; M.S., 1990, Ph.D., 1991, Texas.

BERMANN, KAREN R.

BERN, CARL JOSEPH
Professor of Agricultural and Biosystems Engineering; University Professor. B.S., 1963, M.S., 1964, Nebraska; Ph.D., 1973, Iowa State.

BERNARD, JAMES EDWARD

BERNARD, ROBERT W.
Emeritus Professor of World Languages and Cultures. B.A., 1958, St. Thomas; M.A., 1962, Ph.D., 1968, Kansas.

BESSER, TERRY L.
Professor of Sociology. B.S., 1969, Iowa State; M.A., 1975, Northern Iowa; Ph.D., 1991, Kentucky.

BEST, LOUIS BROWN

BETCHER, GLORIA J.
Adjunct Associate Professor of English. B.A., 1985, St. Olaf; M.A., 1990, Ph.D., 1994, Minnesota.

BETTS, DANIEL MORTON

BHATTACHARYA, JOYDEEP
Professor of Economics. B.S., 1989, St. Xaviers College; M.A., 1991, Delhi School of Economics (India); Ph.D., 1996, Cornell.

BHATTACHARYYA, MADAN KUMAR
Associate Professor of Agronomy. B.Sc., 1975, Assam Agricultural (India); M.Sc., 1978, Punjab Agricultural (India); Ph.D., 1987, Western Ontario.

BIASETTI, GIADA

BICKETT-WEDDLE, DANELLE A.

BIECHLER, DEAN W.

BIGELOW, TIMOTHY
Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Mechanical Engineering. B.S., 1998, Colorado State; M.S., 2001, Ph.D., 2004, Illinois.

BIRD, SHARON RAYE

BIRRELL, STUART J.
Associate Professor of Agricultural and Biosystems Engineering. B.Sc., 1984, Natal (South Africa); M.S., 1987, Ph.D., 1995, Illinois.

BIRT, DIANE FICKERET
Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1972, Whittier College; Ph.D., 1975, Purdue.

BISHOP, STEPHEN H.

BISWAS, RANA
Adjunct Professor of Electrical and Computer Engineering; Adjunct Professor of Physics and Astronomy. B.Sc., 1976, Bombay; M.Sc., 1978, Indian Institute of Technology; M.S., 1981, Ph.D., 1984, Cornell.

BIVENS, GORDON E.
Emeritus Professor of Human Development and Family Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1950, M.S., 1953, Ph.D., 1957, Iowa State.

BIX, AMY SUE
Associate Professor of History. A.B., 1987, Princeton; Ph.D., 1994, Johns Hopkins.

BJURSTROM, NEIL A.
BLACKBURN, VIRGINIA L.

BLACKHURST, JENNIFER JANE

BLAKE, J. HERMAN
Emeritus Professor of Educational Leadership and Policy Studies; Emeritus Professor of Sociology. B.A., 1960, New York (New York City); M.A., 1965, Ph.D., 1974, California (Berkeley).

BLAKELY, BARBARA JEAN

BLANCHONG, JULIE ANNE

BLANCO, MICHAEL
Assistant Professor of Agronomy (Collaborator). B.S., 1968, Georgia; M.S., 1973, Pennsylvania State; Ph.D., 1977, Missouri.

BLANKENSHIP, KEVIN L.
Assistant Professor of Psychology. B.A., 1998, M.S., 2001, Ball State; Ph.D., 2006, Purdue.

BLEYLE, CARL OTTO

BLITVICH, BRADLEY J.
Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.Sc., 1990, B.Sc., 1991, Ph.D., 1996, Western Australia.

BLOCK, CHARLES C.
Assistant Professor of Plant Pathology (Collaborator). B.S., 1974, Briar Cliff College; M.S., 1979, Ph.D., 1996, Iowa State.

BLOCK, DAVID ARTHUR

BLOEDEL, JAMES R.
Professor of Biomedical Sciences and Chair of the Department; Professor of Kinesiology. B.A., 1962, St. Olaf; Ph.D., 1967, M.D., 1969, Minnesota.

BLUMENFELD, WARREN JAY

BLUNCK, DOREEN M.
Instructor in Food Science and Human Nutrition (Collaborator). B.S., 1977, Simmons; M.S., 1978, Case Western Reserve.

BLYLER, NANCY LOUISE

BOB, THOMAS A.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1979, Indiana; M.S., 1986; Ph.D., 1990, Illinois.

BOCKHOP, CLARENCE W.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1943, M.S., 1955, Ph.D., 1957, Iowa State.

BOGDANOVEC, ADAM J.
Associate Professor of Plant Pathology. B.S., 1987, Yale; Ph.D., 1997, Cornell.

BOHNENKAMP, JEANNETTE
Emeritus Associate Professor of Food Science and Human Nutrition. B.A., 1953, Clarke; M.S., 1956, Iowa State.

BOLLES, HEATHER ANNE
Senior Lecturer in Mathematics. B.S., 1995; Ph.D., 2000, Iowa State.

BOLLUYT, JAMES EDWARD

BOLSER, KARL W.

BONACORSI, CRISTINA
Lecturer in Chemistry. L.D., 2001, Universita Degli Studi Di Pisa (Italy); Ph.D., 2005, Swiss Federal Institute of Technology.

BOND, PAUL RILEY

BONNETT, DOUGLAS G.
Professor of Psychology; Professor of Statistics. B.A., 1974, California State (Fresno); M.A., 1978, California State (Long Beach); M.A., 1980; Ph.D., 1983, California (Los Angeles).

BONNETT, RHONDA
Senior Lecturer in Psychology. B.A., 1975, California State (Fresno); M.S., 1979, California State (Long Beach); Ph.D., 1990, Wyoming.

BONNER, JOHN M.
Assistant Professor of Animal Science (Collaborator). B.S., 1968, M.S., 1971; Ph.D., 1974, Iowa State.

BONNING, BRYONY C.
Professor of Entomology. B.S., 1985, Durham; Ph.D., 1989, London School of Hygiene and Tropical Medicine.

BOOK, MICHAEL D.

BOON, WILLIAM C.

BOOTH, LARRY C. JR.
Associate Professor of Veterinary Clinical Sciences. D.V.M., 1973, Iowa State; M.S., 1976, Michigan State.

BORDEN, JEROME H.
Adjunct Instructor in Naval Science. B.S., 2006, Minnesota.

BORG, FRED H.

BORDICH, TIMOTHY O.
Associate Professor of Community and Regional Planning; Associate Dean of the College of Design. B.S., 1975, South Dakota State; M.A., 1978, South Dakota; Ph.D., 1992, Iowa State.

BORISOVA, GINKA
Assistant Professor of Finance. B.S., 2000, National and World Economy (Bulgaria); M.B.A., 2004, Ph.D., 2008, Oklahoma.

BORKOWSKI, DOUGLAS KENT

BORSO, FERDINANDO
Emeritus Professor of Physics and Astronomy. B.S., 1961, Ph.D., 1969, Pavia.
BOSELMAN, ROBERT
Professor of Apparel, Educational Studies and Hospitality Management and Chair of the Department. B.A., 1976, New York (Buffalo); M.S., 1982, Florida International; Ph.D., 1985, Oklahoma State.

BOURY, NANCY M.

BOUSSELOT, JENNIFER M.

BOWINETTE, JAMES T.

BOWEN, BONNIE SUE
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1972, Cornell; Ph.D., 1978, California (Berkeley).

BOWER, DUSTIN T.
Adjunct Instructor in Military Science and Tactics.

BOWER, JOHN RICHARD F.

BOWERS, LARRY NEAL

BOWLER, NICOLA
Associate Professor of Materials Science and Engineering; Associate Professor of Electrical and Computer Engineering. B.Sc., 1990, Nottingham (UK); Ph.D., 1994, Surrey (UK).

BOYD, DALE E.

BOYD, MORTON MCKEE
Emeritus Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1954, Pennsylvania State; M.S., 1962, Massachusetts.

BOYDSTON, TERRI DRUMM
Associate Professor of Food Science and Human Nutrition. B.S., 1982, M.S., 1984, Iowa State; Ph.D., 1988, Michigan State.

BROY, ADALU C.

BRODAY, JOHN

BROCKMEIER, SUSAN
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). D.V.M., 1988, Missouri; Ph.D., 1996, Iowa State.

BROCKMAN, WILLIAM H.
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1960, M.S., 1961, Kansas State; Ph.D., 1968, Texas A&M.

BREININGER, JARRED A.
Emeritus Professor of Chemical Engineering. B.S., 1943, Kansas; M.S., 1952, Iowa State.

BREITZKE, BRADLEY

BRENNER, CARL
Emeritus Professor of Plant Science. B.S., 1956, M.S., 1967, Iowa State; Ph.D., 1971, California (Davis).

BRENNEL, VOLKER

BROHAN, KEVIN

BREHLMAN, JAMES
Emeritus Professor of Chemical Engineering. B.S., 1943, Kansas; M.S., 1952, Iowa State.

BROKENSHIRE, NICHOLAS

BROKEMAN, WILLIAM H.

BROKMEIER, SUSAN
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). D.V.M., 1988, Missouri; Ph.D., 1996, Iowa State.

BRODEN, ROBERT

BRODERICK, THOMAS M.

BROECKER, BILL
Emeritus Professor of Geology. B.S., 1958, M.S., 1960, Iowa State; Ph.D., 1963, Miami (Ohio).

BROECKER, WILLIAM S.
Emeritus Professor of Geology. B.S., 1958, M.S., 1960, Iowa State; Ph.D., 1963, Miami (Ohio).

BROELSCH, VICTOR

BRO_ELLE, MANFRED

BROELAND, JAMES

BROEMEL, ROBERT
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1954, Pennsylvania State; M.S., 1962, Massachusetts.

BROGDEN, KIM

BROD, ADAM

BRODGE, KEVIN

BROGGEN, ROBERT

BROWN, EDWARD

BROWN, JOHN
Emeritus Professor of Computer Science; Emeritus Professor of Electrical and Computer Engineering. B.S., 1961, North Dakota State; M.S., 1963, Iowa State; Ph.D., 1971, California (Davis).

BROWN, KEITH

BROWN, ROBERT A.

BROWN, WILLIAM

BROWN, WILBERT

BROWNELL, DANA

BROWNELL, ROBERT

BROWN, WILLIAM

BROWNELL, ROBERT

BROWNELL, ROBERT
BRONIKOWSKI, ANNE MARIE

BRONSON, CHARLOTTE R.
Professor of Plant Pathology; Associate Vice President. B.S., 1969, New Mexico; M.S., 1974, Michigan; Ph.D., 1981, Michigan State.

BROOK, CORLICE P.

BROTH, MARY JANE
Professor of Human Development and Family Studies. B.A., 1973, M.S., 1976, Nebraska (Omaha); Ph.D., 1985, Kansas.

BROWN, DONAL WAYNE
Emeritus Professor of Accounting. B.S., 1942, Kansas State; M.B.A., 1946, Denver.

BROWN, FREDERICK G.
Emeritus Professor of Psychology; Emeritus Professor of Curriculum and Instruction; University Professor. B.A., 1954, M.A., 1955, Wisconsin; Ph.D., 1958, Minnesota.

BROWN, GAYLE B.

BROWN, GEORGE GORDON

BROWN, JAMES ROBERT
Assistant Professor of Finance. B.A., 1996, Transylvania; M.S., 1999, Kentucky; Ph.D., 2004, Washington (St. Louis).

BROWN, MARTH M.

BROWN, NANCY EVELYN
Emeritus Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1960, Vermont; M.S., 1964, Kansas State; Ph.D., 1972, Iowa State.

BROWN, ROBERT C.
Professor of Mechanical Engineering; Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1976, B.S., 1976, Missouri; M.S., 1977, Ph.D., 1980, Michigan State.

BROWN, ROBERT GROVER
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1951, Ph.D., 1956, Iowa State.

BRUN, JUDY KAY
Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Curriculum and Instruction. B.S., 1964, Michigan State; M.S., 1967, Ph.D., 1970, Iowa State.

BRUNA, KATHERINE R.
Associate Professor of Curriculum and Instruction. B.A., 1988, Vassar College; M.A., 1994, Ph.D., 2002, California (Davis).

BRUNER, DAVID K.
Emeritus Professor of English. A.B., 1933, A.M., 1934, Washington (St Louis); Ph.D., 1941, Illinois.

BRUNING, MONICA

BRUNNER, LORI A.

BRUNSCHIEEN, SUMMER

BRUSKI, PAUL R.

BRUTON, BRENT T.

BRYAN, RAY JAMES
Emeritus Professor of Educational Leadership and Policy Studies. B.S., 1933, M.S., 1937, Kansas State; Ph.D., 1940, Nebraska.

BRYDEN, KENNETH MARK
Associate Professor of Mechanical Engineering; Associate Professor of Aerospace Engineering. B.S., 1977, Idaho State; M.S.M.E., 1993, Ph.D., 1997, Wisconsin.

BRYDEN, KRISTY

BUCHHE, WESLEY F.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1943, Kansas State; M.S., 1951, Arkansas; Ph.D., 1954, Iowa State.

BUCK, BRADLEY ALLEN

BUCK, PETER G.

BUDKO, SERGUEI L.

BUGEJA, DIANE FAYE
Senior Lecturer in Greenlee School of Journalism and Communication. B.S., 1981, M.S., 1988, Oklahoma State.

BUGEJA, MICHAEL J.
Professor of Greenlee School of Journalism and Communication and Director of the School. B.A., 1974, Saint Peters College; M.S., 1976, South Dakota State; Ph.D., 1985, Oklahoma State.

BULLA, DAVID W.
BULTENA, GORDON LOUIS

BUNDE, DWAIN M.

BUNZEL, HELLE
Associate Professor of Economics. B.A., 1993, Aarhus (Denmark); M.A., 1997, Cornell.

BURGAR, GALEN J.

BURGER, STEWART LEE

BURLINGTON, HELENE

BURKE, BENJAMIN
Assistant Professor of Geological and Atmospheric Sciences (Collaborator). Ph.D., 2006, Dartmouth College.

BURKHARD, LEONARD
Emeritus Professor of Music and Theatre; Emeritus Professor of Curriculum and Instruction. L.T.C.L., 1939, Trinity (London); B.S.M., 1947, Bluffton; M.M., 1949, Northwestern; Ph.D., 1961, Ohio State.

BURMEISTER, BRIAN

BURNET, AGATHA H.
Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1952, Indiana; M.S., 1956, Iowa State; Ph.D., 1969, Ohio State.

BURNET, GEORGE
Emeritus Professor of Chemical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, M.S., 1949, Ph.D., 1951, Iowa State.

BURNETT, JOSEPH W.
Senior Lecturer in Chemistry. B.S., 1982, Allegheny (Pennsylvania); Ph.D., 1990, Pittsburgh.

BURNETT, REBECCA E.

BURNLEY, ELIZABETH C.

C.

CAGLEY, LEE W.
Professor of Art and Design. B.A., 1975, Iowa State.

CAI, LING
Lecturer in World Languages and Cultures. B.A., 1988, Beijing Normal (China); M.A., 2007, Iowa State.

CAI, YING

CAIN, BRYAN EDMUND

CADERWELL, BARBARA A.

CALHOUN, GRAYSON FORD

CALSTON, DIANNE G.

CALL, ANSON B.
Associate Professor of Art and Design; Associate Professor of Architecture. B.F.A., 2000, M.F.A., 2003, Utah State.
CALLISON, MARK P.

CAMBARDELLA, CYNTHEA ANN
Associate Professor of Agronomy (Collaborator). B.S., 1975, Maryland; Ph.D., 1991, Colorado State.

CAMPBELL, ARDEN RAY

CAMPBELL, CAMERON T.
Associate Professor of Architecture; Associate Professor of Art and Design. B.Arch., 1987, M.Arch., 2003, Iowa State.

CAMPBELL, CHRISTINA

CAMPBELL, CYNTHEA J.

CAMPBELL, JOY M.

CANFIELD, PAUL C.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1983, Virginia; Ph.D., 1990, M.S., 1990, California (Los Angeles).

CANNON, JAMES

CANNON, STEVEN B.

CANTOR, DAVID EDWARD
Assistant Professor of Supply Chain and Information Systems. B.S., 1996, M.S., 1999, Ph.D., 2006, Maryland.

CARAGEA, PETRUTA CARMEN
Associate Professor of Statistics. B.S., 1997, Bucuresti (Romania); Ph.D., 2003, North Carolina.

CARDINAL-PETT, CLARE
Associate Professor of Architecture. B.A., 1975, Hollins; M.Arch., 1982, Utah.

CARTERS, JEANINE R.
Emeritus Professor of Biomedical Sciences. B.S., 1956, M.S., 1965, Iowa State; Ph.D., 1968, Missouri.

CARTERS, ROBERT W.
Emeritus Professor of Veterinary Clinical Sciences. D.V.M., 1956, Iowa State; M.S., 1968, Missouri; Ph.D., 1972, Iowa State.

CARLANDER, KENNETH D.
Emeritus Professor of Natural Resource Ecology and Management; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1936, M.S., 1938, Ph.D., 1943, Minnesota.

CARLSON, BILLIE C.

CARLSON, DAVID L.
Emeritus Associate Professor of Electrical Engineering. B.S., 1959, Minnesota; M.S., 1961, Ph.D., 1964, Iowa State.

CARLSON, IRVING
CEYLAN, HALIL

CHACKO, THOMAS I.
Prof. of Management and Chair of the Department. B.Sc., 1968, Madras (India); M.A., 1972, St. Francis; Ph.D., 1977, Iowa.

CHAMBERLIN, DENNIS MATTHEW

CHAMBERLIN, JOAN BORSVOLD

CHAN, CHIU SHUI

CHAN, CHUN KIT
Assistant Prof. of Psychology. B.S., 2000, Victoria (Canada); Ph.D., 2007, Washington (St. Louis).

CHANDRA, ABHIJIT
Prof. of Mechanical Engineering; Prof. of Aerospace Engineering. B.Tech., 1979, Khanagpur; M.Engr., 1980, New Brunswick; Ph.D., 1983, Cornell.

CHANG, CARL KOCHAO
Prof. of Computer Science and Chair of the Department. B.S., 1974, National Central (Taiwan); M.S., 1978, Northern Illinois; Ph.D., 1982, Northwestern.

CHANG, JIEN MORRIS
Assoc. Prof. of Electrical and Computer Engineering; Assoc. Prof. of Computer Science. B.S., 1983, Tatung (Taiwan); M.S., 1986, Ph.D., 1993, North Carolina State.

CHANG, SHU-HUI H.
Senior Lecturer in Computer Science. B.A., 1982, National Central (Taiwan); M.S., 1998, Ph.D., 2006, Iowa State.

CHAPPELL, CAROL ANN

CHAPLIN, MICHAEL H.

CHARLES, DON C.
Emeritus Prof. of Psychology; Emeritus Prof. of Curriculum and Instruction. B.A., 1941, Northern Iowa; M.A., 1947; Ph.D., 1951, Nebraska.

CHASE, CHRISTOPHER WYATT

CHASE, GERALD W.

CHATFIELD, WALTER L.
Emeritus Prof. of World Languages and Cultures; Emeritus Prof. of Curriculum and Instruction. B.A., 1956, Augustana (Illinois); M.A., 1958, Iowa.

CHAUDHARY, SUMIT
Assistant Prof. of Electrical and Computer Engineering; Assoc. Prof. of Materials Science and Engineering. B.Tech., 2001, Indian Technological (India); Ph.D., 2006, California (Riverside).

CHAUDHURI, SOMA

CHEN, CHING-SHIHN
Prof. of Agricultural and Biosystems Engineering (Collaborator). B.S., 1982, Tunghai (Taiwan); M.S., 1988, Ph.D., 1994, Auburn.

CHEN, CHUN HUI

CHEN, DEGANG
Prof. of Electrical and Computer Engineering. B.S., 1984, Tsinghua (China); M.S., 1988, Ph.D., 1992, California (Santa Barbara).

CHEN, SONG XI

CHEN, TSING-CHANG
Prof. of Geological and Atmospheric Sciences; Prof. of Agronomy. B.A., 1965, Taiwan Normal; M.S., 1968, National Central (Taiwan); M.A., 1972, Johns Hopkins; Ph.D., 1975, Michigan.

CHEVILLE, NORMAN F.
Emeritus Prof. of Veterinary Pathology; Emeritus Prof. of Veterinary Microbiology and Preventive Medicine; Emeritus Dean of the College of Veterinary Medicine; Clarence Hartley Covault Distinguished Prof. in Veterinary Medicine. D.V.M., 1959, Iowa State; M.S., 1963, Ph.D., 1964, Wisconsin; Dr.H.C., 1986, Liege.

CHEDISTER, MARK J.

CHILDERS, TERRY LEE

CHIMENTI, DALE E.
Prof. of Aerospace Engineering. B.A., 1968, Cornell College; M.S., 1972, Ph.D., 1974, Cornell.

CHING, BARBARA ANN

CHO, MICHAEL
Assoc. Prof. of Biomedical Sciences. B.A., 1987, Whitman College; Ph.D., 1994, Utah.

CHO, YOUNGMI L.

CHO-MACSWAIN, JENNY G.

CHOI, EUN KWAN

CHOI, MINSEOK
Assoc. Prof. of Genetics, Development and Cell Biology; Assoc. Prof. of Computer Science. B.S., 1989, National Taiwan; Ph.D., 1996, Maryland.

CHRISTENSEN, BRUCE WILLIAM
CHRISTENSEN, GEORGE C.
Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1949, M.S., 1950, Ph.D., 1953, Cornell;D.Sc., 1978, Purdue.

CHRISTENSEN, KAYLA E.
Lecturer in Accounting. B.S., 2006;MACC, 2007, Iowa State.

CHRISTENSEN, LOA

CHRISTENSEN, PAUL JAY

CHRISTIAN, MICHELE A.

CHRISTIANS, NICK E.
Professor of Horticulture; University Professor. B.S., 1972, Colorado State; M.S., 1977, Ph.D., 1979, Ohio State.

CHRISTOFFEL, REBECCA

CHU, CHRIS CHONG-NUEN
Associate Professor of Electrical and Computer Engineering. B.Sc., 1993, Hong Kong;M.S., 1994, Ph.D., 1999, Texas.

CHUMBLEY, LEONARD S.

CIANZIO, SILVIA R.

CHIA, ALLAN

CIPRICH-CHRISTENSEN, M.

CLAPP, AARON ROBERT
Assistant Professor of Chemical and Biological Engineering. B.S., 1996, Minnesota; M.S., 2000,Ph.D., 2001, Florida.

CLAPP, TARA LYNNE
Assistant Professor of Community and Regional Planning. B.E.S., 1985, Manitoba (Canada); M.E., 1995, Calgary (Canada); Ph.D., 2003, Southern California.

CLARK, LYNN G.

CLARK, STEPHANIE
Associate Professor of Food Science and Human Nutrition. B.S., 1990, M.S., 1993,Ph.D., 1997, Cornell.

CLARK, TRACY LARSEN
Emeritus Professor of Veterinary Clinical Sciences. B.S., 1958,D.V.M., 1960, Kansas State.

CLARK, WILLIAM R.
Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Rutgers; M.S., 1974, Ph.D., 1979, Utah State.

CLARKE, ALVIN E.

CLEASBY, JOHN L.
Emeritus Professor of Civil, Construction and Environmental Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1950, M.S., 1951, Wisconsin; Ph.D., 1960, Iowa State.

CLEM, ANNE MARIE

CLEM, JOHN RICHARD
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1960, M.S., 1962, Ph.D., 1965, Illinois.

CLEMANS, JESSICA MARIE

CLIFFORD, ANNE
Associate Professor of Philosophy and Religious Studies. B.A., 1972, Carlow College; M.A., 1980, Catholic Theological Union; Ph.D., 1988, Catholic University of America.

CLOTTEY, TOYIN A.
Assistant Professor of Supply Chain and Information Systems. B.A., 2001, Ghana (West Africa); M.S., 2006, Ph.D., 2010, Ohio State.

CLOUGH, MICHAEL P.

CLUTTER, ARCHIE C.

COADY, LARRY B.

COATES, PAUL MOORE

COATS, JOEL

COBERLEY, MARK C.

COFFMAN, CLARK
Assistant Professor of Genetics, Development and Cell Biology. B.Sc., 1998, Iowa State; Ph.D., 2004, Minnesota.

COCHRAN, ERIC W.
Assistant Professor of Chemical and Biological Engineering. B.Sc., 1998, Iowa State; Ph.D., 2004, Minnesota.

COCHRAN, JAMES

CODDY, ROBERT

COFFEY, DANIEL

COFFMAN, CLARK
Assistant Professor of Genetics, Development and Cell Biology. B.S., 1986, Iowa State; Ph.D., 1993, California (La Jolla).

COHEN, HARRY

COINMAN, NANCY R.
COLBERT, JAMES T.
Associate Professor of Ecology, Evolution and Organismal Biology; Associate Professor of Genetics, Development and Cell Biology. B.S., 1978, Iowa State; M.S., 1981, Ph.D., 1985, Wisconsin.

COLBERT, KAREN K.

COLE, JIM E.

COLEY, MATTHEW W.

COLLETTI, JOE PAUL
Professor of Natural Resource Ecology and Management; Senior Associate Dean of the College of Agriculture and Life Sciences. B.S., 1972, Humboldt; M.S., 1974, Ph.D., 1978, Wisconsin.

COLLINS, BETH A.

COLVER, GERALD M.

COLWELL, PETER

COMPTON, LILY KO-LI

COMSTOCK, CHESTER JR.

CONGER, RAND DONALD

CONKLIN, NANCY

CONSTANT, ALAN P.

CONSTANT, KRISTEN P.
Associate Professor of Materials Science and Engineering. B.S., 1986, Iowa State; Ph.D., 1990, Northwestern.

CONTENTO, ANTHONY

COOK, CHRISTINE C.
Associate Professor of Human Development and Family Studies. B.A., 1972, Montclair; M.S., 1977, Cornell; Ph.D., 1982, Ohio State.

COOK, DIANNE H.
Professor of Statistics. B.S., 1979, New England (Australia); M.S., 1990, Ph.D., 1993, Rutgers.

COOK, WILLIAM JOHN

COON, STEPHEN C.
Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1967, Iowa; M.S., 1970, Iowa State.
COURTWRIGHT, JULIE  
Assistant Professor of History. B.S.E., 1994, Emporia State; M.A., 2000, Wichita State; Ph.D., 2007, Arkansas.

COWAN, ARNOLD RICHARD  

COWAN, DONNA LEE  

COWLES, HAROLD ANDREW  
Emeritus Professor of Industrial and Manufacturing Systems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949; M.S., 1953, Ph.D., 1957, Iowa State.

COX, CHARLES PHILIP  

COX, ELIZABETH  

COX, JANE F.  

COX, RONALD ARTHUR  

COZMA, RALUCA  
Assistant Professor of Greenlee School of Journalism and Communication. B.A., 2003, School of Journalism (Romania); M.COM, 2005, Manship School of Mass Communication; Ph.D., 2009, Louisiana State.

CRABTREE, BEVERLY J.  

CREASE, SEDAHLLA J.  
Emeritus Professor of Human Development and Family Studies; University Professor. B.S., 1967, Berea; M.S., 1969, Kentucky; Ph.D., 1972, Iowa State.

CRAVENS, HAMILTON  

CRAWFORD, HAROLD R.  

CRAWLEY, HENRY BERT  
Emeritus Professor of Physics and Astronomy. B.S., 1962, Louisiana Tech; Ph.D., 1966, Iowa State.

CRESEWELL, MARY  

CROBY, RICHARD  

CROSS, SAMANTHA N.  
Assistant Professor of Marketing. B.Sc., 1993, University of the West Indies; M.B.A., 1995, Depaul; Ph.D., 2009, California (Irvine).

CROSS, SUSAN ELAINE  
Associate Professor of Psychology. B.S., 1979, Texas A&M; M.A., 1982, Ohio State; Ph.D., 1990, Michigan.
DAIL, PAULA W.

DAKE, DENNIS MYRON

DALAL,VIKRAM L.
Professor of Electrical and Computer Engineering. B.S., 1964, Bombay; Ph.D., 1969, Princeton.

DALY, BRENDA O.
Emeritus Professor of English; University Professor. B.A., 1963, North Dakota; Ph.D., 1985, Minnesota.

DALY, NOREEN F.

DAMHORST, MARY LYNN
Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1972, Illinois; M.S., 1975, California (Davis); Ph.D., 1981, Texas.

DANIELS, THOMAS EARL

DANIELSON, BRENT J.

DANIELSON, JARED A.
Assistant Professor of Veterinary Pathology; Assistant Professor of Curriculum and Instruction. B.A., 1994, Brigham Young; M.S., 1996, Syracuse; Ph.D., 1999, Virginia Polytechnic.

DANILEVSKAYA, OLGA N.

DANOFSKY, RICHARD A.

DARK, FREDERICK H.
Associate Professor of Finance and Chair of the Department; B.S., 1971, Arkansas; Ph.D., 1987, Utah.

DARK, VERONICA JOY

DARLINGTON, MAHLON S.

DARR, MATTHEW JOHN
Assistant Professor of Agricultural and Biosystems Engineering. B.S., 2002, Ohio State; M.S., 2004, Kentucky; Ph.D., 2007, Ohio State.

DAVID, CAROL S.

DAVID, HERBERT ARON
Emeritus Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.Sc., 1947, Sydney; Ph.D., 1953, London.

DAVID, HERBERT T.
Emeritus Professor of Statistics; Emeritus Professor of Industrial and Manufacturing Systems Engineering; University Professor. A.B., 1947, Harvard; M.A., 1948, Columbia; Ph.D., 1960, Chicago.

DAVID, WILLIAM MILLS

DAVIDSON, JENNIFER L.
Associate Professor of Mathematics; Associate Professor of Electrical and Computer Engineering. B.A., 1979, Mount Holyoke; Ph.D., 1989, Florida.

DAVIS, JAMES A.
Associate Professor of Computer Engineering; Vice Provost and Chief Information Officer. B.S., 1975, M.S., 1981, Ph.D., 1984, Iowa State.

DAVIS, NICOLA E.
Professor of Curriculum and Instruction (Collaborator). B.Sc., 1972, Edinburgh; Ph.D., 1976, Queen’s (Belfast).

DAVIS, RADFORD G.

DAVIS, SARAH SUSAN
Lecturer in English. B.A., 1994, California (Berkeley); M.A., 2009, Iowa State.

DAWSON, JANE P.

DAY, TIMOTHY A.
Professor of Biomedical Sciences. B.S., 1988, Kansas State; M.S., 1990, Ph.D., 1993, Michigan State.

DAYAL, VINAY
Associate Professor of Aerospace Engineering. B.Tech., 1972, Indian Institute of Technology; M.S., 1983, Missouri; Ph.D., 1987, Texas A&M.

DE LAPLANTE, KEVIN L.
Associate Professor of Philosophy and Religious Studies and Chair of the Department. B.Sc., 1991, Carleton; M.A., 1993, Ph.D., 1999, Western Ontario (Canada).

DEACON, RUTH ELINOR
Emeritus Professor of Human Development and Family Studies. B.S., 1944, Ohio State; M.S., 1948, Ph.D., 1954, Cornell.

DEAM, DIRK J.
Senior Lecturer in Political Science; Senior Lecturer in Aerospace Engineering. B.S., 1981, J.D., 1985, Kansas; Ph.D., 1999, Iowa.

DEARIN, RAY DEAN

DEBINSKI, DIANE M.

DECLERCK, JONATHAN CHARLES

DEHART, JOSEPH CRAIG

DEIBLER, KYLA

DEININGER, MELISSA ANN
Assistant Professor of World Languages and Cultures. B.A., 1996, William and Mary; M.A., 2002, Ph.D., 2009, Pittsburgh.
DEITER, RONALD E.

DEITZ, KRISTA LEIGH

DEJONG, PAUL S.

DEKKER, JOHN HENRY

DEKKERS, JACK C.

DELATE, KATHLEEN
Professor of Horticulture; Professor of Agronomy. M.S., 1986, B.S., 1988, Florida; Ph.D., 1991, California (Berkeley).

DELISI, MATTHEW J.
Associate Professor of Sociology. B.A., 1995, Syracuse; Ph.D., 2000, Colorado.

DELL, BRAD EDWARD

DELLMANN, H. DIETER
Emeritus Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. Dr. Vet., 1954, Alfort; Habil(PhD), 1961, Munich.

DEMARAY, KATHLEEN ELYSE

DEMARIE, SAM DEMARIE

DENISON, CHRISTINE ALICIA

DENTON, DENISE C.

DERRICK, TIM R.
Associate Professor of Kinesiology. B.S., 1988, M.S., 1991, Oregon; Ph.D., 1996, Massachusetts.

DEUTSCH, WILLIAM G.

DEVITA, JAMES MICHAEL

DEW, SPENCER LEE

DEWALL, BRIAN S.

DEWELL, GRANT ALAN

DEWELL, RENEE’

DEWITT, JERALD RAY

DHARMADHIKARI, MURLIDHAR R.
Adjunct Associate Professor of Food Science and Human Nutrition. B.Sc., 1963, Vikram (India); M.Sc., 1965, New Delhi (India); Ph.D., 1972, Ohio State.

DI MICIELI, AMALIE

DIAL, ELEANORE M.
Emeritus Associate Professor of World Languages and Cultures. B.A., 1951, Bridgeport; M.A., 1958, Mexico City; Ph.D., 1968, Missouri.

DICKERSON, JULIE A.
Associate Professor of Electrical and Computer Engineering. B.S., 1983, California (San Diego); M.S., 1987, Ph.D., 1993, Southern California.

DICKSON, JAMES S.
Professor of Animal Science. B.S., 1977, Clemson; M.S., 1980, Georgia; Ph.D., 1984, Nebraska.

DIESSLIN, BRENDA ANN

DILLA, WILLIAM N.

DILTS, HAROLD E.
Emeritus Professor of Curriculum and Instruction. B.S., 1951, M.A., 1958, Northern Iowa; Ph.D., 1963, Iowa.

DIMITROVA, DANIELA
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1997, American (Bulgaria); M.A., 1999, Oregon; Ph.D., 2003, Florida.

DINKELMAN, ANDREA L.
Assistant Professor, Library. B.S., 1984, Nebraska Wesleyan; PHARM, 1991, Nebraska Medical Center; M.S., 2003, Illinois.

DINSMORE, JAMES JAY

DINSMORE, STEPHEN J.

DISALVO, JENNIFER T.

DISNEY, RICHARD L.
Emeritus Professor of Greenlee School of Journalism and Communication. B.A., 1937, Oklahoma.

DISPIRITO, ALAN A.

DIXON, PHILIP M.
Professor of Statistics. A.B., 1978, California (Berkeley); M.S., 1984, Ph.D., 1986, Cornell.
DOAK, PAUL D.
Emeritus Associate Professor of Economics. B.S., 1957, M.S., 1960, Missouri; Ph.D., 1965, Iowa State.

DOAK, RICHARD
Lecturer in Greenlee School of Journalism and Communication. B.S., 1962, M.S., 1964, Iowa State.

DOBBS, CHARLES M.

DOBBS, DRENA LEIGH
Professor of Genetics, Development and Cell Biology. B.S., 1977, Georgia; Ph.D., 1983, Oregon.

DOBILL, DANIEL R.

DOBROATZ, BETTY A.

DOBSON, CYNTHIA

DOBSON, JOHN M.
Emeritus Professor of History. B.S., 1962, Massachusetts Institute of Technology; M.S., 1964, Ph.D., 1966, Wisconsin.

DOGANDZIC, ALEKSANDAR

DOLLISSO, AWOKE DESTA

DOLPHIN, WARREN DEAN
Emeritus Professor of Genetics, Development and Cell Biology; University Professor. B.S., 1962, West Chester; Ph.D., 1968, Ohio State.

DOMINGUEZ-CASTELLANO, J.
Assistant Professor of World Languages and Cultures. B.A., 1998, Extremadura (Spain); M.A., 2000, Michigan State; Ph.D., 2004, Arizona.

DOMOTO, PAUL ALAN
Professor of Horticulture. B.S., 1969, M.S., 1971, California State (Fresno); Ph.D., 1974, Maryland.

DONG, LIANG
Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Chemical and Biological Engineering. B.S., 1999, Xidian (China); Ph.D., 2004, Tsinghua (China).

DORAI, L.
Emeritus Professor of Chemical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1946, Nizam (India); M.S., 1950, Ph.D., 1952, Wisconsin.

DORAN, BENJAMIN M.
Associate Professor of Accounting. B.S., 1968, M.S., 1978, Iowa State; Ph.D., 1984, Iowa.

DORMAN, KARIN
Associate Professor of Statistics; Associate Professor of Genetics, Development and Cell Biology. B.S., 1994, Indiana; Ph.D., 2001, California (Los Angeles).

DORN, JOHN O.

DOUGHERTY, BARBARA

DOUGLAS, DANNY

DOW, JAMES R.
Emeritus Professor of World Languages and Cultures. B.A., 1957, Mississippi College; M.A., 1961, Ph.D., 1966, Iowa.

DOWNING, JOHN A.
Professor of Ecology, Evolution and Organismal Biology; Professor of Agricultural and Biosystems Engineering. B.S., 1973, Harline; M.S., 1975, North Dakota State; Ph.D., 1980, McGill.

DOWNING-MATIBAG, TERESA M.

DRAKE, COREY JEFFRIES
Associate Professor of Curriculum and Instruction. B.A., 1994, Chicago; M.S., 1996, Rosary College; Ph.D., 2000, Northwestern.

DRAKE, SHARON KAY

DRAPER, DIANNE C.

DRAPER, DONALD D.

DREXLER, M. BURTON

DRINKWATER, JENNIFER D.

DUFFY, JAN M.

DUFFY, MICHAEL D.

DUKES, LISA MARIE

DUNN, LARSON B. JR.
Assistant Professor of Agricultural and Biosystems Engineering (Collaborator). B.A., 1977, Miami (Ohio); Ph.D., 1983, Texas A&M.

DUPONT, JACQUELINE
Emeritus Professor of Food Science and Human Nutrition. B.S., 1955, Florida State; M.S., 1959, Iowa State; Ph.D., 1962, Florida State.

DURAND, DONALD P.
Emeritus Professor of Plant Pathology. A.B., 1955, Guilford; M.S., 1957, Ph.D., 1960, Kansas State.

DURBIN, PAUL
Professor of Aerospace Engineering. B.S.E., 1974, Princeton; Ph.D., 1979, Cambridge.

DUSELLIER, JANE E.
Assistant Professor of Anthropology. B.A., 1979, Avila; M.A., 1999, Sarah Lawrence; Ph.D., 2005, Maryland.
DUVICK, JONATHAN PAUL  
Adjunct Associate Professor of Genetics, Development and Cell Biology.  

DYAS, ROBERT  
Emeritus Professor of Landscape Architecture; Distinguished Professor in Design.  

DYAS, ROBERT  
Emeritus Professor of Landscape Architecture; Distinguished Professor in Design.  

DYAS, ROBERT  
Emeritus Professor of Landscape Architecture; Distinguished Professor in Design.  

DYAS, ROBERT  
Emeritus Professor of Landscape Architecture; Distinguished Professor in Design.  

DYAS, ROBERT  
Emeritus Professor of Landscape Architecture; Distinguished Professor in Design.  

DYAS, ROBERT  
Emeritus Professor of Landscape Architecture; Distinguished Professor in Design.  

EDWARDS, DAVID C.  
Emeritus Professor of Psychology. B.S., 1959, Wisconsin; M.A., 1961,  
Ph.D., 1962, Iowa.

EDWARDS, JODE W.  
Assistant Professor of Agronomy (Collaborator). B.S., 1992, M.S., 1994,  
Wisconsin; Ph.D., 1999, Iowa State.

EDWARDS, WILLIAM M.  
Professor of Economics. B.S., 1969, M.S., 1971, Ph.D., 1979, Iowa State.

EGGLESTON, LATRICE ELAINE  
Assistant Professor of Educational Leadership and Policy Studies. B.A.,  

EIDE, ARVID RAY  
Emeritus Professor of Mechanical Engineering. B.S., 1962, M.E., 1967,  
Ph.D., 1973, Iowa State.

EISMAN, APRIL ANGELIQUE  
Assistant Professor of Art and Design. B.A., 1994, Lawrence; M.A., 1998,  
Courtauld Institute of Art (London); Ph.D., 2007, Pittsburgh.

EKBERG, CARL E. JR.  
Emeritus Professor of Civil, Construction and Environmental Engineering.  

EKKEKAKIS, PANTELEIMON  
Associate Professor of Kinesiology. B.S., 1992, Athens; M.S., 1996,  
Kansas State; Ph.D., 2000, Illinois.

ELIA, NICOLA  
Associate Professor of Electrical and Computer Engineering. Ph.D., 1996,  
Massachusetts Institute of Technology.

ELLINWOOD, NORMAN MATTHEW  
Associate Professor of Animal Science; Associate Professor of Veterinary  
Clinical Sciences. B.A., 1985, Washington (St. Louis); D.V.M., 1997, Ph.D.,  
2000, Colorado State.

ELLIS, JAMES STARK  
Lecturer in Mathematics. B.S., 1987, Wisconsin; M.S., 1989, Wisconsin  
(Milwaukee).

ELLIS, TIMOTHY G.  
Associate Professor of Civil, Construction and Environmental Engineering.  
B.S., 1984, Drexel; M.S., 1988, Georgia Institute of Technology;  
Ph.D., 1995, Clemson.

ELMORE, ROGER  
Professor of Agronomy. B.S., 1972, Illinois State; M.S., 1978, Ph.D., 1981,  
Illinois.

ELSTON, SCOTT E.  
Senior Lecturer in Management. B.S., 1984, M.S., 1990, Iowa State.

ELVIK, KENNETH O.  
Emeritus Professor of Accounting. B.S., 1957 Morningside; M.A., 1960,  
Ph.D., 1970, Nebraska.

EMERY, MARY E.  
Adjunct Assistant Professor of Sociology. B.A., 1974, Livingston College;  

EMMERSON, JAMES T.  
Emeritus Professor of Greenlee School of Journalism and Communication.  

ENESS, PAUL G.  
Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine.  

ENGEL, ROSALIND E.  
Emeritus Professor of Human Development and Family Studies. B.A.,  
1956, Iowa Wesleyan; M.A., 1964, Iowa.

ENGEL, ROSS A.  
Emeritus Professor of Educational Leadership and Policy Studies. B.A.,  
1948, Northern Iowa; M.S., 1952, Drake; Ph.D., 1962, Iowa.

ENGELBRECHT, MARK C.  
Professor of Architecture; Emeritus Dean of the College of Design.  
BArch., 1963, Iowa State; MArch., 1964, Columbia.

ENGELKEN, TERRY  
Associate Professor of Veterinary Diagnostic and Production Animal Medicine.  

ENGEN, RICHARD L.  
Emeritus Professor of Biomedical Sciences. B.S., 1954, Iowa State; M.S.,  

ENGER, M. DUANE  
Professor of Genetics, Development and Cell Biology. B.S., 1959, M.S.,  
1961, North Dakota State; Ph.D., 1964, Wisconsin.

ENGLE, DAVID MICHAEL  
Professor of Natural Resource Ecology and Management (Collaborator).  

ENGLE, MIRIAM  
Professor of Landscape Architecture. B.A., 1983, Institute of Technology (Israel);  

ENGLIN, PETER D.  
Lecturer in Educational Leadership and Policy Studies. B.S., 1982, M.S.,  
1987, North Dakota State; Ph.D., 2001, Iowa State.

ENLOE, LISA L.  
State; M.S., 1986, Iowa State.

ENSLEY, STEVE MICHAEL  
Adjunct Associate Professor of Genetics, Development and Cell Biology.  
B.S., 1984, Drexel; M.S., 1988, Georgia Institute of Technology;  
Ph.D., 1995, Clemson.

EPSTEIN, ABRAHAM H.  
Emeritus Professor of Plant Pathology. B.S., 1952, Cornell; M.S., 1954,  
Rhode Island; Ph.D., 1969, Iowa State.
ERDMAN, MATTHEW M.

ESCH, KEVIN JAN

ESLINGER, BRIAN GLENN

ESPENSON, JAMES H.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1958, California Institute of Technology; Ph.D., 1962, Wisconsin.

ESSNER, JEFFREY JEROME
Assistant Professor of Genetics, Development and Cell Biology. B.S., 1987, Iowa; Ph.D., 1996, Minnesota.

ESTES, SIMON
Adjunct Professor of Music and Theatre. B.A., 1963, Iowa.

EULENSTEIN, OLIVER
Associate Professor of Computer Science. Ph.D., 1998, Bonn (Germany).

EVANS, JAMES W.
Professor of Physics and Astronomy. B.S., 1975, Melbourne; Ph.D., 1978, Adelaide.

EVANS, LAWRENCE E.
Professor of Veterinary Clinical Sciences; Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Biomedical Sciences. D.V.M., 1963, M.S., 1967, Ph.D., 1973, Iowa State.

EVANS, NANCY J.

EVANS, NORMAN CHARLES

EVANS, PETER MCNEIL

EVEN, JOHN C. JR.

EWALD, HELEN R.

EWAN, RICHARD C.

EWING, ROBERT P.

F

FAABERG, KAY
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1978, Concordia College; Ph.D., 1987, Rush.

FABER, CAROL H.

FADEN, ARNOLD M.

FAIDLEY, LEANN E.

FAIRBANKS, WENDELYN SUE
Associate Professor of Natural Resource Ecology and Management. B.S., 1982, Nebraska Wesleyan; M.S., 1985, Colorado State; Ph.D., 1992, Kansas.

FAIRCILD, ELLEN E.
Senior Lecturer in Curriculum and Instruction. B.S., 1976, M.S., 1988, Iowa State; Ph.D., 2002, Iowa.

FALESE, AMANDA JEAN
Assistant Professor of Veterinary Pathology. B.S., 1991, Kentucky; D.V.M., 1995, Missouri; Ph.D., 2000, Iowa State.

FALESE, STEVEN L.

FALK, BARRY L.

FANG, NING
Assistant Professor of Chemistry. B.S., 1998, Xiamen (China); M.S., 2001, Ph.D., 2006, British Columbia.

FANOUS, FOUAD S.

FANSLOW, ALYCE M.
Emeritus Professor of Apparel, Educational Studies and Hospitality Management; Emeritus Professor of Educational Leadership and Policy Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1957, Minnesota; M.S., 1960, Ph.D., 1966, Iowa State.

FANSLOW, GLENN E.

FARR, CHERYL ANN

FARRAR, DONALD R.

FARRAR, EUGENIA SUE

FARRELL-BECK, JANE A.
Emeritus Professor of Apparel, Educational Studies and Hospitality Management; University Professor. B.S., 1963, Georgian Court; M.S., 1969, Drexel; Ph.D., 1975, Ohio State.

FAYED, AYMAN ADEL
Assistant Professor of Electrical and Computer Engineering. B.Sc., 1998, Cairo (Egypt); M.Sc., 2000, Ph.D., 2004, Ohio State.

FEHR, CARLA J.

FEHR, WALTER R.
Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1961, M.S., 1962, Minnesota; Ph.D., 1967, Iowa State.

FEI, SHUZIANG
Associate Professor of Horticulture. B.S., 1986, M.S., 1988, Beijing Agricultural (China); Ph.D., 1997, Nebraska.
FEINBERG, LEONARD
Emeritus Professor of English; Distinguished Professor in Liberal Arts and Sciences. B.S., 1937, M.A., 1938, Ph.D., 1946, Illinois.

FELZ, CHARLES L.

FENTON, THOMAS E.

FERGEN, BRIAN

FERNANDEZ-BACA, DAVID
Professor of Computer Science. B.S., 1980, Mexico; M.S., 1983, Ph.D., 1986, California (Davis).

FERNANDO, ROHAN L.

FERWERDA, NICOLE SUZANNE
Lecturer in Animal Science. B.S., 2000, Nebraska; MNAS, 2002, Southwest Missouri State.

FEVE, SEBASTIEN

FIIHR, DAWN M.

FINDLAY, ROBERT ALLEN

FINK, ARLINGTON

FINNEMORE, DOUGLAS
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, Pennsylvania State; Ph.D., 1962, Illinois.

FIORI, ANN MARIE

FIRESTONE, ALEXANDER

FITZPATRICK, JANET ELAINE

FLAHERTY, HEATHER A.

FLATAU, ALISON BEHRE

FLETCHER, CYNTHIA N.

FLETCHER, LEHMAN
Emeritus Professor of Economics. B.S., 1954, Florida; Ph.D., 1960, California (Berkeley).

FLORA, CORNELIA B.
Professor of Sociology; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. A.B., 1965, California (Berkeley); M.S., 1966, Ph.D., 1970, Cornell.

FLORA, JAN L.

FLOROS, IOANNIS
Assistant Professor of Finance. B.Sc., 1998, Piraeus (Greece); M.Sc., 1999, Warwick (Poland); Ph.D., 2008, Pittsburgh.

FLORY, DAVID

FOEGEN, ANNE MARIE
Associate Professor of Curriculum and Instruction. B.S., 1986, Winona State; M.A., 1987, Ohio State; Ph.D., 1995, Minnesota.

FOLGER, TIMOTHY L.

FOLINSBEE, KAILA ERIN
Adjunct Assistant Professor of Anthropology; Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.A., 1999, Alberta (Canada); M.Sc., 2003, Ph.D., 2008, Toronto (Canada).

FONTAINE, LISA MARIE

FORD, CLARK FUGIER
Associate Professor of Food Science and Human Nutrition. B.A., 1975, California (Los Angeles); M.S., 1977, Ph.D., 1981, Iowa.

FOREMAN, CHARLES F.
Emeritus Professor of Animal Science. B.S., 1948, M.S., 1949, Kansas State; Ph.D., 1953, Missouri.

FOSS, MARY

FOSS, MATT

FOUAD, ABDEL- AZIZ A.
Emeritus Professor of Electrical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1950, Cairo; M.S., 1953, Iowa; Ph.D., 1956, Iowa State.

FOWLER, CHRISTINE ANN

FOWLER, GILES MERRILL
Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1955, Westminster; M.S., 1956, Columbia.

FOWLES, DOROTHY L.

FOX, LESLIE ELIZABETH
Associate Professor of Veterinary Clinical Sciences. B.A., 1972, Hollins College; D.V.M., 1984, Michigan State; M.S., 1989, Wisconsin.

FOX, RODNEY O.
Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1982, M.S., 1985, Ph.D., 1987, Kansas State.
FRANZA, TIMOTHY S.

FRANCIS, SARAH LUCILLE
Assistant Professor of Food Science and Human Nutrition. B.S., 1998, Appalachian State; M.H.S., 2000, Western Carolina; Ph.D., 2004, North Carolina.

FRANK, MATTHEW CHARLES

FRANKE, WARREN D.
Professor of Kinesiology; Professor of Biomedical Sciences. B.S., 1983, East Carolina; M.A., 1985, Wake Forest; Ph.D., 1991, Virginia Polytechnic Institute.

FRANZ, KRISTIE JEAN
Assistant Professor of Geological and Atmospheric Sciences. B.S., 1995, Wisconsin (Eau Claire); M.S., 2001, Arizona; Ph.D., 2006, California (Irvine).

FRANZ, NANCY KAY
Professor of Educational Leadership and Policy Studies; Associate Dean of the College of Human Sciences. B.S., 1981, Northland College; MEPD, 1985, Wisconsin (Superior); Ph.D., 2002, Cornell.

FRANZEN, HUGO F.
Emeritus Professor of Chemistry. B.S., 1957, California (Berkeley); Ph.D., 1962, Kansas.

FRATZKE, DARLENE M.
Adjunct Instructor in Apparel, Educational Studies and Hospitality Management. B.S., 1974, M.S., 1976, Iowa State.

FREED, RICHARD CURTIS

FREEMAN, ALBERT E.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1952, M.S., 1954, West Virginia; Ph.D., 1957, Cornell.

FREEMAN, STEVEN A.
Professor of Agricultural and Biosystems Engineering. B.S., 1988, Colorado State; M.S., 1990, Texas A&M; Ph.D., 1993, Purdue.

FRETWELL, HELEN MARGARET

FREY, KENNETH J.
Emeritus Professor of Agronomy, Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1944, M.S., 1945, Michigan State; Ph.D., 1948, Iowa State.

FRIEDERICH, KARL H.
Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1954, M.S., 1961, South Dakota State.

FRINK, ORRIN

Fritz, James Sherwood
Emeritus Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. B.S., 1948, James Millikin; M.S., 1946, Ph.D., 1948, Illinois.

FROELICH, AMY G.
Associate Professor of Statistics. B.S., 1994, Ph.D., 2000, Illinois.

FROMM, HERBERT J.
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1950, Michigan State; M.S., 1952, Ph.D., 1954, Loyola (Chicago).

Frye, Casey
Associate Professor of Animal Science (Collaborator). B.A., 1982, Chadron State College; M.S., 1984, Nebraska; Ph.D., 1990, Iowa State.

Fryer, Janice S.
Emeritus Assistant Professor, Library. B.S., 1968, Iowa State; M.A., 1971, Iowa.

Fuchs, Ronald
Emeritus Professor of Physics and Astronomy. B.S., 1954, California Institute of Technology; Ph.D., 1957, Illinois.

Fuller, Wayne A.
Emeritus Professor of Statistics; Emeritus Professor of Economics. Distinguished Professor in Liberal Arts and Sciences. B.S., 1955, M.S., 1957, Ph.D., 1959, Iowa State.

Fulton, Donald Bruce
Lecturer in Biochemistry, Biophysics and Molecular Biology. B.S., 1982, Saskatchewan (Canada); Ph.D., 1988, Saskatchewan (Canada).

Furukawa, Yuji
Associate Professor of Physics and Astronomy. B.E., 1990, Wakayama (Japan); M.E., 1993, D.S., 1995, Kobe (Japan).

G
Gabler, Nicholas
Assistant Professor of Animal Science. B.S., 1999, Ph.D., 2005, La Trobe (Australia).

Gabriel, Aaron Joseph

Gadia, Shashi K.

Gahn, Sandra Wiley

Galejs, Irma

Galejs, John Edgar

Gallagher, Paul W.
Associate Professor of Economics. B.A., 1972, Ph.D., 1983, Minnesota.

Gallus, William A.

Galow-Kersh, Nyomi Lyn

Galyon, Linda R.
GAMON, JULIA ANDREW

GANAPATHSUBRAMANIAN, B.
Assistant Professor of Materials Science and Engineering. B.Tech., 2003, Indian Institute of Technology; Ph.D., 2008, Cornell.

GANESER-TOPF, ANN M.

GARASKY, STEVEN BRIAN

GARCIA, PILAR A.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1949, Philippines; M.S., 1950, Michigan; M.S., 1952, Ph.D., 1958, Iowa State.

GARDNER, CANDICE A.
Assistant Professor of Agronomy (Collaborator). B.S., 1975, Iowa State; M.S., 1979, Ph.D., 1982, Missouri.

GARDNER, R. GENE

GARRICK, DORIAN J.

GASSMANN, AARON JOHN
Assistant Professor of Entomology. B.A., 1997, Saint Thomas; Ph.D., 2003, New York (Stony Brook).

GASTA, CHAD

GAUGER, CARLYLE J.
Emeritus Professor of Agricultural Education and Studies. B.S., 1939, M.S., 1955, Iowa State.

GAUGER, PHILLIP C.

GAUTESEN, ARTHUR
Emeritus Professor of Mathematics. B.E., 1965, Cooper Union; Ph.D., 1968, Northwestern.

GEHA, JOSEPH

GEIGER, LOUIS G.
Emeritus Professor of History. B.S., 1934, Central Missouri; M.A., 1940, Ph.D., 1948, Missouri.

GEIGER, RANDALL L.

GEIRSSON, HEIMIR

GEMMILL, DOUGLAS D.
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1972, M.S., 1986, Iowa State; Ph.D., 1988, Wisconsin.

GENALO, LAWRENCE

GENSCHEL, ULRIKE
Assistant Professor of Statistics. M.S., 2000, Ph.D., 2005, Dortmund (Germany).

GENTLE, DOUGLAS A.

GEOFFROY, GREGORY L.
Professor of Chemistry; President of the University. B.S., 1968, Louisville; Ph.D., 1974, California Institute of Technology.

GERARD, KRISTIN H.

GERRARD, MEG

GERSTEIN, BERNARD C.
Emeritus Professor of Chemistry. B.S., 1953, Purdue; Ph.D., 1960, Iowa State.

GESKE, JOEL CARL
Associate Professor of Greenlee School of Journalism and Communication. B.A., 1978, Iowa State; M.A., 1982, Northern Iowa; Ph.D., 2005, Iowa State.

GHANDOUR, MARWAN
Professor of Architecture; Associate Dean of the College of Design. B.Arch., 1986, American (Beirut); M.S., 1988, Columbia.

GHOSH, ARKA P.

GHOSHAL, NANI GOPAL

GIBBONS, FREDERICK X.
Professor of Psychology (Collaborator). B.A., 1972, Colgate; Ph.D., 1976, Texas.

GIBBS, KATHERINE P.

GIBSON, DEBRA SOLBERG
Clinician in Greenlee School of Journalism and Communication. B.S., 1981, Iowa State.

GILBERT, STEPHEN
Assistant Professor of Psychology (Research). B.S.E., 1992, Princeton; Ph.D., 1997, Massachusetts Institute of Technology.

GILCHRIST, KJ

GILDERSLIEVE, RYAN E.

GILES, MICHAEL S.

GILES, SONJA

GILLETTE, JASON C.
GILLETTE, WILLARD E.

GILMORE, SHIRLEY ANN

GINDER, ROGER

GIROUX, ADAM T.
Adjunct Instructor in Military Science and Tactics. B.S., 1999, Norwich.

GIRTON, JACK RICHARD

GIRTON, LOIS ELAINE

GKRITZA, KONSTANTINA
Assistant Professor of Civil, Construction and Environmental Engineering. M.S.C.E., 2003, Virginia Polytechnic; Ph.D., 2006, Purdue.

GLADON, RICHARD J.
Associate Professor of Horticulture. B.S., 1969, Ohio Northern; M.S., 1974, Ph.D., 1977, Ohio State.

GLANVILLE, THOMAS D.
Professor of Agricultural and Biosystems Engineering. B.S., 1972, M.S., 1975, Ph.D., 1987, Iowa State.

GLASS, EDYTHE K.

GLATZ, CHARLES E.
Professor of Chemical and Biological Engineering. B.S., 1971, Notre Dame; Ph.D., 1975, Wisconsin.

GLEASON, MARK L.
Professor of Plant Pathology; Professor of Horticulture. B.A., 1972, Carleton; M.S., 1976, Ph.D., 1980, Virginia; Ph.D., 1985, Kentucky.

GLEDILL, JARED AYRES
Adjunct Instructor in Military Science and Tactics. B.S., 2005, Iowa State.

GLEESON, BRIAN

GLOCK, RUTH ELIZABETH
Adjunct Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1958, Nebraska; M.S., 1979, Iowa State.

GOBLE, JODI SUZANNE

GOCHE, PETER PAUL

GODBEY, EMILY

GOEDEKEN, EDWARD A.

GOFF, JESSE PAUL

GOGGI, ALCIRA S.
Associate Professor of Agronomy. B.S., 1982, De Buenos Aires (Argentina); M.S., 1987, Ph.D., 1990, Mississippi.

GOLDMAN, ALAN I.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1979, M.A., 1980, Ph.D., 1984, New York (Stony Brook).

GOLEMO, MICHAEL

GOLTZ, CLARK

GOODWIN, JEAN
Associate Professor of English. B.A., 1979, J.D., 1984, Chicago; Ph.D., 1996, Wisconsin.

GOPALAKRISHNAN, KASTHURIRA

GORDEN, PATRICK J.

GORDILLO, MONICA

GORDON, MARK STEPHEN
Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1963, Rensselaer; Ph.D., 1968, Carnegie Mellon.

GOTTESMAN, ISAAC

GOUVEIA, GLEIDSON

GOVINDARASU, MANIMARAN

GRADWOHL, DAVID MAYER

GRAHAM, LYNN M.

GRAHAM, MARGARET ANN
Graham, Michelle A.
Assistant Professor of Agronomy (Collaborator). B.S., 1996, Wisconsin; Ph.D., 2001, Iowa State.

Graham, Samuel Scott

Gransberg, Douglas Drake

Grant, David
Associate Professor of Agronomy (Collaborator). B.S., 1971, New York (Stony Brook); Ph.D., 1977, Chicago.

Grant, Michael
Assistant Professor. B.S., 1973, Seattle; M.S., 1976, Ph.D., 1979, Iowa State.

Graves, Donald John

Graves, William R.
Professor of Horticulture; Associate Dean of the Graduate College. B.S., 1981, M.S., 1984, Iowa State; Ph.D., 1988, Purdue.

Grawe, Scott Joseph

Gray, Joseph Nahum

Gray, Timothy A.

Greathouse, Sarah
Assistant Professor of Psychology. B.S., 2002, Western Illinois; M.S., 2005, Florida International; Ph.D., 2009, City University of New York.

Gredler, Kimberly ANN

Greenbowe, Thomas J.
Professor of Chemistry; Professor of Curriculum and Instruction. B.A., 1972, New Jersey; M.S., 1974, Indiana State; M.S., 1979, Ph.D., 1983, Purdue.

Greenlee, Justin J.
Assistant Professor of Biomedical Sciences (Collaborator); Assistant Professor of Veterinary Pathology (Collaborator). B.A., 1995, Northern Iowa; D.V.M., 1999, Ph.D., 2003, Iowa State.

Greenlee, Mary West
Associate Professor of Biomedical Sciences. B.S., 1994, Ph.D., 1999, Iowa State.

Greenwald, Allison R.

Greer, Raymond Thomas

Gregory, David James
Associate Professor, Library; Associate Dean of Library Services. B.A., 1977, Iowa; M.A., 1979, Yale; M.A., 1986, Iowa.

Greimann, Lowell F.

Greiner, Thomas H.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S.A.E., 1967, Iowa State; M.S., 1972, Minnesota; Ph.D., 1980, Iowa State.

Greve, John Henry

Grewell, David
Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1989, M.S., 2002, Ph.D., 2005, Ohio State.

Grier, Ronald Lee

Griffith, RonaD W.

Griffiths, Paul D.

Groes, Harlen D.

Groeneveld, Richard

Grozdanic, Sinisa
Assistant Professor of Veterinary Clinical Sciences. D.V.M., 1998, Belgrade (Serbia); Ph.D., 2002, Iowa State.

Grudens-Schuck, Nancy

Gruenewald, Douglas K.

Gschneidner, Karl A.
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1952, Detroit; Ph.D., 1957, Iowa State.

Gu, Roy Ruochuan

Gu, Xun
Professor of Genetics, Development and Cell Biology. B.S., 1985, M.S., 1987, Fudan (China); Ph.D., 1996, Texas.

Guan, Yong
Associate Professor of Electrical and Computer Engineering. B.S., 1990, M.S., 1996, Peking (China); Ph.D., 2002, Texas A&M.

Gudmunson, Clinton G.

Guerra-de-Castillo, Zoila
Assistant Professor of Industrial and Manufacturing Systems Engineering (Collaborator). B.S., 1987, M.S., 1999, Universidad Tecnologica De Panama; Ph.D., 2006, Iowa State.
GUNDERSEN, LISA
Lecturer in Economics. Ph.D., 1996, California (Riverside).

GUNDLACH, KATHRYN E.
Lecturer in Kinesiology. B.S., 1975, St. Olaf College; M.S., 1977, Wisconsin (Lacrosse).

GUNNING, KERRY B.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1988, Minnesota; Ph.D., 1999, Texas.

GUNNELL, MARY J.
Professor of Veterinary Diagnostic and Production Animal Medicine and Chair of the Department; Professor of Veterinary Pathology. D.V.M., 1986, M.S., 1982, Ph.D., 1996, Iowa State.

HALL, CHARLES VIRDUS
Emeritus Professor of Horticulture. B.S., 1950, M.S., 1953, Arkansas; Ph.D., 1960, Kansas State.

HALL, JERRY LEE

HALL, RICHARD BRIAN
Professor of Natural Resource Ecology and Management. B.S., 1969, Iowa State; Ph.D., 1974, Wisconsin.

HALLAUER, ARNEL ROY
Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1977, Brigham Young; M.S., 1980, Ph.D., 1983, California (Berkeley).

HALLING, SHIRLEY M.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1965, M.S., 1967, South Dakota State; Ph.D., 1975, Iowa.

HAMMOND, EARL G.
Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1948, M.A., 1950, Texas; Ph.D., 1953, Minnesota.

HAN, GANG
Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1994, Nankai (China); M.A., 2000, Fudan (China); Ph.D., 2007, Syracuse.

HAN, SHUFENG
Associate Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1985, Zhejiang (China); B.S., 1992, Illinois.

HANDY, CHARLES B.

HANDY, RICHARD L.
Emeritus Professor of Civil Engineering. Anson Marston Distinguished Professor in Engineering. B.S., 1951, M.S., 1953, Ph.D., 1956, Iowa State.
HANISCH, KATHY A.

HANNAPEL, DAVID J.

HANNEMAN, LARRY F.
Adjunct Associate Professor of Chemical and Biological Engineering. B.S., 1966, Iowa State; M.S., 1972, Kansas State.

HANNUM, THOMAS E.
Emeritus Professor of Psychology. B.S., 1941, M.S., 1949, Iowa State; Ph.D., 1952, Nebraska.

HANSEN, SCOTT W.
Associate Professor of Mathematics. B.S., 1983, Southwest Missouri; Ph.D., 1988, Wisconsin.

HANSEN, STEPHANIE L.

HARDING, CHRIS
Associate Professor of Geological and Atmospheric Sciences; Associate Professor of Computer Science. M.Sc., 1993, Free (Berlin); Ph.D., 2001, Houston.

HARDY, ROLLAND LEE
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1947, Illinois; B.S., 1950, C.E., 1956, Missouri (Rolla); Dr. Ing., 1963, Karlsruhe.

HARGRAVE, CONNIE P.
Associate Professor of Curriculum and Instruction. B.S., 1987, Evangel; M.A., 1989, Northern Iowa; Ph.D., 1993, Iowa State.

HARGROVE, MARK S.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, Nebraska; Ph.D., 1995, Rice.

HARL, NEIL E.
Emeritus Professor of Economics; Emeritus Professor of Economics. Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1955, Iowa State; J.D., 1961, Iowa; Ph.D., 1965, Iowa State.

HARMON, BRUCE N.
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1968, Illinois Institute of Technology; M.S., 1969, Ph.D., 1973, Northwestern.

HARMON, JAY D.
Professor of Agricultural and Biosystems Engineering. B.S., 1984, Purdue; M.S., 1986, Minnesota; Ph.D., 1989, Virginia Polytechnic.

HARMON, KAREN M.

HARMS, JILL EMILY

HARPER, MATTHEW M.
Assistant Professor of Veterinary Clinical Sciences (Collaborator). B.S., 2003, Ph.D., 2007, Iowa State.

HARPOLE, WILLIAM STANLEY

HARRINGTON, THOMAS C.
Professor of Plant Pathology; Professor of Natural Resource Ecology and Management. B.S., 1977, Colorado State; M.S., 1980, Washington State; Ph.D., 1993, California (Berkeley).

HARRINGTON, THOMAS C.
Professor of Plant Pathology; Professor of Natural Resource Ecology and Management. B.S., 1977, Colorado State; M.S., 1980, Washington State; Ph.D., 1993, California (Berkeley).

HARRIS, AMY

HARRIS, BETH
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1984, Nebraska; M.S., 1986, Maryland; Ph.D., 2002, Nebraska.

HARRIS, DELBERT LINN
Professor of Animal Science; Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1967, Ph.D., 1970, Iowa State.

HARRIS, MARY A.
Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1977, California (Los Angeles); M.S., 1982, Montana; M.S., 1985, California (Riverside); Ph.D., 1995, Georgia.

HARRISON, JACOB GALLOWAY
Assistant Professor of Music and Theatre. B.M., 2001, Texas.

HARRIS, DELBERT LINN
Professor of Animal Science; Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 1967, Ph.D., 1970, Iowa State.

HARRIS, MARY A.
Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1977, California (Los Angeles); M.S., 1982, Montana; M.S., 1985, California (Riverside); Ph.D., 1995, Georgia.

HARRISON, JACOB GALLOWAY

HARROD, WENDY JEAN

HART, CHAD E.
Assistant Professor of Economics. B.S., 1991, Southwest Missouri State; Ph.D., 1999, Iowa State.

HART, ELWOOD ROY
Emeritus Professor of Entomology; Emeritus Professor of Natural Resource Ecology and Management. B.A., 1959, Cornell College; M.Ed., 1965, Ph.D., 1972, Texas A&M.

HARTMAN, PAUL A.
Emeritus Professor of Microbiology; Emeritus Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1949, Illinois; M.S., 1951, Alabama; Ph.D., 1954, Purdue.

HARTMANN, BETH LIN

HARTWIG, NOLAN R.

HARTZLER, ROBERT G.

HARVEY, ROBERT R.

HARVILLE, DAVID A.

HATFIELD, JERRY L.
Professor of Agronomy (Collaborator). B.S., 1971, Kansas State; M.S., 1972, Kentucky; Ph.D., 1975, Iowa State.

HAUG, SUE ELLEN

HAUGLI, DANA G.

Hauptman, John M.
Professor of Physics and Astronomy. B.A., 1968, Ph.D., 1974, California (Berkeley).
HAURI, KRISTINA E.

HAUSAUFUS, CHERYL O.
Associate Professor of Apparel, Educational Studies and Hospitality Management; Associate Professor of Curriculum and Instruction. B.S., 1968, Florida State; M.S., 1971, Pennsylvania State; Ph.D., 1978, Iowa State.

HAWKINS, NEAL R.
Lecturer in Civil, Construction and Environmental Engineering. B.S., 1988, Oklahoma; M.S., 1990, Iowa State.

HAWES, RICHARD H.
Emeritus Associate Professor of Greenlee School of Journalism and Communication. B.A., 1966, Nebraska Wesleyan; M.S.J., 1970, Northwestern.

HAYENGA, MARVIN L.

HAYES, DERMOT JAMES
Professor of Economics; Professor of Economics. B.S., 1981, Dublin; Ph.D., 1986, California (Berkeley).

HAYNES, CYNTHIA L.

HAYNES, EMMIT HOWARD
Emeritus Professor of Animal Science. B.S., 1951, M.S., 1953, Kentucky; Ph.D., 1959, Cornell.

HAYNES, JOSEPH S.
Professor of Veterinary Pathology. D.V.M., 1979, Missouri; Ph.D., 1986, Minnesota.

HAYWOOD-FERREIRA, RACHEL H.

HAZEN, THAMON EDSON
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1947, Oklahoma State; M.S., 1950, Purdue; Ph.D., 1956, Iowa State.

HEATON, EMILY

HEBERT, KURT ROBERT

HECK, DONALD

HEDLUND, CHERYL S.
Professor of Veterinary Clinical Sciences. D.V.M., 1977, Iowa State; M.S., 1981, Texas A&M.

HEEMSTRA, HOWARD C.
Emeritus Professor of Architecture. B.Arch., 1952, Iowa State; M.Arch., 1958, Cranbrook.

HEERKENS, TAMMY MARY-JEAN
Adjunct Instructor in Veterinary Clinical Sciences. BSCh, 2005, D.V.M., 2009, Guelph (Canada).

HEGELHEIMER, VOLKER H.

HEGGEN, RICHARD D.
HERRERA-SIKLODY, PAULA
Senior Lecturer in Physics and Astronomy. B.Sc., 1993, Ph.D., 1999, Barcelona (Spain).

HERRIGES, JOSEPH A.
Professor of Economics; Professor of Economics. B.S., 1978, Marquette; M.S., 1982, Ph.D., 1983, Wisconsin.

HERRMANN, POL
Associate Professor of Management. M.S., 1981, Southern Methodist; Ph.D., 1999, Kansas.

HERRNSTADT, RICHARD L.

HERRNSTADT, STEVEN M.

HERWIG, JOAN EMILY
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1965, Wisconsin (Stout); M.S., 1971, Iowa State; Ph.D., 1978, Purdue.

HICKMAN, ROY DON

HICKMAN, TIMOTHY R.

HICKOK, KATHLEEN K.

HIGHSTOE, GARY LYNN

HILL, BARBARA M.

HILL, CHRISTINA GISH

HILL, JAMES CHRISTIAN
Professor of Chemical and Biological Engineering. University Professor. B.S., 1962, Stanford; Ph.D., 1968, Washington.

HILL, JOHN C.
Professor of Physics and Astronomy. B.S., 1957, Davidson; Ph.D., 1966, Purdue.

HILL, JOHN HEMMINGSON
Professor of Plant Pathology. B.A., 1963, Carleton; M.S., 1966, Minnesota; Ph.D., 1971, California (Davis).

HILL, KEVIN D.

HILL, MATTHEW G.

HILL, THOMAS L.
Adjunct Assistant Professor of Educational Leadership and Policy Studies; Vice President. B.S., 1972, Arkansas State; M.S., 1976, Long Island; Ph.D., 1985, Florida.

HILLESLAND, GLENN G.
Emeritus Adjunct Professor of Electrical and Computer Engineering. B.S.E.E., 1947, Iowa State.

HILLIARD, JAMES P.
HOFFMAN, DAVID K.
Emeritus Professor of Chemistry; University Professor. B.S., 1960, Illinois; Ph.D., 1964, Wisconsin.

HOFFMAN, ELIZABETH
Professor of Economics; Executive Vice President and Provost. A.B., 1968, Smith; M.A., 1969, Ph.D., 1972, Pennsylvania; Ph.D., 1979, California Institute of Technology.

HOFFMAN, LORRAINE J.

HOFFMAN, MARK PETER

HOFFMANN, HEIKE

HOFMOCKEL, KIRSTEN

HOGGEN, LESLIE

HOGBERG, MAYNARD GORDON
Professor of Animal Science and Chair of the Department. B.S., 1966, M.S., 1972, Ph.D., 1976, Iowa State.

HOHMANN, HEIDI M.

HOIBERG, ERIC OTTO

HOLDEN, PALMER J.

HOLGER, DAVID KERMIT
Professor of Aerospace Engineering; Associate Provost for Academic Programs and Dean of the Graduate College. B.Aer.E., 1970, M.S., 1971, Ph.D., 1974, Minnesota.

HOLLAND, BRENT A.

HOLLAND, STEPHEN D.
Assistant Professor of Aerospace Engineering. B.S., 1997, Ph.D., 2002, Cornell.

HOLLANDER, DAVID B.

HOLLENBACH, PAUL W.

HOLLINGER, ROBERT

HOLLIS, JAMES
Assistant Professor of Food Science and Human Nutrition. B.Sc., 1999, Ph.D., 2003, Oxford Brookes (UK).

HOLME, THOMAS
Professor of Chemistry. B.S., 1983, Loras College; Ph.D., 1987, Rice.

HOLMGREN, MARGARET R.
Associate Professor of Philosophy and Religious Studies. B.A., 1974, Bryn Mawr; Ph.D., 1981, Texas.

HOLSCHER, KENNETH
Associate Professor of Entomology. B.S., 1972, Kearney; M.S., 1978, Ph.D., 1981, Oklahoma State.

HOLTER, JAMES A.

HOLT, JAMES L.

HOMAN, PETER

HONEYMAN, MARK S.
Professor of Animal Science; Professor of Agricultural Education and Studies. B.S., 1977, M.S., 1983, Ph.D., 1989, Iowa State.

HONG, GONG-SOOG
Professor of Human Development and Family Studies and Chair of the Department. B.S., 1972, M.S., 1975, Ewha Womans; M.S., 1985, Utah State; Ph.D., 1990, Cornell.

HONG, MEI
Professor of Chemistry. B.A., 1992, Mount Holyoke College; Ph.D., 1996, California (Berkeley).

HONG, WEI
Professor of Aerospace Engineering; Assistant Professor of Materials Science and Engineering. B.S., 2000, M.S., 2002, Tsinghua (China); Ph.D., 2006, Harvard.

HONAVAR, VASANT G.

HONZATKO, RICHARD B.

HOOVER, ANDREW E.

HOPKINS, CHRISTOPHER
Associate Professor of Physics and Astronomy. B.S., 1979, Nebraska; M.M., 1985, Cornell Institute of Music; D.M.A., 1992, Cornell.

HOPKINS, MARIANNE T.
Assistant Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1999, Ph.D., 2006, Waterloo (Canada).

HOPKINS, STEVEN M.
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Clinical Sciences. D.V.M., 1974, Michigan State.

HOPPER, GORDON CLYDE
HOPWOOD, JENNIFER L.

HORNBUCKLE, BRIAN KIRK
Associate Professor of Agronomy; Associate Professor of Electrical and Computer Engineering; Associate Professor of Geological and Atmospheric Sciences. B.Sc., 1994, Brown; M.A., 1996, Mississippi (Oxford); M.S.E., 1997, Ph.D., 2003, Michigan.

HORNER, HARRY T. JR.

HOROWITZ, JACK
Emeritus Professor of Biochemistry, Biophysics and Molecular Biology; University Professor. B.S., 1952, City University of New York; Ph.D., 1957, Indiana.

HORST, RONALD L.
Professor of Animal Science (Collaborator); Professor of Biomedical Sciences (Collaborator). B.S., 1971, West Virginia; M.S., 1972, Ph.D., 1976, Wisconsin.

HORTON, RICHARD E.

HORTON, ROBERT JR.
Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1975, M.S., 1977, Texas A&M; Ph.D., 1982, New Mexico State.

HORWITZ, JAMIE L.

HOSTETLER, DOUG

HOSTETTER, JESSE M.

HOSTETTER, SHANNON JONES

HOTCHKISS, DONALD
Emeritus Professor of Statistics. B.S., 1950, Ph.D., 1960, Iowa State.

HOU, LISHENG STEVEN

HOUGHTBY, JEFFREY L.

HOUK, ROBERT S.
Professor of Chemistry. B.S., 1974, Slippery Rock; Ph.D., 1980, Iowa State.

HOUSE, JOHN B.

HOWARD, JOAN

HOWARD-MARTIN, MONICA

HOWELL, STEPHEN H.
Professor of Genetics, Development and Cell Biology. B.S., 1963, Grinnell College; Ph.D., 1967, Johns Hopkins.

HRABA, JOSEPH III

HSIEH, HSUNG-CHENG

HSU, DAVID KUEI-YU
Adjunct Professor of Aerospace Engineering. B.S., 1965, National Taiwan; Ph.D., 1971, Wayne State.

HSU, WALTER HAW
Professor of Biomedical Sciences. B.V.M., 1969, National Taiwan; Ph.D., 1975, North Carolina. HU, GUIPING, Assistant Professor of Industrial and Manufacturing Systems Engineering, B.S., 2003, Science and Technology (China), Ph.D., 2008, Pittsburgh.

HU, HUI
Associate Professor of Aerospace Engineering. B.S., 1990, M.S., 1993, Ph.D., 1996, Beijing (China); Ph.D., 2001, Tokyo (Japan).

HU, QING
Professor of Supply Chain and Information Systems and Chair of the Department. B.S., 1982, Gansu University of Technology (China); M.S., 1985, Chinese Academy of Machinery Science; M.S., 1991, Ph.D., 1994, Miami (Florida).

HUANG, SHU-MIN

HUANG, XIAOQIU
Professor of Computer Science. B.S., 1982, Changsha Institute of Technology (China); M.S., 1989, Ph.D., 1990, Pennsylvania State.

HUBA, MARY ELEANOR

HUCK, JENNIFER LYNN
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1999, Bates College.

HUFFMAN, SONYA K.
Adjunct Assistant Professor of Economics. B.S., 1986, Moscow Cooperative Institute; Ph.D., 1999, Iowa State.

HUFFMAN, WALLACE E.
Professor of Economics; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1966, Iowa State; M.A., 1971, Ph.D., 1972, Chicago.

HUGHES, JENE D.

HUGHES-BELDING, KERE

HUIATT, TED W.
Associate Professor of Animal Science; Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1972, Colorado; Ph.D., 1979, Iowa State.
HULL, DALE O.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1939, M.S., 1940, Iowa State.

HUNACEK, MARK

HUNGER, J. DAVID

HUNTER, WILLIAM A.
Emeritus Professor of Curriculum and Instruction. B.S., 1936, Wilberforce; M.S., 1948, Ph.D., 1952, Iowa State.

HUNTINGTON, STUART H.
Emeritus Associate Professor of Community and Regional Planning. B.A., 1964, North Park; M.S., 1969, Missouri.

HURBURGH, CHARLES R.
Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.S., 1973, M.S., 1980, Ph.D., 1981, Iowa State.

HURD, HOWARD SCOTT

HURST, JESSICA LYNN

HUS, JAMES J.

HUTCHISON, AMY CARTER
Assistant Professor of Curriculum and Instruction. B.A., 2002, Clemson; M.A., 2004, Columbus College; Ph.D., 2009, Clemson.

HUTCHISON, WALLACE W.
Emeritus Professor of Health and Human Performance. B.S., 1959, M.S., 1966, Brigham Young; Ph.D., 1971, Utah.

HUTTER, JAMES L.
Associate Professor of Political Science. B.A., 1961, University of the South; M.A., 1963, Ph.D., 1969, Oregon.

HUTTON, WILBERT JR.
Emeritus Professor of Chemistry. B.S., 1950, Denver; Ph.D., 1959, Michigan State.

HYDE, WALTER G.

I
IASEVOLI, PAMELA SUE

IHMELS, MICHELLE ANNE
Adjunct Assistant Professor of Kinesiology. B.S., 1994, M.S., 1997, Louisville; Ph.D., 2007, Iowa State.

ILES, JEFFERY KENNETH

IMMAN, PAULA M.

IMSANDE, JOHN
Emeritus Professor of Agronomy; Emeritus Professor of Genetics, Development and Cell Biology. B.A., 1953, Montana; M.S., 1956, Montana State; Ph.D., 1960, Duke.

INGEBRITSEN, THOMAS S.
Emeritus Associate Professor of Genetics, Development and Cell Biology. B.S., 1968, Oregon State; Ph.D., 1979, Indiana.

INYANG, ANIEFIOK D.
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1976, Kansas; M.S., 1978, Ph.D., 1982, Oklahoma.

ISACKSON, DEAN L.

ISEBRANDS, JUDSON G.

ISENHART, THOMAS M.

IVERSEN, JAMES D.
Emeritus Professor of Aerospace Engineering. B.S., 1956, M.S., 1958, Ph.D., 1964, Iowa State.

IVERSON, NEAL R.
Professor of Geological and Atmospheric Sciences. B.S., 1983, Iowa State; Ph.D., 1989, Minnesota.

J
JACKMAN, JOHN K.

JACKSON, LARRY L.

JACKSON, MICHAEL LEE

JACKSON, REBECCA

JACOBS, KERI LEE
Assistant Professor of Economics. B.A., 1996, Coe College; M.S., 2003, Central Florida; Ph.D., 2010, North Carolina State.

JACOBSON, CARL ERNEST
Professor of Geological and Atmospheric Sciences and Chair of the Department. B.S., 1975, New York (Binghamton); Ph.D., 1980, California (Los Angeles).

JACOBSON, DOUG W.
Professor of Electrical and Computer Engineering; University Professor. B.S., 1980, Ph.D., 1985, Iowa State.

JACOBSON, JOHN BRUCE
Assistant Professor of Aerospace Engineering. B.S., 1971, M.S., 1979, Iowa State.

JACOBSON, NORMAN L.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1940, Wisconsin; M.S., 1941, Ph.D., 1947, Iowa State.
JACOBSON, ROBERT A.

JAHREN, CHARLES T.

JAMES, MARTHA GRAHAM

JANE, JAY-LIN
Professor of Food Science and Human Nutrition. B.S., 1973, National Chung-Hsing; Ph.D., 1984, Iowa State.

JANKE, BRUCE H.

JANNINK, JEAN-LUC

JANVIRIN, DIANE J.

JANZEN, FREDRIC J. II

JARBOE, LAURA
Assistant Professor of Chemical and Biological Engineering. B.S., 2000, Kentucky; Ph.D., 2006, California (Los Angeles).

JARVINEN, JULIE ANN C.

JASAKIJA, SRIJA
Associate Professor of Biomedical Sciences; Associate Professor of Animal Science. D.V.M., 1973, M.S., 1976, Belgrade; Ph.D., 1982, Iowa State.

JELEN, BENJAMIN FELIX

JELLINGER, THOMAS C.

JENISON, ROLAND DUANE

JENKS, TODD ALLEN

JERGENS, ALBERT EARL

JERNIGAN, ROBERT L.
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1963, California Institute of Technology; Ph.D., 1967, Stanford.

JESKA, EDWARD L.

JESKE, KAREN Q.

JEFAYPALAN, KANDIAH

JIA, YAN-BIN
Associate Professor of Computer Science. B.S., 1988, Science and Technology (China); M.S., 1993, Ph.D., 1997, Carnegie Mellon.

JIANCONG, MILES YAO
Instructor in Veterinary Diagnostic and Production Animal Medicine (Collaborator).

JIAO, ZHENGRI
Assistant Professor of Supply Chain and Information Systems. B.A., 1992, Qingdao (China); M.B.A., 2000, M.S., 2000, Louisiana (Lafayette); Ph.D., 2005, Texas (Dallas).

JILES, DAVID C.
Professor of Electrical and Computer Engineering and Chair of the Department; Anson Marston Distinguished Professor in Engineering. B.S., 1975, Exeter; M.S., 1976, Birmingham; Ph.D., 1979, Hull; D.Sc., 1990, Birmingham.

JOANNING, HARVEY H.

JOENSEN, ALFRED W.
Emeritus Associate Professor of Mechanical Engineering. B.S., 1957, M.S., 1966, Iowa State.

JOHANSEN, JORGEN
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1976, M.Phil., 1980, Ph.D., 1988, Copenhagen.

JOHANSEN, KRISTEN M.
Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Genetics, Development and Cell Biology. B.A., 1982, Pennsylvania; M.Phil., 1989, Ph.D., 1989, Yale.
JOHNSON, NANCY OSBORN  

JOHNSON, CHRISTOPHER RYAN  

JOHNSON, DANNY J.  
Associate Professor of Supply Chain and Information Systems; Associate Dean of the College of Business. B.S., 1989, Moorhead State; M.B.A., 1991, Ph.D., 1998, Wisconsin (Madison).

JOHNSON, DENNIS C.  
Emeritus Professor of Chemistry. Distinguished Professor in Liberal Arts and Sciences. B.A., 1963, Bethel; Ph.D., 1967, Minnesota.

JOHNSON, DUANE DOUGLAS  
Professor of Materials Science and Engineering. B.Sc., 1980, Ph.D., 1985, Cincinnati.

JOHNSON, HOWARD P.  
Emeritus Professor of Agricultural and Biosystems Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1949, M.S., 1950, Iowa State; M.S., 1954, Iowa; Ph.D., 1959, Iowa State.

JOHNSON, JANET S.  
Senior Clinician in Food Science and Human Nutrition. B.S., 1976, Iowa State; M.S., 1985, Delaware.

JOHNSON, JOHN K.  

JOHNSON, LAWRENCE A.  
Professor of Food Science and Human Nutrition. B.Sc., 1969, Ohio State; M.Sc., 1971, North Carolina State; Ph.D., 1978, Kansas State.

JOHNSON, MARGARET S.  
Emeritus Assistant Professor of World Languages and Cultures. B.A., 1956, Oregon; M.A., 1974, Drake.

JOHNSON, WILLIE ROY  

JOHNSTON, DAVID C.  
Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1969, California (Santa Barbara); Ph.D., 1975, California (San Diego).

JOHNSTON, DOUGLAS MARSHALL  
Professor of Landscape Architecture; Professor of Community and Regional Planning; Associate Dean of the College of Design. B.S., 1979, B.L.A., 1980, Suny; M.L.A., 1982, Harvard; Ph.D., 1986, Washington.

JOHNSTON, ELGIN H.  

JOHNSTON, GAIL B.  
Senior Lecturer in Mathematics. B.S., 1972, Santa Clara; M.S., 1975, Illinois.

JOLLS, KENNETH ROBERT  

JOLLY, ROBERT WILLIAM  

JOLLY, ROBERT WILLIAM  

JONES, BERT LYNN  
Emeritus Associate Professor of Agricultural Education and Studies. B.A., 1970, Missouri Southern; M.A., 1974, Central Missouri; Ph.D., 1985, Wisconsin.

JONES, BRENDA JOYCE  

JONES, CHARLES W.  

JONES, CHRISTOPHER  
Assistant Professor of Geological and Atmospheric Sciences (Collaborator). B.A., 1983, Simpson College; Ph.D., 1989, Montana State.

JONES, DOUGLAS E.  

JONES, EDWIN C. JR.  
Emeritus Professor of EECPE; University Professor. B.S.E.E., 1955, West Virginia; D.I.C., 1956, Imperial College; Ph.D., 1962, Illinois.

JONES, LADON CARLOS  
Senior Lecturer in Civil Engineering. B.S., 1981, California State (Humboldt); M.S., 1984, Ph.D., 1986, California (Los Angeles).

JONES-HARRISON, PHILLIP  

JONES-JOHNSON, GLORIA  

JUDGE, JAMES FRANCIS  

JUDGE, JON LEWIS PATRICK  

JULIUS, MARVIN G.  
Emeritus Professor of Economics. B.S., 1948, Ph.D., 1968, Iowa State.

JUNG, STEPHANIE  
Associate Professor of Food Science and Human Nutrition. B.S., 1995, Metz (France); M.S., 1996, National Polytechnique De Lorraine; Ph.D., 2000, Nantes (France).

JUNGST, STEVEN E.  

JUNKHAN, GEORGE H.  

JURENKA, RUSSELL A.  

JURGENS, MARSHALL H.  

JURIK, THOMAS WAYNE  

KADOLPH, SARA JEAN  
Emeritus Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1972, Iowa State; M.S., 1973, Kansas State; Ph.D., 1979, Minnesota.
KAEBERLE, MERLIN L.  
Emeritus Professor of Veterinary Microbiology and Preventive Medicine.  
Clarence Hartley Covault Distinguished Professor in Veterinary Medicine.  

KAILAURI, EINO O.  

KAISER, MARK STEVEN  

KALEITA-FORBES, AMY LEIGH  

KAMAL, AHMED EL-SAYED  
Professor of Electrical and Computer Engineering. B.Sc., 1978, M.Sc., 1980, Cairo (Egypt); M.A.Sc., 1982, Ph.D., 1986, Toronto (Canada).

KAMINSKI, ADAM  

KANE, KEVIN L.  

KANG, SUNGHYUN RYOO  

KARGOSCH, TRACY A.  
Associate Professor of Biomedical Sciences (Collaborator). B.S., 1983, Wisconsin (Eau Claire); Ph.D., 1989, M.D., 1990, Medical College of Wisconsin.

KANONIK, EDWARD J.  

KANTHASAMY, ANUMANTHA G.  
Professor of Biomedical Sciences; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. B.S., 1981, M.S., 1984, M.Phil., 1985, Ph.D., 1989, Madras (India).

KANTHASAMY, ARTHI  
Assistant Professor of Biomedical Sciences. B.S., 1990, Psg; Ph.D., 2001, Purdue.

KANWAR, RAMESHWAR S.  
Professor of Agricultural and Biosystems Engineering and Chair of the Department; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1969, Pau Ludhiana; M.S., 1975, Pantnagar; Ph.D., 1981, Iowa State.

KAO, DAVID T.  

KAPLAN, MURRAY LEE  
Emeritus Professor of Food Science and Human Nutrition. B.A., 1962, Alfred; Ph.D., 1972, City University of New York.

KAPPMeyer, lori osmus  

Karas, George G.  
Emeritus Professor of Psychology; Associate . B.A., 1956, Depauw; M.S., 1958, Ph.D., 1959, Purdue.

KARLEN, DOUGLAS LAWRENCE  

KARPOVA, ELENA E.  
Assistant Professor of Apparel, Educational Studies and Hospitality Management. M.S., 1991, Dmsk State Technological Institute; Ph.D., 1998, St. Petersburg State (Russia).

KARRIKER, LOCKE A.  

KASPAR, THOMAS C.  

KATZ, APRIL  
Associate Professor of Art and Design. B.S., 1977, New York (Buffalo); M.F.A., 1988, Arizona State.

KAUFFMAN, LINDA K.  

KAUFFMANN, PAUL J.  
Emeritus Assistant Professor of English. B.S., 1964, Nebraska (Omaha); M.A., 1967, Cincinnati; Ph.D., 1975, Iowa State.

KAULTZ, STEVEN MICHAEL  

KAVANAGH, PATRICK  

KAWALER, STEVEN D.  

KEATING, AILEEN  
Assistant Professor of Animal Science. B.Sc., 1998, National University of Ireland; M.Sc., 1999, Ulster (Ireland); Ph.D., 2003, National University of Ireland.

KEENEY, DENNIS R.  
Emeritus Professor of Agronomy; Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, Iowa State; M.S., 1961, Wisconsin; Ph.D., 1965, Iowa State.

KEHRBERG, RICHARD F.  

KEHRLI, MARCUS E. JR.  

KEINERT, FRITZ  

KELKAR, ATUL G.  
Professor of Mechanical Engineering; Professor of Aerospace Engineering. B.E., 1984, Poona (India); M.S., 1990, Ph.D., 1993, Old Dominion.

KELLER, CLAIR  

KELLER, J. TIMOTHY  
KELLY, CHRISTOPHER K.

KELLY, CLINT DALE
Assistant Professor of Ecology, Evolution and Organismal Biology. B.Sc., 1995, Waterloo (Canada); M.Sc., 1999, Mount Allison; Ph.D., 2005, Toronto (Canada).

KELLY, JONATHAN
Assistant Professor of Psychology. B.A., 1998, California (Los Angeles); Ph.D., 2006, California (Santa Barbara).

KELLY, WILLIAM HAROLD

KENDALL, RICK A.
Lecturer in Computer Science. B.S., 1983, Indiana State; Ph.D., 1988, Utah.

KENNEALY, MICHAEL D.

KENNEDY, WILLIAM J. JR.
Emeritus Professor of Statistics. B.S., 1959, M.S., 1960, Oklahoma State; Ph.D., 1969, Iowa State.

KEREN, NIR
Assistant Professor of Agricultural and Biosystems Engineering. B.Sc., 1990, M.Sc., 1998, Ben Gurion (Israel); Ph.D., 2003, Texas A&M.

KERSH, KEVIN DEWAYNE
Assistant Professor of Veterinary Clinical Sciences. B.S., 1997, North-eastern State; D.V.M., 2001, Oklahoma State.

KERSH, KEVIN DEWAYNE
Assistant Professor of Veterinary Clinical Sciences. B.S., 1997, North-eastern State; D.V.M., 2001, Oklahoma State.

KERTON, CHARLES R.
Associate Professor of Physics and Astronomy. B.Sc., 1992, Dalhousie (Canada); M.Sc., 1993, Toronto (Canada); M.S., 1996, Hawaii; Ph.D., 2000, Toronto (Canada).

KESL, LYLE D.

KESSLER, MICHAEL RICHARD

KHALAL, SAMIR KUMAR

KIBBEL, BRYCE W.

KIERNER, DONNA STINE

KIH, YOUNG WHAN

KILORN, RANDY JAY

KILMER, LEE HARRY

KIM, GAP-YONG
Assistant Professor of Mechanical Engineering. B.S., 1997, Yonsei (South Korea); M.S.E., 2003, Ph.D., 2005, Michigan.

KIM, JAE-KWANG
Associate Professor of Statistics. B.S., 1991, M.S., 1993, Seoul National (Korea); Ph.D., 2000, Iowa State.

KIM, JAEYOUN
Assistant Professor of Electrical and Computer Engineering. B.S., 1992, Kwangwoon (Korea); M.S., 1994, Arizona; Ph.D., 2003, Michigan.

KIM, SANG W.
Associate Professor of Electrical and Computer Engineering. B.S., 1981, Yonsei (Seoul); M.S., 1983, Korea Advanced Institute of Science; Ph.D., 1987, Michigan.

KIM, STEPHEN

KIM, TAE HYUN
Assistant Professor of Agricultural and Biosystems Engineering; Assistant Professor of Natural Resource Ecology and Management. B.S., 1994, Han Yang- Seoul, Korea; Ph.D., 2004, Auburn.

KIMBER, MICHAEL JOHN
Assistant Professor of Biomedical Sciences. B.Sc., 1998, Ph.D., 2001, Queens (Belfast).

KIMLE, KEVIN LEE

KING, ALEXANDER
Professor of Materials Science and Engineering; Director of the Ames Laboratory. BMET, 1975, Sheffield (England); Ph.D., 1979, Oxford.

KING, CHRISTINE E.
Associate Professor; Library; Associate Dean of Library Services. B.A., 1976, Sheffield (UK); M.S.L.S., 1983, Long Island.

KING, DOUGLAS S.
Professor of Kinesiology; Professor of Biomedical Sciences. B.A., 1980, California (Berkeley); M.A., 1981, Wake Forest; Ph.D., 1984, Ball State.

KING, ROBERT RANDY
Senior Clinician in Veterinary Clinical Sciences; B.S., 1974, Nevada (Reno); Ph.D., 1980, D.V.M., 1980, Washington State.

KINGSTON, JESUOSS

KINKEAD, KAREN E.

KINYON, JOANN H.

KIRSCHENMANN, FREDERICK L.

KISER, ALLISON MARIE
KISER, JAMES JOY  
Emeritus Professor of Animal Science. B.S., 1942, Iowa State; M.S., 1951, South Dakota State.

KITZMAN, MARION JOHN  

KIZER, GEORGE A.  

KLAAS, ERWIN E.  

KLAIBER, FRED WAYNE  

KLIBENSTEIN, JAMES  

KLIEMANN, WOLFGANG H.  
Professor of Mathematics and Chair of the Department. Dr.rer.nat, 1980, Bremen.

KLING, CATHERINE L.  
Professor of Economics. B.B.A., 1981, Iowa; Ph.D., 1986, Maryland.

KLONGLAN, GERALD E.  

KLUGE, JOHN PAUL  

KNAPP, ALLEN DALE  

KNIGHT, GORDON BRANCH  

KNIKER, CHARLES R.  

KNOX, JERRY  

KOCH, STEVEN  
Professor of Geological and Atmospheric Sciences (Collaborator). B.S., 1972, M.S., 1974, Wisconsin; Ph.D., 1979, Oklahoma.

KOELKER, KENNETH J.  
Professor of Statistics and Chair of the Department; University Professor. B.S., 1972, Wisconsin (Parks); Ph.D., 1977, Minnesota.

KOFORD, ROLF R.  
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1970, California (Davis); Ph.D., 1979, California (Berkeley).

KOHNE, EMILY  
Assistant Professor of Supply Chain and Information Systems. B.S., 1999, Oral Roberts; M.S., 2005, Notre Dame; Ph.D., 2010, Minnesota.

KOHUT, MARIAN LOUISE  

KOLKA, RANDALL  

KONAR, ARTHUR H.  
Senior Lecturer in Psychology. B.A., 1979, Oberlin College; M.A., 1980, Teachers College; Ph.D., 1985, Missouri.

KONG, SONG-CHARNG  
Assistant Professor of Mechanical Engineering. B.S., 1987, National Tsing-Hua (Taiwan); M.S., 1992, Ph.D., 1994, Wisconsin.

KOPPLIN, JULIUS O.  
Emeritus Professor of Electrical and Computer Engineering. B.S., 1949, Wisconsin; M.S., 1954, Ph.D., 1958, Purdue.

KORSCHING, PETER F.  

KORTENKAMP, PETER  

KOSTELNICK, CHARLES J.  

KOSTERINA, ANNA  

KOTHARI, SURAJ C.  
Professor of Electrical and Computer Engineering; Professor of Computer Science. B.S., 1970, Poona; Ph.D., 1977, Purdue.

KOTTMAN, NELLE HUTTER  
Adjunct Instructor in World Languages and Cultures. B.A., 1961, Southwestern (Tennessee); M.A., 1985, Middlebury.

KOTTMAN, RICHARD N.  

KOVAR, JOHN L.  

KOZIEL, JACEK ADAM  
Associate Professor of Agricultural and Biosystems Engineering; Associate Professor of Civil, Construction and Environmental Engineering. M.S., 1989, Warsaw Technological (Poland); M.S., 1993, Alaska; Ph.D., 1998, Texas.

KRAFSUR, ELLIOT S.  
Emeritus Professor of Entomology. B.S., 1962, M.S., 1964, Maryland; Ph.D., 1972, London.

KRAFT, ALLEN ABRAHAM  
Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Microbiology. B.S., 1947, M.S., 1949, Cornell; Ph.D., 1953, Iowa State.

KRAMER, JOHN A. D.  

KRAMER, MATTHEW J.  
Adjunct Associate Professor of Materials Science and Engineering. B.S., 1979, M.S., 1982, Rochester; Ph.D., 1988, Iowa State.
KRAMER, RICHARD L.

KRAUS, BONNIE HAY

KRAUS, GEORGE A.
Professor of Chemistry; University Professor. B.S., 1972, Rochester; Ph.D., 1976, Columbia.

KRAUS, KARL

KREBS, ALEXANDER INGAR
Assistant Professor of Veterinary Clinical Sciences. D.V.M., 2004, Colorado State.

KREBS, STEPHEN
Associate Professor of Horticulture (Collaborator). B.A., 1974, Chicago; M.S., 1985, California (Davis); Ph.D., 1989, Michigan State.

KREIDER, BRENT E.

KRENNRICH, FRANK

KREUNDER-KRULL, AMANDA JO

KREYSSIG, ANDREAS
Adjunct Assistant Professor of Physics and Astronomy. Ph.D., 2001, Technische Univeitaet Dresden Germany.

KRIENGSAK, SRISUK
Associate Professor of Agricultural and Biosystems Engineering (Collaborator). B.Sc., 1973, Chiangmai (Thailand); Ph.D., 1994, Alberta (Canada).

KRIER, DANIEL A.
Associate Professor of Sociology. B.S.B.A., 1987, South Dakota; M.A., 1992, Nebraska; Ph.D., 2001, Kansas.

KRIZAN, ZLATAN
Assistant Professor of Psychology. B.A., 2001, Winona State; Ph.D., 2007, Iowa.

KROGH, JACQUELINE S.

KRUEMPPEL, KENNETH C.

KRUKOWSKI, JEFFREY D.

KUSHKOWSKI, JEFFREY D.

KUSOW, ABDI

KWON, YOUNG H.
Assistant Professor of Biomedical Sciences (Collaborator). B.S., 1984, Ph.D., 1991, Massachusetts Institute of Technology; M.D., 1991, Yale.

L’HEUREUX, DEBORAH
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 1985, Massachusetts; D.V.M., 2003, Louisiana State.

LAANAN, FRANKIE SANTOS

LACASA, JAIME
Emeritus Associate Professor of WORLD LANGUAGES AND CULTURES. L.Phil., 1957, L.Let., 1958, quito; S.T.B., 1964, St. Louis; Ph.D., 1970, Iowa State.

LACASA, JUDITH N.
Emeritus Professor of WORLD LANGUAGES AND CULTURES. B.S., 1958, Ph.D., 1968, Louisiana State.

LACZNIK, RUSSELL N.
Professor of Marketing. B.S., 1978, Marquette; M.B.A., 1979, Wisconsin; Ph.D., 1987, Nebraska.

LADD, GEORGE WELLS
LADJAHASAN, NORA M.
Lecturer in Community and Regional Planning. B.S., 1979, University of the Philippines; M.Sc., 1982, Asian Institute of Technology, Bangkok; M.Sc., 1988, Iowa State.

LAFLEN, JOHN M.
Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1969, M.S., 1960, Missouri; Ph.D., 1972, Iowa State.

LAGE, THOMAS MICHAEL

LAGER, KELLY M.

LAGRANGE, WILLIAM S.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1953, Ph.D., 1959, Iowa State.

LAIRD, DAVID ALAN
Professor of Agronomy. B.S., 1976, Kansas; M.S., 1982, Oregon State; Ph.D., 1987, Iowa State.

LAJOIE, JOHN G.

LAMB, RICHARD C.
Emeritus Professor of Physics and Astronomy. B.S., 1955, Massachusetts Institute of Technology; M.S., 1960, Ph.D., 1963, Kentucky.

LAMKEY, KENDALL RAYE

LAMM, MONICA HITCHCOCK
Associate Professor of Chemical and Biological Engineering. B.S., 1993, Syracuse; Ph.D., 2000, North Carolina State.

LAMONT, JOHN WILLIAM
Emeritus Professor of Electrical and Computer Engineering. B.S., 1964, Missouri (Rolla); M.S., 1966, Ph.D., 1970, Missouri.

LAMONT, SUSAN J.
Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.A., 1975, Trinity (Illinois); Ph.D., 1980, Illinois.

LAMOTTE, CLIFFORD E.
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1953, Texas A&M; Ph.D., 1960, Wisconsin.

LAMSAI, BUDDHI P.
Assistant Professor of Food Science and Human Nutrition. B.E., 1992, Tamilnadu (India); M.E., 1994, Asian Institute of Technology (Thailand); Ph.D., 2004, Wisconsin.

LANE, KENNETH F.

LANGENBERG, C.
Lecturer in English. B.S., 1980, Nebraska; M.A., 1986, Minnesota.

LANNINGHAM-FOSTER, L.
Assistant Professor of Food Science and Human Nutrition; Assistant Professor of Kinesiology. B.S., 1994, M.S., 1995, North Carolina (Greensboro); Ph.D., 1999, Florida.

LAPAN, HARVEY E.

LAROCK, RICHARD C.
Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1967, California (Davis); Ph.D., 1972, Purdue.

LARSEN, WILLIAM L.
Emeritus Professor of Materials Science and Engineering. B.M.E., 1948, Marquette; M.S., 1950, Ph.D., 1956, Ohio State.

LARSON, KENNETH L.

LARSON, LISA M.

LARSEN, SIDNER

LASLEY, ROBERT P.
Professor of Sociology and Chair of the Department. B.S., 1974, M.A., 1976, Ph.D., 1981, Missouri.

LASSILA, KENNETH E.
Emeritus Professor of Physics and Astronomy. B.S., 1956, Wyoming; M.S., 1959, Ph.D., 1962, Yale.

LATHROP, JAMES I.

LAUGERMAN, MARCIA R.

LAUTER, NICK
Assistant Professor of Plant Pathology (Collaborator). B.A., 1995, Grinnell College; Ph.D., 2001, Minnesota.

LAVROV, DENNIS V.

LAWARE, MARGARET R.

LAWRENCE, CAROLYN

LAWRENCE, JOHN D.
Professor of Economics; Associate Dean of the College of Agriculture and Life Sciences. B.S., 1984, M.S., 1986, Iowa State; Ph.D., 1989, Missouri.

LAWRENCE, ROGER LEE
Emeritus Professor of Educational Leadership and Policy Studies; Emeritus Professor of Agricultural Education and Studies. B.S., 1943, Ohio State; M.A., 1949, George Washington; Ph.D., 1958, Iowa State.

LAWSON, KAREN GRUBER
Associate Professor, Library; Associate Dean of Library Services. B.A., 1974, M.L.S., 1976, New York (Buffalo).

LAYTON, WILBUR L.
Emeritus Professor of Veterinary Clinical Sciences (Collaborator). D.V.M., 2000, Belgrade (Serbia); M.S., 2002, Ph.D., 2009, Iowa State.
LEANDRO, LEONOR F. S.
Assistant Professor of Plant Pathology. B.S., 1996, Universidade Tecnica De Lisboa; M.S., 1997, Nottingham (UK); Ph.D., 2002, Iowa State.

LEDET, ARLO ELMER

LEE, DAH-YINN
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1958, Chen Kung; Ph.D., 1964, Iowa State.

LEE, GYUNGHO
Professor of Electrical and Computer Engineering (Collaborator). B.S., 1977, Sogang (Korea); M.S., 1979, Korean Institute of Science and Technology; Ph.D., 1986, Illinois.

LEE, MICHAEL
Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1981, Rutgers; M.S., 1984, Ph.D., 1986, Minnesota.

LEE, YOUNG-A

LEE, YOUNG-JIN

LEIGH, PATRICIA
Associate Professor of Curriculum and Instruction. B.A., 1968, Ohio State; M.Ed., 1978, Arkansas; M.S., 1988, Oklahoma; Ph.D., 1997, Iowa State.

LEMPERS, JACOBUS D. L.
Emeritus Professor of Human Development and Family Studies. B.S., 1971, Nymegen; Ph.D., 1976, Minnesota.

LENCE, SERGIO H.

LEONARD, KATHY S.
Professor of World Languages and Cultures. B.A., 1975, California (Riverside); M.A., 1979, Santa Clara; B.A., 1983, Nevada; Ph.D., 1991, California (Davis).

LERCH, ROBERT N.

LERSTEN, NELS R.

LESAR, RICHARD ALAN
Professor of Materials Science and Engineering and Chair of the Department. B.S., 1975, Michigan; Ph.D., 1981, Harvard.

LESLIE, THOMAS W.

LEUSCHEN, BRUCE

LEVINE, HOWARD A.

LEVIS, GRETA M.

LEVIS, JOHN MICHAEL

LEVITAS, VALERY

LEWIN, HEATHER S.

LEWIS, CALVIN F.
Professor of Architecture. B.Arch., 1969, Iowa State.

LEWIS, DONALD R.

LEWIS, EDWIN C.

LEWIS, ROBERT EARL

LEYSEN, JOAN MARIE

LI, GANWU
Research Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.V.Sc., 1994, M.V.Sc., 1999, Nanjing Agricultural (China); Ph.D., 2005, Free (Berlin).

LI, HONG
Adjunct Assistant Professor of Agricultural and Biosystems Engineering. B.S., 1998, M.S., 2001, China Agricultural; Ph.D., 2006, Iowa State.

LI, TONGLU
Assistant Professor of World Languages and Cultures. B.A., 1992, Hebei Normal (China); M.A., 1995, Beijing Normal (China); M.A., 2005, Ph.D., 2009, Illinois.

LICKLIDER, BARBARA L.

LIEBERMAN, GARY M.
LIEBICH, MARY E. FRY

LIEBMAN, MATTHEW Z.

LILIGREN, INGRID M.

LIN, ZHIQUN
Associate Professor of Materials Science and Engineering; Associate Professor of Chemical and Biological Engineering; Associate Professor of Electrical and Computer Engineering. B.S., 1995, Xiamen (China); M.S., 1998, Fudan (China); Ph.D., 2003, Massachusetts.

LINK, CHARLES J. JR.

LIPPOLIS, JOHN
Assistant Professor of Animal Science (Collaborator). B.S., 1988, Brigham Young; Ph.D., 1994, Pennsylvania State.

LIPSEY, HOLLY J.
Senior Lecturer in Kinesiology. B.A., 1993, Southwest State (Minnesota); M.S., 1995, South Dakota State.

LITCHFIELD, RUTH E.
Associate Professor of Food Science and Human Nutrition. B.A., 1984, Northern Iowa; M.S., 1986, Kansas State; Ph.D., 2000, Iowa State. LIU, CHEN-CHLING, Professor of Electrical and Computer Engineering (Collaborator). B.S.E.E., 1978, M.S.E.E., 1978, National Taiwan; Ph.D., 1983, California (Berkeley).

LIU, HAILIANG
Professor of Mathematics. B.Sc., 1984, Henan Normal (China); M.S., 1988, Tsinhghua (China); Ph.D., 1995, Academia Sinica (Beijing).

LIU, JERRY
Assistant Professor of Statistics. B.M.Ed., 1998, Beijing (China); M.S., 2001, Ph.D., 2006, Cornell.

LIU, XIAOYUAN

LOGSDON, SALLY D.

LOHMAN, BRENDA J.

LOHNES, ROBERT
Emeritus Professor of Civil Engineering; University Professor. B.S., 1959, Ohio State; M.S., 1961, Ph.D., 1964, Iowa State.

LOIACONO, CHRISTINA MARIE
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1990, Virginia Technological; D.V.M., 1994, Virginia-Maryland Regional College; Ph.D., 2002, Missouri.

LONERGAN, ELISABETH J.

LONERGAN, STEVEN M.

LONG, LING

LOOFT, RUXANDRA

LOONEY, MARK

LORD, WILLIAM
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.Sc., 1961, Ph.D., 1964, Nottingham.

LORENZ, FREDERICK O.
Professor of Statistics; Professor of Psychology; Professor of Sociology; University Professor. B.S., 1970, Mankato; M.S., 1972, South Dakota State; Ph.D., 1980, Iowa State.

LORIMOR, JEFFERY C.
Emeritus Associate Professor of Agricultural and Biosystems Engineering. B.S., 1967, Iowa State; M.S., 1970, Nebraska; Ph.D., 1996, Iowa State.

LOVE, ROBERT DALE
Emeritus Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1948, M.S., 1965, Iowa State.

LOVELAND, STEPHANIE D.

LOVELY, WALTER G.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1949, Maine.

LOVING, CRYSTAL L.
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 2001, Ph.D., 2006, Iowa State.

LOWERY, JENNIFER
Senior Lecturer in English. B.S., 1974, Tennessee (Martin); M.A., 1981, South Carolina.

LOWITT, RICHARD
Emeritus Professor of History. B.S.S., 1943, City University of New York; M.A., 1945, Ph.D., 1950, Columbia.

LOY, DANIEL DWIGHT

LOYNACHAN, TOM E.

LU, PING

LUBAN, MARSHALL

LUBBERSTEDT, THOMAS
Professor of Agronomy. Ph.D., 1993, Munich (Germany).

LUCKETT, DUDLEY G.
Emeritus Professor of Economics; Distinguished Professor in Liberal Arts and Sciences. A.B., 1952, M.A., 1954, Missouri; Ph.D., 1958, Texas.
LUECKE, GLENN R.
Professor of Mathematics; Professor of Electrical and Computer Engineering. B.S., 1966, Michigan State; Ph.D., 1970, California Institute of Technology.

LUECKE, GREG R.
Associate Professor of Mechanical Engineering. B.S., 1979, Missouri; M.S., 1987, Yale; Ph.D., 1992, Pennsylvania State.

LUETH, PATIENCE LAMUNU

LUTZ, J ack Harold
Professor of Computer Science; Professor of Mathematics. B.G.S., 1976, M.A., 1979, M.S., 1981, Kansas; Ph.D., 1987, California Institute of Technology.

LUTZ, ROBYN R.

LU VAGA, EBBY S.

LUZE, GAYLE JOANNE

LYNCH, DAVID
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1954, Rensselaer; M.S., 1955, Ph.D., 1958, Illinois.

MABRY, JOHN W.
Professor of Animal Science. B.S., 1972, Oklahoma State; M.S., 1974, Ph.D., 1977, Iowa State.

MACBRIDE, CHARLES

MACDONALD, ERIN FAITH
Assistant Professor of Mechanical Engineering; Assistant Professor of Art and Design. B.S., 1998, Brown; Ph.D., 2008, M.S., 2008, Michigan.

MACDONALD, JOHN T.

MACDONALD, RUTH SEAMAN
Professor of Food Science and Human Nutrition and Chair of the Department. B.S., 1979, Western Maryland College; M.S., 1981, Ph.D., 1985, Minnesota.

MACINTOSH, GUSTAVO
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. Ph.D., 1997, Buenos Aires (Argentina).

MACK, BARBARA M.
Associate Professor of Greenlee School of Journalism and Communication; B.S., 1974, Iowa State; J.D., 1977, Drake.

MADDEN, BEVERLY S.
Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1970, Iowa State.

MADDUX, ROGER D.
Professor of Mathematics; Professor of Computer Science. B.A., 1969, Pomona; Ph.D., 1978, California (Berkeley).

MADISON, KENNETH G.

MADISON, OLIVIA MARIE
Professor, Library; Dean of Library Services. B.S., 1972, Iowa State; M.A., 1975, Missouri.

MADON, STEPHANIE

MADRON, MATTHEW S.

MADSON, DARIN MICHAEL

MAHANNA, BILL
Associate Professor of Animal Science (Collaborator). B.S., Cornell; Ph.D., M.S., Wisconsin.

MAHAYNI, RIAD G.

MAHONEY, MARGARET ANN

MAIN, RODGER GARY

MAITRA, RANJAN

MALDONADO-PABON, MARTA M.

MALLAPRAGADA, S.
Professor of Chemical and Biological Engineering and Chair of the Department; Professor of Materials Science and Engineering. B.Tech., 1993, Indian Institute of Technology; Ph.D., 1996, Purdue.

MALLARINO, ANTONIO P.

MALONE, ROB W.
Assistant Professor of Agricultural and Biosystems Engineering (Collaborator). B.S., 1986, West Virginia Wesleyan; M.S., 1992, Ph.D., 1996, Kentucky.

MALONE, WILLIAM A.
Emeritus Associate Professor of Community and Regional Planning. B.S., 1947, M.S., 1950, Iowa State.

MALVEN, FREDERIC C.

MANATT, RICHARD P.
Emeritus Professor of Educational Leadership and Policy Studies; University Professor. B.S., 1953, M.S., 1956, Iowa State; Ph.D., 1964, Iowa.

MANEY, ARDITH LOUISE
Emeritus Professor of Political Science; Emeritus Professor of Agricultural and Biosystems Engineering. B.A., 1966, Colby; Ph.D., 1975, Columbia.

MANGOLD, DUANE W.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1958, M.S., 1960, Ph.D., 1965, Iowa State.
MANN, JULIAN ADIN III
Associate Professor of Mechanical Engineering (Collaborator). B.S., 1984, Iowa State, Ph.D., 1988, Pennsylvania State.

MANSBACH, RICHARD W.

MANSON, ROBERT H.

MANU, ANDREW
Associate Professor of Agronomy. B.S., 1975, Ghana; M.S., 1979, Ph.D., 1984, Iowa State.

MANWILLER, FLOYD G.

MARASINGHE, MERVYN G.

MARCKETTI, SARA BETH
Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.A., 2000, M.S., 2002, Georgia; Ph.D., 2005, Iowa State.

MARCUS, ALAN I.

MARENGO, MASSIMO
Assistant Professor of Physics and Astronomy. M.Sc., 1993, Universita Di Torino (Italy); Ph.D., 2000, International School for Advanced Studies.

MARGRETT, JENNIFER

MARINER, FRANCIS R.
Associate Professor of World Languages and Cultures. A.B., 1974, Bowdoin; M.A., 1977, Ph.D., 1979, Iowa State.

MARINKO, RITA ANN
Associate Professor, Library. B.A., 1980, California (San Diego); M.S., 1990, Texas; M.S., 1998, Minnesota State.

MARLEY, STEPHEN J.
Emeritus Professor of Agricultural and Biosystems Engineering. B.S., 1959, M.S., 1960, Ph.D., 1965, Iowa State.

MARPLE, DENNIS N.

MARQUARDT, DEBRA K.

MARQUIS, GRACE S.
Associate Professor of Food Science and Human Nutrition (Collaborator). B.A., 1980, Indiana; M.S., 1984, Michigan State; Ph.D., 1996, Cornell.

MARSH, TYSON ELLIS JEREMY

MARSHALL, JOANNE

MARTEN, CYNTHIA L.

MARTENS, BOBBY J.
Assistant Professor of Supply Chain and Information Systems. B.S., 1996, M.S., 1999, North Dakota State; Ph.D., 2006, Purdue.

MARTIN, BETH ANN

MARTIN, CHRISTOPHER J.
Associate Professor of Art and Design. B.A., 1990, Iowa State; M.F.A., 1994, Rhode Island School of Design.

MARTIN, DAVID M.

MARTIN, DON S. JR.
Emeritus Professor of Chemistry. B.S., 1939, Purdue; Ph.D., 1944, California Institute of Technology.

MARTIN, MICHAEL

MARTIN, MICHAEL E.

MARTIN, PAUL ALBERT

MARTIN, PETER

MARTIN, PHILIP EDWARD

MARTIN, RICHARD J.
Professor of Biomedical Sciences. B.V.Sc., 1972, Ph.D., 1977, Liverpool (UK); D.Sc., 1997, Edinburgh (UK).

MARTIN, RICHARD E.
Professor of Agricultural Education and Studies; Professor of Curriculum and Instruction. B.S., 1968, M.S., 1974, Purdue; Ph.D., 1981, Pennsylvania State.

MARTIN, ROSE

MARTIN, RYAN
Associate Professor of Mathematics. B.Sc., 1995, Delaware; Ph.D., 2000, Rutgers.

MARTIN, STEVE WARTHEN
Professor of Materials Science and Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1980, Capital; Ph.D., 1986, Purdue.

MASHAW, LANE HICKS
Emeritus Professor of Civil Engineering. B.S., 1946, Illinois; M.S., 1966, Iowa.

MASON, TERRY WAYNE
Adjunct Assistant Professor of Psychology. B.A., 1977 Cornell (Iowa); Ph.D., 1982, Texas Tech.
MASTERS, ROBERT A.

MASTSON, CHARLES P.
Adjunct Associate Professor of Architecture. B.Arch., 1969, Boston Architectural Center; M.Arch., 1971, New York (Buffalo).

MATAVA, TOBIE ANN
Assistant Professor, Library. B.A., 1992, M.A., 1995, Missouri (Kansas City); M.L.S., 2006, Maryland.

MATHEWS, ELEANOR R.
Emeritus Associate Professor, Library. B.A., 1958, Wheaton (Massachusetts); M.A., 1975, Iowa.

MATHEWS, JEROLD C.

MATIBAG, EUGENIO D.

MATOS, BETHZAYDA

MATTHIES, BARBARA F.

MATTILA, JOHN PETER

MATZAVINOS, ANASTASIOS
Assistant Professor of Mathematics. B.Sc., 1998, Crete (Greece); M.Sc., 2001, Athens (Greece); Ph.D., 2006, Dundee (Scotland).

MAUDE, SUSAN P.

MAVES, JOHN H.
Assistant Professor of Architecture. B.Arch., 1968, Notre Dame; M.Arch., 1972, Minnesota.

MAXWELL, GREGORY M.

MAY, ELIZABETH RUSTEMEYER

MAYFIELD, JOHN ERIC

MAYORDOME, ELVIRA
Associate Professor of Computer Science (Collaborator). B.S., 1990, Zaragoza (Spain); Ph.D., 1994, Polytechnic (Spain).

MAZUR, ROBERT EDWARD
Professor of Sociology; B.S., 1976, Iowa; M.A., 1979, Ph.D., 1982, Brown.

MAZZITELLI, JAMES R.

McCALLUM, RALPH W.
Adjunct Professor of Materials Science and Engineering. B.A., 1969, Carleton; Ph.D., 1977, California (San Diego).

McCANDLESS, CHARLES E.

McCARLEY, ROBERT E.
Emeritus Professor of Chemistry. B.S., 1953, Ph.D., 1956, Texas.

McCARTHY, WILLIAM P.

McCLELLAND, JOHN
Emeritus Professor of Mechanical Engineering. B.S., 1965, Dickinson (North Dakota), Ph.D., 1976, Iowa State.

McCLOSKEY, MICHAEL A.
Associate Professor of Genetics, Development and Cell Biology. B.S., 1974, California (Riverside); Ph.D., 1979, California (Davis).

McCLURE, SCOTT R.
Associate Professor of Veterinary Clinical Sciences. B.S., 1986, D.V.M., 1990, Iowa State; Ph.D., 1996, Texas A&M.

McCOMBER, DIANE R.
Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1960, M.S., 1965, Iowa State.

McCONNELL, KENNETH G.

McCORMICK, JAMES M.

McCORMICK, THERESA M.

McCOY, PATRICK T.
Professor of C C E (Collaborator). B.S., 1963, M.S., 1964, Iowa State; Ph.D., 1971, Texas A&M.

McCULLOUGH, RUSSEL K.

McCULLY, JOHN R. JR.
Emeritus Assistant Professor of English. B.A., 1957, Mississippi College; M.A., 1960, Mississippi; Ph.D., 1976, Rice.

McDANIEL, THOMAS J.

McDONALD, E. DAWN
Emeritus Assistant Professor of Health and Human Performance. B.S., 1960, Boston University; M.S., 1968, Southern Illinois.

McELROY, JAMES C.
Professor of Management; University Professor. B.S., 1971, Jamestown; M.B.A., 1972, South Dakota; Ph.D., 1979, Oklahoma State.

McEOwen, Roger A.
Associate Professor of Agricultural Education and Studies. B.S., 1986, Purdue; M.S., 1990, Iowa State; J.D., 1991, Drake.

McGEE, DENIS C.
McGEE, THOMAS D.
Emeritus Professor of Materials Science and Engineering; Emeritus Professor of Veterinary Clinical Sciences. B.S., 1948, M.S., 1958, Ph.D., 1961, Iowa State.

McGILLIARD, A. DARE

McGOUGH, SHERYL D.

McGRAIL, MAURA
Adjunct Assistant Professor of Genetics, Development and Cell Biology. B.S., 1988, Massachusetts; Ph.D., 1996, Minnesota.

McJIMSEY, GEORGE T.

McKEAN, JAMES D.

McKEOWN, DONALD I.

McKERNAN, GERARD

McKINNON, NANCY JO-ANN

McLEOD, SCOTT CHRISTOPHER

McMILLAN, THELMA J.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1940, Arizona; M.S., 1942, Nebraska; Ph.D., 1951, Cornell.

McMINN, HOWARD STEPHEN
Assistant Professor, Library. BS/BAE, 1984, Purdue; M.L.S., 1993, Indiana.

McMULLEN, CATHERINE MABRY

McNABB, HAROLD S. JR.
Emeritus Professor of Plant Pathology; Emeritus Professor of Natural Resource Ecology and Management; University Professor. B.S., 1949, Nebraska; M.S., 1951, Ph.D., 1954, Yale. McNAMARA, DONALD J., Professor of Food Science and Human Nutrition (Collaborator). B.A., 1966, Steubenville, Ph.D., 1972, Purdue.

McQUEENEA, ROBERT JOHN

McVICKER, JERRY KIM

MEADOR, VINCENT P.

MEEEK, WILLIAM Q. JR.
Professor of Statistics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1972, Clarkson; M.S., 1973, Ph.D., 1975, Union.

MEEEKS, HOWARD D.
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1960, Iowa State; M.S., 1966, Ph.D., 1970, Ohio State.

MEHROTRA, NEHA
Lecturer in Community and Regional Planning. B.Arch., 1999, TVB School of Habitat Studies; M.C.P., 2001, Auburn.

MEIER, MARY E.

MEISINGER, DAVID J.

MEIXNER, MARY L.
Emeritus Professor of Human Development and Family Studies; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.A., 1938, Milwaukee-D beams; M.A., 1949, Iowa.

MELBY, JANET NIEUWSMA
Adjunct Associate Professor of Human Development and Family Studies. BS/BA, 1972, M.S., 1974, North Dakota State; Ph.D., 1988, Ph.D., 1989, Iowa State.

MELSA, JAMES L.
Emeritus Professor of Electrical and Computer Engineering; Emeritus Dean of the College of Engineering. B.S., 1960, Iowa State; M.S., 1962, Ph.D., 1965, Arizona.

MELVIN, STEWART W.

MENDELSON, MICHAEL T.
Professor of English; University Professor. B.A., 1967, California (Irvine); M.A., 1969, California State (San Francisco); Ph.D., 1981, Washington State.

MENDONCA, AUBREY F.
Associate Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1987, Ph.D., 1992, Iowa State.

MENNECKE, BRIAN E.

MENZEL, BRUCE WILLARD

MERCIER, CLETUS R.

MERCIER, JOYCE

MERCILE, MORRIS H.
Emeritus Associate Professor of Electrical Engineering. B.S., 1947 M.S., 1956, Ph.D., 1963, Iowa State.

MERYLA, DAVID F.

MERRICK, LAURA C.
Adjunct Assistant Professor of Genetics, Development and Cell Biology. B.S., 1948, M.S., 1958, Ph.D., 1961, Iowa State.

MESCHER, PHILLIP J.
MESROPOVA, OLGA M.
Associate Professor of World Languages and Cultures. B.A., 1996, M.A., 1996, Ph.D., 2000, St. Petersburg Hertzen.

MESSENGER, JOSEPH C.

METZLER, DAVID E.
Emeritus Professor of Biochemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1948, California Institute of Technology; M.S., 1950, Ph.D., 1952, Wisconsin.

MEYER, TERRENCE

MEYER, TERRY

MEYER, VERNON M.
Emeritus Professor of Agricultural and Biosystems Engineering. B.Ag.E., 1951, M.S., 1955, Ph.D., 1978, Minnesota.

MEYERHOLZ, DAVID K.

MEYERS, RACHEL LEE

MEYERS, TROY A.

MEYERS, WILLIAM H.

MICKELSON, ALAN C.

MICKELSON, STEVEN K.

MICKLE, JACK L.

MIGUEZ, FERNANDO E.

MIKOVEC, AMY E.

MILES, KRISTINA G.

MILLER, CATHY
Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1993, Ph.D., 2001, Missouri.

MILLER, DIANA LYNN

MILLER, ELIZABETH S.
Emeritus Professor of Art and Design; Distinguished Professor in Design. B.F.A., 1951, Nebraska; M.F.A., 1967, Drake.

MILLER, EMILY I.

MILLER, GERALD AREY
Professor of Agronomy; Interim Vice President for Extension. B.S., 1965, Virginia Polytechnic Institute; M.S., 1971, Ph.D., 1974, Iowa State.

MILLER, GORDON J. JR.
Professor of Chemistry. B.S., 1982, Rochester; Ph.D., 1986, Chicago.

MILLER, GREGORY SCOTT
Professor of Agricultural Education and Studies; Professor of Curriculum and Instruction. B.S., 1987, M.Ed., 1990, Auburn; Ph.D., 1992, Ohio State.

MILLER, JAMES R.

MILLER, KATHRYN M.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Iowa State; M.S., 1964, Cornell.

MILLER, LESLIE L.

MILLER, LYLE DEVON

MILLER, MARTIN G.

MILLER, MICHAEL C.

MILLER, NANCY LYNN M.

MILLER, REBECCA J.

MILLER, RICHARD KEITH
Emeritus Professor of Mathematics; Distinguished Professor in Liberal Arts and Sciences. B.S., 1961, Iowa State; M.S., 1962, Ph.D., 1964, Wisconsin.

MILLER, VICTOR J.

MILLER, WILLIAM G.

MILLER, WILLIAM WADE
Professor of Agricultural Education and Studies and Chair of the Department; Professor of Curriculum and Instruction. B.S., 1974, Texas A&M; M.Ed., 1976, Stephen F. Austin; Ph.D., 1980, Texas A&M.

MILLER, WILMER JAY

MILLER, WYATT A.
Professor of Plant Pathology; Professor of Biochemistry, Biophysics and Molecular Biology. B.A., 1978, Carleton; Ph.D., 1984, Wisconsin.
MILLMAN, SUZANNE THERESA
Associate Professor of Veterinary Diagnostic and Production Animal Medicine; Associate Professor of Biomedical Sciences. B.Sc., 1990, Ph.D., 2000, Guelph (Canada).

MIN, KYUNG J.
Associate Professor of Industrial and Manufacturing Systems Engineering. B.S., 1984, California (Los Angeles); M.S., 1985, Ph.D., 1990, California (Berkeley).

MINA, MANI

MINER, ANDREW S.
Associate Professor of Computer Science. B.S., 1993, Randolph-Macon College; M.S., 1995, Ph.D., 2000, College of William and Mary.

MINION, FRANK C.

MINNER, DAVID D.

MIRANOWSKI, JOHN A.

MIRKA, GARY A.
Professor of Industrial and Manufacturing Systems Engineering; Associate Dean of the College of Engineering. B.A., 1986, M.S., 1988, Ph.D., 1992, Ohio State.

MISCHKE, CHARLES R.

MISRA, MANJIT KUMAR
Professor of Agricultural and Biosystems Engineering. B.S., 1971, Orissa; M.S., 1973, Ph.D., 1978, Missouri.

MITRA, AMBAR K.
Associate Professor of Aerospace Engineering. B.S., 1969, M.S., 1972, Calcutta; Ph.D., 1979, Indian Institute of Science.

MITRA, SIMANTA

MOBIUS, MARKUS MICHAEL
Associate Professor of Economics. B.A., 1996, M.Phil., 1996, Oxford; Ph.D., 2000, Massachusetts Institute of Technology.

MOHR, LORAN E.

MOKHTARI, KOUIDER

MONTABON, FRANK L.

MONTAG, GERALDINE M.

MOOK, MARGARET SUSAN

MOORE, EMILY L.

MOORE, KENNETH J.

MOORE, SARAH E.

MOORE, WAYNE R.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1942, Iowa State.

MOORMAN, ROBERT B.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1939, M.S., 1942, Ph.D., 1953, Iowa State.

MOORMAN, THOMAS B.

MORGAN, EMILY KATHRYN

MORGAN, PAUL EMERSON
Emeritus Professor of Civil, Construction and Environmental Engineering. B.S., 1944, M.S., 1956, Iowa State.

MORGAN, RONALD Leo

MORRICAL, DANIEL GENE
Professor of Animal Science. B.S., 1977, Purdue; M.S., 1982, Ph.D., 1984, New Mexico State.

MORRIS, ALISON L.
Associate Professor of Psychology. B.S., 1980, M.S., 1982, Wisconsin; Ph.D., 2000, Boston.

MORRIS, BRIAN ALBERT
Assistant Professor of Sociology. B.S., 1997, Radford; M.S., 2000, Virginia Commonwealth; Ph.D., 2006, Delaware.

MORRIS, JOHN W.

MORRIS, JOSEPH E.
Professor of Natural Resource Ecology and Management. B.S., 1979, Iowa State; M.S., 1982, Texas A&M; Ph.D., 1988, Mississippi State.

MORRIS, PAUL
Emeritus Professor of Anthropology. B.S., 1942, M.S., 1948, Ph.D., 1951, Indiana State.

MORRIS, ROBERT W.

MOLONEY, KIRK A.
MORRIS, MAX D.
Professor of Statistics; Professor of Industrial and Manufacturing Systems Engineering and Chair of the Department. B.S., 1973, Oklahoma State; M.S., 1974, Ph.D., 1977, Virginia Polytechnic.

MORRISON, JO ANN

MORROW, PAULA C.
Professor of Management; University Professor. B.S., 1973, Oklahoma State; M.S., 1975, Virginia Polytechnic Institute; Ph.D., 1978, Iowa State.

MORROW, WILLIAM ROSS

MORTON, LOIS WRIGHT

MOSCHINI, GIANCARLO
Professor of Economics and Chair of the Department. B.S., 1978, Catholic (Italy); Ph.D., 1986, Guelph.

MOSHER, JOEL C.

MOSHER, RUSSELL E.
Emeritus Professor of Accounting. B.S., 1971, M.S.Ed., 1972, Northwest Missouri; Ph.D., 1975, Purdue.

MOUTSATSOS, CHRISY

MOYER, RUTH P.
Emeritus Professor of Family and Consumer Sciences Education and Studies; Emeritus Professor of Curriculum and Instruction; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1941, M.S., 1949, Ph.D., 1969, Cornell.

MU, AILI
Associate Professor of World Languages and Cultures. B.A., 1982, M.A., 1984, Shandong (China); Ph.D., 1996, New York (Stony Brook); M.S., 2001, Marist College.

MUECKE, MICKAI W.

MUECHER, JOSEPH L.

MUKERJEE, RABINDRA

MULFORD, CHARLES L.
Emeritus Professor of Sociology. B.S., 1958, M.S., 1959, Ph.D., 1962, Iowa State.

MULHERIN, BRENDA L.

MULLEN, ELLEN JO

MULLEN, RUSSELL E.
Professor of Agronomy. B.S., 1971, M.S.Ed., 1972, Northwest Missouri; Ph.D., 1975, Purdue.

MUNKVOLD, GARY P.

MUNOZ, SUSANA MARIA

MUNROE, SYLVIA C.
Associate Professor of Music and Theatre; Associate Professor of Curriculum and Instruction. B.A., 1973, St. Olaf; M.S., 1977, Ed.D., 1986, Illinois.

MUNSON, BRUCE R.
Emeritus Professor of Aerospace Engineering. Head’s Chair B.S., 1962, M.S., 1964, Purdue; Ph.D., 1970, Minnesota.

MURDOCH, ALAN JAMES

MURDOCK, JAMES A.

MURPHY, HADYN

MURPHY, JOHN S.

MURPHY, MEGAN J.

MURPHY, ROGER P.
Emeritus Associate Professor of Accounting. B.S., 1966, M.S., 1969, Colorado State.

MUSZYNSKI, MICHAEL GERARD

MUTCHMOR, JOHN A.
Emeritus Professor of Ecology, Evolution and Organismal Biology; Emeritus Professor of Entomology. B.Sc., 1950, Alberta; M.S., 1955, Ph.D., 1961, Minnesota.

MYERS, ALAN M.

MYERS, CYNTHIA L.
Adjunct Instructor in English. B.S., 1973, M.A., 1979, Kansas State.

MYERS, RONALD KEITH

N
NABRATZKY, RONALD

NAEGLE, DANIEL J.

NAKADATE, NEIL EDWARD
NAKAGAWA, NORIO
Adjunct Professor of Aerospace Engineering. B.S., 1975, M.S., 1977, Ph.D., 1984, Tokyo Japan.

NAMBIAN, SHASHI SATHISAN
Professor of Civil, Construction and Environmental Engineering. B.Tech., 1984, Indian Institute of Technology; M.S., 1985, Virginia Polytechnic; Ph.D., 1989, California (Berkeley).

NAPPIINAJ A, RAMANUJAM

NARA, PETER LLOYD

NARASIMHAN, BALAJI
Professor of Chemical and Biological Engineering; Associate Dean of the College of Engineering. B.Tech., 1992, Indian Institute of Technology; Ph.D., 1996, Purdue.

NASH, JOHN
Associate Professor of Educational Leadership and Policy Studies. B.A., 1984, California (Santa Barbara); M.Ed., 1989, Louisiana; Ph.D., 1992, Wisconsin.

NASON, JOHN DAVID
Professor of Ecology, Evolution and Organismal Biology. B.S., 1985, California (Davis); Ph.D., 1991, California (Riverside).

NEGHEROS-CASILLO, P.
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1976, Puebla (Mexico); M.S., 1983, Inireb; Ph.D., 1991, Iowa State.

NEIHART, NATHAN MARK

NELSON, CHRISTOPHER C.

NELSON, MARNA DARLENE
Lecturer in Biochemistry, Biophysics and Molecular Biology. B.S., 1998, Drake University; Ph.D., 2005, Iowa State.

NELSON, RON M.

NELSON, SCOTT W.
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1997, North Dakota State; Ph.D., 2002, Iowa State.

NEPPL, THOMAS GEORGE

NESPOR, JIM G.
Lecturer in Kinesiology. B.S., 1979, Nebraska; M.S., 1981, Arizona; B.S., 1989, New Mexico.

NETTLETON, DANIEL S.

NEVITT, BENJAMIN N.

NEWELL, JONATHAN J.

NEWTON, TERESA NAIMO

NG, SIU H.
Associate Professor of Mathematics. B.Sc., 1988, M.Phil., 1992, Hong Kong; Ph.D., 1997, Rutgers.

NGUYEN, TIEN NHUT
Assistant Professor of Electrical and Computer Engineering. B.Sc., 1995, Hochiminh City (Vietnam); Ph.D., 2005, Wisconsin.

NICHOLS, GREGORY

NICHOLSON, ERIC
Instructor in Veterinary Diagnostic and Production Animal Medicine (Collaborator). B.S., 1993, Kansas State; Ph.D., 1999, Texas A&M.

NIDAY, DONNA MAE

NIEDERHAUSER, DALE S.
Associate Professor of Curriculum and Instruction. B.S., 1982, New York (Fredonia); M.Ed., 1988, Ph.D., 1994, Utah.

NIEHM, LINDA S.
Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1980, Ashland; M.S., 1985, Ohio; Ph.D., 2002, Michigan State.

NIKOLAKA, BASIL J.
Professor of Biochemistry, Biophysics and Molecular Biology. B.Sc., 1977, Ph.D., 1981, Massey (New Zealand).

NILAKANTA, SREEVATSA
Associate Professor of Supply Chain and Information Systems. B.E., 1973, Madras (India); M.B.A., 1979, Ph.D., 1985, Houston.

NILSEN-HAMILTON, MARIT
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1969, Ph.D., 1973, Cornell.

NILSSON, JAMES W.
Emeritus Professor of Electrical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1948, Iowa; M.S., 1952, Ph.D., 1958, Iowa State.

NISSEN, STEVEN LYNN

NIYO, YOSIYA

NO, WON G.
Assistant Professor of Accounting. B.S., 1994, M.S., 1996, Chonnam National (South Korea); M.A.C.C., 1999, Wisconsin; Ph.D., 2007, Waterloo (Canada).

NOGGLE, KAREN S.
NOLAN, LISA K.
Professor of Veterinary Microbiology and Preventive Medicine; Dean of the College of Veterinary Medicine. B.S., 1975, Valdosta State College; D.V.M., 1988, M.S., 1989, Ph.D., 1992, Georgia.

NONNECKE, BRIAN J.
Professor of Animal Science (Collaborator). B.S., 1974, M.S., 1976, Guelph; Ph.D., 1979, Ohio State.

NONNECKE, GAIL R.
Professor of Horticulture; University Professor. B.S., 1974, M.S., 1977, Pennsylvania State; Ph.D., 1980, Ohio State.

NORDMAN, DANIEL JOHN

NORDMEYER, KEVIN ROBERT

NORRIS, DANIEL MILTON
Associate Professor of Supply Chain and Information Systems. B.S., 1973, Iowa State; M.S., 1976, Drake; Ph.D., 1982, Missouri; B.L.S., 2008, Iowa State.

NORTHUP, LARRY LEE

NORTHWAY, ERIC W.

NORTON-MEIER, LORI ANN

NOSTWICH, THEODORE D.

O’BRIEN, SUSAN E.
Associate Professor of Veterinary Clinical Sciences. B.S., 1972, D.V.M., 1976, Colorado State.

O’CONNOR, ANNETTE M.
Associate Professor of Veterinary Diagnostic and Production Animal Medicine. B.V.Sc., 1993, Sydney (Australia); M.V.Sc., 1997, Queensland (Australia); DVSC, 2000, Guelph (Canada).

O’DONNELL, JENNIFER MARIE
Assistant Professor of Chemical and Biological Engineering. B.S., 2001, Bucknell; Ph.D., 2007, Delaware.

O’MARA, DENISE ANN

OAKES, GREGORY WAYNE

OAKLEY, DAVID

OAKLAND, MARY JANE
Emeritus Associate Professor of Food Science and Human Nutrition. B.S., 1966, South Dakota State; M.S., 1970, Ph.D., 1985, Iowa State.

OESTERREICH, LESIA L.
Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1978, M.S., 1988, Texas Tech.

OGILVIE, CRAIG A.
Professor of Physics and Astronomy. B.Sc., 1983, Canterbury (New Zealand); Ph.D., 1987, Birmingham (UK).

OKISHI, THEODORE H.
Emeritus Professor of Mechanical Engineering; Vice President. B.S., 1960, M.S., 1963, Ph.D., 1965, Iowa State.

OLAFSSON, SIGURDUR

OLDEHOEFT, ARTHUR E.

OLDHAM, ANNE M.

OLIVER, DAVID J.
Professor of Genetics, Development and Cell Biology; Associate Dean of the College of Liberal Arts and Sciences. B.S., 1971, M.S., 1973, New York (Syracuse); Ph.D., 1975, Cornell.

OLIVER, JAMES H.
Professor of Mechanical Engineering. B.S., 1979, Union; M.S., 1981, Ph.D., 1986, Michigan State.

OLSEN, GAVIN LEIF

OLSEN, MICHAEL G.
Associate Professor of Mechanical Engineering; Associate Professor of Chemical and Biological Engineering. B.S., 1992, M.S., 1995, Ph.D., 1998, Illinois.

OLSEN, SHERRLYN S.

OLSEN, STEVEN

OLSON, JOANNE K.
OMIDVAR, LADAN R.

ONEAL, MATTHEW ELLIOTT

ONG, SAY K.
Professor of Civil, Construction and Environmental Engineering. B.E., 1980, Malaya (Malaysia); M.S., 1987, Vanderbilt; Ph.D., 1990, Cornell.

OPRIESSNIG, TANJA I.
Associate Professor of Veterinary Diagnostic and Production Animal Medicine. D.V.M., 2002, Veterinary Medicine (Austria); Ph.D., 2006, Iowa State.

ORAZEM, PETER FRANCIS
Professor of Economics; University Professor. B.A., 1977, Kansas; M.Phil., 1980, Ph.D., 1983, Yale.

OSBORN, BARB A.

OSBORN, WAYNE S.

OSEI-KOFI, NANA

OSTERBERG, ARVID ERIC

OSTOJIC, JELENA

OSWEG, GARY D.

OTIS, DAVID L.

OTONI, CRISTIANE
Adjunct Instructor in Veterinary Clinical Sciences. MV, 2003, Sao Paulo State (Brazil).

OTTO, DANIEL M.

OUULMAN, CHARLES S.

OUULMAN, MOTOKO LEE
Emeritus Professor of Sociology. B.A., 1959, Nara Women’s University; M.A., 1963, Indiana; Ph.D., 1969, Iowa State.

OUYANG, TIAN HE
Professor of Electrical and Computer Engineering (Collaborator).

OWEN, DAVID BISHOP

OWEN, MICHEAL D.

OWINGS, WILLIAM J.

OWUSU, FRANCIS Y.

OZSOY, HAVVA DUYGU

PADGETT-WALSH, CULLEN

PADGETT-WALSH, SALLIE KATE

PADGITT, STEVEN C.
Emeritus Professor of Sociology. B.S., 1965, Iowa State; M.S., 1968, Missouri; Ph.D., 1971, Iowa State.

PAK, YONG CHIN

PALERMO, GREGORY S.

PALIC, DUSAN
Assistant Professor of Biomedical Sciences. D.V.M., 1997, M.S., 2002, Belgrade (Serbia); Ph.D., 2005, Iowa State.

PALIK, BRIAN

PALMER, MITCHELL VAN
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1985, Utah State; D.V.M., 1989, Purdue; Ph.D., 1996, Iowa State.

PALMER, REID G.

PAN, JUN
Lecturer in Mathematics. M.S., 1984, Henan Normal (Chinal; Ph.D., 2000, Magdeburg (Germany).

PANDEY, SANTOSH

PANNRAH, BRUNDABAN
Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.V.Sc., 1962, Orissa Veterinary College; M.S., 1968, Minnesota; Ph.D., 1972, Texas A&M.

PAPPENHEIMER, DEBORAH

PARDOSBALLESTER, CRISTINA
Assistant Professor of World Languages and Cultures. B.A., 1996, University of Granada; M.A., 1999, Nevada (Reno); Ph.D., 2007, California (Davis).

PARKER, VALERIE J.
PARKIN, TIMOTHY B.

PARKS, W. ROBERT

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, GERALD E.

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, GERALD E.

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, W. ROBERT

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, W. ROBERT

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, W. ROBERT

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, W. ROBERT

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, W. ROBERT

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.

PARKS, W. ROBERT

PARRISH, FREDERICK C.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; University Professor. B.S., 1959, M.S., 1960, Ph.D., 1965, Missouri.
PESEK, JOHN T. JR.
Emeritus Professor of Agronomy; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1943, M.S., 1947, Texas A&M; Ph.D., 1950, North Carolina State.

PETERS, DAVID J.
Assistant Professor of Sociology. B.S., 1994, Minnesota; M.S., 1998, Ph.D., 2006, Missouri.

PETERS, FRANK E.

PETERS, JUSTIN
Professor of Mathematics. B.A., 1968, Reed; Ph.D., 1973, Minnesota.

PETERS, LEO C.

PETERS, REUBEN J.
Associate Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1992, California (San Diego); Ph.D., 1998, California (San Francisco).

PETERS, RONALD H.

PETERSEN, CHRISTINE ANNE

PETERSEN, NEVA M.
Emeritus Professor of Human Development and Family Studies; Emeritus Professor of Art and Design. B.S., 1930, M.S., 1947, Iowa State.

PETERSON, ANNA DAGMAR
Lecturer in Statistics.

PETERSON, CARLA ANN
Professor of Human Development and Family Studies; Associate Dean of the College of Human Sciences. B.S., 1975, Iowa State; M.A., 1981, South Dakota; Ph.D., 1991, Minnesota.

PETERSON, DAVID
Associate Professor of Political Science. B.A., 1995, Gustavus Adolphus College; Ph.D., 2000, Minnesota.

PETERSON, DIANA COOMES
Assistant Professor of Biomedical Sciences. B.S., 1997, Indiana; Ph.D., 2004, Louisville.

PETERSON, FRANCIS

PETERSON, JANE W.

PETERSON, PETER A.
Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1947, Tufts; Ph.D., 1953, Illinois.

PETERSON, THOMAS A.
Professor of Genetics, Development and Cell Biology; Professor of Agronomy. B.S., 1976, California (Davis); Ph.D., 1984, California (Santa Barbara).

PETRICH, JACOB W.
Professor of Chemistry and Chair of the Department. B.S., 1980, Yale; Ph.D., 1985, Chicago.

PETT, STEPHEN WILLARD

PHARES, BRENT M.

PHILLIPS, GREGORY J.

PHILLIPS, WARREN

PHYE, GARY D.
Professor of Curriculum and Instruction; Professor of Psychology. B.A., 1964, M.A., 1965, Wichita; Ph.D., 1970, Missouri.

PIERCE, CLAY L.
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1980, Mankato; M.S., 1982, Kentucky; Ph.D., 1987, Maryland.

PIERCE, DAVID R.

PIERSON, BION LEE

PIGOZZI, DON LEONARD

PILLATZKI, ANGELA E.

PITA, FABIANO
Assistant Professor of Animal Science (Collaborator). M.S., 1999, Sao Paulo State (Brazil); Ph.D., 2003, Federal University of Vicosa (Brazil).

PLAKANS, ANDREJS

PLATT, KENNETH B.

PLEASANTS, BARBARA P.
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Cornell; Ph.D., 1977, California (Los Angeles).

PLEASANTS, JOHN M.
Adjunct Assistant Professor of Ecology, Evolution and Organismal Biology. B.S., 1971, Notre Dame; Ph.D., 1977, California (Los Angeles).

PLETCHER, RICHARD H.

PLUMMER, CASSANDRA LONG

PLUMMER, PAUL J.
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine; Assistant Professor of Veterinary Microbiology and Preventive Medicine. B.S., 1999, D.V.M., 2000, Tennessee; Ph.D., 2009, Iowa State.

PLYMESSER, CLIFF ALEX
POAGUE, LELAND A.
Professor of English. B.A., 1970, California State (San Jose); Ph.D., 1973, Oregon.

POHL, NICOLA

POHLAN, LYNNETTE L.
Adjunct Associate Professor of Art and Design. B.A., 1972, M.A., 1976, Iowa State.

POHM, ARTHUR V.
Emeritus Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.E.E., 1950, B.E.S., 1950, Cleveland State; M.S., 1953, Ph.D., 1954, Iowa State;

POIST, RICHARD F. JR.

POLITO, THOMAS A.
Assistant Professor of Agricultural Education and Studies; Assistant Professor of Agronomy. B.S., 1976, M.S., 1982, Ph.D., 1987, Iowa State.

POLLAK, EDWARD
Emeritus Professor of Statistics; Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1954, Cornell; M.S., 1956, North Carolina State; Ph.D., 1964, Columbia.

POLLAK, LINDA M.
Associate Professor of Agronomy (Collaborator). B.S., 1978, Ohio State; M.S., 1980, Ph.D., 1982, Nebraska.

POLSON, DALE

POLSTER, NANCY L.
Emeritus Associate Professor of Art and Design. B.S., 1960, Iowa State; M.S., 1964, Syracuse.

POMETTO, ANTHONY III
Professor of Food Science and Human Nutrition (Collaborator). B.S., 1976, George Mason; M.S., 1983, Ph.D., 1987, Idaho.

POON, YIU TUNG
Associate Professor of Mathematics. B.A., 1977, M.Phil., 1980, Hong Kong; Ph.D., 1985, California (Los Angeles).

POPE, CHRISTIE F.
Emeritus Associate Professor of History. A.B., 1959, North Carolina; Ph.D., 1977, Chicago.

POPPION, AMY M.

PORTER, MARC DAVID
Professor of Chemistry (Collaborator); Professor of Chemical and Biological Engineering (Collaborator). B.S., 1977, M.S., 1979, Wright State; Ph.D., 1984, Ohio State.

PORTER, MAX LEE
Emeritus Professor of Civil Engineering; University Professor. B.S., 1965, M.S., 1968, Ph.D., 1974, Iowa State.

PORTER, ROBERT B.

PORTER, STEPHEN R.

POST, CONSTANCE J.

POTOSKI, MATTHEW

POTTER, ALLAN GEORGE
Emeritus Professor of Electrical Engineering. B.S., 1955, Kansas State; M.S., 1959, Ph.D., 1966, Iowa State.

POTTER, LESLIE A.

POTTER, ROSANNE G.

POULIOT, SEBASTIEN
Assistant Professor of Economics. BACC, 2001, M.S., 2003, Universite Laval (Canada); Ph.D., 2008, California (Davis).

POWELL, JACK E.
Emeritus Professor of Chemistry. B.S., 1943, Monmouth; Ph.D., 1952, Iowa State.

POWELL-COFFMAN, JO A.
Associate Professor of Genetics, Development and Cell Biology. B.S., 1986, California (Davis); Ph.D., 1993, California (San Diego).

POWER, DEBRA LYNN

POWER, MARK L.
Professor of Finance; University Professor. B.S., 1974, Iowa State; M.B.A., 1977, Ph.D., 1981, Iowa.

PRABHU, GURPUR M.

PRATER, JEFFREY LYNN

PRELL, SOEREN A.
Associate Professor of Physics and Astronomy. Ph.D., 1996, Hamburg (Germany).

PREMKUMAR, SHOBA

PRENITCE, DAVID

PRESCOTT, JAMES R.

PRESTEMON, DEAN R.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1956, Iowa State; M.S., 1957, Minnesota; Ph.D., 1966, California (Berkeley).

PRICKETT, SALLY ANN

PRIETO, LORETO R.
PRIOR-MILLER, MARCIA R.

PRITCHARD, JAMES
Adjunct Assistant Professor of Landscape Architecture; Adjunct Assistant Professor of Natural Resource Ecology and Management. B.A., 1976, Miami (Ohio); M.A., 1991, Montana State; Ph.D., 1996, Kansas.

PROKOS, ANASTASIA HELENE
Assistant Professor of Sociology. B.S., 1992, Ph.D., 2001, Florida State.

PROZOROV, RUSLAN
Associate Professor of Physics and Astronomy. M.Sc., 1992, Institute of Steel and Alloys (Moscow); Ph.D., 1998, Bar-Ilan (Israel).

PRUETZ, JILL D.

QUA, KENNETH JOHN
Professor of Food Science and Human Nutrition; Professor of Animal Science. B.S., 1979, Fort Hays; M.S., 1980, Ph.D., 1983, Kansas State.

PRUSKI, MAREK
Adjunct Professor of Chemistry. M.S., 1977, Ph.D., 1981, Nicholas Copernicus (Poland).

PURSEY, DEREK L.
Emeritus Professor of Physics and Astronomy. B.S., 1948, Ph.D., 1952, Glasgow.

PYATT, NATHAN

QIAO, DAJI
Associate Professor of Electrical and Computer Engineering. B.S., 1994, Tsinghua (China); M.S., 1998, Ohio State; Ph.D., 2004, Michigan.

QIU, JIANWEI

QIU, HONG

QU, YONGMING
Assistant Professor of Statistics (Collaborator). B.S., 1994, M.S., 1997, Univer of Science and Tech (China); Ph.D., 2002, Iowa State.

QUAM, ANDREA L.

QUIGLEY, JAMES

QUINLISK, M. PATRICIA
Assistant Professor. B.S., 1978, Wisconsin (Stevens Point); M.P.H., 1983, Johns Hopkins; M.D., 1988, Wisconsin.

QUIMBACH, HERMAN C.

QUISENBERRY, SHARRON SUE
Professor of Entomology; Vice President for Research and Economic Development. B.S., 1966, Northeast Missouri; M.A., 1975, Hood; M.S., 1977, Ph.D., 1980, Missouri.

QUIST, MICHAEL CARL

RAICH, JAMES W.

RAJAGOPAL, LAKSHMAN
Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1998, Sies College (India); M.S., 2004, Ph.D., 2007, Nebraska.

RAJAGOPALAN, R. GANESH

RAJAN, HRIDESH

RAJAN, KRISHNA

RAJU, SEKAR
Assistant Professor of Marketing. B.E., 1991, Bharathiar (India); M.B.A., 1994, Bharathidasan (India); M.A., 2001, Ph.D., 2002, Ohio State.

RAMAMOORTHY, ADITYA
Assistant Professor of Electrical and Computer Engineering. B.Tech., 1993, Indian Institute of Technology; Ph.D., 2005, California (Los Angeles).

RAMAN, DAVE R.
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1986, Rochester Institute of Technology; Ph.D., 1994, Cornell.

RAMASWAMI, SRIDHAR N.

RAMIREZ, ALEJANDRO

RAMSEY, JONATHAN DAVID

RANDALL, JESSE ALLEN

RANDIC, MIRJANA
Emeritus Professor of Biomedical Sciences. M.D., 1959, Ph.D., 1962, Zagreb.

RAO, ARAGULA GURURAJ
Professor of Biochemistry, Biophysics and Molecular Biology and Chair of the Department. M.Sc., 1974, Gauhati (India); Ph.D., 1981, Mysore (India).

RASMUSSEN, JORGEN S.
Assistant Professor of Management. B.S., 1998, Sies College (India); M.S., 2004, Ph.D., 2007, Nebraska.

RASMUSSON, NINA KAY

RATHMACHER, JOHN A.
RATIGAN, GARY J.  

RAVENScroft, SUE P.  

RAWSON, DON CARLOS  

READ, ALVIN A.  
Emeritus Professor of Electrical Engineering. B.S., 1949, M.S., 1960, Iowa State.

RECTANUS, ELIZABETH S.  
Lecturer in World Languages and Cultures. B.S., 1972, Mississippi; J.D., 1974, M.A., 1979, Mississippi State.

RECTANUS, MARK W.  
Professor of World Languages and Cultures and Chair of the Department. B.A., 1975, Valparaiso; M.A., 1977, Ph.D., 1983, Washington (St. Louis).

REDDY, MANJU B.  
Associate Professor of Food Science and Human Nutrition. B.S., 1976, M.S., 1978, Osmania (India); Ph.D., 1987, Texas A&M.

REDMOND, JAMES R.  
Emeritus Professor of Ecology, Evolution and Organismal Biology. B.S., 1949, Cincinnati; Ph.D., 1954, California (Los Angeles).

REDMOND, MARK VINCENT  

REECE, WILLIAM O.  
Emeritus Professor of Biomedical Sciences; University Professor. D.V.M., 1954, Ph.D., 1965, Iowa State.

REECEY, JAMES M.  
Professor of Animal Science. B.S., 1990, South Dakota State; M.S., 1992, Missouri; Ph.D., 1995, Purdue.

REEDY, MARILYN K.  

REGER, RICHARD ALLEN  

REGISTER, KAREN B.  
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). BSMT, 1981, Western Carolina; Ph.D., 1986, North Carolina.

REHMANN, CHRIS ROBERT  
Associate Professor of Civil, Construction and Environmental Engineering; Associate Professor of Agricultural and Biosystems Engineering. B.S., 1989, Massachusetts Institute of Technology; M.S., 1990, Ph.D., 1995, Stanford.

REIER, DANIELLE  

REILLY, PETER J.  
Professor of Chemical and Biological Engineering; Anson Marston Distinguished Professor in Engineering. A.B., 1960, Princeton; Ph.D., 1964, Pennsylvania.

REINERS, GARY  
Lecturer in Community and Regional Planning. B.A., 1967, J.D., 1974, California (Berkeley).
RINGLEE, CONSTANCE J.

RIVERA, MARISA

RIZO-ARBUCKLE, ELISA G.
Assistant Professor of World Languages and Cultures. B.A., 1993, Instituto Tecnologico De Estudios Superi; M.A., 1996, Ph.D., 2002, Missouri.

RIZZO, FRANK J.

ROBERTS, DAVID D.

ROBERTS, DONALD M.
Emeritus Professor of Mechanical Engineering. B.Sc., 1945, Alberta; M.Sc., 1949, Ph.D., 1953, Purdue.

ROBERTS, RONALD A.
Adjunct Associate Professor of Aerospace Engineering. B.S., 1979, Purdue; M.S., 1981, Ph.D., 1985, Northwestern.

ROBERTS, SARAH

ROBERTSON, ALAN P.
Research Associate Professor of Biomedical Sciences. B.Sc., 1991, Glasgow; Ph.D., 1997, Edinburgh.

ROBERTSON, ALISON E.
Assistant Professor of Plant Pathology. B.Sc., 1991, Natal (South Africa); M.Phil., 1999, Zimbabwe (Africa); Ph.D., 2003, Clemson.

ROBERTSON, DONALD S.
Emeritus Professor of Zoology. A.B., 1947, Stanford; Ph.D., 1951, California Institute of Technology.

ROBINSON, DAN

ROBINSON, JENNIFER

ROBINSON, WILLIAM

ROBSON, RICHARD M.
Professor of Animal Science; Professor of Biochemistry, Biophysics and Molecular Biology; Professor of Food Science and Human Nutrition. B.S., 1964, M.S., 1966, Ph.D., 1969, Iowa State.

ROBYT, JOHN F.
Professor of Biochemistry. B.S., 1958, St. Louis; Ph.D., 1962, Iowa State.

RODDE, JAMES F.

RODDE, KATHLEEN

RODERMEL, STEVEN R.

RODERUCK, CHARLOTTE E.
Emeritus Professor of Food Science and Human Nutrition; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. B.S., 1940, Pittsburgh; M.S., 1942, Washington State; Ph.D., 1949, Iowa.

RODRIGUEZ, CHRISTOPHER R.

RODRIGUEZ, JULIO C.

RODRIGUEZ, MA LULU A.
Professor of Greenlee School of Journalism and Communication. B.S., 1979, Philippines; MPS, 1987, Cornell; Ph.D., 1993, Wisconsin.

ROE, KEVIN J.
Adjunct Assistant Professor of Natural Resource Ecology and Management; Adjunct Assistant Professor of Ecology/Evolution and Organismal Biology. B.S., 1988, M.S., 1994, Georgia; Ph.D., 1999, Alabama.

ROETTGER, CHRISTIAN G.
Lecturer in Mathematics. M.S., 1994, Augsburg (Germany); Ph.D., 2000, East Anglia (UK).

ROGE, AMANDA M.
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2005, Texas (Pan American); D.V.M., 2009, Texas A&M.

ROGERS, CARL A.
Associate Professor of Landscape Architecture. B.Arch., 1993, Kansas State; M.L.A., 1997, Rhode Island School of Design.

ROGGE, THOMAS RAY

ROHACH, ALFRED F.

ROITERCHEIN, ALEXANDER
Assistant Professor of Mathematics. M.B.A., 1996, Tel-Aviv (Israel); M.Sc., 1999, Ph.D., 2004, Technion-Israel Institute of Technology.

ROLLINS, DERRICK K.
Professor of Chemical and Biological Engineering; Professor of Statistics. B.S., 1979, Kansas; M.S., 1987, Ph.D., 1990, Ohio State.

RONGERUDE, JANE MARIE
Assistant Professor of Community and Regional Planning. B.S., 1998, Portland State; M.C.P., 2001, Ph.D., 2009, California (Berkeley).

ROOF, MICHAEL B.

ROSATI, MARZIA
Assistant Professor of Physics and Astronomy. B.S., 1985, La Sapienza (Italy); Ph.D., 1992, Mc Gili (Canada).

ROSENBERG, ELI IRA

ROSENBUSCH, MARCIA H.
Adjunct Associate Professor of World Languages and Cultures; Adjunct Associate Professor of Curriculum and Instruction. B.S., 1965, Oregon State; M.S., 1966, Ph.D., 1987, Iowa State.
ROSENBUSCH, RICARDO F.

ROSHEIM, AARON S.
Adjunct Instructor in Military Science and Tactics. B.A., 2006, Iowa State.

ROSS, DALE H.

ROSS, DENNIS KENT
Emeritus Professor of Physics and Astronomy. B.S., 1964, California Institute of Technology; Ph.D., 1968, Stanford.

ROSS, JASON WAYNE
Assistant Professor of Animal Science. B.S., 2000, Iowa State; M.S., 2003, Ph.D., 2006, Oklahoma State.

ROSS, RICHARD FRANCIS

ROTH, JAMES ALLEN
Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1975, M.S., 1979, Ph.D., 1981, Iowa State.

ROTHMAYER, ALRIC PAUL
Professor of Aerospace Engineering; Professor of Mathematics. B.S., 1980, M.S., 1982, Ph.D., 1985, Cincinnati.

ROSS, RICHARD FRANCIS

ROTHMAYER, ALRIC PAUL
Professor of Aerospace Engineering; Professor of Mathematics. B.S., 1980, M.S., 1982, Ph.D., 1985, Cincinnati.

ROTHE, JAMES ALLEN
Professor of Veterinary Microbiology and Preventive Medicine; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1975, M.S., 1979, Ph.D., 1981, Iowa State.

ROUSSEAU, SCOTT
Emeritus Professor of Entomology. B.S., 1979, M.S., 1982, Utah State; Ph.D., 1984, Iowa State.

ROWLEY, WAYNE ALLRED

ROWLING, MATTHEW J.
Assistant Professor of Food Science and Human Nutrition. B.S., 1999, Nebraska (Kearney); Ph.D., 2004, Iowa State.

ROY, VIVEKANANDA
Assistant Professor of Statistics. B.Sc., 2001, Ramakrishna Mission College (Calcutta); M.STAT, 2004, Indian Statistical Institute (Calcutta); Ph.D., 2008, Florida.

RUA, PATRICIA PAYER
Instructor in Food Science and Human Nutrition (Collaborator). B.S., 1945, Kansas State.

RUA, PATRICIA PAYER
Instructor in Food Science and Human Nutrition (Collaborator). B.S., 1945, Kansas State.

RUA, PATRICIA PAYER
Instructor in Food Science and Human Nutrition (Collaborator). B.S., 1945, Kansas State.

RUA, PATRICIA PAYER
Instructor in Food Science and Human Nutrition (Collaborator). B.S., 1945, Kansas State.

RUAN, LU
Associate Professor of Computer Science. B.E., 1996, Tsinghua (China); M.S., 1999, Ph.D., 2001, Minnesota.

RUBEN, ROBERT A.

RUDOLPH, WILLIAM B.
Emeritus Professor of Mathematics; Emeritus Professor of Curriculum and Instruction. B.A., 1960, Bethany (West Virginia); M.S., 1965, Ph.D., 1969, Purdue.

RUDOLPHI, THOMAS J.

RUNYAN, WILLIAM S.

RUPERT, JERRY D.
Lecturer in Kinesiology. B.S., 1980, Lock Haven University; M.S., 1986, Utah.

RUSSELL, ALAN MARK

RUSSELL, DANIEL W.
Professor of Human Development and Family Studies. B.S., 1975, Tulsa; Ph.D., 1980, California (Los Angeles).

RUSSELL, DAVID R.

RUSSELL, JAMES R.

RUSSELL, MARTHA E.
Emeritus Adjunct Associate Professor of Chemistry. B.S., 1945, Rochester; M.A., 1947, New York (Buffalo); Ph.D., 1954, Purdue.

RUSSELL, STEVE F.

RUST, ROBERT E.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition. B.S., 1951, Wisconsin; M.S., 1954, Michigan State.

RYAN, SARAH M.

RYAN, VERNON DEAN

S

SACCO, RANDY E.
Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1981, M.S., 1983, Iowa State; Ph.D., 1987, Texas A&M.

SACKS, PAUL E.

SADOW, AARON DAVID
Assistant Professor of Chemistry. B.S., 1997, Pennsylvania State; Ph.D., 2003, California (Berkeley).

SAGE, PRISCILLA K.
SAHHIN, ORHAN

SAGAKUCHI, DONALD S.
Professor of Genetics, Development and Cell Biology; Professor of Biomedical Sciences. B.S., 1979, Ph.D., 1984, New York (Albany).

SAKAI, MARY R.
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2003, California (Berkeley); D.V.M., 2007 Kansas State.

SALAPAKA, MURTI V.

SALAS-FERNANDEZ, MARIA G.

SALOTTI, VALENTINA

SANCHEZ, MAYLY
Assistant Professor of Physics and Astronomy. B.Sc., 1996, Universidad De Los Andes (Venezuela); Ph.D., 2003, Tufts.

SANDERS, C. GORDON

SANDERS, WALLACE W.

SANDERSON, DONALD E.
Emeritus Professor of Mathematics. B.A., 1949, Cornell College; M.S., 1961, California Institute of Technology; Ph.D., 1953, Wisconsin.

SANDOR, JONATHAN A.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.A., 1974, California (Santa Barbara); M.S., 1979, Ph.D., 1983, California (Berkeley).

SANGER, NATALIE R.

SANTIAGO, ANTHONY

SAPP, STEPHEN GRAHAM
Professor of Sociology. B.A., 1974, M.A., 1980, Florida; Ph.D., 1984, Texas A&M.

SAPP, TRAVIS R. A.
Associate Professor of Finance. B.S., 1994, M.S., 1995, Iowa State; Ph.D., 2001, Iowa.

SAPPINGTON, THOMAS W.
Assistant Professor of Entomology (Collaborator). B.S., 1979, Central Missouri State; M.S., 1982, Iowa State; Ph.D., 1989, Kansas.

SAR, SELA
Assistant Professor of Greenlee School of Journalism and Communication. B.A., 1998, Sofia (Bulgaria); M.S., 2002, Ph.D., 2006, Minnesota.

SARGENT, DANIEL J.

SARKAR, PARTHA
Professor of Aerospace Engineering; Professor of Civil, Construction and Environmental Engineering. B.Tech., 1985, Indian Institute of Technology; M.S., 1986, Washington State; Ph.D., 1992, Johns Hopkins.

SASSEVILLE, VITO

SATTERFIELD, DEBRA JEAN

SATTERWHITE, MICHAEL

SAUER, GEOFFREY F. K.

SAUER, TOM
Associate Professor of Agronomy (Collaborator). B.S., 1982, Wisconsin (Stevens Point); M.S., 1985, Ph.D., 1993, Wisconsin.

SAUNDERS, KEVIN PATRICK

SAWYER, JOHN E.

SAWYER, MARY R.

SCANES, COLIN GUY
Professor of Animal Science (Collaborator). B.S., 1969, Hull; Ph.D., 1972, Wales.

SCHABEL, FRANK EDWARD
Assistant Professor of Kinesiology. B.S., 1965, New York (Buffalo); M.S., 1971, Eastern Illinois; H.S.D., 1979, Indiana.

SCHAEFER, JOSEPH A.
Senior Lecturer in Aerospace Engineering. B.S., 1962, Loras; Ph.D., 1972, Northwestern.

SCHAEFER, KELLY MARIE

SCHAEFER, VERNON R.

SCHAFER, ELISABETH A.

SCHAFER, JOHN WILLIAM

SCHAFER, ROBERT

SCHALINSKE, KEVIN
SCHALLER, FRANK W.
Emeritus Professor of Agronomy. B.S., 1937, Wisconsin; M.S., 1940, Ph.D., 1948, West Virginia.

SCHARFF, JAMES RICHARD

SCEHEL, KAREN R.
Senior Lecturer in Psychology. B.A., 1987, California (Santa Cruz); Ph.D., 1999, Iowa.

SCHIEBE, KEVIN PAUL

SCHWE-MILLER, IRMGARD M.

SCHILLING, KEITH EDWIN
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.A., 1985, Knox College; M.S., 1988, Iowa State; Ph.D., 2009, Iowa.

SCHILLING, KEVIN
Associate Professor of Music and Theatre; Associate Professor of Curriculum and Instruction. A.B., 1969, Southern California; M.M., 1971, D.M., 1985, Indiana.

SCHLATER, LINDA R. K.

SCHLORHOLTZ, SCOTT M.

SCHMALIAN, JOERG
Professor of Physics and Astronomy. M.S., 1990, Merseburg (Germany); Ph.D., 1993, Berlin (Germany).

SCHMERR, LESTER W. JR.
Professor of Aerospace Engineering. B.S., 1965, Massachusetts Institute of Technology; Ph.D., 1970, Illinois Institute of Technology.

SCHMIDT, DENISE A.

SCHMIDT, HELEN HOYT

SCHMIDT, STEFFEN W.
Professor of Political Science; University Professor. B.A., 1965, Rollins; M.A., 1967, Ph.D., 1973, Columbus.

SCHMIDT-ROHR, KLAUS
Professor of Chemistry. Ph.D., 1991, Mainz (Germany).

SCHNABLE, PATRICK S.
Professor of Agronomy; Professor of Genetics, Development and Cell Biology. B.S., 1981, Cornell; Ph.D., 1986, Iowa State.

SCHNEIDER, IAN C.
Assistant Professor of Chemical and Biological Engineering; Assistant Professor of Genetics, Development and Cell Biology. B.S., 2000, Iowa State; M.S., 2002, Ph.D., 2008, North Carolina State.

SCHNEIDER, LEO R.
Emeritus Professor of Health and Human Performance; Emeritus Professor of Curriculum and Instruction. B.S., 1949, Iowa State; M.S., 1950, Washington State.

SCHNEIDER, PIA
Assistant Professor of Art and Design (Collaborator); Assistant Professor of Architecture (Collaborator). B.Arch., 1985, Swiss Federal Institute of Technology; M.Arch., 1987, Southern California Inst. of Arch.

SCHNEIDER, STEPHAN
Assistant Professor of Genetics, Development and Cell Biology. M.S., 1990, Johannes Gutenberg (Germany); Ph.D., 1996, Eberhard-Karls (Germany).

SCHNEIDER, WENDIE ELLEN

SCHOFIELD, ROBERT E.

SCHRADER, GLENN L.
Emeritus Professor of History. B.A., 1972, Iowa State; Ph.D., 1976, Wisconsin.

SCHRIER, THOMAS
Assistant Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1999, Purdue; M.B.A., 2004, Ball State; Ph.D., 2009, Nevada.

SCHROEDER, JOHN R.
Professor of Economics. B.S., 1973, California Institute of Technology; Ph.D., 1981, Minnesota.

SCHUH, JOHN H.
Emeritus Professor of Educational Leadership and Policy Studies; Distinguished Professor of Education. B.A., 1969, Wisconsin (Oshkosh); M.S., 1972, Ph.D., 1974, Arizona State.

SCHULTE-MOORE, LISA ANN
Associate Professor of Natural Resource Ecology and Management. B.S., 1993, Wisconsin (Eau Claire); M.S., 1996, Minnesota; Ph.D., 2002, Wisconsin.

SCHULTZ, CHRISTINE

SCHULTZ, RICHARD CARL

SCHUMACHER, DANA K.

SCHUSTER, DONALD H.
Emeritus Professor of Psychology. B.S., 1949, Ohio; M.A., 1953, Minnesota; Ph.D., 1961, Southern California.

SCHUSTER, HELEN H.

SCHWAB, ANDREAS

SCHWAB, CHARLES V.
Professor of Agricultural and Biosystems Engineering. B.S., 1979, M.S., 1982, Ph.D., 1989, Kentucky.

SCHWAB, CLINTON

SCHWARTZ, BARBARA S.
SCHWARTZ, JAMES W.
Emeritus Professor of Greenlee School of Journalism and Communication. B.S., 1941, M.S., 1960, Iowa State.

SCHWARTZ, KENT J.

SCHWEINGRUBER, DAVID SCOTT

SCHWIEDER, DOROTHY A.
Emeritus Professor of History; University Professor. B.A., 1955, Dakota Wesleyan; M.S., 1968, Iowa State; Ph.D., 1981, Iowa.

SCHWIEDER, ELMER W.

SCOTT, LARRY R. JR.
Adjunct Instructor in Military Science and Tactics.

SCOTT, MARVIN PAUL
Associate Professor of Agronomy (Collaborator). B.S., 1986, Iowa State; Ph.D., 1992, Purdue.

SCOTT, NORMAN A.
Associate Professor of Psychology. B.S., 1965, Bucknell; M.A., 1967, Temple; Ph.D., 1971, Maryland.

SCOTT, THOMAS MARVIN
Emeritus Associate Professor of Electrical Engineering. B.S., 1953, Maryland; Ph.D., 1962, Wisconsin.

SEAGRAVE, RICHARD C.
Emeritus Professor of Chemical Engineering; Anson Marston Distinguished Professor in Engineering. B.S., 1957, Rhode Island; M.S., 1959, Ph.D., 1961, Iowa State.

SEATON, VAUGHN A.

SEBRANEK, JOSEPH G.
Professor of Animal Science; Professor of Food Science and Human Nutrition; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1970, M.S., 1971, Ph.D., 1974, Wisconsin.

SEEGEGER, CHRISTOPHER J.

SEIFERT, GEORGE

SEIFERT, KARL E.

SEIGNEUR, ASHLEIGH A.

SELIBY, MARTHA ANN
Adjunct Assistant Professor of Materials Science and Engineering. B.S., 1981, M.S., 1989, Iowa State.

SELF, HAZZLE L.
SHARMA, VIJAY K.  
Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1977, M.S., 1978, Panjab (India); Ph.D., 1987, Toledo.

SHARP, LISA  
Lecturer in Human Development and Family Studies. B.A., 1975, California State University; M.S., 2001, Iowa State.

SHARP, RICKY LEE  
Professor of Kinesiology; Professor of Food Science and Human Nutrition; Professor of Biomedical Sciences. B.A., 1974, California State (Chico); M.Ed., 1976, Nevada; Ph.D., 1983, Ball State.

SHAW, KENNETH C.  
Emeritus Associate Professor of Zoology. B.S., 1954, Cincinnati; M.S., 1958, Ph.D., 1966, Michigan.

SHEarer, JAn  

SHEibsLE, GERALD B.  
Emeritus Professor of Electrical and Computer Engineering. B.S., 1971, M.S., 1974, Purdue; Ph.D., 1985, Virginia Polytechnic Institute.

SHEeChTMAN, DAN  

SHeDD, CELia P.  

SHEeler, JOnY B.  
Emeritus Associate Professor of Civil Engineering. B.S., 1950, Ph.D., 1956, Iowa State.

SHeLeLLy, MACK CLAYTON  
Professor of Statistics; Professor of Political Science; University Professor. B.A., 1972, American; M.S., 1973, Ph.D., 1977, Wisconsin.

Shen, SHELDON SHIH-TA  
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1969, Missouri; Ph.D., 1974, California (Berkeley).

Shenk, LINDA  

SheRMAN, PETER JAMES  
Associate Professor of Aerospace Engineering; Associate Professor of Statistics. B.S., 1974, M.S., 1975, Ph.D., 1984, Wisconsin.

SHHLOERKE, WALLACE C.  

Shibles, RICHARD M.  
Emeritus Professor of Agronomy. B.S., 1956, Maine; M.S., 1958, Ph.D., 1961, Cornell.

Shih, Tom I-PING  

Shin, yeoN-KYUn  
Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1982, Seoul National (Korea); Ph.D., 1990, Cornell.

Shinar, joseph  
Professor of Physics and Astronomy and Chair of the Department; Professor of Electrical and Computer Engineering. B.Sc., 1972, M.Sc., 1974, Ph.D., 1980, Hebrew (Israel).

Shinar, ruth  
Adjunct Professor of Electrical and Computer Engineering. B.S., 1968, M.S., 1972, Ph.D., 1977, Hebrew (Israel).

Shinn, richard duane  

Shoemaker, randy c.  
Professor of Agronomy (Collaborator); Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1977 Wisconsin (Stevens Point); M.S., 1980, Wisconsin (Green Bay); Ph.D., 1984, Iowa State.

Shogren-Knaak, michael  
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1994, Stanford; Ph.D., 2000, California Institute of Technology.

Shonrock, diana d.  

Showers, william b. Jr.  

Shrader, charles b.  

Shrader, william  
Emeritus Professor of Agronomy. B.S., 1935, M.S., 1941, Missouri; Ph.D., 1953, Iowa State.

Shrotriya, pranav  
Associate Professor of Mechanical Engineering. B.Tech., 1995, Indian Institute of Technology (India); Ph.D., 2000, Illinois.

Silet, charles l.  

Simons, ronald l.  
Professor of Sociology (Collaborator). Professor of Psychology (Collaborator). B.A., 1969, Northern Iowa; M.S.S.W., 1971, Wisconsin; Ph.D., 1974, Florida State.

Simonson, donald r.  

Simpkins, william w.  

Singer, jeremy w.  

Singer, shirlee r.  

SingH, natalia n.  
Adjunct Assistant Professor of Biomedical Sciences. M.S., 1988, Leningrad Lensovet Institute (Russia); Ph.D., 1995, Russian Academy of Science.

SingH, rajesh  
Associate Professor of Economics. B.Tech., 1981, Bhatt (India); M.Tech., 1983, Iit (India); Ph.D., 2002, California (Los Angeles).

SingH, ravindra n.  
Associate Professor of Biomedical Sciences. B.Sc., 1983, M.Sc., 1985, Banaras Hindu (India); Ph.D., 1993, Russian Academy of Sciences.
SIVASANKAR, SANJEEVI
Assistant Professor of Physics and Astronomy; Assistant Professor of Electrical and Computer Engineering. B.Sc., 1993, M.Sc., 1995, All India Institute of Medical Sciences; Ph.D., 2001, Illinois.

SIVILS, MATTHEW

SKAAR, BRAD RICHARD
Associate Professor of Animal Science. B.S., 1979, Colorado State; M.S., 1982, Ph.D., 1985, Iowa State.

SLAGELL, AMY R.

SLATER, TAMMY JAYNE ANNE

SLEUGH, BYRON B.

SMARANDESCU, LAURA
Assistant Professor of Marketing. B.A., 2002, British Columbia; Ph.D., 2007, South Carolina.

SMAY, TERRY ALLEN

SMILEY, MICHAEL W.

SMILEY-ONYEN, ANN

SMITH, ARTHUR A. JR.
Professor of Philosophy and Religious Studies; Professor of Political Science. B.A., 1974, Boston College; Ph.D., 1980, New York (Stony Brook).

SMITH, BRUCE E.

SMITH, CARL RAY

SMITH, CLIFFORD E.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1949, M.S., 1958, Ph.D., 1964, Iowa State.

SMITH, EMILY
Assistant Professor of Chemistry. M.S., 2000, Pennsylvania State; Ph.D., 2003, Wisconsin (Madison).

SMITH, FRANCES
Emeritus Professor of Family and Consumer Sciences Education and Studies; Emeritus Professor of Curriculum and Instruction. B.S., 1952, Southwestern (Oklahoma); M.S., 1958, Oklahoma State; Ph.D., 1966, Iowa State.

SMITH, FREDERICK G.
Emeritus Professor of Genetics, Development and Cell Biology. B.S., 1939, Chicago; M.S., 1941, Ph.D., 1943, Wisconsin.

SMITH, GERALD W.

SMITH, JENNIFER D.

SMITH, JOHN F.
Emeritus Professor of Materials Science and Engineering. B.A., 1948, Missouri (Kansas City); Ph.D., 1953, Iowa State.

SMITH, JONATHAN D. H.

SMITH, KELLI

SMITH, MARY MARLA
Instructor in Food Science and Human Nutrition (Collaborator). B.A., 1948, Clarke; M.S., 1966, Iowa State.

SMITH, RICHARD JOHN
Emeritus Professor of Agricultural and Biosystems Engineering. B.Sc., 1962, Kings College; M.S., 1967, Ph.D., 1971, Iowa State.

SMITH, RICHARD LYNN

SMITH, ROGER A. P.

SNELL, LLOYD D.

SOBIECH-MUNSON, ANN CLARE
Assistant Professor of Architecture; Assistant Professor of Art and Design. B.A., 1991, Central College; M.Arch., 2000, Iowa State.

SOENKSEN, JOEL L.

SOJKA, NADINE
Instructor in Genetics, Development and Cell Biology (Collaborator). B.A., 1969, Northern Iowa; Ph.D., 1974, Iowa State.

SOMANI, ARUN K.
Professor of Electrical and Computer Engineering; Anson Marston Distinguished Professor in Engineering. B.E., 1973, Bit (India); M.Tech., 1979, M.S.E.E., 1983, Ph.D., 1985, McGill (Canada).
SONG, GUANG
Assistant Professor of Computer Science. B.S., 1992, Jilin (China); M.S., 1998, Ph.D., 2003, Texas A&M.

SONG, JIHYUN

SONG, JIMING
Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1988, Nanjing (China); Ph.D., 1993, Michigan State.

SONG, SUNG YELL
Associate Professor of Mathematics. B.S., 1974, Seoul; Ph.D., 1987, Ohio State.

SONG, XUEYU
Professor of Chemistry. B.S., 1984, Nankai (China); Ph.D., 1995, California Institute of Technology.

SONGER, JOSEPH GLENN
Research Professor of Veterinary Microbiology and Preventive Medicine; Research Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1972, Mid America Nazarene; M.A., 1974, Texas; Ph.D., 1976, Iowa State.

SONTAG, JON

SOSNICKI, ANDRZEJ A.
Associate Professor of Animal Science (Collaborator). M.S., 1978, Mickiewicz (Poland); Ph.D., 1984, Academy of Agriculture (Poland).

SOSONKINA, MASHA

SOUKOULIS, COSTAS M.
Professor of Physics and Astronomy; Professor of Aerospace Engineering; Professor of Electrical and Computer Engineering; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Athens; M.S., 1975, Ph.D., 1978, Chicago.

SOULEYRETTE, REGINALD

SPURLOCK, MICHAEL EUGENE
Assistant Professor of Animal Science. B.S., 1992, Virginia Polytechnic; M.S., 1994, Oklahoma State; Ph.D., 1998, Nebraska.

SPURLOCK, DIANE MOODY
Associate Professor of Animal Science. B.S., 1992, Virginia Polytechnic; M.S., 1994, Oklahoma State; Ph.D., 1998, Nebraska.

SPURLOCK, MICHAEL EUGENE
Professor of Food Science and Human Nutrition; Professor of Animal Science. B.S., 1981, M.S., 1987, Ph.D., 1989, Missouri.

SPRY, PAUL G.

SPRONG, JIHYUN

SREENIVASAM, ELSA M.
Emeritus Associate Professor of Art and Design. B.A., 1951, St. Scholastica; M.A., 1969, Minnesota.

SRITHARAN, SIVALINGAM
Professor of Civil, Construction and Environmental Engineering. B.S.C.E., 1985, Peradeniya (Sri Lanka); M.E., 1989, Auckland (New Zealand); Ph.D., 1998, California (San Diego).

STABEL, JUDITH R.

STACY, ADRIENNE MICHELLE
Lecturer in English. B.A., 2003, Webster (St Louis); M.A., 2009, Georgia State.

STACY-BATES, KRISTINE

STADLER, JOAN K.
Emeritus Professor of Genetics, Development and Cell Biology; University Professor. B.A., 1951, Wellesley; Ph.D., 1954, Missouri.

STAHN, HENRY M.
Emeritus Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1956, South Dakota State; M.S., 1960, Union; Ph.D., 1976, Iowa State.

STALDER, KENNETH J.
STANFORD, JOHN L.
Emeritus Professor of Physics and Astronomy. B.S., 1960, Texas; Ph.D., 1965, Maryland.

STANLEY, MICHAEL C.

STANTON, THADEUS BRIAN
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1972, Thomas More; Ph.D., 1980, Massachusetts.

STARLEAF, DENNIS R.
Emeritus Professor of Economics. B.A., 1959, California (Berkeley); M.A., 1960, California (Los Angeles); Ph.D., 1967, Vanderbilt.

STARRS, GLORIA K.

STAROBIN, SOKO

STATIA, HARRY F.
Adjunct Assistant Professor of Naval Science. B.S., 1992, Embry Riddle Aeronautical; M.S., 2005, Arkansas.

STAUB, WILLIAM III

STEEL, NATALIE A.

STEINER, ANNE K.

STEINER, EUGENE F.
Emeritus Professor of Mathematics. B.S., 1954, Missouri (Rolla); M.A., 1960, Ph.D., 1963, Missouri.

STEPHENS, JAMES D.

STEPHENS, LOREN C.

STEPHENSON, DAVID T.

STEPHENSON, JAMES A.

STEPHENSON, W. ROBERT

STEVEN, JULIE L.

STEVENSON, GREGORY W.

STEVERTER, EMMETT J.

STEWART, BRIAN LYNN
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1989, M.S., 1994, South Dakota State; Ph.D., 1999, Illinois.

STEWART, CECEL R.

STEWART, SUSAN DIANE
Associate Professor of Sociology. B.A., 1990, New York (Fredonia); M.A., 1996, Ph.D., 2000, Bowling Green State.

STEWART, TIMOTHY W.

STIEGLITZ, MARY

STIEHL, CORY KATHERINE
Lecturer in Chemical and Biological Engineering. B.S., 1985, Rochester; Ph.D., 1990, Massachusetts.

STOKKE, DOUGLAS D.

STONE, JANIS FINLEY

STONE, KENNETH EUGENE

STONE, RICHARD T.
Assistant Professor of Industrial and Manufacturing Systems Engineering; Assistant Professor of Mechanical Engineering. B.S., 1999, M.S., 2001, Rochester Institute of Technology; Ph.D., 2008, New York (Buffalo).

STONE, VERNON F.
Emeritus Professor of Architecture. B.Arch., 1948, Washington (St Louis).

STOUT, JANEANN
Emeritus Associate Professor of Art and Design; Emeritus Associate Dean of the College of Human Sciences. B.S., 1971, M.A., 1974, Iowa State.

STOUT, THOMAS B.
Lecturer in Civil, Construction and Environmental Engineering. B.S.E., 1975, Virginia; M.S., 1992, Nebraska; Ph.D., 2005, Iowa State.

STOVER, ROGER D.

STOYTCHEV, ALEXANDER T.
Assistant Professor of Electrical and Computer Engineering; Assistant Professor of Computer Science. B.A., 1997, American (Bulgaria); M.S., 2001, Ph.D., 2005, Georgia Institute of Technology.

STRAHAN, ROBERT F.
Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1961, Kansas (Pittsburg); Ph.D., 1967, Minnesota.

STRAIT, ERIN L.

STRAWN, GEORGE O.
Emeritus Associate Professor of Computer Science. B.A., 1962, Cornell College; Ph.D., 1969, Iowa State.
STRITZEL, JOSEPH A.
Emeritus Professor of Agronomy. B.S., 1949, M.S., 1953, Ph.D., 1958, Iowa State.

STROHBEHN, CATHERINE
Adjunct Associate Professor of Apparel, Educational Studies and Hospitality Management. B.S., 1979, Texas Tech; M.S., 1981, Ph.D., 1991, Iowa State.

STROHBEHN, DARYL R.

STROHL, JOHN KENNETH
Lecturer in Food Science and Human Nutrition. B.S., 1981, Minnesota; Ph.D., 1988, Iowa State.

STROMER, MARVIN H.
Emeritus Professor of Animal Science; Emeritus Professor of Food Science and Human Nutrition; Emeritus Professor of Biochemistry, Biophysics and Molecular Biology. B.S., 1959, Ph.D., 1966, Iowa State.

STRONG, JOHN R.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1959, Brigham Young; M.S., 1962, Arizona State; Ph.D., 1974, Oregon State.

STRONG, KELLY C.
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1980, Iowa State; M.B.A., 1988, St. Thomas; Ph.D., 1992, Colorado.

STRUVE, WALTER SCOTT

STUART, DAVID H.

STURGES, LEROY DONALD

STURM, JONATHAN

STURM, JULIE

SUBRAMANIAM, SHANKAR
Associate Professor of Mechanical Engineering. B.Tech., 1988, Indian Institute of Technology (India); M.S., 1990, Notre Dame; Ph.D., 1997, Cornell.

SUKHATME, SHASHIKALA

SULLIVAN, JACOB PATRICK

SUMMERFELT, ROBERT C.
Emeritus Professor of Natural Resource Ecology and Management. B.S., 1957, Wisconsin (Stevens Point); M.S., 1959, Ph.D., 1964, Southern Illinois.

SUNDARARAJAN, SRIRAM

SUNDERMAN, ROBERT A.

SUNG, SHIHWW
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1983, Tam Kang; M.S., 1988, Auburn; Ph.D., 1994, Iowa State.

SURAMPALLI, RAO
Professor of Civil, Construction and Environmental Engineering (Collaborator). M.Sc., 1975, Osmania; M.S., 1978, Oklahoma State; Ph.D., 1985, Iowa State.

SUZUKI, YOSHINORI

SVEC, HARRY J.
Emeritus Professor of Chemistry; Distinguished Professor in Liberal Arts and Sciences. B.S., 1941, John Carroll; Ph.D., 1950, Iowa State.

SVENDSEN, LINDA K.

SWAN, PATRICIA B.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1959, North Carolina (Greensboro); M.S., 1961, Ph.D., 1964, Wisconsin.

SWANDER, MARY L.

SWANSON, PATRICIA M.
Adjunct Assistant Professor of Human Development and Family Studies. B.S., 1969, M.S., 1975, Ph.D., 1988, Iowa State.

SWEET, DAWN

SWEIGER, SHAUN H.

SWENSON, CLAYTON A.
Emeritus Professor of Physics and Astronomy; Distinguished Professor in Liberal Arts and Sciences. B.S., 1944, Harvard; D.Phil., 1949, Oxford.

SWENSON, DAVID A.
Adjunct Assistant Professor of Community and Regional Planning. B.S., 1979, M.A., 1981, South Dakota; M.A., 1985, Iowa.

SWENSON, RUTH WILDMAN

SWIFT, ARTHUR G.

SWIFT, CURRAN STEWART

SWITZER, WILLIAM P.
Emeritus Professor of Veterinary Microbiology; Clarence Hartley Covault Distinguished Professor in Veterinary Medicine. D.V.M., 1948, Texas A&M; M.S., 1951, Ph.D., 1954, Iowa State; Dr.H.C., 1979, Vienna.
TABATABAI, LOUISA
Professor of Biochemistry, Biophysics and Molecular Biology (Collaborator); Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1962, California (Berkeley); M.S., 1966, Ph.D., 1976, Iowa State.

TABATABAI, M. ALI
Professor of Agronomy. B.S., 1958, Baghdad; M.S., 1960, Oklahoma State; Ph.D., 1965, Iowa State.

TABER, HENRY GLENN

TAIT, JOHN LAWRENCE

TAKLE, GENE S.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences; Professor of Aerospace Engineering. B.A., 1966, Luther; Ph.D., 1971, Iowa State.

TAM, TIN-SHI

TAMASHUNAS, VICTOR M.
Emeritus Professor of Industrial and Manufacturing Systems Engineering. B.S., 1950, M.S., 1959, Iowa State.

TAN, XIAO LI

TANG, LIANG

TAN, YING
Associate Professor of Agricultural and Biosystems Engineering. B.S., 1989, Jianguo; M.S., 1994, Zhejiang; Ph.D., 2002, Illinois.

TANNER, RICHARD T.

TESFAGIORGIS, GEBRE H.
Professor of Economics; Professor of Mathematics; Professor of Electrical and Computer Engineering. B.A., 1968, Carleton; Ph.D., 1978, Minnesota.

TESHOME, YALEM

THACKER, BRAD J.

THACKER, EILEEN L.

THACKER, TYLER C.
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1994, M.S., 1996, Ph.D., 2003, Brigham Young.

THANAWONGNUWECH, ROONGROJE

THERNEAU, TERRY M.
Professor of Statistics (Collaborator). B.A., 1975, St. Olaf College; Ph.D., 1983, Stanford.

THIEL, PATRICIA ANN
Professor of Chemistry; Professor of Materials Science and Engineering; Distinguished Professor in Liberal Arts and Sciences. B.A., 1975, Macalester; Ph.D., 1981, California Institute of Technology.

THIEL, THOMAS B.

THOEN, CHARLES O.

THOGMARTIN, CLYDE O.

TAYLOR, ROD K.
Adjunct Instructor in Military Science and Tactics.

TAYLOR, STERLING E.
Professor of Agronomy. B.S., 1966, Utah State; Ph.D., 1970, Washington (St. Louis).

TEAS, ROY KENNETH

TEMPLETON, MEGAN
Adjunct Instructor in Veterinary Clinical Sciences. B.S., 2001, California (Davis); D.V.M., 2007, Western University of Health Sciences.

TENER, JAMES R.

TAVANAPONG, WALLAPA K
Associate Professor of Computer Science. B.S., 1992, Thammasat (Thai); M.S., 1995, Ph.D., 1999, Central Florida.

TAYLOR, GARY D.
Assistant Professor of Community and Regional Planning. B.S., 1985, Northwest Missouri State; J.D., 1988, Nebraska; M.C.R.P., 1996, Iowa State.
THOJMARTIN, WAYNE

THOMAS, JAMES A.

THOMAS, JERRY R.

THOMAS, JOHN CHARLES
Lecturer in Greenlee School of Journalism and Communication. B.A., 1965, Northern Iowa; M.S., 2007, Iowa State.

THOMAS, REX ALLAN
Emeritus Professor of Curriculum and Instruction; Emeritus Professor of Computer Science. B.A., 1955, Iowa; M.A., 1961; Northern Iowa; Ph.D., 1970, Iowa State.

THOMAS, ANGEL M.
Adjunct Instructor in Veterinary Clinical Sciences. B.A., 2000, Austin College; D.V.M., 2004, Texas A&M.

THOMAS, DONALD O.
Emeritus Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1949, M.S., 1950, Ph.D., 1953, Iowa.

THOMAS, ELIZABETH A.
Professor of Curriculum and Instruction; University Professor. B.A., 1965, Pomena; M.A., 1966, Stanford; Ph.D., 1981, California (Santa Barbara).

THOMAS, JAMES A.

THOMPSON, WAYNE

THOMPSON, JANETTE R.

THOMPSON, LINDA S.

THOMPSON, MICHAEL L.
Professor of Agronomy; Professor of Geological and Atmospheric Sciences. B.S., 1974, Illinois; Ph.D., 1980, Ohio State.

THOMPSON, R. BRUCE
Professor of Materials Science and Engineering; Professor of Aerospace Engineering; Anson Marston Distinguished Professor in Engineering. B.A., 1964, Rice; M.S., 1965, Ph.D., 1971, Stanford.

THOMPSON, WILLIAM H.
Emeritus Professor of Transportation and Logistics. B.S., 1934, Pennsylvania State; M.S., 1939, Syracuse; Ph.D., 1948, Iowa State.

THOMSEN, BRUCE V.
Assistant Professor of Veterinary Pathology (Collaborator). B.S., 1988, Northwest Missouri State; D.V.M., 1990, Missouri; Ph.D., 2001, Iowa State.

THOMSON, JOHN ULAN
TOTH, AMY LYNN

TOURTELOTT, DALE R.

TOWNSEND, ANTHONY M.

TOWNSEND, CHARLES L.

TRACEY, ALEXANDRA K.

TRAHANOVSKY, WALTER S.
Professor of Chemistry. B.S., 1960, Franklin and Marshall; Ph.D., 1963, Massachusetts Institute of Technology.

TRAMEL, DARRELL W.
Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1969, D.V.M., 1974, Iowa State; Ph.D., 1979, Georgia.

TRAVESSET-CASAS, ALEJANDRO
Associate Professor of Physics and Astronomy. B.Sc., 1992, Ph.D., 1997, Barcelona.

TREDE, LARRY DEAN

TREMEL, MICHELLE R.

TREMEL, ROBERT A.

TRENBERTH, JAMES C.
Adjunct Assistant Professor of Music and Theatre. B.F.A., 1979, Santa Fe; M.F.A., 1982, Ohio.

TRENSKLE, ALLEN H.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1956, Nebraska; M.S., 1958, Ph.D., 1960, Iowa State.

TREWWYN, BRIAN G.
Adjunct Assistant Professor of Chemistry. B.S., 2000, Wisconsin-La Crosse; Ph.D., 2006, Iowa State.

TRIMARCHI, JEFFREY
Assistant Professor of Genetics, Development and Cell Biology. B.A., 1993, Amherst College; Ph.D., 2002, Massachusetts Inst. of Technology.

TRINGIDES, MICHAEL

TRIVEDI, ROHIT K.

TROEH, FREDERICK R.

TROST, BETTY CHAMNESS

TRUJILLO, JESSIE
Assistant Professor of Veterinary Microbiology and Preventive Medicine; Assistant Professor of Veterinary Diagnostic and Production Animal Medicine. B.S., 1992, Southern Colorado; D.V.M., 1996, Colorado State; Ph.D., 2004, Washington State.

TRULIN, DARRYL JON
Emeritus Associate Professor of Aerospace Engineering. B.S., 1961, Iowa State; M.S., 1963, Oklahoma State; Ph.D., 1968, Iowa State.

TSAI, YU-MIN

TOSCHI, BURKHARD

TOUCHER, ROBERT D.
Associate Professor of Genetics, Development and Cell Biology (Collaborator). B.S., 1969, Nebraska; Ph.D., 1976, Minnesota; M.D., 1978, Nebraska Medical Center.

TUCKNESS, ALEX

TUGGLE, CHRIS K.

TURNAGE, THOMAS WAYNE
Emeritus Professor of Psychology. B.A., 1958, Ph.D., 1962, California (Berkeley).

TUTTLE, GARY L.
Associate Professor of Electrical and Computer Engineering. B.S., 1983, M.S., 1985, Iowa State; Ph.D., 1991, California (Santa Barbara).

TYAGI, AKHILESH

TYE-WILLIAMS, STACY ANN
Lecturer in Psychology.

TYLER, HOWARD DAVID

TYLKA, GREGORY L.
Professor of Plant Pathology. B.S., 1983, M.S., 1985, California (Pennsylvania); Ph.D., 1990, Georgia.

TYNDALL, JOHN CHARLES

UETSUMI, ETSURO
UHLENHOPP, ELDON KARL
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1972, M.S., 1986, Iowa State.

ULMER, MARTIN J.
Emeritus Professor of Ecology, Evolution and Organismal Biology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1942, M.S., 1943, Ph.D., 1950, Michigan.

ULRICHSON, DEAN

UNDERHILL, WILLIAM R.

URBATSCH, ROBERT B.
Assistant Professor of Political Science. B.S., 2000, Iowa State; Ph.D., 2006, Harvard.

URE, CHERI J.

USTUNDAG, ERSAN
Associate Professor of Materials Science and Engineering. B.S., 1990, Bogazici (Turkey); Ph.D., 1995, Cornell.

V
VAIDYA, UMESH

VAKNIN, DAVID

VALENCIA, GERMAN
Professor of Physics and Astronomy. B.S., 1983, University De Los Andes; M.S., 1985, Ph.D., 1988, Massachusetts.

VALENZUELA-CASTRO, MARIA N.

VALLIER, JANE E.

VAN GEELEN, ALBERT
Adjunct Assistant Professor of Veterinary Pathology. M.S., 1991, Reijks Universiteit Groningen; Ph.D., 1999, Nevada (Reno).

VAN LEEUWEN, JOHANNES
Professor of Civil, Construction and Environmental Engineering; Professor of Agricultural and Biosystems Engineering; Professor of Food Science and Human Nutrition. B.E., 1975, M.E., 1979, DENG, 1988, Pretoria (South Africa).

VANANUKEN, HOWARD E.
Professor of Management; University Professor. B.S., 1972, M.B.A., 1974, Ph.D., 1980, Oklahoma.

VANCE, JUDY MARIE

VANDER LUGT, KRISTIN T.

VANDERLEY, BRIAN L.

VANDERVALK, ARNOLD

VANDERVALK, SUZANNE C.
Senior Lecturer in English. B.A., 1971, Windsor (Ontario); M.A., 1994, Iowa State.

VANDERWERFF, JUSTIN R.
Lecturer in Civil, Construction and Environmental Engineering. B.S., 2000, Dordt College; M.S., 2002, Iowa State.

VANDERZANDEN, ANN MARIE

VANDEWETERING, HYLKE

VANDYK, JOHN K.

VANFOSSEN, LARRY DEAN

VANITEN, RICHARD J.

VANN, ROBERTA

VANWAARDHUIZEN, CAROL

VARDEMAN, STEPHEN B.
Professor of Statistics; Professor of Industrial and Manufacturing Systems Engineering; University Professor. B.S., 1971, M.S., 1973, Iowa State; Ph.D., 1975, Michigan State.

VARY, JAMES P.

VASWANI, NAMRATA
Assistant Professor of Electrical and Computer Engineering. B.Tech., 1999, Indian Institute of Technology (India); Ph.D., 2004, Maryland.

VAUGHN, ERIC MARTIN
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1986, M.S., 1990, Ph.D., 1994, Iowa State.

VAUGHN, RICHARD C.

VEGA-GARCIA, SUSAN A.

VELA-BECERRA, JAVIER
Assistant Professor of Chemistry. B.Sc., 2001, National Autonomous (Mexico); M.Sc., 2003, Ph.D., 2005, Rochester.
VENKATA, SUBRAHMANYAM
Emeritus Professor of Electrical and Computer Engineering. B.S., 1963, Andhra (India); M.S., 1966, Indian Institute of Technology; Ph.D., 1971, South Carolina.

VENKATAGIRI, HORABAIL

VENNAPUSA, PAVANA KUMAR RE
Clinician in Civil, Construction and Environmental Engineering.

VER MULM, KRISTI JO

VERHOEVEN, JOHN

VERKADE, JOHN

VESSONI-DE-LENCE, MARTA A.

VIATORI, MAXIMILIAN S. III
Assistant Professor of Anthropology. B.A., 1999, Missouri; M.A., 2000, Ph.D., 2005, California (Davis).

VIGIL, DENNIS R.
Associate Professor of Chemical and Biological Engineering. B.S., 1985, New Mexico; M.S., 1986, Ph.D., 1990, Michigan.

VILES, JOSEPH MOORE

VINCENT, AMY LOUISE

VITTAL, VIJAY

VLECK, CAROL M.

VLECK, DAVID
Adjunct Associate Professor of Ecology, Evolution and Organismal Biology. B.A., 1972, Pomona; Ph.D., 1978, California (Los Angeles).

VOELKER, DONALD E.

VOGEL, DAVID L.

VOGEL, JERALD MILO

VOGEL, PAMELA K.

VOIGT, ADOLF F.
Emeritus Professor of Chemistry. B.A., 1935, Pomona; M.A., 1936, Claremont; Ph.D., 1941, Michigan.

VOLKER, CAROL B.
Emeritus Associate Professor of Human Development and Family Studies. B.S., 1956, M.S., 1979, Ph.D., 1985, Iowa State.

VOLKER, ROGER PAUL

VOLLBRECHT, ERIK WARREN
Associate Professor of Genetics, Development and Cell Biology. B.A., 1985, Ph.D., 1997, California (Berkeley).

VONDRA, CARL FRANK
Emeritus Professor of Geology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1956, M.S., 1958, Ph.D., 1963, Nebraska.

VOGRABOW, RICHARD H.

VOYTAS, DANIEL F.

VRCHOTA, DENISE ANN

W
WADE, NATHANIEL G.

WAGGONER, DAVID W.

WAGGONER, KATHLEEN M.
Adjunct Associate Professor of Sociology; Adjunct Associate Professor of Political Science. B.S., 1975, Wisconsin (Lacrosse); M.S., 1978, Ph.D., 1983, Iowa State; J.D., 1987, Drake.

WAGNER, MIMI MARIE

WALDEMER, THOMAS PAUL

WALKER, DOUGLAS MARK

WALKER, HOMER W.
Emeritus Professor of Food Science and Human Nutrition. B.S., 1951, Pennsylvania State; M.S., 1953, Ph.D., 1958, Wisconsin.

WALKER, THOMAS
Lecturer in English. B.A., 1988, Texas (Austin); M.A., 1999, California State.

WALKUP, KRISTINA RALENE

WALLACE, ROBERT S.
WALLER, KENNETH

WALSH, PATRICIA

WALSH, THOMAS E.

WALTER, CLYDE K. JR.

WALTON, BARBARA JOYCE

WALTON, MARLEE A.

WANAMAKER, ALAN DAVID JR.

WANG, CHENG
Professor of Economics. B.A., 1984, M.A., 1987, Fudan (China); Ph.D., 1994, Western Ontario (Canada).

WANG, CHONG
Assistant Professor of Veterinary Diagnostic and Production Animal Medicine; Assistant Professor of Statistics. B.S., 2001, Peking (China); Ph.D., 2006, Cornell.

WANG, JIGANG
Assistant Professor of Physics and Astronomy. B.S., 2000, Jilin (China); Ph.D., 2006, Rice.

WANG, KAN
Professor of Agronomy. B.S., 1982, Fudan (China); Ph.D., 1987, Ghent (Belgium).

WANG, KEJIN
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1982, Hefei (China); M.S., 1985, Chinese Academy of Sciences (China); Ph.D., 1994, California (Berkeley).

WANG, LIZHI
Assistant Professor of Industrial and Manufacturing Systems Engineering; Assistant Professor of Electrical and Computer Engineering. B.Eng., 2003, B.S., 2003, University of Science and Technology (China); Ph.D., 2007, Pittsburgh.

WANG, QIAN
Assistant Professor of Accounting. B.S., 2000, M.A., 2004, Wuhan (China); Ph.D., 2009, Kansas.

WANG, TONG
Professor of Food Science and Human Nutrition. B.S., 1985, M.S., 1988, Shenyang College of Pharmacy (China); M.S., 1992, Arkansas; Ph.D., 1998, Iowa State.

WANG, XIAOLU
Assistant Professor of Finance. B.S., 1998, Fudan (China); M.Phil., 2000, Bergen (Norway); Ph.D., 2010, Toronto (Canada).

WANG, XINWEI
Associate Professor of Mechanical Engineering. B.S., 1994, M.S., 1996, Science and Technology (China); Ph.D., 2001, Purdue.

WANG, YINGJUN

WANG, ZHENGDAO
Associate Professor of Electrical and Computer Engineering. B.E., 1996, Science and Technology (China); M.Sc., 1999, Virginia; Ph.D., 2002, Minnesota.

WANG, ZHI J.
Professor of Aerospace Engineering. B.Sc., 1985, National University of Defence Tech; Ph.D., 1990, Glasgow (Scotland).

WANNEUEHLER, MICHAEL
Professor of Veterinary Microbiology and Preventive Medicine and Chair of the Department. B.S., 1974, Purdue; M.S., 1980, Idaho State; Ph.D., 1981, Louisville.

WARD, IRA J.
Emeritus Associate Professor of Construction Engineering. B.S., 1950, U.S. Military Academy; M.S., 1955, Iowa State.

WARE, WENDY ADAMS
Professor of Veterinary Clinical Sciences; Professor of Biomedical Sciences. B.Mus., 1975, Westminster Choir College; D.V.M., 1982, M.S., 1986, Ohio State.

WARING, GARY K.

WARME, LOIS J. N.
Emeritus Associate Professor of Art and Design. B.S., 1968, M.A., 1972, Iowa State.

WARREN, RICHARD D.
Emeritus Professor of Educational Leadership and Policy Studies; Distinguished Professor in Education. B.S., 1952, M.S., 1960, Ph.D., 1965, Iowa State.

WASS, WALLACE MILTON

WATERS, W. RAY
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1985, D.V.M., 1988, Auburn; Ph.D., 1996, Iowa State.

WATSON, KEVIN JAMES

WEBER, BETHANY JO

WEBER, ERIC

WEBER, ROBERT J.

WEBER, THOMAS

WEBER, THOMAS A.
Emeritus Professor of Physics and Astronomy. B.S., 1956, De Paul; Ph.D., 1961, Notre Dame.

WEBER, W. WAYNE
WEBER-FEVE, STACEY

WECHSLER, LORRAINE

WEDEL, WALTER F.
Emeritus Professor of Agronomy. B.S., 1950, M.S., 1951, Ph.D., 1953, Wisconsin.

WEEARSINGHE, ANANDA
Professor of Mathematics. B.S., 1979, Colombo; Ph.D., 1986, Minnesota.

WEESENER, TIMOTHY D.

WEI, MEIFEN
Associate Professor of Psychology. B.A., 1983, Soochow (Taiwan); M.A., 1985, Tunghai (Taiwan); M.A., 1998, Ph.D., 2000, Missouri.

WEINER, CARLA ANNE
Lecturer in English.

WEINSTEIN, AMANDA

WEISS, DAVID
Professor of Computer Science. B.S., 1964, Union College; M.S., 1974, Ph.D., 1981, Maryland.

WEISS, HARRY J.

WELCH, AMY S.

WELK, GREGORY

WELLS, BETTY LYNN

WELLS, GARY L.
Professor of Psychology; Distinguished Professor in Liberal Arts and Sciences. B.S., 1973, Kansas State; Ph.D., 1977 Ohio State.

WELSHONS, WILLIAM J.

WEN, ZHIYOU
Associate Professor of Food Science and Human Nutrition; Associate Professor of Agricultural and Biosystems Engineering. B.S., 1994, M.S., 1997, East China; Ph.D., 2001, Hong Kong.

WENDEL, JONATHAN F.

WENDEL, MARA E.

WENDELL, DENNIS C.

WENINGER, QUINN R. A.
Associate Professor of Economics. B.Sc., 1989, Alberta (Canada); Ph.D., 1995, Maryland.

WERBEL, JAMES D.

WESLEY, IRENE VARELAS
Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1965, California (Los Angeles); M.A., 1967, California (Irvine); Ph.D., 1973, California (Los Angeles).

WEST, JAMES K.

WEST, MARY H.

WEST, ROBERT

WESTERMAN-BEATTY, JAN M.

WESTGATE, MARK E.

WESTPHAL, LYNNE M.

WALEY, DAVID CLAUDE
Professor of Curriculum and Instruction; Associate Dean of the College of Human Sciences. B.S., 1976, M.S., 1976, California (Davis); Ph.D., 1985, Cornell.

WHEELOCK, THOMAS D.
Emeritus Professor of Chemical Engineering; University Professor. B.S., 1949, Ph.D., 1958, Iowa State.

WHIGHAM, DAVID KEITH
Emeritus Professor of Chemical Engineering; University Professor. B.S., 1966, M.S., 1969, Ph.D., 1971, Iowa State.

WHISNANT, KERRY LEWIS

WHITE, BERNARD J.
Emeritus Professor of Biochemistry; University Professor. B.S., 1958, Portland; M.A., 1961, Ph.D., 1963, Oregon.

WHITE, DAVID J.
Associate Professor of Civil, Construction and Environmental Engineering. B.S., 1997, Missouri; M.S., 1999, Ph.D., 2000, Iowa State.

WHITE, GARY C.
WHITE, KEVIN P.

WHITE, PAMELA JUNE
Professor of Food Science and Human Nutrition; University Professor; Dean of the College of Human Sciences. B.S., 1972, M.S., 1974, Washington; Ph.D., 1981, Iowa State.

WHITE, ROBERT ENSIGN

WHITE, WENDY S.

WHITEFORD, MICHAEL B.
Professor of Anthropology; Dean of the College of Liberal Arts and Sciences. B.A., 1967, Beloit; M.A., 1970, Ph.D., 1972, California (Berkeley).

WHITEHEAD, ROBERT

WHITHAM, STEVEN ALAN
Associate Professor of Plant Pathology. B.S., 1990, Iowa State; M.S., 1992, Ph.D., 1995, California (Berkeley).

WHITLEY, ELIZABETH

WHITLEY, R. DAVID

WHITMER, JOHN M. JR.
Emeritus Associate Professor of Political Science. B.A., 1957, Wisconsin; M.A., 1959, Iowa; M.S., 1975, Ph.D., 1979, Iowa State.

WHITTLE, DIANNE L.

WICKERSHAM, THOMAS W.
Emeritus Professor of Animal Science. B.S., 1941, M.S., 1954, Iowa State.

WICKERT, JONATHAN ADAM
Professor of Mechanical Engineering; Dean of the College of Engineering. B.S., 1985, M.S., 1987, Ph.D., 1989, California (Berkeley).

WIDRLECHNER, MARK P.
Assistant Professor of Agronomy (Collaborator); Assistant Professor of Horticulture (Collaborator). B.S., 1977, Michigan State; M.S., 1980, Illinois; Ph.D., 1982, Minnesota.

WIE, BONG

WIEDENHOEF, MARY H.

WIEGAND, DOMETA JO

WIERSEMA, JANICE A.
Senior Lecturer in Natural Resource Ecology and Management; Senior Lecturer in Electrical and Computer Engineering. B.S., 1977, M.S., 1984, Northwest Missouri; Ph.D., 2006, Iowa State.

WILDER, DAVID R.

WILGENBUSCH, ERIN E.

WILHELM, JULIE A.

WILLHAM, RICHARD L.
Emeritus Professor of Animal Science; Charles F. Curtiss Distinguished Professor in Agriculture and Life Sciences. B.S., 1954, Oklahoma State; M.S., 1955, Ph.D., 1960, Iowa State.

WILLIAMS, DAVID LEWIS
Emeritus Professor of Curriculum and Instruction; Emeritus Professor of Agricultural Education and Studies; University Professor. B.S., 1959, Oklahoma State; M.S., 1965, Kansas State; Ed.D., 1969, Oklahoma State.

WILLIAMS, FRED D.

WILLIAMS, JACKIE

WILLIAMS, R. CHRISTOPHER

WILLIAMS, SALLY KEMP

WILLIAMS, STANLEY
Emeritus Professor of Physics and Astronomy. B.S., 1954, Nebraska Wesleyan; Ph.D., 1962, Rensselaer.

WILSON, LEE ANNE

WILSON, STEPHEN

WILSEY, BRIAN J.

WILSON, ALYSON GABBARD

WILSON, DAVID BALL
Professor of History; Professor of Philosophy and Religious Studies. B.A., 1963, Wabash; Ph.D., 1968, Johns Hopkins.

WILSON, DOYLE EDWARD

WILSON, GREGORY DALE

WILSON, JAMES A.
Associate Professor of Mathematics. B.A., 1973, California (Los Angeles); M.S., 1975, Ph.D., 1978, Wisconsin.
WILSON, LENNOX N.

WILSON, LESTER A.
Professor of Food Science and Human Nutrition; University Professor. B.S., 1969, M.S., 1971, Oregon State; Ph.D., 1975, California (Davis).

WINAKOR, THORA GEITEL
Emeritus Professor of Textiles and Clothing; Mary B. Welch Distinguished Professor of Family and Consumer Sciences. A.B., 1950, Illinois; M.S., 1951, Drexel; Ph.D., 1960, Iowa State.

WINDOM, KENNETH
Emeritus Associate Professor of Geological and Atmospheric Sciences. B.A., 1972, West Georgia; Ph.D., 1976, Pennsylvania State.

WINDUS, THERESA L.
Professor of Chemistry. B.S., 1988, Minot State; Ph.D., 1993, Iowa State.

WINER, ELOI H.
Associate Professor of Mechanical Engineering. B.S., 1992, Ohio State; M.S., 1994, Ph.D., 1999, New York (Buffalo).

WINSOR, DOROTHY ANN

WINTER, ARTHUR
Assistant Professor of Chemistry. B.S., 2002, Frostburg State; Ph.D., 2007, Maryland.

WINTER, MARY

WINTERSTEEN, WENDY
Professor of Entomology; Dean of the College of Agriculture and Life Sciences. B.S., 1978, Kansas State; Ph.D., 1988, Iowa State.

WIPF, TERRY J.
Professor of Civil, Construction and Environmental Engineering. B.S., 1974, M.S., 1979, Ph.D., 1983, Nebraska.

WIRTH, SHARON K.

WISE, CHRISTINE L. LEIRAN

WISE, ROGER P.
Professor of Plant Pathology (Collaborator). B.S., 1976, Ph.D., 1983, Michigan State.

WISNBER, ROBERT NEWELL

WISSINK, MARSHA H.

WITHERS, JAMES H.
Lecturer in Agricultural and Biosystems Engineering. B.A., 1984, Luther; M.S., 1989, Iowa.

WITHERSPOON, BRENTA L.

WLEZIEN, RICHARD
Professor of Aerospace Engineering and Chair of the Department. B.S., 1974, M.S., 1976, Ph.D., 1981, Illinois Institute of Technology.

WOHLGEMUTH, DARIN R.

WOHLSDORF-ARENDT, SUSAN

WOHN, FRED KRAMER

WOLF, JOHN WILLIAM CLARK

WOLFF, NORMA H.

WOLINS, LEROY
Emeritus Professor of Psychology; Emeritus Professor of Statistics. B.A., 1951, M.A., 1953, Ph.D., 1956, Ohio State.

WOLT, JEFFREY D.

WOLTERS, TIMOTHY S.
Assistant Professor of History. B.A., 1987 Notre Dame; M.A., 1996, Maryland; Ph.D., 2003, Massachusetts Institute of Technology.

WONG, DAVID MICHAEL

WONG, JOHN KONG-FAH

WONG, JOHNNY S.

WOO, LEE KEITH
Professor of Chemistry. B.S., 1977, Harvey Mudd; Ph.D., 1984, Stanford.

WOOD, SHIRLEY JEAN

WOODMAN, WILLIAM F.
Emeritus Professor of Sociology; University Professor. B.S., 1968, M.A., 1970, West Texas; Ph.D., 1972, Oklahoma State.

WOOL, GREGORY J.

WORK, GEORGE PAUL

WRAY, PAUL H.

WRIGHT, FRED M.
Emeritus Professor of Mathematics. B.A., 1944, Denison; M.S., 1949, Ph.D., 1953, Northwestern.

WU, HUIAQING
Associate Professor of Statistics. B.S., 1988, M.S., 1991, Beijing (China); Ph.D., 1997, Michigan.
WU, XIAOQING
Associate Professor of Geological and Atmospheric Sciences. B.S., 1983, Hanzhou (China); M.S., 1986, Chinese Academia Sinica; Ph.D., 1992, California (Los Angeles).

WU, ZHIJUN

WULFEKUHLE, ALLISON M.

WUNDER, WILLIAM W.

WURTELE, EVE S.
Professor of Genetics, Development and Cell Biology; Professor of Food Science and Human Nutrition. B.S., 1971, California (Santa Cruz); Ph.D., 1980, California (Los Angeles).

XIN, HONGWEI
Professor of Agricultural and Biosystems Engineering; Professor of Animal Science. B.S., 1982, Shenyang Agricultural; M.S., 1985, Ph.D., 1989, Nebraska.

XIONG, PAYING A.

YADAV, ANAND

YAEGER, MICHAEL J.
Associate Professor of Veterinary Pathology. B.S., 1980, St. John’s (Minnesota); D.V.M., 1984, Minnesota; Ph.D., 1991, Michigan State.

YAGER, SUSAN F.

YAN, JUE

YANG, BING
Assistant Professor of Genetics, Development and Cell Biology. B.Sc., 1986, M.Sc., 1989, Southwest Forestry; Ph.D., 2000, Kansas State.

YANG, XIAO-BING

YARGER, DOUGLAS N.
Emeritus Professor of Geological and Atmospheric Sciences; Emeritus Professor of Agronomy. B.S., 1959, Iowa State; M.S., 1962, Ph.D., 1967, Arizona.

YATES, STANLEY MARTIN

YEARNS, MARY HOLT

YEUNG, EDWARD WA-ON
Associate Professor of Physics and Astronomy; Associate Professor of Biochemistry, Biophysics and Molecular Biology; Associate Professor of Chemistry. B.S., 1989, M.S., 1991, Southern Illinois; Ph.D., 1997, Michigan.

ZABOTINA, OLGA
Assistant Professor of Biochemistry, Biophysics and Molecular Biology. M.S., 1982, Kazan State (Russia); Ph.D., 1987, Kazan Institute of Biology (Russia).

ZACHARY, LOREN W.
Professor of Aerospace Engineering; Professor of Agricultural and Biosystems Engineering. B.S., 1966, M.S., 1974, Ph.D., 1976, Iowa State.

ZAFFARANO, BIANCA A.
Clinician in Veterinary Clinical Sciences. BSN, 1979, Iowa; D.V.M., 1986, Iowa State.

ZALESNY, RONALD JR.
Assistant Professor of Natural Resource Ecology and Management (Collaborator). B.S., 1999, Minnesota; Ph.D., 2003, Iowa State.
ZAMBRENO, JOSEPH

ZANISH-BELCHER, TANYA

ZARECOR, KIMBERLY ELMAN

ZARING, PHILIP BREWER

ZBARACKI, RICHARD J.
Emeritus Professor of Curriculum and Instruction; Emeritus Professor of English. B.A., 1953, St. Thomas; M.A., 1954, Northwestern; Ph.D., 1970, Nebraska.

ZDORKOWSKI, GRETCHEN ANNE

ZEIGLER, LYNN JAY

ZHANG, JING

ZHANG, QIJING
Professor of Veterinary Microbiology and Preventive Medicine. D.V.M., 1983, Shandong Agricultural (China); M.S., 1986, National Control Institute of Veterinary; Ph.D., 1994, Iowa State.

ZHANG, SONG
Assistant Professor of Mechanical Engineering. B.S., 2000, Sciences and Technology (China); M.S., 2003, Ph.D., 2005, Stony Brook.

ZHANG, TING
Assistant Professor of Computer Science. B.S., 1996, Peking (China); M.S., 2001, Ph.D., 2006, Stanford.

ZHANG, WENSHENG
Assistant Professor of Computer Science. B.S., 1997, Tongji (China); M.S., 2000, Chinese Academy of Science; Ph.D., 2005, Pennsylvania State.

ZHANG, ZHAO
Associate Professor of Electrical and Computer Engineering. B.S., 1991, M.S., 1994, Huazhong (China); Ph.D., 2002, William and Mary.

ZHAO, YAN
Associate Professor of Chemistry. Ph.D., 1996, Northwestern.

ZENG, TIANSHU

ZHU, DAN
Associate Professor of Supply Chain and Information Systems; Associate Professor of Computer Science. B.E., 1985, Beijing Polytech; M.S., 1988, Academia Sinica (China); Ph.D., 1995, Carnegie-Mellon.

ZHU, ZHENGYUAN
Assistant Professor of Statistics. B.S., 1997, Fudan (China); Ph.D., 2002, Chicago.

ZHYLYEVSKYY, OLEKSANDR

ZIEMER, CHERIE
Assistant Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.S., 1980, M.S., 1982, Wisconsin (Platteville); M.S., 1990, Pennsylvania State; Ph.D., 1997, Minnesota.

ZIMMERMAN, DAVID

ZIMMERMAN, DEAN R.

ZIMMERMAN, JEFFREY J.
Professor of Veterinary Diagnostic and Production Animal Medicine; Professor of Veterinary Microbiology and Preventive Medicine. B.A., 1978, Nebraska (Omaha); D.V.M., 1984, M.S., 1986, Ph.D., 1990, Iowa State.

ZIMMERMAN, ZORA DEVINNA
Professor of English; Associate Dean of the College of Liberal Arts and Sciences. B.A., 1967, Ph.D., 1974, New York (Buffalo).

ZMOLEK, WILLIAM G.
Emeritus Professor of Animal Science. B.S., 1944, M.S., 1951, Iowa State.

ZOLA, JAROSLAW SYLWESTER
Research Assistant Professor of Electrical and Computer Engineering. M.Sc., 2001, Czestochowa (Poland); Ph.D., 2005, National Polytechnique De Grenoble.

ZOU, QINGZE
Assistant Professor of Mechanical Engineering (Collaborator). B.S., 1994, Electronic Science and Technology (China); M.S., 1997, Tsinghua (China); Ph.D., 2003, Washington.

ZUELMER, RICHARD L.
Associate Professor of Veterinary Microbiology and Preventive Medicine (Collaborator). B.A., 1980, California State (Chico); M.S., 1983, Ph.D., 1986, West Virginia.

ZURLINDEN, ROBIN ALEXANDER
Adjunct Instructor in Veterinary Clinical Sciences. B.Sc., 2003, Simon Fraser (Canada); D.V.M., 2008, Saskatchewan (Canada).

ZYTOWSKI, DONALD G.
**Undergraduate Study**

A foundation of library instruction is the LIB 160 Library Instruction course, which is a requirement for undergraduate graduation. Library faculty also offer course-related instruction for undergraduate students in the effective use of library resources in all fields of study. Offered F.S.SS. For more information, call the Library at 294-3642.

**Graduate Study**

Library faculty offer course-related instruction for graduate students in the effective use of library resources. These sessions cover sources of information in all fields of study. Offered F.S.SS. For more information, call the Library at 294-3642.

**Courses primarily for undergraduate students**

Lib 160. Library Instruction. (1-0) Cr. 0.5. F.S.SS. Prereq: for students whose native language is not English: Completion of English 101 requirement. Eight-week course required for undergraduate degree. Use of research libraries and information sources, including services of the University Library, with an emphasis on finding, evaluating, and using scholarly information. To be taken as early as possible in the student’s undergraduate career. See course descriptions of Engl 150 and 250 for prerequisite related to Lib 160. Satisfactory-fail only.
Previous Catalogs

About the Catalog
The Iowa State University Catalog is a one-year publication which lists all academic policies, and procedures. (Previous versions were two-year publications.)

The catalog also includes the following: information for fees; curriculum requirements; first-year courses of study for over 100 undergraduate majors; course descriptions for nearly 5000 undergraduate and graduate courses; and a listing of faculty members at Iowa State University.

New courses developed and offered since catalog publication can be found on the Web at www.iastate.edu/catalog/exp/.

Every effort has been made to make the catalog accurate as of the date of publication. However, all policies, procedures, fees, and charges are subject to change at any time by appropriate action of the faculty, the university administration, or the Board of Regents, State of Iowa.

Catalog Requests
The catalog is available only on the web.

Following is a list of previous catalogs in pdf format. To reference a catalog prior to 1995-1997, contact the Iowa State University Library.

2009-2011
2007-2009
2005-2007
2003-2005
2001-2003
1999-2001
1997-1999
1995-1997
Registration is a process by which students become officially enrolled in classes for a given term. The process involves consultation between the student and the student’s academic adviser. All undergraduate students are assigned an academic adviser based on their major/curriculum. A new adviser assignment is made when a student changes major/curriculum. See Index, Academic Advising.

Students who attend classes must complete registration and pay their assessed fees. Registration is not complete until all fees are paid, including board and room fees for those living in residence halls. See Index, Fees and Expenses.

Disabled students who need assistance with any phase of registration should contact Disability Resources. See Index, Disability Resources.

**Dates and Deadlines**

Dates for registration are published in the university calendar on the Web at www.registrar.iastate.edu/calendar/, and departmental bulletin boards.

Students are assigned a registration start date and time, which is the first day and time they can use the registration system. Registration start dates are assigned based on projected year in school classification (computed by combining total credits, current term credits, and current term test out credits). Then specific start dates within projected year in school are established by using the sum of total credits and current term test out credits.

Students may choose to delay their registration until a later date; however, courses will begin to fill on the first day of registration. Any delay in registration may reduce course selection options. A list of start dates by classification is available at www.registrar.iastate.edu/registration.

Continuing students register for the following term during the middle of the current term. For example, registration for spring term begins the middle of fall term; registration for summer session is completed during the previous spring at the same time as registration for fall semester.

A late registration fee is assessed for registration initiated on or after the first day of classes for fall and spring terms. This fee is not charged for the summer term. If registration is not completed by the end of the fifth day of classes, students must obtain written permission from their advisers, the instructors for the courses they plan to take, as well as approval from the dean of the college in which they are registered. During the summer session, these approvals must be obtained in order to register after the third day of classes.

Students may not enroll in courses with time conflicts without the approval of the instructors concerned.

Students who participate in off-campus experiences for which they receive Iowa State University credit must register for that credit during the term when the experience is taking place, whether or not they are taking courses on campus during that time.

**Registration Responsibilities**

The registration process includes advising, enrollment in courses, and schedule changes. In addition to the student, this process may involve the student’s adviser; the student services staff of the student’s college; and the dean of the college. Each is responsible for knowing and following the academic policies and procedures.

The student is responsible for knowing and adhering to university policies and procedures that apply to registration and schedule changes; checking the accuracy of his/her schedule on AccessPlus, including schedule adjustments (i.e., adds, drops, section changes); knowing the degree requirements of his or her major and/or curriculum; planning course schedules to meet those requirements; and monitoring the accuracy of the degree audit.

The adviser is responsible for consulting with advisees during the advising/registration period; providing information about student’s major and curriculum requirements; providing guidance in the student’s course selection; assisting in monitoring the degree audit for accuracy; and for notifying the college student services office with corrections to the degree audit.

The college student services staff is responsible for assisting new and reentering students with the registration process; resolving unusual scheduling problems; and updating the degree audit or solving problems concerning the degree audit.

The dean is responsible for making decisions with respect to requests for deviations from university policies, deadlines, etc. Students and staff should check with the college office to find out who is authorized to grant approvals or exceptions on behalf of the dean.

**Class Schedule Planner**

The Class Schedule Planner is an application that allows students to plan their schedules using courses displayed in the Schedule of Classes. Students can select courses and/or sections they want to take for a particular term, as well as block out unavailable class days and times. Based on those selections, Class Schedule Planner can return all possible schedules to the student in a color coded grid format.

Though it is a Web-based application, the Class Schedule Planner does not require authentication (no user ID, PIN, or password). Therefore, it is essential that students understand this is a planner and as such, it does not register them in courses and cannot be used to complete their registration. The application requires that the user have Java on their computer. The first screen of the Planner provides information about how to use the planner and simple instructions for downloading the Java application. A useful Help link also has been provided. The Class Schedule Planner is available at http://planner.iastate.edu.

**Using AccessPlus Registration**

Students enter the system via AccessPlus by using university ID and password. If required by their college, they also need to enter a registration access number (RAN).

The registration system provides messages after each entry indicating whether each request has been processed. Students also may review their current schedules at any time during registration. Students are held accountable for all changes made to their schedules.

All students are encouraged to register for courses through the AccessPlus registration system. However, students who are unable to use the system may register in person by processing their signed Registration Worksheet in the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.

**Registration System Abuse**

Using the AccessPlus registration system is a privilege, which may be revoked if abuse is detected. Abuse includes, but is not limited to, creating and using an automated program to search for course openings and/or enrolling in a section with the intent of reserving space in that particular section for another student. The Office of the Registrar, college office, and/or advisers have the right to determine abuse and revoke privileges for any type of registration system abuse.

**Course Information**

**Prerequisite.** A prerequisite indicates the specific academic background or general academic maturity considered necessary by the faculty for the student to be ready for maximum success in the course. See Index, Course Prerequisites.

**Permission Required courses/sections.** To register for these sections, students must obtain authorization on a Request for Schedule Change or Restriction Waiver form and process the approved form in the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.
Restricted courses/sections. Some courses or sections are restricted to students who meet specified criteria including curriculum/major, college, and/or year in school. In addition, some sections may be restricted to new students to ensure that sufficient spaces are available when new students register during summer orientation. A department may waive a restriction for a student who has extenuating circumstances. The student must obtain the authorization from the department on a Request for Schedule Change or Restriction Waiver form. The form is processed in the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.

Classrooms are listed for each course in the Online Schedule of Classes at http://classes.iastate.edu/ and on the student’s class schedule on AccessPlus.

Cancelled courses/sections. In some cases, courses or sections may be cancelled due to low enrollment or departmental staffing considerations. Students who are registered for a cancelled course or section will be notified by the Office of the Registrar, the department, and/or on their AccessPlus schedule.

Textbook information. A link to textbook information, including the ISBN and retail price for assigned textbooks, is available from the Schedule of Classes. Textbook information for Iowa State University courses is posted as close to the start of registration as possible. Students may purchase textbooks from any source they choose.

Registration Process

To register for classes, students need the following materials and information:

- Registration Worksheet, available for download at www.registrar.iastate.edu/forms/.
- A RAN (registration access number) if required by their college.
- Course information from the Online Schedule of Classes at http://classes.iastate.edu/.
- Other departmental information applicable to their curriculum, available from their adviser.

Students are expected to do the following in the advising and registration process:

1. Meet with their adviser, who will provide the following:
   a. degree audit
   b. guidance in course selection
   c. Registration Authorization form, with RAN, if applicable.

2. Choose specific sections of each course. Students are responsible for choosing their course sections. In most cases advisers will not be involved in selecting meeting times.

3. Review their registration start date/time information and any registration hold information on AccessPlus, under Current Information. Students in those colleges which require a four-digit registration access number (RAN) should meet with their adviser in advance of their start date, to obtain their Registration Authorization Card on which the RAN is printed.

4. Register for courses using the AccessPlus registration system.

Credit Limits

For fall and spring semesters, the credit limit is 18 credits for undergraduates and 15 credits for graduate students. For summer session, the limits are 12 credits for undergraduates and 10 credits for graduate students. A student may be required to drop credits before adding another course. In some cases, the college dean may approve a higher or lower credit limit for individual students. Students may request a change in their credit limit by contacting their adviser. Advisers should notify the student’s college student services office if the credit limit needs to be changed.

Registration Holds

Students with holds on their registration will not have access to registration until the initiating offices have released the holds. Those who attempt to register before the holds have been released will receive a message indicating which offices have placed holds on their registration. Prior to their registration, students may check for holds on AccessPlus.

Drop Limit

Students are limited in the number of courses they may drop during their academic career. (This refers to drops processed after the fifth day of classes of each semester.) Students who entered Iowa State University as freshmen are allowed to drop a maximum of five courses during their undergraduate career. If they entered at a level above freshman classification or in the College of Veterinary Medicine, they are allowed to drop a maximum of four courses. Courses dropped during their first term at Iowa State are not included in this limit, nor does the summer count as a first term for this purpose. Students who enroll at Iowa State University as undergraduates after receiving a bachelor’s degree are permitted two drops.

Exceptions to the drop limit may be made for courses that must be dropped for reasons beyond the student’s control. These exceptions are granted only by the dean or other authorized person in the student’s college.

The number of drops students have left is indicated on their grade report (available on AccessPlus) each term. Students are responsible for not exceeding their limit. Students who attempt to drop a course beyond the limit without special permission by the dean of the student’s college will continue to be enrolled in the course and will receive a grade at the end of the term.

Making Schedule Changes

Students may make schedule changes through the first five days of class using the AccessPlus registration system.

Procedures for schedule changes vary by the time period of the semester. The effective date of a schedule change is the date when the change is entered into the registration system.

Schedule change periods are as follows:

Period 1 ends on the fifth day of classes in the fall and spring semesters. Schedule changes during period 1 are free and do not require adviser signatures. Instructor or departmental approval may be required for adds or section changes for some courses during period 1. Course drops during this period do not count toward a student’s ISU course drop limit, and will not appear on a student’s permanent record. Schedule changes during period 1 may be processed through the AccessPlus registration system or by presenting a Schedule Change form to the Registrar’s Student Scheduling Office, 10 Enrollment Services Center.

Period 2 ends the Friday of week 10 in the fall and spring semesters. During this period, schedule changes require signatures of adviser and instructor and are processed on a Schedule Change form. A schedule change fee is assessed for adds, drops, and section changes during this period. Course drops after period 1 count toward a student’s ISU drop limit and appear as an X on the permanent record. A section change does not require a drop.

Drops and other schedule changes that are judged to be beyond the student’s control may be processed as administrative actions if approved by the college dean. There is no schedule change fee for administrative schedule changes. Administrative drops do not count toward a student’s ISU drop limit and do not appear as an X on the permanent record. The effective date of an administrative action is the date it is approved by the college dean.

Period 3 is anytime after period 2. Schedule changes during this period are permitted only for extenuating circumstances, may require a written statement of support from the instructor and the student, and must be approved by the dean of the student’s college.
Half-Semester and Partial Term Courses
Specific deadlines for adding and dropping half-semester courses are published in the university calendar. Prorated adjustments to add and drop deadlines are made for other partial term courses. To find out specific deadlines for partial term courses, contact the Registrar’s Student Scheduling Office, 10 Enrollment Services Center, 284-2331.

R-Credit Courses (required courses)
Processing a scheduling change for a required course is usually considered administrative. There is no fee for administrative schedule changes. Administrative drops do not count toward a student’s ISU drop limit and do not appear as an X on the permanent record. To make a Period 3 R-credit drop administrative requires approval of the college dean.

Validating Enrollment
To validate their enrollment in each course at the beginning of the semester, students must attend the first or second meeting (first meeting if the class meets only once a week). Students who add a course after the term begins must attend the next class meeting. The instructor has the option to offer a registered place in the course to another student when a registered student fails to attend and has not obtained prior approval of the instructor. Students who do not validate their enrollment must drop the course or they will receive an F grade.

Cancellation/Withdrawal
Students who decide not to attend classes before the date class work begins must cancel their registration to avoid tuition and fees assessment. Students who decide not to attend classes beginning the first day of class or later must withdraw from the university.

Registration Cancellation
A cancellation is processed when a student notifies the Office of the Registrar, prior to the day class work begins, of the decision not to attend classes for the current semester. All courses are removed and no tuition and fees are assessed.

Students may cancel their registration by contacting the Office of the Registrar at 0460 Beardshear Hall, 515-294-1889. Students who call should request the name of the person taking the call and record the name as well as the time and date called.

Withdrawal
Students who decide not to attend classes beginning the first day of class or later, must process a withdrawal form. Per the student’s request, the “Request for Withdrawal” form is initiated and submitted by the College to the Office of the Registrar. The student is withdrawn from all classes based on the withdrawal date on the form, and tuition and fees are adjusted, if appropriate according to established policies approved by the Board of Regents, State of Iowa. See www.iastate.edu/~registrar/registration/tuition-adj.shtml

Withdrawal procedures must be followed otherwise instructors of the courses involved will assign grades or marks they consider appropriate. Since these grades may be Fs, students are warned that failure to follow the prescribed withdrawal procedures may adversely affect a later application for reentry or transfer to another institution.

Students who are considering withdrawing from the university should immediately consult their academic adviser to discuss reasons for the withdrawal and alternatives.

A request for withdrawal during period 3, (i.e., after the last day to drop a course without extenuating circumstances) will not be approved except for circumstances that are beyond the student’s control. The dean of the student’s college or his or her designee, must approve such requests. Students should check with their college office to find out who is authorized to grant approvals or exceptions on behalf of the dean.

Students should not expect to withdraw during or after the final examination week. In a situation beyond a student’s control, when examinations cannot be completed, arrangements should be made for incompletes rather than withdrawal during final exam week. Students who are on academic probation (P) and withdraw during period 3 will not be permitted to enroll the following term, except under extenuating circumstances.

Withdrawal Procedures
To withdraw from the university, students must do the following:
1. Complete a Request for Withdrawal form, with adviser’s signature.
2. Request the approval and obtain the signature of the college in which they are enrolled. (If the request is approved, the withdrawal form will be forwarded to the Office of the Registrar where it will be recorded; the information is then sent to the appropriate offices.)

The effective date of the withdrawal is the date on which it is approved by the college dean, or his or her designee. Students should check with their college office to find out who is authorized to grant approvals or exceptions on behalf of the dean.

If students complete the withdrawal procedure, the courses they are taking will not be included on the permanent record nor counted as part of their drop allowance. Half semester courses completed prior to withdrawal will be included on their permanent record. Incompletes will not be accepted for any courses taken during the term the student withdraws.

Interim or Medical Withdrawal
The University may order involuntary withdrawal of a student if it is determined that the student is suffering from a mental disorder as defined by the current American Psychiatric Association Diagnostic Manual such that the disorder causes, or threatens to cause, the student to engage in behavior which poses a significant danger of causing imminent harm to the student, to others or to substantial property rights, or renders the student unable to engage in basic required activities necessary to obtain an education.

Status of Conduct Proceedings
If the student has been charged with violation of the Uniform Rules of Conduct, but it appears that medical reasons exist for the objectionable behavior, the withdrawal policy may be activated prior to issuance of a determination in the conduct process. If the student is ordered medically withdrawn from the university, such action terminates the pending disciplinary action. If the student is found not to be subject to medical withdrawal under this section, conduct proceedings may be reinstated.

Interim Action
The OJA (Office of Judicial Affairs) Administrator or the Dean of students may order interim medical suspension of a student where there appears to be an imminent threat of harm to self or others. If the student is suspended, within 48 hours of ordering interim medical suspension, the Dean of Students will schedule an interim hearing before the Medical Withdrawal Committee, consisting of the Director of Student Health (or designee), the Director of the Student Counseling Service (or designee), and the Dean of Students. The student and the OJA Administrator will have an opportunity to present information as to whether interim medical suspension should be continued or modified, and whether medical withdrawal should be considered.

The Medical Withdrawal Committee may order the student to be referred for an evaluation by a licensed mental health professional of the university’s choosing if there is adequate reason to believe that a basis for medical withdrawal exists. The order of referral must be sent to the student and notify the student of the scheduled evaluation to occur no later than seven days from the date of the referral letter. The University will cover the cost of the evaluation. If a student fails to complete the evaluation, the university may continue interim medical suspension and may order restrictions on campus access until the evaluation is completed and reviewed by the university. The decision to continue interim medical suspension and for referral may be appealed within 48 hours, in writing, to the Vice President for Student Affairs. The student may be assisted by any two individuals of his or her choice in any hearing or appeal.

Involuntary Medical Withdrawal
If the medical evaluation supports medical withdrawal, a hearing will be scheduled before the Dean of Students, the Director of Student Health and a member of the Student Counseling staff. The student will have at least 48 hours to independently review the psychological or psychiatric evaluation prior to the hearing. The student and the OJA Administrator
may present arguments for or against involuntary Medical Withdrawal. A written decision shall be rendered by the Medical Withdrawal Committee stating the reasons for its determination. The decision may be appealed, in writing to the Vice President for Student Affairs. A student who has undergone involuntary medical withdrawal must reapply, and may not reenter the university without providing competent medical evidence that the medical condition no longer exists, or is sufficiently under treatment so as to remove any substantial likelihood of reoccurrence of the condition which caused medical withdrawal. The University may require the student, at the student’s cost, to undergo a medical evaluation by a licensed mental health professional of the university’s choosing. A medical withdrawal is not considered a disciplinary action, though a prior medical withdrawal may be considered in subsequent conduct hearings involving the student.

Tuition and Fees Adjustments for Withdrawals
Tuition and fees adjustments are made for withdrawals according to the schedule for full term courses (appropriate adjustments will be made when partial term courses are involved).

Students may appeal a tuition and fees assessment for withdrawals. Determinations will be made for instances beyond the control of the student. The results will be sent to the student in writing.

Returning/Reentry to the University
U.S. students who have been absent from Iowa State University less than 12 months may be admitted as a returning student. If more than 12 months have elapsed since last enrolled, a U.S. student must apply for reentry to the university. All international students must apply for reentry regardless of the time away from the university.

Returning Students
U.S. undergraduate and non-degree undergraduate students planning to return to Iowa State University after an absence of less than 12 months do not complete a reentry form; however, international undergraduate and non-degree undergraduate students planning to return to Iowa State University after an absence of less than 12 months must complete a reentry form.

Returning U.S. students and graduate students should contact the Office of the Registrar to have their records updated and registration access created. Students should contact their advisers or major professor to select courses and begin the registration process.

Returning students who want to change their curricula should follow the same procedure as in-school students. Students who were dropped from enrollment at Iowa State University must obtain reinstatement by the Academic Standards Committee of the college that initiated the drop. (See below for policies that apply to requests for reinstatement.)

Reentry Students
Undergraduate and nondegree undergraduate (special) students who plan to attend Iowa State University after an absence of twelve months or more must complete a reentry form. Forms are available from www.iastate.edu/~registrar/info/reentry.html.

Students with a bachelor’s degree who plan to take supporting graduate level coursework prior to applying for graduate degree admission should request a nondegree graduate admission application.

Students who have previously attended Iowa State University only as nondegree (special) students and who now seek to earn an undergraduate degree should request an undergraduate application.

International students must complete a reentry form. Forms are available from www.iastate.edu/~registrar/info/reentry.html. Financial certification of ability to cover all educational and living expenses will be required.

The reentry form should be completed and returned to the Office of the Registrar, 0460 Beardshear Hall, well in advance of the term of reentry. Students who have attended another college or university since enrollment at Iowa State University must have an official transcript(s) of all course work attempted sent to the Office of Admissions, 100 Enrollment Services Center.

Reentering students must also contact their departmental office/adviser to prepare a class schedule. Reentry must be approved prior to registration.

Iowa State University requests the information on the reentry form for the purpose of making a reentry decision. The university reserves the right not to approve reentry if the student fails to provide the required information.

Reentry Approval Process
Generally, a request to reenter Iowa State University will be approved within the Office of the Registrar. However, the Office of the Registrar will refer the reentry form to the college to which a student plans to return if the student: (a) desires to change curriculum; (b) has a previous Iowa State University cumulative grade point average below 2.00; (c) was dropped from the university for unsatisfactory academic progress or was not otherwise in good standing; or (d) since leaving Iowa State University, has completed additional college study with less than a 2.00 grade point average. See Index, Reinstatement.

Academic Renewal Policy
Students who are returning to Iowa State University to pursue an undergraduate degree after an extended absence may request permission to remove one or more of their complete academic terms from future degree and GPA considerations. See Index, Academic Renewal Policy.
Research

Research is an important activity at Iowa State University. Faculty members engage in research pursuits as well as teaching. Graduate students, and in some cases undergraduates, play an active part in this search for new knowledge.

Support for research at Iowa State University comes from state and federal appropriations as well as from contracts and grants involving the federal government and nonfederal organizations. As part of its total program, the university also operates extension services, special laboratories, centers, and institutes.

Official Research, Outreach, and/or Instructional Centers and Institutes at ISU as Recognized by the Board of Regents, State of Iowa, are listed at http://www.vpresearch.iastate.edu/docs/centers.pdf. Additional information concerning any of these organizations and student research opportunities they support may be obtained from their administrative offices.

Iowa State University

Extension

Iowa State University Extension builds partnerships and provides research-based learning opportunities to improve quality of life in Iowa. ISU Extension continues to lead the university-wide effort to engage Iowans with education and information about their issues and priorities for healthy people, healthy environments, and healthy economies.

Iowa State University is the state’s land-grant institution with the mission of creating, sharing, and applying knowledge. Historically, ISU Extension has led the university in its formal engagement mission to Iowans. With an active partnership and presence in every county, ISU Extension engages the people of Iowa with education and information in the following areas:

Agriculture and Natural Resources. ISU Extension provides unbiased, research-based information and education to agricultural professionals to grow the economic base of Iowa agriculture.

Business and Industry. Extension’s Center for Industrial Research and Service (CIRAS) enhances the performance of Iowa business and industry through research, education, and technical assistance.

Community and Economic Development. ISU Extension helps organizations and local governments make Iowa communities better places to live and work, with programs and services in community leadership, management, and policy and design development.

Families. ISU Extension reaches out to families across the lifespan, providing research-based information and education to help families make decisions that improve and transform their lives.

4-H Youth Development. ISU Extension helps kids and teens develop communication skills, give back to their communities, and learn to be leaders for Iowa’s future.

Continuing and Distance Education. Through Continuing Education and Professional Development (CEPD), ISU Extension provides high-quality continuing education and lifelong learning opportunities for professional development, personal enrichment, career transitions, and academic growth.
Student Activities and Honor Societies

Memorial Union Activities and Services

The Memorial Union is an historic building that is regarded as the heart of campus life and the center of informal education at Iowa State University.

515-296-6848; www.mu.iastate.edu

Arts, Entertainment, Recreation:
- Underground (bowling, billiards, video arcade, Nintendo Wii)
- Maintenance Shop: live music
- Student Union Board: weekly films, comedy, hypnotists, special events, much more
- Art exhibits and art-for-rent
- Workspace (art and crafts classes for fun, studios for work in wood, photo, pottery; button maker, screen printing, die cut machine)
- Big screen TVs; pianos to play
- Lectures

Student Organizations
- Student organization offices and meeting space; recognition process.

Dining & Shopping
- Food Court & MU Market & Café
- University Book Store

Study Spots
- Browsing Library & Computer Lab; Chapel; Multicultural Center
- Lounges: Main, West, Pride, Commons & more

Services
- Hotel, meeting rooms, catering
- Parking ramp
- Copy Center
- Soults Family Visitor Center
- ATMs, Ticket Office, Lockers
- U.S. Post Office – full service
- Student Legal Service

Distinctive Feature
- Gold Star Hall, an active memorial to Iowa State service personnel lost in the nation’s conflicts

Student Activities Center

Director of Student Activities
George Micalone

Coordinator for Leadership and Service
Jennifer Garrett

Coordinator for Art Programs
Lettia Kenemer

Coordinator for Entertainment Programs
TBA

Underground Recreation Center Manager
Doug Swanson

The Student Activities Center (SAC) in the Memorial Union is committed to helping students learn inside and outside the classroom by offering countless ways to get involved at Iowa State through leadership, service, arts, entertainment and recreation activities.

The Student Activities Center includes: the Workspace (arts studio), the Maintenance Shop (entertainment venue), the Underground (recreation center/bowling alley), leadership and service programs, art galleries in the MU, Multicultural Center, and management of the recognition of over 700 campus and student organizations. For a complete list of recognized organizations visit www.stuorg.iastate.edu.

The staff provides assistance to student and campus organization leaders, members and advisers on an individual or group basis. This office produces Newsline, an online newsletter distributed twice a month to officers and advisers of recognized student and campus organizations. Available on the SAC website are resources for student and campus organizations including the event authorization process, publicity and promotion ideas, constitution writing guidelines, and officer transition information. The Student Activities Center offers a 1-credit course called Leadership ISU where students learn leadership skills through a series of activities and seminars.

Annual SAC events include: ClubFest I & II (organization involvement fair), WelcomeFest (Ames and ISU opportunity fair), Coach Talks (hear from Men’s and Women’s head basketball coaches), Iowa State Leadership Experience (one-day leadership conference), Social Justice Summit, and Winterfest (celebration of all things winter). Student Activities Center staff advise key student organizations including: Student Union Board, Dance Marathon, Freshmen Council, Student Volunteer Services, The 10,000 Hours Show, and VEISHEA.

More information is available at the Student Activities Center, located in the East Student Office Space in the Memorial Union (across from the Food Court); online at www.sac.iastate.edu; or by calling (515) 294-8081.

Lectures
www.lectures.iastate.edu/

Throughout the academic year, the Committee on Lectures brings to the campus a number of speakers eminent in national and international affairs, the sciences, and the arts. In addition to giving formal lectures, a number of these speakers meet with students informally for discussions. Through these lectures and discussions the students are given a well-rounded presentation on subjects and areas affecting their culture, educational and economic philosophy, and scientific development. Past speakers include scholars E.O. Wilson and Stephen J. Gould; activists Gloria Steinem and Anita Hill; actor and comedian Bill Cosby; poet Maya Angelou; and astronaut Sally Ride.

The Institute on World Affairs is an annual series of speakers on a topic of international interest held in the fall. Spring semester, the Institute on National Affairs is held with a topic of national concern as its focus. Focus, an annual fine arts festival with emphasis on student creativity in the arts, is held in the spring. The Committee on Lectures also sponsors or co-sponsors dramatic, dance, and musical events.

Students are encouraged to contact the lectures program office and become involved in the planning of these events.

Motor Vehicles and Bicycles

Students are permitted to own and operate motor vehicles - automobiles, motor scooters, and motorcycles. However, motor vehicles are in no way necessary for an Iowa State University student. Iowa State University is primarily a pedestrian campus. Those who operate a motor vehicle or bicycle on campus must abide by the rather extensive traffic and parking regulations. Fines are levied for infractions of these regulations. All motor vehicles and bicycles owned or operated by students on university property must be registered with the Parking Division Office located in the Armory. Copies of the traffic and parking regulations also are available at this office or online at www.dps.iastate.edu/parking/.

Honor Societies

Honor societies at Iowa State University provide opportunities for students who excel in the classroom and want to network with others in their major. Below is a list of honor societies followed by a brief description.

Members of these honor societies are eligible for transcript recognition through the Office of the Registrar. More information, including the complete list of honor societies, can be found on the student organization database at www.stuorg.iastate.edu.
Alpha Epsilon—Agricultural Engineering
The purpose is to promote the high ideals of the engineering profession, to give recognition to those agricultural engineers who manifest worthy qualities of character, scholarship, and professional attainment, and to encourage and support such improvements in the agricultural engineering profession that make it an instrument of greater service to humanity. Membership is based on scholarship, leadership, and character.

Alpha Kappa Delta—Sociology
Members share interest in the field of sociology, research of social problems, and such other social and intellectual activities as will lead to improvement in the human condition.

Alpha Lambda Delta/Phi Eta Sigma—Freshmen
First-year students who achieve at least a 3.5 GPA for one or more semesters their first year may be members of these national honor societies. These societies encourage superior scholastic attainment among students in their first year at institutions of higher education.

Alpha Pi Mu—Industrial Engineering
Members are chosen for character, achievement, and scholarship in industrial engineering. The group provides social and educational interaction for industrial engineering.

Alpha Upsilon Alpha—Education
An educational honorary, this group recognizes and encourages scholarship and leadership in the field of reading.

Alpha Zeta—Agriculture
Members must have completed three semesters of study in the College of Agriculture and Life Sciences or Veterinary Medicine and be in the upper two-fifths of their class. Meetings are held to foster high standards of scholarship, character, and leadership. Alpha Zeta sponsors lectures, service projects, and promotes the agricultural programs at ISU.

Beta Alpha Psi—Accounting
A national honorary for students in accounting, Beta Alpha Psi recognizes academic excellence and complements members’ formal education by providing interaction between students, faculty, and professionals, and fosters lifelong growth, service and ethical conduct.

Beta Beta Beta Biological Honor Society
A national organization for students in the biological sciences with a purpose to recognize undergraduates with exceptional scholarship, leadership and character.

Beta Gamma Sigma
An honor society for collegiate schools of business, Beta Gamma Sigma recognizes high academic achievement.

Cardinal Key—Senior Leadership
The Senior Honor Society of Cardinal Key recognizes those persons who have been outstanding leaders in college life, who have rendered noteworthy service to Iowa State University, who are of high moral character, and who rank high scholastically. Members are selected by application and interview.

Chi Epsilon—Civil Engineering
The purpose of this honorary is to develop the profession of civil engineering through the interaction of members, fellow civil engineering students, and faculty. Scholarship, character, practicality, and sociability are the fundamental requirements for membership.

Epsilon Pi Tau—Education in Technology
Members are selected from the upper one-fourth of the juniors, seniors, and graduate students in industrial technology. The group strives to promote skill, social and professional efficiency, and research.

Eta Kappa Nu—Electrical and Computer Engineering
An International Honor Society for primarily juniors and seniors, as well as graduate students and professional engineers. The organization recognizes scholarship, personal character, useful voluntary services, and distinguished accomplishments. It assists its members throughout their lives in becoming better professionals and citizens.

Gamma Sigma Delta—Agriculture
The honorary encourages a high degree of excellence in the practice of agricultural pursuits and encourages high standards of scholarship in all branches of agricultural science and education. Membership includes junior and senior students, graduate students, faculty, and alumni.

Golden Key—All University
A national nonprofit academic honors organization, Golden Key is dedicated to recognizing and encouraging scholastic achievement in all undergraduate fields of study and to uniting collegiate faculty and administrators.

Kappa Delta Pi—Education
In an effort to promote excellence in and recognize outstanding contributions to education, Kappa Delta Pi maintains a high degree of professional fellowship among its members, quickens professional growth, and honors achievement in educational work. Membership invitations are extended to second semester sophomores, juniors, and seniors with a GPA of 3.25 or above.

Kappa Omicron Nu, Gamma Chapter
Objectives of the honor society are to promote graduate study and research, and to stimulate scholarship and leadership toward the well-being of individuals and families throughout the world. Top 10 percent of junior and top 20 percent of senior students maintaining at least a B average, and outstanding graduate students in family and consumer sciences, are eligible for selection. Research within the college is shared at monthly meetings.

Kappa Tau Alpha—Journalism
Kappa Tau Alpha is the national society dedicated to the recognition and promotion of scholarship in the field of journalism. Members are selected from the upper 10 percent of the senior class. Graduate students and faculty who qualify are also eligible for membership.

Mortar Board
Members are recognized for superior academic achievement and community service.

National Society of Collegiate Scholars
The purpose is to recognize and celebrate high achievement in all academic disciplines, to provide opportunities for personal growth and leadership development, and to organize and encourage learning opportunities through community service.

Omega Chi Epsilon—Chemical Engineering
Membership is open to chemical engineering juniors in the top 20 percent of their class, or seniors in the top 30 percent. The purpose is recognition and promotion of high scholarship, original investigation, and professional service in chemical engineering.

Order of Omega—Fraternity and Sorority Honorary
A national Greek honorary, the Order of Omega was founded at Iowa State in 1957. Criteria for membership include character; scholarship; leadership; service to the individual chapter, the Greek system, the university, and the Ames community. Membership is limited to junior and senior students who comprise one percent of the Greek population.

Phi Alpha Theta—History
Students who have a B average in at least 15 hours of history are eligible for membership. The local branch sponsors social activities, co-sponsors prizes for undergraduate essays in history, and encourages students’ participation in state wide, regional, and national Phi Alpha Theta conferences.

Phi Beta Delta, Alpha Delta Chapter
The honor society recognizes and encourages high professional, intellectual and personal achievements in the field of international education.

Phi Beta Kappa—Liberal Arts and Sciences
Phi Beta Kappa is a national honorary society, founded in 1776 "to recognize and encourage scholarship, friendship, and cultural interests." Membership is by invitation to students enrolled in the LAS curriculum. To be eligible, juniors must have at least a 3.80 cumulative grade point average.
average and seniors, at least a 3.60 average. Other criteria for membership include requirements in the mathematical disciplines and a foreign language.

**Phi Kappa Phi—All University**
This national honor society recognizes and encourages superior scholarship in all academic disciplines. Membership is open to qualified undergraduates and graduates by invitation and occasionally to faculty and alumni.

**Phi Upsilon Omicron—Family and Consumer Sciences**
Members are selected from junior and senior family and consumer sciences students who have demonstrated academic excellence and professional leadership qualities. Membership is a means of furthering professional goals. Outstanding graduate students are also eligible for selection.

**Pi Mu Epsilon—Mathematics**
Pi Mu Epsilon is the national mathematics honorary society whose purpose is the promotion of scholarly activity in mathematics among students and staff. Members are students and faculty who have completed at least two years of college-level mathematics with honor (at least 3.33 GPA) and have maintained an overall GPA of at least 3.0.

**Pi Sigma Alpha—Political Science**
Pi Sigma Alpha is the national honor political science honor society.

**Pi Tau Sigma—Mechanical Engineering**
Members are juniors and seniors in the upper ranks of their classes in mechanical engineering. Meetings and social functions are held to recognize and encourage outstanding scholastic achievement.

**Psi Chi—Psychology**
This national honor society in psychology recognizes and honors individuals maintaining high scholarship and documented interest in psychology.

**Sigma Delta Pi—Spanish**
Honor society for high-achieving students of the Spanish language at Iowa State University.

**Sigma Gamma Tau—Aerospace Engineering**
Sigma Gamma Tau is the national honorary for aerospace-aeronautical engineering students who have displayed outstanding scholarship, leadership, and personal characteristics. Members are selected from the upper fourth of the junior class and upper third of the senior class who have maintained a 3.00 or better cumulative grade point average.

**Sigma Lambda Chi—Construction Engineering**
The purpose is the recognition of outstanding students in construction engineering. Upperclass students in construction engineering may be initiated into the society providing they have an overall scholastic average in the upper 20 percent of their class.

**Sigma Phi Omega, chapter Alpha Omega—Gerontology**
National academic honor and professional society that recognizes excellence in the study of gerontology/aging, and serves as a link between gerontology educators, alumni, and local professionals. The mission of SPO is to promote scholarship, professionalism, friendship, and services to older persons, and to recognize exemplary attainment in gerontology/aging studies and related fields.

**Sigma Tau Delta—English**
An international English honor society, the purpose of this honorary is to confer distinction upon outstanding students of the English language and literature in undergraduate, graduate, and professional studies.

**Sigma Xi—Research**
Sigma Xi, the scientific research society, is a broad-based scientific honor society with over 500 chapters and clubs at universities and nonacademic scientific institutions. Sigma Xi awards associate membership to undergraduates and graduate students who have demonstrated research potential through participation in an original scientific research activity. Full membership in Sigma Xi recognizes a significant scientific research contribution.
The Office of Student Financial Aid helps families afford Iowa State University. Grants, scholarships, loans, and part-time employment opportunities are available to assist students and families in meeting their college expenses.

Eligibility for financial aid is determined by the Free Application for Federal Student Aid (FAFSA). Students can apply online at www.fafsa.gov beginning January 1 for the coming academic year. Students should submit the FAFSA before to March 1 to receive consideration for most grants and scholarships. A new application must be completed each academic year.

The priority deadline for financial aid is March 1. Students who apply after this date will be considered for the Federal Pell Grant and student loans. New students enrolling spring semester or summer session should complete the current year’s aid application to apply for any available financial aid.

To be eligible for most financial aid programs, a student must be a U.S. citizen or permanent resident, enrolled at least half-time, and making satisfactory academic progress toward a degree.

Students may use their financial aid for study in other countries if they have clearance for the transfer of credit to their degree programs and have made financial aid arrangements prior to departure. For further information, contact the Study Abroad Center, 3224 Memorial Union, or the Office of Student Financial Aid, 0210 Beardshear Hall.

There are three general types of financial aid programs: gift aid (scholarships and grants), loans, and part-time employment. Laws, regulations, and policies governing these programs are subject to change.

I. Gift Aid
A. Scholarships
1. ISU Scholarships. Scholarships are awarded on the basis of achievement, although many also require demonstrated financial need. Find out more about scholarships at www.financialaid.iastate.edu.

2. Military Officer Education (ROTC) Scholarships:
   Army. The Military Science Department offers 2-, 3-, and 4-year Army ROTC scholarships to qualified students on a competitive basis in virtually any academic discipline. These scholarships provide monies for tuition, all required fees (except student health), books and supplies allowance, and a monthly cash subsistence allowance. For applications or additional information, contact the Military Science Department at 132 Armory or call 515-294-1852.
   Navy. The Naval Science Department offers several scholarship programs to qualified students. The scholarships cover payment of tuition, fees, books, and a monthly stipend. Information is available from the Naval Science Department, 3 Armory, or by calling 515-294-6050.
   Air Force. The Air Force offers Air Force ROTC scholarships for periods of 2, 3, or 4 years, with up to 1 additional year for qualified applicants in selected majors. The scholarships provide payment of tuition and fees. In addition, scholarship cadets receive between $250-$400 monthly subsistence allowance and $510 per year book allowance. Express scholarships are also available to students qualified in certain technical academic majors. Details on scholarship qualification, application procedures, and eligibility are available from the Department of Air Force Aerospace Studies, 515-294-1716.

3. Other Scholarship Sources: Students are encouraged to pursue scholarship opportunities from outside agencies and private organizations. Check the financial aid web site for current postings and additional resources.

B. Grants
1. Federal Pell Grant. This federal grant is for undergraduates working toward their first bachelor’s degree. The amount of Pell Grant is based on the Estimated Family Contribution (EFC) using a federal calculation from the data supplied on the FAFSA application.
2. Federal Supplemental Educational Opportunity Grant. This federal grant is awarded to high-need students who also qualify for the Pell Grant. Students who file their FAFSA prior to March 1 are considered for this award.
3. ISU Grant. This university grant is for undergraduate students who show financial need. The FAFSA must be filed prior to March 1 to be considered for this award.
4. Officer Education (ROTC) Financial Assistance Grants. All students enrolled in Army, Navy, and Air Force programs are provided a monthly stipend. For further information, contact the appropriate ROTC department in the Armory.
5. Tuition Assistance Grant for Undergraduate International Students. Undergraduate international students who have been at Iowa State University for at least a year and are faced with financial hardship resulting from unforeseen circumstances may apply for this grant. Apply via the International Students and Scholars web site (www.isso.iastate.edu).
6. International Student Financial Aid. International students raise money through cross-cultural activities toward a scholarship fund. These monies will be used to assist international students who have unforeseen financial emergencies. For further information, contact the International Student Council at www.stuorg.iastate.edu/isc/.

II. Loans
A. William D. Ford Federal Direct Loan Program. These student loans are obtained through the U.S. Department of Education by filing the FAFSA.
1. Federal Direct Subsidized Loan. The interest on this need-based loan is paid by the federal government as long as the student remains in school at least half-time. Borrower repayment and interest charges begin six months after graduation or less than half-time enrollment. The interest rate will range from 3.4% to 6.8% depending on the year in which the loan was borrowed.
2. Federal Direct Unsubsidized Stafford Loan. The interest on this non-need based loan is charged to the borrower from the time the loan is disbursed until paid in full. Interest may be paid while you are in school or added to the principal balance of the loan. Borrower repayment begins six months after graduation or less than half-time enrollment. The interest rate is fixed at 6.8%.
B. Federal Perkins Loan Program. The interest on this need-based loan is paid by the federal government as long as the student remains in school at least half-time. Borrower repayment and interest charges begin nine months after graduation or less than half-time enrollment. The interest rate is fixed at 5 percent.
C. Federal Health Professions Loans. This student loan is limited to students enrolled in the College of Veterinary Medicine. The FAFSA is required, and parental information must be provided, regardless of age or dependency of the student. The interest rate is fixed at 5 percent, and interest does not accrue while the student is enrolled full-time. Borrower repayment begins twelve months after graduation or less than half-time enrollment.
D. Federal Direct PLUS (Parent Loan for Undergraduate Students). This loan is for parents of a dependent student and the loan is subject to credit analysis. A parent may borrow up to the cost of attendance less any other financial aid. The interest rate is fixed at 7.9 percent. Interest on this loan is charged to the borrower from the time the loan is disbursed until paid in full. Borrower repayment begins 60 days after the loan has
been disbursed in full unless the parent requests a deferment until after the student graduates. This loan is not need-based, and does not require filing the FAFSA.

E. Federal Direct PLUS Loan for Graduate & Professional Students (Vet Med). This loan is for Graduate and Professional Students (such as Vet Med students) and is subject to credit analysis. Students may borrow up to the cost of attendance less any other financial aid. The interest rate is fixed at 7.9 percent. Interest on this loan is charged to the borrower from the time the loan is disbursed until paid in full. Borrower repayment can be deferred as long as the student is enrolled at least half-time.

F. Private Loan Options. Private loans supplement the federal loan programs and are subject to credit analysis. These loan programs do not require filing the FAFSA.

III. Part-time Employment

There are many part-time employment opportunities available for students, both on campus and off campus. Students who secure part-time jobs gain valuable experience to aid in job placement after graduation. Part-time employment can also help reduce loan indebtedness.

A. Federal College Work-Study. Work-study positions provide hourly employment for students with financial need, as determined by filing the FAFSA. Students with work-study eligibility are able to view work-study positions on the Student Job Board on AccessPLUS.

B. Other Part-Time Employment. The Student Job Board on AccessPLUS lists positions which do not require filing the FAFSA. All students can view these listings for current job openings.

IV. Other Financial Aid

Many other forms of financial aid are available to students who qualify, including Vocational Rehabilitation, Veterans Benefits, and Department of Human Services programs. For further information on these programs, contact the appropriate government office.
Undergraduate Residence Halls

Most residence hall rooms are double occupancy; however, a limited number of triple and single occupancy rooms are also available. All rooms are furnished with extra-long twin beds and mattresses, closet or wardrobe, clothing drawers, desks and chairs, expanded basic cable and high-speed university Ethernet. Students provide their own bedding, towels, study lamps, etc. Students are responsible for cleaning their own rooms.

All students who live in an undergraduate residence hall are required to purchase one of seven convenient, flexible Weekly or Semester meal plans. Weekly plans range from seven to an unlimited number of meals allotted per week, while Semester plans include 175 or 225 meals allotted each semester. Weekly and Semester plans also include Dining Dollar$$, a cash equivalent that can be used in all ISU Dining locations. Students can use their meals to eat in one of ISU Dining’s "all-you-care-to-eat" dining centers or to purchase a meal bundle in one of ISU Dining’s cafés, restaurants or dining centers.

All housing and dining contracts are for the full academic year, both fall and spring semesters, or the remainder thereof, if the contract is signed after fall semester begins. With the exception of Linden Hall, all undergraduate Residence Halls close during Winter Break. For a complete listing of rates, please visit the Department of Residence web site: http://housing.iastate.edu/rates/.

Housing and dining contracts are "academically friendly." Students who leave the University as the result of graduation, withdraw, dismissal or participation in a University approved study-abroad, internship, co-op, or student teaching program are eligible to cancel their contract without penalty. For reasons other than those listed, students who cancel their housing contract after the cancellation deadline (March 1 for current ISU students, May 1 for newly admitted ISU students) may be responsible for paying for 80 percent of the remaining value of their entire contract, both housing and dining. For additional information concerning the residence hall contract, students should contact the Administrative Services Office.

In addition to the basic necessities, several special services are available for use by residents. These include house dens for informal get-togethers and relaxation; lounge areas for meeting and entertaining guests; vending areas for snacks; hall desks with recreation/entertainment items, recreational equipment, and mail delivery; laundry facilities; study areas; meeting rooms and offices for student organizations; computer labs; and parking lots assigned to the residence halls.

The residence halls are organized geographically into two neighborhoods: Richardson Court and Union Drive. The students in each of these neighborhoods elect a group of executive officers to be responsible for coordinating neighborhood events and activities. Each neighborhood funds and maintains a social program, an intramural program, and numerous committees that supplement the total social and educational development of the individual residents. The neighborhoods are joined in an Inter-Residence Hall Association (IRHA), with an all-residence hall parliament, which jointly sponsors Residence Hall Week, Free Friday Flicks, scholarships, leadership conferences, and more.

Each neighborhood is further organized into smaller living groups called houses. These houses of 40 to 60 residents are the foundation of Iowa State University’s residence hall program. Members of the houses elect their own officers, and the majority of programs are planned on a house participation basis. Participation in the house program is a great way for students to receive full benefit from the residence hall experience.

Students may choose to live in single-gender or coed houses. Coed houses have male and female students living at opposite ends of the house or on separate levels of the house. They have separate bathroom facilities but share lounge facilities and house activities.

Residential Learning Communities, which bring together students with similar academic focus, an academic residential experience, these communities offer a collaborative living and learning environment, increased student/faculty interaction, social and academic networks essential to student success, and a sense of membership in the ISU community.

Currently, the following learning communities are available: ACES (Agriculture Community Encourages Success); ABE (Agricultural and Biosystems Engineering); BEST (Biology Education Success Team); BLT (Business Learning Teams); Chemical Engineering; Common Threads (Textiles and Clothing); CLUE (Community Learning for Undeclared Engineers); Computer Science; Design Exchange; Entrepreneurship and Innovation; FSHN (Food Science and Human Nutrition); Honors; LEAD (Leadership through Engineering Academic Diversity); NREM (Natural Resource Ecology and Management); and WiSE (Women in Science and Engineering). Theme houses are also available, including cross-cultural, Army ROTC, and Air Force ROTC. For the most up-to-date information on learning community opportunities at Iowa State, visit http://www.lc.iastate.edu/.

Upper-Division Residence Hall

Two residence halls, Buchanan Hall and Wallace Hall, offer the convenience of residence hall living with a more mature environment for older students. To be eligible to live in Buchanan or Wallace, students must minimally have sophomore classification or be at least 19 years of age. In Buchanan, two floors are reserved for students who are 21 years of age and older. There is no age requirement for students living on the Entrepreneurship and Innovation Learning Community floor in Buchanan.

Buchanan rooms offer a suite-style set-up with two rooms joined by a private bathroom. Double suites have a sink in each room and share a bathroom with the adjacent room that includes a toilet and shower. Single suites share a bathroom with the adjacent room that includes sink, toilet, and shower. Each room is furnished with a lofted bed, desk with bookcase and file, desk chair, wardrobe/dresser unit, expanded basic
All Wallace rooms are supersingles. That is, a double-sized room furnished for and occupied by only one student. Each room is furnished with a bed, desk, dresser, wardrobe, micro-fridge, expanded basic cable, and high-speed university Ethernet. Student lounges are available on each floor. Residents living in Wallace are not required to purchase a meal plan.

Both Buchanan and Wallace halls remain open during Winter Break at no additional charge. All Buchanan and Wallace hall contracts are for the full academic year, both fall and spring semesters, or the remainder thereof, if the contract is signed after fall semester begins. In Buchanan, summer contracts are also available. For a complete listing of rates, please visit the Department of Residence web site: http://housing.iastate.edu/rates/.

Undergraduate and Graduate Single Student Apartments

Apartments for single students are offered in two on-campus neighborhoods: Frederiksen Court and Schilletter and University Villages (SUV). To be eligible to live in these areas, students must minimally have sophomore classification or be at least 19 years of age. All Frederiksen Court and SUV contracts are for the full academic year, both fall and spring semesters, or the remainder thereof, if the contract is signed after fall semester begins. Both Frederiksen Court and SUV remain open during Winter Break at no additional charge. Summer contracts are also available in both locations. For a complete listing of rates, please visit the Department of Residence web site: http://housing.iastate.edu/rates/.

Frederiksen Court apartments accommodate four persons of the same gender in either two or four bedrooms. Each apartment is furnished with living room and bedroom furniture and the kitchen has a full-size refrigerator, stove, microwave, dishwasher and garbage disposal. A washer and dryer are also included in each apartment.

Rent, which is billed on a semester-basis, includes all utilities: electricity, water, garbage pickup, basic phone service, expanded basic cable, and high-speed university Ethernet.

The Frederiksen Court Community Center features meeting rooms and lounge space, a fitness center, business center and Hawthorn Market and & Café a retail dining facility that offers hot meals, snacks, beverages, and convenience items.

In SUV, single students typically live in University Village. All apartments contain two bedrooms, one bathroom, a living room, and a kitchen furnished with a cook top, oven, workspace, refrigerator, and sink. The majority of University Village apartments are unfurnished, but a limited number of furnished units are available.

Rent, which is billed monthly by the university, includes expanded basic cable television, high-speed Internet connectivity, water, and garbage removal service. Residents pay for their own gas, electricity, and telephone.

The SUV Community Center features large meeting rooms and lounge space, a community kitchen and a computer lab.

Apartments for Families

Family Housing is available in the SUV area in Schilletter Village. Students must be married/domestic partners and/or have dependent children in order to be eligible for family housing.

All Schilletter Village contracts are for the full academic year, both fall and spring semesters, or the remainder thereof, if the contract is signed after fall semester begins. Schilletter Village remains open during Winter Break at no additional charge. Summer contracts are also available in both locations. For a complete listing of rates, please visit the Department of Residence web site: http://housing.iastate.edu/rates/.

All apartments contain two bedrooms, one bathroom, a living room, and a kitchen furnished with a cook top, oven, workspace, refrigerator, and sink. Students provide their own furniture and window coverings. Hook-ups for personal washer and dryer are available in the basement of each unit as are private, lockable storage closets.

Rent is billed monthly by the university. Rental rates include expanded basic cable television, high-speed Internet connectivity, water, and garbage removal service. Residents pay for their own gas, electricity, and telephone.

The SUV Community Center features large meeting rooms and lounge space, a community kitchen and a computer lab. The community also boasts a bike/walking path and several playgrounds.

Off-campus Housing for Students

Off-campus housing information may be obtained through real estate agents, local newspapers, or by contacting individual owners.

Dining Options for On- and Off-Campus Apartments

ISU Dining offers a variety of convenient, flexible meal plans to students who live in on-campus and off-campus apartments. Plans include traditional Weekly plans, ranging from seven to an unlimited number meals allotted per week, to Semester plans with 175 or 225 meals allotted each semester. Weekly and Semester plans also include Dining Dollar$, a cash equivalent that can be used in all ISU Dining locations. Students in non-meal plan required areas can also choose to purchase Meal Blocks (small allotments of meals without Dining Dollar$) or Dining Dollar$ only.

All dining contracts are for the full academic year, both fall and spring semesters, or the remainder thereof, if the contract is signed after fall semester begins. Summer contracts are also available. For a complete listing of meal plans and rates, please visit the ISU Dining http://www.dining.iastate.edu/. Questions and correspondence concerning meal plans should be directed to the Department of Residence Administration Services Office, 2419 Friley Hall, Iowa State University, Ames, Iowa 50012. E-mail: housing@iastate.edu. Phone: (800) 854-9050. Additional information may be obtained at http://housing.iastate.edu/.

Fraternities and Sororities

Of the 50 fraternity and sorority chapters on the Iowa State University campus, 42 have chapter houses, and provide housing for about 1,800 undergraduate students. Eight multicultural Greek fraternities and sororities do not provide residential facilities for members, but are active in scholastic, service and social projects.

The chapter house facilities are similar to a private residence: living room, den, kitchen, dining room, laundry room, etc. The staff in the Office of Greek Affairs, a department in the Dean of Students Office, provide advising, programs, and services for the Greek chapters and organizations. Local alumni work with each fraternity and sorority to ensure that the chapter structure meets all the state and local building, safety, and fire codes that are required with incorporation under the State Law of Iowa.

The average cost of living in a fraternity or sorority chapter house ranges from $2,800-$3,400 per semester. The cost includes room, board, social expenses and membership dues.

Most men may move directly into a fraternity house at the beginning of an academic year if they pledge a chapter that has a house. Typically, they continue living there throughout their college years. Women pledging a sorority during formal recruitment or informally throughout the year generally live in the residence halls for the academic year. However, as space becomes available in a chapter house, sorority members often move into the house as sophomores or upper-class women.
The University Library

http://www.lib.iastate.edu/info/6000
Dean of the Library: Olivia M. A. Madison, M.L.A.
General Information–(515)-294-3642
Library Hours–(515)-294-4649

The University Library provides extensive research collections, services and information literacy instruction/information for all students. Facilities consist of the main Parks Library, the e-Library, the Veterinary Medical Library, two subject-oriented reading rooms (design and mathematics), and a remote library storage building.

The library’s extensive collections include electronic and print resources that support research and study for all undergraduate and graduate programs. Nationally recognized collections support the basic and applied fields of biological and physical sciences. Library holdings include more than 2,626,074 volumes and approximately 98,610 current serial titles.

The Parks Library includes four public service desks: the Learning Connections Center, the Circulation Desk, the Media Center (including Maps, Media, Microforms, and Course Reserve collections), and Special Collections. The library’s instruction program includes a required undergraduate information literacy course as well as a wide variety of subject-based seminars on effective use of library resources for undergraduate and graduate students.

The e-Library, accessed through the Internet, provides access to local and Web-based resources including electronic journals and books, local collections, online indexes, electronic course reserves and guides, and a broad range of subject research guides. Assistance in using this vast body of electronic resources is available at the Learning Connections Center, digital reference services, and through individually arranged appointments with subject librarians.

The Parks Library has a limited number of semiprivate study rooms available for faculty, graduate students, and professional and scientific staff. They are intended for research and other scholarly activities that require extensive use of library material. Normally, assignments are made for a semester at a time.

Student Answer Center

http://www.registrar.iastate.edu/AnswerCenter/

Students who have questions but are not sure where to find an answer may contact the Student Answer Center located on the ground floor of Beardshear Hall. A staff member will answer campus-related questions on the spot or provide referrals to other university departments as needed. Information may include registration instruction, financial aid status, or classroom directions. Students can pick up forms, information brochures, campus maps, or use one of the computers to log on to AccessPlus or e-mail. Questions can be answered by email at answercenter@iastate.edu or by phone 515-294-4469.

Student Counseling Service

Assistant Vice President and Director of Counseling: Terry W. Mason, Ph.D.

The Student Counseling Service (SCS) assists students in enhancing their academic success and personal well-being with a staff of professional psychologists and counselors. Services are available to help students sort through their feelings, strengths, and options to develop new perspectives and coping skills.

Services include:

- One-on-one counseling for any issue of personal concern, such as depression, anxiety, stress management, relationship issues, identity issues, and other forms of personal challenge. Students may also receive therapeutic services to deal with more severe mental health issues.
Hours vary during breaks and summer session. The Thielen Student Health Center is closed during all University Holidays. Patients are seen by appointment. Please call 515-294-5801. Each patient has the option of seeing the provider he/she requests.

Providers: Robin Engstrom, M.D.; Rebecca Fritzscbe, M.D.; Malhar Gore, M.D.; Scott Meyer, M.D.; Pauline Miller, M.D.; Robert Nathanson, D.O.; Carver Nebbe, M.D.; Maria Pringle, ARNP; Mary S. Raman, ARNP; Cosette Scallon, M.D.; Marc Shulman, M.D.; Lee Wilkins, M.D.

After hour service is available for urgent or emergency problems at McFarland Urgent Care Clinic or Mary Greeley Medical Center Emergency Room. The cost is the responsibility of the student and/or the student’s insurance plan. The clinic’s after hour phone message includes the option of connecting to a nurse help line called First Nurse. First Nurse provides assistance with urgent health questions, including whether or not it is advisable to seek care through the emergency room.

**Career Services Offices**

Agriculture and Life Sciences: 141 Curtiss Hall
Business: 1320 Gerdin Business Building
Design: 297 College of Design
Engineering: 308 Marston Hall
Graduate Business: 1360 Gerdin Business Building
Human Sciences: 131 MacKay Hall
Liberal Arts and Sciences: 202 Catt Hall
Veterinary Medicine: 2270A Veterinary Medicine Complex

Career Services is a coordinated network of career services offices offering a broad range of programs and services for undergraduate, professional, and graduate students, faculty, staff, alumni, and employers. These services include career exploration, career development, experiential learning, and professional career search assistance programs. The goal is to provide constituents with life-long skills to assist with career development and exploration.

Programs and services are offered including online registration, position listing and interview scheduling; résumé referral; coordination of co-op and internship programs; workshops and seminars on career exploration, résumé preparation, letter writing, job search techniques, interview skills, applying to graduate and professional schools, and adjusting to the first job.

Each year career services sponsors multiple career fairs, which bring to the ISU campus hundreds of employers. The career services offices also coordinate on-campus interview opportunities. Each college career services office serves as a point of entry for students, alumni, and employers to the entire ISU network of coordinated, decentralized career services.

In addition to the college-based career services offices, the Career Exploration Service provides a variety of services to students who are unsure about their major or future career path. Students can work one-on-one with a trained career counselor, use the many books and electronic resources in the Career Exploration Center, or enroll in LAS 104, Personal Career Choice. All services are free for students and confidential.

Additional information on career services is available at www.career.iastate.edu.

**Child Care**

Child Care Administration, a unit of Human Resource Services, supports Iowa State University families by linking them with programs and services that can help meet their child care needs. The university child care coordinator is available to assist families in accessing services available both on the campus and in the community.

Child care programs located on campus include:

- Center for Child Care Resources: Assistance in locating campus and community child care services, 100 University Village, Suite 1010, 515-294-8833 or 1-800-437-8599
- University Community Childcare, Family Resource Center, 100 University Village, 515-294-9838
- The Comfort Zone: Childcare for kids who don’t feel so good, 100 University Village, 515-294-3333.
- Flex-Care: Part time care for children of ISU students, 100 University Village, 515-294-9838.
- University Child Care Center at Veterinary Medicine, 1700 Christensen Drive, 515-294-2273.
- ISU Child Development Laboratory School, Palmer HDFS Building, 515-294-3040.

For more information about child care options, contact the university child care coordinator at 515-294-8827.

**International Students and Scholars**

www.isso.iastate.edu

Director: James Dorsett

The International Students and Scholars Office (ISSO) provides a welcoming and supportive environment for international students and scholars, Iowa State University, and the Ames community. ISSO staff members orient and advise international students and scholars on university procedures, community resources, U.S. immigration regulations, and nonacademic personal concerns. ISSO intercultural programs, such as the Culture Corps, Friendships International, and activities developed with the International Student Council and dozens of international student organizations, bring international students and Americans together for mutual learning. We welcome volunteers to join these and other programs to help us maximize the international experience of students and scholars to the successful completion of their academic objectives and enhance their personal growth.

**Dean of Students Office**

www.dso.iastate.edu/

Dean of Students: Dione Somerville, Ed.D.

The Dean of Students Office at Iowa State University supports student-centered learning through personal, community and academic development culminating in a transformative learning experience by doing the following:

- Promoting a campus environment which cultivates a sense of belonging.
- Respecting and incorporating human difference among our students.
- Challenging students to enhance decision-making skills, be independent learners and take responsibility for choices and actions.
- Facilitating students and families in crisis by providing on- and off-campus resources as situations arise.
- Empowering students as leaders to become civically engaged in global community issues.
- Creating opportunities for students to be academically successful through out-of-class experiences and student outreach.
- Collaborating strategically with the campus community and beyond, so that students benefit from a seamless experience.
- Advocating for all students.

Following are units within the Dean of Students Office. For more information see the individual web sites.

**Academic Success Center**

www.dso.iastate.edu/asc

Associate Dean of Students and Director: Mary Jo Gonzales, Ph.D
Assistant Director: Susan Rhodeas, Ph.D.
1060 Hixson-Lied Student Success Center
(515) 294-6624; TTY (515) 294-6635

The Academic Success Center (ASC) encompasses several academic assistance programs. The services available at the ASC include the following: resources for students with disabilities (see Disability Resources); course-specific Tutoring Services and Supplemental Instruction; general assistance through the Learning Lab, individual consultation
for those with needs related to study skills/time management; and a one-credit study skills class (Psychology 131). All programs are focused on helping students learn how to learn and achieve their academic goals.

Tutoring Services’ mission is to enhance academic growth and success. Tutoring is the process by which students can get more individualized instruction for undergraduate courses offered at ISU. Staff members recruit and screen tutors, schedule convenient times to meet, collect fees, and pay tutors.

Supplemental Instruction (SI) is a free academic assistance program for difficult selected 100 and 200 level courses. Peer SI leaders who have demonstrated competence in the course attend classes and conduct biweekly sessions to help students learn and study the course material. A complete schedule can be viewed online.

The Learning Lab is a “learning how to learn” center. A service to students, the Learning Lab helps them with tips on how to succeed in the classroom. The Learning Lab is staffed by academic consultants who work with students to pinpoint areas in their study strategies that might need improvement.

Psychology 131, a one-credit study skills course, addresses academic success strategies as well as a variety of reading and study strategies and tactics from time management to test taking. It is offered each semester. Class size is limited to allow for group interaction as well as individual attention.

**Greek Affairs**

www.greek.iastate.edu

Assistant Dean of Students and Director: Jenn Plagman-Galvin, M.P.A.

Assistant Director: Katie Mott, M.E.

B0355 Memorial Union

(515) 294-1023

Greek Affairs provides advising, consultation, and educational services to the fraternities and sororities at ISU. Professional staff and graduate assistants work with student leaders, members, and chapter advisers to provide support to the chapters and to advise Collegiate Panhellenic Council, Interfraternity Council, National Pan-Hellenic Council, Multicultural Greek Council, Greek Week, Fall/Spring Blood Drives, Order of Omega, Junior Greek Council, and other student organizations and activities affiliated with the Greek Community.

Fraternities and sororities have been active at ISU since 1875. The over 50 fraternities and sororities at ISU have more than 2,000 student members and represent about 11 percent of the undergraduate student population. The Greek Affairs staff and local alumni work with each fraternity and sorority to ensure that the chapter is meeting the educational objectives of the university, their national affiliations and the development needs of the students.

**Hixson Opportunity Awards**

www.dso.iastate.edu/hixson

Director: Debra Sanborn, M.A.

1080 Hixson-Lied Student Success Center (515) 294-6479

The activities and programs offered to Hixson Scholars are designed to promote the retention and success of these students. These programs and resources aim to develop a community of students and friends within the larger Iowa State community. Programs include the Hixson Seminar (University Studies 111), Hixson News (a monthly newsletter), monthly activities, community service, Hixson Mentors, and the Hixson Leadership Seminars (University Studies 311 & 312).

**Judicial Affairs**

www.dso.iastate.edu/ja

Assistant Dean of Students and Director: Michelle Boettcher, M.Ed.

Assistant Director: Sara Kellogg, M.S.

1010 Student Services Building

(515) 294-1021

The Office of Judicial Affairs is responsible for the university’s Centralized Judicial System. Representatives from the Office of Judicial Affairs interpret university policies and conduct student disciplinary hearings for academic and nonacademic violations of the Iowa State University Student Disciplinary Regulations (http://policy.iastate.edu/policy/SDR). As members of the ISU community, all students have certain rights and responsibilities. When an alleged violation of the Student Disciplinary Regulations occurs, a representative from the Office of Judicial Affairs investigates the complaint, interprets general university regulations and guidelines, conducts student discipline hearings which ensure the standards of due process, and consults with faculty, staff, and students regarding student conduct issues.

Student discipline hearings are conducted in accordance with the rules and regulations as set forth in university policies and procedures. Disciplinary hearings are administered by a member of the Judicial Affairs staff, the All Greek Judicial board, or by members of the All-University Judiciary (AUI) committee. The Office of Judicial Affairs serves as a resource for anyone with questions regarding a student conduct issue.

**Lesbian, Gay, Bisexual, and Transgender Student Services**

Director: Brad Freihoefer, B.S.

www.dso.iastate.edu/lgbtss

1034 Student Services Building

(515) 294-5433

lgbtss@iastate.edu

Lesbian, Gay, Bisexual, & Transgender Student Services (LGBTSS) is a resource center for all members of the university community to learn more about aspects of sexual identity and gender identity/expression. LGBTSS is committed to providing information and education that enhances the educational experience and overall quality of student life on the ISU campus. LGBTSS strives to increase the awareness of Lesbian, Gay, Bisexual, Transgender, Queer, and Ally (LGBTQA) issues on campus by providing a safe space, as well as informational and educational programming, resources, and support services. Our vision is to promote a welcoming and inclusive campus climate for LGBTQA persons and their allies and to eliminate homophobia, heterosexism, and sexism at Iowa State University.

LGBTSS services and programs include:

- Speaker’s Bureau – Panel discussion presentations where LGBTQA people and allies share their own experiences and present on a vast array of LGBTQA issues.
- Safe Zone Program – Initiative to increase the visibility of allies on our campus. Displaying a safe zone symbol sends an important message of a willingness and commitment to provide an atmosphere of acceptance, understanding, and support to the LGBTQA community at ISU.
- Library – Information center with over 1,000 resources (non-fiction & fiction books, magazines, videos, and magazines) available for confidential checkout.
- Support Groups – Ongoing, confidential, peer-facilitated groups designed to provide a safe, supportive place for talking about important issues.
- Referrals – Contact information available for various campus and community resources for personal, legal, health services.
- Celebration Events – Programs where we recognize the accomplishments of LGBTQA campus members. The Small Victories Celebration takes place early in the spring semester and Lavender Graduation is in May.

**Margaret Sloss Women's Center**

www.dso.iastate.edu/mswc

Director: Penny Rice, Ph.D.

Assistant Director: Chris Fowler, M.S.

Sloss House

(515) 294-4154
The Margaret Sloss Women's Center promotes the educational, personal, and career development of all women in the ISU/Ames community. Along with other departments, the Women's Center shares the university's responsibility of creating a safe and supportive environment for all individuals. The purpose of the Women's Center is to promote and sustain women through assistance, programs, and information and referral services.

The Women's Center provides:

- Assistance and support for women who work toward making change, on both personal and institutional levels.
- A safe space for women to meet, study, eat, network, discuss, find support, watch a video or just relax.
- A clearinghouse of information including a lending library, resource files, a calendar of events, and a variety of videos and audio tapes.
- Educational programming that focuses on helping students, staff, and faculty thrive in an academic environment by motivating them toward a greater understanding of, and involvement with, gender issues.
- Educational programs presented in residence halls, departments and organizations include workshops on a variety of topics.
- Coordination and co-sponsorship of special events including Women's Week, National Coming Out Days, Sexual Assault Awareness Month, and Women's History Month. Throughout the year, the Women’s Center also sponsors a number of speakers on current issues, hosts conferences, and coordinates support and discussion groups.
- A place to gain experience and/or credit as a journalism or design intern, practicum student, student programmer, board member, or volunteer.

Other services include an electronic breast pump, lockers to rent, free condoms, meeting space for campus and community organizations, kitchen facilities, a TV and VCR.

**Multicultural Student Affairs (MSA)**

[www.dso.iastate.edu/msa](http://www.dso.iastate.edu/msa)

Assistant Dean of Students and Director: Santos Núñez Galicia, M.Ed.

2080 Student Services Building

(515) 294-6338

The Multicultural Student Affairs office works to improve the retention of multicultural students with an emphasis on academic success and student leadership development that ultimately leads to graduation from the university. MSA partners with Iowa State University departments and related organizations in an effort to promote continuous improvements that respond to the needs of multicultural students.

Through its learning communities, academic enrichment programs, leadership opportunities, courses, workshops and community activities, MSA connects multicultural students to university and community resources that can assist in their persistence and graduation at Iowa State University. MSA provides specific programs and services that impact the retention of multicultural students and supports multicultural students as they acclimate to the university.

Working with university departments and related organizations, MSA achieves its goals through the following programs:

**Academic success for first year multicultural students through early outreach programs**

- Academic Program for Excellence (APEX) - an intensive eight week academic excellence summer program for entering first year multicultural students that prepares them for the collegiate environment
- Multicultural Visits- meetings and presentations scheduled with prospective students/families at high schools and community colleges

**Retention of multicultural students through academic intervention and social support programs**

- Academic support—access to free tutoring, study areas and computer labs

- Multicultural Visits—scholarships and financial aid
- Multicultural Leadership Academy—leadership development, cultural activities as well as professional development opportunities
- Multicultural Student Programming Advisory Council (MSPAC)—serves as a funding source for registered student organizations implementing programs and events that promote cross cultural collaboration at ISU

**National Student Exchange (NSE)**

[www.dso.iastate.edu/nse](http://www.dso.iastate.edu/nse)

Director: Debra Sanborn, M.A.

1080 Hixson-Lied Student Success Center

(515) 294-6479

Since 1968, National Student Exchange has offered students a domestic alternative to study abroad. What began with three campuses exchanging seven students is now 190 universities placing 4000 students a year. Iowa State University is pleased to offer exchanges in this program. Since its founding, more than 80,000 students have participated in NSE. The National Student Exchange was founded as a counterpart to study abroad programs, recognizing that not every student is seeking a study opportunity outside the United States. NSE offers low-cost options for ISU students to study out-of-state, at culturally diverse campuses, with program compatibility to our campus.

Features of the National Student Exchange include:

- Access to additional courses and programs
- Exchange among university honors programs
- Multicultural opportunities
- Resident assistant exchange options

**Features of the National Student Exchange include:**

- George Washington Carver (GWC) Scholarship – a four year tuition scholarship awarded to incoming multicultural freshmen directly out of high school. Program also provides academic support, leadership development, cultural activities as well as professional development opportunities.
- Multicultural Vision Program (MVP) Scholar—ship—a four year tuition scholarship awarded to incoming multicultural freshmen directly out of high school. Program also provides academic support, leadership development, cultural activities as well as professional development opportunities.
- MLK Emergency Loan Program - an interest-free 30-day loan that addresses extenuating financial situations that may affect a student’s educational goals.

Development of leadership skills for multicultural students through structured programs

- Black Cultural Center and Multicultural Center – these facilities provide meeting locations for multicultural student organizations, community groups, ISU faculty/staff and targeted multicultural student programming
- Iowa State Conference on Race and Ethnicity (ISCORE) project—provides participants with a better understanding of race and ethnicity in higher education as well as skill development in conducting research and presentations
- Multicultural Student Programming Advisory Council (MSPAC)—serves as a funding source for registered student organizations implementing programs and events that promote cross cultural collaboration at ISU

Success of multicultural students through programs incorporating social transition and academic achievement factors

- Multicultural Family Reception—welcome event for multicultural families and their students to ISU; introduces them to key ISU staff, faculty, and administrators
- Welcome and Transition—welcome event for multicultural students; includes a keynote speaker and sessions focusing on academic success and leadership
- Multicultural Tailgate and Football Game—athletic event that promotes a student’s Cyclone identity by engaging them in the university community
- Spring Speaker Series—events for multicultural students that provides motivational speakers, workshops, and sessions focusing on academic success and leadership
- MSA Recognition Programs—events recognize multicultural students for their academic achievement, campus leadership and graduation from ISU
• Credits applied toward degree
• Tuition reciprocity across the United States

Exchange features and requirements:

• NSE campuses in 48 states, three U.S. territories, and six Canadian provinces
• Duration of exchange can range from one semester to one calendar year
• Exchanges can occur in different academic and calendar years
• Students must be full-time during application and exchange
• GPA of 2.5 on a 4.00 scale required

Parents' Association (ISUPA)
www.dso.iastate.edu/pa
Director: Keith Robinder, M.S.
1010 Student Services Building
(515) 294-8854

All parents of Iowa State University undergraduate students are automatically considered members of the ISU Parents' Association. The ISUPA serves as a link between the university and parents and families. Its mission is to serve and inform parents and to enhance the quality of student life at ISU.

ISUPA is funded exclusively by contributions and fundraisers, such as the annual tuition raffle. The ISUPA Board of Directors, along with members of the Dean of Students Office staff, sponsors programs which include:

• Family Handbook, which is distributed to parents of all new ISU students at June orientation
• Parents’ Advisory Line (PAL), 1-800-772-8546, a toll free assistance line for families
• Cyclone Family Weekend, the university’s premiere event for families largely funded by the ISUPA
• Involvement in ISU Orientation programs for students and families
• Provide funding for professional security services at VEISHEA, ISU’s spring celebration

Parents interested in volunteering on the ISUPA Board of Directors can find the application form at the ISUPA web site.

Recreation Services
www.rec.services.iastate.edu
Director: Mike Giles, M.S.
Associate Director: Scott White, M.S.
Associate Director: Garry Greenlee, M.S.
2220 State Gymnasium
(515) 294-4980

Recreation Services strives to provide a holistic and diverse approach to health and wellness that encompasses physical, spiritual, intellectual, environmental, social, and emotional wellness. The department offers high-quality recreational facilities and a wide variety of programs and services to promote a healthy mind and body and enhance the overall quality of the educational experience at Iowa State University.

Recreation Services offers five indoor facilities: Lied Recreation Athletic Center, Beyer Hall, State Gym, Forker Building and the Ames/ISU Ice Arena. The Lied Recreation Athletic Center houses two premier running tracks, multiple basketball, volleyball and racquetball courts, top-of-the-line exercise and weight training equipment, and a climbing wall. Beyer Hall has basketball, volleyball, racquetball and squash courts, and features an indoor pool used for recreational swimming, competitive events and special activities, including scuba diving and kayaking. The State Gym renovation and expansion project, scheduled for completion fall 2011, provides approximately 100,000 square feet of new recreational space on the west side of campus. The addition offers three full size basketball/volleyball courts, a running track, an indoor pool, and weight and cardio equipment. Outdoor space of over 100 acres includes an 18-hole disc golf course, tennis and sand volleyball courts, an inline hockey rink, softball, flag football, and soccer fields to provide the perfect environment for friendly competition.

Participate in one of the largest intramural sports programs in the nation. With more than 40 different programs designed for individual, dual, team and co-ed competition, the Intramural program has something for everyone! Some of our unique and popular programs include broomball, curling, flag football, dodge ball, euche, volleyball and badminton. Participate for the opportunity to win one of the most coveted items on campus - an Intramural Champion T-shirt!

If you are looking for a higher level of competition, there are over 50 Sport Clubs designed to meet individual interests in a variety of sports such as rugby, soccer, waterski, lacrosse, ultimate Frisbee, ice hockey, ski and snowboard, martial arts, kayaking, crew, mountaineering, weight lifting, and boxing. The clubs participate in regional and national tournaments, and many have coaches who supervise organized practices.

Striving to improve health and fitness, our fitness program offers activities rich in variety and intensity levels. Certified instructors teach innovative, fun and safe fitness classes, including cardio workouts, kickboxing, cycling, sculpting, Pilates and yoga classes, along with deep and shallow aqua fitness workouts. Personal training sessions can be purchased to provide one-on-one training to enhance individual wellness. To stay interested and involved in a regular exercise, sign up for the Rec Miler program. The program allows you to earn “rec miles” for exercise and healthy habits and earn a variety of progress awards along the way!

Travel, attend a workshop, rent equipment, or climb the wall! Choose your landscape as you participate in one-day, weekend or extended trips throughout Iowa and the nation. Trips cover a broad range of activities and locations such as canoeing in Iowa, sea kayaking in Alaska, snowboarding and skiing in Colorado, mountain biking, whitewater rafting, hiking and climbing in Utah and surfing in California. Instructional workshops are also offered on various outdoor recreational skills. Rent equipment for camping, canoeing, skiing, backpacking, mountain biking, kayaking and many other activities. Also available to students is a 1,400 square foot climbing and bouldering wall at the Lied Recreation Athletic Center.

Part-time jobs in Recreation Services offer students flexible hours, valuable skills and work experience and competitive hourly wages. Over five hundred students are employed as building supervisors, lifeguards, office assistants, trip leaders, climbing wall supervisors, fitness instructors, personal trainers and intramural officials. Sixty percent of Recreation Services student fees are returned to students each year in the form of wages. Undergraduate and graduate students desiring to work in this healthy and enjoyable environment should visit our website for more information and application forms.

Student Assistance and Outreach
www.dso.iastate.edu/sa
Assistant Dean of Students and Director: Keith Robinder, M.S.
Assistant Director: Kipp Van Dyke, M.S.
1010 Student Services Building
(515) 294-1020

Student Assistance and Outreach staff members provide guidance for students who are dealing with issues that affect their personal, academic, and family lives. They help students understand university policies and navigate processes and procedures on campus in order to enhance their academic experience at ISU.

Consultation and assistance is provided with concern for each student’s personal well being and educational objectives. Student Assistance and Outreach staff members coordinate the notification of faculty members for students who miss classes due to emergencies. They also advise students who wish to file formal academic grievances. Student Assistance and Outreach staff members work closely with ISU faculty and staff to identify the best possible options for ISU students who are seeking to help themselves. Personalized referrals to other University resources and services are used to provide proactive and comprehensive assistance to students.
Student Disability Resources (SDR)
www.dso.iastate.edu/dr
Director: Steve Moats, M.A.
Assistant Director: John Hirshman, M.A., Ed.S
1076 Student Services Building
(515) 294-7220; TTY (515) 294-6635

Staff members in the Student Disability Resources office coordinate support services that students may need in order to reach their fullest academic potential. SDR staff members coordinate accommodations and serve as a resource within the university community concerning students who have qualifying disabilities. SDR provides assistance, information, support, counseling, education, referral, and promotes disability awareness in students, faculty, staff, the Ames community, and the state of Iowa.

Student Legal Services
www.dso.iastate.edu/sls
Student Legal Adviser: Paul Johnson, J.D., Michael Levine, J.D.
B0367 Memorial Union
(515) 294-0978

Funded entirely by the Government of the Student Body, Student Legal Services (SLS) is a legal aid office for students currently enrolled at Iowa State University and registered Iowa State University student groups. It is staffed by two attorneys who advise and often represent students in a variety of cases and are available for consultation with respect to most legal concerns.

The types of cases most often handled include:

- Family Law and Divorce
- Criminal Law
- Landlord - Tenant Problems
- Off-campus Employment Problems
- Consumer Issues
- Administrative Issues
- Notary Services

The services of SLS are available to students and registered Iowa State University student groups free of charge. Students must pay their own court costs and any out of pocket expenses.

SLS cannot represent students in fee generating cases, controversies involving student vs. student or student vs. ISU, ISU student judicial matters and generally does not handle felony defense or cases involving excessive time. However, consultation with an attorney regarding these matters is available.

Student Support Services Program
www.dso.iastate.edu/sssp
Director: Japannah Kellogg, M.S.
2010 Student Services Building
(515) 294-0210

Student Support Services Program (SSSP), a federally funded program, provides academic support to eligible students and is designed to increase the retention and graduation rates of low-income individuals who are first-generation college students or individuals with disabilities. The needs of the students who are accepted into SSSP are thoroughly assessed through testing and counseling. SSSP participants receive personal and career counseling, along with academic advice, tutoring, and assistance in receiving financial aid.

Participants in SSSP are encouraged to work with an SSSP student mentor to become acclimated to the ISU environment. These relationships also encourage participants to fully access ISU resources. Study skills improvement sessions and basic skills instruction are provided in the areas of math and writing. In addition, cultural enrichment (i.e. theatre, dance, and musical events) and educational activities (leadership conferences, graduate/professional, etc.) are planned. These services are provided free of charge to eligible students after they are accepted into the program.

Vocational Rehabilitation
www.dso.iastate.edu/vr
Counselor: Lynette Plander
1045 Student Services Building
(515) 294-5059

The State of Iowa Division of Vocational Rehabilitation Services Office provides services to students who based on medical documentation, have a disability and it is a substantial impediment to employment. Rehabilitation services may include the following: medical assessment; vocational evaluation; counseling and guidance; special adaptive equipment or devices; financial assistance toward training; and job placement assistance. No direct fees are charged, but there may be some costs through involvement with services.
For the most current and complete information see http://www.registrar.iastate.edu/fees/

All tuition, fees, expenses, and policies listed in this publication are effective summer session 2011 and are subject to change without notice by Iowa State University and the Board of Regents, State of Iowa.

Tuition and fees are based on credit load at 5:00 p.m. on the 10th day of class, which is the last day for adjustments downward in tuition and fee assessment.

Tuition

Enrollment is not complete until fees are paid. Tuition is charged based upon the number of credits in which a student is enrolled. Maximum charges start at 12 credits for undergraduate and veterinary medicine students. Maximum charges start at 9 credits for graduate students.

Students who are nonresidents of Iowa pay a higher tuition rate each semester. Nondegree undergraduate students and noncollegiate students pay the same fees as undergraduates. Tuition and fees are assessed in accordance with regulations of the Board of Regents, State of Iowa. Information about these regulations are found in this catalog under Admissions and Registrar.

Fees

Following are the descriptions of several commonly assessed fees for Iowa State University students. The list is not inclusive. All fees are subject to change without notice.

Activity, Services, Building and Recreation: The activity, services & building fee is a mandatory fee that supports a variety of activities and services for all students. It is not based on whether or not a student uses an individual activity or service. This fee provides several benefits such as student admission rates to concerts and athletic events and, unlimited use of CyRide, the Ames bus system. In addition, the fee provides support for campus recreation facilities, the Memorial Union, and campus organizations and services as allocated by the Government of the Student Body. All students will be charged a maximum of $317.80 each fall and spring semester, and $159.50 per summer semester. The activity, services, building and recreation fee includes assessments of the following amounts for each fall and spring semester.

<table>
<thead>
<tr>
<th>Fee Category</th>
<th>Amount</th>
</tr>
</thead>
<tbody>

<tr>
<td>Total</td>
<td>$317.80</td>
</tr>
</tbody>
</table>

Exemptions are granted for students exclusively registered for the following: distance education courses (sections beginning with X); courses for which no tuition is assessed; continuous registration status courses, and high school students enrolled under the Postsecondary Enrollment Options Act. Students in exemption categories named above may elect to pay this fee and will be assessed based upon their enrollment status.

For students who withdraw or change to an exempt status as defined above, the tuition adjustment schedule will also be used for the activity fee.

Application: The application fee for domestic undergraduates and graduate students is $40, the fee for international undergraduate students is $50, while the fee for international graduate students is $90. All applicants for Veterinary Medicine pay an application fee of $75. This is a nonrefundable fee and must accompany the application for admission. This fee does not apply to special students or workshop applicants, and is subject to change without notice.

Tuition, Fees and Expenses

Applied Music (Private Instruction): The music fee is charged to students receiving private music instruction and is in addition to regular tuition. The fee offsets the costs of one-on-one instruction. One credit of instruction is $150; the fee for two credits is $190.

Camp: A special tuition rate is assessed to students participating in camp programs. The undergraduate assessment is $268 per credit and the graduate rate is $416 per credit. Summer camp programs entitled to the special rate are Anthropology and Geology. Students will be charged other fees in addition to tuition for enrolling in these programs. To obtain full fee information, students should contact the director of the individual program.

Career Services: The career services fees vary among college-based career services offices ranging from $0 - $25 per student.

Delivery: Some distance education courses charge a delivery fee to offset additional expenses incurred in offering a course at a distance. Applicable delivery fees are listed with the specific course in the Schedule of Classes available at http://classes.iastate.edu. Delivery fees also appear on each student’s schedule detail available on AccessPlus.

Developmental: A developmental course fee is charged in addition to the tuition charged for other courses on the student’s schedule. For example: A student taking 12 credits plus a developmental course will pay full-time tuition for the 12 credits, plus the developmental course fee(s). These fees are intended to cover the direct costs of offering these developmental courses. Developmental course fees are listed with the specific course in the Schedule of Classes available at http://classes.iastate.edu/

Diploma Replacement: Individuals who have lost their diploma may request a replacement for $25.

Graduation: Undergraduate and graduate students are charged a $50 nonrefundable graduation fee the term they receive their degree.

Health Facility: All students are charged an $8 Health Facility Fee each semester except for students exclusively registered for the following: distance education courses (courses with sections beginning with X); courses for which no tuition is assessed; continuous registration status courses; and high school students enrolled under the Postsecondary Enrollment Options Act. These exceptions do not apply to international students (except where noted) or graduate students on graduate assistantships. For students who withdraw or change to an exempt status as defined above, the refund schedule for tuition will be used for the health facility fee.

Students who carry the ISU sponsored student health insurance must also be assessed the health facility fee.

Health (Student Health): A $98 student health fee, which partially finances the services of the Thiel Science Center, is charged to all students each semester. This fee is not assessed to students enrolled for four or fewer credits or students exclusively registered for the following: distance education courses (courses with sections beginning with X); courses for which no tuition is assessed; continuous registration status courses; and high school students enrolled under the Postsecondary Enrollment Options Act. These exemptions do not apply to international students or to graduate students on graduate assistantships. Students who are exempt from the mandatory health fee may use the services of the Thiel Science Center on a fee for service basis, or may elect to pay the $98 Health Fee and $8 Health Facility Fee, which allows participants to receive services at the Thiel Science Center for the same rate as students who pay the mandatory health fees. Spouses/domestic partners of students who wish to use the Thiel Science Center must pay the $98 Health Fee and $8 Health Facility Fee.

Students who withdraw or change to an exempt status as defined above will receive a credit adjustment of 100 percent through the 10th day of classes, with no credit adjustment after the 10th day of classes. Students who add courses at any time during the semester will be assessed the
student health fee if applicable according to the guidelines stated above. Students who carry the ISU sponsored insurance must also be assessed the student health fee. If spouse or domestic partner is covered under the insurance plan, the spouse (domestic partner) must also be covered under the Health Fee and Health Facility Fee.

**Health Insurance:** All international students and their accompanying dependents must enroll in the ISU Student and Scholar Health Insurance Program. ISU requires nonimmigrant international students and their dependents to purchase and maintain coverage through the ISU health insurance plan for the duration of their tenure at the university. Insurance plans purchased outside the university may be used for supplemental coverage, but cannot be substituted for the ISU plan. Students not assessed the mandatory Student Health Fee and spouses of students should contact the Student Health Insurance Office at 515-294-4820 for more information.

**Identification Card (ISUCard) Replacement:** All students receive their first identification card free of charge. Those cardholders who have lost or misplaced their identification cards are assessed a $25 fee to cover the cost of replacement.

**Late Fee Payment:** If payment of the minimum due is not made by the deadline printed on the billing statement, all fees become due immediately. A one-percent finance charge will be assessed on the total amount due at that time. These students will also have a hold placed on their registration until payment of the total amount due has been made.

**Late Registration:** Undergraduate students who do not complete their registration before the first day of classes are charged a $20 late registration fee. Graduate students who do not complete their registration before the first day of classes are charged a late registration fee of $20 during the first week of classes, $50 the second week of classes, and $100 the third week of classes or anytime later.

**New Student Programs:** A nonrefundable fee of $195 is assessed to all new degree-seeking undergraduates (including new direct from high school and new transfer students). The fee covers full costs associated with orientation and Destination Iowa State programming, including publications, mailings, programming, and student assistants who provide services to students and their families during orientation and Destination Iowa State.

**Returned Check/Direct Debit Charge:** This $30 fee is a charge against the person who writes a dishonored check or authorizes a direct debit to an account that has been closed or has insufficient funds.

**Schedule Change:** Starting the sixth day of classes a $12 fee is charged for course drops, additions, and section changes. One fee is assessed for multiple changes processed at the same time for the same term.

**Senior:** A $2 fee covers the cost of special senior activities. This fee is optional and is assessed spring term only.

**Special Course:** Some courses have expenses above the cost of tuition that enhance the instruction. These fees may cover the cost of field trips, use of equipment, materials or supplies, or professional support. Applicable special course fees are listed with the specific course in the Schedule of Classes available at http://classes.iastate.edu. Special course fees also appear on each student’s schedule detail available on AccessPlus.

**Sponsored International Student:** This fee is assessed to the sponsor of international students as a way to compensate for the special record keeping, billing requirements, correspondence, and the deferred payment option extended to sponsoring agencies. The current fee will be 5 percent of the total tuition charge billed the sponsor. In succeeding years, the fee may be raised after 90 days advance notice to the sponsoring agency.

**Study Abroad:** Tuition assessment for study abroad credits, up to a maximum of 12 credits, is above and beyond tuition for other courses taken during the same term.

**Technology:** All students will be charged a technology fee each semester.

Full-time graduate and undergraduate students enrolled in the College of Engineering (including Systems Engineering, Agricultural Systems Technology, and Industrial Technology) are charged $223 per semester.

Full-time graduate and undergraduate students majoring in Computer Science are charged $223 per semester.

Full-time undergraduate students enrolled in the College of Business are charged $135 per semester, while full-time graduate students are charged $112 per semester.

All other full-time undergraduate students are charged the standard technology fee of $115 per semester. Full-time graduate students are charged an $92 per semester technology fee.

Students enrolled less than full-time are assessed prorated technology fees according to the number of credits for which they are enrolled.

High school students enrolled under the Postsecondary Enrollment Options Act; or students enrolled exclusively in courses for which no tuition is assessed are not assessed a technology fee.

For students who withdraw, technology fee adjustments will be made according to the tuition adjustment schedule. Adjustments for a reduction in credits below a full time load is 100 percent through the 10th day of classes, with no refunds after the 10th day of classes. Students who change their major will be charged the full technology fee for the major into which they transfer if the change occurs before the 10th day of classes. If the change occurs after the 10th day of classes, then no change in the technology fee assessment will occur.

**Thesis Fee:** This $100 nonrefundable fee is charged to any student who submits a master’s degree thesis or doctoral dissertation to the Graduate College.

**Transcript:** Students may obtain an official transcript of their student academic record for $15. An additional $5 service charge for each transcript is assessed for same day service.

**Workshops:** The fee for one-credit workshops, with no other course enrollments, is $268 for undergraduate students and $416 for graduate students.

**Fee Payment**

The Accounts Receivable Office bills students for tuition, room, meal plan, and various other university charges. A statement of new charges is available on the first of each month on AccessPlus and each student will receive an email message at that time at their Iowa State e-mail address telling them that their bill is available. It is the student’s responsibility to ensure that the university has a correct e-mail address and to regularly check their Iowa State e-mail account. Students who do not receive a billing statement before the term begins or are unable to use AccessPlus to view their bill, should contact the Accounts Receivable Office to learn the amount of their account balance due. Failure to receive a billing statement or view their account on AccessPlus will not exempt students from late penalties or from having a hold placed on their registration. Payments for fall semester are due August 20. Payments for spring semester are due January 20. Payments for summer semester are due May 20.

Students may pay their university bill by direct debit through AccessPlus. They may also pay by mail by sending a check or money order (along with the bottom portion of the billing statement printed from AccessPlus) to Iowa State University, Treasurer’s Office, 1220 Beardshear Hall, Ames, IA 50011-2044. Payments may also be made in person by dropping off your payment at the drop box located in Beardshear Hall.

**Deferred Payment**

Each term, students who do not pay their first installment in full by the due date will automatically select the deferred option, and will be charged a $20 administrative fee.
University fees may be paid in three installments each academic term. Payments for fall semester will be due August 20, September 20, and October 20. Payments for spring semester will be due January 20, February 20, and March 20. Summer fees will be due May 20, June 20 and July 20.

**Monthly Payment Plan**
Under the Monthly Payment Plan, students pay the academic costs for fall and spring semesters in 12 installments beginning April 20 and ending the following March 20. A $50 enrollment fee is due with the first monthly payment. All payments are deducted from a designated bank account. For more information about the Monthly Payment Plan, contact the Accounts Receivable Office.

**Past Due Accounts**
If students have past due accounts receivable charges prior to the beginning of classes, they may be dropped from enrollment if these past due charges are not paid by the Friday before the first day of class. Students that are subject to being dropped will be notified via their Iowa State e-mail account.

**Refunds**
Refunds are available for students who cancel or withdraw their registration within the appropriate time period. To cancel their registration, students must notify the Office of the Registrar before the first day of the semester to avoid tuition assessment. Beginning on the first day of the semester, it will be necessary for students to formally withdraw from the university to terminate their registration. More information about canceling registration and withdrawing from classes can be found at [http://www.registrar.iastate.edu/registration/responsibilities.shtml](http://www.registrar.iastate.edu/registration/responsibilities.shtml).

Tuition adjustments for all students are made for withdrawals of registration according to the following schedule:

<table>
<thead>
<tr>
<th>Withdrawal Date/Student Pays</th>
<th>Student Pays</th>
</tr>
</thead>
<tbody>
<tr>
<td>Before first day of classes 0%</td>
<td>100%</td>
</tr>
<tr>
<td>During class days 1-5 10%</td>
<td>90%</td>
</tr>
<tr>
<td>During class days 6-10 25%</td>
<td>75%</td>
</tr>
<tr>
<td>During class days 11-15 50%</td>
<td>50%</td>
</tr>
<tr>
<td>During class days 16-20 75%</td>
<td>25%</td>
</tr>
<tr>
<td>After the twentieth day of classes 100%</td>
<td>0%</td>
</tr>
</tbody>
</table>

Students who wish to appeal tuition and fee assessment for withdrawals should contact the tuition and fees area of the Office of the Registrar. Decisions of the Office of the Registrar will be based on the existence of extenuating circumstances beyond the control of the student.

Students who wish to appeal the decision of the Office of the Registrar must do so in writing within 10 calendar days after receiving the decision. Such appeals will then be reviewed by the Tuition Appeals Review Committee. Students who wish to appeal the decision of the Tuition Appeals Review Committee may make a request to do so in writing to the Office of the Provost.

Fee refund for students with a reduction in credits below full-time:

100 percent if change is made through the 10th day of classes. No adjustment is made after the 10th day of classes. Prorated adjustments in the tuition adjustment schedule are made for summer session courses, or any courses which are less than one semester in length (79 days).

**Workshop and Short Courses Refunds**
Students who drop workshops or short courses of one or two weeks on or before the first class meeting receive a 100% tuition adjustment for the course. No tuition adjustment will be made after the first day of classes. Students who drop three-week courses receive a 100% adjustment if they drop on or before the first day of classes, a 90% adjustment if they drop on the second day of classes, and no adjustment after the second day of classes.

---

**Tuition Schedule Per Semester**
In effect for Summer 2011. Subject to change without notice.

**Full Time Rates Resident Nonresident**

| Undergraduate (12 or more credits) | $3,204 | $9,140 |
| Agricultural Systems Technology and Industrial Technology Juniors and Seniors | $3,496 | $9,432 |
| Business Juniors and Seniors | $3,995 | $9,922 |
| Engineering Juniors and Seniors | $4,247 | $10,132 |
| Graduate (9 or more credits) | $3,738 | $9,596 |
| Engineering Graduate | $4,308 | $10,140 |
| Seed Technology and Business | $4,887 | $10,746 |
| Veterinary Medicine (12+ credits) | $8,728 | $19,995 |

For students enrolled for less than a full course load and for the most current and complete information, see the Fee Schedule Per Credit list at [http://www.registrar.iastate.edu/fees/](http://www.registrar.iastate.edu/fees/).

**Additional information:**

- Audits and zero credit courses: assessed according to contact hours; maximum charge for zero credit courses is three credit hours
- **R credits:** assessed for the minimum fee only if no other credits are taken.

**Continuous registration fee for graduate students:** $70.

**Partial credits (.5):** assessed on the next larger whole number of credits, e.g., 6.5 credits is assessed as 7 credits.

**Summer session:** based on per credit as indicated in the fee schedule.

**Tuition assessment for study abroad credits:** up to a maximum of 12 credits, is above and beyond tuition for other courses taken during the same term.
