Leopold Center Marketing and Food Systems Initiative Competitive Grants, 2011-2014

Abstract
This is an evaluation of nine projects funded by competitive grants from the Leopold Center's Marketing and Food Systems Initiative between 2011 and 2014. For every dollar invested, another $1.20 was leveraged by project leaders and partners to create jobs, increase local foods commerce and access to healthy food, also improved food safety practices, with implications for new and young farmers as well as food processors.

Disciplines
Agriculture

This report is available at Iowa State University Digital Repository: http://lib.dr.iastate.edu/leopold_pubspapers/100
**Impact Snapshot:**

**Leopold Center Marketing and Food Systems Initiative Competitive Grants 2011-2014**

**THE NUMBERS:**

The Leopold Center for Sustainable Agriculture invested **$209,707** in 9 food systems and marketing projects from 2011-2014. For every dollar of Leopold Center investment, another $1.20 was leveraged by project leaders and partners, totaling **$251,616**.

- Des Moines Central School's Food Service and Central Kitchen
- Des Moines School Nutrition Service
- Iowa FoodCorps
- Gateway Market
- Luther College
- Allamakee New Beginnings
- New Iowan Center

**OUR GOAL:**

The goal of tracking impact is to ensure Leopold Center investments are making a difference in targeted areas. The projects included here are selected competitive grants awarded to various recipients in the last four years to develop local and regional food systems in Iowa.

**IMPACTS:**

As a result of this work, we have seen an increase in local foods commerce, new job creation, increased access to healthy food, local foods collaboration, and an improvement in food safety practices. Together, this has implications for new and young farmers and food processors, improving the health of Iowans, and creating new community and economic development opportunities.
COMMUNITY AND FARM DEVELOPMENT

- Des Moines School Nutrition Service staff are less skeptical about working with farmers (produce was cleaner and better quality than they expected)
- About 80 ethnic families were connected to community gardens where they were able to grow their own food (none had previous access to land or a way to grow specialty produce)
- 4 community gardens were created in Des Moines
- Food safety plans and safe food production and post-harvest practices were initiated on many Iowa farms, along with improved efficiencies in distribution and transportation
- 19 producers (including 1 Amish producer) became certified in Good Agricultural Practices (GAP)
- Food safety monitoring plan in process between Hy-Vee and Iowa producers
- 3 peer-to-peer mentoring programs established for producers
- Des Moines Central Schools food service began sourcing locally grown foods

PUBLICATIONS AND OUTREACH

<table>
<thead>
<tr>
<th>Publications</th>
<th>Educational workshops, meetings, outreach programs and special events</th>
</tr>
</thead>
<tbody>
<tr>
<td>1 local food directory was maintained – the Local Food &amp; Flavor Guide for Flavors of Northwest Iowa</td>
<td>1 new class was created for Flavors of Northwest Iowa - Food Preservation 101</td>
</tr>
<tr>
<td>1 producer manual was written – Grower’s Manual: A Template for Grower’s Cooperatives for GROWN Locally</td>
<td>2 producers and HyVee West in Mason City cooperated to develop a pilot marketing collaborative</td>
</tr>
<tr>
<td>1 farm safety checklist was created and 5 schools have agreed to use it</td>
<td>2 GAP workshops held</td>
</tr>
<tr>
<td>1 online local foods buying club cooperative developed documents outlined membership structure and by-laws</td>
<td>Series of 8 workshops on “Growing Food in Iowa” presented in four different languages (Nepali, Kirundi, Karen and Burmese) attended by 55 people</td>
</tr>
<tr>
<td>1 Internet software guide was created by an online local foods buying club cooperative, now used nationally by other co-op’s; this document rates Internet software for buying and selling cooperative goods</td>
<td>Des Moines Central Schools Central Campus Culinary Arts program developed two classes to teach high school students to cook using local foods</td>
</tr>
<tr>
<td>2 local foods newsletters were initiated</td>
<td>Upper Missouri Valley Local Foods Project was created</td>
</tr>
