March 5, 1941

W. A. Craft, Director of the Regional Swine Breeding Laboratory, Ames, Iowa, spoke on swine improvement. He discussed the various characters that were necessary to keep in mind in the development of new lines of swine which would be of greater value to the swine producers. His lecture was accompanied by lantern slides illustrating the various types of hogs that have evolved from the original wild razorback hog.

March 26, 1941

Dr. D. M. Campbell delivered a very interesting lecture on the veterinary schools of Europe. His discussion included a brief history of the development of these schools and a comparison to the schools in this country. Dr. Campbell is the editor of "Veterinary Medicine."

Members of the banquet committee were announced as: R. Steven Kufrin, chairman, E. Paul Eder, LeRoy T. Christensen, Joe Loucks, and Ralph Rieke.

Veterinary Sport Dance

The Veterinary Sport Dance was held at the Ames Country Club on Saturday, March 29, 1941. Noble Ross furnished the music.

The guests were Dr. and Mrs. Geo. R. Fowler, Dr. and Mrs. L. E. St. Clair, Dr. and Mrs. Ray D. Hatch, Dr. and Mrs. W. H. Chivers, Dr. and Mrs. L. Meyer Jones, Dr. and Mrs. M. L. Johnson, and Miss Hilma Dodds.

The dance was exclusively for members of the Jr. A.V.M.A. and their guests.

April 9, 1941

Dr. S. H. McNutt, associate professor of Veterinary Research, addressed the chapter on "Calfhood Vaccination for Bang's Disease." He discussed the cultural characteristics and pathogenicity of Brucella abortus strain 19, which is used for the production of vaccine, and regulations for vaccine production. The effectiveness and possible undesirable results of calfhood vaccination were also considered. The rules of cooperative supervision were listed and suggestions of when and where to use the vaccine were made. In conclusion, Dr. McNutt stated that the purpose of calfhood vaccination was to aid in controlling Bang's disease and to help in its elimination, but it was not expected to be a method of eradication or take the place of the test and slaughter system as now practiced.

Annual Banquet, April 16, 1941

The students, faculty and guests of the Veterinary Division were the recipients of a thought-provoking address on "Propaganda and Point of View" delivered by Dean H. V. Gaskill of the Science Division, I.S.C., at their annual banquet. Dr. H. C. H. Kernkamp of the University of Minnesota was toastmaster.

Dean Murray gave a short talk on the history of the divisional society. Al Tietze, V.M. 4, made the introductions. DeDan Buchanan, of the Graduate College, I.S.C., spoke briefly on "Areas of Service of the Professional Man."

During the dinner, Howard Chase provided music at the organ. Raymond Helvig, V.M. 4, Daniel Dodd V.M. 3, Ar-
Without Cautery or Blister
you may hold the “Makins” of a Firing Job

In the Palm of Your Hand

HYPODERMIN
A modern and practical substitute for firing iron and blisters which has gained favor with many practitioners because it is professional and does not blemish.

Injected directly over the periosteum of exostoses, it produces the counter-irritant and deobstruent action of iodine dissolved hypertonically in sterile oil.

The Haver-Glover Laboratories
Kansas City, Mo.

thur Pennings V.M. 2, and Robert Young V.M. 2, sang “The Dear Old Moonlight,” “The Owl and the Pussy Cat,” and “Stately Stands Our Alma Mater.”

April 23, 1941
Mr. H. B. Osland, Head of the Department of Animal Husbandry of Colorado State College, spoke on “Lamb Feeding.” The talk was accompanied by pictures of feeding practices in Colorado which emphasized feeding methods and equipment. In his discussion Mr. Osland pointed out the methods of preventing disease in the flocks by proper management. Rations were also discussed.

The committee for the spring picnic was appointed as follows: Earl Cook, chairman, Nathaniel Waggoner, George Gitz, Robert Kirkpatrick, and Norman Ward.

May 7, 1941
Dr. H. C. Smith of Fort Dodge Laboratories Inc., spoke to the chapter on Leptospirosis.

Officers elected for the coming year were: Pres.-elect, Harold Held; Vice-Pres., Ray Tabola; Secy., James Hill; Treas., Wm. L. Beer; Critic, Joe Graham; Sgt. at Arms, Harold Rohwer; and as Cardinal Guild representative Louis Feldman.

Phi Zeta
Phi Zeta, national scholastic honor society for students in Veterinary Medicine, elected new members on April 28. Senior students who were elected include Merthyr L. Miner, Howard F. Beardmore, Gerald Cornwell, Roy B. Price, Orville G. Martens, Frank E. Bartley, Montgomery L. Houston, Walter H. Timms, Max C. Coons, Raymond Helvig, Corwin L. Smith, Lawrence M. Forland, Richard L. Stowe, and George Lightcap. The seniors elected were chosen from the upper twenty-five percent of their class.

Junior students, constituting the upper ten percent of their class, who were elected
YOUR COLLEGE CLUB

takes this opportunity to offer congratulations—Seniors of 1941 in Veterinary Medicine. May your professional careers be as successful as your undergraduate careers have been.

May We Prescribe:
Life membership in MEMORIAL UNION.

MEMORIAL UNION... OUR COLLEGE CLUB...

were Harvey H. Hoyt, LeRoy T. Christensen, Joseph A. Graham, Harold Held, Leslie J. Moore, and James W. Wilson.

Also elected as members were Dr. Margaret W. Sloss and Dr. M. Lois Calhoun.

Dr. Willard L. Boyd, Chief of Veterinary Division, University of Minnesota, and Dr. Frank Thorp, Jr., Associate Pathologist, Regional Poultry Laboratory, East Lansing, Mich., were elected as honorary members.

At the meeting, new officers were elected: Dr. I. A. Merchant, Pres.; Harvey H. Hoyt, Vice-Pres., and Dr. L. E. St. Clair, Secy.-Treas.

Phi Kappa Phi

Howard Dunne, '41; John Carey, '41; Harlan Jensen, '41; and Max Jones, '41, were elected to Phi Kappa Phi, national honorary scholastic fraternity. Also elected were Dr. F. E. Walsh, professor of Veterinary Obstetrics, Dr. Ray Hatch, instructor of Anatomy, and Dr. Frank Birch, assistant in the Clinic.

Veishea

Veishea open house in the Veterinary Division featured everything from a horse to a louse.

The Anatomy Department concentrated on “Aesthesiology”, showing the development and structure of the organs of special sense.

Amplification of the heart beat of a dog and the Friedman modification of the A.Z. test for pregnancy were featured by the Department of Physiology and Pharmacology.

The Department of Bacteriology presented luminous bacteria and the “Veishea Kiss.”

“Parasite Pansy”, the worm doll, and the common parasites of the dog and cat were featured by the Department of Pathology.

Tours through the clinic, conducted by students who explained the cases seen, was the contribution of the Departments of Medicine, Surgery and Obstetrics.
