General

Dr. Robert D. Irvine, '43, is located with Dr. J. A. Henderson, '34, at Ankeny, Iowa.

Dr. H. H. Dukes, '18, recently was in Rochester, Minn. with his father-in-law who was there for treatment.

Dr. D. H. Gray, '43, has been reported located at Sterling, Colo.

Dr. Paul M. Haight, '43, and Dr. H. P. Wessels, '36, are carrying on a practice at Geneva, Ill.

Dr. John T. Baughman, '12, passed away Apr. 17, 1943 at his home in Ames. Dr. Baughman carried on a country practice and for many years served as a technician for the college physics department.

Dr. L. L. Boxwell, '40, Cedar Falls, Iowa is serving on a committee to secure aid for farmers who lack the necessary farm labor.

Dr. Maynard Rosenberger, '03, recently passed away at his home in Sherman Oak, Calif. Prior to his death Dr. Rosenberger was employed as general manager of the Adohr Milk Farms.

Dr. H. N. Strader, '20, of Marion, Iowa fractured a clavicle while handling a bull.

Dr. J. W. Pirie, '36, Cedar Rapids, Iowa expects to undergo an operation on a nerve in his left arm.

Dr. Perry Jensen, '42, has established his practice in George, Iowa.

Dr. B. T. Huso, '42, is assisting Dr. J. A. Baber at Stockton, Ill.

Dr. Howard D. Perry, '31, of Yankton, S. Dak. has been ill at the Mayo Clinic in Rochester, Minn. A rapid recovery has been reported for Dr. Perry.

Dr. H. C. Fitch, '18, Missouri Valley, Iowa reported a case of sleeping sickness during May.

Dr. C. J. Heckard, '98, of Wheatland, Iowa passed his seventieth birthday in April.

Dr. J. C. Kaiser, '35, Rockwell, Iowa was re-elected president of the board of directors of the Independent School District of that city.

Dr. Nelse Thiele, '30, of Wall Lake, Iowa is serving as veterinarian for the Crawford County Cattle Breeder's Association. An extensive program of artificial
insemination is under Dr. Thiele’s supervision.

Dr. O. T. Douglas, '27, of Davenport, Iowa is convalescing in a sanitarium of that city.

Dr. C. M. Morgan, '02, Postville, Iowa served as judge of the saddle horse show at the Prairie Du Chien Villa Louis Carnival in May.

Dr. and Mrs. D. N. Voetberg, '27, have moved to a new home on a farm north of Traer, Iowa.

Dr. and Mrs. K. L. Ritchie, '33, of West Union, Iowa purchased the home of Dr. and Mrs. M. F. Frevert also of the class of '33.

Dr. and Mrs. H. N. Strader, '20, Marion, Iowa vacationed at Hot Springs during March.

Marriages

Dr. D. W. Rawson, '43, and Miss Barbara May Fink were married Apr. 24 at River Forest, Ill.

Capt. J. K. Marriott, '42, and Miss Mary Frances Hackett were married July 28, 1943. Their home will be at Montgomery, Ala.

Dr. Gerald W. Cornwell, '41, and Miss Phyllis Armour of Ames were married at Iowa Falls, Iowa on July 21, 1943. Dr. Cornwell is established in practice at Boone, Iowa.

Dr. Lyle W. Swain, '43, was married to Harriet Zook, '43, at Osceola, Iowa on June 18.

Lt. Robert Savage, '43, and Josephine Ricklefs, '43, were married at Carlisle Barracks, Pa. on June 11. The couple will be at home in Kansas City, Mo., where Lt. Savage is a veterinarian with the army.

Lt. Hans Grell, '42, was married to Ada Marie Bredbeck, '43, at Omaha, Nebr. in June. Lt. Grell is Station Veterinarian at the Army Air Forces Base, Bryan, Texas.

Lt. Vernon S. Peterson, '42, and Miss Ruth Pfefferle of Dell Rapids, S. Dak., were married recently. Lt. Peterson was assigned to Fort Wayne, Detroit, Mich., on May 12, 1943.

Dr. W. H. Calhoun, '43, was married on July 18 to Miss Helen Flalta, H. Ec. Jr., at Osage, Iowa. The couple will reside at Huxley, Iowa where Dr. Calhoun is practicing.

Births

Capt. and Mrs. E. L. Koch, '37, El Paso, Texas have a baby girl, Karlyn Sue, born March 17, 1943.

Dr. and Mrs. E. J. Dahlquist, '40, Fayette, Iowa are the parents of a daughter, Carole Ann.

Dr. and Mrs. John W. Carey, '41, West Liberty, Iowa have a baby girl, Connie Ann. Dr. Carey is now a lieutenant in the Veterinary Corps.

Dr. and Mrs. Kenneth L. Bogaard, '31, of Cedar Rapids, Iowa announced the birth of a son, David Knox.

Dr. and Mrs. C. E. Eakin, '41, Lake City, Iowa are the parents of a daughter, Mary Kathleen, born March 31.

Dr. and Mrs. V. R. Howie, '40, Manson, Iowa announced the birth of a son, Richard Dean, born March 22.

Summer, 1943
Dr. and Mrs. L. M. Forland, '41, have a baby daughter, Barbara Ann, born April 18.

Dr. and Mrs. C. E. Johnson, '41, Waseca, Minn. were the parents of a daughter during February, 1943.

Dr. R. H. Griffel, '33, Ackley, Iowa, and Mrs. Griffel are the parents of a son born April 21.

Army

Major Myron S. Arlein, '38, is now located at the Office of the Port Veterinarian, Boston Port of Embarkation, Boston, Mass.

Lt. Milton R. Flickinger, '43, is at the Quartermaster's Station, Kansas City, Mo.

Lt. Raymond Fistler, spring '43, has been assigned to the Q. M. Depot, Kansas City, Mo.

Capt. A. G. Karlson, '35, stationed at a medical hospital in North Africa has written the department. He is now doing research on dysentery and blood protozoa.

Lt. Frank Failing, '41, is now serving as an instructor in military sanitation at Camp Grant, Ill.

Lt. Richard Brager, '43, is located at Ft. Benjamin Harrison near Indianapolis, Ind.

The following lieutenants of the winter 1943 class reported earlier this year to Carlisle Barracks, Pa. and are now at these locations: Melvin W. Karber, Remount Depot, El Reno, Okla., Robert D. Loften, Ft. Bliss, Texas, James K. Hill, Ft. Riley, Texas, and Herbert L. Marsh, somewhere in the tropics.

Lt. R. N. Brenny, '37, has been reported as being at Camp Hale, Colo. for some time.

Dr. Vernon S. Peterson, '42, was recently commissioned as a lieutenant in the Veterinary Corps.

Capt. Warren E. Bowstead, '39, formerly of Lowden, Iowa is stationed on an island in the Pacific.

Lt. K. J. McKenzie, '39, is an army meat grader at the Wilson & Co. plant, Cedar Rapids, Iowa.

Text books and supplies for all courses at "Iowa State"—
Also Stationery and Novelties.

Summer, 1943
The mailing address of Major A. H. Seeley, '39, is Box 17, Randolph Field, Texas.

Lt. Willis B. McCannon, '38, is now located at the Medical Dept., Army Air Field, Lake Charles, La. His former address was 212 Walnut, Aurora, Ill.

Capt. D. L. Caswell, '37, is now the station veterinarian at George Field, Ill.

The address of Lt. Dale S. Adams, '39, is the Veterinary Corps, Fort Robinson, Nebr....

Lt. Clifford T. Orton, '42, 528th M. Rom. Tr., Camp Hale, Colo.

Capt. L. A. Moen, '38, Ft. Snelling, Minn.

Lt. John M. Dermody, '36, 4511 Williams, Omaha, Nebr.

Lt. James L. Welch, '41, 3955 So. Bryant, Ave., Minneapolis, Minn.

Hubert Lee Ruggles, Ex. '44, 72nd College Tng. Det., A.S.N., St. Cloud, Minn.

Lt. Rowland W. Rushmore, '39, 718 Whitman, St., Rockford, Ill.

Capt. Robert B. Sawyer, '42, Vet. Officer, Blackland Army Flying School, Waco, Tex.

Lt. Bertram V. Allen, '34, Station Vet., Buckley Field, Denver, Colo.

Lt. Joseph S. Quigley, '43, 4412 W. Lake Harriet Blvd., Minneapolis (10), Minn.

Lt. Dwight G. Bacon, Ex. '41, Cedar Falls, Iowa was killed in an airplane crash in California on June 22, 1943. He had been in practice with his father, Dr. L. F. Bacon before entering the army in January 1942.

Lt. J. W. Hylton, '43, after completing his training at Carlisle Barracks visited the clinic on Aug. 1, 1943. He was en route to his assignment in San Francisco.

Dr. Carl Everett Estes, '42, Westboro, Mo.

Dr. T. B. Ludgate, '43, took his pre-induction physical examination Aug. 2 and is now awaiting further orders.

Lts. C. J. Norden and D. L. Spaulding, '43, have recently been assigned to Ft. Benjamin Harrison near Indianapolis, Ind.

Dr. R. C. Wahl, '43, has been inducted into the army and is awaiting his commission at Camp Dodge, Iowa.

(Continued on page 50)
to the administrative duties, he had forms, applications, affidavits, and special cases of confused students who somehow just didn’t fit into any of the categories in which the official documents attempted to place them. With the completion of all the applications for commissions and the swearing in of all the students, it seemed that he could relax again to the full time job of being Dean of the Division, Director of Veterinary Research, and Head of Veterinary Hygiene Department.

So it was until February, 1943, when the news of the optional enlistment of veterinary students and subsequent call to active service dropped upon the division like a bombshell. Happy because it meant the solution to the financial troubles of his students, but swamped again with another deluge of papers to be passed out, he struggled through the work. There were forms to be signed and turned in, meetings with college officials and Seventh Service Command officials, attempts to make something of the vague plans that had been set up, and problems in regard to housing, feeding, and induction of students, and what seemed a thousand other things to be done.

Notice of Induction

At the end of the spring quarter, when all the students had gone to their homes or elsewhere for the short vacation, orders came for them to report to Camp Dodge on Sunday, June sixth, for induction into active service. Obviously, the men could not be reached, so he informed the Omaha office of the fact, whereupon the order was reissued for Tuesday of that week. When the boys came back in uniform to begin classes the job of fitting a civilian school to army routine was begun, with the headaches evolving such as only those who were concerned can appreciate.

Only when the system was operating smoothly and the major part of the changes were completed could he resign from his position. On June twenty-second, his retirement and the appointment of Dr. Bergman as the new dean were officially announced.

All those who have gone to school under Dean Murray are sorry to see him leave the deanship, but fully realize that he has well earned his rest from administration. One thing that stands above all else in his years as dean was his interest in the individual student, and his willingness to aid them as best he could in their difficulties, and to act as a steadying hand for the young men, all of whom he considered to be his personal responsibility. Particularly those of us who were here these last three years can realize all he has done to give us, as veterinary students, every advantage possible, and to clarify those parts of the national emergency program which directly applied to us. It was no small task for one man, already loaded with work, to guide several hundred impetuous young civilian students in time of war.

Dr. Orville R. Whitney, '16, 30 - 9th St. S. E., Huron, S. Dak.

Dr. F. E. Wilhite, '34, 275 N.E. 37th St., Miami, Fla.

Dr. Frank G. Miller, '08, 1220 25th St., Ogden, Utah.

Dr. E. W. Humphrey, '99, Box 482, Moorhead, Minn.

Dr. Peter W. Wassenaar, '30, Maurice, Iowa.

Dr. T. A. Dorsey, '43, P. O. Box 254, Auburn, Wash.

Dr. A. W. Bitting, '95, St. Elizabeth Hosp., Lafayette, Ind.

Dr. Leo M. Henry, '27, 3564 So. 26th St., Omaha, Nebr.

DEAN BERGMAN
(Continued from page 12)
and Phi Zeta. Biographical sketches appear in both “Who’s Who in America” and “American Men of Science.”

As a special contribution to the war effort, he is now serving as the veterinary representative on the Seventh Service Command Committee of the Procurement and Assignment Service for Physicians, Dentists and Veterinarians under the War Manpower Commission.

ABSTRACTS
(Continued from page 38)
ness and characteristic rarefying lesions in joint cartilages resulted from feeding a Vitamin A deficient diet. The authors recognized that the rations previously used might be deficient in some other known or unknown dietary essential. In the repeated experiment, the same vitamin A deficient diet was used on one group of two horses as was used in the previous experiment. The second group of two horses received the same diet, but in addition 5 cc. of high-potency shark liver oil twice a week.

Soon after the experiments started, the two horses not getting shark liver oil became night blind showing that they were vitamin A deficient. Blood tests throughout the experiment showed the steadily decreasing supply of vitamin A in the blood of this group. The amount of ascorbic acid in the blood of all four animals remained fairly constant throughout the experiment.

At various times during the experiment a lameness was noted in both groups which was not readily explained at the time. Joint lesions were not suspected until post mortem. The only microscopic finding of note in the post mortem examination of these horses was the joint lesions. These were present to an equal
