The Veterinary Alumni festivities for 1956 began at a luncheon in the Quadrangle. Nearly three hundred alumni, faculty members, and students were served by the student wives. Many old acquaintances were renewed around the dining tables in the court surrounded by the ivy covered walls. Fair skies and "shirt sleeve" weather provided an excellent opportunity for each to sit back and relax, among old friends and classmates. Following dinner many of the alumni adjourned to the football game where they were all seated together. A colorful pageantry at halftime was presented by the I.S.C. and Colorado bands.
Dr. and Mrs. J. A. Sloan, '49, Independence, Iowa, stop at the corsage counter as they enter the hallway of veterinary medicine.

Dr. and Mrs. J. M. Hollen, '52, Winterset, and Dr. Benbrook, Ames, are served from the hallways of veterinary medicine by student wives, members of the Jr. A.V.M.A. Auxiliary. Mrs. Bek, Classic, and Billiar are shown in the foreground serving ham.

Strolling through the archway of veterinary medicine, Dr. and Mrs. Mintow, '52, San Jose, Ill., enter the sunny courtyard and walk to the luncheon tables where old friendships will be renewed with the faculty, classmates, and old acquaintances. The Veterinary Homecoming Luncheon Committee was ably directed by Russel VanMarel.
We Salute

Dr. Wayne H. Riser

During the opening session of the American Veterinary Association convention in San Antonio, Texas, October 15th of this year, the first AVMA Research Council Award for research by a practitioner was presented. As recipient of this award and in recognition of his outstanding professional contributions and leadership in the field of small animal medicine, we wish to honor Dr. Wayne H. Riser, Skokie, Illinois.

A native of Earlham, Iowa, Dr. Riser received his degree in veterinary medicine from Iowa State College in 1932. After serving as general practitioner at Glenwood, Iowa, he entered small animal practice in Des Moines, Iowa, in 1947. Here he established the Riser Small Ani-
mal Clinic and earned his Master of Science degree in Veterinary Pathology at Iowa State College in 1945. His thesis was on diagnosis of panleucopenia in the cat. Never confined in his professional services, Dr. Riser was Veterinary Consultant for the Standard Chemical Company of Des Moines and during his last year there he assisted in the Clinical Pathology Department of the Iowa Methodist Hospital. He became Secretary-Treasurer of the Midwest Animal Hospital Association in 1940, a position held until 1949. In 1944 he was elected Vice-President of the American Animal Hospital Association, an organization that has done a great deal toward raising the caliber of professional service in small animal practice. Before leaving Iowa he also held the office of Vice-President in the Iowa Veterinary Medical Association.

Dr. Riser joined the editorial staff of the North American Veterinarian in 1946. During his years with the NAV he was engaged in research work and contributed numerous publications on diseases of small animals. He was equally active in presenting papers before veterinary groups. He was appointed Chairman of the Committee on Research, American Animal Hospital Association in 1946. He still serves as Executive Secretary of the American Animal Hospital Association, an office to which he was first elected in 1948.

Re-entering small animal practice in 1949, Dr. Riser built the Riser Animal Hospital, Skokie, Illinois, where he is located at the present time. Still instrumental to the profession outside of his practice, he was elected President of the Midwest Small Animal Association in 1950 and appointed Small Animals Editor of the Journal of the American Veterinary Medical Association in 1954.

Some may consider it an injustice to recognize Dr. Riser solely for his contributions to small animal medicine. In 1950 he was appointed Lecturer in the Department of Pathology, Northwestern University. He was President of the American College of Veterinary Pathologists, 1955-56. Recognition outside of the profession includes his listing in the Who's Who in Midwest America, 1954, and in the American Men of Science II Biological Section, 1956. Dr. Riser holds current membership in the following professional societies: The American Veterinary Medical Association, American Animal Hospital Association, Illinois State Veterinary Medical Association, Iowa State Veterinary Medical Association, Midwest Small Animal Association, Phi Zeta, American College of Veterinary Pathologists, American Association for the Advancement of Science, Rotary Club, Research Workers in Animal Diseases in North America, New York Academy of Science.

ISC VETERINARIAN TO FEATURE ALUMNI

Last spring the alumni news section of the Iowa State College Veterinarian featured for the first time an individual alumnus, Dr. A. L. Nelson of Jewell, Iowa. Dr. Nelson was recognized for his fine work in general practice and his recent installation as president of the Iowa Veterinary Medical Association. In this issue we are honoring Dr. Wayne H. Riser, Skokie, Illinois, for his outstanding work in small animal medicine.

A past policy of this section has been to feature a number of classes in each issue. A mimeographed form sent to the doctor's wife informed us of his present activities and type of professional work. Thus the alumnus was provided with current information on his closest associates while in school, his classmates and those graduating the preceding and following years. With coverage of the classes about complete the staff of the ISC Veterinarian decided that a policy of featuring individuals from the various classes would be a worthy replacement.

Our principal reason for selecting an individual will be to give recognition for outstanding contributions or service to his respective area of veterinary medicine. This will be accomplished by exploring the various classes and giving attention to the different phases of professional service. Approaching it in this manner we
will also accomplish a secondary purpose of acknowledging the many branches of the veterinary profession that serve the livestock industry, the pet owner and public health.

With the winter issue, 1957, the alumni news section will establish a permanent policy of featuring three alumni from as many classes and areas of professional service. The success of our efforts will depend largely upon your co-operation and we hope a close-working relationship will be forthcoming.

DR. BUTTERWORTH’S GIFT

Wednesday evening, November 7, at the monthly meeting of the Iowa State Student Chapter of the American Veterinary Medical Association in Great Hall, Memorial Union, Dr. James A. Butterworth presented a one thousand dollar contribution to President Hilton to be placed in the Clarence Hartley Covault Distinguished Professorship Fund of the Alumni Achievement Fund. Dr. Butterworth, a graduate of Iowa State College in 1937 and now owner and operator of the Butterworth Animal Hospital in Highland Park, Illinois, contributed to this fund to show his appreciation for the outstanding education he received at this institution.

The guest speaker of the evening was Dr. J. H. Krichel of Keokuk who gave an interesting and informative talk on the topic, Small Animal Practice. Following the guest speaker, the business meeting was held.

DR. HOLM DEAN—OKLAHOMA

Dr. Glenn C. Holm, '36, recently assumed the position of Dean of the School of Veterinary Medicine, Oklahoma A & M College, Stillwater. He filled the vacancy left by the death of Dean Harry W. Orr, '17. Prior to his appointment he was Dean of the School of Agriculture, North Dakota Agricultural College, and Director of the Agricultural Experiment Station.

Dr. Holm received his B.S. at the University of Idaho in 1932, and a M.S. in 1933. While teaching bacteriology and milk hygiene at Iowa State College he was earning his veterinary degree. He returned to the University of Idaho after two years of practice and in 1947 became Associate Director of the Idaho Agricultural Experiment Station.

In 1947 Dr. Holm joined the staff at North Dakota and in 1953 was appointed Dean and Director of the Experiment Station.

Though serving as an administrator in agricultural department Dr. Holm has been closely associated with veterinary medicine. In addition to developing the departments of veterinary science under his jurisdiction, he served as chairman of the Division of Veterinary Medicine of the Land Grant College Association and for three years has been its administrative advisor for all regional animal disease research in the North Central Region.

DR. OLSON JOINS WISCONSIN

Dr. Carl Olson, Jr., '31, recently accepted an appointment as Professor in the Department of Veterinary Science, University of Wisconsin, Madison. He held the position of Chairman of the Department of Animal Pathology and Hygiene at the University of Nebraska at the time of his appointment.

After receiving his D.V.M. at Iowa State College, Dr. Olson did graduate work in pathology at the University of Minnesota, Mayo Foundation, where he
received his M.S. in 1934 and his Ph.D. in 1935. He was a Fellow in Comparative Pathology, Mayo Foundation, from 1931–35. Continuing in the field of veterinary research he held positions as Assistant Professor of Research at Cornell University, 1935–37; and Research Professor of Veterinary Science, University of Massachusetts, from 1937 to 1942. Following wartime service as a laboratory officer in the Veterinary Corp, U. S. Army, he accepted the position at Nebraska in 1945.

ANNUAL ALUMNI MEETING

Secretary-Treasurer, H. D. Bergman '10, has requested announcement be made that the annual meeting of the Iowa State College Veterinary Medical Alumni Association will be held at 8 o'clock on the evening of Thursday, January 22, at the Hotel Fort Des Moines during the convention of the Iowa Veterinary Medical Association, January 22–24, 1957. The Executive Committee will have a report at that time pertaining to further expansion of the activities of the Association warranted by its satisfactory financial position.

GENERAL NEWS

Dr. Bernard J. Lattimer, '12, Springfield, Minn., died June 21, 1956, at age 71. Dr. Lattimer was an avid worker in civic activities and was also active in politics. He retired from practice two years ago, but served as poultry inspector for the ARS, U.S.D.A., until November, 1955, and continued his interest in his community activities until his death.

Dr. Mack Scott, '43, became President of the California State Veterinary Medical Association. Dr. Scott took office June 20, 1956, at the annual meeting at the Starter Hotel in Los Angeles.

Dr. Quentin F. MacDonald, '49, has been appointed a Staff Veterinarian in the Veterinary Medicine Department of Schering Corporation, Bloomfield, New Jersey, according to an announcement by Mr. Robert Waterman, vice president of the company.

CLASS OF 1918

Dr. Earl R. Truax has been located in Sac City Iowa since his graduation. He is engaged in general practice. He has served as President of the Iowa State Vet. Med. Ass'n. and President of the Interstate Vet. Med. Ass'n. Dr. Truax has two sons.

Col. O. H. Dixon retired in 1951 after 34 years service with the Army. At the present he is in Jacksonville, Fla., where he works for the Florida Livestock Board doing Public Health work. While in the Army he was awarded the Bronze Star for service in Japan. Col. Dixon has two daughters.

Dr. H. J. McMillan is now retired from general practice and is living in Okoboji, Iowa. Since graduating, he was located in Belle Plain from 1915–1917, the Army from 1917–1919, and Estherville, Iowa from 1919–1951. He is now the milk inspector in Estherville. Dr. McMillan has two children.

Dr. John M. Lloyd is now located in Washington, Iowa where he is a practicing M.D. He practiced veterinary medicine in Williamsburg, Iowa from 1915–1921. He graduated from the College of Medicine at the University of Iowa in 1926. He has been practicing in Washington since 1928. Dr. Lloyd has two sons.
Dr. C. M. Collins is engaged in small animal practice in Des Moines, Iowa. After graduation, he worked in Fremont until 1932, and in Ottumwa from 1932 until 1946. He has been in Des Moines since 1947. He has three children.

Dr. R. C. Bailey of Atlantic, Iowa, is conducting a mixed practice. Dr. Kunkel joined Dr. Bailey in a partnership in 1956 when Dr. Bailey’s son James accepted a position on the faculty of the Division of Veterinary Medicine at ISC. Dr. Bailey is active in the American Legion, Lions Club, and church. He is planning a small animal and veterinary clinic. Dr. Bailey has two sons; James, 33; and Robert, 26.

Dr. A. J. Steiner resides on Russell Cave Pike in Lexington, Kentucky. He has had a small animal hospital for 32 years, for many years one of the few in his locality. Dr. Steiner has been past president and secretary-treasurer of the state association. Dr. Steiner has two sons, James Wesley and Conrad Stratner.

Dr. O. W. Schultz has a large animal practice in Latimer where he has been since 1918. He has three children: Donald, 29, resident physician at Whitney Clinic, New York City; Daryl, 24, is a senior at Iowa University; Roger, who is a junior at Iowa State College.

Dr. John Charles Dawson has been a federal inspector with the U.S.B.A.I. ever since 1936 when he stopped practicing in Vail, Iowa. Dr. Dawson has been class agent for the Alumni Achievement Fund for several years. Dr. Dawson married Helen Schuster ’19 and they have three children: John ’48, Mary ’50, Paul ’53.

I.V.M.A. MEETING

JANUARY 22

Issue 1, 1957

CLASS OF 1927

Dr. Merle C. Hawn of 1407 13 St. N., Fargo, North Dakota, is conducting a large and small animal practice and the municipal meat inspection service. Dr. Hawn entered graduate school at the University of Wisconsin and the University of Minnesota after graduating from ISC. He is the past president and secretary of the North Dakota Veterinary Medical Association and present Secretary-Treasurer of the North Dakota Veterinary Medical Examining Board. Dr. Hawn is a member of the Lake Region Veterinary Medical Association, North Dakota Veterinary Medical Association, Greater North Dakota Association, and the American Veterinary Medical Association. Dr. Hawn has two children: Bernard H., 22; and Elizabeth L., 19.

Dr. C. D. Lee is an extension veterinarian for Iowa State College in the field of poultry diseases. Dr. Lee was on the staff of the college from 1927 to 1946 in the clinic, Department of Pathology, Diagnostic Laboratory and Veterinary Medical Research Institute. He has been very prominent in civic and veterinary activities. He has served as a Commander of the American Legion, Ames Post, and as president of the State Veterinary Association. Dr. Lee has three children: William, 23; Ann, 21; Peggy, 15.

Dr. Clarence E. Swink is a circuit supervisor in the poultry inspection division of the United States Department of Agriculture in Collingswood, N. J. He had a general practice in Dunnell, Minnesota, where he also served as mayor. Dr. Swink has three children, all girls, Lois, Patricia, and Mary.

Dr. Leo M. Henry has been with the federal government since graduation. He has been with the Animal Disease Eradication Branch, Agricultural Research
Service and the Department of Agriculture. He is living in Kansas City and is a member of the Association of Federal Veterinarians, state association and U. S. Livestock Sanitary Association. Dr. Henry has three children.

Dr. Charles C. Lawrence lives in Clear Lake, Iowa and he is the District State Veterinarian.

Dr. Glade has a private practice in Kasson, Minn. He has a hospital with a small animal surgery unit and nursing kennels. Dr. Glade has been active in civic activities in Kasson and active in the state veterinary association. Dr. Glade has two children, Elizabeth and Russell.

Dr. Roscoe H. Ralph of 408 E. Mulberry, Watseka, Illinois, is the Iroquis County Veterinarian testing for T.B. and supervising the brucellosis program in the county. Dr. Ralph has seven children: Wendal, 29; Reta, 28; Howard, 27; Georgine, 25; Ray, 23; Marion, 21; and Sharon, 15.

Dr. Harold J. Classick Sr. of Belmond, Iowa, is in general practice. Dr. R. E. Misner, '50, entered in partnership with Dr. Classick in 1950 and they are now moving into a new office building and clinic. Dr. Classick is a member of the local school board, County School Board, and member and Mayor Protem City Council. He has three children: Harold J. Jr., 34; Carolyn Jean, 20; and Leslie G., 28, a junior in the Division of Veterinary Medicine at ISC.

CLASS OF 1936

Dr. Don K. Theophilus of 1220 Prospect, Norfolk, Nebraska, is conducting a small and large animal practice. Dr. Theophilus is a member of the Chamber of Commerce and the American Legion Club. He has two children: David, 15; and Don L., 13.

Dr. Glenn C. Holm has recently been named as the Dean of the Veterinary School of Oklahoma A. & M. College in Stillwater. Before accepting this position Dr. Holm was in general practice for two years in Rexburg, Idaho. Dr. Holm then went to the University of Idaho as a professor in the School of Veterinary Science. In 1949 Dr. Holm transferred to North Dakota Agriculture College where he became Dean of the Agriculture School and Director of the Experiment Station. Dr. Holm has been Dean at Oklahoma since 1956.

Dr. Armand A. Ledner has a general practice in Sandwich, Ill., which is evenly divided between large and small animals. He has served as president of the Rotary Club and as president of the local school board. He is also active in the Illinois Veterinary Medical Associations. Dr. Ledner has three children: Sandra Wilson, 19; Diane, 17; Judy, 13.

Dr. R. L. Alkire has the position of veterinarian in Charge of the Agricultural Research Service for the State of Connecticut. He lives in West Hartford with his wife, Mary, and their daughter, Nora, 5 years. Dr. Alkire is a member of the Connecticut Veterinary Association, the New England Association, and a very active member in the Presbyterian Church.

Dr. William T. Dunn makes his home in Greenville, South Carolina, where he has lived since 1941. Dr. Dunn is a general practitioner with a hospital equipped for both small and large animals. He was president of the state veterinary association in 1944. The Dunn family consists of Will Jr., 15; Lucia, 12.

Dr. T. H. Frazer has been practicing in Iowa City since 1949. He had previously been in Mt. Pleasant and Des Moines. Dr. Frazer is the A.D.E. Veterinarian for U.S.D.A. Dr. Frazer has three children: Rex, 25; Roy, 23; Ray, 22.
Dr. Albert C. Emminger of 329 Las Palmas Ave., Modesto, California, is employed by the California Department of Agriculture as Assistant Supervisor of Disease Control. Dr. Emminger took graduate work at the University of California, and at Berkeley. He was in the Veterinary Corps from 1942 to 1945. Dr. Emminger has two children: Janet Louise, 15; and James Albert, 6.

Dr. Norman M. Twisselman, a resident of Bakersfield, Calif., presently operates a farm devoted to dairy business. Dr. Twisselman has been employed by the Kern County Health Department and United States Army. Dr. Twisselman has five children: Fred, 17; Adele, 15; Kenneth, 14; Evelyn, 12; Kathleen, 9.

Lt. Col. Roy A. Ressegue of San Francisco, California, has been in the Veterinary Corps, U.S. Army, since 1941. Dr. Ressegue has a daughter, Arloe A., 19.

Dr. Martin G. Schmidt makes his home in Falmouth, Ky., where he has been since 1939. Dr. Schmidt's practice consists mainly of large animals. He has now branched into politics and he is at present the mayor of Falmouth. Dr. Schmidt's family consists of Mary Ann, 6; Jane, 4; John, 2.

Dr. John W. Dermody lives and practices in Breda, Iowa, where he has been a general practitioner since 1948. He practiced in Gravity from 1936 to 1937 and Carroll from 1946 to 1948. In between that time, Dr. Dumody served 5 years in the Veterinary Corps. Dr. Dumody has two children: John, 13; Edward, 12.

Dr. Clyde Frank Cairy of 3917 Gainsborough Dr., East Lansing, Michigan, is at the present time teaching veterinary physiology and pharmacology at Michigan State College. Dr. Cairy is the past president of the American Society of the Veterinary Physiologists and Pharma-
cologists, and is Resident Secretary of the A. V. M. A. He has two children: Jack Richard, 12; and Jane Ann, 9.

Dr. Howard Elbert McCutchan of 801 Madison St. Emmetsburg, Iowa, is conducting a large animal practice. Dr. McCutchan is a member of the A.V.M.A. and the I.V.M.A. He is a member of the Masonic Lodge, and past president of the Rotary Club. Dr. McCutchan has two children: Howard Henry 9; and Mary Ellen, 8.

CLASS OF 1945

Dr. John V. Wand of 106 Lincoln Place, Jefferson, Iowa, is conducting a general practice. Dr. Wand is a member of the Jaycees, Chamber of Commerce, and the Knights of Columbus. He has three children: Kevin, 5; Jeffrey, 2; and Julie, 1.

Dr. A. O. H. Setzepfandt of Bird Island, Minnesota, is conducting a general practice out of a combined office and residence which was built six years ago. Dr. Setzepfandt has been mayor for the last four years. He has four children: Bud, 9; Paul Wilson, 8; Sue Ann, 4; and Scott Alan, 2.

Dr. Harold E. Bain of Cameron, Missouri, is conducting a general practice. Dr. Bain served in the Veterinary Corps, U.S. Army, and was stationed in the Philippines. He is a member of the Masonic Lodge. Dr. Bain has three children: Nancy, 8; Sharon, 6; and Barbara, 5.

Dr. E. P. Alexander of 102 W. 4th St., Villisca, Iowa, is conducting a general practice. Dr. Alexander is a member of the Chamber of Commerce and an officer in the church. He has three children: Becky Rae, 8; Gwen Leigh, 6; and Gregory Knox, 2.

Dr. Christian John Peetz of 50 Lakeside, Corte Madera, California, is operating the Madera Pet Hospital. Dr. V. C. Paulson, ’45, is in partnership with Dr. Peetz. Dr. Peetz has two sons: Christian John Jr., and Ronald Eugene.

Dr. Durward P. Marek of 602 S. 2nd St., Maquoketa, Iowa, is conducting a general practice. Dr. Marek has three children: Joella Marie, 7; Durward Paul, 4; Michelle Maria, 1.

Dr. Leland Earl Bartelt of 2513 Hernandez Rd., Sacramento, Cal., is Chief, Bureau of Poultry Inspection, State Department of Agriculture. Previous to his appointment Dr. Bartelt served as a meat inspector for the State Dept. of Agriculture from 1945 to 1948 at which time he accepted the position of assistant pathologist at the Petaluma Laboratory. He became pathologist in charge of the Petaluma Laboratory in 1955. Dr. Bartelt has three children: Marilyn, 9; Steven, 7; Janet Lee, 2.

Captain Charles A. Baird of 828 Bank St., Webster City, Iowa, is presently engaged in the Veterinary Food Inspection Service, U. S. Army enroute to Sendai, Japan. Dr. Baird has practiced at Brice-lyn, Minn., and Woodstock, Iowa, before entering the army in 1952 where he was stationed at Omaha, Neb., and at Austin, Minn. Captain Baird attended the Atomic School in Oak Ridge, Tennessee, in September ’56 to study the effects of atomic radiation on animals. Captain Baird has four children: William Allen, 8; Beth, 7; Charles A. Jr., 6; Althea, 4.

Dr. Donald V. Benson of 405 N. Linn, Fayette, Missouri, is presently engaged in general practice. Dr. Benson came to Fayette after serving five years on the staff of the University of Missouri and Oklahoma A&M. He is active in the Rotary Club. Dr. Benson has three children: Sonna Sue, 12; Elaine, 19; Cathy, 5.

Iowa State College Veterinarian
Therefore BETTER for
ACTIVE Immunity Against Erysipelas

Lysed—therefore releases its antigens
speedily and readily, instead of locking
them up in the unruptured cells, as do most
erysipelas bacterins.

Avoids the need to use live culture, hence can not
infect premises.

Uses a 2 cc. dose instead of the 5 cc's required
by other bacterins.

Produces full immunity within two weeks.

This full immunity persists for at least eight months,
possibly longer.

Immunizing capacity not affected by simultaneous use of
anti-swine-erysipelas serum, if indicated for immediate protection.

20 cc. vial (10 doses) code: Baryp
100 cc. vial (50 doses) code: Balum

DEATHS

Dr. George A. Blohm, '24, died May 12, 1956. Before retiring in 1947, he was employed by the Sioux Falls Serum Company and operated a small animal hospital in Des Moines.

Dr. Vincent G. Bromwell, '18, Center Point, Iowa died July 15, 1956, at age 60. He served in the Army Veterinary Corps in World War I, and on the school board and the town council of Center Point.

Dr. Charles R. Donham, '21, died April 24, 1956. Dr. Donham practiced in Iowa for a year before going to Oregon State College, where he engaged in teaching and post-graduate work. He received his master's degree in 1928 and, the following year, he went to the University of Minnesota as Assistant Professor of Veterinary Medicine. In 1935, he was appointed to the faculty of the College of Veterinary Medicine at Ohio State University. In 1940, he became head of the Veterinary Science Department of Purdue University and remained in that capacity until his voluntary retirement in 1950. For about a year he served as editor ad interim of the Journal of the A.V.M.A

Dr. Lynn C. Bowling, '20, Los Angeles, Cal. died on February 26, 1956. Dr. Bowling had been in the Agricultural Research Service, U.S. Department of Agriculture.

Dr. Gerald W. Cady, '21, Mason City, Iowa, died April 11, 1956, at the age of 58. Dr. Cady practiced for a year at Clear Lake before going to Mason City where he practiced 34 years.

Dr. John H. McGilvray, '42, of Denver, Colo., died June 30, 1956. Dr. McGilvray was a major in the Veterinary Corps, U. S. Army.

Dr. Donald A. Eastman, '22, died after a brief illness on April 3, 1956. After receiving his D.V.M., Dr. Eastman entered small animal practice in Cedar Rapids, Iowa. He took an active part in association work and in the organization of the American Animal Hospital Association, serving that group as president (1940-41) and as secretary (1935-40). In 1940 he established a clinic and hospital in Miami, Florida. Surviving are his wife, Karin, a son, of Mobile, Alabama, and a stepson, John Gosby, who is enrolled at Michigan State University as a pre-veterinary student.
