2006 Winter Crop Schools

Abstract

The 2006 Winter Crop Schools offer agribusiness professionals and producers in-depth training on a variety of topics. By focusing on a specific management topic, students have more time to fully understand the material presented. Class sizes are limited to allow more student-instructor interaction. Each course is also an excellent opportunity to receive Certified Crop Adviser credits. Credit amounts and categories are listed below for each class.

Commercial pesticide applicator training

by Jim Fawcett, Iowa State University Extension

All commercial pesticide applicators must take exams in order to become certified initially, and some choose to become recertified by exam rather than by attending continuing instructional courses. With the arrival of Asian soybean rust in this country, many commercial applicators are considering adding agricultural diseases (category 1C) to their certification so that they can apply fungicides.

Two training sessions to help prepare individuals for the commercial pesticide applicator examinations will be offered in eastern Iowa. One session is in Marion on Monday, February 20, in the Linn County Extension Office at 3279 7th Avenue. A second session will be offered in Bettendorf on Monday, March 6, in the Scott County Extension Office, 875 Tanglefoot Lane. Training will begin at 9:00 a.m. at both locations.

Training sessions will cover the *Iowa Core Manual* and categories 1A (Agricultural Weed Management); 1B (Agricultural Insect Control); 1C (Agricultural Crop Disease Management); 3O, T, and G (Ornamental, Turf, and Greenhouse Pest Management); 4 (Seed Treatment); and 6 (Right-of-Way). Training on the *Iowa Core Manual* will be from 9:00 to 10:30 a.m. Training on the other categories will begin at approximately 10:30 a.m. and conclude in early afternoon.

There is a \$20 fee per person at each training session. These training sessions do **not** qualify as continuing instructional courses. For more information, please contact Jim Fawcett at (319) 337-2145 or Virgil Schmitt at (563) 263-5701.

Jim Fawcett is an extension field crop specialist in southeast Iowa.

Integrated Crop Management is published by Iowa State University Extension, with funding support from the Integrated Pest Management program. Subscriptions are available for \$45 a year from the Extension Distribution Office at ISU. To subscribe or change the address of a current subscription, write to 119 Printing and Publications Building, Iowa State University, Ames, Iowa 50011 or call 515-294-5247. Please indicate that you are inquiring about *Integrated Crop Management*. Marlin E. Rice, Department of Entomology, is executive editor of *ICM Newsletter*; Keven Arrowsmith, Continuing Education and Communication Services, is managing editor; and Donna Halloum, Instructional Technology Center, Iowa State University, is production designer.

... and justice for all
