NEW YORK, N.Y. — Dr. Henry H. Dukes, professor of physiology at Iowa State University College of Veterinary Medicine, Ames, Iowa, was named the
winner of the XII International Veterinary Congress Prize.

The prize, a certificate and cash gift, has been presented annually since 1937 to a veterinarian whose contributions to the advancement of veterinary science have been international in scope.

Dr. Dukes received his award during the plenary session of the AVMA's 100th annual convention held at the Americana Hotel in New York, N.Y.

A native of St. George, South Carolina, Dr. Dukes was born Sept. 9, 1895. He received a B.S. degree from Clemson University in 1915, and his D.V.M. degree from Iowa State University in 1918. He also holds an M.S. degree from Iowa State.

Before coming to Iowa State, Dr. Dukes was professor and head of the Department of Physiology at Cornell University from 1932-1960. In 1953, he gave demonstration lectures at colleges of veterinary medicine, medical colleges and agricultural colleges in Brazil. He also lectured at the University of San Marcos Veterinary School in Lima, Peru.

During a teaching career spanning almost a half-century, Dr. Dukes has trained many students who have gone on to teach physiology in veterinary schools in the United States and many other countries.

He has written a text book entitled, *The Physiology of Domestic Animals*, which has contributed significantly to the training of many veterinarians and animal husbandry graduates in the United States and throughout the world. The book has been translated into Yugoslavian and is currently being translated into Spanish.

Dr. Dukes was secretary of the AVMA Research Council from 1941-1947, and associate editor of *The Cornell Veterinarian* from 1937-1947.

He is a member of the American Physiological Society, the New York Academy of Sciences, and the American Association of University Professors.

Dr. Clifford L. Nelson, Jewell, Iowa, won the 1963 AVMA Practitioner Research Award.

Dr. Nelson received the plaque—given annually to a veterinarian who has carried out the major portion of an important phase of a research problem while engaged in private practice—at the plenary session of the AVMA's 100th annual convention held at the Americana Hotel in New York, N.Y.

The award was inaugurated in 1956 at the suggestion of the AVMA Council on Research to encourage research among practitioners.

Dr. Nelson, in addition to conducting a large poultry practice in Jewell, has developed a diagnostic laboratory in which he has clinically identified many of the major diseases affecting turkeys.

Veterinarians from throughout the United States annually visit Dr. Nelson's laboratory to obtain ideas for developing applications.
similar diagnostic facilities for use in their own practice.

Dr. Nelson is one of the few practitioners in the U.S. to receive nationwide acclaim from the poultry industry.

He received his D.V.M. degree from Iowa State University in 1939, and has been in private practice in Jewell ever since.

Dr. Nelson is past president of the Iowa Veterinary Medical Association. He is secretary of the Council on Veterinary Service of the American Veterinary Medical Association.

He is a member of the AVMA, the Iowa VMA, and the American Association of Avian Pathologists.

Dr. Nelson
Appointed Dean
At Georgia

Dr. Fred C. Davison, assistant director of the American Veterinary Medical Association’s Department of Scientific Activities, has been named Dean of the School of Veterinary Medicine at the University of Georgia, Athens, Ga.

Dr. Davison’s appointment becomes effective July 1, 1964. He succeeds Dr. T. J. Jones who is resigning to devote full time to teaching and research.

Dr. Davison, a native of Atlanta, Ga., received his D.V.M. degree from the University of Georgia in 1952 and his Ph. D. degree from Iowa State University in 1963.

In 1958, he joined the Department of Veterinary Physiology and Pharmacology at Iowa State as research associate. Two years later, he was appointed assistant professor of the departmental teaching staff and an associate of the Institute for Atomic Research.

While at ISU, Dr. Davison served as project leader of the U.S. Atomic Energy Commission’s Project 8 (Comparative Toxicity of the Stable Rare Earth Compounds). He was president of the midwest branch of the Animal Care Panel and a member of the university faculty council.
