Abstract

of white crosses, green fields
of grass
and lemmings

so many heroes of this new
and cubic niceness buried,
their marking stones are microdots
from a thousand feet, or a thousand miles
depending on where you stand to look,

(and, of course,
on the quality of Alice’s Mushroom)

so many heroes of this new
and multi-colored doorway
rode on powdered sugar paper horses
sweet as silk
that threw them one by one
the children, falling, die

(altered, of course,
by the rate at which you’re moving)

Rest in Peace, brother Jaime
the ship you helped launch was beautiful
it rests, now, at a hundred fathoms
wreathed in green and depth
the people will remember only that.
