## 2003 Manure Field Days, Demonstrations, and Workshops

### **Abstract**

Manure management field days, demonstrations, and workshops provide many opportunities for producers, service providers, and agency staff to learn more about manure handling and storage, land application, equipment calibration, manure for crop production, potential impacts on water quality, residue management, and cost-share opportunities for nutrient management. If you have questions, please contact the person at the number listed in the table.
