1988 Norden Distinguished Teacher

Each year, Norden Laboratories presents an award to a faculty member for outstanding teaching in Veterinary Medicine. The recipient is chosen by students and fellow faculty members in recognition of his or her abilities. The 1988 Norden Distinguished Teacher Award was presented to Dr. Joseph S. Haynes at the annual awards ceremony in April.

Dr. Haynes did his undergraduate studies at Southwest Missouri State and received his DVM from the University of Missouri in 1979. He

entered into a mixed practice in his home town of Clinton, Missouri for a year and a half before returning to graduate school at the University of Minnesota where he earned his Ph.D. in Veterinary Pathology in 1986. He joined the faculty of the Iowa State University Department of Veterinary Pathology in the fall of 1986.

Dr. Haynes is a Diplomate of the American College of Veterinary Pathologists. His research interests include growth plate abnormalities of turkeys and enteric viral diseases of turkey poults.
