Editor’s Note

Since 1934, Sketch has served as an outlet for creative individuals, both writers and artists at Iowa State University, allowing their work to be shared with the rest of the student body, as well as the Ames community.

It takes a great deal of courage for students to put their work out into the world, to have it critiqued outside of the classroom, and have it shared with others to whom they have no connection. The students whose work is published in this volume have taken a risk and, subsequently, their hard work has paid off. They are following in the footsteps of many Iowa State students before them by giving their work so willingly to those around them, to help others be inspired, as well as entertained.

I hope all these writers and artists have the chance to continue sharing their talents with those around them; to them, I give a great deal of thanks. To all our readers, I invite you to share in this compilation of talent and thank you for your readership.

Enjoy.
